

# Complete Martial Arts Attributes

## Chapter 1321: All the Human Martial Warriors Will Be Buried Here!

1321 All the Human Martial Warriors Will Be Buried Here!

The sudden cannon rain caught the dark apparitions by surprise.

Many dark apparitions were left in shock.

Then, they felt endless fear!

Passing from astonishment to fear merely took a split second. Their faces showed troubled expressions.

They didn't have any time to react, and could only watch the attacks as they landed. Their dazzling glow was like watching fireworks, beautiful and glaring.

The pupils of all dark apparitions constricted.

Boom!

Explosions were heard. Force volleys plummeted down and a large number of the dark forces were swallowed by the explosions.

Numerous apparitions were killed in a matter of seconds, their bodies shredded to pieces; they couldn't be any more dead. Many other apparitions were heavily injured too. Cries of agony pervaded the area.

"Enemy attack!"

There was terror and anger in their shrill cries. Their voices echoed in the sky and soared right to high heaven.

That voice was like that of a beautiful lady who had just taken off her clothes to bathe, and a pervert suddenly showing up and sniggering at her. This was the cry of the affronted lady.

Roar!

"Enemy attack!"

“Enemy attack!”

“Activate the defense shield immediately!”

...

All the apparitions finally reacted. Shouts of fury were heard amid the grandiose mess.

The Obelisk Scale Dragon Beast was alerted. It gave off a thunderous howl.

Howl!

Many cannon shots landed on the massive creature, waking it up from its deep sleep. It was uninjured, but the building on its back was damaged.

Devil Emperor Bare Brain rushed out from the building and showed up in the sky. His face was frosty, gaze as cold as ice.

Jefred, Xuelun, and the other mid-tier devil emperors also showed up.

“What’s happening?”

They stared at the scene, disbelief on their contorted faces.

Boom! Boom! Boom!

Just then, another round of force blasts rushed towards them from afar.

“Activate the defense shield!” Bare Brain said in a cold voice.

A low-tier devil emperor rushed over hurriedly and shouted in fear, “Sir, someone damaged the defense shield!”

“What!” Jefred and the others were stunned.

“How did this happen? Who damaged the defense shield?” Xuelun grabbed the dark apparition and asked furiously.

The underling was terrified. He stuttered, “I, I don’t know!”

“Useless!”

Bare Brain was indignant. The lesser devil exploded into blood mist before being able to scream in pain.

The force blasts landed right after.

A light shield surrounded Bare Brain and the other devil emperors, blocking the impact.

Boom!

The defense shield vibrated, shattering instantly amid the explosions. Both the blasts and the shielding were obliterated, proving how powerful the attacks were.

The blasts had been fired from celestial level, cosmos level, and even heaven level battlecrafts. Their power was undeniable.

Bare Brain's expression became even darker.

Considering the attack's magnitude, the other party had certainly made preparations.

But, how is this possible?

They were extremely well-hidden, so how did anyone find them?

Furthermore, the other party headed straight to their base and they didn't notice a thing.

This is impossible!

Bare Brain racked his brains, but he didn't understand how this happened.

Having a spy amongst their ranks was inconceivable.

Boom! Boom! Boom!

Waves of explosions crashed towards them. The cannon fire reached the apparitions and exploded.

The creatures started to evade the attacks after the first round of panic.

They were within the forest; it would be hard to home in on them once they went further in, especially when considering their speed.

Even if it was a wide-range attack, the effects would be minimized.

That was why General Cameron ordered the cannon fire to stop and launched the full-force attack.

Kill!

Kill!

Kill!

Battle cries erupted all around the mountain. Martial warriors hidden in the dark charged out and killed the escaping apparitions.

Never did the latter expect so many human martial warriors coming out from hiding. They had been focused on running and couldn't react in time; many of them were slaughtered.

"It's the human race!"

Xuelun and the other dark apparitions gritted their teeth in anger when they saw this happen.

They were intercepted by enemy humans.

This was a first. They were always the ones invading human territory and conducting massacres in their regions. Now, things were different; they were the ones getting butchered.

What a humiliation!

"Sir, what do we do now?" Jefred asked anxiously.

Bare Brain was furious; anger boiled inside him like lava. His expression turned hideous as he said, "Since humans are looking for death, let's push forward the final battle.

"I'll make them pay the price!

"Open the dimensional rift and bury all humans here!"

"Yes!"

Jefred and the others had sinister smiles, gazes turning cold as they replied with excitement.

It had been a long time waiting for that moment to arrive. Since the humans were attacking, they could finally vent their frustrations and anger.

...

Boom!

Suddenly, frightening force fluctuations were radiated by Bare Brain's body, turning into a black pillar of light that shot into the sky.

The dark clouds churned and spun furiously. The black pillar crashed into space and gave off an immense amount of force.

Space became distorted and started to crack due to the pressure imposed by the pillar.

The pillar broke through and the nearby space collapsed, shattering like glass and turning into dust, disappearing into the pitch-black emptiness.

A deep and black tornado was formed; terrifying fluctuations originated from within.

Wang Teng was dashing above the forest when he noticed the phenomenon. His expression changed.

“Dimensional rift!

“The dark apparitions opened the dimensional rift!”

At first he thought that he knew everything about the apparitions’ resources; he didn’t expect them to have a hidden trump card. They already knew the space coordinates, so they just needed to open it.

Wang Teng was astounded; his face turned gloomy.

That was out of his calculations. There had been no news about the dimensional rift in the information he collected.

He was unaware that only the Devil Emperor Bare Brain knew the coordinates. The other apparitions knew nothing.

Also, this was done as a cautionary measure. It wasn’t supposed to be used unless absolutely necessary.

This moment called for it.

Just then, a few sonic booms rushed towards the young hero.

Wang Teng turned and saw General Cameron and the others, instantly showing up next to him.

“Colonel Wang Teng!”

General Qi Yuanju and the others sized him up before asking with concern, “Are you all right?”

“I’m fine,” Wang Teng said in an upset voice, “This isn’t the time to talk about this. The dark apparitions have opened the dimensional rift. A large number of apparitions may land on this planet.”

“Don’t worry, I predicted that this could happen so we planted our battlecraft all around the place to seal off the mountains. Even if they do come, they won’t be able to leave. I will make sure they never go back,” said the leading General in a confident tone.

“That’s good.” Wang Teng heaved a sigh of relief when he heard this.

Boom!

An explosion resounded in the sky all of a sudden. Silver bolts of lightning were shot down from the abyss high above, lighting up the dark environment.

The space tornado kept expanding amid the lightning and thunder. Soon, it was a few meters wide.

“The dimensional rift has opened in its entirety. Let’s hurry over,” General Cameron said quickly.

“Let’s go!”

Everyone rushed towards the valley. The human warriors would be at a disadvantage if too many apparitions showed up at once. They needed to stop them.

Boom!

Thunder and lightning echoed in the forest. The dimensional rift had become a few hundred meters wide, encompassing the entire sky. There seemed to be no end to it.

Suddenly, a sinister red glow appeared, coming from somewhere beyond the dimensional rift.

A giant crimson eyeball appeared behind the tornado. Terrifying spiritual fluctuations swept out as it looked down.

Distortion, frenzy, evil, rage...

Negative emotions were spread, filling up the sky.

“Devil titan!”

Everyone’s expressions froze, pupils shrinking.

## **Chapter 1322**

1322 Solar Dragon Race, Predicament!

“Devil titan!”

Everyone looked bewildered at the moment, their faces were full of shock.

The eye appearing from somewhere beyond the dimensional rift turned out to belong to a devil titan!

The confidence of General Cameron and the others was shattered instantly; all the humans looked solemn. Ominous premonitions welled up in their hearts.

A devil titan was enough to wipe out all the martial warriors present!

“Devil titan!” Wang Teng’s eyes flickered, his expression grave.

He had encountered the same scene before.

Back in the Xingwu Continent, when the dimensional rift opened, there was a huge eyeball watching them from beyond.

A long time had passed, yet the two images overlapped each other.

Back then, the people in the continent called the creature “Devil God.” It was just a stronger dark apparition and not a real devil god. Nevertheless, it was still scary.

Wang Teng learned what the name meant as his horizons widened. Not even a devil titan would dare call itself devil god.

The devil god name was a taboo!

However, even if the devil titan wasn’t a devil god, it was still terrifying. That beast wasn’t something they could deal with.

Just the chaotic spiritual attack of that eyeball was able to affect all the fighters below.

That sort of influence was extremely deadly in battle. The dark apparitions wouldn’t give them a chance to recover.

Fortunately, the humans were familiar with their tactics and immediately lowered their heads, all to avoid locking stares with the massive eye.

Even so, many low-rank martial warriors were still unable to withstand. Their spirits collapsed and went mad, having seen something terrifying and whispers of demons sounded in their ears.

“Damn it!” General Cameron and the others saw this and looked grim.

After such development, they were still lacking that final touch in their planning. No one would have imagined that the apparitions would summon a devil titan.

“Aren’t they afraid of crossing realms?” General Qi Yuanju clenched his fists and gritted his teeth.

General Cameron took a deep breath and calmed himself down. “This devil titan is smart. It is still on the other side of the dimensional rift; it hasn’t landed on this planet. That doesn’t count as crossing realms.”

General Ukeri roared, “Bastard. We were outmaneuvered by the apparitions.”

“Bare Brain, I didn’t expect that I would have to take action. You messed up everything!” said a cold, hoarse voice which came from the other side of the rift and echoed in the sky.

General Cameron and the others immediately stopped talking and looked up.

“Sir, this is my fault. I’m willing to go back and accept my punishment after we’re done with this battle,” Devil Emperor Bare Brain replied.

The black mist surrounding his body dissipated, revealing a tall and strong figure. He looked human, yet he had two dark red horns on his head and was covered with dark red scales. There was a sense of nobility to him.

He exuded pride and power above all bloodlines!

“The Solar Dragon Race!” General Cameron exclaimed in surprise when he saw the creature’s true appearance.

“What? The Solar Dragon Race!” General Qi Yuanju and the others turned their attention away from the giant eyeball and looked towards Devil Emperor Bare Brain. They were filled with surprise.

“It really is a solar dragon. Why is one of their kind among the dark apparitions?” General Kimberly frowned.

Wang Teng interjected, “That’s a devil mind dark apparition.”

No one understood that dark apparition better than him. After all, they were still discussing Dark Domain matters an hour before.

Ah, what a wonderful experience!

“A Devil Mind apparition!” The generals and those who overheard had a sudden realization and were shocked. “This devil mind creature actually snatched a body from the Solar Dragon Race. Unbelievable!”

“The dragons would go mad if they ever found out about it!”

“This devil mind monster is terrifying. To think he could even take a solar dragon’s body.”

...

Wang Teng understood the situation. He knew what the Solar Dragon Race was after going over his bonded beast’s memories.

They were a powerful race that only appeared in rumors. Ordinary people would never have the chance to encounter them.

They were different from the Parkers family who bathed themselves in dragon blood and obtained the Dragon Blood Battle Physique. They hadn’t been bestowed with solar dragon powers, they themselves were solar dragons.

The members of that monster race could transform into powerful dragons and traverse the starry sky; they were almost invincible among fellow martial warriors of the same stage.

The Parkers couldn’t even compare to them.

After interacting for such a long time, our hero didn’t even realize that his mentor No Brain had taken a body from the Solar Dragon Race. It was unbelievable.

“I want you to present me with this planet to make up for it,” said the cold voice from the other side of the dimensional rift.

“Yes!”

A gleam of red light flashed across Bare Brain’s eyes as he replied in a low voice. Instantly, a cold killing intent emanated from his sight as he roared loudly, “Kill them! Kill every single human!”

Roar!

Roar!

Kill!

...

The dark apparition's morale skyrocketed after the devil titan appeared. Their murderous intent rose and every one of them charged towards the surrounding martial warriors. A killing spree ensued.

General Cameron and the others didn't look good. Their advantage was lost with the devil titan's appearance. The tables were turned.

Even though the massive monster wasn't planning to cross over, its influence was too great. It was like a sharp sword hanging above everyone's heads which could fall at any time. Everyone's morale was greatly impacted.

The spiritual attack was also a massive problem. Humans would be constantly affected if left unsolved; they would go crazy after their spirits collapsed.

Wang Teng's eyes flashed as he spoke calmly. "Generals, this is not the time to be dazed and confused. We need to think of ways to deal with the creature's spiritual attack."

"That's right!" General Cameron said in a rush, "We have to block their spiritual attack!"

Never slowing down, they talked as they rushed to the valley. The place was directly below the massive eyeball.

Boom!

Waves of terrifying spiritual power burst out from their bodies and formed an invisible barrier to resist the spiritual fluctuations sent out from above.

Boom!

Two invisible spiritual powers clashed against each other.

Wang Teng's spiritual power was also in the mix to defend against the devil titan.

The devil titan noticed this and looked over. The visible eye showed contempt; an even more terrifying spiritual power was then radiated.

Boom!

The chaotic and horrifying spiritual attack slammed against the barrier formed by Wang Teng and the others, causing it to shake violently.

The generals looked pale. They felt as if their heads were being hammered, and there was buzzing in their ears. They almost fainted.

"We can't go on like this!"

“This is impossible!” General Qi Yuanju and the other officials exclaimed in despair.

Xuelun scoffed and said sarcastically, “Hmph. To think that you wanted to resist his spiritual attack. How laughable.”

Devil Emperor Bare Brain commanded. “Don’t mind them. Take advantage of this window and kill off the surrounding humans to break through the encirclement.”

“Yes!” Xuelun and the other dark apparitions replied instantly.

They immediately dispersed and charged towards the human fighters below.

Those mid-tier devil emperors were considered among the strongest on Defense Planet No. 29. A large number of humans were killed in a blink once they entered the fray. The stench of blood filled the skies.

“This isn’t good!” said General Cameron when noticing their actions. Then, he shouted, “All heaven stage martial warriors, stop them!”

As soon as he gave the order—several rainbow streaks were seen around the forest as they rushed towards the mid-tier devil emperors.

Boom! Boom! Boom!

Both sides clashed, causing terrifying explosions while the aftershock of their moves was swept across the forest.

There were many heaven stage martial warriors among the human forces; they represented the strongest of their kind. However, General Cameron and the others were being suppressed by the titan’s spiritual attack and were unable to fight, which caused the scales to tip in the dark apparition’s favor.

Before long, the few heaven stage experts were defeated, who crashed onto the ground.

What a predicament!

The human martial warriors were in a predicament!

The generals looked anxious, wanting to rush over and help.

Boom!

There was another spiritual attack slamming against them. Even with Wang Teng’s strength pooled in, it was still difficult.

Inside our hero's mind—the Nine Treasures Pagoda shined with a golden brilliance as it dispelled the chaotic spiritual attack.

"This devil titan's spirit is at the high-tier devil emperor stage!" Wang Teng said.

"It's too powerful. Our spiritual power is far too weak!" General Qi Yuanju was feeling hopeless.

"Generals, I have an idea, but I would need to rely on your spiritual powers." Wang Teng's eyes flashed.

"What is it?" General Cameron asked anxiously.

"I have a special power able to condense a spiritual pagoda. If you infuse with your spiritual powers, I will detonate it and strike the devil titan, catching it off guard," Wang Teng suggested via voice transmission.

General Cameron frowned and refused without hesitation. "No, detonating a spiritual body will cause great damage to your spiritual power."

The other generals shared the same opinion, also shaking their heads. Detonating a spiritual body would damage one's spirit.

If things were more serious, he could damage his Soul Origin and affect his future cultivation.

It would be fine if it were someone else, but Wang Teng was different. His talent could lead him to the eternal stage.

Every eternal stage martial warrior was a huge asset to humankind. They couldn't let him take such a risk, just to protect a planetary sector.

"It's okay. I know what I'm doing." Wang Teng had a warm fuzzy feeling but insisted on it.

## **Chapter 1323: This Human Is Cheating! (1)**

1323 This Human Is Cheating! (1)

General Cameron and the others were stuck in a dilemma.

The war was important but Wang Teng was just as important.

"I will ignite my spiritual body. Since the titan still has its qualms and doesn't dare cross realms, I think I can force it back with my spiritual power," said General Cameron in a low voice. His gaze was firm.

"You can't do that." The other officials were shocked.

General Cameron replied, "It can be done. I have reached the bottleneck of the universe stage. After all these years of guarding Defense Planet No. 29, life and death means nothing to me anymore. Winning this war is of greater importance to the whole human race."

"General Cameron, the Bare Brain is a high-tier devil emperor. Only you can take him on. You cannot self-destruct."

Wang Teng added, "You may have also forgotten about my other identity. I'm a grandmaster alchemist; I can make pills to heal any damage to my spiritual body. I can recover even if I get hurt, so don't worry." Wang Teng smiled. "Also, I'm not stupid. I wouldn't joke about my future."

"Grandmaster alchemist?" General Qi Yuanju and the others were stunned.

The officials didn't know he was a grandmaster alchemist. How could there be such a young grandmaster alchemist? They found it hard to believe.

General Cameron saw everyone's expression so he explained on Wang Teng's behalf, "Colonel Wang Teng is indeed a grandmaster alchemist." Feeling somewhat convinced, he asked after some hesitation, "Are you sure you'll be all right? It'll be too late to regret later."

"Don't worry." Wang Teng turned serious. He said in a firm tone, "I'm afraid of death. I wouldn't sacrifice myself to protect others."

Everyone was speechless.

Is it OK to say that you're afraid of death so openly?

It was taboo for military martial warriors to fear death; they would be looked down upon.

However, when Wang Teng said this—besides wanting to laugh—no one felt he was truly afraid of death. Instead, his words felt a little heroic.

All the officials took this as Wang Teng consoling them.

The latter would be stunned if he knew what they were thinking.

No one believed him, even when he was telling the truth.

How great did they think he was?

Wang Teng knew his own ability. He had two Nine Treasures Pagodas. One self-destruction wouldn't affect him much.

He might not even feel the pain, let alone suffer injury.

Even if there was pain, it would only be felt by the Devouring Nihilism Beast clone. The bonded beast had thick skin and a spiritual power so strong that destroying one of the pagodas wouldn't do a thing.

What's more, he could pick up attribute bubbles to heal his spirit; he had an advantage no one else had.

So, he wasn't worried.

O(π\_π)°

The Devouring Nihilism Beast clone felt a chill down his spine all of a sudden.

"There's no time to waste. Let's do this," Wang Teng said.

General Cameron gritted his teeth and finally agreed, "All right, let's go with Wang Teng's proposal."

They knew it was an emergency; there was no time to hesitate.

Wang Teng immediately took action. He controlled his devouring beast's pagoda. It floated out of his forehead and floated above his head.

Wang Teng, be humane!

Nihilism was on the brink of tears. He wanted to draw circles on the ground to curse at someone.

He seemed to have forgotten for a moment about what he said in the past.

He belonged to Wang Teng!

There was nothing wrong with the young hero using his beast's pagoda.

The artifact swiftly expanded and turned into a building a few hundred meters tall.

His bonded beast clone was extremely powerful. Thus, his pagoda was also enormous. It was colossal.

A dazzling golden light erupted from the pagoda, attracting numerous gazes. Even the eyeball in the sky turned to look at the unique building. Its pupil seemed to have shrunk.

General Cameron: ...

General Qi Yuanju and the others: ...

This is the spirit pagoda Wang Teng created?

Everyone was stunned.

If someone told them this was a real pagoda, they would straight out believe it. However, it was a bit over the top to say it had been made using spiritual power.

This pagoda was a little overboard!

General Qi Yuanju couldn't help but ask, "Is this your... pagoda?"

"Yes!" Wang Teng nodded. He asked, "Is there a problem?"

"No!" General Qi Yuanju shook his head in astonishment. He didn't know what else to say.

General Cameron and the others gave weird stares to the young official. They wanted to speak, but didn't know if they should.

That was especially the case for General Cameron. Just a moment before he was still claiming he should self-destruct his spirit.

Now, thinking back about it, his spiritual power was stronger than Wang Teng's, it wasn't as dense.

Thus, even if he self-destructed, the strength would fade later.

However, Wang Teng's pagoda was different. The general could tell it was made using some secret skill; it looked extraordinary.

If they did instill the artifact with their spiritual powers, the potential would be terrifying. It couldn't be compared to an ordinary self-destruct move.

General Cameron felt morose; his self-destruction offer couldn't be compared to the power of a junior. What was the point of living?

He felt like crying!

“Everyone, please send in your spiritual power,” Wang Teng said in a low voice. He disregarded all their expressions.

Everyone regained their composure and quickly replied, “Yes!”

Then, they activated their spiritual powers. Golden streams seeped out from their foreheads and flowed into the Nine Treasures Pagoda.

A clash would usually occur inside the pagoda if other people’s spiritual power tried to go in. However, Wang Teng suppressed the artifact’s response.

## **Chapter 1324: This Human Is Cheating! (2)**

### 1324 This Human Is Cheating! (2)

Actually, our hero didn’t need to worry about energies clashing. He just had to make sure that the pagoda wouldn’t burst after receiving all that power.

The more violent the clashes, the more frightening the explosion would be.

Of course, the Nine Treasures Pagoda needed to hold for a while and not burst beforehand; everything would be lost otherwise.

The pagoda started to vibrate fiercely as the generals infused it with their spiritual powers. The artifact began to give off a continuous and ominous fluctuation that made people’s hearts shudder.

The giant eyeball on the other side of the dimensional rift was able to sense something. His icy voice resounded in the air. “Stop them. Destroy that pagoda!”

Boom!

A few figures charged towards Wang Teng right after the command was made.

“Hmph!” General Qi Yuanju and the others snorted and dashed forward. They positioned themselves to protect Wang Teng behind them.

Their spiritual power continued to flow into the pagoda while they greeted attacks from the mid-tier devil emperors who darted over.

Boom! Boom! Boom!

Eruptions echoed in the sky. Impacts of force were swept through the surroundings and the space was shattered; pitch-black lines started to appear.

The human high officials were heaven stage martial warriors, so they were extremely powerful. Every single attack was frightening, causing a huge explosion.

The apparitions around them wouldn't dare get close; all of them kept a safe distance.

As for Wang Teng, he wasn't affected since General Cameron was protecting him. This allowed him to focus on handling the pagoda, which would explode at any moment.

Honestly, the artifact would have burst to pieces had he not built it with his divine flames and the Heaven-Earth Calamity Lightning, as well as the two godly hammers.

This followed a process similar to forging weapons: the better the materials, the tougher and longer-lasting the weapon would be. It wouldn't fail easily.

Wang Teng felt fortunate he chose those two hammers; the process to make them was arduous, but their effects were good.

More and more spiritual power was infused into the pagoda. The latter started to expand a little, like the tummy of a lean person who ate too much.

Both humans and apparitions felt their hearts racing when they saw that scene.

Even General Cameron felt his head going numb. He could end up in heaven real fast if the pagoda exploded right in front of him.

This is unnerving!

His confidence in Wang Teng grew.

What a weirdo!

"Stop him!" The blood-chilling voice on the other side of the rift resounded again. It was a pitch higher than before.

"He's afraid!" General Cameron raised his head with a smirk.

Boom!

Bare Brain had yet to make a move. Just then, he disappeared again.

Wang Teng squinted. He saw how space some distance away became distorted. A muscular arm stretched out from the void in an attempt to grab him.

General Cameron furrowed his eyebrows and gave a loud bellow. "Move!" He clenched his fist and hurled it toward the arm.

The devil emperor rearranged his fingers to welcome the incoming punch.

Neither of them used any battle techniques. It was a simple battle of palm against fist, but the energy they contained was alarming. It felt as if all force had been compressed and harnessed by the two.

Bang!

The two arms collided, producing a dull thud.

Space around them started cracking. The fist and the palm had made a clear white mark in the air.

Both parties separated immediately after that exchange. General Cameron retreated a few hundred meters back, while the arm disappeared back into the void.

The human leader turned serious. He shifted his body and threw punches in a certain direction in the air nonstop.

Bare Brain was forced to appear and resist the general's punches.

"What a close call!" Cold sweat dripped down Wang Teng's forehead. He was almost squashed to death by the devil emperor.

Their recent master-disciple interaction that took place for many days allowed him to finally understand how powerful that devil emperor was.

Damn it, he's cuter when he teaches me!

He's so scary when he gets fierce!

"Wang Teng, are you OK?" said General Qi Yuanju while standing in front of the hero. The latter's face was pale; the exhaustion of his spiritual power would affect his future battle.

Wang Teng frowned. He looked at his pagoda floating above him. There were small cracks on its surface, a glaring golden light shooting out from within; it would burst at any moment.

However, he felt that it could still bear the pressure. "A little more!"

All the generals showed black faces, but they listened to him.

Wang Teng wasn't idle, either. He activated his spiritual power and also feeded it into the artifact.

Let's go all out!

Wang Teng had a little madness in him. Since things had gone that far, might as well go all out.

Crack..

The Nine Treasures Pagoda was starting to make clear and crisp cracking sounds.

More and more cracks started to appear as time passed, covering the entire structure and making it look a bit eerie.

Wang Teng frowned and quickly shouted, "Enough! Enough!"

General Qi Yuanju and the others had been waiting for that word the entire time. They stopped injecting spiritual power the moment they heard it.

They would have emptied everything they had if they kept at it a while longer.

Bare Brain looked grim when he saw this. He stared at Wang Teng and disappeared from the spot where he was.

Boom!

A battle blade appeared in General Cameron's hand. He slashed and the blade glow cut through the air, knocking the devil emperor back.

"Move!" said the frosty voice coming from Bare Brain's mouth.

## **Chapter 1325: This Human Is Cheating! (3)**

1325 This Human Is Cheating! (3)

"I'm here so don't think about getting any closer!" General Cameron remained calm. His face was slightly pale due to spiritual power depletion, but the resolution in his eyes didn't dwindle. An appalling aura exploded from his body, which surged towards Devil Emperor Bare Brain.

Wang Teng wouldn't dare to tarry. He quickly directed the Nine Treasures Pagoda towards the giant eyeball in the sky.

"Human, you are courting death!" roared the ruthless and evil voice from beyond the dimensional rift.

Its crimson gaze seemed to solidify into matter as it stared at Wang Teng. There was a horrifying spiritual attack condensed within.

The massive beast could feel the vast and immense spiritual power within the Nine Treasures Pagoda. If the artifact exploded, the consequences would be unbearable. That was why the titan retracted all his spiritual power and focused it on Wang Teng.

The latter became serious. A blinding light blossomed on his forehead and another pagoda flew out to resist his opponent's spiritual attack.

Boom!

The second artifact vibrated and almost collapsed. However, it was sturdy enough so it forcefully resisted the spiritual attack.

Wang Teng's spirit was only in the celestial realm, but his accumulation was astonishing. One could think of him as a normal celestial realm spirit.

Furthermore, the devil titan didn't pass through the rift, so he could only release a third of his spiritual power.

Our hero would have been incapable to withstand the attack otherwise.

Nevertheless, cracks still appeared on the second pagoda; it was about to break.

Wang Teng felt a sharp pain in his mind. That was a sign his spirit was injured.

His expression changed and he hurriedly collected the attribute bubbles around him. There were many spirit attributes that could replenish his consumption.

Constellation Force (Dark)\*1300

Celestial Realm Spirit\*280

Constellation Force (Earth)\*2500

Constellation Force (Wood)\*2100

Space\*230

Celestial Realm Spirit\*350

...

He didn't care about the kind of attributes collected as long as they were of the spirit kind.

Replenish, replenish...

Wang Teng felt a cool stream running through his mind, lessening the pain. The cracks on the pagoda began to gradually heal.

The giant eyeball on the other side of the rift was confused.

Why is there another pagoda?

Does this human mass produce them? Is one not enough?

Even the human generals were surprised. Another one? How many spirit pagodas does he have?

“Go!”

While the devil titan was caught distracted, Wang Teng took the chance and released his spiritual power furiously. He pushed the Nine Treasures Pagoda, increasing its speed so it shot out like a rocket.

Boom!

The Nine Treasures Pagoda covered a few hundred meters in an instant and got closer to the dimensional rift.

“Damn it!” The giant eyeball got agitated. The ominous creature controlled his spiritual power and launched an attack toward Wang Teng again.

Boom!

The chaotic and frightening spiritual attack slammed onto the Nine Treasures Pagoda again. It shook violently and more cracks appeared.

Collect more bubbles! Wang Teng turned serious and frantically seized bubbles to heal the damage done to the pagoda.

The giant eyeball snorted with a contemptuous gaze. “Break!”

Boom!

The third spiritual attack arrived. But, to the monster’s bewilderment, the pagoda remained intact, even though the number of cracks increased. It showed no signs of breaking, and the cracks actually seemed to be healing.

That behavior was intriguing, completely beyond what the titan knew!

Is this human cheating???

Is there no end to his spiritual power?

“Charge!” Wang Teng released all his spiritual power. All the collected attribute bubbles added many points to his spirit, thus replenishing his spiritual power too. He gathered all his power and aimed it at the bottom of the pagoda floating in the sky.

Boom!

The third acceleration!

The pagoda was near the dimensional rift; the final ramp up in speed managed to make it crash into the dimensional rift.

Such a move was completely unexpected by the foreign creature. It was too late by the time he reacted.

“How dare you!” roared the angry creature beyond the rift

Wang Teng sneered as he let out a curse. “F\*\*k you!”

“Boom!”

The next moment, a loud explosion originated from within the dimensional rift. The pagoda exploded; an endless golden light filled up the rift, with a scary spiritual fluctuation sweeping through the sky.

There were flames and lightning flashing in the golden light as well. That was the power of the divine flames and the calamity lightning sealed within the pagoda.

Such appalling strength astounded all the dark apparitions present.

“How is this possible?” Xuelun and the other mid-tier devil emperors were overwhelmed by disbelief. Their devil titan was attacked by a mere celestial-stage warrior from the humans.

It was like an ant trying to move an elephant. All of it felt like a joke, yet he did it!

What a humiliation!

## **Chapter 1326: Are You a Broken Recorder?**

1326 Are You a Broken Recorder?

Countless dark apparitions looked up at the sky in bewilderment.

The humans were also surprised; they looked up in awe.

Wang Teng's ability wasn't a secret among the human martial warriors, but that was precisely the reason why they were dumbfounded.

Honestly, was that attack launched by a celestial stage martial warrior?

An angry roar resounded in the sky, originating from beyond the dimensional rift. It was the devil titan.

The faces of the apparitions changed. Not even Xuelun and the other mid-tier devil emperors could avoid being fearful.

Sir Devil Titan is angry!

They looked at Wang Teng as if declaring the latter's doom.

This fellow is dead!

He's a dead man!

(´・へ´・||)

Wang Teng was unhappy.

F\*\*k, why are y'all looking at me like this? Do you think I'm going to die soon?

Will the titan dare to cross the rift?

Wang Teng felt a little uncertain. Although he didn't care if the other party decided to cross to their side, he thought running away would be for the best. He dashed to make his escape into the distance.

Running away after the explosion. It felt amazing!

Real men never look back at explosions.

Roar!

A furious bellow resounded behind him just then; it was earth-shattering.

Blood started dripping down the ears of both humans and dark apparitions alike.

“Damn it!” General Cameron’s expression had a complete change. He felt anxious as he shouted, “Wang Teng, run!”

Without hesitation, Wang Teng increased his speed to the maximum. Not even his shadow could be seen.

The golden light within the dimensional rift hadn’t dispersed completely when an enormous black limb suddenly emerged, quickly sweeping downwards.

The massive limb moved as fast as lightning, reaching the bottom in the blink of an eye.

It was heading in Wang Teng’s direction.

Wang Teng’s expression looked ugly.

F\*\*k, this apparition is unreasonable.

Why is a devil titan attacking a celestial stage martial warrior like me? Where is his dignity?

Also, isn’t he afraid of attracting an eternal stage martial warrior if he crosses the border?

The young hero underestimated the titan’s anger. The latter didn’t think too much about the repercussions for that daring move. Since Wang Teng had angered him, he would personally take action and kill him. No one could stop him.

To him, killing a celestial stage martial warrior was as easy as squashing an ant to death.

Swoosh!

The black limb moved extremely fast, leaving a black-colored trail in the air before he finally arrived close to Wang Teng. Then, it aimed at Wang Teng’s heart like a long black spear.

The latter sighed. A chill went up his spine and goosebumps started to appear on his skin. He felt a strong sense of danger and death urging him to turn around. His pupils shrank.

He’s this fast?

Our hero was thunderstruck. There was only one thought left in his mind—

You won’t kill me.

Wang Teng wasn't someone who would easily give up. No matter how strong the opponent, he had the guts to go head on. He gritted his teeth and his gaze became ruthless.

A crimson, universe-level battle sword appeared in his hand. It gave off a brilliant glow, and an extremely powerful space fluctuation swarmed out of his body, to then suffuse the battle sword and forming a sword glow.

The glow wasn't formed by any type of force. That was the condensation of spatial power; it was extremely sharp, virtually able to cut through anything.

Wang Teng's most powerful skill was the Space Tornado, but there was obviously no time to execute it at the moment. That was why he chose to use his Godslayer Sword Scripture!

It was the most powerful legacy from the Great Qian Empire, and was definitely not subpar.

Within a few seconds—countless sword auras erupted from the battle sword, spreading in all directions and causing cracks to appear in the surrounding space.

Wang Teng stared at the black limb intently as it closed in on him. He instilled all his space power into the battle sword.

The black limb reached him in the blink of an eye; it was less than a meter away.

The limb was covered with an extremely powerful constellation dark force, forming a sharp glow; a strong wind rushed toward the fleeing human. His black hair danced wildly in the air, slapping his face until it hurt. Thin wounds appeared on his face.

That gale would have rendered him grievous injuries if his physique wasn't strong enough.

"That human is dead!" Xuelun flashed a menacing smile when he saw this.

Jefred and the other mid-tier devil emperors snorted in disdain. He angered Sir Titan; any resistance is useless now. Death is the only option.

Wang Teng could feel the imminent death creeping on him. However, he didn't panic; he was extremely calm in fact.

Suddenly, he glared at the hand/tentacle and shouted furiously.

"Slaying God!"

Boom!

He immediately slashed the incoming appendage. A terrifying sword glow was released, turning into a silver-white ray of light that crashed into the black hand/tentacle.

Both the silver-white sword glow and the black limb froze for a second, like the effect of someone pressing the stop button.

However, a blinding black glow soon burst from the black hand/tentacle, its power increased tremendously and the silver-white sword glow couldn't stop it anymore. The latter began to give off cracking sounds before it broke, turning into silver droplets of light.

The residual force swept through the surroundings. Wang Teng made use of the impact to propel himself back.

"Thinking of running away?"

A cold snort was heard; the black limb paused for a split second before it shot towards Wang Teng again at an astonishing speed.

"Space Flash!"

Wang Teng turned serious and instantly executed his spatial skill, disappearing on the spot.

"Huh?" The devil titan who stood beyond the dimensional rift was surprised. He didn't expect Wang Teng to evade the attack and exclaimed, "Space skill!"

A thousand meters away—space distorted and Wang Teng stepped out from the void. He looked at the sky with a poker face, although nursing a lingering fear. His back was drenched in cold sweat.

What a close call!

He almost got killed by the devil titan.

That creature was just too scary. It had merely used an ounce of strength through the dimensional rift, yet it was an attack our young hero couldn't resist.

"How's that possible?" The sinister smiles froze on the mid-tier devil emperors' faces. They widened their eyes in disbelief.

The human managed to escape from Lord Titan. Is he really at the celestial stage?

Even Devil Emperor Bare Brain was shocked; he sized up our hero intently.

This human is definitely a cosmos stage genius.

The talented Justin—the armored talent he had high hopes for—was not that human's match.

Their stages were the same, one at the celestial stage while the other was at the devil king stage. However, Justin wouldn't be incapable of blocking the devil titan's attack. The gap was vast.

There is something off with this human talent. Something wasn't right.

The generals were in disbelief.

At first they thought that Wang Teng was doomed. There was no time for them to save him, even if they wanted to; however, he still managed to escape from the devil titan.

The result was out of everyone's expectation.

Colonel Wang Teng's ability was a mystery; they couldn't see through it.

He actually managed to block an attack from a devil titan. Where is his limit?

They were flabbergasted yet relieved at the same time.

It was a relief that Wang Teng didn't die. It would have been a great, irrecoverable loss to them.

Concurrently, the explosion in the dimensional rift finally calmed down. The golden rays scattered and the glow produced by the power of the divine flames and the calamity lightning was also dispersed. Nothing remained.

Wang Teng took a careful look. He wanted to know if their last attempt at destroying the Nine Treasures Pagoda was able to injure the devil titan.

All their efforts would have been a waste otherwise.

The light disappeared, revealing the darkness beyond the rift. The huge eyeball seemed to have disappeared.

Success!

Many human warriors felt elated. There was nothing to fear since the chaotic spiritual fluctuation was gone.

Bare Brain furrowed his eyebrows, feeling astounded. Was Sir injured? Was that why he attacked the human in rage?

Wang Teng's expression changed before he could feel happy about the outcome.  
"Something's wrong!"

The darkness beyond the rift started moving. A tinge of red light seeped out from the edge; then, the red light got brighter and bigger.

That was the titan's eyelid; he had closed it then, and was opening it once again.

The giant eye appeared above the humans once more. The crimson glow radiated was thicker, giving off an intense evil aura. It was enough to suffocate.

"What is happening?"

There was a huge commotion.

All the human martial warriors turned pale, despair on their faces.

The devil titan was unscathed. How could they counter such an enemy? Did they have any chances of winning?

Many martial warriors were affected, and started to doubt themselves. If it wasn't for their willpower, they would have turned tail and run away.

General Cameron and the others had gloomy expressions too. Are we going to lose this war?

Roar!

"Long live Sir Devil Titan!"

"Victory for our Sir!"

...

In comparison, the dark apparitions' morale was sky high. They started shrieking and howling like wild animals.

The giant eyeball ignored the dark apparitions below. He moved his pupil and fixed his gaze on Wang Teng. His icy voice was heard. "You cannot escape."

Wang Teng fearlessly looked back and replied abruptly, "You're injured!"

Everyone was stunned.

Was the devil titan injured?

The devil titan scoffed. "You're tempting fate!"

"You're injured!" Wang Teng repeated firmly.

"How dare you!"

"You're injured!" Wang Teng repeated.

Everyone: ...

The devil titan: ...

"You're injured..."

"Enough!" the devil titan screamed. "Are you a broken recorder?"

"Oh, I'm sorry. I just wanted to confirm my guess." Wang Teng scratched his head. Then, he smiled and continued, "It's good that you're injured. I didn't blow up my Nine Treasures Pagoda for nothing."

The devil titan: ...

## **Chapter 1327: You're Probing the Gates Of Hell!**

1327 You're Probing the Gates Of Hell!

The devil titan went silent. His gaze turned sharp.

This human is sneaky. To use such a despicable way to check if I was injured.

At first, the creature wanted to pretend he was all right, to escape the embarrassment of being injured by a celestial stage human.

Unfortunately, no matter how hard he tried to hide it, he got exposed in the end.

His urge to kill Wang Teng rose even higher at that moment.

This human has to die!

The human warriors were stunned.

The devil titan is indeed injured!

The generals didn't know whether to laugh or cry. Wang Teng was such a weirdo, to actually render the devil titan speechless.

No one had ever done that in history, and neither would anyone in the future.

They felt that no one would dare to do this.

General Cameron had a sudden thought, Is he using this method to motivate our soldiers? His gaze turned firm, and he swiftly shouted, "Everyone, the devil titan is injured. It won't dare to cross the rift.

"We are not afraid of fighting!

"Kill!"

All the human forces regained their composure. Radiance was back in their eyes.

General Cameron was right. The devil titan was indeed injured; it would be even more reluctant to cross over. They would have nothing to worry about.

All the martial experts present were seasoned warriors. They had probably been taken aback moments before, but their confidence returned. They weren't afraid of fighting.

"Kill!"

"Kill!"

"Kill!"

...

Myriads of fighters shouted loudly to ignite their battle intent and quell the lingering fear in their hearts.

All the humans raised their weapons and charged towards the surrounding apparitions, resuming the tragic war.

Most of the apparitions were killed or injured by their prior sneak attack, giving humans the upper hand. They wouldn't have lost the advantage if the devil titan hadn't appeared.

However, the titan was injured, so it couldn't use spiritual attacks anymore. This gave them the chance to retaliate.

Devil Emperor Bare Brain was enraged when he saw this development. "Bastard!"

The titan was silent. Killing intent welled up in his eyes and a few black appendages shot out from his eyeball, twirling towards Wang Teng at a high speed.

“Oh my, you’re trying to silence me!” Wang Teng looked stern, but his mouth never stopped moving. He kept stimulating the other party while using Space Flash to evade the tentacles.

“Come and catch me!”

He was prepared this time, so used his spatial move immediately. The black tentacles couldn’t touch him.

“Die!” said the titan’s cold voice, ringing through the dimensional rift. The speed of the tentacles increased. They intertwined in the air, forming a huge net to catch the young hero.

Wang Teng was almost caught, but he managed to avoid it by a narrow margin. He reappeared in the distance.

Then, he hooked his fingers, beckoning the massive titan in the sky.

Silence.

Everyone was speechless. They were worried for Wang Teng.

He couldn’t win against the titan, yet he dared to continue provoking him. Is he trying to die faster?

The devil titan was going berserk.

This human lad is infuriating. He was a devil titan; no one had ever dared to provoke him.

Roar!

The devil titan couldn’t bear it anymore; he stretched a giant black arm through the rift.

The arm was covered in black scales, with sharp fingernails. He sent a clawing attack towards Wang Teng, like multiple sharp swords.

“F\*\*k!”

“You have a short temper!”

Wang Teng felt shocked. He thought it would take a while to lure the titan... but all it took was two taunting sentences.

He started to self-reflect. Did I go overboard? After all, he angered a devil titan.

However, it wasn't the time to think about this. Saving oneself was more important.

Wang Teng didn't had time to think. He executed a Space Flash, only to realize that the space around him was sealed. The enclosure was as sturdy as rock, preventing him from using space power.

That was how powerful the titan was.

This time, the creature did cross through the rift. Just an arm passed through, but it was enough to freeze space.

"Damn it!" Wang Teng's expression changed. He gathered space power on his battle sword and slashed down, aiming to break the spatial lock over the area.

Boom!

Explosions occurred. Sword glows cut through the air but they were useless; the space remained firm.

Wang Teng's pupils shrank. He was dumbfounded.

"Stubborn and useless!" The devil titan's snigger was heard.

His giant arm swiftly clawed down. He seemed to be a little afraid, so he acted as soon as he could.

"Wang Teng!" General Cameron and the others were appalled.

They didn't expect the titan to attack Wang Teng again. It would be too late to save him now.

"Hmph, angering Sir Titan... You must have a death wish," said Bare Brain with a snort, then moved to block General Cameron.

"Move!" the latter howled in anger. He wielded his battle blade, wanting to force the devil emperor back.

Bare Brain wasn't afraid. A large, dark-red battle mace appeared in his hand. He threw it toward the enemy; a loud explosion occurred, and all the blade glows were blocked.

"Take care of yourself," Bare Brain said heartlessly. His gaze turned sharp as he carried his battle mace and rushed towards General Cameron.

An intense battle ensued.

On the other side—Wang Teng's expression turned gloomy. His pupils were like pinpoints when he saw the giant palm clawing towards him.

"Wang Teng, do you need me to act?" The Devouring Nihility Beast's grim voice rang in Wang Teng's head.

He could send the latter into his Devour Space, which was a special talent of their race. The devil titan couldn't stop him, even if he sealed off all the space.

But, that was just a temporary fix; he would only be able to evade the attacks for some time. Once a face to face encounter took place against a devil titan, Wang Teng could be pulled out from the Devouring Space.

Fortunately, his opponent was on the other side of the rift, and was unable to go all out.

"Wait." Wang Teng stared at the giant palm intently and took a deep breath.

The Beast clone was speechless.

You're probing the gates of hell!

The atmosphere turned extremely tense. The risk of death floated above Wang Teng's head. A strong gale blew his hair all over due to the claw rushing down and its frightening pressure boring down.

Boom!

Wang Teng started plummeting.

The distance got closer and closer. 8000 meters, 7000 meters, 5000 meters, 1000 meters, 500 meters... the giant palm had finally reached a limit.

Our hero could barely suppress his emotions. The chance he was waiting for didn't appear.

"Die!" The devil titan's frosty voice made the sky tremble, turning people's blood cold.

"Nihility!" Wang Teng called in his heart.

The bonded beast was about to make a move when...

A dazzling ray of light suddenly flashed past the titan's arm.

Splat!

Black blood spurted out like heavy rain. The arm paused mid-air before it fell.

“Ah!” An agonizing cry was abruptly uttered.

## **- Chapter 1328: The Aura of the Sword Sweeps Through Thousands of Miles, Bringing Fear Upon Thousands of Lands!**

### **Chapter 1328: The Aura of the Sword Sweeps Through Thousands of Miles, Bringing Fear Upon Thousands of Lands!**

1328 The Aura of the Sword Sweeps Through Thousands of Miles, Bringing Fear Upon Thousands of Lands!

Screams of agony echoed in the skies!

Wang Teng was stunned.

General Cameron was equally stunned!

Everyone was in a daze. Even the dark apparitions were filled with shock.

What just happened?

What happened?

Where did it come from? The cries were so miserable and heart wrenching that it brought tears to anyone who heard it.

Everything happened too fast; no one knew what actually happened.

In the blink of an eye, a huge arm fell from the sky, black blood raining down. The scene was spectacular.

“Crap!” Wang Teng suddenly returned to his senses and avoided it. The arm was just above, rushing down towards him after being cut off.

The black blood was pouring down towards his head.

Swoosh!

Wang Teng used Space Flash and got away from the risk area, appearing thousands of miles away.

Boom!

The huge arm crashed onto the ground with a loud bang, flattening the surrounding trees.

Sizzle...

The black blood dripped down as well. It was extremely corrosive, forming pits and producing black smoke.

The large tree thicket suffered more damage; they withered and rotted when they came in contact with the black blood.

Some dark apparitions and martial warriors screamed as they also made contact with the blood and instantly melted.

There was no hope in saving them if vitals were touched.

Some had to sever their limbs to survive, once realizing they couldn't stop the black blood's effect. It was extremely bloody and tragic.

"This..." Many saw this and were dumbfounded.

"I got lucky!" Wang Teng broke out in cold sweat and quickly checked himself, finally relaxing after seeing that no blood had touched him.

He immediately shouted, "Get out of the way!"

There was still a lot of black blood pouring from above; all the martial warriors fled one after the other.

"Roar!

"Who is it? Who dared to cut off my arm!

"Show yourself!"

Enraged, powerful roars could be heard. It felt as if the ground was about to shatter.

Countless human warriors and apparitions covered their ears in agony, feeling as if their heads were about to burst.

Scary!

The devil titan was even more horrifying when angered.

Even Wang Teng was frowning. He would have been similarly affected as well if the Nine Treasures Pagoda hadn't blocked out the sound.

However, he felt that something was flowing down from his nose. His finger was dyed red when he wiped to check.

He was having a nosebleed!

Wang Teng's expression changed somewhat.

So powerful!

He had already blocked the sound, but the impact still caused him a nosebleed.

Fortunately, the damage was minimal and he could recover quickly.

Wang Teng heaved a sigh of relief. He looked towards General Cameron and the others, finding they weren't feeling well, either. They were frowning, noses also bleeding.

He didn't think that even heaven stage and universe stage martial warriors were incapable of stopping that power!

The devil titan was truly terrifying!

The surrounding apparitions were also affected, especially those of low rank. They were hugging their heads and screaming in pain.

Wang Teng's expression turned strange.

This devil titan is ruthless!

He doesn't even let his people off when he's pissed!

Devil Emperor Bare Brain and the other apparitions were so shocked at the moment that their faces showed completely different expressions, realizing that the screams were from the devil titan himself.

His arm was cut off!

Who was it?

Who the hell did it?

He was able to cut off the devil titan's arm!

Suddenly, everyone's eyes narrowed.

A figure gradually appeared in the sky.

It was a man with snow white hair draped over his shoulders, fluttering gently in the breeze.

If seen from the back, one would probably think he was an old man, but he was young, with smooth skin. He was so handsome that he looked younger and more gorgeous than an eighteen year old.

His appearance caused the whole world to go silent, as if everyone surrendered to his presence, not daring to make a sound.

Dead silence!

Eternal stage!!

It was an eternal stage martial warrior!

Wang Teng was shaken; he couldn't calm down in a long time. His gaze was fixed on the white-haired figure that suddenly appeared.

The eternal stage expert demeanor was extraordinary, aweing them all just by being there. Everyone was stunned and couldn't help but think about surrendering.

Fortunately, our hero's willpower was firm; he didn't lose his composure.

Finally, I didn't risk my life in vain. Wang Teng looked at the figure and let out a deep breath.

That's right. His crazy move was to attract the titan over, all to attract the attention of the eternal stage martial warrior.

Since the powerhouse did appear, the monster was no longer a threat.

General Cameron and the others were overjoyed, and exclaimed in surprise, "Bai Shanhou!"

No words could describe their emotions. An eternal stage martial warrior had finally appeared.

Wonderful!

They could finally set their worries to rest in regards to the devil titan.

The latter would no longer try doing anything reckless since the expert showed up.

Moreover, the one who appeared was a marquess.

Bai Shanhou!

He was renowned in the Great Qian Empire, and was incomparably powerful; a transcendent and peerless individual, able to suppress a whole planetary sector.

To actually lop off the titan's arm before he even appeared... That was the best proof of his strength!

The human warriors heaved sighs of relief. The sword hanging above their heads was destroyed, and could no longer threaten them.

An eternal stage marquess' strength was incredible.

"Bai Shanhou!" Wang Teng was taken aback when he heard the high officials call his name.

Round Ball's shocked voice could be heard in his mind, "Wang Teng, he's an eternal stage marquess!"

"An eternal stage marquess!" Wang Teng's eyes flickered, as he didn't know the term. Considering his current strength, such a level was unsurmountable.

However, Round Ball understood well and immediately explained, "The eternal stage is categorized into three: ordinary eternal stage, eternal stage marquess and eternal stage dukes. These are not your usual country titles; they are used to name the strong. Only the powerful, renowned warriors would obtain such titles."

"So, this Bai Shanhou is extremely powerful." Wang Teng's eyes flickered as he thought about this. He was unaware of the subdivisions among eternal stage martial warriors.

Round Ball said, "He's not just powerful. It would be as easy as pie if he wanted to kill peers at the ordinary eternal stage."

"So terrifying!" Wang Teng gasped.

Any warrior at the eternal stage was already powerful in his perspective. Be them ordinary, marquess or dukes, they were still superior existences in the eyes of the world.

To think an eternal stage marquess could easily kill an ordinary peer.

What horrifying strength!

It was unbelievable.

“Hmm, this Bai Shanhou is more handsome than me!” Wang Teng rubbed his chin and saw this as a challenge.

He had recently advanced to the unmatched handsomeness stage. Now, someone more handsome than him showed up.

He felt that the grading of his looks wasn't that accurate after all.

Round Ball was speechless.

Even in the serious situation he's in... he can still go on about who is more handsome. What is he thinking?

While the humans relished such a development, the dark apparitions were in despair. They looked at the white figure in horror, desperately wanting to escape from that place.

Frightening!

Extremely terrifying!

That human warrior had rendered them powerless, completely unable to resist.

Even the powerful Devil Emperor Bare Brain was pale faced, not even daring to make eye contact with the mighty human, for fear of being instantly crushed to death.

Bai Shanhou didn't even look at the other apparitions. He raised his head and looked emotionlessly at the devil titan peering through the dimensional rift.

“You! Eternal stage human!” The titan's huge eye squinted as he glared at Bai Shanhou.

Bai Shanhou said calmly, “Scram!”

“Bastard!” roared the foreign monster, feeling humiliated. A few massive palms appeared at the sides of the rift, as if attempting to make the rift wider and cross the realms.

“You have a death wish!” A bright longsword appeared in the human expert's hand and he sent a light slash.

Boom!

White light swept across the sky; a sword glow flowed like a river as the energy shuttled through it.

The whole world paled in an instant!

The sword auras swept through thousands of miles, bringing fear upon thousands of lands!

Everything disappeared, as if only the sword existed in everyone's eyes.

"What?" The devil titan narrowed his eyes as if witnessing an unbelievable sight. He looked horrified. Why is he so strong?

"Idiot!" Bai Shanhou said disdainfully.

"Eternal stage human... You dare to kill me? Aren't you afraid of violating the treaty and starting an eternal war?" shouted the titan. However, there was a trace of fear.

He couldn't stop that sword!

He would die by the sword!

There was no doubt about it!

He was afraid, and was in no way ready to take the blow.

Even if he wanted to escape, he couldn't, having realized he had been locked on. No matter where he went, he would be slashed by that sword.

It was the power of an eternal stage martial warrior. It was inevitable!

"You climbed here yourself. What has it got to do with me?" Bai Shanhou was calm. The sword he was holding disappeared; he then hovered with hands behind his back while his white hair fluttered.

The sword glow didn't stop. It seemed to be slow, but it spanned an unimaginable distance in a blink, directly sinking into the dimensional rift.

"No!"

Roar!

Ah~

The cries were filled with pain. Then, the sound gradually faded.

## **Chapter 1329: I'm So Scared, Don't Come Over.**

1329 I'm So Scared, Don't Come Over.

The sword glow disappeared and the devil titan was gone.

Everything returned to calmness as if nothing had ever happened.

The dimensional rift was still present, but there was nothing on the other side. No sound was heard; the silence was eerie.

"He's dead?!"

Both humans and apparitions were in a daze.

The terrifying and powerful devil titan was killed just like this?

One attack!

A single attack!

Everyone was in disbelief.

He's so powerful! Wang Teng stuck out his tongue. He had a first-hand experience of how strong an eternal stage marquess was.

How atrocious!

It was completely beyond his wildest imagination.

If the eternal stage human acted without any qualms, the whole Defense Planet No. 29 wouldn't be able to withstand a blow from him.

Just like the devil titan. If the being's true form appeared, he could have squashed the planet with a single hand; the humans would have had no chance to resist.

That was why the Eternal Treaty was established!

The treaty was put into effect to prevent eternal stage powerhouses from taking action. The light and dark factions made compromises, setting mutual restrictions.

Should any high-tier experts dare to ignore the treaty, they would end up just like the devil titan.

In fact, the devil titan was hard to kill, even if two eternal stage warriors joined hands. However, eternal stage marquesses were in a different league. The monster struck a hard rock, and could only blame himself for being unlucky.

Devil Emperor Bare Brain and the other apparitions looked as if they had seen a ghost. Waves of astonishment crashed inside their hearts.

An indescribable sense of fear was creeping in.

Fear began to spread.

Bai Shanhou glanced around him calmly. All the dark apparitions took a step back out of reflex when his gaze reached them. None of them dared to look at him directly.

Bare Brain included.

And yet, Bai Shanhou looked at the latter in the face and gasped softly. "A body of the Solar Dragon Race!"

Bare Brain felt his head go numb. An unprecedented sense of danger rose in his heart. The other party seemed to be assessing his prey.

That was the gaze of a tiger who had laid eyes on a rabbit.

Bare Brain felt he had become a rabbit, which was really uncomfortable. Mind you, he was a high-tier devil emperor, invincible in his own realm. Never had he cared about any human warrior, but he was being looked down upon at the moment, seen like an easy kill.

Just then, a snort was heard coming from the other side of the rift.

"Hmph!"

An intense wave swept through, hitting all the human warriors and leaving them pale faced.

Wang Teng raised his head abruptly. His expression changed.

Devil titan!

Another devil titan!

It was a much stronger creature than the one before.

"Another one who came to die." Bai Shanhou's expression turned cold. A powerful aura was radiated by his body, pushing back the other party's momentum. Everyone was finally free of the pressure, and collective sighs of relief were heard.

"Erm... This boss sounds confident. Looks like he knows what he's doing," Wang Teng muttered to himself.

“He has the ability,” Round Ball said with disdain, “Unlike you. You love boasting when you can’t even fight.”

“Hey, what do you mean I love boasting. I’m a humble person,” Wang Teng said unhappily with a black face.

“You? Humble?” Round Ball gave him an ‘are you kidding me’ expression.

“Bai Shanhou, do you want to start an eternal stage war?” said the frosty voice through the rift. The threat was obvious, and the monster’s voice sounded different.

“Oh, I was wondering who it was. It’s the osteoporosis-plagued old guy,” Bai Shanhou replied calmly, “Want to fight? Come over then. Don’t waste time.”

The massive dark apparition on the other side of the rift choked.

“Kill him! Kill him! Kill him for me! He must die!” said another frantic and mad voice. However, the fellow sounded extremely weak. It had to be the titan who was attacked.

“You’re not dead? Looks like your luck is plenty, you midget,” Bai Shanhou said.

Wang Teng too was astounded.

He’s not dead?!

Is that devil titan a cockroach?

“Roar, human, I must kill you.” The devil titan went berserk. He wished he could charge over and duke it out with the human.

“Come and kill me then. I’m right here; don’t rage over there on your own,” Bai Shanhou said.

“Wow, really straightforward. This boss’ personality is just like mine.” Wang Teng touched his chin.

“Don’t try to put feathers in your cap,” Round Ball said.

“What do you mean?” Wang Teng asked angrily.

“Who gave you the face to compare yourself with an eternal stage marquess?” Round Ball glanced at him from the corner of his eye.

“I...” Wang Teng was infuriated. Round Ball was belittling him.

The affronted titan wouldn't dare cross over, so he beseeched the other, "Death Bone, kill him for me. I can promise you anything."

"Enough!" The other devil titan sneered. "Idiot, we wouldn't be at a disadvantage if you hadn't made a move first."

The second titan was exasperated. He gritted his teeth and said, "It is all because of this human!"

Wang Teng felt the monster's gaze on the other side of the rift land on him.

Not only that, everyone else turned to look at him. All that attention scared him a little.

"Why are you looking at me?" Wang Teng asked angrily, then said, "This has nothing to do with me. He's just stupid."

"Roar, what did you say?" The first titan wanted to vomit blood.

"Isn't this so? You almost lost your life when trying to kill a celestial stage warrior. Aren't you stupid?" Wang Teng mocked.

The devil titan: ...

General Cameron and the others: ...

This fellow is quite courageous. He even dares to mock a devil titan.

But, upon remembering his past actions, it wasn't strange.

After all, it was just a verbal exchange, while their first clash was with real blows.

Bare Brain was speechless as he looked at Wang Teng.

This irritating human should have died a long time ago but he's still alive and kicking. How frustrating.

"Spirit Arm, you are becoming more and more childish. To actually be triggered by a celestial stage warrior," Death Bone replied with an eerie tone.

"Hahaha, interesting." Bai Shanhou gave Wang Teng a glance in approval.

He knew that the latter had drawn him over. This young man is smart, making the devil titan attack to catch my attention.

"...I will kill you." Devil Titan Spirit Arm squeezed the words through clenched teeth.

"I'm so scared. Don't come over," said Wang Teng, pretending to be scared.

Everyone was speechless.

Where is his dignity!

Bai Shanhou sized the young hero up with interest.

"You!" Devil Titan Spirit Arm was so angry he couldn't find words.

The seemingly harmless reply was humiliating!

After all, he couldn't go over. That was his weak spot.

Wang Teng understood how amazing it felt to have a big boss lending a hand.

"Are y'all fighting?" Bai Shanhou smirked. "If not, leave and stop wasting my time."

"Bai Shanhou, we'll battle it out one day," said Death Bone coldly.

"I'll be waiting," the human expert replied fearlessly.

What? This is it? Wang Teng didn't know what to say after hearing their conversation.

They seemed to be scheduling a fight. 'We can't fight today so let's catch up another time'.

"Don't think too much. Eternal stage experts don't easily take action. It is a miracle that you make the titan angry enough to attack you." Round Ball shook his head. Then, it gloated. "Anyway, that titan is in a poor state, too. He probably lost half his life, even if he survived. I think he's seriously injured."

"A pity he didn't die." Wang Teng's gaze turned sharp.

Round Ball stuck out its tongue when noticing Wang Teng's killing intent.

This fellow is nursing a grudge!

"Hmph." Titan Death Bone snorted. Then, he laughed and said, "The war hasn't ended. Do you think you can win?"

Bai Shanhou frowned.

"Bare Brain, use the devil ovum," Death Bone ordered.

“Yes!” Bare Brain blinked and pushed his hand down. The ovum flew out from the back of the Obelisk Scale Dragon Beast and floated in front of him.

Bai Shanhou squinted when he saw the object.

“I can’t make a move but neither can you. Let’s see what your people can do now.” Death Bone laughed.

## **Chapter 1330: Amalgamation! The Terrifying Devil Ovum! (1)**

1330 Amalgamation! The Terrifying Devil Ovum! (1)

Everyone’s hearts shuddered as Devil Titan Death Bone’s voice echoed in the air.

The giant, pitch-black ball of flesh floated in front of Bare Brain’s chest like a black heart, pulsing nonstop and giving off an evil, chaotic, and dark aura. The ominous influence swarmed in the air.

The aura alone was enough to make them feel uncomfortable. Dark clouds seemed to be hanging over their hearts.

The devil ovum!

That was the devil ovum!

The source of chaos and the start of a dark rebellion!

The human warriors were familiar with that thing. Its notorious name frightened them, causing them to panic.

In all of human history, there had been no way to stop the ovum after making an appearance. All living creatures in the light faction would be affected and fall into darkness.

There was a time when a devil ovum exploded on a planet, and all lifeforms were turned into dark creatures before they could react. No one escaped. It was a tragedy.

The situation wasn’t timely controlled in the end, and the devil ovum started affecting all the planets within the galaxy. Countless lifeforms became slaves of darkness; it was a living hell.

One could imagine how frightening the battles had been.

Everything perished!

Nothing survived!

Places turned into dead lands.

This would always happen once the devil ovum appeared.

Hence, it was impossible for the martial warriors to remain calm when they saw a real devil ovum in front of them.

Not everyone had seen one. The majority had merely learned its notorious name.

Not having seen it before made their fear run deeper.

Uncertainty was always scary!

General Cameron and the others might have well received Wang Teng's confirmation and promise, but they still felt shocked and worried when they saw the thing.

The devil ovum was totally infamous!

If something went wrong, the entire Defense Planet No. 29 would be buried because of their decision.

They were feeling on edge at that crucial moment.

Also... is this devil ovum the one we saw before?

The size and appearance was completely different. The dark aura radiated was purer and denser; it was blood-curdling. They almost couldn't believe their eyes!

After all, the one collected by Wang Teng was immature; it wasn't as big and the aura wasn't thick.

However, this time, Bare Brain used his Darkness Origin crystals to feed the ovum.

This one was already mature!

It could charm and contaminate people on its own. There was no need to assign someone to control it.

"Did you stuff it with pig feed?" Wang Teng exclaimed.

He gave some ingredients to the ovum every day, all to ensure a smooth operation. He fed it many 'beans'.

He had seen it the day before, and it wasn't that big.

How could it grow so much within a day? He could swear they gave pig feed to the thing.

Bare Brain turned and felt the corners of his eyes twitch. He almost vomited blood.

To hell with pig feed!

Which devil ovum would eat such a thing?

This is a devil ovum, not a pig!

Bai Shanhou looked at Wang Teng, rendered speechless. The tense atmosphere was broken by the young lad in an instant.

As for the other human warriors, the muscles on their faces trembled, not knowing what expression to show.

However, they had to admit that the weight on their hearts seemed lighter after such disturbance.

They looked at the devil ovum again, and couldn't help but think of a fat and pink creature, and the former wasn't as scary anymore. It even looked a little funny now.

"Ignorant kid!" said Devil Titan Spirit Arm with contempt.

"Me? Ignorant?" Wang Teng's expression looked strange. He continued, "I snatched the devil ovum and took it back to my base last time. How can you say I'm ignorant?"

"What?" Spirit Arm was surprised. He didn't know about this.

Bare Brain's expression froze.

F\*\*k, this boy exposed this matter.

He wanted to cover it up at first; losing such a precious thing wasn't a small matter. They managed to recover it, but he would surely be reprimanded if the devil titan learned about it.

He looked at Wang Teng as if wanting to kill him.

"Bare Brain, what does he mean?" Devil Titan Death Bone asked in a cold voice.

"Sir, this..." Bare Brain didn't know how to explain.

Bai Shanhou laughed and started spouting nonsense. “Hahaha, Death Bone, you didn’t know about this? We took the devil ovum from you and researched it thoroughly.”

Naturally, he wouldn’t pass up a chance to one-up the dark apparitions, even if it was just a verbal exchange.

“Bare Brain!” Death Bone’s voice turned grim; he had a bad feeling about this.

The devil ovum had never been in human hands before. If they were telling the truth and they truly conducted some research on it, there was a chance that the ovum’s effects would be heavily diminished.

The item was like a nuclear weapon to them. If deciphered, they would lose all advantage.

Bare Brain gritted his teeth and squeezed out a reply, “Sir, they did snatch the ovum, but we quickly recovered it. It is impossible for them to have any findings in such a short time.” There was cold sweat on his forehead.

“Hmph, it better be that way.” Death Bone snorted.

“It might not be.” Wang Teng smiled.

Bastard!

Bare Brain was shocked. He wished he could stitch up the boy’s mouth.

## **Chapter 1331: Amalgamation! The Terrifying Devil Ovum! (2)**

1331 Amalgamation! The Terrifying Devil Ovum! (2)

The human was purposely making things difficult for Bare Brain!

He had just pacified his titan superior, but the fellow jumped up to unsettle the nest again. It was inhumane.

If he ever found out that Wang Teng was ‘Justin’, the dark apparition whom he had high hopes for, he would probably want to slap himself.

What sin would that be!

Bare Brain took a deep breath and asked, “What do you mean?”

“Didn’t you say we don’t know anything? Why don’t I prove it to you?” Wang Teng chuckled.

He felt a little guilty.

No Brain, don’t blame me!

We belong to different races, so we have no future together.

Bai Shanhou felt even more satisfied with Wang Teng’s performance. This fellow’s not bad. He knows how to keep the conversation going. Let’s see what he’s planning to do.

“How will you prove it?” Bare Brain felt that the human kid was going to make trouble again. He was nervous.

“Let me call the devil ovum and see if it’ll respond to me.” Wang Teng pretended to be mysterious.

Bare Brain was speechless. What kind of stupid method is this? Why would the devil ovum respond to him?

Wasn’t he overthinking a bit too much?

Bai Shanhou was caught between laughter and tears. The lad’s stratagem was quite strange.

However, General Cameron had already told him about Wang Teng’s plans through voice transmission a second prior.

What faces would the apparitions make upon realizing that something was wrong with their prized ovum?

How interesting that would be!

No one noticed that the ovum shuddered at the sight of Wang Teng.

The movement was minimal.

Aside from the ovum itself, no one else had noticed.

The ovoid entity was in a bad mood at the moment.

Hatred welled up inside when it saw Wang Teng, but the feeling was soon replaced by uncontrollable fear.

It’s him! It’s him!

This is the human that sucked up all my Darkness Origin and almost killed me. Someone even studied my body.

That was the most somber period of its life!

This human is a devil.

They were meeting once again. It was far from that “devil’s” hand, but it felt nervous for some reason.

The sensation was akin to having something dangerous pressing on its body.

The ovum wished it could leave that place and escape from that devil’s vision.

“Haha, listen well!” Wang Teng sensed the ovum’s abnormal behavior and sniggered. Then, he shouted, “Devil ovum!”

Silence.

The latter didn’t show any response. No sounds were made.

It wouldn’t respond to that devil. But, he looks scary... if I don’t respond, will he suck out my Darkness Origin again?

The thing trembled.

“Hahaha...” Bare Brain laughed and said, “See? Why would the devil ovum respond to a human like you?”

“Oh yeah?” Wang Teng gave the latter a strange smile.

“You’re just trying to draw attention,” Death Bone snorted and said, “Bare Brain, quick, ignore him and have the ovum start contaminating. I want to see this planet be destroyed and turning into our dark territory.”

“Yes!” Bare Brain turned serious. He then ignored Wang Teng’s taunts and started to activate the ovum.

“Devil ovum, looks like you don’t recognize me anymore.” Wang Teng squinted.

Just then, the ovum gave a shrill cry as if having suppressed its emotions for a long time.

It was unable to bear the pressure anymore. This devil is too scary!

Bare Brain was stunned.

The titans Death Bone and Spirit Arm were also confused. They stared at each other in disbelief, wondering if the whole thing was an illusion.

The devil ovum cried!

Is it responding to the human?

But, it sounded a little... fearful?

Yes, fearful!

The titans were certain they heard fear in the devil ovum's cry. What is happening?

Why would the devil ovum fear a celestial stage human?

This is not right!

Wang Teng smiled at Bare Brain and asked calmly, "What do you think?"

Bare Brain controlled his astonishment, throwing an angry question instead, "What did you do to the devil ovum?"

Wang Teng replied with some nonsense, "I told you that we've studied the devil ovum inside and out. It listens to us now, so it will respond to me."

"Why should I believe you?" Bare Brain felt his world collapse. He didn't want to believe what the human was saying, but he couldn't be certain, given the ovum's response. Something he was unaware of took place, which caused the ovum to react.

General Cameron and the others wore strange expressions. Their facial muscles twitched as they tried to hold their laughter when they saw Bare Brain's confused face.

The high-tier devil emperor got fooled by Wang Teng!

Is this fellow a bit daft?

He's a bit low in the intelligence department!

Death Bone couldn't watch anymore, so he urged, "Enough. Bare Brain, start now!"

Bare Brain regained his composure. He furrowed his brow, feeling he had been played by the human so he shot a cold glance at the latter.

He decided not to speak to Wang Teng anymore, in case he got distracted again.

Boom!

The next instant, a frightening force fluctuation erupted from Bare Brain's body. He raised his hand and the devil ovum flew up into the sky.

"What is he doing?" Everyone's expressions changed as they looked up.

A black light flashed past Bare Brain's eyes. An immense surge of constellation dark force flowed through like a powerful river.

## **Chapter 1332: Amalgamation! The Terrifying Devil Ovum! (3)**

1332 Amalgamation! The Terrifying Devil Ovum! (3)

Boom!

A loud noise was made by the devil ovum as it started to expand. In the blink of an eye, it was already several dozen, hundreds of meters wide and it kept on expanding...

Everyone's pupils were like pinpoints, horrified to see the unexpected change of the cocoon.

Bai Shanhou became serious as well, so he sent out a voice transmission, "How confident are you?"

Bai Shanhou! Wang Teng was taken aback. He didn't think that the expert would make direct contact. "Around 70-80%?"

"70-80%?" Bai Shanhou's gaze changed, then he nodded. "That's enough!"

Wang Teng looked at the growing ovum and asked with a serious look on his face, "Do we make a move now?"

"There's no hurry. Let's wait it out first," Bai Shanhou said.

"No hurry?" Wang Teng could only be impressed by the latter's calm demeanor. He had already planned to detonate the devil bombs, but now he could only pause the plan.

Bai Shanhou was probably thinking about something else, possibly using this as a chance to observe the ovum's development. There weren't many opportunities to study the enemy without worrying about the consequences.

In any case, our hero would simply do what the boss said. Even if there was a problem, the latter would take care of it; there was nothing to be afraid of.

The devil ovum kept expanding, and was almost a kilometer wide as it hovered in the sky, casting a large shadow on the ground, blocking the sky and the sun.

The large body had a powerful, gradual pulse, with wiggling, densely packed vein-like tubes. It looked frightening.

The human fighters were terrified, slack jawed and silent for a long time.

There was only silence!

Extremely terrifying!

The devil ovum was beyond terrifying!

Can we really deal with something like this?

“Is that the ovum’s complete body?” Wang Teng was curious.

He didn’t feel as wary, having seen a fair share of such creatures. Our hero had already gotten used to it.

The dark apparitions had strange and disgusting techniques. The devil ovum’s transformation was considered one of the best ones.

“Hahaha, die!” said Devil Emperor Bare Brain all of a sudden. His upper body appeared on top of the devil ovum.

Wang Teng’s eyes narrowed.

No one had noticed the moment Bare Brain merged with the ovum.

His lower body had merged with the cocoon, and black blood vessels were connected to it. His upper body became extremely massive and was clearly visible, even though he was attached to the ovum.

Bai Shanhui appeared next to Wang Teng and disclosed his thoughts, “I see, even if it’s a complete ovum, it still needs a high-tier devil emperor to amalgamate.”

“Humans had never discovered this secret before?” Wang Teng asked with a solemn expression.

“We had seen it a few times, but we never discovered this fact.” Bai Shanhui shook his head. “That’s why I allowed the ovum to reach this stage. I wanted to find out the truth.”

Wang Teng was surprised, since he didn't know that the cocoon was so mysterious. Had they not chosen to take the initiative and attack this time, they would have probably not seen the ovum's true face.

Swoosh!

All of a sudden, the vein-like things on the ovum's surface burst; a stream of extremely thick, black mist was suddenly spewed out, enveloping the devil ovum.

The ovoid entity was completely hidden from sight by the black mist.

"What's this?" Wang Teng's eyes lit up.

He sensed something both familiar and special coming from the black mist. It was probably the medium through which the devil ovum enchanted others.

Concurrently, large amounts of attribute bubbles fell out and floated around the mist.

"So many attribute bubbles!" Wang Teng rushed to collect them.

Enchanting Mist\*30

Enchanting Mist\*50

Enchanting Mist\*20

...

"Huh!" Wang Teng exclaimed softly. Enchanting Mist was another Enchantment technique!

Wait, this is for large-scale Enchantments.

He finally realized what was going on and his expression changed drastically. There was no time for him to study attribute bubbles, so he immediately shouted at the martial warriors below.

"Retreat!

"Retreat!

"Everyone, get out of the black mist's range. Stay away from it! Hurry!"

Everyone snapped out of their shock, and darted away into the distance before even processing what was happening. They could sense the graveness of the situation based on the young official's voice.

“Wang Teng!” General Cameron and the others approached Wang Teng, wanting to ask why the order was issued.

“General Cameron, take everyone and get out of this area first,” Wang Teng said without any further explanation.

“This...” The officials had doubts, clueless about the young man’s purpose.

“Listen to him and leave the area. Just him and me will be enough,” Bai Shanhou said calmly.

“Yes!” General Cameron and the others were taken aback. They wanted to know what was going on, but could only obey Bai Shanhou’s words.

They then took the martial warriors away and retreated from the forest.

The black mist released by the devil ovum was covering a wide range. Judging by the speed, it would cover the entire mountain range.

Bare Brain didn’t care about them; there was a look of disdain in his eyes.

Do these humans think they can run away?

Once the devil ovum is initiated, the whole planet will go down; no one would be able to escape.

“I didn’t expect you to stay.” Bai Shanhou looked at Wang Teng with great interest.

“I have nothing to be afraid of while you are here,” Wang Teng replied with a fawning smile.

“Hahaha, you’re really interesting. I rarely see any juniors as interesting as you.” Bai Shanhou laughed heartily.

“Is it that funny?” Wang Teng didn’t have the energy to complain. He then asked, “Senior, do we keep on waiting?”

“Let me have another look.” Bai Shanhou stood with hands behind his back as he looked at the devil ovum. His eyes were flickering, as if observing something within.

Wang Teng had no choice but to wait.

“Bai Shanhou, looks like you’re about to lose,” said Death Bone with indifference, all the way from the other side of the rift.

“It’s too early to be happy,” Bai Shanhou replied.

“Hmph, stubborn even while about to die.” Death Bone scoffed.

Boom!

Suddenly, the black mist surrounding the devil ovum started spreading towards the surroundings. It was extremely fast, and the progress was clearly visible.

“Everything will end right here!” Bare Brain opened his arms, as if ready to embrace the dark apparition’s new land.

Bai Shanhou glanced at Bare Brain and sneered. “Wang Teng, you can do it now!”

“All right. I can’t wait any longer!” Wang Teng smirked and shouted, “Devil Emperor Bare Brain, everything is over!”

The alluded monster frowned. He looked at Wang Teng, but didn’t know what the former implied by that.

Wang Teng wasn’t interested in striking up a conversation. He uttered a single word, “Boom!”

Boom! Boom! Boom!

There was a sequence of continuous explosions inside the devil ovum. The horrifyingly powerful blasts almost covered the ovum’s whole body.

Bare Brain’s eyes widened. His face was full of horror as he roared angrily, “What is going on?”

Unfortunately, the only answer he got was the sound of explosions. The black mist stopped spreading, as if something were resisting it.

“Bye bye!” Wang Teng waved at Devil Emperor Bare Brain.

“It was you!” Bare Brain stared furiously at Wang Teng in disbelief.

This must be his doing!

It must be him!

Boom!

It was already too late when he realized what happened. The terrifying force within the ovum exploded.

“No...!”

Bare Brain could only let out a frustrated roar before being drowned out by the roars of the explosion.

The black mist instantly rose into the sky, scattered under the dimensional rift like black fireworks.

## **Chapter 1333: Clear Arrangements for the Obelisk Scale Dragon Beast! (1)**

1333 Clear Arrangements for the Obelisk Scale Dragon Beast! (1)

Black fireworks blossomed, and a mushroom cloud rose in the sky. Earth-shattering explosions echoed in the air.

It was an astonishing scene!

The devil ovum was humongous, and produced a majestic effect when it exploded.

The myriads of dark apparitions were dazed. All their zealous expressions disappeared; they stared dumbstruck at the massive blast, minds frozen still.

What happened?

Why did the devil ovum explode?

Countless thoughts started floating in their minds.

Not even the pair of devil titans understood the situation.

Xuelun, Jefred and the other mid-tier devil emperors were similarly affected, taking a good while to regain their composure.

General Cameron and the others had just pulled back, moving to an area just outside the mountain range when they heard the distant explosion. They looked back anxiously.

“Did he do it?” Excitement swarmed into General Qi Yuanju’s eyes.

“I think so. Such an explosion was surely enough to kill the ovum, wasn’t it?” General Kimberly clenched her fists tightly as she stared at the explosion in the depths of the forest.

“Colonel Wang Teng has achieved an impressive feat. I don’t know how he did it,” General Ukeri lamented with amazement.

“There’s hope for us as long as the devil ovum is destroyed. I must ask for credits to be awarded to Colonel Wang Teng!” General Cameron was just as excited. “Everyone, prepare to retaliate. There’s no need to fear the apparitions if the ovum is out of the equation.”

“Hahaha, that’s right. What else is there to be afraid of?”

“I will give the order immediately.”

“Time to kick their a\*\*es!”

...

The generals quickly switched to a more coarse language, cursing left and right. Then, they turned and swiftly went to the battlecrafts and started making arrangements for a reversal.

Below the dimensional rift—Bai Shanhou blocked the light with a hand as he looked at the explosion in the sky. He exclaimed, “Tsk tsk, now this is a powerful explosion. It blasted from within, right? How did you do it?”

He didn’t understand how the young fellow had placed the explosives inside the evil cocoon.

Also, it wasn’t just one bomb; the thing wouldn’t have shattered if otherwise.

It was hard to understand.

Placing one bomb was complicated enough, let alone that many. Moreso, none of the apparitions notice a thing. Were they blind?

This is unbelievable!

“Cough, I fed explosives to the thing and it kept on eating. That’s all!” Wang Teng coughed awkwardly when he saw the human powerhouse’s gaze.

“That’s it?” Bai Shanhou glanced at the young hero with a strange and meaningful expression.

“Yes, that’s it.” Wang Teng nodded seriously.

“Looks like you have many secrets,” Bai Shanhou teased with a smile.

The former smiled awkwardly, feeling a little pressured by the old monster. Luckily though, the other didn’t really care. He would have had to rack his brains to cover up if the other kept probing.

How could he reveal that he turned into a dark apparition and sneaked into their base? That would sound absurd!

Bai Shanhou would probably feel inclined to cut him up and examine his body if the man knew the boy possessed constellation dark force. After all, the latter had been able to possess pure dark force and not be contaminated by it.

The explosions started to subside, and the black mist also dispersed. A faint outline could be seen.

“Roar!”

An agonizing cry was heard, seemingly from an injured wild beast, filled with anger and madness.

“Your explosion can destroy the devil ovum, but killing a high-tier devil emperor isn’t that easy,” Bai Shanhou said.

Wang Teng nodded, having predicted the outcome.

A high-tier devil emperor was extremely powerful; he couldn’t assure that those devil bombs could kill one. It was unrealistic.

If devil bombs were that powerful, there would have been universe stage martial warriors everywhere, no longer considered formidable.

The black mist faded away completely, revealing the devil ovum’s appearance.

The giant cocoon was in a disastrous state, riddled with holes and dents by the explosion. A thick, black liquid oozed out of them, which seemed to be blood.

The strong pulsations had become extremely weak; the thing was gradually shrinking to preserve its last ounce of vitality.

The devil bombs exploded within its body, destroying a large part of its Darkness Origin. It wasn’t able to maintain its large form anymore.

Such damage would have been impossible to replicate if it occurred outside the ovum.

However, Wang Teng was tricky, managing to stuff the bombs inside the body; the blast crushed the ovum’s foundation directly.

It was like swallowing a sharp blade down your throat. Who could ever bear with the pain!

A black mist floated up.

It was the Enchanting Mist, a smoke produced by the explosion.

There were also many attribute bubbles floating in the mist. The great explosion actually forced attribute bubbles out from the cocoon.

Collect!

Wang Teng hurriedly released his spiritual power and all the attribute bubbles flew towards him.

Enchanting Mist\*100

Enchantment\*200

Darkness Origin\*100

Enchanting Mist\*200

Darkness Origin\*120

Enchantment\*150

Constellation Force (Dark)\*2600

...

## **Chapter 1334: Clear Arrangements for the Obelisk Scale Dragon Beast! (2)**

1334 Clear Arrangements for the Obelisk Scale Dragon Beast! (2)

Even the Darkness Origin was forced out. Guess I don't have to suction the thing anymore. Wang Teng was elated.

He needed to be in close contact with the devil ovum if he wanted to absorb its Darkness Origin. It meant that some concealing skills were needed, making for a troublesome task. Nothing was as simple as picking up attributes.

Some time passed, and our hero collected all the attribute bubbles.

There were four main types of bubble drops from the ovum: Darkness Origin, Enchanting Mist, Enchantment, and constellation dark force.

Wang Teng collected 1600 points of Darkness Origin, his biggest harvest yet. The strong power and the associated enlightenment was of great help to him.

Darkness Origin: 2100/10000 (first-rank)

There were 2100 points of Enchanting Mist. Adding it to the eight hundred he had collected some time before, our hero's proficiency in that skill reached the well-versed stage.

Enchanting Mist: 1900/3000 (well-versed)

The difference between Enchanting Mist and Enchantment was that the former was invisible and directed at a single individual while the latter acted in the form of a black mist and would be able to enchant within a large range.

Once our hero grasped that large-scale enchantment skill, he would be unable to release the enchanting mist when he wanted to charm a certain group of people. He didn't need to enchant them one by one.

This skill is quite scary!

Enchanting one person was scary enough, but now he could enchant an entire group, which was scary after thinking about it.

Wang Teng felt that it was unadvisable to easily reveal the skill, or he would become a public enemy.

Humans were afraid of anything odd. Wang Teng was the odd one.

Fortunately, he concealed his abilities well, then acted in a blur when he had too. Thus, no one knew too much about his secrets.

As for the Enchantment attribute, he collected 3200 points in total; a good amount which would allow his Enchantment to reach the specialized stage.

Enchantment: 600/5000 (specialized)

Lastly, he received 31,200 points of constellation dark force. He picked up many dark force attributes before this, so when added together, it would reach the perfected ninth-level celestial stage. Actually, it exceeded that limit.

He could break through and enter the cosmos stage, but he forcefully suppressed that step.

None of his other forces had attained the perfected ninth level celestial stage; it wasn't the right time to advance.

Furthermore, only celestial stage martial warriors could partake in the League Of Talents. He would miss a big break if he jumped to the cosmos stage.

Splat!

A strange sound was heard.

Wang Teng looked up. Devil Emperor Bare Brain was struggling to climb out from the devil ovum.

The blood vessels connecting him to the ovum were torn, one by one. Black blood oozed out, and there was even something akin to muscle-tissue compound being torn and detached from the devil ovum.

“Devil Emperor No Brain is hurt.” Wang Teng squinted.

Bai Shanhou said, “The devil ovum exploded while they were still connected, and he couldn’t make it out in time. The bomb wouldn’t have affected him, at all. What a pleasant surprise.”

“Useless!”

Titan Death Bone’s icy voice resounded, originating from some place on the other side of the rift. He was angry at Bare Brain; their perfect plan was ruined, and the devil ovum was damaged. Useless!

Bare Brain managed to escape. Blood had drenched his gigantic body, while his dark-red hair was all messy. He lowered his head, not making a sound; however, the killing intent was obvious.

“This high-tier devil emperor is going crazy. You should retreat a little; it’s senior Cameron’s turn now,” Cameron said.

A sonic boom was heard the moment he finished talking.

Wang Teng turned and saw General Cameron and the others returning to the battlefield.

“Leave this high-tier devil emperor to me. Y’all can take care of the mid-tier devil emperors,” said General Cameron, waving a hand and charging towards Bare Brain.

“Die!”

“Die!”

“All of you must die!”

Bare Brain had gone berserk. He started with a low bellow, which morphed into a scream in the end; his cry shot right into the sky.

Boom!

A terrifying aura exploded from within his body. He stepped on the devil ovum, creating black air waves that swept in all directions and disappearing shortly after.

General Cameron dashed forward. Both parties increased their speed to the maximum, and instantly collided in the air. A deafening explosion was heard.

The leading general was an earth element martial warrior. His body exuded a dazzling yellow glow, while a dark-red glow burst from the Bare Brain's body. Wisps of dark-red flames intertwined his body.

The two of them had kept colliding in the air, just like two huge balls of light. The space around them shook, numerous dimensional rifts being formed. Their battle flattened a few mountains, and destroyed everything in their path.

In the end, both parties went further and flew toward outer space.

Their fight was so destructive they needed to go into space to go all out; Defense Planet No. 29 would burst completely.

On the other side—General Qi Yuanju and the others rushed forward and started an intense battle with Xuelun and the other mid-tier devil emperors.

“Kill!”

“Kill!”

“Kill!”

The human warriors launched a counterattack and charged towards the dark apparitions.

The latter roared in anger, dashing towards their enemies furiously. The war continued.

## **Chapter 1335: Clear Arrangements for the Obelisk Scale Dragon Beast! (3)**

1335 Clear Arrangements for the Obelisk Scale Dragon Beast! (3)

“Roar!”

Just then, a thunderous roar resounded in the air. Everyone looked down, feeling surprised.

The ground was trembling!

Numerous cracks appeared on the ground. Trees started to tumble and mountains were splitting. A terrifying behemoth shook its body and bellowed toward the sky.

“The dark behemoth finally moved!” Wang Teng became grim as he stared at the massive apparition crawled up.

“The Obelisk Scale Dragon Beast!” Bai Shanhou shook his head and rubbed his temples. This is a little troublesome.

It was a universe stage creature, so he could easily deal with it. However, it would be really troublesome for the other human warriors present.

Boom!

The ground shook as the great dragon slowly rose from the ground. There was a loud bang when each foot landed.

After that, its body started to expand. It was hill-sized at first, and then gradually pushed against the valley walls and changed the terrain.

The human warriors and the apparitions nearby scrambled to escape.

The massive dragon opened its mouth. The few humans who couldn't evade in time were bitten by it. Fresh blood spurted out.

Then, the behemoth ignored the other humans and soared into the sky, heading straight into outer space.

The creature's body kept expanding as it flew up. The onlookers were able to see its whole body as it left the mountains, the region, and went up into space.

The beast was as gigantic as a planet!

“Gulp!”

Many people swallowed saliva out of reflex, visibly shocked. Some even forgot to breathe.

“This is bad. It's going up to help Bare Brain.” Wang Teng looked serious. Such development was surprising.

He knew that the Obelisk Scale Dragon Beast was a dark behemoth who could enlarge its body, yet he was still amazed after seeing this in person.

Among all the monsters he had seen before, only the Devouring Nihility Beast could compare. However, the latter was inside the core of the planet, so he didn't get to see its entire body.

"Cameron is in trouble!" Bai Shanhou shook his head.

Wang Teng felt at a loss when he noticed the other man's expression. How can he remain so calm when he knows that General Cameron is in trouble? Were all bosses this indifferent?

"What do we do now? Do we have other universe stage warriors?" Wang Teng asked.

"They're not here. It's difficult to mobilize them. There are many implications," Bai Shanhou replied calmly.

"Are we just going to watch as he is surrounded?" Wang Teng asked.

"Don't worry. Let's stand aside and look first." Bai Shanhou placed his hand on Wang Teng's shoulder, and both of them disappeared. The devil ovum was also gone. Bai Shanhou had taken it with him.

In space.

A terrifying universe-level behemoth floating in the pitch-black void. Some distance ahead of the latter—two figures collided fiercely, with powerful impact waves being swept all over. All the asteroids around them had been destroyed.

"Roar!"

The Obelisk Scale Dragon Beast roared and raised a claw to slap one of the figures down.

Space was compressed, and a terrifying force was brought forth.

The great dragon was massive, but also fast. Its claw was right above the enemy human within the blink of an eye.

Wang Teng and Bai Shanhou saw this as soon as they reappeared. Their pupils shrank.

"Be careful!"

The great dragon's target was General Cameron.

However, the claw only passed by empty air. The general took notice in a timely matter and evaded.

Boom!

A giant light blade slashed down some distance away.

There seemed to be no end to the long blade. It slammed directly on the giant dragon.

“Roar!”

The creature gave an angry roar. A trail of blood appeared on its back. It was indeed injured.

No matter how tough its body was, it would be impossible to remain unscathed after being hit by a universe warrior's blade.

Furthermore, the humongous creature made for an easy target. Another blade arrived from somewhere in the void.

Boom!

This time, the weapon went straight for the head.

The Obelisk Scale Dragon Beast roared, and a blinding dark-yellow ray of light was shot by its body, which formed a light shield above its head.

Clang!

A metallic sound was heard. The blade glow crashed into the shield and was blocked.

Bare Brain wasn't a dawdler. He held his dark-red battle mace and hurled moves back at the spot where the attacks came from. Space shook, and thin cracks started to appear.

General Cameron was forced out of his hiding spot. He had no choice but to give up attacking the great dragon and aim for Bare Brain.

Boom!

Both parties collided again. The great dragon joined in and slapped its giant claws in the air, compressing space within. General Cameron seemed a little overwhelmed.

The human leader was at a disadvantage when dealing with the combined effort of the dragon and the elder apparition.

“We can’t continue like this,” Wang Teng said in a gloomy tone.

“It doesn’t seem realistic to let Cameron handle those two on his own,” Bai Shanhou said calmly.

Boss, can you be less indifferent in such difficult times? Wang Teng wanted to voice his complaint, but that was an eternal stage marquess, so he decided to keep quiet. He just stared at the other intently...

Bai Shanhou couldn’t stand Wang Teng’s gaze anymore and coughed awkwardly. “Cough, all right, use the Planet Annihilation Cannon!”

## **Chapter 1336: Clear Arrangements for the Obelisk Scale Dragon Beast! (4)**

1336 Clear Arrangements for the Obelisk Scale Dragon Beast! (4)

Wang Teng was surprised, yet he quickly reacted. “The Planet Annihilation Cannon!”

Right, they didn’t have any more universe warriors, but they had a universe level force weapon!

The weapon wasn’t as suitable to go against same-level powerhouses since it was hard to take proper aim, but the Obelisk Scale Dragon Beast was huge. It was the best target.

“Where’s the Planet Annihilation Cannon?” Wang Teng asked in a hurry.

“It’s right there,” said Bai Shanhou as he glanced at a natural satellite orbiting Defense Planet No. 29.

Wang Teng blinked in understanding.

The cannon had always been on satellite No. 3!

There were five natural satellites spinning around the planet with simple numbering as names. Bai Shanhou had pointed at the third satellite just then.

Actually, there were powerful force weapons mounted on each satellite, but the great dragon was within the third moon’s shooting range.

Bai Shanhou exclaimed, “You didn’t know about this? The universe behemoth could make a move at any time, so we had to keep powerful force weapons at the ready.”

Wang Teng felt he was being looked down upon.

This Bai Shanhou is a little cheeky. Isn't he an elder? Can't he be more amiable?

However, once he pondered about it, there had been arrangements already made to tackle the giant dragon!

Just as they spoke—a powerful glow lit up the third satellite, sweeping out terrifying force fluctuations.

The Planet Annihilation Cannon was gathering energy!

“Roar!”

The giant dragon sensed that something was off, so it gave an uneasy roar. Dark-yellow force began to churn and consolidate, forming a thick and solid light shield.

Boom!

In the next moment, on satellite No. 3—a brilliant glow erupted, shooting straight to the Obelisk Scale Dragon Beast. An explosion blasted through space.

The powerful cannon fired and a pillar of light extended from the third satellite, all the way to the Obelisk Scale Dragon Beast. The terrifying force attack landed on the creature in an instant.

The cannon attack landed on the dark yellow shield and froze for a second. However, cracks started to appear on the light shield after a short while, spreading like spiderwebs.

“Roar!” The great dragon let out a furious roar. Dark yellow force surged out and seeped into the light shield continuously.

Wang Teng looked grim.

This giant dragon is very powerful!

It managed to block the Planet Annihilation Cannon!

“Useless!” Bai Shanhou smirked.

Boom!

The dark-yellow shield shattered the moment he stopped speaking, and the beam landed on the behemoth's body.

“Roar!”

The dragon beast’s voice changed. It now roared while conveying an excruciating pain due to the cannon move, piercing its body. Blood was splattered, floating in space.

Wang Teng was taken aback.

The Planet Annihilation Cannon was awesome!

One shot was enough to injure the giant dragon, a creature known for having amazing defenses. Wang Teng wanted to hit the thumbs up button continuously for the weapon.

Wang Teng knew how tough the scales of the creature were, but they were like tofu to the Planet Annihilation Cannon. They would be completely unable to resist its terrifying strength.

Bai Shanhou placed his hands behind his back and said calmly, “See? Nothing to worry about.”

Boss is showing off again. Wang Teng really wanted to buy a watermelon and sit by the side so he could enjoy the battle.

Bai Shanhou seemed to be saying ‘this is nothing; sit down, relax, and enjoy the show’ with his expression.

“Roar!” The Obelisk Scale Dragon Beast howled in pain. Anger burned in its beastly eyes as it opened its giant mouth. A huge, dark-yellow ball of light was quickly taking form.

“That cannon fire made it angry. It now wants to settle accounts with the original Planet Annihilation Cannon!” Wang Teng’s expression changed.

“Go ahead!” Bai Shanhou said all of a sudden.

“What?” Wang Teng was stunned.

“Go and distract the dragon beast. Are you going to let it attack the cannon?” Bai Shanhou asked.

“Wait, me?” The young hero felt at a loss. The monster was powerful. Going there would be like asking for death. Boss, don’t play with me like this.

“Who else? Me?” Bai Shanhou acted speechless.

“I can’t beat it.” Wang Teng shook his head. He wouldn’t do this.

"I asked you to distract it, not fight with it. Use your space skills!" Bai Shanhou urged, "If you don't act, the Planet Annihilation Cannon will be destroyed!"

"F\*\*k!" Wang Teng's expression changed. He knew there was no time to hesitate, so he rushed out with a bitter expression.

His eyes shimmered as he thought of a way to deal with the dark behemoth. Fighting face on wasn't an option; he needed to use outflanking tactics.

Suddenly, an idea popped into his mind. He thought of the Divine Sonicwave!

This was a spiritual sound technique he gained from the antmen queen, which should be suitable for the occasion.

He didn't need to go forward; it would be enough to attack from a distance.

However, he had only mastered the move up to the foundation stage. Such proficiency wasn't enough, so he couldn't execute it quickly.

There was no other choice; he could only add points to improve it.

Wang Teng gritted his teeth and added his remaining blank attributes to this technique.

The Divine Sonicwave soared through the well-versed and the specialized stage, ultimately reaching the small achievement stage.

Wang Teng stopped abruptly, not daring to get too close. Then, almost instantly, he shouted at the Obelisk Scale Dragon Beast.

Invisible soundwaves and spiritual power were combined, forming a spirit-soundwave combo that surged straight to the giant dragon.

The creature had a light sphere in its mouth at the moment, close to completion. Conversely, the Planet Annihilation Cannon was almost ready to fire.

Wang Teng's attack entered the battlefield abruptly, causing the gargantuan creature to feel dizzy for a second. However it recovered quickly, being a universe-stage dark behemoth, even while spiritual attacks weren't its strong suit.

Our hero didn't give it another chance to react. He released another sonic attack.

The great dragon got dizzy again.

It was furious when it recovered.

The beast was fuming. It turned to glare at the nearby little human with a sharp and cold gaze.

Wang Teng's head turned numb. He frantically pointed. "Oh look, an airplane!"

Boom!

The Planet Annihilation Cannon finished charging up thanks to Wang Teng's stalling, then fired.

The dragon beast squinted, feeling an unprecedented sense of danger. It quickly turned, no longer caring about Wang Teng. The incomplete dark, yellow ball of light was spat.

Boom!

The cannon's blast collided with the light sphere, producing an ear-splitting explosion. A powerful wake ensued, turning asteroids into dust.

Bai Shanhou waved a hand and blocked the impact, protecting Defense Planet No. 29 behind him.

The incomplete beast attack wasn't a match for the cannon, so it crumbled under the strain. The massive blast continued its path unimpeded, slamming into the Obelisk Scale Dragon Beast.

"Roar!"

A cry of agony was heard. This time, the blast pierced through the beast's head, creating a hole in its eye.

It was tragic!

Wang Teng heaved a sigh of relief when he saw this. "Is it dead?"

"It's not so easy. The beast has a strong vitality," Bai Shanhou replied.

Just as he spoke—the massive creature showed signs of still being alive, even after a hole had been made in its head. Its body shrunk quickly; the beast turned tail and ran to get away without any hesitation.

"It's escaping???" Wang Teng was dumbfounded.

## Chapter 1337: A Difficult Battle—Killing the Obelisk Scale Dragon Beast! (1)

1337 A Difficult Battle—Killing the Obelisk Scale Dragon Beast! (1)

It ran?

It looked majestic a short while before, as if able to swallow stars and the moon. But now, it was just fleeing for dear life.

Where did that overwhelming presence go?

Wang Teng couldn't believe it.

It seemed inconsistent and even unreal.

Most importantly, the giant dragon chose to escape without a shred of hesitation, like acting out a long-practiced move.

It even seemed a little timid.

"Tsk, this dragon beast is really something," Bai Shanhou exclaimed.

On the other side—Devil Emperor Bare Brain's face turned dark. The massive dragon was basically useless, merely fleeing after the last attack.

"Hahaha!" General Cameron laughed heartily. He could finally attack as he wished since the dragon's restraint had been removed. Wielding his sword, he slashed repeatedly at Bare Brain.

"Get lost!" Bare Brain was furious. The battle mace was wrapped in flames hot enough to burn the skies, which then turned into a huge hammer glow to smash forth.

It was a terrifying battle which spanned an unimaginable distance, reaching all the way towards space.

Wang Teng's eyes flickered. He said to Bai Shanhou, "Senior, I'm going after the dragon beast. I can't let it escape."

Bai Shanhou raised his eyebrow and asked meaningfully, "Weren't you afraid of getting close to it before? What's different now?"

"Haha, it's heavily injured after all. I should be fine if I'm careful." Wang Teng chuckled.

“Go figure. Chase it if you wish,” Bai Shanhou replied.

“Okay,” Wang Teng said and rushed in the direction the dragon took as it escaped. It had already gone far into the distance. Even with his eyesight, he could barely see a black spot.

Bai Shanhou couldn't help but shake his head and smile when he noticed the young one's excited look.

Our hero went and directly used space techniques to chase the monster at an extremely fast speed.

His figure disappeared into the distance, appearing every now and then. The distance between him and the dragon was getting smaller and smaller.

The latter noticed it was being chased, so it moved faster.

It was hard to imagine that massive body moving at such a terrifying speed.

You can never judge a book by its cover!

Wang Teng's face turned dark. Is this dragon beast a mouse? Why is it so fast? Where's the dark behemoth presence from before?

Our hero felt at a loss. He used everything—wind force, space techniques, including the Wings of Wind and Lightning. You could hear the faint sounds of wind and thunder whenever the wings flapped. His speed was far beyond what a cosmos stage martial warrior could achieve.

However, compared to the universe stage creature, the difference was huge, even if the dragon was injured.

Round Ball's voice echoed just then, “Wang Teng, there's no one else in the vicinity. You can use the Devil Slayer now.”

Wang Teng immediately took out the Devil Slayer and entered it in a flash.

This showed how deep his trust towards Round Ball ran; he hardly gave it any thought.

The Devil Slayer's size was comparable to that of the Obelisk Scale Dragon Beast.

The force engines started, and the Devil Slayer made a roaring sound. It then left an afterimage, disappearing from the current spot.

A universe tier spacecraft could naturally match the dragon's pace. It was also equipped with universe-level weapons on it, which made it possible to deal with the creature.

It was fortunate that Wang Teng could store the vessel. Otherwise, it would be complicated to make use of it.

The dragon beast was startled by the appearance of the Devil Slayer.

The ship wasn't any slower; the beast couldn't outrun it, no matter how fast it accelerated.

The dragon felt aggrieved. A fierce light flashed in its only eye as it let out a loud roar and flew towards a desolate area.

The creature knew who was giving chase; it was the small ant that made it suffer deeply. Its hatred towards Wang Teng even surpassed what it felt about the Planet Annihilation Cannon.

After all, the cannon was a mere object and Wang Teng was a live human, the culprit that directly caused it to suffer grievous injuries.

The human was just a celestial stage warrior. Even while injured, killing the ant would be a piece of cake.

The dragon beast was confident, and full of hatred. Star beasts were often vengeful; it wanted to kill Wang Teng immediately right after making sure that no one else was after it.

The chase continued. Wang Teng was much faster on the ship and was closing up the distance.

Round Ball appeared in front of Wang Teng inside the spacecraft, then noticed where they were headed. "This big guy seems to be deliberately leading us to a remote place."

"I know. It probably wants revenge." Wang Teng sneered. "We'll stay far enough and bait it."

"Hehe, I'm afraid this big guy hasn't experienced a beating. It doesn't know that humans are sinister." Round Ball snickered.

## **Chapter 1338: A Difficult Battle—Killing the Obelisk Scale Dragon Beast! (2)**

1338 A Difficult Battle—Killing the Obelisk Scale Dragon Beast! (2)

"You make me feel like a big villain." Wang Teng had a tough time finding words.

Round Ball squinted at him; it felt like he was saying, 'Aren't you?'

"Roar!"

The Obelisk Scale Dragon Beast suddenly stopped. Its one good eye looked fierce, while the other one was oozing blood, adding to a body covered in wounds.

A dark yellow ball began to condense in its mouth, aimed at the Devil Slayer.

"Dodge!" Wang Teng ordered, "Prepare to attack!"

The Devil Slayer immediately began to charge up while under Round Ball's control.

Boom!

The dark yellow sphere of light was fired by the dragon; it was so fast it turned into a beam as it rushed to the Devil Slayer.

Wang Teng was prepared, though. The ship started its left engine, easily avoiding the attack by the smallest of margins.

Concurrently, the ship's weapons were fully charged; they were fired towards the giant dragon.

Boom! Boom! Boom!

Several cannons were fired at the same time, all with tremendous power. The volley formed an encirclement, surrounding the creature.

"Roar!"

The Obelisk Scale Dragon Beast hurriedly dodged, but was still struck by some of the cannons. The terrifying Force struck its body and bombarded it. Its entire body moved backwards and slammed against a meteorite, smashing it into pieces.

Boom!

The massive dragon was enraged; it rushed out from the shattered meteorite and charged towards the Devil Slayer.

Wang Teng and Round Ball wouldn't give it any chances. The ship maneuvered a perfect drift and appeared in another direction, followed by another volley of blasts at the creature.

Boom! Boom! Boom!

The scene was so touching that the dragon wanted to cry. It was being bombarded again.

They were adopting large scale attacks. Hits would land even if the dragon dodged part of them.

Those attacks would have felt like a drizzle in a usual scenario. The beast could have forced its way through to reach the spacecraft and destroy it.

Just one smack could have rendered the spacecraft into scrap pieces.

It was heavily injured, though. Its offensive, defenses and speed were significantly reduced, leaving the creature feeling extremely sorrowful.

It was being played. A dark behemoth, actually forced into a corner by a celestial stage human.

“Roar!”

The giant dragon howled in frustration.

However, it was greeted by another bombardment. Wang Teng would never show any mercy.

Five bombardment rounds later—the Obelisk Scale Dragon Beast knew it could no longer approach the spacecraft. It was frustrated, but could only give up and escape towards the starry sky.

No matter what, staying alive was more important.

“It’s running again!” Round Ball’s expression turned weird, as it quickly controlled the Devil Slayer to chase after it.

“Wait,” said Wang Teng.

“We’re not chasing?” Just as Round Ball asked—it saw the dragon suddenly turn its head abruptly, catching the little one off guard, scaring it.

“Fire the universe-level force cannon,” said Wang Teng as he walked out of the cabin.

“Damn, I almost fell for it.” Round Ball’s expression turned dark. It was fortunate that Wang Teng gave a timely heads up. The ship retreated and began charging up the cannon.

“What are you going to do?”

"I'll go out for a walk. Just get ready." Wang Teng jumped out of the spacecraft right after his reply.

A set of crimson armor instantly covered the young man's body: the universe battle armor, as he would never act complacently when facing a behemoth.

The Obelisk Scale Dragon Beast's eyes turned red when it saw the human show up. It then let out a loud roar and charged towards Wang Teng in a mad rage.

"Roar!"

This small ant!

This is the small ant that forced me into a corner!

The dragon wanted to tear him to pieces, chew him hard and swallow him.

"So fierce!" Wang Teng raised his eyebrow and dodged the beast's move. A strange sound wave came out of his mouth.

The beast was already prepared for sonic techniques, immediately concentrating its spirit to block.

It was previously hit twice because of the novelty.

The same trick wouldn't work this time.

Sure enough, the soundwaves were unable to do much after entering its mind. The heaven stage spiritual body displayed its strength.

"Roar!"

The great dragon let out a loud roar laced with a hint of joy.

However, it suddenly felt dizzy before happiness could set in.

"What's going on?"

The dizziness only lasted a few seconds, followed by bewilderment once it recovered.

Wang Teng wanted to laugh when he noticed this. The dragon beast really was an idiot.

It was tricked that easily. To think he had actually been worried a moment before.

He didn't use Divine Sonicwave this last time; it was another sonic technique, which was stronger and more peculiar. It was the actual Devil Soundwave from the devil ovum!

## **Chapter 1339: A Difficult Battle—Killing the Obelisk Scale Dragon Beast! (3)**

1339 A Difficult Battle—Killing the Obelisk Scale Dragon Beast! (3)

The Devil Soundwave left no traces, and could be hidden within the Divine Sonicwave. The massive dragon wasn't skilled in the spirit department, so it would go unnoticed.

Honestly, the Obelisk Scale Dragon Beast's pleased expression was a little funny.

The fellow had thought it was a cut above, yet Wang Teng was already at the top.

It became furious due to embarrassment. What a sly little human. Even someone as smart as myself was tricked by me.

As expected, all humans are bad!

The beast complained, yet became more vigilant of any sonic attacks.

The attack went through, even when blocking. Something wasn't right.

Just then, the terrifying force fluctuation from the Devil Slayer attracted its attention. The dragon glared at Wang Teng and decided to disregard him for now. It then rushed towards the ship.

There was a sense of threat coming from the force attack being prepared. The beast moved to prevent the attack from being launched.

The creature was as intelligent as a human, and knew it would have been hurt if our hero hadn't tricked it.

Another sonic attack crashed right into its consciousness.

The Obelisk Scale Dragon Beast tried its best to resist but failed. It was dazed and confused.

After two seconds passed—the creature shook its head and snapped out of it, with an expression showing both fear and anger.

The ship finished charging; the universe-level cannon fired.

“Roar!”

The dragon beast roared into the sky and a dark yellow force erupted from its body. No longer holding back in the face of death, it released all its power, including origin power, to form a powerful defense wall.

Boom!

The cannon blast rammed into its body.

Wang Teng furrowed his brow as he quickly ordered his ally, Round Ball, “Recharge!”

The latter was stunned, but chose to comply without any hesitation.

“Roar!”

The dragon was still alive and kicking; it dashed out of the cannon’s range while a dark-yellow light glowed around it like a protective shield.

Wang Teng squinted and shouted frantically, “Shit! Move!”

Right after moving out of range, the dragon headed straight for the ship at a very fast speed, getting really close within a split second. Using its large body, it rammed against the Devil Slayer’s metallic shell.

Boom!

A loud bang echoed in the air.

Round Ball immediately activated the ship’s shield when the battlecraft was hit.

The giant spacecraft was unable to withstand the impact; it was thrown backwards, crashing into an asteroid passing by.

The ship’s defenses shattered with a bang!

Wang Teng’s expression had a complete change, not expecting the beast’s final retaliation to be that strong. As expected of a universe stage dark behemoth. Although exhausted and badly injured, it wasn’t good to underestimate the creature.

The dragon was also affected by the last collision. The latter shook its head and took some time to recover. Then, it stared at the Devil Slayer coldly, then planned to strike the spacecraft again.

It could definitely turn the spacecraft into scrap this time.

Wang Teng reminded Round Ball hurriedly through voice transmission, "Round Ball, evade the attack. The dragon beast is going all out."

Round Ball also noticed this, and hurriedly maneuvered the ship to veer away from the asteroid and the attack range.

The crash destroyed the defense shield and damaged 30% of the ship's body. The ship would be unable to sustain another crash.

"Roar!"

The dragon chased after the ship, dead set on destroying it.

Wang Teng looked grim. Space fluctuations floated outward, moving around his body.

A large number of space attribute bubbles were formed when the dark apparitions opened dimensional rifts; these space phenomena caused by the fight between formidable martial warriors had also created space-attribute bubbles, making our hero's spatial proficiency to have a tremendous rise when he picked them up.

Space Physique: 208500/300000 (third-rank)

Although merely at the third-rank, he had become much stronger than before. Although clueless as to whether he could hurt the big dragon, that was his strongest move, so he had to give it a try.

Boom!

Space power was swept out, twirling around the young man. It became a tornado soon after.

The space around him cracked, turning into new dimensional rifts. An invisible wind blew, so sharp it was able to cut through everything.

The dragon beast felt something was off, then turned to stare at Wang Teng in bewilderment.

Wang Teng said in a low voice, "Round Ball, stop that fellow."

"That move?" Round Ball's eyes lit up. It looked at the dragon beast and smiled. "Big fellow, let's play!"

Boom, boom, boom...

Force cannons were shot from the ship as the little one tried to disturb an Obelisk Scale Dragon Beast. The attacks weren't universe-stage attacks, but they could injure heaven stage beings. Thus, the Obelisk Scale Dragon Beast couldn't ignore them.

Round Ball's heart was aching. We are burning money!

Every cannon required a large amount of energy stones. They would have stopped long before if Wang Teng wasn't wealthy enough.

## **Chapter 1340: A Difficult Battle - Killing the Obelisk Scale Dragon Beast! (4)**

1340 A Difficult Battle – Killing the Obelisk Scale Dragon Beast! (4)

Not even universe stage warriors would use heaven-stage and universe-stage cannons nonstop and be careless about it.

Since Round Ball was pulling it back, Wang Teng could execute his ultimate move in peace.

A space tornado was manifested, which grew bigger and bigger. All the asteroids were swept in and rendered to pieces instantly. Space trembled and a terrifying impact was heard.

Even Wang Teng was astounded when he noticed the tornado's magnitude.

I accidentally made it too big!

"Round Ball, attract the dragon beast over." Wang Teng's eyes shimmered. It's about time. He had to release the vortex soon, as he wouldn't be able to control it for much longer.

Along with the strengthening of his Space Physique, was the power increase of his Space Tornado. He couldn't withstand its effect, even with his physical upgrade.

Round Ball heard Wang Teng's command and immediately turned the Devil Slayer around, steering in another direction.

The ship didn't fly towards Wang Teng directly. Instead, it made the dragon beast move in circles. On the other hand, the dragon let the human be, since the latter was dangerous.

Wang Teng blinked, quickly hiding in a dimensional rift. The Space Tornado also disappeared.

The vortex was a veritable fish in the sea when it came to space. Its power reached a high point as it sucked all the spatial power nearby.

Cold sweat started pouring down our hero's forehead. He tried his best to control the tornado; he could die if it exploded. Well... That would be fun, huh?

He stared intently at the Obelisk Scale Dragon Beast as he muttered to himself, "Quick, quick! Faster!"

Round Ball had learned from the 'best', angering the giant dragon until it kept on roaring and chasing the ship relentlessly, mouth wide open. It wanted to bite the spacecraft to pieces.

They were extremely close; so close that a smidge of carelessness would leave the ship at the mercy of the dragon's gaping mouth.

Round Ball was nervous; smiles seemed to have abandoned its face. It was an extremely serious matter.

Boom!

An explosion was heard at the moment. The little helper felt the vessel shaking violently. A powerful suction force trailing behind, attempting to pull the spacecraft in.

It was extremely scary!

Mind you, the Devil Slayer was a universe level spacecraft, with a really powerful engine. However, the suction force was still able to pull it back.

"Wang Teng is taking action!" said Round Ball, frowning and looking back in a hurry.

As expected, a gargantuan Space Tornado was manifested right behind the dragon beast. The latter crashed right into it.

The Devil Slayer was extremely close to the tornado's range, which explained the powerful suction force. Round Ball was astounded, but it didn't have the time to ponder too much about it. The little one quickly rammed the accelerator and overloaded the engine.

Boom!

A blue flame shot out from the ship's engine.

The strong kinetic energy pushed the vessel forward, allowing it to escape the tornado's pull.

“Gasp!” Round Ball heaved a long sigh of relief as it patted its chest. “By golly, I almost died.”

Then, it turned quickly, afraid of missing any of the excitement.

“Roar!”

The dark behemoth gave a thunderous roar. The voice was filled with fear because it was being sucked into the tornado, inch by inch. It couldn’t escape, no matter how much it struggled.

The Space Tornado exploded right next to the dragon; no one could escape from the attack from such a distance.

“Roar!”

Finally—amid an unwilling roar—its entire body was sucked into the vortex.

Crack...

The dark yellow defense shield only lasted for a couple of seconds before it broke. This meant that the last layer of defense was destroyed, and the last chance to survive... was gone!

Crack! Crack! Crack!

Blood gushed out, coloring the tornado a dark red. The thick stench of blood was spread.

Wang Teng stood in the distance, while looking at the scene with a pale face. He then heaved a sigh of relief.

Round Ball appeared on his shoulder and exclaimed, “Your skill seems to have become even stronger!”

“Indeed, that’s why I used it to deal with the dragon.” Wang Teng nodded.

“That was a universe-stage dark behemoth. I can’t believe we managed to kill it.” Round Ball smiled, feeling it had done something noble.

The little one had never experienced such grand events in the past, back when it was still following Nangong Yue. Now, thinking about it, the opponents from back then weren’t even worth mentioning!

Come on, they had just killed a universe-stage dark behemoth! The sense of achievement was amazing.

Wang Teng shook his head. "Don't overthink. The two planet annihilation cannons injured it first; that's why we could kill it."

"That's right, the force cannon in the ship is not as powerful as the Planet Annihilation Cannon." Round Ball nodded. Then, it frowned and continued, "Our Devil Slayer suffered considerable damage this time."

Wang Teng glanced at the spacecraft and raised his eyebrows. The vessel had suffered terribly after facing the dragon beast, a creature known for its powerful defense. How much money would he need to repair it?

Wang Teng took a deep breath and said, "Forget it. At least we killed the dragon."

Boom!

The Space Tornado produced loud explosions and released its last ounce of strength.

Wang Teng and Round Ball hurriedly shot backwards, not daring to be too close.

The tornado's power was terrifying. He felt wary of it, even though he was its creator.

Some time later—the Space Tornado died down, and the dragon's body appeared in front of Wang Teng.

The creature was a thousand times more miserable than before, wounded all over and drenched in blood. It was a tragic sight.

However, our hero was surprised to see that the body was still intact. It wasn't chopped up by the vortex.

It floated quietly in space. There was no movement; it seemed to be really dead.

"Is it dead?" Round Ball asked after some hesitation, feeling amazed by what it saw; the body seemed to be incredibly powerful.

"Let me take a look." Wang Teng wanted to use his Spiritual Sight to check if the dragon had truly perished. However, he suddenly remembered that his Spiritual Sight level wasn't high enough. He was incapable of seeing through the beast's body at the moment, so he had to raise his stats first.

As for blank attributes...

The dragon beast must have dropped some blank attributes, having been a dark behemoth.

Wang Teng glanced at the attribute bubbles surrounding him and picked them up.

Constellation Force (Earth)\*5600

Divine Level Earth Talent\*1200

Divine Level Dark Talent\*1500

Celestial Realm Spirit\*2800

Cosmos Realm Enlightenment\*7100

Constellation Force (Dark)\*6200

Blank Attribute\*14000

Darkness Origin\*1100

Dark Obelisk Dragon Armor\*2400

Earth Origin\*800

Blank Attribute\*10800

...

A mountain of attribute bubbles rushed into Wang Teng's body. His eyes shimmered brightly, unable to bottle up his excitement.

It was worth it!
