

## Clan Cultivation 58

### Chapter 58

Approaching Ziyang Mountain, I noticed that Ziyang Mountain has changed a lot.

On top of Ziyang Mountain, there are six more peaks, and the seven peaks are linked to each other, forming a supreme lore formation, as if a giant beast is dormant.

This is the supreme killing formation, the seven-star lore formation.

If it is arranged properly, even a Jindan cultivator can be killed.

Between the seven peaks, there are pieces of spiritual fields, in which spiritual rice and spiritual medicines are planted.

Lingmi, belongs to the imperial corn.

There are about 1,000 mu of corn emperor rice.

The grade of Jade Emperor rice is higher than that of Baiyang rice, and continuous consumption is also very beneficial to the cultivators of Zifu. However, the maize emperor consumes a lot of spiritual energy, and it is difficult to take care of, and it is impossible to expand the area of arable land, only a small amount of planting.

When the Lu family was at its peak, they only planted less than ten acres of corn.

But this old ancestor Jin was good, and he directly planted one thousand mu.

In the Lingtian, there are also large areas of chalcedony lucidum, tonglingzhi, celestial spirit grass, etc., second-grade elixir, third-grade elixir, and it seems that they can be harvested after seeing the growth.

Suddenly I saw some chalcedony mushrooms with a golden texture on them, which looked sacred and noble.

It is the Millennium Chalcedony Mushroom.

The Millennium Chalcedony Mushroom can be used to refine Zifu Dan.

I saw some spiritual trees, planted in the spiritual field, absorbing spiritual energy, and exuding a trace of the five elements in the distance, it is the five elements fruit trees.

Walking again, I saw some spiritual medicines, spiritual trees, etc., many of which I did not know.

There are also some courtyards and cave houses, some of which are rented to loose cultivators, and some are used to house disciples.

These are the properties of Old Ancestor Jin.

At the gate of Ziyangfang City.

Just by paying a piece of spiritual stone, you will enter Ziyangfang City.

The destruction caused by the war in the past has disappeared, only prosperity and excitement.

Here, a large number of loose cultivators are attracted to enter, and the monks are constantly coming and going. Some loose cultivators set up stalls on the roadside and sell things. There are also many foundation-building loose cultivators, sitting on the street, selling items, Tianling grass, psychic grass, washing marrow pill, Tianling fruit, etc., many high-level elixir can be found, not only high quality, price Also cheaper.

Looking at the stall by the roadside, Lu Xuanji wanted to make a move several times, but thinking that he had no money in his pocket, he could only endure it.

"Ziyang Pavilion."

Walking and walking, I came to a shop in the center of Fang.

Ziyang Pavilion is the shop opened by Jin Laozu.

There are high-end goods here.

In the shop, there is a glass cabinet on the left, which contains Foundation Establishment Pill, Tianyang Pill, Nirvana Pill, etc., which are all second-grade medicinal pills, which are useful for Foundation Establishment cultivators. The price is clearly marked on it; In the location, there is a Ziyang Dan, the price is 170,000.

In the glass cabinet on the right, there are a fiery red sword, a flag, a sword, etc. The second-grade spiritual tools are placed randomly.

On the wall next to it, there is a list with the prices of various medicinal pills, spiritual tools, etc. The price is one to two layers more expensive than the goods outside, but the quality is good and the supply is sufficient.

Many products can be bought in time.

Unlike some places, even if there is a spiritual stone, it may not be able to buy it.

When entering the Ziyang Pavilion at this time, it was completely empty, there was no one guest, and it seemed deserted.

It seems deserted, but the business is not bad, as long as you sell three or five pieces of goods every day, you can make money.

It belongs to three years without opening, and it is open for three years.

At this moment, there is a ninth-level qi training girl at the front desk. When she saw the guests coming, she stepped forward to say hello, "Daoist friend, when you arrive at my Ziyang Pavilion, what do you want to buy?"

Lu Xuanji's spiritual sense said, "Heavenly Crystal, the Jade of Creation, the Wood of Vitality."

"Wait a minute, the price of these three materials seems to be more than 3,000 spirit stones. I can't make the decision. Wait for me to greet the shopkeeper." The girl said and left.

After a while, a woman in a purple dress walked over and said with a smile, "Fellow Daoist, please come here."

Under the guidance, the two entered the private room.

The private room can be isolated from outsiders' exploration.

Trade here, don't worry about news leaks.

"Fellow Daoist, this is the item you need, and the price is at least seven thousand spirit stones."

The woman in the purple dress said, and took out the items.

A palm-sized crystal exudes a dazzling light, surrounded by thin golden lines, it is Tianjing.

There is also a piece of white jade, surrounded by Dao patterns, with a trace of spiritual energy surging, it is the jade of good fortune.

There is also a piece of wood, which has a strong wood energy and is full of vitality. It is the wood of vitality.

Lu Xuanji went forward to check, and the three goods were all of the highest quality, especially the weight of Tianjing was fifteen taels, the jade of good fortune was fifty taels, and the wood of vitality was three pounds. It is a discount to spend 7,000 Spirit Stones.

"Thank you, my friend."

Lu Xuanji said, put the three ingredients into the storage bag.

Again, he took out seven thousand spirit stones and handed them over.

Fortunately, I got some from Wu Quanwen, otherwise I really couldn't buy it.

"Fellow Daoist, there is a refining room. I want to refine and make a spiritual treasure." Lu Xuanji asked.

"Yes, ten spiritual stones a month."

The woman in the purple dress said.

"Thank you."

Lu Xuanji said.

"It's very convenient to rent it in the west." The woman in the purple skirt said, "But don't delay, you can go out after a month Why is this?"

Lu Xuanji asked curiously.

"Because in a month, Patriarch Jin Xi will go out to preach. That is Patriarch Jindan's speech. For us foundation-building cultivators, it is a great blessing. If some cultivators get the teacher's advice Recognition, and may even be included in the door wall by the teacher."

The woman in the purple dress said.

"It is indeed a great opportunity." Lu Xuanji nodded, "What do you call fellow Daoists?"

"My name is Ye Xuan."

The woman in the purple dress said.

"But he's from the Ye family." Lu Xuanji asked.

"Exactly, it belongs to the main line of Danyang sect, and I became a teacher not long ago." The woman in the purple skirt said.

"My name is Lu Xuanji, and I belong to the Lu family in Qingshui County."

Lu Xuanji said.

In this way, the two introduced their identities to each other and said some innocuous words. After sitting for a few minutes, Lu Xuanji left.

To the west of Fangshi, I rented a cave.

In the cave dwelling, there is a refining furnace, and a dead fire is burning below, and the formation controls the intensity of the fire.

I tried to adjust it a few times, and it felt good. The temperature of the flame was quite high.

Crash.

He took out the storage bag, one after another, fell to the ground one after another, began to sort out, count the quantity, and then began to adjust the breath.

After adjusting the breath for a long time, he activated the ground fire and began to refine the Heaven-boosting Cauldron.

Ding, there are yin and yang.

The three-legged tripod is a round-bellied tripod, which is the yang tripod; the four-legged tripod is a square tripod, which is the yin tripod.

The three-legged tripod is mainly for offering sacrifices to heaven;

Four-legged tripods are mainly used for worship.

The cauldron refined this time is a big cauldron with three legs and a round belly.
