

Constellation 131

Chapter 131: It's raining (3)

The rise of the superpowers was too sudden and too fast for the government to take control of it. In fact, the appearance of the superpowers was not sudden but premeditated and planned.

By the time they found out about it, they could only make use of the powerful Foundation of the government to pull out a team of night watchers at the first moment. Only then could they barely maintain the stability of the major provinces.

Right now, all the places were in chaos, and the number of night patrols was limited. How could they intimidate everyone?

...

In fact, Hu Hao was a little worried. For the past 20 years, the night patrollers had been compromising. If this continued, the large organizations would become more and more unscrupulous. In some places, even the night patrollers had been corrupted.

How long could this peace last?

Silver Moon province was still fine before, but would the chaos in Silver City spread?

At this moment, the entire room fell silent.

The two night patrollers were angry and unwilling, but they could only watch and wait. They hoped that the night patrollers headquarters would send people over and even dreamed that the experts from the headquarters would come to suppress the chaos and spread the power of the superpower domain!

However ... This kind of anticipation had lasted for many years and seemed to rarely happen.

At the side, Yuan Shuo leaned back in his chair and did not say anything.

Beside his hand was a large saber.

Yuan Shuo did not become famous because of his weapons. He was well-rounded and was proficient in all kinds of weapons.

At this moment, he had placed a knife beside him.

It was a blade that had actually just been forged not long ago.

No one cared about this, not even the two people beside him. They didn't care about the small stone knife that was embedded in the handle of the big knife. It was only seven to eight centimeters long and two to three centimeters wide.

It was even smaller than a game controller!

Yuan Shuo gently caressed it, and his breathing was rhythmic. Beneath his clothes, his muscles were squirming continuously, and waves of energy were striking his entire body.

.....

Silver City.

Less than three thousand meters away from the inspector's office, there was a large church.

At this moment, the church was like a ghost's domain.

Deathly silence!

After an unknown period of time, a low laugh came from the shadow in the corner."Liu Long has come out! Yuan Shuo is still in the ancient courtyard, and the two people who were protecting him are also there, not daring to move!"

"Do you have any plans, night patrolman?"

"We haven't found them yet, but it's fine. There are only a few top-notch existences in the night patrolman's headquarters in Silver Moon province. They all have missions, arrangements, and their whereabouts can be traced ... Moreover, the experts in the night patrolman's headquarters won't make a move easily. If we had a top-notch expert coming this time, we might attract their attention. Now ... To kill us and shed all pretenses of cordiality, the night patrolman won't take this risk!"

If they could kill a few of their organization's top powerhouses in one fell swoop, the night patrolman might take action even if he had to pay the price.

However, it was not worth it for the night patrolman to completely fall out with a powerful organization after killing some middle-ranked people.

In the shadows, a low laugh echoed.

It was filled with satisfaction and pride.

They felt a great sense of achievement by letting the Silver City be shrouded in their shadows.

So what if he was a night patrol?

This time, he had come to harvest an ordinary person. No matter how glorious the Li family had been in the past, Li Hao today was just an ordinary person. Yet, someone from the silver Blizzard city still wanted to stop him. They were overestimating themselves!

"When do we make our move?"

The voice came from the shadow again.

"No hurry, wait!"

What was he waiting for?

Some people didn't know, while others understood. A newcomer in the grimace could not help but ask,""Liu Long isn't here, and Yuan Shuo isn't coming out. The timing is just right, do we still have to wait?"

Wasn't this a good time?

“Let’s wait a little longer. You don’t understand ... Let’s make the others busy with their own affairs for now. When the Thunder strikes on a rainy night and the rain turns blue ... That’s when we’ll make our move!”

Blue?

And blue Rain?

Not everyone in Ghostface had been to the Silver City before, and not everyone had come to carry out such a mission. At this time, each and every one of them was a little surprised and confused.

Would the rain ... Turn blue?

Why did he have to do this?

.....

In the basement.

Li Hao exhaled and glanced at the others. He was somewhat anxious and uneasy. “They’ve lured boss away, but they’re still not making a move ... When are they going to do it?”

He thought that after Liu Long left, these people would make a move.

But there was none!

He was still waiting!

The rainy night had come. What other conditions did the red shadow need to make a move?

If she didn’t come, he would be anxious.

At most, he would just go all out!

It would be best if they won, but it would be better to fight to the death than to wait.

Not far away, Liu Yan chuckled and said playfully, “You’re in such a hurry to die?”

“Sister, maybe we can counter-kill him?”

Li Hao also laughed, and his anxiety disappeared a little.

“Then let’s wait!”

Li Hao continued, “then, why don’t we take the initiative to go out and head to the designated location? since they’re waiting ... It means that the time isn’t up!” Even if we leave now, they might not attack us!”

The Red Shadows still needed time.

Li Hao didn’t want to die Here.

“I’ll wait for boss’s arrangement!”

Liu Yan usually didn't listen to Liu Long, but at this moment, she seemed to trust Liu Long very much. Before Liu Long left, he didn't let them leave, so Liu Yan didn't mention leaving. Even though Li Hao said so, she still insisted on staying.

.....

Outside the inspection Office.

Liu Long led the team and patrolled around. After leaving some people to handle the case, he returned. He didn't return to the basement this time.

The rain was getting heavier and heavier. In the dark night, Thunder was brewing. The sound of muffled Thunder was heard. Beside his feet, on the Black Panther's fur, raindrops dripped down, not drenching the Black Panther.

Chapter 132: It's raining (4)

He was very passive!

Liu Long knew that at this moment, he was in a passive position and was being led around.

The pressure from the silver Blizzard city, the unscrupulous pressure from these people, forced him to follow their train of thought.

...

However, Liu Long's eyes didn't show much nervousness or uneasiness.

There was only calmness and indifference.

As soon as he got out of the car, before he could even drink a mouthful of water, someone rushed out of the inspection office's lobby in the rain and said nervously, "Captain, there's been another arson in the northern suburbs, and many people are trapped in the building. The firefighting team has set off, but they need the help of the law enforcement team ..."

Here it comes again!

Just like that, he lured Liu Long away again and again, toyed with him again and again, and threatened him that he'd better not come back. If he did, he'd just wait for another case to happen!

"Inspection Office ..."

Liu Long muttered.

This time, if they couldn't solve this problem, the dignity of the Inspector General would be completely gone!

Even the night patrolmen would probably lose face.

You should understand, but I wonder if you've made sufficient preparations?

"Follow me!"

Liu Long shouted in a low voice once more as he braved the rain and drove away with the law enforcement team.

Then let's continue!

Silver Blizzard city, you're an outsider after all. Even if there are some arrangements, do you think you'll know better than me?

"I've already locked onto your position!"

After getting in the car, Liu Long touched the Black Panther's head and revealed a faint smile.

The Black Panther's nose twitched slightly as it travelled with the vehicles in the rainy night. The vehicles circled the streets of Silver City.

The speed wasn't fast. Perhaps the rain had gotten heavier, and the engine had even stopped several times.

Every time the engine was turned off, Liu Long's temper would become more irritable.

He got out of the car, smoked, growled, and scolded the police. The law enforcement team was so scared that they didn't dare to speak.

As for the captain bringing a dog with him on a rainy day ... Who knew what the captain was thinking.

When the car arrived near a Cathedral, the engine was turned off again. Liu Long got out of the car and kicked the car, causing it to tremble. He growled in a low voice, "Damn it, why didn't you change the car? Why? It's not the first time that you're cooped up as soon as it rains. Trash, a bunch of trash! Can't those bastards up there see the predicament the law-enforcement team is in? The funding was getting smaller and smaller, and all of them were useless! You guys too!"

He let out a furious roar, accompanied by the explosion of Thunder, like an angry king Kong, and roared, "Run forward! I'm going to smash this broken car tomorrow!"

After saying that, Liu Long led his team and quickly ran towards the crime scene in the rain. They were still a long way away, but he ran extremely fast.

In the darkness, the Black Panther also disappeared from his side.

No one would care about a dog on a rainy night.

In front of him, Liu Long was running at full speed, leading a law enforcement team of more than 20 people. The rain fell on his face, but it could not hide the fire and anger in his eyes!

It's nearby!

The Black Panther could see that thing. Not only could it see that it was a dog, a dog that didn't need training, a dog that was about to become a spirit.

"You guys ... Just you wait!"

On a rainy night, Liu Long took out his communicator and dialed a number while running. He growled in a low voice, "You guys leave the city! The city will only be quiet once you're out. I'll arrange for people to protect you!"

"Alright!"

The communication was quickly cut off. It was Liu Yan's voice.

.....

In the basement.

Liu Yan hung up the communication and, fully armed, shouted in a low voice, "Get out of the city!"

It was now!

For some reason, Li Hao suddenly decided to leave the city, but he didn't say anything. He quickly followed Liu Yan. The others, including Yun Yao, also took their medicine boxes and followed Liu Yan without saying anything.

.....

Outside the Cathedral.

After Liu Long's communication ended, a ghostly figure suddenly appeared with a red figure floating beside him.

In the corner, Black Panther let the rain wet his fur and watched silently.

In just a moment, the Black Panther was like a stray dog, running away quickly in the rain with its tail between its legs. It was a stray dog to begin with, so it didn't need to pretend. This was how stray dogs ran!

"Wuwu ..."

As he ran, he whimpered. Black Panther felt that he might have made a contribution. Perhaps this new big guy would teach him more martial arts and make him stronger than Li Hao. Li Hao didn't even know how to teach dogs martial arts!

Chapter 133: First demon-hunting battle (1)

In the rainy night, the Black Panther came.

Liu Long's eyes were cold as he looked over from a distance. He saw Heibao nodding its head!

There!

...

He found it!

Even without Heibao, Liu Long had his own way of finding people. After all, this was his territory.

However, with Black Panther, it would be much easier to find him.

The target's location was confirmed!

Liu Long glanced into the distance, at the Cathedral.

The church had been built in Silver City a few years ago, but it had been left vacant. Originally, the church had been built for the people of Silver City to have a place to relax, but the people of Silver City were not very interested in the church. They would rather take shelter under a big tree than go to the church.

As such, the church had been set up as a demolition building and would be demolished soon.

"This is a good place!"

Liu Long praised him in his heart. "Good choice. This place is about to be demolished, and the residents around it have long moved away. In addition to the rain tonight, almost no one will stay in this area."

It was a good place!

He suddenly stopped in his tracks. Behind him, more than twenty members of the law enforcement team also stopped in their tracks.

Some people looked at the dignified Captain in confusion.

Why did he stop?

Panting sounds could be heard in the rainy night. Some people were already tired from running. However, Liu Long's prestige was very strong, so no one dared to resist. The law enforcement team admired this Captain very much. Of course, Liu Long's mind wasn't here for the past few years, which was why the law enforcement team was a little chaotic.

At this moment, the rain was washing everyone.

Liu Long didn't speak, and no one dared to make a sound.

Just like that, the group of people raised their heads to look at the tall man in front of them in the rainy night. They did not show any dissatisfaction. Even if they did, they did not dare to show it.

Liu Long looked at them one by one and saw that they were all old people.

This time, the people he brought with him were all his brothers who had followed him for many years. It was just that these people didn't join the demon hunting squad, but they all knew of the existence of the demon hunting squad.

Everyone in the demon hunting squad was a lunatic, a gambler, a person who had nowhere to go, or someone who had a strong desire to become stronger. Otherwise, Liu Long would not have recruited them.

This was because mortals killing superpowers was a gamble with a slim chance of survival.

At this moment, Liu Long looked at them one by one. In the rainy night, the rain was washing his face. Liu Long's cold voice rang out, "You're all my brothers, and you've gone through life and death with me. I, Liu Long, will not mistreat you, so you don't have to kill me!"

As soon as these words came out, some people's expressions changed, and some responded in a deep voice, "What do you mean, Captain? Who would harm the captain?"

"It's not important!"

Liu Long's voice was still cold. "This is not important. Money may be mesmerizing, but ... Remember one thing. Superpowers are superpowers, and mortals are mortals. Those people will not even look at you! Money will be spent sooner or later, and those involved in this will die sooner or later!"

The team was silent.

"I won't drag you down with me, but ... You have to be obedient!"

He looked at the crowd and said coldly, "everyone, listen up. Split into two teams. One will keep an eye on the other. No one is allowed to move!" You're not allowed to make any movements, you're not allowed to whisper, you're all waiting for me here! Don't run around! Maybe some of you are watching me ... But it doesn't matter, I won't pursue it! However, if you make any movements at this moment ... Kill without question!"

At this moment, everyone held their breath.

"I don't believe that everyone will betray us. Darkness is only darkness!"

Perhaps someone had been tracking these people and had been observing his movements all this time. Otherwise, it would be impossible for them to be so well-informed that their enemies would instantly know where he was.

He was too well-informed!

Therefore, among the 20 people present, there must be someone who was responsible for keeping an eye on him. They might have been under the influence of a superpower and the other party could sense it.

And Liu Long had already known this.

The only people who knew Liu Long's location were his trusted aides.

Now, with these people here, if they didn't move, they might be able to delay for a while.

There were smart people in the group. The next moment, someone said in a deep voice, "Captain, today's matter isn't simple, and our brothers aren't stupid. We've already seen through it! The captain has been led by the nose, and among us brothers ... Perhaps someone has been accidentally followed! If the captain trusts us, we won't make things difficult for him ... I'm afraid it's not a good idea to keep waiting here. If the captain trusts us, the second captain, third captain, and I will supervise each other and lead the team to the crime scene!"

They were all old patrol inspectors, who didn't have some sharpness?

He didn't say that someone had betrayed him. Perhaps it was unintentional.

This was indeed not the time to delve into it.

When Liu Long heard this, he took a deep look at the crowd and nodded, "He's trustworthy, but if you go to the crime scene ... If the thugs are still there, you may be in danger."

"Captain, we're patrol officers!"

"The patrol officer is afraid of the rioters?" someone chuckled.

Liu Long said no more and waved his hand heavily. More than 20 people quickly moved forward in the rainy night, monitoring each other, even the leaders of the small teams were no exception.

In the end, the law enforcement team had not been completely corroded.

In the next moment, Liu Long was sprinting in the rain.

Li Hao and the others had come out!

The other party couldn't help but make a move. Now that his whereabouts were exposed, he had to make a move as soon as possible.

As he flew past, he let out a soft whistle.

In the blink of an eye, more than ten people in dark black military uniforms appeared in the rainy night.

Yes, military uniform.

The Silver City didn't have an Army stationed there, but there were some retired veterans. Liu Long was one of them in the past, but he joined the inspection Bureau after he returned from the Army.

Chapter 134: The first demon-hunting battle (2)

Translator: 549690339

"Follow me!"

Without any unnecessary words, the dozen or so people behind him quickly followed.

These people were all very agile. At this moment, some of them were carrying short cannons, some were carrying heavy weapons like rocket launchers, some were carrying a large number of explosives, and some were carrying a box of grenades ...

...

These few days, Liu Long did not have any plans.

For example, he was the one who had secretly informed these old comrades.

The crowd followed Liu Long and ran madly. The sound of their footsteps was particularly soft under the impact of the rain.

A moment later, they arrived at the Cathedral.

Liu Long didn't get too close. Supers had very strong senses. If he got too close, they might be able to sense him.

Without saying a word, Liu Long raised his hand!

The people at the back quickly set up an attack Position. A small cannon was quickly assembled and loaded with ammunition.

The machine gun was set up.

There was no chaos. Someone quickly went into the nearby house. In a minute, everything was ready.

The entire process was frighteningly quiet.

He didn't need to command them loudly. Liu Long was able to kill supers a few times before because of the help of these people. It was just that they were all very secretive, and not many people knew that he had trusted aides outside of the law enforcement team who dared to help him kill supers.

In the rainy night, Liu Long's tall figure looked at the church in the distance.

His eyes were cold.

Supers were hard to kill, and he was very clear about this. Even if he were to launch a surprise attack today, he might not be able to kill many of them. However, Liu Long was not the type to be passive, and he would strike first!

It was difficult for a powerful Dragon to defeat a local snake.

And he, Liu Long, was the local tyrant of the Silver City.

He raised his right hand high, and in the next moment, he swung it down heavily!

BOOM!

The cannonballs fell directly into the church, and the next moment, grenades were quickly thrown into the church. Not only that, but a large number of explosive packages were also thrown in the direction of the church.

At this moment, the sound drowned out the sound of the rain.

"Law-enforcement team, surrender! Those who resist the law will be killed!" Liu Long roared.

Boom! Boom! Boom!

Before he could finish his sentence, a crazy explosion sounded.

BOOM!

The old church's walls were blown apart almost instantly, and the roof beams collapsed.

Liu Long took out a short axe from his wet windbreaker and took off his windbreaker. The next moment, he roared and chopped at a Ghostface who had just rushed out of the church!

"Continue bombarding!"

BOOM!

No one seemed to care about Liu Long's life or death, nor were they afraid of accidentally injuring Liu Long. A large number of shells continued to bombard the church, and the sound of machine guns drowned out the sound of the rain.

.....

In the broken church.

After receiving the news that Li Hao's team had left the law-enforcement team, the ghostly faces were caught off guard just as they were about to come out.

Fortunately, there were many supers among them.

"Attack!" One of the ghostly faces shouted. Mysterious energy emerged and formed a defensive shield. However, in the blink of an eye, the shield was penetrated by the Cannonball. The next moment, the others retreated. The ghostly face that had raised the shield was immediately turned into a hornet's nest by the machine guns outside!

Some of The Ghostfaces rushed out of the church in a panic, but as soon as they did, they were faced with a silver short axe.

The axe struck out!

Seven layers!

BOOM!

A Dark Moon realm super was comparable to a hundred existences. However, at this moment, in a panic, he was split in half by the axe, and his blood spilled on the long Street.

"Liu Long!"

A sharp sound rang out!

Right at this moment, Liu Long felt a sense of danger, an invisible danger. It was as if there was something beside him, and in the next moment, it was as if something was drilling into his body.

If Li Hao was here, he would have seen three red figures beside Liu Long.

Not only that, but there were also red Shadows flying rapidly in the direction of the soldiers in the distance.

And those people knew nothing about it.

Firearms and ammunition were completely harmless to these red Shadows.

Woof! Woof! Woof!

In the rainy night, the Black Panther's cry was very sharp.

Liu Long knew that the spiritual level danger he felt last time was here. He was over 100, so he could at least resist it for a while. However, his brothers on the outside might not be able to stop it!

At that moment, the soldiers on the outside were using cannonballs, explosives, and machine guns to suppress the supers inside.

Therefore, Liu Long had the opportunity to kill one of them with a swing of his axe.

Once these people died, their firearms would be destroyed and Liu Long alone would not be a match for them. At this moment, he could already sense the aura of supers, and it was not just one, but many!

There were at least seven or eight of them, and this was because he had hacked one to death and another had been killed by a machine gun.

“A team of 10?”

Liu Long was also shocked. 10 superpowers?

Such a scale was indeed beyond his imagination.

Even the night patrollers would find it difficult to dispatch 10 of them at once in the Silver City, as there were too many cities that the night patrollers had to guard.

In the church, someone shouted angrily, “Liu Long, you’re courting death. Today, we’re only targeting Li Hao. You interfered in the killing. Do you really think that we don’t dare to massacre the entire Yincheng District?”

This was crazy!

They knew Liu Long very well, and they knew that he should have gone to another place to deal with the arson case. Why would he suddenly appear here?

Also, they had spies in the law enforcement team.

The law enforcement team didn’t collect weapons on a large scale today, and the equipment Warehouse wasn’t used ... Of course, as the law enforcement team leader, if Liu Long really collected a batch secretly, and the Secretary turned a blind eye, it would be difficult for ordinary people to find out.

However, they never thought that Liu Long would dare to open fire in the city!

And its firepower was extremely powerful!

Even the mortar had been brought over. If not for the time constraint, Liu Long might have even been able to get a huge cannon for the siege.

“Never compromise with evil!”

Liu Long only said this.

Chapter 135: The first demon-hunting battle (3)

Massacre the city?

No matter what, they must never compromise with evil. The night patrollers compromised again and again, but what they got in return was not peace, but more and more chaos.

These guys would only be afraid when they were afraid of killing.

...

“The last round!”

Liu Long quickly retreated from the church and shouted.

In the next moment, ghostly figures appeared in the church. Some of them fled into the air, some quickly burrowed underground, and some seemed to have turned into nothingness.

At this moment, supers who were prepared had abilities beyond imagination.

When Liu Long shouted out the last round of attack, these people, except for those who really couldn't escape, all fled the scene.

One person with a gun was not a threat to them.

However, when more than a dozen elites were well-prepared and organized, using powerful machine guns and mortars, even they had to avoid them.

Of course, if they were given some time, they could quickly kill all these people!

Just as Liu Long shouted these words, the sky was dyed red.

All the artillery shells, explosives, and grenades were thrown at the same time.

“Go!” A Ghostface shouted. A mysterious energy swept over and instantly created a hurricane. The hurricane swept everything, including the cannonballs and explosives.

BOOM!

The loud noise was endless.

The Super who used the hurricane staggered. It was obvious that using such a super power in such a hurry was a little too much for him.

Right at this moment, Liu Long suddenly turned around and held the short axe in his hand. The veins on his hand were bulging and the short axe vibrated seven times in a row.

Sevenfold!

“Kill!”

Liu Long's vital energy was like a dragon. He pushed off the ground with the tip of his feet and shot up, going straight for Grimace who had just used his power.

His killing intent was as cold as ice!

The rain was washed away, and in the next moment, an axe was swung down. The hurricane superhuman looked up with a look of fear in his eyes. He was a moon-level superhuman, but he had just used an over-capacity superhuman power, and he was in a state of alternating between the Old and New power.

Liu Long, a battle-hardened Martial Master who had broken through 100 ranks, was the best at finding an opportunity.

Just as he was in a state of shock, Liu Long's body suddenly became sluggish. He had been resisting the red shadow that had burrowed into his body earlier, but at this moment, he had used all his strength and could not care about his force to protect his body. In an instant, he felt that his internal organs were being burned!

It was extremely painful!

Liu Long himself could not see it, but in the distance, the Black Panther's dog eyes were filled with anxiety. It saw three red Shadows burrowing into Liu Long's body, their bodies even emitting a faint fiery light.

It was burning Liu Long!

Not only that, but there were also a few Red Shadows that were approaching the soldiers at the periphery.

Woof! Woof! Woof!

Black Panther anxiously reminded everyone.

"That's it?"

At this moment, Liu Long let out an angry roar. He endured the pain and chopped off the head of the hurricane super with his axe. The next moment, the blood in his body started to boil!

Under the intense boiling of his blood, even the red shadow seemed to have been injured.

Suddenly, wisps of green smoke rose from Liu Long's body!

The red shadow was burned by the boiling blood!

Liu Long was like a lion. If he used his inner strength, he would end up with both of them injured, but he didn't care.

He was already over 40 years old and had already trained the nine-fold force to the seventh fold. Every battle worsened his injuries. If he could not become a superpower soon, he would end up like his father, crippled, and dying in bed.

With today's outburst, he had killed two supers, one of his comrades, and three ghostfaces. It was worth it!

Of course, he didn't want to die now.

No one wanted to die, and he was no exception. However, there was indeed no better way to deal with the red shadow. Unless he could enter the thousand warrior level, otherwise ... He could only use this method of mutual destruction to restrain it.

.....

On the outside, the soldiers did not even look back. After the last round of attacks, they quickly fled.

Their years of experience and understanding told them that if they stayed, they would definitely die.

Not only would he not be able to help Liu Long deal with the enemy, but he would also be a burden to Liu Long.

The red shadow was in hot pursuit!

Obviously, grimace had suffered a great loss because of these ordinary people, and the supers controlling the Red Shadows were not willing to give up!

Kill!

These people must die.

As for Liu Long, there would naturally be someone to deal with him. Since this fellow dared to charge forward, then he should be prepared to die.

Outside the church, seven ghostly figures appeared.

They were indeed a ten-man team, a superhuman team, and three of them had died at once. The others were also angry and manic, and mysterious energy fluctuated from their bodies.

They all had to die!

Seeing Liu Long's blood boiling and burning the red shadow, someone in the ghostly mask snorted, "Liu Long, you think you can hold us back? You've overestimated yourself and underestimated Li Hao's importance ... You think ... We're all?"

Liu Long, who was currently resisting the red shadow, truly had a change in expression this time.

Not all?

This was not all!

Ten supers, almost all of them were at the level of Dark Moon, and they did not sense the Starlight master. In other words, there were ten supers who had surpassed level 100 ... This was more than he had expected, and in the end ... They were still not all?

What kind of organization could dispatch so many supers at once?

Also, what was Li Hao's relationship with? he was just an ordinary person, but he could attract so many supers to kill him?

Chapter 136: Chapter 36-first demon-hunting battle (4)

Were the eight great families ... Really that important?

Liu Long's expression changed drastically. He suddenly let out a roar and spat out a mouthful of blood. The blood instantly evaporated in the air.

The next moment, he took out a small crystal ball from his waist and crushed it.

...

BOOM!

With another loud noise, the crystal ball exploded. Liu Long quickly escaped in the midst of the explosion. He ran madly in the direction of Li Hao's group.

There was more than one team!

If that was the case, some of his arrangements might go wrong.

He had already tried his best to overestimate this group of people. 10 dark moons ... To deal with an ordinary person, to deal with a demon-hunting squad that only had one Martial Master that was over 100. Even if the Silver City's over 100 martial masters and dark Moon Nightwalker were added together, they wouldn't even have 10.

Was there a need to?

Liu Long couldn't help but want to curse!

Was there a need for this?

"Chase!"

Behind him, the ghostly faces were chasing after him. Liu Long stomped on the ground heavily, and with a boom, the ground collapsed. He stepped on one of the ghostly faces, not giving the other party a chance to suddenly attack him.

It was not the first time he had fought with supers!

There was actually someone here who knew how to burrow underground.

At the same time.

The red shadow that was chasing after the soldiers was already approaching the slower soldiers.

At this moment, a figure suddenly appeared in the rainy night. The small figure was running rapidly in the dark.

Yunyao!

That's right, when the figure stopped, it was Yun Yao of the demon hunting team.

Yunyao was wearing something like a gas mask.

In yunyao's line of sight, there was no one or anything, but as her line of sight moved, different colors of regions appeared in front of her eyes. They were modified super detectors.

The red shadow was invisible, but it didn't mean that it couldn't be discovered.

Even if the red shadow did not have superpowers, its movements and attacks would always cause a faint energy fluctuation.

In an instant, yunyao caught sight of a bright red area.

Over here!

In the next moment, more than ten crystal balls that Liu Long had just taken out appeared in her hand. They were all filled with mysterious energy. The mysterious energy was covered in ice crystals. Once it exploded, it would cause an explosive effect.

The red shadow might not be able to deal physical damage, but Liu Long and the others had analyzed that the mysterious energy could probably restrain it.

Unfortunately, the time was too short. So far, yunyao had only modified a pair of detection glasses. She originally wanted to give it to Liu Long, but Liu Long didn't want it. He was a Martial Master with over 100 martial masters, so it was easier for him to sense the existence of these things.

As for yunyao and the others, they hadn't broken through 100. Without these glasses, they really wouldn't be able to discover it.

BOOM!

With a loud bang, the red zone was instantly blasted open!

Yun Yao couldn't see anything. She could only see that the red areas had spread out.

However, the Black Panther saw clearly that the few Red Shadows that were chasing after them were blown apart by the mysterious energy. However ... They quickly gathered together. Although their speed seemed to be slower, they were still there and had not disappeared.

Woof! Woof! Woof!

An urgent cry rang out. Without a word, Yun Yao ran after the Black Panther, and the Red Shadows all chased after Yun Yao and the Black Panther!

The other soldiers all fled.

No one said anything. This was also part of the plan. If there was really a crisis, as ordinary people, they would escape first. Yun Yao was arranged by the demon hunting squad to cover the retreat.

.....

The Black Panther ran madly.

Because it could see the red shadow, it could effectively avoid the red shadow's pursuit. Yunyao also knew this. At this moment, although her body was petite, her speed was not slow. Her voice was a little breathless. "Heibao, run towards the northern suburbs and avoid those things ..."

Run North!

Li Hao's group was there, and Liu Long was also running there, ready to meet up.

It was safer to stay together.

Furthermore, they had other plans. Everything they were doing now was to lure these people out ... Although they had almost died here, the plan was still going on. If they didn't die, it meant that they had succeeded.

Yunyao couldn't run anymore, and her sense of danger was getting stronger and stronger.

At this moment, another figure came running at high speed. The thin and weak Wu Chao was extremely fast. He quickly landed from the roof, grabbed yunyao, and ran away. This time, even the Black Panther couldn't outrun this guy.

"What are you doing here?"

Yunyao was shocked!

Now that he was here, only Liu Yan and Chen Jian were left on Li Hao's side.

Wu Chao was supposed to follow Li Hao. He was fast and could run with Li Hao at the critical moment. Li Hao was too weak.

"Li Hao asked me to come ... He said he won't die, and that his teacher will help at the critical moment ..."

Wu Chao responded quickly and didn't dare to speak anymore. He was afraid that he would mess up his breathing, so he carried yunyao and ran.

Woof! Woof! Woof!

Behind them, Heibao's urgent voice came. Wu Chao didn't think much, turned around, and picked up Heibao. He carried yunyao while dragging Heibao, and quickly ran out of the city.

It was as if there was wind under his feet, and his speed was extremely fast.

The next moment, two ghostly figures appeared behind him. At this moment, there were only two red Shadows left.

"They're going to gather!"

"Wu Chao and Yun Yao from the demon hunting squad ... What a demon hunting squad, they've all gone crazy!"

A mere tenth realm actually dared to participate.

"Chase!"

The two of them shouted in a low voice and quickly chased in the direction that Wu Chao had escaped in.

Tonight, these people were destined to die!

.....

At the same time.

North City.

Chen Jian was in front, Liu Yan was behind, and Li Hao was in the middle.

The three of them didn't walk, but drove a small car and quickly headed out of the city.

Liu Yan held a small knife in her hand, her face cold and alert.

Chapter 137: Chapter 36-first demon-hunting battle

In front, Chen Jian was driving, but he did not pay much attention to the road conditions. He drove straight out of the city.

In fact, Li Hao had also heard the violent explosion in the city.

He even saw the flames that soared to the sky!

...

Li Hao was actually quite surprised that the captain had also arranged a large number of firearms to attack the enemy in the city and quickly found their hiding place.

However, Li Hao knew that firearms weren't omnipotent!

Unless they really used a large-scale artillery to wipe out the city ... If that happened, the Silver City would be gone, and who knew how many ordinary people would be killed or injured. This was something that could not be done.

Unless supers were encountered in the wild, most of the time, the effectiveness of hot weapons would be greatly reduced in the city!

Even the demon hunting squad couldn't be so heartless as to use their cannonballs to destroy the city and bury countless people with them.

Just as the car was running, a loud bang suddenly came from the front!

The next moment, the bridge in front of them was blown up!

In the dark night, several figures appeared in the rain. Li Hao focused his eyes on them and was slightly stunned ... Martial masters!

Yes, not supers.

The person in front of them was actually a Martial Master!

The reason why he could tell they were martial masters was because they were the same as Liu Long and the others. There was a faint mysterious energy flowing out of their bodies, but it did not enter their bodies. This meant that they had absorbed the mysterious energy but had not become supers.

"Ghostface?"

The car stopped, and Liu Yan and Chen Jian quickly got out of the car. They were ready to fight. Liu Yan looked at the people opposite her coldly. "Ghastly face organization? You killed the patrol envoy of the inspection Office, do you really think that the night patrollers are useless?"

The organization that Zhou He was in was the ghost Face. It belonged to a superpower organization.

This time, the ghost Face organization had also sent a Martial Master.

"Leave Li Hao behind!"

Some of the people on the other side had a shrill voice. Perhaps to avoid being recognized, these people also wore Black Ghost masks. Their voices were not necessarily their original voices, which seemed a little distorted.

“Alright!”

Liu Yan’s quick reply stunned the people on the other side. In the next moment, Liu Yan pulled out the pistol on her waist and fired a series of shots.

“Let’s go!”

Liu Yan pulled out her gun and started shooting while pulling Li Hao along.

At this moment, she couldn’t afford to waste too much time with them. Besides ... She wasn’t their match.

The other party’s leader seemed to be a Martial Master with over 100 points!

A gun was probably useless against him.

As expected, a Martial Master wearing a ghost mask dodged the bullet and chased after Li Hao’s group like an eagle spreading its wings!

The others also used their own abilities and chased after him!

They only had one mission ... To not allow Li Hao to leave the city!

Of course, there was another point. Li Hao couldn’t be killed, but the others ... Were to be killed without question!

The leader of the ghastly face organization did not understand such an order, but the supers had their own plans and would not tell him everything, so he did not ask much. He only knew that he had three chances to draw energy into his body after successfully completing this mission.

The people above would provide him with enough mysterious energy. If he could not become a super after three tries ... He could only admit that he was unlucky. However, at least the chances were very high. A Martial Master with more than 100 martial masters, every time he drew energy into his body, the mysterious energy would come in hundreds of ways.

Even Liu Long, who had killed over 100 martial masters, found it difficult to become a super. It was even more difficult for someone like him, so he could only place his hopes on the people above.

.....

Li Hao panted heavily, barely maintaining his breathing technique. He adjusted his breathing, stabilized his pace, and escaped with Liu Yan and the others.

The muddy path had affected their speed.

In the dark, this was actually good for Li Hao and his team. At least, it would be difficult for the people behind them to catch up.

“Da da da!”

Behind him, a series of gunshots rang out. Li Hao couldn't help but want to curse.

Aren't these guys martial masters?

'You guys also use firearms ... Do you have any shame?'

"Clang clang clang!"

In the rear, Chen Jian's small shield had been hit by countless bullets. Chen Jian protected his vital parts and used his huge body to block Li Hao and the others. This way, Li Hao was saved from being killed by random shots.

Even so, if they continued chasing like this, they might not be able to leave the city.

Liu Long had yet to appear, so they still didn't know what the situation was like.

Wu Chao and Yun Yao went to receive her. Liu Yan was the strongest now, but she wasn't a 100-plus Martial Master. There were more than 100 martial masters chasing after her.

"Sister ..."

"Shut up!"

Liu Yan shouted in a low voice, not saying a word.

Now that he was fleeing, it was easy for him to be distracted while talking and disrupt his rhythm. Once he was caught, he would be in great trouble.

"Put me down ... They won't kill me now!"

Li Hao panted, but he still forced himself to say this.

He was afraid of death, but he knew that if this continued, he would be caught up to sooner or later.

The other party was only a Martial Master and did not see the red shadow. He should not be trying to kill him now.

There was still a chance!

His teacher didn't appear either, so it wasn't as if he didn't have any trump cards.

Liu Yan ignored him, her eyes filled with coldness and madness.

"Fatty!"

With a low shout, Chen Jian understood Liu Yan's meaning instantly without saying anything since he had worked with her many times.

In the next moment, Li Hao was shocked.

Liu Yan flung him away, while Chen Jian raised his shield and turned around to crash into the 100 martial masters who were about to catch up!

Liu Yan followed closely behind. With a loud bang, the fist of the Martial Master hit the shield and forced Chen Jian to retreat a few steps, but it did not hurt Chen Jian. At this time, Liu Yan's figure flashed like a ghost and stabbed the other party's fist!

Puchi!

The short knife streaked across, but it didn't hurt the opponent's vital parts. It only left a bloody mark on the opponent's fist.

The 100 martial masters wanted to punch Liu Yan to death again ... But suddenly, their arms went numb!

In the blink of an eye, a large amount of black substance appeared on his arm. This made the other party's expression under the mask change. He quickly retreated and slapped his right hand with his left hand. A large amount of blood gushed out from the wound, mixed with black blood.

"You used poison?"

The Martial Master was furious. Using poison was even more detestable than using a gun.

However, Liu Yan didn't pay any attention to him. After blocking his path for a moment, she instantly jumped up, grabbed Li Hao, and ran away again.

Li Hao was also shocked.

Liu Yan and Chen Jian were really bold.

At this time, he actually dared to fight back.

And he had succeeded!

As expected of a Martial Master who could kill superhumans. Li Hao couldn't even compare to his combat experience.

The pursuit continued!

At this moment, Li Hao no longer resisted. As Liu Yan pulled him away, he kept looking back. He was thinking about ... How to kill these guys!

He knew that he was weak, but he also knew that ... These people knew that he was weak, and they didn't dare to kill him!

This was an advantage!

"Sister, use me as a shield later!"

Li Hao only said one sentence, but Liu Yan didn't say anything. He didn't know if she had heard him.

Chen Jian had heard it. He only had one thought: Li Hao was also a madman.

You as a shield?

They vaguely understood what Li Hao meant, but ... What if they misjudged and the other party dared to kill them?

You're just a little chicken, can you really survive a hundred-hand attack?

At this moment, the three of them continued to run wildly. The three of them in the tenth realm were planning if they could counterattack and kill the Martial Master behind them. There were still many other people in the tenth realm following them from even further away.

The rain was getting heavier!

Chapter 138: Counterattack (1)

Li Hao was willing to act as a shield and counterattack, killing the hundred martial masters behind him.

However, Liu Yan didn't dare to take the risk.

This was different from the last time.

...

Previously, when they were dealing with Zhou He, it was everyone holding the line. Liu Long and the others were all there, so a mere ten slash realm could still be suppressed. They were not afraid of any accidents.

However, today ... Liu Long had yet to return.

Although Liu Yan was close to breaking through the 100-level barrier, she was still a little lacking. Moreover, the other party was not alone. Otherwise, they could still try to fight three against one. However, once they were entangled, there would be many martial masters behind them.

The rain made Liu Yan's long hair wet.

The usually flirtatious woman was now wearing clothes that stuck to her body, which further highlighted her enchanting figure. However, her eyes were no longer filled with her usual smile and teasing, but only tension and solemnness.

Li Hao didn't have the time to appreciate it. He was being pulled by Liu Yan. Originally, his speed couldn't compare to Liu Yan's. Now that he was being dragged, he was also very tired.

Counterattack!

Li Hao felt that he had to fight back.

At this moment, there were no supers.

If they did not fight back now, when the other party came, their teacher might make a move ... And if their teacher made a move, the supers might run away.

"I can't let this continue ..."

Even though he did not set any goals for himself, he had his own plans.

To attract all the people who wanted to kill him this time!

He couldn't die before these people gathered.

He would give his teacher the chance to attack and kill them all at once!

The earlier the teacher acted, the smaller the achievement.

Supers had many tricks up their sleeves. Once his teacher appeared and killed a few martial masters, the other supers would probably scatter like birds and beasts, running away in an instant.

Therefore, not only did they have to stall, but they also had to counterattack and let the other side continue to add oil.

This was what Li Hao was thinking!

It was also the reason why he was willing to take the risk and not stay in the Silver City's ancient Academy.

Otherwise, he could just hide there when his teacher entered the Qian dynasty. Why would he take the risk?

"Sister!"

Li Hao's voice was low and urgent. He had to fight back while he still had strength.

Otherwise, if they continued to chase, they might not even have the strength to fight with this speed and weather. Be it martial masters or superpowers, they were not invincible. Their mysterious energy and inner strength were limited.

This kind of high-intensity exercise consumed too much energy.

Of course, Li Hao still had some capital!

He activated the five birds breathing technique, and warm currents seeped out from the Jade sword in his arms. At this moment, Li Hao absorbed some of it, and the rest was absorbed by Liu Yan, who was holding him tightly.

Liu Yan, who was fleeing and unwilling to pay attention to Li Hao, suddenly felt her body stiffen.

He instantly reacted and continued to escape.

However, he was shocked!

Mysterious energy?

It wasn't!

She had thought that the supers had arrived and that they had been locked on or hacked, but that was not the case. The energy was coming from Li Hao's body, and it was not very strong, but very weak.

However, in this situation, the energy did not attack her. Instead, it was like a hot spring, heating up her body and restoring her strength.

What was this?

At this moment, Liu Yan's mind was a little muddled. She didn't have the time to think about what kind of power this was.

However, the muscles that were tensed up earlier were now more relaxed.

He had been running for more than three minutes.

Under such circumstances, running at full speed while carrying someone was extremely exhausting. But now ... He had recovered a little!

Liu Yan's face, which was covered in rainwater, revealed a strange expression.

While running, he glanced at Li Hao.

That power was still being transmitted to her, making her feel a long-lost warmth. Even some of the old injuries she had suffered from absorbing the mysterious energy seemed to be recovering.

There was something wrong with this kid!

No wonder he was being hunted down!

Liu Yan didn't say anything. She made a judgment in her mind. Her physical strength and inner strength were rapidly depleting. The 100-plus martial masters chasing after her were indeed stronger than her, but she was also the one closest to breaking 100.

His opponent's physical strength and inner strength were also being consumed!

Once he recovered and reached his peak, he might have a chance to defeat his opponent, who had just been injured by him and had been chasing him all the way!

"Fire!"

Liu Yan shouted in a low voice. At this moment, she directly grabbed Li Hao and carried him in her arms as if she was carrying a child. Then, she began to run away.

Li Hao was stunned.

He had only been pulled along earlier, but this time, Liu Yan had simply carried him up. He was a man ... How awkward!

Of course, at this juncture, he did not care.

With Liu Yan hugging him, Li Hao was free.

Taking out the vortex Mk III, Li Hao aimed at the ghost-faced Martial Master less than 50 meters behind him. He was the only one with a hundred points.

Bang! Bang!

A gunshot!

The Martial Master was indeed impressive. Even under such a high-speed pursuit, he was still able to quickly dodge the bullet. However, his speed was still affected, and his voice was a little cold."Li Hao, you can't escape! You have to understand that if this continues, you won't be the only one to die. Many more will die!"

Li Hao's expression didn't change. This time, he wasn't in a hurry to shoot. He put some distance between him and his opponent and continued to use the breathing technique of five birds while retaliating, "If I can't escape, you can't either! My teacher will take revenge for me. He can't kill a superhuman, but he can kill you, a hundred-year-old!"

"What a joke!"

Yuan Shuo!

The ghost-masked Martial Master in the back thought of this name.

Yuan Shuo!

If it was twenty years ago, no, three years ago, he would not have dared to provoke Yuan Shuo. However ... Yuan Shuo's era had passed.

Chapter 139: Counterattack (2)

The rise of superpowers, Martial Master ... Hehe!

He was a Martial Master himself, and a Martial Master with a cultivation base of over 100. He knew better than anyone that the martial masters had really declined.

A few years ago, more than 100 martial masters were still an existence that dominated a region.

...

However, in the past few years, there had been more and more nether moon level supers, so much so that there were even sunlit level supers. There was a large number of sunlit level supers in Silver Moon province.

This was an existence that was comparable to a thousand-man battle!

As for martial masters ... Silver Moon province didn't even have a single warrior of thousand dollars.

His martial Dao had completely declined.

An old antique like Yuan Shuo should be buried.

Li Hao was counting on Yuan Shuo to avenge him ... But Yuan Shuo had better take care of himself. The night patrolman couldn't protect him for a lifetime. He had countless enemies. It was said that after the night patrolman broke through to the glorious sun, he seemed to have made further progress in the past few years and surpassed the glorious sun!

In the past, the night patrolman did not care about a mere sunlight as he could protect Yuan Shuo. Now, an existence beyond the level of sunlight was coming to seek revenge. Would the night patrolman still protect him?

This thought flashed through the ghost-faced Martial master's mind.

Bang! Bang!

At that moment, a bullet flew past his ear and almost hit him.

The ghost-faced Martial Master instantly sobered up!

The face under the mask revealed a touch of anger, and his voice became even colder. "Li Hao, come here. I won't kill you, but do you want Liu Yan and Chen Jian to die with you? Do you know how many people from the Silver City will die if the demon-hunting squads are annihilated?"

"You don't understand at all. Silver City is too small. It's the weakest and smallest of the 32 cities in the Silvermoon province. It's an existence that can be abandoned. Many people have ideas about Silver City, and the night patrolmen don't have enough strength and effort to guard it ... As early as a few years ago, the night patrolmen suggested abandoning the small cities and moving the people to the big cities. They advocated a defensive strategy!"

"Liu Long doesn't want the Silver City to disappear in the long river of history. He is determined to defend the Silver City and fight against the supers with the power of over a hundred martial masters!"

"Liu Long once boasted in front of the night watchmen that as long as he lived, the Silver City would not be abandoned. If he died ... The Silver City might become a thing of the past. Countless people would abandon their families and businesses and leave their homes to seek survival in foreign lands!"

"Do you want Liu Long and the others to die with you?"

The ghost-faced Martial Master bellowed from behind.

It was as if he was worried about the Silver City's future.

Of course, this was also a fact.

A few years ago, the higher-ups had suggested to abandon the small cities and strengthen the big cities. The night patrollers did not have enough energy to defend the Silver City and could not split their forces to defend it against the supers.

However, Liu Long said that he alone was enough!

He would use the power of a Martial Master to resist the invasion of superpowers and prevent the Silver City from migrating.

Migration was easy to say.

Once they migrated, countless people would abandon their families and businesses and go to the big cities. Without savings and careers, they would leave their homes and live under someone else's roof. It was fine for the young, but how could the old and the children live?

The world was getting more and more chaotic.

More than half of the million people would probably live miserably.

As long as Liu Long was still alive, the powerful men in the superpower realm, sunlight, looked down on the Silver City. When Yue Ming attacked, she was killed by Liu Long, so the superpower realm had never set foot in the Silver City.

But what if Liu Long died?

Many supers had reached the heavens in a single bound, and at this moment, they were extremely thirsty for money, power, material things, and beautiful women. They did not dare to go to the big cities, so they would naturally come to the small cities to have fun.

Silver City, who knew how many eyes were watching!

.....

Li Hao, who was being hugged by Liu Yan, had a slight change in his expression.

Was it like this?

The higher-ups actually wanted to give up on a small city ... This meant that even the government would find it difficult to control the overall situation. They would have to abandon some places and build a large city to accommodate more people and be easier to defend.

Were the officials forced to defend?

He was at a disadvantage in the field of superpower?

However, the government still had an Army, a large number of them, and powerful firearms. It was said that they even had superweapons that could destroy cities. Under such circumstances, were they still forced to defend?

Li Hao found it unbelievable!

In his impression, the government was still extremely powerful. He had always felt that the night patrollers were unwilling to do more work because they felt that the Silver City was too small and were too lazy to come.

However, at this moment, he felt that it was a little different!

Abandon the Silver City!

It was no wonder that a few years ago, Silver Moon province had been trying to change its name to moonshine province, but it had never succeeded. Perhaps it was also due to Liu Long's efforts.

He was a Martial Master with over 100 points, so if he really came to white moon City, he would have a place.

However, he had been staying in Silver City.

"Justice ..."

Liu Long's usual hypocritical slogan rang in his ears.

To protect justice!

Exterminate the devil and defend the Dao!

Li Hao always felt that these words were false and self-comforting, but at this moment ... He had learned something from the enemy. Li Hao suddenly felt that perhaps ... Liu Long cared more about this slogan than he had imagined.

“Darkness can never defeat justice!”

Li Hao roared!

Behind them, the hundred martial masters were getting closer and closer, and their tone was cold. “You’re wrong, only the winner is justice! Only the loser would be the darkness! The martial masters had declined, while the supers had risen. Countless supers were ambitious! They were not willing to hide in the wilderness, not willing to walk in the dark! When a person’s strength exceeds the limit and is able to resist or destroy the government with Firearms and Explosives, they ... Want to replace them!”

“A Martial Master has to take one step at a time. That’s why the desire to become a Martial Master isn’t that strong, and you can also restrain yourself ... Superpower?”

At this moment, this Martial Master seemed to be somewhat disdainful and contemptuous.

Chapter 140: Counterattack (3)

Superpowers?

Rising to the top in a single step was unworthy of one’s virtue. Some 17-or 18-year-old youths suddenly became moon darkness or even sun glory. One person could fight against a thousand, and killing people was so simple and easy. With this sudden power, would superhumans be willing to advance step by step like martial masters?

No, they wanted to overthrow it!

...

They had to rebuild their own kingdom!

This was the current superpower realm and the current world.

The ghost-faced Martial Master was actually disdainful of supers who suddenly gained power, but reality was cruel. No matter how disdainful he was, he had to work for the supers!

So what if he was unwilling?

Unwilling to give up, they could only think of ways to integrate themselves into the ranks of supers. Even Yuan Shuo had failed, and the government did not provide enough support. They were even worse off, so they could only think of ways to seek refuge with the supernatural organizations in the wilderness.

The Martial Master didn’t say anything else after the chase.

Because he was about to catch up!

His previous words were only to make Li Hao hesitate and think. Perhaps Li Hao would come to his door himself?

This was not impossible!

According to the information he had obtained, Li Hao was a person who valued friendship. In order to avenge his classmate, he was even willing to drop out of the Silver City ancient Academy. If such a

person knew the significance of the demon hunting squad, would he still be willing to let them sacrifice for him?

“Li Hao!”

With one step, he got closer and closer to Li Hao. The ghost-faced Martial Master said coldly, “Do you want the entire Silver City to be buried because of you? If Liu Long doesn’t die and Yuan Shuo is still alive, the silver Blizzard city still has its value. If they die, who will defend the city from the supers?”

“When that time comes, you will be the sinner of the silver Blizzard city!”

Li Hao seemed to be struggling. He gritted his teeth, and his eyes turned red. He stared at the Martial Master with wide eyes. They were very close to each other. He held the vortex Mk III and wanted to shoot, but his fingers were trembling.

He gritted his teeth and rebuked, “compromising with the darkness will only bring about a greater disaster!” If you dare to kill me today ... Then tomorrow you will ...”

“Stupid, who would kill ordinary people for fun? Killing you is because you have the value to be killed! Li Hao, Liu Yan and the others have gone crazy. Don’t go crazy with them. You might not die, but if this stalemate continues, don’t even think about escaping when the supers come!”

“As a Martial Master, I respect the demon hunting squad. As long as they let you go ... I can let them go! Li Hao, this is the promise of a Martial Master with over 100 martial masters. You are the key. Their lives and deaths are in your hands!”

At this moment, Li Hao hesitated. He gritted his teeth and shouted in a muffled voice, “Put me down!”

“Shut up!”

Liu Yan angrily rebuked.

Li Hao struggled!

Behind them, Chen Jian’s face changed and he said angrily, “Don’t listen to his nonsense! Li Hao, don’t move and disrupt Captain Liu’s rhythm!”

Damn it!

Li Hao was usually calm and steady, but he had suddenly caused trouble for them today!

People would die!

Damn it. These students were simply not trustworthy. They would drop the ball at such a crucial moment. At this moment, Li Hao’s sudden movement made Liu Yan’s breathing a little unstable.

In the back, the ghost-masked Martial Master laughed.

As expected!

How could Li Hao, a person who valued friendship, not be moved after hearing him say so much?

He liked this kind of student!

If it was an old fox like Yuan Shuo, he would have probably spat on the floor. Why would he listen to him talk so much?

In front of him, Liu Yan's speed had slowed down because of Li Hao's struggle.

"Li Hao!"

Liu Yan growled in anger!

Li Hao continued to struggle, gritting his teeth. "Let me down and you can leave. I can die, but you can live! The silver Blizzard city needs you. In this world, darkness is coming, and we need you to light up a ray of light for the people of the silver Blizzard city! Let the silver Blizzard city's people see the future!"

"Even if the Silver City is really closed down and moved to another place, with you all here, the people of the Silver City will still have a backer and hope ... I can't let my selfishness kill everyone and let the Silver City never see the light again!"

The next moment, Li Hao started to struggle again!

"Bastard!"

Liu Yan's rhythm was a little messed up by his struggling, and even her breathing had changed. In the next moment, she had no choice but to put Li Hao down, no longer able to hold him.

In the back, the ghastly Martial Master really laughed.

It was stable!

At this moment, the distance between the two sides was less than ten meters.

Li Hao, you're so obedient!

He's still a child with a heart of justice ... If he had seen such a young man twenty years ago, he would have liked him very much and even considered taking him as a disciple. Such a young man should be taken in. When he was old, he would keep up his appearance and would not betray him. Martial masters really needed such people to grow old and die!

Unfortunately, superpowers had risen!

"You said that you could let sister Liu and the others go!"

Li Hao wanted to shake off Liu Yan's hand, unwilling to be dragged by her any longer. He communicated with the ghastly Martial Master almost face to face, showing a pleading look. "You're also a Martial Master, and there's a debtor for every grievance. If you want to kill me, go ahead! Don't change your mind!"

"Li Hao!"

Chen Jian was extremely furious. At this time, he had no choice but to grab Li Hao with one hand and push him forward!

Damn it!

What are you doing?

Do you expect the enemy to make a promise?

“Of course, I’m not crazy. Why would I kill them and make an enemy out of Liu Long and the night patrol? Killing you is a mission! “There’s no benefit in killing them. I’ll even offend the night patrolmen. Even if the night patrolmen are unable to take revenge now, my true identity has been discovered. I’m only over 100, and the night patrolmen can still deal with me. I don’t have the confidence to offend them!”

The ghost-faced Martial Master laughed.

This was right!

Moreover, what he said was true.
