

Cheat. A 184

Chapter 184: Invincible Slime...

"Myne! Look there is a purple slime!!!"

"Hum? Where?!"

Myne after hearing Aisha's exclamation, hurriedly looked at the direction she was pointing at and saw a palm-sized purple colour slime by the pond on the other side of the pond and was about to enter the pond.

Seeing that the slime he was searching desperately was about to run away, Myne hurriedly opened a portal in front of himself and teleported right behind the purple slime.

The purple slime heard a loud water-splashing sound just behind it. Curiously it turned his head to see the source of the sound but what greeted him was the big open mouth of the glass container coming toward it, and before it could understand what was happening, it was already too late.

Phew, I almost missed it, Myne thought with a happy smile while coming back to the girls.

"Okay girls, now I have Tenfold Experience Acquisition for both of you, finally after working so hard. Don't forget to give me my gift tonight," Myne said with an evil smirk and gave both of them a knowing wink, then he looked at Ted and Waffle, and continued, "Sorry boys you have to wait some more days, I don't think we are going to find those mutant slimes anymore today."

"Don't worry, Just feed Ted and me some special delicious treats later and we'll forgive you, Waffle said while flying around Myne happily.

"Bow-Bow-Bow..."

"What happened, Waffle? Why does Ted suddenly start barking?? Myne asked confusedly to his personal universal translator after seeing Ted continuously barking while looking at him.

"He is saying that there is a creature behind you and is about to bite on your leg," Waffle replies puzzily while looking around but shows no creature near them, not only that he also doesn't smell any creature scent.

"What!"

Hearing Waffle's warning Myne hurriedly moved away from his position, but when he looked back, like Waffle he also saw no creature.

"Huh? Are you two playing pranks with me? Well, I have to say your acting skill is quite good, I get fooled by two performances, haha," Myne said jokingly, but in his mind, he already started planning his upcoming revenge.

"Bow-Bow-Bow-Bow-Bow-Bow-Bow..."

But Ted clearly didn't look like he was joking, he still didn't stop barking and quickly ran toward Aisha, and stood in front of her like a loyal guard, ready to sacrifice himself for his master, while staring and growling at the straight.

"Myne, Ted is saying that there is indeed a monster and now it is quickly running toward Aisha," Waffle said seriously, while looking around cautiously but no matter what he did, he couldn't find any trace of the creature at all

Looking at Ted's deadly serious expression, Myne finally became alert, and while following Ted's gaze he cast appraisal skill there.

[Name: Slime Hermit

LV: 22

Race: Slime Family

Gender: None

[Skill]

Concealment

[Ability]

Presence Erase • Complete]

"F*ck! There is an invisible slime!!!" Mytne exclaimed with shock and hurriedly cut off both its skill and ability. Just as he did that a pitch-black slime suddenly appeared in front of everyone.

But before everyone could react, Ted who looked visibly angry, quickly came in front of that black slime, and his eyes started shining very brightly and an extremely hot red colour laser beam shot from both his eyes directly blasting the black slime like a balloon.

"Wow! So cool, Myne, I also want this skill," Waffle yelled excitedly seeing Ted's laser eyes attack.

Even if I don't have this skill, how will I give it to you? F*ck, this skill is so awesome, I also want one, Myne thought envyingly, but no matter how much he want this skill he clearly can't take it from Ted, or his parents. Also, this is an ability, so even if Myne stole it, it was still no use for him.

"Ohh dear, are you angry because that slime wants to attack me? You are so cute, my little teddy, as a gift for protecting me, today I will make your favourite food, and you can eat as much as want," Aisha said happily while hugging Ted cheerfully.

While Aisha and Sylphy playing with Ted's laser eyes ability, Myne focuses his eyes on the skill and ability he just stole...

[Concealment]: Active Skill, After using this skill Host can hidden from external Interference. Can also be used on preferred targets.

The Cooldown Time: None

[Presence Erase • Complete]: (Active Skill) The presence of the user will be completely erased. No matter the methods, he/she will be unable to be identified.

The Cooldown Time: None

F*cking hell!!! This skill and ability combined together can grant literally perfect invisibility, the legendary skill that every thief dreams about.

If only I could use abilities as well, then after today on I would never need to worry about money, I can go anywhere I want, steal high-status people's confidential information and sell them to others at sky-high prices, but alas it seems like god doesn't want to give me easy life, Myne thought disappointedly.

As for how Ted finds out about that Invisible slime even though it was under the effect of its skill and ability? That has something to do with Ted's ability 'Nether Eyes'. This ability allowed Ted to not only shoot laser beams through his eyes but also let him see someone's soul and let him know his target's true nature wherever the other party is bad or good.

Anyway, although Invisible Slime's skill and ability combined can grant invisibility, but it clearly can't hide its soul, after all, a soul is a very mysterious thing, it is not something a slime could hide.

Then Myne pastes Concealment skill on himself, and after thinking for a while, he decides to give Presence Erase (Complete) to Waffle. As for why he decided that?

That's for two reasons, the first one is obviously because Waffle is a walking time bomb in Myne's life, although because of him, Fenrir and his friendship become very close which gives him a lot of benefits, but this friendship is no different then walking on the edge of the blade, if by any chance one day something happened to Waffle then his story probably comes to the end, so this live-saving ability can be very useful.

If one day Waffle gets into some big trouble and he can't help him on time, then it can save his life. The second reason is that other than Ted only Myne himself can see people's souls, so if he gives this ability to Ted, then it would be very hard for Aisha and Sylphy to find him if he causes some trouble and hides away.

"How was it? The power of the new skills?" Myne asked with a smile and kicked both glass containers into the pond.

"Let's see, my honest impression is that it's "Terrifying". Even with the skills I were originally awakened with, I felt that I was strong, but combined with the skills I received from Lord Husband, I felt really abnormal strength," Sylphy said excitedly while clenching her fist.

"Honey, can you please stop calling me Lord Husband, just call me Myne as you do during at night, there is no need to be so formal when there are no outsiders around us," Myne said helplessly.

"Sorry, Lord Husband but I can't fulfil this wish of yours," Sylphy stubbornly refused Myne's request.

Aisha who was playing with Ted and Waffle added to the conversation.

"I recalled the time when we were running away from the Orc King. But right now I think if I fight with it alone, then I can definitely give it a tough fight, of course, only if it doesn't have its skills, otherwise it is hard to tell whatever I can even run away from it, hehehe," Aisha said with a chuckle.

"Okay since you two have grasped your skills powers very well then let's end today's training here, let go back and eat something, my stomach is crying from hunger," Myne said and opened the portal back to Sylphy's room.

"Yes, let's return I also want to take a bath," Aisha said and quickly walked into the portal followed by Sylphy, Waffle, and Ted, In last Myne after looking around for the last time also walked into the portal and closed it immediately.

...

"My Lord, you are back!"

Just as Myne closed the portal and watched Aisha and Sylphy running toward the bathhouse speechlessly, suddenly their room door opened gently and a young beautiful-looking maid came in and spoke respectfully while bowing in front of Myne.

"Yes, what the matter?" Myne asked with a frown because as far as he remembered unless there was an important matter, or they called, no one was allowed to enter their room without permission. And after seeing the maid Myne already predicted that someone again wanted to ruin his rest time.

"My Lord, while you weren't here Prince Aniue came to meet you but after not finding you, he ordered me to immediately inform you when you return that he wishes to meet you." The maid said respectfully with her head down not daring to look into Myne's eyes.

"I understand, you can go now," Myne said with a poker face.

After hearing Myne's order, The maid nodded her head, and after giving Myne a gentle bow, she turned around and started walking toward the exit, but before she could even walk 2 meters, Myne's cold voice came from behind her.

"Remember next time when you enter someone's room don't forget to knock first, otherwise, it can be very harmful to your job."

Cold sweat broke out from The maid's forehead as she heard Myne not so friendly voice, she hurriedly turned around and gave a deep bow to Myne and apologised, "My lord, I understood, thank you for forgiving this lowly servant, I won't do this kind of mistake again."

Now even a maid wants to climb on my head, she has a lot of guts, just because she is a little pretty and has big boobs, does she really think that nobody punishes her for her mistakes? Next time if she does something like this again, I will definitely punish her properly, Myne thought coldly while watching the maid running away from his room.

And what the hell elder brother want from me now, doesn't he have nothing better to do other than running in the palace all day long? Myne thought while rubbing his forehead.
