### Chapter 221: Blizzard Silver city's dark wave (3)

Liu Long looked at him and was silent for a moment before saying, "Continue!"

"Those who have reported and have a qualified pass are legal and compliant. Those who don't ... Are stowaways and people with ulterior motives. Only then do we have a legitimate reason to enforce the law!"

Liu Long frowned, "take off your pants and fart!" Of course, I'm not saying that it's not good, but I don't think it's necessary!"

...

Li Hao laughed. "Boss, we're government officials, not members of those supernatural organizations outside. We still have to stand on the moral high ground and the high ground of the law to carry out the ruling and trial. We can't treat ourselves as supers in the wild!"

Liu Long's style was like this, somewhat rough.

It wasn't a big problem in the past, because the demon hunting squad was just a supernumerary organization in the past. But it was different now, everyone was a regular army.

Then he couldn't do that!

Having studied at the ancient academy for a few years and under Yuan Shuo's tutelage, Li Hao was well aware that sometimes, one could avoid a lot of trouble by following the law.

He stood on the high ground and made the judgment!

He didn't want to be caught by others ... After all, the Silver City's strength was average, and they needed the support of their superiors. It wasn't an independent kingdom, so they could do whatever they wanted.

The Silver City and the White moon City were not completely separated. Some of the big shots in the Silver City could also get in touch with the White moon City.

"Also, I believe that most people still have justice in their hearts!"

Li Hao continued, 'boss means to directly charge at the door and kill! It's too bloody and violent, and it's easy to make the people of the Silver City panic. I don't think it's the right time now. We can use the other's strength to fight, and we don't have to do it ourselves. "

He didn't make a move?

Liu Long looked at Li Hao again, and Li Hao explained, "For example, there are martial masters and even supers in the administration department, and there are also supers in the ancient academy ... Strictly speaking, these forces are all in the same camp! There's a rule for the night patrolmen. In any area where there are night patrolmen, all the supers and martial masters are under the night patrolmen's

command. We can borrow martial masters and supers from all over the world to join forces to suppress those offenders!”

“This way, we can share some of the pressure. It won’t be all concentrated on us.”

“Otherwise, it’s very easy to attract the resistance of the entire Silver city’s extraordinary power. It’s not good for us to establish a foothold in the Silver City!”

“Of course, I’ll listen to you, boss,” he added. “If you think it’s better to kill our way through, I’ll follow your orders!”

Liu Long fell into deep thought.

Liu Yan smiled and said, “boss, it’s time to change our way of thinking. We’ve always done this kind of thing in secret ... I’m not used to changing to the front all of a sudden!” But Li Hao is right, we are the government, we are justice, we can’t act like bandits!”

“Boss, maybe ... It’s better to enforce the law directly!” Chen Jian also laughed. When we were in the law enforcement team, we were all open and aboveboard. Later, when the demon hunting squad was established, our place became a basement. Actually, there was a time when I always felt that we were the sinful ones!”

Using the basement as a base and living in the dark every day, that feeling ... Was indeed a little sinful.

He shouted that justice would last forever, but in fact, he was only comforting himself sometimes.

Now that Li Hao said this, Liu Long and the others didn’t understand for a while. After all, they were used to it. They had been like this for several years.

However, after thinking about it carefully ... And thinking about how he had been so open and honest when he was in the law-enforcement team, Liu Long also became slightly distracted.

It wasn’t that he hadn’t thought about it, but that he was really used to doing things in the dark.

And this was actually the style of the night patrolmen.

Night patrolman!

As the name suggested, they appeared at night and patrolled the area. This was what a night Watcher was, so everyone was used to being sneaky. One day, Li Hao suddenly said, “let’s do things openly.” Not only Liu Long, but Wang Ming and the others were actually a little unaccustomed to it.

Seeing that Liu Long was silent, Li Hao carefully said, “There’s one more thing, boss. I suggest that we can’t push all the forces of the Silver City to the opposite side. If we fight one on one, it’ll be more beneficial for us to establish ourselves in the Silver City!”

“We are the nemesis of evil. However, if some people only make small mistakes ... Like pilfering, some supers might have done it before. We can be more lenient.”

Liu Long didn’t say anything, he was thinking.

“Minister Wang, what do you think?”

Wang Ming was speechless. What do I think?

I don't know anything, I'm not looking!

"I don't have any objections!"

"Also, I have a small suggestion," Li Hao continued.

"Speak," he said.

"Boss, you know we're short of mysterious energy. How much can we get by killing people?"

Li Hao suggested, "currently, some organizations and some powerful big shots have secretly exchanged material things with some mysterious powers from the black market, the night patrollers, or other supernatural organizations. This is the reason why Silver City can produce a portion of supers."

"I'm thinking, can we ..."

Before he could finish, Liu Long interrupted, "You can 't!"

On the side, Wang Ming also frowned. "We can't encourage this trend. It's understandable that you want to get the mystery, but we can't encourage them to secretly trade and even have the night patrollers endorse them! In this way, it's easy to lose control of superpowers. Everyone is doing it in secret, but once you openly support it, it's easy to cause a greater disaster. Li Hao, you have to know that some people are willing to do anything for their own benefits! Darkness is darkness. Once darkness becomes light, it will be difficult to maintain order!"

#### **Chapter 222: Blizzard Silver city's dark wave (4)**

Li Hao nodded thoughtfully and didn't say anything.

He did have such thoughts and wanted to obtain more mysterious energy through these channels.

However, what these two said made sense, so he didn't insist. Otherwise, if things went out of control, the Silver City would be in trouble.

...

Liu Long didn't say anything else, "then I'll send official letters to all the families!" It would be best if he could come and register. If he couldn't ... He had to establish his might! In the past few years, there are still some problems in Silver City. Li Hao, you know the most about some unsolved cases. Even the murderer can't be found. There's a high probability that it was done by these people, but it's a pity that they've done it cleanly, and we can't find any evidence. "

"Let's sort out the entire Silver City first. It'll be easier to find people if there are any more problems."

"Boss, I'll deliver the official letter to show my sincerity!" Li Hao took the initiative to ask.

"You'll go?"

Li Hao nodded.

This was an opportunity for him to find out how many supers there were in the Silver City.

Yes, a ball of light!

As long as it was a super, he could see the light balls. Whether it was Starlight or Dark Moon, the stronger they were, the easier it was to see them. This was much more reliable than the Super detector.

The range of observation of the Super detector was too small, and it could suppress the mysterious energy fluctuations, so it could not detect anything. Although it was difficult for the weak to suppress it, it did not mean that it was impossible.

Since he had decided to stay in the Silver City for the time being, Li Hao also wanted to understand the situation in the Silver City.

At the same time, he wanted to see how many experts were hidden in the Silver City.

Yes, he was sure that there was.

Especially after the matter of the red moon and the eight great families had been exposed, who knew how many supers had poured into the Silver City.

In addition, he might be able to take the opportunity to explore the Qiao's mining industry.

This was one of the six major corporations in Blizzard Silver City. Under normal circumstances, Li Hao would have no reason or excuse to go there, but now was the perfect time.

Liu Long considered for a moment and nodded, "Good! Do you need our help?"

"Yes, I do. Minister Wang, come with me!"

Li Hao smiled. "He's a superhuman from white moon City. He's a Big Shot. Ordinary people don't dare to reject him!" His appearance also represents our sincerity and determination. Unless you want to completely shed all pretenses of cordiality with the night patrollers, you should listen to him!"

"Alright!"

Wang Ming wanted to say something, but he didn't want to go.

Damn it!

Li Hao, why do you have to drag me into this?

Weren't hu Hao and Li Meng here as well?

The two of them were also from the White moon City.

Wang Ming was mentally exhausted. He really didn't want to do any work when he came here and let Liu Long and the others do whatever they wanted, but now they had to drag him down with them.

.....

After the meeting.

Li Hao pulled Wang Ming and walked out together.

Wang Ming was a little reluctant, and couldn't help but say, "Li Hao, for such a small matter, you can just find someone. Why did you come to me?"

"An able man does more work!"

Li Hao laughed and said in a low voice, "Old Wang, do you want to make a contribution and return to White Moon City earlier?"

Wang Ming's eyes flickered. "How?"

"For example, finding the secret of the eight great families of Silver City, or finding the stronghold of the three major organizations here, or killing some fugitives, or directly advancing to sunlight ... There are too many ways to do so."

"Does this have anything to do with you pulling me to deliver the official letter?"

"Of course!"

Li Hao nodded with a smile, "this way, we can better understand the silver Blizzard city's secrets!" Staying in the office all day, was he supposed to wait for clues to appear? Old Wang, we're both still young, and I want to be promoted as well. So, let's do it together. "

Wang Ming was a little moved, and after a long while, he reluctantly nodded. "Alright!"

Li Hao smiled. He knew that this guy was easy to ... Persuade.

If the situation allowed, he actually wanted to go to the Qiao's mining area to take a look.

It was because Liu Yan had said that something seemed to have been discovered at the mine. The Qiao's mine was in the suburbs and not too far from the city. They had been mining for many years and seemed to have some mineral resources.

However, for a big enterprise like the Qiao's, it was not that they did not make money from mining such a small mine, but the money they made was not in line with expectations.

Some people said that the Qiao's liked to give back to their hometown. They mined in the Silver City, providing more employment opportunities for the Silver City, and also providing more taxes for the Silver City. Li Hao didn't take it seriously. Businessmen pursued profit, and the Qiao's didn't have such good intentions.

However, he couldn't go to the Qiao's for the first stop.

.....

In the afternoon.

Li Hao and Wang Ming were going together. This time, Wang Ming was the one driving, and he would rather die than let Li Hao drive.

This guy's driving was too much for him, a superhuman.

"Where should we go first?"

“The Silver City’s ancient Academy!”

Li Hao chuckled. “That’s my alma mater. Although I dropped out, I still want to see how strong the ancient academy is. I remember that when some professors go out, the ancient academy’s security team will be in charge of their own security.”

The ancient academy should have some strength.

Not counting the teachers, Li Hao felt that there might also be some powerhouses.

The ancient academy mainly focused on the exploration of ancient civilizations, but there were many other important specializations. When Li Hao was in the ancient academy, he vaguely heard that the ancient academy also explored other areas of ancient civilizations.

.....

Silver City ancient Academy.

Li Hao was too familiar with this place.

This time, he was here for work.

Vice director’s office.

Hearing Li Hao’s purpose for coming, the gray-haired Vice President sighed with emotion. “When you were studying at the ancient academy, I felt a little regretful that you dropped out halfway. I didn’t expect that you’d be able to forge your own path after entering the inspector Bureau. It’s not a loss.”

“The ancient academy does indeed have a team of guards. Your teacher is well aware of this. Some of them even received guidance from your teacher.”

### **Chapter 223: Blizzard Silver city’s dark wave (5)**

The gray-haired Vice Director quickly added, “There’s nothing to hide. Silver City didn’t need to register in the past, so we didn’t report it. Since you need to report this time, I’ll ask Captain Chen from the guard team to come over. You can communicate directly.”

Li Hao nodded. He actually knew Captain Chen.

However, since he was here on official business, he had to first inform the ancient academy.

...

The vice principal made a call, and not long after, a ... A man as strong as a bear strode in.

When he saw Li Hao, he smiled, and when he saw Wang Ming, he frowned slightly.

“Captain Chen!”

Li Hao laughed. “Sorry to disturb you. We’re here because the Silver City’s night patrollers are establishing a branch. We need to register some of the extraordinary powers in the city. At the same

time, we'd like to invite all the members of the extraordinary system to participate in the opening ceremony of the night patrollers in three days!"

He directly explained everything and laughed,""The ancient academy is the place I'm most familiar with, so our first stop will be the ancient academy. I believe that with Captain Chen here, he will be able to cooperate with us."

"Of course!" Captain Chen nodded.

"And this is?" he looked at Wang Ming after saying that.

"He's from white moon City. He's an important figure, Minister Wang Ming!"

Wang Ming was speechless. Li Hao, this guy, introduced everyone he met like this. A Big Shot of white moon City ... Was he afraid that others wouldn't know he was a big Shot?

"Nice to meet you!"

Captain Chen nodded but did not shake hands. Between the strong, it was better to stay away from each other.

After exchanging a few pleasantries, the other party did not hide anything."The ancient academy's guard team isn't big, with a total of 40 people. However, there aren't many who have truly stepped into the ten decapitation realm, only seven of them. Including me, it's 8 people ..."

While registering, Li Hao asked,""Captain Chen, you didn't hit 100?"

"No, just a little bit more."

"She's about the same as the former captain Liu of your law enforcement team," Captain Chen said with some regret," but I heard that she's broken through a hundred?" Is it true?"

"Yes."

"I'm envious!"

Captain Chen was a little emotional and envious. He did not expect to become a super, but he did have the idea of breaking through 100. Unfortunately, he had not been able to do so.

Being able to slay a peak tenth realm cultivator was not considered weak.

However, Li Hao still asked,""We don't even have a single superhuman in the ancient academy?"

"How should I put this ..."

He thought for a moment and said,"actually, there's also one, and he's not an ordinary Starlight master, but a moon underworld master!" This is also one of the reasons why the ancient academy is relatively stable. However, that person hasn't been in the ancient academy recently and has gone to another city.

"

Li Hao nodded and didn't ask further.

He then followed Captain Chen to the guard station to take a look. After a simple inspection, he quickly left the ancient academy.

.....

On the road.

Wang Ming frowned."Li Hao, just a simple check?"

He felt that Li Hao was being perfunctory!

He just looked around and registered. There were no other measures.

Just this?

More secrets could be discovered?

They could discover supers?

You must be joking!

Li Hao smiled and said casually,""They're all martial masters. It's not easy to investigate. Could it be that they're really fighting?"

"Then they should at least bring a super detector. If they don't bring this, who knows if they're hiding something?"

"My teacher is here!"

Li Hao was speechless."Teacher's senses are very strong after entering the thousand warrior dimension. If there's really something wrong with the ancient academy, he'll notice it at once."

It was only then that Wang Ming remembered this, and he was instantly speechless.

Li Hao didn't say anything more. In fact, he just hoped that the other forces in the city would soon learn of this inspection method and feel that he was just being perfunctory and wouldn't take it too seriously.

This way, even if there were supers, they would not leave immediately.

As long as they didn't hide and stayed in the major forces, they wouldn't be able to hide from him!

.....

Sure enough.

When Li Hao and Wang Ming left the ancient academy, some forces received the news.

Li Hao and Wang Ming went to the ancient academy for an inspection perfunctorily.

He didn't check at all, just to show his face. He just registered a little and it was done.

.....

Qiao's mining industry.

In the huge office.

The white-haired President of Mrs. Qiao smiled slightly and glanced at his son in front of him. "It's just a formality, later if someone comes, you go receive them and register, don't be completely perfunctory ... On Mrs. Qiao's side, register everything that needs to be registered! The few ten decapitation realm cultivators and the two Starlight Masters ... Have all been registered!"

Qiao Peng smiled and nodded, "father, I know what to do." Then this Li Hao... Do we need to get in touch with him more?"

"You can make contact with him appropriately ... But don't get too close to him. There are many people watching him now."

"Understood!"

"Are you sure ... There's no problem with Liu Yan?" Mr. Qiao asked after some thought.

"I don't think so!"

Qiao Peng said in a low voice, "it was handled very quickly!" I believe that guy didn't have the chance or the time to say anything to Liu Yan. I've been testing her for the past few years, and although Liu Yan is very impatient with me, she doesn't have that kind of bone-deep hatred towards me ... She's been keeping an eye on the Yama. "

"That's good!"

The president of Mrs. Qiao nodded. He didn't want to deal with Liu Yan unless he had to.

He was the vice-captain of the law enforcement team of the inspection Division, and his relationship with Liu Long was still unclear.

If things got out of hand, it would not be a good thing.

If something really happened to an ordinary patrol, it would be fine. However, Liu Yan was no ordinary person. The other party was a patrol. If a patrol died, even if the night patrolmen were not strong enough, they would still get involved.

#### **Chapter 224: Blizzard Silver city's dark wave (6)**

Her husband was dead, but it wasn't like the patrol envoy of the inspection Bureau had died. The night patrolmen naturally couldn't be bothered to get involved in the feud between her and the Yama. They had done their best by issuing a wanted order.

Qiao Peng saw that his father had stopped talking, so he whispered, "Father, there are more and more people paying attention to the Silver City. "Also, our progress is very slow. If this continues, I'm worried that we'll be exposed."

"No rush!"

...

President Qiao smiled. "You can't eat hot tofu in haste. We have been rooted here for many years. Others can't compare to us." In addition, don't make any more moves there in order to avoid attracting attention. We'll talk about it later. "

"Alright!"

Qiao Peng nodded.

Old master Qiao looked at him for a while and suddenly said, "It doesn't matter if you act a little silly and stupid in front of others. But don't be stupid at the critical moment! On the Yama's side, the Yama's grandson was really dumbfounded! He had been flattered to the point of forgetting himself and was actually bold enough to steal such a precious treasure to show off ... His mind was not clear! It's fine if he's dead, but he even dragged the entire Yama into the mud. Don't learn from him!"

"Don't worry, father!" Qiao Peng's face turned serious.

"En!"

"That's good." Old master Qiao nodded. "Also, don't complain about being suppressed all these years and not allowing you to become a superpower." You've only developed your superpower for 20 years. It was unstable before, but now ... It might be stable. When this is over, you can advance again. By then, it won't be over with just a month. "

Qiao Peng was overjoyed and quickly nodded.

This was what he had been looking forward to!

All these years, he had not been able to become a super. On one hand, he did not dare to be too flamboyant, and on the other hand, his father had been suppressing him, not allowing him to become a super.

"Father, then ... Then after I advance, I can take some things from there ..." He could not help but ask.

"Shut up!"

Old master Qiao's face turned cold, "I just reminded you and you forgot?" Stupid! Forget about this, forget about everything else. Remember, we're just a company, a legitimate company, and we're only mining. Forget about everything else!"

"Understood!"

Qiao Peng's face was solemn, and he didn't dare to say another word.

In his heart, he was a little expectant, a little excited, and a little unwilling ... After working hard for so many years, was his father really going to hand over all those things to someone else?

Of course, they could not afford to offend the Yama.

However, they might not know what they had discovered.

The central region had restricted too much of their power.

If not for that, be it the red moon or the Yama, there would have been experts coming over long ago.

The secrets of the eight great families were more mysterious than he had imagined.

As a local snake that had taken root in Silver City for many years, Mrs. Qiao's information might not be less than Red Moon's, but she also hid many things.

Qiao Peng slowly backed out of the office as he thought about this.

In the office, old master Qiao looked out the window and was silent for a while. Suddenly, he said, "Be careful. Get close to Li Hao and see if there's anything special ... Don't let him discover you. Maybe ... We need his blood to open that place."

"Too many people are watching him!"

In the dark, someone replied softly.

"I know. That's why I'm just taking the chance to observe him when he comes. I'm not going to do anything now."

Old master Qiao said tiredly, "it's been a few decades. I'm not willing to give up just like that ... Although I know that if I really do it, I'll be pulling chestnuts out of the fire ... Don't forget that the development of superpowers has only been 20 years. It's not like there's no chance of catching up! If it had developed for a few hundred years, I'm afraid I wouldn't have had any thoughts about it. "

In the past 20 years, the superpower organizations had been constantly changing. Some organizations were established today and destroyed the next.

Everything had not stabilized yet!

Even the three major organizations did not mean that they were impregnable.

At this moment, everything was possible.

Old master Qiao did not have such great ambitions to be able to go against the three major organizations. He only hoped that his side would be able to make up for the efforts they had made over the past decades.

"Understood!"

The voice in the dark disappeared.

Old master Qiao lay on the chair alone and continued to look out the window.

The eight great families ...

Silver City!

He was afraid that everyone had underestimated the Silver City and the eight great families. From the information he had obtained, he could tell that the eight great families during the ancient civilization were beyond imagination!

At that time, the Silver City might have been the absolute core of the entire earth!

Whether or not the Qiao family could rise up would depend on all of this.

## Chapter 225: Mrs. Qiao (1)

Li Hao visited several shops in the afternoon.

It was almost all perfunctory.

They would meet face to face, notify each other, and make a simple registration. When they felt that they needed to be checked strictly, they would just go through the motions and take a look.

...

Wang Ming was about to die of anger!

Just this?

And you said you'd make a contribution to your father!

To investigate the strongholds of the three major organizations?

He was now seriously suspecting that Li Hao's purpose was just to eat and take.

That's right, this guy didn't do much. He did receive some things, but they weren't anything good. They were just some specialties from some companies and Martial Arts Centers. This guy didn't reject anything!

All of them!

In the car.

The next stop would be the last stop of the day, the Qiao's mining.

Wang Ming's face was cold.

He didn't like Li Hao's style, so he didn't want to talk to Li Hao on the way.

Li Hao, on the other hand, took the initiative to start a conversation. "Old Wang, don't be angry. The tea leaves from that shop just now are pretty good. You can get half of them later."

"Don't!"

Wang Ming replied coldly.

He was an expert of the full moon Dark Moon, and he didn't come with Li Hao for some tea leaves. He wanted to make a contribution, not use the name of a Night Watcher to do something like that, like Li Hao did!

If you're really greedy for a few dozen or a hundred cubic meters of mysterious energy, I'll still think highly of you.

Good fellow, you're greedy for so little tea leaves, fruits, and so on. Isn't it embarrassing?

Li Hao laughed. "You don't understand. If you accept it, everyone will feel fine. If you don't, they'll feel bad." Silver City is just a small place, and we'll see each other all the time. It's not a big deal, so there's no need to make things unpleasant. This is how the grassroots work."

"Bullshit!"

"You have to remember that you're not a third-level patrol inspector now, you're a patrol envoy!" Wang Ming was a little annoyed. You're the deputy head of the night patrol's branch in Silver City. You're a high-ranking member of the Silver City. There are no more than five people in the entire Silver City who have a higher status than you! You're like a little wimp, even if you don't find it embarrassing, I do!"

"Forget about the ancient academy," Wang Ming angrily rebuked, "that's where your teacher teaches. It's an Academy, a Palace of knowledge! It's fine if you're polite. As for those small dojos and companies, they were nothing. In the eyes of the night patrolmen, they are nothing!"

Li Hao laughed. "You can't say that. Even if you become a super, you can't look down on ordinary people."

"Get lost, I don't want to talk to you!"

Wang Ming drove gloomily in a bad mood.

Li Hao laughed again. "Don't misunderstand," he said in a low voice. "I'm just trying to lower their guard and get more clues."

"Hehe!"

Wang Ming sneered, "what did you find?" Tell me about it!"

Li Hao sighed and took out his notebook. "In the afternoon, we went to the ancient academy. There were six dojos and a big company, the Milky Way group, making a total of eight. One martial artist with a record of over 100,24 people who have cut Ten Realms, and two star light Masters, right?"

In the afternoon, 27 transcendents were registered.

The ancient academy had eight tenth severing cultivators.

The remaining companies had 19 transcendents. The 100-plus martial masters and two Starlight Masters were all from the same company, the Galaxy group.

The Galaxy group was also a big group, no worse than the Qiao mining company.

The other party's main business wasn't mining, but car manufacturing. Silver City wasn't the headquarters, but a branch. Even so, the other party had registered more than 100 martial masters, which showed how strong these big companies were.

With over 100 martial masters, he was still very powerful.

Wang Ming nodded slightly, but he was still very dissatisfied. "This is only for registration. Are you sure they're all registered? Let's just talk about the Galaxy group. They're one of the top companies in the Silver Moon province. Even if it's just a branch, I don't believe they don't have a single Dark Moon super. Do you believe that they only have two Starlight Masters?"

He didn't believe it!

Yue Ming wasn't weak, but that was only in comparison. This time, three Yue Ming-ranked night patrollers had come from the Silver City.

A big company like the Galaxy group did not lack money or connections. In this day and age, money was useless, but with enough money, one could become a God.

The Galaxy Corporation even had a partnership with the night patrolman headquarters. However, the other party only had two star light Masters in the Silver City branch!

He would never believe it!

However, Li Hao didn't do a detailed investigation at all. Wang Ming, on the other hand, suggested taking a look around and even suggested using super detectors, but Li Hao didn't agree, which made Wang Ming so angry that he was about to explode.

Wasn't this a scam?

Even though he didn't approve of Liu Long's arrangements and felt that it wasn't necessarily a good thing to thoroughly investigate the strength of the various clans, since he had already done so ... He couldn't afford to be fooled.

"What a righteous guy!"

Li Hao smiled in his heart, but he didn't show it on his face. He said softly, "Don't worry, you don't understand. We're just the sentries to attract attention! In fact, we have other arrangements. We'll be responsible for attracting their attention, and someone else will investigate."

"Really?"

"Are you lying to me?" Wang Ming was suspicious.

Who are you trying to fool?

I didn't feel anything strange about this guy. Don't try to lie to me.

Moreover, the entire team, even Liu Long, would not be able to silently investigate these large companies. It was impossible. Many of these companies had actually installed super detectors.

Although martial masters were difficult to detect, their abilities were limited. They were not like superpowers that could fly in the sky and burrow underground. As long as the security was slightly improved, martial masters often had no way of detecting them.

## **Chapter 226: Mrs. Qiao (2)**

"It's true!"

Li Hao nodded seriously. "Of course, it's a secret. It's mainly because you've been complaining, so I had no choice but to reveal it to you. Actually, this matter had nothing to do with you. It's not within your jurisdiction."

“But now, I have to say that you’re the third person to know about this. If you leak the secret ... Wang Ming, you’re a traitor!”

...

Wang Ming’s heart thumped, and he said uncertainly, “What do you mean?”

“There’s actually a tenth person among us night patrollers!”

Wang Ming was startled. The tenth person?

“On the surface, there are only 9 of us. In fact, there’s a high-level hermit in the dark, but I can’t tell you the specific identity. You just need to know that this person exists. ”

Wang Ming wasn’t too sure, and he wasn’t that easy to fool. He frowned. “Really? I’m the Deputy Minister, how come I don’t know anything about this?”

“You can make your own judgment!”

Li Hao said calmly, “I’ll say what I said today. I won’t admit it when I get out!” Even if you tell others that I did, I won’t admit it. Otherwise ... I’ll be a sinner! The identity of this tenth person is special, and it’s not convenient for him to show his face. However, he’s very powerful and is an expert in gathering information. ”

“According to his investigation, some forces are indeed hiding some things today. For example, the Milky Way group not only has a moon Hades master, but there are also three moon Hades Masters!”

Wang Ming’s face changed and he asked in a low voice, “really?” How do you guys keep in contact? I didn’t notice it at all. Li Hao, are you lying to me?”

“It’s true!”

Li Hao nodded seriously, “as for how they contacted each other ... I can’t say!” We naturally have our own methods. You’re not considered our trusted aide yet. You should know that you’ve only been here for a few days. For me to tell you so much, I’ve already broken the rules!”

Wang Ming understood!

He was originally a spy of the demon hunting squad!

But ... Was the other party so powerful?

He couldn’t believe it. Frowning, he looked at Li Hao again. Li Hao reminded him, “Drive properly!”

Wang Ming quickly came back to his senses and immediately continued driving, still in disbelief. “Are you serious? are there really three moon Hades Masters hidden in the Galaxy group? To be honest, there are quite a few Dark Moon elites now, but they’re mainly concentrated in the various large organizations. There aren’t many idle ones. I think it’s normal for one to be in a branch, but three ... That’s not normal. ”

“It’s true!”

Li Hao thought for a moment and said, “moreover, one of them is about as strong as you.”

The main thing was that the light orbs were about the same size.

Li Hao also discovered that he could see the orbs of light as long as they were not too far away from him.

Of course, different powers could see at different distances.

For example, he could see the three yang level from a few thousand meters away. He could still remember the huge ball of light.

As for the sunlight, it could be seen within a thousand meters.

As for Yue Ming, he could only see the ball of light about 100 meters away.

As for the Starlight division ... Li Hao could only see the faint Starlight when they were close enough. It was like a spark, very weak, so ordinary superpowers couldn't hide from Li Hao.

There were indeed three moon Hades in the Galaxy group, and one of them was even a full moon.

Wang Ming frowned. At this moment, he didn't think that Li Hao was bluffing. Perhaps he really was deliberately attracting the attention of others to create an opportunity for the tenth person in the dark.

However, there was something he did not understand, 'what is this person's strength? he can quickly determine the other party's strength without alerting the other party? Could it be an investigative type? That means he's at least at the Dark Moon level!'

This was the least they could do!

Since when did the demon-hunting squad have a conversation with such a super?

The detective element was still very important, and many organizations liked to recruit them.

Among supers, assault-type supers were not really valued, mainly because there were too many attack-type supers, and it did not matter if there were a few more. On the contrary, supers with special abilities were paid more attention.

For example, Li Meng and Hu Hao were actually more valued.

Although their status wasn't as high as Wang Ming 's, they were actually young talents among the night patrols. Otherwise, they wouldn't have been arranged to protect an important figure like Yuan Shuo.

Li Meng had the third eye and could see through many things that others could not.

Hu Hao could fly, and the position of a soaring super would drop a lot after the level of the sun glory, but before that, they had always been the most important strategic resource.

Supers were generally able to fly when they reached sunlit.

Of course, it would not be too far.

Only when it came to the three suns, when the mysterious energy was sufficient, there would be almost no difficulty in flying.

Li Hao had said that he might have a super who was proficient in both stealth and scouting, so Wang Ming naturally took this very seriously. This was information that even the higher-ups might not know.

At this moment, he felt a little uncomfortable.

Li Hao ... Was so honest that he dared to say anything.

If Liu Long were to find out about this, he would be in deep trouble.

Of course, he, Wang Ming, wasn't a gossipmonger.

"I can't say too much," Li Hao said in a low voice. "I only know that this person can provide us with a lot of information! Old Wang, don't ask too much. I'm only telling you this because we're on good terms, and you're a man of justice ... If you leak this, I'll be in big trouble."

"Don't worry!"

He nodded, but he was still a little uncertain. "Are you sure the information is accurate?"

### **Chapter 227: Mrs. Qiao (3)**

"One hundred percent!"

Wang Ming took a breath.

The Galaxy group alone had three moon nether's in hiding and one at the full moon level. What the hell was going on?

...

Huang Yun had told him to come here, and he had also said that there might be some trouble here ... But he hadn't thought much of it before, but now he suddenly felt that the Silver City was not safe.

"In all the major forces, sunlight is a high-level force and will not take risks rashly! Existences at the full moon realm are all working hard to enter the sunlit realm. Therefore, the number of active powerhouses today is usually limited to a full moon!"

After explaining to Li Hao, he quickly said, "If there is really a full moon level ... Then the Galaxy group's purpose is not pure! Just for self-protection, one Yue Ming is enough. Under normal circumstances, others won't rashly attack these big companies!"

Li Hao nodded.

At that moment, Wang Ming was quiet.

Li Hao didn't say anything else.

The car slowly came to a stop.

They had arrived at the Qiao's mining headquarters.

.....

At the front desk.

Li Hao's group wasn't barred from entering. The front desk made a phone call, and Qiao Peng quickly led a few staff members downstairs to receive Li Hao and his group.

"Patrol li!"

Qiao Peng looked like he was in his thirties, which was considered young.

If one were to ignore the embarrassing state he was in when he was handcuffed by Liu Yan yesterday, he would still look like a promising young man.

At this moment, Qiao Peng was wearing a formal suit and was quite tall. He greeted Li Hao with a smile, then looked at Wang Ming and said with a smile, "Sir, what's your name?"

Li Hao wasn't as kind as the previous families. He said impolitely, "Minister Wang! A Big Shot from the White moon City! President Qiao, your Qiao's mining company is well-informed, surely you know about it?"

Wang Ming was a little surprised. Li Hao was a very kind person, and the first few companies had all been very polite. Even if the Galaxy group had hidden the information, he hadn't said anything.

Why did his face turn black when he arrived here?

Qiao Peng didn't mind and smiled. "Investigator li, my Qiao's mining industry only has some Foundation in the Silver City. Whitemoon city is a big city, and our Qiao's mining industry is only average there ... How could we know too much about a transcendent organization like the night patrolmen? you've overestimated me."

When he saw Wang Ming's puzzled look, he quickly explained, "I have some misunderstandings with patrol li. It's mainly because of Captain Liu. I'm over thirty years old, and my father has been urging me to find someone to marry. My taste ... Is a bit high. In the huge Silver City, to be honest, I only like Captain Liu. Yesterday, Captain Liu was a little unhappy with me. If patrol li saw it, he would probably think that I'm a bit embarrassing for being clingy. "

He spoke so frankly that Wang Ming seemed to understand something.

Liu Yan and Li Hao ... In any case, during yesterday's meal, there was something unusual between Liu Yan and Li Hao. Liu Yan's words often made people's imagination run wild.

He finally understood why Li Hao was unhappy.

Li Hao, Oh Li Hao, you ... Liu Yan should be 30, right? you're only 20. You really have the heart to do it ... That's right, men all like this, especially young women.

He seemed to know the key point and smiled. "President Qiao, I'm fine! As long as it's a proper and reasonable pursuit ... Of course, I believe that President Qiao won't do anything inappropriate. Captain Liu is the beauty of our Inspection Division. If she really did something out of line, we won't let it go!"

After saying that, he gently nudged Li Hao.

Li Hao's face was still a little unhappy, but he didn't say much. He said coldly, "Alright, this is a matter between you and sister Liu. I won't get involved! But, I'm warning you, don't think that you're so good just because you're the Vice President of Qiao's mining! Now, there are some things that you all know very well. It's not the era where money is everything, so you better be honest!"

Qiao Peng helplessly spread his hands, "this is a big misunderstanding. Of course, if inspector li feels that it's inappropriate ... I'll withdraw?" But ... That's not good. I think it's best to have a fair competition when it comes to love. "

Li Hao's face was cold, "who wants to compete with you fairly?" If you continue to talk nonsense, I won't be polite to you!"

"Then just take it that I'm talking nonsense, don't be angry!"

Qiao Peng laughed. "Patrol li is young and promising, and we're all people of Silver City. There's no need to be like this. If I've done anything wrong, I'll treat you to a meal if you have time. Some things are all in the wine!"

"Let's talk again!"

Li Hao was not too polite. He said coldly, "I want to register the information of all the extraordinary martial masters and supers. Your Qiao's mine is a big business. Don't say you don't have it!" In addition, I'm going to inspect all the stores, mines, and office buildings of your Qiao's enterprise! In addition, I've already sent someone to deliver the Super detector, don't think you can hide it from me!"

"All of them need to be registered. Anyone who isn't on the register will be regarded as a criminal!"

"....."

Qiao Peng cursed in his heart. He was using a chicken feather as a token of authority!

He had inquired about this guy in the previous few shops and they were all just going through the motions. Good Lord, now that he was here, he was patrolling and had a super detector.

Of course, it seemed normal for one to be in the prime of one's youth and gain power overnight.

And it was for Liu Yan!

As expected, it was the hardest for such a young man to resist a mature woman like Liu Yan. He cursed in his heart, "these two B \* stars might have already started rolling around in bed. What a slut!"

However, it was also because of this that he felt that Li Hao was too unscrupulous.

The targets were all on the face!

#### **Chapter 228: Mrs. Qiao (4)**

This kind of person was easy to deal with.

If they really met and let go of all grudges with a smile, he would feel that it was inappropriate. As a man, he understood men too well.

If there were other men pursuing his woman and pestering her ... He would not be polite!

...

The more this was the case, the more at ease he felt.

This also proved that Liu Yan really didn't know anything. Otherwise, she would have advised Li Hao not to go against her and secretly target him.

His expression did not change as he thought of this, but he also revealed a slightly helpless look. "Patrol Li, is there a need to do this? They're all from our hometown. I heard that ... You went to the Milky Way ..."

Li Hao said coldly, "the Milky Way is the Milky Way, and the Qiao Corporation is the Qiao Corporation!" President Qiao, I have reason to suspect that you are hiding some fugitive. I'm a local, so I know the mine very well. The mine is underground and there are no strangers all year round. It's easy to hide criminals in these places!"

"If you say this to me again, I'll directly place the Qiao's as a key observation target!"

With power in his hands, Li Hao could turn on the heir of a large corporation at any time.

Qiao Peng had also learned some information about Li Hao, but he still couldn't help but curse.

A dog taking advantage of its master's power!

Previously, he was honest and well-behaved, but now that he had gained power, he changed his face faster than turning the pages of a book.

He showed slight dissatisfaction, but it was not too obvious. He nodded reluctantly and said, "Alright, you can investigate! However, I must remind patrol Li that Silver City isn't a place where some people can do whatever they want ... Patrol Li, you shouldn't ruin the reputation of the Nightwatchers!"

Li Hao snorted in disdain.

He didn't waste any time and directly entered the elevator. He said to Wang Ming, "Minister Wang, keep an eye on the ground and don't let anyone leave! I'll go through them layer by layer with the Super detector. I'll check their headquarters first, then go to the mines and retail stores. "

"You come with me!" He turned to Qiao Peng.

Qiao Peng frowned but didn't say anything. He brought the others and entered the elevator with him.

The Qiao's headquarters was very tall, with a full 30 floors. In the current Silver City, it was considered the highest building. There weren't many high-rise buildings in the Silver City, and under normal circumstances, most of them were five or six stories tall.

He went straight to the top floor.

Li Haozen took out a super detector. It was not small, slightly bigger than a watermelon. There was a display on it, and once there were super fluctuations, it would show a red dot.

Li Hao turned on the switch. This thing also consumed mysterious energy, and under normal circumstances, it wouldn't be used easily.

"There's a reaction!" Li Hao said with a frown as soon as he opened it.

Qiao Peng said helplessly, "investigator li, our Qiao's never said that we don't have supers. The Qiao's have supers, and not just one, but three Starlight Masters. I'm not trying to hide it. You just won't listen to me."

Li Hao was a little embarrassed, but he quickly regained his indifference. "I said there's a reaction. Why are you so excited?"

After saying that, he frowned slightly and looked at the Super monitor. "You have three Starlight Masters?"

"Right!"

"But there are eight red dots on it ..."

Qiao Peng laughed, "do you think I don't know anything, inspector li?" This super detector can only detect the Super energy fluctuations within its range. It can't tell how many people there are ... What eight red dots, are you sure you're not seeing things?"

Li Hao was even more annoyed, what do you know! This is the night patrolman's latest super detector. If I say eight, then eight. Qiao Peng, don't be so cheeky with me, I'm watching you!"

"As you wish!"

As they spoke, the elevator stopped and they reached the top floor.

There were only two large offices on this floor.

One of them belonged to Qiao Peng, and the other was his father's.

Li Hao went straight to the Office of the President of the Qiao 'S. Qiao Peng frowned and said, "That's my father's office. He's busy. Li Hao, don't go too far ..."

"Cut the crap!"

Li Hao was a little arrogant. He lowered his voice and said, "Qiao Peng, you and I had no grudges! However, your mistake was that you shouldn't have kept harassing sister Liu! Her husband died in your mine, and I didn't even bother to say anything. You, on the other hand, killed her husband and still dare to target sister Liu. Let's wait and see!"

Qiao Peng cursed under his breath and frowned. "You can't just say things like that. Li Hao, don't slander me. That was an accident. The inspection Office has already concluded the case."

"Hmph!"

Li Hao pushed the door open and entered. At this moment, an old man in the office raised his head and looked at Li Hao.

He then looked at Qiao Peng with a questioning look.

Qiao Peng quickly stepped forward and whispered a few words to the old man. The old man stood up and laughed, "Nice to meet you, patrol li! I'm quite familiar with your teacher, professor Yuan. I didn't expect to see you here, inspector li. You're indeed professor Yuan's favorite student."

"You're too polite!"

Li Hao barely managed to reply. He walked around with the detector and didn't make any small talk.

The old man didn't stop him. He just looked at Li Hao with a smile.

At this moment, Li Hao's heart was in turmoil!

He really didn't notice anything outside.

He had noticed that there was an expert in the Qiao clan, even as soon as he had entered the door. That guy was very bold and was just nearby Qiao Peng. He was a moon Hades master, and he felt that he was a little stronger than Wang Ming, possibly on the level of Yue Ying.

Of course, even so, Li Hao didn't lose his composure.

However, at this moment, he was a little out of control. However, he took the opportunity to investigate and frowned, so it was not obvious.

### **Chapter 229: Mrs. Qiao (5)**

The one who had lost his composure was the old man in front of him, Qiao Peng's father.

Blizzard Silver city's business legend, Qiao Feilong.

A legendary entrepreneur who was over 70 years old and built the Qiao's mining industry from scratch with his bare hands.

...

Li Hao didn't even lose his composure before he pushed the door open.

However, when he saw the other party ... He was so shocked that he broke out in cold sweat.

A ball of light!

Yes, it was a ball of light that was almost invisible through the door.

The moment he opened the door, Li Hao felt like he was going blind.

++!

Li Hao felt that the ball of light was slightly weaker than Divine Master Duan Tian, but not by much.

Three yang?

Peak of the sunlit realm?

Why couldn't he sense it from the outside? it should be known that this ball of light couldn't be blocked by matter. It was a kind of overflowing energy, and Li Hao could see through it.

But he didn't see it before!

What did this mean?

It meant that the old man in front of him had completely concealed his energy fluctuations. Li Hao only saw the energy in the old man's body appear when he saw him with his own eyes. Moreover, it hadn't leaked out yet.

His control and concealment of energy had even reached the level of a Martial Master.

However, a Martial master's energy came from their own cultivation, so it was normal for it to be inconspicuous.

However, the energy of supers was almost all external and absorbed. It was impossible to hide it so perfectly ... Unless there was a super item that Li Hao used to hide it!

"Qiao Feilong is actually a powerhouse at the peak of the radiant sun realm or even the three sun realm!"

It was unbelievable!

Li Hao really didn't expect this. He thought that even if the Qiao mining company was a peripheral organization of Yama, Qiao Feilong was only there to help them accumulate wealth.

However, the facts proved that it was not that simple.

Would a peak stage sunlit realm or even a three-sun realm powerhouse be just a simple money-making tool?

It was hidden so perfectly!

Li Hao continued to look around with the detector. He calculated in his mind and was a little shocked.

"Aside from Qiao Feilong, there's still one Yue Ying and three Starlight Masters on the surface ... This is only the headquarters, what about the other places?"

The Qiao family was much stronger than he had imagined.

According to Li Hao's guess, it was already good enough that they had Yue Ming. The peak of the full moon realm might be their greatest trump card. However, because Yuan Shuo was in the city, Li Hao was not afraid of anything.

"Investigator Li, are you done?"

At this moment, Qiao Peng also seemed a little impatient. It would be too fake if he remained indifferent to Li Hao's provocation.

"What's the hurry?" Li Hao said impatiently.

After saying this, he turned to Qiao Feilong and said, "President Qiao, I'm a junior. I shouldn't be so reckless!" But President Qiao is a legend in Blizzard Silver City. I think that President Qiao is too busy with his career and has forgotten to educate his children!"

"What do you mean by that, inspector li?" Qiao Feilong smiled kindly.

"This Qiao Peng!"

Li Hao pointed at Qiao Peng and said, "he's got some guts!" Liu Yan is the leader of my night patrolman operation team, a high-ranking official of the inspector level! This Qiao Peng, he's been speaking frivolously in front of everyone, and has been ridiculing us time and time again!"

Li Hao seemed a little annoyed, "bullying a widow, is that very shameful?" It's true that the night patrolman division has just been established, but it'll be as easy as blowing off dust for me to destroy your Qiao family! Now, with the rise of superpowers and your family's business, if you don't act carefully and let this person cause trouble, I think something will happen sooner or later!"

Qiao Feilong's expression remained the same. After a moment, he nodded slightly. "You're right! Qiao Peng has indeed been pampered since he was born ... So it's because of this. Rest assured, investigator li, Qiao Peng won't bother Captain Liu anymore after this!"

"Dad!"

Qiao Peng was a little displeased. Qiao Feilong said sternly, "You're already in your 30s, but you don't have any sense of propriety at all! Investigator li is young, but I feel that what he said today is extremely reasonable! The rise of supers, you're not thinking of ways to become a superhuman, you're always stirring up trouble for women!"

After saying that, he looked at Li Hao and said, "it's better to squash enmity than keep it alive. Qiao Peng doesn't know his limits. Captain Liu might not be willing to see me. I'll apologize to her on Qiao Peng's behalf. May I trouble patrol li to pass the message on?" Also, prepare a small gift ..."

Li Hao waved his hand. "Forget it. I don't need it!"

"Make your decision after you hear it out, investigator li."

Qiao Feilong laughed, "after all, the Qiao's is a well-known Local Enterprise. The establishment of a branch in Silver City is also a form of protection for local enterprises!" Plus, I also know a thing or two about Captain Liu's matter, her husband died in an accident ... But, after all, he's a member of our Qiao's, so I'm very apologetic to have died in such a way. "

"I know that Captain Liu has been looking for a breakthrough to become a superpower. The Qiao's are not involved in the field of superpowers and it's a pity that we can't let her advance! However, a few days ago, we collected 10 cubic meters of mysterious energy from the White moon City. It was originally for Qiao Peng to advance into a super, but Qiao Peng didn't know his limits. I'm worried that he will cause even more trouble after advancing ... Why don't we give it to Captain Liu as a gift?"

Li Hao had wanted to refuse, but he felt a little embarrassed. After a while, he snorted and said, "10 cubic meters? This ... Isn't this too precious?"

"Human lives are greater than the heavens!"

Qiao Feilong sighed. "It's also good for me to feel a little more at ease. I'm just doing what I can!"

"That ... Sister Liu might not want it ..."

Li Hao was a little conflicted.

"It doesn't matter. If Captain Liu doesn't want it ... Then just throw away patrol li!"

Qiao Feilong sighed and said, "the Qiao family is still able to take out this little bit of things and can afford to lose them." I only hope that Captain Liu can be at ease, and that this old man can be at ease as well. "

### **Chapter 230: Mrs. Qiao (1)(2)**

Li Hao struggled for a while. At this moment, Qiao Feilong gestured, and very quickly, someone came up with a box.

"This box is also an energy storage box that was passed over from the central region! It has the effect of storing mysterious energy, and there are some ice crystals inside. 10 cubic meters of mysterious energy is inside, but it's all fire energy. I don't know if it's suitable for Captain Liu. "

Li Hao subconsciously caught it. It wasn't heavy, but he still pressed his arm a little. He was a little reluctant and conflicted. "This ... Then ... I'll take it? If sister Liu doesn't want it ... I'll return it to you. "

...

"No need. If she doesn't want it, just throw it away!"

Li Hao gritted his teeth, somewhat embarrassed. "Then ... Then I'll keep it. If she doesn't want it, I'll throw it away ..."

"As you wish!"

Li Hao smiled and said hurriedly, "Then I'll have to trouble you this time. President Qiao is my idol, I'm really sorry for being impolite! In the future, when I'm performing my duties in Silver City, I'll have to rely on President Qiao for a lot of things ... As long as Qiao Peng doesn't harass sister Liu, I won't deliberately make things difficult for the Qiao's ... In fact, I didn't want to make things difficult for them, but Qiao Peng went too far!"

At the side, Qiao Peng was cursing in his heart.

How have I gone overboard?

This bastard was greedy for money!

Wasn't it just for women?

Why did he have to find so many excuses? now that he had given her the good stuff, he was still pretending that he was the one who caused the trouble. He was really speechless.

At such a young age, he was already good at using bureaucratic jargon.

As expected of a fellow from the Silver City's ancient Academy. He was so eloquent with his words.

Qiao Feilong also responded with a smile.

Li Hao said awkwardly, "well ... The mine still needs to be checked. But don't worry, President Qiao. It's just a formality. Qiao Peng will accompany me. I'll just watch from the outside. The higher-ups' tasks must be checked properly!" You don't need to bring the Super detector. I believe President Qiao won't make things difficult for me. "

"Of course!"

Qiao Feilong laughed: "patrol li is also a wonderful person. If you have time in the future, you can come to the Qiao's at any time. This Qiao welcomes you with open arms!"

"Then I won't bother you anymore!"

Li Hao walked out happily and said, ""Qiao Peng, you should learn more from the old man. I'll be waiting for you downstairs. Old man, don't be too harsh on him."

"Hahaha, good, good, good, I will teach him a lesson!"

Qiao Feilong laughed heartily. After Li Hao left, he waited until Li Hao entered the elevator and went downstairs before he retracted his smile. He glanced at Qiao Peng and slightly frowned."Acting should also be done in moderation! She clearly knew that Li Hao was interested in Liu Yan, but she still insisted on getting involved. Wasn't this clearly offending him? Go, accompany him to the mine. Remember, don't let him walk around, and you too!"

"Understood!"

"Go!"

Qiao Peng didn't dare to say anything more and quickly walked out.

After he left, Qiao Feilong considered for a moment and said, ""Did you sense anything special?"

"No, it's very ordinary. However, he should have absorbed some mysterious energy. I feel that his physique is not bad, and the toughness of his skin seems to be very good ... He might have entered the tenth realm."

"It's normal!"

Qiao Feilong didn't think much of it. "He's yuan Shuo's student, and he's also absorbed the mysterious energy. With the new five birds book in hand, and it's said that he's also learned the five birds breathing technique, it's only a matter of time before he enters the ten slashing realm!"

"Boss, do you think ... There's something special about his blood?" the man asked in a low voice.

"Maybe it's not just pure blood, but the so-called bloodline ... It needs to be extracted from blood and not just bleeding directly!"

Qiao Feilong said a few words, then waved his hand."Alright, let's put it aside for now! The Silver City is currently unstable, so don't cause any trouble and wait for the right time!"

“Alright,” he said.

The exchange ended just like that.

.....

At the same time.

Li Hao went downstairs, his face full of smiles, but his heart was still in shock.

Was it the three yang?

Now that the teacher did not have the help of the sword, could he kill the three suns?

Also, if he killed this three suns, would he be able to obtain a large amount of mysterious energy?

What system?

He was a little confused. He didn't expect this old man to have hidden so deeply.

“He must have some treasure on him!”

Li Hao thought to himself. Otherwise, he wouldn't have been able to hide the fluctuations of the mysterious energy so well. He didn't feel it at all. It even seemed that he had completely concealed it in his body.

“We've caught a big fish!”

This must be a big fish, Li Hao thought. Besides, he had been staying in the Silver City all this time. Logically speaking, even a god tier master would find it difficult to make a breakthrough if he didn't go out to battle or travel.

For example, Yuan Shuo had been wandering around when he was young, which was why he was able to step into the Qian warrior realm in one day.

Not anyone who had enough mysterious energy could become a sunshine or three suns just by sitting and absorbing it.

“Could it be ... The benefits from my family's ancestral grave?”

At this moment, Li Hao thought of this.

He suddenly felt extremely distressed!

Bastard!

‘This guy must have dug up his ancestors' graves and obtained some benefits. That's why he was able to advance to the peak of the radiant sun realm or even the three suns realm in Silver City. Damn it, this guy took advantage of me. ‘

Moreover, the possibility of this was extremely high.

There was a 100% chance that there was a problem with the other party's mine.

Unfortunately, this was not the time to alert the enemy.

However, this trip wasn't considered a wasted one. He had already discovered Qiao Feilong's strength, and he had also obtained 10 cubic meters of mysterious energy, which could be considered an unexpected gain. This was enough.

"Li Hao!"

At this moment, Wang Ming glanced at Li Hao. Seeing the box in his hand, his eyes moved slightly. "An energy storage box?"
