

Constellation 211

Chapter 211: A new official takes on three responsibilities (4)

"It might not be Hong Yue, it might be Yama!" Liu Yan said after a pause.

Why did it change again?

Li Hao felt strange.

...

Liu Yan sneered, "anyway, it's 80 – 90%!" Without evidence, it was just a guess. Your brother-in-law was an engineer at the Qiao's mining company, and he was in charge of some trivial matters. Once, he came back and told me that something unusual had been dug out of the mine, and it could be an ancient monument ... It was different then and now, and I didn't pay much attention to it ..."

"Not long after, your brother-in-law died. He was killed!"

"The person who killed him was a security Captain of the Qiao's mining company. It was said that because the two sides had a conflict at the construction site and had an argument, the guy was so angry that he threw a stone at your brother-in-law to death!"

"When I received the news, I immediately brought people to capture that fellow. During the capture process, that fellow escaped. Not long after, I received news again that that fellow had joined the Yama and absorbed enough mysterious energy to become an existence at the level of a Dark Moon in one fell swoop!"

Li Hao listened and frowned slightly. "Sister, do you mean that the Qiao mining company is in contact with the Yama? they might be the Yama's base in Silver City, and their purpose here is to excavate the ancient ruins. What's more, brother-in-law discovered something and then killed them?"

"Eight or nine out of ten!"

"Then ... Why didn't you tell the night patrolmen?"

Li Hao mentioned that the night patrolmen might seem useless, but ... They were the only superpower organization in the government.

"You just offended Red Moon. Do you think the night patrolman can still offend Yama if you tell him now?"

However, Liu Yan saw it more clearly than him. "The night patrolmen's strength may not be comparable to any of the three big families. Now that they've already fallen out with the red moon, do you think they can withstand it if they fall out with the Yama as well?" If word got out and Yama found out, it would be even more troublesome and you'd be looking for trouble. "

Li Hao nodded. He thought about it and decided that perhaps he shouldn't say it.

But he still said, "sister, if you don't show this guy any mercy today ... Aren't you afraid that he'll suspect that you know something ..."

"You don't understand!"

Liu Yan suddenly smiled. "If I ignore him, he will suspect that I know something. Now that I'm about to join the night patrol, if I suddenly treat him rudely, he will feel more at ease. At least I don't know any secrets. Otherwise, I would have held back."

"Li Hao, it's not always a good thing to be patient. It's easy to be suspicious."

"Also, the Silver City's eight great families ... You're the only descendant of the eight great families. I've checked, and the other seven families are completely gone!" Those who went to the outer city also died in various accidents. "

"So, the Silver City must still have some secrets. I suspect that the Silver City has the remains of the eight great families. Li Hao, if that's the case, what they're excavating right now might be your family's ancestral grave!"

Li Hao was speechless.

Ancestral graves ... That sounded so weird.

Liu Yan continued, "this time, Hong Yue's movements were so big that even those who didn't know about the eight great families before now know." Including the Yama and the fairy, I suspect that they might have known about it before. There are also some small to medium-sized organizations and night watchers. "

"Look at how calm it is now, but that's not the case."

"Everyone's eyes might be on you now. The fact that you're not leaving the Silver City means that you're in danger as well. You haven't shown it yet because elder Yuan is here. Once he leaves the Silver City, you'll see that this place will become the most chaotic place in the entire Silver Moon province!"

Chaos!

This was inevitable. Liu Yan wasn't a fool. She had already guessed that the reason for the silence was because there was an expert who had severed three suns here. However, once the other party left, there would definitely be chaos.

Li Hao was silent.

After a while, Li Hao said, "sister, if you know it's going to be chaotic, why don't you leave?"

"Leave?"

"Where to?" Liu Yan laughed. Besides, why should he leave? Chaos is good! Wealth was found in danger! As a Martial Master, I've yet to enter the realm of superpowers. I'm currently craving for a large amount of mystical powers! Once The Night Watcher division was established, there would be rewards for killing supers from the enemy camp. With my salary and the mysterious power to kill supers, this is my chance. "

“Otherwise, I’ll never be able to become a superpower since I just broke through 100.”

She knew that this place was dangerous, but so what?

She was not afraid!

They were gambling on the danger of this place. Only with danger would there be a chance. Otherwise, how many years and months would it take for them to enter with an identity of over 100?

“I still have to thank you for breaking a hundred,” she suddenly added.

This ‘thank you’ was a little meaningful, and it was hard to tell if it was joy or helplessness.

That’s right, Li Hao played a huge role in her breakthrough.

This guy had given her a large amount of that special energy. When she returned, she realized that her physique had been strengthened and her superpower lock had become more stable. This was the reason why she had advanced to over 100.

She had not mentioned this before.

Li Hao was stunned.me?

Sword energy!

“I ...” Li Hao understood. He was also embarrassed.”I only wanted to heal you.”

“I’m fine. ”

Liu Yan continued to drive and smiled.”Breaking through 100 is good. At least I have some ability to protect myself. If I can’t level up even with my superpowers, I can’t protect myself at all in the current situation.”

Chapter 212: A new official takes on a three-handed approach (5)

Li Hao didn’t say anything.

He was thinking about other things.

The eight great families, had they really attracted attention?

...

He knew that this would happen, but everyone seemed to be avoiding talking about it. He thought that everyone didn’t care anymore, but it turned out that they did.

Although the eight great families seemed to be a legend from a long time ago, with the revival of superpowers and Li Hao’s possession of the Li family’s sword and the fact that he had handed it over to the night patrolman, Red Moon had lost another three suns expert.

At this moment, it was not only silver Moon province, but perhaps even other provinces ‘experts had noticed this.

As Yuan Shuo was waiting here, there wasn't much movement. However, once his teacher left, it would be just as Liu Yan had said. This place would soon become the center of a storm.

"Alright!"

Li Hao muttered in his heart.

This was also an opportunity.

He had just broken through 100, but his strength was still improving. His teacher had already taken the mysterious energy from the warehouse. His teacher had said that he would get him some of the five elements energy.

The energy on his side was mainly metal energy. The three suns was metal energy, and the sunlight was lightning energy.

Although these could also help Li Hao, they were not as helpful as the five-element equilibrium.

His teacher also needed time to exchange for different five-element mysterious energy with others.

"In the past few days, I feel like I'm about to succeed in my three-layered force. It can be considered a small improvement."

From the rearview mirror, he could see Qiao Peng's figure gradually disappearing into the distance.

Qiao's mining industry!

They might be Yama's peripheral organization. He had also noted this down.

.....

At the inspection Office.

It was as if nothing had happened between Li Hao and Liu Yan.

In the big conference room.

Mu Sen was also present.

Li Hao was surprised to see a few familiar faces.

Wang Ming also looked at Li Hao, raised his head, and didn't say anything.

Before he left, he told Li Hao that the Silver City was too small and that he shouldn't stay here and should go to white moon City.

Well, it didn't take long for him to run back.

How embarrassing!

When mu Sen saw that Liu Yan and the rest had returned, he laughed, "You're all here. Just in time. The documents and people from the night patrol have arrived. Everyone, take a seat. I'll announce the appointment!"

Everyone took their seats.

Wang Ming didn't talk to Li Hao, let alone greet him, because he felt too embarrassed. At this moment, everyone just pretended he didn't exist.

"After the higher-ups' discussion, the Silver City's Nightwalker division has been officially established!"

"The former captain of the Silver City's law enforcement team, Liu Long, and City Patrol envoy Jin will be appointed as the head of the Silver City branch!"

Liu Long stood up, stepped forward, took the letter of appointment, and saluted.

The crowd applauded.

There weren't many people, just a few people in the team and a few foreign night patrollers. Night patrollers were still confidential. Although many people knew about them, they would keep it a secret if they could and try not to appear in front of the public.

"The former night patroller of white moon City, Wang Ming, will serve as the Deputy Minister of the Silver City branch."

Wang Ming stepped forward and took the letter of appointment without a smile.

From white moon City, he ran here and became a Deputy Minister. There were only a few people in front of him, and he was an outsider. What was the point?

He was originally a patrol envoy, and this time he didn't get promoted, so it was meaningless.

"I propose to appoint Li Hao as the first rank patrol officer of the Silver City law enforcement team, patrol envoy Jin, and the Deputy Minister of the Silver City branch."

"....."

Wang Ming looked at Li Hao in a daze for a long time, feeling extremely ashamed.

He's also a Deputy Minister?

He really didn't know about this.

Damn, I'm so miserable that I'm at the same level as Li Hao?

Below, Li Meng and Hu Hao looked at each other, feeling extremely awkward.

So, Li Hao was still their superior?

My God, if they had known that Li Hao would be the Deputy Minister, they would have never come here.

He thought it was Liu Yan.

No matter what, Liu Yan was older and more experienced than them. Except for the fact that she couldn't become a super, she could still be accepted as a Deputy Minister. But Li Hao was the one who ended up being the Deputy Minister.

Wang Ming couldn't help but say in a low voice, "Chief Liu ... This ... Li Hao ... Didn't he just join the inspection Office not long ago? and he's not even a super yet ..."

This works too?

Liu Long said calmly, "it's fine. Li Hao is mainly in charge of the logistics. When the battle really starts, we'll have to count on Minister Wang. Minister Wang is a full moon level super. He's the strongest in Silver City ..."

Wang Ming's face flushed red.

This was an insult!

What do you mean, Liu Long?

Everyone had witnessed the previous battle. Liu Long had fought three of them alone, and he couldn't even defeat one of them. Not to mention, there was also Yuan Shuo in the city. If you don't call me the number one expert, What is this?

"Chief Liu!"

"Oh, it's the number one super!" Liu Long said calmly.

At these words, Wang Ming paused and fell silent.

These words could be considered correct.

Forget it, I won't argue with this boorish fellow.

"Liu Yan will be appointed as the team leader of the blizzard Silver City branch ..."

The appointment continued.

Of the nine people in the branch, four of them were leaders, including Liu Yan.

On the ground, yunyao, Wu Chao, and Chen Jian didn't care. Hu Hao and Li Meng looked around and suddenly felt lonely.

Two Moon-level supers had joined the ranks of the Silver City, but in the end ... They were just soldiers with no brains.

He didn't even get a team leader.

For a moment, the two of them almost cried. If they had known this would happen, they would have been transferred to yaoguang city. Even if they went to yaoguang city, even if they were not the leaders, they would not have to be soldiers. At least there were some Starlight grade supers there who could be their underlings.

But now, in the entire branch, apart from the two of them, Wu Chao and Chen Jian, the two martial masters of the ten decapitation realm, were the weakest. The key was that these two were martial masters and were not in the same League as them. They were also Liu Long's direct descendants.

This time, they really became little brothers and Little Sisters!

At this moment, mu Sen had finished announcing the appointment and revealed a smile. "Congratulations, everyone! Especially Li Hao, congratulations! I've already said that the students

of the Silver City's ancient Academy would be able to make a name for themselves sooner or later. I didn't think that you'd become a patrol so quickly. "

He was surprised, but not too surprised.

It was normal for the higher-ups to agree. After all, they had to give Yuan Shuo face.

"The establishment of the night patrolmen is a joyous occasion for both me and the Inspector General!"

Mu Sen laughed and said, "how about this? in the future, any case that involves superpowers and martial masters will be handed over to you. The inspector's office will only be in charge of ordinary cases." Of course, if you need help, you can transfer from the inspection Office at any time because you don't have enough people. "

There were still too few night patrols.

There would be a lot of cases involving superpowers in Silver City in the future. Mu Sen still said that he could transfer people from the inspection Office to assist at any time.

Liu Long didn't pay much attention to this. After thinking for a moment, he said, "As far as I know, the inspection Office has the most detailed files on the Silver City's super martial masters. This includes the files of superpowers and martial masters from major companies, ancient Academies, and institutions. "

Mu Sen looked at him and did not speak.

"Why? can't I?" Liu Long calmly asked. Secretary mu, according to rank, you and I are at the same rank! The night patrol has the right to request you to hand in these files. "

"No!"

"Liu Long, what are you trying to do?" mu Sen frowned.

"A new official has to do things properly. I want to start a fire. Is there a problem?"

Mu Sen wanted to say something but stopped.

In the past, only he had access to these files because they involved all the transcendent-level existences in the entire Silver City, such as a Martial Master who had cut Ten Realms, a Starlight master, a master who had broken through a hundred realms, a moon underworld master ...

Did the Silver City have it?

There were still some, but the number was very small, and they were concentrated in some large companies and powerful organizations. For example, the Silver City ancient Academy actually had martial masters in charge, and not Yuan Shuo. There were others.

Seeing Liu Long's insistence, he didn't say anything more and nodded, "I'll give it to you later. "

"Don't delete some files!"

Liu Long's tone was calm. "Those have nothing to do with you. Don't worry, I'm not a bad person. We're the Guardians of the Silver City. We won't do anything irrational."

“As you wish!”

Mu Sen did not say anything more and turned to leave.

In the future, when dealing with Liu Long Shao, this guy was not a rational person. Sooner or later, he would be exhausted to death.

After he left, Liu Long suddenly revealed a smile, “I can finally show off my skills!”

For a moment, although no one knew what he meant, they were all extremely excited. Wang Ming was also excited, but he quickly sensed something different. The way Liu Long was looking at him ... Wasn't quite right.

“This is bad!”

Wang Ming subconsciously thought, “why are you looking at me? I'm an outsider; what do you want me to do?”

Chapter 213: Origin god weapon (1)

“For today's department's celebration, let's all go to Li Hao's house as guests tonight!”

Once mu Sen left, the people who stayed behind would have to eat in the same pot.

Liu Long wasn't an enthusiastic person, so Liu Yan took the initiative to take care of him. She said with a smile, “Xiao Wang, Xiao Hu, Xiao Li, are the three of you okay?”

...

“.....”

The three of them looked at her, and soon, Li Meng and Hu Hao turned to Wang Ming.

Here, you're the boss, you have the final say.

The three of them were outsiders and weren't familiar with these people. Whether Wang Ming wanted to be a Dragon in the river or admit defeat, they could just watch.

Wang Ming, on the other hand, didn't have that intention at all.

In his mind, this was just a temporary measure, so he would leave quickly. He didn't have the time to fight for power with Liu Long!

Moreover, Huang Yun had asked him to get in touch with Li Hao. He thought for a moment and decided that he had to complete this mission. He quickly nodded and said, “Alright, let's go to Minister Li's house then!”

Li Hao was speechless.

Go to my house?

I don't even know where I can find food in my new home. Liu Yan is really troublesome.

Why not just go out and eat!

Liu Yan didn't care what he was thinking and said with a smile, "Then let's leave it at that for now. The inspection Office should have arranged a place for you to stay. You must be tired from the long journey, so please settle down first. We will come to pick you up tonight."

"Thank you for your trouble!"

Wang Ming didn't say much and strode off. He didn't want to stay here for a minute longer.

It was too awkward!

Even though Li Hao and Liu Long didn't care much about it, he couldn't. His self-esteem was too high, and he couldn't stand it. When he thought about how he was injured in one move when he was dealing with a few supers and had to rely on Liu Long to save him, he felt terrible.

Soon, the three of them left together.

After they left, Liu Long suddenly laughed, "Not bad!"

Liu Yan also smiled and nodded.

Yunyao also nodded slightly in agreement. "It's these three. They've fought together last time, so they're still brave. Although they're considered newbies, they're not pure newbies. Their strength is on par with Dark Moon, not those old foxes ..."

They were actually very satisfied with these three people.

As for the lack of combat experience ... That was not a problem.

What he was afraid of was that the higher-ups would arrange for a few rebellious supers or those who were simply here to fight for power and profit. That would be troublesome.

Not every superhuman did not care about power.

For the sake of fame and fortune, some supers would not mind doing something disgusting.

This was great. These guys were still alright.

Beside him, Chen Jian also laughed awkwardly. "It's not too bad. Last time, we fought against those supers together. These supers also helped us. We're all acquaintances now. That Wang Ming isn't weak either, he's stronger than us, so that's good!"

Liu Long nodded. This was also the reason why he was at ease.

He didn't want to fight for power, but once someone came to fight for power, he wouldn't let it go. He understood how important this team was. They were all his trusted friends. He didn't trust anyone to command them. It would be easy for them to die.

Li Hao didn't care about this. He said with a headache, "Sis, I don't have anything to cook."

Liu Yan was speechless, "are you an idiot?" Just order a meal and have the restaurant send it to you. It's just a meal at your place, who knows how to cook?"

“.....”

Li Hao was dumbfounded. Treating ... Is this how it should be?

I've learned something new!

So, he just wanted to borrow the place?

And I was having a headache over how to deal with it!

Liu Long also laughed. "Let's do as Liu Yan says. We can just eat whatever we want. It doesn't matter what we eat. Treating them to a meal is also a way to express our goodwill."

He then added, "Li Hao, you can try to get closer to Wang Ming during dinner. We can talk more, especially about superpowers."

"It's about the eight great families!"

Li Hao's expression turned serious.

He had to pay attention to this!

In fact, he also wanted to know more about the eight great families, but unfortunately, his teacher didn't know much, and neither did the others. He also didn't know if the night patrolman knew more.

Li Hao felt that the best way to understand her was to capture Ying Hongyue and interrogate her directly. Unfortunately, this couldn't be done.

Since that was the case, he could ask Wang Ming about it.

Li Hao nodded. Just as he was about to go out and order, Liu Long waved his hand and said, "Don't be in such a hurry to leave! Now that the team had officially become a part of the night patrollers, it would not be appropriate for them to stay in the basement! Go and find an office building, and we'll move in. There's nothing we need to bring ..."

Li Hao nodded. "Alright, then let my law-enforcement team leave the law-enforcement building. We'll occupy it directly. It's too troublesome to move things!"

The few of them looked at him silently.

Good fellow!

Your heart is really black.

The law enforcement team was moving!

How many of us are there?

Li Hao looked at them, somewhat baffled and embarrassed. He scratched his head and said, "What's wrong? Our headquarters is underground, and the warehouse is also there. It's not convenient to move it away, so let the law enforcement team do it. The law enforcement team's things are easy to move. If not, I'll hire a moving company for them."

“.....”

Liu Yan laughed. Liu Long was also extremely helpless as he waved his hand, "You do it! However, if you attract any infamy, you'll have to deal with it yourself!"

You're not a thing!

He had just set up a branch, and now he was going to take over the place. Li Hao had finally revealed his true colors.

Just wait to be scolded!

The few of them ignored him and started to talk about themselves.

After a while, the few of them went downstairs.

.....

When they arrived downstairs, they were all stunned.

Chapter 214: Origin god weapon (2)

Downstairs, the law enforcement team was busy moving things one by one. They were very cooperative.

Liu Long was a little surprised. These people were so easy to talk to?

All of them were smiling. What good news was this?

...

Moving? after staying here for so many years, you can move just like that. Don't you feel uncomfortable?

"Captain!"

Everyone still addressed him as Captain out of habit, and the people who passed by quickly greeted him.

Liu Long stopped a burly man who was moving. "Old Zhou, you're taking the initiative. Did Li Hao threaten you?"

"How could I!"

The old patrol inspector who was called old Zhou said happily, "Patrol li would do such a thing? Didn't we say that as long as we move out and get it done before today, everyone can go to Captain Liu and your office to choose a good gun. You can choose it yourself. If you choose a cannon, you can move it!"

"The two of you ... Should know, right?" he asked, somewhat strangely.

Liu Long and Liu Yan looked at each other in helplessness.

Know my ass!

This kid really knew how to talk nonsense.

However, on second thought, it didn't matter. If he really needed these firearms, he could get them at any time. They were only placed in the office for convenience.

Moreover, now that they had set up a branch, it was reasonable to say that the firearms of the inspector should be handed over.

Very few night patrols were equipped with firearms.

"I know!"

Liu Long replied unhappily, then said, "Just like that, you guys ran away?"

"That's definitely more than that!"

Old Zhou laughed and said, "Captain, inspector Li is indeed a top student. He's someone who does great things!" He had said that moving away now was to make it easier for him to come in in the future! I heard... That ... They're recruiting new people?"

After saying that, he looked at Liu Long with some anticipation.

The night patrolman was not a secret in the law enforcement team.

Previously, when supers appeared, the law enforcement team had personally participated in the battle, and everyone knew about the existence of supers.

According to Li Hao, this place had been commandeered, and the Silver City had an organization. Everyone had the opportunity to join the law enforcement team, but they had to be selected.

Now that he had moved away, he could still come back when he was selected.

He would also get a raise in his salary, benefits, and even become a superhuman.

Everyone was looking forward to it!

"Old Zhou, it's very dangerous. You're the patrol officer, you know a lot." Liu Long frowned.

Why was he acting like a young man? he was even getting excited.

Old Zhou laughed, "Captain, I'm not hoping to become that kind of person!" Patrol Li said that he could recruit a few people to do logistics work. They would be promoted by one rank and their salary doubled. After all, the salary was paid by the higher-ups and you didn't have to pay for it. Patrol Li also said that it would be a waste not to take them. He's asked around, and under normal circumstances, Nightwatchers ... Ahem, they can set up an ordinary service agency in the local area. They need a lot of manpower, and they'll have to pay more for the promotion. It's a waste not to take them, don't you think so?"

Liu Long was a little embarrassed.

I don't know.

No, I didn't think about that.

So that was how it was!

Do the night patrollers have a logistics department?

He had originally thought that Li Hao would do it, but who knew that Li Hao would outsource this task?

This kid is really something!

At the side, Liu Yan and the others laughed, and Chen Jian could not help but laugh, "Li Hao's thinking isn't bad. He even knows how to benefit us brothers. Right, we don't care about the promotion, but old Zhou and the others do. They'll be promoted as long as they can. The higher-ups are paying for it anyway."

Old Zhou, who was moving things, also said excitedly, "That's right! Captain, I thought you were taking care of your old brother, am I wrong?"

He was a little disappointed.

Didn't Captain think of us brothers?

As expected of investigator li!

Liu Long was a little embarrassed, but he quickly regained his cold arrogance. "Get lost! I've already thought about it, but I'm just worried that you're afraid of danger ..."

"Captain, what are you saying? forget it, I'll go ask patrol li if there's a place for me ... I won't talk to you anymore, Captain."

With that, old Zhou ran off.

Liu Long's face was filled with helplessness. "The tea is cold when the person leaves, but I'm still here. These guys are really realistic."

Soon, Li Hao returned.

Seeing that everyone was busy, he quickly shouted, "Everyone, work harder and try to move it well tonight! The new place isn't bad either. Also, I just went to find director mu and he couldn't bear to let everyone go. I tried my best to persuade him and he gave us 10 spots! It's too difficult to get promoted to patrol envoy ... So I suggest that it's best to get a level two patrol inspector to maximize the benefits!"

"Of course, if a level 3 patrol inspector also wants to fight for this opportunity, then wait! When our Department expands and has more manpower, I'll recruit some big brothers and sisters from the law enforcement team to help!"

"Nice of you, patrol li!"

"As expected of a top student from the Silver City's ancient Academy!"

"The patrol is really awesome!"

"....."

Everyone started to flatter him. To them, it was something worth being excited about. It was tiring work to death, unlike Liu Long and the others who were single. They could eat their fill without having to worry about their family.

They still had to support their families.

To them, getting a promotion and a raise was still a very good thing.

.....

Liu Long watched silently from the side. After a long time, he looked at Liu Yan and said softly, "These few years, we've been focused on pursuing superpowers and have forgotten about the ordinary life. No wonder the law enforcement team was in a mess."

Because they had already forgotten what these brothers needed.

As long as they didn't go beyond the system, a promotion and a raise was something everyone wanted.

Chapter 215: Origin god weapon (3)

As for Liu Long, he hadn't given it to them in the past few years.

As for Li Hao, this guy still considered himself an ordinary person. He knew what these people wanted, so he could satisfy their requests. Thus, even though he had just been promoted, everyone was happy to call him "patrol."

As long as he could enter the logistics department, he would be rich.

...

Liu Yan nodded slightly and smiled. "It has nothing to do with me. I'm just a Deputy. Boss, that's your fault. Don't push the blame to me."

While they were talking, Li Hao ran over and said in high spirits, "Everyone is willing to move out. I've talked to Secretary mu, and he said that the building next to it can be used by the law enforcement team. It was originally empty, so they just need to clean it a little! Boss, you see, we have our own base now!"

"You really know how to do things!" Liu Long laughed.

This fellow, he thought that he would cause a lot of complaints.

"Why did you suddenly think of recruiting a group of people to be logistics personnel?"

"Wang Ming said so."

Li Hao still remembered this matter. "At that time, he asked me to go to Whitemoon city. He said that although I was an ordinary person, it didn't matter. Whitemoon city also needed ordinary people to do logistics work, so I asked. As expected, the night patrolman branch also has the authority to recruit ordinary people. They just don't want to go to the front line. In fact, the number of spots is not fixed. However, under normal circumstances, as long as there aren't more people than the night patrolmen, it shouldn't be a big problem."

"You have a good memory!"

Liu Long praised and suddenly said, "But don't forget what we're here for! "Don't keep thinking about being an official. It's not good to be too obsessed with being an official. You should think about improving your own strength. You're already a Deputy Minister. Your current strength ... Is not enough!"

Li Hao laughed dryly. "Don't worry, boss. I've been working hard. I'm going to become a super as soon as possible!"

Strength?

It's okay if it's over 100.

Sharpening a knife wouldn't delay the work of cutting wood. Li Hao didn't really want to be busy with logistics all the time, so he found some people to share the burden so that he would have enough time to practice martial arts.

.....

After a busy day.

At night.

There were nine people on the night patrol, and they drove two cars. One was driven by Liu Yan and the others, and the other was the silver 7219, which was assigned to Li Hao.

Liu Long and the others were all in that car.

Li Hao, on the other hand, led Wang Ming and the other two.

Wang Ming actually didn't want to sit in the front passenger seat, but Li Meng and Hu Hao had already occupied the back seat. He couldn't be bothered to squeeze with them, so he reluctantly sat in the front.

However, after sitting for a while, he lost his calm.

"Li Hao, do you know how to drive?"

He couldn't help but shout. Before he got into the car, he had decided not to talk to Li Hao in private, but how did this guy drive?

Li Hao was a little excited, "yes!" I've driven a car before, but it's not as high-end as this one. It's too easy to drive. I just need to know how to change directions, refuel, and brake. Old Wang, don't you know how to drive?"

Now that he was of the same rank as Wang Ming, he didn't call him "Sir" anymore. Wang Ming wasn't old, and Li Hao was 20. Wang Ming seemed to be the same age as him, or a little younger, because he had called him brother Hao before.

It wasn't very polite to call him little brother, so Li Hao chose to call him old Wang.

Wang Ming was speechless.

I don't know how?

I think you really don't know how!

Good Lord, all he had to do was refuel, brake, and change directions?

It didn't sound wrong ... But this guy's driving was too F * cking scary!

Wang Ming decided to calm down and divert his attention. He was afraid that this guy would make him vomit.

"Li Hao, why did the silver Blizzard city recommend you to be their Deputy Minister?"

"Oh, boss said that I'm more suitable and the others aren't, so he chose me."

Bullshit!

Wang Ming wanted to curse, but behind him, Li Meng was also a little wobbly and stumbling from the car. At this moment, he could only interject and change the topic."Li Hao, you haven't reached the tenth realm yet, have you? This time, we got some mysterious energy. Did you get a suitable one?"

"No!"

Li Hao said dejectedly,"my teacher said that maybe my body is special and it's hard to match my mysterious energy. Let's wait." Let's start with the Martial Master path, it's no worse than superpowers.

"Then have you entered the tenth slash realm?"

"Almost!"

Li Hao laughed."I should be almost at the tenth realm. I think I can use my muscles and bones at the same time. It's just that ... I haven't had any actual combat. My teacher said that martial masters and supers who don't know how to fight are all trash!"

As soon as he said this, the three of them looked unhappy.

Fortunately, Li Hao had included them in the list. Otherwise, they would have thought that Li Hao didn't care about them.

Wang Ming was about to die from anger, but he suppressed his awkwardness and continued,"Have you been looking for elder Yuan these past few days?"

"I'm going. "

"What did he say to you?"

"A lot, why?"

"I'm fine. "

Seeing this, Wang Ming didn't say anything more. It seemed that Yuan Shuo really hadn't mentioned taking in a disciple, which he thought wasn't bad. But on second thought, Yuan Shuo hadn't even said anything ... As expected, in-name disciples weren't valued at all!

Those that couldn't be obtained were in a commotion!

If Yuan Shuo really wanted to publicize it openly, they would not be happy.

However, Yuan Shuo didn't even tell them about his own disciple. The difference between a closed-door disciple and an in-name disciple was too great. Yuan Shuo didn't even ask them about their arrival in the Silver City. It was really sad.

Li Hao didn't care about this. While driving, he asked, "By the way, sister Li, brother Hu, the teacher said that the last time you came, you were here to protect him to go to an ancient remain. Where is it? Why did you cancel it now?"

Li Meng said casually, not hiding anything. "It wasn't canceled, it was postponed! Many people were keeping an eye on the ruins. Before elder Yuan advanced, we arranged for Hao bu and three suns to lead the team. It's the same for the other families. Everyone has their limits."

Chapter 216: Origin god weapon (4)

"But now, elder Yuan has to go. Even if we promise not to let him go, the other organizations also want him to go, because he knows that ancient site very well."

"Three years ago, the night patrolmen investigated once, but they suffered heavy losses. Three sunlit experts and many Dark Moon experts died."

"At that time, elder Yuan was also badly injured ... In the past few years, the night patrollers and other organizations have also investigated and the results are that they have all suffered great losses. Therefore, as the person involved, it is necessary for elder Yuan to go. However, he was able to kill three suns, so everyone needs more time to prepare."

...

Li Hao finally understood.

"They've been talking about the various organizations. Are they Red Moon, flying heavens, and Yama?"

"More than that!"

Li Meng explained again, "the three major organizations are the three most powerful organizations in the field of superpower!" All sorts of small superpower organizations also spring up like mushrooms after the rain. Every year, some emerge, some are destroyed, and some grow stronger!"

"The night patrollers and the three major organizations are the first level in the field of superpowers. There are still some weaker ones."

"It's so chaotic?"

As soon as Li Hao finished speaking, he stepped on the brakes, and the inertia almost sent them flying. Fortunately, they were all supers and could still stabilize themselves. However, they were all speechless. This guy almost drove into the river!

Li Hao didn't take it seriously. He became interested and continued to drive. He asked, "Sister Li, the night patrolman didn't care at all? They either kill them to establish their might or recruit them. Why are there so many organizations popping up?"

Li Meng didn't say anything, so Wang Ming impatiently said, "How can it be that simple! Supers are trained and easy to deal with. Some God-favored priests were supers from the beginning and improved at a terrifying speed, even faster than us night watchers ... You didn't even notice him, and he became a sun glory or even three suns! They didn't break the law, and just because they are supers, we have to pay the price and kill them?"

As he said that, he added, "as for the enlistment ... There is one too!" However, there were some supers who were not willing to accept it, so what could they do? The world is so big, if you catch him, he'll run away. If you force him to join, you'll be disloyal and it'll be more troublesome. "

At the end of his sentence, he sighed. "The key is that the night patrolmen lack the attraction to supers!" The three major organizations are more attractive to them than the night patrollers!"

"Why?"

Li Hao was curious. Was the official endorsement not as popular as the three major organizations?

This was also something that he could not understand.

The government had all the advantages. When they first rose up, they even had firearms as a deterrent. However, they did not have as many experts as the three major organizations. How useless were they?

"Al!"

Wang Ming sighed. Li mengxin was straightforward and a little unwilling, so she directly said, "It's all because of the mysterious energy! The founders of the three major organizations have been superpowers for an even longer time. They have accumulated in secret and seem to have occupied a few large ruins or other things ... Anyway, they can produce large amounts of mysterious energy. "

"As for the night patrollers, they started a little late and missed the best opportunity. They didn't manage to occupy some of the ruins that produced mysterious energy, nor did they obtain any important treasures. Even if there were any that could absorb mysterious energy, there were very few of them."

She was also a little dejected. "Say, how can they not be as mysterious as them? how attractive can they be to supers?" Right now, the central region is in chaos because of this. The night patrollers are the main force of the chaos!"

Wang Ming coughed lightly.

Li Meng disagreed, "that's true!" The Nightwalker's headquarters ... Not just in Silver Moon province, but also the central headquarters. Some powerhouses were not willing to be controlled by the three major organizations, so they secretly annihilated some small organizations and seized some relics and supernatural items that produced mysterious powers. "In the end, they were discovered. They did not do it very discreetly. Now, the three major organizations have launched an attack and are fighting in the central area. They are forcing the night patrolmen to hand over the murderer. In addition, some people are taking advantage of the situation. It's almost a pot of porridge over there!"

"Because of this, places like silver Moon province are very low-key. The night patrollers usually don't dare to cause trouble rashly because they're worried that the surrounding areas will be in complete

chaos again. Furthermore, the central area won't be of much help to us. It's already good enough for those people to hold back the three major organizations and those chaotic organizations."

At this moment, Li Hao was a little surprised.

"You're saying that in the central region, the night patrollers went to snatch these things ... And then ... They were beaten up?"

"En!"

Although it didn't sound nice to say this, Li Meng couldn't help but laugh. "What you said isn't wrong, they were beaten up by a group of people! I've heard that the powerhouses above the three suns have fought several times! "The night patrolman's family can't beat all of them ... However, they've also gone crazy this time. They even fired several city-destroying bombs. Of course, many people died. Anyway, both sides are afraid of each other, so it's very chaotic over there now."

Li Hao suddenly laughed. "Interesting. So, the night patrollers are considered powerful in the central area?"

He actually dared to exterminate the entire sect and steal their treasures!

Before this, he thought that the night patrollers were all very useless ... Cough, cough, they were all very helpless.

For example, Silver Moon province had to give up some cities.

In the end, they started fighting?

And it was the night patrolman who started it!

It was unexpected.

Seeing that Li Meng had said what he shouldn't have, Wang Ming could only say, "It's alright! Actually, this matter ... Was not pleasant to hear. It wasn't as if they were going to go out of their way to fight with the large organizations. After all, everyone would suffer great losses in a fight. It was mainly because a few young god tier Masters were not afraid of anything and felt that being mysterious was not enough, so they secretly joined forces and found a small organization to directly exterminate the entire family and steal the treasures!"

Chapter 217: Origin god weapon (5)

"At first, no one knew about it. Later, it was exposed. But now that things have come to this, no one can back down, so they started fighting."

"It was like a powder keg and almost exploded. This was the fuse that ignited the central region."

Wang Ming sighed with emotion, then shook his head. "Those god tier Masters aren't easy to deal with! I heard that the two sides were still negotiating and didn't start fighting at the beginning. Those guys killed the grandson of the Yama leader and took away an important treasure! This time, the Yama was completely enraged, and he didn't even want to negotiate ..."

...

Li Hao was a little dazed, 'these few ... Are so fierce? Don't tell me you have ulterior motives and are deliberately starting a war?'

"I don't know. I don't think so. Even if ... It's not a big problem."

Wang Ming laughed dryly, "I heard that treasure is extremely important!" The Yama's grandson had only secretly taken it out to show off. In the end, he was killed by them and handed it directly to the Nightwalker headquarters. In the end, when a few important figures in the headquarters obtained the treasure, they couldn't hold it in and started fighting immediately! He had heard from Huang zhuncheng that the treasure could produce a large amount of mysterious energy! It might even have a special mysterious energy that can help identify a person's physique!"

Li Hao was somewhat surprised. Strengthen his Constitution?

What did that mean?

Wang Ming explained again, "that is to say, if I use it on you, I can find out which type of mysterious energy you're matched with, and it'll directly guide you to it, so that your success rate of advancing to super is as high as ninety percent!" This isn't just an ordinary high level. You have to know that we're all randomly guiding them now. Whether or not they succeed is all random. "

"How can there be so many mysteries to waste!"

"If this thing is useful, then with 10 people guiding and 9 succeed...The night patrolman's strength will definitely soar! On one hand, we have a large population. On the other hand, we're more stable internally and have a sufficient selection system. We can choose the best among the best. "

"In the past, the three great organizations were powerful probably because of this. They were able to identify the type of body constitution that was suitable for cultivating mysterious energy, and they could succeed by directly guiding it ... Don't you think this is a valuable treasure?"

Li Hao took a deep breath and nodded. Treasure!

The night patrolmen were left behind probably because they lacked this.

If he were a big figure on the night patrol, he would definitely not return the items at this time. At most, he would start a war. Even if he lost some soldiers, he would still fight. Anyway, he would not give them the items!

No wonder the central region was said to be on the verge of destruction.

At this moment, Li Hao felt that he had learned something new. He had suddenly understood the core of the central continent's chaos.

Sure enough, these people from white moon City knew a lot. Even Yuan Shuo didn't know about this, let alone Liu Long, but Wang Ming, a mere Yue Ming, knew everything.

"Then ... The treasure is still in the hands of the night patrolmen?"

"Of course. Otherwise, the war would have stopped long ago."

Wang Ming laughed. "It's a crazy fight over there anyway. But ... There's an advantage to chaos!"

Wang Ming sighed with emotion. "I heard that there's too much fighting over there, and they're improving very quickly. Originally, there were very few people above three suns, but I heard that someone recently advanced again, and he's still young. "All the large organizations have joined the battle. The three large organizations are trying to stop the night patrollers from growing stronger. The small and medium-sized organizations are hoping to take the treasure away. They also want a share of the loot. Once they get their hands on the treasure, they can identify the physique and strengthen themselves. However, they can compete with the large organizations!"

That was why the central region had attracted too many supers.

The more battles there were, the more opportunities there would be. Many people had advanced, and there were many people dying every day.

Anyway, there were people advancing and becoming supers every day.

Hu Hao, who hadn't said much all this time, suddenly said, "It's best if the war doesn't stop so soon. Otherwise ... I'm afraid Minister Li and professor Yuan will be in trouble!"

The Crimson Moon expert didn't have time to deal with them now, because it was really difficult to mobilize more experts.

However, once the war in the central region was over, Yuan Shuo would not be able to stop them in the small silver Moon province.

Li Hao, however, didn't care too much. He smiled and said, "It's fine if they come. Our Silver City branch isn't weak!"

"....."

The few of them ignored him.

He didn't know the immensity of heaven and earth!

Do you think you can fight the Crimson Moon just because you broke through a hundred nether barriers in a few months?

You must be joking.

This guy really doesn't understand the cruelty of the supernatural realm.

Li Hao, on the other hand, was satisfied.

He had gathered a lot of information in an instant.

Even if the next rainy season came, they might not be able to dispatch a large number of Masters to attack because the central region was holding them back. They could not escape easily.

If there were too few of them, perhaps they could be slaughtered and eaten one by one.

As for the central region ... Li Hao didn't want to go there to die at all.

Didn't you hear what they said?

The three suns and above were constantly fighting, and some of them even died. It was too terrifying. Even if the teacher went there, he would die.

However, Li Hao was very interested in the so-called treasures and relics that could give birth to mysterious energy.

He was wondering if his small sword could also continuously produce special mysterious energy.

Or was it completely gone after it was done?

Thinking of this, Li Hao suddenly asked, right, are those mysterious energies infinite? For example, after some treasures have absorbed all the mysterious energy, can they continue to be born?"

Wang Ming explained,"all the large organizations have ways to solve this problem. They can even convert some things to produce mysterious energy, or fill it up. In any case, treasures are needed as intermediary objects! These treasures had a special name in the superpower realm, the misty origin divine weapon! Any organization that has an origin weapon is worth paying attention to. It means that they can continuously give birth to new supers!"

Chapter 218: Origin god weapon (6)

An origin divine weapon!

It could be replenished, it could be converted ...

At this moment, Li Hao's heart stirred.

...

Why did he feel that the weapons of the eight great families were all origin divine weapons?

No way!

The eight great families might have eight weapons, but of course, they might not. After all, in the folk songs, there were some people who didn't use weapons.

If it was an origin god weapon, eight pieces at once ...

Hiss!

"Then ... Was the sword I gave you last time an origin divine weapon?" Li Hao asked tentatively.

Wang Ming couldn't help laughing,"how's that possible?" It's not that easy to get an origin god weapon, but ... I'm not sure about your sword's sealed state. If it's really an origin god weapon ... Then it'll be terrifying. I don't know how many origin God weapons Hongyue has taken away. If so ... I hope it's not. Otherwise, it'll be too terrifying if Hongyue's power rises sharply."

Li Hao felt that it was possible.

An origin divine weapon!

In this case, the eight great families really weren't simple in ancient times.

Every family had inherited an origin divine weapon, which was the foundation for the establishment of a large organization. Without an origin divine weapon, without a stable source of mysterious energy, how could they last long by only killing people and snatching their mysterious energy?

For example, the demon-hunting team relied on killing people to steal their treasures. If not for Yuan Shuo's participation this time, they would have been completely annihilated.

At this moment, he remembered the words 'origin divine weapon'.

Then, he thought of the special energy in the small sword that was getting lesser and lesser. How could he replenish it?

This kind of energy was too useful.

Li Hao's heart ached when it was used up.

"Old Wang, are there any origin divine weapons in the other branches?"

"You're joking! In the entire Silver Moon province, only Whitemoon city has night patrollers, so every year, a batch of supers is born. We are all supers born from that origin god weapon."

Wang Ming explained a little more. "That's why powerhouses keep watch in Whitemoon city all year round. Minister hou doesn't leave the headquarters all year round. He's always there to prevent the origin divine weapon from being seized."

The Minister hou he was talking about was the No. 1 Nightwalker of Silvermoon province, the real boss.

A clear three-sun powerhouse!

At this time, Li Meng also interjected, "Origin God weapons can not only produce mysterious energy. As far as I know, they can also produce some special mysterious energy. I'm not sure how special it is, but I heard from some seniors that when superpowers first appeared, some people didn't know how precious special mysterious energy was and directly absorbed the mysterious source in the origin god weapon ... It was too wasteful and extravagant! However, the effect seems to be super good. Many of the solar and three sun Espers actually absorbed the energy back then."

Energy!

Li Hao's expression didn't change, but he was shocked again.

The energy I absorbed ... Sword energy, saber energy, could it be the so-called Origin Energy?

Origin divine weapons gave birth to a special mysterious energy. Why did he feel that his sword was an origin divine weapon?

Wang Ming also ridiculed, "the older generation of supers have no knowledge and are just messing around!" No one is doing such a thing now unless everyone has one. Otherwise, origin God weapons are the prerequisite for the birth of a large organization. Who would blindly make one?"

Li Hao thought of his teacher. Did his teacher ... Not know about this?

He had thought that his teacher knew everything.

If he had known, his teacher would have guessed that the swords and sabers might all be origin God weapons.

“The origin god weapon ... Does everyone know about it?”

“How could that be? in the past, no one knew about it. In Silver Moon province, only Minister hou knew about it. Later on, during the war in the central region, the news of that treasure spread, and only then did people know about it. Only then did we know about the existence of the origin god weapon.”

Li Hao nodded. He understood now. Perhaps his teacher really didn't know about it before. When the news spread, his teacher stayed in the Silver City all the time, so he didn't know much. The night patrolmen wouldn't tell him everything.

Li Hao was overjoyed. There were also things that his teacher didn't know, and he had to tell him later.

An origin divine weapon!

He and his teacher each had one.

He just didn't know how to produce an infinite amount of mysterious energy. Or rather, what Li Hao needed wasn't this, but how to endlessly replenish his special sword energy and saber energy.

Once he had an idea, there would be a way to solve it.

Thinking of this, Li Hao was even more delighted.

With a loud bang, Li Hao's train of thought was interrupted. The car had crashed!

Wang Ming sighed, and so did Li Meng and Hu Hao.

He should have expected this!

I shouldn't have talked to this guy. Now, it's better to let Hu Hao fly with me.

Li Hao was a little embarrassed. He got out of the car to take a look, then quickly got back in. “It's fine, I hit a stone block, I can still drive!”

After saying that, he restarted the car and continued driving.

.....

When they arrived at the entrance of his small courtyard, the three superhumans stepped out of the car, their legs shaking.

The car that Li Hao had just picked up was also in a mess.

Li Hao sighed. My car!

He was destined to never be rich in this life.

Look, this was such a good car. If they were to repair it ... Li Hao suspected that he wouldn't be able to afford it if he didn't pay him.

.....

Li Hao was a little uneasy during dinner.

They thought that Li Hao's heart ached for the car, but Li Hao actually didn't have any. Even if he did, it would only be a small portion. He was more concerned about the origin divine weapon and the eight great families.

The origin divine weapon of the eight great families.

If Hong Yue had known that they could still use the weapons of the eight great families, she would not have given up.

Even if they didn't mention the eight trigrams diagram above the Silver City, just an origin god weapon was enough to make them unwilling to give up.

One should know that the central region was almost willing to fight to the death for an origin god weapon.

Now, the red moon did not make a large-scale move, perhaps because she was worried that other people would be attracted.

"In that case, I have to be more careful. They want to kill me not just for gossip, but also for weapons ... I hope the sword from the night patrolmen can be hidden from them for a while."

.....

While Li Hao and the others were eating.

White moon City.

"How dare you!" He shouted, his voice reverberating in all directions. You're looking for death!"

A loud boom rang out.

A moment later, a group of people quickly gathered in front of an important warehouse. An expert with shoulder-length hair looked around with a cold face. After a long time, he said, "Go back, it's fine!"

Everyone left.

After they had left, the man looked at Hao lianchuan, who was not far away, and said in an icy voice, "There doesn't seem to be any precious treasure here ... Only the sword you brought back from the Silver City!"

This was the night patrolman's Silvermoon province headquarters!

The other party actually dared to come here.

He was too bold!

"Minister hou, Is He Dead?" Hao lianchuan asked in a low voice.

"He ran away!"

Hearing this, Hao lianchuan's expression changed. He ran away in front of the Marquis?

"An earth element expert!"

The man coldly said, "eight great families ... Weapons ... Crimson Moon ... They may not be from Crimson Moon, but it seems that many people are paying attention to the eight great families' weapons." You have to pay attention to the Silver City. Now that they are separated, they might not send too powerful existences there, but ... Once Yuan Shuo leaves, it's best to bring Li Hao to white moon City. Otherwise, some people won't be content with their place. "

"Understood!"

Hao lianchuan nodded and could not help but ask, "Eight great families ... What's the situation?"

"It's hard to say. It's been too long. We can't dig out all the secrets. "

The man sighed, "that Hong Yue leader, Ying Hong Yue, might have obtained some ancient books related to the eight great families. In short, you just have to keep a close eye on her!" Also, that Li Hao...Give him more attention!"

After saying that, he suddenly said coldly, "If these people don't give up, maybe ... We can use this opportunity to get rid of some of the rioters."

Hao lianchuan nodded.

The opportunity was right, but he was afraid that ... The night patrolman was not strong enough to take this sweet potato.

"Also, tell Yuan Shuo that the relic exploration is scheduled for the end of next month."

"I know."

Hao lianchuan turned around and left. When he reached the door, he suddenly turned around and asked, "Hou bu, can you transfer more experts from the central region to assist?"

"No!"

The man shook his head. "That's impossible. They can't hold on any longer. They've asked me to go and help them several times with the origin god weapon, but I refused. As for Silver Moon province, if I leave, I'm afraid you won't be able to hold on."

"A!"

With a sigh, Hao lianchuan left, feeling a little helpless.

Both sides were in a tight spot!

Otherwise, more people would have gone to explore the ruins instead of only him, the three suns, leading the team. This exploration might not have been very safe.

Chapter 219: Blizzard Silver city's dark wave (1)

It was the second day after the night patrolman division was established.

Li Hao rode his broken bicycle again. He had no choice. The collision yesterday was unsightly, and he couldn't even light the ignition this morning. Li Hao was so angry that he almost smashed this broken bicycle.

It was not useful at all!

...

The new house was some distance away from the inspection Office, further than the old house. It would probably take half an hour by bike.

However, Li Hao's cultivation had already surpassed a hundred, so he wouldn't feel tired.

On the bluestone path in front of the gate, Li Hao was riding his bicycle leisurely.

A moment later, a luxury car drove over on the road of the neighborhood next to the trail.

It was much more luxurious than Li Hao's car.

Li Hao didn't turn his head. Instead, the window of the luxury car next to him rolled down, revealing the face of the man who had a conflict with Liu Yan yesterday. He had a faint smile on his face and looked very gentle.

Of course, he wasn't as calm when he was handcuffed by Liu Yan yesterday.

"Little brother, do you still remember me?"

Li Hao turned his head and looked at him. He nodded slightly. "I remember. President Qiao from Qiao's mining company. Sister Liu told me about it."

"Go to work?"

"Yes,"

Li Hao's expression was calm, and he didn't really want to talk to him.

"Ride a bike? Do you want to take my car?"

Qiao Peng seemed to be very angry as he laughed, "I was just playing around with Liu Yan yesterday. I have to go to the patrol office to settle some matters. How long will it take you to ride? come on."

"No need!"

Li Hao politely refused. "Sister Liu said that her husband was killed by the security Captain of your Qiao's mining company ... Stay away from me. Otherwise, I'm afraid I can't help but arrest you!"

Qiao Peng raised his brows and quickly sighed, "This was really an accident. I've actually been trying to make up for it all these years. To put it bluntly, I pursued Liu Yan to make up for everything ... Otherwise, with my status, there's no woman I can't get. Little brother, you don't understand. She was hurt too deeply, so I should give her a sense of security. And I ... Can heal her wounds."

Frowning, Li Hao ignored him and continued riding.

In his heart, he was thinking, are you acting with me?

Everyone was about the same!

He was also acting half-truthfully. It was said that this guy in front of him might be related to the Yama, so there was no need to completely fall out and offend him in one go.

Also, this guy came to chat with him for no reason ...

Was it because of the eight great families?

Just because he was the successor of the eight great families, this guy wanted to take the opportunity to get close to him?

Seeing that Li Hao was ignoring him, Qiao Peng smiled, "Forget it. Perhaps you don't understand. You'll understand when you're older. Young people don't understand these things. We'll be neighbors in the future. You can come over to my place when you have time."

As for why Li Hao could live here, he didn't have any doubts. It was easy for a night patrol to find a good place.

Furthermore, he had received news that the fellow before him had actually become the Deputy Minister ... This was not too surprising. After all, Yuan Shuo was still around.

The luxury car gradually drove away.

Li Hao looked at it for a while, then stopped. He rode his little cart and continued to rush toward the inspection Office.

Qiao Peng!

He remembered this name.

Perhaps this guy had even dug up his own ancestral grave.

.....

At the law enforcement building.

It had now become a branch of the night patrollers.

Up until now, there were only nine official members in the night patrollers' branch. But other than them, Li Hao had recruited ten people from the inspector Bureau to join them. They were mainly in charge of daily and logistics work.

Today, the night patrolmen were officially open for business.

Li Hao had his own office in this building.

A silk banner was hung in the office.

Li Hao was a man of his word. He really took the pennant that Zhou He had given him and hung it as a merit.

This was the first silk banner he had received in his life, so he had to pay attention to it.

Besides, Zhou He had given him a house, a car, battle experience, and even his life ... No matter what, Li Hao should remember his good deeds.

Just as he entered the office, Liu Yan knocked on the door. Without waiting for a reply, she pushed the door open and entered. "Let's go. Stop looking at your banner. The boss is calling for a meeting!"

"A meeting this early?"

"Boss is very efficient!"

Liu Yan smiled and looked at Li Hao. "Did you sleep well last night? Are you scared?"

"I'm not afraid."

Li Hao hurriedly shook his head. I don't dare to say that I'm afraid. If I'm afraid, are you going to move there?

That would be terrifying!

The two of them walked and chatted as they headed upstairs to the conference room.

.....

In the conference room.

When Li Hao arrived, almost everyone else had arrived as well, with Wang Ming right after him.

As soon as everyone sat down, Liu Long entered the meeting room with a gust of wind.

He didn't sit down and went straight to the point. "The Silver City's night patrol Division has been established. Since Dou Qian is still in charge of the Silver City, we should do what we need to do immediately!"

"I'll make a long story short!"

"In Silver City, there was no official superpower organization," Liu Long said in a deep voice. "The inspection Division has always been in charge of the city's security system! We don't have any troops here, and the inspection Division is the largest and only law enforcement agency!"

"However, it's impossible for a city with a population of a million people to be filled with ordinary people. There are martial masters and supers in Silver City ... It seems that there are not many dark moons, but there are Starlight Masters!"

After saying that, he added, "in Silver City, there are a few places that we need to pay attention to!" First, the ancient academy of Silver City. Li Hao was well aware of this. Second, Silver city's Administration Department will be in charge of the People's livelihood. It will not interfere with the inspector's office."

Chapter 220: Blizzard Silver city's dark wave (2)

The Silver City's Administration Department was in charge of other matters besides military force. The entire Silver City was stable not only because of the law enforcement Inspector, but also because of the assistance of other departments.

The Silver City's Administration Department and the inspection Division didn't belong to the same system, but they were both official systems. The two sides didn't interfere with each other, neither did they involve themselves in politics.

"Third, there are 18 dojos in Silver City. I'm talking about dojos that are opened by official martial masters!"

...

"Fourth, Silver city's six major corporations!"

"These places are more or less filled with martial masters and supers," Liu Long said in a deep voice. "Some of them work for the major forces, while others are the founders. These people are the main source of the instability of the entire Silver City!"

As for the inspection Office, there were also martial masters. Liu Long and the others were martial masters, and mu Sen also had martial masters.

As for supers, there were none ... Even if there were, the inspection Office would send them directly to the night patrollers, unless they were unwilling to join the night patrollers. However, almost no one would be unwilling to join the inspection Office when they became supers.

This also led to a special situation. There might be a few supers in other places, but the inspector's office did not have one.

Of course, he had one now, and it was more than one.

Everyone looked at each other. Wang Ming had had dinner with Liu Long yesterday, so he was willing to say a few more words today. "Chief Liu, what do you mean?"

"Clean up, comb!"

Liu Long was straightforward, "in the past, the inspection Office didn't have enough authority and strength, so they let some people go!" Now that the Nightwatchers have been established, we must let all the major forces in Silver City know that Silver City is still under the government's rule!"

Wang Ming didn't say anything else.

Li Hao, on the other hand, said, "boss, what goal do we need to achieve?" Establish our might?"

Li Hao chuckled. "If it's just to show off their might, boss's previous attack had already done the same. It's impossible that they don't know that boss killed three supers!"

It was just to establish his might, so there was actually not much need for that.

Liu Long said in a deep voice, "it's not just to establish our might, there's also ... A portion of our forces that are hiding and accepting evil!" We didn't have the power to clean them up before, but now that we've become night patrols, we have the right to clean up these parasites!"

After saying that, he said bluntly, "there's one more thing, to earn some extra money!" "Killing supers who have broken the law and seizing their mysterious powers is also an important source. Otherwise, if we count on the higher-ups to allocate funds, the Nightwalker headquarters will only give us a quota of 10 cubic meters every month! 3 squadrons for City Patrol, 1 squadrons for inspector, and half a squadrons for patrol. You can distribute the extra."

The night patrolman team consisted of nine people, one city patroller, three investigators-Li Hao, Liu Yan, and Wang Ming were all investigators. The others, including the two supers, were only level one investigators.

According to the above salary, 8.5 cubic meters a month was enough. 10 cubic meters was not a small amount.

In terms of money, Li Hao's monthly salary could reach a million!

Of course, that was a black market.

In any case, the benefits of giving one cube of mysterious energy a month were actually quite a lot. This was also one of the reasons why countless people were so eager to become night watchers.

However, to Liu Long, it was too little.

Three cubic meters. In the past, he felt that it was still okay, and it was a stable income. 36 cubic meters a year was already a lot.

But now, he felt that it was not enough.

This was because everyone had become stronger. For someone like Liu Yan, who only had one party a month, it was not enough for her. As a Martial Master with over a hundred martial masters, it was difficult for her to even strengthen her body with such a small amount of mysterious energy, let alone advance to a super.

Therefore, he needed more mysterious energy.

Wang Ming and the others' expressions changed slightly at such an undisguised statement.

Liu Long directly said that killing people to steal their mysterious energy. This ... Was too brutal. Were all the local powerhouses like this?

Li Hao didn't care about this. He thought for a while and said, "It's easy for everyone to be in danger this way! The night patrollers are not invincible. Once we force some supers to join the arms of other hostile superpower organizations, we will be considered to have done the wrong thing."

Liu Long frowned.

In the past, he had the final say. What did Li Hao mean by this? was he going to reject his suggestion?

To be honest, he was only here to make an announcement, and everyone just had to follow his instructions. He didn't like people to contradict him. He was used to this style, not even Li Hao.

Li Hao seemed to know that Liu Long was not satisfied. He bared his teeth and revealed an innocent smile. "Boss's main goal is to ensure the Silver City's peace and stability. At least, there won't be any internal problems."

Liu Long slightly nodded.

"That's why I think we should use peaceful means before resorting to force!"

Li Hao suggested, "first, send out notices and official letters to all the official martial masters and supers in the city. Invite them to meet with the night patrollers. Report to them and give them special passes!" With the special qualification pass we issued, you can move freely in the city. Because of their destructive power, we have to pay special attention to them. People who don't cause trouble won't mind."

"I took a look, and white moon City seems to be doing this too, right?"

Li Hao looked at Wang Ming, who nodded slightly. "Yes, but there are many experts in the White moon City. As long as some experts don't go too far, the night patrollers won't care too much. It's fine as long as they don't cause trouble in the city."

Li Hao laughed, "this shows that this measure is very appropriate!" To establish order for the supers! It's just that Silver City was too small before, and there was no official organization, so it hasn't been implemented in Silver City. This time, I suggest that we officially implement it!"
