

Cruel Heart Lover Novel

Chapter 661

"This... why is Mrs. Lu here?" The old minister and the captain all looked shocked when they saw the woman who appeared here.

Daniel didn't say much, he took off his coat and wrapped the girl in it, then carefully picked her up by the waist.

How can the old minister not understand at this moment!

Daniel didn't fully trust them at all. He had already planned a countermeasure and diverted his attention from the front.

Naka's old face was a little uncomfortable. In the final analysis, he did it really unreasonably.

I wanted to play with my mind, but in the end, I could see clearly from the beginning to the end.

So, he hurried forward and tried to make amends, "Mr. Lu, please go this way, Mrs. Lu's current condition may need immediate treatment, we have prepared the best medical team! The hospital is noisy, you can take Mrs. Go directly to the old man's mansion to recuperate!"

What Daniel wanted to do most at the moment was to take Selena back to the country, but he glanced at the shocking gunshot wound on Selena's leg, and there might be many other wounds that he didn't know about.

Her current condition is indeed not suitable for long-distance fatigue, but requires immediate medical attention.

In the end, Daniel chose to stay for now, "Thank you."

It can be regarded as selling the old minister's face.

Hearing this, the old minister finally calmed down a little from his tense nerves, and hurriedly called the medical team over.

The medical team followed the team early in the morning, so they came very quickly. Immediately, someone rushed over with a stretcher, and a group of well-trained medical staff was beside them.

"Mr. Lu, please carefully put your wife on the stretcher and lie flat."

Daniel nodded slightly, and gently put Selena on it.

However, as soon as he put the person down, the girl who had been sleeping peacefully woke up suddenly, and subconsciously hugged Daniel's neck tightly, frowning tightly, showing an expression of incomparable pain, "No...don't..."

The girl's voice was almost hoarse because she hadn't drank water for a long time, and her voice was as low as a kitten's, which sounded so pitiful.

Daniel's heart softened so much that he immediately picked up the girl again and patted her lightly, "Don't be afraid, I'm here."

"Cough cough cough cough..." Karl's eyes widened in astonishment

It was the first time he had seen such a weak little white flower junior sister, and such a gentle Daniel!

It was a shock like hell!

"Mr. Lu, you and Madam have such a good relationship! Then Mr. Lu...you can just hug her first, and don't drag Madam's wound." The medical staff on the side said with a smile.

"Yes." Daniel didn't intend to let it go. Where is willing to.

Karl suddenly remembered what was going on, and hurriedly interjected, "Boss, you promised to give me what I wanted in three days. You haven't forgotten, have you?"

Daniel didn't take his eyes off the girl for a second, "Yes."

"Then I'll retire when I'm done!" Karl said goodbye.

"Is there any water?" Daniel asked the doctor.

Karl who was ignored: "..."

never mind! He should hurry up and get out of the way!

Boss only has junior sister in his eyes now, and everyone else is almost invisible to him.

Hey hey... I didn't expect it... I didn't expect it... Is it destined? After going around in a big circle, the little junior sister actually became his boss wife!

Awesome, my little junior sister!

Chapter 662

The old minister's mansion.

Daniel sat on the side of the bed and held Selena's hand. A group of doctors were busy drawing blood through a tube on Selena's body and giving her a

full body check, in case she had other injuries or had been injected with some kind of medicine.

Daniel's brows were furrowed all the time, and his nerves never relaxed for a moment.

"Mr. Lu, please wait a moment. The test results will not come out within two hours at the earliest."

"She had a bad fever."

"Because the wound is infected, this is a normal phenomenon. Fortunately, Mrs. Lu has done some treatment herself, otherwise if the bullet remains in the body for too long, this leg may not be able to survive."

At this moment, Daniel's face was gloomy.

The treasure he put in the palm of his hand and guarded carefully, but only came out for a trip, and it became like this in just one day, how could he not feel distressed!

Two hours later, the test results finally came out.

"Mr. Lu, the results are out. Mrs. Lu's body is normal. Except for the gunshot wound on her leg, there is no other problem."

Hearing the result, not only Daniel, but also the old minister at the side finally breathed a sigh of relief. He immediately told everyone to take care of them and arranged the best room for them.

Because he thought Daniel and Selena were husband and wife, he naturally arranged a room.

...

Selena's vitality was seriously injured this time, and she didn't wake up after sleeping all day and all night, but fortunately, the fever has subsided.

In order to please Daniel, the old minister specially arranged a dinner in the front hall, and invited many senior officials and business tycoons from his country.

During the dinner, there were compliments and concerns for Daniel.

"Fortunately, Mrs. Lu is fine this time, otherwise we would really be to blame!"

"Yes, yes! Mrs. Lu is an auspicious person, and she has her own destiny!"

...

Daniel never explained that Selena was his wife.

In this matter, there is still a big difference between a wife and a lover. It is obviously too unreasonable for a random woman to send out military forces from Country X. That's why he directly said that Selena was his wife.

It is also impossible for these people to really check whether he is married or not.

Although Daniel was already familiar with these scenes, but at the moment it was obviously not distracting.

The heart is on the person who has not yet woken up.

I don't know if she will be scared when she wakes up and finds herself in a strange place, or if she suddenly feels uncomfortable...

While the dinner table was still having fun, Daniel tilted his head with one hand, and held a wine glass in the other, tapping the surface of the glass rhythmically with his knuckles.

This gesture is obviously beginning to be impatient.

Looking at the time, he was ready to say goodbye.

Just when he was about to get up, a person suddenly ran in from the banquet hall...

Strictly speaking, one person jumped in.

I saw Selena standing there on one foot, wearing a loose and warm white velvet pajamas, her long hair was messily scattered on her shoulders, her forehead was covered with bead-sized beads of sweat, and her face was full of panic, as if she was in a What a horrible experience...

It wasn't until she looked across the long dining table and saw the man holding a wine glass at the end that she finally settled down a bit.

She had a dream. She had a terrible nightmare. She dreamed that Daniel died under gunfire trying to save her...

"boss..."

After seeing Daniel sitting there in good order, Selena finally felt at ease, but at the same time, she finally had other people in her eyes.

This table is well-dressed... the royal family and nobles who are not ordinary at first glance...

Selena's bewildered mind suddenly became clear, and the word "boss" that he almost blurted out suddenly changed to: "Husband..."

Chapter 663

In the banquet hall, there was silence that could hear the drop of a needle.

However, because of the word "husband", there was a deafening roar in Daniel's ears.

"This is... Mrs. Lu?" After a while, someone at the dinner table finally asked hesitantly.

Daniel had already stood up at this moment, striding towards the girl with a straight and slender figure, his gaze fell on the girl's feet like icy edges, "Why aren't you wearing shoes?"

Selena shrank her toes from the stern gaze, "I wore it... I jumped on the road..."

Daniel scowled and hugged her up.

Selena subconsciously wrapped her arms around his neck to stabilize her body, then quietly glanced at the group of bosses in the banquet living room, and said weakly, "Um...did I get into trouble...? Husband...husband, why don't you say?"

She is very scared!

She really ran around when she was sleepy, not on purpose!

Not to mention that Selena's adaptability is top-notch, and she's already yelling at her husband quickly.

But she didn't know what kind of impact her casual words had on Daniel.

Daniel's back was stiff, and it took several seconds for his boiling blood to calm down. He turned to the crowd and said, "Sorry everyone, my wife is not feeling well, so Lu takes a step ahead."

Everyone laughed and said, "President Lu, you are welcome! You can go quickly! Leave us alone!"

"It should be! Of course it's Madam who matters!"

"It is said that a man who loves his wife is reliable, as expected!"

...

When Daniel left with Selena in his arms, there was another sigh in the hall, "I didn't believe that Daniel would go to war for a woman so much, but now it seems that he is really spoiled! Fortunately, it's okay, if something happens thing, tsk tsk..."

"Strange, isn't Daniel single? Where did he come from? Actually, I wanted to ask just now!"

"It's nothing surprising. There are so many people getting married secretly! What's more, with Daniel's identity..."

"Hey, my daughter has been thinking about it every day since she met Mr. Lu last time. I wanted to inquire about it, but I didn't expect that she already has an owner!"

"Come on, women in their own country can't win, so it's your turn?"

...

in the bedroom.

"Ah! Mrs. Lu! Where have you been, Mrs. Lu? You scared me to death!" The nurse who was taking care of Selena only went out for a while. The soul is almost gone.

"It's okay, leave it to me."

"Oh, ok, ok!" The little nurse gave Daniel a shy look, and then backed out.

Daniel lifted the quilt and carefully put Selena on the bed.

Selena immediately claimed the credit, "Master Boss, was I clever just now?"

Daniel glanced at her, "It's not worth the effort."

Selena immediately lowered her head, "I really didn't mean to break in..."

"You're not in good health yet, why are you running around?" Daniel was speechless to this girl, her leg was injured like this, and she still had the ability to jump around, with one foot still jumping happily.

"Uh, I was having a nightmare..."

Daniel sighed, and explained with a slightly unnatural expression, "This time, I told them that you are my wife for the convenience of saving you. So during this time, you may have to cooperate with the acting. But it won't be long, we will return home when you are better."

"No problem! I'm good at acting!" Selena immediately patted her chest to assure her, "And I can give you whatever type you want!"

Chapter 664

Selena rolled her eyes after speaking, "Master Boss, what type of wife do you like? Virtuous? Vigorous? Funny? Cute? Cute?"

Daniel glanced at her, "I like them all."

The corners of Selena's mouth twitched slightly, "Uh...Master Boss, you are too... fraternal..."

Daniel: "Because it's you." Because it's you, everyone likes it.

Selena: I'm still very weak now, I can't stand such teasing, my little heart can't take it...

A five-star hotel in Dib City.

It's been the third day and there's still no news from Selena, and Guo Qisheng was already on the verge of getting angry, "Louis, who did you find last night? Is it reliable?"

Louis's face was dark and he didn't speak.

Unreliable?

If this is not reliable, then it is not reliable.

In fact, the moment he called Daniel, he was really struggling. It was the first time he hated his uselessness and powerlessness so much.

The woman I like can't protect herself, and she asks for help from others, which man can bear it...

Now he really believes in karma. He didn't take it seriously when he was young and ignorant and hurt so many girls. Now he has paid for all the sins he has done...

He made a phone call to Cheng Feng before to inquire about the situation, but he found out that the problem was very difficult, so he didn't dare to call rashly to urge him.

However, it has been so long now, maybe there is already news?

Thinking about it, Louis made a call.

If God gave him another chance, he might... He would never make this cruel phone call that made his liver hurt!

"Hey, uncle, has anyone been found?"

"Hmm." A man's calm voice came from the other end of the phone.

"How is Selena? Are you okay? Can I have a word with her?"

Daniel frowned slightly, he didn't want Selena to be disturbed at this time.

Well, I just don't want my wife to talk to other men!

Especially since this man obviously still misses his wife all the time.

Because I care too much, even if someone touches it, they will think it is a robbery.

At that time, Selena was taking her temperature, when she heard a voice that seemed to be Louis's, she immediately turned pale with shock, "Ah! It's over! I suddenly disappeared! The crew must be in a hurry! Husband, come and pick me up!"

Well, from all aspects, Selena is a rare and good actor...

The speed and professionalism of this entry...

Absolutely won't go overboard!

Daniel: "Yes." Immediately handed over the phone.

Selena quickly picked it up, "Hey, Louis!"

"fcuk! Selena! What the hell are you flying! I was scared to death by you! You have nothing to go to Philadelphia to play around! Also...how did I hear my husband just now...who are you calling? ?" Louis hesitated.

"You're hallucinating and hearing it wrong!" Selena said without blushing, and then made up a reason to prevaricate, "You also know that the security here is not very good, I was kidnapped by a group of people , but fortunately your uncle arrived in time, and everything is fine!"

"How are you? Are you okay? Are you injured?" Louis immediately asked nervously.

"A little injury, it's fine, that's right...don't talk about it, I have a very important matter to discuss with you!" Selena said in a serious and solemn tone.

"What's the matter?" Louis asked suspiciously.

Selena glanced around the room secretly, seeing that Daniel had gone to find a doctor, so she hurriedly said, "Teach me how to confess to a man!!!"

Chapter 665

The other end of the phone was silent for at least ten seconds.

In the end, Selena couldn't wait any longer, "Hello...Hello? Louis! Jiang Jinmao! Are you still there? Dmn! What a broken signal! Drop me at a critical moment! Hey, hey, hey?"

Selena was in a hurry, and was about to hang up and redial when Louis's voice came from the other end of the phone, "I... am..."

"Ah! You're still here! Hurry up! Teach me!" Selena urged.

"fcuk me... teach you, uncle! I have never confessed to a man before, so how do I know how to confess to a man!" Louis said angrily.

"Who said you didn't? When I was in school, I heard that you confessed to a handsome junior in the lower grades, and he agreed at the time!" Selena retorted forcefully.

"Selena! I call you uncle! I was just joking!"

no no no no more...

He felt like he was going to be pissed off!

Louis took a deep breath and cursed, "You still come to me for confessing to a man? Just ask yourself! Who else has more experience than you!"

Selena raised her eyebrows, "That's not what you said... Those sgumbags in front of me are so easy, there is no need to confess this step, okay! Even Roman... He was the first to take the initiative! This is my first Once! I really can't!"

Louis couldn't refute these words. When she told him back then...she really didn't confess her love! Oh sh1t! After a date, he realized that he hadn't gained anything, only being abused! And has been abused to this day!

"Wait, I haven't asked you yet. Who is the man you mentioned just now? Whose boy are you planning to harm again?" Louis asked vigilantly.

"Your uncle."

" ... "

Louis felt that he could no longer keep up with her rhythm...

"Why did you change your mind again?????"

"What's so strange about this, your uncle saved me this time, and I promise you with your body for saving my life!" Selena said in a matter-of-fact tone.

Hearing these words, Louis couldn't describe his mood at all, and asked after a long silence, "Is it because of this?"

What if the person who went to save her back then...was him, not Daniel? Will she also...

He actually gave up the opportunity just like that! Give it to Daniel!

Selena: "Otherwise?"

This thought kept turning in Louis's mind. In the end, he couldn't help but ask, "What if I was the one who saved you at that time? You also want to give me your body?"

On the other end of the phone, Selena replied without hesitation, "How is that possible! I'm not stupid!"

Louis: "..."

"Selena! Go to hell! You fcuking love to ask whoever you ask! Anyway, I don't know!"

"Hey, hey... why did you turn your face! Your uncle is here? Why are you so irritable?"

"Get out!"

"Please! Help me think about it! You are the only person around me who I can discuss with! My old lady is so hard to be tempted!" Selena said in a sad tone.

Louis gritted his teeth: "Do you dare to tell those ex-boyfriends?"

"Aren't you?"

Louis didn't want to talk to her anymore and just wanted to send her away quickly, "Are you an idiot? My uncle already likes you, so what's the point of telling him? Just tell him what you want It's okay if you don't!"

"You are boring, how can it be the same! Of course I want to give my beloved a romantic and unforgettable experience! The step of confession is absolutely indispensable!"

"Bye!" Louis hung up the phone with a snap.

Your friend Golden Retriever has been seriously injured...
