

Conqueror 3011

Chapter 3011: Bright Lightning Abyss

After leaving the space contained by the Blood Dragon Stele, Huang Xiaolong didn't continue to cultivate. Instead, he returned to the Boundary Emperor Creed to visit the Cangqiong Old Man, Fei Yanzi, and the others.

It was a long time since he had last seen them.

After he returned, Huang Xiaolong remained in the Boundary Emperor Creed for several months. During the day, he would give the Cangqiong Old Man and Fei Yanzi pointers in their cultivation, and he would sit under the Parasol Tree at night. He would refine the pills he obtained from the Holy Dragon Treasury, and he would solidify his foundations in the Seventh Esteem Dao Venerable Realm. At the same time, he would further his comprehension in the different elements he controlled.

When he had time, he would head over to the Silver Shadow Creed and Traversing Wind Creed. He took the chance to visit Yin Yue and Feng Yue.

At the same time, he tried looking for the Eternal Devil Heart.

In the past, he defeated the Heart Devourer Twin Devils, but the Eternal Devil Heart managed to escape. Huang Xiaolong left a brand on it, and he managed to locate it without much difficulty.

The Eternal Devil Heart was one of the sources of darkness and evil in the Huang Long World. If he refined the Eternal Devil Heart, he would be able to comprehend the power of darkness and arrive at the minor completion stage!

Along the way, Huang Xiaolong followed Duan Feng and Duan Zheng back to the Divination Creed. When he arrived, he received a grand reception, and the entire family threw a massive welcoming ceremony for him.

Activating the power of the Divination Creed, Huang Xiaolong located Elder Ming and the Yin Borer King who escaped from the Cangqiong Holy World.

In the hundreds of years that passed, the two of them were able to build a name for themselves in the Divine Tuo Holy World. They were mixing in pretty well, and their strength allowed them to live comfortably in a certain region of the Divine Tuo Holy World. However, they nearly wet themselves when they saw Huang Xiaolong and the group of Dao Venerables behind him.

...

After learning that the Dark Lightning Holy Dragon Ancestor wouldn't be ranked in the top ten strongest individuals when he went over to the Origin Holy World, Huang Xiaolong decided against rushing over. He wanted to raise his strength as much as possible in the Divine Tuo Holy World, and he wanted to comprehend the different types of energies he controlled.

After many years, Huang Xiaolong decided to head over to the World Tree that birthed the Nine-headed Tree Demon. He retrieved the treasury, and he managed to collect some life liquid from the World Tree itself!

Next, he strolled over to the Stonemen race and the Inferno Race to claim their treasuries for himself.

In the blink of an eye, four hundred years passed.

Huang Xiaolong had been refining the power of darkness that came from the Eternal Devil Heart, and his ability to control darkness reached the minor completion stage. He also refined all twenty creation-level pills left behind by his father in the Blood Dragon Stele, and everything he obtained from all the treasuries!

At the late-Eighth Esteem Dao Venerable Realm, Huang Xiaolong's strength reached a whole new level.

Throughout the years, the Dao Venerables in the Sun Moon Furnace didn't remain idle. Huang Xiaolong used their cosmos energy to refine his body, and it could be said that his three small worlds reached their most perfect state with their assistance.

Huang Xiaolong also activated the powers in the Divine Tuo Holy World to locate more genesis-level poison liquid. With the liquid he gathered, he managed to reach perfection in the absolute power of poison!

When he was done, he reached perfection level in two different types of absolute powers!

In order to test out his strength, Huang Xiaolong located the Dark Lightning Holy Dragon Ancestor once again. To the old dragon who lost against Huang Xiaolong when he was still a Seventh Esteem Dao Venerable with one element at perfection level, the current Huang Xiaolong was practically a monster. He was completely crushed, and Huang Xiaolong didn't even bring out his Huang Long Armor and the Huang Long Twin Blades! There wasn't a need for him to transform into the golden dragon either. With his grand dao physique, he completely dominated the old dragon!

The only pity throughout the four hundred years was that Huang Xiaolong failed to increase his understanding of the power of nirvana. Even after immersing himself in the power of nirvana from the Parasol Tree, Huang Xiaolong's ability to control the power of nirvana stagnated at the major completion stage. His ability to control fire was a little better, as he progressed from the minor completion stage to the peak of the minor completion stage!

One fine day, brilliant rays of light started to emerge from Huang Xiaolong's body when he was cultivating in the Sun Moon Furnace. Right before the light surrounded him completely, it dissipated after a popping sound was heard.

Streaks of green light swirled around him as it started to fade from existence.

Half a day later, Huang Xiaolong sighed while shaking his head. He focused on the power of poison the past hundreds of years, and he refined medicinal pills most of the time in order to increase his cultivation realm. As such, he couldn't comprehend the power of radiance and wood.

While he was sighing regretfully, his transmission symbol trembled. Taking a look at it, he saw that it was a message sent by Zeng Lei of the Mystical Pavilion.

"Oh?" He was slightly taken aback by the sudden report.

According to Zeng Lei, a huge group of demons at the Dao Venerable Realm were charging towards the Bright Lightning Abyss.

No one knew the reason for their sudden interest in the Bright Lightning Abyss, but a trace of light flashed in Huang Xiaolong's eyes.

There had to be a reason for their sudden interest in the Bright Lightning Abyss, and Huang Xiaolong quickly emerged from the furnace. He contacted the Cangqiong Old Man and Fei Yanzi after he reappeared.

"Xiaolong, are you really planning to head over to the Bright Lightning Abyss?" Cangqiong Old Man was taken aback by his sudden revelation.

Nodding slowly, Huang Xiaolong revealed his intentions of heading over. Even though he didn't know their goal, he needed to search for Long Jianfei's master, Chen Xi, in the Bright Lightning Abyss.

He promised Long Jianfei in the past that he would search for Chen Xi after entering the Dao Venerable Realm, but he was too busy to do so.

Since he had a reason to enter the Bright Lightning Abyss, he felt that it was time to fulfill his promise.

There was also another reason behind his desire to enter the Bright Lightning Abyss. After his second sparring session with the Dark Lightning Holy Dragon Ancestor, Huang Xiaolong learned that the old dragon managed to obtain a massive opportunity in the abyss that allowed him to reach perfection level in the laws of lightning.

The Bright Lightning Abyss was a land of lightning and thunder, and it was where the genesis lightning liquid was located. The old dragon managed to obtain a massive pool of genesis lightning water in the abyss, and he used it to strengthen his control over the lightning element.

It went without saying that the genesis lightning liquid was the same level as the genesis poison liquid.

"When are you planning to leave?" Fei Yanzi asked in a gentle voice.

"Soon."

This time, Huang Xiaolong didn't tell anyone else he was heading to the Bright Lightning Abyss other than his master and Fei Yanzi. As such, he was able to leave without being traced.

Fei Yanzi stared at his departing figure in a daze, not knowing how long it would be before they reunited.

...

Several days later, Huang Xiaolong arrived at the entrance of the Bright Lightning Abyss on the back of the Tortoise Ancestor.

Stopping for a moment, Huang Xiaolong tore through the lightning qi in the air before urging the Tortoise Ancestor forward.

Chapter 3012: Mysterious Purple Peak

As terrifying lightning qi drifted in the air around the Bright Lightning Abyss, Huang Xiaolong charged forward without a care in the world. When the lightning qi touched his body, Huang Xiaolong felt a pleasant breeze washing over him.

Similarly, the lightning qi failed to do a thing to the Tortoise Ancestor.

This time, his goal wasn't just to locate the genesis lightning liquid. He was also there to look for Chen Xi, and Huang Xiaolong allowed the Tortoise Ancestor to travel slowly through the skies.

Of course, the speed was relative to Huang Xiaolong and the Tortoise Ancestor. They were still tearing through the skies at a terrifying pace.

Ordinary high-level Dao Venerables would only be able to see a streak of black light brushing across the skies if they noticed the Tortoise Ancestor.

“Your Highness, Chen Xi might already be dead after being trapped here for so many years! The Bright Lightning Abyss is boundless, and looking for someone is like looking for a needle in a haystack! Even if we search for a hundred years, we won’t be able to find him!” Liang Xiao sighed.

Nodding his head, Huang Xiaolong was more than aware of the concerns. However, he had to look for Chen Xi with all his might! He promised Long Jianfei that he would locate his teacher, and he was going to keep his promise!

Using all three dao souls, Huang Xiaolong tried to look for Chen Xi.

With his current abilities, the area he could cover was terrifyingly large. Even the restrictions located in the Bright Lightning Abyss couldn’t stop him. He could see everything in the hundred million miles radius around him.

Several days passed, and Huang Xiaolong noticed a ton of lightning attributed spiritual herbs. There were a lot of them at the dao level herb, but he was too lazy to pick them up.

The only herbs he would go out of his way to retrieve were genesis-level herbs.

When the Tortoise Ancestor noticed the goodies they were passing up, he felt an ache in his heart. However, he couldn’t say a word since Huang Xiaolong wasn’t planning to go after the treasures.

His reaction naturally fell into Huang Xiaolong’s considerations. A chuckle left his lips as he spoke to the Tortoise Ancestor, “If you want them, go pick them yourself. However, you can’t take more than ten breaths of time.”

Liang Xiao’s face lit up when he heard what Huang Xiaolong said. “Many thanks to Your Highness!”

The dao herbs might be protected by several layers of restrictions, but Liang Xiao was the Tortoise Ancestor! He was an existence whose strength stood firmly at the top layers of the Divine Tuo Holy World, and he shattered the restrictions in a single breath of time! It took him less than ten breaths of time to retrieve several herbs.

Along the way, he collected dao herbs to his heart's content. Of course, he was smart enough to remember what Huang Xiaolong said. He took less than ten breaths of time.

Sitting on Liang Xiao's tortoise shell, Huang Xiaolong used his dao souls to search for Chen Xi while trying to comprehend the power of absolute lightning.

A month passed in the blink of an eye, and lightning bolts flashed unsteadily around Huang Xiaolong's body.

The deeper they went, the stronger the lightning qi became. The power of destruction contained in them increased, and the lightning bolts grew a little stronger.

During their exploration, Huang Xiaolong and Liang Xiao ran into countless lightning beasts born from the lightning qi. There were even several beasts at the mid-level Dao Venerable Realm. Other than lightning beasts, they ran into several experts from the dao convergences of the Divine Tuo Holy World. The only weird thing was that they didn't discover any traces of the demons from the Outer World!

Huang Xiaolong turned a little suspicious.

There was no way Zeng Lei lied about their arrival, but he couldn't explain the fact that he saw no demons after stepping into the Bright Lightning Abyss. Could they have headed straight for the deepest region of the Bright Lightning Abyss the moment they arrived?

When he was thinking of the different possibilities, a whistling sound tore through the air, and Huang Xiaolong turned to look in the direction of the noise.

"Your Highness..." Liang Xiao muttered.

Ordering the Tortoise Ancestor to stop in mid air, they noticed more than thirty experts flying towards them.

A massive group of demons from the Outer World flew towards them, and the weakest among them were mid-level Dao Venerables.

The only problem was that there were experts of the Misty Rain Dao Venerable among the demons. Huang Xiaolong recognized two of them instantly, and they were Yu Yue and Tan Meiqin.

In the past, Yu Yue tried to pay him a visit in the Boundary Emperor Creed. However, he didn't manage to meet them.

When Yu Yue and Tan Meiqin saw Huang Xiaolong, a look of excitement appeared on their desperate faces.

"Xiaolong!" Yu Yue exclaimed in a fit of joy.

A frown formed on Huang Xiaolong's face. When no one else was around, Feng Yue and Yin Yue would address him by his name, but he wasn't close enough for Yu Yue to do the same.

The group of demons were clearly not expecting to run into another human after capturing the bunch from the Misty Rain Creed.

"So you guys know each other..." A demon with a white horn sneered when he heard how Yu Yue called out to Huang Xiaolong. Those around him moved after the words left his lips, and they reached out to grab Huang Xiaolong and the Tortoise Ancestor.

A massive palm descended from the skies towards the duo, but Huang Xiaolong didn't plan to move.

As a burst of light emerged from Liang Xiao's tortoise shell, the palm in the air was shattered and the expert who tried to make his move was sent shooting through the skies. He spat out black colored blood uncontrollably.

Since the bodies of the demons were made out of darkness, their blood couldn't be any other color.

"What?!" The group of demons screamed in shock. The person who was sent flying was an Eighth Esteem Dao Venerable!

When they were still stuck in a state of shock, an expert whose eyes glowed a sinister green stepped forward. He spoke to the expert with a white horn on his head. "Young Master, that tortoise is a late-Ninth Esteem Dao Venerable."

"What?!" The demon who was addressed as the young master yelled in shock. He stared at Liang Xiao with a look of disbelief before turning to Huang Xiaolong. "Who the hell are you?!"

Without responding, Huang Xiaolong casually stretched out his right hand to grab at the demons.

"You're asking to die!" The expert whose eyes were flickering green sneered. He nearly burst into laughter when he realized that Huang Xiaolong was a mere Eighth Esteem Dao Venerable. How dare a weakling at that level disrespect him?! One had to know that he was a peak late-Ninth Esteem Dao Venerable!

His train of thought was stopped short when he realized that he couldn't move his body at all. His connection with the small world in his body was severed, and he couldn't use the slightest bit of cosmos energy!

Suppressing more than thirty Dao Venerables, Huang Xiaolong shattered the restrictions around the bodies of those from the Misty Rain Dao Convergence.

Yu Yue and the others rejoiced, and they quickly said their thanks to Huang Xiaolong. "Many thanks to Your Highness!"

"There's no need to thank me. I didn't do it to save you specifically. You can leave now."

It was true. The only reason he saved them was because he wanted to retrieve some information from those of the Demon Race. He wanted to understand their reason for coming to the Bright Lightning Abyss.

As her expression dimmed, Yu Yue could only lead the others away.

When their figures disappeared in the horizon, Huang Xiaolong started to search through the souls of the demons.

“Mysterious Purple Peak?”

Huang Xiaolong muttered to himself after looking through the other party’s memories. The demons from the Outer World entered the Bright Lightning Abyss because a mysterious purple mountain appeared in the depths of the Bright Lightning Abyss... It seemed as though there was a secret hiding behind the existence of the purple mountain and Huang Xiaolong was determined to get to the bottom of it.

Chapter 3013: Demonic Buddha Black Region

From the memories of the demon with a white horn on his head, Huang Xiaolong learned that the purple mountain was likely to be a genesis-level existence! In other words, it was formed during the creation of the world!

It was no wonder the demons from the Outer World would take such a huge risk to enter the Bright Lightning Abyss! If the mysterious purple peak really was a genesis-level existence, there would definitely be genesis-level herbs growing on it!

Genesis-level treasures and herbs were definitely precious items! There might even be other items at the genesis-level located on it!

With a look of joy spreading on his face, Huang Xiaolong thought about the possibility of the Genesis Lightning Water residing on the mountain.

It didn’t take long for Huang Xiaolong to brand the dao souls of the demons, and he started to move towards the mysterious purple peak deep within the Bright Lightning Abyss. The demons followed behind the Tortoise Ancestor and acted like a group of thugs following their master.

In the Divine Tuo Holy World, there were countless creeds, and superpowers. It was the same for the Outer World, and they had their own structure of power.

The young master with the white horn was part of the Heavenly Venerable Palace in the Outer World.

The Heavenly Venerable Palace was a top tier power in the Outer World, and their place was similar to the Heavenly Phoenix Race in the Divine Tuo Holy World. It was stronger than the Dragon Fish Creed!

Even though Huang Xiaolong was in a rush to head over to the mysterious purple peak, he didn't forget to look for Chen Xi along the way. Chen Xi had the inheritance treasure of the Dragon Fish Creed, and Huang Xiaolong would be able to locate him easily as long as he detected the presence of the treasure.

It was a pity... No matter how hard he tried, Huang Xiaolong failed to locate any traces of Chen Xi.

Half a month later...

Huang Xiaolong and the Tortoise Ancestor arrived in the depths of the Bright Lightning Abyss with a group of demons behind them.

As soon as they arrived, they ran into high-level Dao Venerable Realm lightning beasts.

In order not to affect their speed, Huang Xiaolong personally moved against the lightning beasts. He suppressed them all easily, and threw them into the Sun Moon Furnace.

In the countless years that passed, the furnace had been constantly tempered by the Tree of Beginning and Parasol Tree. With the help of the Old Monster Flame and the others, it showed signs of breaking through. If it could reach the peak-grade cosmos artifact level, its power would take a huge leap forward.

If Huang Xiaolong entered the furnace to train, the effects would be much better than before!

The deeper they went, the stronger the lightning beasts became. However, it didn't matter how strong they were. Huang Xiaolong suppressed them with a single move before throwing them into the Sun Moon Furnace. When Ninth Esteem Dao Venerable Realm lightning beasts started to show up, Huang Xiaolong didn't bat an eyelid as he dealt with them the exact same way. Regardless of their cultivation realm, none of them could do a thing to Huang Xiaolong.

Without the presence of day and night in the Bright Lightning Abyss, Huang Xiaolong only saw lightning qi filling the skies above him. Lightning bolts slammed down into the ground occasionally, and the size of the lightning bolts had increased significantly since he entered the Bright Lightning Abyss.

In the past, they were merely larger than his thumb. Now, they were as large as snakes.

When the lightning snakes started to gather together, they fused into their surroundings. They became inextinguishable existences, and even when the Tortoise Ancestor smashed apart several million lightning snakes with a single palm, they managed to revive in the next instant.

Even Ninth Esteem Dao Venerables would be in deep trouble when surrounded by the lightning snakes.

However, Huang Xiaolong was no ordinary expert. With a single palm, he blasted them apart. Forming a world of lightning around him, he devoured the lightning snakes when they approached him again. When they entered his world of lightning, they became supplements for Huang Xiaolong's lightning attribute.

If other experts were to arrive, they would never be able to devour the lightning snakes even if they wielded the power of absolute lightning. However, with the Huang Long Bloodline, Huang Xiaolong could refine them with ease.

Several dozen days passed once again, and Huang Xiaolong finally arrived at the depths of the Bright Lightning Abyss. Even so, they still needed several days to arrive at the mysterious purple peak.

When they finally arrived, the lightning qi around them made it hard for anyone to move. Luckily for Huang Xiaolong, he possessed the Huang Long Bloodline and he could control the power of absolute lightning. He was like a fish in water when traveling through the depths of the Bright Lightning Abyss.

"The lightning qi here is really pure!"

It was practically a heaven for anyone who cultivated the power of absolute lightning. It was no wonder the old dragon remained in the Bright Lightning Abyss for so many years in the past!

All of a sudden, a tiger shaped lightning beasts pounced at Huang Xiaolong's group without warning.

In the depths of the Bright Lightning Abyss, any lightning beasts that existed were in the late-Ninth Esteem Dao Venerable Realm.

The tiger shaped lightning beast was born from the purest power of lightning, and it was extremely strong. It was an existence on the same level as Liang Xiao, the Tortoise Ancestor!

However, Huang Xiaolong dealt with it with a single wave of his hand. He branded its dao soul instantly before throwing it into the Sun Moon Furnace.

He used the lightning qi produced by the beast to refine the furnace even further. He realized that the more lightning beasts he captured, the faster the furnace improved.

...

"We're finally here!" Huang Xiaolong sighed after four days of traveling. Looking at the mountain that pierced straight into the skies, he noticed that it was larger than a supercontinent in size! Purple lightning swirled around the peak, and it emitted a horrifying pressure.

"This... This mountain peak definitely formed during the creation of the world!" Liang Xiao stammered.

Nodding his head, Huang Xiaolong felt a smile creeping up his face. Previously, he doubted the fact that the mountain peak was at the genesis-level but now that he was seeing it for himself, he no longer doubted the validity of the statement.

The mysterious purple peak was made from purple mountain rocks that were completely immune to the purple lightning swirling around the peak.

Reaching out with his hand, Huang Xiaolong shot a stream of energy towards the peak of the mountain. When it struck the purple mountain rocks, he only managed to leave a tiny mark on its surface. He didn't

even manage to leave behind a hole in the rock, and Huang Xiaolong raised his eyebrows in shock. Even the Tortoise Ancestor couldn't believe what just happened.

One had to know that Huang Xiaolong could pierce through the Tortoise Ancestor's shell with that stream of energy!

It didn't take long for the mark on the stone to disappear, and Huang Xiaolong was shocked. He couldn't believe that the rocks could regenerate themselves.

With a burning gaze, Huang Xiaolong realized that even if he failed to locate any treasures on the mysterious purple peak, the entire mountain itself was an invaluable treasure.

"Let's go!" Huang Xiaolong ordered the Tortoise Ancestor to proceed forward, but a group of more than three hundred demons appeared from the peak all of a sudden. They stopped Huang Xiaolong dead in his tracks. They were all high-level Dao Venerables, and they were definitely a force to be reckoned with.

"This mysterious purple peak is a treasure of our Demon Buddha Alliance. Anyone who dares step on the mountain will die!" A frosty light flashed in the eyes of the demon in the lead.

"Oh? Demon Buddha?"

The space outside the great holy worlds was called the Outer World, and it was where the demons resided. The Demon Buddha Black Region was a superpower of the Outer World, and it was the region closest to the Divine Tuo Holy World. The Demon Buddha was the strongest expert in the Demon Buddha Black Region, and his strength was comparable to the Dark Lightning Holy Dragon Ancestor!

Chapter 3014: Who's the Other Guy?!

The Demon Buddha might be comparable to the Dark Lightning Holy Dragon Ancestor in strength, but he only reached perfection in a single element. He was proficient in the power of darkness, and his ability to control the radiant element was only at the major completion stage.

Among the thirteen elements, the power of radiance was ranked fourth, while the power of darkness was ranked fifth. The Demon Buddha who reached major completion stage in the power of radiance was a terrifying existence!

“Lord Huang Zhe, they are from the Heavenly Venerable Palace.” Someone recognized the white horned demon behind Huang Xiaolong.

As soon as he spoke, the demon in the lead was stunned. He turned to look at the demons behind Huang Xiaolong, and a frown formed on his face.

The Heavenly Venerable Palace was a power in the Demon Buddha Black Region, and the palace master was the reputable Heavenly Demon. He was one of the ten strongest experts in the region!

“As it turns out, Your Highness is present!” Huang Zhe retracted his gaze and looked at Huang Xiaolong once again. He didn’t understand why the members of the Heavenly Venerable Palace would be following behind a human. Moreover, they were behaving as though the human was above them in status!

“Regardless of your relationship with the members of the Heavenly Venerable Palace, none of you can step into the mysterious purple peak!” Huang Zhe glared at Huang Xiaolong and continued, “Even the Heavenly Venerable Palace wouldn’t be allowed in! Lord Demon Buddha gave the order himself, and everyone who defies his order will die!”

The demons who emerged from the mysterious purple peak stared at the members of the Heavenly Venerable Palace and Huang Xiaolong. If they made any sudden movements, they wouldn’t hesitate to kill them all.

“Oh?” Huang Xiaolong looked into the depths of the mysterious purple peak and snickered. “It seems like the Demon Buddha personally came over to the mysterious purple peak.”

The Demon Buddha was the strongest person in the Demon Buddha Black Region, and he controlled one tenth of the power in the Demon Buddha Black Region! If Huang Xiaolong managed to subdue the Demon Buddha, his journey to the Origin Holy World would be much smoother!

With the Demon Buddha Black Region being comparable to the Divine Tuo Holy World, one tenth of its power was a terrifying amount! It was something ten thousand times scarier than the Holy Dragon Race, Heavenly Phoenix Race, Radiant Winged Dragon Race, and the Giant Golden Dragon Race combined!

Moreover, he needed to pass through the Demon Buddha Black Region when he headed over to the Origin Holy World in the future. That wasn't the only region as he needed to cross the Heavenly Dawn Black Region, Swordless Black Region, and the Thousand Nightmare Black Region. If he managed to subdue the Demon Buddha, passing through one of the four regions would be effortless.

"How dare you!" Huang Zhe screamed when he heard how Huang Xiaolong called the Demon Buddha out by name. "I will kill whoever disrespects Lord Demon Buddha!"

A blade appeared in his hand as he slashed at Huang Xiaolong. Demonic qi filled the skies and it transformed into countless evil demons that pounced on Huang Xiaolong.

Huang Zhe was extremely strong, and he was comparable to Ao Ji of the Radiant Winged Dragon Race.

However, Huang Xiaolong merely flicked his fingers once when faced with the terrifying amount of demon qi. A stream of energy shot towards Huang Zhe, and a hole was pierced through his body. The man was sent flying and he slammed heavily into the mountain peak.

The members of the Demon Buddha Alliance were shocked.

How could someone like Huang Zhe be unable to withstand a single strike from Huang Xiaolong?!

All of them could see that Huang Xiaolong was a mere Eighth Esteem Dao Venerable, and none of them expected him to be able to do what he just did.

After he sent Huang Zhe flying, Huang Xiaolong grabbed at the space in front of him and dragged the man over to himself.

"Release Lord Huang Zhe right now!" The demons snapped back to reality and they charged at Huang Xiaolong without the slightest hesitation.

However, Huang Xiaolong sent them all flying with a single wave of his hand. Icy blue light filled the skies, and with his increase in strength, the power of absolute frost he wielded reached a whole new level. Compared to the time when he challenged the Dark Lightning Holy Dragon Ancestor, he was countless times stronger!

The experts of the Demon Buddha Alliance were not even close to the peak of the late-Ninth Esteem Dao Venerable Realm. How could they possibly defend themselves against Huan Xiaolong? With miserable cries ringing out in the skies, all of them turned into ice statues.

The Golden Dragon appeared behind Huang Xiaolong, and it glared at the experts sealed in ice. A brand was left on their dao souls, and Huang Xiaolong swiped his hand over to shatter the ice surrounding them.

In the past, Huang Xiaolong was unable to break the ice surrounding the bodies of those he sealed with the power of absolute frost. In his many years of training, he finally became proficient at using the power of absolute frost, and he was able to easily retrieve his energy after sending it out.

Of course, Huang Zhe didn't receive preferential treatment. His soul was also branded, and Huang Xiaolong used the power of nirvana to help him recover his wounds.

The stream of energy that pierced through Huang Zhe's body and shattered in insides started to dissipate, as his wounds started to heal.

That was the true power of nirvana. Huang Zhe became as good as new, and it was as though Huang Xiaolong didn't move against him previously.

When Huang Xiaolong suffered from any sort of injury, he would be able to come back to life with the power of nirvana! Even if his dao heart was destroyed, it wouldn't stop him from restoring himself to his original state! Rumors had it that if one reached perfection level in the power of nirvana, they would be able to revive even if their dao soul was shattered! Of course, those were mere rumors. After all, no one in the Divine Tuo Holy World had ever comprehended the power of nirvana to perfection level!

After subduing Huang Zhe and the rest...

Huang Xiaolong entered the mysterious purple peak without anyone to stop him.

He stationed Huang Zhe and the others at the entrance of the mountain range in order to stop anyone else from approaching, and the members of the Heavenly Venerable Palace were left behind too.

“The energy here is really pure!” Liang Xiao exclaimed as they traveled to the peak of the mountain range.

Pure energy surrounded the mysterious purple peak, and to Huang Xiaolong’s surprise, there were also traces of grandmist qi in the air!

Even at the foot of the mountain range, the energy that surrounded them was extremely pure. Huang Xiaolong knew that the purity of the energy would only increase as they went higher, and if there were traces of grandmist qi at the foot of the mountain, there should be something even better at the peak!

Huang Xiaolong hastily ordered the Tortoise Ancestor to head up the mountain.

“Void Reincarnation Thistle!”

Along the way, the Tortoise Ancestor cried out in excitement every time they came across a valuable herb.

The Void Reincarnation Thistle was a genesis-level spiritual herb that was extremely hard to find! In the many years of existence of the Divine Tuo Holy World, the Void Reincarnation Thistle only appeared several times!

A stalk of Void Reincarnation Thistle was actually growing at the foot of the mysterious purple peak!

Huang Xiaolong was pretty calm compared to the old tortoise. After all, he expected to see spiritual herbs at that level.

The Void Reincarnation Thistle contained a strand of spatial powers. If one refined the grass, they might be able to comprehend the powers of space, and even though the chance of that was small, it was better than nothing!

All of a sudden, a terrifying wave of power emerged from the peak of the mountain.

Narrowing his eyes, Huang Xiaolong recognized the power. That was the power of darkness at perfection level, and it definitely came from the Demon Buddha. Huang Xiaolong was shocked that someone managed to force the Demon Buddha to go all out...

Grabbing the Void Reincarnation Thistle, Huang Xiaolong kept it well before ordering the Tortoise Ancestor to head straight up the mountain at full speed.

Chapter 3015: Three-headed Lightning Beast

Very quickly, Huang Xiaolong reached the peak of the mysterious purple peak.

Even though it was the peak of the mountain, it contained enough space to contain a massive city. Lighting qi swirled around in the surroundings, and lightning bolts roared through the air. Even Ninth Esteem Dao Venerables would fail to withstand the lightning qi at the peak of the mountain.

Other than the Demon Buddha and his opponent, there were over twenty peak late-Ninth Esteem Dao Venerable Realm demons present!

Despite being from the same race, they banded together in groups of twos and threes, and the largest group contained four peak late-Ninth Esteem Dao Venerables.

When they noticed Huang Xiaolong's arrival, they were shocked.

"Late-Eighth Esteem Dao Venerable of the Human Race? Interesting..." Someone stared at Huang Xiaolong before bursting into laughter. Blood-red light flashed through his eyes as killing intent swirled in his heart. Demons from the Other World had always been hostile to those from the Holy Worlds.

After all, the hatred between the two groups hadn't festered over a period of several years, but it stretched back as long as anyone could remember.

Ignoring the demons, Huang Xiaolong stared at the Demon Buddha and his opponent. Black light enveloped the Demon Buddha as he smashed holes into the dense cloud of lightning qi around him. When Huang Xiaolong discovered the Demon Buddha's opponent, he was shocked. It was a three-headed lightning beast!

The heads of the lightning beast resembled the head of a qilin, and its body contained the traits of a lion's torso. It had four dragon claws in place of its legs!

Its head shone with three different colors, and one of them was red, one glowed a brilliant white, while the final head was enveloped in a bright purple hue!

The head glowing red contained the ability to unleash absolute flame, and the head glowing a milky white contained the power of radiance!

As for the head enveloped in purple light, it naturally contained the power of absolute lightning!

The weirdly shaped lightning beast emitted brilliant rays of light as it unleashed the power of absolute lightning at perfection level. Huang Xiaolong frowned slightly as this was his first time meeting a beast with the power of absolute lightning. Moreover, the beast was able to control three types of energies at once with the power of absolute flame and radiance at major completion level!

It was no wonder it was able to fight the Demon Buddha to a stalemate!

Not only did the lightning beast control three types of power, but when it attacked, it used all three types of energies in tandem, causing the earths to crumble and the heavens to shake.

The most surprising thing wasn't its strength. Instead, Huang Xiaolong was more amazed at the fact that the mountain was standing tall despite their destructive exchange.

Their battle was more than capable of shattering a small creeds, but no matter how they fought, they failed to leave a single mark on the mountain!

No one knew how strong the mysterious purple peak had to be if it could stand tall despite the world-shattering power unleashed by the two monsters above it.

“Brat, how the f*ck did you get in here?!” A red-haired demon with one eye glared at Huang Xiaolong and growled.

As soon as he spoke, demonic qi started to swirl around him. His aura was no weaker than the guards Huang Xiaolong ran into outside the mountain range, and if he was an expert in the Divine Tuo Holy World, he would be ranked in the top thirty!

The other demons turned to stare at Huang Xiaolong in unison. It was clear that they were also curious how he had managed to enter the space around the mysterious purple peak. After all, there were more than three hundred experts guarding the perimeter! Even ordinary peak late-Ninth Esteem Dao Venerables wouldn't be able to sneak in with such a lineup of guards!

Moreover, Huang Xiaolong was only at the late-Eighth Esteem Dao Venerable Realm! They didn't expect him to be able to withstand the lightning qi at the peak of the mountain.

Of course, Huang Xiaolong didn't care about the red-haired demon. He continued to watch the battle between the Demon Buddha and the Three Headed Lightning Beast.

Seeing how the human ignored him, the red-haired demon's expression sank.

“Hehe, this brat is going to be in deep trouble. How dare he ignore Elder Savage...” Someone snickered at the side.

“Elder Savage, it seems like your prestige in the Divine Tuo Holy World has reached rock bottom! Even an Eighth Esteem Dao Venerable dares to ignore you!” A middle aged demon roared with laughter. “Are you going to take this lying down? Hahaha! If I were you, I would have shattered the little f*cker's balls!”

Every demon in the surrounding roared with laughter.

Killing intent erupted from the red-haired demon's eyes as he used a claw to grab Huang Xiaolong.
"Brat, if you manage to take this attack from me, I'll allow you to live!"

A claw formed in the space above them as it came crashing down.

Ignoring the demon, a ray of light emerged from Huang Xiaolong's body to shatter the claw.

"Huh?!"

The demons gasped in shock when they realized what had happened. They hadn't expected the human to shatter the red-haired demon's attack so easily!

"Did he use the power of absolute blaze?!"

"That's definitely the power of absolute blaze!" a skinny old demon replied.

The looks in their eyes changed instantly.

For existences at their level, it was nothing special to comprehend the power of absolute blaze. However, they couldn't understand how an Eighth Esteem Dao Venerable had managed such a feat!

He would have to be the strongest genius in all the lands if he had managed to do something like that!

The Demon Buddha Black Region had existed for an uncountable number of years! Even though they had produced a lot of geniuses in their time, there hasn't been a single Eighth Esteem Dao Venerable who managed to comprehend one of the absolute powers!

“No wonder he was able to enter this place...” The middle-aged demon chuckled in amusement. “Elder Savage, aren’t you a formidable existence? Hahaha, you can’t even take down an Eighth Esteem Dao Venerable.”

The red-haired demon glared at Huang Xiaolong as anger flashed through his eyes. However, he turned to the middle-aged demon and snorted, “Mang Niu, enough of your bullsh*t! If you’re capable, you can take care of the human. I’ll give you five billion dao coins if you do.”

The middle-aged demon felt a sense of excitement welling up in his heart. “Five billion dao coins?!”

All of a sudden, a heaven-shaking blast rang through the skies. Purple light covered the Three Headed Lightning Beast as its aura expanded to cover the entire mountain peak. The Ninth Esteem Dao Venerables in the surroundings retreated hastily.

Even though Huang Xiaolong wasn’t afraid of the beast, he decided to retreat with the Tortoise Ancestor in order to avoid raising suspicion.

While he was at it, he sneakily laid down the Sun and Moon Grand Formation in the skies as he backed away.

The three-headed lightning beast wielded the power of absolute lightning at perfection level, and it was several thousand times faster than the Tortoise Ancestor! When he first laid eyes on the beast, Huang Xiaolong had already decided to make it his mount. There was no way he would allow it to escape from the mountain peak.

Of course, neither could the demons.

Anyone who came to the mysterious purple peak had their fates sealed the moment Huang Xiaolong had arrived!

As for the red-haired demon and the middle-aged demon...

All Huang Xiaolong could say was that they shouldn’t have spoken out earlier.

Black light started to gather around the Demon Buddha all of a sudden as he disappeared into the void. Black mist gathered around the mountain peak, and no matter how the lightning beast attacked the mist, it refused to dissipate! However, flames started to emerge from the beast's back as it started to shine like a mini sun in the midday sky. Rays of radiant light that contained the power of both radiance and absolute flame scattered the black mist instantly!

Chapter 3016: What do you Mean by This?!

The power of radiance and blaze were something that perfectly countered the power of darkness! When the three-headed lightning beast used the two powers in unison, it managed to suppress the Demon Buddha!

However, a ray of light congealed in the middle of the scattered mist as it stopped the rays of radiance and fire from spreading any further.

The Demon Buddha appeared once again, as the two of them became locked in a bitter battle.

The shockwaves of the battle started to spread, and no matter how strong the mysterious purple peak was, its surroundings weren't as sturdy! Under the impact, the earth surrounding the mountain peak crumbled.

As everyone focused their attention onto the Demon Buddha and the three-headed lightning beast, no one discovered that Huang Xiaolong was laying down the Sun and Moon Grand Formation around them.

Of course, the main reason they were unable to discover anything was because Huang Xiaolong's understand of formations reached a whole new level in the past hundreds of years. Even though he wasn't able to lay down a formation with a single through, he was able to seamlessly hide his formations with the cosmos energy he wielded.

As long as he didn't meet any experts who were proficient with the laws of space, no one would be able to discover what he was doing.

Soon, he completed the formation.

It didn't take long for Mang Niu's gaze to turn to Huang Xiaolong. "Elder Savage, are you sure you'll be willing to keep your promise?"

A strand of origin qi was worth ten billion dao coins. One could only imagine how much money the red haired demon was willing to pay!

"That's right." The red haired demon nodded slowly. "However, it won't be as easy as you think!" Previously, he was unable to probe Huang Xiaolong's full strength. Even so, he could tell that Huang Xiaolong was as strong as those around them. Even if he was a little weaker, it wouldn't be by much.

Mang Niu chuckled casually in response. "He's just an Eighth Esteem Dao Venerable. Heh." Retrieving a jet black rope, spatial restrictions could be seen inscribed all over it.

"Black Serpent Rope!" The demons standing around gasped in shock.

"That's right!" Mang Niu laughed in glee. "No one can escape from the Black Serpent Rope! It can trap anything under the heavens, not to mention a mere Eighth Esteem Dao Venerable!"

The red haired elder revealed an expression of regret. If he knew that the other party brought the Black Serpent Rope along, he wouldn't have made the bet.

After all, the Black Serpent Rope was a peak-grade cosmos artifact! It was crafted using the time stone born during the formation of the world! If anyone managed to use the full power of the Black Serpent Rope, they would be able to capture an entire dao convergence!

Swinging the Black Serpent Rope in his hand, Mang Niu aimed it at Huang Xiaolong. The space around him started to constrict, and the rope managed to coil around Huang Xiaolong in an instant.

"Elder Savage, do you see this?" Mang Niu roared with laughter and turned to the red haired demon. "Cough up the five billion."

None of them reacted in time as blue light emerged from Huang Xiaolong's body to freeze the Black Serpent Rope solid.

With a slight shrug, Huang Xiaolong released himself from the rope.

When the demons saw what happened, they couldn't believe their eyes.

"Perf-... Perfection! Perfection level power of absolute frost!"

As a late-Eighth Esteem Dao Venerable, the human before them not only managed to comprehend the power of absolute blaze to major completion level. He even managed to reach perfection level in the power of absolute frost!

With the Black Serpent Rope in his hand, Huang Xiaolong quickly scanned through the power of space contained in it. "This isn't half bad... It's too bad you're too weak."

When Mang Niu wanted to retrieve his Black Serpent Rope, he realized that his connection with it was broken. No matter how hard he tried, the Black Serpent Rope refused to return to him. He stared at Huang Xiaolong in horror. "Who the f*ck are you?!"

Ignoring the man, Huang Xiaolong used his cosmos energy to seal the Black Serpent Rope before throwing it into the Blood Dragon Stele. The Sun Moon Furnace emerged soon after, and it soared high into the sky. Light surrounded it like it as suns and moons appeared in the skies above them. The rays they emitted blinded those present.

"Sun Moon Furnace!" Everyone recognized it in an instant.

Even though they were experts who came from the Outer World, they were more than familiar with the second ranked treasure in the Divine Tuo Holy World!

Everyone felt the space around them being disconnected from the rest of the world, and they stared at Huang Xiaolong with a face full of suspicion. They had no idea what he wanted to do, but from the looks of it, it seemed as though he was planning to deal with all of them at the same time!

Even the three-headed lightning beast and the Demon Buddha stopped fighting as they turned to stare at Huang Xiaolong.

“Brat, what’s the meaning of this?!” An old demon with green hair and a nose resembling an eagle’s beak chuckled lightly.

“Don’t tell me you’re planning to move against all of us!” The red haired demon sneered as a sinister look formed in his eyes.

As a loud roar pierced the skies, the three-headed lightning beast appeared in front of Huang Xiaolong as its claw came smashing downwards.

Raising his fist, Huang Xiaolong wrapped them with the power of nirvana and he returned the blow with a punch of his own.

Boom!

With a single punch, the three-headed lightning beast was sent crashing down into the mysterious purple peak.

The surroundings fell silent instantly, and the looks of mockery on their faces turned into one of fear. Time seemed to have stopped as they stared at Huang Xiaolong with a look of caution.

Even the Demon Buddha couldn’t believe his eyes. He fought with the three-headed lightning beast for more than half a day, and they were unable to determine the victor of the battle! The three-headed lightning beast couldn’t do a thing to him, and he failed to suppress the beast! However, the human before him sent the three-headed lightning beast flying with a single punch!

Wouldn’t that mean...

“Power of nirvana at major completion level!” Mang Niu felt his tongue going stiff as he stammered.

First, he showed off the power of absolute blaze. Then came absolute frost, and finally, he used the power of nirvana!

The faces of everyone present turned solemn in an instant.

“Are you... Are you Huang Xiaolong, the Son of Creation?” The Demon Buddha broke the silence.

“Son of Creation!” The faces of everyone changed.

A lot of demons present had been in seclusion for a long time, and when they finally left seclusion, they learned of Huang Xiaolong’s legends. The Demon Buddha Black Region might be located in the Outer World, but it was the closest region to the Divine Tuo Holy World! Ordinary experts in the Demon Buddha Black Region might not know about him, but peak existences like those present definitely knew!

“That’s me.” Huang Xiaolong wasn’t surprised they managed to guess his identity, and he wasn’t planning on hiding it either.

“Your Highness... May I ask if you require anything of us?” The Demon Buddha’s expression sank as he lowered his gaze slightly.

“All of you can kneel and submit to me.” Huang Xiaolong wasn’t planning on wasting any time.

As soon as he spoke, the expressions of everyone present changed. The three-headed lightning beast released an enraged cry as a pillar of purple light tore through the skies.

Chapter 3017: Genesis Lightning Water

Even though the beast roared angrily, it didn’t dare to take another step forward. It didn’t dare to attack Huang Xiaolong, and it was clear that Huang Xiaolong’s previous punch managed to strike fear in its heart.

“Your Highness, your strength might be enough to flip the heavens, and the Dark Lightning Holy Dragon Ancestor might have lost to you. However, do you really think you will be able to challenge all of us at once?” The Demon Buddha’s expression sank as he stared at Huang Xiaolong with a hostile expression. As the strongest expert in the Demon Buddha Black Region, he controlled countless creeds, and the number of cultivators that he could command reached a fearsome number! How would he ever be willing to accept someone as his master?!

Getting to his feet, Huang Xiaolong leaped off the Tortoise Ancestor’s back and appeared among them. “Make your move.”

Staring at each other in shock, no one dared to move.

All of a sudden, Mang Niu’s body flashed and he appeared behind Huang Xiaolong silently. His fingers started to lengthen as he stabbed towards Huang Xiaolong’s back.

Bang!

The instant his fingers came into contact with Huang Xiaolong’s body, he felt as though he had struck a world pillar. He couldn’t even draw blood!

With a punch slamming into his chest the next instant, the armor that covered Mang Niu’s body shattered into a thousand pieces. His dao heart was shattered and he was flung backwards.

After dealing with Mang Niu, Huang Xiaolong’s figure started to blur as he appeared before the red-haired demon. Reaching out with a single finger, he pointed between the demon’s forehead. A beam of light shot through his skull, and the demon’s brain juices started to flow out from the back of his head.

Fear gripped the hearts of everyone present when they saw what happened. Mang Niu was ranked in the top ten in terms of strength in the Demon Buddha Black Region. His physical body reached a terrifying level of defense, and he was definitely ranked in the top five among those present in terms of defense! Yet, his dao heart was shattered by Huang Xiaolong with a single strike!

As for Elder Savage, he might be slightly weaker than Mang Niu, but he wasn’t that much worse! However, Huang Xiaolong killed him with a single finger!

When all of them were stunned, Huang Xiaolong continued to move. This time, he appeared right before the Demon Buddha.

...

Ten minutes later, every living being above the mysterious purple peak knelt before Huang Xiaolong.

If he was the Sixth Esteem Dao Venerable he once was when fighting the Dark Lightning Holy Dragon Ancestor, subduing all of them wouldn't be easy. Existences at the level of the Demon Buddha and the three headed lightning beast would be able to retreat easily even if they couldn't win! However, Huang Xiaolong's strength had reached a whole new level since then. Taking care of all of them was a piece of cake.

After imprinting the dao souls of those present, Huang Xiaolong learned that the three headed lightning beast was called Lei Yu. From the time it was born, it cultivated in the depths of the Bright Lightning Abyss. It should be the only mutated three-headed lightning qilin left in the Huang Long World.

Despite being born there, Lei Yu didn't know much about the Bright Lightning Abyss. He arrived at the mysterious purple peak slightly earlier than the Demon Buddha and the others, and that was how the battle started.

According to Lei Yu's words, the mysterious purple peak should be located in one of the spaces within the Bright Lightning Abyss. It probably appeared after something happened to the space it was located in.

After asking several questions, Huang Xiaolong released his dao soul and scanned the entire mountain peak. When he was satisfied that there was no one else present, he ordered the Demon Buddha and the others to stand guard outside. He started to harvest the treasures and herbs located on the mysterious purple peak.

With his dao souls operating at full capacity, no treasures could hide from his sight. He threw everything he found into the Sun Moon Furnace.

As for the Void Reincarnation Thistle, Huang Xiaolong managed to obtain several dozen more!

There were more than two thousand stalks of genesis level herbs, and there were a total of four hundred types of them!

He even found two genesis-level lightning spiritual veins!

A genesis-level spiritual vein appeared less than ten times in the entire Divine Tuo Holy World, and the largest ever was only several tens of thousands of miles long. However, the two he obtained were well over several hundred thousand miles long!

They were something grand dao spiritual veins would never be able to match! Genesis-level spiritual veins were born during the creation of the world, and they contained several creation laws in them. They were extremely useful if Huang Xiaolong wanted to reach the Creation Realm in the future to become a God of Creation!

Other than the herbs, he managed to locate a river that contained genesis lightning water halfway down the mountain! Compared to the genesis poison water he obtained in the Mysterious Yin Immortal Cave, it was at least ten times more!

Moreover, he discovered that the purple rocks around the mountain were arranged in such a way that they formed the genesis lightning grand formation. It could absorb the lightning qi from the Bright Lightning Abyss to strengthen the mountain itself.

Excitement bubbled in his heart. He wanted to refine the entire mysterious purple peak into a flying ship. With the formation, he wouldn't have to waste time carving a formation of his own into the mountain!

In the past, he tried to move the entire mountain peak with his cosmos energy. Despite having three small worlds, twelve high-order Saint Fates, and the Huang Long Bloodline, he failed to budge the mountain! With the discovery of the formation, he would be able to bring the entire mysterious purple peak away as soon as he refined it!

With the Huang Long Bloodline and the Soaring Dragon Art, refining the formation became much easier compared to before!

Even so, he took half a month in order to refine the entire thing.

In the half a month, there were experts from the Divine Tuo Holy World and lightning beasts who tried to approach the mountain. With the protection of the Demon Buddha and the others, no one managed to distract him.

After he refined the formation, Huang Xiaolong tried to move the mountain peak. Turning into a streak of purple light, the mysterious purple peak disappeared from where it once stood. It appeared several million miles away in the blink of an eye.

Laughing in his heart, Huang Xiaolong learned that the purple stones around the mountain were made from genesis stones that contained the power of lightning. It was countless times faster than the Holy Dragon Flying Ship, and its speed far exceeded Huang Xiaolong's imagination.

The Holy Dragon Flying Ship was the best flying ship in the Divine Tuo Holy World, and it possessed shocking speed. However, the mysterious purple peak was able to move countless times faster than it before Huang Xiaolong enhanced its performance! One could only imagine how fast it was!

Activating the mysterious purple peak, Huang Xiaolong left the place it once stood. He decided to properly refine the genesis lightning water before leaving the Bright Lightning Abyss.

Chapter 3018: Ninth Esteem Dao Venerable!

In the depths of the Bright Lightning Abyss, the lightning qi reached a shocking level of purity. If Huang Xiaolong refined the genesis lightning water there, his ability to control absolute lightning would benefit greatly!

Before entering seclusion, Huang Xiaolong ordered for the others to look for Chen Xi. He only allowed the Demon Buddha and Lei Yu to remain behind.

Even the Ninth Esteem Dao Venerables in the Sun Moon Furnace, the Tortoise Ancestor, and the lightning beasts he captured along the way were sent out.

During his adventure towards the depths of the Bright Lightning Abyss, Huang Xiaolong managed to capture a lot of high-level Dao Venerable Realm lightning beasts. Of them, more than one hundred were in the Ninth Esteem Dao Venerable Realm!

If he counted every lightning beast in the high-level Dao Venerable Realm, there would be more than seven hundred of them!

The number of high-level Dao Venerables Huang Xiaolong commanded had already reached a staggering number of more than a thousand!

The Demon Buddha and Lei Yu might be around to protect him during his cultivation, but to be safe, Huang Xiaolong activated the grand formation around the mysterious purple peak before he started to refine the genesis lightning water.

Sitting in the skies, Huang Xiaolong circulated the Soaring Dragon Art. The golden dragon materialized behind him and the genesis lightning water hovered in the air around him before finally surrounding him.

Wrapped in genesis lightning water, flashes of light emerged from Huang Xiaolong's body as the power of absolute lightning filled the area around him.

Refining the genesis lightning water, Huang Xiaolong continued to comprehend the power of absolute lightning and before he knew it, more than a hundred years had passed.

During his seclusion, he refined the entire river of genesis lightning water. He even refined the two genesis lightning spiritual veins!

As a pillar of purple light pierced into the skies, clouds formed from lightning qi drifted around the skies above the mysterious purple peak as lightning bolts swam through the space around it.

White Flame Lightning, Origin Fire, and the Light of Creation appeared once again.

That was the final tribulation Huang Xiaolong would have to face in the Dao Venerable Realm! As soon as he crossed it, he would enter the Ninth Esteem Dao Venerable Realm!

As soon as the tribulation appeared, the purple clouds started to dissipate. The lightning qi originating from the depths of the Bright Lightning Abyss started to howl, and a destructive power filled the skies around them. Even peak late-Ninth Esteem Dao Venerables felt their skulls going numb when they noticed the magnitude of the tribulation.

Origin Fire started to gather together as a sea of flames formed in the skies above Huang Xiaolong. The Light of Creation became stronger and stronger, and everyone felt as though it contained the power to shatter everything in its path.

It didn't take long for the experts in the Bright Lightning Abyss to notice the change. After all, the lightning qi in the Bright Lightning Abyss was fluctuating wildly with Huang Xiaolong's ascension.

That wasn't the only place that was affected. The Divine Tuo Holy World, the Demon Buddha Black Region, and every location around the space they were in started to shake.

Terrifying pressure descended from the heavens and wave after wave slammed into the Divine Tuo Holy World, and the Demon Buddha Region. It was as though it wouldn't stop unless it destroyed everything!

Only after tens of years did the pressure start to dissipate.

In the instant it stopped, the experts in the Divine Tuo Holy World and the Demon Buddha Black Region felt as though their lives were pardoned by the almighty god.

...

Several dozen years passed once again, and Huang Xiaolong finally emerged from the mysterious purple peak.

When the Demon Buddha and Lei Yu noticed his arrival, they felt their dao souls freezing in place. As Huang Xiaolong didn't hide his sword intent, the two of them felt as though a sledgehammer slammed into their chest with every step he took. They retreated again and again, and they felt that even approaching Huang Xiaolong would be an arduous task!

The two of them couldn't believe that Huang Xiaolong's strength would reach such a terrifying level after entering the Ninth Esteem Dao Venerable Realm!

He might be an early-Ninth Esteem Dao Venerable, but his strength seemed to have increased by several folds!

The two of them were completely unaware that Huang Xiaolong's breakthrough wasn't as simple as other Eighth Esteem Dao Venerables. After crossing his tribulation, Huang Xiaolong not only managed to enter the Ninth Esteem Dao Venerable Realm. He even managed to reach the major completion stage in the powers of absolute lightning. His power of nirvana that was previously stuck at the major completion stage reached the limits of the major completion stage, and he only needed to progress a tiny bit before entering perfection level!

Moreover, the three worlds he created evolved once again after absorbing the Light of Creation and Origin Fire. They started to enter the ultimate stage from the perfect stage, and the power they possessed increased to a whole new level!

Of course, his Huang Long Bloodline and Dao Body of Heaven and Earth improved once again. His Dao Body of Heaven and Earth finally entered perfection level, and it possessed a shocking amount of power.

Huang Xiaolong might not know how strong his body actually was, but he could feel that the bodies of the Demon Buddha and Lei Yu standing before him were incredibly weak compared to his own!

"Your Highness, we managed to locate Chen Xi" A peak late-Ninth Esteem Dao Venerable Realm Demon cautiously approached Huang Xiaolong and got to his knees. "We didn't dare to disturb you previously, and we hope Your Highness can forgive us."

"Oh?" Huang Xiaolong was pleasantly surprised when he heard the news.

He didn't hope for much when he ordered everyone to look for Chen Xi. To his surprise, they actually managed to find him!

"Yes. However, he was extremely weak when we found him. He seems to have suffered from some sort of injury, and he's on the brink of death. No matter how hard we try to save him, we are unable to deal with his injuries..."

"It's fine." Huang Xiaolong waved his hand and laughed. As long as Chen Xi wasn't dead, Huang Xiaolong was more than confident in his abilities to wield the power of nirvana. With the power of nirvana at the peak of the major completion stage, Huang Xiaolong was confident he could return Chen Xi to his peak state. Moreover, he had a ton of genesis level herbs and the Blue Lotus Liquid in his possession. It was extremely simple for him to keep someone alive.

Very quickly, Huang Xiaolong managed to meet Chen Xi.

When he appeared before Chen Xi, the latter was shocked. Prostrating on the ground, he didn't dare to raise his head. Of course, Chen Xi had no idea who Huang Xiaolong was as no one dared to release information on the Son of Creation without explicit permission. Even so, when he learned that Ming Fu, the Old Monster Flame, and the other peak experts of the Divine Tuo Holy World were under Huang Xiaolong's command, Chen Xi didn't dare to disrespect Huang Xiaolong in the slightest way.

The only thing he couldn't understand was why Huang Xiaolong was interested in saving someone like himself. After all, he was a nobody in the Divine Tuo Holy World!

Noticing the confusion in Chen Xi's mind, Huang Xiaolong explained his relationship with Long Jianfei. As soon as his explanation was done, a look of relief spread across Chen Xi's face.

Soon after, Huang Xiaolong used the power of nirvana and several precious herbs to assist Chen Xi in his recovery. No longer interested in the Bright Lightning Abyss, Huang Xiaolong activated the mysterious purple peak and brought everyone back out of the region.

After they left, Huang Xiaolong sent the demons away and allowed the Demon Buddha and the others to return to the Demon Buddha Black Region. With Lei Yu, the lightning beasts, and the experts of the Divine Tuo Holy World, Huang Xiaolong returned to the Boundary Emperor Creed.

“It’s time for me to head over to the Origin Holy World...” Huang Xiaolong thought in his heart.

Since he made up his mind, he decided to bid farewell to the Cangqiong Old Man, Fei Yanzi, and the others before leaving for the Origin Holy World

Chapter 3019: Arriving at the Origin Holy World

After he returned to the Boundary Emperor Creed, he brought Chen Xi to meet with Long Jianfei. When they finally reunited, the master and student duo rejoiced. When they had lost contact with each other in the past, no one had expected to ever see the other party again.

During the time he had spent with Fei Yanzi and the others, he would cultivate in the space inside the Sun Moon Furnace at night and give out pointers to the Cangqiong Old Man and the others during the day. There were even days when he would study the art of refining pills along with his skills in laying down formations.

Huang Xiaolong retrieved all two thousand genesis spiritual herbs and refined them into genesis spiritual pills. Since the herbs from the mysterious purple peak contained the power of lightning, it came as no surprise that the pills he refined contained the laws of lightning. The effects of the pills were much better than the Holy Dragon Pills he had refined in the past.

With the number of herbs he had, Huang Xiaolong managed to concoct more than a dozen furnaces. More than three hundred Purple Lightning Sun and Moon Pills were produced.

When he had nothing else to do, Huang Xiaolong would stroll about the Divine Tuo Holy World with Yin Yue and Feng Yue.

Three years passed in the blink of an eye, and it was finally time for Huang Xiaolong to leave.

“Xiaolong... You have to be careful after entering the Origin Holy World!” Cangqiong Old Man cautioned. He knew that Huang Xiaolong’s strength was unparalleled in the Divine Tuo Holy World, but the Origin Holy World was no Divine Tuo Holy World!

“Of course.” Huang Xiaolong nodded before turning to Fei Yanzi, Feng Yue, and Yin Yue. “Take care of yourselves when I’m gone.”

When he left for the Origin Holy World, he didn’t tell anyone other than Cangqiong Old Man and the three ladies.

Rushing up to him, the ladies held him for a long time before reluctantly letting go.

...

As the Purple Lightning Peak turned into a streak of purple light, it eventually disappeared into the horizon.

“Your Highness, you could easily bring the three young ladies to the Origin Holy World...” Lei Yu looked at Huang Xiaolong weirdly and spoke.

Shaking his head, Huang Xiaolong sighed, “If they head over to the Origin Holy World with me, their lives would be in danger.”

The journey to the Origin Holy World wasn’t going to be a walk in the park. They would have to pass by several regions in the Outer World, and the spatial storms would be intense. Even with his strength, Huang Xiaolong wasn’t confident he could ensure everyone reached the Origin Holy World safely. Moreover, there were still matters to deal with there. There was no doubt he would clash with the Mystical Pavilion, and if he brought them along, they would be in serious danger.

In the past three years, Huang Xiaolong had ordered the various experts to continue tempering the Purple Lightning Peak. The speed and defenses of the mountain peak were no longer comparable to before!

Regardless, he needed some time to pass through the Divine Tuo Holy World.

The Divine Tuo Holy World wasn't something he could cross in several short days. It was extremely vast, and there were many places he had never been to! If ordinary peak late-Ninth Esteem Dao Venerables wanted to journey across the world, they would have to fly for thousands of years without resting!

As the Purple Lightning Peak soared through the skies, Huang Xiaolong refined the pills he had refined previously. At the same time, he tried to deepen his understanding of the various energies he controlled.

When he left for the Origin Holy World, his ability to control absolute frost and absolute poison reached perfection stage. He reached the peak of the major completion stage in the power of nirvana, and his ability to control absolute lightning wasn't too far off. He reached the minor completion stage in the power of darkness, and he decided to focus on the power of nirvana before dealing with anything else.

Since he only needed to comprehend a little more of the power of nirvana to reach perfection level, it would be in his best interests to do that. After all, three different types of absolute powers at perfection level would push his combat abilities up to a whole new level.

Of course, Huang Xiaolong had one fatal flaw. Even though he reached perfection level in controlling both absolute frost and absolute poison, his period of cultivation was too short. He was unable to unleash their true power, and the only solution he could think of was to strengthen his control over them by sparring with Lei Yu. As he suppressed his strength to fight Lei Yu with the different energies he controlled, he soon became more proficient at using them.

As a lightning beast born from the Bright Lightning Abyss, Lei Yu was more adept at using the power of lightning than the Dark Lightning Holy Dragon Ancestor!

With Lei Yu 'teaching' him, Huang Xiaolong's speed of improvement could be compared to a rocket!

Despite Lei Yu commanding three different types of energies, Huang Xiaolong could use a single power he controlled to suppress Lei Yu.

Countless years later, Huang Xiaolong finally reached the Outer World and entered the Demon Buddha Black Region.

When he arrived, the Demon Buddha and the others had already prepared a grand ceremony to welcome him.

It was too bad Huang Xiaolong was not interested in any of it. After ordering the experts to hand over their treasures, Huang Xiaolong continued on his way to the Origin Holy World.

His wealth might have been enough to rival a holy world, but Huang Xiaolong felt that one could never collect enough treasures. After all, increasing his strength required a copious amount of them!

Since the Demon Buddha controlled both the power of darkness and radiance, his treasury wasn't lacking in them at all! Huang Xiaolong managed to obtain several genesis-level spirit stones containing both energies. After scouring the treasury, he also managed to discover a hundred Demon Buddha Pills.

The pills contained the power of radiance and darkness, and it was extremely useful for someone like Huang Xiaolong.

...

As the Demon Buddha followed behind Huang Xiaolong, their journey through the Demon Buddha Black Region went unobstructed. They arrived at the Heavenly Dawn Black Region after several years of traveling.

As soon as they arrived, their journey became a lot harder. They ran into demons left and right, but Huang Xiaolong, being Huang Xiaolong, charged right through them.

He casually went over to the headquarters of the Heavenly Dawn Black Region to retrieve their treasury while he was at it, and he continued to travel towards the Origin Holy World.

The Swordless Black Region was next, followed by the Myriad Devil Black Region.

By the time he crossed all four regions, several dozens of years had already passed.

...

“We’re finally here!” The moment he stepped into the Origin Holy World, Huang Xiaolong sighed with relief. The sights of the lush mountains and clear water were a welcome sight compared to the dull Outer World.

The Outer World didn’t contain a sun, and neither was a moon present. The light that illuminated the place was greyish in color, and there was nothing nice about it. Huang Xiaolong was already tired of the view, and the multitude of colors in the Origin Holy World was a great refresher.

With the endless killing and refinement of dark energy in the Outer World, Huang Xiaolong’s ability to control darkness had increased at a terrifying rate.

It was too bad he failed to reach perfection level in the power of nirvana before stepping foot in the Origin Holy World.

Keeping the Purple Lightning Peak away, Huang Xiaolong made everyone enter the Sun Moon Furnace before riding on Lei Yu’s back. They didn’t hesitate to head into the Origin Holy World!

Chapter 3020: Ice Soul Fruit?

Feeling the laws of the world contained in the Origin Holy World, Huang Xiaolong discovered that they were much stronger than the laws contained in the Divine Tuo Holy World.

“I came here once in the past, but a long time had passed since then...” Lei Yu sighed. The sights before him felt extremely familiar, yet distant at the same time.

Huang Xiaolong wasn’t surprised by Lei Yu’s sudden revelation. After all, the Dark Lightning Holy Dragon Ancestor remained in the Origin Holy World for a long time in the past before returning to the Divine Tuo Holy World.

Experts at the level of Lei Yu and Dark Lightning Holy Dragon Ancestor definitely left behind their inheritances in the form of a dao convergence before leaving.

“I wonder how those brats are...” Lei Yu muttered to himself.

He was referring to the disciples he accepted in the past. When he left the Origin Holy World, his disciples had barely broken through to the Dao Venerable Realm. After so many years, he had no idea how strong they were.

Huang Xiaolong soon asked about several matters regarding the Origin Holy World.

When he learned that the Leiyu Creed was the inheritance left behind by Lei Yu, he decided to head over for a look. "Let's head over there before deciding on anything else."

Even though his main objective was to locate Huang Shuai and retrieve the Huang Long Cape, he knew that he had to take things slow now that the Mystical Pavilion was embroiled in the matter.

"?!" Lei Yu was stunned for a second.

Nodding slowly, Huang Xiaolong confirmed his decision. After all, he wasn't familiar with the Origin Holy World. He needed to settle down somewhere before starting an arduous battle with the Mystical Pavilion.

Understanding Huang Xiaolong's intentions, Lei Yu headed straight for the Leiyu Creed.

Since the Origin Holy World was even larger than the Divine Tuo Holy World, the time it would take to travel between different regions would be longer than before! As the Leiyu Creed was located in the Golden Fox Heavenly Cave, they would need half a year before they could arrive!

During the journey there, Huang Xiaolong didn't remain idle. He continued to study the arts of pill refinement and formations.

His understanding of the two arts was no longer at the same level it was before, but he was still extremely far away from being able to craft pills and lay down formations with a single thought!

Studying the two major arts were extremely useful to Huang Xiaolong, and it was extremely beneficial when he tried to comprehend the laws behind using the different elements.

Along the way, nothing happened to the two of them.

Finally stepping into the region where the Leiyu Creed was located, Huang Xiaolong pointed at a random sacred land and he muttered, "We'll take a break there."

Nodding respectfully, Lei Yu brought Huang Xiaolong over to the sacred land.

When they finally landed, Huang Xiaolong looked around him. He noticed that there was a village standing before them, and a warm glow enveloped the village as smoke curled up in the skies above the chimneys of the various houses laid around the area. It gave off an extremely homely feeling, and it was something Huang Xiaolong hadn't experienced in a long time. His thoughts drifted and he felt as though he was back in his previous life...

Something seemed to sprout in his heart in that instant, and a sense of enlightenment washed over Huang Xiaolong. He felt as though a veil was parted before his eyes.

Riding on Lei Yu, Huang Xiaolong went straight towards the village.

Hiding their auras the best they could, the lightning qi around Lei Yu was nowhere to be seen. He looked like an ordinary three headed beast, and nothing like his former formidable self.

When they finally entered the village, Huang Xiaolong saw groups of people wearing simple clothing gathered together. Some were tending to crops, and others were dealing with the corpses of some beasts. It was clear the meat of the beasts slain was the main source of food for the villagers.

Even though many villagers felt that it was strange for Huang Xiaolong to appear riding a beast, no one stopped him.

When they passed a field, Huang Xiaolong saw stalks of unknown crops rising several tens of meters high. The crops were as large as his thumb, and every individual stalk shone like jade. There seemed to be some sort of fire burning in them, and Huang Xiaolong could feel the rich energy contained in them.

“This is called the Fiery Light Maize..” Lei Yu explained. “It’s a pretty good crop found in the Origin Holy World. It’s the main source of food for core disciples in sacred lands. Even inner disciples of various dao convergences would eat the Fiery Light Maize for every meal.”

Huang Xiaolong nodded slowly.

Even though refining spiritual pills was a faster way to cultivate, refining pills were extremely troublesome. They even had to sacrifice a ton of spiritual stones in order to cultivate a furnace full of pills, and crops with spiritual energy were a great alternative.

Even though the Fiery Light Maize couldn’t be compared to holy pills, its effects wouldn’t be much weaker than one if a cultivator ate the Fiery Light Maize for a long time. Naturally, spiritual liquid was needed to grow crops at that level.

“I’ve heard that the Fiery Light Maize tastes pretty good...” Lei Yu chuckled. “Who would have thought that this village would be able to produce them!”

Huang Xiaolong laughed, “We should really try some if it’s as good as you say!”

The two of them continued onwards, and a mesmerizing fragrance drifted up their nostrils all of a sudden.

“Amazing!” Huang Xiaolong couldn’t help but cry out in shock.

“That’s the smell of cooked Fiery Light Maize.” Lei Yu took a deep breath before laughing casually.

Following the scent, the two of them arrived before a massive courtyard.

Peering into the courtyard, Huang Xiaolong saw two people cooking the Fiery Light Maize over a fire. One of them was old, and the other was young! They cooked the Fiery Light Maize in a special pot, and the mouth watering fragrance filled the entire area. The youngster added firewood to the roaring flames beneath the pot, and Huang Xiaolong noticed that the firewood was no ordinary one. It came from a spiritual tree, and it was clear that cooking the Fiery Light Maize wasn’t as easy as it seemed.

When the two of them noticed Huang Xiaolong and Lei Yu, they were shocked.

“Old man, we’re passing by and we noticed the smell. We hope we can have a taste of whatever you’re cooking!” Huang Xiaolong chuckled. “Of course, we can give you holy coins for your trouble.” As soon as he spoke, he took out a single holy coin.

The holy coin was something Huang Xiaolong prepared ever since he learned about the Origin Holy World from Lei Yu.

In the Origin Holy World, currencies were split up into gold, spiritual, holy, and dao coins.

“Holy coins?!” The youngster who was adding firewood to the flames jumped in joy. He ran over to Huang Xiaolong and grabbed the coin. The flames used to cook the Fiery Light Maize was the least of his concerns as he started looking at the holy coin in his hand. Pouring the energy in his body into the holy coin, the kid eventually opened his mouth to bite on it.

“It’s real!” The youngster laughed in amazement.

Lines started appearing on Huang Xiaolong's forehead. It was a mere holy coin. If they were able to feast on the Fiery Light Maize, why would they be so worked up over one holy coin?!

The white haired old man laughed softly in response. “If you don’t mind the rough taste of the Fiery Light Maize, you’re welcome to join us. It should be done soon.”

Huang Xiaolong nodded and he sat down in the courtyard. Lei Yu sat beside him.

“This lord... Your beast should be one from the ancient times, yes?” The old haired elder chuckled.

A smile formed on Huang Xiaolong’s face. The old man might be a True Saint Realm expert, but there was no way he could recognize Lei Yu.

The Fiery Light Maize became ready, and the youngster got a bowl ready for Huang Xiaolong and Lei Yu.

Swallowing a mouthful, Huang Xiaolong discovered that the Fiery Light Maize dissolved in his mouth. It was fragrant, and there was a tart sweetness to it. Overall, Huang Xiaolong found it pleasant.

As he ate, he started chatting with the white haired elder.

“Lord, are you here for the Ice Soul Fruit?” The white haired elder asked all of a sudden.

Ice Soul Fruit? Huang Xiaolong was slightly taken aback.

“Your Highness, the Ice Soul Fruit is a type of holy herb in the Origin Holy World.” Lei Yu’s voice rang out in Huang Xiaolong’s mind when he saw the look of confusion on his face.
