Chapter 201: Dragon hiding in the abyss (5)

“Teacher, you mean ...”

“These are the blood Shadows. After devouring those supers, each blood shadow will become stronger and full of special energy, the kind we absorbed. The person who made it might have known that they were using the supers as nutrients!”

Li Hao understood, and his expression changed.

...

Ying Hongyue?

This meant that this person also knew that the red shadow’s energy was beneficial to the body ... But ...

“Teacher, are you saying that Ying Hongyue cultivates martial arts?” Li Hao quickly asked.

“He used to be, and now he’s a super ... But even if he’s a super, he’s still a veteran Martial Master. He might not completely stop using martial arts, and he might have other ideas.”

The red shadow was the most beneficial to martial masters, which Li Hao and Yuan Shuo had both experienced.

Yuan Shuo checked for a while more and laughed, “Don’t worry about it, this is good stuff. Although it’s not as powerful as the one before, it’s enough for you. You’ve just broken through 100, absorb more of it. This thing can strengthen your inner strength, and it’s no less effective than the mysterious power for supers! I really want to meet Ying Hongyue again and ask her how she made it successfully. I even want to make a batch and eat it like a fruit.”

As soon as he finished speaking, he stretched out his hand and made a grabbing motion. The red shadow had already appeared and was now in Yuan Shuo’s hands. It was also something that he could casually grab.

The red shadow was crushed into pieces. The red energy surged and quickly began to gather again. However, it was kneaded by Yuan Shuo. After a long time, it was directly squeezed into a ball.

Yuan Shuo stuffed the red ball into a small pot and said with a smile, “You should absorb it as soon as possible, better before I leave. Otherwise, you might be discovered by the person who made it! How many are there?”

“There’s one more here. I’ve looked at the other places, and there are two more. There are three places where teacher killed the supers ...”

A total of 7!

Li Hao had also killed a little red shadow before, so there were eight of them.

In other words, out of the 10 supers, there were eight Red Shadows.

Divine Master Duan Tian also brought one, but there was no red shadow for the dead riyao. It was unknown whether it was because he was Ying Hongyue's son that he was not given one.

"Alright, we'll take them all then ... You take seven and leave one for me to study!" Zhang xuan said.

The little red shadow wasn't very strong, so it didn't have much effect on Yuan Shuo. Therefore, he wasn't here to absorb this little energy. He was indeed interested in studying it. If he could make it himself, he wouldn't have to worry about not having a shortcut to advance to Martial Master in the future.

This thing was much more useful than the mysterious energy.

.....

The master and disciple ran around the whole night. By midnight, they had obtained all seven red Shadows. They left one for their teacher, and Li Hao took seven.

That night, Li Hao still didn't have time to attend class.

Yuan Shuo didn't have time to talk about this tonight. Instead, he took the red shadow into the study and began to study it.

As for Li Hao, he wasn't in a hurry to absorb the red shadow's energy. He still had lightning energy and wind energy left. Li Hao wanted to try and see what benefits these two elemental energies could bring him.

There was very little mysterious energy on one side, but he would try it first.

The five elements corresponded to the five internal organs, so what did the lightning and wind energy correspond to?

Soon, Li Hao began to absorb the lightning energy.

When the lightning energy entered his body, Li Hao didn't rush to use the Jade sword energy to neutralize it. Instead, he let the lightning energy attack his body. As expected, lightning was known as the energy with the strongest attack. Its impact was extremely strong!

Among the energies Li Hao had encountered, in terms of impact force, saber energy was probably the only one that was more powerful. The rest were lacking.

However, even if its attack power was strong, Li Hao felt that its effect on his body was not much different from other mysterious energies.

After stimulating the inner strength in his body, it began to spread out without triggering the Super Lock.

It was obvious that Li Hao and thunderclap weren't a good match.

It did not stimulate him to become a super.

Li Hao didn't mind. It was too easy for one party to become a super.

He split out a little bit of Jade sword energy, and the energy quickly neutralized the lightning energy. A moment later, an elemental energy containing the power of lightning quickly flowed through his body. After a while, this energy quietly integrated into the bone armor.

Li Hao was slightly stunned ... Bone armor?

In the next moment, a numbing sensation spread through his body like a light electric shock.

“Ah!”

Li Hao called out slightly. In an instant, the door of the technique practicing room was opened.

Yuan Shuo glanced at Li Hao. Seeing the enjoyment on his face and the moans he was making, he frowned and said in a low voice, “Young man, I understand your feelings! However, you’re training at your teacher’s house, not in the training room! It’s the middle of the night, and you’re not sleeping or cultivating. You’re only thinking about all these nonsense ... If you’re really that hungry ... You’ll have to find a way to solve it yourself!”

“No, teacher, I ...”

“Alright, stop explaining!”

Yuan Shuo waved his hand, “we’ve all been through this, I understand!” People who practice martial arts have a strong desire for these things. What I admire even more is that you can feel pleasure without any auxiliary items ... What a talent!”

As he said that, he was a little impressed. He shook his head and quickly said, “Forget it. I’ve actually kept some good things in reserve over the years ... You can go to the study room and get them yourself later. The third row of the study room is filled with those books. This is better than your fantasy. You’re really a talent, kid!”

Chapter 202: Dragon hiding in the abyss (6)

“No, teacher, I’m practicing!”

“Understood!”

Yuan Shuo nodded. “I said the same thing back then. Your teacher’s teacher also caught me in the act back then. I also said that I was practicing martial arts. This trick is the same!”

...

With that, he turned around and left.

Old trick!

When I was young, I also lied to my teacher like this. It’s normal for a boy to refuse to admit it when he’s found out on the spot.

Li Hao was dumbfounded.

Soon, he shook his head speechlessly. His teacher was really ... Speechless. He was really cultivating. What was he thinking?

“The lightning energy can strengthen the bone armor?”

Li Hao didn't bother to say anything more. His teacher would understand sooner or later. He was a little excited now. What about wind energy?

Continue trying!

This time, he quickly absorbed the wind energy. The impact of the wind energy was not as strong as that of the lightning energy, but after it entered his body, Li Hao felt as if he was flying.

There was a feeling of buoyancy!

He then tried to use the Jade sword to neutralize it.

This time, the wind energy was extracted and circulated in his body again. After a while, Li Hao observed and felt it carefully ... But he couldn't feel anything.

However, he vaguely felt that something was different.

He stood up and tried again. Li Hao's eyes flickered. “Wind energy ... Seems to have made my body lighter!”

That's right, Li Hao didn't know where it had merged into.

However, from his current intuitive feeling, it might have directly integrated into his body. It was not an improvement effect, but it made him feel lighter.

“This way, my speed will be even faster!”

A Martial Master was all about speed, strength, and Constitution.

These were the cores!

The wind energy was most likely directly integrated into his body, making him lighter, as light as a swallow. Perhaps this was the feeling.

He quickly began to circulate his breathing technique and used the flying bird technique!

The flying bird technique was also the true light body technique of the five birds technique.

Li Hao waved his arms like a bird spreading its wings. In the past, he used this to be like an old hen flapping its wings, but this time, Li Hao could feel that his body was lighter. With a swing, he actually moved forward a distance.

Li Hao's eyes lit up!

Wind energy was good. If he absorbed a lot of it and improved his physique, he might really be able to fly. In that case, he would be able to deal with supers who could fly.

“Lightning can strengthen the bones, wind can lighten the body, the five elements can strengthen the internal organs ...”

Li Hao had a feeling that when he became stronger as a Martial Master, he would be more well-rounded than supers and would have fewer flaws and drawbacks. At least he wouldn't have to be like fire supers, whose fire power would be greatly reduced on rainy days!

That night, Li Hao was very excited. He kept using the flying bird technique and hit himself in the training room until his head was full of bumps.

Yuan Shuo, who was next door, shook his head.

This silly child, the flying bird technique is really not something you can use.

Under normal circumstances, the flying bird spell could only be used when one had reached 100% completion. It combined with the Divine Will to fly, but the effect was not as good as supers flying. It could fly a few hundred meters, but it would soon have to land again.

Of course, he couldn't be bothered to stop Li Hao from learning.

That night, Li Hao didn't sleep. He didn't like to sleep, either. After reading the books on the third row of the bookshelf the whole night, he was a little reluctant to let Li Hao take them all away the next day.

After a long time, he pulled out a Yellow Book from the third row and hid it in another place. Only then did he heave a sigh of relief.

The rest would be given to his disciple!

He had been reading this book since he was young, and he couldn't bear to give it to her.

Chapter 203: Blizzard Silver City branch

Silver City.

With the departure of Hao lianchuan and the others, the red moon's men were eliminated, and silver City gradually settled down.

It was as if the battle a few days ago was just a dream.

...

The red moon didn't come again, and all the night patrols had left. The Silver City was still the same as before, but today, in the ancient courtyard, there was an additional martial artist who killed three suns that shocked the Silver Moon!

The night patrolman took away the sword that Yuan Shuo had given Li Hao.

The other party had disclosed the news to the public ... As for how they disclosed it and whether it was disclosed, Li Hao actually didn't know any of this. He had never set foot in this circle, so he knew nothing about it.

However, with his teacher watching him, Li Hao wasn't afraid of any tricks.

As for the promised benefits, the night patrolman hadn't delivered them yet, saying that they needed time. Yuan Shuo told Li Hao to wait. If the night patrolman didn't agree, he would probably give them after he agreed, but it might delay the time.

The exploration of the relic was imminent, and the night patrollers needed a lot of resources. They were probably not willing to spend too much on Li Hao. After the relic exploration was over, they would at least gain something regardless of whether they succeeded or failed.

According to Yuan Shuo, Li Hao might be able to take the opportunity to choose some treasures that were suitable for himself.

Due to Yuan Shuo's advancement, the exploration of the remains was delayed for a while. Everyone needed time to digest this, including the other superpower organizations. Yuan Shuo was not worth mentioning at first, but if he were to participate now, they would need to invest more manpower.

The large organizations would need to recruit at least one or two sunlit experts or even one three suns expert to fight against Yuan Shuo. These experts could not be easily deployed.

.....

In the blink of an eye, it was already July 25th.

This week, Li Hao had been adapting to the various enhancements of his strength. During the day, he had nothing to do, so everyone was resting. At night, he went to the teacher's house to listen to the teacher's bizarre stories.

Alright, it was recorded in ancient books.

Yuan Shuo had excavated too many ancient books over the years. He didn't give them to anyone else, nor did he take them out of the ruins. Some of them weren't easy to preserve, so he had read them, memorized them, and destroyed them.

This person, from his actions, was not a good person.

Of course, it was clear that Yuan Shuo had a superhuman memory, and Li Hao's memory wasn't bad either. It was no wonder he was willing to take Li Hao as his student back then. Clearly, having a good memory was one of the important targets of his test.

After a few days, Li Hao's head felt like it was about to burst. Yuan Shuo said that he had something to do next, and he wished he could teach Li Hao all the knowledge he had accumulated over the years. In a few days, Li Hao had memorized at least a dozen books.

And this was only a drop in the ocean of Yuan Shuo's knowledge.

Yuan Shuo had always chosen the most important ancient books to pass down. He had not left any written information or data behind. If Li Hao could memorize them, they were Li Hao's. If he could not, Yuan Shuo would not have prepared any additional recording methods for him.

.....

At the inspection Office.

The law enforcement team.

In recent days, there were no supers appearing, so the law enforcement team was much quieter. Everyone was patrolling and solving cases.

Liu Yan and the others had also moved up from the basement and returned to their own office.

Li Hao went to work and checked in as usual. He had now been officially transferred to the law enforcement team.

In the morning, as soon as Li Hao entered the building, the female patrol officer in charge of receiving calls smiled brightly and said, "Li Hao, Captain Liu is looking for you. He wants you to go see him when you come!"

"Alright, thank you, sis Wu!"

Li Hao was a sweet talker. After being in the law-enforcement team for a few days, he had become familiar with these people. Everyone liked him very much and knew that he was a refined man from the Silver City ancient Academy. He would smile at everyone he met, and sometimes even show a shy smile. This made some female inspectors in the law-enforcement team like him even more.

On the side of the law enforcement team, they knew a little about the demon hunting squad.

However, everyone also knew that Li Hao seemed to have been dragged into this by accident. He wasn't a Martial Master who was good at fighting like the captain, so many people still sympathized with Li Hao for joining the extremely dangerous demon-hunting team.

The person in charge of receiving the call sympathized with Li Hao. Seeing Li Hao go upstairs, he hurriedly said, "Li Hao, recently, the law-enforcement team has suffered a lot of losses and is short of people in many places. If you have nothing to do, you can talk to the captain and transfer to another team ... If it really doesn't work, it's still very easy for you to receive the call with me here!"

"Yes, yes, I'll definitely tell Captain to thank sis Wu!"

Li Hao turned around and smiled again.

The female patrol officer, who was addressed as sis Wu, also responded with a sweet smile. She liked obedient little dogs ... Little men like Li Hao.

.....

Li Hao walked up the stairs to Liu Long's office with a smile on his face.

In the past few days, everyone had been digesting what they had learned from the previous battle.

Why was boss looking for him?

Was there another mission?

With doubts in his mind, he went upstairs. Before he entered the office, his eyes flickered slightly, and he looked a little strange.

There was a ball of light in the office!

Superhuman!

Judging from the size and brightness of the ball of light, it should be a moon-level super.

Which superhuman came?

He knocked on the door, and Liu Long's voice came from inside, "Come in!"

Li Hao pushed the door open and entered. When he saw the situation inside, he was slightly stunned.

There were no outsiders!

They were all acquaintances of the demon hunting squad.

He looked at one of them and was surprised. It was yunyao!

Yes, yunyao had advanced.

He had become a superhuman!

The doctor in the team had actually advanced. The others did not make much progress in the past few days. They were still stuck at the bottleneck. After Liu Yan broke through 100, she almost dropped out of the ranks of supers.

Chapter 204: Blizzard Silver City branch (2)

As for the remaining three, Chen Jian and Wu Chao had just recovered from their injuries, so they didn't dare to absorb too much mysterious energy recently. Yunyao's injuries weren't serious, so she had already recovered.

He had absorbed a lot these few days, but he didn't expect to really advance!

Seeing that Li Hao had looked at Yun Yao as soon as he arrived, Liu Yan, who was sitting in the office with her legs crossed, looked unhappy. "What are you looking at? Is there a flower on her face?"

...

Ever since she had broken through 100 levels, she was no longer as apprehensive about Yun Yao as before.

Li Hao was a little embarrassed and didn't reply. He looked at Liu Long and saluted, "Boss!"

"Mm, now that you're here, everyone's here!"

Seeing that Li Hao had been looking at Yun Yao, he smiled. "It seems that even though you're not strong, your senses are still passable ... You felt something different?"

"En!"

Li Hao nodded and looked at Yun Yao. He couldn't help but say, "Congratulations, sister Yun!"

Yunyao's face revealed a smile that was not a smile. She nodded slightly and said softly, "I was just lucky enough to level up. I unlocked the superpower lock and became a superpower. It's a pity ..."

She sighed.

“It’s already good enough that you’ve advanced, what’s the point of asking for more?” Liu Long said calmly.

Seeing that Li Hao didn’t understand, Liu Yan explained with a smile, “Yun Yao did level up, but her healing powers were suddenly gone. This guy’s powers are actually water! From a doctor, you’ve suddenly become someone who plays with water!”

Liu Long defended Yun Yao, “It’s normal! Before becoming a superpower, no one can be sure what power is compatible with them. Furthermore, Water-type supers have healing effects too. In some superpower organizations, Water-type supers sometimes play the role of healers!”

Although that was what he said, there was a difference between the two.

Healers were more inclined to light or wood energy. Water energy was not as effective as the former two in healing.

Yun Yao also revealed a smile at this moment. “It’s okay. It’s good that you’ve advanced. It’s better than some people not advancing.”

“You didn’t advance?”

Liu Yan sneered, “do you really think that you’ve surpassed 100 martial masters? If you’re not convinced, you can try!”

“Alright, that’s enough!”

Liu Long interrupted their argument. These two women were the only ones in the team, and they couldn’t stand each other. In the past, Liu Yan was still a little afraid of them, but now that they had broken through 100, they also began to fight.

“I called you here because I have good news to announce!” He looked at Li Hao and smiled.

After saying that, Liu Long became slightly excited, “There’s news from the White moon City. The Silver City’s night patrolman division should be able to be established! After department head Hao went back, he gave some help, and several night patrols who came to Silver City this time also put in some effort. Considering this, white moon City agreed to set up a Silver City branch!”

As soon as he said that, the others all revealed happy expressions.

“Boss, does this mean that we can get a raise again?” Li Hao was also a little happy.

“.....”

Liu Long was speechless and looked at him. What kind of brain do you have?

Was this a matter of salary?

“Nonsense!” He said somewhat unhappily. Once we become night patrollers, our salary will no longer be money, but mysterious energy! How much was a mysterious energy worth? Is it something that can be replaced by salary?”

Li Hao, on the other hand, was a little embarrassed. I know, but I don't lack the ability to be mysterious. I have many teachers.

But money ... He really did lack it.

His teacher might have some, but Li Hao was too embarrassed to ask for a mysterious person. As for money ... He was too embarrassed to do so.

Mystery could be more valuable than money, but it was only for cultivation. Li Hao was a student, and Yuan Shuo was a teacher. A little support was nothing.

However, if he didn't have money to eat, live, or buy a car ... Did he have to ask the teacher for that?

How embarrassing!

He was already 20 years old, and he couldn't even support himself.

Liu Long didn't care what Li Hao was thinking, but he was still in a good mood. He continued, "According to the other cities' arrangements, if the Nightwalker Blizzard Silver city's branch is established, under normal circumstances, at least 10 people will be needed to complete the construction!"

"One of them is the head of the branch, and he's a City Patrol. One to two deputy ministers, senior investigators. The leader of the operation team is a patrol."

"Because there are fewer people, the framework is smaller. It's different from a big city, so these facilities were set up."

He looked at everyone. "According to the information I've received, this time, Whitemoon city did not appoint a branch Minister. I should be able to be promoted to branch Minister directly!"

Everyone was overjoyed when they heard this!

"Boss, why are the higher-ups so generous this time?" Liu Yan couldn't help but ask excitedly.

Liu Long laughed, "there are various factors. The main one is ... Related to Yuan Shuo. That guy doesn't get along with some of the night patrollers. With him here, many people are not willing to come to the Silver City. They might even be suppressed by him! Besides, Silver City is too small, and we've offended Red Moon, so she might attack us. Therefore, no one in the glorious sun realm is willing to come."

As for those under the sun glory, they were not stupid.

Liu Long is a Martial Master with a cultivation base of over a hundred peaks. You're new here, and you're even above Liu Long. How are you going to manage this?

Do the others listen to you?

Considering this point, the White moon City side was also very straightforward. If it was established, then so be it. However, the Minister still chose Liu Long.

The few of them were very happy!

Li Hao was also grinning from ear to ear, "if others don't like it, then it's fine as long as we like it!" The boss has become a patrol!"

Patrol, patrol envoy, City Patrol envoy, these were the three levels of the patrol office.

Chapter 205: Blizzard Silver City branch (3)

Patrol was divided into three ranks, two ranks, and one rank. Patrol was divided into low-level and high-level. The same was true for City Patrol, which was divided into two ranks: low-level City Patrol and high-level City Patrol.

Of course, the word “low rank” would not be said in general. It was only said in private. In fact, everyone thought that it was the same for low rank City Patrol and low rank City Patrol.

As for advanced, the word “advanced” would be added to make it seem more advanced.

...

Liu Long also revealed a smile and pressed his hand, “I’m just forcing the duck onto the rack, there’s no other way! The establishment of Blizzard Silver city’s Nightwalker division isn’t as simple as a promotion. Everyone understands the significance of this.”

“This time, I’ve called everyone here to share my joy. Another reason is mainly to find a candidate for the Deputy Minister. If it’s one person, then I can recommend one. If it’s two people, maybe one of them will come from Whitemoon city to take on the Deputy position, and I’ll recommend the other one.”

This was also the usual practice.

As soon as she said this, Liu Yan glanced at Yun Yao and immediately knew why her boss was hesitating. She snorted, “If she wants it, then just give it to her. I don’t care! After all, he’s a superhuman, and I’m just a warrior!”

Liu Long was a little speechless, who was he implying?

Who wasn’t a warrior?

Me too!

On the other hand, Yun Yao’s expression was calm, as if she was not angry at all. When she saw Liu Long looking at her, she said calmly, “I don’t need it. If she likes it, then just recommend her. She’s the vice-captain and also the patrol. She’s just enough.”

The two of them expressed that they didn’t mind.

On the side, Li Hao, who hadn’t said much, suddenly said carefully, “Um ... Can I say something?”

Everyone looked at him in confusion.

Why are you interrupting?

You also want it?

Don’t mess around!

Li Hao looked embarrassed and said carefully, "That ... I ... I have a small suggestion, really, a small suggestion! The Vice Minister is usually a patrol envoy, and sister Liu is already one."

"In the team, there's me, brother Wu, brother Chen and sister Yun. We're all level one patrol inspectors."

He had just been promoted two days ago, but unfortunately, he did not manage to become a patrol.

Li Hao continued, "why don't we discuss this? boss recommends one of us to be the Deputy Minister ... Ahem, the officials only say so. In private, sister Liu will still be the Deputy Minister." "This way, we can have one more patrol. The salary will be higher and the benefits will be better. As for the other benefits of the Deputy Minister, we can give them to sister Liu ..."

"Maximize the benefits!"

Li Hao added, "otherwise, even if sister Liu goes up, she'll still be an investigator. It'll be difficult to even get promoted to an advanced investigator. It'll be too much of a waste!"

Liu Long and the others were dumbfounded!

This debt could be calculated in this way?

They had never considered this, because to them, the rank was not that important.

Li Hao, however, didn't think so. He continued, "I heard from Wang Ming that even among night watchers, different ranks have different treatment, but strength is one thing, and ranks are another! Some of the old patrol inspectors and night patrols may not be very strong, but they are very experienced. Now that they have been converted to civil servants, they have a high position and a considerable amount of power!"

"If that's the case, then let's not take this matter lightly. It doesn't matter in Silver City ... But ..."

Li Hao said excitedly, "but we're all improving. One day, we'll all become supers. We'll have more than a hundred thousand ... If we're still part of the night patrollers, our ranks will be very important!"

"For example, boss, after being promoted to City Patrol, if he is arranged to white moon City, he will also have a good position. But if boss is still a patrol, and goes to white moon City, there are a lot of patrol envoys in white moon City, at that time, how would boss be arranged?"

"Our position is high, and we have a lot of power. When the Silver City is really unable to hold on any longer, we will be able to speak up, and we will be able to smoothly relocate the residents of the Silver City. I don't believe that all the higher-ups in Silver Moon province are supers, at the level of the sun and three suns!"

Liu Long fell into deep thought. After a moment, he took a deep breath, looked at Li Hao, and said in a deep voice, "You're right. From the perspective of Silver City, it doesn't really matter. But if we really can't defend Silver City and join Whitemoon city ... That rank is indeed very important!"

"Now, the government is run by ordinary people and supers, and it's not entirely based on strength. Some of the stronger supers don't have the time to manage the city, so most of the work is done by ordinary people."

After saying that, he looked at the others. "Li Hao's reminder is right. Even if Liu Yan becomes the Deputy Minister, she can't be promoted. She hasn't been an inspector for long, and she still needs some time to become a Senior Inspector. As for you guys, you can use this opportunity to become inspectors!"

"I'm not interested," Yun Yao refused again. "I'm not interested in this."

Wu Chao smiled faintly and said, "boss, stop looking at me. I can't do it. Not even in name! Let fatty Chen go ..."

"I can't either!" Chen Jian said naively. Boss, you know that I'm scared when I see those high ranking officials. If I become the Deputy Minister, I'll have to receive some big shots ... My legs will go soft, right?"

Liu Long was slightly stunned. None of them were willing?

He looked at Li Hao again, who was elated. "Boss, I'm willing!"

"....."

Everyone was silent.

Even Liu Yan couldn't help but laugh, "did you know that they weren't willing, so you said that on purpose to get promoted?" I say, little Haohao, you're still so young and you've already been promoted to a patrol officer. Aren't you satisfied?"

Chapter 206: Blizzard Silver City branch

Li Hao smiled radiantly. "Sister, you can't say that. If I graduate from the Silver City ancient Academy, I'll become a level one patrol inspector very soon!" Therefore, the promotion a few days ago ... Was not really a promotion. The inspector is the one who has really been promoted!"

"If brother Chen and the others are willing, of course I don't have any thoughts. After all, I'm young. But brother Chen and the others aren't willing ... Then of course I have to serve everyone well and contribute to the team!"

Although his words were pleasant to hear, in reality, he wanted to be promoted!

...

He was so happy!

The patrol!

First, the salary was higher.

Secondly, if he went to Whitemoon city, he could indeed arrange for a better position ... No one wanted to start from the bottom, not to mention that Li Hao had already been cleaning the secrets room for a year.

Third, a higher level, higher status, and higher level of contact would be useful in the future. For example ... It would be easier to obtain some information about the red moon.

Liu Long looked at Li Hao, speechless.

He had thought that Li Hao had suggested this because he wanted someone else to be promoted. Good Lord, in the end, everyone had rejected him, but this fellow had chosen him without hesitation!

It's really good!

At such a young age, he was a fan of being an official.

"Li Hao, can you do it?"

Liu Long furrowed his brows. "Even if the higher-ups agree, they'll still have to examine you. How old are you? and you ... Slashing Ten Realms ... I'm afraid it'll be a little difficult."

Li Hao quickly said, "boss, this is simple!" Just tell the higher-ups that you're pulling me in to stabilize my teacher. If I were an ordinary patrol officer, I could run away at any time. But if I'm a patrol envoy, I'm already considered a middle-rank officer. In order to win over my teacher, what is a mere patrol envoy worth?"

Good fellow, he even found a reason for himself.

However, it had to be said that if he were to report this, the higher-ups would probably not care about Li Hao's strength. He would just be a decoration, a hub that connected the night patrolman and Yuan Shuo.

"I'm afraid some people will say that you got in through the back door ..."

"It doesn't matter, I don't care!"

Li Hao was very determined!

I'm not afraid of this. Getting the patrol envoy is the real benefit.

Liu Long was speechless this time. He looked at Yun Yao and the others, "Are you sure you don't want to fight?"

Yun Yao shook her head indifferently. Wu Chao smiled faintly. Chen Jian was extremely simple and honest. He said honestly, "Let Li Hao come. He has more prospects than us!"

The main reason was that Li Hao was too sinister!

Chen Jian still chose to support him, in case the kid became stronger and set him up.

That was too evil!

Wu Chao and Yun Yao didn't have any objections. Although Li Hao was weak, everyone knew what kind of person he was. They all knew how Yue Ming and a person with a fitness level above 100 had died.

He was a ruthless person!

He wanted to be promoted, and everyone was willing to help him. The others were more concerned about whether they could become supers.

"Then let's do this!"

Liu Long didn't expect this to be the final result. At this moment, Li Hao was grinning from ear to ear.

The patrol was in his hands!

Liu Yan didn't mind and said, "Boss, we need at least 10 people. We only have 6 people. Even if we have a Deputy Minister, we won't be given more than that."

Liu Long pondered for a moment before shaking his head, "It's hard to say! They might be equipped with it, but they might not. If no one from the higher-ups came, then they would have to wait for a period of time for the newcomer to advance! The White moon City will soon be recruiting new people from various cities to carry out energy absorption, and they might give us a few new people, Starlight Masters."

Hearing this, the few of them pouted as if they didn't think much of it.

What's the use of being a Starlight master!

It would only be useful if a few dark moons came.

Li Hao also recovered from his excitement. After thinking for a while, he said, "Why don't we recruit them ourselves?"

"There are only a few supers. If we could recruit them, they would have been recruited long ago."

"I'm talking about the Martial Master!"

Li Hao explained, "recruiting martial masters!" There aren't many powerful martial masters in our Silver City? If it didn't work in the local area, what about other places? Although martial masters are not as powerful as supers, if we give them a chance to become supers ... Martial masters are willing to contribute! Furthermore, once a Martial Master advances, they can also become a Dark Moon after cutting Ten Realms. They also have enough experience, which is stronger than newcomers."

"We're at the edge of Silvermoon province, and we could be in danger at any time. It's really not appropriate to bring new people ..."

Liu Long wanted to curse, you're just a newcomer, yet you're still disdain others!

However, on second thought, which newcomer had killed the hundred-year-old and Yue Ming as soon as they joined?

Li Hao also had the right to despise it!

"I'll try!"

Liu Long didn't refuse his suggestion, although there might not be any martial masters willing to join. Martial masters were more willing to work for some large organizations.

Of course, that was in the past.

With the establishment of the night patrolman division, he was no longer the captain of the Demon Hunter team, but the official head of the night patrolman division. This was more authoritative than the captain of the Demon Hunter team, and was an officially certified superpower organization.

At that time, the higher-ups would distribute some mysterious energy, which was much better than having to kill people before.

At the side, Liu Yan touched Li Hao's head with a smile. Li Hao felt a little uncomfortable. What's wrong? why are you touching me?

This person always liked to take advantage of him!

Liu Yan smiled. "Little Haohao, you're quite smart. If it wasn't for your lack of strength, you could even be the branch head!"

Liu Long glanced at her. What did she mean?

"I don't mean anything else. Don't misunderstand, boss!" Liu Yan laughed. I'm just a little curious. Little Haohao's absorption speed of mysterious energy was very fast before. This time, he obtained 32 cubic meters of mysterious energy. How much did he absorb? What level had he reached in the tenth realm? Yunyao has also become a moon Hades master, and Wu Chao and Chen Jian have only been absorbing the mysterious energy for the past two days due to their injuries ... You're not injured at all, how are you now?"

Chapter 207: Blizzard Silver City branch

Hearing this, Liu Long became curious.

Everyone could tell that Li Hao had not become a super.

Has he made any progress in the path of Martial Master?

...

The mysterious energy was still of great help to his strength.

Li Hao was a little embarrassed. "It's so-so. I didn't improve much. It's a bit of a waste of mysterious energy."

As for how much I've improved ... If I say that I've broken through 100, you might not believe me. Even if you believe me, you'll be sad. After all, I've only entered the tenth severing realm a few days ago.

Liu Long saw that he was unwilling to say so he didn't ask.

As for improvement, perhaps he had advanced a bit in the tenth level, but the middle stage of the tenth level? Late stage?

Late stage at most!

As for breaking through 100, he had never even considered it. It was almost impossible.

"Alright, then everyone should rest well for the next few days. In two days, the official documents will be issued. The higher-ups should have a decision on how to make arrangements. Also, I will submit Li Hao's promotion to Deputy Minister."

At this point, he couldn't help but sigh again. "Li Hao, it's a pity that you don't work as a civilian."

This guy was so determined to be promoted. He might as well work in Civil Affairs, which gave him a feeling that he had a better future.

Li Hao hurriedly said, "boss, isn't this all thanks to you?" "Otherwise, I wouldn't have had a chance. Besides, it's all thanks to you guys. You know I'm young and poor, so give me a chance and increase my payches...I went to my house yesterday. The last time the bomb blew up, it was near my house. The whole building was about to collapse. I've been thinking of looking for a new house these few days!"

That's right, although his house didn't collapse completely, it was almost done.

On the night of the battle, there was a huge explosion in Silver City. The district where Li Hao's house was located was one of the targets of the red moon.

At that time, it was only to lure Liu Long away, so no one was hurt. However, the explosion still caused the old building to collapse a little. The uncles and aunties downstairs were so scared that they fell from the bed. It was said that they broke their legs and were taken away by their children.

Now, there was no one making noise there, but it was indeed not suitable to live there.

Li Hao was just thinking that he should find a new place to live. He couldn't stay at his teacher's house all the time. One or two days was fine, but as time went on, his teacher would appear and disappear unpredictably. Even when Li Hao sneezed, the old man would appear and say, "young people should pay attention to self-control."

After so many times, even Li Hao couldn't handle the old man anymore.

"Come and live with big sister!"

Liu Yan put her hand on his shoulder and smiled charmingly. "Big sister's bed is huge!"

"Forget it, I'm afraid I'll wake you up," Li Hao said, embarrassed.

"How could it be!"

Liu Yan smiled happily and pinched Li Hao's face. "You're so cute. How can you disturb me?"

Li Hao looked at the others for help, but they all avoided his eyes and looked at him as if they were watching a show.

Liu Long didn't care about them and waved his hand, "Alright, you guys can leave! Also, be careful when you're out, Li Hao. Even if you find a place, try not to go too far away from the Urban area, or you won't even have a chance to rescue him!"

"I know!"

Everyone left.

When he walked out of the office, he saw mu Sen walking towards him. Everyone greeted him, but did not talk too enthusiastically.

However, mu Sen was very friendly. He greeted everyone and then looked at Liu Yan. He laughed and said, "Congratulations, leader Liu. Next, I'll call you the Liu tribe!"

Liu Yan smiled radiantly. "Don't say that. The Secretary is the city Patrol. Moreover ... I'm not the Minister!"

Then, he left with Li Hao.

Mu Sen must have come to discuss this matter. It was unknown how he would react when he heard that Li Hao was to be recommended as Deputy.

After walking for a while, they were a little far from mu Sen. Liu Yan then retracted her smile. "This fatty is not simple. Don't be fooled by his smile! The time mu Sen entered the 100 + mark might be even earlier than boss! I don't know what this fatty is planning to do by coming to Silver City to work, but I heard that his family has some background in white moon City. Don't offend him if you can, but don't get too close to him!"

"Oh?" Li Hao nodded and asked curiously, "is the director a hundred-year-old?"

"It's hard to say. It might be the Super who was fighting against the fairy. I heard that he cut someone down with one strike ... Anyway, he's at least in the later stage of the 100-plus stage!"

Li Hao understood and didn't ask further.

.....

At the same time.

White moon City.

Night patrolman Silvermoon provincial headquarters.

Wang Ming's face was full of shock, and after a long while, he said painfully, "I ... I'm going to be the Deputy Minister?"

To Silver City again?

I don't want to go at all!

I was so embarrassed over there. If I go, won't I be laughed at?

Moreover, that place was too remote. He didn't understand why the higher-ups wanted him to go there.

I've already advanced to full moon, which is equivalent to a late-stage hundred-plus cultivators. I'm considered a young genius in the Nightwalker headquarters. Is it appropriate for you to arrange for me to be there?

"This is the decision of the division ministers. First, you are Yuan Shuo's disciple in name. It will be easier for you to gain a foothold there!" Second, you and Liu Long have fought together once before, so he will accept you more easily. Third, pay attention to Li Hao's every move!"

Huang Yun said in a deep voice, "Li Hao, the only successor of the eight great families!" Although no one mentioned it now, it didn't mean that they ignored it! You know Li Hao. If you go, you'll be able to get in

touch with him and even protect him ... Red Moon won't give up so easily! Of course, we're keeping an eye on all of their experts, but the red moon is huge, and we can't keep an eye on all of them!"

"Wang Ming, you've gone over there with an important task! Don't worry about the resources, I won't leave you out. Contact me if you need anything."

Wang Ming wanted to cry but had no tears!

To put it simply, Silver City was extremely far away from here, and under normal circumstances, it was impossible to contact them.

This is the end!

Was this considered an exile?

"What about Hu Hao and Li Meng?" he couldn't help but ask.

If he was unlucky, these two ... Wouldn't be better than him, right?

Huang Yun laughed, "the two of them? The Silver City's Nightwalker organization isn't strong enough, and there aren't enough people. If you three moon nether join it, you'll be able to build the entire framework! If you become the Deputy Minister, they'll have to see how they arrange it. At the very least, you'll be better than them."

When Wang Ming heard this, he consoled himself for a while. It seemed to be true.

But ... He really didn't want to go!

Especially when he went and faced people like Li Hao and Liu Long, it was really hard to bear.

However, since the higher-ups had already made their decision, he couldn't reject them. He could only plead, "When things settle down there, can I come back at any time?"

"Of course!"

"That's good."

Wang Ming heaved a sigh of relief and hoped to return as soon as possible. Silver City was really too small, and it was also a place where he was sad.

After Huang Yun sent Wang Ming away, he smiled again and muttered, "I've finally gotten it over ... Come back ... Come back when the Silver City is about to migrate!"

The higher-ups had already made a decision, and the migration plan continued.

As for Silver City, it was also in this list.

As for when, that would depend on the situation.

Chapter 208: A new official takes on a three-handed approach (1)

Blizzard Silver city's night patrolmen division was about to be established.

On the 28th of July, the Silver Moon province officially sent out a letter to begin the construction of the Silver City branch.

As soon as the news came out, the other cities were either envious or jealous.

...

Out of the 32 cities in Silvermoon province, only 9 cities had night watchmen branches.

Silver City was the tenth city to establish a branch of night watchers.

The number of night patrols was limited, and most of them were concentrated in the big cities. Whitemoon city had a population of 30 million, and yaoguang city had a population of more than 10 million. In some other cities, branches would only be set up with a population of five million.

Population was an important assessment indicator.

Those who could not do so would not set up a division of night patrollers in case their superpowers were too scattered and they were destroyed by other organizations.

This was the first time a Silver City branch had been established.

However, considering the existence of Yuan Shuo and the secrets of the Silver City's eight great families, this branch was eventually established.

Not only that, but this time, the Whitemoon city also took it seriously and sent three supers.

And not a newcomer!

All three of them were at the Dark Moon realm, and it was said that one of them was at the Dark Moon and full moon realm.

.....

28th.

Li Hao didn't pay attention to the documents sent by the higher-ups.

At this moment, he was wandering around a courtyard house. It was a very large house with a building area of more than 400 square meters. Most importantly, it had a courtyard of more than 1000 square meters.

A house with its own courtyard!

Li Hao took a deep breath as he read.

"Sis, aren't you overestimating me?" he couldn't help but turn to Liu Yan.

Liu Yan enthusiastically insisted on finding a house for him.

Li Hao really couldn't change her mind, so he could only ask her for help.

Good fellow!

I'll let you find a two bedroom apartment, preferably on the first floor. If not, it's better to find a place with better soundproofing.

In the end ... Liu Yan had brought him here early in the morning.

It was located in the East District of Silver City, which was considered a rich area.

Almost all the rich people in Silver City lived here.

On his way here, Li Hao had already felt that something was amiss. The property prices here were very expensive. The average price in Silver City was more than 3000 Yuan, but here, it had already reached 5000.

When Li Hao was a third-level patrol inspector, his monthly salary was 2000 star coins.

In Silver City, it was actually still okay.

If he scrimped on food and drink, he could save up 20000 to 30000 Yuan a year. This was mainly due to the public's livelihood. Many things could be reimbursed. There were also some bonuses. With them in hand, it would not be a problem to save 20000 to 30000 Yuan a year.

Even so, if one wanted to buy a 100 square meter house, it would usually cost more than 300000 Yuan. It should not be a problem to work for ten years without getting a promotion.

Of course, now that Li Hao had been promoted, it would be much easier.

However, in a place like this, wouldn't a large courtyard with its own door cost more than four to five million?

Li Hao didn't dare to overestimate it!

At least this much!

He did not have any money. As for selling Mystic abilities, it was illegal to sell them to other supers, and to sell them to their own people ... They did not have any money.

Liu Yan was also looking around with a smile on her face. She didn't seem to mind. "What's there to overestimate? You're going to be the deputy head of the Nightwalker division soon. You're one of the top figures in the Silver City! Do you want to live in a tube-shaped apartment? As for the house You're already a patrol, are you still afraid of not having a house to live in?"

Hearing this, Li Hao clicked his tongue and said, "Corruption?"

"Tsk!"

"Is that all you know?" Liu Yan asked in disdain. What greed? This was the spoils of war! Do you understand? According to the rules of the night patrolman, the spoils of war would be handed over and distributed according to the rules! This house is our loot from last time!"

Spoils of war?

Li Hao was stunned.

“Have you forgotten about that Zhou He?”

“Oh, oh, oh, I remember!”

Li Hao remembered this person. He was the first Martial Master he had killed ... No, the one who had been killed during the interrogation of the captain and the others.

“He bought this!”

Liu Yan laughed heartily, “Oh right, there’s also a car. You’ve seen it before.” It’s also in the inspection office’s garage now. You can drive it away! This Zhou He was arrested by you. Now that you’ve been promoted, you can keep his house and car for now!”

Only now did Li Hao realize the origin of this house.

He couldn’t help but say, “that Zhou He, a tenth realm, is so rich?”

“Nonsense, he’s a Martial Master and has been running this business for so many years. Think about it, if you’re willing to sell the mysterious energy from this loot, you’ll be a multi-millionaire immediately!”

To them, earning money was still very easy.

However, what was the use of some money?

The truly good things were hard to buy even if you spent money.

Take this Zhou He for example. If you asked him to take out money, he could take out three to five million, but could he use this money to buy three to five cubic meters of mystery?

It would be very difficult!

And even if he bought it and absorbed it, there wouldn’t be much benefit.

Liu Yan was speechless at Li Hao’s low standards. Although she had no money, Liu Yan would never worry about money. She was not like Li Hao, who only knew how to raise his salary!

If word got out, people would laugh at him.

Previously, he wanted to be promoted in order to raise his salary. This was also a big joke.

Li Hao laughed dryly. He was still inexperienced. Since he was young, the richest he had ever been was when he was getting paid by the inspector. Last month, he had saved up 12000 Yuan!

In the end ... There was no point in saying.

He looked at the big yard again and walked in to take a look. The outside was retro, but the inside was luxuriously decorated and quite modern.

There were two floors in total and an underground parking lot.

This was the front yard, and there was even a swimming pool in the backyard. It was no different from those villa areas, and the garden-like buildings suited Li Hao’s taste more.

Chapter 209: A new official takes on a three-handed approach (2)

“It’s really big!”

Li Hao mumbled. Liu Yan happened to turn around and saw him staring at her. She suddenly smiled. “You’ve opened your aperture?”

After saying that, she puffed out her chest.

...

You even know how to praise people!

You have good eyes!

Li Hao sobered up and was speechless. He shifted his gaze and looked elsewhere. He was a little tempted. “Sis, this ... Don’t the others need it? You’re just giving it to me like this, is that okay?”

“It doesn’t matter!”

Indeed, Liu Yan didn’t really care about this, “actually, we spend most of our time at the inspection Office!” You’re still young and haven’t been in the team for long, so you still have the habit of going to work and leaving for work. We’re different. We’ve been in the team for a few years. Most of the time, when we’re free, we’ll stay at the inspection Office. ”

They didn’t go home often ... When they went home, there was no one.

What was home?

It was just a house!

His real home was long gone.

Liu Long had said that the members of the demon hunting squad all had their own stories. He had never heard of them having a family, a wife, or children ...

Chao Wu and Chen Jian seemed to have been living in the basement.

Yunyao was the same. Every time Li Hao saw her, she was also there.

The captain would disappear sometimes ... As for whether he went home or somewhere else, it was not clear. Maybe he didn’t even have a home and just went out for a walk.

Liu Yan was the same!

These people had already treated the team as their own.

Li Hao didn’t say anything else. He didn’t really care. However, he needed to absorb mysterious energy and practice martial arts. Some secret techniques couldn’t be taught to outsiders. They were taught by his teacher unless he agreed.

Otherwise, if he were to practice his breathing technique in the basement, it might leak out.

This can’t be!

Li Hao didn't say anything more. He entered and continued to watch.

On the first floor, there was a living room, guest room, bathroom, and a gym. On the second floor, there was the master bedroom, study room, and children's room.

Li Hao didn't need most of the rooms.

The house's decorations weren't brand new, so someone must have lived there before. This was even better. Li Hao didn't need to do anything. He didn't have the money for decorations.

Li Hao had everything he needed. What he needed to do was simple. He only needed to bring a few sets of clothes.

The more he looked, the happier he was.

He wasn't at the level of Liu Yan and the others, who still had material needs. In the previous neighborhood, he would be scolded for just one set of boxing moves, which made Li Hao feel terrible.

It was all good now!

The front and back courtyards were frighteningly large. They were over a thousand square meters, and he could do whatever he wanted!

At this moment, Liu Yan was already lying on the sofa on the first floor. Seeing Li Hao come down, she said with a smile, "Little Haohao, the house is very big, and it's very empty at night. Are you scared to live alone? How about big sister comes to accompany you?"

"....."

Li Hao calmly looked around. "Sis, do you think I should hold a banquet or something and move in?"

"As you wish!"

Liu Yan's face was filled with dissatisfaction. Little fellow, are you ignoring me?

Li Hao was so happy that he didn't want to discuss this with her. He continued, "Sister, the higher-ups said that they'll be sending three night watchers this time, and they're all at Yue Ming's level. In this case, our team has six people who have broken through a hundred and Yue Ming!"

Not counting himself.

Including himself, there were a total of 7 people.

To be honest, this kind of strength was really not weak.

Silver Moon province now had 10 branches including Silver City. Apart from the lack of sunlit-level branches, Silver City had a total of seven people who had broken through the 100th level, which was not any weaker than the branches in other cities.

"Hmm, it's alright!"

Liu Yan didn't feel any pressure either. She had broken through 100 points. Otherwise, she would've felt a little pressured.

“Including us, we have nine people now. If we recruit one more, we can more or less meet the minimum requirements.”

Liu Yan continued, “boss means that I’ll be the leader of the operations team. Out of the three people from the top, other than the Deputy Minister, the other two will join the operations team. Without a strength of over 100, we can’t suppress them!”

“Boss wants to form a five-man team for the operation team. Super Wu, Chen Jian, one Scout, one defender, I’ll be the main attacker. As for the two supers, we’ll distribute them based on their abilities.”

A team of five people could meet some basic needs.

There were too many people, so a stronger commander was needed. Liu Yan couldn’t make all the arrangements.

“What about me?” Li Hao was puzzled.

“You’re officials!”

Liu Yan laughed, “first officer, second officer, the three of you will be drinking tea, reading newspapers, and listening to reports in the future!” What, I can still count on you officials to go to the front line?”

Li Hao was speechless. Liu Long used to be the team leader.

Seeing his silence, Liu Yan quickly smiled and said, “I’m just joking. You guys don’t need to go on missions with us. If we encounter danger, we’ll naturally attack together! The boss wants you to be in charge of some basic civilian work. Now that there are more people in the team, the formal framework has been set up. We need some documents to process and file ... Including some intelligence gathering work, which will be done by you in the future.”

“There are also contributions, allocation, resource reserves, warehouses, and so on. You need to calculate and divide them. You’ll be very busy!”

The logistics work was not that easy.

It was just that it would be relatively safer.

In the past, they were all on the same side, and the credit was distributed by Liu Long. However, once they joined the night patrolmen, the same rules were still in place, and outsiders might be dissatisfied. This was something that Li Hao had to do.

When Li Hao heard this, he didn’t say anything. Logistics was logistics, so be it. He actually didn’t care.

In the past few days, Li Hao had also been doing some filing work ... Yuan Shuo’s file was the kind of wordless heavenly book that was kept in his mind. Li Hao felt that his brain had become numb.

Chapter 210: A new official takes on three responsibilities (3)

However, his teacher would make him memorize a lot of things every day. He had no choice but to force himself to do so.

If he really went out to the field, Li Hao wouldn't be able to handle it.

At this moment, Liu Yan stood up and said, "I'm done, let's go back!" The efficiency of the Nightwatchers is not bad. Those few guys will probably be here in the afternoon, so we still have to receive them. As for your official appointment, it should be here by this afternoon. "

...

Li Hao nodded, and the two of them left together.

Li Hao didn't have a car. Although Zhou He said that he had given him Zhou He's car, he was still at the inspection Office.

Liu Yan did have a car ... From the inspection Office.

Li Hao wasn't sure if she had one.

When she went out, her car was parked at the entrance of the courtyard. She didn't drive it in, but she could.

The environment in this area was very good. There was more than one small courtyard. There were some other small courtyards nearby, but they were quite far away. The nearest one was two to three hundred meters away, giving each resident the greatest privacy.

Just as Li Hao and Liu Yan were about to get into the car, a small black car stopped in front of them.

The car window rolled down, and a person stuck his head out, revealing a smile. "Captain Liu! What a coincidence, to be able to meet here. "

It was a man who didn't look too old, in his thirties. He looked very pleasing to the eye and gentle.

Li Hao didn't know her, so he glanced at her.

Liu Yan also smiled. Li Hao was stunned. Her smile ... Was really brilliant.

Without waiting for Li Hao to ask, Liu Yan walked over with a bright smile. Li Hao had no choice but to follow her. However, he felt a little awkward. Why was she so enthusiastic?

It's not that I have any thoughts about Liu Yan, but I'm a man. It's fine if you treat me well, but if you treat others well ... I'll be unhappy.

Just as he was deep in thought, Liu Yan took out something from behind her back. The next moment, a pair of handcuffs cuffed the hands of the other party. The smile on her face instantly disappeared. "You followed me!"

"Liu Yan, you ..."

The man was a little annoyed. "I'm living here. I just happened to see you. What are you doing?"

"You followed me!"

However, Liu Yan's face was frosty, "what a coincidence. We just happened to meet?" "I suspect that you're in contact with some illegal organization. Come with me to the inspection Office. In addition, with

your identity, you may know that the night patrolmen's branch is about to be established, so I have reason to suspect that you're investigating the night patrolmen's movements. You're dead for sure this time!"

"Liu Yan, you're framing me!"

The man was furious. "Don't try that with me, Liu Yan. Enough is enough. I've already said that it's just a coincidence ..."

Liu Yan snorted coldly, "we'll talk about whether it's true or not after we've entered the night patrol!" If you can come out alive, then you're telling me this! Li Hao, come here and escort the suspect to the night patrol for trial!"

Li Hao was also a little confused, and his thoughts from just now disappeared.

At this moment, he only had one thought. Was there a need to?

He could scare her, but it felt like Liu Yan wasn't willing to accept him because he was pursuing her. However, it didn't seem appropriate to send him to the inspection Office, right?

Even though he thought about it, he still quickly stepped forward, grabbed the handcuffs, and said in a deep voice, "Get out of the car!"

"Don't you dare!"

The man was furious. He glared at Li Hao, and his calmness disappeared.

If Liu Yan really charged him with spying on the night patrolmen's movements, he would be skinned even if he didn't die.

"Liu Yan, don't go too far ..."

"Try being stubborn again?"

Liu Yan's expression was cold. "If you continue to be stubborn, I'll treat it as you're resisting law enforcement. I'll kill you on the spot!"

The man instantly shut up. A wise man knew better than to fight when the odds were against him. He suppressed his anger and gritted his teeth. "Alright, I was wrong! Liu Yan, I'm not spying on you. I'm just passing by, and my house is just ahead! Besides, the night patrolman division hasn't even been established yet. What am I spying on?"

"Look, the official document was just sent and you already know about it. If you're not spying, what are you?"

The man shut up and did not say a word.

There was no need to continue.

Liu Yan sneered and said, "Li Hao, uncuff him and keep a close eye on this guy. If he does anything out of line in the future, kill him on the spot!"

"Yes!"

Li Hao answered and unlocked the handcuffs. Soon, he followed Liu Yan into the car of the inspection Office. As for the man, he was staring at them with an angry face from the rearview mirror.

.....

In the car.

“Sister, who was that?” Li Hao asked curiously.

“Qiao Peng!”

As Liu Yan drove, she calmly said, “He lives in the building in front of you. Keep an eye on him! This guy also has another identity, the Vice President of the Qiao’s mining company, and his father is the boss!”

Qiao’s mining industry!

Li Hao instantly remembered and was a little surprised. “He’s a big entrepreneur in Silver City. He’s rich. I heard that the Qiao’s mining industry has billions of assets ... Is that true?”

Also, how did this guy become enemies with Liu Yan?

“Qiao’s mining is not simple!”

“On the surface, it’s a mining industry, but in reality, it’s a company that’s secretly exploring the archaeological ruins! The Qiao’s mining company had a professional mining team ... Or rather, a team that stole ancient ruins. Of course, it wasn’t that easy to mine the archaeological ruins. I suspect that they are related to a superpower organization ... It might be the Crimson Moon!”

“Why do you say that?” Li Hao frowned.

If it was confirmed, the company should have been uprooted.

“The Qiao’s mining company has been established for many years, and it’s located in Silver City. You know Silver City, there’s nothing there. They say there’s a mine outside the city ... Bullshit, I haven’t seen anything in these years! However, the Qiao’s enterprise has been staying here. I didn’t think too much about it before, but ever since the attack of the Crimson Moon and the existence of the eight great families in Silver City, I’ve suspected that these guys have something to do with the supernatural organization!”
