

## Cheat. A 182

### Chapter 182: Giving Skills...

"Myne, tell me that this is not the place where we are going to get that Tenfold Experience Acquisition skill," Aisha asked with a frown while looking at the big pond in front of her.

"Yes, this is the place, why? Do you remember something related to this place?" Myne replied with a playful smile.

"Ohh, of course, I remember, after all, it was me who gave you this place's location, but as far as I know this place is inhabited by slimes, right? There shouldn't be any powerful monsters here," Aisha said confusedly while watching the calm pond in which slimes can be seen playing around.

"Hehehe, but when did I say we are going to fight a powerful monster? I get Tenfold Experience Acquisition skill from a slime who live in this pond so of course I will bring you guys here," Myne said while watching dumbfounded Aisha and Sylphy with a satisfied expression.

Does slimes also have such unique skills?! Sylphy exclaimed clearly did not believe in Myne.

"Well most Slimes only have relatively common skills, but there is also the mutant version of slime which has unique skills, but they are very rare and because they look excitedly the same as normal slime, so without skills like Appraisal it is nigh impossible to tell the difference between them.

If it wasn't my luck good enough that day and I accidentally appraised that slime just as he came out from the pond, maybe I never have known about its existence. Since they look so much alike I spent a lot of time looking for that little guy among the other slimes last time."

"But today is different, today, it's your job to deal with those slimes and I am going to observe you guys in the background, and when I find that mutant slime, I will transfer its skill to you all one by one before he runs away.

This will also help you guys to adopt your new skills which I am going to give you now, just take it as a training session," Myne said with a smile watching his four confused companions who were giving him different kinds of expressions.

"Myne, this means you are going to give me more new skills, Wafuu?" Waffle who was raiding Ted asked with bright eyes while wagging his tail excitedly.

"Of course not, first learn how to use the skills you already have before asking for new ones, don't be too greedy," Myne said while patting Waffle's head.

"Okay, I understand," Waffle replied disappointedly and lay down on Ted as if he lost all his energy.

"Bow-Bow."

Seeing Waffle sad Ted tried to encourage his new friend who surprisingly could understand his words like his parents, but clearly, this didn't work, so like Myne he also decided to ignore him for the time being, anyway, their friendship is currently at starting stage and there is still a long way to go before the bond between them becomes strong, so he doesn't have any hurry.

"Okay, now all of you stand in line, I am going to give you your new skills, I have stolen a lot of powerful skills with the help of Fenrir for you all, now it is time to give them to their real owner," Myne said with a smile while taking out some pebbles in which he stores some monsters abilities which he is going to give Ted.

Aisha, Sylphy and Ted nodded their head excitedly followed Myne's command, and stood in a line.

After seeing their enthusiasm which would be very normal for anyone in this kind of situation, Myne didn't waste time anymore and quickly opened Ted's status window and transferred some abilities and skills that could be useful for him in an emergency.

Most of which were support types since he already had quite a few offensive abilities, which like Waffle, Ted has no idea how to use properly as well, he also needs a lot of training.

After dealing with Ted, Myne's eyes fall on his two wives, first, he pastes [ Strong Arm ] and [ Physical Strength Enhancement ] on both of them, he gets them from Trolls when he goes to the dungeon of strength a second time and a saved in pebbles just for them, since unlike him who mostly deals with his opponents with help of magic they both use weapons and those two skills very suitable for weapon users.

Then Myne thought a little, opened his own status window and pasted the [ Martial Arts: Succesive Shot ] on Aisha, this is a special soul type that he never uses for some obvious reason.

Then he pasted [ Martial Arts: Sharpness Sword ] on Sylphy, this is also a soul-type skill just it needs a sword as a supportive item to activate.

Hum, for now, let them play with those skills, after they get used to them I will give them more later, otherwise if I give them too many skills at once, they might get confused as to whom they should focus on and train seriously, Myne thought with a small nod, and start explaining them about their skills.

"Listen, girls, I just pasted the Skills [ Strong Arm ] and [ Physical Strength Enhancement ] on both of you.

Both skills make you physically strong which makes up for your lack of strength and you two can use your weapons more perfectly, but they are also not without cost, those skills consume a lot of stamina, so it would be better if you two start exercising and I am not talking about night exercise between us, but the serious bodybuilding one, only this way you can increase your stamina unless you have a godly potion or supportive magic like me," Myne said seriously after confirming that both Aisha and Sylphy listening carefully, he continue...

"Other than those two supportive skills, I also give both of you a special offensive skill which suits your weapon style, a bow martial arts on Aisha and a one-handed sword martial arts on Sylphy..."

Just as Myne said that and stopped a little, both of them showed an expression as if saying "Eh?", but they immediately looked like they were trying to use [ Strong Arm ] and [ Physical Strength Enhancement ]. It became clear when the luminescence that appears when a body enhancement type skill is used appeared from their bodies.

Sigh, today's girls are so impatient for everything, can't they let me finish first? Forget it, let them find out about it themselves, Myne thought while shaking his head helplessly and deciding to silently watch his both wives adapting talent.

At first, both of them are more surprised than Myne expected however, as expected from his naughty wives, diamond among rocks, they quickly adapt their new skills as if they have been using them for years. They swing their arms around and lightly punch the nearby tree to confirm the effects, which clearly is very good, and they both have satisfied smiles on their faces.

"Myne won't you tell us the martial arts' names? We can't activate them without knowing their names, or how they work," Aisha said excitedly clearly now she desperately wanted to try her last remaining skill as well.

"Ohh, so do you still remember me? I thought you guys forgot about me after getting your new skills," Myne said while raising his eyebrow, but eventually, he still told them about their remaining skills...

"The bow martial arts is called "Martial Arts: Succesive Shot" When you shoot the first arrow while using this skill, the fired arrow will be composed of soul power and will be fired consecutively. The arrows' attack strength will be based on the first arrow, and the number of arrows which can be fired consecutively depends on the soul power loaded into the Skill.

As for what the hell this soul power means I also have no idea about it."

"And the one-handed sword martial arts is [ Martial Arts: Sharpness Sword ]. One-handed sword Martial Art.

When you use this skill, not only your attack power increase two times, but your sword will also covered with a thin aura-like layer which provides more sharpness to your sword," Myne said and left it up to Aisha and Sylphy to figure out how to use their skills on their own, while he himself took out a comfortable rocking chair from his Inventory and sit down on it, and use appraisal on everyone.

[ Name: Aisha Laurel

LV: 33

Race: Hume

Gender: Female

Age: 20 y/o

Occupation: B-Rank Adventurer, First Class Cook, Host's Beloved Fiance.

Title: Queen Of Archery, Heart Breaker, Master Chef.
