Chapter 241: The common points of martial masters (4)

In fact, Li Hao didn't even know that his injuries were very serious, because Liu Long really didn't show it.

Seeing that Li Hao wanted him to fight, Liu Long explained the situation to prevent Li Hao from making a wrong judgment. That would be a big problem. In his current condition, he could deal with an ordinary cultivator who had a cultivation base above 100, but he was most likely no match for a full moon or full moon cultivator.

"You have a clue?"

...

Li Hao didn't care about his injuries. Instead, he hurriedly asked.

Liu Long nodded his head slightly, "the ninth form. I've done some research. The first fold of the ninth form is stronger than the first fold!" The source is actually very clear, wave!"

Liu Long had taught Li Hao nine forms of internal energy, so he didn't hide it from him. "Have you ever seen the sea?"

Li Hao shook his head.

Silver City had no sea!

"Then if you want to see it, there's one near White moon City. I've seen the sea."

Liu Long recalled, "on the beach, when the waves come, there will be small waves at first, then the waves behind will push the waves in front. Every wave is about the same. However, when the two waves overlap, it will produce a more powerful destructive force! When multiple waves overlap, they can even create a tsunami ... That's the might of the heavens!"

Liu Long was a little scared, "I've seen it once before, a wave that was over a hundred meters tall!"

"Originally, it was just an ordinary wave, but with the help of the wind, it's like our blood is flowing. The inner strength is superimposed, and a series of waves are superimposed ... That time, a wave of over a hundred meters was set off, directly smashing a Boulder into pieces and sweeping across the entire beach."

"At that time, I was still in the tenth realm, but I felt that I couldn't survive in that kind of environment."

Liu Long sighed, "when your teacher talked about" Shi,"I thought of the" Shi "from that day!" That's right, the ocean waves were monstrous and had the power to destroy everything! I wanted to imitate the overlapping waves and break through them like a hot knife through butter ... Unfortunately, my body doesn't allow me to do that!"

He shook his head and said, "I've never used the nine-layered technique because my body doesn't allow it. But now I'm thinking if I use the nine-layered technique, will I be able to sense the nine-fold force?" It's a pity that I realized it a little too late. "

He was a little regretful. "But I'd like to try. I'll recuperate for a while. Perhaps I can use the mysterious energy to recover." Li Hao, you have to remember that when you can do nine ghost layers, you'd better go see the real ocean and see the real waves!"

"Can you complete the double-overlap now?" he asked.

He had never asked about it, but he felt that the chances were not high. Li Hao had only been exposed to the ninth-forging force for a short time.

Li Hao grinned!

Liu Long was startled. "Can I?"

Li Hao didn't say anything. He just punched out, and his internal strength was stacked. Almost instantly, two layers of explosive power burst out. He didn't use any internal strength, but just simply punched out.

Bang! Bang!

With a soft sound, Liu Long also made his move and grabbed his fist. However, his fist trembled slightly and his body swayed a little.

"You've learned it?" he was a little shocked.

Did he really learn the double overlapping?

It was too fast!

As for the dog, he quickly did three ghost images. Liu Long didn't pay too much attention to it. A dog that was about to become a spirit was still a very demonic existence.

But Li Hao was a living person!

He learned it so quickly?

Li Hao smiled. Do you want me to triple it?

Forget it, I'm afraid Captain will be scared to death.

At this moment, one more [level 100 +] and one more [triple layer] didn't have much of an impact on the battle, or Li Hao would have said the same thing.

However, the impact wasn't big ... It didn't matter if he told her or not.

"A genius!"

This time, Liu Long was really sincere in his praise, "you can actually use the double overlapping, that means ... You've reached the late stage of the tenth severing realm ... This ... Is too fast!"

The maximum number of slashes for the tenth realm was three layers.

Li Hao was able to do the double overlap without much pressure. Clearly, he was in the middle to late stages.

“Boss, that’s not important.”

“It’s very important!”

“It really isn’t important.”

“Boss,” Li Hao said in a deep voice, “my teacher has a treasure that can help heal people. It has a special effect. If your injuries are healed, do you have any hope of advancing to the warrior Qian stage?”

“My injuries are not ordinary ...” Liu Long frowned.

“Is it more serious than my teacher’s injury? His heart was almost pierced through. ”

“.....”

She was speechless.

At this moment, he remembered.

That’s right, Yuan Shuo’s heart had been broken back then. In the end, he had actually recovered and even advanced in rank. Everyone had thought that he had some special means or that he had slowly recuperated.

Now that he heard it, it was the effect of the treasure?

“If your teacher’s heart injury can be healed, so can I, but ...”

“No buts!”

Li Hao said solemnly, “as long as boss says that you are confident in advancing to the Qian warrior level, I can call my teacher to protect you and help you heal. With two Qian Warriors, it’s time to let people know that the Silver City’s Nightwatchers are powerful!” We’ll kill the chicken to warn the monkeys!”

This guy was more like a Minister than he was.

Liu Long muttered in his heart. He then looked at the serious Li Hao and slightly hesitated.

Li Hao said in a deep voice, “boss, Martial Master, when you enter the Qian dynasty, you must press forward with indomitable will!” It’s impossible to succeed if you’re overcautious and indecisive. This is what my teacher said, and I’ll take it as a wise saying. I’ll give this to boss too!”

“Press forward with indomitable will ...”

Liu Long’s eyes flickered, and in the next moment, he raised his eyebrows slightly, “If I can successfully heal my injuries, I’m confident! My physical fitness has actually met the requirements. After all, I’ve absorbed a lot of mysterious energy. What I’m lacking is the comprehension of force, as well as my old injuries, so I can’t use my full strength. ”

“If I can recover from my injuries ... And if your teacher is willing to guide me at the critical moment, I will definitely be able to advance to the Qian warrior realm!”

Chapter 242: The common points of martial masters

At this moment, he was suddenly bursting with confidence!

Li Hao wasn't making things up. For a Martial Master, stepping into the universe of fighters was an indomitable will. If one didn't think that there was much hope ... Then there was really no hope, because one's Shi would never be successfully established.

He thought of the waves that day.

...

All-conquering!

It was originally just water, extremely soft and gentle, but at that moment, it was like a cannonball, pressing forward with indomitable will and never retreating. Once it retreated, the momentum of the waves would dissipate and return to the sea, turning back into soft water.

At this moment, Li Hao suddenly laughed. "Boss, if you can enter the Qian warrior realm ... That day, my teacher entered the Qian warrior realm and guided me to the tenth severing realm with force. You and I both cultivate the ninth refinement force. Perhaps this time, boss's advancement will be of help to me. This is a win-win situation."

"If I improve, I think my teacher wouldn't mind putting in more effort. After all, I'm his last disciple!"

He cultivated the five birds technique together with Yuan Shuo and the ninth refinement force together with Liu Long.

As a result, Li Hao could sense and guide both forces. As for the others, they were not martial masters, so they could sense a thing or two, but it wouldn't be of much help.

Therefore, this was not a lie.

Li Hao felt that Liu Long's success would be of great help to him when he stepped into the thousand warrior realm in the future. To him, it was a once-in-a-thousand-years opportunity to comprehend two kinds of thousand warrior power in advance.

Liu Long's expression was solemn, "I have not accepted any inheritors. The ninth refinement technique was almost lost in my generation!" You've already learned the second-tier power...It's not convenient for me to take you in as my disciple, but you're indeed the Liu family's descendant! If you can advance to the warrior power stage, I will not hide the ninth-refinement force from you. "

He didn't have a successor!

And now, Li Hao was the Liu family's martial arts inheritor. Since he was the inheritor, he should let him experience the power of the ninth-form force.

He added, "also, if my injuries are healed, I can advance to the thousand-man combat stage ... When I said that I was no match for your teacher, I was just saying that I was injured!" Also, I'm not as well-

rounded as your teacher, but the explosive power of my ninth-refinement force is something your teacher can't compare to!"

He was suddenly filled with confidence, "nine-fold force, nine-fold in one go!" "When your teacher killed the three suns, he might have used some powerful extraordinary items, but I ... Might not need them! I'm confident that I can break through the three suns "defense. Of course, I'm inferior to your teacher in other aspects."

He didn't mind exposing his shortcomings, but he didn't want his family technique to be looked down upon, especially by Li Hao.

Li Hao had inherited two cultivation techniques at the same time. He wanted to tell Li Hao that although his teacher was strong, he was strong in all aspects.

And I, Liu Long, am strong in my attacks!

Li Hao's eyes flickered. Break through the three-sun defense?

Really?

On second thought, it might be true.

After all, nine-folds of the ninth-refinement force might not be much worse than a saber. It was true that his teacher was all-rounded, and the five birds technique was all-rounded, but his teacher had also said that he wanted to practice the ninth-refinement force to have an extremely strong explosive power!

Of course, Yuan Shuo had never mentioned that he wanted to learn it.

Martial masters placed great importance on these inheritances. Even if they knew that both sides complemented each other and would become stronger after learning it, they would not rashly learn other people's cultivation techniques.

"Boss, why don't we try it?"

Li Hao was interested and excited. "As long as we succeed this time, not to mention boss, if we kill the other party, even if it's just to strip the mysterious power, in our team, sister Liu, Chen Jian, and Wu Chao all have hope of stepping into the realm of superpowers! With more than 1000 cubic meters and three sunlit experts ... It's even possible to extract 2000 cubic meters of mysterious energy. "

Killing people to seize the mysterious energy was the stupidest move.

However, to poor people like them, this was the most direct and straightforward way. 2000 cubic meters of mysterious energy was an astronomical sum to them.

At this moment, Li Hao quickly calculated.

The teacher would deal with Qiao Feilong, and the captain would deal with the three sunlit Warriors ... They weren't going to deal with them alone. Li Hao even thought that it would be best if everyone moved out together and used firearms to suppress them first. It would be best if they could injure the other party.

When the other party was fleeing, they were the easiest to kill.

If he succeeded, the strength of the entire Silver city's night patrollers would greatly increase.

As for using firearms, it wasn't a big problem. As long as they got rid of these people before other powerhouses sensed it, no matter how many firearms were used, no one would care too much. Moreover, people who could be killed by firearms wouldn't think too much about it.

The truly strong would not be killed by firearms unless the time and place were similar.

At this moment, Liu Long also felt a surge of emotions.

Kill three suns, kill sunlight!

Dou Qian!

His mouth was dry, and he glanced at Li Hao, feeling a little dazed.

A few days ago, he felt that it was extremely difficult to kill Yueming.

But now, this kid was inviting him to kill sunlight and three suns. Am I crazy or is this guy crazy?

Sure enough, just as Liu Yan and the others had said, Li Hao was an extremely perverted guy.

"How about this, give me three days!" He said.

Liu Long said in a deep voice, "if I can successfully advance in rank within three days ... We'll think of a way to kill them all by ourselves!" "If I can't and can't delay, Qiao Feilong must have a goal. I can't let him do as he pleases. If I can't advance successfully in three days, I'll look for Minister kui!" Of course, you have your concerns, and I understand that. But Li Hao, you have to remember one thing. If you have the life to take it, it's yours. If you don't ... Then nothing will be yours. "

These words were exactly the same as Yuan Shuo 's.

Chapter 243: Common points of martial masters (6)

At this moment, Li Hao suddenly felt that the thinking of martial masters was actually very similar.

If Liu Long wasn't in the inspection Office, he would be a devil in the outside world.

However, martial masters had strong self-control. They gained strength step by step and did not lose themselves because of great strength. They knew what they wanted and what they wanted.

...

Li Hao compared martial masters and supers. The biggest difference between the two was their faith!

He realized that a Martial master's conviction was perhaps more clear and more sufficient!

He hadn't come into contact with many supers, but for someone like Wang Ming, he actually didn't have much faith in him.

Three days!

Liu Long felt that he could break through within three days. If he couldn't, he didn't have much hope. At that time, it would be best to let the night patrol handle it.

Li Hao nodded and agreed! Boss, there's no time to lose ... How about we go and see my teacher now?"

"No rush!"

Liu Long laughed,"it's too eye-catching!" You've already been there a few times today. It's not appropriate for you to go again. "

"Besides, I also need to prepare. How about tomorrow?"

"Tomorrow, I'll visit Yuan Shuo openly, give him an invitation, and invite him to attend the founding ceremony in three days!"

Liu Long laughed."Three days later, we'll invite everyone to attend the ceremony. It'll be a good time to divert everyone's attention and lower Qiao Feilong's guard. He's not a super, so he's not on our invitation list. That day will be the best time to kill him!"

He had even set the time!

Liu Long continued,"the inaugural ceremony will be held at night!" Night patrollers are only suitable for business at night, so they can eliminate all unexpected factors in the city!"

It was also a good time to kill at night.

Li Hao nodded.

At this moment, he didn't say anything more and turned to leave. Suddenly, he turned back and said,""Boss, aren't you worried that I'm only lying to you and that the other party might be even stronger? or that after we kill Qiao Feilong, teacher might make a move on you?"

Liu Long, aren't you worried about this?

Wasn't he afraid that his side would kill him to silence him?

Liu Long sneered,"I'm afraid of this?" If I was afraid of this and that, I would have died long ago! I, Liu Long, was able to make a name for myself in the Silver City because I trust people!"

If he didn't believe it, he would believe someone. He wouldn't doubt it.

It was also because of this that he did not kill anyone when there was an internal incident in the law enforcement team. It was mu Sen who helped him clean up the mess.

Liu Long's strengths were obvious, but his weaknesses were also huge.

At this moment, Li Hao realized that Liu Long was different from his teacher.

His teacher was a more cautious person. To put it bluntly, his teacher was more treacherous and cold-blooded.

Yes, cold-blooded.

Li Hao was actually very clear about this!

His teacher was good to him, but that didn't mean that he was good to others. He was good to him because three years ago, his teacher was disheartened and treated him as a direct disciple, inheriting all of his knowledge. In the past, direct disciples were no different from biological sons, or perhaps even more important.

Thus, Li Hao never doubted his teacher, and Yuan Shuo treated him like his own son.

This was the meaning of being a direct disciple, and also the meaning of being a closed door disciple.

Liu Long, on the other hand, was a person who valued friendship more.

However, on the surface, Yuan Shuo was more amiable and Liu Long was more stern. Therefore, nine out of ten people would think that Liu Long was more difficult to get along with and unkind.

Li Hao suddenly laughed.

Sometimes, it was very interesting to see through some things.

Liu Yan wasn't as passionate as he had imagined, Liu Long wasn't as cold as he had imagined, his teacher wasn't as kind as he looked, and he himself wasn't as simple and honest as he looked.

People!

"Boss ... Then I wish us success!"

Li Hao turned around and left with a smile.

Perhaps, everyone was different.

But at least there was one thing in common, they were both so decisive, without the slightest bit of sloppiness.

If I say I'll kill you, I'll kill you!

Liu Long didn't even bother to do any investigations, as it was meaningless. As long as he could confirm that there were experts, that would be the best proof. He would kill them first.

This was what they had in common.

At this moment, Li Hao, who had just walked out of the office, was also thinking about something. What should I do in this attack?

He was not strong enough to deal with the three suns or the sunlight.

On the contrary, it was easy to cause trouble!

He was still able to snipe at others, but he was not qualified to kill these people.

But Li Hao also hoped, or desired, to do something.

"What can I do?"

Li Hao thought for a moment and then realized something.

He gently pinched the Jade sword in his bosom. This was his greatest support from now on.

If his teacher or Liu Long were injured, he could heal them in time.

If he encountered a critical moment, now that he had broken through 100 points, would the Jade sword burst out with even more powerful power after stabbing his heart?

Unsealing and releasing even more powerful power?

All of this was unknown.

Maybe he could try!

He would try it out in advance. Unsealing the Jade sword might bring him greater help and increase his strength. At a critical moment, he could suddenly stab someone with his sword. It might have a miraculous effect.

At this thought, Li Hao smiled innocently again.

On the way, he met Li Meng and the others, and he greeted them with a smile.

It was a very innocent smile!

Li Meng and Hu Hao were embarrassed to not greet him. When they thought of how this person was their little senior brother and was smiling so sincerely, they also smiled.

They had thought that Li Hao wasn't qualified to be their Deputy Minister.

However, with this sincere smile, the two of them felt a little relieved. Perhaps this was better. It was better than Liu Yan being the Deputy Minister. At least Li Hao was family.

.....

At this moment, the Silver City was still as quiet as ever.

No one had expected that Li Hao's group of three would be so determined and decisive in their decision to attack.

And Qiao Feilong would never have thought that Li Hao, who had been smiling and receiving benefits in the afternoon, would be running around the entire day discussing how to kill him.

.....

Further away.

White moon City.

Hao lianchuan was also meeting some people in secret. He gave a serious warning, "Before we explore the ruins, no one is allowed to cause trouble in Silver City! "I think everyone here understands how important these ruins are. The reason why the night patrolman is willing to share them with you is also because he hopes that everyone can resolve this problem peacefully ... However, if anyone dares to cause trouble in Silver City or Silver Moon province at this moment, then don't blame the night patrolman for being impolite!"

The experts in the surroundings expressed their opinions.

This included Hong Yue, who had caused trouble some time ago. At this moment, someone also came with a cold and proud expression. He said coldly, "Don't worry! We'll talk about everything after the exploration is over!"

The red moon would not act rashly at this moment, in case she missed the exploration of the ruins.

As for the night watchmen ... No one thought that they would take the initiative to stir up trouble. Silver City didn't have that kind of strength, and the night watchmen here also lacked strength. On the other hand, the night watchmen were orderly.

Most of the time, the pedantic night patrollers were passive.

Hao lianchuan frowned slightly and said, "that's great!" Whether it's the war in the central region or the successful negotiations, it won't affect our cooperation this time. Silver Moon province isn't the strongest among the other provinces and doesn't have any advantage ... We still hope that this cooperation can strengthen the entire Silver Moon!"

"Of course!"

Someone chimed in. An expert who laughed like the King of Hell laughed coldly and said, "Don't worry, Hao bu. We won't look for trouble for no reason. Besides, it was Hong Yue who did that to the Silver City. It has nothing to do with us Yama. So, Hao bu doesn't need to worry about Yama's attitude!"

"Hehe!"

The red moon's people also sneered.

Hao lianchuan was too lazy to say anything else. "I don't care what you do. This is a warning. The night patrolmen might not be able to destroy you, but if they really do it, then none of you will have an easy time!"

With that, Hao lianchuan disappeared.

He felt a little more at ease. After the warning, there shouldn't be any problems in the Silver City for the time being. Everyone was still hoping that Yuan Shuo could help them explore the ruins.

Therefore, Li Hao should be safe for now.

"I've tried my best ... After the exploration of the ruins is over, it's best to bring Li Hao to Whitemoon city. His safety should be guaranteed if he returns here. "

Hao lianchuan thought to himself as he smiled.

As for Li Hao's group looking for trouble ... He had never considered it, nor had it ever appeared in his mind.

Chapter 244: force comprehension (1)

Silver City.

The world was peaceful.

The rainy season had passed, and the rain that had been pouring for several days had stopped.

...

The weather returned to its sweltering heat.

Heavenly joy House.

This was the place where Li Hao was living now. The neighborhood was not big, and there were only so many people in the wealthy District. Of course, the greenery was really good.

The air was fresher in the morning.

Early in the morning, Li Hao practiced martial arts in his own courtyard. It was very comfortable. The place was big, and it was different.

The nearest one was a few hundred meters away. It wasn't too loud, and no one heard it.

Five birds technique!

The current Li Hao practiced the five birds technique externally and the nine-refined force internally.

The five birds technique was a move, while the nine-refined force was an internal technique and the superposition of the internal force.

The breathing technique of five birds was the foundation, the foundation of the birth of inner strength.

At this moment, Li Hao was trying to change his breathing technique.

In this aspect, a Martial Master seemed to be inferior to a super.

As the development of superpowers came later, there was only one way to absorb energy-the energy absorption technique. Of course, there were different forms of this technique, but there was no need to change the breathing technique.

One type was enough for them.

As for inner strength, it was a technique.

It was more complicated!

At this moment, Li Hao was trying to switch between the five birds breathing technique and the nine refined breathing technique, in case he could only use one of the two at a critical moment. If he used the nine refined force internally and couldn't use the five birds technique externally, it would be a loss to Li Hao's combat power.

"Isn't there a fundamental technique?"

Li Hao thought as he practiced.

His fists were like ocean waves, layer by layer.

Stepping on the ground, he wanted to soar into the air, but he staggered slightly. The flying bird technique was actually a little blocked at this moment. This was a problem caused by different breathing techniques.

Li Hao quickly used the five birds breathing technique. The next moment, the black Tiger dug out the heart.

The layered inner strength slowly dissipated.

The ninth refinement breathing technique disappeared, and the ninth refinement force could not be gathered.

Li Hao wasn't discouraged. This kind of thing was inevitable. He had asked his teacher, and his teacher had said that it would be difficult to simultaneously fuse them, but he could try.

For example, the breathing technique of five birds!

There should have been five different breathing techniques for five different types of beasts, but in the end, Yuan Shuo managed to come up with the five birds breathing technique. One breathing technique contained five different forms.

If Li Hao had the intention to integrate the sixth Shi into the five birds technique, the nine refinements might not have been a good match for the five birds technique, but techniques were created by humans.

If Li Hao could integrate the sixth force and then integrate the breathing technique of five birds, he would be able to use both techniques. At that time, Li Hao would also become a Grandmaster of his generation, a Grandmaster of the path of martial masters.

Yuan Shuo had done it before!

Of course, this required a large amount of knowledge accumulation, and it was not something that could be imagined.

Yuan Shuo's brain was filled with too many things, so he was able to complete the breathing technique of five birds. He also borrowed some ancient books and records to create the breathing technique of five birds that he was proud of today. It was also regarded as a top secret by Yuan Shuo.

"Although I've studied many ancient books and listened to teacher's teachings, I've only swallowed them without digesting them and turning them into my own knowledge. So, it's impossible for me to merge the sixth force and form the six birds technique!"

Li Hao knew that he couldn't do it.

Perhaps his teacher could.

However, since Liu Long was unwilling to teach his teacher the ninth-form technique, Li Hao couldn't overstep his boundaries and rashly teach him. This was a taboo for martial masters.

He did a round of boxing, mainly to digest some of the red shadow power in his body.

Li Hao felt that the inner strength in his four limbs would be released very soon.

He was improving quickly, but he still felt that it was slow.

Right now, it was the period of his growth. The red shadow energy, sword energy, and mysterious energy were all accumulating in his body. He was just digesting them. If he missed this period, without the sword energy and red shadow energy, his future growth would probably slow down.

For Li Hao, the Silver City was a dangerous place, and he didn't feel at ease when he had just broken through the 100-point threshold.

Pa pa!

After one last round of boxing, Li Hao gave up the nine forts and focused on using the five birds technique. Once again, he was as agile as an ape and quickly shuttled through the small courtyard.

His gaze also turned to the door.

A few hundred meters in front of his courtyard was Qiao Peng's residence.

Qiao Feilong didn't seem to be staying here.

At this moment, a ball of light appeared in Qiao Peng's residence. It could be seen from a few hundred meters away. Li Hao took a look and saw that it was as dazzling as a full moon. He knew in his heart that this was the superhuman at the Yue Ying level!

In the Qiao's mining headquarters, other than Qiao Feilong, there was also a Dark Moon existence.

It seemed that the guy was here.

He wondered if they were monitoring him.

Li Hao didn't care. Even if he used the sound of bones, he only had the strength of the tenth severing realm. It didn't affect the overall situation, and no one would care too much about it. It would be a problem if he didn't enter the tenth severing realm. It meant that he was too trash and didn't meet Yuan Shuo's standards for a disciple.

It was almost time for work.

Li Hao tidied up, took a shower, changed his clothes, and walked out of the courtyard.

.....

Outside the small courtyard.

Qiao Peng's car was already parked at the entrance. Today, Qiao Peng wasn't the one driving, but that full moon elite. He was very low-key, as if he was invisible.

The car window was rolled down.

"Patrol li!"

Qiao Peng was very enthusiastic, and he said with a smile, "I was a little slow yesterday, and my father also reprimanded me. I thought about Liu Yan the whole night ... There are plenty of fish in the sea, and I, Qiao Peng, don't need to offend patrol li for a woman!"

“Patrol li, if you’re willing to give me face, I’ll be the host tonight. We’ll set up a table in a restaurant in the Silver City. It’s better to make enemies less enemies. I’ll apologize to Captain Liu and patrol li. How about it?”

Chapter 245: force comprehension (2)

Li Hao glanced at him, waved his hand, and said impatiently, “Forget it, I’m not interested in getting to know young master Qiao. Besides ... If I want to make friends, it should be with old master Qiao!”

Then, he rode his bike and left.

His words were very straightforward. You don’t deserve it.

...

I’m willing to make friends with your father.

Qiao Peng furrowed his brows slightly but quickly regained his composure. He watched Li Hao leave and said after a while, “Uncle Chen, he has already cut ten states, right?”

“Yes.”

The driver replied and glanced at Li Hao. A moment later, he said, “He might have been in the tenth realm for a few days. When I felt him punching in the morning, his fist technique was still a little stagnant and often interrupted, which means that he is not very familiar with it. It seems that Yuan Shuo did not teach him the real martial Dao before.”

In the morning, Li Hao practiced boxing and changed his breathing technique several times. He often paused. As an expert at the yingyue level, the driver actually felt it.

This was obviously a problem for newcomers!

Of course, it wasn’t unexpected for Li Hao to appear, because he was a newcomer to the Martial Master path. Anyone who knew Li Hao would know that he had only come into contact with superficial knowledge before.

Qiao Peng laughed, unsurprised.

He said softly, “he became the Deputy Minister because of Yuan Shuo’s power ... The night patrolman is also disdainful. He has just entered the ten-slash realm. He was a guy who relied on his mysterious power to get there. How can he lead a few moon nether ... I wonder what those people think?”

The driver did not say anything.

“But this guy, even though he’s arrogant after gaining power, he’s still self-encouraging. He gets off work on time and goes to work on time ... What a weirdo!” Qiao Peng continued.

He was already the deputy head of the night patrol, but Li Hao still went to work on time and even rode his own bicycle ...

One had to admit that he was a very strange person!

Of course, it could be that he had gained power rashly and had not learned the way of life of people at this level.

Qiao Peng looked at Li Hao's disappearing figure again. He raised his hand and the car started, driving toward the Qiao's mining company.

He had only come into contact with Li Hao to make it easier for him to observe him.

There were countless people watching Li Hao, so there was no need to get too close. Qiao Peng was happy that Li Hao was not willing to eat with him. It would save him a lot of trouble. That guy had ridiculed him time and time again. He was still a shrewd person, but he couldn't help but feel sullen.

.....

At the law enforcement building.

Li Hao arrived on time.

He didn't go to his office but went straight to Liu Yan's office.

He didn't see Liu Yan last night, but this person actually left work early. He had to admit that it was a rare sight.

"Yo, did the sun rise from the West?"

Liu Yan couldn't help but smile when she saw Li Hao.

This guy actually took the initiative to come to his office.

How rare!

Li Hao had been here a few times, but he had never taken the initiative to come. What was going on today?

Li Hao grinned."Look at me. I haven't seen you for a night. You've become prettier again!"

"Bah!"

Liu Yan spat, but Li Hao was completely confused. I was just complimenting you. I was just being polite, why are you angry?

Liu Yan saw that he was confused and couldn't help but scold him, "Don't talk nonsense. What do you mean you've become better looking after not seeing you for a night? this is not a compliment, it's more like a curse! I'm a widow, and I'm getting thinner and more Haggard by the day. I've become so beautiful after not seeing you for a day ... Do you think there's a problem with this?"

Li Hao was a little confused. Was there a problem?

Forget it, if you say there is, then there is.

Liu Yan smiled and didn't argue with him anymore."Why did you come to my place?"

"It's a gift!"

Li Hao lifted the box in his hand. "Yesterday, when I went to the Qiao's mining company, Qiao Feilong gave me 10 cubic meters of mysterious energy. He said that it was for my sister as an apology."

Liu Yan's face turned cold!

She glanced at Li Hao, who was still smiling. "Sister, it would be a waste not to have it! If you don't want it, I'll take it."

Liu Yan frowned slightly. After a moment, she said, "You can keep it!"

She was a little unhappy, but she didn't say it.

There were some things that could be accepted.

There were some things that he could not accept!

Mr. Qiao gave him 10 cubic meters of mysterious energy, what was that?

That was money to buy his life!

Li Hao had actually accepted this. He clearly knew this, and she had even told him about it. At this moment, Liu Yan was a little angry, but she suppressed it. 10 cubic meters of mysterious energy ... If Li Hao wanted to accept it, then so be it.

Li Hao sneakily approached Liu Yan and whispered, "If I don't accept it now, I'm afraid I won't have the chance in the future!"

Liu Yan raised her brows. What did he mean?

"Sis, we're the night watchers, an official superpower organization, a legitimate organization with power, how can we be taken advantage of? How can I not take revenge?"

With Liu Long, they were talking about the details.

He didn't need to say all this to Liu Yan. He only needed to say that he would take revenge for her.

"Don't be rash!" Liu Yan's expression changed.

"We've alerted the Yama and offended the red moon ..."

Before she could finish, Li Hao laughed and said, "Sister, your news is too outdated! So what if he's a Yama? You probably don't know this, but in the central region, a few god tier Masters who were on night patrol even killed the Yama's grandson! We've also seized their precious treasures, and they've long since been beaten to a pulp. The wars in the central region even originated from this!"

Liu Yan and the others didn't know about these things, and they were very limited in their information.

This was something that couldn't be helped. Silver Moon province belonged to the border, and silver City was the border of the border. Liu Yan and the others had just been promoted from the inspection Division, so they didn't even know the situation of the night patrols in white moon City, let alone the central region.

They only knew that there was chaos outside, but they didn't know the exact situation.

Chapter 246: force comprehension (3)

Liu Yan's expression changed. She glanced at Li Hao and said somewhat excitedly, "You're saying ... The night patrollers and the Yama have already started fighting?"

"En!"

Li Hao nodded and said, "what Wang Ming said shouldn't be false." He's considered a proud son of the heavens among the night patrollers and one of the important figures in the entire Silvermoon province. Ordinary news can't be hidden from him. "

...

Wang Ming wasn't a high-ranking member, but he had potential. The higher-ups thought highly of him, so they naturally wouldn't hide these things from him. It would be a joke if he didn't know too little and treated the Yama as one of their own.

The joy in Liu Yan's eyes gradually became more and more intense. She was a little excited, and she couldn't even suppress it. "You mean ... We ... Are going to make a move on the Yama?"

To deal with Mrs. Qiao?

Li Hao nodded slightly. "That's my plan, but I haven't decided yet. Sister, don't get too excited!"

He then chuckled, "do you still want this mysterious ability?" If you don't want it, I'll take it. "

"I want it!"

Liu Yan agreed immediately, her face beaming with joy. "You're right. If it's true ... Then I might not have the chance to take it in the future. I want it!"

Li Hao chuckled and handed the energy storage box to her.

"Sis, have you finished absorbing the mysterious energy you got last time?"

Last time, Liu Yan didn't get much. The four of them only got 80 cubic meters, while Liu Yan got 20 cubic meters.

After she broke through 100, her absorption speed should be faster. She didn't know if she had finished absorbing it.

"I've almost finished absorbing it, there are still a few cubes left ... Why, you've used up yours? It can't be that bad, right?"

Liu Yan was a little surprised. Could this guy have finished absorbing it?

Li Hao had divided it into 32 cubic meters. As a ten-slash realm, even if he could digest and absorb it faster, he couldn't absorb it every day.

Of course, when he thought about the energy that Li Hao used last time, he felt that it was possible.

If that was the case, this guy was practically eating mysterious energy.

After all, after they joined the night patrollers, Li Hao's monthly salary was only that of an area 's, which was a lot. Li Hao's salary was not enough for his consumption.

"No, I'm not lacking in mysterious energy."

Li Hao laughed. "I'm just asking. If you use it up, then forget it. If you don't have it, don't save it!" We might have other sources of income next, and strength is not something that can be saved!"

He was afraid that Liu Yan and the others would be reluctant to use the mysterious energy.

If they succeeded this time, according to Liu Long and Li Hao's agreement, Yuan Shuo wouldn't ask for too much of the mysterious energy, or even nothing. The main thing would be the remains.

At that time, with Liu Long's style, Liu Yan and the others would be able to get a group of mysterious energy.

"When do we make our move?" Liu Yan asked, looking pensive.

"In a few days."

"I understand."

Liu Yan thought about it and said, "Chen Jian and Wu Chao have recovered from their injuries these few days. They are also absorbing it. I don't know if they will become supers or break through 100. However, there is a high chance of them breaking through."

This time, they had also obtained the most mysterious energy in history.

If they were unable to advance to a superpower, then there was hope for them to break through 100. Chen Jian and Wu Chao had both absorbed some sword energy, which had a great effect on the strengthening of their physique.

In this way, everyone's strength would be strengthened.

"That's the best!"

Li Hao smiled. If they all entered Dark Moon or broke through the 100-point mark, the entire team would advance, and they might come in handy later.

.....

After leaving the things behind and chatting with Liu Yan for a while, Li Hao went to find Liu Long.

Today, Liu Long was going to pay a formal visit to Yuan Shuo, the number one man in the Silver City.

As for Liu Long, he was now the highest-ranking leader of the Silver City's superpower organization.

Such a visit was necessary.

.....

At nine o'clock sharp, Li Hao drove to the ancient courtyard with Liu Long.

On the road, the cars were falling all over the place. This made many people who were paying attention to them feel a little annoyed.

With Li Hao's driving skills, it wouldn't be easy to follow him.

It was impossible to predict where he would drive next!

However, some people still knew their destination. It was said that Liu Long was going to pay an official visit to Yuan Shuo today. Both of them were martial masters, but they rarely met in the past. It was also said that Liu Long and Yuan Shuo had an unknown past, and there was some estrangement between them in the past.

Some people couldn't wait to see a show, and it would be best if the two of them started a fight.

Of course, it was just a thought.

Both of them were working for the night patrolman at the moment. Even if Yuan Shuo had successfully advanced, he should not have any conflict with Liu Long. It was said that the purpose of this visit was to prepare for the founding ceremony that would be held in two days 'night.

.....

Silver City ancient Academy.

Liu Long hadn't openly informed the ancient academy that he was coming. He had only come to pay a visit to Yuan Shuo.

Although he had other purposes this time, Liu Long was still solemn. He didn't care how Li Hao drove and kept silent the whole way.

While driving, Li Hao tried to ease the atmosphere."Boss, there's no need to be so nervous. My teacher is very easy to talk to ..."

Liu Long glanced at him but didn't say anything.

It was not his first time meeting Yuan Shuo, he had seen him many times.

However, this could be considered his second official visit.

The first time, it was his father who brought him here to pay a visit to Yuan Shuo, hoping that Yuan Shuo would take him in as a disciple. The family's nine forges force had too many drawbacks, while Yuan Shuo's five birds technique was a well-known health-nurturing technique.

His father had hoped that he could become Yuan Shuo's disciple. At that time, his father had already reached the point where he could not hold his gun. Both his arms had been severely injured, and he could no longer swing his gun with all his strength.

Chapter 247: -force comprehension (4)

Liu Long still remembered that scene. When Yuan Shuo rejected him, his father was very sad and helpless.

He didn't want to continue practicing the ninth stance!

He didn't even want to practice martial arts.

...

However, Liu Long knew that he was the son of the silver spear Liu Hao. The silver spear had quite a reputation in Silvermoon province. If he did not practice martial arts, once his father died, the entire Liu family would be annihilated.

Therefore, after Liu Hao failed to let his son become Yuan Shuo's disciple, he still passed on the nine-refined force to Liu Long. He knew that it was not an easy path, but once he stepped on it, there was no turning back.

The car stopped.

Liu Long sobered up from his memories. He looked at the small courtyard in front of him. At this moment, he took a deep breath, opened the door, and stepped out of the car.

The door of the small courtyard was already open.

In the courtyard, Yuan Shuo didn't leave the courtyard. However, he still stood at the entrance and looked at Liu Long with a smile.

Liu Long walked closer step by step.

Before he could even get close to the courtyard, a monstrous force pressed down on him.

Liu Long's footsteps faltered, and his leather boots sank into the ground.

He raised his head and looked at Yuan Shuo.

Yuan Shuo was still smiling. He did not say anything when he saw him looking over, but his eyes spoke.

If you, Liu Long, don't even have the strength to step into the small courtyard with my power ... I don't believe that you can step into the Qian warrior realm!

This was a test for Martial Master douqian!

If you can't even do this, do you think you are worthy of stepping into the universe of warrior?

Even if he couldn't enter the universe ocean, there was no need to waste time.

Liu Long's eyes were cold. He exerted strength in his legs, lifted his feet, and stepped forward again.

BOOM!

The floor tiles under his feet cracked open, revealing lines of cracks.

Beside him, Li Hao was walking forward as usual. He had sensed his teacher's Shi, but it wasn't aimed at him. He had also sensed it once. The pressure wasn't too strong, so it didn't affect him.

Li Hao was also paying attention to Liu Long.

Every step was a little strenuous.

There was a huge difference between thousands and hundreds!

Liu Long, who was at the peak of over a hundred, was actually struggling to move under the pressure of his teacher's Shi.

The next moment, Li Hao seemed to hear the sound of waves.

Yes, he seemed to hear the sound of waves.

He turned his head to look at Liu Long. At this moment, the inner strength in Liu Long's body burst out layer by layer like a torrential River. The powerful inner strength surged out and allowed him to withstand the pressure as he walked step by step into the courtyard.

A silent contest!

At this moment, Li Hao was a little envious.

Yes, he envied Liu Long. At least he was qualified to enjoy such treatment. As for himself, his teacher had never tested him like this, because Li Hao still had a long way to go before he reached Shi.

Li Hao stopped for a moment, then walked behind Liu Long.

In the next moment, a faint pressure rose from the bottom of his heart, and a wave of pressure came from the sky.

Li Hao deliberately walked behind Liu Long because he wanted to feel his teacher's Shi.

It wasn't an all-encompassing Shi, but a direct one.

.....

"What?"

In front, Yuan Shuo raised his eyebrows and glanced at Li Hao.

This student of his was really interesting.

He actually wanted to try!

Although Liu Long had endured almost all of the force, Li Hao had yet to reach the stage of comprehending the Divine Will. Even if only a little of the force had seeped out, it was enough to make this guy suffer.

Yuan Shuo didn't care about Li Hao.

It would be helpful for him to see the real enemy. At least, he would let Li Hao know what a Qian warrior was.

At this moment, Yuan Shuo's gaze was still focused on Liu Long.

He also heard the sound of waves!

Liu Long seemed to have gained some insight, but ... His Shi was too weak.

Yuan Shuo raised his eyebrows slightly.

Right at this moment, Liu Long let out a low shout and stomped his foot, causing the ground to crack open. Layers of inner strength burst out from his arms and extended to his entire body.

The windbreaker on his arms was torn.

His blood-stained arms were revealed!

Yes, it was all blood.

It was just that he was usually hidden under his trench coat, so no one noticed this scene.

At this moment, Liu Long's arms rippled like waves. However, with each wave, a large amount of blood seeped out.

His arms could not bear the burden!

The stacking force of the nine forges force was too strong, and Liu Long's physical fitness was still too weak compared to the nine forges force.

The third stack, the fourth stack, the fifth stack ...

The seventh time ... His muscles trembled seven times, and with a bang, blood spurted out.

Liu Long's face was filled with disappointment.

He couldn't take it!

He couldn't withstand the eighth or ninth time. He could have nine-fold, but his body didn't allow him to display the true power of the nine-fold force.

However ... When he saw that he was still a few meters away from Yuan Shuo, he was somewhat unwilling to give up.

Back then, I didn't manage to enter your tutelage and you thought I was stupid.

Today, I've already reached this level with my nine refinements, but I still can't get close to you ... Is the secret technique of the Liu family really that much weaker than your five birds technique?

"Ha!"

With a low shout, eight layers of force were superimposed!

Creak!

At this moment, it was no longer his blood vessels, but his bones that seemed to be struggling to support him.

His veins were bulging ... No, they were blood-red meridians, and his blood was almost all seeping out.

Liu Long forcefully stacked eight times!

With a punch, he broke through Shi's obstruction and continued forward.

Behind them, Li Hao's face was also red. He also took a step forward, but the pressure was getting stronger and stronger. At this moment, Li Hao felt the difference between a thousand-player and a hundred-player.

The two could not be mentioned in the same breath!

He had only received some of the force that Liu Long was unable to block, but at this moment, the pressure was so great that he felt like he was about to split apart.

However, Li Hao's physical fitness was really strong.

Chapter 248: force comprehension (5)

He did not show any signs of blood seeping through.

Li Hao felt that he was only under too much mental pressure. The pressure on his body was actually not that great.

"Hmph!"

...

With a muffled grunt, Li Hao gave up on the five birds breathing technique. He circulated the nine-refinements force and stacked his inner strength once, twice, three times!

Triple stack!

Li Hao didn't concentrate the three-fold internal force on his hands, but on his legs. When he stepped on it, he cracked the floor tiles. He took a step forward and felt very good.

At this moment, Yuan Shuo's voice could be heard, "Do you want to try again? After the ninth fold, your hands ... Might not be able to keep them!"

Liu Long stopped in his tracks, his eyes filled with unwillingness.

He looked at Yuan Shuo and clenched his bloodied fists.

Nine-fold, do you dare?

He didn't dare!

He was not afraid, not afraid of death, not afraid of being crippled, but afraid that he would soon lose his combat power after he had just revived the night patrolmen division ... He would let down many people.

"Hmph!"

A groan filled with unwillingness, anger, and grievance was heard!

Liu Long gritted his teeth and stood still. At this moment, he didn't know how he should face the guy in front of him.

Yuan Shuo!

“Liu Long!” Yuan Shuo’s voice rang out once more, “the ocean waves engulfing the heavens and the earth ... Ninth refinement force ... Liu Long, the ocean waves also have their own flames of fury!”

Yuan Shuo’s voice was calm, “some people say that tsunamis are the wrath of the sea!” How could the waves be considered heavenly might? Only a tsunami was the true might of the heavens! I’m afraid you’ve never seen a tsunami! The mountain crumbled and the earth cracked, engulfing the world!”

“Silvermoon’s sea is only an internal sea. It’s too small and too weak!”

“You should go out and take a look. Outside Silver Moon province, there is a real ocean and a real tsunami ... I have seen a tsunami engulfing the world and a big city instantly turning into an ocean! No matter how tall a building was, it would collapse! No matter how strong a Martial Master is, he will be crushed!”

“A thousand?”

“A demigod?”

Yuan Shuo sighed, “at that moment, the tsunami will tell you what it means to break a million in one wave!” No matter how powerful your weapon is, no matter how strong your body is, you will be turned into dust by the wave!”

There were only a thousand demigods.

A tsunami, however, could instantly destroy a city with a population of a million.

Liu Long furrowed his brows slightly as he fell into deep thought.

He advised Li Hao to take a look, but Yuan Shuo said, “Liu Long, you haven’t seen enough. You’ve seen too little and too shallow. A real tsunami isn’t like this!”

“Elder Yuan, even though I’ve seen the tsunami, my body ... I’m afraid it’s too much for me ...”

“Have you ever seen the ocean being destroyed by a tsunami?” Yuan Shuo laughed.

When these words came out, Liu Long was a little dazed.

Would the ocean ... Be destroyed by the tsunami?

What did that mean?

.....

Behind them, Li Hao was also thinking.

He had never seen the sea, but he had seen a Lake.

Could the waves in the lake destroy the lake?

It was impossible!

“Wherever I go, there are lakes.”

Li Hao fell into deep thought. His teacher was a wise man, and he wouldn't say such things for no reason.

"Ocean waves ... Tsunami ... Inner strength ... Momentum ..."

The next moment, Li Hao's eyes flickered.

A wave of inner strength was released slightly.

Inner strength originated from the body.

Breaking through 100, releasing inner strength.

The ninth-refinement technique destroyed the body because the inner strength was contained within. The waves were floating on the surface, so could the inner strength be stacked on the surface?

At this moment, as Li Hao thought of this, he couldn't help but release his inner strength.

In the next moment, the second wave of inner strength was released. He circulated the nine-refinements force in an attempt to stack it, but it dissipated in an instant.

He couldn't even release his inner strength twice.

"Why?"

Li Hao asked himself, "the waves and the lake are both continuous and can be stacked on top of each other, so why can't inner strength?"

They were all one!

Whether it was inner strength or the physical body, they were actually one and originated from the human body.

"Body as a bridge?"

At this moment, Li Hao looked at his arms and fell into deep thought again. He recalled some records in an ancient book he had memorized before.

The body was the bridge, building the heaven and earth gate.

Internal and external communication, body as the foundation ...

He didn't really understand, but he had a vague understanding at this moment.

In the next moment, he retracted his inner strength and no longer released it.

I can't control it!

A moment later, Li Hao stretched out his index finger, and a faint wave of inner strength burst out. After a while, a second wave of inner strength was released, and it was also released and stacked on top of each other.

The two forces stacked together with great difficulty.

Li Hao's heart moved!

The external release couldn't be stacked because the surface was too large and the contact area was too wide, so it was easy to collapse.

But what about shrinking this side?

It was as big as a finger!

In an instant, another wave of inner strength was superimposed. As long as the inner strength erupted quickly, why couldn't it be superimposed outside the body?

As long as the inner strength in front didn't leak out, why couldn't he quickly catch up with the one behind?

The third stack!

With a bang, the inner strength was shattered, and a small vortex was formed.

Liu Long, who was deep in thought, suddenly turned around when he heard the voice.

In the next moment, Liu Long's expression changed drastically.

At this moment, Li Hao was making his second attempt. The first layer of inner strength burst out from his index finger, then the second layer ... And the third layer!

Triple overlay!

With a bang, a beam of sword Qi shot out!

At this moment, Li Hao's mind wandered. He thought of a secret technique recorded in an ancient book-finger force!

Sword Qi shot out from his fingers!

That day, Li Hao didn't think much of it when he saw it. But today, he shot out a force from his finger.

The finger force shot out and hit the ground, creating a small pit.

In front of him, Liu Long's eyes widened.

Release of inner strength!

Not only that, when he released his inner strength, it actually stacked on top of his body ...

He was dumbfounded as he looked at Li Hao.

Over a hundred!

Not only did he break through 100, but this guy had also layered the nine-refinements force outside his body!

How was that possible?

At this moment, he finally understood Yuan Shuo's meaning. There was no such thing as waves destroying the sea. He was the sea, and his inner strength was the waves. The problem was that his inner strength had actually destroyed him.

“Li Hao!”

Liu Long muttered to himself. In the next moment, he suddenly felt a sense of sorrow.

He suddenly turned around and looked at Yuan Shuo. He then lowered his head and said, “Back then, elder Yuan didn’t accept me as his disciple and said that I was stupid. I, Liu Long, didn’t know myself and thought that my talent was alright. After seeing Li Hao’s actions today, I finally understand ... How stupid I was!”

At this moment, he lowered his head.

Indescribable frustration and sorrow!

So, I’m really stupid.

As for Li Hao, he had comprehended many things from Yuan Shuo’s few words. He could even stack his external and internal strength ... Liu Long felt extremely ashamed.

It was really infuriating to compare people.

It turned out that people really had different talents.

Behind him, Li Hao also woke up. He opened his mouth to speak ... But quickly chose to shut it.

He was a little embarrassed. In fact, it was not his own credit. It was just that he had read some ancient books and memorized some very strange things, so the first thing he thought of was the finger sword.

Liu Long, on the other hand, had never come into contact with such things.

Simply put, Liu Long’s level of education ... Was somewhat lacking, and his knowledge reserve was not enough!

This wasn’t talent, but a lack of acquired knowledge.

At this moment, Yuan Shuo’s expression was also strange. He glanced at Li Hao and laughed after a while. “It’s just average! Chief Liu, come in! Since you’ve seen it just now, I think you should have some gains!”

Liu Long nodded and turned to look at Li Hao again. Suddenly, he slightly bowed and said, “Many thanks!”

Li Hao was dumbfounded. He wanted to say something, but Liu Long had already stepped into the courtyard.

He already had an idea.

Sometimes, a lot of things only needed to break a layer of the membrane.

Today, Li Hao had helped him break through that barrier.

Li Hao scratched his head, feeling a little embarrassed.

He was also a little annoyed. Why did I release my inner strength for no reason? now that the captain knows that I’ve broken through 100, how can I hide it?

What a pity!

In front of them, Yuan Shuo had a smile on his face. He turned around and walked in front, but in the depths of his eyes, there was a hint of wild laughter.

Who asked you to be so arrogant, Liu Long!

Look, today, a disciple of mine has beaten you to the ground. Back then, when I called you stupid, you didn't accept it. Now you're convinced, right?

As for Liu Long who was behind him, he had calmed down.

This time, even though he had yet to communicate with Yuan Shuo, he already felt that he had gained a lot from this.

Perhaps, he really had the hope of breaking through to the thousand warrior class today.

The premise was that he could achieve nine layers outside his body and comprehend true Shi.

Chapter 249: Li Hao's influence (1)

In the yuan family's Hall.

Yuan Shuo and Liu Long took their seats as guests of honor.

As for Li Hao ... He wasn't qualified to take a seat. As Yuan Shuo's last disciple, he was very particular about qualifications and seniority.

...

Regardless of whether Liu Long was his superior or not, even if he was his subordinate, Li Hao was only qualified to stand here and serve him tea.

This was the rule!

There were many rules in the martial arts world. Supers were now respected by their strength, and many rules were not followed. It was hard to say who was good and who was bad, but the martial arts world generally did not care about this kind of relationship.

He completely respected strength and didn't even respect his teachers. In the eyes of some old martial masters, this was too barbaric and primitive.

Li Hao first poured tea for his teacher, then for Liu Long.

Then, he obediently stood by Yuan Shuo's side, waiting for the two to talk.

Liu Long glanced at Li Hao, but didn't say anything. Then, he looked at the Black Panther that was lying on the ground not far away ... And suddenly felt like laughing.

He wanted to laugh for no reason!

At this moment, he was actually still thinking, "I'm lacking a disciple, why isn't this dog sensible and not pouring me a cup of tea?"

This was because he, Liu Long, had also taught this dog a cultivation technique.

Even earlier than Yuan Shuo!

Liu Long had really taught this dog the nine-fold force, not just the technique but also the technique. He had even taught this dog the three-fold force last time.

You don't have good eyes!

.....

As for Li Hao, after seeing Liu Long glance at him and then turn to look at the Black Panther ... He was slightly dazed for a moment, and then, in the next moment, his expression became somewhat awkward.

What did that mean?

I have the same meaning as Heibao?

Li Hao was silent and somewhat helpless. To think that the captain was so black-hearted! To think that he had called him honest!

Yuan Shuo flicked the tea with the lid and took a small sip.

He put down his teacup and looked at Liu Long, "Has Li Hao told you about the matter?"

"He did."

"If you can advance, can you fight against three sunlit Warriors with just the power of thousand-player?"

"It's not that I'm looking down on you," Yuan Shuo said directly, "but I'm well aware that the Liu family's ninth refinement force is very explosive." What else?"

Liu Long slightly frowned.

"Is it fast?"

Yuan Shuo said indifferently and chuckled, "Can you fly?"

"How many steps can one take while Walking in the Air?"

"If the other party is using the earth escape technique or the sky escape technique, how are we going to pursue him?"

"In all the martial arts under the heavens, only speed can not be broken ... Perhaps it's too absolute, but if one of the three supers is good at speed and can escape, can you, Liu Long, use the ninth refinement force to kill the other party?"

Liu Long wanted to say something but stopped. After a long while, he chose to remain silent.

No!

Yuan Shuo replied calmly, "I may not be as strong as you in terms of explosive power. There's no need to deny that. However, I'm strong in all aspects. I can chase and escape, attack and defend. As for my lack of offensive power, I have a treasure with me that can make up for it."

"How about you?"

He looked at Liu Long. "If I pay a huge price to help you advance to the Qian warrior realm, and you can't even deal with the three sunlit Warriors and let the enemy go instead, exposing Li Hao and me ... At that time ... Even if you bear the responsibility, can you bear it?"

Liu Long's expression changed for a moment before he shook his head. "I can't afford it!"

The bold and powerful words from before were also swallowed into his stomach at this moment.

That's right, if the other party was good at escaping, how should he deal with it?

The Liu family's ninth refinement force was the best at head-on attacks. It was best for the enemy to forcefully collide with him instead of running away. This was the Liu family's favorite opponent. They would fight head-on and see who would die.

"Liu Long, you're a Martial Master. My student might not understand, but you should!" What does it mean for a Martial Master to help someone step into the thousand warrior realm and the so-called land immortal realm?"

"My idiotic disciple even asked me to borrow a secret treasure to help you heal ... You know how difficult it is for a Martial Master to recover from old injuries! How many martial masters have died at this step? he said it so easily, saying that he doesn't know how expensive rice is if he doesn't take charge. He doesn't feel any heartache when he sells his grandpa's land, he only needs to move his mouth!"

"This fellow actually offered a price and said that the mystery will belong to you ... Are you kidding me?" Yuan Shuo said with a smile. If I tell the public that I'm helping someone to advance to the Dou Qian class and ask him to help me kill three sunlit ... Liu Long, let me ask you, in the realm of martial masters, will all those who have broken through 100 perfection come to me and beg me in an instant?"

"Moreover, those people have comprehended force, so it's easier for them to advance than you!"

Liu Long's expression changed slightly as he nodded, "elder Yuan is right!" Just this alone was enough to make a Martial Master who was dedicated to martial arts Work for it! Even if I have to die, I won't hesitate!"

Yuan Shuo wasn't wrong.

There was only one point. It was almost impossible for a Martial Master to reject the condition of advancing to the Dou Qian class if they had not given up on the thought of advancing.

Therefore, Yuan Shuo's words that Liu Long should risk his life without any conditions were not wrong.

Liu Long was silent for a moment before he said, "I don't need any mysterious energy ... Of course, if other people participate in the battle, I hope to share some with them. I don't need too much. It'll be fine if we distribute it according to their contribution."

On the side, Li Hao glanced at his teacher and held back his words.

Actually, he didn't say that he would give the mystery to Liu Long. His teacher had agreed to it before. But now, his teacher suddenly changed his mind. Li Hao was thinking about his teacher's thoughts.

Yuan Shuo remained calm, "I don't lack this bit of mystical power, and you, Liu Long, might need it more ... Actually, it doesn't matter!" I'm telling you all this just to tell you that my students may not understand, but as someone who does, you can't take it for granted!"

Chapter 250: Li Hao's influence (2)

"I wouldn't dare!" Liu Long replied in a deep voice. It's just that I didn't think too much about it before ... I've indeed neglected you, elder Yuan! I acted this time because of my duty, and also because of some personal grudges, so I shouldn't have taken any benefits ... However, I'm helpless, and I'm afraid I can't do it with my body that's over 100!"

Indeed, he hadn't thought so much. When Li Hao said that he could obtain over a thousand cubic meters of mysterious energy, he had been too shocked to think.

Now that Yuan Shuo had pointed this out, Liu Long subconsciously felt that it was a little inappropriate.

...

Yuan Shuo laughed. "As a Martial Master, you might become the second silver Moon warrior. If there's anything we want to say, let's just talk about it. Otherwise, we'll get into a conflict later."

"Elder Yuan is right!"

Yuan Shuo continued, "the remains will be Li Hao 's!" The mysterious energy, you and I will split it equally! If there were any other gains, Li Hao wouldn't take anything, and they would be evenly split. Of course, if you feel that Li Hao's decision to take the remains was unfair ..."

"I definitely didn't mean it that way!"

Liu Long said seriously, "although Li Hao has never acknowledged me as his master, he has already practiced the nine tribulations and reached the third stage. He can be considered the legacy of the Liu family's martial arts. Elder Yuan, you should know that the Liu family's nine tribulations has never been taught to outsiders. Since that's the case ... Li Hao's strength is also the result I hope to see!"

Yuan Shuo nodded slightly and smiled.

"Since you agree, that's great! For us martial masters, the legacy is more important than anything else! I won't say anything else, I'll help you heal first. The injuries on your arms are too heavy, and as for whether you can comprehend nine layers of force after you recover ... That's your problem. If you can comprehend force and advance, then this cooperation can proceed. If you fail, then everything you said before will be a fart!"

"Naturally!"

Liu Long nodded.

He took a deep breath. He was a little excited, but also a little nervous.

The injuries on both his arms were not only caused by the previous time, but also the old injuries left behind by the use of the ninth-refinement force for many years. Did Yuan Shuo really have a way to heal his injuries?

He didn't know, but since Yuan Shuo had agreed, he would give it a try.

Once he succeed...Then...When he thought of this, Liu Long couldn't help but feel a little excited.

"Alright, there's no time to lose ... Let's start now!" He said.

Yuan Shuo waved his hand and slapped Li Hao."Go out and keep a lookout first, and then order a few dishes. Just say that I've invited Liu Long to a banquet this afternoon, and I don't think they'll dare to spy on us!"

"Yes!"

Li Hao hurriedly responded and quickly walked out of the hall. He touched his neck. The small sword was gone. It seemed that his teacher had decided to find a sword for himself.

His teacher didn't say that it was Li Hao's, so there was no point in doing him a favor.

One must always be on guard against others.

Both Li Hao and Yuan Shuo felt that Liu Long would be fine, but they didn't say it directly. This treasure was Li Hao's. Liu Yan and Chen Jian also knew that Li Hao could use some healing power, but they had never mentioned it.

There were some things that one had to pretend to be blind.

.....

Outside the door.

Li Hao brought the Black Panther with him ... The Black Panther hadn't come out just now, and had wanted to take advantage of the opportunity to absorb some sword energy. In the end, it had been kicked out by Yuan Shuo, and was now following Li Hao gloomily.

Li Hao didn't care about it. He walked to a Pavilion in front of the courtyard, which had been left behind by the night patrolmen.

There was a communication device inside.

Without dialing a number, Li Hao picked up the communicator and said,"Prepare some wine and food and send them over when it's time for lunch. In addition, keep a close eye on the surroundings and don't let anyone enter!"

A reply came from the other side of the communication. Li Hao didn't care who it was and directly hung up.

Standing in the pavilion, Li Hao toyed with a wave of inner strength in his fingers. With a gentle surge of inner strength, he instantly completed the second stacking.

The internal force was released, and the external force was stacked.

“This is just a technique, not momentum!”

At this moment, Li Hao was still thinking about Shi.

Whether it was external or internal stacking, they were all just techniques and not momentum.

Momentum was also known as divine intent.

It involved the so-called spiritual level.

“The spiritual level ... There are some records in the ancient books. It’s also known as intent, thought, and so on. Once it’s accumulated, it’ll be unleashed, and its intent will be born. As long as I’m around, I’m invincible!”

“The ancient books also recorded that during the ancient civilization, there were people who firmly believed that I was invincible. Even if they had not comprehended the true force, they could still form a great force. What I’m afraid of is that once they fail, their invincible force will be broken, and they will never be able to recover.”

He recalled many ancient books that he had memorized.

‘Force’ didn’t necessarily have to be like his teacher and the others, where he had to personally observe and simulate it.

In the ancient civilization, someone had created a unique Shi.

Some people firmly believed that they were invincible, from one to the other, until death. This was also a kind of momentum.

Some people stepped on the road of invincibility during the ancient civilization era. They nurtured their momentum, nurtured the momentum of certain victory, nurtured the momentum of invincibility. Once the general momentum was formed, they swept the world, became invincible, and were undefeated in a hundred battles. They accumulated the momentum to reach the top.

It was different from the Shi of his teacher and the others.

“Different times, different cultivation methods, but they all have one thing in common ... They use their power to suppress others! Power forms, Qi nourishes, power comes from the inside!”

The reason why an expert was an expert was often not only because of physical destruction, but also psychological damage.

Once the momentum was unleashed, some of the weaker ones would be easily defeated in an instant.

“How should I store my Shi?”

He thought of himself.

Go to the mountains to accompany tigers and leopards like my teacher?

To watch a tsunami engulf the world like Liu Long?

Or should he walk the path of invincibility like the ancient people, or should he simply believe that he was invincible and would win every battle?

He lowered his head and looked at the Black Panther.

At this moment, the Black Panther was also playing with its paws, as if it wanted to copy Li Hao and complete an external force stacking ... But it hadn't reached the 100th level yet, so it couldn't release its internal force.
