

## Constellation 141

### Chapter 141: Counterattack (4)

If there was no need, why would he kill the members of the Demon Hunter squad?

Was he looking for trouble?

At this moment, Li Hao bit down and bit Chen Jian's arm. Chen Jian subconsciously let go, but Li Hao's other hand also broke free from Liu Yan's grasp.

...

He shook off the two and almost collided with Chen Jian. After narrowly avoiding Chen Jian, Li Hao Ran directly toward the ghost-faced Martial Master.

"Li Hao!"

Liu Yan stopped in her tracks instantly, and so did Chen Jian.

In the rain, Li Hao Ran toward the other party.

At this moment, Li Hao was calm and determined to die. He shouted, "I'll stay, you guys can go!"

The two sides were too close!

As soon as he finished speaking, the ghost-faced Martial Master was already facing Li Hao.

At this moment, the ghost-faced Martial Master was a little dazed.

This guy ... Really came to him!

He was afraid that he would kill Li Hao. He was over a hundred, and Li Hao was just an ordinary person. He hurriedly stopped, leaving a trail on the ground.

The next moment, he put a hand on Li Hao's shoulder.

A smile appeared on his face, which was hidden under the mask, but his eyes were exposed. At this moment, Li Hao could see joy and ecstasy in his eyes.

The mission was completed!

His hand was very light, as if Li Hao was porcelain. He was afraid of crushing Li Hao. A Martial Master over a hundred was still very powerful. If he squeezed hard, Li Hao's shoulder would probably be crushed.

However, this Martial Master was being very careful.

But Li Hao was different ... He seemed to lose his balance and charged forward, bumping into his opponent.

He didn't use much strength.

The strength of an ordinary person.

However, Li Hao, who had been practicing martial arts for three years, knew one thing. Even if a Martial master's strength had exceeded 100, it was easy for their rhythm to be disrupted when they went all out.

As long as the points were accurately inserted and the other party's breathing technique was disrupted, although it would be fine for a while, it would take some time for the other party to gather his strength again.

This was what Li Hao had learned after he killed Zhou He.

Under normal circumstances, a hundred martial masters wouldn't be so close to an enemy. However, the ghost-faced Martial Master was more on guard against Liu Yan and Chen Jian. He didn't care about Li Hao at all.

As he grabbed Li Hao, he looked at Liu Yan and the others warily.

The two of them might not be willing to leave just like that.

"Liu Yan, Chen Jian, you don't have to ..."

"Cough cough!"

After being bumped by Li Hao, he was just talking when he let out a breath.

At this moment, Liu Yan let out an angry roar. With a dagger in her hand, she twisted her body and pounced over with the tip of her foot. With anger and disappointment, she screamed, "Even if I kill Li Hao, I won't let you have your way!"

Her blade went straight for Li Hao!

The ghost-faced Martial Master was shocked. No!

Li Hao couldn't die now. If he died, not only would he not be able to complete the mission, but he would also be punished. It was clearly stated that Li Hao must not die before the blue Rain fell!

Not only was he responsible for capturing Li Hao, but he was also responsible for protecting Li Hao. At the very least, after he was captured, he had to ensure Li Hao's safety until he was handed over to the supers.

The ghost-faced Martial Master couldn't care less about Li Hao's collision. He grabbed Li Hao and retreated.

"Protect Li Hao!"

The ghost-faced Martial Master growled, grabbed Li Hao, and tried to throw him back. There were still many tenth realm martial masters behind him.

In order for them to protect Li Hao, he had to deal with these two lunatics first.

If the two of them insisted on killing Li Hao, he wouldn't be polite either!

At this moment, Li Hao, whom he didn't pay attention to, had a sharp glint in his eyes!

His hands were in the shape of claws, and his inner strength was surging. The moment the ghost-faced Martial Master lifted him up, the two of them were pressed against each other. Li Hao seemed to be a little afraid, and he subconsciously wrapped his hands around the ghost-faced Martial master's neck.

The ghost-faced Martial Master felt that something was wrong. If he couldn't get rid of her, she would drag him down.

'Why is this kid so timid at this time?

The next moment, he felt as if something had been torn apart. Li Hao's face was suddenly covered in blood!

At this moment, the power in Li Hao's hands erupted. With the strength of the tenth execution realm and the double-layered internal strength, his hands were like Tiger claws as he directly broke the opponent's throat!

It was too fast!

This was too unexpected. The ghost-faced Martial Master was much stronger than him, but he had been on guard against Liu Yan and the others. He had not suspected Li Hao at all.

But at this moment, Li Hao directly grabbed his throat and broke it!

There was no fear in his eyes, only indifference.

Pfft!

Blood spurting out crazily!

"You ..."

He didn't feel any pain, but he still had the strength to kill the guy in front of him.

He raised his hand and was about to punch Li Hao's head.

At this moment, another hand suddenly appeared from Li Hao's lower body. The moment the ghost-masked Martial Master attacked, Li Hao's third hand reached for his crotch!

As a man, this part ... Was really fragile. It was the same for a warrior with a hundred or a thousand moves!

"Crack!"

It was as if something had been crushed, the kind that was crushed.

At this moment, the intense pain surpassed everything else. The ghost-masked Martial Master had no strength to lift or drop his hand that he had just raised. He wanted to let out an earth-shaking scream!

However, his throat was broken!

"Oh ... Oh ..."

He screamed crazily as tears flowed down his face. Even the ghost mask could not stop the tears from falling.

It shattered!

It was crushed!

However, he couldn't shout. The pain had numbed his entire body, and his mind was blank. The young man in front of him was black and ruthless. He had torn his throat and crushed his younger brother!

#### **Chapter 142: counterattack\_5**

His body swayed, and in the next moment, he knelt down. His hands had no strength left, so they fell naturally to protect his crotch. Even though he knew it was useless, he still instinctively protected it.

With tears in his eyes, he struggled to raise his head, blood constantly spurting out of his throat. He stared at Li Hao.

He'd fallen!

...

At this moment, while Li Hao remained unmoved, Liu Yan had already charged at him from behind with her saber in hand. She pierced the ghostly Martial master's temple with one Swift and clean move.

Without stopping, he pulled out his knife and stabbed many times!

Her teary eyes lost their light at this moment.

He was dead!

If a Martial Master with over 100 martial masters were to fight with Liu Yan and the others face to face, there was a 99% chance that Liu Yan and the others would be the ones to die. However ... He still lost.

Li Hao killed him!

All of this had happened too quickly.

Li Hao, on the other hand, seemed to be panicking.

He had just come face to face with the ghost-masked Martial Master. At this moment, taking advantage of the ghost-masked Martial master's death, he kicked his leg and shot backward, shouting, "Catch me, protect me ..."

Behind them, the ten-realm martial masters had just received the order from the ghost-faced Martial Master to protect Li Hao.

Although the ghost-faced Martial Master had suddenly knelt down, they still hadn't recovered from the shock.

The person in the lead subconsciously reached out to catch Li Hao.

Protect Li Hao!

Li Hao landed on the ground and hugged his neck. He exclaimed, "Protect me!"

The man didn't have time to think. He suddenly felt a sharp pain, as if his neck had been snapped by Li Hao!

At this moment, Li Hao's inner strength burst out, and his arms were like iron hoops.

Kachaa!

With a crisp sound, he directly used his arms to bear hug his opponent and used bear fighting technique to break his opponent's neck!

He pulled out his gun with his right hand and shot directly at the head of a Martial Master who had cut off Ten Realms. Without any hesitation, he quickly carried the guy with one hand and shot at the other's head with the other.

The distance between the two was less than a meter!

He would be an idiot if he missed at such a close distance.

Bang! Bang!

The gunshot was unavoidable!

Blood splattered out of his head as the bullet directly blew off his opponent's skull!

In an instant, he had killed two martial masters of the tenth realm.

From behind, Liu Yan pounced over. Under the shocked gazes of the others, she stabbed a knife into a person's throat. She then pulled out another knife with her left hand and stabbed the other knife into the other person's heart!

He was killed in two strikes!

In the blink of an eye, one person who had broken through 100 and three tenth severing cultivators were killed by them!

"Be careful, he ..."

There were a total of nine martial masters in the ten decapitation realm, and they formed a team of ten with more than 100 martial masters.

However, all of a sudden, four of them had died, and even the strongest one had died.

As for the remaining six ten-realm Masters, some of them were extremely shocked, while others were so flustered that they didn't know what to do.

It was too fast!

At this moment, Li Hao fired again. The distance was too close, and he didn't want to pounce. It was still very dangerous. He would shoot first!

Bang! Bang!

Another shot hit another Martial Master. On the other side, Liu Yan brandished her two sabers and pounced at the fastest speed possible, cutting off another Martial master's arm with one strike.

Out of the remaining six people, two were instantly crippled.

Later on, Chen Jian had just arrived ... In fact, he was also confused, just like the martial masters.

He had just arrived when Li Hao suddenly roared, "Protect me!"

The next moment, under Chen Jian's stunned gaze, Li Hao suddenly took out seven or eight grenades from his bosom. He strung the pins together and pulled them off!

The grenade was thrown!

Li Hao turned around and ran!

Just as Liu Yan was about to lay her hands on the person who had his arm cut off, she saw a grenade falling from the corner of her eye. She cursed in her heart and quickly fled.

Seven or eight. She was only at the tenth realm, not the invincible Qian Douzi.

He was not a superhuman with special powers!

Martial masters were only mortals.

It would explode into pieces!

She didn't turn around to escape. Instead, she stepped on a Martial Master and flew out.

Bang! Bang!

With a loud explosion, three of the six martial masters were blown away and died without an intact body.

The remaining three were also blown to pieces.

Like Li Hao, Liu Yan was also sent flying by the aftershock.

Only Chen Jian, who was a little far away, reacted quickly. He dragged Li Hao away and used his shield to block the rocks that were flying at him.

Bang Bang Bang!

A series of striking sounds were heard as the shield was hit.

Chen Jian was still in a daze, but Li Hao turned around and ran back. He activated the ape art and agilely grabbed a guy who had not been blown to death yet and had been following him.

Exerting strength with both hands, Black Tiger Steals Heart, instantly ripping open the other party's chest!

His hands were stained with blood!

As he activated his inner strength, his beating heart was instantly shattered!

On the other side, Liu Yan also turned around and slit the throat of an escaping Martial Master without a word.

At this moment, only the last Martial Master was still alive, but his right leg had been blown off. If he was one step late, he would die a bit slower.

Chen Jian completely recovered at this time!

With a violent roar, he took advantage of the fact that Li Hao and the others were killing to pick up his shield and pounce forward. He smashed his shield down heavily, and with continuous violent roars, the enemy's head was smashed into pieces!

He was dead!

At this moment, it was quiet.

Li Hao and Liu Yan were covered in blood. The rain was getting heavier and heavier, washing away the blood on their bodies. The ground was covered in blood.

A cultivator in the [past one hundred] realm, nine in the [tenth severing] realm, a total of ten martial masters, were killed by three in the [tenth severing] realm, just like that, without understanding anything!

Liu Yan didn't come back to her senses. At this moment, she started to add more hits while constantly looking at Li Hao.

His gaze was a little strange!

He didn't know what it meant, but his eyes seemed to be filled with a different kind of passion and excitement.

Li Hao found this battle unbelievable!

### **Chapter 143: Blizzard Silver city's Inspection Division**

The rain was pouring.

Liu Yan stabbed them again and again, including the Martial Master who was kneeling on the ground. She was afraid that they would not die.

This was experience.

...

On the battlefield, there were many situations where one was killed instead of being killed. With the appearance of superpowers, those with special powers could even stop the heart from beating. Sometimes, when dealing with supers, one could not wait to burn them all into ashes.

The last hit ended.

Liu Yan wasn't injured. It was just that she had charged too quickly and was affected by the shockwaves, so she was scratched in some places. This wasn't considered an injury.

She looked at Li Hao, as if she had just met him.

In the previous battle with Zhou He, Li Hao had already displayed his cold-blooded and Black-bellied character. However, this time, they were at a disadvantage.

Under such circumstances, this guy who had just entered the tenth realm actually thought of counterattacking.

And ... He had succeeded!

If they didn't underestimate Li Hao, even if the three of them worked together, they would most likely be crushed by a Martial Master with more than 100 points.

Chen Jian was also confused at the moment. He was injured.

He had been defending from the back. These martial masters also had guns, so he had been shot. However, his skin was thick, so only his back and butt had been shot. Now, he pulled out the bullets, as if he didn't feel any pain, and looked at Li Hao.

The two of them were truly convinced this time!

Li Hao, on the other hand, fell into deep thought as he looked at the corpses.

"Do you have any more grenades?" he asked.

He had just thrown away everything he had brought.

"An ambush?"

Liu Yan shook her head. "As long as one is experienced, they wouldn't check the corpse rashly. We're all martial masters and have experience. I've underestimated you this time ..."

Li Hao smiled. He had wanted to say that he might be able to trick supers.

However, after thinking about it ... Supers might be more vigilant and have more abilities. The grenade would probably not kill them and would waste the opportunity.

"Then, should we bury it?"

If they could hide it for as long as they could, Li Hao's group would be much more important if their bodies were discovered.

Li Hao didn't need to say much about this.

By the time Liu Yan was done, she had already started throwing the corpse into the hole that had been created by the grenade.

Chen Jian was also helping.

It was obvious that this was not the first time these two had done this.

Li Hao went up to help. The three of them quickly threw the corpse in. Li Hao also found a short knife in the arms of the 100-man Martial Master. He realized that sometimes, fighting barehanded was a disadvantage.

With a small knife in hand, one look at Liu Yan and one would know that even a Martial master's throat was a mortal flesh and blood. She could still cut it open with one knife!

As for the other things, they didn't take them.

If he won, he would come back and look for it.

If he lost ... Then it would be a waste to take it.

There were a total of 10 martial masters. Although only one of them was over 100, these people must still have some good things on them. However, at this moment, they didn't have the mood to care.

The heavy rain was also very beneficial to them.

The blood was quickly washed away, and the footprints left behind also quickly disappeared.

After all the bodies were thrown into the pit, the pit was filled with water in a short time. If one was not careful, it would only be regarded as a small pool. They were almost in the suburbs, so it was normal for a small pool to appear here.

Liu Yan and Chen Jian were busy and did not speak.

In the darkness, with the help of the faint moonlight, they could barely see each other.

Even such heavy rain couldn't block out the waning moon in the sky.

It was exceptionally cold!

After packing up, Liu Yan stood up and waved her hand. Chen Jian quickly followed, and Li Hao also followed. The three of them continued to move forward on the muddy road.

"Let's go to the designated location, the warehouse at the foot of Mount Heaven King!" Liu Yan said as she walked.

"They knew we would bury the explosives ..."

Li Hao reminded him. He definitely knew.

One hundred percent!

Otherwise, they would not have stopped him from leaving the city.

"I'm fine!"

Liu Yan seemed to be willing to reveal something to Li Hao. Under the rain, her eyes were cold, but she smiled at Li Hao. "It's not that easy for them to see through our boss! However, you should know a thing or two. Just remember one thing. When we get there, we will have the capital to resist the supers!"

Resist superpowers?

Li Hao didn't understand, but he could tell that Liu Long had other arrangements.

The captain of the law enforcement team in the Silver City was more capable than he had imagined.

Although they didn't know where he was or if something had happened to him ... At least they didn't see his body, so no one would believe that he was dead.

"Hurry up! Before they could react, he had to rush over quickly! In their minds, these martial masters are enough to capture us!"

"Alright!"

The three of them ran quickly in the dark.

Chen Jian's speed was the slowest, slightly slower than Li Hao's.

After all, he had been shot, and his wound was still bleeding. After running for a while, Chen Jian whispered, "You guys go, I'll bring up the rear! Let's set up an ambush here first. If anyone comes after us, I'll kill them!"

His speed was too slow, even slower than Li Hao's. If this went on, he would even drag Liu Yan and Li Hao down.

It was better to stay and fight!

As for leaving ... He had no such plans.

The demon-hunting team's mission was not completed yet, so leaving was equivalent to deserting.

At this moment, Li Hao patted his head and reached out to grab him. A warm current flowed toward Chen Jian, causing him to be slightly startled.

"It's nothing. It's just a special inner strength that my teacher passed on to me!"

Chen Jian was puzzled, but he did not speak.

He also felt the benefits of this energy. In an instant, his wounds no longer hurt, and the large amount of inner strength he had used up earlier was also rapidly recovering.

#### **Chapter 144: Blizzard Silver city's Inspection Division (2)**

Li Hao had a secret.

Of course, he didn't care, and he didn't have the mood to care. At this moment, his face was a little red and he was a little excited.

In that case, he could continue to follow them!

...

His inner strength started to recover, and the wound stopped bleeding. He, who had been a little weak before, suddenly felt that he had strength.

In front, Liu Yan didn't say anything. She grabbed Li Hao, pulled his hand, and ran quickly. "Give me some, so I don't consume too much energy!"

Moving at such a high speed, she couldn't afford to consume her energy without replenishing it.

As for finding a car ... It was the middle of the night, and they were in the suburbs. Even if they could find one, it would be too big of a target.

Li Hao didn't say anything. He held Liu Yan's hand in one hand and fatty Chen Jian's in the other.

The three of them formed a line, with Li Hao in the middle. He was almost pulled apart by the two of them, and he was responsible for giving them some Starlight energy.

This was not the time to worry about such things.

If they were to fail this time, everyone would die.

If they won, they would be comrades who had gone through life and death together. It was just Starlight energy. They didn't care if they believed Li Hao's excuse.

At this moment, Li Hao was still thinking about something else. He suddenly said, "Is boss really unable to become a super, or is he not going to?"

"I can't advance!"

As Liu Yan ran with him, she also replied, "Who's stupid not to advance? Don't think too much! However, he had a chance to advance. He was not Yuan Shuo. The night patrolman was actually willing to give him many chances, but he had a request. After he advanced, he had to stay in the White moon City and be responsible for guarding it! Boss has advanced and is likely to become an existence at the level of a sunbringer. Also, boss has used up too much energy, so the night patrolmen need his help ... But boss is not willing, so he left the night patrolmen and returned here!"

"The province wants to shrink the defense area, including Silver City. A few cities will be banned and relocated. The night patrolmen mean that it is best to give some cities and population to other superpower organizations and acknowledge their rule!"

Li Hao was stunned.

Recognition?

What did that mean?

As Liu Yan ran, she explained in a low voice, "The superpower organizations nowadays are lawless. One of the reasons is that you don't know where their base is, how many people they have, or how strong they are!"

"Give them some cities, or even a province if necessary! Let them establish a nation! First, with the implications, they would be more cautious when dealing with ordinary people. Second, with a base camp, it would be easier to strike accurately! Third, once they establish a country, some powerful city-destroying weapons will be useful, unlike now, where superpowers can come and go freely ..."

Li Hao thought for a moment, and his eyes lit up.

According to what Liu Yan had said, it was indeed a good thing.

The superpower organizations were lawless because of their mysteriousness and freedom. Once a nation was established, they would be restricted.

“At that time, if you’re still so unscrupulous, you’ll be bombarded by cannons and city-destroying weapons ...”

The night patrolman had a good idea!

Just as Li Hao was thinking this, Liu Yan said, “This is the general trend and can’t be changed! The strategy is right, the plan is right, boss and I are actually powerless to resist, and we can’t resist ... Overall, this is beneficial to social stability and to stabilize these unstable factors!”

“But, Li Hao, you have to remember one thing ... Establishing a nation requires population. The current government is made up of ordinary people, so they care and are willing to protect them ... Do you think they care about the supers in the superpower organization? Did they know how to manage it? Therefore, the places that were abandoned, the places that were left behind, and the people that were left behind ... Actually, it also means that these people were abandoned!”

These people, living under the rule of the supernatural organization, what would happen to them?

No one knew!

Perhaps they would be very happy, or perhaps they would live like hell. The future was unknown, and it was actually very unfair to those who were left behind.

But ... What could he do?

Everything that Liu Long had done was to prevent Silver City from becoming the city that was left behind. Because Silver City was located at the edge of the province, its strategic position was not important. Moreover, the city was very small and the population was very small. Being abandoned ... Seemed to be a good deal.

Being able to contain some of the superpower organizations might have more advantages than disadvantages.

However, Liu Long was not willing to do so.

That was why he would rather come back and hunt for supers himself to slowly advance. Only then would he be able to protect the Silver City and not give up. Once it was given up, the entire Silver City would become the jurisdiction of the supers.

At that time, once a war broke out, the Silver City would be a deterrent for the government-controlled superpower organization. A city-destroying weapon might be used on the Silver City.

Li Hao still didn’t understand all this.

The silver Blizzard city’s higher-ups, such as the several investigators of the night patrol, were all very clear.

The formation of the demon hunting squad also had this factor.

Li Hao was still mulling over all this, while Liu Yan no longer spoke. The three of them were still very fast, but their movements were very small as they shuttled through the rainy night.

This place was still more than ten kilometers away from their agreed meeting point.

Even though they were all martial masters, it would take them some time to cover ten kilometers in such an environment.

.....

Silver City ancient Academy.

Yuan Shuo let out a breath and stood up. He walked to the door and looked out of the room. Suddenly, he said, "I wonder if my student is still alive!"

Hu Hao was silent.

Li Meng was as quick-witted as ever. "Maybe they're dead. Why don't we go out and take a look? I don't believe these people would dare to kill the night patrollers. If they're really dead, at least we can collect their bodies. Maybe the other party is weak, and we can take advantage of it and kill a few ..."

### **Chapter 145: Blizzard Silver city's Inspection Division (3)**

Her words were not pleasant to hear.

However, Yuan Shuo decided not to argue with her after hearing the last sentence.

This little girl didn't have much of a brain.

...

However, he still had a hot-blooded heart that had not been extinguished, and he was still willing to kill a few enemies ...

Perhaps, the night patrollers also needed a group of hot-blooded supers like this. They would not think too much or have too many concerns. They would just find an opportunity to kill a few and establish their might. This was actually not bad.

For example, Hu Hao was more thoughtful than Li Meng, so he didn't say anything because he had more scruples.

At this moment, Hu Hao heard a voice. He listened for a while and sighed. "Liu Long ... He's dying!"

Yuan Shuo looked at him.

The information system of the night patrolmen was not bad. Yuan Shuo might not know some things in the city, but the night patrolmen should know, because the inspection Office was under their jurisdiction.

"Liu Long gathered his old comrades and killed three Dark Moon supers! However, this time ... This superpower organization has sent even more people. There are even many supers chasing Liu Long now ... I'm afraid Liu Long can't hold on any longer!"

Hu Hao fell silent.

The captain of the law enforcement team of the inspection Office!

In fact, he was in the same system as Li Meng, but ... He had no other choice at the moment. There was only him and Li Meng here. If they stayed here, they could still protect themselves. If they went out, they would probably die!

Yuan Shuo was also silent.

Liu Long can't hold on any longer?

Should I ... Make a move now?

He took a deep breath and stepped forward. He didn't care anymore. Although that brat Liu Long was stupid, he had contributed a lot to the Silver City over the years. Although he felt that his efforts were in vain, he couldn't erase his contributions!

Liu Long, he had to protect himself!

.....

In the Urban area.

Liu Long was running.

Behind him, supers were chasing, and there was more than one.

A few Red Shadows invaded Liu Long's body again and again. At this moment, Liu Long's face was pale and he was already somewhat powerless.

Their blood boiled again and again, and each time, both sides suffered.

That invisible thing was even more difficult to deal with than supers.

'Damn it!'

What was this?

They couldn't be killed or annihilated. Even if the blood of more than 100 people boiled, they could only be expelled and not killed.

At this moment, Liu Long didn't think about anything else.

To the suburbs!

There might still be a chance there. If he couldn't make it ... He had to hold these people back first. Liu Yan's arrival would be a success.

With a body over 100, it was worth it to kill three Dark Moon superpowers.

Just as Liu Long was prepared to fight to the death, the ground in front of him trembled. Ghostface, who had escaped through the earth, had arrived in advance and blocked his path.

Liu Long's face turned cold.

He didn't care and just fought!

Just as he was prepared to fight to the death, a gunshot was suddenly heard!

This gunshot seemed to be a signal!

At that moment, countless gunshots were heard!

In the dark, on a tall building in the distance, a middle-aged man in an inspector's uniform looked down with a gun in his hand.

The middle-aged man was slightly chubby, and there were three small sword-shaped badges on his shoulder.

1-star Patrol officer, 2-star Patrol envoy, 3-star City Patrol envoy.

Li Hao was a 1-star Inspector.

Liu Yan and Liu Long were both two-star investigators.

In the Silver City, there was only one person who was a three-star City inspector, the head of the city, the Secretary of the inspection Division, and a true top figure.

At this moment, the Inspector General's Secretary arrived!

The Secretary who had told Liu Long to give up on Li Hao had arrived.

He stood on the tall building and fired the first shot.

At this moment, in the city, in the rain, the sound of uniform footsteps rang out.

That was an organized Army!

Inspection Office!

At this moment, with Liu Long at his wit's end, the Inspector General took action.

"The silver Blizzard city is an important place. Anyone who violates this will be killed without mercy!"

"The invigilators attacked the city, and we, the inspection Division, have no collateral against it. Elders of the Silver City, today, the Silver City is in chaos. All fellow villagers, shut your doors and windows tightly. All losses and the end of the chaos, report to the inspection Division!"

On the tall building, the inspector bureau chief shouted loudly!

In the next moment, ten thousand Spears were fired!

Below them, teams of elite patrol officers fired at those unbelievable powerhouses!

Some of them flew into the sky, some of them burrowed into the ground, some of them were on fire, and some of them flashed with lightning ...

However, we are the inspection Office!

Bang Bang Bang!

One gunshot after another broke the dead silence.

The Silver City would not sleep tonight!

In the sky, a ghost-faced superpower suddenly shouted, ""Silver city's Inspection Office! You're only mortals, yet you dare to attack a superpower. Do you want the Silver City to be destroyed today?"

At this moment, he was flying towards the tall building.

Catch that damn fatty!

This was crazy!

In a small city like the Silver City, the inspection Office actually dared to go all out. Under the barrage of thousands of guns, a superhuman was killed. They did not expect that at this moment, the Silver City's Inspection Office would dare to go all out.

This was a war of superpowers!

Although the inspection Office had firearms, once they reacted, the red shadow would kill them. Who knew how many ordinary inspection officers would die tonight!

Has the inspector gone crazy?

"Destroy us?"

On the tall building, the fat man laughed.

"What big words!"

The next moment, the fat man kicked off the ground and flew into the air. He suddenly pulled out a long knife from his back and shot out with the help of the force from his kick, slashing at the Super flying over!

"Remember me, the one who killed you is the silver Blizzard city's patrol inspector, si musen!"

This fat man was the boss of the inspection Division, the previous Secretary of the inspection Division. Many people knew that he was an expert and was known to be invulnerable.

However, very few people knew that the current Inspector General was also an expert.

#### **Chapter 146: Blizzard Silver city's Inspection Division**

At this moment, mu Sen rose into the air and slashed out!

The expression of the Super who was flying in the air changed slightly. He struck out with his palm, and a mysterious energy swept out. This palm had the power of a peak Dark Moon elite!

Yes, the supers of the fairies were very strong!

...

He was not weaker than Liu Long, and could even fly. The bloody scar on Liu Long's back was left by this person.

If not for Liu Long's familiarity with the terrain, he would have been killed by this person.

Fatty mu Sen, on the other hand, had no qualms. He slashed out with his blade. With a loud bang, his inner strength exploded and his bones and tendons rang. With one slash, he cut through the rain and directly caused the mysterious energy to explode!

At that moment, mu Sen roared, "kill!"

BOOM!

The next moment, a Cannonball rose into the air and exploded near fatty!

BOOM!

The Cannonball exploded, directly breaking the dark night of the Silver City. It reflected the void and illuminated the surroundings. The flying expert was also swept up by the aftermath of the Cannonball explosion. The mysterious energy directly dispersed, and he was slightly sluggish. He could not stand still in the air and fell.

"Bastard!"

This person roared in anger and looked at mu Sen, who was also falling from the sky. This person had attacked just to stop him. The Cannonball exploded and his body was unstable. He wanted to pull him to the ground to fight!

He forcefully stabilized his body, and the mysterious energy burst out again.

He wanted to tell him that he was thinking too much.

Superpowers were superpowers!

"Flying in the sky and burrowing underground is omnipotent. Martial masters can't compare to it. You can't stay in the air, but I can!"

At this moment, BOOM!

Whooshing sounds could be heard continuously!

Below them, a team of 100 people suddenly rushed out from various houses and opened fire.

It was an indiscriminate shot!

The bullets flew towards them. It was fine if there were only a few of them, but with a hundred people firing at the same time, even supers would not be able to easily dodge them. Furthermore, mu Sen, who had just landed, actually took the bullet head-on. Using the impact of the bullet, he did not fall down, but instead forcefully rose into the air again and slashed down!

"Come down, you!"

Mu Sen laughed coldly, "if you fly high, I'll break your balls!"

BOOM!

Superpowers and martial arts clashed again!

This time, the two of them couldn't stabilize themselves and fell down.

At this moment, the Ghostface apparition was a little frightened.

Once he landed on the ground, he might be shot into a sieve by the 100 people holding guns. Yue Ming's strength was only over 100, and this number did not include firearms. Even he would not be able to avoid being shot by 100 people holding guns!

"Mu Sen!"

The man shouted in anger. In the distance, his superhuman companion's cold voice reverberated. "Mu Sen, if you dare to kill him, Blizzard Silver City will be buried with you!"

BOOM!

The lightning exploded and the person in the distance directly destroyed a corner of a small building. The house began to crack and some people cried out in alarm.

Seeing that flying ghost Face might be killed, the man had no choice but to threaten the silver Blizzard city's civilians.

"Tell the inspector to leave. Otherwise ... We are all supers. If we hide and attack you, how will the Silver City deal with us?"

That person's voice sounded again.

Mu Sen looked at the airborne super who was about to land on the ground, then looked over there, and his eyes revealed a look of pain.

This was the tragedy of the inspection Office!

They had the strength and could fight, but ... Supers who were much stronger than ordinary people, once they escaped and hid in the dark, their weapons would be useless. When they killed ordinary people, it would be beyond imagination!

Such things had happened before.

Otherwise, the inspection Office would not have been so wary and afraid of forcing these supers to fight to the death!

The other party had no scruples!

But we ... Can 't!

Mu Sen sighed in his heart. He had no choice. Just as he had said to Liu Long, to protect one person or to protect the city ... Other people could be swayed by their emotions, but those in power could not.

Liu Long, I can only do this much!

"Leave the Silver City. Otherwise, we'll fight to the death!"

"Retreat!" Mu Sen roared, "if you don't retreat today, the entire Inspection Office will have 1200 guns and 30 cannons waiting to fight you to the death!" Get lost! If you want to fight, go out and fight! If one person dies in the Urban area, it's no different from ten or a hundred people dying ... Don't force us to fight to the death!"

“Secretary mu, we will naturally retreat!”

The man in the distance snorted, “we have no intention of dealing with you. Liu Long overestimated himself and killed three superhumans ... If we don’t kill him, it won’t be enough to appease our anger. I think Secretary mu doesn’t want to see this either!”

At this moment, Liu Long had already fled.

When the people from the inspection Office appeared, they fired randomly and turned that guy who had escaped through the earth into a sieve. He then ran away quickly.

He knew that mu Sen could not be too emotional.

After erupting once, he already had a higher opinion of this fatty. This was the Fatty’s limit. At this moment, Liu Long, who had fled far away, laughed and said, “Mu Sen, I’ll leave the city first. You defend the city well! Tonight, Liu Long thinks highly of you. We’ll meet again if we have the chance!”

As soon as he finished speaking, he jumped and ran quickly toward the northern suburbs.

Out of the 7 supers, one had been killed. The flying super was currently surrounded by 100 patrol officers. Some of them were still chasing Liu Long, while some were eyeing mu Sen.

Let go of that flying super!

Otherwise, they would not have retreated!

As for the death of one person ... This debt would be settled by the organization. They had not received the order to massacre the city today, so they were also very afraid and did not dare to rashly turn hostile. If they really caused a large-scale mobilization of the night patrols, it would be the result of both sides suffering losses.

Mu Sen landed heavily on the ground, causing water to splash.

He rubbed his butt and stood up. He looked at the flying super who had also fallen to the ground not far away, and his eyes flashed with killing intent. He wanted to kill this guy.

#### **Chapter 147: Blizzard Silver city’s Inspection Division**

If this fellow had not shot him down by surprise, he would have been extremely difficult to kill!

Now was the best chance.

Otherwise, Liu Long would not be able to escape from a flying super.

...

The ability to fly was too terrifying.

They could track, lock onto, track, and take refuge ...

Should I kill him?

If he killed them, what would he do if the supers started a massacre?

“Make way, let him go!”

At this moment, mu Sen still gave up.

Silver City ... He had to defend it!

As for the night patrol’s revenge, it was useless. If the Silver City suffered heavy losses tonight, it would be meaningless even if the night patrol really fought to the death with the other party.

The supers who were surrounded in the middle had a mocking expression under their grimacing faces.

A light laugh came out.

Just a moment ago, he had thought that he was dead for sure, but now ... As expected, mortals were mortals. They had too many fears, and in the end, they didn’t dare to kill him!

When this mission is over ... Just wait!

It wasn’t convenient to deal with this fatty today. After this matter was over and he captured Li Hao, he would settle the score with this fatty.

“Secretary!”

The surrounding patrol inspectors were furious!

Let him go?

This guy was too much of a threat. They had people secretly observing him tonight. The biggest threat to the law enforcement Captain, Liu Long, was him!

Now that they had finally managed to shoot him down, they were going to let him go just like that?

Although Liu Long had escaped, how far could he have gone?

With this person here, even if they escaped, they would be caught soon!

“Let him go!”

Mu Sen was a little irritated and angry. He knew that he was very angry, but he had no choice.

The few supers did not leave, and the guy who released the Thunderbolt was hiding somewhere. He was waiting to strike at any time to destroy some houses and kill some residents.

It would be difficult to catch them in the darkness.

At that time, the casualties would be too great, and he would not be able to disregard the Silver City’s citizens for the sake of Liu Long and the others.

“Secretary mu, goodbye!”

The flying super laughed and took to the air again!

So what if there were hundreds of Spears?

I’m not alone!

This was also the advantage of having a team. If he was alone, he would have been done for today. However, he had a team. Those people were helping him to deter the patrol office from touching him.

Just as the figure was about to fly into the air, a lightning-like figure suddenly rose into the air and punched out!

This punch was like thunder!

BOOM!

In the air, the man exploded into pieces, and his body fell to the ground!

“Ah!”

Someone screamed. It was the residents who were secretly peeking around.

In the air, the white-haired Yuan Shuo stomped on the ground and punched the flying super to death. Fresh blood spurted out of his mouth as he said coldly, “This old master isn’t afraid! It’s worth it for a person who’s about to die to kill an animal!”

As soon as he finished speaking, Yuan Shuo carried a long blade on his back and stepped on the surrounding tall buildings. He quickly shuttled through the rainy night and chased after Liu Long. His laughter resounded in the surroundings, “Liu family’s kid, this old man is here to save you! There aren’t many people over a hundred in Blizzard Silver city’s territory. If you dare to fight, this old man isn’t afraid!”

“Yuan Shuo!”

It was only at this moment that an angry roar came from the city.

The Thunder super was furious.

He did not expect Yuan Shuo to make a move at this moment!

Two of them died!

In addition to the three people from before, they had lost half of their men!

“Damn it!”

“Chase!”

The next moment, several figures quickly chased after Yuan Shuo. Each and every one of them was extremely angry. Yuan Shuo was about to die, but he actually dared to come out and fight at this moment. These Silver city’s martial artists were too bold!

In the distance, Hu Hao and Li Meng both had strange expressions.

So fast!

In the blink of an eye, Yuan Shuo had already flown away like a bird and killed Yue Ming with a single punch!

This ... Wasn’t the old man dying?

He didn't expect that he still had the strength to fight!

The next moment, their expressions changed. What should they do?

This is troublesome!

Call or not?

If they did not follow, Yuan Shuo would be dead and they would not be able to explain themselves. However, if they followed ... Would it cause a war between the night patrollers and the other party?

As the two of them were hesitating, mu Sen saw the two of them in the distance. He suddenly laughed coldly and said, "If you're not following us, why are you staying for supper? You don't dare to act rashly, but they do? If they really fought with the night patrollers, would they win? Idiot!"

The two of them blushed!

He was being scolded!

"Let's go!"

Hu Hao could also fly. He grabbed Li Meng and quickly flew away.

Just as mu Sen had said, they did not dare to make a move easily. Those people also did not dare to make a move on them easily. Otherwise, it would cause a war between the two major forces. No one could bear the responsibility.

"Secretary!"

An inspector looked at mu Sen with some anger. He just let those people go?

Although the fairy had been killed by Yuan Shuo, they were still indignant ... Since they were not the ones who had killed him!

Everyone was too indignant to watch those people chase after the captain of the law enforcement team!

"We have more people and more guns. The facts have proven that with more guns, those people ... Are not impossible to kill!"

Mu Sen waved his hand, his interest waning.

He looked into the distance, somewhat self-deprecatingly, and somewhat powerlessly walked towards the inspector's office.

No!

Liu Long, I'm afraid you're finished. I can feel an even more intense mysterious energy fluctuation. It might be an expert at the radiant sun realm!

"Fire the gun!"

As mu Sen walked, he shouted, ""Remember today's humiliation! Remember, superpowers do not enter the city. When they do, the men of Blizzard Silver City will fight a bloody battle and not allow you to be so arrogant!"

It was deterrence, but also helplessness.

He could only shout a few words to vent his depressed mood.

The inspector was feeling a little sad at this moment. He was the chief of a city, but he was forced by a few superpowers to not arrest the murderer ... How frustrating!

In the next moment, mu Sen walked to a Street with a long knife in his hand. He looked at the people being detained on the street. He was too lazy to say anything. With the long knife in his hand, he killed them one by one!

It was as if they could not hear the wails!

As if he couldn't see the blood spattering, he cut off more than ten heads in a row. His tone was extremely cold, ""If Liu Long doesn't care, I will! I can't kill supers today, but I can kill you traitors! Don't you know whose territory this is? how dare you sell your life to those guys on my territory!"

One by one, heads fell to the ground. Mu Sen finally vented his anger. The next moment, he looked into the distance, his eyes revealing a hint of helplessness.

Of course, he was also looking forward to it.

Had Wang Ming and the guy behind him gone?

He hoped that the night patrolman would put in more effort this time. If he did not rise up, he would soon be bullied.

The other party really had a sunbeams-level existence!

He didn't know if he could deal with it!

As for Liu Long ... I hope he's fine!

At this moment, this chubby and normally amiable director stepped over the corpses and wiped the blood off his feet. He looked extremely cold-blooded. As he walked, he shook his head. What was Yuan Shuo doing here?

The old man was about to die, but he had to get involved. After tonight's battle, even if he was not killed by the superpowers, he might not be able to live!

"When I step into the past, I will dare to change the sun and moon!"

Under the rainy night, the chubby mu Sen sang a little song as if everything that had just happened was over. His chubby face was full of carefreeness.

He walked to the Cathedral and waved his hand. A few people rushed in with all sorts of equipment to collect the mysterious energy from the dead.

"Brother Liu, I'll return it to you if you're alive. If you're dead ... It's mine. I need it too!"

Mu Sen sighed and laughed again.

If you die, I'll take it. When I become a superpower, I'll take revenge for you!

"You're not the only one in the silver Blizzard city, Liu Long. Don't think that you're so great. Without my secret support, where would you have so many weapons and ammunition? where would you have so many people who aren't afraid of death and have been joining your demon hunting squad?"

He turned his head and looked in the direction of the North City. Mu Sen was still smiling, but his eyes were cold and murderous.

These people, grimace, I'll remember them!

### **Chapter 148: Killing the red shadow (1)**

In the northern suburbs.

Li Hao's group of three ran extremely fast. They consumed a lot of energy, but they also recovered very quickly.

They had heard the gunshots in the city.

...

Liu Yan's footsteps slightly stopped. She turned her head to look at the Silver City behind her and revealed a smile that could be either mocking or sighing.

The inspector finally made his move.

In Silver City, the only person who had the power to mobilize so many people with guns as a deterrent was the fat man from the inspection Office.

"The boss is about to escape!"

Liu Yan quickly said.

That fatty had too many concerns. He might not act rashly, but at the very least, he could guarantee that Liu Long would not be killed in the city.

"Inspection Office?"

Li Hao also realized what was going on and was a little surprised.

The inspection Office intervened?

This was something he had not expected.

"Yes, it should be!"

Liu Yan continued to run. As she ran, she said in a low voice, "That fat guy from the inspection Office, our superior. Be careful. Don't be sold by him and still count his money. He's not a good person!"

Li Hao had met mu Sen before!

He had only been employed for a few days when mu Sen had personally come to see him and even praised him. He was a very kind person and had a good reputation in the inspector's office.

However, Li Hao did not expect that mu Sen, who was usually quiet, would dare to interfere in the matter of superpowers tonight.

"The Secretary is also a Martial Master? Or a superhuman?"

"Martial Master!"

Liu Yan quickly replied, "almost all supers are on night patrol. Those who stay at the inspection Office are ordinary people. Most of the secretaries are martial masters. There are also some who are not. They are purely ordinary people."

Li Hao didn't ask further.

This was not the time to ask.

The three of them continued to run.

A moment later, they crossed a piece of barren land and walked for another 1000 meters before they reached a large warehouse.

Further ahead, the shape of a mountain could be vaguely seen.

That was Mount Heaven King!

This was the location Liu Long had chosen. Li Hao didn't know why they had to gather here, but he could only choose to believe Liu Long.

They were almost there!

At this moment, Liu Yan suddenly squatted down in the wild grass.

Chen Jian also quickly squatted down. Li Hao, who was being pulled by the two, also squatted down.

There was no movement!

Li Hao looked around, but he didn't find anything.

However, he trusted Liu Yan's judgment, so he did not make a sound. He squatted in the grass that was as tall as a person. The rain continued to fall, suppressing the sound of them crushing the grass.

Just like that, after about 30 seconds, the sound of a gunshot was suddenly heard in the rainy night!

The heavy rain suppressed the sound of the gun, but the muffled sound could still be vaguely heard.

Liu Yan didn't say anything and only squatted even lower.

Chen Jian made a gesture to Li Hao, and Li Hao understood. The tall one ... Wu Chao!

It was Wu Chao and the others!

Wu Chao, yunyao, and the others had left to pick up their Captain and hadn't shown up yet. Li Hao was worried that something had happened to them, but it seemed that they were still alive. It was just that they seemed to have been followed.

Woof! Woof! Woof!

In the rainy night, a Black Dog kept barking, which Li Hao could vaguely hear.

Black Panther!

.....

At this moment, Wu Chao's face was deathly pale, and he was panting heavily.

At this moment, he could no longer carry yunyao or drag Heibao.

At this moment, the Black Panther still had some energy left. It kept growling in a low voice, as if it was trying to intimidate something.

Yun Yao's glasses had long been thrown away by her.

She could not see the red shadow!

However, she knew where the red shadow was. The direction of the Black Panther's cry was where the red shadow was.

Yunyao wasn't tall and was still carrying her first aid kit.

He took a look at Wu Chao. Wu Chao was injured!

There were supers following them!

However, most of them were led away by the captain. There were originally two supers following them. One of them left because of the incident in the city, but now there was another one who was still chasing them.

"You go to the gathering point ..."

The thin and weak Wu Chao's face was flushed red, and the raindrops that dripped from his head were mixed with wisps of red.

It was the color of blood!

His hand was injured, and it was not a light injury.

The superhuman behind him was moving at a similar speed to him. They were not actually close, but as they followed the red shadow, even with the Black Panther leading the way, they were invaded several times.

Wu Chao was not Liu Long. He could not use his inner strength to boil his blood and force the red shadow to retreat like Liu Long.

He had been burned from the inside by the red shadow, and even his head seemed to have been burned through.

Raindrops dripped down, taking away wisps of blood.

Yunyao didn't say anything. She quickly opened the first aid box, took out a small crystal ball, and stuffed it into his mouth. Wu Chao didn't say anything and swallowed it. The next moment, his face became even redder.

Not only that, but his qi and blood also began to boil. However, his skin was torn, and his blood was flowing even faster.

Yunyao quickly helped him treat his wound. A faint energy fluctuation overflowed from her hand and barely healed the wound. She said in a tired voice, "Let's go to the gathering point. You know the consequences!"

What consequences?

The consequences of swallowing the crystal ball!

Wu Chao laughed. His laugh was a little cold.

The consequences ... He naturally knew. This crystal ball was a poison, but it was also a good medicine. It stimulated one's potential, and after a long time, one would become useless.

But ... Who would care about this at this moment?

At this moment, Wu Chao seemed to have recovered to his peak. His strength and speed had returned. He grabbed Yunyao in one hand and the Black Panther in the other, and quickly ran towards the warehouse in the distance.

His speed had once again returned to its peak.

A moment later, a figure flashed past, his body exuding a faint blue light.

## **Chapter 149: Killing the red shadow (2)**

Wearing a ghost mask, the supers had caught up.

From the city to this place, he actually couldn't catch up with a ten decapitation realm ... Although that guy was only a little faster, it was beyond Grimace's expectations that he could escape for so long.

"That dog ..." He said.

...

Originally, he didn't care about the dog, but at this moment, the blue ghost mask was a little confused.

He felt that the dog might be special. It seemed to be able to see red Shadows that ordinary people couldn't see.

The red shadow chased after him many times and got close to him. In the end, he was dodged most of the time, and Wu Chao was injured once.

Logically speaking, the ten slash realm should not be able to avoid the red shadow.

Even Liu Long couldn't avoid it and could only take it head on!

However, that Black Dog ... Was really interesting.

"A Black Dog that's about to become a spirit?"

"Or is the Black Dog special?"

The blue ghost Face didn't understand either. The red shadow was special, and they didn't know much about it. Although he had one red shadow, it didn't mean he knew everything.

At this moment, a faint mysterious energy fluctuated from his body. The next moment, a red shadow quickly appeared and once again chased into the distance.

.....

In the wild grass.

Liu Yan didn't say a word. Even when Wu Chao and the others quickly ran past them, she didn't step forward.

At this moment, she seemed to have more confidence than before.

At this moment, she even held her breath.

Seeing her like this, Li Hao knew that Liu Yan wanted to ambush the supers who were chasing her.

The reason why he was sure that they were supers ... Was because Li Hao saw them!

Yes, it was too obvious in the rainy night.

In the darkness, a ray of moonlight-like light flickered in the distance. That was a mysterious energy, the Dark Moon realm!

No one else knew that Li Hao could see the mysterious energy.

"Superhuman!"

This time, it wasn't a Martial Master. The person chasing after Wu Chao's group was a super. Of course, there was only one super, and he was a Dark Moon realm.

An existence that was comparable to breaking a hundred was even more difficult to deal with.

Liu Yan wanted to launch a sneak attack on her opponent by slashing Ten Realms.

It would be very difficult!

Supers were more difficult to deal with than 100!

Clearly, Liu Yan's previous success had emboldened her. At this moment, Liu Yan suddenly turned around and looked at Li Hao with a gaze ...

Li Hao understood!

He was a little stiff. Sister, don't mess around.

Liu Yan had obviously overestimated Li Hao. She wanted Li Hao to imitate what he did just now and walk out to put on an act to see if he could trick his pursuers!

But ... It was different!

Because Li Hao also saw a touch of red in the darkness.

A red shadow!

This was the first time he saw a red shadow tonight, and it was the red shadow that brought much fear to Li Hao.

No one could see it!

Even Liu Long was unable to deal with the red shadow.

His teacher had also said that this was an existence on the spiritual level, and he could only deal with it when he reached the thousand-man level.

Li Hao subconsciously touched the Jade sword in his chest.

Perhaps only this sword could deal with the red shadow.

But even if they could deal with the red shadow, it had a superhuman with it. Liu Yan and the others were no match for a superhuman at the level of Yue Ming.

Seeing that Liu Yan was about to rush out ... Li Hao pulled her back tightly!

He couldn't move!

These supers, once the red shadow was around them, it was equivalent to having an extra pair of eyes, and it was the kind that could see 360 degrees.

The red shadow could fly in the sky, be invisible, and float in the air to observe the surroundings.

The few supers who were killed in the city were either killed because the red shadow was following Liu Long or because the red shadow was too far away and did not notice the ordinary people. Otherwise, it would have been very difficult to kill these supers with the red shadow as eyes.

At this moment, Li Hao had already seen the red shadow floating in the air. He did not dare to let Liu Yan rush out. If that happened, it would not be an ambush, but a suicide mission!

If she moved, the red shadow would definitely notice her!

Liu Yan tilted her head and looked at Li Hao. Li Hao gently pointed at the air. Liu Yan was stunned. She realized something and was a little shocked.

What did that mean?

Did Li Hao mean that the invisible spiritual-level existence was nearby?

However ... In their imagination, this kind of thing was very rare and there should only be one. At this moment, it should be following Liu Long in the city. How could it possibly appear here?

Liu Yan, who was in the tenth realm, couldn't sense his existence at all.

It was only now that Liu Yan felt the immense pressure.

There was more than one of those things!

If Li Hao hadn't told her, she would have charged out and ambushed him ... Before she could even get close, he would have discovered her and killed her!

Li Hao was also thinking of a solution.

Supers with Red Shadows around them were too difficult to deal with.

Supers were powerful to begin with, and they could not be ambushed. The Red Shadows were also lethal, so it was easier for supers to ambush them.

It was only because Liu Long did not play by the rules and directly launched a large-scale attack with hot weapons in the city. Otherwise, if they were to face each other, he would not have any hope at all. He quickly killed the three supers.

Li Hao raised his head and looked in the direction of the light source.

In his eyes, no matter how secretive the supers were, they were still light bulbs. He was not afraid of the supers attacking him at all. The main problem was the red shadow.

Whether it was through the earth or something else, Li Hao would be able to find them as long as he could see the mysterious energy.

While Li Hao and Liu Yan were thinking, the red shadow quickly passed by them. Li Hao didn't dare to move. He hid in the grass in a frighteningly quiet manner, letting the cold rain drench his body.

Soon, the light source with the moonlight also gradually arrived and left with the red shadow.

Only after they had disappeared did Li Hao let out a sigh of relief. "They went after big brother Wu and the others!"

### **Chapter 150: Killing the red shadow (3)**

Liu Yan's expression was grave. She turned to look at Li Hao and said in a low voice, "You stopped me because the thing you met last time is nearby?"

"En!"

Li Hao nodded. "I can sense its existence!"

...

He didn't say he could see it ... Actually, it didn't matter.

At this time, they were all the same.

Liu Yan didn't ask further and frowned. "Then what should we do? From the looks of it, Wu Chao must have swallowed a potential pill, which was made by yunyao and used the mysterious energy to stimulate his potential. However, it can't last for long, and Wu Chao will be completely crippled very soon!"

This place was still one to two thousand meters away from the warehouse. At this time, it was actually quite fast to arrive.

However, even if Wu Chao and the others arrived, they would not be able to prepare in time. That superhuman was too close.

If they were caught, the two of them would die.

At this moment, Li Hao tried not to think about his teacher. After thinking for a while, he asked, "Can the few of you deal with Yueming if you join forces?"

Without Liu Long, would the demon hunting squad be able to do it?

If he could, he could try to deal with the red shadow.

The Jade sword in his arms was his confidence!

Of course, he was not 100% sure.

"Difficult!"

Liu Yan continued, "but it's not impossible. The main thing is ... Your special inner strength!" I'm barely exhausted now, but this superhuman has been chasing me from the city all the way here. His mysterious power is not infinite, so he must have used up a lot of energy. Looking at Wu Chao, it seems like both sides are in a game. In this case, as long as he doesn't go too far in the dark Moon realm, he might have a chance!"

"My injuries are almost healed. As long as this guy doesn't have a special elemental attack, I can block it if it's a pure physical attack!" Chen Jian quickly added.

At this moment, the two of them looked at Li Hao, the newcomer.

It wasn't that Li Hao was powerful, but that he had some mysterious tricks up his sleeve. At this moment, the two of them were hoping that Li Hao would have a way to deal with the enemy.

Originally, they were here to protect Li Hao.

But now, the situation was reversed. They had to rely on Li Hao's special ability to survive in this dangerous situation.

"Sister, what methods do we have in the warehouse to deal with supers? We can't just run in and wait for death, can we?"

Li Hao still asked.

If going in was just waiting for death ... Then what was the point of going there?

As for burying explosives ... The supers were not stupid and could guess it.

Moreover, if it really exploded, everyone would die together. This was the last resort.

“Ice crystal barrier!”

Liu Yan directly announced the result, “In the warehouse, we used the ice crystals to create a special environment. The ice crystals can isolate the mysterious energy. You know that!”

Li Hao’s heart moved. He thought of the mysterious energy that had been isolated when he was absorbing it.

Ice crystal barrier?

Did it cover the warehouse?

But, wasn’t ice crystal very rare?

Where did so many ice crystals come from to be able to cover such a large warehouse?

Liu Yan quickly replied, “the area created isn’t big. It’s just a small area. It can isolate superpower damage there!” Without superpowers, superhumans were no better than martial masters! “Of course, the area is too small. It doesn’t cover the entire warehouse. We have to enter that area and think of a way to lure them in ...”

“Then why don’t you set it up in the city?”

Li Hao was still puzzled. He had come so far just for this?

“We’ll talk while we walk. I’m afraid Wu Chao can’t hold on any longer!” Liu Yan explained.

The three of them quickly got up and chased after him. As they ran, Liu Yan whispered, “It’s not convenient to use large-scale killing weapons in the city! In addition, the ice crystals in this place were very difficult to move back! The ice crystals here are not real ice crystals, but a special type of ice crystal created by a super we killed before he died ...”

Li Hao didn’t quite understand, but he knew that he could only set up an ambush here.

Liu Long wanted to have a final battle here because he wanted to use the mysterious isolation to deal with the supers.

“Why don’t you make something like ice crystal armor?”

Li Hao asked. If ice crystals could block mysterious energy, the damage of supers would be greatly reduced.

“I can’t make it! The ice crystals are not solid at all, it’s just that the material is special. But if you make it into an armor, let’s not talk about whether you can make it or not. Even if you can, the opponent doesn’t need to use his powers. Just a little movement can break that thing ... It can only be used in certain fixed places, otherwise you can break the ice crystals while you move!”

Li Hao understood and stopped asking.

The three of them continued to run.

At this moment, the warehouse in front could be vaguely seen.

Outside the warehouse, Wu Chao's cold and ghostly voice rang out in the rain, "Grandson, you still dare to follow us? There are countless explosives buried in this place. If you dare to come in, I'll detonate the bomb and die with you!"

Outside the warehouse.

Wu Chao and the others had already stepped into the open warehouse. They were panting non-stop. Wu Chao's seven apertures were bleeding. The effects of the medicine were about to wear off.

Outside the warehouse, the dark blue super kept the rain out.

He did not go in. He knew that there might really be a large number of explosives buried here, but ... These martial artists had underestimated the supers and their own organization.

At this moment, the red shadow was heading towards the warehouse.

Explosives?

What a joke!

Can you kill the red shadow?

Woof! Woof! Woof!

Heibao started to warn them nervously. The red shadow was here!

Wu Chao and yunyao didn't have any means to deal with the red shadow. At this moment, even if the superhuman didn't come in, once the red shadow barged in, no explosives would be able to do anything. They would only blow themselves up!
