Chapter 1815: Eternal Matter! Abnormal Movement in the Chaotic Star Sea! (6)

"What is this???" Dong Yutang and the others outside the alchemy room widened their mouths in disbelief when they saw this scene.

"What happened?" The people waiting outside the alchemy room were abbergasted too.

Boom!

Dark clouds gathered, lightning flashed, and a power more terrifying than all previous lightning calamity descended upon this world in an instant.

Everyone was startled and puzzled.

The lightning calamity appeared again!

Roar!

Roar!

Roar!

Roar!

The Azure Dragons formed by the four pills unexpectedly roared, as if challenging the authority of the calamity lightning itself.

Boom!

Countless bolts of lightning converged, forming a massively robust lightning dragon that descended in an instant. Its speed was so swift that even Wang Teng struggled to react in time.

"F**k!" Wang Teng cursed uncontrollably.

This calamity lightning was being unfair!

It descended without any warning or greeting. It wasn't like this in the future.

There was no time to think. He transformed into a ray of light and shot into the sky, colliding fiercely with the lightning.

At this moment, Hu Qi and Liang Ren nally realized the situation. They had never experienced a calamity lightning before so their experience was not as rich as Wang Teng's. Hence, they didn't react in time.

Fortunately, Wang Teng was present.

Otherwise, these four extraordinary pills might have turned into ashes right after being re ned.

Their expressions turned grim. They used their space skills and quickly appeared in the sky. They glared at the calamity lightning with an intent to intervene at any moment.

However, Wang Teng didn't give them the chance. One after another, bolts of lightning descended, and he effortlessly handled them all.

The lightning calamity this time was indeed more powerful than the previous one. However, he managed to withstand it forcefully by activating all his physique talents.

After the last bolt of lightning was blocked by Wang Teng, the dark clouds gradually dispersed and tranquility returned to the world. The rich aroma of medicinal herbs diffused into the air.

"Finally!" Hu Qi and the others smiled uncontrollably.

Even Wang Teng heaved a sigh of relief.

Two successful attempts at re ning the Yin-Yang Dragon Essence Pill!

Moreover, this time, they were dealing with eternal matter.

Normally, only Alchemy Saints could make such a pill. However, Wang Teng still succeeded with the help of the two eternal-stage martial warriors.

Wang Teng appeared somewhat disheveled, with burnt marks all over his body. These ten bolts of lightning were far more terrifying than before, and even his physical body had a hard time enduring it. He was slightly injured.

"Gasp! It hurts a little!" Wang Teng moved his body and grimaced, taking in a sharp breath of cold air.

The extreme terror of the lightning calamity was due to the unique nature of the pills they re ned this time. These pills were even more extraordinary than the Yin-Yang Dragon Essence Pill made in the previous attempt.

He couldn't help but look at the four pills.

The beam of light dissipated but the four pills still retained their azure dragon shapes. They seemed to possess some intelligence. Sensing Wang Teng's gaze, they tried to escape into the distance at an astonishing speed.

"Quick, catch them!" Wang Teng's expression changed slightly as he immediately shouted.

"Don't worry, they won't get away!" Hu Qi laughed heartily and vanished, rushing toward the four pills.

No matter how extraordinary these four pills were, they couldn't possibly contend with an eternal stage martial warrior. They were captured in an instant.

The azure dragon-shaped pills roared a few times before returning to their pill forms. On the surface of the pills, intricate markings resembling dragon patterns appeared.

Hu Qi sized up the four pills with a strange gaze. He was in a good mood and wanted to laugh out loud.

"Roar!"

However, just at that moment, an immensely terrifying roar suddenly reverberated from the Chaotic Star Sea outside the academy. Shockwaves rippled through all seven continents of the academy.
