

## Constellation 151

### Chapter 151: Killing the red shadow (4)

"This has nothing to do with you, but you have to meddle in it!"

Outside the warehouse, the blue ghost mask said coldly.

Then he looked at Yun Yao. "How many crystal beads do you have?" Show me all of them!"

...

Previously, it was yunyao who had used that to blow up the red shadow.

This was also a rare thing that could hurt the red shadow, but he was sure that yunyao didn't have many of them. What she used before might have been all of them.

That thing was related to the mysterious energy, so it was impossible for the demon-hunting team to have too many of them.

In the warehouse, yunyao's expression was the same as usual. She took out a Crystal Pearl and, without saying anything, threw it in the direction of the Black Panther's howling.

Bang! Bang!

With a loud bang, the crystal Pearl exploded.

Yunyao couldn't see the result, she couldn't see the result, but the Black Panther's cry was a little softer. Obviously, the red shadow was still forced back.

However, yunyao herself knew that ... This was only the beginning.

She did not have many of those things left. She still had three on her. However, these invisible things could not be blown to death and were even more difficult to deal with than supers.

"Where's Li Hao?"

Outside, the superhuman was not in a hurry. These people were stuck here and could not escape!

He was even more confused. Where was Li Hao and his gang?

The martial masters of the ghastly face organization were also missing. Could something have happened?

Martial masters ... Were indeed useless.

There were a total of 10 martial masters, and one of them had broken through the 100th level. They had only gone to capture two tenth realm experts and an ordinary person, and they had still failed?

At this moment, his eyes moved slightly.

He turned his head and looked behind him.

This time, Li Hao and the other two appeared. They did not seem to sense the red shadow's presence, and they seemed to have barged in unintentionally. Seeing the grimace, Li Hao's expression changed, and Liu Yan's expression turned grave.

"They're all here!"

The superhuman suddenly laughed, "Liu Long is quite capable. He seems to be still alive!" You guys aren't bad either ... Where are the cloud ghosts and the others?"

Obviously, he was asking about the martial masters.

Liu Yan, Chen Jian, and the others didn't look like they had experienced a great battle.

He could tell at a glance that none of them seemed to be injured. Liu Yan's inner strength was surging. Under such circumstances, it was obviously impossible for her to have experienced a fierce battle. Where did the martial masters of the ghost Face organization go?

After all, there was a Martial Master who had broken through 100 realms and nine people in the tenth realm. They couldn't have gotten lost, right?

Of course, it was hard to say.

The rain was so heavy, and it was night time. If they really got lost ... That would be laughable!

At this moment, Li Hao was a little nervous, because as they arrived, he saw a red shadow flying towards him. In the warehouse, the Black Panther cried out a few times. Yun Yao was a little anxious. "Be careful, there's a ghost approaching you!"

Wu Chao's face was also covered in blood as he roared anxiously, "That thing is invisible and has no substance. You can't feel it or see it. Once it enters the body, the five internal organs will be burned!"

This is troublesome!

Liu Yan held her twin blades and stood in front of Li Hao. She looked at the superhuman warily and said coldly, "No matter how mysterious it is, it is still controlled by humans! If I kill you, I think that thing will also disappear!"

With that, Liu Yan let out a low growl and stomped on the ground. With incomparable speed, she charged towards her opponent with her two blades!

Chen Jian held his shield and also charged forward fiercely!

He had no choice!

According to Li Hao, sneak attacks were useless at this time. The best way was to pin down the superhuman while Li Hao thought of a way to kill the red shadow ...

If the red shadow was killed, the superhuman would lose his greatest protection.

Only then would there be hope of killing this super.

The moment Liu Yan charged forward, the red shadow also charged toward her.

At this moment, Li Hao suddenly turned around and ran. "You guys block them, I'll go get help!"

He ran away!

The supers had originally wanted to deal with these guys who had killed a level 10 demon-hunting team, but seeing that Li Hao had run away, they were a little annoyed.

The target of their mission this time was Li Hao!

He could choose not to kill the members of the demon hunting squad, but Li Hao ... Could not run!

The red shadow quickly chased after Li Hao!

An ordinary person couldn't escape the red shadow's pursuit. However, he couldn't kill Li Hao now. He gave the red shadow an order to keep Li Hao busy and control him.

What he was most worried about was that Li Hao might accidentally lose himself or kill himself. That would be a big problem.

Woof! Woof! Woof!

At this moment, the Black Panther suddenly rushed out and chased after the red shadow.

Wu Chao and Yun Yao also wanted to go over, but they didn't have the chance. This Dark Moon realm super coldly snorted, and countless raindrops in the air instantly turned into sword-like killing weapons, shooting toward the few people!

Water control!

Bang Bang Bang!

Chen Jian's shield was instantly pockmarked by countless raindrops. It was extremely lethal. If it was his physical body, there would be many bloody holes left.

"Let's attack together!"

Liu Yan shouted angrily and stabbed with her knife. "Ignore Li Hao for now. These guys won't kill him now. They're waiting for an opportunity!"

"Smart!"

The superhuman who was surrounded by the crowd laughed and did not mind.

So what if he had guessed it?

With a wave of his hand, a water shield formed in front of him. Liu Yan's blade only managed to pierce through the water shield. Her power had been exhausted, and she was unable to get close to him.

"The era of martial masters is over!"

The superhuman chuckled and waved his hand again. His mysterious power erupted. The rain tonight was also his battlefield!

Here, he could display even more strength.

Water arrows shot out in all directions!

Chen Jian roared and blocked the attack with his shield. The demon hunting team's cooperation was not bad. Wu Chao also endured the intense pain in his internal organs and, like a ghost, he quickly circled around the other party with a small black sword in his hand, looking for an opportunity to kill!

### **Chapter 152: Killing the red shadow (5)**

Four martial masters of the ten execution realm working together to deal with a Dark Moon realm super, but they were instantly at a disadvantage.

However, the four of them had a tacit understanding, and Chen Jian was blocking in front of them. The other party's water arrows were powerful, but they did not show the special nature of flames. Chen Jian could barely hold on for a while.

At this moment, Liu Yan's combat strength was also fully unleashed. She lashed out with her long legs, shattering the water shield and quickly stabbing it with her two blades!

...

The five of them were engaged in a battle!

.....

In the distance.

Li Hao ran like crazy, but the red shadow was very fast. In the blink of an eye, it caught up with Li Hao.

Behind him, the Black Panther also rushed over, barking madly.

It was barking at the red shadow!

Li Hao stopped at this moment. He looked around, then at the Black Panther chasing after him. He felt helpless. What are you shouting for? I can see you!

The point is, it's useless even if you scream, you can't hurt the red shadow.

He held the Jade sword in front of his chest with one hand and was somewhat nervous.

Li Hao didn't know if it would work. If the Jade sword couldn't kill the red shadow ... Then he could only wait for his teacher to come and save him.

The red shadow did not seem to have any consciousness and could only receive instructions.

Seeing that Li Hao had stopped, the red shadow quickly approached him.

Li Hao's hair stood on end!

He did not Dodge. The red shadow might be the most difficult thing to deal with this time, even more so than the supers.

If he didn't kill the red shadow, he might really be in trouble this time.

Woof! Woof! Woof!

The Black Panther started to bark again.

Li Hao couldn't care about the Black Panther anymore. He took off the Jade sword from the chain, clenched it with two fingers, and pointed the tip of the sword at the red shadow.

Whether or not he could kill the red shadow ... It all depended on this!

This thing had burned his good friend to death. Although he didn't know if it was the same person, all Red Shadows should be killed!

The moment the red shadow got close to him, Li Hao gritted his teeth and stabbed it with his sword!

"....."

The red shadow did not seem to be hurt at all. It was useless.

Li Hao was shocked!

Useless?

That's impossible!

The Jade sword seemed to have made a move on him the previous few times, so how could it be useless?

However, that was the truth. The sword pierced through the red shadow, but it had no effect at all.

"No... It's still sealed?" he thought.

"The bloodline ... Is unsealed?"

He thought of what his teacher had said that day. The Jade sword should have been sealed. If he wanted to unseal it, he could either stab his heart and take his heart blood, or his blood would boil. If he reached a certain level, he might be able to unseal the Jade sword.

At this moment, Li Hao's blood boiled!

He was only at the tenth realm. Even if he was boiling, he was far from being able to force the red shadow back like Liu Long.

But the moment his blood boiled, Li Hao seemed to feel something special. The Jade sword in his hand seemed to tremble slightly.

"Kill!"

With a muffled roar, Li Hao stabbed out with his sword again!

This time, he had a feeling!

The red shadow had just gotten close to Li Hao's chest when it was pierced by the sword. A sizzling sound instantly rang out, and red blood smoke began to rise.

At this moment, the red shadow seemed to have turned from invisible to something tangible.

Because Li Hao could see the red shadow, he didn't know if it had revealed itself!

However, he felt that the red shadow seemed to be much clearer than before.

At this moment, the Black Panther suddenly waved its paws and pounced on the red shadow. The sharp claws quickly grabbed the red shadow!

With a pfft sound, he actually managed to scratch a crack in the red shadow.

The Black Panther dog's eyes seemed to be filled with joy.

Can I?

Li Hao, on the other hand, held the sword with two fingers and stabbed out again with his inner strength!

Puchi!

The sword stabbed into the red shadow, and the red shadow's body once again emitted blood smoke. At this moment, the red shadow seemed to feel the danger and began to escape. Behind it, the Black Panther waved its paw again and hit the red shadow back.

The next moment, Li Hao suddenly put away his sword and threw a punch. This time, he really hit the red shadow!

The red shadow had revealed itself!

The small sword actually made the red shadow show its physical form. The red shadow didn't seem too strong, but it was very difficult to kill. However, Li Hao and the Black Panther's attacks could cause damage. Each time they attacked, wisps of blood smoke would appear!

"So ... That's all you've got?"

Li Hao suddenly laughed.

I was scared for a year, and my relationship ... Is that all?

So weak?

I thought you were so good, but this is all the red shadow can do?

The level of the tenth realm was just too mysterious. Ordinary people couldn't see it and couldn't deal with it. No wonder these people couldn't kill Liu Long even with the red shadow!

"Go to hell!"

Li Hao attacked crazily. A knife appeared in his hand. He had just pulled it out from the Martial master's body. He slashed at the red shadow again and again. The red shadow, which was originally about the size of a human body, was quickly torn into pieces by him and the Black Panther.

However, the red smoke seemed to be slowly gathering again.

Li Hao frowned. Was it really immortal?

He couldn't even be killed like this?

What the hell was this thing?

The small sword didn't seem to have been completely unsealed. After breaking the other party's invisibility, it didn't seem to be of any use anymore. Could it be that he really couldn't kill this thing?

At this moment, a faint wisp of blood-red smoke landed on Li Hao's hand.

Li Hao had been using the breathing technique of five birds the whole time, and the Jade sword could be used in his body. The moment the red blood smoke fell on his hand, it was suddenly absorbed into Li Hao's body.

At the same time, in his body, the Jade sword energy and the blood smoke mixed together, suddenly forming a special energy.

This energy was extremely special. It didn't strengthen his body or his internal organs ... This blood-colored energy suddenly fused with his blood. After the blood transfusion, Li Hao felt that his blood contained energy.

And at this moment, the blood energy entered, immediately making the blood boil again!

"What?"

Li Hao was stunned. This ... The red shadow was also a special energy?

He could feel the power of his blood!

In an instant, his eyes turned red!

A Martial Master strengthened his bones and muscles, strengthened his inner strength, changed his blood, and trained his skin and flesh ...

Blood was actually the hardest to strengthen.

This thing was energy?

It could also be neutralized by the Jade sword, forming a special energy for him to absorb?

Heavens!

Li Hao's eyes were filled with wild joy. He had been having a headache about how to deal with this thing. It seemed like it couldn't be killed, but ... If he absorbed all this energy, he would see how it could resurrect!

The breathing technique of five birds was fully activated!

Li Hao grabbed the red shadow and started to suck it!

I will suck you to death!

Bang Bang Bang!

The bloody shadow struggled violently, as if it had sensed danger. At this moment, wisps of red smoke drifted from the human-like bloody shadow toward Li Hao!

Li Hao's blood began to boil violently!

The last time he strengthened his spleen, he had such an experience. However, the energy absorbed that time was too little, so the effect of the blood transfusion was not too obvious.

However, this time, the red shadow had plenty of energy.

All the pores on Li Hao's body were bleeding!

However, new blood kept flowing out. He could clearly feel the blood spurting out of his body like lava. Li Hao suddenly felt that his whole body was full of strength!

"Absorb!"

Li Hao was ecstatic. At this moment, he suddenly felt that the red shadow might be the key to his strength!

Up until now, he had not even absorbed one-tenth of a red shadow, and he already felt that he had become stronger. What if he absorbed the entire red shadow?

This time ... How many had come?

At this moment, he couldn't wait for dozens of Red Shadows to come ..."Bring them all over, I'll let you all absorb them!"

Thump thump thump!

His heart beat violently, and his blood flowed like water, madly surging in his body. At this moment, Li Hao felt powerful. However, his bones and skin seemed to be not strong enough, and he felt as if his blood vessels were about to burst.

On the side, the Black Panther shouldn't have been able to absorb it, but it seemed to know that Li Hao had benefited from it.

Seeing the blood on Li Hao's body ... The Black Panther suddenly stuck out its tongue to lick Li Hao.

He might be able to get some benefits by licking it.

The man and the dog were both excited. The Black Panther licked Li Hao a few times and found that it really did work, so it licked him even more crazily.

As for the red shadow, as it struggled, blood-colored smoke continued to spread, and its body became smaller and smaller!

From the size of a human, it gradually became the size of a human head. Li Hao, on the other hand, had already absorbed so much that he felt like he was floating.

Good stuff!

The feeling was no worse than the mysterious energy. In fact, it was even better. It was as if he had absorbed several hundred cubic meters of mysterious energy at once, and there was no sharp pain!

Li Hao swung his fist again, shattering the last red shadow.

This time, he could clearly feel the strength of the power.

“I ... Improved?”

Li Hao was somewhat happy. Even if he hadn't broken through 100, he felt that he might be able to kill 30 or 40 people now. He felt much stronger than before.

The next moment, Li Hao quickly ran back.

The red shadow was completely gone.

He didn't know if that superhuman could sense it ... But it didn't matter, he would go back and take a look first. Black Panther seemed to have the power of the tenth severing realm, and with him, six tenth severing realm cultivators might be able to kill that guy!

### **Chapter 153: Sunlight (1)**

After absorbing the power of the red shadow, Li Hao felt that he was really improving.

It was quite obvious.

Compared to absorbing the mysterious energy, the improvement was more obvious.

...

At this moment, Li Hao was very excited. He ran back with the Black Panther, wondering if there would be more Red Shadows coming.

.....

At the same time.

The superhuman who had just condensed countless water arrows was about to break through Chen Jian's defense in one fell swoop and kill the annoying fatty.

Suddenly, the condensed water arrow dispersed with a bang.

The Water-type super suddenly spat out a mouthful of blood and was a little dazed.

Yes, at a loss.

A mysterious backlash!

What did he do?

In this rainy day, this was his home field. He had not exhausted his mysterious energy to the extreme, so how could he suddenly counterattack?

The next moment, he came to a sudden realization.

The red shadow ... Was gone!

It was unbelievable!

Dumbfounded!

This super was a little dazed at this moment, as if he couldn't understand.

Because ... Nothing like this had ever happened before.

The red shadow did not belong to him. It was distributed by the organization. Back then, the experts of the organization had distributed it to them. They had once said that the red shadow would not die. It was an undying existence!

As long as there was a little left, it would not be destroyed and would be reborn again.

Therefore, there was no such thing as a backlash.

Supers like them and the red shadow were mutually beneficial. They used mystery to maintain the existence of the red shadow, and the red shadow could help them do many things that they could not.

Surveillance, tracking, and assassination. The red shadow was the most powerful and mysterious existence in the organization!

Even at the radiant sun realm, it would be difficult to kill the red shadow.

They might be able to sense a thing or two, but to kill the red shadow ... And completely annihilate it, was almost impossible.

When the red shadow was only left with a little bit of power and was completely scattered, even Dou Qian and Riyao could not sense the tiny power. Therefore, the red shadow had been successful in every endeavor over the years!

No one had thought that the red shadow would die.

Even if the supers died, the red shadow would not die. It would just lose contact with them, and the organization would send someone to retrieve it. This time, a few supers had died in battle, so their red shadow was now in standby mode.

Without a commander, the others would not be able to discover it. As long as the red shadow did not move, thousand of fighters and sunlight would not be able to discover it. Therefore, the organization would find a time to send someone to retrieve it.

"That's impossible ..."

He could not understand.

Under normal circumstances, the mentality of supers was not as good as that of martial masters.

Most supers achieved their goals overnight and did not have the tenacity of a Martial Master. It was easy to fight when things were going well, but once they encountered something incomprehensible, they would often have mental problems.

At this moment, the water elemental was at a loss.

In the battle, he had first suffered a backlash, and then his mind had wandered ...

Among the members of the demon hunting squad, which one of them wasn't a Martial Master with rich combat experience?

This was especially so for Liu Yan, who usually seemed out of tune, but at this moment, she was also a first-class fighter.

Almost at the same time when the water arrows dissipated, Liu Yan seized the opportunity and stabbed out with her Black Dagger!

It was silent!

Chen Jian also raised his shield and followed. Behind him, Wu Chao, who had been vomiting blood for a long time, had a bright look in his eyes at this moment. He perked up and quickly circled around the other party to divert his attention.

Doctor Yun Yao also silently took out a few crystal balls and threw them at the water power.

BOOM!

At this moment, the crystal ball exploded and mysterious energy engulfed the area, making the Water-type Esper feel uncomfortable. Before he could retaliate, Liu Yan's dagger slashed out. The Water-type Esper subconsciously raised his hand to form a water shield but it was too late!

Puchi!

The dagger pierced into the other party's chest!

At this moment, he was completely awake.

The water element could not care less about what happened to the red shadow or why he suffered from the backlash!

After all, he was at the level of Yue Ming. The stab did not kill him. Supers were beyond ordinary people and were not so easy to kill. The mystery in his body helped him block the attack. Although he was injured, he was still alive!

He growled and a water shield appeared again to protect himself. At the same time, countless water arrows burst out in all directions!

Liu Yan and the others retreated one after another, and Chen Jian once again stepped forward.

Kachaa!

This time, his small shield finally couldn't hold on any longer. In the blink of an eye, it was completely penetrated by the water arrow and shattered!

The sound of water splashing was endless, and countless water arrows pierced into Chen Jian's body.

Chen Jian's face was pale, and blood was flowing out of his body. There were many bloody holes on his face. One of the bloody holes was right next to his eye, which almost shattered it.

The expressions of Liu Yan and the others, who had retreated, were grave.

Yue Ming!

It was comparable to breaking 100, no, it was an existence that was even better than breaking 100.

When she had killed a Martial Master who had broken through 100, everyone had been very excited. She had felt that she was about to break through 100. However, when she had really fought with all her strength, and without Liu Long's main attack, she finally understood how terrifying Yue Ming was.

Even with the few of them working together, the other party seemed to have a problem and was distracted. It was obvious that he was lacking in combat experience, but even so, they were still unable to kill him.

On the contrary, the four of them were in great danger!

Wu Chao had completely lost his fighting strength. At this moment, he was pierced by some water arrows and fell to the side, his life or death unknown.

Yun Yao was quick to react and retreated, but her legs were also stained with blood.

Chen Jian was mainly on the defense, so his injuries were more serious.

At this moment, she was the only one who was still in good condition. There were only two or three more bloody holes on her body, and she was not as miserable as the others.

"You're looking for death!"

At that moment, the Water-type super was angry, but at the same time, he was afraid.

## **Chapter 154: Sunlight (2)**

What about the red shadow?

He didn't care about these people. More importantly, why was the red shadow gone?

The red shadow was gone. Even if he completed the mission this time, he would be in trouble when he returned. The red shadow was not a small matter. Once the red shadow died ... Although the organization did not say what the consequences would be, he knew the way the big shots in the organization did things.

...

It's finished!

His own life might not be as important as the red shadow's.

Just as he was thinking about this, Li Hao ran over from the distance, looking a little frightened. "Sister, there's a battle between two super experts up ahead. I was almost killed by the shock. Run ..."

Liu Yan was startled. A super expert?

War?

I don't feel any fluctuations!

The water Esper couldn't care about anything else and asked, "Li Hao, where did my shadow God go?"

"The shadow God?"

Li Hao frantically ran in this direction. He was in a sorry state, and even his shoes were gone. It was as if he didn't have time to think. As he ran, he said in a panic, "What shadow God ... The thing that's chasing me? I don't know, I just saw the aftermath of the shock wave and red smoke coming out of my body ... It's too scary! It's a good thing I'm fine ..."

The water element was stunned.

It was emitting red smoke!

Super powerhouses ... The shockwaves from their battle killed the red shadow?

He had ordered the red shadow not to kill Li Hao. Instead, he had to protect Li Hao. In other words, the red shadow had protected Li Hao, which led to his death?

A super expert?

He didn't know how strong the Super expert Li Hao was talking about was, but he knew that he couldn't be weak if he could kill the red shadow!

At this moment, Li Hao had already run over. He didn't even care about his Water-type superpower as he said in fear, "Quickly go in! Hide, those two are coming ..."

The Water-type superpower was extremely close to Li Hao.

He could even grab Li Hao with his hand, but he was no longer in the mood to do so. He angrily shouted, "What Supreme expert?"

An expert from the organization?

Then who was fighting against the experts of the organization?

Sunlight?

Or an even stronger existence?

He didn't sense it at all, but the red shadow's death was real. He didn't think that Li Hao had the ability to deal with the red shadow, which was impossible.

"Let's go in first!"

Li Hao dragged Wu Chao, who had fallen to the ground, and dragged him into the warehouse with great difficulty. He said in fear, "That's amazing. I saw a small mountain peak disappear in an instant. There was no sound at all ... The two of them gave me a feeling that was hotter than the sun!"

The sun!

The radiant sun level!

At this moment, the Water-type super was also stunned. Did he manage to summon sunlight?

'The other one ... Could it be that the night patrolman is also a sun glory expert?'

He quickly looked into the distance, but he still could not see anything.

He didn't feel any superpower fluctuations!

Had it exceeded his detection range and level?

At this moment, Li Hao suddenly thought of something. He hurriedly put down Wu Chao and walked towards the Water-type superpower. He said nervously, "I surrender! The other party is too fast. I'm afraid that they will immediately fight their way here. No matter who they are, they won't care about our lives at this time! You don't seem to want to kill me now ... But the people over there might not care, and even if they do, they might not be able to control themselves ..."

Surrender?

The Water-type super looked at Li Hao coldly. This guy was actually asking for his protection at this time!

It was the biggest joke in the world!

[The red shadow died to protect this guy ... How unlucky!]

But it was good. At least he had a reason now. When he returned, he could report the truth. It might not be a big problem. It wasn't that he couldn't do it, but that the battle between experts had caused the aftershock. The red shadow had died while protecting Li Hao.

However, Li Hao really couldn't die at this moment!

He grabbed Li Hao's shoulder. Not far away, Liu Yan's eyes lit up. She had thought that Li Hao would try to assassinate him like he did before.

In the end ... No!

Li Hao obediently allowed himself to be caught.

He wasn't stupid. He had actually arrived just now and saw Liu Yan's attack. She couldn't kill him with a single stab.

The other party had a mysterious energy protecting him!

If they launched a sneak attack now, there was a 99% chance that they wouldn't be able to kill this guy. Instead, they would attract his attention, and that would be the end.

Li Hao's shoulder felt like it was about to split open. He cried out in pain, "Be gentle. Let's retreat first. Why don't we go in and hide ... Those two people are too powerful. There's an ice crystal barrier inside. We might be able to avoid being killed by the aftermath of the mysterious energy!"

"Ice crystal barrier?"

The water elemental finally understood, no wonder these guys wanted to come here!

So that was how it was!

However, since he knew about it, it shouldn't be a big problem. Moreover, these people were almost disabled.

He didn't say anything and conjured another water arrow.

Although these people weren't much of a threat, killing them now was better than causing trouble for him. He would kill them first and then take Li Hao into the cave to hide. Even if they were at the sunlit realm, it would only be a battle of aftershocks. With the ice crystal barrier, and his strength at the Dark Moon realm, he should be able to protect himself.

Liu Yan glared at Li Hao and dragged Wu Chao outside, shouting, "Retreat!"

She was going to retreat!

The Water-type super wanted to chase after him, but Li Hao said anxiously, "They're dead for sure. Let's hide inside first. It's better if they run away. Otherwise, you'll have to be careful of them entering the ice crystal barrier and attacking you ..."

That's right!

Moreover, time was of the essence. Although he didn't know where the two people were, the red shadow's death wasn't far away.

If he were to fight with Liu Yan and waste time, he would be in trouble if he were to be affected by the shockwaves.

### **Chapter 155: Sunlight (3)**

As for suspicion ...

He was still suspicious of the water element, but ... But the red shadow was dead!

Besides, Liu Yan and the others had run away. If he brought Li Hao in, even if his superpowers would be limited in the ice crystal barrier, he would still be stronger than an ordinary ten slash realm.

...

Li Hao ... Was an existence that posed no threat at all!

The organization knew all about him!

He had learned martial arts from Yuan Shuo, but it had only been two years. It was only the basic five birds technique, without any attack power.

He had only been exposed to superpowers for two days.

Li Hao's every move and his whereabouts were under the organization's surveillance.

Li Hao's five birds technique had improved a little. According to the information, it might have reached the level of slashing two and slashing three ... That was it!

Two and three ... He didn't even bother to think about Water-type superpowers.

Li Hao wouldn't be able to kill him.

He didn't think too much about it, nor did he care about Liu Yan and the others. He directly entered the warehouse, closed the door, and quickly ran inside with Li Hao.

It was fine if Li Hao didn't mention the ice crystal barrier, but once he did, he could actually sense it. The ice crystal barrier would naturally be in the area where Li Hao couldn't detect.

Soon, the two of them arrived at the back of the warehouse. There was a small isolated cargo container there, which should be there!

The Water-type powers scanned the area warily, but did not sense anything.

As for the explosives buried underground ... He didn't care about that at the moment. Those few people couldn't detonate the explosives right under the supers' noses. Even if they did, they would all die, including Li Hao.

He should avoid it first!

As he entered the container, he said coldly, "You sure you saw two people? You're really lucky to be alive. Fortunately, you're still alive, otherwise, it would be hard to explain this time! Li Hao, don't even think that anyone will come to save you. Even if there are sunlit night watchers outside, this time ... The night watchers will understand that in the superpower realm, the night watchers are just ordinary members. The night watchers can't compete with the real big organizations of superpowers!"

At that moment, the two of them entered the container.

There was indeed a thin layer of crystal around the container. It was made of ice and was specially made to resist superpowers. It had almost zero physical defense but extremely strong super defense.

Water-type powers were still resistant to these things, but after thinking about it, they still went in.

This thing was indeed very effective in defending against the mysterious energy.

Furthermore, he was right beside the ice crystal and could break it at any time. Even if Liu Yan and the others returned, he would be the first to break it.

At that time, there wouldn't be any problems.

However, he might not be able to withstand the aftermath of the battle.

.....

"Captain Liu!"

At this time, Chen Jian could not help but shout out to the few people who had already evacuated from the warehouse area.

He's really leaving?

What about Li Hao?

Liu Yan stopped in her tracks and looked at the warehouse in the distance. Her eyes were filled with worry, but she still gritted her teeth and said, "It doesn't matter. He chose to do this ... Yueming is indeed more difficult to deal with than I thought! Without the boss, it's too difficult for us to kill them head-on! Li Hao ... He's probably trying to lure him into the ice crystal barrier so that he can ambush him while his powers are restricted!"

Yes, when Li Hao obediently allowed himself to be captured and didn't resist at all, she understood what he meant.

He wanted to lure the other party in and then launch a sneak attack!

As for how dangerous it would be ... Liu Yan didn't want to think about it.

Supers were existences at the level of Yue Ming. Even if their superpowers were restricted, Li Hao was still no match for them.

However, the battle just now made them understand that they couldn't kill that guy even if they joined forces.

.....

In the container.

The water Esper was on high alert and was listening for any movement, but ... It was very quiet!

There was no movement.

He looked at Li Hao suspiciously. Did this guy really encounter a battle between super experts?

Li Hao was startled when he saw him looking at him. He hurriedly threw away the gun on his waist.

"Don't misunderstand, I didn't intend to pull out my gun!"

As he said that, he hurriedly raised his hands and said, "it's true. Search if you don't believe me!" Also, the Li family's sword, I don't know what the Li family's sword is. I only have a small knife with me, and I don't know if it's the Li family's sword ... If you want it, you can take it!"

The Li family's sword?

The Water-type superpowers who did not think of this were stunned.

The Li family's sword that the organization had always desired!

That's right, isn't it on this person?

The next moment, the Water-type super's expression changed slightly. He walked towards Li Hao, who raised his hands high!

She didn't dare to move at all and was very obedient.

As if he was worried that the other party would kill him, he pointed to his stomach with his chin. "The knife is in my stomach. I don't know if it's what you want, but you took it. Can you not kill me?"

"I'm just an ordinary person. It won't do you any good to kill me. In fact, I can even help you with your work ... My teacher is Yuan Shuo, and he's a hundred martial masters. He's very powerful as well!"

"Ha!"

The water elemental laughed with a tinge of mockery and disdain.

He walked forward and touched Li Hao's stomach. It was indeed bulging.

He reached out and touched it. It was a weapon!

The Li family's sword?

He reached out and picked up the small knife that Li Hao had taken from the Martial Master. Li Hao was extremely afraid. He was afraid that this guy had seen the knife and recognized it.

Fortunately, that fellow seemed to be investigating and did not reveal anything strange.

"The Li family's sword?"

The water superpower held the knife in his hand and was confused. Was this what the organization wanted?

It was very ordinary, and he couldn't even sense any mystery from it.

#### **Chapter 156: sunlight (4)**

Of course, this was normal. It was precisely because it was ordinary that no one paid attention to it. Otherwise, it would have been discovered long ago.

He looked at it carefully and suddenly said, "Are you sure this is the Li family's sword?"

"I don't know!"

...

Li Hao hurriedly said, "I really don't know. I only found out about this sentence a few days ago!" This is the only weapon in my family, and it might be related to the Li family's sword ..."

Li Hao hurriedly said, "give me this. I'll tell you. There's a small word on it. I don't know if it's what you're looking for ..."

Small characters?

Where was he?

The water Esper took a closer look and did not find anything. He frowned.

Or did I really not notice?

He took the knife and walked to Li Hao's side. Li Hao still had his hands raised high. The Water-type superhuman smiled. Good boy. Unfortunately, he still had to die!

The organization doesn't just want your sword, they also want your life!

"Point the knife at me, I'll point it out to you ... Forget it, I won't move, don't misunderstand ..."

The water Esper was getting impatient. Who cares if you move?

Even if Li Hao didn't raise his hands, he wasn't afraid of what this guy would do.

He approached Li Hao. Li Hao hesitated for a moment, then put down his hand and pointed at the hilt of the saber. "It's right here. Look carefully, there's a small word here ..."

The man subconsciously looked at the handle of the knife ...

The next moment, he felt something. He seemed to see a third hand ... Was it an illusion?

It wasn't!

There was really a third hand!

Magical hands!

This was what Li Hao had done when he dealt with the one with a cultivation base above 100. This time, it was the same. The trick taught by Yuan Shuo was extremely useful.

It might be slightly weaker for women, but for men ... Be it superpowers or martial masters, that area's defense was the weakest. The key was that it was really painful when that area was crushed!

It was extremely painful!

If you weren't a man, you might not be able to understand. Sometimes, when you accidentally hit something, it would be so painful that you would kneel down and cry.

Within the ice crystal barrier, the other's mysterious energy had been compressed to its weakest.

This place clearly didn't have any mysterious protection.

"Pa!"

It was like a balloon exploding, like an egg being broken, like a fish bubble being burst ...

At that moment, a sound rang out in the cargo box.

The Water-type super lowered his head subconsciously, then, like a normal person, his tears fell uncontrollably and he knelt on the ground!

Intense pain!

The mysterious energy in his body was somewhat scattered at this moment.

Li Hao, on the other hand, was also extremely fast. At this moment, he picked up the knife that the other party had just taken and stabbed it down!

It wasn't his throat or his head, but his shoulder!

"Ah!"

The other party screamed again. At this moment, there was only one thought in his mind-pain!

Li Hao's saber pierced through his body without any resistance!

Because ... Li Hao could see it.

Yes, this was Li Hao's specialty. He could see the opponent's mysterious energy, so he could tell which mysterious energy was the weakest, least, and easiest to break through.

His heart, throat, and eyes were surrounded by a dense layer of mysterious energy, which had not dispersed even now.

If he were to stab these places now, Li Hao might be injured by the mysterious energy.

A normal person, even a Martial Master, would first think of stabbing the vital points.

But Li Hao didn't!

He stabbed his saber into the other party's shoulder, which was not protected by the mysterious energy. His eyes were filled with coldness and ruthlessness. With a slash, he directly cut off one of the other party's arms!

In the next moment, the pain caused the other party's mysteriousness to further collapse.

Li Hao drew his saber and stabbed again!

This time, it was the waist.

"Ah!"

The excruciating pain caused the other party to cry out in pain. The superhuman could not believe it. Li Hao's every attack was aimed at his weakest point. He could no longer protect his crotch with his remaining hand. He barely managed to use his mysterious energy to form a water blade and slashed it at Li Hao's head!

Even if his dick was crushed, his arm was chopped off, and his waist was stabbed, this guy still had combat power!

A Dark Moon realm super had a much stronger life force than a 100-plus Martial Master.

If the 100-plus Martial Master had suffered such an attack, he would have been killed by Li Hao.

However, this person could actually counterattack.

Li Hao, on the other hand, didn't Dodge. He had his own plans. He couldn't Dodge. Once he dodged, his opponent would break his ice crystal barrier. With his superpowers active, his opponent might not die, but if he escaped, he would be in even greater trouble.

He had the Starlight energy. As long as he did not lose an arm or a leg, he could recover even if his injuries were more serious.

Thus, he allowed the knife to Pierce into his abdomen. The intense pain made him lose his composure, but Li Hao still exerted all his strength and clasped the other's neck with both hands. One hand went up and grabbed the other's hair, while the other hand held a small knife and stabbed the back of the other's neck!

Puchi!

In the next moment, the knife moved sideways, and a sharp Sound of Contact was heard. The knife had torn the back of the man's neck open!

"Ah!"

The shrill cry was heard again.

His opponent's mysterious energy had almost completely dissipated. Li Hao grabbed his hair tightly and tore open his wound again with the knife. He used all his strength and slashed down heavily!

Gabeng!

The knife was broken, and the man's neck bone had almost been completely broken by Li Hao.

Blood spurted out!

His entire head drooped down in an instant and almost fell off!

This terrifying scene made Li Hao slightly uncomfortable.

However, he did not give up.

His inner strength gushed out and once again shook the small knife, stabbing it again and again!

### **Chapter 157: sunlight (5)**

After an unknown period of time, someone shouted from outside, "Li Hao?"

The killing intent in Li Hao's eyes disappeared. He looked down at the superhuman who was already dead. Frowning slightly, he threw away the things he was carrying and wiped the blood off the superhuman's body. Then, he walked out of the container.

.....

...

"Dead?"

Outside the container, Liu Yan and the others were on high alert as they carefully approached.

When she saw Li Hao come out, Liu Yan heaved a sigh of relief.

The next moment, they rushed into the container, but Li Hao didn't.

After a while, Liu Yan and Yun Yao walked out with pale faces.

Chen Jian also looked at Li Hao with a strange expression.

He was ... Really too ruthless!

Was this kid really a newbie?

How many stabs had he made?

Dismembered!

Not to mention Liu Yan and Yun Yao, even he felt his hair stand on end at the sight of it. He couldn't imagine what Li Hao had done just now. He had grabbed his opponent's head and stabbed it again and again.

How ruthless!

This time, Liu Yan's expression also changed, and it took a while for her to recover. She exhaled and said softly, "Are you alright?"

Yue Ming!

He was actually killed by Li Hao!

Earlier, Li Hao had also killed a cultivator in the 100th level. Tonight, this guy actually killed a cultivator in the 100th level and a Yue Ming. Was such a record really something that could be achieved by someone in the tenth realm?

Even if the two of them had underestimated him and ignored him, they would still need to be bold and meticulous, as well as have an extremely strong mental fortitude. Otherwise, lying in front of such an expert without even changing his expression and pretending to be anything ... This was really not something an ordinary person could do. Even she, Liu Yan, would probably not be able to do it.

"I'm fine!"

In fact, Li Hao's face was also a little pale, but he quickly recovered. He grinned and said, "They're all bad people! Evil can never defeat justice!"

"We are justice!"

Li Hao hypnotized himself. The next moment, he regained his fighting spirit and said with a smile, "Justice will prevail! Do an act of justice, exterminate the evil and protect the Dao!"

At this moment, he suddenly liked this sentence very much.

As long as I stand on the side of justice, even if I kill them, it's only right!

Seeing that he had recovered, Liu Yan was relieved, but she was even more worried.

He was worried that this kid had really become a pervert.

You can actually recover so quickly in such a situation ... How does your heart grow?

She was an old woman who had been on the battlefield for a long time. When she saw the situation inside, she couldn't stand it.

At this moment, yun Yao, who usually looked gentle, couldn't help but whisper, "If you can survive this time ... I'll help you with some psychological rehabilitation."

She felt that Liu Yan had always said that she was a pervert, but now she felt that Liu Yan was wrong. That was because she had never met someone more perverted.

Li Hao was one!

A newbie!

This guy, is he mentally okay?

"Yes, sure!" Li Hao nodded.

He didn't mind receiving help from his teammates. So what if he recovered? In fact, Li Hao didn't think much of it. He just felt a little uncomfortable earlier. Now that he couldn't see it, it wasn't a big problem.

"Li Hao, if you can survive this time ... I believe that you'll have a place in both the superpowers and the martial masters!"

At this moment, Yun Yao added.

The way she looked at Li Hao was different from before.

If this guy didn't die, then many people wouldn't be able to sleep.

Li Hao seemed to be a little shy and said awkwardly, "Sister Yun, don't say that. I'm just a mere ten decapitation realm cultivator. I'm not even a super. This is too embarrassing ..."

The few of them did not speak again.

Liu Yan took a deep breath and said in a deep voice, "Let's not talk about this. We don't know what's going on with boss. Set up immediately. If boss is not dead, he will definitely come here! As long as boss can enter the cargo ... If those supers accidentally break in ... With more than 100 martial masters inside, killing Yueming will be as easy as drinking water!"

With their superpowers suppressed, it would be strange if the supers did not die when they encountered a Martial Master!

If they weren't in the cargo, it wouldn't have been so easy for Li Hao to kill this Water-type superhuman. The mysterious energy in his body was extremely strong, and even Liu Yan found it difficult to break through it, much less Li Hao.

At this moment, Li Hao also pulled himself together. He laughed and said, "Mm! 'I realized that supers are more arrogant and gullible. They rashly obtain power and have no foundation at all. It's very likely that these guys will chase us in!'"

If it was a Martial Master, Li Hao felt that it would be very difficult for Liu Long to deceive his teacher, who was a treacherous ... Ahem, an experienced senior.

But supers?

Li Hao really felt that these guys were easier to fool. They looked down on martial masters, so it was hard not to be fooled.

At this moment, no one mentioned Li Hao's murder.

Chen Jian, on the other hand, looked at Li Hao pitifully, then looked at Wu Chao, who was still lying on the ground not far away, with some desire.

He hoped that Li Hao wouldn't forget about Wu Chao.

He could channel a little of that power to save the people. Otherwise, Wu Chao would be dead, and even Yun Yao wouldn't be able to save him.

Li Hao didn't say anything. He hadn't forgotten about this.

It was just that ... He inserted a little bit into Wu Chao's body and realized that this person's injuries were really too severe. He probably wouldn't be able to be saved in a short time. Thus, Li Hao didn't input too much. He wanted to keep his life for now and take his time after this matter was over.

.....

Just as they were setting up the warehouse.

Liu Long and the others were also almost at the warehouse.

### **Chapter 158: sunlight (6)**

Of the ten supers, Liu Long had killed three in his surprise attack, Yuan Shuo had killed one, the inspector had killed another in a random firing, and now Li Hao had killed another. In the blink of an eye, a large number of them were dead.

At that moment, only four supers were chasing Liu Long ... And Yuan Shuo.

Yuan Shuo had already met up with Liu Long at this time. His old face was ashen.

...

Liu Long dragged him along, afraid that this guy would die on the road of escape.

"Old man Yuan, hold on!"

Liu Long was somewhat anxious. He didn't know how Li Hao and the others were doing, but old man Yuan might be the first to die tonight.

"Don't worry ... I can still hold on for a while ..."

Yuan Shuo panted and looked behind him. There were four supers chasing after them.

Yuan Shuo glanced at the four of them, but he did not pay much attention to them. He was more focused on sensing another force, the brilliance of the sun!

"Just one sunlight?"

Yuan Shuo thought to himself, 'if there's only sunlight, then tonight's operation is doomed to fail.'

Because as far as he knew, the night patrollers also had sunlight.

Even if he did not go all out, these guys might not succeed this time.

"One sunlit city, ten Dark Moon cities ... And many martial masters ... They really think highly of Li Hao!"

In terms of strength, such a team was enough to deal with Yuan Shuo, Liu Long, the night patrolman, and the inspector. Li Hao didn't need to take them seriously.

However, after so many years of planning, and knowing that their plan to kill Li Hao had been exposed, did they send a sunlight sect member to take charge?

If it was really the three major organizations, it would not be so simple!

“Why don’t we not make a move? if we do, we have to kill a powerful one and make the other party suffer heavy losses!”

The loss of high-end forces was the real reason for the other party to stop. Otherwise, with the death of one riyao, the other party might not be afraid and might even continue to attack.

Sunlight was strong, but there were dozens of them in Silver Moon province.

The three major organizations would not be afraid of losing one of their members.

Yuan Shuo chose to continue waiting!

Even if the other party had an expert, they might not appear at the first moment. When an expert appeared, they would be more cautious and would only appear after making sure that there was no ambush. Otherwise, they would have to be careful of the night patrollers ambushing them.

“The one at the back, the night patrolman will deal with him! Even the Nightwalker’s sunlight has appeared. If there are still experts, there’s a high probability that they will appear after making sure that they won’t be ambushed!”

As for Li Hao ... He wouldn’t die so quickly, and these people wouldn’t kill him so easily. They needed to wait.

This was why he wasn’t in a hurry. Li Hao wouldn’t die anyway.

As for the others, Yuan Shuo was not so soft-hearted either. If a few of them died, it would be worth it even if they could kill a top-notch existence.

.....

Just as the two sides were in pursuit.

Further back.

Wang Ming was being held by an old man as he flew through the air.

“Elder Huang, aren’t you going to make a move?” Wang Ming was a little anxious.

Yuan Shuo and Liu Long seemed to be unable to hold on any longer!

The old man who was carrying him didn’t say anything. He only looked around silently. After a moment, he slowly said, “We haven’t reached the place yet!”

Not there yet?

Before Wang Ming could figure it out, he was directly thrown out in the next moment, and the old man’s voice rang in his ear. “Go find Hu Hao and Li Meng. Join forces with Liu Long and the others and kill those guys!”

Wang Ming hadn’t come back to his senses when suddenly, a thunderclap rang out in all directions!

“Huang Yun, the night patrolmen actually sent out sunlight. It seems that you’ve forgotten the pain from before!”

The sound of thunder reverberated in all directions. The next moment, a figure that looked like a Thunder God appeared in the sky.

On the night watchman's side, the old man called Huang Yun had a grave expression. "Blizzard Silver city's eight great families ... Looks like we still haven't uncovered some of their secrets. You actually sent out a lightning-type sunlit expert!"

Supers who were the best at fighting!

The thunder-god-like sunshine powerhouse laughed, "Why don't we both take a step back? we only want Li Hao. You can take the others, including Yuan Shuo and Liu Long ... Otherwise, there might be one less sunlit realm on the night patrol today!"

Huang Yun didn't reply.

There was only silence.

This time, the night patrolmen had tried their best to get him to Silver City. He thought that a powerhouse at the sun glory realm had already exceeded his opponent's expectations, but in the end ... He still fell into a disadvantage.

Which of the three great organizations did the other party come from?

He knew that he was probably no match for this person. Although they were both in the solar brilliance realm, his mysterious energy was not as strong as his opponent's, and his opponent was also of the lightning element.

At this moment, Huang Yun felt a little weak and said in a low voice, "Why do you have to mess up the world? With the rise of superpowers, you guys have forgotten that you were once a mortal too!"

"You don't understand!"

The Thunder God-like powerhouse didn't care what he said. He laughed and the next moment, a bolt of lightning exploded!

The battle of sunlight broke out in the wilderness.

The collision of lightning and Hurricane!

In the small silver City, a rare battle of sunlight broke out.

### **Chapter 159: Master and disciple hurt, parting (1)**

Li Hao didn't lie to the Super.

Although it was a little late, the battle of sunlight had indeed broken out.

In the rainy night, the collision between the lightning and the hurricane erupted more than ten miles away from the warehouse.

...

The light of the lightning illuminated the entire area.

.....

Outside the warehouse.

Li Hao looked in that direction with a grave expression. Over there, two mysterious energies as dazzling as the sun erupted.

At this moment, lightning flashed, and one could even see two figures fighting in the air.

It could fly!

Their superpowers did not seem to be flying, but they were indeed flying high in the sky. One stepped on lightning while the other spun around in a storm. The storm and lightning constantly collided!

There was only the sound of battle. At this moment, the two top experts didn't communicate.

The night patrolman made his move.

.....

In the distance.

Liu Long turned around and his expression changed slightly.

Sunlight!

The sunlit mercenary group was here, and not just a 10-man team, but also a sunlit mercenary ... If the Nightwalker did not show up, the Silver City would not have been able to stop them!

The four Dark Moon supers who were chasing after them turned around.

Looking at the two sunbeams who were mysteriously colliding with each other in the air, Ghostface revealed a look of yearning.

Sunlight!

Compared to Yue Ming, sunlight was much stronger.

If it was said that supers at the level of Dark Moon could be killed by ordinary hot weapons, but at the level of sunshine, unless a city-destroying weapon was used, the other party's speed, defense, and perception were all powerful to a special extent.

You haven't even locked onto your target, but they can already sense it.

For example, the moment Yuan Shuo stepped into Qian combat, he told Li Hao that Qian combat was a God!

Ordinary people couldn't see or sense the red shadow.

However, douqian could sense it. Even if it couldn't see anything, it could still sense where the red shadow was. As long as the red shadow moved, Yuan Shuo would be able to notice it.

These were the powerhouses at the douqian and the sunlit realm, and they were much stronger than Yue Ming.

“Huang Yun!”

Liu Long looked into the distance. He recognized the Esper and his face turned serious, “Huang Yun ... He was previously in charge of the third-ranked flowing Cloud City. I didn’t expect him to come!”

He knew that the night patrolman had come, but he did not expect it to be this person. This person was not weak among the night patrolmen. At least in the Silver Moon province, he was a top-notch existence.

However ... It was visible to the naked eye that in this rainy night, the enemy’s lightning ability was even stronger. In the air, the thunderstorm collided, and the storm was clearly suppressed. Lightning flashed, and Huang Yun’s figure was drifting in the hurricane, somewhat unstable.

He wasn’t his match!

Who was that lightning expert?

Liu Long’s expression was extremely grave.

A top existence at the sun glory realm and ten Dark Moon supers. What kind of powerful superpower organization wanted to kill Li Hao?

It was even more powerful than expected!

“Let’s go ... Who cares what he’s doing? we need to protect ourselves first!”

Yuan Shuo coughed. What were you looking at?

Although Huang Yun couldn’t defeat that person, he wouldn’t be defeated so quickly either. They were both from sunlight, so the difference wasn’t too big. He wouldn’t be defeated so quickly.

Run first!

The reason why he ran was that Yuan Shuo felt that since the sun glory had appeared, then ... Something might happen to Li Hao.

It was time!

This sunlight had been waiting until now and had not made a move. He was probably also waiting.

They were not far from the warehouse.

Liu Long gritted his teeth and held the short axe in his hand. He looked at the few people chasing behind him and said, “Fight back! There are still three dark moons on the night patrollers’ side. Since the night patrollers have already made their move, we can join forces to kill them now!”

There were only 4 Yue Ming on the other side, while there were 3 more night patrollers on the other side. In addition to Liu Long and the heavily injured Yuan Shuo ... Their combat strength was still roughly equal.

Of course, the red shadow did not count.

That thing was too annoying.

However, no matter what, he was much stronger than before.

As for the warehouse, the ice crystal barrier was just a precaution. If he could kill the other party here, that would be even better. He might even be able to help Huang Yun.

At this moment, a thunderous voice boomed, "Night patrollers, get involved and deal with them! Let them know that today is no longer their era!"

So what if he was a night patrol?

The Silver City had mobilized one sunlit and three dark moons, which was the limit of the night patrols.

The superpower organizations were free to do whatever they wanted. However, night patrols had their own missions and a defensive area. Silver City was not within the defensive area and was not under Huang Yun's jurisdiction. This was the limit of what Silver Moon province could do with so many night patrols.

If more people were to be transferred over, the other defense areas might have problems.

It was not like the night patrolmen had never suffered losses before. In addition to the heavy losses in the remains, many superpower organizations were eyeing them covetously and even secretly looking for an opportunity to kill the night patrolmen.

Behind Liu Long and the others, the four ghost-faced supers stopped in their tracks.

Further back, Wang Ming had just met up with Hu Hao and the others. Seeing this, Wang Ming looked a little excited. The night patrolmen were going to establish their might today! The superpower organizations will have to think twice before killing these guys!"

For the young people in the night patrollers 'organization, there were not many things to consider!

They only knew that in recent years, the night patrolmen had been very aggrieved.

He was under control everywhere!

The higher-ups even had different opinions. Some of the higher-ups even suggested that some of the superpower organizations should join them, giving them special privileges and distributing some benefits. This caused the night watchers to become more and more unstable.

## **Chapter 160: Master and disciple hurt and parted (2)**

Wang Ming had even vaguely heard that at the night patrollers 'headquarters, there was an expert who surpassed the radiant sun level who was planning something in the hope of obtaining independent law enforcement power.

When a person's strength far exceeded that of an ordinary person, and even firearms could not hurt them, sometimes, their desires would be infinitely magnified!

And now, other than the central region, other places, such as a remote province like silver Moon province, were already covered in smoke. The turmoil had begun.

...

The rise of the supers in 20 years allowed the superpower organization to grow rapidly.

At Wang Ming's words, the third eye between Li Meng's brows opened, and he looked a little excited. "It's Ming bro! Brother Ming is here! Hu Hao, let's kill them together!"

Excitement!

She recognized Wang Ming, a genius of the young generation in Silver Moon province, The Night Watcher. Although he wasn't a blessed God tier master, he had only become a super a few years ago, and was now an expert at the Dark Moon tier.

According to the detailed ranking introduced by the night watchers three years ago, Dark Moon was also divided into Half Moon, Half Moon, and full moon.

Wang Ming, who had become a super less than five years ago, was now at the peak of the half-moon level, close to the full-moon level.

As for Hu Hao and Li Meng, Li Meng was only a waning moon. Hu Hao had been here for nearly half a month, but he still hadn't reached this half a month.

Li Meng was naturally excited to see Wang Ming at this moment.

Among the night watchers, the younger generation all hoped to make a name for themselves, but reality did not allow them to do so. Even Huang Yun had made his move today. Li Meng felt that their chance had come.

"Kill!"

Wang Ming didn't care about this. He was also very excited, and in a flash, a Sword of Light condensed in his hand.

Hu Hao was a little serious. Those people weren't easy to deal with!

However, at this point, he could not say anything. He quickly flew into the sky and disappeared into the darkness.

Li Meng's three eyes opened. At this moment, a red light shot out from his third eye and quickly shot toward the few people in the distance.

.....

"You're ... Stupid!"

At this moment, Yuan Shuo shook his head, and Liu Long sighed.

Three night watchmen with superpowers, their combat experience ... There was no way to describe it.

"Especially that Li Meng. At such a distance, your three eyed divine light's eruption will only consume your mysterious energy. It'll be useless.

Although the younger generation of the night patrollers were hot-blooded, their experience ... Was really too lacking.

They were unlike Huang Yun and the others, who had been superhumans for many years. Even if they did not have much combat experience before, they had accumulated a lot of combat experience over the years. This was also why superhumans were less and less concerned about martial masters.

Originally, martial masters had strong combat experience and abilities. In the first few years of the appearance of supers, even though supers of the same level were stronger than martial masters, had more life insurance, and had more means ... In a life-and-death battle, the supers were often the ones who died.

However, it had been 20 years since then, and the older generation of supers now had combat experience that was no less than that of martial masters.

Liu Long didn't say anything as he turned around and rushed back!

If he really didn't care, these three newbies would most likely be killed by the other party.

There was still a gap!

The remaining four guys were not weak and were at the top of the 10-man team. According to Liu Long's judgment, there was one who was at the peak of over 100, which was the existence of the superpower realm Yueming and full moon.

The remaining three were almost all at the Half Moon level.

There was a high chance that Wang Ming and the others wouldn't be a match for him.

"A!"

"Zhang xuan!" Yuan Shuo shouted. Seeing zhang xuan run away, he felt a little helpless.

Don't you feel guilty for leaving me, a half-disabled old man, here?

Also, did you forget that your mission this time is to protect Li Hao? with so many supers here, you're not in a hurry to find Li Hao ... Maybe some other strong Esper went to find Li Hao.

Liu Long, that idiot, even at such a critical moment!

Forget it, I'll go myself.

He dragged his half-crippled body, his face ashen as he gasped for breath and shouted, "I'm going to Li Hao's place ... These people are not leaving, and instead want to kill the night patrolmen. I'm worried that Li Hao's side is in danger ... Liu Long ... You guys hurry over ..."

He gasped for breath seven or eight times.

The next moment, he staggered and ran towards the warehouse.

Behind them, a battle instantly broke out.

Seven supers and a Martial Master who was over level 100-eight powerhouses exchanged blows in an instant. In the blink of an eye, Li Meng, who was still excited just a moment ago, let out a blood-curdling screech as his third eye was splattered out by the blood of one of the Thunder super engines.

He was also the superhuman who had previously threatened mu Sen. He was also the leader of this team, a full moon Thunder superhuman.

The only one who could truly deal with him was Liu Long.

Everyone, including Wang Ming, was a level lower than the other.

Liu Long wielded his axe and swung it.

In the next moment, Liu Long's face paled before he could even touch the other party. He felt his internal organs being burned once again. That thing was back!

He was quite experienced.

Holding the lightsaber, Wang Ming was so excited that he was about to slash someone when he suddenly let out a muffled groan. The mysterious energy dissipated, and the lightsaber in his hand directly shattered unsteadily. Wang Ming spat out blood, his face blank and somewhat puzzled.

What ability?

Liu Long couldn't help but curse, "idiot, we've been following you for so long, can't you tell?" There's a spirit-ranked invisible monster that can burn the internal organs and shake the mysterious energy. Be careful!"

He had thought that he had been boiling his blood since these guys had followed him for so long ... Any experienced Martial Master would know that he was in danger, so they would do this.

In the end ... A newbie was still a newbie!
