

Cruel Heart Lover Novel

Chapter 706

"No nonsense."

"No nonsense! Daniel, let me tell you, I still beat him with one leg until he was looking for his teeth all over the floor. Call me Dad!"

Daniel sighed helplessly. Hey, I'm really worried. You can't be careless when you come to the school to participate in a parent-child activity. If you don't pay attention, this girl will run away like a wild horse...

While speaking, the pair of bear children and bear parents in front had already left, and only the teacher stayed where he was, wiping away his tears.

"Teacher, are you alright!" Selena walked over and handed over a tissue, her expression still a little annoyed.

"Ah! You...you are Rickey's parents, right? The kids have been waiting for you for a long time! Hey, I'm fine, did you all see it just now?"

The teacher was afraid that the parents would leave a bad impression on the school, so he hurriedly explained, "Don't mind, such parents are just a few, and most of the parents in our school are very qualified!"

The teacher had been protecting Rick dedicatedly just now, so Selena naturally couldn't bear to blame her, and hurriedly said, "It's nothing, it's nothing... Teacher, we understand that there are people like this everywhere..."

However, after what happened just now, Selena was unavoidably worried, worried whether Rick was also bullied at school?

With this child's personality, even if he was bullied, he probably wouldn't tell them...

The teacher also saw Selena's worry, and hurriedly said, "Student Rickey has adapted well during this time at school. Although he doesn't talk much, the children like him very much, especially the girls. !"

Selena's eyes lit up when she heard the words, huh, Rick is very popular with girls?

Ahh... I really can't see it!

But yes, her son is so handsome! It's normal to be popular!

"This Sun Zhuangzhuang is a well-known mischievous ghost. He likes to make trouble. The main reason is that his parents don't care. He is almost a bully in the school. The teachers are very troublesome to him. Hey... However, our teachers have always treated him Keep an eye on it, you can rest assured..."

Because the masquerade party in the activity hall at the back was about to start, the teacher chatted with the two for a while and left in a hurry.

After exchanging greetings with the teacher, Selena didn't have time to think about it, and immediately opened the door of the classroom impatiently.

I saw a small figure sitting in the middle of the first group by the window.

The snowflakes outside the window reflected the little guy's iceberg face, which was exactly the same as his father.

The little guy is holding a tome in his hand, and he is completely immersed in his own world at this moment. All the turmoil that happened outside the classroom just now has not entered his small, pure world.

"Little Treasure..."

With a soft call, it was as if a layer of transparent barrier that isolated the outside world was suddenly broken, and the little guy's eyes that were as clear as glass instantly burst out with dazzling light from the depths of the deep eyes...

Rick was startled suddenly, his back was slightly stiff, he raised his head from between the thick books in an instant, and looked towards the door in the direction of the sound.

Aunt Selena...

As for the dear father on the side, he was obviously completely ignored automatically...

The little guy blinked and didn't move for a while. He waited for two or three seconds, probably to make sure that she wasn't hallucinating, then immediately dropped the book and ran towards her quickly...

"Rick...I'm sorry..." Finally holding Rick in her arms, Selena's flustered heart finally settled down.

Chapter 707

"Rick, Auntie knows that you don't want to cause us trouble, so you hide it from us, but you can't do it next time, you know?"

Rick nodded obediently.

"Okay, time is running out, let's change clothes first!"

Selena was still a little worried about that Sun Zhuangzhuang, and wanted to ask Rick if he was being bullied. However, the masquerade party was about to start, so she could only hold back temporarily.

However, this matter has always been in her heart, she must find a way, once and for all, so that no one will dare to bully Rick in school...

After finally changing into her clothes, after entering the venue, Selena suddenly remembered something, looked down at the little bun in her hand and said, "Honey, did I forget to tell you something?"

The little bun blinked his eyes suspiciously.

Selena coughed lightly, glanced at Daniel, and then said, "What... I'm thinking about what to say..."

Just as he was hesitating on what to say, Daniel said, "Your Auntie Selena is already my girlfriend."

Rick tilted his head when he heard the words, as if he was a little confused.

He didn't have a deep understanding of the three words "girlfriend". He only knew that if Aunt Selena was Papa's wife, it meant that Aunt Selena was her mother.

So, Daniel explained: "Girlfriend means that Aunt Selena is half your mother."

Selena: "...???" What the hell, is it really okay for you to explain this way?

However, this explanation was very effective for Rick.

The little guy's usually expressionless face suddenly lit up, and he even looked at Selena eagerly, asking for confirmation.

Well, I can't trust my father.

Selena naturally couldn't bear to disappoint the little bun, and coughed lightly, "Your father's explanation... is roughly correct, that's what it means! Besides, for the convenience of communicating with the teacher, and for you to be

able to communicate with other children Same, when I was in school, I was your... whole mother!"

A whole mother... She is also drunk with this statement.

Fortunately, Rick was extremely smart, so he nodded immediately to show that he understood.

"Okay, let's have fun next time....." Selena took each hand, one left and one right, one big and one small, two furry paws.

When the three of them walked into the event hall, the originally bustling hall suddenly became eerily quiet.

Everyone looked in the direction of the door in a daze...

Selena was wearing a Lolita-style tutu skirt and a bright red hooded headband, and was carrying a small basket in her hand. At a glance, she could tell it was the classic image of Little Red Riding Hood in fairy tales.

As for the little buns and big buns next to her, one big and one small are all wearing fluffy gray coats, with big tails and pointed ears attached to the coats, and even the brows are strictly painted in gray...

The little bad wolf is cute and cute, the big bad wolf is handsome and cool, and the little red riding hood is extremely charming and sweet. This family of three immediately attracted the attention of everyone in the event hall.

After all, those parents are laymen. When it comes to makeup, they also draw casually, and some even put on a piece of paper clothes casually.

Where is it like Selena, who has been a professional in disguise for a hundred years, has extremely strict requirements on props and makeup, and even every hair on the big bad wolf's clothes looks lifelike.

Selena looked at the amazed eyes of the whole room, the corners of her mouth twitched slightly, and she turned her head to Daniel and said, "Did I use too much force? It feels like a full-scale massacre of Novice Village..."

Daniel: "My wife is great."

Selena: "Ahem, ahem..." This guy, he got into the show very quickly! Isn't Rick's whole mother his wife?

Chapter 708

"Husband is also great... so cooperative... I really didn't expect you to be willing to wear it... Pfft..." Selena suppressed a smile, stretched out her hand and pinched Daniel's wolf ears, "It's so cute! If your company's When people see you dressed like this, will you have nothing to do with them?"

Master Boss has lost all his majesty...

Daniel looked at her helplessly, "You think I'll let others see me like this."

"Okay, okay! I know you sacrificed a lot..."

While talking to Daniel, Selena noticed that Rick tugged on her skirt, and was looking up at her with big eyes looking at her with his little head upturned.

"What's the matter baby?" Selena asked hastily.

Daniel glanced at his son, then reminded him, "Ear."

"Ah? What's wrong with the ears?" Selena was stunned for a moment, and then quickly realized that she bent down and touched the little bun's little wolf ears, dumbfounded, "The little baby is so cute!"

Rick squinted his eyes to feel Aunt Selena, oh no, Selena's mother's touch was finally satisfying.

"Baby, are you hungry? There are desserts over there, wait, I'll get you some!"

Little Red Riding Hood Selena happily walked to the dessert area, and was about to reach out to grab a piece of brownie cake, when something bumped hard behind her, knocking her to the side. Then I saw Sun Zhuangzhuang, the brat who bullied Rick just now, snatched the cake she was going to take just now, and stuffed it into his mouth three or two times.

Not only that, he also held a big bag in his hand, and pulled all the cakes in that piece into his bag...

Some parents over there are already dissatisfied, "Hey, whose child is this? Parents take care of it! What do we eat after taking away all the food?"

"My child, what's the matter?" A chubby woman walked over and looked at the bear child with a doting face, "Isn't the food here just for people to eat? There is no rule on who eats how much ! My children grow stronger, so they naturally eat more!"

"Then you can't take so much, a dozen yuan, can he finish it?"

"You don't care if I can eat it all, you are an adult, what do you care about with children? Is it just a few pieces of cake?"

"It's not about a few cakes, your child..."

The other parents wanted to refute a few words at first, but the bear father next to him stood aside viciously, and immediately stopped talking with the mentality that one thing more is worse than one thing less...

This short episode passed quickly, and then the teacher arranged a lot of singing, dancing and playing games, and everyone had a great time.

The last link is to choose the most popular grand prize in the masquerade party tonight!

There was almost no suspense, Selena and the others became the big winners tonight, and the votes were completely crushed.

Daniel has made such a sacrifice, if he still doesn't win this award, it's too much to justify!

"Congratulations to our little friend Rickey and his parents! The outfits of the three today are really cute! Let us feel that the big bad wolf in the fairy tale world is also cute! Our prizes are also very cute, yes What? Wait for the teacher to open it for you!"

There was a huge gift box in the center of the stage, and the teacher untied the bow on the box.

In the audience, Selena was even more excited than the children, standing on tiptoe looking forward to it.

Finally, the box was opened, and it was a huge plush bear, much bigger than Selena's whole body.

Selena stared at him immediately, "Oh! So cute!"

Rick looked at the huge little bear, and at the happy expression of his mother, who was also full of happiness.

Seeing his wife's and son's happy expressions, Daniel stroked the fur on his clothes, thinking it was worth it.

Chapter 709

After receiving the award, the teacher smiled and said, "Well, our parent-child activity is over today, and other children can also receive a small gift from the teacher!"

The children cheered and went to receive gifts one after another...

Because the parking place was far away and it was cold outside, Daniel asked Selena and Rick to wait in the event hall first, and then went to drive the car over by himself.

"I'll be back soon, be good and don't run around." Undoubtedly, Daniel didn't say this to Rick, but to Selena.

Selena, who was treated like a child, curled her lips in dissatisfaction, "You know, I can still go to heaven in just a few minutes?"

Daniel: Not only is it possible, but the possibility is quite high.

"Little Treasure, take care of Mommy."

Rick nodded seriously, expressing that he would definitely take good care of his mother.

Selena looked at the father and son, speechless: "..."

Daniel explained several times worryingly before finally leaving.

Selena hugged the big bear, found a chair with Rick and sat down, obediently waiting for Daniel.

"Little Bao, are you happy today?"

Rick nodded with sparkling eyes, happy! Today is his happiest day!

Aunt Xiaoxi is his half mother, and they won a huge bear.

There are countless toys in the house, and the little guy has never felt anything, but now he stretches out his little hand to touch the huge plush bear left and right, and he can't put it down.

Selena took the opportunity to play a bit of a mother's role, "Did you know, baby? What you get through your own efforts is the best!"

...

The mother and daughter were talking, when suddenly there was a piercing cry in the activity hall that was originally full of laughter...

"I don't want this! I want a bear I want a bear I want a bear I want a bear!!!!"

I saw that brat started to mess around again, throwing away the little gift the teacher gave him, and then cried and looked at Selena's big bear, no matter how the people next to him coaxed him.

Not far away, Selena was speechless for a while, what kind of bear do you want, I think you are quite a bear...

Although she didn't like that brat, she really didn't want to spoil her good mood today, and she promised Daniel not to mess around, so she continued to talk to Rick and ignored the situation there.

In the end, she didn't go looking for trouble, but the bear's mother came looking for it by herself.

The woman walked up to her and Rick, without saying a word, she opened her mouth and said, "The parent of that, let's change, you guys give the bear to my son!"

Selena almost laughed out of anger, "Why?"

This is the first prize for them!

"Didn't you see my son crying like this?" The woman took it for granted.

"Your son is crying, what does it matter to us?"

"Why are you so unqualified, do you have no sympathy for a child crying like this?" the woman scolded loudly.

"Sympathy? Just now, this kid tried to lock my son in the classroom! You want me to sympathize with him?" Because Rick was by his side, Selena suppressed her anger and patted Rick's head to comfort him.

"It's just a child's joke. As an adult, do you care about such a trivial matter with a child?"

Selena sneered, "Does it mean that even if your son kills someone in the future, you'll just say that it's just a child's joke?"

Just when Selena was talking to the woman carelessly, that brat suddenly bumped into her. Behind Selena was a row of bookshelves. Because she couldn't stand firmly, she bumped into the back. Suddenly, the whole row of bookshelves was crumbling...

Chapter 710

Suddenly, the entire row of bookshelves was on the verge of falling. Seeing that the bookshelves were about to fall, Selena was shocked. She picked up Rick and hid to the side. At the same time, she used the big bear to block the falling books. got hurt...

In the next second, there was a loud "bang", and the bookshelf collapsed.

There was an uproar at the scene, and everyone was still in shock.

"I..." fcuk!

Selena held Rick in her arms, resisting herself to swear in the holy place of the school, and looked at the brat and the woman like icy blades.

Seeing Selena's unkind expression, the woman hastily pulled the brat behind her, "What are you doing... You still want to fight with a child! Everyone, come and see! This vicious woman even has a child Don't let it go!"

The commotion here is too big, all the parents have seen it, and everyone is full of indignation.

"Why is it this family again! What a lack of quality!"

"Isn't that right? Last time that Sun Zhuangzhuang borrowed the new Transformers my husband bought for the child to play with, but he refused to return it. I went to her to argue and told me that I lost it, and didn't say I wanted it." Compensation, and said I made a big deal out of nothing!"

"If the woman hadn't been hiding quickly just now, she would definitely have been seriously injured if such a big frame fell! Besides, there is a child here! That brat is so young now, he might kill someone when he grows up! "

"It's so lawless! Doesn't the school care about it?"

"How do you manage it? When it comes to managing it, people will say, kid, isn't it normal to be naughty? The school can't drive people away because of such a trivial matter, right?"

...

Facing the accusations from the parents and teachers, the mother of the bear child did not show any remorse, "How strong the child can be, but she pushed her lightly, and she bumped into it because she couldn't stand still! Besides Aren't they all right? What are you yelling about! Bullying our orphans and widows, right?"

Just as he was talking, the bear boy's father who had just left came back, and when he saw a group of people surrounding him without saying a word, he yelled, "What are you doing?"

"Husband, you're finally here. These people bullied me and my son! That woman held a grudge because of a trivial matter, and she fell down but insisted on pushing it on our son! These people are all helping her to speak!" The bear child's mother turned right and wrong for a while, making everyone very angry.

"Dad! Bear! I want a bear! I want it!" When the bear boy saw his father coming, he became even more arrogant and even grabbed it.

Selena slapped the child's hand away.

It didn't take much effort from her to hit it, but the kid screamed like she had abused him.

The bear's mother coaxed her dearly, clamoring to go to the hospital.

The bear's father made a gesture to strike, "Smelly woman! How dare you beat my son! You are tired of work, aren't you!"

Everyone at the scene was worried about Selena, and the teacher hurried to call the security guard.

"Mom! I want it! I want it! I want that bear!" The bear boy howled from beginning to end, making people's brains almost explode.

"Otherwise, if you give this bear to my son, this matter will be over!" The woman said with a very disadvantaged expression.

A parent nearby was kindly persuading Selena, "Hey, forget it, or give them this bear. If you can't argue with these people, don't end up at a disadvantage..."

Selena glanced gratefully at the parent who persuaded her, and then looked at the father of the bear child who was staring at her fiercely, her eyes were

extremely calm: "If you want this bear, you can, let's fight, and if you win, I will give it to you."
