

Conqueror 1391

Chapter 1391: Gudu Clan

Xiang Xun and void devil beast Xu Baisheng wanted to chase after the Blood Wolf Gang's Head, but before they could do that, glaring lights burst out from the remaining seventy to eighty flying ships. These lights were composed of numerous formations, canons, and violent light beams, as they shot out almost simultaneously at Huang Xiaolong's group.

Seeing this Xiang Xun bellowed, and spat out a giant black fireball. This was Xiang Xun's Black Infernal Divine Fire.

All canons, violent light beams, sword qi, and everything else were destroyed wherever the Black Infernal Divine Fire swept through. A dozen or so flying ships that were too slow to avoid it were contaminated with Xiang Xun's Black Infernal Divine Fire. In an instant, the flying ships' defensive barriers were burned away leaving a burnt holes in the flying ships.

In the blink of an eye, the dozen flying ships were filled with holes.

Screams could be heard from all directions as the pirates ran out from the flying ships in panic, but they were incinerated into ashes by the Black Infernal Divine Fire.

Watching this, the rest of the space pirates felt their blood run cold and their minds were jarred awake, and all of them turned around their ships and sped away.

"Chase!" Huang Xiaolong ordered coldly.

Everyone swiftly returned to the Giant Shark Flying Shark's control hall.

Huang Xiaolong made a grabbing gesture and spiritual energy swirled and condensed inside the pieces of high grade seven spirit stones from the depths of the void. Ten thousand pieces of high grade seven spirit stones were placed into the flying ship's formation in the blink of an eye.

The formation roared to life.

The Giant Shark Flying Ship quivered slightly as its body's blue light lit up the four directions. In a whoosh, it chased after the pirate ships like an ancient divine beast Giant Shark.

"Activate the Giant Shark's sword wings!" Huang Xiaolong commanded.

"Yes, Master!" Void devil beast Xu Baisheng complied respectfully, and was quick to activate the Giant Shark's sword wings, and two extremely sharp sword wings extended from the sides of the ship.

As the Giant Shark Flying Ship made a line across space. The pirate flying ships on both sides were sliced by the Giant Shark Flying Ship's sword wings. Some of the flying ships were completely sliced into two, and the space pirates who were too late to dodge were split into half.

And the Giant Shark Flying Ship's long fin pierced a pirate flying ship's body, and the fin rotated, forming a frightening wind vortex that pulverized the flying ship into pieces.

One could imagine the tragic ending of the sea pirates onboard the destroyed ship.

Although the Giant Shark Flying Ship had suffered damages in the past that affected its speed, the ship's body and attack power were many times sturdier than the space pirates' low and mid-grade chaos spiritual flying ships. In fact, the sea pirates' flying ships were akin to thin paper when compared to the Giant Shark Flying Ship.

Soon, Huang Xiaolong's Giant Shark Flying Ship had destroyed seventy to eighty pirate flying ships in the blink of an eye.

Shattered remnants of flying ships floated in the Divine World's vast space.

There were a lot of spirit stones, divine pills, and divine artifacts floating amongst the wreckage. These items were most likely robbed by these pirates. Huang Xiaolong decisively collected all these into his spatial ring with a wave of his hand.

"Pity that Blood Wolf Gang's Head escaped!" Xiang Xun sighed.

When the Giant Shark Flying Ship was destroying the fleet of pirate flying ships, the Blood Wolf Gang's Head had taken this opportunity to escape out of sight.

"Which of you know about the Gudu Clan?" Huang Xiaolong suddenly asked. He remembered that one of the three Blood Wolf Gang's three Heads had mentioned about the Gudu Clan's Gudu Man.

"In the vast Divine World, there are a lot of Gudu Clans, and in the High Martial World not far away from here, there is also one Gudu Clan." The little cow stated. "This Gudu Clan is a super force of the High Martial World, even though they cannot be compared to forces such as the Nine Dragons Emperor Palace or the Fortune Gate's headquarters. Still, they are a powerful force in the High Martial World and its neighboring world surfaces!"

The Fortune Gate's headquarters was called the Fortune Emperor Palace.

"The High Martial World's?" Huang Xiaolong repeated in doubt.

The little cow nodded and explained, "This Gudu Clan is one of the five big clans of the High Martial World, but it's merely a branch of the Solitude Emperor Palace.

Huang Xiaolong nodded, then a thought flashed across his mind. He asked, "How strong is the Solitude Emperor Palace's power?"

"Very strong. Your Fortune Emperor Palace, the Nine Dragons Emperor Palace, and Solitude Emperor Palace are the top one hundred Emperor's Palaces in the Divine World. There are tens and thousands of Emperor Palace forces in the vast Divine World, and those who rank in the top one thousand are already a first-rank force in the whole Divine World, therefore, those in the top ten are very strong. And the top ten Emperor's Palace are hegemony of the Divine World!" The little cow explained.

"You will know after you enter the Fortune Emperor Palace."

Huang Xiaolong took a deep breath to adjust his mind.

Huang Xiaolong started realizing that his strength was too weak as his knowledge of the Divine World widened.

The Blood Wolf Gang was a good example. He learnt that some common pirates were also the God King Realms, and the Blood Wolf Gang had three God King Realm masters.

If he had come across them alone, without Xiang Xun, void devil beast Xu Baisheng, and the others, he would have ended up dead.

Therefore, it was crucial for him to advance to the God King Realm as soon as possible, as this was the only way for him to have the most basic strength to ensure safe living in the Divine World.

Even if he still was going to need a long time before he could break through to God King Realm, at least, high-level Ancestor God Realm was within his grasp.

With his three supreme godheads and True Dragon Physique, once he would break through to Tenth Order Ancestor God Realm, he would then become capable of killing a First Order, even Second Order God King Realm!

...

The Giant Shark Flying Ship continued onward to the High Martial World.

In the meantime, Huang Xiaolong returned to cultivation room number one and continued to cultivate in a frenzy, and he was even frenzier than he had been before. Earlier, he had refined six Tenth Order Ancestor God Realm Sea Gods' spirit, and there was still one peak late-Tenth Order Ancestor God Realm Sea God's spirit left.

Huang Xiaolong summoned out his three avatars, and that sat cross-legged around Huang Xiaolong to form a four-colored spiritual energy gathering formation. The main body and three avatars strived to absorb the Sea God's spirit's pure energy.

As Huang Xiaolong and his three avatars absorbed the pure energy in cultivation room number one, air blasts could be heard from inside the room.

...

Time flowed by, and five days went by in the blink of an eye.

Xiang Xun and Xu Baisheng stopped the Giant Shark Flying Ship some distance away from the High Martial World, then stood respectfully outside the cultivation room number one. They did not dare to disturb Huang Xiaolong's cultivation, and therefore they waited quietly for Huang Xiaolong.

Huang Xiaolong finally stepped out from the cultivation room after a month.

Even though Huang Xiaolong had spent this one month devouring the peak late-Tenth Order Ancestor God Realm Sea God's spirit's pure energy, he had not broken through to peak early Third Order Ancestor God Realm. But he could feel a significant increase in his strength.

Huang Xiaolong stepped out from the Giant Shark Flying Ship. A tiny light glimmered on his forehead as he transferred the Giant Shark Flying Ship into the chaos Golden Dragon Lightning Pool's space. Then, he leaped onto the little cow's back and passed through the High Martial World's barrier with Xiang Xun and the rest following his lead.

Huang Xiaolong looked around and saw that the High Martial World's airspace was busy with various forces' flying ships flying in all directions.

On the other hand, there was a faint fire element aura coming up from the ground. This fire element aura was likely due to someone triggering the fire element energy that was being used for forging.

After a brief stop, Huang Xiaolong's group flew towards the biggest mainland in the High Martial World. Three days later, Huang Xiaolong's group reached the Martial Dragon Mainland.

Upon entering the Martial Dragon Mainland, Huang Xiaolong immediately sensed a robust dragon qi coming from the depths of the mainland.

Huang Xiaolong was surprised and astounded.

This is a dragon spiritual vein!

And this dragon spiritual vein has reached a high grade seven! Maybe even grade eight!

A world surface like the Vientiane World could not give birth to a grade seven spiritual vein because the Vientiane World's spiritual energy's quality was simply too poor to gestate any high grade spiritual veins.

But there was actually one in this High Martial World!

Spiritual vein was none other than spirit stone mine. Mining a spiritual vein could bring several hundred thousand spirit stones, and one could probably mine several million spirit stones from a big spiritual vein.

Several millions of grade seven spirit stones were an astonishing wealth.

"Don't covet this dragon spiritual vein." The little cow's voice brought Huang Xiaolong out of his daydream. "Unless you want to become sworn enemies with the High Martial World's five big clans."

Huang Xiaolong asked, "There is more than one grade seven spiritual vein in this High Martial World?"

The little cow was caught off guard by his question but nodded slowly and answered, "That's right, there are five in total, and together, they form the Five Extinction Killing Formation. The five clans control one spiritual vein each, and anyone who dares to touch any one of the spiritual veins... hehe!" The meaning was evident.

"Which clan is the strongest among the High Martial World's five clans? Is it the Gudu Clan?" Huang Xiaolong asked another question.

The little cow shook her head. "No, not them. The strongest is the Longwu Clan, and this Martial Dragon Mainland's name comes from their surname. The Longwu Clan's core disciples have the dragon bloodline, however, it has thinned considerably over the ages. On top of that, the Longwu Clan's core disciples' body can transform into a dragonman, as they possess some attributes of the Dragon Clan."

Huang Xiaolong was a little surprised, "The Longwu Clan's core disciples' can actually transform...?!"

The little cow affirmed, "Yes, this aspect is somewhat similar to you, however, their transformation is dragonman, whereas your transformation is primordial divine dragon. It's the difference between heaven and earth."

"Could it be that this Longwu Clan's ancestors originated from the ancient Dragon Clan?" Huang Xiaolong asked.

"I'm not very clear about this," said the little cow. "But that's probably the case since they have the dragon bloodline. They should be the later generations of a human and Dragon Clan."

"Then, is there any connection between the Nine Dragons Emperor Palace and the Longwu Clan? Are they another force serving under the Nine Dragons Emperor Palace?" Huang Xiaolong asked more questions.

"No, the Longwu Clan is not affiliated with any Emperor's Palace." The little cow went on solemnly, "That's the strange thing. The Longwu Clan does not have the backing of any Emperor's Palace yet they are able to become the 'head' of High Martial World's five clans!"

Xiang Xun interjected, "Maybe, this Longwu Clan's backing is a peerless master that Emperor's Palace is wary of."

The little cow blanked for a second, then mumbled, "Maybe."

The group chatted as they flew forward. They were so engrossed in chatting that they arrived at the Martial Dragon City's city gates even before they realized it.

The Martial Dragon City's tall city walls were akin to an immemorial mountain range, and Huang Xiaolong's group was able to feel the presence of faint dragon qi inside the city walls!

Huang Xiaolong observed carefully, and discovered that each giant brick was pulsing with dragon vitality from within.

"No need to stare at those walls anymore—these city walls are built of Yang Dragon Stone, in fact, the whole Martial Dragon City is built with these Yang Dragon Stones!" The little cow stated.

Feng Er, Gui Yi, and the others sucked in a breath of cold air.

Yang Dragon Stone was a kind of chaos spiritual stone, and it did not come cheap. Furthermore, it was not something that could be bought even if there was ample money, but the entire Martial Dragon City was built out of these Yang Dragon Stones!

This was scary! Huang Xiaolong was genuinely frightened.

"The whole Martial Dragon City's perimeter measures three million li, inscribed with thirty thousand ancient grand formations!" The little cow added, "Once these thirty thousand ancient grand formations are activated, it could instantly kill a high-level God King Realm master!"

Huang Xiaolong, Feng Er, and the others listened with wide eyes.

Thirty thousand ancient grand formations!

This was the tyranny of an ancient city's foundation and wealth!

"However, it takes thirty thousand God King Realm masters to activate these thirty thousand ancient grand formations." The little cow went on.

Huang Xiaolong, Feng Er, and the rest were astonished once more.

“The Longwu Clan has thirty thousand God King Realm masters?” Void devil beast Xu Baisheng blurted out his doubt.

The little cow rolled her eyes at him. “I didn’t say the Longwu Clan has thirty thousand God King Realm masters, I only said it takes thirty thousand God King Realm masters to fully activate all thirty thousand ancient grand formations.”

Xiang Xun, void devil beast Xu Baisheng, and the others dazed for a second. But Huang Xiaolong was even more curious as to why the little cow knew so much about the Longwu Clan?

The group stepped through the city gates and entered the Martial Dragon City after paying the entry fees.

Bigger world surfaces such as the High Martial World commonly used spirit stones as currency, instead of shenbi.

Naturally, the low-grade spirit stones held no value in the Divine World, therefore the commonly used spirit stones were grade four spirit stones and above.

Since there was a scarcity of high grade spirit stones, high grade spirit stones like grade seven spirit stones were extremely popular in the Divine World.

After entering the Martial Dragon City, Huang Xiaolong’s group casually strolled down the main street.

The streets were filled with various forging shops as well as the shops selling forging materials. Huang Xiaolong, Feng Er, Gui Yi, and others’ eyes were bedazzled by this sight.

However, the Giant Shark Flying Ship was a top grade chaos spiritual flying ship, and the materials needed to repair it needed to be top grade chaos iron ores, top grade chaos spirit stones, and some rare top grade chaos divine flying beasts’ blood and wings. And this grade of precious materials were not sold in these small scale shops. Hence, Huang Xiaolong’s group went to the few big shops in Martial Dragon City.

The few big forging material shops in the Martial Dragon City were located in the most prosperous location.

While Huang Xiaolong's group was heading there, the pedestrians behind them were suddenly in an uproar. Huang Xiaolong and the others looked over their shoulders and saw that the pedestrians in the streets had parted to the sides of the street.

Soon, a group of men and women came riding on chaos spiritual beasts from the other end of the street.

"It's the people from the Longwu Clan and Gudu Clan!"

"Do you see that? The woman in the middle at the front is Longwu Clan's Longwu Ling Er, one of the most talented geniuses of Longwu Clan's younger generation!"

"The man on her left is the Gudu Family's Gudu Yue, and the woman on the right is the Gudu Clan's number one beauty, Gudu Man. Recently, I've heard that the Solitude Emperor Palace is planning to recruit genius disciples with emperor rank godhead from various branches. Gudu Yue and Gudu Man would head over there to register in a few days. With their aptitudes, they would definitely rouse the interest of the Solitude Emperor Palace's Grand Elders!"

Some of the other sects' disciples, who were standing on the side of the street, this information drilled into Huang Xiaolong and others' ears.

Longwu Ling Er, Gudu Yue, Gudu Man!

Huang Xiaolong's gaze fell onto the three people at the front of the group. He had to admit Gudu Man indeed had a beautiful face, and a very charming and lovely appearance.

However, the Longwu Clan and Gudu Clan's group sped away in a blur on their mounts. Soon, the group left and the pedestrians resumed walking on the street.

Huang Xiaolong looked at the backs of the Longwu Clan and Gudu Clan. The Solitude Emperor Palace is also recruiting emperor rank godhead disciples from its branches?

“Longwu Ling Er’s talent is still not bad.” The little cow said.

“Xiaoniu, what is your relation with the Longwu Clan?” Huang Xiaolong asked suddenly.

Chapter 1393: He’s Coming To Hit On Us?

Xiang Xun, void devil beast Xu Baisheng, Feng Er, and the rest also looked curiously at the little cow. They too had the feeling that the little cow seemed to have some deep connection with the Longwu Clan.

Contrary to their suspicions, the little cow shook her head. She explained, “I don’t have any connection with the Longwu Clan. On the other hand, one of my many grand-disciples was quite close to the Longwu Clan, thus, I know some things about them.’

The others were surprised. ‘Is it really like that?’

Especially, Huang Xiaolong was still not convinced by the little cow’s excuse.

The little cow was upset as she saw the disbelief on everyone’s faces, and kicked the void devil beast Xu Baisheng. She grumbled, “With my identity, do I need to lie? Not to mention, it’s just a small Longwu Clan, so do you think they are capable of having a connection with me?!”

Void devil beast Xu Baisheng rubbed his painful butt, looking extremely innocent and wronged. Why was he the one who always got kicked and injured?

Huang Xiaolong did not insist on digging any further as he saw that the little cow was upset, so he quickly changed the subject.

The group continued to walk onwards.

Roughly three hours later, Huang Xiaolong's groups reached the center of the most prosperous street.

Huang Xiaolong stopped in front of a shop called 'Finest Grade House.'

'Finest Grade House' was one of the Divine World's giant commerce houses. And the shop in the Martial Dragon City was merely a branch in the High Martial World. The shop was tastefully decorated, unique and distinctive.

Huang Xiaolong's group entered the shop's big and spacious lobby.

The lobby seemed crowd despite being spacious and large. Huang Xiaolong soon spotted the Longwu Clan and Gudu Clan's disciples whom he had seen earlier in the streets.

Longwu Ling Er, Gudu Yue, and Gudu Man were the center of attention and were merely standing there. Both of the clans' disciples were standing behind them, while the disciples and experts from the other clans were flattering them.

"This Young Noble, may I ask what you're looking to buy?" A staff came over when he spotted Huang Xiaolong's group. His manner was polite and courteous.

"I want a hundred pieces of top-grade chaos sea spirit stones, a hundred top-grade chaos deep sea iron ore, a hundred drops of top-grade chaos spiritual beast Giant Shark's blood essence, a hundred pairs of Giant Sharks' sword wings..." Huang Xiaolong listed out over a dozen top-grade chaos forging materials in a single breath.

The staff's initial nonchalant thoughts turned agape after listening to Huang Xiaolong's request.

Other people in the lobby looked at Huang Xiaolong with astonishment. A second later, laughter resounded in the hall.

One piece of any kind of top-grade chaos material comes at a high price, but Huang Xiaolong was planning to buy more than a dozen kinds of top-grade chaos materials, and a hundred quantities of each kind.

As for the top grade chaos spiritual beasts' blood essence and wings, they were costlier than the other materials in Huang Xiaolong's list.

Longwu Ling Er, Gudu Yue, and Gudu Man also looked over in Huang Xiaolong's direction.

"Which family's young lord is he? Why does he want to buy so many top-grade chaos spirit stones and top grade chaos spiritual beasts' blood essence and wings?!" One of the Gudu Clan's disciples couldn't help voicing his doubt.

"I think he purposely said so. God knows how many families' disciples want to show off their 'good sides' in front of Miss Longwu Ling Er, and Miss Gudu Man, in attempts of catching their attention. Just wait and see, I bet he's going to try striking a conversation with Miss Longwu Ling Er, and Miss Gudu Man." Another Gudu Clan's disciple interjected.

"That's it! No trading houses can supply so many top-grade chaos spirit stones or top-grade chaos spiritual beasts' blood essence and wings. He knows it very well that Finest Grade House can't fulfill his order, that's why he is daring to say it." A Longwu Clan disciple chimed in.

Longwu Ling Er, and Gudu Man shook their heads, seemingly, they agreed with what the Gudu Clan and Longwu Clan's disciples had said. That black-haired young man was just a big liar trying to attract their attention.

They had seen many of these kinds of young lords in their lives.

Even though the shop's male staff also didn't think that Huang Xiaolong could afford so many top-grade chaos forging materials, he did not show it on his face. His professional smile did not falter as he asked Huang Xiaolong, "Our branch does not have so much stock on hand for all the materials the Young Nobel wants."

“How much do you have? I’ll buy them all.” Huang Xiaolong stated aloofly. He ignored the mocking gazes from the Longwu Clan and Gudu Clan’s disciples, as well as others in the lobby.

The staff was taken aback by Huang Xiaolong’s request, but swiftly widened his smile as he said, “In that case, please wait here for a moment.” With that, he turned around and hurried away.

The staff returned to the lobby shortly, and he was following behind a middle-aged man who looked like his supervisor.

The middle-aged supervisor had a stalwart built; wisdom in his bright, piercing eyes; and a comforting and reassuring smile on his face.

“This one is Duan Zhen, the Martial Dragon City’s Finest Grade House’s supervisor. We currently have sixty-pieces of top-grade chaos spirit stones, seventy-three pieces of top-grade chaos deep-sea iron ore, forty-three drops of top grade chaos spiritual beast Giant Shark’s blood essence, and thirty-five pairs of sword wings...” Supervisor Duan Zhen reported the availability of each item to Huang Xiaolong with a smile on his face. Finally, he took out a spatial ring and personally opened it for Huang Xiaolong’s viewing. “Everything is inside here.”

All eyes in the lobby fell onto the spatial ring in Duan Zhen’s hand, and their eyes glimmered with desire.

The things inside this spatial ring rivaled more than twenty thousand years accumulation of wealth for some first-rank forces in High Martial World.

While everyone’s attention was on the spatial ring in his hand, Supervisor Duan Zhen chuckled and said, “However, our Finest Grade House transacts with grade six spirit stone and above. May I know what grade spirit stone Young Noble would be using for this transaction?”

“High grade seven.” Huang Xiaolong remained aloof.

Duan Zhen’s eyes obviously lit up and the smile on his face widened. “If it’s a high grade seven spirit stones, we can give Young Noble a ten percent discount. Then, the total is...” He stopped briefly as he tabulated in his heart and gave a new amount, “76,325 high grade seven spirit stones.”

Seemingly afraid Huang Xiaolong could not take out such a large amount of high grade seven spirit stones at once, Duan Zhen added, "Of course, Young Noble could pay half first, and the remaining sum in a few days."

"No need!" Huang Xiaolong shook his head. With a wave of his hand, high grade seven spirit stones fell from the void, like a meteor rain hitting the lobby floor.

Soon, an enormous pile of high-grade seven spirit stones appeared in front of everyone.

Every piece was a high grade seven spirit stone!

"76,400 in total, keep the change." Huang Xiaolong said.

Great waves of shock hit the hearts of the people in the lobby as they stared at the enormous pile of high grade seven spirit stones. Longwu Ling Er, Gudu Yue, and Gudu Man were equally astounded as the others.

There were 76,400 high-grade spirit stones in front of them! The shock this sight gave them was simply excessive.

Since Duan Zhen had blanked out, Huang Xiaolong added, "Supervisor Duan, if there's no problem, can you give me those top-grade chaos sea spirit stones, Giant Shark's blood essence, and the rest?"

Duan Zhen regained his senses and quickly nodded. "No problem, no problem." He then respectfully handed the spatial ring to Huang Xiaolong.

Huang Xiaolong walked in Longwu Ling Er, Gudu Yue, and Gudu Man's direction after he received the spatial ring from Duan Zhen.

As they saw Huang Xiaolong walk towards them, Longwu Ling Er and Gudu Man suddenly found themselves feeling nervous, even though they had been immune to the opposite sex's charms until that moment. Perhaps, they were affected by the 76,400 high grade seven spirit stones.

He's coming to strike up a conversation?

This thought appeared in both young women's minds almost simultaneously.

They had known from their past experiences that most young men would come over and try to strike up a conversation with them after displaying their wealth.

Chapter 1394: Space Velocity Stone

Others in the lobby also looked at Huang Xiaolong.

When Longwu Ling Er and Gudu Man were anticipating that Huang Xiaolong was going to hit on them just like everyone else, Huang Xiaolong suddenly made a right turn and said to the rest of his group, "Let's go."

Go...?!

Subsequently, everyone watched Huang Xiaolong's group dumbfoundedly as he turned and walked towards the entrance.

Longwu Clan and Gudu Man's eyes widened in disbelief. 'Wasn't this young master intending to get close to them?'

Others in the lobby finally came to their senses by the time Huang Xiaolong, Xiang Xun, and the rest of the group had reached the entrance.

Longwu Clan and Gudu Clan's disciples shouted angrily, "Stop right there!"

These Longwu Clan and Gudu Clan's disciples disappeared into a blur and were blocking Huang Xiaolong's path in the next second.

Huang Xiaolong's cold gaze swept over these disciples' faces. They were the same Longwu Clan and Gudu Clan's disciples who had claimed that he was being pretentious in order to attract Longwu Ling Er and Gudu Man's attention, and get close to the two young ladies.

"What is the meaning of this?" Huang Xiaolong asked calmly. "Could it be that you want to rob the top grade chaos sea spirit stones, Giant Shark's blood essence, and sword wings?"

Meanwhile, the Finest Grade House's Supervisor Duan Zhen came over with a sullen expression. He was extremely displeased at the glared at the several Longwu Clan and Gudu Clan's disciples. "The Longwu Clan and Gudu Clan's disciples are becoming more unruly nowadays, and you even have the guts to make trouble in my Finest Grade House! You also dare to block my Finest Grade House's important guest! Now, roll to the side, or else I don't mind throwing all of you into my Finest Grade House's dungeon!"

The several disciples who were blocking Huang Xiaolong's path ashened. Only then did they remember that they were at the Finest Grade House!

The Finest Grade House was one of the Divine World's giant trading houses. Forget about them, even their clan's Ancestors did not dare to let out a fart in the Finest Grade House.

Maybe, an Elder of Solitude Emperor Palace might be able to let out a small fart here.

In the meantime, Longwu Ling Er had approached the entrance and snapped at the several Longwu Clan's disciples, "Quickly, step away!"

Gudu Yue and Gudu Man also came over and 'reprimanded' the Gudu Clan's disciples who were blocking Huang Xiaolong's path.

Longwu Ling Er said to Duan Zhen, "Supervisor Duan Zhen, I can assure that they are not blocking this Young Noble's path out of malicious intent, but they merely want to inquire about something. Supervisor Duan Zhen, please soothe your anger."

Gudu Yue and Gudu Man also chimed in and backed Longwu Ling Er's words.

Supervisor Duan Zhen's sullen expression eased. He preferred not getting on the wrong foot with Longwu Ling Er, Gudu Yue, and Gudu Man. He nodded lightly at them, then turned to ask Huang Xiaolong, "Young Noble, what do you think?"

"It's alright." Huang Xiaolong spoke flatly.

Even though it was obvious to everyone else as to why these Longwu Clan and Gudu Clan's disciples had stopped Huang Xiaolong, they were still in the Longwu Clan and Gudu Clan's territories. If it wasn't absolutely necessary, then Huang Xiaolong preferred to avoid conflict with these two clans here.

A smile bloomed over Duan Zhen's face when he heard that Huang Xiaolong did not want to make things worse, and took out a golden card. "This is our Finest Grade House branch's VIP card. Young Noble can look for me on your next visit."

Although it wasn't likely that he would visit the High Martial World again, Huang Xiaolong did not refuse Duan Zhen's goodwill. He received the golden card, and nodded at Duan Zhen. "Sure!"

After that, Huang Xiaolong turned and left.

Longwu Ling Er and Gudu Man watched as Huang Xiaolong stepped out of the Finest Grade House's entrance, and both opened their mouths as if they had something to say, except they were tongue-tied.

Huang Xiaolong headed to the Myriad Circles Commerce Hall after he came out from the Finest Grade House.

This Myriad Circles Commerce Hall was also one of the Divine World's giant trading houses.

There were three branches of giant trading houses' in the High Martial World, all three were located on the same street of Martial Dragon City, and in short distance from each other.

Entering the Myriad Circles Commerce Hall, Huang Xiaolong basically used the same routine and calmly listed all the top grade chaos forging materials he wanted.

The experts and disciples at the Myriad Circles Commerce Hall's lobby were equally shocked at Huang Xiaolong's request.

Similarly, the Myriad Circles Commerce Hall's supervisor came out and sold Huang Xiaolong all the top-grade chaos sea spirit stones, top-grade chaos spiritual beasts' blood essence and wings that Huang Xiaolong requested.

Huang Xiaolong took out almost ten thousand high grade seven spirit stones in front of all the dumbfounded onlookers.

Huang Xiaolong was frowning slightly after he received the spatial ring from the Myriad Circles Commerce Hall's supervisor. He had purchased dozens of the forging materials in large quantities, but there was still one item on his list that was unavailable at the Finest Grade House as well as Myriad Circles Commerce Hall!

Not even one!

He was still lacking the top grade chaos space velocity stone.

This top-grade chaos space velocity stones were essential for repairing the Giant Shark Flying Ship, and without these stones, the other purchased materials would be useless.

Huang Xiaolong couldn't help but inquire about the top-grade chaos space velocity stones to the Myriad Circles Commerce Hall's supervisor.

"Young Noble is looking to buy top-grade chaos space velocity stones? It's simply too hard to find, none of the shops in High Martial World carry them. Not even the Finest Grade House or Flying Paradise Commerce Hall carry it." The Myriad Circles Commerce Hall's supervisor said to Huang Xiaolong.

Huang Xiaolong's good mood collapsed instantaneously.

“But, half a year later, the High Martial World would hold a great auction, and the auction items are rarer than usual. Perhaps, the top-grade space velocity stones might get auctioned during that time.” The Myriad Circles Commerce Hall’s supervisor added.

A ray of hope shone into Huang Xiaolong’s heart.

If that was so, he could wait for half a year.

“Would the great auction announce the items on auction in advance?” Huang Xiaolong asked.

In general, a large scale auction would announce the items on auction two months in advance. The people would learn what treasures the great auction would auction, and prepare their budget accordingly so that things would progress more successfully.

“Probably three months in advance.” The Myriad Circles Commerce Hall’s supervisor estimated.

Huang Xiaolong nodded. ‘If he waited for another three months, he would know if any top-grade chaos space velocity stones would be auctioned at the great auction.’

Huang Xiaolong subsequently bought several sets of top-grade chaos spiritual armors from the Myriad Circles Commerce Hall. Although he had a lot of divine armors inside his spatial ring, none of them was a top-grade chaos spiritual artifact. Not to mention, he could give them to Li Lu or Yao Chi upon returning to Fortune Gate.

Just as Huang Xiaolong, the little cow, and the others were about to leave, they ran into a group of people at the Myriad Circles Commerce Hall’s entrance, and it was none other than the Longwu Clan and Gudu Man’s group.

Longwu Ling Er’s group was also surprised running into Huang Xiaolong.

“Supervisor Chen Yuan, I’ve heard that several sets of new top grade chaos spiritual divine armors arrived a few days back?” Longwu Ling Er asked as she took a few steps towards Supervisor Chen Guan. “I would like to take a look, and if they are suitable, I will buy them.”

The Myriad Circles Commerce Hall's Supervisor Chen Guan looked a little embarrassed at her words. "Miss Longwu, you're a step late. Those several top grade chaos spiritual divine armors were just bought by this Young Master." He gestured towards Huang Xiaolong.

Longwu Ling Er and others turned to look at Huang Xiaolong in surprise.

Chapter 1395: Ungracious

Huang Xiaolong was indifferent.

During this time, Longwu Ling Er hesitated slightly before approaching Huang Xiaolong. "Young Noble, can I ask if you could sell those top grade chaos spiritual divine armors to us? Rest assured, we would pay the same amount of spirit stones you've paid to the Myriad Circles Commerce Hall."

Huang Xiaolong shook his head. "Sorry, I have no intention of selling them."

The Longwu Clan and Gudu Clan's disciples were immediately upset at Huang Xiaolong's response, and their expression turned hostile.

"Punk, what did you say?! Do you know who our Miss Ling Er is?!"

"Our Miss Ling Er has made a polite request, but you're so ungracious in refusing her request!"

"Young masters in the High Martial World as well as the neighboring world surfaces always comply with Miss Ling Er's wishes. Which family's young master are you?!"

Longwu Clan's disciples clamored in fury as if Huang Xiaolong had violated Heaven's law and couldn't be pardoned because of it.

It was as if Huang Xiaolong should not have refused Longwu Ling Er's request at any cost.

Even Longwu Ling Er had an ugly expression on her delicate face.

Longwu Ling Er was used to getting anything she wanted as long as she opened her mouth. The men would usually offer her things with both hands while showering her with flattering smiles and words.

Opposite to that, Huang Xiaolong had outright denied her request, even though she had spoken to him in person as well as had agreed to compensate him!

He had refused so directly!

Gudu Yue and Gudu Man were also eyeing Huang Xiaolong with ill-intent.

“Let’s go.” Huang Xiaolong said to Xiang Xun and the rest. He was too lazy to be bothered with these clamoring Longwu Clan and Gudu Clan’s disciples.

Huang Xiaolong didn’t even spare another look at Longwu Ling Er.

“You—!” Seeing that Huang Xiaolong had disregarded her, Longwu Ling Er’s face turned red with anger and malice.

Even though the Longwu Clan’s disciples were furious, none of them dared to block Huang Xiaolong’s path, like they had done earlier at the Finest Grade House.

Longwu Ling Er, Gudu Yue, and Gudu Man, and the rest of their group could only watch Huang Xiaolong leave.

“This punk actually dared to offend Miss Ling Er? I’m going to make sure that none of the shops in High Martial World would dare to sell a single thing to him!” One of the Longwu Clan’s disciples swore through gritted teeth.

Longwu Clan's disciples who were qualified to follow Longwu Ling Er were all important Longwu Clan's core disciples. Therefore the majority of High Martial World's shops would not dare to conduct any business transactions with Huang Xiaolong, if they were ordered to do so by one of these disciples.

"No need." Longwu Ling Er stopped him.

Although doing so could somewhat vent her anger, at the end of the day, it was meaningless. Not to mention their Longwu Clan's words had no effect on the trading house giants like the Finest Grade House, Myriad Circles Commerce Hall, and the Flying Paradise Commerce.

"Miss Ling Er!" The Longwu Clan's disciple was unwilling to let Huang Xiaolong off.

Longwu Ling Er turned around and stepped into the Myriad Circles Commerce Hall without another word, indicating the subject was closed. Inside, she was planning to buy some forging materials, but in the end she was not able to focus on shopping.

On the other hand, after leaving the Myriad Circles Commerce Hall, Huang Xiaolong appeared at the Flying Paradise Commerce's lobby to inquire about the space velocity stone.

However, according to the Myriad Circles Commerce Hall's Supervisor Chen Yuan, the Flying Paradise Commerce also did not have the space velocity stone.

After checking the three biggest trading houses, Huang Xiaolong could only give up and wait for news of the auction.

Considering that he would need a residence for half a year in the High Martial World, Huang Xiaolong did not continue renting a courtyard, instead, he bought a luxurious residence from the Flying Paradise Commerce.

The luxurious residence was located in the center area of the Martial Dragon City. The residence was enormous and luxurious, and was built with the finest materials, such as the rare spirit stones, iron and ores, and spiritual wood. Each courtyard within the residence was equipped with an ancient spiritual energy gathering formation. As long as one has enough spirit stones, these spiritual energy gathering formations could be activated without any limit.

Huang Xiaolong picked a courtyard of his choice, and directly entered into cultivation seclusion.

He must cherish each day of cultivation before entering the Fortune Gate's headquarters, in order to improve his cultivation as much as possible.

He had finished refining the sixth Ancestor God Realm Sea Gods' spirits inside the Sea God Tower. Therefore, it was now time for him to refine the God King Realm Sea Gods' spirits, and he needed Xiang Xun's assistance to do that.

At this point, he couldn't care too much about exposing his three avatars with their supreme godheads to Xiang Xun. 'It's fine if Xiang Xun learns about them. After all, Xiang Xun was controlled by Huang Xiaolong's grandmist worm, therefore, Xiang Xun was absolutely loyal to him. Due to this, Huang Xiaolong wasn't worried about Xiang Xun leaking this matter out.

Sitting cross-legged inside his courtyard, Huang Xiaolong summoned his three avatars. His three avatars sat around him, forming a four-colored spiritual energy gathering formation that resonated with the courtyard's ancient spiritual energy gathering formation.

Xiang Xun was indeed taken back and shocked when he saw Huang Xiaolong's three avatars.

With his judgement, he could see how heaven-defying Huang Xiaolong's three avatars were. Each avatar's physique was incredibly strong, and their talents were equally strong as the main body. As for the three avatars' godheads, they should also be supreme godheads like Huang Xiaolong.

Three avatars with supreme godhead!

Xiang Xun had been living for billions of years; forget about seeing something like this with his own eyes, he had never even heard of it.

While Xiang Xun was still processing his shock, there were tiny ribbons of lightning crackling on Huang Xiaolong's forehead as the Sea God Tower flew out. As Huang Xiaolong and his three avatars circulated their godforce, a pure and vigorous energy from a Sea God's spirit flowed out from the tower.

Xiang Xun quickly focused himself. His godforce coordinated to suppress the God King Realm Sea God's spirit for Huang Xiaolong. This would make the spirit's energy much gentler, thus making it easier for Huang Xiaolong and his three avatars to absorb it.

Even with Xiang Xun's effort in suppressing the God King Realm's Sea God spirit, its energy was still violent and every wave was equivalent to endless waves crashing into Huang Xiaolong and his Avatars. This energy was many times stronger than an Ancestor God Realm's Sea God spirit, and of higher quality.

Huang Xiaolong's three supreme godheads spun to the limit of absorbing the Sea God's spirit's energy. A golden halo enshrouded Huang Xiaolong and his three avatars.

The chaos lightning qi from his Golden Dragon Lightning Pool surged out with vigor, tempering and strengthening Huang Xiaolong and his three avatars' godheads.

The four divine fires in his body also greedily absorbed the chaos spiritual energy from the void.

Time flowed by, and in the blink of an eye three months had passed.

Huang Xiaolong gradually absorbed the early First Order God King Realm Sea God's spirit's energy With Xiang Xun's help. Unfortunately, even after refining the early First Order God King Realm Sea God's spirit, his cultivation had merely risen to mid-Third Order Ancestor God Realm. Initially, he had expected to advance to peak mid-Third order Ancestor God Realm.

'I wonder if there's news from the auction house.' Huang Xiaolong thought as he stopped cultivating. Before he had entered seclusion, he had asked Feng Er and the rest to keep an eye on news from the auction house.

Huang Xiaolong saw Feng Er, Gui Yi, and the others as he stepped out from his courtyard.

"Manor Lord!" Feng Er and the rest quickly stepped forward and saluted upon seeing Huang Xiaolong.

Huang Xiaolong nodded, then asked, "Has the auction house announced the auction items? Did you find any clues about the space velocity stone?" He asked them with a tone of urgency.

Chapter 1396: The Flaming White Phoenix Divine Fruits

Huang Xiaolong was waiting nervously for Feng Er's reply. She smiled brightly and answered respectfully, "Manor Lord, we've got news that there would be space velocity stone at the auction!"

Huang Xiaolong's eyes lit up upon hearing her answer. "There is!"

"The space velocity stones are really going to be auctioned!"

Thankfully, the few months of waiting in the High Martial World had not proven to be unfruitful.

Feng Er respectfully answered with a smile, "That is so, Manor Lord. It's said that the space velocity stones came from a mysterious expert. To top it off, there are over three hundred pieces, and this person has requested for these three hundred plus space velocity stones to be sold in one batch. Moreover, a lot of other forces are interested in this batch of space velocity stones, hence, we can estimate that the final price to be very high!"

Huang Xiaolong shook his head as a faint smile curved up the corners of his lips, "That's not a problem."

Price? He had an abundance of grade seven spirit stones.

"Does the seller have any other requests?" Huang Xiaolong asked.

"The seller only accepts spirit stones grade seven and above." Feng Er replied. "The highest bidder wins with no limits during the auction!"

Grade seven and above!

Huang Xiaolong's nerves eased. It won't be a problem as long as it wasn't grade eight spirit stone.

"Gather everyone, we're going out for a walk!" Now that it was confirmed that there would be space velocity stones at the auction, Huang Xiaolong was in a good mood. Thus, he felt like going out for a walk.

Feng Er and Gui Yi complied, then turned and left to gather the others.

A few minutes later, everyone was gathered in the front hall.

Huang Xiaolong was surprised to see that the little cow had grown bigger in these few months.

It had been a long time since the little cow's body had grown, and this time, not only her head, but her body, her legs, and her butt had grown bigger as well. Her golden horns were longer and thicker than before.

"Xiaoniu, you must have eaten too many godheads in these few months, since you have grown so fat now?" Huang Xiaolong teased.

The little cow grinned smugly. "What? You're jealous? You can also munch on a few godheads." She had an extremely proud attitude.

Huang Xiaolong was once again surprised by her reaction. In the past, the little cow would be dejected instead, why was she looking smug and proud today? Could it be...?

Huang Xiaolong observed the little cow from left to right, and from top to bottom.

The little cow immediately covered her chest with her front hooves, and asked timidly, "What are you looking at?"

A strong feeling of speechlessness came over Huang Xiaolong.

Xiang Xun chuckled at the side. "In these months, Senior Xiaoniu's strength must have risen significantly, which is why her body has also grown bigger."

The little cow generously praised Xiang Xun, "Xiang Xun is smart."

Void devil beast Xu Baisheng, Feng Er, and the others quickly congratulated the little cow.

Facing the hail of congratulations from all around, the little cow's chin rose to the sky, and her chest puffed up, like a leader embarking on a brilliant path.

Huang Xiaolong gave the little cow a kick, and said, "Let's go." He mounted the little cow in a swift leap.

The little cow's chin was no longer pointed towards the sky, and her chest was not puffed up anymore.

Coming out from the residence, Huang Xiaolong's group strolled around the city without any determined destination.

Huang Xiaolong noticed the atmosphere was livelier, and there were more people in the city compared to three months ago.

Perhaps, it was because of the auction?

As he guessed, the passersby in the streets were all talking about the upcoming big auction.

"I've heard that there would be a desolate era's divine dragon's giant egg at this time's Martial Dragon City's auction!"

"Just a giant egg, not an actual desolate divine dragon. How long do you have to nurture until it grows into a mature divine dragon? The most interesting treasures this time are the dozen Flaming White Phoenix Divine Fruits, and the desolate era's Thunderstorm Divine Robe...!"

“What? One of the world’s seven wonder fruits, the rank three Flaming White Phoenix Divine Fruit! On top of that, there will be more than ten fruits! Those are truly treasures ah! Consuming one is equivalent to refining and absorbing the power of one hundred divine phoenixes, completely changing and tempering one’s whole body. Even one’s avatars reap the benefits of these fruits! Moreover, continuous consumption could give the consumer the power of a divine phoenix, and even change a person’s physique into the powerful physique of an ancient divine phoenix!”

“That Thunderstorm Divine Robe is a low-grade grandmist spiritual artifact ah! How many years have passed since the High Martial World auctioned a low-grade grandmist spiritual artifact... There’s actually one this time!”

Several disciples of a sect were chatting and walking ahead of Huang Xiaolong’s group, and their conversation stoked Huang Xiaolong’s interest.

Huang Xiaolong, Xiang Xun, and the others were also astonished when they heard that the Flaming White Phoenix Divine Fruits were going to be auctioned.

Huang Xiaolong was lucky to have refined the rank tenth Ancestral Dragon Fruit, and the rank eight Seven-colored Metal Fiend Fruit of the seven wonder fruits. Among the seven fruits, every higher rank brought greater benefits than the fruit at a lower rank, especially the top three wonder fruits were the most beneficial.

Even for the mid-Third Order Ancestor God Realm Huang Xiaolong, his strength could rise significantly just by consuming one Flaming White Phoenix Divine Fruit.

A feverish light glimmered in Huang Xiaolong’s eyes.

“The Thunderstorm Divine Robe.” The little cow muttered with a strange expression on her face.

“You know about the Thunderstorm Divine Robe?” Huang Xiaolong noticed the little cow’s expression and asked.

The little cow nodded, and sighed heavily. "In the past, this Thunderstorm Divine Robe belonged to one of my younger generations. Now that the Thunderstorm Divine Robe would be auctioned here, that means..." Her words trailed off.

Did that mean her younger generation had fallen?

Rarely, someone would be willing to consign a low-grade grandmist spiritual artifact like the Thunderstorm Divine Robe to an auction house, unless it was picked up after the owner had died.

Huang Xiaolong's mood was a little low after hearing her words.

"Feng Er, go check out about the Thunderstorm Divine Robe." Huang Xiaolong looked over his shoulder at Feng Er, Gui Yi, and the others.

Feng Er and the others complied respectfully.

Since it was related to Senior Xiaoniu's younger generation, even without Huang Xiaolong's order, they were going to inquire about it.

...

At this time, inside a certain hall within the Gudu Clan's main residence, Gudu Yue was sitting on the main seat as he listened to a subordinate reporting the latest news about the Martial Dragon City's big auction.

And the person sitting a seat lower from Gudu Yue was none other than the escaped Blood Wolf Gang's Head, Song Rui.

A light flickered across Gudu Yue's eyes after Song Rui finished his report. "One of the seven wonder fruits, Flaming White Phoenix Divine Fruit! The Thunderstorm Divine Robe! These are good stuff ah! I must get these two things!"

Song Rui suddenly added, "I've also heard that there are over three hundred pieces of space velocity stones for sale?"

Gudu Yue smiled. "What? You're interested in them? Oh right, with over three hundred space velocity stones, you could increase the speed of your Blood Wolf Flying Ship. But I'm curious, who was that person who destroyed almost a hundred of Blood Wolf Gang's flying ships and made you flee so miserably."

Hatred warped Song Rui's face as Gudu Yue brought up the sour matter. "I will take my revenge!" He inscribed Huang Xiaolong's face with his divine sense onto a talisman, and then handed it to Gudu Yue. "It's this person. I hope Brother Gudu can help me investigate this person."

Gudu Yue received the talisman. His divine sense swept over the talisman. When he saw Huang Xiaolong's face, he was astounded, "It's him!"

Song Rui was surprised seeing Gudu Yue's expression, thus asked, "You know him?"

Gudu Yue nodded. He briefly recounted his encounter with Huang Xiaolong from three months ago at the Finest Grade House and Myriad Circles Commerce Hall.

Chapter 1397: We Meet Again

After Gudu Yue finished, the malevolent air from Song Rui's body intensified. "This punk has these many grade seven spirit stones to buy top-grade chaos sea spirit stone, Giant Shark's blood essence, and sword wings only because he must have collected the grade seven spirit stones from our Blood Wolf Gang's destroyed flying ships!"

"Hateful! My hard work of collecting grade seven spirit stones for the last couple of thousand years, along with those divine armors, and divine artifacts are actually benefiting him!"

The more Song Rui talked about it, the more agitated he became. His face warped with hatred and fury, and his eyes glowed with a hint of scarlet.

Gudu Yue appeased him, "At that time, I was wondering why that kid has so many grade seven spirit stones to buy such large quantities of top-grade chaos refining materials. Now I know that he actually robbed them from the Blood Wolf Gang's wealth!" He harrumphed coldly and went on, "But, don't you

worry. I have already found out that the kid did not leave the Martial Dragon City. Three months ago, he bought a luxurious residence in the city!"

Song Rui couldn't understand Huang Xiaolong's action. "Is he planning to stay long term in Martial Dragon City?"

"Not likely." Gudu Yue spoke in a solemn voice, "According to the Myriad Circles Commerce Hall Supervisor Chen Yuan, that kid is looking to buy space velocity stones. That kid also went to the Flying Paradise Commerce looking for the same thing. He remained in the city most likely to buy the space velocity stones at the upcoming auction!"

Song Rui's brows furrowed as he doubted, "He's also interested in those space velocity stones?"

Gudu Yue nonchalantly waved his hand and reassured Song Rui, "It depends on whether he has enough money even if he wants to buy the space velocity stones. There are numerous families preparing to bid for the space velocity stones. But, you don't need to worry, I promised that you will get the space velocity stones, that means I will surely get it for you!"

Song Rui laughed. "In that case, I'll thank Brother Gudu in advance."

Gudu Yue laughed. "There is an equivalent price for me to bid this batch of space velocity for you, I want an additional ten percent increase from your Blood Wolf Gang's harvest!"

Additional ten percent!

Song Rui hesitated, then agreed solemnly, "Fine!"

Gudu Yue smiled brightly, then raised his wine cup for a toast. Two cups clinked in midair. Gudu Yue also promised Song Rui that he would deal with Huang Xiaolong once he left the High Martial World after the auction.

"Still, that elephant by that kid's side is probably a Sixth Order God King Realm master." Song Rui cautioned Gudu Yue.

Gudu Yue's tone was boastful as he said, "Merely a Sixth Order God King Realm. When the time comes, I will ask two of my Gudu Clan's Grand Elders to do it. Don't tell me that's not enough to deal with a Sixth Order God King Realm?"

"If Brother Song is still worried, I would ask four Grand Elders to act together!"

Song Rui laughed when he heard that. "With Gudu Clan's four Grand Elders together, that punk's dead for sure!"

The Gudu Clan's Grand Elders were all Seventh Order God King Realm masters. In Song Rui's opinion, four Seventh Order God King Realm masters were sufficient to handle Huang Xiaolong and Xiang Xun.

Meanwhile, Huang Xiaolong's group randomly entered a restaurant after they were done strolling around the city. They ordered a table full of dishes and wine to fill their bellies. When dusk fell, the group made their way back to the residence.

Back at the residence, Huang Xiaolong summoned his three avatars and entered cultivation.

At this time, Huang Xiaolong was refining a mid-First Order God King Realm Sea God's spirit.

Inside the Sea God Tower, there were over twenty God King Realm Sea Gods' spirits. Eight First Order God King Realm, six Second Order God King Realm, four Third Order God King Realm, and three Fourth Order God King Realm's Sea Gods' spirits! There were also two Fifth Order God King Realm Sea Gods' spirits!

Huang Xiaolong had planned to refine the First Order God King Realm Sea Gods' spirits in the beginning, then gradually refine stronger Sea Gods' spirits in the order of Second Order, Third Order, Fourth Order, and lastly, Fifth Order God King Realm!

As Huang Xiaolong and his three avatars cultivated according to the Grandmist Parasitic Medium, vigorous energy instantly rushed out from the mid-First Order God King Realm Sea God's spirit inside the Sea God Tower.

Huang Xiaolong's body trembled slightly as this vigorous energy flowed continuously into his body as well as his three avatars' bodies.

The energy quality of a mid-First Order God King Realm Sea God's spirit was many times stronger than the six Ancestor God Realm Sea Gods' spirits that he had refined earlier.

As Xiang Xun suppressed the godforce of the mid-First Order God King Realm Sea God's spirit, the spirit's energy was continuously refined and absorbed by Huang Xiaolong.

...

The days passed and Huang Xiaolong's strength improved day by day.

Soon, two months passed by...

There was a month left until the Martial Dragon City's big auction. On this day, Huang Xiaolong stopped cultivating. Whether he could repair the Giant Shark Flying Ship or not depended on whether he could get his hands on the space velocity stones. Furthermore, the Giant Shark Flying Ship's speed was going to determine his speed to reach the Royal Buddha Great Worlds, and buy a God King Realm's Buddha Pellet for Li Lu. Hence, he needed to get his hands on sufficient spirit stones.

Although the Yellow Springs Archdevil's Treasure, Sand Waves Sect's treasures, and the sea tribe's twelve families' treasures had a lot of grade seven spirit stones, Huang Xiaolong had decided to condense spirit stones during the day and cultivate at night as a precaution.

Based on Huang Xiaolong's current strength, he could condense about a hundred thousand high grade seven spirit stones per hour. This gave him a million pieces of high grade seven spirit stones per day with ten hours of condensation.

A month's worth of accumulation was a shocking amount.

Even though it slowed Huang Xiaolong's cultivation progress as his day time was allocated for condensing spirit stones, he still successfully broke through to the peak early-Third Order Ancestor God Realm a day before the auction. He was much closer to breaking through to the late-Third Order Ancestor God Realm.

The night before the auction, Huang Xiaolong did not cultivate as usual, but sat in the yard, munching on various kinds of chaos spiritual fruits and drinking elixirs with the little cow, Xiang Xun, void devil beast Xu Baisheng, Feng Er, and the others, chatting about the Divine World, Hell, and even some strange stories from the lower realm.

The little cow as Senior Xiaoniu had the most experience and knowledge, therefore, she naturally had the most to say, and her spit flying everywhere.

Unknowingly, the night retreated and the day of the auction arrived.

Huang Xiaolong meditated for a moment and stood up slowly as he looked at the rising sun.

"Come on, let's depart!"

He leaped onto the little cow's back and stepped out from the residence with everyone else. The group headed to the location of the auction.

The big auction was jointly held by the Finest Grade House, Myriad Flames Commerce Hall, Flying Paradise Commerce, and the other top trading houses in the center area of the Martial Dragon City. In truth, it was not far away from the residence Huang Xiaolong had bought.

Half an hour later, Huang Xiaolong's group reached the auction location. At the entrance, Huang Xiaolong ran into the Finest Grade House's Supervisor Duan Zhen. Duan Zhen's face lit up when he saw Huang Xiaolong, and he greeted Huang Xiaolong, "I see Brother has not left the High Martial World, haha, looks like Brother is going to show some power in the auction later."

Huang Xiaolong smiled. "Supervisor Duan Zhen is joking, there are numerous Patriarchs and experts present today, my turn is still far away."

Right at this time, a voice sounded, "At least you know your own weight!"

Huang Xiaolong frowned at the sudden disturbance. He looked towards the source of the voice, so did Xiang Xun, and the others. The voice's owner was the Gudu Clan's Gudu Yue. However, there was no Longwu Ling Er or Gudu Man. Instead, standing beside Gudu Yue was the Blood Wolf Gang's Head, Song Rui.

Huang Xiaolong's eyes narrowed as he saw Song Rui.

Xiang Xun, void devil beast Xu Baisheng, and the rest were also locked onto Song Rui.

Song Rui's attention was fixed on Huang Xiaolong, as he ignored Xiang Xun and the void devil beast Xu Baisheng. He sneered coldly, "Punk, you didn't expect this right? We meet again!"

Chapter 1398: No Need To Worry

Huang Xiaolong ignored Song Rui. His attention was on Gudu Yue instead, and he spoke indifferently, "I indeed had not expected that a Gudu Clan's disciple would be mingling with the Blood Wolf Gang pirates."

Gudu Yue's expression clouded immediately. His words were a naked threat, "Kid, some words cannot be spoken casually as the calamity comes from the mouth, and people might die from it!"

Huang Xiaolong agreed, "You are right, some words cannot be spoken casually as the calamity comes from the mouth, and people might die from it!"

One of the Gudu Clan's disciples who was standing behind Gudu Yue pointed a finger at Huang Xiaolong's face and reprimanded, "Punk, how dare you threaten our Young Master Gudu? Do you want to die?!"

Duan Zhen's soft chuckling broke the tense atmosphere. He invited them, "Since several guests are already at the entrance, please come in."

Gudu Yue looked coldly at Huang Xiaolong and snorted coldly. “Kid, I know you’re going to bid for the space velocity stones, but those three hundred plus space velocity stones are out of the reach for someone like you. Do you think a mere a hundred thousand or two hundred thousand grade seven spirit stones are enough? What an idiot! Let me tell you, I’m the one who’s going to get those space velocity stones!”

Gudu Yue strode away with a flick of his sleeve. Blood Wolf Gang’s Head Song Rui and the rest of the Gudu Clan’s disciples stepped inside the auction building after Gudu Yue.

Huang Xiaolong watched Gudu Yue and Song Rui’s back and a cold sneer rose at the corner of his mouth. A second later, he too stepped into the auction hall with Xiang Xun and the rest of the group.

Upon entering the auction hall, Huang Xiaolong requested a high-class private room from one of the auction attending staff.

One does not require any identity or status to request for a high-class private room as long as they can afford the ten thousand low grade seven spirit stones. Yes, as long as one has money.

Huang Xiaolong was led into a high-class private room after spending ten thousand low grade seven spirit stones. The number of this room was six.

The four walls inside each of the high-class private rooms were made up of precious stones. Spiritual fruits and wine were generously placed on the table.

Inside the private room, guests could bid while enjoying these spiritual fruits and wine.

Not long after Huang Xiaolong’s group settled down in high-class private room six, Gudu Yue received a report from his subordinate as he sat in the private room number five.

“That punk actually spent ten thousand low grade-seven spirit stones and entered the high-class private room six?” Song Rui repeated with a deep frown. “It seems this punk’s richer than we had estimated.”

Since that kid can casually spend ten thousand low grade-seven spirit stones for one high-class private room, his pocket surely has two hundred or three hundred thousand grade-seven spirit stones.

Gudu Yue didn't put this matter to mind, instead he smiled and said to Song Rui, "It's merely a high-class private room, don't think too much about it. Let me tell you frankly—some years ago, I obtained an ancient treasure trove. In short, I have a lot of spirit stones, and I have prepared ten million high grade-seven spirit stones!"

"Ten million!" Song Rui was astounded, then chuckled as he relaxed. "I am really astonished that Brother Gudu has prepared ten million high grade-seven spirit stones. I am worrying needlessly!"

Gudu Yue smiled. "Therefore, there's zero worry about your space velocity stones being snatched away by that kid. I've already promised you that I would get you those space velocity stones! Other than the space velocity stones, the Flaming White Phoenix Divine Fruits and Thunderstorm Divine Robe are bound to be mine!"

Under normal circumstances, ten million high grade-seven spirit stones could absolutely win the bid for these three items!

This was the reason why Gudu Yue was so confident.

"Brother Gudu's strength will rise exponentially once again after getting the Flaming White Phoenix Divine Fruits and Thunderstorm Divine Robe! I congratulate Brother Gudu in advance!" Song Rui said.

Gudu Yue smiled. "We'll have a good drink after the auction ends!" Gudu Yue paused briefly, then went on with a meaningful smile. "It's a pity though that I won't be able to see that kid's face. I really would like to see that kid's ugly expression when I successfully win those space velocity stones. My heart feels comfortable, by just thinking of it right now."

The two laughed softly.

"I have heard that Brother Gudu would be reporting to the Solitude Emperor Palace soon, am I right?" Song Rui smiled as he went on, "Brother Gudu's talent would surely attract the Solitude Emperor Palace's Grand Elders. Please look after this brother more, in the future!"

“Naturally. Wait until I enter the Solitude Emperor Palace, and get worshiped as a Solitude Emperor Palace’s Grand Elder. As Master, I would send people to the Longwu Clan for Longwu Ling Er’s hand in marriage!”

The smile on Song Rui’s face widened as he said, “That calls for a celebration ah. Who in the High Martial World doesn’t know you? You and Miss Ling Er are a perfect pair. Brother Gudu’s marriage will be the grandest wedding in the history of High Martial World, and even the surrounding world surfaces’ experts would come to congratulate you!”

Gudu Yue chuckled at the picture painted by Song Rui.

Inside high-class private room six, Huang Xiaolong was observing the situation in the auction hall below as he sat on an armchair that was draped with chaos spiritual beast’s skin.

As Huang Xiaolong had arrived early at the auction, there were still not many people in the auction hall below them. Barely two-tenths of the seats were filled up.

Huang Xiaolong, the little cow, Xiang Xun, and the others were chatting casually.

Roughly an hour later, most of the seats in the hall had been filled up, and soon, all seats were taken up; not one empty seat was left.

Another fifteen minutes later, a silver-haired old man stepped onto the auction stage and introduced himself as Luo Fan. He was the auctioneer.

The crowd whispered in excitement at Luo Fan’s introduction. It seemed like Luo Fan had quite a big reputation in the industry, given the crowd’s reaction.

After Luo Fan finished introducing himself, he went through the auction rules, and lightly mentioned the good stuff. The Flaming White Phoenix Divine Fruits and Thunderstorm Divine Robe were enough to capture everyone’s attention.

At the mention of the Flaming White Phoenix Divine Fruits and Thunderstorm Divine Robe, the crowd became very eager for the auction to begin.

Subsequently, auction for the first item began.

“The auction’s first item is a batch of Golden Lunar Star Pills, refined by Longwu Clan’s Grand Elder Longwu Bi... There are a total of thirty-five pellets in this batch, and each pellet is top-grade quality. The starting price is fifty thousand high grade-six spirit stones!” Luo Fan raised a jade bottle in his hand and spoke sonorously.

Then, he opened the bottle and rays of golden moonlight and starlight shone out from the bottle’s mouth.

Inside the bottle were pellets of Golden Lunar Star Pills, emitting a thick herbal fragrance that had the quality to refresh the mind in just one sniff.

“Fifty-five thousand high grade six spirit stones!” Soon, someone already made a bid offer.

“Sixty thousand high grade six spirit stones!

Undulating shouts of bid rang in the hall.

Huang Xiaolong watched on calmly. Even though these Golden Lunar Star Pills were on the upper ranks amongst low-grade chaos spiritual pills, he was not interested in them. Any of his chaos spiritual pills inside his Golden Dragon Lightning Pool’s space was many times better than these Golden Lunar Star Pills.

At last, the Golden Lunar Star Pills were bought with seventy thousand high grade six spirit stones.

The second auction item was an ancient chaos spiritual armor.

As time passed, one after another auction items were bought off, and the atmosphere grew livelier and intense with shouts and gasps.

Finally, a little over two hours later, Luo Fan's voice once again resounded in the hall, "Our next auction item is the three hundred and sixty-two pieces of space velocity stones!"

Chapter 1399: Face Slap!

The moment Luo Fan's voice fell, the auction hall suddenly quieted down by half. Almost every pair of eyes in the hall zoomed towards the auction stage.

Many guests were attending the auction just for these space velocity stones this time.

Luo Fan smiled brightly as he saw everyone's reaction. "I believe everyone is aware of the value of these space velocity; if space velocity stones are added to a flying ship's core formation, they can increase the flying ship's speed. The flying ship will fly faster if more number of space velocity stones are added. Also, if a flying ship's core formation is damaged, the best repair material is also the space velocity stones!"

Luo Fan explained calmly The auction hall had quieted down as the guests listened attentively.

Luo Fan continued to introduce the space velocity stones' uses in more details.

He ended the introduction with a few more sentences. "As per the consignor request, these three hundred and sixty-two pieces of space velocity stones are going to be auctioned together, and there is no starting price. All guests can offer voluntarily as long as it's low grade-seven spirit stones and above, better yet, high-grade stones!"

"Now, the bidding begins, please state your offer!"

Just as Luo Fan finished speaking, someone shouted immediately, "One hundred low grade-seven spirit stones!"

Suddenly, the auction hall erupted in laughter.

However, no one mocked or ridiculed him as Luo Fan had stated there was no starting price.

“One thousand low-grade seven spirit stones!” Another person shouted.

“Ten thousand low grade-seven spirit stones!”

Subsequently, the bidding price rose by the thousands at a rapid pace.

Inside private room number five, Gudu Yue watched in a relaxed manner. He was confident that he would win these space velocity stones in the end.

The price had gone up to a hundred thousand low grade-seven spirit stones in less than five minutes since the bid started.

Gudu Yue said to Song Rui, “It’s time we make our move!” With that, he slowly called out to the auction hall below, “Five hundred thousand high grade-seven spirit stones!”

Five hundred thousand!

On top of that, high grade-seven spirit stones!

The lively shouting came to a sudden halt.

The crowd was astounded as they looked in the direction of the private room number five.

Luo Fan was surprised as well. Although these space velocity stones were precious, he had estimated this batch of space velocity stones to fetch around one million low grade-seven spirit stones. The exchange rate between low grade-seven spirit stones and mid grade-seven spirit stones was half the amount. The exchange rate between mid grade-seven spirit stones and high grade-seven spirit stones was also by half. Based on that calculation, these space velocity stones were worth two hundred and fifty thousand high grade-seven spirit stones.

Now, someone had actually made a bid for five hundred thousand high grade-seven spirit stones!

Twice as much!

Song Rui grinned looking at the astonished faces in the auction hall below them and said, "Looks like all the people are frightened by Brother Gudu, but it makes me feel bad that Brother Gudu spent five hundred thousand high-grade seven spirit stones."

"It's just five hundred thousand high grade-seven spirit stones. I would get them for Brother Song even if they were to cost six hundred thousand, or seven hundred thousand!" Gudu Yue said generously.

A voice suddenly rang in the hall out of nowhere, "One million, high grade-seven spirit stones!"

One million!

High grade-seven spirit stones!

Everyone was dumbfounded, then turned to look at private room number six.

Yes, Huang Xiaolong was the one who had made this out-of-the-world offer.

Gudu Yue and Song Rui both blanked for a second, then an ugly expression crept up their faces, especially Gudu Yue's face. His chest throbbed as if Huang Xiaolong had just punched him hard.

"It's that punk! He actually has one million high grade-seven spirit stones?!" A gloomy light flickered across Song Rui's eyes.

Even though he had robbed a lot of treasures in recent years, the amount of the grade seven spirit stones from all of the Blood Wolf Gang's flying ships won't add up to one million high-grade seven spirit stones.

Gudu Yue said icily, "Looks like we underestimated that kid, but I don't believe he can compete with me, and have more spirit stones than me!"

"1.05 million high-grade seven spirit stones!" Gudu Yue called out.

It was fifty thousand higher than Huang Xiaolong's bid.

Inside private room number six, Huang Xiaolong called out without missing a beat, "Two million, high grade-seven spirit stones!"

Two million!

The guests below sucked in a breath of cold air, as they were shocked and speechless.

This... ruthless! Too ruthless!

Even the corners of Luo Fan's eyes were twitching from shock.

The two million price was seven times more than the two hundred and fifty thousand he had estimated!

Gudu Yue was stupefied and dumbstruck. Did that kid call out 'two million,' just now?

"He, he shouted two million... high grade-seven spirit stones?" Gudu Yue asked one of his subordinates for confirmation. He was afraid he had heard something wrong.

That subordinate hesitated but honestly answered Gudu Yue, "It is so, Young Master, it's two million high grade-seven spirit stones!"

Gudu Yue was beyond speechless. He turned to look at Song Rui, and Song Rui nodded with affirmation. Gudu Yue's head buzzed at Song Rui's confirmation.

About sixty seconds passed before the crowd finally reacted in a furor.

Luo Fan tried hard to calm his racing heart before speaking, "The guest in private room number six offers two million high grade-seven spirit stones. Anyone else with a higher price?"

Luo Fan's voice echoed in the hall.

Song Rui saw Gudu Yue was still in a state of astonishment, therefore, he couldn't help but say, "Brother Gudu, this matter... why don't we just forget it!"

Forget it!

Gudu Yue regained his senses despite his twisted expression. His fingers dug into the flesh of his palms as his eyes glimmered scarlet, and he shouted at the auction stage below, "2.01 million high grade-seven spirit stones...!"

2.01 million high grade-seven spirit stones! Gudu Yue bid surprised the crowd below.

"Three million high grade-seven spirit stones!" Huang Xiaolong's cold, and calm voice rang again almost in an instant.

Three million!

The crowd below went crazy again, and Luo Fan's legs weakened on the auction stage.

Gudu Yue's twisted expression now completely disappeared, as he fell into the chair with a gray face, as if all his energy was drained away.

Huang Xiaolong bought the three hundred and sixty-two pieces of space velocity stones by paying three million high grade-seven spirit stones on the spot. The auction hall's staff respectfully sent the three hundred and sixty-two pieces of space velocity stones to Huang Xiaolong at private room number six.

Huang Xiaolong breathed in relief as he received the space velocity stones. With these space velocity stones, he would be able to repair the Giant Shark Flying Ship, which will allow him to reach the Royal Buddha Great Worlds in seven to eight years.

As this matter was related to Li Lu, Huang Xiaolong was willing to pay even five million, or even higher if it would have come to that.

The little cow said to Huang Xiaolong, "That Gudu Clan's kid was being arrogant at the entrance, when he called an idiot, and told you that you won't be able afford the space velocity stones. But now, he's got a face slap, and I wonder how swollen his face is looking!"

The others in the room laughed.

At the same time inside private room number five, Song Rui said to Gudu Yue, "Brother Gudu Yue, in truth, there's nothing wrong in letting that punk buy the space velocity stones. We only need to take it back after we kill him."

Gudu Yue nodded sullenly. "That's right, let's see if he has enough spirit stones left to compete over the Flaming White Phoenix Divine Fruits and Thunderstorm Divine Robe with me! That kid is really an idiot for spending three million high grade-seven spirit stones on several hundred space velocity stones!"

Chapter 1400: Not Domineering Enough!

Song Rui sneered, "That's right! He is an idiot for paying three million high grade-seven spirit stones for several hundred pieces of space velocity stones. Everyone would think that punk is a big idiot when the word spreads outside. I really don't know which family's young master that punk is, but his elders at his home would die in anger when they hear about this!"

Gudu Yue laughed dryly but the sharp gleam in his eyes was unmistakable. "That kid actually has so many high grade-seven spirit stones on him!" The sharp gleam turned into greed.

Song Rui commented, "But since he has already spent three million, probably there isn't much left."

Gudu Yue nodded in agreement.

The auction continued.

More than a dozen items were auctioned off, and finally, it was time for the two last items to be auctioned. These were none other than the Flaming White Phoenix Divine Fruits and Thunderstorm Divine Robe!

The Flaming White Phoenix Divine Fruits were going to be auctioned first out of the two items.

The auction hall's staff carried a crystal ball containing more than a dozen of Flaming White Phoenix Divine Fruits to the auction stage.

The sea-blue crystal box was made of ice-essence crystal to preserve these Flaming White Phoenix Divine Fruits' fire element spiritual energy.

Eighteen Flaming White Phoenix Divine Fruits enshrouded in swaying flames were visible to the audience the moment the restrictions on the crystal box were lifted. Above each fruit was a coiling fire phoenix.

These fire phoenixes were formed from years of the Flaming White Phoenix Divine Fruits' fire element spiritual energy accumulation.

"Our next auction item is one of the seven wonder fruits of the world, the third ranked Flaming White Phoenix Divine Fruits. It can temper your physique, godhead, and even your avatar. On top of that, this fruit can improve your unique bloodline and raise it's power!" Luo Fan explained, and went on, "Of course, there are many more magical benefits of consuming the Flaming White Phoenix Divine Fruit. According to an old legend, it would become easier to breakthrough to God King Realm after consuming it!"

Easier to breakthrough to God King Realm!

This immediately stirred the crowd's emotions.

The eyes of all the Ancestor God Realm disciples shone green at that thought. Even Huang Xiaolong couldn't help but sit a little straighter.

The Flaming White Phoenix Divine Fruits actually have such a wonderful effect?!

Luo Fan fanned the crowd's excitement further by mentioning more miraculous benefits of consuming the Flaming White Phoenix Divine Fruits. However, he always stressed that it was 'according to a legend.'

Many of the magical benefits of this rank three Flaming White Phoenix Divine Fruit came from age-old rumors.

After all, only a handful of people had consumed these fruits.

"Let us begin auctioning these Flaming White Phoenix Divine Fruits. The starting price is three million low grade-seven spirit stones!" Luo Fan went on, "Now, please make your offer!"

Three million low grade-seven spirit stones!

That is just the starting price!

Some families' disciples who had been fantasizing their glories a few moments ago, saw their fantasy shattered before their eyes, as their feet went cold.

Inside private room number five, Gudu Yue couldn't stop showing excitement on his face. His current cultivation was at Tenth Order Ancestor God Realm. But he believed that he would be able to break through to peak late-Tenth Order Ancestor God Realm once he would get accepted into the Solitude Emperor Palace and receive the Solitude Emperor Palace's cultivation. At that time, consuming these Flaming White Phoenix Divine Fruits would help him to successfully break through to God King Realm!

A God King!

The more Gudu Yue thought about it, the more excited he became. In truth, he was bellowing with excitement in his heart, 'These Flaming White Phoenix Divine Fruits are mine! Mine! No one can take them away!'

Driven by his excitement, Gudu Yue impulsively called out, "One million high grade-seven spirit stones!"

According to the spirit stones exchange rate, one million high grade-seven spirit stones were equivalent to two million mid grade-seven spirit stones, and accordingly, four million low grade-seven spirit stones.

Hence, Gudu Yue had raised the price by one million low grade-seven spirit stones.

"1.1 million high grade-seven spirit stones!" Moments later, a voice sounded from private room number one.

"1.2 million high grade-seven spirit stones!" A voice came from private room number three.

For a moment, there were voices calling out bids from various private rooms.

The price rose by a hundred thousand with each increment. In a short few minutes, the price had gone up to two million high grade-seven spirit stones!

At two million point, these people finally calmed down from their fervor, and grew cautious in calling out bids, increasing the bid by merely ten thousand, twenty thousand, or thirty thousand.

The feverish light in Gudu Yue's eyes also dimmed a little.

Even so, the price had risen to three million.

Three million high grade-seven spirit stones were already four times higher than the starting price. Now everyone was more cautious with each bid. In the beginning, the price had risen exponentially in a few seconds, but at three million point, each bid had an interval of three to four minutes.

Huang Xiaolong had remained silent since the start of the Flaming White Phoenix Divine Fruits' auction.

Another few minutes passed, and the bid rose to 3.5 million.

Just as Huang Xiaolong was about to call out his bid for the first time, the little cow suddenly cut him off and said, "Xiaolong, let this cow make the bid for you."

Huang Xiaolong was surprised but still nodded in agreement.

"What's your maximum budget for this item?" The little cow asked.

"Within ten million." Huang Xiaolong answered.

The moment Huang Xiaolong's voice fell, the little cow stood up. She shook her butt and puffed her chest, and shouted with dominance, "Ten million high grade-seven spirit stones!"

Her voice rumbled through the auction hall, dizzying the people around; some even fell off their chairs.

Waves of shock struck everyone's heads, as they were filled with disbelief.

"T... ten, ten million, high grade-seven spirit stones!" A High Martial World's first-rank force's Patriarch repeated with a stiff tongue.

Gudu Yue, who had made the bid for 3.5 million, quivered subconsciously when he heard the little cow's 'ten million high grade-seven spirit stones' from private room number six.

Dead silence...!

Time seemed to freeze as eyes were fixed on private room number six.

Even the veteran auctioneer Luo Fan's mind went blank from shock.

Whereas Huang Xiaolong was rendered speechless as he looked at the little cow's 'domineering posture.' Even though his budget was ten million, was it necessary to throw his highest limit? Wouldn't it be better if he could buy it at five million? One should be thrifty when they could. After all, ten million high grade-seven spirit stones had taken him one hundred hours to condense them ah.

Noticing Huang Xiaolong's darkened expression, the little cow looked at him innocently. "Why would you want to waste time with them? Look, ten million saves you a lot of trouble, and everything is settled in a second!"

"Eleven million high grade-seven spirit stones!" Right at this time, a voice called out from private room number seven, which was right next to Huang Xiaolong's private room.

The little cow looked wide-eyed silly.

Huang Xiaolong burst out laughing at her expression.

Xiang Xun, Feng Er, and others snickered, except the void devil beast Xu Baisheng, who did not dare to laugh at the little cow for the sake of his butt.

"Xiaoniu, looks like your ten million can't get the job done." Huang Xiaolong chuckled.

The little cow argued sadly, "I'm old now, not as domineering as others."

The others in the room laughed again.

Inside the private room number seven, there was a pretty young lady who was exuding a noble air. Behind her stood two old women who had no presence at all, and it was as if they were dead. But a great expert could tell that these two old women were powerful experts.

“In truth, given Miss’ aptitude, you can smoothly break through to God King Realm in a few years, even without the Flaming White Phoenix Divine Fruits.” One of the old women stated.

The pretty young lady smiled. “Old Tong, these Flaming White Phoenix Divine Fruits must be very tasty. I haven’t eaten them before.”

Seemingly, this young lady wanted to buy the Flaming White Phoenix Divine Fruits merely because she wanted to taste them...
