

Conqueror 3051

Chapter 3051: Flower of Time

When the loud boom thundered, a huge golden-colored flying ship was flying towards the Golden Fox Heavenly Cave's number-one peak at rapid speed, leaving a long tail of light that resembled a golden river in the galaxy.

This was the Golden Fox Dao Venerable's famous ride! The Golden Fox Flying Ship! It was also the best flying ship in the entire Golden Fox Heavenly Cave, a peak-grade cosmos artifact!

Jin Hongyuan, and the others came out from the flying ship's cabin when they heard the resounding boom, looking towards the horizon from the ship's bow.

"It's coming from the Heavens Burial Lands!" Jin Hongyuan's expression turned grim. His pupils needed as he focused on spotting something in the Heavens Burial Lands outside of the Golden Fox Heavenly Cave.

Many Golden Fox Creed's experts were bewildered when they heard the loud sound originating from the Heavens Burial Lands.

The Heavens Burial Lands was outside of the Golden Fox Heavenly Cave's boundary. Moreover, there was a huge distance of starry space in between, but this loud noise had actually reached this far.

"Is it great experts fighting in the Heavens Burial Lands?" Li Xu asked in bewilderment.

Jin Hongyuan shook his head, looking unusually solemn. "Not likely, unless it's experts in the top ten fighting for life. Otherwise, it won't cause such huge energy fluctuations. Something must have happened in the Heavens Burial Lands!"

Hearts tightened at that conclusion.

The Heavens Burial Lands was one of Origin Holy World's perilous lands, and the Heavens Burial Lands represented the unknown, mystery. Even existences like the Origin Holy World's World Master were

unable to fully explore the Heavens Burial Lands because there were certain places the World Master dared not take the risks.

Suddenly, came another thunderous explosion that reached the sky, louder and more terrifying than the first explosion. Even the Golden Fox Heavenly Cave was shaking because of it.

Jin Hongyuan and the others were startled.

Jin Hongyuan's communication symbol shook at this time. He took it out and said to Jin Xiaoxiao after reading the content, "It's a message from your godfather, and he wants me to enter the Heavens Burial Lands immediately and assist him!"

Jin Xiaoxiao was astonished, "Godfather! Then Father, what about the battle challenge?"

"It's not the time to care about that now. Cancel the battle challenge for now! Have the Golden Fox Army inform that young man and his beast mount that I'll take their dog-lives once I return from the Heavens Burial Lands!"

Jin Hongyuan looked towards the Heavens Burial Lands and ordered, "Full speed ahead, to the Heavens Burial Lands, hurry!"

The Golden Fox Flying Ship made a quick swerve to another direction in midair, and sped off in the Heavens Burial Lands' direction.

Before long, the news of the changes in the Heavens Burial Lands and Golden Fox Dao Venerable Jin Hongyuan canceling the battle challenge spread.

"Lord Golden Fox Dao Venerable is rushing to the Heavens Burial Lands, and the challenge battle is canceled? That punk's really lucky!" Panhu Creed Patriarch Wu Shenyuan's brows were locked tightly together.

The Panhu Creed's Enforcement Hall Master Hu Feiyi comforted, "When the Golden Fox Dao Venerable returns, they have to die just the same. They are merely living a few more days. The question is, what

happened inside the Heavens Burial Lands that made the Golden Fox Dao Venerable rush there?” He paused briefly then continued, “Anyone here thinks maybe a supreme treasure has appeared in the Heavens Burial Lands? For example, genesis spiritual water, or other similar treasure?”

Only those rare genesis level treasures could tempt existence like the Golden Fox Dao Venerable.

“Not necessarily, it is said Golden Fox Dao Venerable received a message from Wind Cloud Dao Venerable that made him rush to the Heavens Burial Lands. Perhaps, Wind Cloud Dao Venerable encountered danger in the Heavens Burial Lands. Hence, the Golden Fox Venerable went to help him.” one of the Panhu Creed’s Eminent Elders said.

The Enforcement Hall Master Hu Feiyi tried again, “Still, there’s a good chance that Wind Cloud Dao Venerable found a huge treasure trove and requires Golden Fox Dao Venerable’s assistance to open it. I heard the Concealing Heaven Creed Patriarch Fan Yihui and Young Patriarch Fan Luo have set off to the Heavens Burial Lands with Concealing Heaven Creed’s experts! Even Cangming Creed has led a group of experts there!”

“Lord Patriarch, if there’s really a supreme treasure, it is also a heaven-sent opportunity for our Panhu Creed. After all, many supreme treasures rely on fate. Who can say that fateful person is not you?” Hu Feiyi added.

Wu Shenyuan fell into contemplation. Some time later, he raised his head and said, “Pass my order, all Dao Venerable experts are to set off to the Heavens Burial Lands with me!”

.....

The Nine Vision Creed’s headquarters.

Huang Xiaolong had just come out from the Sun Moon Furnace, and was planning to head to the Golden Fox Heavenly Cave’s highest peak. It was right at this time that the first loud boom came from the Heavens Burial Lands. Shortly after, he received news that Jin Hongyuan had canceled the battle challenge and ran off to the Heavens Burial Lands.

When Lei Yu heard the news, he asked the Nine Vision Creed's experts smiling whilst not smiling, "Jin Hongyuan that brat really said that he would have us wait till he comes back to take our dog lives?"

The Nine Vision Creed's expert prostrated on the floor in apprehension. "Y-yes, Lord."

Lei Yu let out a cold snort, and in the clear sky above, rumbling lightning and thunder gathered, making the Nine Vision Creed's experts below lower their heads in fear.

"Heavens Burial Lands," Huang Xiaolong repeated as he looked toward a certain direction with a pensive expression.

Although Huang Xiaolong hadn't been at the Origin Holy World for long, he had already heard of the Heavens Burial Lands. The Heavens Burial Lands was no less dangerous than the Divine Tuo Holy World's Bright Lightning Abyss. In fact, it was more dangerous, and even existences such as the Origin Holy World Master dared not thread carelessly into the Heavens Burial Lands.

"Your Highness, the Heavens Burial Lands hasn't had this level of movement for a long time. It's likely there is a heaven-defying treasure being born. Should we go take a look?" Lei Yu asked Huang Xiaolong.

"Oh, you mean similar things have happened in the Heavens Burial Lands in the past?" Huang Xiaolong asked Lei Yu.

Lei Yu nodded, and replied, "Before I left the Origin Holy World, there was one such large movement in the Heavens Burial Lands. At that time, more than a dozen strands of origin qi had appeared, and also several kinds of heaven-defying plants, and one of them was the Flower of Time!"

"The Flower of Time!" Huang Xiaolong was astounded.

Though a dozen strands of origin qi astonished Huang Xiaolong, what he had not expected was that the Flower of Time had once appeared in the Heavens Burial Lands.

The Void Reincarnation Thistle had the rare power of space, and it was one of ten most precious plants of genesis era, whereas the Flower of Time was the number-one herb!

The Flower of Time, as its name indicated, had the power of time. When one refined the Flower of Time, there was a chance to comprehend the absolute power of time.

“Let’s go then. We’ll join the Heavens Burial Lands’ liveliness,” Huang Xiaolong said after a brief consideration.

Moreover, Jin Hongyun has already canceled the challenge battle.

Not to mention, Huang Xiaolong wanted to take a look at the Heavens Burial Lands.

A dozen strands of origin qi? Maybe...?

Huang Xiaolong immediately exhorted the Nine Vision Creed’s experts with some tasks, and after that, he, Lei Yu, Old Monster Flame, and the others set off to the Heavens Burial Lands. Naturally, Peng Fei and Jia Zhen were left at the Nine Vision Creed’s headquarters because the Heavens Burial Lands was too dangerous a place to bring the both of them along.

Huang Xiaolong took out the Purple Lightning Peak and had Old Monster Flame’s group of thirteen people to drive it. The Purple Lightning Peak sped off in a streak of purple lightning, traversing rapidly through space, that Lei Yu and the others sighed at its speed in amazement.

Half a month later, Huang Xiaolong’s group exited the Golden Fox Heavenly Cave.

Another several days passed, and the outline of Heavens Burial Lands appeared before Huang Xiaolong.

When Huang Xiaolong’s group reached the Heavens Burial Lands, there were many flying ships and experts swarming into the Heavens Burial Lands in a hurry.

The changes in the Heavens Burial Lands this time had not only alerted the experts of Golden Fox Heavenly Cave, but also experts from other heavenly caves bordering it.

Chapter 3052: Sea of Skulls

“It seems like all the experts from the heavenly caves close to the Heavens Burial Lands have come!” Lei Yu surmised, looking at the rows of flying ships around. He was familiar with most of the emblems on these flying ships.

“En?” Suddenly, Lei Yu’s eyes narrowed when he spotted a flying ship with a tiger head.

“What is it?” Huang Xiaolong asked as he followed Lei Yu’s line of sight.

“It’s the Darkness Tiger’s Flying Ship from the Darkness Tiger Heavenly Cave.” Lei Yu added, “One of my opponents back then.”

Huang Xiaolong nodded as someone strong enough to be Lei Yu’s opponent meant that this person was at least in the top twenty ranks on the Extermination List.

The Darkness Tiger Flying Ship sped into the Heavens Burial Lands, out of Huang Xiaolong and Lei Yu’s sight.

Huang Xiaolong had Old Monster Flame and twelve others control the Purple Lightning Peak and maneuver it through the chaotic currents to enter the Heavens Burial Lands.

Every corner of the Heavens Burial Lands was dominated by chaotic currents, and these chaotic currents were so overbearing in nature, that even Primal Ancestor Realm cultivators couldn’t handle them, much less those who were weaker. Therefore, those who ventured inside the Heavens Burial Lands were generally Dao Venerable experts, or half-step Dao Venerables with higher than average combat prowess.

Experts on other flying ships all turned to look when they noticed the Purple Lightning Peak. Firstly, it was because of the Purple Lightning Peak’s outer appearance, and secondly, the Purple Lightning Peak had never appeared in public before this.

“What’s that? Is it a flying ship? There are actually people who choose to refine a mountain peak as a flying ship? They didn’t even bother to change the outer appearance, and this style is really unique! I wonder which heavenly cave or creed it belongs to?!” A Concealed Star Creed’s expert couldn’t help making fun of the Purple Lightning Peak.

“This Purple Lighting Peak is not simple! Probably a genesis treasure!” an expert from the Jinxing Creed, Bai Yue, pointed out.

The Concealed Star Creed and Jinxing Creed were creeds located in the Wild Maple Heavenly Cave, and both were amongst the top ten creeds. Their overall strengths were slightly higher than the Nine Vision Creed and Devil Curse Creed, ranked in sixth and seventh place, respectively.

Amongst the several heavenly caves closest to the Heavens Burial Lands, the Golden Fox Heavenly Cave and Wild Maple Heavenly Cave were similar in overall strength.

“What? A genesis treasure?” Jun Buxia looked genuinely shocked. “Brother Bai Yue, you won’t be mistaken, right?”

Yet the Jinxing Creed expert Bai Yue was absolutely certain of his assessment. “It’s definitely a genesis item. Although I cannot determine what it is exactly, I still have that much eyesight.”

The Purple Lightning Peak had been forged by Old Monster Flame, Ming Fu and over a thousand Dao Venerables, successfully concealing the peak’s lightning qi on the surface. But from time to time, there would be one or two experts with a keen eye that noticed the Purple Lightning Peak’s extraordinariness.

The Jinxing Creed was the top forging creed in the Wild Maple Heavenly Cave, and Bai Yue was the Jinxing Creed’s Artifact Forging Hall Master. Thus he could tell the origins of many things with a glance.

Then again, this was mainly because Huang Xiaolong did not deliberately conceal or disguise the Purple Lightning Peak’s shape and outer appearance, had Huang Xiaolong done so, even the Jinxing Creed Patriarch wouldn’t be able to see through the Purple Lightning Peak’s true form.

After seeing that Jinxing Creed’s expert Bai Yue was so certain that the purple lightning mountain was a genesis era treasure, many other experts with him were tempted.

That's a genesis era treasure!

It didn't take smarts to know that such a large piece of mountain peak was definitely not the average kind of genesis treasure.

Jun Buxiao left the flying ship in a single step, and when both of his feet landed, he was blocking in front of the Purple Lightning Peak, with a giant blade pointed at the peak as he introduced himself, "I am Jun Buxiao from Wild Maples Heavenly Cave's Jinxing Creed, and I have a question!"

Inside the Purple Lightning Peak, Huang Xiaolong watched it placidly, and indicated to Old Monster Flame to continue flying forward.

Seeing that the people inside ignored him, and the purple mountain peak continued to fly towards him, Jun Buxiao was angered.

"Breaking Heaven Blade!" Jun Buxiao slashed at the Purple Lightning Peak as he bellowed.

Waves of blade qi emerged, turning the immediate space's chaotic aircurrents into a quag.

"Breaking Heaven Blade! The grand dao art was created by the Jinxing Creed's founder Jun Buxiao, and he had cultivated it to the twelfth-level!"

"The average Eighth Esteem Dao Venerable probably couldn't take this blade when it slashed down!"

Jun Buxiao himself was a peak late-Seventh Esteem Dao Venerable expert.

Jun Buxiao's companions on the flying ship couldn't help sighing in admiration watching Jun Buxiao use the Breaking Heaven Blade grand dao art.

But in the next moment, everyone watching saw that the purple-colored mountain peak that was as big as a continent continued to speed ahead, directly knocking away the so-called Heaven Breaking Blade's attack and reaching Jun Buxiao faster than one could blink.

When the Purple Lightning Peak reached an ashened Jun Buxiao, attempting to defend himself with the blade in his hand, both him and the blade in his hand were swatted away like how one would swat away a fly.

When the Purple Lightning Peak was long gone out of sight, Jun Buxiao finally rolled down from one of the mountains several hundred thousand miles away. A chunk of the mountain peak was smashed off when Jun Buxiao landed, as for the great blade he had tried to block the Purple Lightning Peak with was now scattered pieces of metal that one might not find all the pieces.

Jinxing Creed's Bao Yue and the others stood woodenly in daze.

"That blade was Jun Buxiao's Monarch Sword?!" someone gulped.

"Yes!"

Everyone was completely speechless now.

Jun Buxiao's Monarch Sword had been continuously forged and strengthened with care by Jun Buxiao, and it had long reached mid-grade cosmos artifact level, yet this mid-grade cosmos artifact had shattered like fragile glass.

After the shock had receded, gazes turned feverish.

Even a mid-grade cosmos artifact could not withstand a bump from that purple mountain peak. That purple mountain was definitely a...?!

As a forging expert, the feverish light in Jinxing Creed's Bai Yue was the most intense.

.....

Standing at the top of Purple Lightning Peak, Huang Xiaolong's three dao souls spread to survey his surroundings and get a sense of the Heavens Burial Lands. This Heavens Burial Lands felt like a corner forgotten by the Gods. The grand dao laws and heaven and earth spiritual energy here were in an extremely chaotic state, and it felt as if an unimaginable force had segregated this place.

Huang Xiaolong frowned, as a place like the Heavens Burial Lands shouldn't have existed. Here, he could not feel any power of heaven tribulation, he couldn't sense any form of lightning element energy fluctuations.

Seemingly detecting Huang Xiaolong's confusion, Lei Yu said, "Some say that the God of Creation deliberately left out the Heavens Burial Lands, while others think that the Heavens Burial Lands is not something of our world."

Huang Xiaolong analyzed Lei Yu's words and remembered the mysterious blood-red stone he had bought from the auction.

"There's a treasure in the Sea of Skulls! Hurry to the Sea of Skulls!" Right at this time, a flying ship suddenly cut across in front of the Purple Lightning Peak and an anxious voice sounded from it.

Huang Xiaolong was stoked. "Sea of Skulls?"

Lei Yu explained, "The Sea of Skulls is one of the dangers in Heavens Burial Lands. There are countless skull creatures there that are hard to kill, and they are extremely troublesome. If we hurry to the Sea of Skulls now, it would take half a day."

Huang Xiaolong nodded, and with Lei Yu pointing the way, the Purple Lightning Peak headed to the Sea of Skulls.

Half a day later, Huang Xiaolong's group reached the Sea of Skulls Lei Yu spoke of, and seeing the white sea of skull creatures that stretched to the horizon, Huang Xiaolong finally understood what Lei Yu meant by boundless sea of skull creatures. There was literally a sea formed from piled-up skulls and

bones! How many billions were there? Not even Huang Xiaolong's dao souls could cover the extent of this sea.

A sudden scream cut across the air. A group of experts, not far ahead, was being besieged by the skull creatures, as they were bitten, and gnawed with blood everywhere. Every one of the experts was filled with horror. Huang Xiaolong noticed when these Dao Venerable experts cut the skull monsters into pieces, the skull monsters mended quickly, piercing themselves back together. Even flames condensed from cosmos energy could not burn these skull monsters to death.

Lei Yu's voice sounded beside him, "Once you're surrounded by these skull monsters, not even high-level Dao Venerables can escape, there is only death in the end. They can even bite through a cultivator's inextinguishable dao heart."

Chapter 3053: Golden Buddha Statue

"Daoist Friend, please lend us a helping hand, and save us!" Suddenly, one of the people from the group of experts being besieged by skull monsters, urgently sought help from Huang Xiaolong and Lei Yu, with hope and desire for life shining in their eyes.

"Go over there!" Huang Xiaolong gave the word.

The Purple Lightning Peak disentangled itself from the swarm of skull monsters and reached the group being besieged in a zap.

In the next second, the Purple Lightning Peak spewed out bolts of lightning, zapping the skull monsters besieging the cultivators, and reducing them into white mists, as all blasted to nothing.

These skull monsters were actually quite tedious to kill as they possessed strong recovery ability. However this was not absolute. What kind of existence was the Purple Lightning Peak? It could shatter mid-cosmos grade blades with a casual ram. Especially after the Purple Lightning Peak had undergone repeated forging by Old Monster Flame and other one thousand Dao Venerable experts' hands? Less than a handful of peak late-Ninth Esteem Dao Venerables couldn't block the Purple Lightning Peak, then what were these skull monsters compared to them?

Under the jubilant spewing lightning, the skull monsters were zapped into white mist, rendering the besieged group dumbstruck, and they forgot to move.

“Leave the Sea of Skulls quickly,” Huang Xiaolong said as he waved his hand. A while later, the group of experts realized they had been sent out of the Sea of Skulls. The Purple Lightning Peak flew further in across the Sea of Skulls.

Huang Xiaolong could lend a helping hand, but it was impossible for him to bring them by his side.

The strange thing was that after they were sent out of the Sea of Skulls, those skull monsters stopped attacking, as if there was a kind of power that trapped those skull monsters in the Sea of Skulls. One would wonder if the group of experts were astounded by the Purple Lightning Peak’s power or terrified by their experience that they remained there for a long time.

“Who’s that?” A long time later, someone in the group asked dazedly, referring to Huang Xiaolong.

No one had the answer.

“That purple-colored lightning peak easily shattered those skull monsters with a mere touch. Not to mention, its lightning qi actually reduced these skull monsters into white mists! Even if it’s not absolute lightning power, there’s not much difference!” someone sang its praises, and at the same time, there was greed, and desire.

“That’s right, if I have this purple lightning peak, what kind of perilous lands in this world I can’t cross? Just like now, with that purple lightning peak, crossing the Sea of Skulls is no different than crossing the plains, ah!”

By this time, Huang Xiaolong, Lei Yu, and others were billions of miles away.

“Your Highness, those people might not be grateful to you for saving them,” Lei Yu spoke.

He had seen too much ugliness of the human heart.

Huang Xiaolong shook his head, "I've killed too many people in my path."

So, if it's merely extending a helping hand, it was fine to save them.

Lei Yu fell into silence, but stated a moment later, "In truth, compared to other Dao Venerables, the number of people Your Highness killed is considerably low. Which Dao Venerable did not rise from stepping on mountains of bones? Where there are cultivators, there are killings, as long as one can maintain his original intention after the slaughters."

Huang Xiaolong's heart seemed to lighten, and he repeated under his breath, "Where there are cultivators, there are killings, as long as one can maintain his original intention after the slaughters?"

There was no shortage of enemies on his cultivation road, and after the slaughters, a lot of times, he had felt a little lost, but Lei Yu's words had helped him walk out from the maze.

The Purple Lightning Peak continued onwards at rapid speed.

The skull monsters below did not cease attacking them, regardless of their numbers or how strong the skull monsters were, and none of them could block the Purple Lightning Peak's progress. A few of the stronger skull monsters tried to climb up the Purple Lightning Peak but all of them were sent flying by the lightning qi on the surface, and they turned into wisps of white fog.

"Ei, what's that?!" One hour into the Sea of Skulls, Lei Yu suddenly pointed out in surprise.

On the horizon were rays of brilliant golden light. This golden light exuded an amazing power of absolute light, as well as Buddhist energy.

Huang Xiaolong was just as amazed.

Soon, Huang Xiaolong, Lei Yu, and the others saw an enormous, towering Buddha statue in meditative posture. The body of the statue was the size of a mega city, and the layers of golden rays originated from this golden Buddha statue.

A towering golden Buddha statue sitting cross-legged in the middle of the Sea of Skulls, surrounded by an endless white sea of bones. This contradictory sight was a jarring visual impact.

Seemingly afraid of the golden Buddha statue's light power and Buddhist energy that no skull creature dared to go close within several million miles radius of the golden Buddha statue. Hence, there was a piece of truly empty space around the golden Buddha statue. Huang Xiaolong saw there were already quite a few creeds' flying ships and experts seeking harbor in that empty space.

When Huang Xiaolong, Lei Yu, and the others arrived on the Purple Lightning Peak, all these experts looked over at them.

“Who is this young man? Which Heavenly Cave and which creed does he belong to?”

“This purple color peak is not an ordinary item! Most likely, it's a genesis era treasure!”

“What kind of genesis treasure!”

The purple color peak had become the center of attention.

Right at this time, a huge flying ship flew towards Huang Xiaolong and a giant palm was imprinted on its body!

This giant palm seemed to cover the sky, as if it was trying to grab the heavens down from above.

Heaven Seizing Commerce!

It was no secret that Heaven Seizing Chamber's flying ships could only be taken out by the chamber's branch director level authorities. Ren Fengyuan, whom Huang Xiaolong had met at the Xuan City's auction, did not have the authority to use this Heaven Seizing Chamber's flying ship even though he was the Golden Fox Heavenly Cave's branch deputy director of Heaven Seizing Commerce. Therefore, the person on this Heaven Seizing Chamber's flying ship was definitely one of Heaven Seizing Chamber's branches' branch directors.

For a Origin Holy World giant like the Heaven Seizing Chamber, every branch director was a big shot in the Origin Holy World. Even though the branch director in the Golden Fox Heavenly Cave was not as powerful as Jin Hongyuan, his status was not that much different from Jin Hongyuan. This was mainly because the branch director's backing was the Heaven Seizing Chamber!

Aboard the Heaven Seizing Chamber's flying ship, a brocade-robed young man with a long sword hanging from his waist, said to Huang Xiaolong, "Friend, what is the price of your mountain peak? My father wants to buy it, so state your price!"

The crowd of experts stirred slightly

"That's the Wild Maples Heavenly Cave's Heaven Seizing Chamber Branch Director's son, Young Master Si Shaoqiang. The Heaven Seizing Chamber's branch director Su Hong wants to buy this mountain peak?"

An expert blurted out in surprise, "This mountain peak, can it be some kind of genesis treasure?"

Gazes changed as they looked at the purple-colored peak, turning more than a little hot.

Huang Xiaolong glanced at Su Shaoqiang out of the corner of his eye and responded tepidly, "Your father can't afford to buy my mountain."

Gasps sounded from the experts all around.

For a giant chamber of commerce such as the Heaven Seizing Chamber, every one of its branches had tremendous wealth that did not lose out to the treasury of a Heavenly Cave's lord, yet Huang Xiaolong actually said that the other party couldn't afford it?

Su Shaoqiang was stunned, but he wasn't angry, he even smiled as he spoke, "Everything has a price, just name your price."

Huang Xiaolong stopped bothering with Su Shaoqiang, and set his gaze on the golden Buddha statue.

Lei Yu too was looking at the golden Buddha statue, and asked doubtfully, “This golden Buddha statue was not here in the past. Did it appear suddenly? Were the loud booms earlier related to this golden Buddha statue?”

Seeing Huang Xiaolong ignoring him, Su Shaoqiang frowned, and then snickered, “My father said he’s willing to pay one hundred billion Tuoshen dao coins for this mountain. How about it?” He was full of confidence as he threw out this number.

“One, one hundred billion dao coins!” The surrounding experts had been guessing how much Huang Xiaolong’s mountain peak was worth, but they sucked in a breath of cold air after hearing that Su Hong was willing to pay one hundred billion dao coins for it.

Chapter 3054: Ocean of Suffering

A hundred billion dao coins!

Creeds’ experts were frightened off by this exorbitant sum.

Those that could reach this place were mostly each heavenly cave’s top ten creeds, and even so, they gasped in shock—a hundred billion dao coins!

It was not an exaggeration to say that even existences like Fan Luo’s father, Fan Yihui, would be hard-pressed to take out a hundred billion dao coins on the spot.

But now, Su Hong was throwing out a hundred billion just like that!

Su Shaoqing smiled, seeing the surrounding experts’ shocked faces. However, when his gaze swept over Huang Xiaolong’s calm face, he was surprised.

Huang Xiaolong sneered inwardly. All these years, in order to reforge the Purple Lightning Peak, he had used several hundred kinds of genesis level iron ores, and several hundred genesis level lightning-attributed spiritual stones, and the value of these materials had exceeded a hundred billion dao coins, and that had not taken the Purple Lightning Peak’s individual value into account.

Moreover, Old Monster Flame, and a thousand high-level Dao Venerables had spent several years tempering the Purple Lightning Peak, and just the cost of this effort was more than a hundred billion dao coins. Whose one hundred billion dao coins could hire Old Monster Flame and a thousand high-level Dao Venerables to build a flying ship for them? Su Hong had the face to fantasize that one hundred billion dao coins could buy his Purple Lightning Peak?

“One hundred billion dao coins?” Huang Xiaolong snickered harshly, “You’re trying to send beggars away, right? I already said that you can’t afford it, and one hundred billion dao coins aren’t enough to buy you a piece of stone from my Purple Lightning Peak.”

Su Shaoqing was thrown into a stupor, just like the creeds’ other experts. Even Su Hong, who was on the Heaven Seizing Chamber of Commerce’s flying ship, did not react.

But anger soon took over Su Shaoqing with murderous aura spilling out from his sharp gaze. In his opinion, Huang Xiaolong had deliberately insulted him and his father!

His father, Su Hong was the Wild Maple Heaven Seizing Branch Commerce’s director! Even the Wild Maple Dao Venerable had to be courteous when seeing his father, yet this punk had the guts to...!

“This young man is too arrogant, I’ve seen many arrogant people, but none as brazen as him!”

“That’s not just arrogant, there’s simply no bound to his arrogance!”

As the crowd of experts admonished Huang Xiaolong’s attitude, even more were gloating inwardly.

“Young man, which creed do you belong to? Actually, I don’t care which creed you belong to because today, I will teach you the consequences of disrespecting elders on behalf of your elders!” From the opposite flying ship came Su Hong’s majestic voice.

A second later, someone stepped off the flying ship.

“It’s Wang Haoyang. Su Hong’s right-hand man, and he is a late-Ninth Esteem Dao Venerable expert, but his battle strength is comparable to a peak late-Ninth Esteem Dao Venerable!” Someone recognized the person, who stepped out from the Heaven Seizing Chamber of Commerce’s flying ship.

Wang Haoyang’s palm reached out to grab Huang Xiaolong the moment he came out from the flying ship. He was executing Su Hong’s order of teaching Huang Xiaolong a memorable lesson. Thus he did not hold back much strength in his attack. His heavy palm force brought about a powerful wind element energy.

While everyone thought Huang Xiaolong would be pulled off from the Purple Lightning Peak by Wang Haoyang, a bolt of purple lightning zapped out from the Purple Lightning Peak, striking Wang Haoyang. His scream was short-lived as he evaporated into white mist and disappeared from the world!

Only his terrified dao soul survived.

The world fell into an eerie silence.

Su Shaoqing stood stiffly on the spot, and no words came from Su Hong.

Huang Xiaolong looked at the Heaven Seizing Chamber of Commerce’s flying ship and spoke directly, “Scram. If you continue blocking my way, you will die!”

Su Shaoqiang’s face and the faces of Heaven Seizing Chamber of Commerce’s experts behind him turned extremely ugly.

“You—!” Su Shaoqiang’s eyes glared at Huang Xiaolong ferociously.

However, the anger on his face subsided in an instant. He shot another angry glare at Huang Xiaolong, and then stepped to the side on the flying ship. It was obvious that he had received an order from Su Hong through voice transmission.

Huang Xiaolong’s attention returned to the golden Buddha statue. There was a world inside the golden Buddha statue, there was probably a great treasure inside, but first, they had to locate the entrance.

A while later, Huang Xiaolong's gaze stopped on the golden Buddha statue's eyes. He put away the Purple Lightning Peak, then flew up towards the golden Buddha's eyes with Lei Yu, and the others. Standing in the air opposite the pair of eyes, Old Monster Flame raised a finger and sent a silver of flame into the Buddha's left eye. Waves of power of Buddhist energy burst out from the Buddha's left eye as a bright opening appeared.

Huang Xiaolong leaped onto Lei Yu's back and entered through the left eye, Old Monster Flame and the rest followed behind him.

Seeing this, other forces' experts swarmed towards the left eye. Amongst these experts was a group of female disciples.

"Young Lady, who could that young man be? He dares to offend Su Hong," one of the female disciples spoke.

The leading female disciple had a veil covering her face, obscuring others from seeing her true face. However, one can still make out it was a beautiful face behind that veil.

"There seems to be a trace of dragon qi on his body. Perhaps he's one of the dragon race's young patriarchs?" the leading female disciple said, but she shook her head. "Doesn't matter which dragon race he belongs to, it is unwise to offend the Heaven Seizing Chamber of Commerce."

There were few that could stand against hegemon forces like the Heaven Seizing Chamber of Commerce, and even the lord of a Heavenly Cave would not dare to offend these hegemon existences.

"Young Lady, there must be a light attribute genesis treasure inside this golden Buddha's world, how else would there be such a strong power of light."

"Maybe."

By this time, Huang Xiaolong's group had arrived before a vast ocean, and Huang Xiaolong's dao souls could not see the other edge of this ocean.

The world inside the golden Buddha statue was bigger than Huang Xiaolong had imagined.

“The Ocean of Suffering is boundless.”

There were two huge stone tablets erected on a high cliff, one was inscribed with ‘Ocean of Suffering’ and the other tablet said ‘Boundless’.

Lei Yu gazed towards the horizon and said, “To reach the other shore of the Ocean of Suffering, one must have the ability to wield the power of absolute light, or use treasure with the power of absolute light!”

Huang Xiaolong nodded, then said to Lei Yu, and the other thirteen people, “Wait for me here, I’ll return quickly!”

With that said, the power of absolute light surged from his body, enshrouding him entirely as he flew across the Ocean of Suffering.

The Heaven Seizing Chamber of Commerce’s Su Hong, and other forces’ experts arrived just in time to see Huang Xiaolong speed into the Ocean of Suffering.

“That is... the power of absolute light?! That young man can wield the power of absolute light!” a certain creed’s old ancestor exclaimed loudly when he saw the power of absolute light enshrouding Huang Xiaolong’s body.

Su Shaoqiang and the veiled young woman were genuinely surprised.

No matter who it was, a person who could comprehend the power of absolute light was a big shot in the Origin Holy World.

“But he’s only an early Ninth Esteem Dao Venerable!” Another creed’s old ancestor pointed out.

Others could only look on in silence.

While Huang Xiaolong was flying across the Ocean of Suffering, consecutive news spread out from the Heavens Burial Lands.

“Golden Fox Dao Venerable and Wind Cloud Dao Venerable found the Tree of Nightmare in the Dream Cave!”

“What?! The Tree of Nightmare? Legend has it that the Tree of Nightmare contains an unbelievable grand dao!”

“The Five Elements Creed Patriarch obtained a supreme ghost sword from the Yama Ghost Palace. That’s a peak-level cosmos artifact that could project the Yin Ghost World!”

“The Four Constellations Lord got a star beast egg in the Glorious Pole Space, it could very well be an existence from the genesis era!”

Similar news continued to come from the Heavens Burial Lands.

The Heavens Burial Lands was boundless and the Ocean of Suffering where Huang Xiaolong was located, was just a small, slightly riskier places, where the Dream Cave, Yama Ghost Palace, and Glorious Pole Space were the bigger perilous places in the Heavens Burial Lands.

Chapter 3055: Absolute Dao Region Lord

Soon, shocking news came from the Heavens Burial Lands.

“His Highness Prince of Origin has arrived at the Heavens Burial Lands!”

“What, His Highness, Prince of Origin is also here?! Does that mean there really is a world treasure being born in the Heavens Burial Lands, why else would His Highness be here?!”

“Very likely there’s a treasure, and I heard that World Master Lord Xuan Kong is in His Highness’ group, but other than Lord Xuan Kong, several Mystical Pavilion’s branch masters are also here with large groups of experts. There’s also the Devil Essence Holy Dragon Ancestor, Lord Three Blades, Lord Purple Giant, and Special Envoy Hailan!”

The arrival of Prince of Origin, World Manor’s experts, as well as experts from the main Mystical Pavilion at the Heavens Burial Lands genuinely shocked many experts.

What kinds of treasures didn’t the existences at the Prince of Origin level have? Yet the Prince of Origin still ventured into the Heavens Burial Lands, so there had to be a really rare treasure being born in the Heavens Burial Lands this time.

The main Mystical Pavilion had sent out so many experts, and it indicated that this time’s treasure in the Heavens Burial Lands was not simple.

More news soon came.

“His Highness, the Prince of Origin, got a big harvest at the Golden Flaming Sandy Land, and he comprehended the power absolute blaze!”

When this piece of news spread, the experts within the Heavens Burial Lands and nearby heavenly caves were in a furor.

“His Highness already has the power of absolute wind, and earth, and now, he has added the power of absolute blaze to the list. That’s already three great absolute powers. As expected of His Highness. He has such an amazing talent, and he is truly deserving of his reputation as the number one genius of the younger generation!”

The Origin Holy World had an Extermination List, at the same time, there was also a ranking list for the younger generation, the names on this ranking list were sorted out by the main Mystical Pavilion. So it was named the Mystical List.

The Prince of Origin ranked in the top ten in the Mystical List.

.....

The outside world was in a furor because of the news coming out from the Heavens Burial Lands, while Huang Xiaolong finally reached the Ocean of Suffering's opposite shore.

"The Other Side!"

On the shore was a big stone tablet with the words 'Other Side' carved onto it.

Huang Xiaolong stepped on the other shore, and the land under him was made of fine grains of sand. Each grain of sand exuded a soft glow, the power of radiance.

"This is...?" Huang Xiaolong looked at the grains of sand on the ground in a pleasant surprise. "Pure Soil?"

Pure Soil that only existed in the legends.

This Pure Soil was different from the Pure Land in Buddhism, it was a kind of sand that had formed during the creation era. This kind of sand contained the purest power of radiance, and it was not contaminated by any impurities in the world. According to the legend, cultivating in such pure soil could cleanse one's dao heart, and dao soul. Of course, it was extremely helpful to practice the power of radiance.

Huang Xiaolong had not expected to find a piece of pure soil land on the Ocean of Suffering's other shore. Although there were no other treasures around, just this piece of land was a priceless treasure. Pure soil was different from treasures like genesis lightning water, or genesis poison water, as these two would get exhausted after one refined them. On the other hand, pure soil could continuously generate the purest radiance-attribute energy, and even if Huang Xiaolong cultivate on this pure soil for a year, or ten thousand years, not a grain of sand in this pure soil would disappear.

While Huang Xiaolong stood on the pure soil, feeling the world's purest radiance energy, suddenly, sounds of whistling winds came from the Ocean of Suffering.

“Pure Soil!” The delighted exclamation echoed loudly.

Huang Xiaolong turned to look and saw the Heaven Seizing Chamber of Commerce’s robe on a person, with a star crown on his head and a pair of spirited eyes, exuding a majestic momentum.

Su Hong!

The arriving person was none other than the Heaven Seizing Chamber of Commerce’s Wild Maple Branch’s director, Su Hong. Although Su Hong did not wield the power of radiance, he too reached the Ocean of Suffering’s other shore by borrowing an item with the power of radiance.

“Haha, it’s actually pure soil! The heavens’ didn’t forget me, excellent!” As Su Hong exclaimed in excitement, another excited voice sounded as a silver-haired old man arrived in whistling winds.

Su Hong’s face tightened after seeing this person. “Absolute Region Lord.”

The old man, Feng Wuji, was the lord of Absolute Heavenly Cave, one of the heavenly caves closest to the Heavens Burial Lands!

Feng Wuji had a resounding reputation as one of the experts in the Extermination List’s top fifty!

If it was an ordinary lord of a heavenly cave, Su Hong wouldn’t bothered giving him a second glance, but Feng Wuji’s unexpected appearance caused Su Hong’s heart to sink heavily. Although he wasn’t afraid of Feng Wuji, Feng Wuji was not someone he could offend.

Feng Wuji ignored Su Hong and stepped onto the shore. After feeling the radiance energy within the pure soil under his feet, his face turned red with excitement as he muttered under his breath, “What a pure power of radiance. With this stretch of pure soil, my power of radiance definitely can reach peak major completion within a million years, and a hundred million years later, enter perfection!”

“Excellent, it was a good decision coming to the Heavens Burial Lands this time!” Feng Wuji was so excited that he was close to kissing the golden grains of sand. He also ignored Huang Xiaolong when he walked by Huang Xiaolong as if Huang Xiaolong did not exist.

Huang Xiaolong merely stood and watched the overexcited Feng Wuji with mirth in his eyes. It was so obvious that Feng Wuji thought this stretch of pure soil was something in his pocket.

Huang Xiaolong had heard about this Absolute Heavenly Cave's lord. Out of the ten and more heavenly caves' lords around the Heavens Burial Lands, Feng Wuji was one of the strongest experts, a little bit stronger than Jin Hongyuan. Jin Hongyuan wielded the power completion absolute metal that had reached major completion. Whereas, Feng Wuji wielded power of radiance major completion. However, the power of radiance ranked higher than the power of absolute metal amongst the thirteen powers.

Moreover, Feng Wuji's mastery in his absolute power was better than Jin Hongyuan.

"I want eighty percent of this pure soil, and you can take twenty percent." Feng Wuji declared to Su Hong after he finally calmed down. Huang Xiaolong wasn't in his consideration at all.

In the meantime, Su Hong also arrived on the shore. Hearing Feng Wuji's arrangement, his face sank and there was anger showing in his eyes. "Lord Feng, you are indeed strong, but I am not afraid of you. You alone taking eighty percent is too much, isn't it?" Then he added, "I want at least thirty percent!"

After a second thought, he added, "The things on this young man belong to me!" He pointed at Huang Xiaolong.

Clearly, he still couldn't forget Huang Xiaolong's Purple Lightning Peak.

Although Huang Xiaolong's Purple Lightning Peak had destroyed his subordinate Wang Haoyang with a single strike, and Huang Xiaolong also wielded the power of radiance, Su Hong was confident he could deal with Huang Xiaolong. He could see that Huang Xiaolong's power of radiance was merely entry level.

But Feng Wuji shook his head, "You can take thirty percent of pure soil, but the things on this kid, I want it all!" He spoke in a dead-set tone.

On the opposite shore, he too was smitten with Huang Xiaolong's Purple Lightning Peak.

Su Hong's eyes flickered with uncertainty as he looked at the pure soil then at Huang Xiaolong, weighing his options. The pure soil was good, but Huang Xiaolong's Purple Lightning Peak's value might not be lower than pure soil

"Fine!" Su Hong finally nodded, "I want thirty percent of pure soil!"

A smile bloomed over Feng Wuji's face, seeing that Su Hong had agreed. "Brother Su Hong is indeed a smart man." With that said, he took out a radiance element bowl, and started preparing to collect the pure soil. He was in no hurry to deal with Huang Xiaolong, and he decided to leave him aside for now.

Chapter 3056: Devil Essence Holy Emperor Ancestor Is Here!

Watching Feng Wuji's action of collecting the pure soil, Su Hong hurriedly took out a light-attributed furnace in order to collect his part of pure soil as if afraid if he was too slow, Feng Wuji would go back on his word.

Huang Xiaolong watched Feng Wuji and Su Hong anxiously scooping the pure soil into their own containers, not bothered at all to ask him who was the first person who arrived on The Other Shore, and he let out a wry chuckle. "I say, you two haven't even asked my opinion?"

Feng Wuji spared a glance from the corner of his eye while retorting, "What, you have an opinion?"

That glance was disdainful and full of mockery. As the Absolute Dao Lord and an expert on the Extermination List's top fifty, he had always looked at people in this manner, and he wasn't specifically targeting Huang Xiaolong.

There were not many people that could make him look at that person as a peer.

"You're right. I do have an opinion." Huang Xiaolong smiled as he looked at Feng Wuji playfully.

Feng Wuji froze for a second, not expecting that answer from Huang Xiaolong. He smiled faintly. "I rarely meet people who have opinions against me. Tell me then, I'm curious to hear your opinion. However, you only have ten seconds."

Su Hong also stopped his actions, looking at Huang Xiaolong with a contemptuous sneer on his face.

“This pure soil, I want all of it,” Huang Xiaolong stated naturally.

Both Feng Wuji and Su Hong blanked for a moment, then Feng Wuji erupted into sonorous laughter.

Su Hong too was shaking his head, smiling silently.

While the two ‘elders’ were either laughing or smiling, Huang Xiaolong’s voice sounded again, “Also, all the things on your bodies, I want them.”

Feng Wuji and Su Hong laughed even harder at Huang Xiaolong’s words.

“On top of that, you two still have some use to me, so, kneel and submit, and be my minions.” Huang Xiaolong stated, clasping his hands behind him.

As the Absolute Dao Lord, if Feng Wuji could be of use to Huang Xiaolong, Huang Xiaolong would have an easier time to build his own force in the Origin Holy World.

Su Hong, as the Heaven Seizing Chamber of Commerce’s branch director, barely passed Huang Xiaolong’s requirements.

Feng Wuji who was laughing like a blooming water stopped laughing completely upon hearing Huang Xiaolong tell him to kneel and submit as his slave. The sounds of laughter echoing on the shore was now replaced by a heavy silence.

Feng Wuji stared fixedly at Huang Xiaolong.

Su Hong, too, stared fixedly at Huang Xiaolong.

Strangely, Feng Wuji didn't seem to be angry. Instead, he was watching Huang Xiaolong, full of curiosity. "Young man, perhaps you have some background, but do you know, even the Prince of Origin doesn't dare to speak to me like that."

"Forget about the Prince of Origin, even our Origin Holy World Master would have to be polite and courteous if he wants to recruit me, offering treasures and conditions that could move me." Feng Wuji asked half-jokingly, "Do you think your identity is higher than the Origin Holy World Master? Or, do you think that your fist is bigger than the World Master?"

Huang Xiaolong naturally detected the ridicule in Feng Wuji's tone, but he did not bother with an explanation, and he directly stated, "If you can take one hit from me, I'll let you go!"

Both Feng Wuji and Su Hong were caught off guard by Huang Xiaolong's condition, especially Su Hong who was looking strangely at Huang Xiaolong. Previously, he had assumed that Huang Xiaolong was an arrogant punk, but now, he highly doubted if Huang Xiaolong was a fool.

Or perhaps, this young man has no idea that Feng Wuji is an expert on the Extermination List?

The entire time, Feng Wuji stared at Huang Xiaolong without blinking.

This young man doesn't look like a fool, but an early Ninth Dao Venerable Realm young man who is not a fool is saying he's going to defeat me in one move? It was simply bizarre to Feng Wuji.

Defeat me in one move?

This young man really thinks he's the Origin Holy World Master...

Suddenly, Su Hong sneered at Huang Xiaolong, "Brat, you can challenge the Absolute Dao Lord if you survive one move from me." With that said, his right hand reached out to grab Huang Xiaolong.

For an instant, it was as if nothing in the entire Ocean of Suffering, on the stretch of The Other Shore, even the entire 'safe' space under the golden Buddha statue could escape Su Hong's hand.

Feng Wuji had a feeling that the environment's grand daos were extracted, making him sigh inwardly in praise that the Heaven Seizing Chamber of Commerce's Heaven Seizing Hand deserved its reputation.

Watching Su Hong's hand coming at him, Huang Xiaolong merely raised his eyelids and casually flicked his fingers. In the next second, Su Hong's scream rang as he tumbled across the sky over the shore and plummeted into the Ocean of Suffering.

Splash!

Su Hong sank into the Ocean of Suffering, and everything went quiet for a while.

Everything happened too fast for Feng Wuji to react, and his mind went blank when he realized it was Su Hong who sank into the Ocean of Suffering.

Even though he had mentally prepared himself that something unexpected might have happened, he was genuinely frightened when Su Hong was sent flying by a mere finger flick.

.....

On the other side of the shore, Lei Yu, Old Monster Flame, and the others were patiently waiting for Huang Xiaolong.

Although several months had passed since Huang Xiaolong had entered the Ocean of Suffering, none of them were anxious at all. At Huang Xiaolong's current strength,, as long as the Mystical Pavilion Master did not take action, no one was capable of injuring Huang Xiaolong in the entire Origin Holy World. Hence, despite knowing Feng Wuji had also entered the Ocean of Suffering, Lei Yu, Old Monster Flame, and the others weren't worried about Huang Xiaolong's safety.

Some distance away, Su Shaoqiang sneered inwardly as he observed Lei Yu's, and the others' calm and unhurried demeanors.

“Young Master, should we enter the Ocean of Suffering, and see how things are going?” a Heaven Seizing Chamber of Commerce’s expert inquired Su Shaoqing’s opinion seeing that Su Hong hadn’t returned for a long time.

Su Shaoqiang shook his head. “There is no need. If there are really treasures to be found, the Absolute Dao Lord won’t dare to do anything to father, and as for that young man...” he let out a harsh snicker before continuing, “He’s merely an early Ninth Esteem Dao Venerable, and even if he has the power of absolute light, he’s no match against my father. Maybe my father has already resolved him at this point.”

“Then, that three-headed beast and those thirteen subordinates, should we deal with them once and for all now?” the expert asked as his gaze swept over Lei Yu, Old Monster Flame, and the rest.

“We’ll decide when father’s back,” Su Shaoqiang said after some thought.

Suddenly, someone shouted, “They’re out!”

The shout drew everyone’s attention, and all eyes looked towards the vast Ocean of Suffering. The three people who had entered the Ocean of Suffering earlier—Huang Xiaolong, Feng Wuji, and Su Hong—had returned.

But everyone was more than surprised when they noticed that Feng Wuji and Su Hong were actually following behind Huang Xiaolong. The young woman’s eyes behind the veil widened in surprise.

Su Shaoqiang flew out from the flying ship to greet his father despite feeling baffled, and from afar, he asked loudly, “Father, this brat...”

He pointed at Huang Xiaolong, but he had barely spoken a few words when he was sent flying by Su Hong’s palm.

Su Shaoqiang and many experts were rendered stupefied by Su Hong’s abrupt action.

“Don’t be rude to His Highness!” Su Hong angrily chided Su Shaoqiang.

His Highness?! Su Shaoqing's head was reeling with disbelief.

Many experts exchanged baffled looks with their companions, failing to figure out what was going on with Su Hong.

Huang Xiaolong ignored Su Shaoqing and descended onto Lei Yu's back, and exited the world within the golden Buddha statue. Originally, other creeds' experts had wanted to detain Huang Xiaolong and question him about the other side of the Ocean of Suffering. But Feng Wuji and Su Hong's respectful attitude towards Huang Xiaolong deterred them.

After coming out from the golden Buddha statue's body, Lei Yu said to Huang Xiaolong, "Your Highness, that Devil Essence Holy Dragon Old Ancestor is also here in the Heavens Burial Lands."

"Oh, that old man Devil Essence Holy Dragon's here as well!" Huang Xiaolong was delighted when he heard that, and asked, "What about Huang Shuai?!"

"Not sure about Huang Shuai, but the main Mystical Pavilion sent four great experts this time. Other than the Devil Essence Holy Dragon Old Ancestor, there's also Three Blades Yang, Purple Giant, and Special Envoy Hailan. The three of them are at par with the Devil Essence Holy Ancestor in terms of strength," said Lei Yu.

Chapter 3057: Destiny Race

Huang Xiaolong nodded. Although Yang Sandao and the other two people had strength at par with the Devil Essence Holy Dragon Ancestor's, he didn't put the matter to heart. The Devil Essence Holy Dragon was strong, but that level of strength was similar to his subordinate Old Monster Flame. Whether it was the four of them or forty of them, he would deal with them just the same.

"Right, Your Highness, the Prince of Origin is also here." Lei Yu supplemented.

"Oh," Huang Xiaolong raised an eyebrow, and was just a tad surprised.

Even the Prince of Origin has come to the Heavens Burial Lands? It seems the changes in the Heavens Burial Lands this time is really related to some great treasure?

But that treasure was definitely not the pure soil. If the Prince of Origin, and the main Mystical Pavilion's experts knew pure soil was here, they would have rushed to the Ocean of Suffering immediately.

"Where are they now?" Huang Xiaolong couldn't help asking.

Lei Yu answered, "The Prince of Origin is still at the Golden Flame Sandy Land, and according to the news, he encountered a fortuitous adventure in the Golden Flame Sandy Land and comprehended the power of absolute blaze. The Mystical Pavilion's Devil Essence Holy Dragon Old Ancestor and the others subsequently entered the Golden Flame Sandy Land."

"Golden Flame Sandy Land," Huang Xiaolong repeated.

Lei Yu nodded, "Yes, the Golden Flame Sandy Land."

Huang Xiaolong pondered for a moment and decisively said, "We're going to the Golden Flame Sandy Land now."

Huang Xiaolong was keen to capture the Devil Essence Holy Dragon Old Ancestor to get information about Huang Shuai's whereabouts.

Moreover, one of the reasons they entered the Heavens Burial Lands this time was to rescue Lei Yu's trapped eldest disciple. According to the information given by the Mystical Pavilion Golden Fox Branch Master Mou Baicheng, Lei Yu's eldest disciple, Chen Ming, was trapped inside the Fox Mounds.

They would be passing by the Fox Mounds on the way to the Golden Flame Sandy Land.

Having decided, Huang Xiaolong, Lei Yu, and the rest set off to the Golden Flame Sandy Land without delay.

However, Huang Xiaolong did not have Feng Wuji, and Su Hong follow him, allowing them to 'roam' freely.

Other experts' gazes followed as Huang Xiaolong, Lei Yu, Old Monster Flame, and the rest left the Sea of Skulls, and various thoughts crossed their minds, seeing Su Hong bowing respectfully as he sent off Huang Xiaolong. They really could not understand what caused Su Hong's sudden change of attitude towards Huang Xiaolong. It could be said that Su Hong's right-hand man, Wang Haoyang had died in Huang Xiaolong's hand.

Did Su Hong find out that young man's identity? Is that why his attitude towards that young man became so respectful?

"That young man won't be the Destiny Race's young patriarch, right?" After Feng Wuji and Su Hong's group left the Sea of Skulls, one of the remaining experts muttered in surprise.

Others who heard him trembled, looking visibly apprehensive—Destiny Race!

Destiny Race!

They were the acknowledged number-one race in the Origin Holy World!

For some people, the Destiny Race was not merely the Origin Holy World's number-one race, but the entire Huang Long World's number-one race!

On the Origin Holy World's Extermination List, the Mystical Pavilion Master ranked first, and the second wasn't the Origin Holy World Master, but the Destiny Race's patriarch!

The Origin Holy World Master ranked third.

Some even claimed that the Destiny Race Patriarch's strength was at par with the Mystical Pavilion Master, the reason why the Destiny Race's Patriarch ranked second was merely because of the race's low-profile. In fact, the Mystical Pavilion Master and Destiny Race Patriarch had yet to battle each other.

“Maybe, there’s this possibility.”

There were experts who nodded seriously as if they were convinced of it.

Seemingly, everyone tacitly agreed that this was the most logical explanation for Su Hong’s sudden change in behavior towards the young man...

“Young Lady, could that young man really be the Destiny Race’s young patriarch? Among the group of female disciples, one of them asked the young woman with a veil over her face.

The veiled-young woman shook her head. “It’s not likely. The Destiny Race’s young patriarch’ strength cannot be so low being only at early Ninth Esteem Dao Venerable Realm. Rumor has it that the Destiny Race’s young patriarch entered the peak late-Ninth Esteem Dao Venerable many thousand years ago.”

“It is said the Destiny Race’s patriarch has the power of absolute time and absolute space, and both absolute powers might have reached perfection level. I don’t know if that is true,” said the female disciple.

“It’s just a rumor, not necessarily true,” the veiled-young woman said, a light shone in her eyes as she added, “However, if the Destiny Race Patriarch really wields the power of absolute time and absolute space, and has reached perfection level, he would really be able to defy the will of heavens and change destiny, holding the power of life and death and time in his hands, and just thinking about it is scary.”

.....

Huang Xiaolong had no knowledge of these people’s thoughts and guesses, as he, Lei Yu, and the others were hurrying towards the Golden Flame Sandy Land at this moment.

On the way there, Lei Yu also mentioned to Huang Xiaolong that Jin Hongyuan and Wind Cloud Dao Venerable had obtained the Tree of Nightmare at the Dream Cave, as well as the treasures other forces had obtained during this time.

Despite not taking a step out of the world inside the golden Buddha statue in the last few months, the news had even reached the experts who had entered the golden Buddha statue's world.

"In the last few months, so many treasures appeared in the Heavens Burial Lands." Huang Xiaolong fell into contemplation. "Why would so many treasures appear in the same period of time?"

Lei Yu was just as baffled as Huang Xiaolong, "I feel something's strange as well. Although treasures would appear from time to time in the past, definitely not in waves like this."

"The Fox Mounds are up ahead." A day later, Lei Yu said as he pointed at an undulation of hills.

Huang Xiaolong nodded.

The Fox Mounds was quite famous in the Heavens Burial Lands because all kinds of fox beasts lived here, and there were more than a few peak late-Ninth Esteem Dao Venerable Realm fox beasts.

Huang Xiaolong's group directly flew towards the Fox Mound Mountain.

Lei Yu's eldest disciple, Chen Ming, was trapped inside this Fox Mound Mountain.

As Huang Xiaolong's group headed to the Fox Mound Mountain, they encountered several groups of fox beasts' attacks. Then again, Huang Xiaolong and Lei Yu didn't need to do anything, as all these fox beasts were swiftly and cleanly dealt with by Old Monster Flame and the rest.

They entered the Fox Mound Mountain, and came to the spot where Mou Baicheng's expedition group had opened the treasury. They entered all the way and finally found the trapped Chen Ming, as well as a dozen other experts. Huang Xiaolong and Lei Yu also rescued them by the way.

"Master!" Chen Ming cried out when he was rescued. He recognized Lei Yu in a glance, and tears flowed out uncontrollably as he knelt in front of Lei Yu, sobbing his heart out, rendering Lei Yu speechless.

A short while later, Lei Yu brought Chen Ming to greet Huang Xiaolong.

The dozen of experts that were trapped all knew Chen Ming, and seeing Chen Ming sobbing on his knees in front of Lei Yu, calling Lei Yu his master, made them dumbfounded.

“You, you are Lord Lei Yu?!” a Ninth Esteem Dao Venerable stammered, looking at Lei Yu in disbelief.

Lei Yu faced that person, feeling somewhat familiar, and thus asked, “You are?”

“Lord Lei Yu, I am Xiaoan. Ten Swords’ eldest disciple.” the Ninth Esteem Dao Venerable expert answered ecstatically.

“Ten Swords!” Hearing the name, Lei Yu let out a hearty laugh, “So, it’s you kid. That’s why I was wondering why you looked so familiar. I didn’t expect the little brat from the past to be already a Ninth Esteem Dao Venerable expert.”

Ten Swords was one of his good friends. When he had left the Origin Holy World, Xiaoan was barely ten years old.

“How’s your master faring?” Lei Yu asked.

Xiaoan immediately looked crestfallen at that question. “My master has been missing for several million years.”

Missing?! Lei Yu was startled.

Other experts were looking at Lei Yu in surprise. Could this three-headed beast be the Leiyu Creed’s founder ancestor?

Although Lei Yu had left a long time ago, these experts still remembered some of Lei Yu’s feats from the past.

Chapter 3058: Golden Flames Sandy Land

And it was because they had heard of Lei Yu's feats that these experts were shocked.

Lei Yu's notorious reputation had cemented him as a ruthless character, and it was said the dozens of Heavenly Cave Lords around the Heavens Burial Lands detoured whenever they saw Lei Yu.

One could imagine how notorious Lei Yu's reputation was.

Seemingly, these experts' gazes were too intense that Lei Yu couldn't ignore them at all. His head turned towards them, and he grinned, revealing glistening white fangs, yet looking like a simpleton. These newly rescued experts' faces turned deathly pale. In the past, whoever Lei Yu had found displeasing to his eye was directly swallowed into his belly. The worst was not being swallowed into the belly, but thoroughly chewed before being swallowed down.

"Little guys, you all seem to be very afraid of me?" Lei Yu looked displeased.

This dozen of experts were so scared that they quickly shook their heads as if their lives depended on it.

"Alright, we should leave now," Huang Xiaolong spoke. The treasures in this treasury space had long been cleared out by Mou Baicheng's expedition group, and there was nothing valuable to be found here. Therefore, after rescuing Chen Ming and those trapped inside there, Huang Xiaolong, Lei Yu, Old Monster Flame, and the rest left the space.

When Huang Xiaolong spoke, Lei Yu stopped teasing those frightened creeds' disciples.

After leaving the treasury space, Huang Xiaolong did not make things difficult for those experts rescued together with Chen Ming. He merely left a restriction mark in their bodies to ensure that they would not disclose what had happened today.

But Xiaoan pulled down his face and refused to leave, declaring that he would be following Lei Yu from now on.

Lei Yu was troubled and looked inquiringly at Huang Xiaolong.

“Let him follow then,” Huang Xiaolong nodded his head, agreeing to Xiaonan joining their group.

“Thank you, Your Highness!” Xiaonan was overjoyed and thanked Huang Xiaolong.

“What is your full name?” Huang Xiaolong asked, smiling slightly.

“Replying to Your Highness, my full name is Li Xiaonan,” he quickly replied.

Li Xiaonan? Huang Xiaolong chuckled, “This name was given by your master?”

“Indeed, Your Highness!” Li Xiaonan smiled wryly, “My master is obsessed with the sword, and has his own skills with the sword. The only thing is, he’s quite sloppy when it comes to giving names.”

Lei Yu agreed sonorously, “This kid’s right, Ten Swords that old man is sloppy in everything except the sword. He’s called Li Xiaonan, and his junior brother is called Zhang Xiaodi, and both names were given by old man Ten Swords.”

Li Xiaonan looked embarrassed.

Huang Xiaolong merely chuckled.

“Master, where are we going now?” Chen Ming asked Lei Yu.

Lei Yu did not conceal their plans, “We’re going to the Golden Flames Sandy Land,” and briefly summarized the events in the Heavens Burial Lands from the last few months to his disciple.

Chen Ming, and Li Xiaonan had been trapped inside the treasury space for many years. Naturally, they had no idea so many things had happened in the Heavens Burial Lands in recent months. Both were genuinely shocked as they listened to Lei Yu’s brief recount.

It was a smooth journey to the Golden Flames Sandy Land.

A few days later, Huang Xiaolong's group reached the Golden Flames Sandy Land.

In the golden sandy land on the horizon, sand and dust cast a hazy skyline, and there were flames flowing out from the ground. Before Huang Xiaolong's group entered, they could feel the hot waves rolling towards them.

"The Golden Flames Sandy Land's flames have grown more volatile!" Chen Ming looked at the flowing flames on the ground and exclaimed in shock. He was certain the flames flowing in the Golden Flames Sandy Land were not so violent.

"Perhaps it's related to the recent changes in the Heavens Burial Lands?" Lei Yu's brows furrowed deeply upon seeing this.

Huang Xiaolong scanned the surroundings with his dao souls and found that the Golden Flames Sandy Land's space was extremely unstable, and the cause of flowing flames' volatility seemed to originate from a certain kind of energy at the depths of these golden sand?

But it did not stop Huang Xiaolong's group from venturing into the Golden Flames Sandy Land.

Although the environment within the Golden Flames Sandy Land had become more volatile and dangerous, it posed no problem for Huang Xiaolong's group.

Huang Xiaolong saw many experts from other forces as he ventured deeper into the Golden Flames Sandy Land. It was probably because these experts had heard that the Prince of Origin had gained a harvest here, the opportunity of comprehending the power of absolute blaze drew them here.

The further in they got, the more volatile the golden flames coming off the ground became. Though the flames were violent in the beginning, there were quick bursts, and they were intermittent, but as they went further in, the flames resembled golden dragons that dominated the sky.

The lethality of these flames had gone beyond the level where average low-level Dao Venerable Realm experts could withstand.

Even early Ninth Esteem Dao Venerables like Chen Ming and Li Xiaoan didn't dare to be careless, and protected themselves with cosmos energy.

"The Golden Fox Dao Venerable has also entered the Golden Flames Sandy Land!"

"The Absolute Dao Lord, and Wild Maple Lord have also entered the Golden Flames Sandy Land!"

Not long after Huang Xiaolong's group entered the Golden Flames Sandy Land, they heard news of the Golden Fox Dao Venerable and Wind Cloud Venerable, and other experts' arrival.

"Hey, Jin Hongyuan that kid's also here." Lei Yu chuckled when he heard the news.

Chen Ming struggled inwardly for sometime and finally squeezed out, "Master, the Golden Fox Lord, he..."

"I already know the gist of things," Lei Yu cut him off as he knew his eldest disciple was referring to Jin Hongyuan allying with the Nine Vision Creed and Devil Blade Creed to bully the Leiyu Creed.

"Before we enter the Heavens Burial Lands, I ground down the Nine Vision Creed Patriarch," said Lei Yu.

Both Chen Ming and Li Xiaoan were stunned.

"We also wiped out the Golden Fox Army of several million experts stationed close to the Nine Vision Creed, that Liu Yu exploded to his death with one flick of His Highness' fingers," Lei Yu added.

.....

Somewhere in the deepest part of Golden Flames Sandy Land...

Several thousand experts were glaring angrily at the group of Mystical Pavilion's experts.

"This Golden Flames Sady Land does not belong to the Mystical Pavilion, you guys barricaded this area and stopped us from entering this area. Aren't you being too overbearing?!" a creed's patriarch was indignant.

The Mystical Pavilion's senior supervisor sneered, "Overbearing? so what? It's not the Ancient Eternal Creed's place to comment on how our Mystical Pavilion does things. If you have the ability, you can rush inside, but don't say I didn't remind you beforehand that anyone who crosses this line will die!"

He slashed out with the great blade in his hand, drawing a deep line across the ground that felt like a wall.

Faces in the crowd turned unsightly.

The Ancient Eternal Creed Patriarch hesitated. However, he did not have the guts to break past the barricade.

The Ancient Eternal Creed was one of the more powerful creeds in the Heavenly Caves surrounding the Heavens Burial Lands that rivaled forces such as the Golden Fox Creed and Panhu Creed. But facing a hegemon like the Mystical Pavilion, the Ancient Eternal Creed Patriarch chose to retreat and swallow in the unfairness.

Many creeds' experts turned to leave, with the Mystical Pavilion dominating this sea, regardless how unsatisfied they were because they could only give up.

Not to mention, the Golden Flames Sandy Land was a vast place, even if there was a peerless treasure being born, it might not appear in this area, so it might be better if they tried their luck elsewhere.

Xue Yong snorted with disdain watching the experts endure and leave, "A bunch of ants dare to compete with the Mystical Pavilion."

“Lord Xue Yong, is a peerless treasure really going to appear in this area?” a Mystical Pavilion expert asked.

“Don’t ask things you shouldn’t.” Xue Yong’s eyes were sharp as blades falling on them, sending chills down their hearts.

Xue Yong looked away, gazing into the depths of the area they were at. There, the Devil Essence Holy Dragon Old Ancestor, Three Blades Yang, Purple Giant, and Special Envoy Hailan sat cross-legged, each guarding one direction, north, south, east, and west, as they waited for something to be born.

Chapter 3059: Immortal Nine Flames

While the Devil Essence Holy Dragon Old Ancestor, Three Blades Yang, Purple Giant, and Special Envoy Hailan waited for something to be born, in another area of the Golden Flames Sandy Land some distance away, the Origin Holy World Master Manor’s experts dominated an area, the Prince of Origin Xiao Yuncheng, and the World Manor’s experts were also waiting for a treasure to emerge.

The Devil Essence Holy Dragon Old Ancestor and Prince of Origin Xiao Yuncheng seemed to know in advance something would emerge in these two areas.

A day later.

Suddenly, blazing golden lights shone from the grounds of the two areas fenced off by the Mystical Pavilion and World Manor’s experts as if brilliant stars were escaping from underground. All the experts within the Golden Flames Sandy Land were immediately attracted and astounded by these brilliant rays that lit up the whole place.

Golden rays soared to the sky and formed two golden diagrams in high air, like paintings painted with flowing golden-colored flames, exuding overwhelming waves of destructive energy. Even experts that retreated to the very edge of the Golden Flames Sandy Land’s boundary felt the terror of the destructive energy.

Huang Xiaolong's group was heading straight towards the Devil Essence Holy Dragon Old Ancestor's location when they saw golden lights, the golden diagrams, and the golden diagrams' flowing golden flames.

"It seems to be the power of absolute blaze!" Old Monster Flame exclaimed in astonishment.

The golden flowing flames forming the golden diagrams in the sky were the power of absolute blaze! On top of that, the power of this absolute blaze was stronger than his peak major completion absolute blaze power! That could only mean perfection level absolute blaze power!

Huang Xiaolong, Lei Yu , and the others were just as astonished as Old Monster Flame.

"It's the Nine Flames Hieroglyphic!" Even in his astonishment, Lei Yu was staring fixedly at the golden hieroglyphic in the sky.

"Nine Flames Hieroglyphic?" Huang Xiaolong repeated with confusion in his eyes.

Lei Yu explained, "The Nine Flames Hieroglyphic is Immortal Nine Flames' unique symbol!"

"Master, you mean the Immortal Nine Flames is ranked tenth on the Extermination List?!" Chen Ming asked in shock, and Li Xiaoan's face mirrored Chen Ming's shock.

Immortal Nine Flames was an expert ranked tenth of the Extermination List!

These existences were the true hegemony of Origin Holy World, and even Lei Yu would be lackluster if compared to the Immortal Nine Flames.

At Lei Yu's current strength, the highest he could rank was fifteenth on the Extermination List, and there was a high chance Lei Yu might not make it into the top fifteen.

Huang Xiaolong's eyes glimmered. Although he hadn't been in the Origin Holy World long, he had taken the time to look into the experts on the Extermination List. The Immortal Nine Flames could wield the

power of nirvana and absolute blaze, and the point worthy of attention was that both powers had reached perfection level.

The power of nirvana ah, perfection level power of nirvana!

One could imagine how powerful Immortal Nine Flames!

Even Huang Xiaolong's power of nirvana had only reached major completion. As someone with the power of nirvana, he understood how terrifying the power of nirvana was. Someone who wielded perfection level power of nirvana was almost an immortal existence, and even if his dao physique was destroyed, and inextinguishable dao heart pulverized to dust, he could rebuild his body from the power of nirvana, and be reborn, and healed completely, good as new.

"I understand now!" Lei Yu blurted as a thought flashed across his mind, "The World Manor and Mystical Pavilion's experts are guarding here for the Immortal Nine Flames' treasures!"

"This Golden Flames Sandy Land is the immortal cave with the treasury Immortal Nine Flames has left behind!" Lei Yu's words were like a spell, and everyone was transfixed.

"Master, that, that can't be right?!" Chen Ming found it hard to believe.

The response he got from Lei Yu was a knuckle to the head, and he harrumphed, "What can't be right? These Nine Flames Hieroglyphics is Immortal Nine Flames' unique symbol, formed from a unique combination of method and array. I'm certain it's left behind by Immortal Nine Flames. It makes no sense for Immortal Nine Flames to go through the trouble of leaving his unique symbol in the Golden Flames Sandy Land for no good reason. The location of these two Nine Flames Hieroglyphic must be where the entrances to the treasury are!"

"If there isn't Immortal Nine Flames' treasury here, do you think the Prince of Origin and Devil Essence Holy Dragon Old Ancestor would bother to come here personally?"

Chen Ming clutched at his forehead, grimacing in pain, yet dared not retort a word.

“Your Highness!” Lei Yu looked excitedly at Huang Xiaolong.

“Let’s go!” Huang Xiaolong wasted no time and threw out the Purple Lightning Peak, and swept everyone onto it before speeding off. The Purple Lightning Peak turned into a streak of purple light across the sky, tearing through the Golden Flames Sandy Land’s billowing golden flames.

After rescuing Chen Ming and Li Xiaoan, Huang Xiaolong had not traveled by the Purple Lightning Peak. Thus the Purple Lightning Peak’s appearance and speed gave Chen Ming and Li Xiaoan a big shock.

Standing behind Huang Xiaolong and Lei Yu, both Chen Ming and Li Xiaoan gulped in admiration looking at the purple mountain peak under their feet, the tiny ribbons of purple lightning crackling, and its startling speed.

“Master, this must be a peak-level cosmos artifact, right?” Chen Ming asked a bit nervously.

Lei Yu snorted, “Do peak-level cosmos artifacts have this kind of speed?” Chen Ming and Li Xiaoan’s eyes were opened so wide that their eyeballs were protruded.

In other words, the mountain under their feet was an existence surpassing peak-level cosmos artifacts!

Chen Ming and Li Xiaoan felt their legs go weak, and they didn’t know where to put their feet for a moment. They were actually standing on an artifact that surpassed peak-level cosmos artifact.

As Huang Xiaolong’s group rushed towards one of the Nine Flames Hieroglyphic locations, the two Nine Flames Hieroglyphics in the sky turned, raining down golden lights that triggered the emergence of two entrances.

The Devil Essence Holy Dragon Ancestor’s group and Prince of Origin’s group were barely holding in their excitement when the two golden hieroglyphics appeared in the sky.

The experts who had rushed over upon seeing the Nine Flames Hieroglyphic were all blocked off by both forces’ experts at the entrances.

A Ninth Esteem Dao Venerable expert tried to break in by force, but he was split into two halves vertically by the Mystical Pavilion's Senior Deacon Xue Yong.

Even though Xue Yong was not an expert on the Extermination List, his blade dao had reached minor completion, and his strength was comparable to the Golden Fox Heavenly Cave's Dao Jianchou. Not many peak late-Ninth Esteem Dao Venerables could parry his blade, much less those average Ninth Esteem Dao Venerables.

Many experts were trying to break past and enter through the other entrance as well, but all of them were deterred when a World Manor's expert pierced through someone's head with a spear. The World Manor's expert who was in charge of guarding the entrance was called Yang Ben, and he was the personal disciple of World Master Xuan Kong. His strength was comparable to Xue Yong.

However, Immortal Nine Flames' treasury was too big a temptation, and many people were willing to risk their lives for it. Xue Yong sneered disdainfully at these people's futile attempts as he swung his blade. For some time, screams could be heard from both entrances as the corpses piled up.

.....

Half a day later...

Finally, people stopped trying to break in desperately.

The sneer on Xue Yong's face grew colder. "If you want to go in, you can, but only if you can get past the blade in my hands!"

Experts on the other side were seething with fury, but none of them spoke.

A second after Xue Yong had spoken, a bolt of purple lightning appeared on the horizon and was speeding towards them, startling everyone.

Even Xue Yong became wary.

In the blink of an eye, the bolt of lightning stopped, and what appeared in their sight was an enormous purple lightning mountain the size of a continent.

“It’s him!” someone in the crowd of experts shouted.

“He’s the one who used this purple lightning peak’s lightning and destroyed the Heaven Seizing Chamber of Commerce’s Wang Haoyang!”

“What? Wang Haoyang? Su Hong’s subordinate, that Wang Haoyang?”

“That’s right, that Wang Haoyang, I saw it with my own eyes along with many others. This young man entered the golden Buddha statue’s world above the Sea of Skulls, and after coming out, the Absolute Dao Lord and Su Hong treated him with utmost respect.”

The crowd stirred hearing his words, and everyone was looking at Huang Xiaolong with astonishment.

Even the Absolute Dao Lord and Su Hong were respectful towards this young man?

Huang Xiaolong put away the Purple Lightning Peak then walked towards the entrance with Lei Yu and the rest.

Chapter 3060: This Is Impossible

Xue Yong’s vigilance rose to the highest as he watched Huang Xiaolong and his group approach.

Even the Absolute Dao Lord and Su Hong were respectful towards this young man?

But Xue Yong was certain that this young man’s cultivation was only at the early of Ninth Esteem Dao Venerable Realm. Not to mention, he recognized most of the young patriarchs with strong backgrounds in the Origin Holy World but he could not place Huang Xiaolong’s face with any of the relevant forces. Therefore, there was a chance that this young man did not have any noteworthy backing.

He looked at the expert in the crowd who recognized Huang Xiaolong, suspecting if this expert was placed by Huang Xiaolong to elevate Huang Xiaolong's status and mysteriousness.

"Please stop there!" Xue Yong warned Huang Xiaolong, "Maybe my eyesight is not very good, so pray tell me which creed's or family's young patriarch are you?"

"Brat, you're still not qualified to know the identity of His Highness," Lei Yu chided, his voice rumbling like thunder.

Xue Yong was dumbfounded for a moment.

"Lord Xue Yong, that's Leiyu Creed's Chen Ming at the back," one of the Mystical Pavilion's experts informed Xue Yong as he pointed at Chen Ming who was walking beside Lei Yu.

"Chen Ming? Leiyu Creed?" Xue Yong had never heard of them before.

The expert explained, "Leiyu Creed is merely a creed ranked eighteenth in the Golden Fox Heavenly Cave, the creed is undeserving to be mentioned in the Origin Holy World's overall forces. It's only normal that Lord Xue Yong does not remember them given how small of a creed they are."

The Leiyu Creed ranked towards the mid-bottom amongst the Golden Fox Heavenly Cave's creeds. It might have been a giant to some sacred lands, but in the entire Origin Holy World's picture, it was merely an insignificant small force. This level of almost bottom rung existences were not something Xue Yong would pay attention to.

Xue Yong understood something from the expert's explanation.

"So, it's merely a creed ranked eighteenth in the Golden Fox Heavenly Cave." Xue Yong's gaze once again fell on Huang Xiaolong, and this time, there was ridicule in his eyes, "What's your connection with Leiyu Creed?"

He had been suspicious of Huang Xiaolong's identity in the beginning, and his suspicions only deepened after listening to the Mystical Pavilion expert's explanation.

“You can save yourself if you scam now,” Huang Xiaolong stated tepidly, looking at Xue Yong who was blocking the entrance.

The Mystical Pavilion’s experts and other forces’ experts were stupefied by Huang Xiaolong’s attitude.

Xue Yong’s face darkened as his lips curled into a mocking sneer, “Did you make a mistake? You want me to scam?”

“Yes,” Huang Xiaolong responded with a calm and short word.

“Fine, let’s see how are you going to make me scam,” Xue Yong laughed sonorously, yet he raised the great blade in his hands suddenly, ready to attack Huang Xiaolong. But just as his blade shifted, Old Monster Flame behind Huang Xiaolong also moved. No one managed to capture Old Monster Flame’s movement at all, except for a blurry shadow when Old Monster Flame closed in on Xue Yong, and in the next second, Xue Yong and his blade drew an arch across the sky.

Not only Xue Yong, the other Mystical Pavilion experts blocking the entrance were all blasted into the air.

The result rendered other forces’ experts aghast. Huang Xiaolong reached out with one hand and dragged Xue Yong to the ground, and right up to him. After searching through Xue Yong’s soul, he threw Xue Yong to the side, and entered through the entrance with Lei Yu, Old Monster Flame, and the rest. Chen Ming and Li Xiaoan followed up hurriedly.

A long time after Huang Xiaolong’s group entered, did others react. They looked at the entrance, then at each other, and for a moment, none of them dared to enter.

“Who is that young man? Even Xue Yong couldn’t deal with his subordinate’s one move?” a certain creed patriarch asked in bewilderment.

The expert, who was at the Sea of Skulls, generously answered, “Previously, we had guessed that he might be the Destiny Race’s young patriarch!”

Destiny Race!

The world seemed to fall into a heavy silence.

Before long, the news of a mysterious young patriarch's subordinate sending Xue Yong flying in one move, then entering Immortal Nine Flames' immortal cave spread like wildfire.

The news sent great waves of shock in the hearts of various forces' experts.

Jin Hongyuan who was also rushing towards the Immortal Nine Flames' treasury entrance naturally heard the news.

"Mysterious young patriarch, three-headed beast, together with Leiyu Creed's Chen Ming."

A golden light flickered in the depths of his pupils. "I didn't expect that kid would also be here."

Noticing Jin Hongyuan's expression, Cloud Wind Dao Venerable thought it was weird. Hence he asked, "Hongyuan, do you know them?"

Jin Hongyuan had yet to tell Cloud Wind Venerable about his battle challenge with Huang Xiaolong, thus Cloud Wind Venerable was still unaware of the matter.

"They wiped out several million experts of my Golden Fox Army!" Jin Hongyuan said through gritted teeth.

Cloud Wind Venerable was visibly startled. "There was such a thing!"

Jin Hongyuan nodded, then briefly told Cloud Wind Venerable about Huang Xiaolong, which ended up with the battle challenge being canceled.

"I see," Cloud Wind Venerable fell into contemplation after hearing the story.

"You said his mount is a three-headed beast?" a while later, Cloud Wind Venerable suddenly asked.

Jin Hongyuan froze for a second, and then chuckled, "Brother Cloud Wind, I know what you want to say, but that is impossible."

Cloud Wind Dao Venerable nodded his head. Indeed, if it was really that person, who in this world could tame him, let him be a mount? The Origin Holy World Master couldn't do it, neither could the Mystical Pavilion Master.

An hour later, Jin Hongyuan, Cloud Wind Dao Venerable, Jin Xiaoxiao, and the rest reached one of the entrances. Since Xue Yong and other Mystical Pavilion's experts who guarded this entrance were injured and nowhere to be seen, this particular entrance had become open for all.

Jin Hongyuan's group entered without any hindrance.

"Where could that punk be at?" Jin Hongyuan wondered out loud as his eyes swept around.

Needless to say, the Immortal Nine Flames' cultivation cave was huge, and everywhere were flowing flames.

"We have more important matters," Cloud Wind Dao Venerable reminded. "We should find the Devil Essence Holy Dragon Old Ancestor, Yang Sandao, and the others first. Since they knew beforehand the Immortal Nine Flames' immortal cave would appear, they might know the actual location of the treasury."

Jin Hongyuan nodded. Although he was anxious to resolve Huang Xiaolong, he understood that locating the treasury came first.

The Immortal Nine Flames's treasury must have unusual supreme treasures.

At this time, Huang Xiaolong, who had entered the Immortal Nine Flames' immortal cave was searching for the Devil Essence Holy Dragon Old Ancestor's group with his dao souls.

Despite having searched Xue Yong's dao soul, there wasn't much information that could be garnered. Xue Yong did not know the whereabouts of the Devil Essence Holy Dragon Old Ancestor's group.

But there was a frown between Huang Xiaolong's brows at the moment because he had been searching for over an hour, but had not discovered any clues at all. It was as if the Devil Essence Holy Dragon Old Ancestor and the other three people had vanished into thin air.

Then, there were violent energy fluctuations coming from a certain direction up ahead.

Huang Xiaolong was immediately alerted, and his dao souls extended out.

"It's the World Manor's people," Huang Xiaolong stated with a hint of surprise.

Under the coverage of his dao souls, the World Manor's experts were besieging a few creed's disciples. Seemingly, they had robbed something from them and were cutting loose ends.

Might these World Manor's experts know something? Thinking of this, Huang Xiaolong reached out and grabbed the several World Manor's experts from across space to his side. These experts were busy cutting loose ends when their sights suddenly darkened, and in the next second, the view changed, giving them a fright.

Huang Xiaolong didn't wait for them to speak a word, and crudely searched their souls.

Ei! Huang Xiaolong discovered a secret when he was searching through one of the experts' dao souls.
