

## **Conqueror 3141**

Chapter 3141: Step Back!

Almost in the same moment the palm force hit, Lei Yu roared, and thick, dense streaks of lightning rampaged, accompanied by glaring radiance and billowing crimson blaze!

Before the three races' shocked gazes, Lei Yu raised his front paw to meet with the attack head-on.

Rumble!

The Nine Eyed Black Tiger Race's Eminent Elder Hao Duo, who had haughtily permitted Huang Xiaolong to leave safely after handing out the Flower of Time, seemed to be struck by a great force, and his body stiffened, then he staggered back uncontrollably into the group of Black Tiger Race's experts.

Hao Duo suppressed his roiling blood flow as he stared fixedly at Lei Yu, "You wield perfection level absolute lightning power! Major completion radiance power and absolute blaze!"

The slave mount he had reprimanded earlier was actually a supreme expert that was many times stronger than him!

A heavy silence filled the atmosphere.

Even experts from the Destiny Race were too shocked to react.

Other than an expert that wielded the major completion power of space, there was another great expert by this youngster's side!

Moreover, it was the youngster's mount!

Experts all around could see that the three-headed beast's strength was comparable to an existence on the Extermination List's top fifteen, yet such an expert was actually this young man's beast mount!

Lei Qianqian's face turned several shades of white in just a few moments, and she recalled hearing the Silver Horned Barbarian Locust Race's Patriarch Man Yihui leading a group of experts to hunt Huang Xiaolong.

All along, all of them had assumed that Huang Xiaolong had avoided Man Yihui's pursuit by a stroke of luck, but now, the truth didn't seem to be so!

Even Man Yihui who possessed strength comparable to an expert on the Extermination List's top twenty wasn't a match against this youngster's beast mount.

It seems like the youngster's group collided with Man Yihui's group and forced Man Yihui's group back and safely left the Black Frost Abyss?! Lei Qianqian guessed inwardly.

"I didn't expect there to be two great experts by your side," the Destiny Race's Eminent Elder Li Shuo said to Huang Xiaolong. "These two experts by your side are strong indeed, however, even if the two of them join hands, I am confident that I can suppress them completely, so, it's better you hand over the Flower of Time!" Li Shuo went on contemplatively, "We don't want much, just one stalk."

They didn't care whether Huang Xiaolong, the Lightning Phoenix Race, or Nine Eyed Black Tiger Race got the remaining stalk.

Huang Xiaolong sneered inwardly at those words, it seems Li Shuo and his group were treating his words as a fart, as he had already stated that none of them could leave.

Just as Lei Qianqian opened her mouth, wanting to say something, Huang Xiaolong's indifferent voice sounded, "Di Fan, the nine of you handle this!"

"It's fine as long as they're not dead!" Huang Xiaolong supplemented.

"Yes, Your Highness!" Di Fan and the other eight beast kings nodded and complied.

Lei Qianqian, Li Shuo, and the others were dumbfounded by Huang Xiaolong's decision.

Li Shuo sneered sarcastically. "As long as they're not dead?" He then shifted his gaze onto the nine beast kings. "What a big tone you have, relying on these slave subordinates of yours?"

"Today, I'll—!" Before Li Shuo could finish his sentence, Di Fan and the eight beast kings disappeared in a blur, and reappeared in the air right before him. All nine struck out with their palms, eighteen strikes in all, and various elements of perfection-level absolute powers filled the sky. It was as if the whole Sea of Origin was being flipped upside down.

Li Shuo's initial nonchalant expression suddenly changed as he looked at Di Fan's group in shock. They are...?!

"Step back!"

Li Shuo roared at the Destiny Race's experts behind him, his voice trembling with fear, as he pushed his power of absolute time and space to the limit. The space before him elongated as the river of time rippled. Li Shuo was attempting to segregate the space between him and Di Fan's group, and slow down their attacks at the same time.

But it was futile!

Li Shuo's power of space shattered under the pressure of a dozen perfection level absolute powers from Di Fan's group of nine, and the river of time cut off. No power of space or time stood a chance against the nine people's violent force.

Boom!

Eighteen palms landed on Li Shuo's body.

Pop!

In the same instant, eighteen blasts thundered in the sky. The armor protecting Li Shuo from head to toe exploded into dust, and Li Shuo himself was sent flying towards the distant island, dragging hundreds of meters tall waves, before crashing down hard.

The rumbling continued as the remnant force from the nine people's attacks swirled around, jarring Lei Qianqian, Li Tianyao, Hao Duo, and the others' minds.

Lei Qianqian, Li Tianyao, Hao Duo and the others stared stupidly in the direction Li Shuo was sent flying away. They sensed the vast energy surging around Di Fan and the other eight experts, and blood drained from their faces from terror as they trembled.

Li Tianyao looked at Di Fan's group in disbelief. He had sensed his father, the Destiny Race's patriarch's strongest momentum, and each one in Di Fan's group exuded momentum comparable to his father!

No, these nine people, especially three among them, were stronger than his father!

The Nine Eyed Black Tiger Race's young patriarch, Hao Zheng, was pale to his lips from fear. This kind of momentum could only be found on ten overlords of Origin Lands!

These nine people were as strong as the Origin Lands' ten overlords, but it was more frightening that these nine people were merely a young man's slaves.

Hao Zheng felt that he almost could not control his bladder as he remembering that he had sent people to warn Huang Xiaolong on the Heaven Piercer, claiming that Huang Xiaolong and his slaves would be thrown off the flying ship if they make a further ruckus. He recalled how he had taunted Huang Xiaolong for merely being lucky to escape Man Yihui's pursuit.

"Nine Honorable Lords," Lei Qianqian cautiously approached Di Fan's group and started speaking when Di Fan and the other eight once again launched another attack. The nine of them appeared in front of the Nine Eyed Black Tiger Race's Eminent Elder Hao Duo.

Hao Duo and other Nine Eyed Black Tiger Race's eminent elders were frightened half to death when Di Fan's group was suddenly right in front of them. Even a great expert on the Extermination List like Li Shuo was hit until his life and death remained a question, then what's more to the little shrimps and fishes like them? Would they be tortured to scums?!

“Run!” Hao Duo roared.

Earlier, Li Shuo had shouted for them to step back, but Hao Duo directly roared for his group to run. There was not a shred of hesitation.

At the same time, Hao Duo pushed his small world’s energy to the limit, and his absolute power surged violently. Other Black Tiger Race experts did the same thing, circulating their cosmos energy to the limit in an attempt to block the attack from Di Fan’s group.

The several Black Tiger Race eminent elders’ absolute darkness power combined together, creating an environment of endless darkness with no hope of light. It felt as if the whole world had fallen into never-ending darkness.

However, as darkness condensed, spread, and drowned the surrounding, suddenly, a thunderous blast shook the skies, as if the darkness was forcefully torn apart by an invisible beast. In the next second, Hao Duo and all the eminent elders suffered a blow, and were sent flying; Hao Zheng included.

No Nine Eyed Black Tiger Race experts were spared.

When Hao Duo roared at the others to run, Lei Qianqian and other Black Tiger Races experts turned into streaks of light to flee the scene. However, they barely turned around when their paths were blocked by Death Beast King Di Shuang.

Seeing their paths were blocked, Lei Qianqian blurted out in a hurry and anger, “Dog of a slave, get the f\*ck out of the way!” Power of major completion absolute lightning and absolute wind gathered and blasted towards Di Shuang.

Chapter 3142: If Im Not Out In 10 Years

One finger-strike caused the heaven and earth to crumble!

All living beings crouched before the power of Di Shuang's finger strike, and silence filled heaven and earth as if the life and death of all living creatures hung upon the power gathering in Di Shuang's finger. Whoever he allowed to live would live, and who he wanted dead, would die!

Di Shuang's finger force did not contain any absolute energy, yet Lei Qianqian and the others turned deathly pale. Only when one's comprehension of grand dao had reached a certain threshold, one could exert this level of force that was comparable to a God of Creation!

"Princess, watch out!"

Sensing the terrifying power gathered in Di Shuang's finger, the Lightning Phoenix Race's eminent elders screamed out warnings as they threw attacks of various energies towards Di Shuang. Colors of radiance, darkness, lightning, and blaze splashed over the horizon.

Seeing this, Di Shuang raised his other hand and spread out his fingers, and the moment his fingers spread apart, all the Lightning Phoenix Race's experts felt like heaven and earth was pulled into his palm. They became small as ants, and Di Shuang's palm became the sky above their heads, and the earth below their feet!

Six great absolute energies of darkness, poison, metal, frost, wind, and blaze roiled under the suppression of this palm, trying to break out.

Lei Qianqian and the Lightning Phoenix Race's experts were knocked into the air almost simultaneously.

Blood dyed the surroundings crimson.

After witnessing this sight, Li Tianyao and other Destiny Race's experts, who were about to flee, stopped their movements abruptly. They didn't dare to move even an inch.

"You all are the Death Beasts Perila Land's ten beast kings!" one of the Destiny Race's eminent elders blurted out with difficulty as he looked at Di Shuang, Di Fan, and the others.

Lightning Phoenix Race and Black Tiger Race's experts, who were swept into the distance, felt their hearts stopped upon hearing that.

The Death Beasts Peril Land's ten beast kings!

On top of that, even the leader of the ten beast kings was there!

Lei Qianqian was horror struck as she stared at Di Shuang. Needless to say, this was the leader of the ten beast kings, Di Shuang. She should have thought of this early on because only the ten beast kings from the Death Beasts Peril Land possessed such horrifying strength.

The ten beast kings!

She looked at Huang Xiaolong in bewildered shock. This young man, could he be...?!

Lei Qianqian wasn't the only one, as even Li Tianyao and other Destiny Race's experts were looking at Huang Xiaolong with the same bewilderment. Clearly, they had reached the same thought as Lei Qianqian.

Huang Xiaolong had previously defeated the Origin Holy World Master Xiao Tianqi, and battled and subjugated the nine of the beast kings alone. All these things were no secrets. What dumbfounded Lei Qianqian, Li Tianyao, and others was that the leader of the beast kings, Di Shuang, had also submitted to Huang Xiaolong!

Lei Qianqian was aware that the Origin Lands' ten overlords had considered cooperating with Di Shuang to fight against Huang Xiaolong, yet Di Shuang was already Huang Xiaolong's slave.

Huang Xiaolong's cold gaze swept over Lei Qianqian, Li Tianyao, and others, and as he noted the expressions on their faces, he knew that these people had guessed his identity. Thus, he said, "Since you all already know my identity, kneel and submit."

However, Hao Zheng could be heard muttering under his breath, “Huang Xiaolong, don’t forget that this is the Origin Lands, and even if your strength can pierce the sky, you’re no match against the ten overlords of our land. Our Lords can borrow the power of Origin Lands, and they are on this land!”

“Is that so?” Huang Xiaolong asked indifferently.

Hao Zheng thought Huang Xiaolong was feeling the pressure, and he was planning to continue speaking. However, Huang Xiaolong raised a finger, and in the next second, a bloody hole appeared between Hao Zheng’s eyebrows. Hao Zheng’s body stiffened, and never could he have imagined that Huang Xiaolong would kill him so suddenly!

“Your Highness!” Hao Duo and other Black Tiger Race experts’ cries rang across the air as Hao Zheng’s body incinerated and turned into a pile of ashes. Gray ashes scattered across the Origin Sea by the sea wind.

“My words are only said once,” Huang Xiaolong stated coldly. He couldn’t care less about ten overlords.

With his current strength, even if the ten overlords joined hands, he could crush them just the same. Not to mention that he has the ten beast kings by his side now.

.....

An hour later.

Huang Xiaolong looked at the people kneeling before him, and Lei Qianqian and Li Tianyao were among them. He shot the creation mark into their dao souls, before allowing them to get up.

Li Tianyao and the Destiny Race’s experts were smart enough, they were the first ones to submit to Huang Xiaolong, and upon seeing that, Lei Qianqian and the Lightning Phoenix Race followed suit. Only the Black Tiger Race continued with futile resistance and ended up having seven to eight of their experts getting killed by the ten beast kings.

Later on, Huang Xiaolong learned about the appearance of the Flower of Time and Void Reincarnation Thistle from Lei Qianqian and Li Tianyao.

On the Origin Sea's side, in the nearby sea area, there were many Flower of Time and Void Reincarnation Thistle. How many exactly? Neither Lei Qianqian nor Li Tianyao knew about it, but one thing was for certain that there were a lot.

This was an unexpected pleasant surprise for Huang Xiaolong. In that case, there are more than two stalks of Flower of Time in this area?

Immediately, Huang Xiaolong, Di Shuang, Lei Yu, and the others spread out and searched. With Lei Qianqian's Mysterious Eye of Ice and Li Tianyao as well as the Destiny Race experts' deduction abilities, in the subsequent several months, Huang Xiaolong found a dozen of stalks Flower of Time, and even more Void Reincarnation Thistle, and there were more than fifty of them!

Huang Xiaolong was over the moon.

.

But several months later, after Huang Xiaolong flipped the sea area over, they didn't find any more Flower of Time or Void Reincarnation Thistle. Huang Xiaolong finally gave up and continued further in the Origin Sea.

Huang Xiaolong ordered Lei Qianqian, Li Tianyao, and the others to return to the Origin Lands, leaving only Liu Shuo among them by his side.

Dangers lurked everywhere in the deeper parts of Origin Sea, and layers of restrictive formations were the norm. Among the three races, Li Shuo was the only one who wouldn't drag him back in this environment.

Moreover, Li Shuo had comprehended the powers of absolute time and space, and having Li Shuo stay beside Huang Xiaolong would assist his comprehension in both powers.

Mastering both the power of time and space, Li Shuo's deduction ability was higher than others, which was a bigger help to Huang Xiaolong in locating the Son of Mystic.

In the subsequent days, Huang Xiaolong continued deeper into the Origin Sea as he looked for the Son of Mystic and Tree of Origin while refining Flowers of Time and Void Reincarnation Thistles, with the intention of comprehending the power of absolute time and space.

A year's time went by quickly.

Huang Xiaolong's group stopped above a certain golden island in the depths of Origin Sea, looking at the roaring waves before them. Space cracks filled their sights, as surging violent energy filled every inch of the world. Even Di Shuang, the leader of the beast kings, looked apprehensive.

"You guys wait for me here, if I don't come out after ten years, leave the Origin Sea," Huang Xiaolong said to Di Shuang, Lei Yu, and the rest. "I will contact you when I come out."

Even someone with Si Long's strength would have difficulty going further. Thus, it was better to let them wait there for him.

After exhorting Di Shuang and the rest, Huang Xiaolong accelerated and flew further in. At one point, even Huang Xiaolong's Dao Body of Heaven and Earth, that had gone beyond perfection level, couldn't endure the volatile energy around him. Therefore, he transform into the golden dragon of creation to continue onwards.

#### Chapter 3143: Huang Long World's Greatest Tree

After transforming into the dragon of creation, Huang Xiaolong immediately felt that the pressure on him had reduced significantly. Hence, he accelerated forward.

"It seems like the Son of Mystic has left the Origin Sea?" Huang Xiaolong wondered to himself as he surveyed the broken space in front of him. The world-destroying violent energy in the broken space up ahead was roaring in his ears.

Even a majestic beast king such as Di Shuang couldn't withstand this degree of world-destroying energy. Therefore, Huang Xiaolong believed that the Son of Mystic couldn't as well, irrespective of the many various treasures he had.

Huang Xiaolong was disappointed.

He was betting on the Son of Mystic knowing Huang Shuai's whereabouts, as well as the identity of the Main Mystical Pavilion Master. If he couldn't find the Son of Mystic, then there was no hope of finding Huang Shuai and retrieving the Huang Long Cape.

I can only find another way in the future, Huang Xiaolong thought inwardly.

After finding the Tree of Origin, he would continue to search for the Son of Mystic to get hold of Huang Shuai's whereabouts. Huang Xiaolong didn't believe he couldn't find the Son of Mystic and Huang Shuai with an entire holy world's effort!

Huang Xiaolong pulled himself together and focused on finding the Tree of Origin. Since he wouldn't be able to find the Son of Mystic there, then he absolutely wouldn't get the Tree of Origin.

Huang Xiaolong pushed his three dao souls to the limit.

But another year passed with no harvest. There wasn't a sign of the Tree of Origin. However, along the way, Huang Xiaolong found a dozen strands of origin qi, and many other genesis level herbs. He also picked more than a few stalks of Flower of Time and Void Reincarnation Thistles.

Four years went by in the blink of an eye.

Huang Xiaolong had entered the deepest part of the Origin Sea.

All that was within his sight was rolling high waves and more rolling high waves. There was nothing else, not even a small barren island. In the four major directions was nothingness except for the waves, and there was no sky and no land. Huang Xiaolong even got a vague feeling that north, south, east and west didn't exist. There was no sunlight, no way of distinguishing direction, and there was no air!

In the entire space was the robust energy of creation.

But this energy couldn't be absorbed as it was too violent and there didn't seem to be any benefit in absorbing it.

Upon arriving at this place, Huang Xiaolong's cosmos energy began to deplete rapidly. But fortunately, Huang Xiaolong had the Huang Long Bloodline, and three small worlds' cosmos energy. Supported by these two sources, heaven and earth energy and grand dao energy poured down from the Huang Long World's void into Huang Xiaolong's body, filling his three small worlds.

This continuously replenished Huang Xiaolong's three small worlds.

At this moment, Huang Xiaolong understood why no one had ever managed to cross the Origin Sea. It was because upon reaching here, the consumption of cosmos energy was too much of a burden, and without the support of cosmos energy, no matter how one's physical body was, it couldn't withstand the violent energy in this place.

Another four years went by.

From the time Huang Xiaolong had entered, it was almost a decade.

Huang Xiaolong had lost track of how many millions of miles he had flown to reach there. Based on his speed, flying nonstop for ten years, he could probably cross several holy worlds, yet he still had not reached the other end of the Origin Sea.

In this place, there was not a living creature. Even heaven and earth were nonexistent, so were life and death. There was neither yin nor yang, or the concept of space. It was a tortuous feeling, an extreme loneliness, and emptiness, as if he was abandoned and forgotten by the world. These negative feelings threatened to overcome Huang Xiaolong.

The average peak late-Ninth Esteem Dao Venerable wouldn't be able to stay there even for a second, so what would ten years and above do?

But the longer Huang Xiaolong stayed there, he discovered his three dao souls became sharper. Moreover, Huang Xiaolong's comprehension of grand dao actually deepened. In this place, Huang Xiaolong had no sense of time and space, but the longer he stuck around, he began to understand something about time and space that he had failed to before.

Huang Xiaolong was thrilled.

In the blink of an eye, another ten years went by.

It has been almost twenty years since Huang Xiaolong entered the depths of Origin Sea, yet he had to see the edge of the sea.

"Is there really no end?" Even Huang Xiaolong couldn't help suspecting that.

There were many myths and legends about the Origin Sea, and many said that at the end of Origin Sea was the Tree of Origin, but there were also those that believed that there was no end to the Origin Sea. Even if there was the other end, only someone who wielded thirteen elements of absolute powers could reach there.

Despite his doubts, Huang Xiaolong continued flying onwards.

At the same time, Huang Xiaolong comprehended the power of time and space.

In the last decade, his comprehension in time and space powers had increased greatly. Earlier, he was merely knocking at the door, trying to open it, and now, he could almost twist the knob open.

If this continued, he was certain that he could successfully comprehend the power of space and time within a hundred years.

Therefore, even if there was no end to the Origin Sea, and the Tree of Origin wasn't there, he would stay there for a hundred years before leaving. A hundred years was certainly enough for him to grasp the power of time and space, and his thirteen elements of power would be complete!

Huang Xiaolong continued onwards, time was no longer on his mind.

Eleven elements of absolute powers swirled around his dragon body in everchanging manifestations of grand dao.

Not knowing how much time had passed, Huang Xiaolong, who was flying forward, suddenly felt a light blinding his sight. He was stunned and looked over at a supercontinent that was suspended!

And in the center of the supercontinent was a towering tree like Huang Xiaolong had never seen before!

This towering tree seemed to be born of every kind of energy between heaven and earth, and a prism of halos shone from the tree trunk, emitting an energy that Huang Xiaolong was extremely familiar with—origin qi!

Huang Xiaolong trembled. Is this the Tree of Origin?

It's the Tree of Origin!

Tree of Origin!

Huang Xiaolong couldn't contain his joy and roared with laughter, as happy as a kid.

The Tree of Origin is really at the Origin Sea!

.

I have finally found the Tree of Origin!

Huang Xiaolong accelerated and soon reached the supercontinent. Looking at the Tree of Origin that exuded halos of myriad colors, he could barely suppress the excitement filling his chest. This was the Tree of Origin, the greatest tree in the Huang Long World, and it was the source of origin!

All kinds of energy that existed in the Huang Long World originated from this Tree of Origin!

But when Huang Xiaolong approached the Tree of Origin, a feeling of extreme danger kicked in. He didn't have time to think about anything else and retreated in haste. Almost in the same instant Huang Xiaolong moved away from the spot he was standing, a giant paw slammed down from the void. The spot where Huang Xiaolong stood shattered, and chaotic and violent energy swept out for miles and miles on the supercontinent.

Huang Xiaolong was genuinely startled, the power of this blow was definitely the strongest he had ever seen so far!

Even after exerting his full force, he could not unleash this level of attack!

Huang Xiaolong raised his head and saw that above the supercontinent, a great behemoth of a beast was descending!

This behemoth of a beast exuded an ethereal aura, making it hard for Huang Xiaolong to grasp. He was currently in his creation dragon form, and his body stretched for miles, yet the beast in front of him was bigger!

Huang Xiaolong's eyes narrowed. This behemoth of a beast looked like it was assembled with parts of a dragon, phoenix, qilin, and elephant, and its appearance reminded Huang Xiaolong of the origin beast he had encountered in the outer peripheral region of Origin Sea.

But ever since they had entered the depths of Origin Sea, they had not seen anymore of those origin beasts, and there was one here! It was so huge and terrifying!

Chapter 3144: Huang Xiaolong Gets Beaten Up!

While Huang Xiaolong was slightly in awe of the behemoth beast, the beast spoke, “The Son of Creation?!”

Its voice rumbled with the surroundings like ten thousand thunderbolts roiling simultaneously.

“It is I,” Huang Xiaolong exhaled silently and admitted.

“Your strength is not bad to be able to reach here,” the behemoth beast commented, “However, you’re disillusioned if you think you can take away the Tree of Origin. Looking at the sake of the God of Creation, leave!”

Huang Xiaolong shook his head. “I must take away the Tree of Origin.”

Two beams of light shot out from the behemoth beast’s ocean-sized pupils, straight at Huang Xiaolong.

Huang Xiaolong raised his enormous dragon claws and met the attacks head-on.

Rumble!

Huang Xiaolong was sent flying by an overwhelming force, tumbling uncontrollably out of the supercontinent. When he managed to steady himself, great waves of shock hit his heart.

Although he did not use any absolute powers, he was in his creation dragon form. Not to mention, his Dao Body of Heaven, and Earth failed to withstand a casual attack from the beast!

He did not use any absolute powers, neither did the other side. The behemoth beast merely used his grand dao energy.

After sending Huang Xiaolong flying, the beast mocked Huang Xiaolong with undisguised disdain in his eyes, “You want to take away the Tree of Origin relying on your meager strength?”

Huang Xiaolong's face sank as he stared straight at the beast, and let out a resounding roar. Eleven elements of absolute powers surged rapidly around him, with a flick of his tail, Huang Xiaolong arrived in front of the beast. Three small worlds' cosmos energy was pushed to the limit, concentrated in his dragon claw as it slammed down on the beast. World-destroying energy from eleven elements of absolute energies burst out in glaring rays of lights.

Yet, targeted by Huang Xiaolong's world-destroying dragon claw containing eleven absolute powers, the behemoth beast was unperturbed at all. It raised its claw that was bigger than Huang Xiaolong's dragon claw, countering Huang Xiaolong's attack directly.

R-rrr-rumble!

Ear-splitting blast thundered and Huang Xiaolong was sent flying once again.

This time around, Huang Xiaolong was blasted further than the first time. As Huang Xiaolong tumbled away, violent energy tore a space path across the distance!

When Huang Xiaolong stopped, something hot surged up Huang Xiaolong's throat, and he coughed up a mouthful of golden blood.

Huang Xiaolong looked at the beast in astonishment. That's—! There were thirteen kinds of lights swirling around the behemoth beast's body! Thirteen different lights that represented thirteen kinds of absolute energies!

Thirteen kinds!

That's right, thirteen kinds!

On the other hand, he had only comprehended eleven elements of absolute powers! All this time, it had never crossed Huang Xiaolong's mind that there might be someone, or a beast, who had mastered all thirteen elements of energies!

This behemoth beast had already mastered the power of time and space.

That was not all! Each kind of absolute power had been cultivated to the major completion level! On top of that, seven of the thirteen absolute powers had reached perfection level!

There were thirteen elements of absolute powers, with seven of them at perfection level and others at major completion level or higher!

Huang Xiaolong's heartbeat quickened due to shock.

The behemoth beast noted Huang Xiaolong's astonishment, and his disdain grew stronger, "I've already told you that you're dreaming if you're thinking of taking away the Tree of Origin! I was born during the creation of the world, and I am the Origin Holy World's very first fierce beast. I am the most ancient living creature of the Origin Holy World, and I have been cultivating under the Tree of Origin for countless eras. In the entire Huang Long World, I am , and no one is my opponent, even you, the Son of Creation. Even if you have the support of Huang Long World's energy, you're no match against me!"

"Before I change my mind, you'd better leave quickly!" As the beast said this, a fierce light gleamed in its eyes. "Or, I would destroy you just the same even if you're the Son of Creation!"

Huang Xiaolong's expression darkened at those words, "Even if you have comprehended thirteen elements of absolute powers, I will take away the Tree of Origin just the same!"

If he retreated this time, who can say for sure the beast won't move away from the Tree of Origin!

Despite knowing that he wasn't the beast's opponent, he had the Huang Long Armor! He had the Huang Long Twin Blades! Two creation artifacts!

A harsh snicker escaped the beast's mouth. "Relying on merely five perfection level absolute powers?" As it asked, a strange light gleamed in its pupils. "However, it's surprising that you've actually had three small worlds, but it is as expected of the Son of Creation!"

He was born at the same time of creation, his bloodline was more powerful than anyone even though it cannot be compared to the Huang Long Bloodline, and in fact, it wasn't that much weaker. However, he had only managed to nurture one small world.

At this time, Huang Xiaolong's power of nirvana roiled as he circulated the Soaring Dragon Art. Huang Long World's energy nourished his body, healing his injuries.

"The body of creation dragon, perfection level power of nirvana, amazing healing abilities indeed," the beast praised, watching Huang Xiaolong recover. Although it had seven absolute powers at perfection level, its power of time, space, and nirvana have not reached perfection level. Its power of nirvana was merely at the peak of major completion, and it was stuck, unable to advance to perfection.

Every time it felt like the power of nirvana was going to advance, there was a heavenly will that disrupted the progress.

Huang Xiaolong did not respond with words but with his action. In a flicker, he once again arrived in front of the behemoth beast, and this time, Huang Xiaolong's three dao souls, twelve Saint Fates, three small worlds' cosmos energy, and eleven kinds of absolute powers were pushed to the limit.

BOOM!

The behemoth once again met with Huang Xiaolong's attack head-on.

Huang Xiaolong was knocked far into the distance, spurting blood from his mouth. His injuries were more severe this time!

Even though the behemoth beast did not retaliate at full force, it did increase the force of its attack.

And Huang Xiaolong could tell, it was from the beast's full strength.

The power of thirteen absolute powers was so terrifying!

After being smashed away, Huang Xiaolong attacked again.

Huang Xiaolong was sent flying again and again, but he came back every time. After a dozen times, the behemoth beast finally got annoyed, and snarled, "Since you're adamant to die, don't blame me!"

As its voice rumbled, its entire body moved. All along, it had merely used its two front claws to deal with Huang Xiaolong, but now, it stood up. Huang Xiaolong immediately felt as if the entire Origin Sea was shaking.

Boom!

Before Huang Xiaolong reacted, the beast's claws slammed onto Huang Xiaolong's creation dragon body. Huang Xiaolong was smashed into the distance, feeling as if his body would explode.

The beast's thirteen kinds of powers wrecked havoc inside Huang Xiaolong's body.

Too fast!

The beast's movement was too fast, so fast that Huang Xiaolong didn't have time to react. Huang Xiaolong couldn't capture the beast's movement at all.

The beast snickered, "My power of time and space have reached perfection level. Adding the perfection level of absolute wind power, no one in the Huang Long World can contend with my speed, and so, this is a one-sided beating!" and its body moved before the last word sounded.

Huang Xiaolong didn't have time to think at all, and he immediately called out the Huang Long Armor.

Rumble!

The Huang Long Armor had just risen to the surface of Huang Xiaolong's body, and the beast's claws came slamming down again. Huang Xiaolong was sent flying once more, his blood flow became chaotic but this time, he did not cough up blood.

“Ei!” the beast exclaimed in slight surprise, staring at Huang Xiaolong for a split second then exclaimed, “Huang Long Armor!”

Its brows furrowed, looking displeased as it had not expected that Huang Xiaolong to have obtained the Huang Long Armor.

It then snorted, “So what if you have the Huang Long Armor? Let’s see how many of my attacks you can withstand!” With that said, it disappeared in a flicker, and its claws targeted Huang Xiaolong for the umpteenth time.

#### Chapter 3145: An Epoch’s Collapse

However, as the beast’s attacks grew frenzied, it was unable to break the Huang Long Armor’s defenses.

As a creation artifact, the Huang Long Armor was part of the only set of creation artifacts in the entire Huang Long World. How could it be broken so easily?

Moreover, Huang Xiaolong had comprehended eleven elements of absolute powers, and these eleven elements’ energies provided endless energies to the Huang Long Armor that the power of the beast’s attacks was weakened by seventy to eighty percent.

Although the behemoth beast was unable to break past the Huang Long Armor’s defenses, Huang Xiaolong was still at a disadvantage in terms of speed that he had no chance to counterattack at all. He was like a dummy subjected to a storm of beating.

Huang Xiaolong was subjected to a torrent of beatings, and all of a sudden, the beast stopped attacking. Huang Xiaolong looked up and noticed the beast was panting slightly. This was clearly a sign of exhaustion.

Huang Xiaolong was ecstatic, seeing this. That’s right, one needed to consume a large amount of cosmos energy just to remain in this place, and the beast had been attacking him with thirteen elements’ powers. Thus the amount of cosmos energy it required was much bigger.

Because of his Huang Long Bloodline and perfection level power of nirvana, his recovery was faster, but the beast did not possess Huang Long Bloodline, thus unable to absorb any energy from Huang Long World, or any grand dao energy. Moreover, its power of nirvana had not yet reached perfection level. Its recovery rate was slower than his consumption speed.

As realization struck Huang Xiaolong, he noticed the beast moved again, returning to the supercontinent, and began absorbing the rich origin qi to recover his depleted cosmos energy.

As expected! The beast's action confirmed Huang Xiaolong's suspicion.

Moments ago, the thought of retreating had temporarily emerged in Huang Xiaolong's mind. It had taken him some time to think of a method, but now, hope lit up in his chest.

Seizing the time while the beast was still recovering, Huang Xiaolong appeared in front of the beast in a flicker.

How could the beast not see through Huang Xiaolong's simple thoughts, and let out a derisive snicker. "Merely forty percent of my strength is more than enough to send you flying!"

Its enormous paw slammed at Huang Xiaolong.

Merely with forty percent of his strength, the amount of cosmos energy depletion wouldn't be too fast, and at the same time, its recovery speed wouldn't be worse to Huang Xiaolong's in comparison.

This time around, when the beast's paw was about to hit Huang Xiaolong, there was a quick flash of lights in Huang Xiaolong's hands as the Huang Long Twin Blades appeared in his hands and slashed out.

Huang Long Twin Blades truly lived up to their reputation of delivering attacks, when the blades' rays drew two vertical lines, they brought about two large spurts of blood.

"Huang Long Twin Blades!" The beast was both shocked and furious that it was injured, and when it saw the two blades in Huang Xiaolong's hands had left a cut mark several miles long on both its paws. Both of its paws were almost cut.

“Courting death!” It roared, and all thirteen elemental energies surged out from his body.

Huang Xiaolong did not collide head-on, but he quickly dodged the upcoming attack in a flicker.

...

In the blink of an eye, several decades went by.

During these years, Huang Xiaolong persistently fought with the beast.

Every time the beast’s cosmos energy was exhausted, and he had to return to the Tree of Origin's side to recover, Huang Xiaolong would intensify his attacks. On the other hand, when the beast was attacking at full force, Huang Xiaolong focused fully on dodging.

With the Huang Long Armor’s protection, and his agility of his creation dragon form, as well as perfection level power of nirvana, Huang Xiaolong was the epitome of a resilient bug. Not to mention, the beast was quite apprehensive of the Huang Long Twin Blades. Thus, in these decades, Huang Xiaolong was having a breeze while there were more than a few deep scars on the beast’s body!

Although those were merely physical injuries, the Huang Long Twin Blades were forged by Huang Xiaolong’s father, the God of Creation Huang Long. Therefore, the blades contained cosmos energy, and wounds caused by the twin blades would never heal properly. Moreover, these wounds throbbed with pain which caused the beast to roar in vex. It wanted nothing more than to tear Huang Xiaolong from limb to limb, but unfortunately, except for sending Huang Xiaolong flying, it didn’t cause many injuries.

It was fortunate that its speed was so fast that it made it difficult for Huang Xiaolong’s attacks to land, or there would be a lot more scars and injuries on its body.

After decades of battling with the behemoth beast, Huang Xiaolong’s mastery of the eleven kinds of energies increased significantly. Though the improvement was minuscule, it was obvious that Huang Xiaolong had improved.

As Huang Xiaolong's battle prowess improved, he discovered that the suppression brought about by his Huang Long Bloodline on the beast grew stronger as well.

The beast also detected the changes in Huang Xiaolong, and it got on its nerves.

In the beginning, forty percent of its strength could send Huang Xiaolong tumbling millions of miles away, but now, the same level of strength had already lost its effectiveness on Huang Xiaolong.

D\*mn!

Its eyes were filled with a murderous aura. As it sent Huang Xiaolong flying once again, it fixed a deathly gaze on Huang Xiaolong, and a blinding light burst out from its body and gathered above its head in the form, thirteen suns of different colors lined in a circle.

The thirteen enormous light balls gave Huang Xiaolong a very bad feeling.

"An Epoch's Collapse, Perish!"

The words thundered from the beast's mouth. The thirteen light balls shone glaringly as they merged into one, emitting an indescribable destructive power.

In this moment, Huang Xiaolong had the fleeing thought that the entire Huang Long World would perish under this attack!

Huang Xiaolong was taken aback while he leaped away rapidly as he activated the Huang Long Armor's third form!

All along, he had only been using the Huang Long Armor in its first form.

When the Huang Long Armor's third form was activated, the scales on Huang Xiaolong's creation dragon body emitted resplendent rays as if every piece of dragon scale had come alive. Moreover, the dragon scales were close and overlapping on each other, and not a gap could be seen.

Boom!

The same instant the Huang Long Armor's third form was completed, the beast's attack landed on Huang Xiaolong.

Huang Xiaolong's body shot out like a falling meteor from the force.

As Huang Xiaolong's body shot out uncontrollably, the surroundings collapsed wherever he passed through into nothingness.

Everything outside the supercontinent and the Tree of Origin was reduced to nothingness!

The horizon had disappeared, and Huang Xiaolong was blasted out of sight.

Even after the beast spread out its dao soul, it could not sense Huang Xiaolong anymore, and it finally heaved in relief.

Huang Xiaolong was carried far, far away by the torrents of violent energy waves, in an unconscious state.

The beast's complexion had turned visibly pale, and it was panting heavily. His attack was powerful but it had simply consumed too much cosmos energy. After executing that move, even with the replenishment from the Tree of Origin's origin qi, it would take half a year to recover for the beast.

Several days later, four groups of fire emerged from the comatose Huang Xiaolong's body.

If Huang Xiaolong was awake and saw these four fires, he could recognize them, as these were the four divine fires that had been in slumber inside his body!

## Chapter 3146: 13 Elements

Black Tortoise, Vermilion, White Tiger, and Azure Dragon, the four divine fires' spirits, flew in circles around Huang Xiaolong.

With every circle the four divine fires' spirits completed, four balls of crystal-clear and mysterious energy entered Huang Xiaolong's body.

This went on for half a year.

The four divine fire spirits returned to Huang Xiaolong's body, but it was more than ten days later when Huang Xiaolong finally opened his eyes.

Huang Xiaolong looked around and then checked his own condition, and ended up surprised. The moment he was struck by the beast's blow, Huang Xiaolong had thought that he was dead for sure!

He's still alive?

After being hit by that blow, Huang Xiaolong had fallen unconscious, as if his dao soul had flown out of the Huang Long World, drifting in the boundless universe. At one point, four balls of warm light had enveloped him from head to toe, giving him the feeling of being reborn in the universe. He had woken up after that, like he had merely taken a nap, feeling comfortable and rejuvenated all over.

Huang Xiaolong also checked his body internally, and after confirming there were no hidden injuries, he set his gaze in the direction of the Tree of Origin. He flew towards the Tree of Origin without delay.

Half an hour later, Huang Xiaolong saw the outline of the Tree of Origin on the horizon, as well as the supercontinent, and not forgetting the behemoth beast that was absorbing origin qi from the Tree of Origin.

Though half a year passed, and still the behemoth beast had yet to fully recover. That last move had taken a serious toll on it. Only fifty percent of its cosmos energy had recovered.

It seemed to have sensed something, and it looked up. When it saw Huang Xiaolong, its ocean-sized pupils clearly showed astonishment, “You’re not dead?!”

Huang Xiaolong snorted, “What do you think?”

The behemoth beast’s face sank, “You’d better scram now as the Epoch’s Collapse that I used before is not at my full force!”

“I’m waiting to see how powerful your full force Epoch’s Collapse could be.” Huang Xiaolong sneered. He could see that the beast was merely trying to frighten him, and that attack from before was already its most powerful trump card.

KILL!

Huang Xiaolong disappeared in a blur, holding the Huang Long Twin Blades in his hands and attacking the beast.

.....

Another decade passed.

Huang Xiaolong’s minor completion level power of radiance finally advanced to major completion level! On top of that, his minor completion power of darkness also reached the peak of minor completion.

Although the advancement seemed negligible, when eleven elements’ energies combined, Huang Xiaolong’s attack power increased by ten percent!

Before, Huang Xiaolong had already touched the threshold of the power of time and space, though he had yet to be able to comprehend the two powers, he had one foot into the door.

Compared to Huang Xiaolong's improvement in strength, there were more new scars on the beast's body, and its exhausted cosmos energy couldn't recover to the optimum state. Instead, its strength had dropped.

The decades passed by.

On this day, a light suddenly enveloped Huang Xiaolong's body, and a new color of light joined the other eleven colors! Twelve resplendent colors of absolute powers! The power of absolute space!

This was light condensed out of the power of absolute space. A while back, Huang Xiaolong had one foot in the door, but now he entered through the door and grasped the power of absolute space.

Seeing the additional light around Huang Xiaolong, the behemoth beast's face became gloomier, and there was disbelief in its eyes. It had lived there for countless years, and all of its days were spent comprehending the thirteen energies. He had only succeeded in comprehending the power of absolute space with the help of the Tree of Origin, yet Huang Xiaolong had done it in less than a hundred years!

Its face became distorted.

Huang Xiaolong, who had comprehended the power of absolute space, was stronger than before, whereas, its cosmos energy had been exhausted to a startling point in the last few decades. There were scars and injuries all over its body. Its strength now was less than sixty percent compared to the time it had first met Huang Xiaolong, and although there was still a long way before Huang Xiaolong could defeat it, it was only a matter of time before he traded places with Huang Xiaolong and became one being abused!

Should it retreat now?

But it was extremely unwilling to leave, and it still needed the Tree of Origin's origin qi to cultivate all thirteen elements' energies to perfection level. Currently, only seven out of thirteen elements had reached perfection level. When all thirteen elements' energies reached perfection, even the God of Creation wouldn't be able to kill it!

Thirteen elements at perfection level would make him the peak of the peak!

Below the existence of the God of Creation, it would be !

At that time, if the God of Creation Huang Long did not appear in the Huang Long World, it would be the most powerful being!

In the split second, when the beast thought of cultivating all thirteen elements to perfection level, lights flashed, and Huang Xiaolong's attack had arrived before its eyes.

It barely dodged the twin blades' attack and shouted, "Wait!"

Huang Xiaolong's movements stopped.

"Your Highness Son of Creation, since you want the Tree of Origin to cultivate with its origin qi, you can enter the continent and cultivate under it. I can vow not to attack you during this time."

The behemoth beast went on, "We don't need to fight endlessly as there's no benefit for you and me continuing this!"

Huang Xiaolong listened with a cold expression, not saying a word.

The beast frowned. "I know that you want to take away the Tree of Origin. However, the Tree of Origin has completely integrated, becoming one entity with this continent and there is no way to separate them. Moreover, this piece of continent was born from an unknown material, and it cannot be taken away. Therefore, you won't be able to take away the Tree of Origin."

Huang Xiaolong was stunned for a second, but then, he responded indifferently, "Just because you couldn't take away the Tree of Origin does not mean I can't take it away."

And Huang Xiaolong had the confidence, because he had the Huang Long Bloodline. It was the same way he had taken away the Purple Lightning Peak.

“In short, you’re adamant to take away the Tree of Origin?” Cold glints flickered across the beast’s eyes.

“Yes.” Huang Xiaolong’s determination could be heard from his tone. “Honestly, you can submit to me and follow me, and that way, you can still cultivate under the Tree of Origin.”

The beast was dumbfounded by Huang Xiaolong’s words.

In the next moment, its face sank and its gaze showed hostility. “Want me to submit to you?” Its tone clearly mocked Huang Xiaolong.

Huang Xiaolong didn’t waste anymore time with words, and swung out the Huang Long Twin Blades.

Several years passed, Huang Xiaolong was once again fully enveloped by another burst of light as another color of light was added to the twelve around him! Thirteen kinds of light!

He had finally comprehended the last of the thirteen elements, the power of time.

The moment Huang Xiaolong comprehended all thirteen elements of powers, the might of Huang Long Bloodline in him swept out like an erupting volcano, and it was majestic and indomitable!

The beast’s movement stagnated before this heavenly might, and there was astonishment on its face. It was astonished that Huang Xiaolong had comprehended the power of time, and it was even more shocked that the pressure coming off Huang Xiaolong’s body had risen to this degree upon comprehending all thirteen powers!

It has risen more than ten times!

Seeing Huang Xiaolong was on the verge of attacking again, the beast yelled in a fluster, “You can take away this Tree of Origin, and I will follow by your side! But I won’t submit to you, and you have to swear that I can cultivate under the Tree of Origin. What say you?!”

## Chapter 3147: I Can't Cultivate

The beast suddenly felt nervous when it saw Huang Xiaolong hesitate and seemingly ponder its suggestion. Since Huang Xiaolong was able to successfully comprehend thirteen elements' energies which raised his strength to another level, especially the heavenly might coming from his Huang Long Bloodline, the beast was no longer capable of doing any harm to Huang Xiaolong. If Huang Xiaolong refused, it could only give up and leave.

Without the Tree of Origin, it was nothing but a pipe dream for it to cultivate the remaining six elements power to perfection level!

It had spent many years cultivating under the Tree of Origin by absorbing origin qi from the tree. But until now, only seven elements had reached perfection state, so without the Tree of Origin, how many years would it take to reach eight elements perfection? Or nine elements perfection?

As for the power of time and space, without the Tree of Origin, it was impossible for it to achieve perfection.

While the beast got nervous as time passed, Huang Xiaolong finally nodded and agreed, "Deal!"

Deal!

When Huang Xiaolong agreed, the beast's nervous heart calmed down, as if a great burden had been lifted off its shoulders. Delighted inwardly, it said, "Then, let's swear to the grand dao."

It was afraid Huang Xiaolong would change his mind.

Huang Xiaolong noted the beast's expression while responding tepidly, "Sure."

In truth, his main purpose in entering the Origin Sea was the Tree of Origin, and whether the beast followed him or not, or whether it needed to borrow the Tree of Origin to cultivate, neither mattered to him.

At the end of the day, he had achieved his goal.

With the Tree of Origin in his hand, his speed in mastering the thirteen elements' power would greatly increase.

Naturally, the beast's hidden thoughts did not escape Huang Xiaolong. The beast agreed to let Huang Xiaolong take away the Tree of Origin, but did not choose to submit. Therefore, this was a treacherous creature! Who knows, once they were out of the Origin Sea, and its cosmos energy recovered fully, it would attack and snatch the Tree of Origin.

Huang Xiaolong sneered.

In that case, he would go with the flow and play the game with the beast.

Huang Xiaolong and the beast subsequently swore on the grand dao at the same time. The beast finally relaxed when it was done.

"You can take away the Tree of Origin now, and we'll leave the Origin Sea." The beast smiled amiably at Huang Xiaolong as it spoke, as if they had been friends for many years.

He had stayed in this bloody place for countless years and had long wanted to leave!

At its current strength, it was undefeatable outside the Origin Sea! All creatures would bow before it.

"There is no hurry," Huang Xiaolong shook his head, and went on, "I have just started to comprehend the power of space and time, both powers are slightly unstable, and I can't take away the Tree of Origin. I need to cultivate for some time, until my thirteen absolute powers stabilize."

Didn't the beast want to leave the Origin Sea as soon as possible? But now, Huang Xiaolong was going to make it wait.

He's going to make the beast anxious like an insatiable itch.

As expected, the beast's heart sank to its stomach when it heard that Huang Xiaolong wanted to cultivate for some time.

Huang Xiaolong ignored the beast's reaction and sat down cross-legged leisurely under the Tree of Origin, and began circulating the Soaring Dragon Art to absorb the sea of origin qi on the supercontinent. He immersed himself in comprehending the thirteen elements of absolute powers.

The beast stared fixedly at Huang Xiaolong, full of unstable energy! The brat was clearly making an excuse!

But it merely glared at Huang Xiaolong for a second, and did not do anything. It also lay under the Tree of Origin and began absorbing origin qi to recover its strength.

Didn't Huang Xiaolong want to cultivate? Then it would take the time to recover its cosmos energy!

Both cultivated under the Tree of Origin, harboring their own thoughts.

It couldn't deal with Huang Xiaolong here, but once they were out of the Origin Sea, it would make its move!

As Huang Xiaolong circulated the Soaring Dragon Art, he was akin to a great whale swallowing water and absorbing the surrounding's origin qi at startling speed. Though Huang Xiaolong's absorption speed was startling, it hadn't reached an alarming degree. However, as time passed, Huang Xiaolong's absorption speed increased tremendously, and a whirlwind of energy soon formed around him, rotating as it pulled in the entire supercontinent's origin qi.

The big movement around Huang Xiaolong roused the beast out from its meditation, and when it opened its eyes and saw the giant whirlwind around Huang Xiaolong, it was genuinely taken aback.

It tried to absorb the surrounding origin qi, but it soon discovered that it could absorb ten percent less due to the whirlwind around Huang Xiaolong.

In the past, it was able to inhale one hundred strands of origin qi at one time, but now, it barely managed to get in a few strands!

In the last hundred years, it had greatly exhausted the cosmos energy within its small world, in order to recover fully, it would take several years at least. But at this rate, it would take several decades!

It circulated its cultivation technique with a frenzy, but it discovered that in a single inhale, it could only grab a few strands of origin qi! It couldn't grab faster than Huang Xiaolong!

It was incensed. What kind of technique is this brat cultivating?! It was more domineering than the origin grand dao it had comprehended from the Tree of Origin itself.

"Stop!" it bellowed furiously at Huang Xiaolong and soundwaves rippled across, and Huang Xiaolong retreated from his cultivating state.

"What cultivation technique do you practice?" The beast glared fiercely at Huang Xiaolong, "You're swallowing all the origin qi. How can I cultivate like this?!"

"That's your problem," Huang Xiaolong responded curtly and continued cultivating, circulating the Soaring Dragon Art.

Killing intent roiled within the beast's pupils, but it made no further move. Both Huang Xiaolong and it had made a vow that neither would attack the other when they were cultivating under the Tree of Origin.

If it attacked Huang Xiaolong, the heavenly dao would punish it.

It had tasted the horror of divine punishment in the past and did not wish to experience it again.

It shot another hateful glare in Huang Xiaolong's direction. Since I can't cultivate, I won't let you cultivate either!

It let out a roar, releasing soundwaves that disturbed the surroundings. It wanted to see how Huang Xiaolong was going to concentrate on cultivating! Causing disturbance to the surrounding was different to directly attacking Huang Xiaolong. This way, it wouldn't trigger divine punishment.

But the result depressed the beast. In the next moment, Huang Xiaolong activated the Huang Long Armor and erected a protective barrier over himself. The soundwaves vibration did not affect Huang Xiaolong at all!

The beast came up with various methods to disturb Huang Xiaolong's cultivation indirectly, but none of them worked. After gritting its teeth in resentment and anger for a long time, it gave up and tried to cultivate the best it could.

It regretted making a deal with Huang Xiaolong, as it had thought of many possibilities and situations except for this.

Under the Tree of Origin, Huang Xiaolong fully immersed himself into comprehending the thirteen elements' powers, and forgot about everything else. His state of mind blended into the surrounding that an era seemed to pass in a single breath. He felt he had turned into the Tree of Origin, and the Tree of Origin was him, while origin qi around him surged up and down.

As the lights around Huang Xiaolong grew stronger, dominating the supercontinent's space, there were howling winds everywhere, but these lights and winds only ran wild within the scope of the supercontinent, and not a wisp leaked out.

Three hundred years and more went by quickly.

Huang Xiaolong's comprehension lasted for over three hundred years.

His major completion power of radiance improved further, reaching the peak of major completion. It was already not far from perfection level. His absolute power of darkness was close to reaching major completion, and the power of metal, power of wind, and power of earth, had reached minor completion.

## Chapter 3148: 6 Elements Perfection

Over three hundred years, the beast's exhausted cosmos energy had long recovered. In truth, there was a slight improvement in strength as well. Originally, this was something to be happy about, but it couldn't feel happy at all! Because its little improvement was dog shit compared to Huang Xiaolong's improvement.

It looked at the unmoving Huang Xiaolong with a sullen face, and it could tell that at this rate, it won't be long before Huang Xiaolong's power of radiance entered perfection level!

At that time, Huang Xiaolong would have six absolute powers at perfection level!

Moreover, most of Huang Xiaolong's absolute powers had already reached a minor completion stage or higher. With his three small worlds' cosmos energy on top of those, along with the Huang Long Armor, and Huang Long Twin Blades, Huang Xiaolong's strength was no less than the beast.

Even after leaving the Origin Sea, the beast wouldn't be strong enough to suppress Huang Xiaolong as it had thought before.

It really couldn't understand how the h\*ll Huang Xiaolong cultivated. From the time Huang Xiaolong had arrived at the supercontinent until now, it had been less than five hundred years. At that time, Huang Xiaolong merely comprehended eleven elements of absolute powers. Now, not only Huang Xiaolong had comprehended the power of time and space, his minor completion power of radiance had already reached the peak of major completion!

Even Huang Xiaolong's power of darkness, metal, wind, and earth, all four had gone beyond minor completion!

This really is...

The beast had to admit to itself that its progress was not as big as Huang Xiaolong despite the amount of time it had spent cultivating under the Tree of Origin.

Since the beast had been cultivating under the Tree of Origin for a million years, perhaps, its power of wind and earth could have definitely reached minor completion, but there was almost no way for it to cultivate its power of metal, and darkness to minor completion!

It was certainly impossible for it to comprehend the power of space and time in a mere one million years. If the power of time and space were so easy to comprehend, there wouldn't be so few people in the Huang Long World that could wield the two powers.

Is the Huang Long Bloodline so heaven-defying? Its eyes burned with inexplicable light.

.....

Time flowed by.

Huang Xiaolong retreated out from his cultivation in a good mood.

When Huang Xiaolong opened his eyes, the surging energy all around dissipated abruptly, as if everything in the world stopped for a split second.

“Minor completion power of time!” The beast approached Huang Xiaolong with a complicated expression, and in the bottom of its eyes was intense jealousy and hatred.

Only power of time that had reached minor completion possessed this level of power, stopping the time of surging energy in this Origin Sea.

Huang Xiaolong glanced at the beast and asked, “How long have I been cultivating?”

He had disappeared into heaven and earth, transforming into the Tree of Origin, and witnessed the origin of Huang Long World. Huang Xiaolong felt like it had happened yesterday, and he had no idea how long he had been cultivating.

“Over a thousand years!” The beast answered, “More precisely, it’s one thousand and two hundred years, plus some.”

One thousand two hundred years plus!

That’s right, Huang Xiaolong had been comprehending for over one thousand two hundred years.

During these one thousand and two hundred years, Huang Xiaolong’s power of radiance had advanced to a perfection level! On top of that, his power of darkness had reached the peak of major completion.

Both the power of time and space had reached the minor completion stage!

“One thousand two hundred years?” Huang Xiaolong frowned. “So long already?” As he spoke, he activated all thirteen elements’ energies. After sensing the levels of these energies, he muttered to himself, “Progress is still a bit slow.”

Hearing that, the beast nearly fainted on the spot from vexation.

Could it be considered slow?! Huang Xiaolong had merely been cultivating slightly over a thousand years.

The beast didn’t even have such a result cultivating under the Tree of Origin for a thousand years.

Both of his powers of time and space reached minor completion within a thousand years. How can this be considered as slow?! The beast couldn’t help but curse inwardly.

“It’s a pity that the power of darkness is still a bit short.” The beast heard Huang Xiaolong muttering again.

If Huang Xiaolong’s power of darkness could reach perfection level, then he would have seven elements at perfection level, and at that time, he really wouldn’t need to fear the behemoth beast.

Huang Xiaolong looked at the beast again, saying, "I've been cultivating for so long, so, why don't we spar some?"

The beast's expression stiffened as it shook its head. "We have a lot of time to spar in the future, and we'll talk about it then."

"Alright." Huang Xiaolong stood up, agreeing, "Alright, we'll talk about it later. Let's leave this place."

The beast was inwardly delighted when it heard that.

It was really afraid that Huang Xiaolong would want to stay there and cultivate for several hundred thousand years. With Huang Xiaolong's talent, if that were to happen, it would never have the chance to suppress Huang Xiaolong in the future.

Before that, Huang Xiaolong used his Huang Long blood essence to refine the supercontinent. With his current strength, Huang Xiaolong completely refined the entire supercontinent in half an hour, and then with a single thought, he moved the entire supercontinent with the Tree of Origin into the Sun Moon Furnace.

The beast watched with its mouth agape. It had never occurred to the beast that Huang Xiaolong would be taking away the supercontinent and Tree of Origin in this manner. In the countless years it had been there, it had tried many methods to take away the Tree of Origin, but all its methods couldn't even move the supercontinent and the Tree of Origin by an inch.

Yet Huang Xiaolong had merely used a few drops of blood essence and half an hour's time!

"Again the Huang Long Bloodline!" Burning greed flickered across its eyes.

"Let's go," Huang Xiaolong said as if he did not notice the greed in the beast's eyes, and sped away, traversing over a hundred million miles in almost instantaneously. He tried using the power of space and as expected, his speed was many times faster.

In the past, Huang Xiaolong could only fly to cross a hundred million miles in this environment, but after comprehending the power of space, within a certain degree, he was the monarch, being able to compact space and shorten distances.

Huang Xiaolong looked over his shoulder and the beast was following right behind him with ease. The beast had achieved major completion in the power of space, and in terms of speed, Huang Xiaolong would still lose to it.

‘When can my power of time and space reach the major completion stage...’ Huang Xiaolong thought to himself.

However, Huang Xiaolong was aware that it wasn’t so easy to cultivate the power of time and space to the major completion stage, as it was harder than advancing to the minor completion stage!

He had spent over a thousand years to cultivate his power of time and space to the minor completion stage, but both powers might not even reach major completion in a hundred thousand years.

Perfection level was further than the major completion stage.

Unless he could find more Flower of Time and Void Reincarnation Thistle, with the Tree of Origin in his hands, and if he had more of the two items to aid his cultivation, he could definitely reap twice the result with half the effort. Both powers could reach major completion in less than a hundred thousand years, maybe even just twenty or thirty thousand years.

But where was he going to find so many Flower of Time and Void Reincarnation Thistles? Huang Xiaolong shook his head as the question emerged in his head.

Flip the whole Huang Long World upside down, and he might still not find enough Flower of Time and Void Reincarnation Thistle he needed.

Slightly over a month later, Huang Xiaolong and the beast finally appeared outside the Origin Sea. When Huang Xiaolong had entered, he had spent more than twenty years flying, and now, the distance was merely a matter of a month or so.

“What? You want to fight?” Upon coming out, Huang Xiaolong asked nonchalantly when he sensed the split second of abrupt energy surging from the beast’s body.

#### Chapter 3149: Ten Overlords

The behemoth beast, Yuan Tianyi, stiffened and made an excuse, “Your Highness Son of Creation is joking as I have no such thought.”

Huang Xiaolong looked at the beast as he spoke in a meaningful tone, “Frankly, it’s normal for you to have such thoughts. All the way here, I don’t know how many people have wanted my life to devour my Huang Long Bloodline, or snatch the treasures on me. But, the point is, do you think you can kill me?”

Yuan Tianyi’s eyes narrowed.

Can I kill him?

In truth, he had thought of this question more than once.

“Don’t forget that I’ve also mastered thirteen elements of absolute power, and six of them have reached the perfection level. I also have three small worlds’ cosmos energy, the Huang Long Armor, and also Huang Long Twin Blades!” Huang Xiaolong listed his advantages tepidly. “If you want to kill me, you should wait until you’ve reached nine elements’ perfection before taking the risk.”

Yuan Tianyi currently had seven elements of absolute powers at perfection level, and even if he managed to increase it to eight elements perfection, he still couldn’t kill Huang Xiaolong, unless he reached nine, or even ten elements perfection.

“Not to mention, if you kill me, you still won’t be able to devour my God of Creation Huang Long Bloodline.” Huang Xiaolong went on, “My Huang Long Bloodline is set by the heavens, and others have no way of taking it away, other than experts of the God of Creation Realm!”

The heaven of Huang Long World was naturally his father, Huang Long.

His Huang Long Bloodline was determined by his father, and only a God of Creation Realm expert with strength higher than his father could snatch the bloodline away.

Yuan Tianyi's face turned slightly ugly.

Although he didn't want to admit Huang Xiaolong was telling the truth, deep down, he knew that Huang Xiaolong merely stated the facts.

But, by the time he achieved nine elements perfection, Huang Xiaolong probably would have ten elements' perfection, maybe even thirteen elements' perfection!

"Your Highness!"

An ecstatic voice rang in the air as Di Shuang, Di Fan, Myriad Formation Devil, Lei Yu, Black Shadow Devil, Li Shuo, and others appeared on the horizon.

Before Huang Xiaolong had ventured into the depths of Origin Sea alone, he had told Di Shuang and the others to leave if he didn't come out in ten years. This whole time, Di Shuang and everyone else had been waiting for Huang Xiaolong to come outside the Origin Sea.

Seeing Huang Xiaolong come out, all of them were genuinely glad and overjoyed.

Apart from Di Shuang's group, there was a large group of Origin Lands' experts, and there were at least several hundred thousand of them. These Origin Lands experts maintained a certain distance from Di Shuang's group of fourteen people but they followed Di Shuang's group and flew towards Huang Xiaolong. The person at the front of the group was not weaker than Di Shuang, Di Fan, or the other ten beast kings.

Seeing this, Huang Xiaolong understood that these people were the Origin Lands' ten overlords.

"Greeting to Your Highness, the Son of Creation."

Upon arriving, the ten overlords greeted Huang Xiaolong with cupped fists, and their attitudes were considered respectful. Other experts of Origin Lands also greeted Huang Xiaolong, but it was merely a greeting, and there was no such thing as bowing or kneeling in salute.

“We’ve been waiting for Your Highness for a long time,” the leader of the ten overlords, Overlord Cang Xun stated.

There was underlying meaning to his words.

Huang Xiaolong was tepid. “What matters do you have?”

“We know that Your Highness entered the Origin Sea in search of the Tree of Origin.” Cang Xun hesitated slightly, then went on, “Your Highness came out after so long, and it seems there are clues about the Tree of Origin?”

Hearing that, Yuan Tianyi didn’t let go of the chance to mock Huang Xiaolong, “It looks like your status as the Son of Creation ain’t that great as anyone can come up and covet the things you have!”

“Insolent!” One of the overlords reprimanded Yuan Tianyi, “Overlord Cang Xun is not someone a slave like you can comment on!”

Because Yuan Tianyi had reduced the size of his true body and converged his aura when he stayed by Huang Xiaolong’s side, this particular overlord assumed Yuan Tianyi was one of the slaves by Huang Xiaolong’s side.

Even someone like the Origin Holy World Master Xiao Tianyi did not comment on the ten overlords, then how could a slave by Huang Xiaolong’s side make a such a comment?

Ruthless cold gleams burst in YuanTianyi’s eyes at the overlord’s words, and he extended out his front paw and slapped towards that overlord.

Seeing Yuan Tianyi had the guts to attack him, the overlord sneered. “Cheap slave that can’t die fast enough!”

He countered Yuan Tianyi's attack with a palm strike, and he exerted full force into this palm strike with the intention of crippling this slave by Huang Xiaolong's side. This would be considered as putting Huang Xiaolong in his place!

The opposing attacks collided in midair.

Then, that overlord's smug expression changed dramatically as he was sent spiraling in the air like a withered leaf in the storm, flying past stretches of mountains, and finally smashing into the ground right outside the Endless City's city gates.

The Endless City was the last city located at the very edge of Origin Land, but the city was still a long way from the Origin Sea. Yet this particular overlord was sent flying from the shore of Origin Sea to the Endless City's gates with one strike!

All the Origin Land's experts were frightened by this sight, even Overlord Cang Xun, was taken aback as he looked at Yuan Tianyi in disbelief.

Similarly, Di Shuang, Di Fan, Lei Yu, and the others felt the same.

Isn't this beast coming on a little too fiercely?

Di Shuang and the others smacked their lips in astonishment.

That overlord's strength could definitely be ranked within the top four amongst the ten overlords that even Di Shuang wouldn't dare to claim he could send that overlord flying so far with one strike.

Huang Xiaolong was the only person who remained calm. After all, he was a veteran in being sent flying by Yuan Tianyi, especially in the early days when he had found the Tree of Origin.

Yuan Tianyi was an existence that had comprehended thirteen elements of absolute powers with most of them at major completion and above. He was a terrifying existence.

His existence was the only one in the whole Huang Long World!

Cang Xun and his group backed away, creating a wide distance between themselves and Yuan Tianyi. Cang Xun looked apprehensively at Yuan Tianyi and demanded, "Who are you?!"

Yuan Tianyi ignored Cang Xun's question. He couldn't be bothered to respond and was too lazy to respond.

Cang Xun's expression was extremely unsightly at being ignored so blatantly.

As the head of the ten overlords, this was the first time he was being treated like this.

"You guys want the Tree of Origin?" Huang Xiaolong suddenly spoke, looking straight at Cang Xun, "You're right, after spending a thousand years inside the Origin Sea, I have finally found the Tree of Origin!" As Huang Xiaolong spoke, a supercontinent appeared above Huang Xiaolong's head, and at the center of the supercontinent was a towering tree like no one had ever seen, emitting a myriad of halos, the Tree of Origin.

When the Tree of Origin appeared, all the experts present felt the robust and rich origin qi.

"Tree of Origin!"

Cang Xun and the experts of Origin Land were blown away and thrilled.

The expressions on Cang Xun and the others' faces did not escape Huang Xiaolong's eyes, "Didn't you guys want the Tree of Origin? Whoever defeats me, this Tree of Origin belongs to him!"

"Those words are for real?!" one of the ten overlords blurted out in ecstasy.

"That's right!" Huang Xiaolong nodded.

Cang Xun took a quick glance at Yuan Tianyi, Di Shuang, and the others, then asked Huang Xiaolong, "Just defeat you, these people won't interfere?"

Knowing what Cang Xun was worried about, Huang Xiaolong said, "Yes, they won't interfere, as long as you guys can defeat me. Of course, all of you can join hands!"

Chapter 3150: Thirteen Elements Again!

When Cang Xun heard Huang Xiaolong say that they could join hands to attack him, he sneered inwardly after the feeling of surprise receded. He believed that even though Huang Xiaolong was someone who had battled the nine beast kings at once, which was a statement of his overwhelming battle prowess, he still was delusional to think he alone could defeat the Origin Lands' tens of thousands of experts at the same time!

These tens of thousands of experts were patriarchs and eminent elders of races in the Origin Lands, and they were the strongest! On top of that, they were at the Origin Lands, and the ten overlords could use the Origin Land's origin energy to increase their strengths!

"Since Your Highness has spoken, we will respectfully adhere to it," Cang Xun said with a sly grin, and then his momentum soared to the peak as his voice reached the present patriarchs and eminent elders, "Everyone heard what His Highness said. Everyone, attack at full force, as we absolutely must not disappoint His Highness!"

"Yes, Lord Cang Xun!" The various races' patriarchs and eminent elders answered sonorously as cosmos energy surged from their bodies. They were more than ready to let Huang Xiaolong have a taste of their most powerful attacks.

When Cang Xun's brewing energy reached the peak, he did not attack immediately, but connected with the Origin Lands' origin energy as did the other overlords.

In an instant, the rich origin in the Origin Lands frenziedly surged to the surface from underground, resembling a volcano that had been brewing for thousands of years, erupting violently.

The land swayed and mountains shook.

Every corner of the Origin Lands was trembling.

Cracks and fissures opened through the land.

Countless mountain ranges burst into pieces, and flowing rivers got broken into sections.

Vigorous origin energy spewed out from underground and gathered around Cang Xun and other nine overlords. Having their strengths bolstered by origin energy, Cang Xun and others' momentum soared higher, exuding a momentum many times stronger than moments ago!

Cang Xun's overwhelming momentum made Di Shuang wary.

Before, Cang Xun's strength was probably at par with his, and at that level neither could triumph the other, but now, with Cang Xun's strength bolstered by the land's origin energy, his strength had clearly surpassed him! And Cang Xun's momentum was still rising!

No wonder Cang Xun had the confidence to provoke Huang Xiaolong.

Yet Huang Xiaolong remained unperturbed by the rise in Cang Xun and the others' momentums. Had he merely had five elements of perfection, and mastered eleven elements of absolute powers, without the Huang Long Armor, and Huang Long Twin Blades, he would be hard pressed to fend off tens of thousands of Origin Lands' experts.

But his current strength was not the same as one thousand and two hundred years ago.

“Attack!”

When Cang Xun's momentum reached a new peak, he bellowed and lunged towards Huang Xiaolong in attack,

Other overlords also attacked simultaneously.

As for the overlord that was sent flying by Yuan Tianyi, his injuries healed rapidly with the help of origin energy, and he also joined the battle. With the ten overlords of Origin Lands, as well as tens of thousands of experts consisting of various races' patriarchs and eminent elders, the Origin Sea's surroundings became tumultuous with high splashing waves.

Due to Huang Xiaolong's order, Di Shuang and the rest of the group retreated far away, and they still ashen slightly from the overwhelming destructive power.

"Could His Highness withstand this attack?" Di Fan whispered worriedly.

Before this magnitude of power, not to mention the nine of them, even all ten beast kings together would find it difficult to parry this attack.

They knew that Huang Xiaolong was exceptionally strong, but they were not certain if he could withstand the ten overlords, and so many Origin Lands' experts combined attack.

Di Shuang kept his silence as he, too, couldn't say for certain if Huang Xiaolong could prevail in that attack.

The combined attacks from the overlords and tens of thousands of Origin Lands' experts reached Huang Xiaolong almost in the blink of an eye.

Yet Huang Xiaolong watched unhurriedly while circulating thirteen elements of absolute power. Thirteen different colors of light formed a formidable protective barrier around him, and within the barrier were various manifestations.

The Huang Long Armor emerged to the surface and wrapped around Huang Xiaolong's body, and the Huang Long Twin Blades in his hands.

Huang Xiaolong took a step forward, arriving almost instantaneously in front of Cang Xun as his foot landed.

Cosmos energy from his three small worlds surged to the limit and the Huang Long Twin Blades glistened in the light. Although Di Shuang was the leader of the ten beast kings, never in his life had he seen anything glistened so bright.

These radiant rays pierced through the bright light formed by Cang Xun and the tens of thousands of Origin Lands' experts, resembling the light of creation that was unstoppable.

After comprehending the power of time and space, Huang Xiaolong's speed had grown too fast for people like Cang Xun and other overlords to capture. They could only see blurry afterimages. Whereas, the others couldn't even capture Huang Xiaolong's after images. All they could see was two gleams of blade lights drawing arcs across space! Like an exploding fallen meteor, or ten thousand suns gathered in one place.

Two rays of blade rays flashed across space, and in the next second, the leader of the ten overlords, Cang Xun, was sent flying, followed by the other nine overlords, and finally the Origin Lands' patriarchs and eminent elders joined them!

None of them managed to dodge the two blade rays, nor did anyone withstood it.

When the two blade rays disappeared, Huang Xiaolong remained standing in the air. As for Cang Xun, the other overlords, and various races' patriarchs and eminent elders, they either crashed into the Origin Sea or the islands.

Islands exploded into pieces from the impact, and waves rose high into the air.

Di Shuang, Di Fan, Myriad Formation Devil, Lei Yu, Black Shadow Devil, Li Shuo, and others were rendered agape.

"Thirteen elements absolute power!" Cang Xun struggled to break out from an island in the Origin Sea while he shrieked sharply, as he couldn't be bothered with his injuries at this moment. Although the Huang Long Armor and Huang Long Twin Blades were a surprise to Cang Xun, it was the fact that Huang Xiaolong had comprehended the thirteen elements that jarred him the most.

He had never heard of anyone in the Huang Long World who had successfully comprehended ten and above absolute powers, but now, Huang Xiaolong had shown the power of thirteen elements!

Thirteen elements, complete elements!

The other nine overlords, and various Origin Lands' patriarchs and eminent elders were jarred to their souls.

Huang Xiaolong fully activated the power of his Huang Long Bloodline, releasing overwhelming heavenly might that covered every corner of the Origin Lands. Cang Xun, and the other nine overlords were suppressed until they could not raise their heads, much less the others.

Under the combined pressure from Huang Xiaolong's thirteen elements of absolute powers and his Huang Long Bloodline, even Yuan Tianji had to circulate his own thirteen elements to reduce the coercive pressure from Huang Xiaolong.

Cang Xun and the others noticed the thirteen elements' energies appearing around Yuan Tianji, with seven of them at perfection level, and all of them were beyond shocked, and they quivered in fear. The overlord, who had repeatedly called Yuan Tianyi a slave earlier, nearly pissed himself.

"Another with thirteen elements! All of them have reached major completion, seven of them at perfection level!"

Di Shuang, Di Fan, and every present expert were beyond shocked that there was such a terrifying existence in the Origin Holy World?

Suddenly, they remembered that Huang Xiaolong had found the Tree of Origin at the end of the Origin Sea. Could His Highness have encountered this creature there? Does this beast live at the end of the Origin Sea?

.....

Several hours later, Cang Xun and the other nine overlords were all branded with the creation mark by Huang Xiaolong. Naturally, those races' patriarchs and eminent elders were on their knees crying submission.

After going through Cang Xun's memories, Huang Xiaolong surprisingly discovered that the Son of Mystic was still within the Origin Sea.
