

Cruel Heart Lover Novel

Chapter 81

Chapter 81

Selena's heart pounded when she heard the discussions at the table.

Brother, if you have something to say, how did you see that Daniel looked at me differently?

Still looking at my wife's eyes...?

"Hehe, that big brother might not have a good eye!" Selena said to Daniel with a dry cough.

As soon as Selena finished speaking, the woman nodded in agreement, "You're right, really! And look carefully at that little boy, although he looks very much like his father, but his eyes are actually very similar to his mother's, especially when he smiles. when..."

Selena almost collapsed when she heard it, "Hey, that eldest sister, maybe her eyes are not very good..."

How could Rick look like her! She's not Rick's mother!

Daniel looked at the girl's eyes calmly, but in fact, they looked alike.

He had noticed before that when Rick laughed, the look on his brows was quite similar to Selena's.

If it's a coincidence, it's really a happy fate...

This little episode will pass quickly.

After taking her seat, Selena sighed comfortably, "Ah! Eating hot pot with the air conditioner blowing on is the most enjoyable in summer! Baby, I swear, you will definitely fall in love with this feeling!"

This was the first time Rick ate out in two years, he was a little curious about everything, he looked around, but his little hand had to hold Selena's all the time to feel at ease.

Selena flipped through the menu and asked for Daniel's opinion, "You can't eat spicy food, so shall we order a mandarin duck pot?"

"You decide." Daniel nodded, took off his coat, and laid his arms casually on the chair.

It was an ordinary movement, but he was full of hormones when he did it, and Selena was bumping like a deer for no reason.

I don't know what's going on recently, it seems that the number of times like this is increasing, and the deer almost faints!

Did Daniel do it on purpose or not?

Soon the pot bottoms and dishes they ordered came out, Selena suddenly moved her index finger and forgot everything.

The Great Demon King Lu is so strict when eating hot pot. For each dish, which one is served first and which one is served later, the calculation of how long each one is kept is very accurate, and he is serving her and Rick in an orderly manner throughout the whole process, which is better than last time. She also needs to be professional when eating at home.

Selena had never eaten hot pot with such peace of mind, because all she had to do was eat, and every dish was cooked just right, so she wouldn't be like her, always accidentally overcooked if it wasn't too raw.

"Are you on the same crew as Louis?" Daniel suddenly asked while eating.

Selena was stunned for a moment before she realized that Louis was Sheng Shi's favorite, and also Daniel's nephew, so it's not surprising that Daniel knew about his recent situation, so she nodded and said, "Yes, he joined the group today. , Actually, I just found out today, and I was shocked when I saw him..."

Daniel picked up a fish ball for her, and said in a casual tone, "Good relationship?"

Selena scratched her head, feeling that there was nothing to hide, so she replied directly: "Well... the relationship between me and him is a bit hard to describe. We dated for a while, but we broke up for a long time. Now, let's count them as friends! But it is estimated that the friendship will be exhausted soon, after this guy returns to China, he will bring hatred to me in various ways, and almost kill me..."

"If he bullies you in the future, tell me." Daniel said.

Selena smiled and said, "Haha no, I'm the one who bullies him in the play, as for off-screen, heh heh, if he dares to bully me, I'll be his aunt and crush him to death every minute!"

As soon as the words finished, Selena and Daniel were both taken aback.

Selena wanted to snatch the ground with her head: She, how, what, just, tube, no, live, this, Zhang, letter, mouth, chaotic, teasing, oh, mouth!

Chapter 82

Selena desperately picked up food for him, "Hehe, I... I'm joking... Don't mind me!"

Daniel didn't seem to be angry at all, but seemed to be in a good mood, and the corners of his lips curled slightly, "That's a good idea."

Selena was dumbfounded: He thought it was a good idea?

"Selena." Daniel suddenly looked at her seriously.

Selena was stared into by those deep eyes and became nervous for a while:
"What... what's wrong?"

"If you change your mind, you can come to me anytime," Daniel said.

Selena's heart skipped a beat when she heard the words, she knew he was referring to the matter of "marrying him"...

Although Daniel didn't mention it after he explicitly rejected it last time, she could always feel the difference in Daniel's attitude towards her, and the increasingly ambiguous atmosphere between the two of them...

The worst thing was her heart, which gradually began to escape her control...

Could it be that she was fascinated by beauty as Louis said?

After experiencing that incident five years ago, she thought she would never fall in love with anyone again, and even for a long time, she had a big psychological problem, extremely repelling and loathing men, especially when she Seeing the sgumbags, I couldn't restrain the evil spirit of Fenji in my body at all, and I just wanted to destroy them to do justice for the sky...

Although her mentality has become much calmer in recent years, she is still insensitive to creatures like men, let alone finding someone to marry, which is simply a fantasy for her.

However, the man in front of her who always had a deadpan expressionless face and a terrifying aura that often made her feel intimidated, unknowingly opened a gap in the thick shell outside her heart... ..

After eating the hot pot, on the way home, Rick was tired from eating and fell asleep halfway through the car. Selena couldn't bear to let go of the little soft one in his arms.

Oh, what a shame! The big bun has messed her up enough, and there is a little bun...

She found that the longer she got along, the more she liked Rick, and she would miss him in various ways even if she didn't see him for a day. If she didn't hug him today, she would always feel that something was missing.

This is not a good sign...

After arriving home, Selena carefully carried the little guy into the room.

Daniel leaned against the door frame, his eyes were gentle, "I've troubled you these days."

Selena tucked in the quilt for Rick, closed the door and walked out, "No trouble, I really like Rick."

After hesitating for a while, she made a gratified expression and smiled, "Rick's condition is getting better and better, it seems that I won't need to live here soon!"

Daniel's face suddenly darkened, "You really want to leave?"

Selena was forced to take a step back by his sharp gaze, "This... I should have left when Rick recovered. I'm sorry to bother you for so long!"

Daniel: "Don't bother."

Selena had no choice but to raise her head and stare at him with clear eyes, "But I will feel troubled."

Daniel frowned, "Troubled?"

"Yes." Selena took a deep breath and said, "To be honest, I'm not a very self-disciplined person. If I stay here, I must always pay attention to my behavior..."

Daniel: "You don't have to pay attention."

Selena helped her forehead, and said helplessly, "Okay, even if you don't mind this, I still need a private life. Occasionally I will bring friends over to play at home, and I usually need to relax after work, go to the club by bike Going to a

nightclub, if you meet a handsome guy who catches your eye, you will inevitably bring him back for the night..."

"That's enough!" Daniel's expression became more and more ugly, and he finally interrupted her unbearably.

Chapter 83

In the middle of the night, Selena was lying on the bed, her mind was full of thoughts.

She brought that handsome guy home, and every man who tried to hook her up and have sex with her was dragged into the alley by her and beaten up.

Especially when a married man saw a ring mark on his finger, he wanted to beat him until he called his mother.

As for surname life...

Sad to say, the only time it happened was that night five years ago...

It was probably because the shadow was too big for the first time, and she always felt disgusted by this kind of thing.

Daniel was really mad at her tonight, but there was nothing he could do. She would have to bring this up sooner or later, so it was better to leave early before the situation got out of her control.

It's better to stay away by yourself, than one day the ugliest side will be nakedly exposed in front of him, so he can't avoid it and leave.

The consequence of restlessness is to be haunted by various dreams in the middle of the night.

In her dazed sleep, various voices whistled in her ears...

"Selena, why are you arguing with me? Apart from that little blood, you are a worthless piece of trash!"

"You still have the face to ask that ba5tard, what do you want to do? Are you still planning to give birth to him?"

"The child was born prematurely and died immediately after birth. I have already disposed of the body!"

"Selena, let me tell you, from now on, I, Ning Yaohua, will treat you as my daughter! You have nothing to do with our Ning family!"

"Selena, I'm sorry, let's break up! I won't leave you alone, I will take care of you like my own sister..."

...

She ran desperately, desperately, trying to escape from these terrifying sounds...

She ran to the top floor of the hospital, and there was an abyss downstairs. The abyss seemed to have magical powers, tempting her to move forward step by step...

Finally, she closed her eyes and jumped in...

The moment she fell from the building, she did not wake up as usual, but fell into another charming dream.

This time it's not a nightmare anymore, it seems...a charming dream...

I have had similar dreams in the past, but every time it was accompanied by great fear and helplessness, but this time it seemed to be a little different.

One after another, cool k!sses landed on her forehead, eyes, nose, and lips...

She didn't feel the nausea and filth of the past, but felt that she was the most precious and important treasure of the other party.

who is he...

Ugh, it hurts...

Why bite her?

Although Daniel tried his best to restrain him, he finally walked into her room uncontrollably. He knew he couldn't wake her up, but his actions were still unconsciously tinged with violence.

This woman can always easily drive him crazy!

"If you meet a handsome guy who fits your eyes, you will inevitably bring them back for the night." These words are like an asteroid that hits quickly, smashing his reason into dust.

When his lips and tongue touched the girl's tender neck, the swelling in his chest could no longer be controlled, and he bit down hard, like a wild beast conquering its prey in the most primitive way...

"Uh, that..."

The moment the smell of blood filled the air, a girl's weak voice came from my ear.

Daniel's back stiffened suddenly, as if a basin of cold water had been poured over his head and face.

The man still kept his head buried in her neck. The pain in her neck made Selena almost scream, but she could only hold back and reminded embarrassingly, "Cough, what... I just fell asleep. Oh, it's not like you're dead asleep, you...you're making such a big noise...I'll wake up..."

At first, she wanted to pretend, but in the end she couldn't pretend anymore, it hurt her to death, okay?

At this moment, Daniel's deep eyes had merged with the night, he slowly raised his head, his eyes fixed on her, he pinched her chin with his finger, and gently stroked it, his tone was like a demon from hell, "Well, I'm awake... So what?"

As soon as the words fell, he locked her hands and pressed them heavily on the top of her head, then bent down and kissed her lips without hesitation...

Chapter 84

"Hmm..." Selena subconsciously wanted to break free, but her hands were imprisoned and her legs were pressed down by the man's knees, as if she wanted anything and everything.

What's the matter, sadly?

Could it be that she was still dreaming and didn't wake up at all?

Until the air in Selena's chest became less and less, and she was almost dying, Daniel finally spared her lips temporarily, and moved them to the neck where she had just been bitten. It's even creepier...

"Hey, Daniel... Daniel..." Selena called out a few times, but the other party didn't respond, and just kept busy with her.

The people at this moment are not as restrained as the usual gentleman, let alone the gentleness she is familiar with. The sharp teeth slide from the neck to the collarbone along with the penis, and even get lower and lower...

"no, do not want!"

The dormant memories in her mind flooded out, gradually engulfing her like a thick swamp, causing her whole body to tremble and convulse.

Just when Selena was in pain, all movements of her body suddenly stopped, leaving only a heavy and hard body pressing on her body like a mountain, motionless.

The feeling of being stuck in the swamp and almost suffocating disappeared immediately, leaving only a heart full of stupefaction...

"Lu... Daniel?" Selena tentatively patted the man's shoulder, but there was no reaction.

After waiting for more than ten seconds, and the other party remained motionless, Selena moved lightly, tentatively and cautiously turned the man aside.

Through the moonlight outside the window, she saw the man lying there calmly with his eyes closed, like a sleeping king, as if the terrifying beast just now wasn't him at all.

What the hell is going on here?

"Could it be... Could it be sleepwalking?!" Selena muttered to herself.

It seems that there is only one explanation that can make sense.

But Daniel's way of sleepwalking is too ingenious, right? He ran into her room in the middle of the night and bit and gnawed her like a vampire, but he still managed to talk to her decently?

Daniel's breathing was steady and long, and he looked as if he had fallen asleep.

Selena didn't dare to wake him up, for fear that he would go crazy again, but she really didn't feel at ease leaving him like this, but in the middle of the night, who would she turn to?

After much deliberation, she thought of a person.

Picking up the phone, she dialed Saul's number.

"Hey Selena! Wow! You're calling me at this hour! What's wrong? What's wrong?" Saul's voice was very loud, almost shouting.

Selena was worried that calling him so late would disturb him, but Saul's voice on the other end of the phone was extremely excited. With the noisy background, it looked like he was having a party all night.

"Saul, I want to ask you something!"

"Ask and ask!"

"Your brother..."

"What's wrong with my brother?"

Is this guy a repeater? Say it twice!

Selena was speechless for a while, then asked anxiously, "Does your brother have sleepwalking problems?"

Selena, who was on the phone, didn't notice that the man who was lying upright next to her became slightly stiff after she finished asking this question.

He just came up with this idea and got away, but he never thought that Selena would call Saul, just in case that ba5tard Saul slipped his mouth...

Then break his leg!

Chapter 85

Saul on the other end of the phone was suddenly quiet for a few seconds, which made Selena's heart flutter even more, and asked urgently, "Second Young Master, is there any?"

If it was just sleepwalking, then it shouldn't be a big problem, but if Daniel had some other illness, she had to rush him to the hospital!

It's scary to suddenly turn into a werewolf and fall asleep in the middle of the night, isn't it?

"Oh, I was just a little surprised why you suddenly asked this. He does have this problem. How did you know that my brother can sleepwalk?" Saul replied on the phone, his voice sounded normal.

Selena finally breathed a sigh of relief when she heard the words, and she seemed to be laughing relaxedly, "It's nothing, it's just that I got thirsty in the middle of the night and got down to drink water, and seeing him standing in the living room in a daze, I was just frightened!"

"Really?" Saul's tone was quite playful, and then he said solemnly, "It's okay, I'm sick now, just leave him alone, what he's doing now, you continue to let him do it, don't wake him up, turn around He'll go home by himself!"

"Huh? Let him continue...won't he be woken up? Then...well, I understand!"
Worried that Saul would hear something strange, Selena hurriedly hung up the phone.

She looked at Daniel who was lying next to her with a headache.

Don't wake him up, just let him lie here like this?

What if he sleepwalks again?

I really worry about her!

Because of this sudden change, the panic in Selena's heart that almost made her collapse had completely disappeared.

She looked at the unconscious man beside her, and became angrier and angrier as she looked at her, and finally reached out and pinched his face as if to vent her anger, "ba5tard, you slept comfortably, but I was almost scared to death by you... "

Daniel was still quite obedient after he had gone crazy, and he didn't look threatening. She squeezed it a few times before stopping happily.

Now it seemed that he had to wait for him to leave by himself. She had heard that if a sleepwalking person was woken up, he would be greatly frightened and even die.

Obviously, she was more frightened...

Selena originally planned to wait for Daniel to leave before going to sleep, but she didn't expect to fall asleep unconsciously when she heard the regular heartbeat beside her ear...

After a long time, the man beside him slowly opened his black eyes, showing a relieved expression.

Then he stared at the girl in a daze, and gently touched her slightly wrinkled brow with his fingers, showing a complicated expression on his face...

The next morning, Selena was woken up by a phone call.

The first reaction was not to answer the phone but to turn around and look to the side.

As expected, Daniel was no longer there.

So she touched the phone in a daze and pressed the connect button. In the next second, Janice's furious voice came from the phone...

"Selena, you've done a good job! I warned you early on that you should pay attention to your behavior and don't embarrass the company. You're good! Now the whole company has lost all face!"

Selena woke up immediately, "What happened?"

Janice said angrily, "Go to Weibo and read it yourself!"

Selena climbed out of bed, quickly turned on the computer and logged into her Weibo.

Then she discovered that her weibo exploded!

Under normal circumstances, most of the artist's Weibo is managed by the agency. Of course, Selena does not have that kind of treatment. Not as good, usually she likes to share some little things in life, and every time she comments, she doesn't get more than a hundred likes.

But now, tens of thousands of posts and comments suddenly popped up overnight.

She browsed through the information as fast as she could and finally figured out what happened.
