

# **Complete Martial Arts Attributes**

## **Chapter 1701: Round Ball, Super Evolution... (1)**

"Space concealment!"

Wang Teng was overjoyed when he comprehended this skill.

A skill that could allow him to hide in space was simply heaven-defying!

While Wang Teng could use the space talent to hide in space previously, it was nothing but the crudest use of space. It couldn't be compared to Space Concealment.

The method he used in the past would definitely leave traces in the places where he hid. Anyone who grasped the space domain would discover it easily.

However, Space Concealment was different. It was a method that could allow one to hide in space and cover traces and fluctuations as well. Even powerful warriors who had grasped the space domain wouldn't be able to discover them easily.

That was the difference!

That was why the Broadsword Chaotic Beasts were able to evade the pursuit of other Chaotic Beasts that had mastered the laws of space origin.

It was clear that the Space Concealment was more advanced and profound than all of Wang Teng's previous hiding techniques.

Wang Teng felt that he had hit the jackpot. All his effort in capturing this Broadsword Chaotic Beast that had mastered the laws of space origin had finally paid off.

This was indeed a pleasant surprise.

Wang Teng only wanted more laws of space origin. He didn't expect a special skill to drop. If this wasn't luck, then what was?

Furthermore, besides the Space Concealment, the other attribute bubbles he obtained were the laws of space origin. It was a pretty good harvest.

At this moment, he looked at the Broadsword Chaotic Beasts in front of him. His eyes were shining as if it was a delicacy.

"Hey, don't tell me you want to eat it?" Round Ball saw his expression and asked curiously.

"Can they be eaten?" Wang Teng asked.

"Nope." Round Ball replied.

"Then why did you ask?" Wang Teng was speechless.

"Your eyes are shining. I thought you wanted to eat it." Round Ball chuckled.

"This is a treasure. I can't afford to eat it." Wang Teng waved his hand and kept the Broadsword Chaotic Beast in his Devour Space.

"Treasure? A Chaotic Beast that has comprehended the laws of space origin is indeed a treasure. But if you don't kill it, what are you keeping it for? Once it leaves the Chaotic Uncharted, without the nourishment of the origin energy of chaos, it will die soon," Round Ball said in surprise.

"I have my ways." Wang Teng didn't explain further.

He was going to get more attributes out of it gradually. It would be too wasteful to do it all at once.

As for the other Chaotic Beasts, Wang Teng had no choice but to kill them. There were too many of them.

However, Chaotic Beasts that had comprehended laws of space origin were different. Such Chaotic Beasts were relatively rare.

Furthermore, there were even fewer Chaos Beasts who had comprehended Space Concealment. He wouldn't know when he would be able to encounter one again. It'll be a cold day in hell when he does. He had to keep it and fleece it slowly.

Round Ball rolled its eyes. It didn't know what he was thinking.

It couldn't understand what Wang Teng wanted to do.

Elizabeth and Little White were also a little surprised but they did not probe further.

Everyone continued hunting Chaotic Beasts.

"Wang Teng, I think you can release the Metal Armor Flaming Scorpion and the Lightning Spirit to hunt the Chaotic Beasts together. This will be beneficial for their growth," Round Ball suddenly reminded him.

Wang Teng paused for a moment, then quickly caught on and nodded in agreement. He released the Lightning Spirit and the Metal Armor Flaming Scorpion.

"Squeak~" The moment Lightning Spirit appeared, it sensed a large number of Chaotic Beasts around it. It was so frightened that it hid on Wang Teng's head.

The Metal Armor Flaming Scorpion was shocked as well when it saw this scene. However, it had been with Wang Teng for a long time and had seen all kinds of situations. It was used to it.

It only panicked for a moment before calming down.

However, when its gaze landed on Little White, it could not help but be shocked. Then... it felt envious!

Mid-tier imperial-level!

There were also dozens of clones. It was probably some powerful skill.

Little White was much stronger than it.

Damn it, those who were favored had nothing to fear!

When would it be able to have its master's love?

It wanted to become stronger too.

O(T\_T)o

"Little one, why are you so timid?" Wang Teng pulled the Lightning Spirit off his head and lectured it speechlessly. "Go and hunt these Chaotic Beasts. I'll give you all the golden balls of light you get."

As he spoke, a golden light sphere appeared in his hand.

"Squeak!" The Lightning Spirit instantly became excited and wanted to pounce on it.

"If you want to eat it, hunt it yourself," Wang Teng grabbed it tightly and snarled.

There was no way it was going to eat for free.

"Squeak!" The Lightning Spirit let out an aggrieved cry.

O((☹\_☹))o

Didn't you say you were going to support me? You liar!

That wasn't what you said when you tricked me into signing the contract.

"Don't act like a spoiled child. I won't fall for this." Wang Teng threw the Lightning Spirit in his hand at a Chaotic Beast. "Go, Pika... No, go, Lightning Spirit!"

Roar!

A brown Chaotic Beast that looked like a cheetah saw something flying towards it and thought that it was an attack. It immediately let out a roar and opened its mouth to bite at the Lightning Spirit.

"Squeak!" The Lightning Spirit's voice became extremely shrill as if it was frightened. Its entire dumpling-like body seemed to have exploded.

Silence.

Round Ball, Metal Armor Flaming Scorpion, and the others looked at Wang Teng speechlessly.

Was this something a human would do?

The Lightning Spirit was still a child!

How could he treat it like this?

However, what happened soon after widened their eyes.

## **Chapter 1702: Round Ball, Super Evolution... (2)**

Crack!

A burst of purple electric light erupted from the Lightning Spirit's body. Then, it turned into a thunderbolt that surged forward with great force.

Bang!

The cheetah-like Chaotic Beast's body got penetrated and exploded.

The lightning orb formed by the Lightning Spirit circled once before returning to Wang Teng's side. It landed on his head.

Silence.

Everyone turned silent.

What just happened?

In a blink of an eye, the Chaotic Beasts exploded.

Was the Lightning Spirit so powerful?

A sharp glint appeared in Wang Teng's eyes. He looked at the Chaotic Beast that had been pierced by Thunder Spirit and subsequently exploded. It appeared that the beast had truly been killed, as there were no signs of it resurrecting.

He pulled the Lightning Spirit down and sized it up curiously. "You can kill Chaotic Beasts."

"Squeak squeak!" The Lightning Spirit whined pitifully.

"Don't act pitiful. The Chaotic Beasts can't withstand a single blow from you. What are you afraid of?" Wang Teng was exasperated.

Others might think that the Lightning Spirit got bullied.

"Tsk tsk, this little creature is quite powerful." Round Ball floated over and clicked its tongue.

"It's just a little timid. You still need more experience." Wang Teng's eyes gleamed as he tossed Lightning Spirit once again. "Go and slay the Chaotic Beasts. Don't come back until I say stop. If not, I won't feed you calamity lightning next time."

"Squeak squeak!" The Lightning Spirit panicked when it heard that Wang Teng wasn't going to feed it calamity lightning. It squeaked and dashed towards the Chaotic Beasts.

Wang Teng and the others witnessed the frenzied side of Lightning Spirit as it transformed into lightning, darting through the Chaotic Beasts with incredible speed. In an instant, it pierced through seven or eight of them, causing them to burst open, unable to regenerate.

Golden light spheres floated up one by one.

The Lightning Spirit devoured all the golden light spheres it received like a purple gluttonous snake.

"Squeak!"

It couldn't reject the golden light spheres anymore after feeling its benefits.

He even laid his eyes on Wang Teng and Little White's golden light spheres. It eyed Wang Teng stealthily and swiftly dashed towards a golden light sphere that was released when Little White and the others hunted down a Chaotic Beast.

Just when it was about to succeed, the golden light sphere suddenly disappeared.

O\_o...

The Lightning Spirit froze on the spot and spun around in a daze. Then, it looked at Wang Teng innocently.

(⚡ Ⅲ)

Wang Teng gave it a meaningful look.

( ͡° ͜ʖ ͡°)

The Lightning Spirit squeaked and didn't dare to look at him again. It also didn't dare to steal other people's golden balls of light anymore. It went and kill the Chaotic Beasts obediently.

Wang Teng shifted his gaze away and sighed in his heart.

It was hard to lead a large team!

"Metal Armor Flaming Scorpion, since you can't utilize the power of laws of origin, assist Little White in hunting down the Chaotic Beasts," Wang Teng shouted at the Metal Armor Flaming Scorpion that had already joined the battle on the other side.

The Metal Armor Flaming Scorpion was in a state of distress as it realized that no matter how it killed these Chaotic Beasts, they would still "resurrect" in some form.

Confused about the situation, it suddenly heard Wang Teng's words and immediately nodded. It rushed towards Little White.

It was close to Little White so their cooperation was seamless.

With one luring the Chaotic Beasts and the other responsible for delivering the killing blow, their efficiency increased significantly.

However, when the Metal Armor Flaming Scorpion saw Little White slaughtering the Chaotic Beasts, it couldn't help but feel a sense of disappointment and melancholy in its heart.

Both of them had been loyal followers of Wang Teng since their days on Earth. They had been through countless battles and conquered territories together.

Now, you could say that Little White was crowned a duke while it was only a marquess. No one could understand the bittersweet feeling in its heart.

Since Wang Teng released the Metal Armor Flaming Scorpion, he had to keep an eye on it. After all, it was currently the weakest among them, and he didn't want it to perish in the battle.

That was why he noticed the dejected look in the Metal Armor Flaming Scorpion's eyes immediately. It was easy to understand what happened.

But, there was no point in being impatient. Opportunities are unpredictable, and no one could accurately predict when they would arise.

It might be the Metal Armor Flaming Scorpion's turn next. Who knew what fate had in store for it?

Of course, it could be next time, next next time, next next next time...

Thinking about this, he suddenly felt that the Metal Armor Flaming Scorpion was quite pitiful.

Cough, as its master, how could he gloat? Stop it.

Wang Teng threw this thought to the back of his mind and focused on killing the Chaotic Beasts.

Unfortunately, he didn't meet any other special Chaotic Beasts. Most of them had grasped the power of laws of the basic five elements' origin.

Time passed gradually. Another five days went by.

In a certain area of the chaos.

Boom!

Flames surged and the power of laws of origins erupted. A Chaotic Beast resembling a ferocious tiger let out a resentful roar and burst in an instant. It turned into a vast expanse of chaotic currents.

Golden light spheres and attribute bubbles appeared. Wang Teng picked them up.

He looked around him. They had killed all the Chaos Beasts in this area. It was desolate.

On the other hand, there was a significant increase in the chaotic energy current. After the Chaotic Beasts were killed, a part of them transformed into attribute bubbles, while a

greater part of them returned to the chaos, potentially to be reborn as Chaotic Beasts in the future.

Wang Teng and the others had killed many Chaotic Beasts in this area over the past few days. They couldn't find any more Chaotic Beasts nearby.

Even if there were, there were only a few lone ones. They hid in the chaos and didn't dare to appear again.

Wang Teng wouldn't want to spend so much effort to kill these Chaotic Beasts.

The powerful individuals of the Stellar Academies probably never expected the Chaotic Beasts within 3,000 kilometers of the transit island would be eradicated so thoroughly.

Normally, the Chaotic Beasts in this area were useless to martial warriors below the heaven stage. No formidable warriors would come here to hunt for Chaotic Beasts.

## **Chapter 1703: Round Ball, Super Evolution... (3)**

Also, this was a rule of the academy. Heaven stage and universe stage martial warriors were not allowed to kill Chaotic Beasts within 3,000 kilometers of the transit island.

These Chaotic Beasts were left for the cosmos stage students.

Only a small portion of the cosmos stage martial warriors in the academy had the right to come to the Chaotic Uncharted.

And these Chaotic Beasts were hard to kill for cosmos-stage martial warriors.

Thus, many cosmos-stage and below Chaotic Beasts bred in this region over the years.

However, Wang Teng's situation was unique. He was lucky and used the golden light spheres to awaken Little White and Elizabeth in advance. Their abilities increased tremendously too.

That was how they killed a large number of Chaotic Beasts within a few days.

Now that most of the Chaotic Beasts had been killed, it would certainly be a daunting task for future cosmos-stage warriors who came here to hunt Chaotic Beasts. The situation had become quite challenging for them.

What would their expression be like when they couldn't find any Chaotic Beasts after searching for a long time?

Wang Teng didn't think about this. He looked at the attributes board and started counting his gains.

He killed an excessive number of Chaotic Beasts over the past few days and he collected an abundance of attribute bubbles. But, he didn't count them on the spot.

Now was the time to look through them.

He looked directly at the laws of origin attribute row.

Besides obtaining a large number of golden light spheres and the Origin Energy of Chaos, his greatest gain from killing the Chaotic Beasts was the power of laws of origin.

All the basic elements' power of laws of origin had reached the second rank.

They used to be at the first rank but now, they had all risen by a level.

Origin of Metal: 550/20000 (second-rank)

Origin of Wood: 320/20000 (second-rank)

Origin of Water: 700/20000 (second-rank)

Origin Of Flame: 400/20000 (second-rank)

Origin Of Earth: 200/20000 (second-rank)

Don't underestimate the significance of advancing by just one rank. It was an incredibly difficult feat that represented a complete leap across a whole tier!

Even Wang Teng couldn't believe it. He was astonished that he was able to elevate the mastery of his power of origin to the second rank within the Chaotic Uncharted.

Mind you, he was only at the peak of the celestial stage. It was already extraordinary for him to grasp the power of laws of origin. Yet, he managed to raise the power of laws of origin to the second rank. It was unimaginable.

Wang Teng took a deep breath. A sense of achievement surged into his heart.

Who else could raise the power of laws of origin to the second rank at his stage?

Wang Teng was certain.

Even those talents who entered the Star Rankings like him couldn't achieve this.

He was absolutely confident that he could surpass his predecessors!

Wang Teng took a deep breath and looked at the power of laws of origin of the other special attributes.

Origin of Wind: 3600/10000 (first-rank)

Origin of Lightning: 2180/10000 (first-rank)

Origin of Ice: 2820/10000 (first-rank)

Origin of Light: 1200/10000 (first-rank)

The power of laws of origin for wind, lightning, ice, and light were all at the first rank. What's more, they didn't increase much.

The number of Chaotic Beasts that possessed a mastery over these four power of laws of origin was scarce. Wang Teng and the others had killed many Chaotic Beasts, but they rarely encounter one that grasped these four power of laws of origin.

Also, a portion of his advancement to this level came from the dimensional rifts within the chaos. There were laws undergoing evolution there so it would drop some laws of origin attribute bubbles.

Wang Teng didn't neglect the attribute bubbles near the dimensional rifts when he was killing the Chaotic Beasts.

He picked up everything he could and left no one behind.

Then, there was the last power of laws of origin, the power of laws of space origin.

Origin of Space: 630/10000 (first-rank)

Without a doubt, the rise in his laws of space origin was the lowest. Wang Teng picked up some laws of space origin attributes from the dimensional rifts but it wasn't much.

Until now, he had only received less than 1000 points of laws of space origin.

Wang Teng felt quite helpless about this situation, but he understood that there was no other choice. He was lucky enough to be able to pick up so many bubbles.

Mind you, the Origin of Space and the power of laws of origin were obtained after he entered the Chaotic Uncharted. After more than ten days, it had reached 630 points. This progress is much faster compared to the time spent outside the realm.

If he was outside the Chaotic Uncharted, he wouldn't have the chance to pick up the power of laws of space origin.

At least for now!

Thus, Wang Teng felt that he should be satisfied. He was extremely lucky to be able to grasp the power of laws of space origin.

Of course, he still had to work harder!

Wang Teng took out the Broadsword Chaotic Beasts inside his Devour Space and started a new round of farming.

"Again!" Round Ball and the others knew what Wang Teng wanted to do when they saw this scene. Their expressions turned strange.

They didn't understand why Wang Teng tormented the Broadsword Chaotic Beasts again and again.

Was it to take revenge?

Or did he have a bad sense of humor?

They didn't understand so they paid a silent tribute to the Broadsword Chaotic Beasts.

The Broadsword Chaotic Beasts were trapped in Wang Teng's space cage and couldn't break free. It stared at Wang Teng in fear.

X\_X

Yes, fear!

After enduring these many days of torment, it had had enough. This person was a devil!

It wanted to commit suicide but it couldn't.

Whenever it wanted to self-explode, it was bound by the power of space and couldn't move freely. Even its "spiritual body" was firmly locked by an invisible force, making it unable to utilize any trace of its soul power.

"Little fish, cooperate with me." Wang Teng smiled at the Broadsword Chaotic Beasts in front of him.

He pushed his finger out.

Bang!

Half of the body of the Broadsword Chaotic Beast exploded and turned into chaotic currents. Attribute bubbles appeared.

## Chapter 1704: Round Ball, Super Evolution... (4)

Origin of Space\*1

Space Concealment\*10

...

There are only 10 points of Space Concealment attributes! Wang Teng frowned and shook his head in disappointment.

After collecting attribute bubbles continuously for the past few days, the number of attribute bubbles dropped by the Broadsword Chaotic Beast had decreased gradually. Now, there were only 10 points of Space Concealment attributes. Naturally, there was very little enlightenment.

Wang Teng waited for a moment. The hopeless Blade Fish Chaotic Beast reformed its body, only to be swiftly detonated by Wang Teng again.

Bang!

Origin of Space\*1

Space Concealment\*5

...

Alright, looks like there's no hope. Wang Teng sensed the enlightenment from the attribute bubbles and gave up entirely.

He had already collected all the attributes from the Broadsword Chaotic Beast. There was no more value to speak of.

Thus...

Wang Teng made a merciful decision and chose to let it go.

He had gotten all the attribute bubbles he could. Even if he killed this Broadsword Chaotic Beast, it wouldn't be able to give him more useful attribute bubbles.

As for the golden light spheres, Wang Teng had plenty of them so he didn't consider one to be a significant loss.

"You can leave." Wang Teng dismissed the spatial restraints that bound the Broadsword Chaotic Beast and waved at it.

"???" The Broadsword Chaotic Beasts stared at Wang Teng in a daze. It was puzzled.

Is he letting me go?

That's impossible!

Is this a new torturing method?

This must be a trap. He will catch me after I run away happily and continue torturing me.

Devil!

You're indeed a devil!

"Why aren't you leaving?" Wang Teng looked at the confused Broadsword Chaotic Beast and asked in surprise.

"Could it be that you scared it senseless?" Round Ball remarked with an odd expression. "It seems like this Chaotic Beast has some intelligence."

"Intelligence? I don't think it looks very clever!" Wang Teng replied.

"Are you really going to let it go?" Round Ball asked.

"What's the point of keeping it? It's no longer of any use to me." Wang Teng rubbed his chin. "However, it might become useful after roaming in the chaos for some time."

"So this is your plan. But you might not be able to find it next time," Round Ball said.

"Hehe, I left a space imprint within it. Whenever I recall it, I'll find it," Wang Teng chuckled.

"Poor fish." Round Ball widened its eyes in surprise. It didn't expect Wang Teng to have such a trick up his sleeve.

This person was evil!

It observed another three seconds of silence for the Broadsword Chaotic Beast.

Amen, bless it!

Wang Teng didn't waste any more time and waved his hand. The power of space erupted. The bewildered Broadsword Chaotic Beast was sent into a dimensional rift and disappeared.

Space Concealment: 230/3000 (foundation)

He looked at the Space Concealment Skill on his attributes board. Unfortunately, it was only at the foundation stage. He hoped that the Broadsword Chaotic Beasts would give him more attribute bubbles next time.

"Alright, let's split the golden light spheres." Wang Teng looked at everyone and smiled.

"Quick!" Round Ball's eyes lit up as it urged Wang Teng.

It had been waiting for this moment for a long time!

Wang Teng smiled. He waved his hand and pulled everyone into the Devour Space. Then, he pondered for a few seconds and said, "Round Ball, you can start first. Let me see how many golden light spheres you need to achieve a leap in your life status."

"I'm first!" Round Ball was shocked. A glimmer of excitement appeared in its eyes. It asked with uncertainty, "Really? Are you letting me go first?"

"You don't want to?" Wang Teng glanced at it from the corner of his eyes.

"Yes, yes, of course." Round Ball nodded fervently. It was afraid that Wang Teng would go back on his words.

"Let's start." Wang Teng released his spiritual power and swept the golden ball of light floating in the Devour Space over. They floated beside Round Ball.

"Gulp!" Round Ball swallowed its saliva uncontrollably. "I'll start eating then."

Round swiftly moved both hands, grabbing one golden light sphere after another and stuffing them into its mouth. It swallowed them whole.

As the golden light spheres went down to its stomach, a golden radiance gradually emanated from within Round Ball's body. In no time, it was enveloped in a golden cocoon, resembling a cocoon of light.

Round Ball had started its super evolution...

"Looks like it's very effective." Wang Teng smiled. He was filled with excitement. What would happen after an intelligent lifeform evolved?

## Chapter 1705: I Need A Law! (1)

Round Ball's life transition had begun!

Wang Teng, Little White, Elizabeth, the Metal Armor Flaming Scorpion, and even the Lightning Spirit, who didn't know anything, gathered in the Devour Space and stared at Round Ball intently.

"Master, Round Ball is an intelligent lifeform, right?" Elizabeth asked.

"That's right." Wang Teng nodded.

Elizabeth already knew that Round Ball was an intelligent lifeform but she just never ask.

Now that Round Ball on the verge of a life transition, Wang Teng didn't keep it a secret from them anymore. Hence, she decided to ask for confirmation.

"In my inherited memories, there are some descriptions of intelligent lifeforms. I heard that after every life transition, an intelligent lifeform will greatly increase in strength. Moreover..." Elizabeth paused.

Wang Teng squinted. Elizabeth wasn't the only one with inherited memories. He also had the Devour Nihilism Beast legacy's memories.

Wang Teng knew that she stopped because a secret was involved.

A secret that involved the virtual universe!

There were rumors that a super intelligent lifeform was controlling the virtual universe.

Of course, there must be a formidable individual involved too.

Otherwise, it was impossible for an intelligent lifeform to control such a powerful faction.

In the universe, there were many who were waiting for an opportunity to strike and countless powerful figures. No matter how much wealth and power one might possess, if it exceeded their own control, it could not last for long.

All of this required absolute strength to sustain it!

Being able to control entities like the virtual universe was beyond the capabilities of ordinary intelligent lifeforms. The intelligent lifeform behind the virtual universe must be an existence beyond imagination.

"The Antman Race's legacy is quite amazing. You even know about this," Wang Teng glanced at Elizabeth and said.

Elizabeth was stunned. She understood what Wang Teng meant.

He knows!

Elizabeth looked at Wang Teng's expression and was even more certain that her master knew about it.

It seemed that she did not know her master well enough.

"Master, do you think that rumor is true?" Elizabeth asked.

"It's highly likely. The virtual universe is incredibly fascinating. I won't believe it if there isn't an intelligent lifeform controlling it. But since we haven't seen it ourselves, who knows for sure?" Wang Teng replied.

"That's true. No one has seen that existence before. Perhaps it's hiding in the virtual universe and spying on everyone," Elizabeth smiled.

"That's not a good experience." Wang Teng felt goosebumps when he thought about this possibility.

If there was really such a super intelligent lifeform, wouldn't it be able to control the information and movements of every martial warrior who entered the virtual universe?

"If Round Ball reaches that level in the future, it might be able to sense the other party's existence," Elizabeth said.

"I don't know how long we will have to wait for that day to come. The distance between them is far too great." Wang Teng shook his head.

He knew his limits and he understood Round Ball well.

They were still too far behind.

Elizabeth smiled and kept quiet.

For some reason, she had great confidence in Wang Teng.

This wasn't just blind confidence. It was gradually formed through her observation during this period of time.

From her point of view, Wang Teng had unparalleled talent!

With a master like him, the future of his followers was immeasurable.

This transformation was the best proof!

Elizabeth was glad that she met Wang Teng when she was about to die, and was also glad that she chose to follow him.

Even though she gave up her Origin Of Soul and lost her freedom, she did not feel that she had lost anything.

Now that she thought about it, she felt that she had benefited from it.

Round Ball followed Wang Teng earlier than her so Wang Teng was able to give it much more.

She had reason to believe that Round Ball could go further in the future. It might not be comparable to the existence behind the virtual universe, but it could leave a deep impression on all intelligent lifeforms.

Of course, she would not say these words out loud.

If she said it out loud, other people would think of it as a joke. Hence, it was better to wait and see what the futures holds.

Once completely enveloped by the golden radiance, Round Ball formed a cocoon of light. However, it didn't stop absorbing the golden light spheres.

Golden light spheres flew over from all directions and fused into the golden light cocoon.

Wang Teng's gaze flickered when he saw this scene. His heart ached a little.

These golden light spheres were all his treasures. Round Ball appetite was huge. Despite absorbing so many already, it didn't show any signs of stopping.

Wang Teng looked around and heaved a sigh of relief.

Good, good!

This time, they had obtained many golden light spheres. They almost wiped out all the Chaotic Beasts within 3,000 kilometers of the transit island.

The number of golden light spheres obtained was extremely terrifying!

Time passed slowly, and Round Ball finally stopped absorbing the golden light spheres.

Wang Teng was relieved.

Round Ball had absorbed less than one-third of all the golden light spheres. There were more than two-thirds remaining.

"Its life transition should take some more time," Elizabeth said.

"Let it evolve slowly." Wang Teng looked at the Metal Armor Flaming Scorpion. This fellow was looking at him eagerly. He was caught between laughter and tears.

"Absorb it. How much you can absorb is up to you."

The Metal Armor Flaming Scorpion's small eyes lit up in surprise.

It knew that Little White and Elizabeth had completed their transformation after absorbing the golden light spheres and their strength had increased greatly.

## **Chapter 1706: I Need A Law! (2)**

Round Ball was also undergoing its life transition after devouring these golden light spheres.

This proved the usefulness and benefits of these golden orbs.

If it could absorb them, its ability would increase too.

"Can I really eat as much as I can?" The Metal Armor Flaming Scorpion asked excitedly.

"Yes," Wang Teng nodded with a smile. "But I must remind you that the limit of how many golden light spheres each individual can absorb varies. It's important to know your limits. Absorbing too many may not necessarily be a good thing."

The Metal Armor Flaming Scorpion's heart trembled. Wang Teng's warning struck like an alarm bell in its mind, instantly snapping it back to its senses.

Going beyond the limit is as bad as falling short!

It knew this logic but witnessing Xiao White's advancement had caused a slight imbalance in its mindset. It had become too focused on self-improvement, to the point of forgetting this logic.

"I understand!" The Metal Armor Flaming Scorpion nodded immediately.

"Alright, go ahead." Wang Teng nodded.

The Metal Armor Flaming Scorpion didn't waste any time. It opened its mouth and sucked the golden light spheres into its mouth.

Wang Teng observed for some time.

The Metal Armor Flaming Scorpion only absorbed a few hundred golden light spheres before it stopped.

After some time, an explosion occurred in its body.

Boom!

Boom!

Boom!

The Metal Armor Flaming Scorpion's aura kept rising. A surge of green flames erupted from its body, enveloping its entire form.

At the tip of its scorpion tail, the green flames burned fiercely, resembling a massive torch blazing brightly.

"It's... advancing to mid-tier imperial level!" Wang Teng was elated.

"Master, congratulations. You have gained another powerful member," Elizabeth smiled and said. There was a hint of curiosity in her eyes.

"Hahaha, I didn't expect the Metal Armor Flaming Scorpion to have a breakthrough too. It looks like it has been working hard in its cultivation recently." Wang Teng laughed happily.

"Old Metal is very hardworking," Little White said at the side.

"Old Metal?" Elizabeth's expression turned strange.

"That's what I call it normally. What's wrong with that?" Little White asked in confusion.

"Cough, nothing." Elizabeth coughed awkwardly and shook her head.

"Not bad, not bad," Wang Teng replied.

"The Metal Armor Flaming Scorpion's flame seems a little unique?" Elizabeth smiled and stopped thinking about this nickname. She looked at the green flame and found it familiar. "Where have I seen it before?"

"That's because I often let it eat the Emerald Glazed Flame, which caused its flames to mutate. Now that it has advanced to the mid-tier imperial level, the power of its flames is becoming closer to that of the Emerald Glazed Flame," Wang Teng said, sounding somewhat surprised.

"This is an unexpected gain," Elizabeth remarked. "However, during the process of advancement, star beasts will experience improvements in their inherent abilities. This flame can be considered as one of the innate talents of the Metal Armor Flaming Scorpion."

"That's right." Wang Teng nodded. He possessed the Devour Nihility Beast's memory, so he was well aware of this fact. That was why he gave the Metal Armor Flaming Scorpion the Emerald Glazed Flame.

However, this was also because the Metal Armor Flaming Scorpion was born along with the Emerald Glazed Flame. That was why it was able to devour the Devour Emerald Glazed Flame.

Otherwise, if it were an ordinary fire-type star beast devouring the divine flame, it would be like seeking an early death.

Wang Teng shifted his attention away from the Metal Armor Flaming Scorpion and started devouring the golden light spheres.

He sat down cross-legged on the ground and activated his World Devourer. A terrifying suction force erupted, causing all the golden light spheres in the surroundings to converge towards him.

Wang Teng's body seemed to have turned into a bottomless pit. He devoured all the golden light spheres, displaying an immense strength as if swallowing mountains and rivers.

This was the first time Wang Teng had used this heaven-defying divine ability, and he immediately felt its immense power and terror.

However, he didn't have the time to carefully feel these sensations now. As the golden light spheres surged into his sea of consciousness, he felt as if he had undergone a sublime transformation.

He felt refreshed!

Both his physical body and his soul seemed poised to transcend to another level.

In his consciousness, the Nine Treasures Pagoda trembled, radiating boundless golden light.

At the same time.

The constellations above the sea of nihility started vibrating too. They emitted rays of diverse Force glow.

It was dazzlingly magnificent!

An immensely powerful outburst of Force surged from within, sweeping across the expanse of the sea of nihility, causing constant ripples.

Was he going to achieve a breakthrough?

Wang Teng's eyes shimmered. He was a little excited.

But...

Not enough!

Far from enough!

Wang Teng felt that something was missing. He activated his World Devourer and absorbed the golden light spheres continuously.

Outside, Little White and Elizabeth witnessed a dazzling burst of golden light emanating from the center of Wang Teng's forehead. Within that golden radiance, a faint and mystical silhouette of a nine-story pagoda seemed to appear and disappear, exuding an otherworldly aura.

"What's that?" Little White asked curiously.

"It appears to be the manifestation of the master's spiritual form," Elizabeth, being more knowledgeable, discerned something and exclaimed, "Our master's spiritual power is truly terrifying!"

"Of course. Master is the strongest," Little White said proudly.

Others might think that it was talking about itself.

Elizabeth smiled. She could understand Little White's emotions now.

One could only experience such a profound sense of pride and belonging if one regarded each other as comrades.

To them, Wang Teng was someone they could entrust their lives to.

Even Elizabeth acknowledged Wang Teng. It wasn't as simple as being forced to sign the contract.

## **Chapter 1707: I Need A Law! (3)**

Because what Wang Teng had provided for them had long surpassed the greatest benefits a master could bestow upon a servant.

Which master would provide such good things to his servants?

At least to Elizabeth, Wang Teng treated her well.

If Wang Teng knew that he managed to gain Elizabeth's recognition by simply doing a few ordinary things, he would probably wake up from his sleep with a smile.

It was evident that he gave first and then gained back even more, reaping substantial benefits without any loss.

Just like the golden light spheres. He gave them to Elizabeth first but he received more golden light spheres later on.

It was a good deal!

As Wang Teng continued to devour more and more golden orbs, he felt his mind becoming exceptionally clear.

The fleeting inspiration that had crossed his mind before but eluded his grasp resurfaced once again and gradually became clearer.

Constellation, Force, rules of the Great Dao... Force constellation. Connect them using the revolution of the universal laws, one can bring about the evolution of chaos. That way, all Forces can be encompassed in it.

I see!

I need a law!

A law that encompasses all the elements!

Chaos...

At this very moment, Wang Teng's mind was spinning at high speed. Countless sparks of inspiration flashed through his thoughts.

This isn't enough. I need more golden light spheres!

Wang Teng closed his eyes. He was completely immersed in the state of enlightenment.

On his forehead, the Nine Treasures Pagoda radiated blinding golden light, resembling a divine artifact that was too dazzling to be directly stared at!

Little White and Elizabeth were flabbergasted. They didn't know what happened. The radiance was so overwhelming that they involuntarily averted their gaze.

They looked at each other in astonishment and had no choice but to step back.

Being too close made it hard for them to open their eyes. All they could see was the golden light.

"What a terrifying fluctuation. What is Master doing?" Elizabeth muttered to herself.

"Is Master alright?" Little White asked worriedly.

"Don't worry. The scene is scary but it's a good thing. Master should be fine," Elizabeth said.

"Yes, yes. Fortunately, Sister Elizabeth is here. If not, I don't know what to do." Little White heaved a sigh of relief.

"Sister?" Elizabeth smiled.

She used to be the 'mother' of countless antmen but this was the first time someone called her that. It felt quite good.

Soon, more than an hour has passed.

Wang Teng devoured all the golden light spheres within the space, causing them to vanish completely.

The moment of enlightenment in Wang Teng's mind abruptly halted, leaving him with numerous glimpses of insight that he managed to grasp but they remained fragmented, lacking the cohesion required for a comprehensive understanding.

It was akin to having individual mechanical parts but they had not been assembled into a complete machine.

Even these mechanical components themselves were incomplete and imperfect.

Darn it!

Wang Teng abruptly opened his eyes, the divine radiance in them receding. The shadow of the Nine Treasures Floating Pagoda at his forehead also dissipated. In his eyes, a trace of unwillingness flickered momentarily.

What a pity!

He didn't succeed!

He still needed countless golden light spheres. Even if he didn't let Round Ball or the Metal Armor Flaming Scorpion devour the golden light spheres, it wouldn't be enough.

Far from it!

He devoured more golden balls of light than Little White and Round Ball. He even devoured more than a universe-stage martial warrior like Elizabeth.

He realized that there was a certain pattern to the devouring of the golden light spheres.

For instance, the stronger you were, the more you could devour!

The greater the potential, the more golden balls of light you could devour.

Round Ball and Little White had great potential so they devoured many golden balls of light.

Elizabeth was a universe-stage martial warrior and she was reborn with the help of the Obelisk Scale Dragon Beast's body so her potential wasn't weak either. Hence, she devoured more golden balls of light.

Yet, they pale in comparison to Wang Teng.

Wang Teng felt overwhelmed by the sheer number of golden light spheres he needed to devour. It was an enormous quantity.

Would he succeed in the creation of his law?

Wang Teng felt a little doubtful.

Too difficult!

He could sense the daunting challenge looming before him through the enlightenment process just now.

He was only at the peak of the celestial stage. He wasn't at the stage where he could create his own law.

What's more, the law he wanted to create was much more difficult than the laws everyone else wanted to create.

Even eternal-stage martial warriors might not be able to succeed.

However, Wang Teng's situation was special so he needed a distinctive approach to achieve his breakthrough.

Only by possessing the law he envisioned could his future path become smoother and more fulfilling.

It was like forcing a square peg into a round hole.

But, he had to.

"Sigh!" Wang Teng let out a long sigh and calmed down. The turmoil in his heart gradually disappeared.

He didn't succeed in the creation so he couldn't break through yet.

He was a little disappointed but the anticipation in his heart grew stronger.

The more golden light spheres he devoured, the stronger his potential would be, and his strength after the breakthrough would correspondingly become greater.

This was a good thing!

He had only been in the Chaotic Uncharted for 15 days so he still had time to kill more Chaotic Beasts.

However, most of the Chaotic Beasts within 3,000 kilometers of the transit island had been killed. If he wanted to continue killing them, he needed to travel out of this radius.

The outside world would undoubtedly be even more dangerous!

However, he wasn't afraid!

Wang Teng glanced at his attributes board. There were changes in four areas.

Origin Of Life: 46200

## **Chapter 1708: I Need A Law! (4)**

Origin Of Soul: 43300

Spirit: 60000/60000 (celestial realm)

Enlightenment: 6500/300000 (universe level)

His Origin Of Life and Origin Of Soul attributes had increased by more than 10,000 points.

More than 10,000 points!

This was unimaginable!

Mind you, the Origin Of Life and the Origin Of Soul were extremely difficult attributes to raise. In the past, Wang Teng only managed to raise it by a few dozen or a few hundred points. Now, it had increased by more than 10,000 points.

He knew that the golden light spheres could increase his Origin Of Life and Origin Of Soul but he didn't expect the increase to be this tremendous.

Wang Teng was only at the celestial stage but his Origin Of Life and Origin Of Soul had probably exceeded that of a heaven-stage martial warrior.

That way, with each advancement in stage, his Origin Of Life and Origin Of Soul would far surpass those of his peers.

This was an invisible difference!

The good thing was, it was hard to... kill him.

He was like a cockroach now!

For instance, other people might only need one attack to kill a martial warrior at the same stage, but they would need four or five attacks to kill Wang Teng.

The difference was huge.

Of course, besides this, there was another benefit.

He could use the power of time less worriedly!

Using the power of time would consume his Origin Of Life and the Origin Of Soul. He didn't dare to use them in the past.

Now that Wang Teng's Origin Of Soul and Origin Of Life had increased so much, he had the foundation to use the power of time.

At least he didn't have to worry about dying after using the power of time.

At the same time, the rise in these two origins allowed Wang Teng's Spirit and Enlightenment attributes to rise tremendously.

Wang Teng's Spirit was already at the perfected stage. It hadn't increased for a long time but it did now.

It wasn't just a simple increase. The most important thing was, the upper limit of his Spirit attribute had increased.

The limit of the celestial stage Spirit was 50,000 points. Now, it was 60,000 points. The limit increased by 10,000 points!

An increase in the upper limit meant an increase in his potential.

It was difficult, almost impossible, to raise the upper limit. Only some special treasures could have this effect.

Coincidentally, the golden ball of light dropped by the Chaotic Beasts had this effect.

Of course, if others wanted to reach Wang Teng's level, they needed numerous golden balls of light. Some people couldn't even absorb this many golden balls of light.

Unlike Wang Teng, who was like a bottomless pit. There seemed to be no end to the number of light spheres he could absorb.

This was insane!

Next was the Enlightenment attribute. Wang Teng's Enlightenment attribute was originally in the heaven realm. He needed more than 60,000 points to reach the universe realm.

Now, it had risen to the universe realm!

The increase was terrifying.

Wang Teng didn't expect such a huge increase. It was truly beyond imagination.

Wang Teng retracted his gaze from the attributes board and took a deep breath. The rise was out of his expectation.

"Continue hunting Chaotic Beasts. I need more golden light spheres." Wang Teng's gaze turned firm.

Even if it was extremely dangerous to travel out of the 3,000 kilometers radius of the transit island, he wouldn't give up.

"No breakthrough?" Elizabeth looked at Wang Teng in surprise. It looked like her master's potential was more astonishing than she imagined.

"I'm preparing to travel out of the 3,000 radius. Little White, follow me. Elizabeth, you can stay in the Devour Space first. I'll call you anytime," Wang Teng looked at Round Ball's condition and said.

"Alright!" Elizabeth nodded.

"Little White, let's go!" Wang Teng called Little White and disappeared from the Devour Space.

...

In the chaos.

A huge dark red ghost crow appeared. It was Little White.

Wang Teng sat cross-legged on its back and pointed in front. "Fly in this direction. We're heading deeper into the chaos."

"Screech!" Little White emitted a sharp and piercing screech, flapping its wings and transforming into a dark red streak of light as it soared towards the depths of chaos.

## **Chapter 1709: Ice Crevices! Forbidden Ground? (1)**

In the chaos.

A huge ghost crow darted through the endless currents of chaos, moving at incredible speed. All it left behind was a faint glimpse of a dark red silhouette.

After the transformation, Little White's speed became extremely fast. It was a mid-tier imperial-level star beast but its speed was on par with a high-tier imperial-level star beast.

This showed how great Little White's potential was.

Just like martial warriors capable of fighting beyond their level.

"Is the blood essence of the Blood Crow ancestor truly so terrifying?" Wang Teng sat cross-legged on Little White's back, furrowing his brow. His thoughts drifted far away, filled with a certain trepidation towards the Blood Crow ancestor.

What kind of presence was that?

Above the eternal stage?

He had to admit that the golden light spheres played a huge role but without the blood essence of the Blood Crow ancestor, Little White wouldn't be able to reach this stage.

For instance, if he used the blood essence of a universe stage crow star beast to induce a transformation in Little White, even with the assistance of a golden light sphere, it would probably only grant Little White the potential of the heaven stage at most.

In summary, the blood essence was the foundation and the golden light spheres were the support.

Never mind, I'll think about it when the enemy comes. This place is not the Blood Crow ancestor's territory so it's unlikely that he can manifest his true form. Even if he does come, there will be someone to deal with him. What I need to do now is quickly become more powerful. Wang Teng's gaze flickered as numerous thoughts raced through his mind. Ultimately, he dismissed them.

Actually, I can just throw my Endless Tornado to him and run away. I should be able to survive, right?

Boom!

Just as he was thinking about this, an explosion was heard.

Violent fluctuations from the Origin of Chaos surged from a distance as a massive Chaotic Beast burst forth from the currents of chaos, charging straight towards Wang Teng.

Little White caused a huge commotion when it flew into the chaos. Sooner or later, it would attract the Chaotic Beasts.

This was precisely Wang Teng's intention. He had set out to hunt down chaotic beasts so instead of laboriously searching for them, he decided to lure them out of their hiding places.

I'm here to play. Come and fight me!

This was probably the strategy~

Then, the Chaotic Beast appeared...

It was a ferocious-looking Chaotic Beast, even larger than the ones he encountered before. Its body spanned dozens of meters from head to tail. Judging by the Origin of Chaos energy fluctuations emanating from its body, it was at least a heaven-stage existence.

The instant Wang Teng went out of the 3,000 kilometers radius, he met a heaven-stage Chaotic Beast.

He had to admit that the guide was right. The world outside these 3,000 kilometers was dangerous.

But, to Wang Teng, this was a great opportunity!

The golden ball of light dropped by a heaven-stage Chaotic Beast should have a better effect.

A sharp glint flashed passed Wang Teng's eyes. He stood up on Little White's back and disappeared on the spot.

Boom!

When he appeared again, he was already above the heaven-stage Chaotic Beast's head. He stomped his feet down and an explosion occurred.

Roar!

The Chaotic Beast roared in extreme anger.

There was a hole in its head but that was it. Wang Teng's probing attack wasn't enough to make its entire head explode.

Not bad! Wang Teng squinted slightly. A battle sword appeared in his hand, transforming into an unmatched beam of sword glow.

The Twelve Swords of Tyrant!

First Sword!

Boom!

The power of laws of metal origin was added to the attack. With a single slash, the Chaotic Beast's head finally exploded and turned into a large mass of chaotic currents.

"The heaven stage Chaotic Beast is indeed different. It burst into such a large mass of chaotic currents. They must be harder to form," Wang Teng muttered to himself as he looked at the huge mass of chaotic currents in front of him.

Just then, to his astonishment, the vast expanse of chaotic currents began to condense once again, reforming into the head of the Chaotic Beast.

"It's not dead!" Wang Teng was astounded.

He used The Twelve Swords of Tyrant but he still couldn't kill this Chaotic Beast.

The other party's strength exceeded his expectation.

But, it was understandable. Wang Teng was only at the celestial stage. It would be a miracle if he could kill a heaven stage presence so easily.

Also, these Chaotic Beasts weren't normal star beasts. They were inherently difficult to kill.

The heaven stage was much more powerful than the celestial stage and cosmos stage.

At this moment, Wang Teng became even more eager to advance to the cosmos stage!

Although there was still a huge gap between the cosmos stage and the heaven stage, it was still better than his current stage.

Roar!

The Chaotic Beast roared at Wang Teng. It formed a dazzling yellow light sphere in its mouth and shot towards him.

"Master, be careful." Little White rushed over and manifested dozens of Blood Crows. They charged towards the heaven-stage Chaotic Beast.

Wang Teng chose not to resist the yellow light sphere head-on. There was the power of laws of earth origin was contained inside. It was hard to block it.

Immediately, he transformed into a beam of light, evading the attack range of the beam and causing it to miss its target.

"Hmph, watch me execute my ultimate move!" Wang Teng appeared some distance away and snorted.

My great summoning skill!

Elizabeth, I choose you!

Boom!

A colossal figure appeared. It was none other than Elizabeth.

She was already prepared. When she saw the enormous Chaotic Beast in front of her and sensed its terrifying strength, she knew what needed to be done.

Without wasting any time, she unleashed all her Forces, gathering a yellow beam of light atop her dragon horns and launching it towards the Chaotic Beast.

Dark Obelisk Dragon Light Beam!

The Chaotic Beast was distracted by Little White so Elizabeth's sudden appearance caught it completely off guard. It had no time to react.

The Chaotic Beast just reacted when the beam of light shot out from Elizabeth's dragon horn. It was too late to evade it.

## **Chapter 1710: Ice Crevices! Forbidden Ground? (2)**

Boom!

The Dark Obelisk Dragon Light Beam slammed into the Chaotic Beast, creating a violent explosion.

Bang!

The gigantic body of the Chaotic Beast instantly exploded, transforming into vast streams of chaotic currents that scattered in all directions. It was unable to reassemble anymore.

A golden light sphere, much larger than before, surged out from the chaotic currents, attempting to escape into the chaos.

"Come back here!" Wang Teng reached out his hand and released his spiritual power. It formed an invisible cage that trapped the golden light sphere and pulled it back.

The golden light sphere struggled frantically and Wang Teng immediately felt a powerful force attempting to break free from his spiritual cage.

"Hmph!"

Wang Teng snorted. He unleashed a large amount of spiritual power, reinforcing the spiritual cage.

This time, no matter how hard the golden light sphere struggled, it couldn't break free from Wang Teng's spiritual grip.

Wang Teng sized it up with delight.

This golden light sphere was as big as his head. The previous ones were merely the size of a fist. The difference was immense.

"This golden light sphere is equivalent to 50 of the previous golden light spheres," Elizabeth sensed the energy contained within the golden light sphere and said with surprise in her eyes.

"It's not just the quantity. Didn't you notice that you now have a faint longing for this golden light sphere?" Wang Teng glanced at Elizabeth and smiled when he noticed her gaze fixated on the golden light sphere.

Elizabeth was shocked. She regained her senses and exclaimed in astonishment, "It's true!"

"This indicates that the higher-level Chaotic Beasts produce more potent golden light spheres." Wang Teng felt like he had discovered something significant.

"That's fantastic! These golden light spheres are simply divine. If I can continue devouring them, my potential will surely increase further," Elizabeth said with excitement.

"Let's kill and try to slay as many Chaotic Beasts as possible to obtain these golden light spheres. We both need them," Wang Teng replied.

"Okay!" Elizabeth's spirit was ignited. She seemed to be on steroids.

Wang Teng was puzzled.

Very good, the motivation of the staff +1+1+1...

He scanned his surroundings and picked up the attribute bubbles dropped by the Chaotic Beast.

Origin Of Earth\*120

Origin Energy of Chaos\*800

Blank Attribute\*25000

...

A few attribute bubbles merged into Wang Teng's body. The Origin of Earth, the Origin Energy of Chaos...

One emerged in his mind and turned into enlightenment!

One flowed through every limb and bone in his body and then merged into the sea of nihility.

As expected of a heaven-stage Chaotic Beast. It has so many attributes. Wang Teng was elated.

There were more Origin Of Earth and Origin Energy of Chaos attributes than before. His Blank Attribute had reached 25,000 points too!

"Continue hunting!" Wang Teng was invigorated. He kept the golden light spheres and charged into the chaos with Little White and Elizabeth.

Wang Teng and his teammates roamed the chaos. Chaotic Beasts would appear and attack them so they didn't need to search for them actively.

These Chaotic Beasts became Wang Teng's attribute bubbles and golden light spheres.

With Elizabeth around, the heaven-stage Chaotic Beasts posed little threat to them. They were destined to be slain.

Wang Teng could kill heaven-stage Chaotic Beasts but it would be more troublesome. He needed to use ultimate moves, unlike Elizabeth.

The difference between the celestial stage and the universe stage was enormous.

At least Wang Teng wasn't able to overcome this gap currently.

Wang Teng didn't wander around aimlessly. The directions he headed towards were all locations where dimensional rifts existed.

In these locations, the laws of origin manifested, allowing Wang Teng to collect more attribute bubbles.

Another three days passed. This was the 18th day since Wang Teng came to the Chaotic Uncharted.

They killed more and more heaven-stage Chaotic Beasts, and Wang Teng and the others continued heading deeper into the chaos.

"There are more Chaotic Beasts here!"

Wang Teng stood on Little White's back and looked around. In the distant chaotic currents, he could see several heaven-stage Chaotic Beasts roaming about. He frowned.

"It's just a heaven stage Chaotic Beasts. I still ensure your safety. However, it will be dangerous if you meet a universe-stage Chaotic Beast," Elizabeth said after some thought.

"There's no need to worry too much about that. Even if we come across a universe stage Chaotic Beast, I'm confident I can evade it," Wang Teng smiled faintly and reassured her.

In the past, he didn't have this confidence. However, after obtaining the Space Concealment, he was confident that he could evade the universe stage Chaotic Beasts.

"Oh?" Elizabeth looked at Wang Teng in surprise.

"Don't worry, I will not fool around with my life," Wang Teng replied.

Elizabeth nodded and kept quiet.

She believed that Wang Teng wouldn't say this for no reason. Since he dared to say this, he must have something to rely on.

"Let's go."

Wang Teng waved his hand and dashed into the chaotic currents.

As they entered the chaotic currents, their presence caused a significant disturbance. Immediately, the nearby heaven stage Chaotic Beasts were alerted. They roared and charged towards them.

Boom!

A thunderbolt struck. It was an immensely powerful attack.

"It's the Chaotic Beast that grasped the laws of lightning origin." Wang Teng was surprised and elated. He immediately evaded the lightning attack.

A giant thunder element Chaotic Beast approached from the left, its body pulsating with lightning energy. The brilliance of the lightning was dazzling, indicating its formidable strength.

"Master, let me do it." Elizabeth prepared to act.

## **Chapter 1711: Ice Crevices! Forbidden Ground? (3)**

But, at this moment...

The Lightning Spirit squeaked and charged right into the gaping mouth of the Lightning Chaotic Beasts.

The Lightning Chaotic Beasts: ???

"What is this little creature doing?" Wang Teng and Elizabeth were shocked.

Little White only realized what happened after a few seconds. "Master, will Little Lightning Spirit be alright?"

"This little creature is quite daring," Wang Teng said.

"Roar!"

The Lightning Chaotic Beast let out a burst of angry roar. But soon, its voice betrayed a hint of panic.

It seemed to have transformed instantly from a ferocious tiger into a big cat, its destiny firmly grasped by the nape of its neck.

Originally, Wang Teng was concerned about the Lightning Spirit's safety but now, his countenance turned strange.

"Is this little creature causing a ruckus inside the belly of the Lightning Chaotic Beasts?" Elizabeth asked in surprise.

"It looks like the Lightning Spirit is the bane of the Lightning Chaotic Beasts." Wang Teng smiled.

Roar!

Suddenly, the Lightning Chaotic Beasts roared in anger, its massive body thrashing wildly amidst the chaotic currents. The sparks of lightning around it shone brightly as if it was about to explode.

It even clawed at its stomach with its massive claws, piercing directly into its body as if trying to grasp something from within.

If this was a real star beast with flesh and blood, it would undoubtedly be gruesome and terrifying.

Thankfully, it was just a Chaotic Beast.

Nevertheless, it still appeared eerie and unnerving.

Wang Teng and Elizabeth exchanged glances, sensing a tinge of fear in the Lightning Chaotic Beast's roar. This situation was truly beyond their expectations.

What had the Lightning Spirit done?

Roar!

Suddenly, the roars of the Lightning Chaotic Beast ceased. Its body exploded violently, transforming into clusters of chaotic currents. it didn't reassemble.

A golden light sphere darted out within the chaotic currents.

A bolt of lightning followed closely behind. It was the Lightning Spirit.

Wang Teng had a sudden thought. He stretched out his hand and grabbed the golden light sphere. He kept it in his Devour Space.

"Squeak squeak!" The Lightning Spirit whined pitifully at Wang Teng.

"Be patient, I'll keep it for you first, and you can have it later," Wang Teng reassured with an unchanged expression.

The Lightning Spirit: ...

Elizabeth: ...

Little White: ...

Why does this sentence sound so familiar?

"Cough, hurry up and kill the Chaotic Beasts," Wang Teng coughed awkwardly and said.

Elizabeth shot beams of light from her dragon horns, swiftly exterminating the remaining heaven-stage Chaotic Beasts.

Wang Teng picked up the attribute bubbles and the golden light spheres.

...

"Master, there's an iceberg ahead," Elizabeth suddenly said half a day later.

"Iceberg?" Wang Teng was stunned. He followed Elizabeth's gaze and looked over.

He was a distance away so he couldn't see clearly.

Elizabeth was a universe stage presence so she could see further than him.

Wang Teng activated his Real Eye. Where his gaze fell, he indeed saw vast stretches of icebergs!

In the past few days, he came across a few scattered piles of rocks in the Chaotic Uncharted but that was it. He didn't meet any other substantial objects.

In chaos, all things undergo metamorphosis, and by principle, anything could come into existence.

However, such occurrences were rare within 3,000 kilometers of the transit island.

Especially the existence of such a distinctive terrain.

This time, what they encountered was not some scattered rocks or small patches of land. It was a vast expanse of icebergs.

"Come, let's take a look." Wang Teng's eyes lit up.

He saw numerous fluctuations of the Origin Energy of Chaos in that direction. This indicated the presence of Chaotic Beasts, possibly even some who had mastered the Origin of Ice.

"Okay!" Elizabeth didn't object. Though she couldn't see the energy fluctuations, she could sense that the area ahead was far from ordinary, and there might be Chaotic Beasts present. She reminded him, "Master, be careful of the Chaotic Beasts."

"I understand." Wang Teng nodded.

There was still some distance between them and the icebergs. Fortunately, they were fast enough and managed to reach the icebergs after traveling for some time.

The closer he got to the iceberg, the colder it felt.

This region was completely shrouded in ice. It even caused the Origin Energy of Chaos to freeze into misty crystals.

"This place is truly remarkable," Elizabeth remarked as she casually picked up an ice crystal. Her gaze filled with awe.

"Indeed, this is probably one of the marvels within the chaos," Wang Teng replied.

"These ice crystals seem to contain a rich concentration of chaotic energy. Can we keep them for later use?" Elizabeth hesitated as she felt the ice crystal in her hand and asked.

"We can use them, but they need to be kept at extremely low temperatures to maintain their current state," Wang Teng replied. He held onto an ice crystal and sensed it.

"Are these ice crystals the same as the Chaos Element Crystals?" Elizabeth asked.

"It's not the same thing. These are just frozen Origin Energy of Chaos while the Chaos Element Crystals are high-density chaotic energy crystals formed through a special evolution process," Wang Teng shook his head and explained, "This vast expanse of energy ice crystals might only be equivalent to a palm-sized Chaos Element Crystal."

He hadn't seen the real Chaos Element Crystals but he was familiar with them.

Elizabeth nodded in deep thought. She wanted to throw the energy ice crystal away.

"But, since we're here, let's not waste this chance." Wang Teng waved his hand and collected all the energy ice crystals around him.

## **- Chapter 1712: Ice Crevices! Forbidden Ground? (4)**

### **Chapter 1712: Ice Crevices! Forbidden Ground? (4)**

At this moment, the benefits of spiritual power could be seen. It could be used on a large scale.

Without spiritual power, who knew how long it would take to collect these crystals? It would be a waste of time.

In an instant, all the ice crystals were picked up by Wang Teng. Not a single one was left behind.

Elizabeth: ...

"Wait for me. I'll be back soon." Wang Teng disappeared on the spot. He kept the energy ice crystals in his Devour Space and used Nether Frost to freeze them to prevent them from melting.

"Done!"

Then, he appeared in the outside world again. Everything happened within a few breaths. Elizabeth was in a daze. She didn't know what he was doing.

After some time, they landed on an iceberg.

Wang Teng stepped on the ice and sighed, "This is the first time I've set foot on solid ground after drifting through the chaos for so long."

"Master, we are too big. It's not convenient for us to move around here," Elizabeth said.

"Go back to the Devour Space first," Wang Teng said.

Anyway, summoning them out was just a matter of an instant, and if they encountered danger, he could catch his enemy off their guards.

"Okay!" Little White and Elizabeth nodded.

With a sweeping gesture, Wang Teng drew them all into his Devour Space, leaving only himself standing on the icy ground. He looked around, found a direction, and dashed towards it at lightning speed.

He had activated his Real Eye so Wang Teng could keep an eye on his surroundings to prevent himself from encountering danger.

Through his Real Eye, Wang Teng could see some energy reactions. Hence, he wasn't traveling aimlessly.

After some time, Wang Teng passed a few icebergs. He was surrounded by an endless expanse of ice, a vast white plain where nothing was visible.

However, Wang Teng saw something out of the ordinary.

"This is..." A sharp glint appeared in his eyes as he hurriedly raced forward. Before long, he came across a massive ice crevasse spanning across the ice plain, the darkness beneath it as black as a colossal scar.

From a distance, the ice crevasse appeared invisible.

However, in Wang Teng's Real Eye, there was a violent energy fluctuation nearby. It was extremely conspicuous.

That was why he was able to find this location almost instantly.

I wonder what's below. Wang Teng was puzzled.

The more intense the fluctuations, the greater the likelihood that there might be some treasures or valuable items beneath it.

Wang Teng immediately thought of the Chaotic Forbidden Ground the guide mentioned before.

It looks somewhat similar, but not quite the same!

After all, from the outside, it didn't seem dangerous.

Unfortunately, there was energy interference beneath the ice crevasse so even with his Real Eye, he couldn't see what was down there.

As for the danger, it wasn't something you could easily discern just by looking at it.

Some dangers only revealed their true face when triggered. Being able to sense some clues beforehand was already quite impressive.

That was why Wang Teng was in a dilemma. He didn't know if he should go down.

At this moment, he frowned.

"There's someone here?"

Wang Teng looked into the distance and immediately disappeared on the spot. He was hiding.

A few rays of light approached from afar and landed around the ice crevasse.

Five men and women stood at a corner of the ice crevasse, not too close but not too far from one another. They looked down into the crevasse, their eyes filled with astonishment.

"Bi Yao, is this the forbidden ground you found?" A pretty lady with long yellow hair asked a handsome young man not far away.

"That's right. I was chased by a few Chaotic Beasts and accidentally entered this place. That's how I found this ice crevasse. I went down personally to investigate but it's very dangerous. It should be a forbidden ground." The handsome young man called Bi Yao nodded calmly.

"Should? It looks like you're not sure either. This isn't what you said before you came." Another muscular young man with a long spear behind his back crossed his arms in front of his chest and frowned.

"Since we're all here, there's no need for me to hide anything. I'm not sure if it's a forbidden ground but there are definitely treasures below," Bi Yao said solemnly. "Also, there's no harm in treating it as a forbidden ground. We should approach this place with the same caution we would show to any forbidden land."

"Bi Yao is right. It doesn't matter if it's a forbidden ground. Whether it's a forbidden place or not, we should all be cautious. Since we're here, we should explore what's beneath," said another young man carrying a battleaxe on his back.

This was a martial warrior from the Ape Race. His arms were thick and long, even longer than any Ape Race that Wang Teng had seen before. His entire body was covered in pure white fur, without any mixed colors. He looked a little... handsome!

This was a handsome ape!

"I'll listen to Little Quan Quan." said a petite lady wearing pink battle armor with a lollipop in her mouth. She had a cheerful smile on her face.

"Tong En, don't call me Little Quan Quan," the last young man, who was tall and handsome, said angrily. He was clearly unhappy.

"No, I want to call you Little Quan Quan Quan." Tong En chuckled.

"Alright, stop quarreling." The yellow-haired lady glanced at the petite lady speechlessly. "Bi Yao, lead the way."

Bi Yao glanced at the others.

"Since Wei Na said so, I have no objections." The young man from the Ape Race shrugged.

"I have no objections either," the muscular young man carrying a long spear behind him said.

The other young man and the petite lady, Tong En, kept quiet.

"Follow me." Bi Yao didn't waste any time and leaped into the pitch-black ice crevasse.

The others followed him. The yellow-haired lady was the last. She glanced around her to make sure there was no one before jumping into the ice crevasse.

The entire ice plain returned to tranquility. After a while, spatial fluctuations appeared, and a figure slowly emerged.

"Is it a forbidden ground?!" A voice echoed in the air and the figure disappeared again without a trace.

## **Chapter 1713: Ice Nematode! Ancient Structure Within The Ice Crevasse! (1)**

An endless chill swept over, covering everything in icy frost.

Wang Teng concealed his figure and moved between nihility and reality. Even the space fluctuations were hidden, making it difficult for outsiders to detect anything.

This was Wang Teng's first time using Space Concealment. It felt incredibly mysterious.

He concealed himself in the cracks, yet he could perceive everything in reality as clearly as if he was there. Even the sensations felt no different from being in reality.

The chilling sensation invaded his body. Fortunately, his physical strength was sufficient to withstand it.

The ice layer cracked and extended downward. Wang Teng proceeded with caution, floating down slowly.

After some time, he landed at the bottom and scanned his surroundings. He was astounded.

Below the ice crevasse was an enormous space filled with ice crystals that radiated a sparkling brilliance. It created a magnificent and breathtaking world of ice and snow.

Another ice crystal formed by the Origin Energy of Chaos! As Wang Teng surveyed his surroundings, his astonishment only grew stronger.

There were many more ice crystals formed by the Origin Energy of Chaos compared to the ones outside.

However, Wang Teng did not linger or touch any of the ice crystals to prevent others from detecting his presence.

This wasn't the time to do this.

He followed the trail of the others and continued forward.

These should be the seniors from the academy. They are all at the heaven stage but I can't rule out the possibility that some of them might be hiding his ability although the likelihood is small. Wang Teng thought to himself, reminding himself to be cautious.

These seniors were all talented martial warriors groomed by the academy. They must be powerful.

Although there were rules in the academy that forbade students from killing each other, nobody could guarantee that everyone would remain rational when faced with treasures.

Moreover, he was alone while there are five of them. He was at a clear disadvantage.

Of course, if there was no choice, he could summon Elizabeth. It should be enough to defeat these five martial warriors.

As for whether there would be grudges formed with the other party, when faced with enough benefits, everything became inconsequential.

Treasures belonged to capable ones.

Bi Yao and the others were walking slowly so Wang Teng caught up with them quickly. He silently observed their every move from the shadows.

Wang Teng was skilled at hiding.

In front, Bi Yao and the others stopped in their tracks. They were extremely careful but an accident still happened.

The feet of the handsome young man who was walking with the petite Tong En froze without any warning. The icy coldness spread rapidly, reaching his thighs and knees in no time.

"Little Quan Quan, what's wrong?" Tong En exclaimed in shock, taking a step back to avoid being affected.

Qin Quan's expression turned grim as he frantically mobilized the constellation water Force in his body to his frozen feet. He attempted to break the ice forcefully.

Water Force couldn't naturally counteract ice but it could be used to break the attack sometimes.

"Don't move!" Bi Yao shouted, but it was too late.

Boom!

An explosion resounded beneath the ice layer. Blood instantly stained the icy surface red!

Qin Quan not only failed to break the ice around his feet but also ended up injuring his legs in the process. He couldn't help but groan in pain. Beads of cold sweat formed on his forehead.

As a heaven-stage martial warrior, his physical body was not weak. However, the Force exploded from within his body. One could imagine the excruciating pain.

"What's going on?" The yellow-haired lady and the others were shocked.

"Little Quan Quan!" Tong En's expression changed slightly, and this time, she was genuinely starting to feel nervous. Her playful demeanor disappeared

"Bi Yao, what on earth is going on?" Qin Quan's expression turned uglier as he waited for Bi Yao to speak.

"This is the danger I told you about. I didn't expect it to appear so soon," Bi Yao glanced around him and said grimly.

"Bi Yao, what do you know? Speak up quickly. If you keep hiding things, we will all perish here. What's the point of our collaboration?" Wei Na said sternly.

"Alright, alright, I didn't mean to conceal anything from you. The truth is, I don't know much either. Didn't I already tell you about this when I arrived?" Bi Yao shrugged helplessly. "Qin Quan was too impatient. He acted before I can warn him."

"Damn it, why don't you try it? The ice almost reached my thighs. Do something quickly to deal with it!" Qin Quan's face turned green when he saw the ice below him spreading to his vital organ.

A surge of cold enveloped him, nearly freezing his private parts. He shivered uncontrollably.

It wouldn't feel good if that part got frozen!

If they got injured because of the chill, it would be a lifetime injury.

Despite being aware of the seriousness of the situation, the sight of Qin Quan's current predicament still caused the others to feel strange.

"Cough, this is an emergency. Bi Yao, if you have a way, help him break the ice." Wei Na coughed awkwardly.

"It's simple. Tong En, Yuan Bai, both of you cultivate fire Force. Use it to heat the ice from the outside, and it will melt," Bi Yao suggested.

"Okay!" Tong En nodded immediately. She called out, "Little Bai Bai, come and help."

Yuan Bai rolled his eyes at the nickname but he kept quiet. Saving Qin Quan was the priority.

The two of them walked in front of Qin Quan and squatted down. They released their fire Force and started burning. Each focused on one of his legs, using their fire Force to melt the ice on his limbs.

"Let's start from the top. The top is more important," Qin Quan said.

Yuan Bai and Tong En's expressions turned strange but they still followed his instructions.

## **Chapter 1714: Ice Nematode! Ancient Structures Within The Ice Crevasse! (2)**

"Careful, Tong En! Where are you burning?" Qin Quan suddenly sucked in a breath, grimacing in pain.

"Shut up! I'm trying to help you but you have so many demands. Be careful, I might quit!" Tong En scolded him irritably.

Qin Quan moved his lips but he kept quiet in the end. However, his face gradually turned red. His face gradually turned red, indicating that he was in considerable discomfort.

"Pfft!" Wei Na burst out laughing.

"Qin Quan, now you know you shouldn't offend women, right?" The young man carrying a long spear on his back laughed.

"Pilder, stop gloating. We don't know where this ice came from. Maybe next time, you'll be the one affected," Qin Quan retorted with a cold snort, glaring at the young man with the long spear on his back.

Pilder's expression changed. He glanced at the ice on Qin Quan's feet in fear.

"Bi Yao, something isn't right. The ice isn't showing any signs of melting." Yuan Bai suddenly asked in bewilderment.

"What?!" Bi Yao's expression changed slightly. He quickly squatted down and looked at the ice on Qin Quan's leg. He felt a growing sense of unease. "How could this happen? I used fire Force to melt the ice the previous time!"

"F\*\*k, can you be more reliable?" Qin Quan scolded.

"Shut up. Let me think. Let me think. Something must have gone wrong." Bi Yao closed his eyes. All kinds of images flashed through his mind.

"Hurry up already! If you don't do it quickly, the bottom half of the body might be crippled!" Qin Quan couldn't wait any longer and blurted out anxiously.

"Don't rush him. The ice should temporarily stop spreading since we are using fire Force to heat it," Wei Na quickly reassured.

"Hey, Sister Wei Na is right. The ice hasn't melted but it's no longer spreading." Tong En's eyes lit up.

"Start from the bottom. Quick, start from the bottom," Bi Yao opened his eyes and said.

"Start from the bottom? You're not joking, right? If it doesn't work, his... his lower part of his body might get injured!" Yuan Bai glanced between Qin Quan's legs.

"I don't know. I started from the bottom and melted the ice," Bi Yao said.

"Let's do it. There's no time to waste." Qin Quan surprisingly calmed down.

"Alright." Yuan Bai nodded and exchanged a glance with Tong En. They both ignited their flames simultaneously, starting from Qin Quan's feet and slowly moving upward to thaw the ice.

Crack...

A soft sound was suddenly heard.

"Indeed." Bi Yao was elated.

Qin Quan and the others heaved a sigh of relief.

Yuan Bai and Tong En saw positive results and immediately increased the output of their fire Force. The flames burned even more intensely.

The ice on Qin Quan's legs melted at a visible speed, eventually turning into a puddle of water that spread under his feet. However, the low temperature quickly froze the water, forming a layer of red ice on the surface.

"Ouch!" Qin Quan felt excruciating pain in his leg. He hurriedly took out some healing medicine and applied it to his leg. The wound healed quickly.

Fortunately, it was only a minor injury and not too serious. Otherwise, things would have become much more troublesome.

Since they were treasure hunting together, he didn't want to be a burden to others.

It's also his fault for being too anxious at the beginning. He attempted to forcibly break through the ice layer and that led to his injury.

"Are you alright?" Wei Na asked.

"I'm fine." Qin Quan shook his head and squatted down to observe the ground. What froze his legs just now?

The others squatted down and studied the frozen layer of ice on the ground too.

"Qin Quan, before your legs were frozen, did you feel anything?" Bi Yao's eyes flickered as he asked.

"I felt a piercing chill stabbing my legs, and then they were frozen," Qin Quan looked at him and thought back to the sensation he had at that time. He didn't hide anything and simply spoke the truth.

"I had the same feeling the previous time." Bi Yao nodded.

"Why do you think we need to start from the bottom to melt the ice?" Wei Na pondered.

"It's possible that the thing that froze Qin Quan's legs is somewhere below, maybe on the ground or attached to his legs. It has direct contact with him so after heating it, that unseen thing either retreated or died. The source is cut off and the ice naturally melted," Bai Yuan pondered and said.

"Yes, it's the same as what I thought." Bi Yao frowned. "But, what is it? Why haven't I discovered it?"

"You were frozen once? How did you escape? I remember you aren't a fire-element martial warrior, right? Were there other companions with you at the time?" Wei Na suddenly turned to Bi Yao and asked calmly.

Bi Yao fell into a momentary silence and then sighed, "In the end, he died. His whole body was frozen, and I couldn't save him in time. Only I managed to escape."

"He's dead!" Everyone was horrified.

"Why did he die? Since he was a fire element warrior, couldn't he save himself?" Wei Na pressed for more details.

"It happened too quickly. He was frozen in an instant, and there was no time for him to react," Bi Yao looked at Yuan Bai and Tung En, "That's why I sought you two fire-element martial warriors. I hope that if we encounter such a situation, we can save the other person instantly."

"It's too dangerous. Is this how dangerous a forbidden ground is?" Everyone's expression turned grim.

"Although I knew that entering a forbidden place would be extremely dangerous, I never imagined it to be so mysterious. It can freeze someone without a sound or trace. We don't even know what caused it," Bi Yao said, showing signs of backing out.

## Chapter 1715: Ice Nematode! Ancient Structures Within The Ice Crevasse! (3)

"If you want to leave now, I have no objections," Bi Yao said calmly. He didn't persuade them.

"I've come all the way here. If I don't go and take a look, I may regret it," Yuan Bai said.

"This is my first time in a forbidden area. It's a pity if I don't take a look." Wei Na smiled.

"Alright, since you want to go crazy, I'll accompany you. Many talents who entered the academy with us are already ahead of us. If we don't take the risk, we will be left behind sooner or later," Qin Quan gritted his teeth and said with a determined look.

"I'm fine with anything." Tong En regained that cheerful and smiling look.

"You guys are truly crazy," Pilder's expression turned gloomy. In the end, he sighed and said, "Nevermind, if I go back alone, I'll look like a coward."

"Don't worry, in the face of life and death, no one would call you a coward," Bi Yao said, "If you want to leave, you can go."

"Come on, I'm not so timid," Pilder said angrily.

"Everyone, look at this place. It seems a little different." Wei Na suddenly pointed to the ground and said after some hesitation.

"Different?" Everyone looked over quickly. Then, they frowned. "There doesn't seem to be any difference. I can't tell."

"Wei Na, what do you see?" Bi Yao asked hurriedly.

"Look here carefully." Wei Na pointed at a spot and said with a serious expression, "Do you see that very thin, very thin line?"

"A line?" The others didn't understand but they continued staring in the direction she was pointing at with wide eyes.

Gradually, everyone saw what it was. It looked like an extremely thin thread frozen within the blood-stained ice layer.

If it wasn't for the blood staining the ice layer, they might not have been able to see this thin thread at all.

"It looks like... there's really a thin line!" Everyone felt their scalps tingling as they said hesitantly.

"Did this thing freeze my leg just now?" Qin Quan asked.

"It's hard to say. But, we should be careful of any anomaly." Wei Na frowned.

"Sometimes, the least probable is often the most likely answer," Bi Yao said thoughtfully.

"If the culprit is this thin thread, then we are truly defenseless," Yuan Bai said with a bitter smile.

They were all heaven-stage martial warriors with far superior eyesight than ordinary people. Yet, none of them noticed the existence of this thin thread. It goes to show how minute it must be.

The most terrifying dangers were the ones you couldn't see.

Everyone turned silent.

"This thing should be afraid of fire. We can use flames to scout the way," Bi Yao touched his chin and said.

"That's a good idea." Everyone was in a daze for a few seconds before regaining their senses. Their spirits were lifted.

Having a weakness makes things easier!

After discussing for a while, they continued their journey. This time, they enveloped themselves in fire Force, forming a protective layer around them to isolate any attacks from that "thin thread."

To think that they could detect it, I thought they might miss it completely. It looks like I underestimated the seniors in the academy. Wang Teng emerged from space, glancing at the tiny presence around him and the attribute bubbles floating above.

Time to pick them up!

Constellation Force (Ice)\*500

Ice Thread Needle\*100

Blank Attribute\*500

...

Ice Thread Needle! The attacking skill of the Ice Nematode is scary but useful! Wang Teng had a realization about the skill in his mind. After digesting the information, his eyes lit up and a faint smile appeared on his lips.

Ice Thread Needle: 100/1000 (foundation)

This was undoubtedly a powerful skill!

The heaven-stage martial warrior got hit by the Ice Thread Needle and almost froze.

If he didn't break free in time, he might die from this attack.

Wang Teng had to admit that the Ice Thread Needle was a skill perfectly suited for ambushes, aligning perfectly with his style.

These Ice Nematodes are a little hard to deal with but luckily, I have my Real Eye and the divine flames. I don't have to worry. Wang Teng smiled. His figure disappeared once again and he caught up with the five people ahead.

Boom!

Suddenly, an explosion occurred in front. A fierce battle had erupted.

Wang Teng immediately quickened his pace. As he approached, he saw a riot of colorful flames sweeping out in all directions.

With his Real Eye, he saw many small insects shooting out from the ice layer like needles. Their target was the five martial warriors.

Among the five of them, two of them had already been hit. Some parts of their bodies were covered with ice. Fortunately, they weren't in any life danger.

One of them was the young man called Pilder. The other was... Qin Quan!

That's right, he got hit again.

This time, his abdomen was frozen. The ice started spreading upwards and downwards, getting dangerously close to his private part.

He almost had a breakdown. His face turned as black as the bottom of a pot.

Yuan Bai and Tong En, the two fire element martial warriors, executed their fire Force furiously to resist the Ice Nematodes shooting towards them like needles.

After discovering the presence of the Ice Nematodes, they were extremely careful, which was why only two of them got hit. Otherwise, all five of them might have perished here.

However, they didn't expect to meet a bunch of Ice Nematodes after walking for a few hundred meters. The number was so overwhelming that they found themselves in a dire situation.

"Yuan Bai, Tong En, do you have any defensive weapons that can resist ice element attacks? Hurry up and take them out," Bi Yao shouted hurriedly.

## **Chapter 1716: Ice Nematode! Ancient Structures Within The Ice Crevasse! (4)**

Yuan Bai and Tong En exchanged glances with each other.

"Let me do it." Yuan Bai's expression remained unchanged as a huge shield suddenly appeared in his hand. He slammed it into the ground and shouted.

Boom!

A crimson glow instantly erupted on the giant shield, forming several illusory flame shields that completely enveloped them from all sides, leaving no gaps.

The Ice Nematodes were blocked outside. They landed on the shield's surface, producing a series of "ding ding ding" sounds!

The surface of the shield shimmered with flames, and the Ice Nematodes were instantly killed.

These Ice Nematodes were strange but their weakness was obvious too. They were afraid of fire.

As long as the right solution was used, they could deal with them easily.

The people behind the shield heaved sighs of relief.

"Quick, help them remove the ice," Bi Yao said hurriedly.

Yuan Bai and Tong En were experienced. They took charge of one person each and immediately killed the Ice Nematodes embedded in the bodies of Qin Quan and Pilder. The ice was removed.

"Sigh." Qin Quan let out a long sigh. His expression was bitter. "This is the second time. Damn it, are these bugs targeting me?"

"Hahaha, Little Quan Quan, you're so pitiful." Tong En laughed uncontrollably.

"They failed to hurt your bottom half twice. You're extremely lucky." Bi Yao patted his shoulder and teased him.

"Shut up!" Qin Quan's face turned black.

"What should we do now? There are so many bugs outside. We can't move forward at all," Wei Na said.

"Kill them then." Bi Yao's gaze turned sharp. He said to Yuan Bai and Tong En, "I'll have to trouble the two of you this time."

"It's nothing. We agreed to split the gains according to workload so we're more than willing to help." Tong En waved her hand and chuckled.

Yuan Bai's eyes gleamed. He didn't refuse either.

Before they came, they agreed that if they found any treasures, they would divide them based on each person's contribution. This was just the right time for them to pitch in.

Also, after understanding the true nature of the creatures, they weren't as afraid anymore.

Fear stems from the unknown!

Now that they knew the creatures were vulnerable to fire, dealing with them would be a breeze.

"Be careful. Don't break the ice around you," Wei Na said.

"Don't worry. We tried it before. Normal flames won't be able to melt the ice here," Bi Yao said.

"Then we can do whatever we want."

Yuan Bai and Tong En exchanged glances with each other. Then, they attacked at the same time. Flames swept out and killed all the Ice Nematodes around them.

So many attribute bubbles! Wang Teng hid in the space fissure and smiled brightly.

After killing a large number of Ice Nematodes, the ground beneath them was filled with attribute bubbles. What a windfall of rewards!

My turn to collect them!

Constellation Force (Ice)\*400

Ice Thread Needle\*120

Blank Attribute\*450

Constellation Force (Ice)\*650

Ice Thread Needle\*150

Blank Attribute\*600

...

There was nothing to say about the constellation Ice Force. Wang Teng had already reached the perfected stage for that.

Upon picking up the attribute bubbles of the Ice Thread Needle, Wang Teng's proficiency rapidly increased. He effortlessly transcended the foundation stage and soared straight passed the well-versed stage to the specialized stage!

Two levels in a row!

Ice Thread Needle: 3600/5000 (specialized)

After reaching the specialized stage, Wang Teng was able to release the Ice Thread Needle with ease. Its power was truly remarkable.

If he were to use the Nether Frost to activate this skill, it would be even more terrifying than the Ice Nematode. Even a heaven-stage martial warrior would be incapacitated for quite some time if they got hit.

Ordinary flames wouldn't be able to melt the Nether Frost. This was the tricky part.

A wild grin spread across Wang Teng's lips when he thought about this.

Lastly, there was the Blank Attribute. Each Ice Nematode only dropped a few hundred points of blank attributes, their sheer numbers allowed Wang Teng to accumulate several thousand points of blank attributes.

However, he didn't pay much attention to it at the moment. His gaze was fixated on what lay ahead.

Bi Yao, Wei Na, and the others dealt with the Ice Nematodes while moving forward.

They remained cautious and did not disperse the shield protection. Instead, they advanced within the shield.

Along the way, they slaughtered a large number of Ice Nematodes without stopping. It was as if the Ice Nematodes were the guardians of this place and wanted to obstruct their progress.

But, it was useless.

With the help of the two fire-element martial warriors, these Ice Nematodes were unable to break their shields.

The five of them advanced slowly within the shield, taking numerous twists and turns. Soon, they lost track of how much time had passed. The ice crystals ahead became increasingly dense, resembling a crystalline palace.

Suddenly, the five martial artists came to an abrupt halt.

There was a massive ice wall in front of them.

What is this? Wang Teng's pupils constricted violently in surprise when he saw the ice wall.

"Gasp!"

At the same time, Wei Na, Bi Yao, and the others saw what was behind the ice wall and gasped.

"Structures?!"

"Why are there structures here?"

The five martial warriors were filled with disbelief. They stared at the structures behind the ice wall with wide eyes as if they saw a ghost.

An expanse of structures exuding an ancient and rustic style, lay frozen within the ice, like a segment of history locked away by time.

Wang Teng's gaze shimmered.

Structures within the chaos?

This was impossible!

This realm of chaos had yet to give rise to civilization. How could buildings exist here? It was simply not scientifically plausible.

"Bi Yao, what's going on?" Wei Na swallowed her saliva and turned around to ask.

"I don't know. This is my first time walking so far and seeing this ice wall." Bi Yao stared at the ice wall absentmindedly.

When he came here with his companions the previous time, he didn't even complete a third of the journey. How could he see this ice wall?

"It's said that many peculiar things are drifting in the dimensional rifts. The chaos is constantly evolving so numerous dimensional rifts will appear. Hence, the things inside the dimensional rifts will quickly flow into chaos. Could this cluster of buildings have arrived in such a manner?" Tong En suddenly said.

"Tong En, who did you hear this from?" Wei Na asked in surprise.

"My sister, Tong Ya. Who else can it be?" Tong En said.

"Indeed, it's your sister. She's on the universe goddess rank, right?" Wei Na said.

"Haha, it seems like my sister is quite famous." Tong En chuckled.

Bi Yao, Qin Quan, and Pilder were no strangers to Tong Ya, who was on the universe goddess rank. Their gaze was filled with admiration and fondness.

"Your sister is the idol of many female students." Bi Yao smiled.

"Sigh, as her younger sister, I'm under a lot of pressure." Tong En sighed.

Bi Yao and the others were speechless.

If they didn't know Tong En, they might have believed her.

She loved her sister so much, what pressure could she have?

She was proud to have such a sister.

"If Senior Sister Tong Ya said it, it's possible." Qin Quan went back to the main topic.

"Indeed." Wei Na nodded.

"My sister also mentioned that if these structures were wandering within the dimensional rifts, they could very well be ancient structures, and there might be some great discoveries awaiting us," Tong En blinked her eyes playfully and said with a smile.

"Ancient structures? They might have some legacies." Everyone's eyes lit up.

Ancient structures!

Legacy!

Wang Teng's eyes lit up when he heard their conversation.

Following these people was a great idea. Not only could he let them lead the way, but he could also freeload on their useful knowledge.

I'm so smart!

## **Chapter 1717: Eerie Ice Corpses! The Reappearance Of Ancient Runes! (1)**

The five martial warriors stood in front of the ice wall to think of a plan.

Bang! Bang!

Wei Na walked in front of the ice wall and knocked on it. It gave off a dull sound.

It appeared that this ice wall was solid and, at the very least, over ten meters thick. It was completely encased in ice on all sides and wasn't hollow.

She frowned and placed her hand on the ice wall, feeling it carefully.

The bone-chilling cold invaded her palm and spread rapidly up her arm as if planning to freeze her entire body.

Wei Na immediately released her hand with a serious expression.

"This ice wall is quite thick, and the cold is extremely intense. It may be difficult to break it," she turned to the others and said.

"Let's try using the flames first. Waiting isn't a solution," Bi Yao said.

"Alright." Wei Na nodded.

Whether it works or not, they must give it a try.

Everyone looked at Yuan Bai and Tong En.

"Direct your flame in a single direction. This way, we should have a better chance," Wei Na suggested.

"Okay!" Yuan Bai and Tong En turned serious and nodded.

They acted simultaneously, extending their hands and releasing their power of fire. Each of them created a fiery column, blasting at the same spot on the ice wall.

Scorching heat spread in all directions. Everyone's gaze remained fixed on the ice wall.

Even Wang Teng, who was in the space fissure, squinted slightly as he looked at the ice wall.

It's not enough! After some time, he shook his head.

This temperature wasn't enough to melt the ice.

They could only resort to brute force to break through.

As expected, Yuan Bai and Tong En stopped quickly. They shook their heads and said, "Ordinary fire can't melt this ice."

"That means we can only work together to break it," Bi Yao said in a solemn voice.

"Will we destroy this place?" Pilder asked in a deep voice.

They were heaven-stage martial warriors. They could shatter ordinary planets if they exerted their full power.

Although the ice here was undoubtedly hard, they couldn't guarantee that it wouldn't collapse. If that happened, the buildings inside would also collapse and their efforts would be wasted.

Those ancient structures might have existed for countless years so they could be already decayed and unable to withstand the shock of their powers.

"Just be careful. If we destroyed the structures, it means that it wasn't meant to be." Wei Na smiled and replied nonchalantly.

"I agree." Tong En smiled.

"Let's start."

The five of them turned serious. Weapons appeared in their hands and Force congregated on them.

"Let me try first." Pilder took down the long spear behind him. Golden Force floated around it, accompanied by a hint of domain power. He thrust it forcefully towards the ice wall.

Boom!

An explosion was heard. The entire place shook.

Everyone tensed up as they glanced around them. Despite their previous nonchalant attitude, they were still worried that this place would collapse.

Crack~

At this moment, a soft crack was heard.

A slight crack appeared on the ice wall, spreading outward from the center of Pilder's spear.

"It works!" Everyone was elated.

"This isn't right!" Pilder's expression changed slightly. He stared at the spot where his long spear had struck. His expression turned unpleasant.

The cracks were healing at an even faster pace. Soon, the ice wall returned to its original state.

"Erm..."

Everyone's expression changed when they saw this scene too.

"How did this happen?" Bi Yao shouted in anger.

"It looks like we don't have to worry about this place collapsing." Wei Na shook her head with a bitter smile. "Let's attack together."

"Yes!"

"Damn it, I don't believe we can't break through this ice wall."

...

They cursed in anger and tightly gripped their weapons as they glared fiercely at the ice wall before them.

"How much Force should we exert?" Tong En chuckled and asked.

She couldn't believe that these people would dare to use their full force to attack the ice wall.

"Erm..." As expected, no one knew what to say. The atmosphere was a little awkward.

Their words were loud but their actions were hesitant.

"Let's use half first," Wei Na said.

The others had no objections. All of them started gathering their energy. The weapons in their hands emitted a powerful Force glow.

Half of their strength? Indeed, these seniors shouldn't be underestimated. Wang Teng wondered to himself as he sensed the surging Forces and domain power.

Boom!

In an instant, all five of them launched their attacks. Force attacks surged out, striking the ice wall with a thunderous boom.

Bang!

Countless ice fragments scattered in all directions. The impact was powerful.

The martial warriors unleashed their Force shields to block the incoming ice fragments. They stared ahead intently.

The residual impact dissipated and a huge hole appeared on the ice wall.

Everyone was elated.

"A little more effort and we will be able to break this ice wall." The moment Bi Yao finished speaking, his expression stiffened.

The ice on the ice wall healed once again, restoring the previously created crater to its original smooth, mirror-like state. There was no sign that a hole had ever been blasted.

"F\*\*k!" Pilder cursed. He stared at the ice wall as if he saw a ghost.

Wang Teng frowned too.

Initially, he thought that these people would be able to smash through the ice wall even if they couldn't melt them. He didn't expect this to happen.

## **Chapter 1718: Eerie Ice Corpses! The Reappearance Of Ancient Runes! (2)**

If they continued like this, they wouldn't be able to cross over the see the structures behind the ice wall.

Wang Teng was certain of this.

At this moment, Wei Na and the others also realized the situation. They frowned deeply as they looked at the ice wall before them.

"One more time. This time, we'll exert our full Force. Don't hold back," Wei Na said seriously.

Although Bi Yao facilitated this cooperation, Wei Na seemed to carry more authority. Everyone subconsciously followed her lead.

"It will be hard to smash this ice wall even with our full force," Bi Yao said with a bitter smile.

"How will we know if we don't try? Let's stop wasting time and smash it," Pilder said impatiently.

"Use the power of origin. I believe that everyone here has grasped the power of laws of origin. Let's not trial and error anymore. It's a waste of time and Force," Wei Na said.

The expressions of the group varied, but no one disagreed. They all nodded in agreement.

As the talented martial warriors of Stellar Academies, they had all grasped the power of laws of origin even though they hadn't reached the universe stage.

Otherwise, they wouldn't have specially entered the Chaotic Uncharted to comprehend the power of laws of origin.

Use the power of laws of origin? This is a good idea. Wang Teng nodded. There was something strange about the ice wall. The power of laws of origin might be needed to break it.

Wei Na and the others stopped chatting and unleashed all their Forces. Traces of the power of laws of origin seeped out of their bodies, spreading in all directions.

Boom!

The next moment, the five attacks landed on the ice wall simultaneously, creating a resounding explosion.

The attacks were far from ordinary because the power of laws of origin was added to them. The tremendous force shook the entire ice crevice space, causing intense tremors. Ice fragments rained down from above, splattering into countless ice shards upon impact with the ground.

Even the thick ice layer on the ground developed cracks that spread out in all directions. It was truly terrifying.

Wei Na and the others felt nervous. They had to keep their eyes on the ice wall while also monitoring whether this ice crevice space would collapse. They were extremely tensed up.

Crack...

Suddenly, a loud cracking sound was heard, as if something extremely thick had cracked.

Wei Na and the others were stunned. Their eyes widened as they looked ahead.

With the bright Force glow, a crack was spreading from the bottom of the ice wall all the way to the top.

The crack was strikingly visible as if the ice wall was split into two.

A faint icy-blue light radiated from within the crack!

"We did it!" Bi Yao and the others rejoiced.

"The crack isn't big enough. Let's work harder and expand it," Wei Na shouted.

"I'll do it!" Yuan Bai held his axes in both hands and took a step forward, raising the battleaxes high. A golden light gleamed on the blades.

His weapon was strange. It was a long-handled battleaxe. The handle alone was more than a meter long.

With both hands gripping the metal handles, he raised them high and swung them forward, delivering a fierce blow to the crack in the ice wall.

Crack...

As if a giant hand was pulling the crack apart, it slowly widened.

"Let's go in!" Wei Na shouted decisively when she saw that the crack was wide enough for someone to pass through.

The moment she finished speaking, she swiftly dashed forward and disappeared into the crevice.

The others only hesitated for a split second before rushing in at lightning speed.

Yuan Bai, being the closest, was the second to enter. Then came Tong En, Pilder, and Bi Yao, one after the other.

Wang Teng followed behind them. He didn't appear but he entered too.

The marvel of Space Concealment lay precisely in this aspect. He was hiding within the space fissures but he could still connect to reality. This enabled him to move freely.

You could say that this was an extremely useful skill!

Wang Teng observed his surroundings with a strange expression. He followed the five martial warriors and passed through the ice wall quickly.

The ice wall was several tens of meters thick but at this moment, the crack had completely opened it up, forming a passage leading to the ancient architectural complex.

To a heaven-stage martial warrior, this distance wasn't an issue. They rushed through the ice wall in a blink of an eye.

The ice wall behind them closed rapidly and returned to its original state.

Wei Na and the others turned around and looked at the gradually closing ice wall. They frowned slightly.

"We have to do it again if we want to go out later." Bi Yao was speechless.

"Let's not worry about that for now. At least we have found a way to open it. It turns out that we need the power of laws of origin to break this ice wall," Tong En smiled and said.

"Quick, let's go and see what's inside this ancient structure," Pilder urged with excitement.

"Hold on, let's observe first!" Wei Na immediately stopped him.

"Pilder, you have been cultivating for so many years but you're still so impatient. Be careful." Qin Quan felt helpless.

"Don't be fooled by his appearance. He may seem reckless but he values his life greatly. He would never joke about his life." Tong En glanced at Pilder and laughed.

Pilder scratched his head. A sharp glint flashed past his eyes as he chuckled.

The group fell silent. They stared ahead.

## Chapter 1719: Eerie Ice Corpses! The Reappearance Of Ancient Runes! (3)

A piece of ancient architecture stood tall amid the icy landscape. Everything was frozen. Eaves, corridors, bricks, and tiles were all covered in ice crystals, resembling a long line of crystal palaces.

Fortunately, this place wasn't entirely frozen. If not, they wouldn't be able to enter.

"Let's go and take a look at that building first." The martial warriors exchanged glances with one another and cautiously walked towards the foremost ancient architecture.

The place was incredibly quiet as if no living creature existed.

However, Wei Na and the others didn't dare to relax for a moment. The eerie silence of the place sent shivers down their spines.

They arrived entrance. The stone door was frozen by the ice and snow. It emitted a chilling aura.

"Who wants to knock?" Wei Na and the others swallowed their saliva as they stared at the door.

"Why don't Yuan Bai and Tong En do it?" Bi Yao looked at the two of them and hesitated.

"Look at how timid you are." Tong En took out a lollipop and stuck it in her mouth. She licked it a few times and rolled her eyes at Bi Yao. Then, she pushed the door directly.

Bang!

The stone gate fell with a dull and loud sound.

Despite the impact, the frozen gate remained completely undamaged. Its icy surface remained intact.

Everyone jumped in fright and took a few steps back.

"???" Tong En felt a little awkward. She turned to look at everyone and said, "This door seems a little weak. I just gave it a gentle push!"

Silence.

A gentle push and it fell?

It must be a very gentle push.

"Cough, this door has probably been neglected for years and couldn't hold up any longer," Wei Na coughed and broke the awkwardness.

"Yes, that's right. That must be it." Tong En nodded.

"Alright, let's go in and take a look." Wei Na waved her hand. She sensed no danger so she walked through the door.

The group stepped into the building cautiously behind her.

Many of these ancient structures were in the form of palaces, but most appeared to be ordinary houses. They looked like living quarters.

The room they entered now seemed like a living space.

As soon as they stepped in, a tremor ran through the hearts of the group. Their expressions changed slightly as they looked at the ground before them.

A frozen corpse lay on the ground!

The corpse looked so lifelike as if it were still a living person!

That was why Wei Na and the others were startled.

Coming across a frozen corpse in such an environment was undoubtedly a chilling experience. One could imagine their emotions.

Their nerves were already on the edge and the slightest movement could make them jump. Thus, seeing this scene only added to their shock and fear.

Moreover, the appearance of the corpse was eerie. The entire body was frozen stiff, with its hands reaching out towards the gate in a struggling motion like it was trying to crawl towards it. The face was contorted with terror as if it had seen something extremely horrifying.

This image added to the ominous atmosphere.

Wang Teng was watching them from the side like a bystander. He was hidden in space, less than three meters away from the group. He, too, was shocked when he saw the frozen corpse.

How can there be someone here?

"Gulp!" Pilder suddenly swallowed his saliva. It sounded exceptionally clear in this quiet place.

The group regained their senses and exchanged glances. They crouched down in front of the frozen corpse to check if the person was still alive.

"The clothing on this frozen corpse is very antiquated. It looks like something from ancient times!" Wei Na exclaimed.

"Indeed, it's an ancient style." Tong En nodded. His eyes glinted in excitement.

Bi Yao and the others were familiar with this. They studied ancient artifacts in the past so that they could make accurate judgments during their explorations.

Combined with the architectural style, they finally confirmed that this place was indeed an ancient architecture. Their previous speculations weren't wrong.

Ancient people?! Wang Teng wondered to himself. Through his Real Eye, he could already see that there were no signs of life within the frozen corpse. However, when he tried to determine the cause of the person's death, he found nothing conclusive. He could only confirm that the person had died from freezing.

He could tell from its appearance!

But, the question was, how did this person freeze to death?

Wang Teng initially wondered if this was the doing of the Ice Nematode, but he didn't find any traces of it.

This made him even more puzzled.

Could it be that this ancient building was suddenly invaded by some extremely cold force, causing everyone to freeze to death?

At this point, Wei Na and the others also confirmed the situation. They searched the room but didn't find anything of value so they left.

Feeling somewhat disappointed, they continued exploring one room after another. They discovered that most of the rooms had frozen corpses inside. Even as they walked through the streets, they came across numerous frozen bodies on the ground. Some were frozen in a running posture.

The five martial warriors' expressions were grim. Along the way, they saw at least thousands of frozen corpses.

One or two corpses weren't shocking but seeing thousands of frozen bodies before them intensified their unease.

They all sensed an eerie aura permeating this place. Their hearts weighed down with worry.

"Nothing. There's nothing here besides these frozen corpses," Pilder said dejectedly.

"We haven't gone to the most important central area, the palace-style building. If there are treasures, they will be there," Wei Na looked towards the central part of this place and said.

## **Chapter 1720: Eerie Ice Corpses! The Reappearance Of Ancient Runes! (4)**

"Let's hope so," everyone rallied. Their morale was boosted again.

"Have you noticed that the directions in which these frozen corpses were running or struggling towards seem to be towards the central area?" Tong'en suddenly pointed out.

Wei Na and the others were stunned. They turned to look at the surrounding frozen corpses in astonishment.

"You're right," Bi Yao exclaimed.

"What does this mean?"

"What's in the palace in the center?"

"Are they trying to escape there?"

...

They started a discussion with tense and serious expressions on their faces. Eventually, they decided to head to the palace at the central location.

Regardless, it was a place they must go.

The five of them quickened their pace and soon arrived in front of a grand palace.

Wang Teng followed behind them calmly. He scanned his surroundings and observed everything.

Unlike the others who seemed to be on a treasure hunt, he appeared more like a tourist.

A flight of stone steps lay before the grand palace. It was covered with ice and extremely slippery.

The martial warriors ascended the steps carefully.

The door of the grand palace was opened. Wei Na and the others hesitated for some time before walking in.

Wang Teng had a pleasant surprise before he entered the palace.

Hey! Attribute bubbles!

He saw many attribute bubbles floating around the grand hall.

He walked in without any hesitation and picked up the attribute bubbles.

To avoid drawing attention from Wei Na and the others, he refrained from using his spiritual power and had to pick up the ice crystals one by one.

Ancient Runes\*10

Ancient Runes\*10

Ancient Runes\*12

...

It's Ancient Runes! Wang Teng was surprised and overjoyed.

He had picked up some Ancient Runes attributes on Instructor Sikong's warship the previous time and gained a bit of understanding about these nearly lost symbols.

But, it wasn't much.

The amount he had picked up was too small to provide him with enough knowledge for a deeper understanding.

However, inside this grand palace, he managed to pick up so many Ancient Runes attribute bubbles. Suddenly, his comprehension of these runes began to skyrocket.

After some time, all the attribute bubbles in the palace were picked up. Wang Teng heaved a sigh of relief.

Good lord!

It had been a long time since he worked so hard to pick up attributes!

In the past, he could use his spiritual power to pick them up so he didn't need to do it himself.

Well, picking up attribute bubbles by hand wasn't entirely unacceptable. It was a form of respect for the system.

Wang Teng glanced at the attributes board.

Ancient Runes: 850/3000 (well-versed)

Well-versed stage! Wang Teng was elated. Not bad, he jumped from the foundation to the well-versed stage. It was a sizable gain.

Wang Teng was delighted when he sensed the knowledge of ancient runes in his mind.

Then, he looked at the five martial warriors. They were still searching around the grand palace for opportunities, completely unaware that he had already gained some benefits.

He ignored them and looked at the walls and pillars of the grand hall.

They were covered in various ancient runes, and it was precisely the essence of these ancient runes that created the abundance of attribute bubbles throughout the hall.

Wei Na and the others were also looking at the runes. They thought it was some kind of legacy but they appeared confused and completely unable to comprehend them.

They didn't recognize the ancient runes at all!

All they could see were various enigmatic symbols.

One could almost see the string of question marks above their heads.

"Can anyone decipher what the inscribed runes represent?" Qin Quan asked in a soft voice.

The other four people remained silent.

"Shall we dismantle these walls and bring them back?" Tong En suggested.

"I think so!" Pilder nodded in deep thought.

Wang Teng: ...

These people are audacious!

He stood in front of a stone wall and analyzed the runes on it. He concluded that there was nothing of value physically. The real value was the ancient runes themselves.

However, when he was almost done deciphering the runes on the four walls, his eyes suddenly lit up.

He dashed past the five martial warriors and headed to the back of the grand hall.

## **Chapter 1721: Run, Run... (1)**

The front hall was just the facade of the palace-style building, serving as an entrance. There was nothing special about it.

However, Wang Teng learned something from the ancient runes in the great hall.

He left the five martial warriors and walked towards the rear hall alone.

He was done with the front hall.

The valuable items were probably at the back. After following the martial warriors for so long it was time for him to act.

Between the front hall and the rear hall, there was a small open space. As soon as Wang Teng arrived here, he noticed numerous attribute bubbles floating above the ground.

Oh my god!

Ancient Runes\*15

Ancient Runes\*10

Ancient Runes\*20

...

One by one, the attribute bubbles merged into his mind, and Wang Teng's mastery of Ancient Runes once again improved.

He looked at the ground and frowned slightly.

The ground was covered with Ancient Runes resembling tiny tadpoles. It made the entire open space look like a pond.

In his eyes, these tadpole-like runes appeared alive.

This is an array! Wang Teng had a rough idea in his mind. His Ancient Runes had reached the well-versed stage so he could easily identify some arrays at a glance.

In the past, he couldn't recognize all the Ancient Runes in the array.

This place is the center. It looks like this array is quite big. Wang Teng analyzed that Ancient Runes and a complete array started to take shape in his mind.

A smile appeared at the edge of his lips. He was overjoyed.

As a runes grandmaster, nothing gave him a greater sense of accomplishment than deciphering an array.

Moreover, this was an ancient formation inscribed with Ancient Runes. It was a rarity in the current world.

However, he was currently only in the central position. There were many other Ancient Runes scattered elsewhere, beyond his current sight. Therefore, the formation he deduced in his mind was not complete.

It should be an ice element array. Does this mean that this architectural complex belongs to a race with ice talent? Wang Teng speculated. Without any hesitation, he continued walking towards the rear hall.

Time waits for no one, and there were still five other clueless individuals behind him waiting to snatch the opportunities.

At the same time, Wang Teng felt the chill getting stronger as he got closer to the rear hall.

Especially when he crossed the open space, the chilling sensation almost froze his entire body.

Not only his physical body stiffened from the cold, but even his soul seemed to be freezing. The spiritual power within consciousness started to congeal, and the Nine Treasures Pagoda had to emit golden light continuously to resist the immensely cold chill.

What a frightening chill! Wang Teng was shocked.

His physical body was incredibly strong. Even without activating the Ancient God's Body, he wouldn't get frozen by the ordinary cold.

Yet, this chill managed to affect his body. It was truly unbelievable.

He didn't think much and immediately released his divine flame.

Three divine flames swept out simultaneously.

The Holy Flame sat in his consciousness. The pure white flames encircled the Nine Treasures Floating Tower, dispersing all the chill around him.

The Emerald Glazed Flame and the Soul Of Thousand Beasts Flame flowed through his limbs and meridians.

In an instant, the chill disappeared without a trace. Wisps of mist rose from Wang Teng's body, only to be instantly evaporated.

He regained control of his body.

I'm curious to see what could emit such a chilling sensation. Wang Teng's eyes flickered with determination. With a swift movement, he arrived at the front of the rear hall's entrance.

The doors of the rear hall were also opened. He stepped inside without any hesitation.

In an instant, an even more terrifying cold swept over him.

Wang Teng frowned. Fortunately, he had the divine flame, or else he might not have been able to withstand it.

He scanned his surroundings and his gaze suddenly froze.

There were people in this rear hall!

There were three ice corpses, two standing, and one sitting on the throne.

Wang Teng couldn't help but take a deep breath.

There were ice corpses here too and they seemed to be of high status. From their luxurious garments to the oppressive auras, it was evident that they held significant positions in life.

The three figures were in a triangular standoff, with the two standing individuals facing the ice corpse on the throne. They pointed their weapons at each other, their expressions a mix of shock and anger. They seemed to be scolding each other.

On the other hand, the ice corpse from the royal family remained expressionless with a hint of mockery at the corners of his lips.

All of these scenes were frozen in ice, to the point that even after countless years, Wang Teng could still vividly see the expressions they had before being frozen.

"Tsk!" Wang Teng clicked his tongue.

He had already mentally concocted a melodramatic internal struggle.

The storyline was so old-fashioned!

To be on the safe side, he used his Real Eye to look at the three of them. His pupils constricted.

F\*\*k!

He cursed in his heart.

When he saw their Origin Of Life, his heart skipped a beat. It almost leaped out of his throat.

Then, his heart started pounding even faster.

This person is still alive! He looked at the figure on the throne. His expression changed rapidly.

The two ice corpses standing below were already completely lifeless. Only the ice corpse seated on the throne still showed a hint of vitality within its body.

The fact that this ice corpse had survived for who knows how many years was simply astonishing. Wang Teng felt even more shocked and amazed than encountering a living person here.

He suddenly felt fortunate that he was hidden within space.

If he revealed himself now, would the other party be able to see him?

## **Chapter 1722: Run, Run... (2)**

After all, the eyes of this ice corpse were wide open.

It would be better if he was dead. After knowing that the other party was alive, no matter how Wang Teng looked at him, he felt that the other party could see him through those eyes.

Even more terrifying was the fact that he couldn't see through this person's stage.

He couldn't see the stages of the other two ice corpses but their physical strength gave him a rough idea that they were probably eternal stage martial warriors during their lifetime.

However, when it came to the presence on the throne, he couldn't gauge the individual's true power at all.

Could he be above the eternal stage? Wang Teng wondered to himself. Then, he shook his head and frowned.

If the person on the throne was above the eternal stage and the two people below were eternal stage martial warriors, how could they have managed to force the person on the throne to this extent?

From the expressions of the three figures, he could faintly infer some details. The person on the throne probably won in the end.

The mockery on his face and the fear on the faces of the other two indicated as much.

Then, the question came back. Why was this place frozen?

This didn't make sense!

It couldn't be that the person on the throne froze everything, including himself, right?

He was much more powerful than his opponents. Unless he had a death wish, he wouldn't need to freeze himself. He even froze his fellow kin. Such a course of action would be utterly insane and ruthless.

Wang Teng couldn't quite understand the situation. He took a deep breath and tried his best to calm down. He glanced around him.

This rear hall had suffered some damage. The marks left by swords and blades were visible even though it was frozen.

Fortunately, the material of the hall seemed to be extremely durable so those attacks didn't destroy it completely.

Wang Teng suddenly saw attribute bubbles floating above some of the marks.

These bubbles were not there before. They emerged from those marks recently.

Wang Teng's eyes lit up. Without thinking about anything else, he hurriedly collected the attribute bubbles.

These were attribute bubbles left behind by ancient martial warriors. They were incredibly valuable!

Quick, pick them up!

Ice Domain (actualization phase fifth-rank)\*100

Origin of Ice\*2100

Wood Domain (actualization phase fourth-rank)\*150

Origin of Wood\*1800

...

Several attribute bubbles immediately merged into Wang Teng's mind, transforming into profound insights that he absorbed.

The actualization phase domain! Wang Teng was delighted.

The actualization phase was the next stage of normal domains and was much stronger. So far, only Wang Teng's Dark Domain had reached the actualization phase, thanks to the guidance of the Devil Emperor Bare Brain in their previous encounter.

Unexpectedly, this time he stumbled upon attribute bubbles containing attributes for two different actualization phase domains. It was truly a pleasant surprise!

There were two actualization phase domains, the Ice Domain, and the Wood Domain.

The Ice Domain had reached the fifth rank while the Wood Domain reached the fourth rank. As of now, it was a high level for Wang Teng.

The Flaming Magnetic Meteor Domain was currently at the highest stage. It entered the fifth rank not long ago.

Now, his Ice Domain reached the fifth rank and it was the fifth rank of the actualization phase. He surpassed the Flaming Magnetic Meteor Domain instantly.

This was a special element domain. After reaching the actualization phase, its power became absolutely formidable and shouldn't be underestimated.

It might be comparable to a hybrid domain like the Flaming Magnetic Meteor Domain.

The Wood Domain wasn't weak either. It reached the fourth rank directly and became Wang Teng's third actualization phase domain.

In the past, Wang Teng only had one Dark Domain that had reached the actualization phase. It was a waste since he couldn't use it in front of others.

Now, things were different. These two realms wouldn't cause any trouble for Wang Teng. He could freely use them to his advantage.

Moreover, since Wang Teng directly comprehended the domains at the fourth and fifth ranks instead of starting from the first rank, he was able to directly elevate his domains to their respective ranks, saving him a lot of time.

Ice Domain: 100/5000 (actualization phase fifth-rank)

Wood Domain: 150/4000 (actualization phase fourth-rank)

Wang Teng looked at the attributes board and nodded in satisfaction.

Good, his ability increased again.

Besides the improvements to his two domains, Wang Teng also received two power of laws of origin. He collected many points for them.

He received 2100 points of Origin of Ice and 1800 points of Origin of Wood. It was rare to receive so many points of attributes at once. His gains were not bad.

Wang Teng didn't underestimate their values just because he collected many laws of origin attribute bubbles in the chaos.

Mind you, this was the power of laws of origin. It was something that couldn't be found in ordinary places.

He could only have such gains in the Chaotic Uncharted.

Especially the Origin of Ice. Even though he picked up many attribute bubbles in the chaos, the Origin of Ice only increased by 2000 points. This time, he received 2100 points at once. This was a sizable amount.

Origin of Wood: 2120/20000 (second-rank)

Origin of Ice: 4920/10000 (first-rank)

Wang Teng smiled when he saw the Origin of Ice on the attributes board. 4920 points. If he could do it a few more times, his Origin of Ice would reach the second rank!

Why are there only two attribute bubbles? Aren't there three people? Wang Teng got a little greedy. He glanced around him to see if there were any more attribute bubbles.

His gaze lingered on the marks of the weapons. Unfortunately, no more attribute bubbles emerged.

Wang Teng was extremely disappointed.

He didn't waste any time and scanned the entire hall, searching for possible treasures or legacies.

## **Chapter 1723: Run, Run... (3)**

Real Eye activated!

Wang Teng's eyes flickered with a peculiar golden light as he meticulously scanned every corner of the hall, leaving no stone unturned and not even sparing the dome above.

Finally, his gaze settled on the center of the dome.

A dense and intense ice-blue light entered his vision.

He leaped into the air and rushed towards the position just below the suspended dome. He observed the object above.

This place had a hollow and embedded structure, with a palm-sized, ice-blue sphere in the middle.

As soon as he approached this area, his body and soul once again sensed the chilling sensation. Even with the divine flames, he couldn't block out that feeling completely.

It was as if these two forces were on an equal level, able to resist each other but unable to be completely blocked.

However, with three divine flames heating his body, Wang Teng was not frozen by the ice-blue sphere.

If ordinary warriors encountered this, they would likely suffer greatly.

What is this? Why does it have such a terrifying coldness? Wang Teng examined the sphere before him in astonishment.

Boom!

At this moment, a loud explosion was heard from the front hall.

Huh? What's going on? Are they in trouble? Wang Teng was shocked.

He immediately looked at the front hall with his Real Eye which was already activated. His vision pierced through all obstacles, allowing him to see the situation outside.

A few figures entered his vision.

Someone else entered this place. Wang Teng frowned.

Besides the other five martial warriors, he could see three more figures.

The three martial warriors were also students of the academy. They seemed to have had a conflict with Wei Na and the others.

However, they seemed to exercise some restraint and hadn't resorted to full-on attacks. They had their reservations.

Everyone just has to come together. Wang Teng felt exasperated.

One could consider this place a forbidden ground and it had likely existed for quite some time. But, nobody came before. Now, it seemed as if they had all decided to come at once.

At this moment, the two parties in the front hall spoke to each other and rushed towards the rear hall.

Wang Teng immediately withdrew his gaze and looked at the ice-blue sphere above his head. He was contemplating whether he should quickly take it away. It might become difficult to do so once those people arrived.

I saw it, so it's mine. Wang Teng thought to himself as he reached out to grab the ice-blue sphere before him.

As soon as his hand touched the sphere, a chilling sensation spread into his body.

In an instant, his entire arm was frozen.

Wang Teng's expression changed slightly. He immediately activated the Emerald Glazed Flame and pushed it to his arm to counter the cold.

Crack.

Surprisingly, the ice didn't melt. Only crisp cracking sounds were heard.

Bang!

The next instant, the ice shattered and fell from his arm.

Hmph, mere ice can't stop my divine flame. Wang Teng snorted.

He enveloped his palm with the green flame and once again reached for the ice-blue sphere before him.

Unexpectedly, the green flame was frozen. However, only the outer layer of the flames was affected. The internal flames continued to burn as if covered by a layer of ice.

Wang Teng never expected this situation.

What was this ice-blue sphere? It wasn't even afraid of a divine flame.

This only strengthened his determination to take away the sphere!

Who cares what it was?

As long as it was a treasure, he must take it.

Wang Teng immediately increased the output of the divine flame, unleashing an intense surge of scorching heat. The icy shell burst open instantly.

But, the instant he touched the ice-blue sphere, it froze again.

The temperature of this ice-blue sphere was incredibly low and any contact with it would inevitably result in freezing. Even the divine flame couldn't do much against it.

But likewise, the ice-blue sphere couldn't do much against the divine flame either.

They were at a standstill.

"It's so cold!"

Suddenly, a voice came from outside the door.

As Wang Teng was about to take away the ice-blue sphere, the two groups of martial warriors arrived.

But, they stopped outside the entrance.

Not everyone could withstand the chilling sensation emanating from the ice-blue sphere. Without the protection of something like Wang Teng's divine flame, they needed to spend a considerable amount of time just to step through the door.

They had to consider the situation inside the rear hall carefully before they found a way to resist the cold.

After all, the closer they got to the hall, the stronger the chilling sensation became. Any slight negligence could even freeze their souls, which was the most troublesome issue.

If their souls were injured, they would have to seek ways to heal their damaged souls.

Anything related to the soul was generally extremely complicated.

Methods or items that could heal soul injuries were rare.

For instance, even the few types of pills Wang Teng knew about were scarce. Making them was exceedingly difficult too.

Due to these reasons, ordinary warriors would never dare to injure their souls.

Only Wang Teng, who had many skills and knew a little of everything... Well, he specialized in everything so he wasn't afraid.

"What's in this hall? Why is it so cold?" Bi Yao's voice was heard this time.

"Bi Yao, it doesn't matter if you arrived early. You can't enter anyway," Another unfamiliar voice was heard.

The two sides confronted each other at the entrance. A handsome youth with a sinister aura looked at Bi Yao and the others with a mocking expression.

"Hmph." Bi Yao snorted. "Gao Feiying, enter the place if you dare. Don't waste time talking to me."

## **Chapter 1724: Run, Run... (4)**

Gao Feiying, the sinister youth, said calmly, "I'm not in a hurry. It's first come first serve. Since you came first, I'll let you go first."

"Shameless!" Qin Quan said coldly.

"That's right. That's not what you said just now. You were in such a rush earlier but now, you're acting all timid. Are you asking us to scout the way for you? You must be dreaming," Tong En sneered.

"Hmph, Tong En, you're nothing compared to your sister. If Tong Ya was her, she would have gone in already." Another lady's voice was heard. She sounded sarcastic.

"Get lost! Who do you think you are to talk about my sister? Mention her again, and I'll beat you up. Even Gao Feiying won't be able to protect you," Tong En said in a domineering manner.

"You..." The lady trembled in anger.

"Enough of this bickering," Gao Feiying stopped the lady, seeming somewhat wary of Tong En. He turned to Wei Na and said, "Wei Na, this place is strange. Why don't we team up and go inside together? Once we're in, we will split and find treasures based on our luck."

"Wei Na, ignore him. He's not on the same side as us," Bi Yao said using voice transmission.

"Yes." Wei Na nodded. She said to Gao Feiying, "I'm sorry. We don't have the obligation to cooperate with you. Let's use our own methods to enter this place."

"Since that's the case, it's up to you," Gao Feiying shrugged indifferently and looked towards the lady next to him. He asked through voice transmission, "Can you protect the three of us as we enter with your fire Force?"

"I think so." The lady glanced at Tong En and the others and replied using voice transmission.

"Alright, I'll leave it to you." Gao Feiying was a decisive person. He had to take a gamble as he couldn't return empty-handed.

On the other side, Wei Na and the others had also finished their discussion. Their team had two fire-element martial warriors, which was enough to protect the five of them.

They had a slight advantage.

"Did you notice a scorching heat inside?" Tong En suddenly asked curiously.

"Scorching heat?!" Everyone's expression changed.

How could there be scorching heat in this extremely cold environment?

Was there a fire element treasure inside?

That was why it was preserved in such a freezing environment.

Everyone was puzzled. Various speculations appeared in their minds. Yuan Bai and the female warrior next to Gao Feiying also sensed the strange situation.

It was ice-cold here, so the scorching heat Tong En felt wasn't obvious.

If she wasn't a fire-element martial warrior, she wouldn't be able to sense it.

Tong En frowned. Suddenly, her expression changed. "No! It's gone!"

"Quick! Go in!" Wei Na's expression changed drastically as she thought of something.

Tong En didn't have time to think too much. She exchanged glances with Yuan Bai and immediately acted at the same time. A fire shield was formed to protect everyone as they entered the grand hall.

Gao Feiying and the others weren't any slower. The female martial warrior released her fire Force and formed a fire shield too. She brought the three of them into the grand hall.

As soon as they entered the hall, their gazes were immediately drawn to the three frozen corpses. They were flabbergasted.

On the ceiling, Wang Teng and the ice-blue sphere had disappeared without a trace.

Wang Teng had to use three divine flames simultaneously to ensure that the flames wouldn't freeze. Finally, he succeeded and kept the ice-blue sphere in his Devour Space.

Mission accomplished!

It was fortunate that the chilling aura emanating from the ice-blue sphere kept the others at bay for a while. If not, Wang Teng wouldn't have been able to retrieve the sphere with such ease.

"The chill seems to have subsided," Tong En suddenly said with a grim expression.

As a fire element martial warrior, she could clearly feel the coldness around her decreasing.

There must be a reason behind anything out of the ordinary!

If the intense cold from before had remained, she might not have felt anything unusual. However, the significant weakening of the freezing sensation made her suspicious.

"What happened?" Wei Na couldn't help but ask.

"The coldness around us has subsided. It's not as cold as before," Tong En said.

"That's right. The chill has weakened." Yuan Bai nodded in agreement.

"I'll remove the protective shield. Feel it for yourselves," Tong En said. Then, she withdrew the fire shield around them.

She even added the power of laws of flame origin to the fire shield to resist the chill just now.

This consumed a significant amount of her energy.

Now that it was no longer necessary, she naturally withdrew the flame protection.

After removing the fire shield, everyone immediately noticed the abnormality.

"My soul can't feel the chill anymore." Wei Na furrowed her brows as she felt the temperature.

These martial warriors were all experienced.

In some cases, special environments often indicate the presence of some kind of treasure.

When such special environments disappear without any reason, it usually meant that the treasure had also vanished.

"Did someone get ahead of us and take away the treasure?" Bi Yao scanned the surroundings grimly.

"Bi Yao, are you all blind? Someone entered before you, and you didn't even notice!" Gao Feiying exclaimed angrily.

How could he not be furious when he realized that someone had taken the treasure? Come on, he had already come so far!

"Do you want to fight?" Bi Yao was already in a bad mood so his face turned darker when he heard the other party's words.

## **Chapter 1725: Run, Run... (5)**

Crack...

Suddenly, a faint sound echoed within the hall.

"What's that sound?" Everyone was at the heaven stage so they heard it clearly. Their expressions changed slightly.

Swoosh!

Without any warning, an ice crystal fell from the center of the dome and slammed on the ground with a loud thud.

"Oh no, the top is cracking!" Everyone looked up and saw that the ice in the center of the dome was covered with countless cracks. Their pupils constricted.

Crack...

At the same time, cracking sounds were heard without stopping. They echoed in the air.

Everyone realized that the entire hall was shaking, and not just the dome, but even the walls and pillars were cracking.

The grand hall started rembling as if it was about to collapse.

The structures had existed for far too long. Without the support of the ice, they would have decayed.

Now that the ice-blue bead was taken by Wang Teng, and the power of the ice was gone, these structures were likely to crumble into dust.

"Oh my..." Everyone was flabbergasted.

"Run! This place is collapsing," Wei Na shouted hurriedly.

"Wei Na, there might be treasures on those three ice corpses. We can't leave empty-handed after coming all this way. We must take them with us," Bi Yao said using voice transmission.

"Alright. Yuan Bai, Qin Quan, and you will go and snatch the ice corpses. Tong En and I will stop Gao Feiying and the others," Wei Na said through voice transmission without any hesitation.

As soon as she finished speaking, she rushed towards Gao Feiying and his two companions.

The other party wasn't stupid. They were preparing to charge towards the three ice corpses too.

Unfortunately, Wei Na and her team were faster and had already arrived in front of them. They no longer held back and quickly launched their attacks.

"Wei Na, your appetite is a little too big. Are you planning to take everything?" Gao Feiying snorted and went forward. At the same time, he shouted, "Cassie, Ge Hua, go and snatch the ice corpses."

"Okay!" The other two dashed towards the ice corpses.

Boom!

Gao Feiying collided with Wei Na and Tong En.

"Are you trying to stop us alone?" Wei Na pushed her palm forward, blocking her opponent's path.

Tong En took the chance to stop the female martial warrior, Cassie. In the end, only the young man called Ge Hua managed to rush towards one of the ice corpses.

Tsk, tsk, what an intense fight. Wang Teng was stunned when he saw this scene.

He didn't snatch the two ice corpses. For some reason, he felt that it was better not to touch them.

Especially the corpse on the throne. The other party was still alive and the ice was about to break. Would that person revive once he was freed from the ice?

Suddenly, his heart skipped a beat. He raised his eyebrows.

He saw a different emotion in the eyes of the ice corpse on the throne. There was a hint of "vitality" in them. It wasn't as lifeless as before.

In an instant, Wang Teng's scalp tingled, and a chill ran down his spine.

I should run! This place is too dangerous! Wang Teng had lost all interest in watching the scene and immediately fled.

He swiftly passed through the open space in the middle and through the front hall. Then, he accelerated to his maximum speed and rushed towards the ice wall.

"It's not that sturdy anymore!" Wang Teng muttered. He released his fist and smashed a huge hole in the ice wall. Then, he dashed out.

He retraced his steps, passing through the same icy crevices he had come through before. Then, he fled far away without stopping.

Boom!

A loud rumble echoed behind him.

In the chaos, the piece of land composed of icebergs and glaciers suddenly collapsed, shattering into countless ice fragments.

Wang Teng gasped. He felt a mix of fear and confusion in his heart.

Did that person on the throne wake up?

This is terrifying! Quick, let's run away...

## **Chapter 1726: The Person Who Revived! The Hornless Ice Dragon Pearl! (1)**

The vast ice continent shattered in the chaos!

Before long, those ice would completely return to chaos, ceasing to exist!

Wang Teng was flabbergasted. What could have possibly occurred inside for the entire icy continent to explode and rupture?

He initially thought that only the area where the ancient architecture was located would collapse but now, it seemed that something far more significant had taken place.

After he left, something must have happened inside.

Perhaps it was caused by the revival of that person, or maybe it was simply due to the loss of support from the ice-blue bead which resulted in the fragmentation of the icy continent.

Both were possible!

However, Wang Teng was unable to verify the truth.

He left immediately, not daring to stay any longer.

This was of course due to the person who hadn't died.

Wang Teng was aware that he had taken the other person's treasure. If that person found out, he would likely come looking for him.

Hence, he needed to run away quickly!

Run away as far as possible.

Wang Teng had always acted timid when faced with a powerful being of an unknown stage.

That was an existence he couldn't contend with.

As he fled far away, Wang Teng witnessed numerous chaotic beasts dashing out from the icy continent, roaring as they scattered in all directions, trying to escape. However, many of them were struck by ice fragments and instantly exploded into chaotic energy.

Shortly after, Wang Teng also saw several rays of light rushing out of the icy continent in a panic, swiftly fleeing into the chaos without the slightest hesitation.

"It's them!"

Wang Teng immediately thought of Wei Na and the others.

Based on the number of light rays, all the people seemed to have escaped. No one died.

That person didn't kill them?

This thought flashed through Wang Teng's mind. He increased his speed and executed both his Light Bolt and Space Flash battle techniques. Gradually, he ventured deeper into the chaos until the icy continent was no longer in sight.

After flying for some time, Wang Teng let out a slight sigh of relief and glanced back before finally coming to a gradual stop.

I should be safe now, right? Wang Teng surveyed his surroundings, feeling a bit more at ease.

This was a small piece of land formed from chaotic currents. Numerous scattered rocks lay haphazardly, and peculiar stones jutted out at odd angles.

Wang Teng chose a stone and sat cross-legged on it.

Amidst the currents of chaotic energy, the evolution of the laws created a somewhat disorderly environment, which also provided some concealment from detection.

This was why Wang Teng chose to hide within the chaotic currents. He enveloped himself in a layer of Origin Energy of Chaos, making him even more inconspicuous. Not even the Chaotic Beasts could detect his presence.

"That was dangerous!" Wang Teng heaved a sigh of relief and muttered to himself.

Then, he couldn't help but feel excited. He felt that the ice-blue bead was an extraordinary treasure!

Wei Na, Bi Yao, and the others worked hard for a long time but the greatest benefit ended up in his hands.

He managed to reap the rewards from a group of heaven-stage seniors.

He was excited just thinking about it.

With these thoughts in mind, he couldn't wait any longer and wanted to enter his Devour Space to carefully examine the ice-blue bead.

After all, this place should be relatively safe...

Safe my foot!

Suddenly, Wang Teng's expression stiffened, and his whole body seemed to be frozen. His forehead... no, his entire skull felt like it was about to explode.

Terrifying!

Scary!

A figure suddenly appeared in front of him and looked at him silently. His gaze was indifferent and his expression was calm.

This was a middle-aged man with a weathered face but exuded a sense of authority. His attire was exceptionally luxurious, yet it carried a touch of ancient simplicity. It didn't follow the current popular styles.

He had long black hair cascading casually over his shoulders, giving him a carefree and ethereal appearance.

For some reason, Wang Teng wanted to be alone.

Yes, being alone was good.

"Boss, have we met somewhere before?" Wang Teng swallowed nervously as he stammered.

"We just met earlier. Have you forgotten about it?" the man replied nonchalantly, walking over and taking a seat on a nearby rock.

"To be honest, my memory isn't that great," Wang Teng's mind raced as he considered countless escape plans. However, on the surface, he didn't dare to reveal any expressions and could only smile awkwardly.

"Did you forget what you took from me?" The middle-aged man gave him an ambiguous smile.

"Well, um... I didn't forget," Wang Teng sighed helplessly. He covered his hands with divine flames and took out the ice-blue bead immediately. "Please don't misunderstand, I didn't steal it. I thought it was ownerless so I took it to play. I didn't have any ill intentions. Now, I'll return it to you."

"You're quite cheeky." The middle-aged man chuckled. His gaze lingered on the divine flames in Wang Teng's hand. Then, with a flick of his hand, he took the ice-blue bead back.

Surprisingly, the ice-blue bead did not affect him. There was no trace of ice on his hands.

Wang Teng felt the corners of his eyes twitching. He had already gotten the treasure but he had to return it to the other party.

This feeling was unbearable.

The treasure just slipped through his hands.

Throughout his cultivation journey, he had never encountered a situation like this before.

Once something was in his possession, he never let it slip away.

But now, he had to let it go. If not, he might lose his life.

One should be a coward when the time calls for it.

Wang Teng didn't dare to harbor any hope in front of a formidable existence like the middle-aged man.

If the treasure was gone, it was gone. However, he only had one life.

## **Chapter 1727: The Person Who Revived! The Hornless Ice Dragon Pearl! (2)**

Losing his life for a treasure was stupid.

Would the other party kill him?

Wang Teng felt that it was highly unlikely. In the eyes of this powerful martial warrior, he was as insignificant as a tiny ant. As long as he didn't provoke the other party, he believed he could preserve his life.

What's more, this was the Seventh Stellar Academy's Chaotic Uncharted. Formidable martial warriors were guarding the entrance. Could there be no strong individuals inside this Uncharted?

Wang Teng refused to believe that there were no powerful beings here.

As long as the middle-aged man before him was concerned about this, he could spare his life if he returned the ice-blue bead.

In an instant, various thoughts flashed through Wang Teng's mind. He didn't feel the pain of returning the bead anymore.

The middle-aged man looked at the ice-blue bead in his hand, and his gaze seemed to be filled with memories. He asked, "Do you know what this is?"

"I don't know," Wang Teng replied honestly.

"Why did you take it if you don't know?" The middle-aged man was speechless.

"Haha, I don't know what it is but it must be a treasure." Wang Teng scratched his head and laughed awkwardly.

"This item is useful for ice-element martial warriors. Are you an ice element martial warrior?" The middle-aged man asked.

"Yes." Wang Teng didn't hide it. He stretched out his hand and ice Force appeared in it.

"Ice and fire. That was a divine flame, right?" The middle-aged man responded.

"Erm... you have good eyesight." Wang Teng knew that he couldn't hide it from the other party so he nodded and admitted it.

This person should be an ice-element martial warrior. An ice-element martial warrior wouldn't snatch his divine flame, right?

"Interesting. I remember that you used three divine flames when you took this bead," the middle-aged man continued.

Wang Teng was slightly shocked. He was surprised that the other party knew about the divine flames.

It looked like even though he was frozen in ice, he could still see what was happening outside.

To retrieve the ice-blue bead, Wang Teng had no choice but to reveal himself, taking a risk that had indeed proven to be true now.

"Yes!" He maintained a calm demeanor on his face, but in reality, he was prepared to run away any time.

This was too dangerous!

Wang Teng felt that his situation was dire. He was facing a formidable individual whose level of cultivation was unknown, and he had exposed his three divine flames.

He wasn't a fire-element martial warrior but might be tempted by these three divine flames.

"Three divine flames! You're quite extraordinary to be able to tame three divine flames at such a young age." The middle-aged man remarked, appearing somewhat impressed as he looked at Wang Teng.

Wang Teng couldn't shake off the feeling that something was amiss. Why was this person praising him? However, he was relieved when he noticed that the other party had no intention of snatching his flames.

He didn't let his guard down and remained ready to escape at any moment.

He replied humbly, "You're too kind."

"This bead is called the Hornless Ice Dragon Pearl. It is the star core of a universe behemoth called the Hornless Ice Dragon," the middle-aged disregarded Wang Teng's wild thoughts and started explaining as he raised the ice-blue bead in his hand.

"What?!" Wang Teng was flabbergasted. He exclaimed, "The star core of the universe behemoth, Ice Hornless Dragon!"

He was genuinely startled.

He knew the Ice Hornless Dragon. It was a rare universe behemoth and possessed formidable icy powers. It was definitely an extremely powerful universe behemoth.

The fact that the ice-blue bead in front of him was the core of the Ice Hornless Dragon was... it was beyond his imagination!

If the middle-aged man mentioned it, Wang Teng would never imagine that this bead had such a miraculous origin.

"That's not right. The Ice Hornless Dragon is a universe behemoth so it must be massive. Even if it's a star core, it should be huge, right?" Wang Teng noticed a problem and reacted quickly.

He was quite knowledgeable about this. After all, he knew how large the star core of the Devour Nihilism Beast was.

"A universe behemoth's star core is huge but that is before they die. After their death, their cores condense. However, the size of the condensed core varies from beast to beast," the middle-aged man looked at Wang Teng and patiently explained.

"I see." Wang Teng was amazed.

He learned something new!

"My race sealed the beast soul of an Ice Hornless Dragon in this Hornless Ice Dragon Pearl," the middle-aged man continued.

Wang Teng's emotions, which had just calmed down, surged violently again.

This bead contained the soul of an Ice Hornless Dragon!

At this moment, if there was any word to describe Wang Teng's feelings, it would probably be... "holy cow"!

The soul of an Ice Hornless Dragon was sealed!

How terrifying was this middle-aged man's race?

Wait a minute, when I used my Real Eye to look at the Ice Hornless Dragon Pearl earlier, I didn't detect the presence of the Ice Hornless Dragon. Wang Teng was puzzled. He activated his Real Eye again and looked at the bead. However, all he could see was dense ice energy.

But, after the reminder, Wang Teng observed carefully and found traces of seals within the dense energy.

It was obscure!

The seal was hidden deep within the dense energy. If no one pointed it out, it would be challenging to notice it.

What a clever technique! Wang Teng glanced at the middle-aged man and praised in his heart.

But, why is he telling me this?

Unless...

A random thought appeared in Wang Teng's mind.

Of course, he might have been overthinking things.

Relax! Relax!

Wang Teng hurriedly forced himself to calm down and stopped his mind from wandering. He didn't want to get carried away with false hopes.

## **Chapter 1728: The Person Who Revived! The Hornless Ice Dragon Pearl! (3)**

"This is why the Hornless Ice Dragon Pearl has 'life'!" The middle-aged man continued. "To all ice-element martial warriors, it's a priceless treasure."

"A life?" Wang Teng was confused.

By sealing the soul of the Ice Hornless Dragon inside, the pearl gained a form of 'life'?

Why does it sound so unreliable?

"I'm not lying. My race's sealing skill is special. It can allow the Ice Hornless Dragon's soul to merge with its star core completely. Besides, the two are inherently related, making them perfectly compatible. This Hornless Ice Dragon Pearl has been refined into a priceless treasure," the middle-aged man said calmly. He seemed aware of Wang Teng's doubts.

"Amazing!" Wang Teng believed him. He had no doubts now.

This method was similar to forging. A blacksmith could forge weapons with souls but that required profound craftsmanship and expertise.

Also, there was no need for the middle-aged man to lie to him. He even wasted his breath explaining everything.

He was a formidable martial warrior. Would he come all the way here just to fool him?

Clearly impossible!

"This bead possesses an extreme cold power capable of freezing everything. The ice continent you saw just now was formed by this bead," the middle-aged man explained. "It also has another function. It can merge with special ice to turn the beast soul of the Ice Hornless Dragon into a true spirit, thus enhancing its power greatly."

"Moreover, this true spirit can devour all kinds of rare ice in the world, continuously strengthening its icy energy."

"This ability is inherited from the Ice Hornless Dragon!"

"It's a pity that my race hasn't been able to obtain that kind of rare ice for many years. Such extraordinary items are scarce and require fortuitous encounters."

He shook his head emotionally at the end.

Rare ice! Wang Teng repeated in his heart. He wanted to take out his Nether Frost to let the other party take a look.

But, when he remembered that the other party was an ice-element martial warrior, he gave up the idea.

The three different divine flames didn't arouse his interest but the Nether Frost might.

Wasn't he seeking death?

Wang Teng decided to study it alone in the future.

However, to be honest, the ice power of the Nether Frost wasn't as strong as the Hornless Ice Dragon Pearl. The difference was noticeable.

After all, the Ice Hornless Dragon Pearl came from the Ice Hornless Dragon while the Nether Frost came from the Nether World Giant Python.

If the two were compared, the Nether World Giant Python was undoubtedly inferior.

"This is for you!" The middle-aged man suddenly threw the Hornless Ice Dragon Pearl to Wang Teng.

Wang Teng was stunned. He reacted quickly and the three divine flames appeared in his hand. He caught the Hornless Ice Dragon Pearl.

"Senior, you..."

He suppressed the happiness in his heart. On the surface, he appeared extremely puzzled.

"This Hornless Ice Dragon Pearl is yours!" The middle-aged man stood up.

"Mine? Why?" Wang Teng asked in surprise.

"Take it as repayment for letting me return to this world," the middle-aged man said calmly.

"Repayment?" Wang Teng was speechless. He didn't know how to reply to him.

Seriously?

Was there such a good thing?

"Senior, I didn't do anything..." Wang Teng found it unreal and wanted to decline.

This was a hot potato.

But, the other party didn't give him a chance to finish his sentence.

"When it wasn't given to you, you took it. Now that it's being offered to you, you hesitate to take it." The middle-aged man gave him an ambiguous smile.

"If this treasure is ownerless, I wouldn't refuse it. But if it has an owner, I wouldn't dare take it," Wang Teng replied with an innocent smile.

"It's ownerless now. I've erased the mark left by my race. You just need to leave your mark and you can become the new owner of this Hornless Ice Dragon Pearl." The middle-aged man said and stopped speaking further. He calmly walked into the chaos. His pace wasn't fast, but he left in an instant.

"Elder, may I know your name?" Wang Teng hurriedly stood up and shouted. He realized that he didn't even have to chance to express his gratitude.

"Names hold no meaning for me anymore. Let's part ways here. If fate allows, perhaps we may meet again," the middle-aged man's faint voice echoed.

A dimensional rift appeared in front of him. He stepped into it and disappeared.

Wang Teng watched the man's fading figure and then looked at the Hornless Ice Dragon Pearl in his hand. He was in a daze.

What just happened?

The elder gave him this treasure just like this and didn't even leave a name.

Why didn't he want to leave his name after doing a good deed?

Wang Teng felt that this elder was a little strange. He seemed to be immersed in the past. There was constant nostalgia in his eyes.

Wang Teng didn't dare to ask about this.

This was his private matter and he probably had no intention of sharing it.

In Wang Teng's speculation, it must have been a rather embarrassing or even melodramatic story, one that he would prefer to bury deep in history.

As a powerful being, how could he reveal such things? It would be better to keep it thoroughly hidden in the past.

Wang Teng didn't want to be the cat that got killed by curiosity.

What if the man took offense to his curiosity and kill him after telling his story?

Wang Teng shook his head and looked at the Hornless Ice Dragon Pearl in his hand. There was joy in his eyes.

What a rough journey!

This treasure almost left him.

Yet, after all the twists and turns, the pearl came back to him, and the elder gave him voluntarily. He didn't have to worry anymore.

## **Chapter 1729: The Person Who Revived! The Hornless Ice Dragon Pearl! (3)**

Before, he was worried that if the elder wasn't dead and got revived, he might come looking for him in the future since he stole the elder's precious bead.

Now, he didn't have to worry.

The hidden danger was eliminated!

Even if there was a hidden danger, it was just a matter of personal favors.

A favor for the bead.

Wang Teng felt his head hurting when he thought about this. Although the danger had been eliminated, it wasn't easy to return the favor of a formidable warrior.

Fortunately, this was just his assumption. The other party might not necessarily ask for any favors in return.

In any case, the current situation is much better than before.

Wang Teng immediately kept the Hornless Ice Dragon Pearl in his Devour Space.

Since the elder said that the Hornless Ice Dragon Pearl could merge with special ice to give birth to a true spirit.

When he had the chance, Wang Teng decided to merge the Hornless Ice Dragon Pearl with Nether Frost.

He wondered what changes would happen.

Suddenly, he felt a little excited.

If the ice power of the Hornless Ice Dragon Pearl was completely unleashed, it could even freeze eternal-stage martial warriors. It was terrifying.

Wang Teng is deeply aware of this. Even his body and soul almost couldn't resist the chilling power of this pearl.

If the merging was successful, it would become even more scary.

Of course, this was just a thought. He didn't plan to merge them immediately.

He was still in the Chaotic Uncharted. The most important thing was to make the best use of time and focus on cultivation.

It was much easier to comprehend various laws, and the speed of cultivation was also faster in the Chaotic Uncharted.

Moreover, it could help Wang Teng to comprehend his own laws. He was getting closer and closer to that critical step, and it must be completed within the Chaotic Uncharted. If he were to leave the Chaotic Uncharted, he feared that he might never get another chance.

This was a rare opportunity!

There were only 11 days left. Wang Teng mustn't waste any time.

Wang Teng decided not to move. Instead, he stayed where he was and prepared for cultivation. If that elder wanted to find him, he reckoned there was no way he could escape. Hence, he might as well stay here.

He summoned Elizabeth.

"Master!" Elizabeth's massive body appeared and she looked at Wang Teng curiously. She thought that they were going to start hunting Chaotic Beasts again.

"Elizabeth, protect me," Wang Teng ordered.

"Okay." Elizabeth understood the situation and nodded immediately.

She wanted to ask Wang Teng about the ice-blue bead but he seemed to be in a hurry to cultivate. Thus, she refrained from asking further questions.

Wang Teng kept quiet and closed his eyes.

Divine power, World Devourer!

Activate!

Above his head, a black vortex appeared. It was spinning slowly.

Golden light spheres emerged beside him and got devoured by the black vortex.

Boom!

In an instant, Wang Teng's consciousness and the sea of nihility started trembling. It was even more intense than the previous time.

This time, the golden light spheres that Wang Teng devoured came from the heaven stage Chaotic Beasts. Naturally, the effects were better than the previous time.

The Nine Treasures Pagoda appeared on his forehead, radiating brilliance.

This time, Wang Teng didn't enlighten himself in the Devour Space. Instead, he chose to do so in the Chaotic Uncharted. This way, he would be closer to the chaos and the laws of origin. This would yield better results.

This was the enlightenment he needed!

Roar!

The Chaotic Beasts noticed the commotion here and roared. They emerged from the chaotic currents and charged over.

The golden light spheres also attracted the attention of the Chaotic Beasts. Their desire for the golden light spheres was no weaker than that of human martial warriors or star beasts.

The Chaotic Beasts could devour the golden light spheres to strengthen their laws of origin. This was their way of increasing their strength.

Elizabeth frowned when she saw this scene. Without hesitation, she rushed out and intercepted all the approaching Chaotic Beasts.

Boom!

Terrifying attacks erupted. These were just heaven-stage Chaotic Beasts so they couldn't resist Elizabeth's attacks and were unable to get close to this area.

However, the commotion here attracted more and more Chaotic Beasts.

Elizabeth turned serious. She was just one person and couldn't handle all the Chaotic Beasts on her own.

Screech!

At this moment, a shrill screech was heard.

A massive dark-red ghost crow appeared. It was Little White!

It split into dozens of blood crows and rushed out, colliding with the surrounding Chaotic Beasts.

## **Chapter 1730: Success! Cosmos Stage! (1)**

Countless Chaotic Beasts appeared around it. They roared and charged towards it.

It was a very messy scene.

The gigantic crow split into dozens of clones and charged towards the surrounding Chaotic Beasts like a dozen bolts of red light. Their cries echoed through the chaos, sounding like clashes of gold and iron.

Boom!

At the same time, a dazzling bolt of lightning appeared and shuttled back and forth among the Chaotic Beasts. It was conspicuous.

"Little White, Lightning Spirit!" Elizabeth heaved a sigh of relief.

"Master asked us to help you," Little White said.

Elizabeth was stunned. She glanced at Wang Teng involuntarily.

Her master probably anticipated this situation from the beginning and made the necessary preparations. She was worried for nothing.

She shook her head and stopped dwelling on these thoughts. A sharp glint flashed passed her eyes as she looked at the Chaotic Beasts charging towards her.

With Little White and the Lightning Spirit's help, the pressure on her was greatly reduced.

Little White and the Lightning Spirit weren't powerful so they found it a little strenuous to deal with the heaven stage Chaotic Beasts.

But, with their combined efforts, they managed to hold back the surrounding Chaotic Beasts and prevented them from disturbing Wang Teng's enlightenment.

After Little White reached the mid-tier imperial level, its full power was appalling. It was able to kill some weaker heaven-stage Chaotic Beasts.

As for the Lightning Spirit, it displayed some peculiar effectiveness when facing Chaotic Beasts that mastered the Origin of Lightning. It could even kill them effortlessly.

However, in front of Chaotic Beasts of other elements, it was a little... weak!

The discrepancy in its ability was significant.

Nevertheless, it was clever. If it couldn't defeat them, it could evade them.

It darted left and right, creating disturbances among other Chaotic Beasts and creating opportunities for Elizabeth and Little White to hunt.

What a smart little brat.

...

Wang Teng left a trace of spiritual power outside so he sensed Elizabeth's plight. After Little White and the Lightning Spirit joined in, the situation got better. Wang Teng then fully immersed himself in his enlightenment. Various insights flashed in his mind, and the previous accumulated realizations resurfaced, deepening and connecting, gradually forming a more systematic understanding.

Wang Teng was like a mechanic. He was assembling various small and delicate parts, gradually revealing the true form of the colossal creation he sought to build.

Everything was progressing in the direction he expected.

The golden light spheres from the heaven-stage Chaotic Beasts were indeed extraordinary. It allowed Wang Teng's comprehension to become even more profound.

These insights made his understanding of the law he wanted to create clearer. The throbbing in his mind grew more intense.

Time passed. All the golden light spheres he collected were devoured by him. Not a single one was left.

Even the golden light spheres dropped by the Chaotic Beasts killed by Elizabeth, Little White, and the Lightning Spirit got absorbed by him.

This scene astounded Elizabeth.

This... was frightening!

There were too many of them!

The number of golden light spheres Wang Teng absorbed had far exceeded what Round Ball, Little White, and her absorbed.

The three of them were unique cases. Thus, the number of golden light spheres they absorbed was more than any ordinary martial warriors or star beasts.

Yet, Wang Teng's situation was even more extraordinary. It was beyond imagination!

As she watched Wang Teng continuously devouring the golden light spheres around them, the eyebrows on her delicate little face twitched.

She had an extraordinary master.

As his subordinate, she suddenly felt immense pressure.

It looked like she needed to work harder in her cultivation from now on. If not, she might easily be left far behind by her master.

A useless servant would have no place to survive.

Elizabeth started self-reflecting. As she followed Wang Teng for a longer time, Elizabeth found herself becoming less and less proud of her universe stage status.

Her pride was shattered in the face of Wang Teng's extraordinary talent.

What's more, she had already acknowledged Wang Teng as her master. Now that she was in the same boat as him, her mentality changed.

"Master is so amazing!" Little White was different. It had been following Wang Teng since it was young and its feelings towards him were solely loyalty and admiration.

Hence, it didn't think too much when it saw Wang Teng absorbing the golden spheres. It was simply happy.

Wang Teng didn't know how magnificent the scene of him absorbing the golden light spheres was. He only knew that the golden light spheres weren't enough.

More!

More!

Absorb!

Wang Teng was now in a state of epiphany. Various enlightenments emerged one after another, and countless inspirations were flashing wildly.

He only had one thought. He wanted to absorb more golden light spheres to complete his enlightenment.

Boom!

A terrifying storm seemed to have formed in his mind. Enlightenment, inspiration, and his accumulated knowledge all spun and fused in a unique manner.

After some time, Wang Teng suddenly opened his eyes. There was a glaring golden glow in them.

Numerous occult runes flashed in the golden glow. They then disappeared in an instant as if they had never existed.

Elizabeth noticed his gaze and was shocked.

What was her master doing?

Why did a mere glance contain such profound meaning that even she, a universe-stage martial warrior, couldn't comprehend?

This was incredible.

What a pity! Wang Teng sighed in his heart. He was filled with regret.

Just a little more!

He was so close. Why couldn't he succeed?

His physical strength and soul had already reached the limit so he couldn't absorb any more golden light spheres. However, there was still something lacking. This was why he couldn't create his own law yet.

## **Chapter 1731: Success! Cosmos Stage! (2)**

He felt immense regret!

But, he had to accept this fact.

Creating a law that truly suited him was incredibly difficult. It might not be suitable for him to do it now.

Also, the law he wanted to create was harder than anything other martial artists attempted.

This was predictable!

His law needed to encompass all Forces. This was crazy.

Normal people wouldn't even dare to think about it.

Only Wang Teng would forge ahead on this path without any hesitation. He never once considered turning back.

Actually, with his talent, he would be able to create his own law in the future.

However, Wang Teng wasn't willing to give up.

He devoted a lot of effort to comprehending it. How could he give up so easily?

Besides, he needed this law right now!

Wang Teng quickly made his decision. He planned to continue his enlightenment and was determined to create it no matter what.

He turned to look at the attributes board. A few attributes underwent a huge change again.

Origin Of Life: 50000

Origin Of Soul: 50000

Spirit: 10000/100000 (celestial realm)

Enlightenment: 102500/300000 (universe level)

His Origin Of Life and Origin Of Soul rose by a few thousand points but they stopped after reaching 50,000 points. They seemed to have reached their limit.

The limit of the celestial stage!

Wang Teng blinked. He wasn't expecting this.

After devouring so many golden light spheres, he finally reached his limit.

Then, he looked at his Spirit attributes. There was a huge change too. The limit rose from 60,000 to 100,000.

This was scary. The original upper limit of the celestial realm Spirit was only 50,000. Previously, it increased to 60,000 and now, it had went up to 100,000. This was double the original limit.

Wang Teng felt that his consciousness had expanded significantly.

There used to be a hazy mist around the boundaries of his consciousness. It was like the border.

Now, the border had spread outwards, and the width of his consciousness had almost doubled.

Even the toughness of his consciousness was enhanced.

The consciousness was the most vulnerable part of martial warriors. If it was attacked, they would die.

To a martial warrior specialized in spiritual attacks, attacking one's consciousness was the best approach.

Thus, a strong consciousness was crucial as it greatly enhanced martial warriors' safety.

However, normally, only an increase in the realm would lead to an increase in the width and sturdiness of one's consciousness.

Wang Teng's realm hadn't advanced but the width and sturdiness of his consciousness had increased. This brought unimaginable benefits.

This meant that if he were to have a breakthrough, his consciousness would continue to improve at its current rate. It might even double.

In other words, after a breakthrough, his consciousness would be four times the level it was before swallowing the golden light spheres.

And then, there would be more improvements and it might double again...

Wang Teng felt that he had hit the jackpot this time.

Such improvements were beyond the imagination of ordinary people.

Lastly, there was an increase in his Enlightenment attribute. It had reached the universe realm recently but now, it increased by another tens of thousands of points.

The upper limit of the universe realm Enlightenment was 300,000 points. If he worked hard to pick up Enlightenment attributes normally, he didn't know how long he would need to accumulate them before he could advance to the next level.

But, with the help of the golden light spheres, his enlightenment surpassed the 100,000 mark. It was already one-third of the upper limit.

In just a short period of ten days or so, Wang Teng accumulated many attribute points that might not be attainable in half a year in the outside world. It was truly a stroke of good luck.

Next, there were around 200,000 points left...

Yes, 200,000 points!

F\*\*k!

He didn't want to raise this attribute anymore.

This was supposed to be a happy thing, but for some reason, he felt a little overwhelmed.

"Master!" Elizabeth and Little White greeted Wang Teng simultaneously when they saw him opening his eyes.

"Squeak!" The Lightning Spirit flew back and landed on Wang Teng's head.

This little fellow seems to have taken a liking to Wang Teng's head since the first time it landed on it. Every time it came out, it would perch there.

Wang Teng snapped out of his overwhelmed state and pulled it off his head angrily. He placed it in front of him and glared at it.

Is my head a place for you to sit on?

You're getting bolder by the day.

Lightning Spirit: (\*ㄟωㄟ)

"Get rid of these Chaotic Beasts and let's leave this place." Wang Teng ignored the Lightning Spirit's attempt to act cute and turned to nod at Elizabeth and Little White.

"Yes!" Elizabeth and Little White nodded immediately.

"You too." Wang Teng threw the Lightning Spirit out.

"Squeak squeak!" The Lightning Spirit cried in grievance but it didn't refuse. It realized that these big fellows weren't as terrifying as it thought. They couldn't do anything to it.

As a Lightning Spirit, it wasn't afraid of anything!

Come on!

Wang Teng, Elizabeth, Little White, and the Lightning Spirit teamed up and finally killed all the Chaotic Beasts. They also gained many golden light spheres.

These golden light spheres were useless to Wang Teng but he could keep them for Little White and the others to use in the future.

"Let's go."

Wang Teng stood on Little White's back and transformed into a stream of dark red light, speeding towards a certain direction.

For the next few days, Wang Teng didn't give up. He continued cultivating in the chaos. Whenever he encountered Chaotic Beasts, he hunted them down. When he stumbled upon dimensional rifts, he paused to gain enlightenment.

Another three days passed. There were only eight days left. The time to leave the Chaotic Uncharted was getting closer and closer.

"Master, if we go further, we will enter the area where universe-stage Chaotic Beasts are active," Elizabeth stopped and said.

## **Chapter 1732: Success! Cosmos Stage! (3)**

"Universe stage Chaotic Beasts!" Wang Teng's expression was calm. However, if one observed his eyes, one would notice occasional flickers of profound and esoteric primordial law patterns.

He was constantly comprehending and improving his techniques.

Roar!

Terrifying Chaotic Beasts lurked within in the chaotic air currents in front of them. Just revealing a glimpse of their huge bodies was enough to send shivers down one's spine.

Elizabeth's expression changed slightly. She seemed a little fearful.

A hint of seriousness flashed past Wang Teng's eyes. He pondered for a moment and said firmly, "Go back to the Devour Space. I'll go and take a look myself."

"Master, it's too dangerous..." Elizabeth's expression changed again. She tried to persuade him.

"It's alright. I know what I'm doing. With my skills, it'll be easier for me to hide alone. Even universe-stage Chaotic Beasts might not be able to notice me," Wang Teng said.

Elizabeth understood the situation.

When she recalled Wang Teng's techniques, it seemed to be the case.

Even she couldn't see through those concealment techniques. It wouldn't be a problem for him to hide from the Chaotic Beasts.

As long as he didn't fight head-on, he wouldn't be in danger.

Hence, she agreed to the suggestion and kept quiet.

Wang Teng kept Elizabeth, Little White, and the Lightning Spirit in his Devour Space. He took a deep breath and rushed towards the chaos zone where the universe stage Chaotic Beasts were.

Whether it will succeed or not depended on this move.

His enlightenment had reached the most critical moment, but he was just a little bit short.

It was just that little bit!

Despite being seemingly very close, almost within reach, there appeared to be a vast chasm in the middle, making it difficult to cross.

This feeling made Wang Teng extremely depressed!

He even wondered if he had gained too many benefits recently and consumed too much luck, causing him to be so unlucky now.

No matter how hard he tried, he couldn't comprehend the final crucial part.

Could it be that his enlightenment wasn't enough?

He already had universe realm Enlightenment. If this wasn't enough, how high were the requirements?

Wang Teng swiftly moved through the chaos, searching for the insights that could complete the last few missing pieces of the puzzle.

He tried to stay calm, to keep his head sane enough.

Time passed day by day...

Eight days!

Seven days!

Six days!

Five days!

...

Wang Teng was getting closer and closer to leaving the Chaotic Uncharted. He didn't have much time left.

He didn't know when he would be able to come in again.

Entering the Chaotic Uncharted wasn't going to be that easy.

He couldn't help but feel a little anxious even with his temperament.

Wang Teng glanced at his attributes board. The power of laws of origin had increased tremendously.

In the area where the universe stage Chaotic Beasts roamed, the evolution of various law forces intensified, providing tremendous assistance to the universe stage Chaotic Beasts.

It was still a lot of gains, even if it was for Wang Teng.

This was very beneficial for his enlightenment.

But it wasn't enough!

Boom!

Just then, a violent rumble suddenly emanated from the distant chaotic currents, interrupting Wang Teng's train of thought.

Wang Teng frowned and looked over.

The chaotic currents suddenly started to churn violently without any warning, as if some terrifying existence was madly stirring within them.

"Someone's fighting!" Wang Teng's heart skipped a beat. He then moved in that direction.

The beasts here were all universe-stage Chaotic Beasts. Moreover, looking at the sword glows that were constantly shooting out from the chaotic currents, the ones fighting should be universe-stage martial warriors.

This was the first time Wang Teng encountered a battle between Chaotic Beasts and martial warriors since he entered the Chaotic Uncharted.

He wanted to find out more.

He might be able to gain some inspiration.

At the same time, he could also see how strong the universe stage martial warriors in this academy were.

Wang Teng activated his Real Eye. Even though he was far away, he could still see the situation clearly.

There were Chaotic Beasts on one side, and martial warriors on the other!

There were three martial warriors!

Chaotic Beasts kept gathering around. There might not be as many as the celestial stage, cosmos stage, or even heaven stage beasts that Wang Teng had encountered previously. However, they were all powerful universe stage Chaotic Beasts. They couldn't be underestimated.

The three of them were surrounded by the Chaotic Beasts.

Wang Teng moved closer and looked at the intense battle in front of him. He was speechless.

During this period, he encountered many powerful universe-stage Chaotic Beasts. However, to save time and not invite trouble, he did not provoke these universe-stage Chaotic Beasts. Every time he encountered them, he would silently avoid them.

Even if he summoned Elizabeth, it would take a lot of time and energy to hunt universe-stage Chaotic Beasts.

Wang Teng didn't have the luxury of time.

Seeing such a situation, he felt that he was very wise.

The three universe stage martial warriors were being pushed into a corner now that they were surrounded by the Chaotic Beasts, let alone a celestial stage martial warrior like him.

One needs to know their limits.

As a celestial stage weakling, Wang Teng felt that he shouldn't provoke the universe-stage Chaotic Beasts. At most, he would just take advantage of the situation...

Like now!

The martial warriors from the academy were obviously at a disadvantage. However, they still tried their best to kill a few universe-stage Chaotic Beasts.

Wang Teng saw attribute bubbles dropping.

Awesome!

Since these attribute bubbles were invisible to those people, he reluctantly decided to pick them up.

He was making the best use of waste. No one would lose out!

With this thought in mind, Wang Teng secretly released his spiritual power and used the origin of chaos energy as a cover so the martial warriors wouldn't be able to discover him.

## **Chapter 1733: Success! Cosmos Stage! (4)**

Wang Teng was very wary of eternal stage martial warriors and above. However, he didn't have any reservations against universe-stage martial warriors.

With his current abilities, he should be able to fool some universe-stage martial warriors.

Of course, he still had to be cautious to avoid any unexpected mishaps and prevent potential pitfalls.

Wang Teng moved quickly. In the blink of an eye, he picked up the attribute bubbles.

Origin of Lightning\*300

Origin Energy of Chaos\*2600

Blank Attribute\*56000

Origin Of Earth\*400

Origin Energy of Chaos\*3200

Blank Attribute\*61000

Origin of Light\*280

Origin Energy of Chaos\*3000

Blank Attribute\*52000

Origin of Metal\*300

Constellation Force (Metal)\*12000

Origin of Wood\*250

Constellation Force (Wood)\*11000

Origin Of Flame\*420

Constellation Force (Fire)\*15000

...

Oh my goodness, as expected of a universe stage Chaotic Beasts. There are so many attributes! Wang Teng was overjoyed.

Among the three types of power of laws of origin, the Origin of Lightning and Origin of Light were extremely special. He struck a fortune.

Moreover, he picked it up for free. He hadn't even done anything.

Has his luck returned?

Such a thought popped up in Wang Teng's mind.

He had obtained the Origin of Lightning before, but this was the first time he had encountered the Origin of Light in the Chaotic Uncharted.

It was clear that the Origin of Light was even harder to encounter than the Origin of Lightning.

Not to mention the Origin Energy of Chaos and Blank Attributes. Their attribute values far exceeded those of the heaven-stage Chaotic Beasts he killed previously.

The rest of the attributes were from the three universe stage martial warriors. The three types of power of laws of origin allowed Wang Teng's ability to improve greatly.

Their comprehension of the laws of origin was stronger than Wang Teng's. Hence, they could help him to enhance his second-rank laws of origin.

The three martial warriors were preparing to leave as Wang Teng was immersed in his attributes board.

They didn't get caught up in fighting the Chaotic Beasts. After killing a few of them, they worked together to break out of the encirclement and disappeared into the distance.

From the looks of it, they had great chemistry. Their seamless execution from hunting to escaping showed a high level of proficiency. It was evident that they had done this many times before, not just once or twice.

Wang Teng had a preliminary understanding of the abilities of these students. Their mastery of the power of laws of origin was rather high. They could use it freely and could add it to their battle techniques at will.

Wang Teng's eyes flickered. He didn't chase after the three universe-stage martial warriors.

He hadn't forgotten about his objective.

He might be able to pick up more attribute bubbles if he followed them but it wasn't his priority right now.

Furthermore, the attribute bubbles he had just obtained contained the Origin of Light and Origin of Lightning. This meant that there might be corresponding law materialization zones in this area.

This was the little bit of experience that he had accumulated in the Chaotic Uncharted over the past 20 days.

Some of the Chaotic Beasts chased after the three martial warriors while others scattered and disappeared into the chaotic currents. Wang Teng heaved a sigh of relief and ignored them. He then moved slowly in the chaotic currents, searching for the place where the laws of origin might appear.

This area of the chaotic currents was surprisingly large. The range was extremely wide. As Wang Teng went deeper, he realized that the chaotic currents around him were getting denser. They had almost turned into mist.

Wang Teng activated his Real Eye and observed his surroundings as he ventured deeper.

No one knew how much time he spent flying.

Suddenly, he felt as if he had passed through an invisible barrier. The scene in front of him instantly stunned him.

Wow!

Wang Teng's eyes were filled with shock.

A vast expanse of void appeared before his eyes, adorned with countless stars shining brightly. Small celestial bodies such as planets, stars, comets, black holes, and nebulae were sprinkled throughout, seemingly encompassing every type of cosmic entity that exists in the universe.

This place was like a small universe!

Endless and mysterious laws evolved within it. Light, darkness, metal, wood, water, fire, earth, lightning, wind... All the basic laws of origin intertwined into a series of chains, intricately woven together like an invisible giant net, enveloping the entire void.

Oh my god!

As Wang Teng's comprehension of the laws in this place became clearer, he felt even more shocked and flabbergasted.

There was such a magical place here!

This was beyond comprehension!

This was unbelievable!

Wang Teng couldn't describe his feelings. This place was the best place for him to gain enlightenment.

If the three universe-stage martial warriors knew that they had missed such a magical place, they would probably cry on the spot.

Wang Teng couldn't help but think of the three universe stage martial warriors. Compared to this place, the golden light spheres dropped by the universe-stage Chaotic Beasts were nothing.

These thoughts flashed past his mind in an instant. Wang Teng immediately withdrew his thoughts and stared at the space in front of him.

At this moment, he focused all his attention on this void, and inspiration surged into his mind.

He walked into the void step by step and observed all the changes. The glow in his eyes became more and more intense.

Time passed, but he was completely unaware. All he could see was this wondrous void.

One day, two days...

In the blink of an eye, it was the third day, which was Wang Teng's last day in the Chaotic Uncharted. The deadline was approaching.

However, he still did not notice the time. He walked into the void and sat cross-legged on a small planet.

The planet was less than half a kilometer in diameter. It was not big but it behaved like a small asteroid, following a specific orbit and rotating gracefully in the void. It was mystical.

## **Chapter 1734: Success! Cosmos Stage! (5)**

Wang Teng closed his eyes. A golden radiance blossomed from his forehead and the Nine Treasures Pagoda appeared. He released his spiritual power and it spread throughout the entire void.

His spiritual power was huge but this area wasn't small either. Hence, his spiritual power could only transform into slender threads, resembling tentacles that reached every corner. These threads intertwined with each other, forming a web of comprehension unique to Wang Teng.

A giant jigsaw appeared in his mind.

There were still a few crucial nodes left for the puzzle to be fully completed. Those missing nodes were the most critical areas.

At this moment, an inspiration descended upon Will-O-Wisp's find and filled up the final missing areas in the puzzle. It was now completed.

The complete picture of the puzzle finally appeared.

It was a vast and boundless starry sky dotted with countless celestial bodies radiating brilliant light. These stars contained the operating rules of all attributes in the world, where the laws were the trajectories that became the foundation of their movements. Every aspect of the universe's myriad changes was encompassed within it...

At the same time, a mysterious aura rose within Wang Teng's body.

Boom!

The external void trembled as if resonating with the aura emanating from his body.

Boom!

Another explosion was heard.

However, this time, the explosion came from within Wang Teng's body.

The sea of nihility trembled. All the constellations Wang Teng had started vibrating too. They gave off a dazzling Force glow.

His consciousness shook and the Nine Treasures Pagoda resurfaced. Endless spiritual power swept out...

Wang Teng's breakthrough opportunity had arrived!

He was completely immersed in an incredibly profound state.

Boom!

A tremendous explosion echoed as an immense amount of pure chaotic energy converged from all around him, forming a terrifying whirlpool.

Wang Teng's breakthrough was a breakthrough for all his Forces. Hence, a vast amount of attributes were needed for it.

Coincidentally, the Origin Energy of Chaos was the fundamental energy form capable of transforming into any other Forces.

He absorbed an endless amount of the Origin Energy of Chaos, causing the chaotic currents beyond this void to surge and rush towards Wang Teng.

Not enough!

Even so, it was far from enough!

Wang Teng had an idea. He released all the Origin Energy of Chaos he had accumulated. Then, he activated his World Devourer skill and devoured everything in his path.

The terrifying whirlpool above his head spun slowly with a frightening momentum.

This commotion attracted the attention of many Chaotic Beasts.

Roar!

Roar!

...

Roaring and howling filled the air as the Chaotic Beasts sensed the incredibly rich Origin Energy of Chaos around Wang Teng. They charged towards him.

Damn it! Wang Teng cursed in his heart.

This breakthrough came too suddenly.

And the commotion was far beyond his expectations, which caused this situation.

There was no time to think. Wang Teng quickly summoned Elizabeth, Little White, and the Lightning Spirit.

"Master!" They immediately noticed something amiss. They looked at the universe-stage Chaotic Beasts charging towards them and swallowed their saliva.

This was terrifying!

"Stop those Chaotic Beasts," Wang Teng gave an order.

(,,#◡◡)

Elizabeth, Little White, and the Lightning Spirit's expressions changed instantly. They felt quite distressed but Wang Teng needed them. They could only grit their teeth and face the situation head-on.

Boom!

Elizabeth turned serious. She didn't hold back. Intense Force fluctuations erupted from her dragon horn, and a powerful beam of light shot out.

A Chaotic Beast exploded instantly!

Many Chaotic Beasts got a fright and stopped in their tracks. However, they quickly regained their senses and became even more frenzied in their pursuit.

Elizabeth frowned. These Chaotic Beasts were utterly mad. They charged at them without any fear of death.

She turned and glanced at Wang Teng. The energy reaction was too strong. No wonder it attracted so many Chaotic Beasts.

But, was her master about to achieve a breakthrough?

He caused such a huge commotion!

Elizabeth gritted her teeth. Her gaze turned ruthless. No matter what, she mustn't let these Chaotic Beasts disturb her master's breakthrough.

"Die!"

In an instant, Elizabeth turned into a female tyrannosaurus, unleashing a series of attacks to intercept the approaching Chaotic Beasts from all directions.

Screech!

Little White wasn't fooling around either. Its clones appeared and dashed towards the Chaotic Beasts surrounding them.

It wasn't strong enough to kill the universe-stage Chaotic Beasts so he could only help Elizabeth.

Similarly, the Lightning Spirit also contributed by harassing the Chaotic Beasts, buying time for Elizabeth.

This little creature was normally timid, but it didn't fumble the ball now.

Meanwhile, as the endless Origin Energy of Chaos poured into Wang Teng's body, each of the Force constellations within him swelled up dramatically and vibrated furiously...

In just a moment, each constellation had expanded several times in size and reached a certain limit.

Boom! Boom! Boom!

All the Force constellations exploded at the same time. Thunderous roars resounded in the sky above Wang Teng's sea of nihility, setting off huge waves.

The entire sea of nihility turned upside down!

It was like the cosmic big bang!

Endless energy surged and exploded. After the constellations erupted, they formed fragments of stars, while the immense energy transformed into nebulae.

At that moment, the sea of nihility connected to his consciousness. Surging spiritual power gathered and merged with the energy in the sea of nihility.

In an instant, the sea of nihility and his consciousness unbelievably merged in a way that defied imagination!

No!

Or rather, they were originally in the same place but were split into two parts.

One above and one below.

One was to store Force while the other was to store spiritual power!

But, in reality, they were in the same place.

At this moment, the two became one, transforming into a unique and peculiar starry sky.

In this starry sky, countless tiny stars emerged, even generating vast expanses of nebulae, star clusters, and other peculiar celestial bodies... just like a real universe!

At the center of this starry sky, there was a black hole. All the celestial bodies were revolving around it, creating the appearance of a gigantic whirlpool.

The black hole slowly devoured the surrounding stars and dust, producing strands of extremely pure Origin Energy of Chaos!

All of Wang Teng's Force had turned into the Origin Energy of Chaos!

And this Origin Energy of Chaos was changing continuously, sometimes turning into lightning, sometimes transforming into raging winds, and other times shifting into light and darkness...

Suddenly, around the black hole, faint starlights emerged, transforming into wisps of spiritual power. Like a thin mist, they enveloped the edge of the black hole, emitting a peculiar halo.

All of this appeared mesmerizingly beautiful and was filled with a sense of profound mystery!

Cosmos stage!

Wang Teng finally entered the cosmos stage!

## **Chapter 1735: Strike Me, Strike Me, Strike Me! (1)**

In the chaos!

Three universe-stage martial warriors were speeding in the chaos. They felt the turbulence ahead and were surprised.

"What's going on?"

"Did someone get surrounded by the Chaotic Beasts?"

"Come, let's take a look!"

The three of them discussed using voice transmission for some time and unanimously decided to go and take a look. If it was a martial warrior from the academy, they might be able to help him.

This was an unspoken rule in the Chaotic Uncharted.

In a situation where there was no conflict, they would naturally help if they could.

That way, when they were in danger in the future, other people would help them too.

Helping others was equivalent to helping themselves!

Being fellow students of the Seventh Stellar Academy, there was already a sense of camaraderie. Unless they were enemies, they could be considered friends.

What's more, everyone possessed strong talents. Having more friends would mean more benefits in the future.

Of course, the prerequisite was that no one would put themselves in danger to save others.

If it was an enemy, then it was all the more reason to take a look.

Wouldn't it be even better to kick someone while they are down?

Although they were all students of the academy, when it comes to enemies, there was no need to be scrupulous.

Besides, they might be able to gain some advantages by doing so.

...

Outside the peculiar void.

Powerful universe-stage Chaotic Beasts swarmed over from all directions. Elizabeth, Little White, and Lightning Spirit tried their best to resist.

They were already surrounded by the Chaotic Beasts. However, to prevent them from disturbing Wang Teng's breakthrough, they could only desperately obstruct the beasts, even if it meant getting injured themselves.

Elizabeth had already sustained numerous wounds, with blood flowing from her injuries. She looked quite miserable.

Her face was extremely pale, revealing signs of weakness. However, she continued to hold on.

Little White was injured too. Many Blood Crow Clones were destroyed, and even the original body was covered in scattered feathers and blood. The dark red steel-like wings now looked tattered.

The glow around the Lightning Spirit was much weaker now. Continuous outbursts depleted its energy significantly. It lost its previous playful and lively demeanor, appearing worn out.

"Master, are you done?" Elizabeth turned and glanced at Wang Teng anxiously.

He was still sitting cross-legged on the small celestial body with his eyes closed. He hadn't completed his breakthrough.

She could only feel Wang Teng's aura rising continuously. It was getting stronger and stronger. The process was still ongoing.

The three martial warriors quickly reached this area. They were astounded when they saw the scene in front of them.

"This is..."

Despite the presence of numerous Chaotic Beasts in the area, their attention was immediately drawn to that peculiar void.

The three of them were astounded.

"What a magical place!"

"We came too late. I didn't expect to find such a place here. It's perfect for us to comprehend our laws of origin."

"Look, there's someone there!"

"It's a student from the Seventh Stellar Academy. He looks very young and unfamiliar. I've never seen him before."

"Based on his aura, he's breaking through. He looks like a heaven-stage martial warrior."

"His aura is terrifying. This person's talent must be extraordinary."

Even though Wang Teng had not yet fully completed his breakthrough, the energy fluctuations exuding out of his body were extremely astonishing.

Thus, the three of them felt that Wang Teng's aura exceeded that of a normal cosmos-stage martial warrior so he must be at the heaven stage!

"That dark red crow is very powerful. It's at the mid-tier imperial level but it's able to fight with universe-stage Chaotic Beasts. Its strength is no weaker than some of the cubs of some Universe Behemoths!"

"And that... hmm, what's that thing? It looks a bit like a queen ant but with dragon horns on its head. And what's with that half-humanoid figure? Has it undergone some kind of mutation?"

The three martial warrior's attention was drawn to Little White and Elizabeth. The astonishment in their eyes didn't diminish but grew even stronger instead.

Little White's appearance was still relatively normal, but Elizabeth's appearance was indeed somewhat peculiar. Even these experienced universe-stage martial warriors were perplexed.

They felt that they saw something strange!

They were even more astounded when they noticed that the fluctuations coming from Elizabeth were at the universe stage.

This was a universe stage presence!

And it appeared to be protecting the human martial warrior, fending off the surrounding Chaotic Beasts on his behalf.

Was this the other party's... pet?

Similarly, Little White's also left the three individuals secretly astonished. Countless avian star beasts flashed through their minds as they speculated Little White's origin but none of them seemed to resemble this blood crow.

This dark red crow was a little... unique!

It wasn't that their knowledge was lacking. It was clear that this crow was uncommon.

Also, among all the universe behemoths they knew, there was no crow like this.

For a moment, all three of them were puzzled.

"Huh? Is there another bolt of lightning there?" Suddenly, one of the martial warriors saw the Lightning Spirit flickering among the Chaotic Beasts. He was confused as it was difficult to see clearly.

"Gasp, that's not lightning. It's a Lightning Spirit!"

However, as universe stage martial warriors, after observing for some time, they recognized the lightning and were shocked.

These three beings amazed them three times!

"Does this Lightning Spirit belong to that student too?" One of them asked the other two through voice transmission after some hesitation.

"Very likely!" The other person nodded.

## Chapter 1736: Strike Me, Strike Me, Strike Me! (2)

"Where did this person come from? How can he have three such strange subordinates at once?"

The three of them got curious about Wang Teng's identity. They guessed that Wang Teng might have some extraordinary background outside the Seventh Stellar Academy. He wasn't an ordinary person.

A suspected universe behemoth cub!

A universe stage presence!

A Lightning Spirit!

Either one of them was exceptional.

Even universe-stage martial warriors like them would be lucky if they could get one of the three, much less all three at once.

"Shall we help them? The three of them can't hold on much longer," one of them asked using voice transmission.

"Yes!"

"Of course. This person's identity isn't simple and his potential is extraordinary. If we intervene now, it would be a timely assistance."

The other two immediately decided to help without any hesitation.

"Let's go."

The three of them stopped hiding and charged out from the chaotic currents. They executed their attacks and hurled them at the Chaotic Beasts around them.

Elizabeth was stunned. She was surprised when she saw the people who came. Huh? Are they here to... help us?

"Don't worry, we're not enemies!" One of them shouted.

Elizabeth was skeptical at first, but with the addition of their assistance, the pressure on them immediately lessened. She sighed in relief.

Roar!

The Chaotic Beasts roared and attacked the crowd frantically.

The battle got more and more intense.

Until a certain moment, Wang Teng's aura suddenly erupted, instantly surpassing several times its previous level.

Boom!

An explosion occurred within Wang Teng's body. The whirlpool above his head gradually sunk into him. A terrifying aura suddenly burst forth from him.

"Is it happening?" Elizabeth was overjoyed.

"Master is about to achieve a breakthrough." Little White was elated too. It let out a caw.

"He achieved a breakthrough!"

"This aura... is so powerful!"

"It looks like this student's potential is truly frightening. He's only at the heaven stage but he already possesses such a formidable aura. He must be extremely powerful."

"However, it's a little late for him to advance from the cosmos stage to the heaven stage. Most of the previous students had already made their breakthroughs. Could it be that he was building up his foundation?"

The three martial warriors were stunned again. They observed Wang Teng's breakthrough and discussed it in secret.

These people assumed that Wang Teng had advanced from the cosmos stage to the heaven stage. They never considered any other possibilities.

At the moment of Wang Teng's breakthrough, a token suddenly flew up from his body, radiating a brilliant light.

"That's... the access token!"

"Oh my, his time is up!"

"What a coincidence!"

...

This was the token given to him by the guide after Wang Teng entered the Chaotic Uncharted.

In addition to allowing students to move around the transit island, this token also served another purpose, which was to locate the students' whereabouts. Once the time limit was up, it could prompt them to leave the Chaotic Uncharted immediately.

The token glowed brightly and a crack appeared in the air above it. A venerable voice then echoed from within the crack.

"Student Wang Teng, your time is up. Please leave immediately... Huh? A breakthrough?"

The voice behind the dimensional rift paused for a moment. Then, the person cleared his throat and spoke in a softer tone.

"Cough... never mind, you can finish the breakthrough first."

The three universe-stage martial warriors were stunned.

Was that the Guardian Elder speaking?

When did he become so kind and soft?

They had been in the Seventh Stellar Academy for many years but had never seen him so amiable.

While it was understandable that the Guardian Elder wouldn't force any student to leave the Chaotic Uncharted immediately during such a critical breakthrough moment like this.

This level of friendliness was unprecedented.

No further sound came from the dimensional rift so they were unable to confirm if it was the stern Guardian Elder they knew.

The three universe-stage martial warriors were filled with curiosity.

At this moment, Wang Teng, who was sitting cross-legged on the small celestial body, suddenly opened his eyes. He seemed to have completed his transformation.

A dazzling light burst forth from his eyes!

Brilliant starlight!

His deep and profound black eyes seemed to contain boundless starry skies. It looked divine.

"Finally... a breakthrough!" Wang Teng stood up and felt the changes inside his body. He smiled uncontrollably.

"Master!" Little White couldn't help but call out.

Wang Teng snapped back to attention and immediately looked around. He noticed that Little White and Elizabeth were both seriously injured. A cold glint flashed in his eyes.

These Chaotic Beasts were so troublesome!

But, before he could do anything...

Boom!

A terrifying clap of thunder was heard without any warning.

Wang Teng's expression froze. He slowly raised his head.

Another huge pitch-black crack appeared above his head again. Silver-white lightning flashed in the crack.

The crack resembled a massive vertical eye.

The lightning within it emanated a majestic and terrifying aura.

The boundless pressure poured down like a torrent.

"Huh?" A surprised exclamation came from behind the dimensional rift situated above the token.

The Chaotic Beasts around them seemed frightened. They cried in alarm and hurriedly fled in panic towards the distance.

They gave up attacking voluntarily.

## **Chapter 1737: Strike Me, Strike Me, Strike Me! (3)**

Wang Teng was immediately caught in a moment of self-doubt.

What happened?

What did he do?

Why was there calamity lightning? And why did it look like it was going to strike him?

The three universe-stage martial warriors were stunned. They looked at the calamity lightning above Wang Teng's head in astonishment. They couldn't process what they were witnessing.

Was it necessary to undergo calamity lightning when breaking through a stage?

Did this person do something outrageous and immoral?

They had never heard of any cosmos-stage martial warriors attracting a calamity lightning when advancing to the heaven stage. Such a phenomenon usually wouldn't occur even when breaking through to the heaven or eternal stage.

Elizabeth and Little White were stunned too. However, they were more worried about Wang Teng.

Their master was going to be struck by lightning. What should they do?

That's right, Lightning Spirit!

Elizabeth and Little White looked at the Lightning Spirit at the same time.

"Squeak!" The Lightning Spirit looked at the calamity lightning and suddenly shuddered as if it discovered something incredible. It exclaimed in delight.

"Squeak!"

O(\*~\*)O

Leave it to me!

The Lightning Spirit was already restless and excited.

Boom!

It sounded long but everything happened in just a few breaths. Within the crack in the sky above Wang Teng's head, the lightning within had gathered to its utmost limit. Before anyone could react, it struck down.

Wang Teng cursed in his mind. Without thinking, he took out his Lightning Slap and threw it above his head.

Have a taste of my brick!

The purple Lightning Slap rolled into the sky like a brave warrior facing the heavens, charging forward fearlessly!

Boom!

Terrifying lightning struck the Lightning Slap, unleashing a dazzling burst of lightning that illuminated the entire dark void, turning it into a bright expanse.

The Lightning Slap seemed insignificant under the heavenly might of the lightning, but it managed to barely withstand the calamity lightning.

The purple runes on the surface of the Lightning Slap glowed slightly. Large amounts of calamity lightning were absorbed into the Lightning Slap and fused with the power of the calamity lightning inside.

Indeed, it could resist the calamity lightning because it contained the calamity lightning.

"Squeak!" The Lightning Spirit became anxious upon seeing something competing for its food. It immediately rushed over and circled the Lightning Slap, voraciously devouring the calamity lightning.

The three universe-stage martial warriors were stunned. The powerful calamity lightning was blocked and didn't land on the student.

"What is that thing?" One of them couldn't contain his curiosity.

"It looks like a... brick!?"

"I don't it just looks like one. It is a brick."

The three of them saw the appearance of the Lightning Slap but they found it unbelievable.

A brick blocked the calamity lightning!

This was insane!

Boom!

Another terrifying calamity lightning descended and struck towards Wang Teng.

The Lightning Slap received it again. The Lightning Spirit was unwilling to fall behind and devoured the calamity lightning frantically. It was an excellent tonic for it.

Usually, Wang Teng would only feed it a little bit every time. This time, it wanted to eat its fill, making up for the previous depletions.

Calamity lightning struck down one after another. In the blink of an eye, six calamity lightning bolts struck down, but they were all blocked by the Lightning Slap.

Of course, the Lightning Spirit had also put in the effort to devour a large amount of calamity lightning, causing the power of the calamity lightning to decrease considerably.

One could not help but marvel at how the Lightning Spirit was truly a creature born and raised to consume lightning. Even in the face of the calamity lightning, it dared to devour it without hesitation.

At this moment, the Lightning Spirit's body had expanded significantly. It was originally only the size of a head, but now, it had expanded by at least four to five times. Its entire body emitted dazzling thunderous light, resembling a chubby figure with a swollen belly.

The three universe-stage martial warriors were dumbfounded when they saw this scene.

The calamity lightning seemed to little angry when it realized that it couldn't hit Wang Teng.

How could the calamity lightning have emotions?

However, reality proved that it wanted to kill Wang Teng even more.

More and more lightning was brewing in the crack above Wang Teng's head. The fissure was getting bigger and bigger. It was like a huge lightning pool that was hundreds of feet wide.

The void that Wang Teng was in was enveloped by terrifying pressure. Ordinary people couldn't even get close to it.

Even from a distance, the three universe-stage martial warriors could feel the terror and their scalps went numb.

They really could not understand why this student was facing such a terrifying calamity lightning just by advancing to the next stage.

Wang Teng raised his head and frowned slightly when he looked at the lightning pool.

Was the calamity lightning determined to kill him?

The seventh calamity lightning that was about to take shape was probably far more powerful than the previous ones!

Generally speaking, after three calamity flashes of lightning, its power would undergo a vast change.

The fourth calamity lightning was twice as powerful as the third one. However, it still couldn't do anything to Wang Teng... No, it couldn't do anything to the Lightning Slap.

Now that another three calamity lightning had passed, the seventh one would be even more intense than before.

The Lightning Slap and Lightning Spirit were probably reaching their limits and would not be able to withstand the next calamity lightning.

If it didn't work out, he would have to do it himself.

Come on! Come on!

I'm not afraid of you!

Isn't it just a calamity lightning? It wasn't like he wasn't struck by it before.

Wang Teng's eyes shone brightly. He was determined.

Within the lightning pool above, an endless convergence of lightning power gathered, manifesting the power of laws of origin and transforming into a terrifying thunder beast. The power of laws formed chains that coiled around its body, and its majestic thunderous eyes gazed down upon Wang Teng.

Boom!

The next moment, the lightning beast roared, and a surge of lightning energy burst forth, descending from above in a terrifying thunderous column. Everything in its path turned into a scene of destruction.

## **Chapter 1738: Strike Me, Strike Me, Strike Me! (4)**

"Ancient God's Body!" Wang Teng's expression turned serious as he bellowed in his heart.

Boom!

His energy and Qi surged as golden blood circulated through his limbs and bones before finally converging at his heart, causing it to beat violently like a drum.

A complex and mysterious golden pattern appeared at the center of his brow, exuding an aura of enigma.

A majestic aura rose from Wang Teng's body while faint golden light burst forth within him. It was as if a layer of golden armor had enveloped his body.

The Origin Energy of Chaos in his body erupted and surrounded Wang Teng. The Ancient God's Body seemed to possess a different power than before.

This was the first time Wang Teng used the Ancient God's Body after he advanced to the cosmos stage. He wondered how powerful it was.

Boom!

Wang Teng took a step forward and turned into a golden ray of light as he charged towards the lightning pillar above his head.

The two collided in midair, and time seemed to have froze for a moment!

There was dead silence, and then...

Boom!

Violent explosions reverberated in the void for a long time.

Wang Teng's golden figure was completely enveloped by lightning. It was as if he was getting consumed.

The three universe-stage martial warriors broke out in a cold sweat on his behalf.

Elizabeth and Little White were so nervous that their entire bodies were tense. They couldn't help but hold their breaths.

Can their master withstand such a terrifying calamity lightning?

Boom!

At this moment, the eighth bolt of calamity lightning landed. It formed a lightning pillar that was even thicker than before and struck Wang Teng.

"Gulp!"

The three universe-stage martial warriors felt their brows twitching and their scalps tingling. They couldn't help but gulp their saliva.

"That student won't be struck to death, right?" They exchanged glances with one another.

"This feels amazing!"

Suddenly, a loud laugh could be heard from the pillar of lightning. It actually had a sense of bravado.

"???" The three universe-stage martial warriors were confused.

Amazing?

What's amazing?

Just a moment ago, they were worried that Wang Teng would be struck to death, but instead, they heard his laughter.

In particular, the word 'amazing' was filled with a strong sense of mockery.

This person needed to be beaten up!

Bang!

With a muffled sound, the thunderous radiance enveloping Wang Teng abruptly exploded. Wang Teng had thrown a punch that shattered the calamity lightning into pieces.

"This isn't enough!"

"Again!"

Wang Teng gritted his teeth. He felt terrible after being struck by two bolts of lightning. His body was in pain.

Even his Ancient God's Body couldn't completely offset the pain caused by the calamity lightning.

However, when he activated the Ancient God's Body scripture, he discovered that this technique was being enhanced by the tempering of the calamity lightning. He couldn't help but feel overjoyed.

Ordinary pill calamities were no longer enough to improve his Ancient God's Body. As a result, it had not improved much recently.

This was great!

He had just advanced to the cosmos stage, and this Chaotic Uncharted had bestowed him with a great gift.

Calamity lightning tempering!

It wasn't something you could encounter but couldn't seek!

However, he also discovered a problem. It seemed that the Ancient God's Body improved partly because of the nourishment from the Origin Energy of Chaos.

While tempering it, it was being nourished at the same time!

This caused his Ancient God's Body to slowly but steadily improve.

"I didn't expect there to be such benefits after converting all my Force into chaos Force." Wang Teng muttered to himself.

If he had known earlier, he would have endured the first six calamity lightning himself and not given the Lightning Slap and Lightning Spirit a chance to perform.

Fortunately, it was not too late.

"Come, let the calamity lightning be more violent."

"Strike me, strike me, strike me!"

Wang Teng looked at the sky. His eyes were filled with sincerity. He opened his arms and was prepared to embrace the calamity lightning.

He was begging to be struck!

The three universe-stage martial warriors: ...

Elizabeth: ...

Little White: ...

Lightning Spirit: ...

Guardian Elder: ...

Calamity lightning: ...

This person must be crazy!

Boom!

Within the thunderous pool, the dreadful lightning churned and suddenly tilted slightly towards Wang Teng, releasing an endless rage.

Die, bastard!

Then...

The entire pool of lightning emptied, forming a lightning waterfall.

It poured down on his face!

Wang Teng's legs went weak. The muscles on his face twitched.

Was it too late to take back what he had just said?

He felt that he could still be saved.

The three universe-stage martial warriors in the distance quickly retreated. Their faces were filled with shock. They felt that if they got too close, they would die.

Even Elizabeth and Little White hid far away.

Master, it's not that we don't want to help you but we really can't take that!

Boom!

In an instant, the lightning waterfall completely submerged Wang Teng's figure. Endless lightning power surged in all directions. The entire strange void then burst and all the celestial bodies disappeared under the bombardment of thunder and lightning.

The three universe-stage martial artists felt their hearts aching. They had yet to interact with this magical void and it disappeared just like that.

Damn it!

The person who caused this calamity was the culprit.

Return us our void.

However, this person was probably going to die. Could he still live after all that?

Even they felt that they might not be able to survive such a terrifying calamity lightning.

Lightning flashed continuously, and the lightning waterfall lasted for a long time. The lightning pool above his head slowly disappeared, as if it had completed its mission.

In the end, the lightning waterfall slowly dissipated and no longer existed.

The three universe-stage martial artists, Elizabeth, Little White, and the others all looked over.

A figure slowly appeared in the dissipating lightning. It was Wang Teng.

## Chapter 1739: Strike Me, Strike Me, Strike Me! (5)

He was in a disheveled state. His clothes were torn and most of his skin was scorched black. His long black hair was in a mess.

"Burp..." Wang Teng burped. A mouthful of black smoke wafted out of his mouth.

This appearance left everyone shocked beyond words, yet they couldn't help but find it both funny and exasperating.

They were shocked because Wang Teng didn't seem to be injured. Despite his charred appearance from being struck by lightning, he was completely unharmed.

"Damn it, do you have to be so ruthless?" Wang Teng pointed his middle finger above his head.

Fortunately, he just broke through to the cosmos stage so his ability increased greatly. Moreover, the continuous nourishment of his body by the Origin Energy of Chaos allowed him to endure this trial. If not, he might have to resort to using his blank attributes to raise his Ancient God's Body again.

If it was the old Wang Teng, he would need a stronger Ancient God's Body to withstand the last bolt of lightning.

After Wang Teng advanced to the cosmos stage, he gained tremendous benefits.

What he was displaying now was just a small part of the benefits.

All his efforts and hardships were not in vain. He managed to create a scripture that was perfectly suited to himself.

Silence.

Seeing Wang Teng still energetically scolding others despite his appearance, the crowd couldn't help but feel speechless and marvel at his audacity.

Even after being struck like this, he still dares to curse the calamity lightning!

What a stubborn guy!

"Wang Teng, what did you do? Why did you attract the lightning calamity?" The Guardian Elder's voice came from behind the dimensional rift. He seemed to have been suppressing his emotions for a long time.

"Guardian Elder!" Wang Teng regained his senses and immediately bowed at the dimensional rift. Then, he said innocently, "Honestly, I don't know what happened either. I just had a breakthrough and got struck by lightning. It's unreasonable!"

The Guardian Elder: ...

"Elder, do you know what happened? Can you enlighten me?" Wang Teng asked.

How will I know? The Guardian Elder wanted to curse but considering that this person was the most promising talent they had received in the Seventh Stellar Academy for years, he restrained himself and said, "Anything can happen in the chaos. Perhaps your breakthrough was somewhat special, which is why you attracted this calamity lightning."

His voice had a hint of profound meaning, and though Wang Teng didn't fully understand what was going on, he could sense that it must be related to his breakthrough.

He didn't give Wang Teng a chance to probe further.

"Alright, since you have completed your breakthrough, you can leave the Chaotic Uncharted with me. Your time is up."

Wang Teng felt that the Elder Guardian was brushing him off but he was relieved that he no longer pressed for answers. After all, it might be related to the scripture he had created, and he didn't want others to know about it. He quickly nodded and said, "Sure, please wait a moment. I'll like to go thank those senior brothers first."

"Go ahead." The Guardian Elder didn't stop him.

Wang Teng turned and looked at the three universe-stage martial warriors. Then, he flew some towards them and bowed. "Thank you for your help just now. I'm Wang Teng and I'm extremely grateful."

"You're welcome. We're all students from the Seventh Stellar Academy. Since we met, we should help if we can," one of the men smiled and said.

In reality, his heart was aching. He had originally planned to offer assistance to Wang Teng and then gain some insights into this peculiar void. However, the void had been destroyed by the calamity lightning, causing them to miss out on the opportunity.

But, he couldn't blame it on Wang Teng.

What's more, whether it was Wang Teng's displayed strength or the Guardian Elder's attention to him, it was enough to make them take him seriously.

So, it was better to pretend as if nothing had happened and establish a good relationship with him.

"Seniors, can you leave me your contact details? I will remember this favor," Wang Teng said.

"Forget about any favors. However, we can exchange contact information. We can keep in touch within the academy," the man said with a smile. He didn't show any arrogance of a universe-stage martial warrior.

Wang Teng kept quiet. Some things didn't need to be said. Since the other party helped him, he would remember it.

He was a person who clearly distinguished between grudges and favors.

He would remember grudges.

He would also remember favors.

Both parties exchanged contact numbers on their wristwatches. The three universe-stage martial warriors knew that Wang Teng was leaving the Chaotic Uncharted soon so they didn't say much. They didn't want to keep the Guardian Elder waiting for too long.

Wang Teng kept Elizabeth, Little White, and the Lightning Spirit in his Devour Space. Then, he picked up the attribute bubbles and the golden light spheres around him.

These were all good things left behind by universe-stage Chaotic Beasts. They shouldn't be wasted.

"Elder, I'm done," Wang Teng said to the dimensional rift after he was done.

"If you come through the dimensional rift, you can return to the entrance," the Guardian Elder said calmly.

Wang Teng was surprised. He immediately turned into a beam of light and dashed into the dimensional rift.

The token disappeared too.

In a blink of an eye, Wang Teng found himself back at the entrance of the whirlpool when he entered the Chaotic Uncharted.

He looked down and saw the transit island.

"I will come back." Wang Teng glanced at the transit island and recalled his trip in the Chaotic Uncharted. He felt that he had gained a lot. He felt that he had gained tremendous benefits and couldn't help but smile faintly. Then, he turned around and stepped into the whirlpool once more.

## **Chapter 1740: Return! Freshmen Leaderboard! (1)**

Wang Teng entered the passageway between the Chaotic Uncharted and the Original Universe.

The vast and complete universe they were in was known as the Original Universe, exuding a sense of "being at the center of the world."

Perhaps every indigenous inhabitant here had such a self-important notion, just like how the Earth once believed it was at the center of the solar system.

In reality, Earth was just a tiny life planet in the vast expanse of the universe. It was insignificant beyond measure.

Gosh!

The people of Earth once fell into a panic because of this realization.

They weren't the only life forms in the universe, nor were they the most powerful life forms.

This was... awkward!

Back to the main topic!

After the previous experience, Wang Teng felt much better after entering the passageway. It could also be attributed to his enhanced spiritual power, which reduced the impact of the chaotic sensation on him significantly.

That way, Wang Teng would have more energy to search for the attribute bubbles in the passageway. Space and time attributes were important to him, and he wouldn't let any of them slip by.

Fortunately, the passageway didn't disappoint him.

Not long after he entered the passageway, a few attribute bubbles appeared in front of Wang Teng.

Oh my god!

Time\*35

Time\*50

Space\*350

Space\*420

...

As the attribute bubbles merged into his body, Wang Teng smiled. He felt his Space Physique and Time Talent improving at a rapid pace.

This felt amazing!

It was as if he had activated a talent accelerator. His talents were rapidly soaring.

What's more, they were extremely rare talents!

So what if he was about to leave the Chaotic Uncharted? This wouldn't stop him from seizing the last opportunity to gain benefits!

He wouldn't let go of any opportunity!

With a snort in his heart, Wang Teng constantly scanned his surroundings, never idling for a moment. He searched for more attribute bubbles.

Suddenly, his gaze paused as he spotted numerous attribute bubbles within a small time and space vortex. He immediately extended his spiritual power and picked them up one by one.

Time\*40

Time\*30

Space\*300

Space\*400

Space\*350

...

It had to be admitted that after Wang Teng advanced to the cosmos stage and devoured a large number of golden light spheres, his spiritual power increased many

times. This time, he was more relaxed than before and stayed longer in the passageway.

He walked leisurely amid the turbulent currents of time and space as if strolling in a tranquil courtyard. He enjoyed the scenery of the chaotic time and space around him.

Such a scene couldn't be seen outside.

Outside the passageway, the Guardian Elder frowned.

What was going on?

Why hadn't he come out after staying inside for so long?

Did something happen?

It wasn't his fault for thinking too much. Wang Teng got struck by lightning in the Chaotic Uncharted. If such an incident could happen in the Chaotic Uncharted, who could guarantee that nothing unexpected would occur inside the passageway?

What if the Chaotic Uncharted wanted to deliver a final blow to him at the last moment?

It was quite dangerous just thinking about it.

Speaking of which, even the 'Chaos Will' was angered. What did he do?

Did he touch the butt of the 'Chaos Will'?

Hahaha...

This youngster might be a promising talent but he was too troublesome. He had only been in the academy for a short time and he was already revealing his true colors.

"No, I have to see what he's up to." The Guardian Elder muttered to himself. He immediately extended his spiritual power and entered the passageway to search for Wang Teng.

That was when he saw Wang Teng strolling in the passageway.

The Guardian Elder: ???

In an instant, several question marks appeared above the Guardian Elder's head.

What was this fellow doing?

Even a formidable martial warrior like him couldn't see Wang Teng picking up the attribute bubbles. Hence, he thought that Wang Teng was... taking a stroll!

Well, this was probably the only way to describe what Wang Teng was doing.

This brat! The Guardian Elder was speechless. He was furious.

As Wang Teng was happily picking up the attributes, a slightly familiar, elderly voice suddenly sounded in his ears. It was none other than the Guardian Elder.

"Come out quickly. Why are you dawdling inside?"

Wang Teng stopped in his tracks. He felt a little frustrated and amused.

Why are you rushing me when I'm just walking through a passageway? Do you have to be so impatient?

He thought that the Guardian Elder hurried him because he didn't want to waste time on him. He didn't know that the Guardian Elder was just concerned he might get targeted by the Chaos Will.

But, no matter what, Wang Teng didn't dare to disobey the other party. He replied to him with respect.

"Yes!"

Then, he increased his speed and dashed towards the other end of the passageway.

What a pity. I wanted to stay longer. Wang Teng thought to himself helplessly. He scanned his surroundings and tried his best to pick up more attribute bubbles in his remaining time.

Unfortunately, joyful moments always passed quickly. After all, the passage was limited, and he couldn't keep picking up attributes indefinitely.

After some time, a ray of light appeared in front of him.

This is the end! With a sense of nostalgia, Wang Teng cast one last look back before finally rushing out of the passageway.

In the blink of an eye, the dizziness vanished. Wang Teng's spiritual power stopped circulating as he no longer needed to maintain the tense state of resisting the chaotic time and space.

He let out a small sigh. Although he could stay longer in the passageway after his spiritual power advanced, it didn't mean that there was no pressure at all.

Wang Teng glanced at his attributes board.

Time: 1860/10000

Space Physique: 23500/400000 (fourth-rank)

Not bad! Wang Teng nodded secretly.

## **Chapter 1741: Return! Freshmen Leaderboard! (2)**

His time attribute increased by a few hundred points and his Space Physique attribute also increased by a few thousand points. His mastery of both talents had significantly improved.

Of course, not all of these attributes came from the passageway. Some were from the Chaotic Uncharted.

Although the time and space attributes were rare, within the Chaotic Uncharted, various laws evolved so naturally, there were also time and space attributes present.

Besides the laws of origin attributes, there were also some time and space talent attributes.

Without these time and space talents, it would be impossible for Wang Teng to achieve such significant improvements solely relying on the attribute bubbles he obtained through the passageway.

That was it. All in all, Wang Teng's journey through the Chaotic Uncharted was relatively successful. He accomplished most of what he needed to do.

In the distance, a massive spacecraft hovered in mid-air. It was none other than the large spaceship that brought Wang Teng and others here. It was here to fetch the students again.

Many students had already come out of the Uncharted. They gathered in the lobby of the spacecraft and discussed their experiences within the Uncharted excitedly. The atmosphere was lively.

After all, this was their first time in the Uncharted. This was a rare opportunity.

Each one of them gained something to varying degrees, leading to significant improvements in their abilities. This added to their excitement.

These students came out earlier than Wang Teng. They strictly adhered to the academy's rules and left the Uncharted once their time was up. They didn't dare to delay any longer.

Unlike Wang Teng, who took his time and used every last moment. He even delayed his departure significantly.

So, at this moment, they were all waiting for Wang Teng to return.

Without him, the group wouldn't be completed, and the spaceship couldn't depart.

In the crowd, Zhulong Shanzhi was brimming with pride. He was surrounded by a group of talented warriors who continuously praised and flattered him. Though he maintained a haughty and indifferent expression on his face, he still couldn't hide the smile on his face.

However, he frowned when he scanned his surroundings and didn't see Wang Teng.

That fellow hadn't come out?

Yue Qiqiao, Yu Yunxian, and the others were gathered on one side. They couldn't help but feel anxious when they didn't see Wang Teng either. They were worried that something might have happened to him.

At this moment, the eternal stage white-robed man standing in front of the spacecraft waved his hand and activated the panoramic simulation of the spacecraft.

The scene outside appeared in front of everyone.

Yue Qiqiao, Yu Yunxian, and the others were stunned. They suddenly saw Wang Teng's figure at the entrance of the Chaotic Uncharted.

...

Wang Teng stretched his back and retracted his gaze from the attributes board. He looked around him.

It was still the same as before, with a hazy and murky environment all around. Large whirlpools surrounded him, each representing the entrance to an Uncharted.

At this moment, he stood before one of these whirlpools.

The stone plate at the side had the words 'Chaotic Uncharted' carved on it.

Not far away, an old man sat cross-legged like an ancient monk in meditation. His aura was obscure, and even couldn't see anything with his Real Eye.

"Guardian Elder!" Wang Teng knew that this was probably the Guardian Elder who communicated with him earlier across space. Despite any inner thoughts or complaints, he immediately bowed respectfully.

"Hmm!" The Guardian Elder slowly opened his eyes and glanced at him. His gaze was incredibly profound, resembling two black holes.

Wang Teng was stunned.

"You're troublesome. Let's go to other Chaotic Uncharteds next time. Don't come to me," the Guardian Elder said angrily.

"Erm..." Wang Teng was speechless. Was he being looked down upon?

"Hahaha, Wang Teng, if he doesn't want you. Come to me next time." From a distance, a peal of hearty and aged laughter resounded.

Wang Teng turned his head and realized that it was another elder stationed at the entrance of a different Chaotic Uncharted. He was an elder too and looked ordinary on the surface. However, Wang Teng knew that this elder wasn't simple. He immediately paid his respects with a bow.

"I'm just joking. He can go wherever he wants. Why are you interfering?" The Guardian Elder guarding the Chaotic Uncharted Wang Teng entered snorted.

"Hmph, keep being stubborn." The other Guardian Elder laughed. Then, he asked curiously, "But I'm a little curious. Wang Teng, what did you do in the Chaotic Uncharted? Why does he dislike you so much?"

Wang Teng: ...

Can we just keep this a secret?

This is embarrassing.

Wang Teng didn't want to bring up the fact that he got struck by lightning. He felt that it wasn't something to boast about. What if the Guardian Elders looked down on him because of it?

He didn't want to either!

What was wrong with that 'Chaos Will'? Why did it strike him with the calamity lightning? That was unreasonable.

"He got struck by the lightning calamity," the Guardian Elder of Wang Teng's Uncharted glanced at Wang Teng and replied calmly.

Silence.

The other elders from the Chaotic Uncharted were speechless. They stared at Wang Teng strangely.

"Elders, that wasn't my fault..." Wang Teng still wanted to explain.

"Hurry up and leave. Don't embarrass yourself here." The Guardian Elder interrupted Wang Teng and waved his hand in disdain.

Wang Teng felt frustrated. He said helplessly, "Alright, elder. See you again."

Then, he turned into a beam of light and flew towards the spacecraft in the distance.

## **Chapter 1742: Return! Freshmen Leaderboard! (3)**

The talented martial warriors in the spacecraft also heard Wang Teng's conversation with the Guardian Elders from the Chaotic Uncharted. They had peculiar expressions on their faces.

"He got struck by lightning?!"

What did Wang Teng do in the Chaotic Uncharted? Why was he struck by lightning?

At that moment, the cabin door opened and Wang Teng flew in from the outside. He suddenly noticed that everyone was looking at him with weird expressions as if they were seeing something strange.

Even the eternal stage white-robed man standing in front of the spacecraft couldn't help but glance at Wang Teng.

"Wang Teng, over here!" Yue Qiqiao shouted at Wang Teng.

Wang Teng blinked. He walked over and met up with Yue Qiqiao and the others.

Yue Qiqiao was about to ask him a question but the eternal stage man in a white robe opened his mouth and said, "Everyone is here. Let's return!"

The spacecraft vibrated slightly and changed its direction. It flew towards the Seventh Stellar Academy.

Many people suddenly turned pale.

Everyone is here?

But some people aren't back yet.

It was obvious what this meant.

The man in white glanced at everyone and said, "First, congratulations on returning from the Uncharted. The survival rate for this Uncharted trip is 86%. For those who haven't returned, their deaths have been confirmed."

"What!"

As soon as he finished speaking, a buzz of voices erupted around them.

Some people died!

Many people hadn't noticed the absence of some individuals. They only realized after hearing the words of the man in white.

Many talented martial warriors who entered the Uncharted died.

The survival rate was 86%!

Was it high?

Well, it didn't seem low!

Mind you, these were all talented martial warriors from the various territorial domains in the universe. The fact that some of them had died was shocking news.

14% of the talented martial warriors had perished. This was a huge loss.

This news was like a bucket of cold water poured on the proud hearts of these talented warriors.

There were areas suitable for freshmen in the Uncharted. As long as they stayed in those areas, there wouldn't be much danger.

There should be guides reminding them about this matter once they entered the Uncharteds.

Thus, many people didn't encounter any dangers in the Uncharted. They considered it a land of opportunity, never thinking they would die there.

A moment ago, they were delighted by the opportunities they gained in the Uncharted. Now, their joys had faded. Their expressions turned solemn.

Of course, there were also a few individuals who still showed lingering fear on their faces.

They had faced dangers in the Uncharted but managed to return alive. They were luckier than those who died.

Wang Teng scanned his surroundings. He was surprised too.

"I noticed that some people were missing but I didn't expect them to be dead," Yue Qiqiao muttered. Her expression changed slightly.

"A 14% death rate might not seem high, but it's not low," Wang Teng said.

"As long as they stay in the cosmos-stage areas, there shouldn't be any significant danger. What did they experience in the Uncharted? How did they die?" Yue Qiqiao frowned in confusion.

"Some people might not be able to resist venturing beyond the cosmos-stage areas," Treant Boret stood at the side and said.

Yue Qiqiao was stunned for a moment before she understood what he meant.

These talents from the various territorial domains were all extremely arrogant. While many might be able to control their desires and stay within the cosmos-stage areas, some might consider themselves superior and venture outside.

All talents felt that they were different from others. They felt that they could get better opportunities.

Moreover, these people were entering the Uncharted for the first time and might not have a proper understanding of its dangers. Naturally, there was a high chance of them encountering death.

All the deaths were not accidental. They were inevitable.

"Wang Teng, did you step out of the cosmos-stage area too?" Yue Qiqiao suddenly saw Wang Teng's expression and asked.

"You didn't?" Wang Teng asked her back.

"I didn't. I know my ability," Yue Qiqiao replied calmly.

"Boret and Brother Yunxian must have gone out." Wang Teng smiled. He looked at Yunxian and Boret.

"Haha." Boret scratched his crown and chuckled.

Yu Yunxian nodded. He didn't deny it.

"So, as you see, there are still many who ventured beyond the cosmos-stage areas. It's just that some of them have strong enough abilities to survive, while others..." Wang Teng didn't finish his sentence but his meaning was clear. Those who didn't return were not strong enough.

This was the truth. With enough strength comes confidence, and lacking strength leads to arrogance, as well as death.

However, determining the strength of an individual was highly subjective and difficult to explain.

The man in white clothing gave everyone some time to digest the information before continuing.

"Many of you have already advanced to the cosmos stage. Even if you haven't, you're not far away. Now that the Freshmen Leaderboard has opened, try your best to climb higher."

"The higher your ranking on the Freshmen Leaderboard, the more benefits you will receive. You could attract the attention of the instructors in the academy and may even become the personal disciple of a formidable martial warrior. You will be propelled to new heights!"

"You are all talents from the various territorial domains. You came to the academy to cultivate and become formidable martial warriors."

"Besides relying on your efforts, the guidance of a supreme mentor is crucial. It will help you avoid many detours on your path to greatness."

"In summary, if you don't strive for success within the academy, the gap between each of you will widen due to various reasons. The strong will become stronger, and the weak will become even weaker. I hope that each one of you seizes every opportunity to become a powerhouse in the universe."

## **Chapter 1743: Return! Freshmen Leaderboard! (4)**

"That's all I have to say. Your future depends on yourself."

The man in white closed his eyes. He didn't plan to say anything else.

However, his words impacted everyone greatly, leaving them in turmoil and uncertainty.

It was obvious that the Freshmen Leaderboard was a must-contend spot for these new students unless someone could ignore all the benefits it could bring.

But, just the opportunity to become a disciple of an instructor from the academy was already irresistible to them!

One of the main reasons why these talented martial warriors came to the Stellar Academies was because of the academy's instructors.

If these eternal-stage martial warriors could become their masters, their growth would be faster.

Rumors even suggest that there were existences beyond the eternal stage within the academies, and they represented the true depth and strength of the academies.

All the top talents from the various territorial domains secretly hoped to gain the favor of eternal-stage and above martial warriors. This would be a true step towards reaching the pinnacle!

Of course, none of the talented martial warriors dared to voice out their thoughts. It would be audacious and unrealistic for them to speak of such matters.

At this moment, everyone was determined to shine on the Freshmen Leaderboard.

Wang Teng's eyes shimmered too. He viewed this matter with high importance.

If he was going to do it, he wanted to be the best. His goal was those above the eternal stage.

If he could gain the favor of those formidable warriors and become their disciple, the Parkers Family wouldn't be a threat.

"Wang Teng, this is a good opportunity." Yue Qiqiao's eyes shone brightly. She said via voice transmission, "If we can find a strong backing, we won't have to worry about our business being suppressed."

"Acknowledging a master isn't that simple. Those powerful martial warriors will want to observe us for some time first." Wang Teng wasn't that optimistic. He hesitated for a moment before continuing, "Now that we're back, we can start our business and accumulate more points. They will be useful later."

"Agree." Yue Qiqiao nodded in agreement with Wang Teng. Then, she asked curiously, "Have you advanced to the cosmos stage? I can't tell your stage at all!"

When she asked this question, Yu Yunxian and Boret looked over. They were curious too.

"Guess!" Wang Teng gave a mysterious smile.

"Hmph." Yue Qiqiao snorted. "I don't even need to guess. You must have achieved a breakthrough."

Wang Teng smiled. He didn't say much and used his Real Eye to look at Yue Qiqiao. "I can tell that you have advanced too."

"Seriously, I can't hide anything from you." Yue Qiqiao knew that Wang Teng had a way to see through her ability so she felt exasperated.

"Boret, you advanced too." Wang Teng looked at the Treant beside him.

"I was lucky." Boret gave a somewhat "unpleasant and sinister" smile.

"There's no such thing as luck in a breakthrough." Wang Teng gave him a meaningful look.

This Treant wasn't simple. Anyone would be stupid if they got fooled by his humble appearance.

"Wang Teng, you must have achieved a breakthrough too but I can't tell," Boret said earnestly, with a hint of helplessness in his voice.

This was a test!

He was sure that Wang Teng had a breakthrough but he couldn't see it.

If he couldn't see it, it meant that there was a certain degree of uncertainty.

Wang Teng smiled. He looked at Yu Yunxian and frowned. "Brother Yunxian, did you meet any trouble?"

He didn't ask directly. He could see that Yu Yunxian hadn't broken through the celestial stage.

He felt a certain camaraderie with this crown prince, which prompted him to ask.

Yu Yunxian was not one to speak much, but he sensed the concern in Wang Teng's words and explained, "My situation is somewhat special."

That was it!

However, one sentence was rare enough.

Wang Teng nodded in deep thought. He knew Yu Yunxian's condition so he didn't probe further.

Yue Qiqiao glanced at Yu Yunxian and thought of something.

This Crown Prince was once contaminated by the dark Force.

However, she didn't say much either. Some things were better left unsaid. It was enough as long as she knew it herself.

"Oh right, why were you struck by lightning?" Yue Qiqiao turned and asked Wang Teng curiously.

Wang Teng was speechless. "we can still be good friends if we don't talk about this."

"Tsk!" Yue Qiqiao pouted. "The more you say this, the more curious I am."

Even Boret and Yu Yunxian looked at Wang Teng curiously.

No one would get struck by lightning for no reason!

There must be something fishy going on.

However, Wang Teng remained tight-lipped. They were itching with curiosity but they couldn't do anything.

The spacecraft returned to the cosmos-stage residential area and dropped off Wang Teng and his friends. Then, it flew away without turning back.

After a month, Wang Teng felt a little nostalgic when he returned to his lodging.

"When do you plan to fight for the ranking on the Freshmen Leaderboard?" Yue Qiqiao asked.

"There's no hurry. Let's go back and have a comfortable bath, a meal, and a rest." Wang Teng stretched his back and said calmly, "If they love to fight. Let them fight."

"You have a big heart," Yue Qiqiao said.

"Do you know how to fight for the Freshmen Leaderboard?" Wang Teng asked.

"We can go and check. The academy's intranet surely has some information about it," Yue Qiqiao suggested, admitting that she also didn't know the details.

"Why are you so impatient when you don't know?" Wang Teng was frustrated.

"I'm not impatient. I just want you to go first." Yue Qiqiao smiled slyly.

"F\*\*k!" Wang Teng rolled his eyes. "I almost got fooled by you."

"Haha, I'm just a weak woman with limited strength. I'll let powerful people like you go first," Yue Qiqiao said shamelessly.

"Do you even believe what you just said?" Wang Teng glared at her and walked towards his estate. "I'm leaving. We'll talk later."

"Seriously, everyone is eager to compete for the ranking but you're so calm and composed," Yue Qiqiao shook her head and turned to walk back to her manor. She waved at Boret and Yu Yunxian. "See you later."

Boret and Yu Yunxian exchanged glances with each other and nodded. Then, they went back to their manor.

They didn't seem to be in a hurry to fight for the ranking either.

Wang Teng entered his manor and opened the door with his account on his wristwatch. He sighed. "I wonder when Round Ball will be able to complete its life transition. It's so troublesome without it."

In the past, he didn't need to open the door himself when entering.

After returning to the manor, Wang Teng went to wash up. He felt refreshed as if all the bad luck he brought out from the Chaotic Uncharted had been swept away.

Then, he took out the Force dishes he kept in his space ring and ate them to his heart's content.

"Burp!"

He burped and lay on the soft five meters bed. Wang Teng didn't want to do anything now.

He thought for a moment and took Cao Jiaojiao out of his Space Fragment. She was his subordinate so he had to make good use of her.

"Come, give me a massage." Wang Teng turned over and said to Cao Jiaojiao.

Cao Jiaojiao finally managed to catch her breath after coming out, only to realize that it was for a massage. She couldn't help but curse in her heart. Bastard!

"Why are you standing there? Hurry up," Wang Teng urged.

Cao Jiaojiao bit her lips and walked forward with a humiliated expression. She kneeled on Wang Teng's back...

... (let's skip this part) ...

## **- Chapter 1744: Chaos Constellation Scripture! (1)**

### **Chapter 1744: Chaos Constellation Scripture! (1)**

"Hmm~ Oh~ Ah... Use more force. Yes, that's it. Use more force, more..."

An indescribable sound came from the room from time to time. It seemed as if someone was engaged in something indecent.

Wang Teng lay on the five meters bed with his eyes closed. He seemed to be enjoying himself.

The trip to the Chaotic Uncharted was a little intense, even for someone like Wang Teng. Throughout the entire trip, he remained on edge. Now that he was back, he could finally relax.

Cao Jiaojiao knelt on his back so she couldn't avoid having some close contact with his body. The strange noises around her made her blush even more.

Even though she was a cosmos stage martial warrior, she couldn't maintain her composure.

After all, she was still a virgin!

But, as time went by, Cao Jiaojiao gritted her teeth and got used to it. There was only one thought in her mind.

This bastard can't get too smug!

Ever since she became Wang Teng's servant, she had been repeatedly humiliated by Wang Teng, both physically and mentally. This was a huge blow to her.

Sometimes, the more proud you were, the harder it was to accept such outcomes.

Cao Jiaojiao belonged to this category.

In the past, she was an elite in the Great Qian Empire. Even though her family wasn't among the absolute top tier, it was still impressive.

Also, she felt that her talent wasn't weaker than the ladies from top families, even surpassing most of them.

The fact that the youths from the Parkers family were captivated by her was enough to demonstrate her allure.

Unfortunately, after Wang Teng came to the Great Qian Empire, everything changed.

At first, she was merely suffering setbacks, but as time went on, her family was destroyed as well. Her father, Cao Hongtu, who was once an ambitious man, was captured by Wang Teng and became his slave.

All her protective barriers were gradually stripped away by Wang Teng, leaving her exposed before him.

Even after she became Wang Teng's slave, Wang Teng 'tortured' her. He didn't treat her like an elite or goddess.

She thought that even if she was a prisoner, she would be special.

Which man could resist a beauty like her?

But, the outcome made her furious!

Wang Teng didn't care about her. Most of the time, he would leave her in that space and take her out to use when he needed her.

That wasn't all. He was also incredibly rude and insolent. He didn't spare her any dignity.

This made her think of a word... taming!

This jerk was taming her.

He treated her like a real slave.

Cao Jiaojiao wished she could take a chopper and chop this fellow to death.

Why couldn't this man just drop dead?

But, she couldn't resist Wang Teng's 'atrocities'. As Wang Teng got stronger, she felt more and more helpless.

Her fate was like a thread, firmly grasped in the hands of the man in front of her. It might never be released.

At this moment, many thoughts went through Cao Jiaojiao's mind. She stared at Wang Teng with complex emotions, her expression constantly shifting. One moment, she was gritting her teeth, the next, she was dejected... In the end, she sighed in her heart.

Her gaze turned firm. She seemed to have made a decision. Suddenly, she bent down and leaned her voluptuous body against Wang Teng's. She breathed into his ear.

Wang Teng was stunned. His voice abruptly fell silent.

What was going on?

Was this lady crazy?

He turned his head stiffly and saw a beautiful face.

"What... do you want to do?" Wang Teng swallowed nervously, his voice tinged with unease.

"Isn't this what you wanted to see?" Cao Jiaojiao pressed on Wang Teng's back, preventing him from getting up. She looked down at him like a queen, and a seductive smile appeared at the edge of her lips.

Is there something wrong... with her? Wang Teng stared at her in bewilderment. This thought suddenly popped up in his mind.

"Why? Are you afraid now?" Cao Jiaojiao stared at Wang Teng intently. She felt a slight sense of joy in her heart.

This fellow was just a paper tiger. Going against the grain might be effective.

"Afraid?" Wang Teng chuckled as if he heard a joke. "Why will I be afraid of you? Since you're in a hurry to embrace your fate, I'll help you achieve it."

He suddenly flipped over and faced Cao Jiaojiao.

That indescribable area on him happened to align with an equally indescribable area on Cao Jiaojiao.

Wang Teng's part was undergoing an indescribable reaction at this moment too.

Fortunately, they were still wearing their clothes.

If not...

"You!" Cao Jiaojiao trembled and she almost pulled back. The blush on her face became even more mesmerizing, and her eyes turned watery.

"What's wrong with you? Your complexion seems a bit off," Wang Teng pretended not to know and asked.

"Shameless!" Cao Jiaojiao gritted her teeth and cursed. She couldn't control herself anymore. A strange feeling came from that indescribable part of her body and she lost all her strength.

She felt that she was playing with fire and wanted to retreat. But when she thought about her future, she decided to take a risk.

Hence, she relaxed her body and sat down.

"Ugh!"

Two groans came out of their mouths almost at the same time.

Wang Teng widened his eyes in pain and pleasure. This lady was crazy. How could she do this?

## **Chapter 1745: Chaos Constellation Scripture! (2)**

Cao Jiaojiao's face turned red. She stared at Wang Teng provocatively. Her body trembled slightly but she stubbornly held on. She gave him an 'I'm getting on top of you' expression.

Wang Teng was speechless. That indescribable part of his body felt extremely uncomfortable. It felt as if it was about to explode.

This woman was ruthless!

She was willing to sacrifice herself for her goal!

However, he knew that this lady must have some ulterior motive. If not, she wouldn't make such a huge sacrifice.

"Tell me, what do you want to do?" Wang Teng bore with the discomfort, maintaining a seemingly indifferent demeanor on the surface. He placed his hands behind his head as he spoke.

"I'm already your slave. I should be the one asking you what you want. Do you plan to trample on my dignity completely?" Cao Jiaojiao gritted her teeth.

"Erm... look at what you're saying. Am I that outrageous?" Wang Teng felt a little guilty.

This lady was full of resentment. Did he go overboard?

"You know very well if you went overboard." Cao Jiaojiao's face was flushed but her voice had turned cold. "Now, either kill me or leave me with a shred of dignity. Since I've already acknowledged you as my master, there's naturally no possibility of betrayal. Why do you have to degrade me like this?"

"I've never degraded you, right?" Wang Teng's expression turned peculiar as he pointed to her current posture.

Cao Jiaojiao: ...

"That's why you're worse than me," Wang Teng said.

"You... You're distorting the truth," Cao Jiaojiao said angrily.

"That doesn't matter. You can get up first," Wang Teng said.

"You haven't promised me?" Cao Jiaojiao asked.

"Promise you what? Please understand your status first," Wang Teng said coldly. His expression changed instantly.

"I'm not getting up. You can kill me." Cao Jiaojiao straightened her slender neck elegantly like a swan.

"You're quite tough." Wang Teng sneered. "Do you think I won't dare to kill you?"

"Go ahead. I have no future. I'd rather die than be a slave with no dignity," Cao Jiaojiao said firmly.

Wang Teng stared intently into Cao Jiaojiao's eyes. He wanted to see a hint of hesitation in her eyes, but there wasn't.

"I'll kill Cao Hongtu then."

"Sure. My relationship with my father has already been broken," Cao Jiaojiao said indifferently.

Heartless! Wang Teng was speechless. He had a whole new level of respect for this lady. She had gone all out.

Cao Jiaojiao met Wang Teng's gaze without showing any sign of weakness. She was mentally prepared for death.

As she had said, she would rather die than live in humiliation.

Wang Teng felt helpless. When someone wasn't afraid of death, all threats become ineffective.

"If you don't get up, I will use my trump card," Wang Teng said.

"You can't threaten me," Cao Jiaojiao said resolutely.

"I will take off your clothes and hang you outside. Let's see how long you can last. Even if you die, it doesn't matter. I will hang you outside and let all the talented martial warriors from Stellar Academies admire you," Wang Teng said nonchalantly.

"You..." Cao Jiaojiao's face turned pale. She pointed at Wang Teng and exclaimed, "You're a devil!"

"Sigh, you only realize what kind of person I am after knowing me for so long?" Wang Teng said.

Cao Jiaojiao had lost all her strength to struggle. Her beautiful eyes turned dim.

She was unable to make Wang Teng budge an inch even after mentioning death. What else could she do to fight for her dignity?

This time, she felt boundless despair.

This devil, he never intended to let her go. Was she destined to live her whole life under his control?

Cao Jiaojiao dismounted from Wang Teng's body like a lifeless puppet and stood at the side as if resigned.

Wang Teng finally heaved a sigh of relief, grimacing in discomfort. It was too agonizing.

It was difficult to be a man!

Who could resist such temptation?

Fortunately, he managed to resist it.

This was how a real man should be.

He looked at Cao Jiaojiao. He felt speechless when he saw her expression. Did he scare her too badly?

But, he couldn't yield to her demand.

If he got threatened by a slave like her, he wouldn't be able to maintain his authority as a master in the future.

Honestly, he almost relented.

The more he thought about it, the angrier he became. Wang Teng grabbed Cao Jiaojiao and pressed his knee on her body. Then, he slapped her.

"Slap!"

"Ah, Wang Teng, what are you doing?" Cao Jiaojiao snapped back to her senses and cried. Her expression changed entirely.

"What am I doing? I'm hitting you to make you understand what it means to respect your master. You dared to threaten me, you impudent brat," Wang Teng said angrily, not stopping his hand as he continued to slap her.

"Slap! Slap! Slap..."

"Ah, it hurts. Let me go, let me go." Cao Jiaojiao struggled desperately but she was no match for Wang Teng anymore. No matter how she flailed, she couldn't break free from his control.

"Slap! Slap! Slap..."

The crisp sound of physical impact echoed in the room. It continued for quite a while!

...

In the room.

Wang Teng sat at the edge of the bed, facing Cao Jiaojiao with flushed cheeks and tear streaks on her face. The lifeless demeanor she had before was long gone. It was replaced by a mixture of embarrassment and indignation.

"Behave?" Wang Teng asked calmly.

Cao Jiaojiao felt humiliated but she still nodded.

She was scared!

She had to back down. The man before her was truly a devil, and she couldn't contend with him.

"Pour a cup of tea, I'm thirsty," Wang Teng instructed.

Cao Jiaojiao obediently turned and walked to the side. She poured a cup of tea at the table and held it with both hands, offering it to Wang Teng.

## Chapter 1746: Chaos Constellation Scripture! (3)

So lowly!

If one were to carefully observe her steps, they would notice that she was limping. She seemed to be injured.

Wang Teng nodded in satisfaction. He took a sip of the tea and his tone relaxed a little as he said, "Have a seat."

"I'll just stand." Embarrassment and indignation appeared on Cao Jiaojiao's face again.

She felt that Wang Teng was deliberately humiliating her. He knew she was hurt, yet he asked her to sit down. Wasn't he intentionally making fun of her?

But this time, she didn't dare to push her luck anymore.

She couldn't afford to provoke him so she just replied to him obediently.

"Erm..." Wang Teng finally realized it. He might have been a little too harsh just now so he quickly cleared his throat and said, "Well, you can keep standing then."

"Tell me, what do you want?"

"I..." Cao Jiaojiao looked at Wang Teng timidly. She didn't dare to say anything.

"Tell me. Do you think I will eat you?" Wang Teng was speechless.

"I don't dare to say it." Cao Jiaojiao felt wronged.

Wang Teng: ...

Was the effect so good?

A moment ago, she was still acting like a hero. Why was she so timid now?

Indeed, women should be given a beating.

"I won't hit you. Why don't you say it?" Wang Teng said patiently after complaining in his heart.

Since this matter had to be solved, he decided to solve it today. He couldn't keep ignoring Cao Jiaojiao.

Wang Teng had initially planned to tame and train her well before releasing her for his use.

After all, she was a beautiful lady with decent talent. It would be a waste to treat her as a mere decoration.

As for enemies or whatever, it didn't matter anymore, he had emerged as the final winner.

The other party was his slave now.

As long as he became strong enough, no matter what tricks she had up her sleeve, he could quickly suppress her.

"I want to live with dignity." Cao Jiaojiao's eyes lit up when she saw Wang Teng's attitude softening. Her eyes shimmered and a glimmer of hope rose in her heart.

"Speak properly." Wang Teng rolled his eyes.

Cao Jiaojiao remained silent for a moment before saying, "I want to cultivate."

"You could have told me earlier. Why do you have to beat around the bush? If you had said it earlier, I might have agreed, and you wouldn't have had to endure this beating," Wang Teng remarked casually.

[o · `Д´ · o]

Cao Jiaojiao wanted to curse.

If you were this easy to talk to from the beginning, would I have not said it?

This person is irritating!

Cao Jiaojiao felt like crying when she remembered how she got beaten up for no reason. Her tears were on the verge of falling again.

"I agree to let you cultivate. You can continue cultivating in the future," Wang Teng said.

"Really?" Cao Jiaojiao stared at him in disbelief. That was easy.

"Come here!" Wang Teng said.

"What do you want?" Cao Jiaojiao took a step back in fright.

"I'm going to remove the Force seal for you. You don't want to? Forget it," Wang Teng said.

"Wait, who says I don't want to?" Cao Jiaojiao was anxious. She couldn't care anymore and hurriedly walked up to Wang Teng.

"You just need a beating." Wang Teng patted Cao Jiaojiao's body a few times and removed the Force seal on her.

During the process, it was inevitable that he touched a few sensitive areas. Cao Jiaojiao was furious but didn't dare to speak. She felt embarrassed and angry again.

But soon, she became overwhelmed with joy as her Force was restored. She didn't care about being taken advantage of anymore.

After all, whatever advantage could be taken had already been taken, and a little more didn't matter.

Cao Jiaojiao didn't realize that her thoughts had undergone a subtle change.

Wang Teng's taming was effective.

"During this period, you can cultivate within this manor. Don't roam around recklessly. We are in the stellar academy. You're not a student here so if you get caught, I won't vouch for you," Wang Teng explained.

"Stellar academy!" Cao Jiaojiao finally regained her senses. There was astonishment in her eyes. "You entered the stellar academy!"

"What do you think?" Wang Teng asked.

Cao Jiaojiao turned silent. She had been in the Space Fragment all this time so she didn't know what happened outside including Wang Teng's entry into the stellar academy.

As a member of the Great Qian Empire, she was familiar with the stellar academies.

The academy's status was extremely prestigious, attracting countless talented martial warriors. She didn't expect Wang Teng, a warrior from a remote planet, to enter the stellar academies.

"This is the Seventh Stellar Academy. Is it alright for me to stay in the manor?" Cao Jiaojiao asked nervously.

"Rest assured, the academy allows students to bring along a few servants," Wang Teng assured her. "However, other areas within the academy won't be open for you to wander around freely."

Cao Jiaojiao heaved a sigh of relief. There was a hint of longing in her eyes again.

This was the Stellar Academy. She wanted to go out and take a look but her status didn't allow her to roam around.

"Go and cultivate."

Wang Teng dismissed her.

Cao Jiaojiao felt frustrated. This guy suddenly reverted to an attitude of not caring about her. Somehow, she felt a little disappointed.

What am I thinking? Cao Jiaojiao's expression changed. She felt that she had become somewhat strange.

Wang Teng smiled as he looked at Cao Jiaojiao's back view.

He saw the change in Cao Jiaojiao.

It showed that the training during this period hadn't been in vain.

Sooner or later, he would make this lady his!

This was just the start.

## **Chapter 1747: Chaos Constellation Scripture! (4)**

Wang Tengyue found the thought increasingly intriguing, but it was too evil. He quickly suppressed the idea and gradually immersed his mind in the attributes board.

There were some changes to his attributes board after he advanced to the cosmos stage.

Origin Of Life: 100000

Origin Of Soul: 100000

Spirit: 1000/200000 (cosmos realm)

First, there were the three basic attributes.

After absorbing the golden light spheres, the upper limit of these three attributes increased.

So much so that during this breakthrough, they directly doubled their growth limit.

For instance, Wang Teng's Origin Of Life originally had a limit of 30,000 points. That meant that he should have a limit of 60,000 points after advancing to the cosmos stage since the limit would double.

But now, because of the golden light spheres, his Origin Of Life limit had increased to 50,000 points. Hence, it doubled to 100,000 points.

There was a difference of 40,000 points. It was terrifying!

It wasn't just the Origin Of Life. The Origin Of Soul was the same.

At the same time, the realm of his spiritual power finally broke through the invisible barrier, and he smoothly ascended to the cosmos realm without any hindrance.

The limit of his Spirit attribute increased too. It reached 200,000 points.

If he filled up all 200,000 points of attributes, Wang Teng's spiritual power would double that of a normal martial warrior.

The limit of a normal martial warrior's Spirit attribute was 100,000 points.

This was the benefit the golden light spheres gave Wang Teng.

However, he just broke through to the cosmos realm so Wang Teng's Spirit attribute was only at the early stage. He needed time to raise it.

200,000 points of attributes weren't easy to raise.

Wang Teng felt hopeless just thinking about the number of attribute bubbles he needed to pick up in the future.

The road ahead is long and distant, I shall seek from top to bottom and explore.

Wang Teng sighed with emotion, then turned his gaze to another attribute value.

Enlightenment!

The Enlightenment attribute had reached the universe realm so it didn't advance another level this time. Wang Teng was a little disappointed.

Although this attribute value also experienced slight improvements along with the enhancement of his Origin Of Life and Origin Of Soul, there wouldn't be any obstacles in normal circumstances. It could be raised freely, which was why his Enlightenment far surpassed his Spirit.

Now, his Enlightenment attribute was far ahead of the others so he wasn't able to gain too many benefits from this advancement.

As for his Forces, they naturally reached the cosmos stage too.

All the Forces had reached the cosmos stage.

Wang Teng's advancement this time was unique.

In reality, Wang Teng merged all his Forces into the Chaos Force!

Chaos Force, as the name suggested, was the most fundamental and basic Force. It was capable of evolving into any type of Force.

This had been Wang Teng's longstanding vision. He wanted to create a scripture that could simultaneously refine all Forces. Now, he succeeded.

After comprehending in the Chaotic Uncharted for so long, he finally succeeded!

This cultivation technique was arguably unprecedented and unrivaled!

After all, not everyone possessed all the elements like him and even merged them.

This approach was truly crazy.

"Chaos Force!" Wang Teng muttered. He extended his palm, and a peculiar Force flowed through his limbs and bones, gathering in his hand.

This mass of Force bore a striking resemblance to the Origin Energy of Chaos within the Chaotic Uncharted. Even its color was an indescribable shade of chaos.

However, under Wang Teng's control, this Chaos Force could transform into any type of Force.

Metal, wood, water, fire, earth, wind, lightning, light, darkness, ice, poison... all kinds of Forces were evolving on his palm.

Wang Teng was satisfied.

Even his Dark Force had turned into Chaos Force. That way, he wouldn't have to worry about his dark Force getting discovered.

The Dark Force was nothing in front of the Chaos Force.

If anyone dared to claim he had any connection to the dark apparitions in the future, he would simply strike them down with a burst of chaotic power.

What name should I give this scripture? Wang Teng wondered to himself.

He pondered as he observed the space within him that resembled a starry sky.

Chaos!

Laws!

Simulation of the operation of the celestial universe...

Why don't we call it the Chaos Constellation Scripture? It's perfect. I must be a genius at naming things. Wang Teng was extremely satisfied with the name he had chosen and immediately confirmed it.

Unfortunately, it was only at the cosmos stage. When he advanced to the heaven stage in the future, he needed to continue refining it.

Soon, Wang Teng found himself in a bit of a predicament.

This scripture was incomplete. He was lucky enough to be able to refine it to the cosmos stage.

If it weren't for the numerous opportunities he encountered within the Chaotic Uncharted and the sight of that peculiar void, which completed the final piece of the puzzle he had been comprehending, he wouldn't have been able to create this scripture at all.

It would be almost impossible.

It's too difficult! Why do I feel like I've dug a hole for myself? Wang Teng shook his head. He felt that the path ahead was shrouded in darkness.

This matter gave him some psychological trauma.

Creating this scripture had proven to be incredibly challenging.

To be honest, he might not even be fully aware of how incredibly heaven-defying the scripture he created truly was, even if it could only be cultivated to the cosmos stage.

Being unparalleled and unprecedented were vague concepts at best!

Never mind, let's take one step at a time. Wang Teng took a deep breath and put this thought down temporarily.

He wasn't the type to be easily discouraged. Otherwise, he wouldn't have ventured into creating such a heaven-defying scripture. This was a path that demanded immense determination to tread.

Anyway, my consciousness seems to have merged with the sea of nihility. Wang Teng's mind was immersed in that mysterious realm. It felt exceptionally mystical.

He felt as if he had entered his consciousness and the sea of nihility.

The hallmark of advancing to the cosmic stage was the fusion of Spirit and Forces. From now on, they were indistinguishable from one another.

This was probably why his consciousness and the sea of nihility merged.

According to the records, this place seems to be called the 'Inner Cosmos'. Wang Teng found some records of the cosmos stage from the Devour Nihility Beast's memory.

After advancing to the cosmos stage, a universe would manifest within the martial warrior's body, akin to the celestial expanse but in a miniature form. This was why it was called an 'Inner Cosmos'.

It was said that when a martial warrior reached the god stage, they would hold power comparable to a god. At that time, they could expand and evolve the universe within their body as well as turn it into a real universe.

Wang Teng was flabbergasted when he saw the records.

Could it be that the original universe they were in was the Inner Cosmos of a god-stage martial warrior?

If that was the case, what were they?

What was their cultivation for?

Wang Teng's mind was in disarray. He was shaken by this revelation.

In the past, he knew that there would be an Inner Cosmos in the body of a cosmos-stage martial warrior but he hadn't dwelled on it much since he hadn't reached that level.

Moreover, the Inner Cosmos formed within the bodies of ordinary martial artists differed greatly from the real universe.

For instance, in the Inner Cosmos formed by metal element martial warriors, all the constellations and nebulas were formed by metal Force.

It wasn't the same for Wang Teng. Through the Chaos Constellation Scripture, he evolved various laws and merged all his Forces, making his Inner Cosmos extremely similar to the real universe.

That was why Wang Teng had this frightening thought.

## **Chapter 1748: The Changes In Round Ball And The Metal Armor Flaming Scorpion! An Accident! (1)**

Wang Teng sat alone in his room with his mind in turmoil.

The sudden thought that had crossed his mind startled him and caught him off his guard.

Frightening!

Terrifying!

In fact... it was absurd!

Was it possible for the Inner Cosmos to evolve into a real universe?

Wang Teng didn't know and didn't dare to think further.

He felt like his fundamental beliefs were shaken and his worldview was on the verge of collapsing.

If they were truly born, raised, cultivated within the Inner Cosmos of a formidable martial warrior, and their entire lives unfolded within it...

What was the meaning of their existence?

They were like ants struggling within a survival zone constructed by a giant. There was a profound sense of insignificance and misery.

"Sigh!"

After some time, he let out a long sigh and calmed down.

He mustn't think about it anymore. If he continued, his resolution might collapse.

Wang Teng made a concerted effort to rein in his thoughts and redirect his focus to his Inner Cosmos. After his advancement in the Chaotic Uncharted, he encountered a slew of events so he didn't have the time to study his Inner Cosmos properly.

He studied his body and observed the changes in his Inner Cosmos.

There was a black hole in the middle of his Inner Cosmos. It was continuously devouring fragments of stars from the surrounding space. These were the fragments left behind after the explosions of the Force constellations.

There was also a halo surrounding the black hole. It was the manifestation of his spiritual power.

His spiritual power had merged with his Force in a special way.

Wang Teng sensed it carefully. His Nine Treasures Pagoda was nestled within the black hole. He could summon it out with a mere thought.

At the same time, there were divine flames, Water Of Netherworld, Nether Frost, and void mayflies, among others, floating around the Inner Cosmos in his body. It was no different from when he stored them in his consciousness.

Wang Teng felt relieved.

These were all his assets. There was no room for mishaps.

There was also the Space Fragment and the Devour Space. They existed within his Inner Cosmos yet seemed to operate independently.

This was a weird feeling!

It couldn't be explained with words.

Wang Teng didn't dwell on it. After all, they couldn't run away.

Hmm, is the transformation completed? Wang Teng wondered to himself. Suddenly, he remembered something and went into the Devour Space.

Within the dim expanse of the Devour Space, a golden light sphere and a cyan ball of flame hovered in the air.

Elizabeth, Little White, and the Lightning Spirit were watching at the side.

They got injured and exhausted much of their energy to protect Wang Teng in the Chaotic Uncharted.

Naturally, Wang Teng wouldn't treat them badly. He gave the best healing pills to Elizabeth and Little White.

Their injuries healed quickly as they weren't severely injured.

As for the Lightning Spirit, it didn't need any extra rewards. It had absorbed enough lightning calamity and now resembled a chubby little creature. It looked quite amusing and comical.

"Master!"

Elizabeth and Little White greeted Wang Teng when they saw him.

Wang Teng nodded. He asked, "When did this start?"

"Just recently. We only noticed their abnormality less than ten minutes ago," Elizabeth said.

Wang Teng didn't probe further. He looked at Round Ball and the Metal Armor Flaming Scorpion's spheres of light.

Were they going to come out together?

Round Ball's golden light sphere gave off a dazzling golden radiance.

The Metal Armor Flaming Scorpion was no less impressive. Green flames similar to the Emerald Glazed Flame swept across the sky. The impact was astonishing.

Wang Teng was filled with anticipation. It looked like the Metal Armor Flaming Scorpion had improved quite a bit.

As time slowly passed in anticipation, Round Ball's golden light sphere suddenly emitted cracking sounds. It seemed to be on the verge of shattering.

An endless stream of golden light burst forth from within, illuminating almost half of the Devour Space.

Wang Teng squinted and looked ahead.

Boom!

An explosion occurred and the golden light sphere exploded. They turned into countless golden specks of light that scattered and drifted down like a shower.

A small figure appeared. It was Round Ball.

"Hey, everyone is here. Are you here to welcome your Mister Round Ball?" Round Ball laughed when it saw everyone.

"Look at you." Wang Teng was caught between laughter and tears.

The moment it opened its mouth, he knew that it was still the same old Round Ball.

Mister Round Ball?

Why don't you call yourself master instead?

"Hahaha..." Round Ball didn't care about Wang Teng's complaints. It burst into laughter and flew over excitedly. "Wang Teng, look, I've advanced to the heaven stage. I'm a heaven-stage intelligent lifeform now."

"Alright, I can tell. Don't be so excited." Wang Teng looked at it helplessly.

Why was it so excited?

He wasn't even this excited when he advanced to the cosmos stage!

"Aren't you happy for me? I'm a heaven-stage intelligent lifeform now. Do you know how rare heaven-stage intelligent lifeforms are? Can you show some appreciation?" Round Ball pouted and said excitedly.

"Alright, I understand. You're a heaven-stage intelligent lifeform now. Good, very good!" Wang Teng nodded and praised it seriously.

Round Ball was speechless.

Something didn't feel right.

It got praised but it didn't feel happy at all.

## **Chapter 1749: The Changes In Round Ball And The Metal Armor Flaming Scorpion! An Accident! (2)**

"Hahaha..." Wang Teng burst out laughing. "I'm just joking. I'm happy to see you advancing to the heaven stage."

"Wang Teng, you're so evil. You fooled me," Round Ball said angrily.

"Cough, don't say that. I'm just preventing you from getting too arrogant." Wang Teng pretended that he was doing this for its sake.

"Do you want me to thank you?" Round Ball rolled its eyes.

"Oh right, are there any changes after you advanced to the heaven stage?" Wang Teng asked curiously.

"My spiritual power has gotten stronger..." Round Ball pondered for a moment before continuing, "My computing ability has also gotten stronger. I can hack into universe-level spacecraft and eternal-level spacecraft. I can do many things that I couldn't in the past. I might be able to find the top-secret information I couldn't in the past."

Round Ball gave a mysterious smile towards the end.

Wang Teng's eyes lit up uncontrollably.

Compared to Round Ball's power, Wang Teng was more interested in its computational abilities.

Wang Teng needed Round Ball's assistance in various aspects.

An intelligent lifeform was extremely useful, especially to powerful martial warriors. They could provide convenience at any time.

"Good, you didn't eat all the golden light spheres for nothing." Wang Teng smiled happily.

A heaven-stage intelligent lifeform was indeed extraordinary. He had yet to test it but he was confident that Round Ball's ability had improved tremendously. He was certain that there would be occasions in the future where Round Ball's capabilities would prove incredibly valuable.

Round Ball could tell that Wang Teng was genuinely happy when it saw his expression. It felt a little proud and smirked, "Do you understand how useful I am now?"

"Yes, yes. Mister Round Ball, please accept my humble knees." Wang Teng teased it.

Round Ball rolled its eyes at Wang Teng.

This fellow had no shame!

Nevertheless, deep down, it was pleased. After all, its master held it in high regard.

Things weren't easy for it.

In the past, Wang Teng improved so quickly that it couldn't catch up with him. Its status was extremely low.

No one could understand how miserable it felt!

Now, it had finally caught up a little and could continue to fulfill its role. It didn't follow Wang Teng in vain.

However, it didn't expect to advance to the heaven stage after following Wang Teng for such a short time. This was truly remarkable.

Back when it followed its previous master, Nangong Yue, it remained at the cosmos stage for a really long time. There was no comparison.

Boom!

At this moment, another explosion was heard. Green flames swept out in all directions.

Wang Teng and Round Ball immediately looked over.

"The Metal Armor Flaming Scorpion achieved a breakthrough too!" Round Ball exclaimed in surprise.

"After you devoured the golden light spheres, I allowed it to devour some golden light spheres too," Wang Teng said.

"You know how to take advantage of every opportunity," Round Ball quipped.

Wang Teng felt speechless.

Take advantage of every opportunity?

What do you mean by take advantage?

"Keep quiet if you don't know what to say," Wang Teng replied angrily.

Round Ball chuckled. It didn't mind. It looked at the center of the flames and remarked, "The Metal Armor Flaming Scorpion is about to advance to the mid-tier imperial level. Not bad, not bad. Unfortunately, it's not as powerful as Mister Round Ball."

"Your strength isn't much, but your trash talk is pretty impressive. You keep calling yourself a mister." Wang Teng felt a little exasperated. "If we talk about strength, Elizabeth should be the boss."

"I'll stay out of this," Elizabeth said with a faint smile. She had no interest in such matters. As long as she could help Wang Teng, she believed that her status wouldn't be low.

"Look, Elizabeth doesn't want to get involved. That means I'm the boss," Round Ball looked at Elizabeth gratefully before looking smug.

"In that case, defeat Little White and the Metal Armor Flaming Scorpion first," Wang Teng said.

"Erm... let's win them over with virtue. There's no need to resort to violence." Round Ball choked and said in embarrassment.

"In the universe, might is right," Wang Teng said seriously.

"Hmph, find me some spiritual power scriptures and battle techniques. I will definitely be stronger than them after I cultivate." Round Ball snorted.

"Alright, I'll look for them later." Wang Teng pondered for a moment and nodded.

Round Ball's spiritual power had reached the heaven realm. It would be a waste if it didn't cultivate some scriptures or battle techniques.

What's more, he didn't need to spend points to buy these scriptures from the academy. He just needed to look them up in the Devour Nihility Beast's memory.

Having access to the vast treasury of knowledge in the Devour Nihility Beast's memory made many things much simpler and more convenient. It was an advantage that others didn't possess.

Boom!

As they spoke, an explosion came from the center of the green flames. Numerous flames erupted, and a massive figure slowly crawled out from within the inferno.

Very soon, the appearance of the Metal Armor Flaming Scorpion was revealed to Wang Teng and the others.

The Metal Armor Flaming Scorpion was vastly different from before.

First and foremost, its size had increased at least fivefold. It was gigantic. Its entire body was covered in layers of scale-like armor, radiating a cold metallic luster that made it resemble a true steel behemoth.

At the same time, atop these scales were patterns of crimson and green flames that covered nearly every inch of its body, giving it an exceptionally mystical appearance.

## Chapter 1750: The Changes In Round Ball And The Metal Armor Flaming Scorpion! An Accident! (3)

There was a crimson-green flame mark in the middle of its gigantic head. It resembled a cluster of roaring flames.

This was the result of its daily nourishment by both the Emerald Glazed Flame and the Soul Of Thousand Beasts Flame.

Originally born in the presence of the Emerald Glazed Flame, the Metal Armor Flaming Scorpion underwent a mutation, allowing its innate flame to possess the exquisite qualities of the Emerald Glazed Flame.

Thus, it could withstand the nourishment of the Emerald Glazed Flame.

The Soul Of Thousand Beasts Flame was a flame beneficial to all the star beasts in the world. Basking in its nourishment day by day brings tremendous benefits.

Ever since Wang Teng obtained the Soul Of Thousand Beasts Flame, he had been using it to nourish Little White and the Metal Armor Flaming Scorpion. Thus, the Metal Armor Flaming Scorpion possessed a trace of the Soul Of Thousand Beasts Flame's flame power.

With the help of these two divine flames, its fire talent became more powerful.

The other change was in its attacking method. Instead of growing larger, its two massive pincers became smaller. It was now symmetrically proportioned to its body and appeared more harmonious.

It wasn't as conspicuously attention-grabbing as before, where others would immediately recognize the formidability of these pincers. Now, they might not appear as intimidating at first glance.

But, it would be a huge mistake to underestimate this pair of pincers.

The pincers became sharper. When they opened and closed, they looked like sawteeth, glinting with a chilling light.

A normal cosmos-stage martial warrior could be effortlessly severed in half by these pincers.

Only martial warriors who specialized in physical skills could resist the pincers to some extent.

Furthermore, its scorpion tail had grown longer.

Previously, the scorpion's tail could only hang down from its tail to its head. Now, it could coil above its head, winding around for several loops like a giant python. The venomous hook on the tail resembled the fangs of a poisonous snake. It intermittently revealed itself, emanating a chilling glint that sends shivers down one's spine.

Meanwhile, atop that scorpion tail, a wisp of crimson and green flame burns, exuding threads of scorching heat that distorted the surrounding space.

"The change... is quite big!" Wang Teng sized up the Metal Armor Flaming Scorpion in surprise as he muttered to himself.

"Indeed, there's a huge change. The golden light spheres are truly remarkable. Based on the standards of star beasts, reaching the emperor level was already quite impressive for the Metal Armor Flaming Scorpion."

"After that, under the nourishment of the Soul Of Thousand Beasts Flame and eating many good stuff, it managed to reach the low-tier imperial level."

"Now, with the aid of the golden light spheres, it has broken through a very difficult bottleneck for itself and reached the mid-tier imperial level. Moreover, its innate talent seems to have improved significantly. It's truly quite amazing," Round Ball analyzed.

"The golden light spheres can enhance one's innate talent. It will be easier for you to cultivate in the future." Wang Teng nodded.

"Master, you gave me this opportunity. I will never forget it." The Metal Armor Flaming Scorpion flew over from afar and stopped in front of Wang Teng. It lowered its head and thanked Wang Teng.

It heard Round Ball's words and knew that Wang Teng was the reason why it was able to reach this stage. Otherwise, it would have remained merely a lord-level star beast on Earth.

"You don't have to do this. Since you're my pet, I won't forget you." Wang Teng patted its head and smiled.

The Metal Armor Flaming Scorpion was touched, but it didn't say anything. It scratched its head with its pincers and said, "Master, I seem to have grasped a trace of the power of origin."

"Really?!" Wang Teng was shocked. He asked hurriedly, "What origin is it?"

"Origin Of Flame!"

The Metal Armor Flaming Scorpion lowered the coiled scorpion tail from above its head. Crimson-green flames danced around it, transforming into a small flame scorpion that bore a striking resemblance to the Metal Armor Flaming Scorpion itself.

At the same time, peculiar fluctuations emanated with the dancing of the crimson-green flames, causing the surface of the small flame scorpion to crack and intertwine with intricate flame runes. It was a strange sight

"Fascinating!" Wang Teng touched his chin and sized up the flame scorpion with a smile.

"I can understand why Little White grasped the power of origin. After all, it swallowed the blood essence of the blood crow ancestor, and its talent was enhanced. I didn't expect the Metal Armor Flaming Scorpion, to grasp the power of origin too," Round Ball looked at the Metal Armor Flaming Scorpion in surprise.

"It's probably because of the divine flame. After I absorbed the golden light spheres, I naturally understood the Origin Of Flame," Metal Armor Flaming Scorpion said.

"Is that so?" Wang Teng and Round Ball exchanged glances and went into deep thought.

"Divine flames are naturally nurtured entities. They might inherently contain some power of laws of origin. The Metal Armor Flaming Scorpion, having been nourished by these two divine flames for a long time, along with the absorption of the golden light spheres, triggered an explosion of inspiration that allowed it to comprehend the Origin Of Flame. It's a plausible explanation," Wang Teng said.

"That's probably the only explanation." Round Ball nodded.

"It's a good thing that it grasped the power of origin. The Metal Armor Flaming Scorpion gave me a huge surprise." Wang Teng smiled.

"This time, our entire team's strength has been elevated. We won't have to worry about getting ganged up on when we go out in the future," Round Ball laughed.

Everyone found its remarks amusing and burst out laughing.

Wang Teng didn't have much to say. He just transferred the Metal Armor Flaming Scorpion, Elizabeth, and Little White into his Space Fragment.

The Devour Space wasn't suitable for their cultivation and living. It was more comfortable to stay in the Space Fragment.
