

## Clan Cultivation 88

Chapter 88

brush!

Lu Xuanji mobilized the Lihuo Sword and slashed out with one sword, and immediately a foundation-building demon wolf was beheaded.

hoo-hoo!

At this moment, a white tiger opened its mouth and spit out a gengjin sword, stabbing towards Lu Xuanji's neck.

Father Lu Jinwen mobilized his shield to block the ultimate move of the white tiger monster.

At the same time, a demon wolf attacked, but was slashed by the elder with a sword.

The three of the Lu family stood side by side, rushing forward, one attacked, and the two took care of the flanks and rear, and cooperated with each other.

When Lu Xuanji was attacking, he could safely hand over the rear and flanks to the elder and father.

When the Great Elder was urging the flying sword to assassinate and the fire was burning, he subconsciously controlled the true essence, reduced the consumption of the true essence, and always kept the true essence at the seventh level.

Once the real essence falls below the seventh floor, immediately take the vitality pill to make up for the loss of oneself.

The first elder was the pinnacle of the eighth floor of the foundation building, and he almost entered the ninth floor of the foundation building, but he was willing to assist him. The main force of the attack.

This is also the plan of the Great Elder before the war.

During the battle, the Great Elder must remain at the peak, and once things change, he can retreat.

If the real energy consumption is too high during the battle, there will be unforeseen dangers.

The three of them are also rushing to kill quickly. When they attack the monster, they will be divided with one move. Regardless of whether they win or lose, they will leave quickly, without dragging their feet or staying in place.

In this way, on the battlefield, by moving fast, you can avoid being stared at by some purple mansion monsters, and attack them.

These battle experiences were all drawn by the Great Elder in previous wars.

In this way, they will not be held back and faced harsh criticism, but they can also maintain a certain hope of survival and live to the end of the war.

Boom boom boom!

Feijian stabbed to death, the sky fire was burning, vines were entwining and besieging, and the three of the Lu family were rushing to kill, and Lu You eight monsters were killed on the spot.

The corpses of these monsters were put into storage bags as trophies.

The rules stipulated that the spoils of war should not be hidden, and the spoils of war would be distributed afterwards.

But on the battlefield, the corpses of the beheaded monsters belonged to the monks.

These are the corpses of the base-building monsters. The inner alchemy of the monsters can be used to refine the foundation-building dan, or other auxiliary medicines; the skins of the monsters can be used to make talismans; the teeth and bones of the monsters can be used to make talismans. Refining demon soldiers; the blood of demon beasts can be used to make talismans.

The foundation-building monster is full of treasures.

The corpses of the foundation-building monsters range in price from 5,000 spirit stones to 10,000 spirit stones.

For this expedition, the Lu family used three foundation-building cultivators, and also paid 14,800 spiritual stones, which cost a lot of money. But just the corpses of these eight monsters can already make a return, and they can make a small amount of money.

At ordinary times, it is almost impossible to hunt down eight monsters.

The base-building monsters are also wise, and there are also a large group of Qi-training monsters below, which are difficult to kill. Even if you can't beat it, you can run away quickly, and you can call the nearby base-building monsters to come to support. In some cases, even the Zifu monsters will be summoned to help.

Humans have to pay a corresponding price every time they hunt down a foundation-building monster.

But now the two sides are caught in a war, with Old Ancestor Jin at the front, and a dozen Zifu cultivators resisting in front, the danger still exists, but the risk index has dropped a lot.

Brush.

At this moment, another foundation-building monster was killed.

Lu Xuanji gasped slightly, the real essence on his body wasted as much as six layers.

After greeting, his father Lu Jinwen was in front of the lord, and Lu Xuanji began to be an assistant, taking the vitality pill to speed up his recovery.

"brush."

At this moment, a monster in the Purple House fired a monster blade from the air, turning into a waning moon, and attacking the three Lu family.

"not good."

At this moment, the Great Elder urged the shield, and the shield was getting bigger, blocking the front.

But that was a blow from Zifu, how terrifying it was.

Stab.

Just a crisp sound, the shield was torn apart.

Just when they were about to cut through the bodies of the three, a pair of wings appeared behind Lu Xuanji. The wings were flapping, and the speed was extremely fast.

One to the left, one to the right, holding his father and the first elder, dodged the attack of the Moon Blade.

The father was still a bit slow, the moon blade slashed on the father's shoulder, and the right arm was directly cut off, falling to the ground, and blood sprayed out.

He just grunted, using his true essence to stop the bleeding.

The wings were flapping, and they were already 300 meters away.

Boom boom boom!

The remaining strength of the moon blade hit a human cultivator. The base-building cultivator's body was cut in half, and it seemed that he could not live or die.

"Cough cough."

The first elder coughed, his shield was shattered, and he was also affected, so he took a blood nourishing pill.

The big demon of the Zifu was mobilizing the demon power, so he was going to make another move, but at this moment, the cultivator of the Zifu of the human race slashed down with a sword, white light like snow, and cold as frost.

The purple manor's coat stimulated the demon power and turned into a moon blade and slashed down.

Boom boom boom!

The two fought together again.

The three of the Lu family stood aside, gasping for breath.

The Great Elder's shield was damaged and he suffered internal injuries; his father broke an arm, and his injuries were serious; Lu Xuanji was not injured, but he was able to mobilize the wings of freedom to dodge the attack of Zifu, which was also a lot of consumption.

At this moment, the three-headed wolf demon urged the wind blade to bombard the three Lu family members.

Taking advantage of your illness, I will kill you.

The base-building monsters are no longer inferior to humans in terms of IQ. At this moment, seeing three human beings injured are also attacking one after another, trying to kill them.

The Great Elder didn't care about the injury, and urged the long sword to kill the three-headed wolf demon.

Jianguang's three points, the reality changes.

Ding dong.

Ding dong.

The wind blade and the sword light were intertwined, making a loud noise.

In the end, the three demon wolves changed their shapes and attacked from three different corners.

One person attacked a cultivator, and each of them was destroyed.

Immediately, the three Lu family fell into a critical situation.

"Forget it, I can't hide it."

Lu Xuanji took a deep breath, the wings of freedom behind him mobilized, adjusting the speed on the wings, the speed increased rapidly, and instantly turned into a stream of light, beheading the wolf demon.

Activating the [Sky Fire Art], the eighteen Heavenly Fire Talismans in the dantian are surging, merged into the true essence, and turned into a sword of extinction.

It was comparable to a wolf demon on the fifth floor of the Foundation Establishment, but his waist was cut off by a sword, and he died on the spot.

Lu Xuanji also swayed slightly. Two layers of his true essence were lost, and there were less than three layers of his remaining true essence.

Brush.

The Great Elder slashed down with his flying sword, and the sword light was like snow, beheading the wolf demon, killing another wolf demon.

Instead, my father was in a critical situation and lost to the wolf demon.

The big elder slashed with a sword, but the wolf demon became alert and summoned other monsters, and three monsters came to slaughter, one was a cow demon, a feather demon, a carp demon, etc., killing with murderous aura to three people.

"retreat!"

The first elder said and retreated towards the direction of the Ye family.

Leaning against a big tree is a good way to enjoy the shade.

When the first elder approached the Ye family, he said, "My cultivator of the Ye family is injured. I would like to ask the Ye family for help. There will be a great reward afterward."
