

Clan Cultivation 67

Chapter 67

At the moment when Lu Xuanxin got the inheritance of the Devil Emperor.

In the void, a huge qi shot up into the sky, the breath of the devil's way leaked out, and the breath of the devil emperor suppressed the Eight Desolations and Six Harmonies.

This is the breath of an unparalleled powerhouse in the magic way!

At this moment, one after another aura was sensed.

"This is the breath of the devil's way!"

"The inheritance of the white bone lineage has appeared again!"

"If someone gets it, another strong demon emperor will be born in the future!"

The top cultivators in Chu State sensed it and went to look for opportunities; some cultivators shouted that they would also kill the devil; some wanted to take advantage of the fire. All kinds of monks moved to the place where the magic energy appeared.

Ziyang Mountain.

In the cave, Ancestor Jin Xi had just finished his cultivation when he suddenly felt a huge demonic energy appearing in the distance. The demonic energy contained supreme coercion, as if a demonic emperor had descended.

brush!

Ancestor Jin Xi finished the retreat, walked out of the cave, and looked into the distance.

Five thousand miles away, there is a demonic energy rising.

"The White Bone Devil Emperor, this is the breath of the Supreme Being of the Demon Dao... According to legend, three hundred years ago, the White Bone Devil Emperor was besieged by three Immortal Dao Yuanying True Monarchs and perished on the spot. But the opponent's loss was not light. One Yuan Ying Zhenjun perished, one Yuan Ying was seriously injured, and the other Yuan Ying was slightly injured."

"The White Bone Devil Emperor died, but the white bone relics he left behind are nowhere to be seen. Some monks got the white bone relics by chance. It's a mountain of corpses and a sea of blood!"

A trace of worry flashed in Ancestor Jin Xi's eyes.

The White Bone Demon Emperor is a demon cultivator in the late Nascent Soul. He is full of magical powers. Legend has it that he has the hope of entering the overhaul of God Transformation, but because of this, he was attacked by the Immortal Nascent Soul and finally fell.

During that battle, the bone relic disappeared.

The white bone relic of that grade already has three golden lines, which is of great benefit to cultivators.

I was afraid that some cultivators would hide the relics after they obtained the white bone relics, causing boundless killings.

Most of the magic methods are mainly killing.

The Seven Veins of the Devil's Way, Huangquan Devil Sect likes to devour ghosts, control ghosts, and refine hundreds of ghost banners; White Bone Devil Sect uses white bones as materials to refine various magic tools; Hehuan Devil Sect pays attention to both yin and yang cultivation, yin and yang fornication, and many fall into Silver chaos, red dust entanglement; Blood Shadow Demon Sect, relying on killing, drawing blood and improving cultivation;

The Zombie Demon Sect, based on corpses, refines zombie puppets.

The Supreme Demon Sect takes pleasure in playing with the emotions of all beings.

The Seven Vessels of the Devil's Way have been passed down from ancient times to the present. After thousands of years, at some stage, they were killed by the cultivators of the Immortal Dao, but the Devil's Way will soon usher in recovery.

Because of unwillingness.

As long as the cultivator is unwilling, he can fall into the devil at any time.

Any cultivator who is unwilling has the possibility of becoming a demon, and he has the possibility to become a demon cultivator.

Many Five Spiritual Roots and Four Spiritual Roots, because of their poor aptitude, are almost unable to build foundations. Some of them are not willing to be mediocre for a lifetime, not willing to roll around in the Qi training period, but also want to become a foundation, become a purple house, and even become a golden elixir.

So these cultivators began to practice some exercises that were fast and had great hidden dangers, but they were able to prove the Way.

If not, then create some exercises by yourself.

It is very difficult to create a perfect, perfect, and flawless practice.

It is possible to create some exercises with many loopholes and flaws, but the cultivation speed is fast, but it is not difficult.

This is the original magic way.

Many loose cultivators embark on a path to pursue speed, but ignore other paths. This path is called the magic path.

Many people died on the road of cultivating demons and turned into dead bones.

But there are always peerless geniuses, who were born in the rough and blazed a new path.

These arrogances are the ancestors of the magic way.

In the beginning, the loose cultivators were not called loose cultivators, but wild cultivators.

Ye Xiu, there is no orthodox exercise method, they are like scattered sand.

In the initial era, the Xiandao sect monopolized everything, prohibiting the leakage of foundation-building exercises, prohibiting the leakage of foundation-building pills, and prohibiting the leakage of various resources.

The Xiandao sect stipulates that monks are not allowed to build foundations without a sacrifice.

Ye Xiu builds a foundation, and everyone can kill.

Every once in a while, the Xiandao sect even hunted Ye Xiu, like hunting rabbits.

At that time, the loose cultivators were old and miserable.

As a result, a peerless arrogance appeared in the loose cultivators. Under the pursuit of the immortal Dao faction, he continued to become stronger, and finally became a god.

After proving Dao and transforming into a god, he hated the immortal sect and chased him down, and began to fight against the immortal sect.

The fierce battle has lasted for thousands of years, and countless immortal sects have declined and destroyed, resulting in a great change in the pattern of the cultivation world.

Countless immortal sects chose to retire.

That loose cultivator even created the Blood Shadow Demon Sect and became the earliest Demon Sect.

Later, there were the Seven Veins of the Devil's Way one after another.

Because of the threat of demons, Xiandao had to win over the middle and low-level monks. He was relatively open to various exercises, medicinal herbs, etc.; , while exploiting.

Gradually, the current pattern of the cultivation world was formed.

"not good!"

Sensing the leakage of demonic aura, Lu Xuanxin felt a little uneasy.

The righteous and the devil are at odds.

Demon monks often chase and kill righteous monks call righteous monks hypocrites;

The cultivator of the right way often kills demon cultivators, talking about slaying demons and exorcising demons.

He was tainted with the aura of the devil's way, and he entered the lineage of the white-bones devil cultivator.

Not only will he be killed, but his family will also be killed

He wanted to say goodbye to his family, but after thinking about it, he gave up. He left the courtyard directly, and immediately walked to Beihe Town, towards the depths of the mountain.

The farther away from home the better, the farther away from home the safer.

Looking back, it was still in the dark night.

"Farewell, I'm going on the road of longevity!"

Looking at Beihe Town, he left and walked towards the deep mountains.

"The breath of the devil's way, maybe a magic treasure has appeared!"

At this moment, Lu Xuanji saw a tacit understanding surging three hundred miles away.

After taking a look, he continued on his way.

He didn't even have the slightest intention to come forward and ***** the treasure.

How much ability, how much food to eat.

If he was a Jindan cultivator, he wouldn't mind stepping forward to ***** it, and he wouldn't mind stepping forward to ***** the magic treasure; but he was only building the first floor of the foundation, and he was also delivering food when he went up.

It is impossible to say that he was killed by a certain ancestor as a demon cub.

The four major sects of Chu State are all sects of the right way, and they detest demons.

Every year, some cultivators are dismissed as demon cultivators.

The world of comprehension lacks everything, but there is no shortage of ghosts.

Brush brush!

Leaving directly in the opposite direction, this time I will go to see the second sister.

The second sister is of five spiritual roots, and her aptitude is not good. It is said that she is already married. Now she is going to see the second sister's family.
