

Clan Cultivation 93

Chapter 93

One after another, they read the major cultivator families, as well as the merits and subsidies of the loose cultivators.

Soon it was the Lu family's turn. The Lu family killed fifty qi training monsters, thirteen foundation-building monsters, and obtained 280,000 spirit stones.

This is much higher than the previous estimate.

Soon the list will be finished.

In order to reward the meritorious monks, commiserate the fallen monks, etc., a total of 17 million spirit stones will be spent.

Spending a lot of money, especially in rewards and pensions, is a big one.

But this money can't be saved, not only can't it be saved, on the contrary, it has to be given arrogantly.

Otherwise, next time, who will fight hard?

This is just compensation and rewards, as well as the consumption of elixir for damaged spiritual treasures, the consumption of talismans, etc. These consumption of spiritual stones are not included in it.

This means that in order to fight this battle, Jin Laozu lost nearly 20 million spirit stones.

When the cannon goes off, the gold is ten thousand taels.

Fighting a war, whether you win or lose, will cost you a lot of money.

It is also that Patriarch Jin is rich and can afford such a arrogant battle; the others have no money at all to organize such a war.

This is still built on the basis of winning this battle.

In this battle, the losses will be huge, and the damage will be large; or if the entire army is destroyed, more money will be consumed.

These rewards will not be issued directly in the form of spirit stones.

If it is sent directly, it may cause inflation and market chaos.

Instead, it is converted into medicinal pills, exercises, spiritual treasures, secret realms, spiritual mountains, spiritual veins, etc., and distributed to the cultivator family; some can be delayed for a while before they are distributed.

Ancestor Jin said, "I have a treasure exchange column here. The monk family can send monks to exchange treasures. The Wu family will come first!"

Having said that, Old Ancestor Jin entered the private room.

The head of the Wu family entered it, and exited after a while, with joy on his face.

Then the Ye family, the Sun family, etc., entered the private room one after another, exchanging treasures.

When they came out, they were all beaming and very happy.

Soon, it was the Lu family's turn.

The Great Elder said: "Xuanji, you go, look at the exchange!"

"Okay!"

Lu Xuanji didn't shirk, and went directly into the private room.

Old Ancestor Jin sat opposite, waved and threw an exchange slip, and said, "The above is the exchange item, you can choose it!"

Lu Xuanji took the list of treasures and began to look at it.

[Building Foundation Dan, the price is 15,000 Spirit Stones]

[Purple House Dan, the price is 170,000 spirit stones]

[Ziyang jade, the price is 230,000 spirit stones]

[Tian Huo Wuji Art, which can be cultivated to the later stage of Jindan, one hundred thousand spirit stones are needed for personal purchase, and 500,000 spirit stones are required for family purchase]

[Pure Yang Tianhuo, the grade is a great supernatural power, 500,000 spirit stones are needed for personal purchases, and 1 million spirit stones are needed for family purchases]

[Pure Yang Dan can refine the body, purify the true essence, and the probability of hitting the Purple Palace Realm can be increased by one layer. The price is 100,000 spirit stones.]

[Ancestor Jin gave instructions for three days, the price is 200,000 spirit stones]

On the exchange list, there are Jindan period exercises, great supernatural powers, third-grade medicinal pills, Jindan guidance, etc. The starting price is more than 100,000, and some prices are more than one million.

Lu Xuanji clicked his tongue.

I hate that there is less money to use for prescriptions.

With 280,000 spirit stones in his pocket, he thought he was a big money.

But looking at the exchange list above, I realized that he was still poor.

There are many things that I can't afford at all.

The things above are a little expensive, but you get what you pay for, and many things can't be bought on the market.

In other words, even if you have the money to buy these, you are worried about Lu Bai, which will attract the strong coveted to hunt and kill.

But at Old Ancestor Jin's place, it can be easily exchanged without worrying about killing people and stealing treasures.

"Senior, tell me, what should I exchange?"

Lu Xuanji asked.

Even if there is an item description on the exchange catalog, but you still don't understand it, you should ask Old Ancestor Jin directly!

Ancestor Jin nodded and said, "Do you know the Nine Difficulties of Zi Mansion?"

"I know a little bit about this, but I'm not very clear!"

Lu Xuanji said directly.

"There are nine difficulties in Zifu, namely, the difficulty of lifespan, the difficulty of true essence, the difficulty of meridians, the difficulty of acupuncture points, the difficulty of soul, the difficulty of heaven fire, the difficulty of nightmare wind, the difficulty of heaven and man, the difficulty of asking the mind, the difficulty of the road, the difficulty of qi luck, and the difficulty of cause and effect. Old Ancestor Jin seemed to have thought of something, and suggested, "The foundation-building life span is only two hundred and forty years, and the lifespan is too short. The second spirit root and the alien spirit root are easy to say; as for the third spirit root, it is not difficult to want the Purple Mansion." Less than five spiritual roots to achieve foundation building."

"If there is no great chance, before the lifespan is exhausted, the three spiritual roots will at most become the sixth floor of the foundation. This is the first difficulty."

"Only by taking a lot of spirit medicines and spirit pills can you reach the peak of the ninth floor of foundation building before your lifespan is exhausted, and there is a slight chance of achieving Zifu. However, taking a lot of spirit medicines will make your foundation empty and your true essence. Impure, it is the second most difficult."

"If you buy the Pure Yang Pill, you can purify the true essence to the eighth level, overcome the first two difficulties, and your great elder can take half a step into the Purple Palace!"

"Many thanks, senior." Lu Xuanji said, "During an adventure, I obtained the Pure Yang Pill, which can help the elder to purify it to the eighth level."

Chunyang Dan, he did not have it.

But he has the Heaven Repairing Cauldron, the moment when the Heaven Repairing Cauldron entered the second-grade spiritual tool can purify the true essence to the eighth level, which can replace some of the effects of the Pure Yang Pill.

"Hey, you are lucky!"

Old Ancestor Jin said: "But the third difficulty is to open up one hundred and eight small meridians, one thousand tiny meridians, and one hundred thousand tiny meridians. Forget it, this is too difficult for you three spiritual roots. You three spiritual roots, you can directly open up one hundred and eight small meridians, even if you pass the test!"

"The fourth difficulty is to get through the three hundred and sixty-five acupoints of the human body. These two difficulties require Ziyang Pill. If the two spiritual roots only need one Ziyang Pill, the third spiritual root needs three Ziyang Pills."

"The fifth difficulty, to strengthen the soul, you need Ziyang Jade. You need one for the second spiritual root, and three for the third spiritual root."

"The sixth difficulty, the seventh difficulty, the eighth difficulty, this is half of life and death, but it is death!"

"As for the next four difficulties, it affects the height of the future."

"Now, you know the difficulty of the Purple Mansion!"

Lu Xuanji bowed and thanked: "Senior's guidance, only know the difficulty of Zifu."

The Lu family once gave birth to three cultivators of the Zifu. They left notes and recorded the twelve tribulations of the Zifu, but they were all vague and did not describe in detail.

It is only said that the probability of achieving the Purple Mansion with three spiritual roots is 1/10, the second spiritual root is on the third floor, and the alien spirit root is on the fifth floor. Only the five spiritual roots will inevitably enter the Purple Mansion.

I just mentioned that Pure Yang Pill, Ziyang Pill, Ziyang Jade, etc., can assist in cultivation and help to break through the limit.

As for why.

As for the Twelve Difficulties, the specific difficulty and the specific process are not described.

I was puzzled at the time, but now I understand.

I didn't make it clear, it was just to prevent some base-building cultivators from despair.

In many moments, ignorance is happiness, at least ignorant people will not see the hard side.
