

Cheat. A 109

Chapter 109: Family...

After coming in front of his parent's grave, Myne took a deep breath to calm down his emotion.

Then he took out a broom from his inventory, and start cleaning his parent's graves and the area around it. After cleaning he took out flowers and planted them in the ground all around the graves.

Finished doing that he sit down in front of his parent's graves silently.

Ted who was watching Myne from beginning to end silently without making any trouble, also walked toward him and sit down beside him.

Myne looks at Ted beside and a smile appears on his sad face. While rubbing his soft hair, he looked at his parent's grave and finally opens his mouth, "It's been a while Mother, Father... I hope you guys are fine up there, and sorry for not visiting you for such a long time.

I know you might be angry, but hahaha, to tell the truth recently I was very busy and excited, as I finally awaken my skills, and forget to visit you. You might not believe me but I awaken very good skills."

Saying such Myne pause a little, before continuing, "And I also found a nice, beautiful and smart daughter-in-law for you, her name is Aisha.

Every time I look at her I saw Mother's shadow in her, it just she is not as dangerous as Mother of course, otherwise I would have long ago run away from her, hahaha, after all, Father's screams are still fresh in my memories, so I don't have the courage to take that level of risk."

"By the way, one more surprise, I didn't find one daughter-in-law for you, but two, the second one is actually the first princess of our kingdom, can you guys believe it? She is also very beautiful, smart, and most importantly very responsible, completely opposite to lazy people like me and Aisha.

I think Father would be very jealous of me, after all, he just steal the daughter of a noble, and I on the other hand directly rob the princess, hahaha..."

After laughing, Myne took a deep breath, "Sigh, both of them are very nice and cute, even though I only know a little about Sylphy, as we haven't spent much time together but I can say after observing her that she is a good girl, she has many common things which Mother had, though she trying to look innocent and become shy very easily in front of me, but I can see that she is a little domineering type girl, it just currently she doesn't feel secure with me, so she doesn't show her this side to me and Aisha, but anyway I don't hate her for that, maybe her this side can make life little more interesting, I am looking forward to it when she shows her true personality, hehehe, I defiantly tease her to death after that..."

"Well let me give you a piece of good news, I am getting married. Isn't it amazing? Although it is a little fast, but anyway since both Aisha and Sylphy didn't mind then I am happy to get merry," Myne said with a gentle smile on his face while staring at his parent's grave.

"Ohh, and meet him, he is Ted, the new member of my family, although he becomes a traitor because Aisha spoils him too much and now always spends his time with her while ignoring me. He and his parents live with me, at the start I didn't want to accept them but later before I could understand anything they already become important members of the family.

Hahaha maybe I really like cute creatures very much," Myne said while laughing and patting on Ted's head, who was clearly very happy hearing praise from Myne.

As Myne finished saying that tears start accumulating in his eyes, although he was laughing, and trying his best to hold back his emotion, "Father Mother I really miss you very much, although there is Big Sister Maya, who was always taking care of me like Mother so I don't feel lonely but she of course can't take your place.

If only you guys haven't left me alone so soon," Myne said emotionally while trying to control his wailing, suddenly something warm hugged him from his left side and back.

Myne quickly wiped the overflowing tears with the back of his hand and saw his both fiancées who were hugging him tightly, Aisha from behind and Sylphy from the right side.

While Myne was surprised to see both of them, Aisha and Sylphy walk in front of him, sit down on their knees, and put their hands together in front of his Mother and Father's grave.

"Mother, Father, nice to meet you. My name is Aisha. The eldest wife of Myne. I have heard from townspeople about you guys, and we will certainly become a couple that is as wonderful as the both of you.

I promise you that I will make Myne happy till my last breath, and I will always be by his side no matter what happens, and never again let him feel lonely, so please watch over us, and give your blessing."

"Father-in-law, Mother-in-law, nice to meet you. My name is Sylphid. I will be Lord Husband's second wife. Although I am not as capable as Sister Aisha in terms of doing normal household stuff, and can't even cook properly, but I will certainly do everything to make him happy and will be by his side till the end of my life. so please rest assured."

Myne who was already taken aback by their sudden appearance out of nowhere after hearing their words, again become emotional, and grabbed both of them and hug them tightly.

"Haha, Mother and Father, it seems like I found the right partners for me, now you can rest assured and please watch over us. I promise you that no matter what happens I will protect my family from all trouble from now on, no one can hurt them till I am alive," Myne spoke loudly with a genuinely beautiful smile, while hugging Aisha and Sylphy.

Aisha and Sylphy after hearing Myne's words, the same beautiful also appear on their face as well as they look at each other and hug Myne together.

...

"Okay, now tell me the truth, why are you guys here?" Myne after finishing his greetings to his parents, and accepting Aisha and Sylphy to his family from the bottom of his heart asked them while walking toward their house, holding each other hands.

"Actually after coming back from the Town Lord's office, we were heading toward home, when we saw you walking toward the cemetery in a bad mood, so we thought something had happened to you, and decide to follow you, and this was my idea so please don't scold Sylphy," Aisha said while making a fake guilty expression, but anyone can say from her expression that she is more of happy then guilty and even if she gets another chance she would do the same thing again without any hesitation.

"Stupid girl, do I look like I wanted to scold both of you? I am just asking out of curiosity," Saying such Myne released Sylphy's hand and flicked Aisha's forehead.

"Ouch, it hurts, how can you hit your wife like this? I will complain to Mother and Father about it," Aisha rubbed her forehead flicked by Myne and said with a pouting mouth.

"Ohh, now you are threatening me huh? Seem like I have to discipline you properly tonight," Myne said with an evil smile, making Aisha's face red from embarrassment as Sylphy was staring at her confusedly clearly she doesn't understand the double meaning in Myne's words.

Like this joining hands and teasing each of them, the four of them get on their way home.

After returning the first thing Myne did is take out two beautiful vases which he stole some time ago from his Inventory, put Sunflowers and Blue rose in them, and place them on the table in the main hall.

While coming back, Sylphy once asked why he plants so many of those flowers around Mother and Father's graves, and Myne told her that they are their favourite flowers, that time Myne thought a little and decide to always have both of those two flowers in his home.

"Myne, since those two are Mother and Father's favourite flowers, then why don't we plant a lot of them in our garden? They would be very happy seeing them," Aisha said with a smile while looking at Blue Rose in the vase in front of her.

Well, this is a nice plan, before this, I never take care of the garden because I was alone and never had enough free time and money for those things, but now I am not alone, and money is also not a problem, Myne thought while rubbing his chin.

"Un! That's a good idea!! Let's plant a lot of Sunflowers and Blue roses in the garden! I have a lot of them in my Inventory, and Ted and his parents can also protect them from harm. Okay let's do that tomorrow, today it is a little late, and you two are also looking a little tired," Myne said with a smile while patting excited Aisha's head who was about to walk toward Graden, to calm her down.
