

Clan Cultivation 69

Chapter 69

Time flies, and a year has passed in the blink of an eye.

On this day, the aura on Lu Xuanji's body was surging, and the foundation level was already established.

In the dantian and meridians, the true essence has been filled up, and there is no way to add any more. The price is that three thousand spirit stones were wasted in just one year. Usually, the annual income of a foundation-building cultivator is only between three hundred spirit stones and five hundred spirit stones. There are a lot of lost spirit stones, and the corresponding improvement speed is also fast.

As for the vain foundation caused by absorbing the spirit stone, it was also compensated by the Heaven Repairing Cauldron.

The Heaven Repairing Cauldron can purify the true essence and improve the quality of the true essence.

Huhu!

Lu Xuanji's voice urges his true essence to tear his dantian apart and expand his dantian.

The volume of the dantian is expanding and at the same time shattering, but the true essence is repairing; then, the meridians are torn apart, expanding the width and toughness of the meridians.

It is constantly expanding and repairing.

The real essence is being consumed violently, and the volume of the dantian is expanding and becoming stronger.

After the Dantian was expanded by three layers, Lu Xuanji also entered the foundation building.

Huhu!

One after another, spiritual energy entered the acupoints and meridians. After walking around, it was refined into true essence, and every drop of true essence was deposited in the dantian. Feeling the improvement in cultivation, Lu Xuanji was very satisfied.

It's just that I'm out of money!

In the pocket, there are only three hundred spirit stones left.

"Heaven-Mending Cauldron exists, you can constantly absorb spirit stones to improve your cultivation level, and you don't need to worry about the vain real essence, but it's too expensive!"

Among Lu Xuanji's joy, there was a hint of sadness.

"Brother, you're out of the border,"

At the entrance of the cave, I happened to meet Ye Feixue.

"It's out!"

Lu Xuanji said.

"Brother, you have entered the second floor of the Foundation Establishment." Ye Feixue looked at it, a ray of light flashed in her eyes, and a faint pressure swept over.

Lu Xuanji was slightly shocked and said, "That's not as good as you, how many floors are you?"

Ye Feixue said, "It's only three layers of foundation building, the speed is a little slow!"

Old Versailles.

You are flying, you can't fly as fast as you.

It was only twelve years after the foundation was established, and it was the third floor of the foundation. This is the opening!

No!

Ye Feixue didn't hang up, but she was still very fast, surpassing Superman.

"Xiaoxue, I'll lend you something!"

Lu Xuanji just pondered for a moment, and then handed over the Heaven Patching Cauldron.

"This is a first-grade spirit weapon, it's very ordinary!"

Ye Feixue looked at it and frowned slightly.

A rank one spiritual tool is very useful for qi training cultivators, but not very useful for foundation building cultivators.

The foundation-building cultivators mostly fought with second-grade spiritual weapons.

"It can purify the true essence!"

Lu Xuanji said.

When Ye Feixue heard this, her eyes lit up.

Entering the realm of the Purple Mansion requires not only the accumulation of quantity and entering the ninth floor of the Foundation Establishment, but also the improvement of quality, such as the purification of True Essence to improve the purity of True Essence.

Many cultivators failed to attack the Purple Mansion because the purity of their true essence was not high.

"Yes!"

Ye Feixue took the Heaven Repairing Cauldron, and a trace of True Yuan entered it. After a while, she spat out a trace of True Yuan, but the purity improved a lot.

"Sure enough, it's equivalent to half a Zifu Dan!"

Ye Feixue had a look of joy on her face.

The price of a Zifudan is 150,000 spirit stones, but half a Zifudan is equivalent to 70,000 spirit stones, and this "half Zifudan" can still be used frequently, and the effect is somewhat good.

"Brother, I'll give it to you in three months!"

Ye Feixue said with joy.

There are nine levels of foundation building, each level is a small bottleneck, and what restricts the bottleneck is the purity of true essence.

She originally planned to settle for three years, improve the purity of true essence, and then build the fourth floor of the foundation.

But with the Heaven Repairing Cauldron, it only takes three months to purify the true essence and enter the fourth floor of the foundation building.

"The first elder is calling us to say something happened?" Ye Feixue said, "The first elder has been waiting for you for a month when he learned that you are in retreat."

"what happened?"

Lu Xuanji asked.

"One of our mines was attacked by cultivators and suffered heavy losses. Three cultivators in the late stage of qi refining have fallen, and fifty-two cultivators have died!" Ye Feixue said what happened.

When they arrived at the conference hall, the five foundation-building cultivators of the Lu family gathered together.

My father and sixth aunt were not healed from their injuries, but they also attended the meeting.

Seeing Lu Xuanji and Ye Feixue coming, the first elder nodded, motioned to sit down, and directly pointed out the theme: "Recently, a copper mine in my Lu family was attacked, and the Lu family cultivators suffered heavy casualties and even We lost 3,000 catties of red copper, and our Lu family suffered heavy losses, and we must take revenge!"

"Who is the murderer?"

Sixth Aunt Lu Jinxiu said.

"According to the traces of the spell at the scene and the case analysis, it can be inferred that the murderer is the cultivator Zao Wou-Ki!" The Great Elder said, "Zao Wou-Ki is only a third-layer foundation building, so it's not difficult to kill. But I can't be sure that he has Without helpers, it is impossible to determine what powerful magic weapon he has, where he is, and no trace of him can be captured."

"In the battle of monks, the most difficult thing is not to kill the enemy, but to find the trace of the enemy! This old man intends to take action himself, find the trace of Zao Wou-Ki, and kill him."

Having said that, the first elder was murderous.

Recently, some of the Lu family's industries, some minerals, have been attacked by the bandit Zao Wou-Ki, and the Lu family suffered heavy losses.

If you don't respond.

Some other cultivators will also attack one after another.

The Lu family had to take action and strike hard to deter some tigers and wolves.

"Not right!"

At this moment, father Lu Jinwen opened his mouth and said: "Seventh Uncle, it's not right, it's wrong. Seventh Uncle is already on the eighth floor of the foundation building, and we should seize the time to break through the ninth floor of the foundation building. This is the most important thing. If Seventh Uncle is busy chasing Zao Wou-Ki outside, he will waste time. The loss will outweigh the gain."

"Yes, Uncle Seven, this is the most important thing for you to step into the ninth floor of the foundation building. As for other things, it is not important!" Lu Jinxiu also said: "Why did the bandits dare to rob my Lu family? My Lu family is weak. If a Zifu cultivator is born, even if it is half a step in Zifu, it will be of great significance!"

"Who will I go if I don't go?"

The first elder said, "You two have not recovered from your serious injuries. As for Lu Xuanji and Ye Feixue, they are too young and too young! I don't worry about them going out!"

"Elder, I don't think Zhao Wuji is worth your shot. Xiaoxue and I are also foundation-building cultivators, and we can handle the crisis on our own. Even if we lose, we can retreat!" Lu Xuanji said: "The flowers in the greenhouse don't grow much after all."

"But the two of you have good aptitudes. There is hope in the future for the Zi Mansion, but you are still too young. If you lose it, my Lu family can't afford to lose it!" The first elder said, a little worried.

The outside world is not safe.

The two juniors in the early stage of foundation building are easily damaged outside.

If they died, the Lu family might be caught in the middle of no connection.

Looking at the younger generation, there is no one who can lead the way.

"Elder, I think it's time for the two children to go out and go outside to find some opportunities!" Father Lu Jinwen said, "It's not just about Zao Wou-Ki, but also the lack of resources in the Lu family. Yue, I can only give Xuanji three hundred spirit stones and Xiaoxue two hundred spirit stones, and sometimes it is not enough."

"The resources of the Lu family are limited, and they are not enough to train a cultivator of the Zifu. If Xuanji and Xiaoxue want to be successful, they must go outside, hunt monsters, and look for opportunities, so that they can have the opportunity to enter the Zifu period. Lu Family, there is no chance at all!"
