Chapter 113: Special Night Part 3 (R-18)

"Haa... ha.. ha," Sylphy who was continuously panting heavily look at Myne embarrassingly who was licking his lips with an evil smile on his face.

"Seem like you enjoy a lot, my cute princess," Myne said teasingly, then he rub his index finger on top of Sylphy's wet pussy covering it with her love juice before putting it in his mouth.

"You know, your cum is the tastiest thing I even have eaten, Aisha's was a little bit sour but your's sweet as f*ck," Myne said excitedly bringing a bright smile on Sylphy's face. Although Sylphy feels that what Myne said is very shameful but for some reason, she felt very happy knowing that Myne liked her cum more than Aisha.

While Sylphy enjoys Myne's hot gaze, Myne on the other hand, put his two fingers inside her pussy to make it prepared before putting his little brother.

"Moan...Ahhh..."

While Sylphy crying from enjoyment, Myne took out his finger from her pussy, he held his thick, precum-leaking hard cock in his hand, and placed it just below her wet pussy, between her wet and plump thighs.

Although Sylphy just cum a moment ago, but her pussy was dripping love juices as if a leaking tub, telling Myne that it is fully prepared to accept his little brother inside it.

Sylphy's eyes were wide open from nervousness feeling Myne raging hot rod between her thighs and brushing against her cunt.

"Sylphy do you really want me to put it inside you? Once it enters there is no turning back," Myne asked with a teasing smile while rubbing his little brother on her pussy.

"Yes, I am ready, please don't tease me anymore Lord Husband, I am begging you," Sylphy spoke in a crying voice, staring at Myne's little brother, which was about to make its way inside her.

Satisfied with Sylphy's answer, Myne moved his dick up and down her vagina a few times, making her pant. Finally, he aligned it with her hole and slowly penetrated her. Since Sylphy was a virgin her pussy was very tight and he had to force himself inside her to be able to move forward. She let out a moan filled with pain and pleasure until he felt something stopping his advance.

Myne who is very experienced in taking girls' virginity, first kiss Sylphy to distract her, then while she is enjoying kissing, he simply gave a push forward with his hips and breaks her hymen in one go.

Sylphy let out a short gasp when she felt his little brother piercing her virginity forever but because Myne's tongue was inside her mouth no sound come out from there.

Myne finally reached her deepest part and stopped there so Sylphy's pussy can adjust according to his little brother.

As Sylphy calm down and the pain from breaking her hymen faded away, Myne started moving inside her slowly.

Since it was Sylphy's first time she cum a few thrusts later, letting out a shout of delight, her vagina walls twitching around Myne's dick uncontrollably.

Sylphy blushed in shame of climaxing so quickly but Myne didn't mind one bit. He grabbed her ass in his hands, his fingers sinking into her malleable bottom cheeks. She liked the contact and her hips moved to accommodate his cock better.

Myne then started to move his waist circularly, trying to stimulate different spots inside her and find where she liked it the best. He kept at it for a while before starting to focus on one area where he had managed to get some great reactions out of her. He was getting hornier and hornier now and his movements inside her accelerated.

"Ahhh...moan, Lo..Lord Husband, please faster. Fill my pussy! Fill me! Your big cock is so good in me! Yesss! F*ck my pussy!

Let's make a lot of children. Ohh yes, that's right faster..." Sylphy who is long ago forgotten about her innocent lady-like manner was now sending her hips against his, as strongly as she could, seeking as much pleasure as possible, while spoking very boldly making Myne speechless.

Seem like she is more wild than Aisha, I hope she doesn't get addicted to it, but looking at her face I think she will be more active and bold after this, at least in bed," Myne thought with a happy smile seeing Sylphy getting more and more exhilarated as he went on.

Seeing Sylphy lose control of herself so much, thrilled Myne began to pound her with all his strength.

Sylphy soon cum one more time but Myne didn't even slow down, making a mess out of her cunt. When he kept at it for a few minutes, she wasn't able to say anything intelligible anymore, only

shouting her pleasure in a loud voice. She came several times and her face was full of tears and drool, her expression full of pleasure.

The whole situation sent Myne into his last spurt, until he couldn't hold it anymore and ejaculated full strength inside her, sending his cum deep into her womb with a low groan.

This feeling was too much for Sylphy and she couldn't help but cum again. She started to squirt, sending a strong jet of liquid out of her pussy, directly on Myne's little brother.

It was the first time Myne saw a girl squirt so much and he really wanted to taste that but because there was also his cum mixed in it, he decide to let it go. He had a random thought, wondering what it would actually taste like, compared to pussy juice. Seeing such a lewd scene, his dick kept its hardness, waiting for more action.

He grabbed Sylphy by her back and turned her around, her belly facing the mattress and her head now in the bed's pillow. He raised her ass higher and penetrated her in one go, just like that. She grunted and he went on pumping into her again from this position. It didn't take more than a few strokes before she cum again, once more squirting, directly on the bed this time.

It was really arousing and Myne felt like he wanted to test her limits. He went on f*cking her at full strength, hammering her sloppy pussy. He sometimes changed positions but never stopped digging into her flesh.

Sylphy kept cumming and squirting, drenching the sheets of the bed. The smell got really intense and stimulating, entrancing both of them in their world of mating.

Sylphy, who was already not able to speak correctly anymore, was becoming worse and worse, only letting out animal growls by that point.

"Ooouuhhhh! Uuuhhhrrmm! Roooohhhh! Roooohhhh! Ooouuhhhh!"

When Myne felt that he was getting close to cum once more, he turned her so that they were facing each other, raising her upper body until her head was on his level. Sylphy's eyes were unfocused and her mouth was opened wide, grunting at his pounding, with her tongue sticking out.

Myne brought his head closer, took her tongue into his mouth, and continued his movement onto her lips, in a deep tongue kiss. That caused her to cum yet again another time, spasming in his mouth. The feeling of her pussy twitching on his cock finally pushed him over the edge and he let out his spunk into her, all the while continuing their kiss.

It felt amazing to ejaculate and kiss her at the same time.

Eventually, they both fell onto the bed, panting heavily. Sylphy was so tired that barely conscious at this point.

Myne after seeing her condition felt a bit sorry about going so hard on her, even though he know that it was her first time, but because of Sylphy's continuous request of banging her faster, he lose control and as a result Sylphy defiantly did not being able to walk properly tomorrow, unless he or Aisha use their skill to heal her but then there would be no fun.

"I am sorry, Sylphy. I got too excited," Myne said while Sylphy's eyes were still open even though they were about to close because of how exhausted she was.

Hearing Myne apologizes, Sylphy slowly shook her head, and with a gentle smile on her lips, she spoke, "No. It was, best, if possible I wanted to do it every night, can you fulfil my this wish, Lord Husband?"

Just as Sylphy requested, Myne who felt sorry for a moment ago, look at Sylphy surprisedly but soon his surprise turn into an evil smile, He brought his face close to her, and after giving a deep kiss on her forehead, continued. "You were really amazing, Sylphy, and I promise you as long as we are free I will f*ck you until you forget about everything other than pleasure.

So now you rest peacefully, okay."

Sylphy after hearing Myne's promise nodded a little and closed her eyes, quickly falling asleep on the bed.

Seeing Sylphy sleeping peacefully like a child with a wide happy smile on her face, Myne again give her a kiss on her forehead and covered her with a blanket so that she would not catch a cold.

"Now it is time to find my sacrifice queen, since she is willing to do so much for Sylphy then it is natural to make her happier than Sylphy, did she really think that I would let her go just because I have Sylphy? Hehehe, tonight as a reward for being a good sister and nice elder wife I will f*ck her all night, Myne thought with an evil smile while rubbing his hands together.

Then he cast the Stamina Recovery magic skill on himself, and walk out of the bedroom naked while searching for Aisha...
