Chapter 251: Li Hao's influence (3)

Li Hao laughed. "Heibao, are you a Martial Master dog or a Superdog?" he asked.

Heibao didn't seem to have become a superhuman. Could it be that this dog had also become a Martial Master dog?

Woof! Woof! Woof!

...

The Black Panther barked. Li Hao didn't understand, but from the way it looked down at the ground, it seemed to be saying that it wanted to become an invincible dog.

"Shi ... Divine intent ..."

Li Hao didn't pay it any more attention and said softly, "tell me, what kind of Shi should a low-key person like me comprehend?" An invincible aura? Walking the path of invincibility once ... That's impossible. I'm not an ancient person, and I don't have the conditions that the ancient people have. No one can help me suppress the world and make those at the same level as me fight on equal terms. No one can help me suppress strong enemies ..."

This won't work.

To be invincible, one had to have a powerful backer that was strong enough to suppress everyone.

If I ask you to fight at the same level, you will fight at the same level!

Or perhaps, in times of peace, they would make friends through martial arts.

Otherwise, in this day and age, if Li Hao went to the Crimson Moon to challenge a hundred-man level cultivator ... The opponent above three suns would immediately come out and kill him. If he had the guts to go to the opponent's lair to challenge him one-on-one ... It would be strange if he couldn't kill him!

"If it doesn't work, then I can only comprehend the force of nature."

Li Hao mumbled, "heaven and earth are fearsome. The force of nature is also extremely powerful. With my strength of over a hundred, I'm not qualified to look down on the force of nature!" Not to mention breaking 100, even a warrior of the thousand class or higher doesn't have the right to look down on these. "

"Therefore, I can only comprehend nature!"

"The strength of tigers and leopards is not as natural as the heaven and earth. If we only look at the five birds technique and the nine refinements, the power of the tsunami is better than the strength of tigers and leopards. Of course, it also depends on how the person uses it. If the tsunami becomes a foot-washing water ... Then it would be a joke!"

“Black Panther, what kind of natural power do you think can be used in the sea, land, and air? I’d like to comprehend this kind of ... Where the waves can sweep across the land but can’t damage it. The same goes for the Hurricanes, where the lightning can break through the air but can’t damage the land ...”

As Li Hao spoke, he fell into deep thought again.

“Humans stand on the ground. The earth has existed for countless years. No matter what happens, the earth will still exist The true danger often doesn’t come from the sky or the sea, but from the ground!”

At that moment, he thought of an earthquake.

When the earthquake erupted, it shook the heavens and earth from the inside out. Mountains crumbled and the earth cracked. Everything was in fear.

He had seen this before.

He had really seen it before!

It had happened once in Silver City. It had been a small incident, but people had died in it.

A Martial Master had to have a foothold.

No matter how good a superhuman was at flying, there would be a time when he would land.

At this moment, Li Hao stared at the ground. He seemed to know what he needed.

No one could live in the sky forever!

Only the earth’s momentum and power were endless.

He stomped his foot and the 3-fold stacked force exploded.

A hole was formed in the ground.

On the side, the Black Panther mimicked his actions. The ground trembled, and Li Hao’s feet went slightly numb.

As for the Black Panther, it was also shaking from Li Hao’s attack.

Li Hao looked at the Black Panther, and the Black Panther looked back at Li Hao. The next moment, a man and a dog, one paw, one foot, one claw, played happily.

Black Panther was playing, but Li Hao wasn’t.

He was thinking, “who said that the nine forms of refined force were created based on the waves?”

Liu Long only felt that the waves were stacked on top of each other, so the force he comprehended was the waves!

Li Hao, on the other hand, felt that the foundation of the ninth-refinement force was stacking, the stacking of vibrations. It wasn’t only the waves that were like this, but also the earthquakes. The powerful earthquake waves, one after another, caused damage that was no less than tsunamis.

“An earthquake ... Is also an earthquake!”

Li Hao had seen that kind of power before, but he still felt a lingering fear when he thought about it.

At this thought, Li Hao seemed to have made a decision.

He didn't have to learn from the two martial masters. The path of a Martial Master was carved out by one's own self. Everyone's Shi was different.

Now that he needed to be down-to-earth, he would use the earth as his Foundation.

He stomped his foot again!

Recalling the scene back then and feeling the destructive power, Li Hao stomped his foot. With a boom, he actually unleashed quadruple layered force!

Not only that, he seemed to notice something different in the Black Panther's eyes.

At this moment, Li Hao seemed to have rooted himself to the ground. The moment he stomped his feet, the ground shook, but he stood still. Vaguely, it was as if there was a mountain behind Li Hao.

Woof! Woof! Woof!

The Black Panther cried out, its eyes somewhat dazed.

What was this?

Li Hao, on the other hand, revealed a smile. He didn't know how to use force.

But he seemed to have found his direction.

How to accumulate power, how to nurture power.

“The ancient books also recorded that there was an ancient person who raised a sword for several years, and when the sword was drawn, the world was shocked! I hide the sword and the sword, hide the sword and the sheath, nurture the sword and nurture the power, and I ... Merge with the earth, hide in the earth, and I will not be destroyed until the earth is destroyed ...”

Of course, this was his dream, and it was almost impossible to achieve.

But Li Hao didn't care!

Today, Liu Long had come to comprehend force. Liu Long had yet to comprehend it, but Li Hao had some feelings. He wondered how Liu Long would feel if he knew about this.

Sometimes, talent was not in the body, but in the mind.

The higher one's thinking was, the higher one's realm would be.

The strength of one's body could only determine the present, but how far one's thoughts could reach would determine the future.

“Heibao, you must learn how to read and read more!”

Li Hao smiled. "If you don't understand logic and nature, you'll never understand how vast the future is. You can only see the present, but I can see the future!"

Chapter 252: Li Hao's influence (4)

Woof! Woof! Woof!

The Black Panther barked once. Its dog eyes were still a little dazed, but it remembered these words.

Li Hao closed his eyes and stopped talking.

...

After a while, he suddenly stomped his foot again.

At this moment, the inner strength on both of his feet burst out and penetrated the ground. This time, it was not a pit under his feet, but the ground seemed to shake. In an instant, the aftermath of the shock spread out, spreading a full two to three meters, and shattering the flower bed outside the courtyard.

Li Hao smiled!

"Release all four limbs!"

In that instant, he had completely released inner strength from his four limbs. He could now completely release inner strength from both his legs. He had even comprehended some other things.

An angry shout suddenly came from inside the room, "Li Hao, if you cause any more trouble, I'll kill you with one slap!"

What was that kid doing out there?

Ping, ping, ping. There were also cracking sounds. Was this the demolition?

Even the dog didn't tear down the house, and you, Li Hao, did?

Harder to deal with than a dog!

Li Hao, who had been high-spirited just a moment ago, instantly drooped his face and looked helpless.

I didn't cause any destruction ... Fine, I did.

"I broke the flower bed and kicked a few floor tiles. I hope teacher won't ask me to repair it. I don't have money, so Liu Long repaired it. Although he doesn't have money, he's the Head of the Department and can use public funds to repair it.

.....

Inside the house.

At this moment, Liu Long's arms were rapidly recovering. Hearing Yuan Shuo's angry shout, he felt like laughing.

However, Yuan Shuo raised his eyebrows and said in a low voice, "What are you laughing at? I have a vague feeling that ... The kid outside will definitely be able to break through the earth and shock the heavens in the near future!"

"Your talent isn't bad, but elder Yuan's words are a little exaggerated."

"It's not talent. I don't care about physical talent!"

Yuan Shuo's face was filled with cold arrogance, "you, Liu Long, have a first-class talent in martial arts. You're a top-notch existence!" I, Yuan Shuo, don't care about these things. What I care about is intelligence, reaction, and decisiveness! This was the foundation for a Martial Master to go far! A Martial Master who doesn't have his own ideas and only knows how to follow the prescribed order can't even fight Qian. Even if he can enter Qian warrior, he'll only be learning from others!"

Liu Long was a little speechless. This ... Is this a compliment or an insult?

I'm talented, but you don't value me. Does this mean that my brain isn't working?

Liu Long had never thought of himself as an idiot, but in Yuan Shuo's eyes, he would always be an idiot.

"Elder Yuan, even if I'm not that smart, I was still young at that time. Did you judge that I'm not smart enough to meet your requirements with just one look?" Liu Long couldn't help but ask.

He was still a little unconvinced.

Yuan Shuo laughed, "do I need a second look?" When your father brought you to me that day, I asked him why he wanted to learn the skills of outsiders when his ninth refinement was so powerful. What was your answer?"

Liu Long thought for a moment before saying, "I ... I said that although the ninth-refinement force is strong, it has the disadvantage of harming the body. My father recommended the five birds technique, so I want to learn it from elder Yuan!"

What's wrong with this?

He was still puzzled.

"That's why I said you're stupid!" Yuan Shuo said in disdain. I don't even need to observe anything, there's no need. You're here to beg me, so you have to remember this! Even your father came to beg me. You weren't considered young at that time. You were 10 years old, right?"

"It's almost the same. "

"You're already so old, but you don't use your brain at all. You have to remember that I'm stronger than your father. I just said out of courtesy that your family's ninth refinement is very powerful ... At that time, you actually agreed. Your family's ninth refinement is very powerful, as if you wanted to learn my five birds technique. I, Yuan Shuo, am a Grandmaster, and I'm your backup?"

Yuan Shuo sneered, "give your father some face. You say he's powerful. If you don't give him face ... I'll still blow him up with three shots from Silver Moon!" If it was Li Hao, he would definitely say that

although the ninth form is strong, it's far from being as strong as the five birds technique. The strongest technique is the best technique when practicing martial arts!"

Liu Long was dumbfounded.

Just this?

Do you think I'm stupid?

I was only a child at that time. Besides, it's a fact that my family's ninth refinement force is indeed powerful. So, you're only good at flattering?

Liu Long had never expected that he would be rejected only because he did not flatter Yuan Shuo.

Was there still any justice in this world?

Given Yuan Shuo's standing and identity back then, he should have been more willing to listen to the truth. Yet ... He was wrong for not flattering Yuan Shuo!

++!

Liu Long's lungs were about to explode from anger. He would never admit that he was stupid, but Yuan Shuo was simply too shameless.

"A!"

Yuan Shuo sighed. You still don't understand.

Liu Long was too straightforward ... Perhaps he had some small thoughts, but those thoughts were completely insufficient in front of him. To train in martial arts, one must first train their heart. Before becoming a strong person, one must first conduct themselves.

10 years old. It doesn't matter if you're a child from an ordinary family, but you're the son of a Martial Master whose father is about to die and has enemies all over the world. If you don't use your brain at this time, who would want to take you as a disciple?

You've caused trouble for yourself out of nowhere, and you even have to take on your father's enemies. You don't even understand this.

No, you still don't understand until today. Serves you right for almost killing yourself.

"I'm not your father and I'm too lazy to teach you, so ... This ends here!"

Yuan Shuo was too lazy to talk to him anymore. A moment later, the last wave of sword energy gushed out. Liu Long's arms creaked and creaked. Liu Long waved his hand, like a heavy hammer swinging through the air, causing the air to explode.

Liu Long's eyes flickered as he looked at Yuan Shuo with shock, "What kind of energy is this?"

Chapter 253: Li Hao's influence (5)

He was too strong!

The injuries on his arms hadn't fully healed, but they were almost there. There was almost no effect. Even the old injuries of many years had been healed.

It was no wonder that Yuan Shuo could recover from his shattered heart.

...

What was this?

"Why? I'm not a criminal, why should I explain to you?" Yuan Shuo asked lightly. You always speak without thinking. You must remember, be it a Martial Master or a super, who doesn't have their own secrets? So, I have to tell you everything you see?"

Liu Long felt a little sullen. I didn't mean it that way.

In front of Yuan Shuo, he was a junior. Not only that, he couldn't win against that fellow no matter what he said, and he couldn't even defeat him. In truth, he was feeling extremely aggrieved. If not for the sake of advancing ... He would have just left right now.

"I didn't mean it that way ..."

"You shouldn't have asked if there was or not!"

Liu Long's expression was unsightly, but he didn't say anything. He was cursing in his heart. He really wanted to beat this old thing to death. How infuriating.

He felt that his heart was already very good, but after being provoked by Yuan Shuo's few words, he also wanted to hit someone.

"Can it be nine-fold?"

"I should be able to."

Seeing that he didn't say anything more, Liu Long also heaved a sigh of relief. "Forget it, I won't ask anymore."

"It's not 'should be possible,' it's 'definitely possible!'"

"I've paid such a high price, not for you to deserve it. Do you understand?" Yuan Shuo picked on him again, dissatisfied. If you can't do it, even if you sell your life to me, you won't be able to pay for the energy!"

"Definitely!"

Liu Long's voice grew louder and carried a hint of anger, "100%, I'm sure I can!"

"That's good!"

Yuan Shuo revealed a smile. At this moment, Liu Long really wanted to slap Yuan Shuo's face. Yuan Shuo's smile was really ugly.

"Li Hao, come in!"

A moment later, Li Hao entered the room.

Yuan Shuo didn't mind at first. He was about to say something when he suddenly froze. He glanced at Li Hao and frowned, then looked at Li Hao in confusion.

He had told Liu Long before that Li Hao would definitely become a Grandmaster in the future.

But what he was talking about was Li Hao's wisdom and temperament.

However, at this moment, he could vaguely sense an unusual aura.

Force?

How was that possible?

Li Hao's external force stacking had already shocked him, and he was very satisfied with his disciple's performance.

But at this moment, he suddenly had some doubts.

After a moment of silence, Yuan Shuo slowly asked, "your strength has improved?"

"Yes, releasing inner strength from all four limbs, I can be considered to have broken through the peak of the early 100th stage."

Li Hao laughed happily.

Liu Long was surprised, but Yuan Shuo didn't care about this. A cultivator in the early 100th level wouldn't care much no matter how strong you were.

That was not what he wanted to ask.

As for Yuan Shuo, he didn't say anything else and looked at Liu Long, "Come, let me feel some of your wave intent! Don't worry about anything, don't worry about Li Hao ... And don't worry about that dog. Just unleash your strongest state!"

Liu Long was slightly surprised, but since Yuan Shuo had said so, he couldn't wait any longer.

Try it!

The next moment, he threw a punch that was like a wave. On his arms, force surged, one layer after another.

In the end, one could even vaguely feel the ocean waves erupting!

When Yuan Shuo had stepped into the thousand warrior realm, there hadn't been much of a prelude, and he had naturally stepped into the thousand warrior realm.

At this moment, Liu Long tried it out, and Li Hao also discovered the difference. Liu Long needed to accumulate power!

He needed to make preparations, and he needed to explode to the peak before he could comprehend the divine intent.

"Liu Long is not as natural as teacher ..."

At this moment, Li Hao realized something. Even if Liu Long had succeeded in breaking through to the Dou Qian class, it would have been very difficult. He definitely would not have been as relaxed as his teacher. If his teacher had not been injured, he would not have needed any external help to break through to the Dou Qian class.

At this moment, a wave force swept toward him.

Li Hao's expression didn't change, and his feet seemed to be rooted in the ground.

The ninth refinement force erupted!

The force entered his body and went with the current, becoming turbulent inside. The next moment, Li Hao grunted and lightly stomped his foot, transferring a wave of force into the ground.

The ground shook!

The floor tiles cracked ... Li Hao's expression changed.

The next moment, he peeked at Yuan Shuo and saw Yuan Shuo's eyes wide open ... Oh no, I've been seen by teacher. Oh no, I really don't have the money to change the floor tiles for you.

Li Hao asked. It was super expensive. One floor tile cost more than 500 yuan, and one exchange could fill a room ... It was difficult to get each one that was worth 100000 Yuan.

At that moment, Yuan Shuo's eyes widened!

Momentum!

It was definitely the embryonic form of Shi, definitely!

He couldn't be wrong. He had been suspicious of Li Hao's actions since just now. At this moment, Li Hao was actually using Liu Long's force to attack Liu Long's force. He had transferred the force and used his own body to send Liu Long's force into the ground. This was definitely not a simple use of force, but a use of momentum!

How was that possible?

Yuan Shuo couldn't believe it. 'I didn't teach him this. Even if I did, I would only say that imitating the five birds is the easiest way to comprehend.'

However, Li Hao ... Seemed to have gained some insight.

On the other side, Liu Long was still raging, but Yuan Shuo didn't care about him. What was there to see? it shouldn't be a big problem. However, even if he entered the warrior dimension, he would only be an ordinary warrior without any special characteristics.

In the past, Liu Long would have paid more attention to Li Hao if he had not seen Li Hao comprehend force.

However, at this moment ... Yuan Shuo couldn't even be bothered to look at him!

He stared at Li Hao with wide eyes.

Li Hao, on the other hand, felt extremely guilty. He lowered his head, wishing that his teacher didn't see him.

Don't look!

Wasn't it just a broken brick?

Chapter 254: Li Hao's influence (6)

Liu Long has already crushed a few pieces, why aren't you looking at him?

"Ha!"

At this moment, Liu Long's low shout attracted the attention of the master and disciple. Only then did Yuan Shuo shift his gaze. As for Li Hao, he also wiped the non-existent sweat on his head. How terrifying! His teacher's gaze was too fierce just now!

...

Was there a need to?

Li Hao was helpless. As for transferring his force underground ... It was nothing to him.

It was just some basic use. As for Shi, he was still very vague. He knew that he had yet to gain any insight into Shi, only some basic knowledge that cleared some of the fog.

Little did he know that, in Yuan Shuo's eyes, this step meant that Li Hao had found the right direction.

Li Hao's physical fitness was good enough, and he had comprehended the embryonic form of force. If he was not mistaken ... Dou Qian had released him!

It was unbelievable!

At this moment, Yuan Shuo's heart trembled, but he could not express it in words. Therefore, in the next moment, he shouted in a low voice, "Using a move out of thin air, too useless! You're too weak. After comprehending Shi for half a day, the nine layered waves is really a waste in your hands!"

As soon as he finished speaking, he punched out at an extremely fast speed!

Liu Long raised his fist and punched. In the blink of an eye, Li Hao's eyes were only filled with fists!

In the blink of an eye, it was no longer a fist, but a fierce tiger pouncing on its prey.

Liu Long looked like a huge wave, but at this moment, he was like a small stream, caught in the hands of a Tiger. The difference between the two was obvious.

"Not enough? just this? Trash!"

Yuan Shuo's angry voice resounded again. The next moment, in Li Hao's eyes, it was as if a giant bear had descended to the world. Its Bear Paw slapped the waves, and with a boom, the waves were shattered. In the real world, Liu Long's inner strength was in turmoil from Yuan Shuo's slap, and his face was filled with shock.

He felt that he was about to take that step!

It had only been a few days since Yuan Shuo had advanced, but ... But he had been completely defenseless against Yuan Shuo.

The difference between the two sides was too obvious!

“The tsunami is here?”

Yuan Shuo’s cold voice rose again.

“If that’s the case, do you think you’re worthy of fighting the three suns? The moment the three suns’ aura rose, you were dead! Did master douqian really think he could fight the three suns? I want to see a tsunami, not to give me a massage. You’re not qualified for a bath, you ugly man!”

Liu Long was furious!

Water bath?

Who are you looking down on?

“Break!”

With a low shout, he punched out. His Long Fist was like a spear, and a monstrous water dragon burst out.

With a loud bang, Yuan Shuo seemed to have transformed into a giant ape, a giant ape capturing a Dragon!

Yuan Shuo’s hand was as big as the sky, and it pressed down, instantly extinguishing the Water Dragon.

“Hehe!”

This laughter provoked Liu Long to no longer have any scruples. The other party was too strong, and he was no match for him at all. Even though he had already unleashed his power, he was still unable to do anything to Yuan Shuo. This man in front of him was too terrifying.

Liu Long was originally afraid of getting angry ... But now he realized that he was overthinking it. He was the one who got angry, the other party was just playing with him!

“Fold!”

The powerful waves instantly stacked up, one wave after another, three waves, four waves ... In an instant, nine waves stacked up!

“Hualalala ... Boom Boom!”

At this moment, Li Hao heard such a voice.

He looked at it without blinking.

He looked at Liu Long’s fist and his teacher’s hand. One of them used the five birds technique, while the other used the nine-refined force. Both of them were skills that Li Hao knew.

Two Qian Warriors ... Yes, at this moment, Liu Long seemed to have stepped into the Qian warrior realm. Without realizing it, he used his momentum to suppress his opponent ... And in the end, he was suppressed.

No matter what, this was a battle between two Qian fighters.

And Li Hao, a newcomer who had just broken through 100, was watching the battle from close by. This was also an extremely rare opportunity.

He subconsciously waved his fist and struck out with his palm. At this moment, he was watching in a daze.

The next moment, Li Hao couldn't help but put himself in Liu Long's shoes and feel his teacher's momentum of five birds. He suddenly broke out in a cold sweat.

It was too fast!

That's right, his teacher was too fast. Liu Long was in a completely passive position. He wasn't as fast as his teacher. Be it his reaction, his changes, or his moves, he wasn't as fast as his teacher.

Liu Long could only fight them head-on!

All of a sudden, Li Hao felt a chill in his throat. Yuan Shuo turned his fist into a claw, like an eagle's claw, and grabbed at Liu Long's throat. Liu Long, on the other hand, roared and once again raised his fist to block the attack, trying to use the nine-fold force to force back his opponent.

"I ... Shouldn't have retreated and dodged ... I can't block it!"

Such a thought appeared in Li Hao's mind.

In the next moment, Liu Long groaned in pain. Yuan Shuo's hand had disappeared, and when it reappeared, it had already grabbed Liu Long by the throat.

However, Liu Long's fist was easily pushed aside by Yuan Shuo with one hand, and he slid away from both sides.

Liu Long's face was filled with sadness!

However, Yuan Shuo didn't even look at him. Instead, he was looking at Li Hao. Liu Long looked over subconsciously, and in the next moment, he saw something that surprised him.

Li Hao's forehead was covered in sweat. Suddenly, he opened his hands. He didn't attack anyone, but seemed to be trying to push something away.

It was Yuan Shuo's non-existent hand!

At the same time he spread his hands, his body leaned back, and his right arm turned from support to push, pushing palm!

This palm seemed to have pushed something away.

The next moment, Li Hao pushed off the ground with the tips of his toes and did a backflip. He quickly landed and rolled on the ground, avoiding something.

The more Liu Long looked, the more surprised he became!

Was this ... Li Hao's counterattack?

Li Hao, who was rolling on the ground, was sweating profusely. At this moment, he seemed to have just woken up. He turned his head to look at the quiet Hall and suddenly felt a little embarrassed. He looked at his dirty appearance and then at the two tiles on the floor that had been broken by his feet ...

Embarrassed, Li Hao stood up, coughed, and said, "The battle between teacher and boss was too in-depth, and I couldn't hold it in, so I learned from it ... Teacher, boss is a guest, and he crushed some of the floor tiles. I can't ask boss to pay for them, so I'll pay for them ..."

Chapter 255: Li Hao's influence (7)

Retreating to advance!

As expected, Liu Long's expression changed slightly, and he quickly said, "No need, I'll get someone to fix it! I was too excited just now and didn't have the time to care about the occasion. I'll arrange for someone to do it."

Yuan Shuo looked at Li Hao with a faint smile.

...

As for Liu Long, he seemed to have come to his senses. He glanced at Li Hao and was speechless.

Did Li Hao do it on purpose?

He ... Just wanted her to say this so that he could fix the floor tiles.

Of course, he couldn't care about that at this time.

At this moment, he looked at Li Hao for a long time before saying, "When elder Yuan attacked just now, you pushed his hand away first and pushed his hand back ..."

"No, I didn't!"

Li Hao shook his head. "I can't fight back. Teacher is too strong. I only pushed to shift the force of teacher's claw, and teacher will quickly regain his strength and scratch his throat again. So, I can only step on the ground to avoid it and escape the scene ... I'm no match for him!"

Yes, it was unrivaled.

Therefore, he had just kicked the ground and rolled on the ground just to escape from the scene. He had no intention of fighting back at all.

Liu Long's mind wandered for a moment before he suddenly smiled bitterly, "I can't escape, I'm not fast enough!"

Yes, he could not imitate it.

His speed had slowed down!

At this moment, he had clearly stepped into the thousand warrior class, but he was still suffering from blows again and again.

He had been killed by Yuan Shuo. He wasn't as quick-witted as Li Hao, and he couldn't even compare to Li Hao ... This wasn't in terms of strength, but in terms of strategy. He had relied too much on strength!

Was this still an advancement?

A demigod, douqian?

Hehe!

Liu Long was a little dejected. He couldn't help but say, "You ... Did you gain any insight from my Shi?"

Li Hao hesitated. After a while, he nodded. "Yes, a lot, I've comprehended a lot!"

"What did you comprehend?" Liu Long insisted.

Li Hao was a little embarrassed. He was about to spout nonsense when Yuan Shuo said, "Speak the truth!"

Li Hao helplessly lowered his head and looked at his toes. "Boss's Shi is very powerful! Each layer was stronger than the previous, and each layer was stronger than the previous! But ... From my point of view, the first reason is that boss's reaction wasn't fast enough. Second, it should be because I'm not familiar with the nine refinements yet. On the ninth overlay, I'm stuck a little. It's very weak ... But I can feel it."

"Third, maybe because boss has been injured before, he doesn't seem to dare to use too much strength when he uses his arms. He seems to want more ..."

At this point, Li Hao suddenly said, fire and water are heartless! Although I've never seen waves, I've seen storms. Boss, water is violent too!"

As soon as he finished speaking, he threw a punch that was like a wave!

An explosion!

That's right, there was an explosion in the air. In an instant, it was as if a storm was coming and rain was falling. It was violent!

At this moment, Liu Long actually felt the violence of the rain in Li Hao's fist technique!

That feeling of explosion, the feeling of the heavy rain smashing the earth and splitting it ...

This was not water, or rather, this was not the water that Liu Long remembered.

"The water is as fast as a knife, and it's sharp beyond compare!"

BOOM!

After another punch, Li Hao withdrew his fist and gasped for breath. "Boss, this is just my own idea. I'm not familiar with it, so please don't mind me."

Liu Long was silent for a moment. After a long time, he sighed, "Your teacher said ... You will be earth-shattering!"

I believe it!

At this moment, he finally believed it.

Water could be so violent. It couldn't compare to the majestic atmosphere of a tsunami, but a drop of water could also crack the earth.

In the next moment, Liu Long suddenly threw out a punch.

BOOM!

An explosion reverberated in all directions.

It exploded like a cannonball, like a storm smashing through the sky!

This was water, the water that was merciless.

Liu Long closed his eyes for a moment to comprehend all of this. When he opened his eyes again, he looked at Li Hao and sighed, "It seems that old Yuan was right to not accept me back then."

Compared to a genius disciple like Li Hao, if he was also Yuan Shuo's student ... Yuan Shuo would be so angry.

Stupid ...

He didn't want to admit it in the past, but he had to admit it today. He seemed to be too rigid.

At the side, Yuan Shuo crossed his arms, his face full of pride, which quickly turned into praise. "You're not bad, you're good! Although he lacks his own unique characteristics, he is still a warrior of the thousand world ... It won't be a problem for him to deal with an ordinary sunlight warrior!"

Liu Long let out a bitter laugh, his cold arrogance was replaced by admiration, "I didn't understand it before, but I've fought with elder Yuan today. Elder Yuan has only entered the Dou Qian realm a little more than ten days earlier than me, but in terms of strength, he can not be compared to me. Outsiders might think that elder Yuan was lucky to be able to kill three suns, but in my opinion, even if he doesn't rely on anything else, elder Yuan has the power to fight with three suns!"

This was a true God on earth!

As for himself, Liu Long thought about it for a long time. Perhaps he was the true douqian Martial Master.

Yes, one was a douqian Martial Master, while the other was a demigod. There was no difference in realm between the two, but there was a huge gap in strength.

Li Hao, however, broke their atmosphere. He suddenly smiled and said, "Congratulations, boss, congratulations, teacher! We've completed the prerequisite of our plan. You two, I'll go get the food. Let's have a drink at noon!"

If he continued, Liu Long would give up on himself!

He was a douqian Martial Master, but he had been beaten so badly that he was not even human anymore.

Seeing Li Hao turn around and leave, Liu Long suddenly laughed, "Elder Yuan ... I really envy you!"

Yuan Shuo was proud. "My student, don't think that just because he has the inheritance of the ninth-refinement force, he is your student ... You can't do it!"

"I understand."

At this moment, Liu Long was a little envious. He looked at Gou 'Zi who was waving his paws and sighed. F * ck, Gou' Zi is not bad too. Why not take Gou 'Zi as a student?

Chapter 256: finding a spare tire (1)

At noon.

Liu Long stayed behind for dinner. Yuan Shuo's house looked a little shabby at the moment, and many of the floor tiles had been broken.

Normal people would not fight at home.

...

Therefore, the three people in the room were obviously not normal.

Liu Long had a good appetite and was gobbling down the food.

In front of outsiders, he, Liu Long, was powerful, had a high status, and was awe-inspiring.

There was no need for that here.

Back when Yuan Shuo was running amuck, he was just a child who came to ask for a master. In front of Yuan Shuo, he had never raised his head.

On the other hand, Yuan Shuo was drinking a little wine. He was the only one at the table who would drink a little. Liu Long looked burly, but he didn't drink wine, as drinking wine would easily cause trouble.

Yuan Shuo, on the other hand, was a Martial Master of the older generation. He was quite free and easy with wine and meat passing through his intestines.

At this moment, Yuan Shuo was drinking his wine with his eyes narrowed. He didn't look at Liu Long or Li Hao, and no one knew what he was thinking.

Originally, he had been thinking about what would happen to Li Hao if he left the Silver City.

As long as the problem with the eight great families was not resolved, Li Hao would always be on the edge of danger.

However, when Li Hao comprehended the embryonic form of Shi today, he suddenly felt a little more at ease. He was even looking forward to seeing if Li Hao would have the chance to enter the Qian warrior realm before he left.

Yes, he had stepped into the thousand warrior realm!

Now that he had comprehended force and had the help of his sword, if he could get more mysterious energy of the five elements and the power of the red shadow, he would find a way to smash Li Hao up even if he had to force his way through!

‘Momentum’ was the most difficult factor that hindered a Martial master’s advancement. In Yuan Shuo’s eyes, the rest were nothing.

Last time, he had gained more than 1000 points of mysterious energy.

He had been asking the night patrolman to help him exchange, but the other side had been dawdling. Until now, he still had not exchanged for the same amount of five elements mysterious energy.

Originally, he was not in a hurry.

What’s the hurry!

Although Li Hao had improved quickly, he wasn’t in a hurry. However, at this moment, he was somewhat anxious.

Bastard!

It was too slow!

Li Hao, who had gained the embryonic form of Shi, was still in a high-speed advanced stage. Every day he delayed was a crime, a kind of torture.

As for Li Hao devouring too much, causing his strength to surge and his experience not being able to keep up with his strength ... Yuan Shuo didn’t care.

He was different from other martial masters.

No matter how weak Qian warrior was, it was still better than 100, right?

“First, increase your realm. When your realm and strength increase, what about experience? you’ll naturally gain combat experience by killing more people. The power of a Martial Master comes from your own body, so there’s no danger of losing control.

In this case, it didn’t matter if he had experience or not. As long as Li Hao didn’t stupidly go to fight with the sunlit three suns after entering thousand hands, it wouldn’t be a big problem.

At that time, it would be a piece of cake to break the hundred moon darkness.

Yuan Shuo pondered and suddenly stood up.

Li Hao raised his head. Just as he was about to add more wine to his teacher’s drink, Yuan Shuo reached out and grabbed the communicator.

He thought for a moment and dialed a number.

“It’s me!”

“Elder Yuan ...”

A familiar voice came from the communication channel. It was mu Sen’s voice.

Li Hao and Liu Long were both a little surprised. Why was he looking for mu Sen?

“I can’t contact Hao lianchuan, but I’m sure you can!” Yuan Shuo replied coldly. Tell him, I want to see my mysterious energy tonight, all of it! If he still couldn’t see it, then the matter of the ruins would end here! Don’t give me that. Dragging it out won’t solve the problem. You want to wait until I come out of the remains? Or are you going to burn it for me after I die?”

“Elder Yuan, this ... We can’t contact white moon City either ...”

“Mu Sen, do you really want me to go to your office, grab your neck, and ask you?”

“.....”

On the other side, it was quiet for a while.

After a while, mu Sen helplessly said, “using an emergency contact means that something big has happened. Every time it’s used, it’s a waste of manpower and resources ...”

“The important thing is, if Hao lianchuan still doesn’t give me the item, I will kill the chief of the inspection Division, mu Sen. Is this reason enough?”

“.....”

Liu Long raised the corner of his mouth, but didn’t say anything.

Li Hao also suppressed his voice, afraid that mu Sen would hear that he was here.

A moment later, mu Sen helplessly said, “okay, I’ll inform them immediately. But tonight ... There’s still some distance between them and us. Even if they’re ready, I’m afraid it’ll be difficult to deliver it today.”

“Hao lianchuan can fly. It’s only a thousand miles, he can just fly here! I don’t care about anything else, just leave it at that!”

With a bang, he threw the communicator to the side. Yuan Shuo no longer cared about how they were communicating.

It was indeed difficult to communicate across cities.

However, if even the Supreme Leader of the inspection Office was unable to contact Whitemoon city, then Whitemoon city’s control over the Silver Moon province would instantly hit rock bottom.

That day, Hao lianchuan had come so quickly, so he naturally had a way to contact them. It was just that he usually did not use it.

“These guys, I have to urge them!”

Yuan Shuo was a little annoyed, "I understand what they mean!" We'll be going to the ruins soon. If we die there, we don't have to pay anything, but if we walk out of the ruins alive, we'll naturally get some rewards. A little mystery is nothing ... You've given them your sword, and you can give them the things you want later in the ruins, but you even want to steal my kill the sky's mysterious energy ..."

The more he spoke, the angrier he got!

"Teacher, calm down," Li Hao hurriedly advised. "We won't be using it for a while, anyway."

Bullshit!

Yuan Shuo glanced at him. Who said he didn't need it?

You can use it now, and it's urgent.

This time, in order to save Liu Long, he used up some more sword energy. Now, his sword energy is getting less and less. If you don't improve your strength soon, once your sword energy is used up, it will be very difficult for Li Hao to improve quickly.

Chapter 257: finding a spare tire (2)

There was a limit to the absorption of mysterious energy.

Li Hao was able to do it because his sword could neutralize it.

Otherwise, no matter how good his physical fitness was, he would only be able to absorb a little more mysterious energy than the average person. He would not be able to absorb more than 30 points of mysterious energy so easily like he was doing now.

...

"Elder Yuan is in urgent need of the mysterious energy?" Liu Long asked. I ..."

"Eat your food!"

Yuan Shuo directly interrupted him. How could he not know about Liu Long's little background?

Last time, Liu Long got a lot of mysterious energy. In total, he got close to 50 cubic meters, which was not a small amount.

But to Yuan Shuo, this was nothing.

Li Hao needed to forge the five internal organs and balance the five elements energy. Liu Long's was not suitable to begin with, and there were only a few of them. An ordinary one that broke 100 was enough, but Li Hao's was far from enough.

Liu Long also stopped talking.

After eating a few mouthfuls of rice, he was almost full. Then, he started talking about serious business. "Elder Yuan, is there any more information about the three sun glory?"

He only knew about the three sunlit experts.

Was it the early, middle, or late stage?

What abilities were they good at?

They knew almost nothing about their enemies. Other than knowing their cultivation realms and numbers, they had no idea what their enemies were.

Under such circumstances, it was hard to guarantee that nothing would go wrong.

“No, I didn’t,”

Yuan Shuo replied and added, “I asked Hao lianchuan to come as a backup!” Don’t call him when you’re eating meat, but if something happens ... Call him!”

Liu Long was stunned.

Yuan Shuo continued, “shouldn’t the higher-ups send someone to congratulate you on the establishment of your branch?” He, Hao lianchuan, was the most suitable! The reason I’m here to congratulate you is to not only show how important it is, but also to suppress the supers here so that they won’t get involved. The last thing ... If there’s a mistake, Hao lianchuan can help you clean it up in time. ”

That’s right, this was Yuan Shuo’s plan.

He had forced the other party to send the things over tonight. Other than Hao lianchuan, who else could come overnight and deliver the things?

As for whether he would come or not ... Even if he didn’t come tonight, he would still come tomorrow.

And it was definitely Hao lianchuan!

Because of the mysterious energy, other than Hao lianchuan, the average sunlight would not dare to cross thousands of miles to transport it. Did they really think that there were no supers in the wilderness who would Rob people?

Li Hao couldn’t help but exclaim in admiration, “teacher’s thinking is really perfect!” [1]

Of course, it was hard to say how Hao lianchuan would react.

“Don’t worry about what he thinks,” Yuan Shuo continued, “can’t the night patrolmen clear out wanted criminals?” Moreover, the various families are waiting to cooperate with us to explore the remains, so as long as it’s not an all-out war, it shouldn’t be a big problem. The premise is that these people don’t know Qiao Feilong’s strength. ”

The two of them nodded.

“So, we have to deal with the three of them by ourselves?” Liu Long pondered for a moment.

He thought about it for a while and remembered that Yuan Shuo had told him to let Hao lianchuan clean up the mess. There shouldn’t be too much of a problem.

Of course, no plan could be perfect.

Wealth was found in danger!

If Yuan Shuo wasn't afraid, then he had nothing to be afraid of.

"Then, when I go back, I'll make some appropriate arrangements. I'll also need the cooperation of others. At the very least, I'll be prepared to encircle and annihilate them."

"Right, I'm afraid there's no shortage of ordinary people in the mine. If we use weapons of mass destruction ..."

He was a little hesitant.

In this regard, Yuan Shuo was actually more ruthless than him.

However, Yuan Shuo also knew his character. He did not directly say that he did not need to care and began to consider it.

Li Hao interjected. "They're exploring the relic. It's impossible for ordinary people to enter that area. I've observed that the three sunlit experts are still a distance away from the ordinary people's Kuangqu. They're about a kilometer away."

It wasn't far. In fact, it was very close!

However, it was a thousand meters away. As long as he was careful, he could avoid it.

"If you think it's inappropriate, boss, I have a suggestion," Li Hao said after some thought.

"Tell me."

"Vacation!"

Liu Long was stunned. Vacation?

He quickly thought about it and frowned. "There's no reason to take a break!"

Li Hao laughed, "why not?" The day after tomorrow, our Nightwalker division will open for business. To celebrate this day, to celebrate the establishment of Blizzard Silver city's own superpower organization, the day after tomorrow and the day after tomorrow, the entire city will rest! To the upper echelons of Silver City, this is just a simple vacation."

Most people would go home during the two-day holiday.

This was especially so for the mines. They were usually too tired and finally had a holiday. They would definitely not stay in the mines. Of course, not all of them would leave. Some would definitely stay, but by then, there would be much fewer people.

With a distance of a thousand meters, the losses would be minimized.

"Won't we alert the enemy?"

Liu Long thought for a moment and asked.

"The whole city is on holiday, not just the Qiao family!"

Li Hao laughed. "And they're only targeting ordinary people. The Qiao's won't be suspicious."

“We still have to be on guard!”

Yuan Shuo interjected, “Also, do you think there’s any point in setting up the night watchers and giving ordinary people a holiday? Also, will Mrs. Qiao be obedient and let him have a holiday?”

Yuan Shuo glanced at Li Hao and shook his head. “You’re quite smart, but you’re prone to making mistakes at critical moments.”

Li Hao lowered his head and didn’t say anything.

Since his teacher had said so, perhaps he had a way.

“It’s not reliable to let people take a break ...”

Yuan Shuo narrowed his eyes. “About a thousand meters away from the three sunbeams, right? then I’ll make a trip there tonight. I’ll cause an accident and make the mine collapse. That’ll do!” I’m familiar with that area. I’ve been there once to open a new mine. In the original collapsed area, with a little bit of tampering, the collapse will continue, and no one will go into the mine at night. If it collapses, the Qiao’s will have a holiday, and it will be difficult to recover without ten days or half a month.”

Chapter 258: -find a spare tire (3)

Liu Long nodded slightly, “it’s okay to collapse the mine. Anyway, it’s not the first time there. When I was in the law enforcement team, there were several collapses in the Qiao’s mine. However, no one was hurt, so the matter was settled.”

“It’s normal!”

Yuan Shuo laughed, “the area they collapsed should be close to the remains, so naturally, there are not many people. It’s just that the collapse happened, so they could only reorganize. The remains should have started to be developed now. In recent years, there have been more than one or two collapses. It’s not a big deal if there’s one more. In order to prevent people from spying, they will definitely let the workers leave.”

...

Li Hao nodded. This was not bad.

As for suspicion ... It wasn’t the first time. Mrs. Qiao might be more worried than anyone else. Everyone would pay attention to that side, and would want to immediately close down for rectification, in case someone came to check.

Therefore, once there was an accident, it would be stopped immediately.

“Can teacher avoid their detection?”

“Nonsense, I’m a Martial Master, not a superhuman!”

“Shut up!” Yuan Shuo scolded. This was the greatest advantage of being a Martial Master. Inner strength was generated from the body, and there was nothing special about it.

It was extremely difficult for supers to sense the presence of martial masters.

Li Hao laughed dryly and didn't say anything.

With the General Plan confirmed, Liu Long had no more worries. As for whether it would succeed or not ... It would depend on luck.

Whether he could deal with the three sunlit cultivators would depend on his luck.

.....

His teacher and Liu Long were both very willing to bet. In fact, according to Li Hao's thoughts, it might be more secure to ask Hao lianchuan to act together.

But these two didn't have such thoughts at this moment.

He would solve it if he could, but he would look at it again if he couldn't. This didn't meet Li Hao's expectations.

But Li Hao could only do so at this moment.

After that, they continued to eat and didn't talk about this matter anymore.

.....

After the meal, Li Hao and Liu Long left together.

As for the floor tiles in the teacher's room, someone would naturally deal with them. It was none of Li Hao's business.

In the car.

Liu Long closed his eyes and thought about something.

When Li Hao was about to reach the inspection Office, Liu Long suddenly opened his eyes and said, "Do you think we should call Liu Yan and the others?"

He actually asked Li Hao!

Li Hao was a little surprised, but he still replied, "If they want to obtain more resources and are not afraid of danger, then Shout! If they felt that they could retire in peace and wait for their salary, then there was no need to shout! In fact, even if they don't get involved, if something happens to us, the Silver City will be in danger. "

"Do you think we should ask them to join us?"

"Boss should have considered it."

Li Hao didn't say much. Liu Long wasn't an indecisive person. It was just that this matter involved several members of the sunlight group, and the members of the group were all his brothers and sisters, so he was overly worried.

Li Hao was sure that if he told Liu Yan and the others, they would probably choose to participate.

As for Wang Ming and the others, he wasn't too sure.

Liu Long was silent for a moment before he said, "Do you think we should call Wang Ming and the others for a small meeting later?"

After all, they were considered outsiders.

Li Hao thought for a while and said, "let's do it. The three of them are very young and have the drive!" "This is also an opportunity for the integration team. Otherwise, our team will be divided into two parts, and it will be difficult to integrate. Only by fighting together can we become one of us."

"You're right. "

Liu Long revealed a smile. A moment later, his expression returned to being cold and arrogant, "I've stepped into the thousand warrior realm. Although I don't know about the situation of the other three, I have the confidence to defeat them! They're just three rats, they've never appeared in the supernatural realm and might not even have fought before. In order to hide their existence, how much combat awareness do you think these three have?"

"Probably not much."

"Maybe you're not as good as me!" Li Hao laughed.

"Not bad!"

Liu Long nodded in agreement.

It wasn't just the three of them. Qiao Feilong hadn't fought for many years. In the past, when he fought, he only had the strength of the tenth realm. Now, even if he had entered the three suns realm, how much battle awareness would he have?

It was fine when it came to killing the weak, but what about when it came to dealing with powerhouses of the same level?

At this moment, Liu Long was filled with confidence. It was unknown if he was trying to comfort himself or if he really thought so.

.....

At the law enforcement building.

Wang Ming, who had just gone to a few companies, couldn't help complaining to Hu Hao when he heard that there was going to be another meeting. "Originally, when others said that there were many meetings in Whitemoon city, I deeply agreed! In the end, when I arrived in Silver City, I discovered that there were many little B * stars in the temple!"

It's only been a few days, how many meetings have been held?

Meetings when you have nothing to do!

He was very dissatisfied with Liu Long. Initially, he thought that Liu Long was a guy who was indifferent to fame and fortune. After all, this guy had some reputation in the White moon City. In the eyes of the supers in the White moon City, Liu Long was a very stubborn guy.

But now, no matter how she looked at it, she felt like a fan of the officials!

Good Lord, now that he's the Minister, meetings come one after another, endless!

Not only that, there's also an opening ceremony the night after tomorrow ... Bah!

We're night patrols, not running a company.

What kind of opening ceremony is this? aren't you afraid of laughing your head off?

"I won't do anything serious!"

Wang Ming ridiculed him again, but Hu Hao didn't respond. He was more reserved and usually didn't say too much.

Li Meng, on the other hand, agreed with him and nodded." "It is! "Originally, the higher-ups wanted us to come to Silver City. I was thinking that it might be the same as last time. A battle might break out here, and it would be very dangerous. The higher-ups wanted to train us, so they arranged for us to come here. But these few days ... If I'm not in a meeting, then I'm just going around, going to the dojo, going to the company to eat and drink ... I'm so bored. "

Chapter 259: find a spare tire (4)

What the hell!

At this time, Li Meng also felt that white moon City had overestimated the martial masters of Silver City.

Ever since the last battle, these people seemed to have entered retirement mode. Each and every one of them was busy showing off their authority, which was boring.

...

"Minister Wang, Li Meng, let's go to the meeting!"

Hu Hao interjected. They were still in the law enforcement building.

It would be bad if someone heard it.

The three of them could be considered as a team. Over the past few days, they had not blended in with Liu Yan and the others, and their relationship was only alright on the surface.

Wang Ming snorted and got up."Let's go. I'd like to hear what you're saying today." He didn't go to the conference room but went to the basement for a meeting. He's so bored!"

The few of them chatted and chatted as they walked towards the basement.

This time, the meeting began there.

.....

In the basement.

Liu Yan and the others arrived one after another. Yunyao and the others had actually been living here all along, so the office upstairs was empty most of the time.

They were more used to this place.

Seeing Li Hao and Liu Long enter together, they didn't care. Liu Yan, on the other hand, vaguely knew a little about them, but she didn't say anything.

Seeing that Wang Ming and the others hadn't arrived yet, Liu Long swept a glance at Wu Chao and Chen Jian, frowning slightly. "He only started absorbing the mysterious energy these two days?"

The two of them nodded.

"Absorb all the mysterious energy within two days. It doesn't matter if there are any hidden injuries. Absorb it all!"

The two of them were stunned. Why was he in such a hurry?

They were given 20 cubic meters. According to past situations, it would not be too much to suck him for half a year. After all, there might not be much income in the future. Of course, they had to spend sparingly to maximize their benefits.

What's the rush?

However, Liu Long's authority was still there, and the two of them trusted him very much. Soon, the two of them nodded and didn't ask anything.

"Yunyao!"

"Yes,"

Yunyao raised her head and looked at Liu Long.

"You're a water descent Esper, how much healing power do you have?" Liu Long said.

"It's about the same as before,"

Yunyao adjusted her glasses. She didn't wear glasses in the past, but now she liked to wear a pair of glasses. Li Hao knew a thing or two about them. They seemed to be able to see a red shadow, and Yunyao used them to avoid the red shadow's pursuit.

"Then you'll be the healer. You'll be in charge of the team's recovery until the actual light and healing powers enter the team."

"Understood!"

At these words, there was a knock on the door, and Wang Ming pushed it open and entered.

With a smile on his face, he looked at the few of them and nodded to Liu Long, wanting to find a place to sit ... He found that these guys were sitting randomly, so the fat Chen Jian simply sat on the ground.

He was speechless and decided not to sit. He stood with Li Hao.

Li Meng and Hu Hao did not sit down either. They walked over to Chen Jian and the others.

Liu Long looked at the few of them and went straight to the point, "You guys are new here, so you're not familiar with us. We did have a joint battle before, but it was a short one."

"I just want to ask you one thing. Did you come to the Silver City for gold, or did you really come to experience life and death?"

Wang Ming was a little displeased, "to train myself, of course!" Gilded? If supers were not strong enough, would gold plating be useful? Chief Liu, aren't you underestimating us?"

"Minister," Li Meng chimed in, "we came to the Silver City because we heard that the Silver City needed reinforcements. We're not here to play."

"That's good!"

Liu Long coldly said, "next, a battle will break out in Silver City. You don't need to know who the enemy is!" All you need to do is to follow orders, not be scared out of your wits, not ruin the plan, and not interfere with your teammates. That's all!"

Battle?

Wang Ming was taken aback. Where did this battle come from?

"Minister, what's the enemy's strength?"

"Sunlight!"

Wang Ming frowned slightly. "It's not that we can't deal with him, but it's indeed very dangerous. May I ask if he's from the three major organizations or some other superpower organization?"

"You can be considered a member of the three great organizations!"

"But now, what Whitemoon city means is that it's best not to take the initiative to start a conflict ..."

"This is the Silver City!"

"Therefore, my decision is the only one here!" Liu Long said coldly. Unless I step down and you come up, then you have the final say. Otherwise ... I have the final say!"

Wang Ming pursed his lips. "Do as you please."

He was not too afraid.

There was only one sunlit, and the silver Blizzard city's strength was still alright. Although they did not have sunlit, there were four dark moons in the team, and two who had broken through the 100th level. They could still fight.

As for danger ... Just as he said, encountering danger here was the life they imagined.

Hu Hao, who hadn't spoken all this time, said, "Minister, do you have the time and place of the operation?"

“I’ll let you know when we’re ready!”

Alright, this meant that he didn’t trust them.

Of course, this was a normal phenomenon.

Although he wasn’t very satisfied, Wang Ming accepted it. He didn’t mind it and asked, “Do you have a battle plan? How to cooperate? I’m a metal-type superhuman, Li Meng is a special-type superhuman, and Hu Hao is a sky-type superhuman. In Whitemoon city, if there’s a battle between superhumans, they’ll usually practice in advance so that they can cooperate well to avoid interference ...”

“No need, as long as the three of you cooperate well!”

Liu Long looked at him and said, “the three of you, be prepared. Be prepared for the sun glory to charge towards them. How can you stop them, or even stop them from escaping? this is what you should think about. If you can’t do it ... Then tell me in advance!”

Wang Ming’s heart trembled slightly!

Chapter 260: find a spare tire-5

The three of us should be prepared to resist the sunlight?

This ... Was too exciting!

He was a little excited, a little nervous, and a little embarrassed, but he still forced himself to say, “Um ... Minister, we ... We don’t have enough combat experience. To put it bluntly, we don’t work well together. If we really encounter riyao ... We might not be able to stop him.”

...

Liu Long laughed. He liked this guy’s honesty.

It was useless to brag now. If they were really dragged into the battlefield, they would be killed in an instant. It would only harm themselves and others.

“The other party is also a newbie!”

“Ah?”

Wang Ming and the others were all stunned. Also a newbie?

“There’s a new player in riyao?”

They couldn’t believe that someone like riyao could still be a newbie.

Sunlight was usually a super for at least ten years.

As a super, whether it was a Night Watcher or other organizations, it was impossible for a super with more than ten years of experience to not have experienced a few battles, especially in sunlit. Unless the person was a priest blessed by the heavens, they would naturally cultivate to sunlit ... But it was hard to say.

“He’s probably a newbie ... I’m not 100% sure, but the possibility is as high as 90%! Even if he had fought, he would at most be at a lower level. He shouldn’t have any battle experience of the same level!”

Wang Ming let out a sigh of relief. “If that’s the case, then there’s nothing to be afraid of. Hu Hao can fly, Li Meng can lock onto the position and distance, and I can attack. The three of us should be careful. We might not be able to deal with the other party, but we can run ... Ahem, but we can still restrain them.”

After suffering a loss last time, the three of them had some experience this time.

“It’s fine if you want to back out, but if you don’t ... Then it’s decided!”

Liu Long finally said, “keep it a secret. Without my permission, you can’t even reveal it to the White moon City!” Do you remember that?”

“Understood!”

“That’s all for the meeting. Get ready for battle!”

“Yes!”

Everyone responded.

The members of the demon hunting squad were all very calm. Sunlit was fine. They had killed Yue Ming in the past. Now that everyone had become stronger, it was understandable that they would kill sunlit.

.....

Liu Long’s meeting was very short.

The crowd dispersed.

Wang Ming, however, grabbed Li Hao and said in a low voice as they walked, “Deal with the Milky Way?”

“You guess?” Li Hao bared his teeth.

“.....”

Guess my ass!

He could only think of it this way. It was said that the Galaxy had supers at the level of Dark Moon, but did the Milky Way ... Do they have them?

He did not know.

“Forget it, I’ll just deal with anyone, not the night patrolmen!”

Wang Ming didn’t have many requirements for this. As long as it wasn’t his own people, it didn’t matter who he was dealing with.

“Will your teacher help?” he asked.

“I might.”

With this, Wang Ming was relieved. With Martial Master douqian at his beck and call, his safety was guaranteed.

It was just to deal with a sun glory!

Even if these people weren't a match for him, Yuan Shuo was here. He would be hacked to death in a short while. Last time, Yuan Shuo hacked Ying Hongyue's son to death with a single blade strike. They had all seen it with their own eyes.

It was too amazing!

So at this moment, Wang Ming relaxed.

Seeing that he seemed to be very relaxed, Li Hao said softly, "Be on your guard, it's not that simple! Treat any battle as your last one. This is what my teacher taught me, and I'll pass it on to you! It's common for a boat to capsize in a ditch."

"I understand!" Wang Ming frowned and nodded.

After that, the two of them left.

.....

Soon, it was time to get off work.

As usual, Li Hao didn't work overtime and got off work on time.

His performance was extremely normal!

No matter who observed Li Hao, they would only come to one conclusion: this guy was really boring.

He went to work on time and got off work on time.

Other than going to his teacher's house, he didn't go anywhere else. This lifestyle was even more disciplined than the old man's.

.....

Meanwhile, when Li Hao returned home.

The yuan family.

Hao lianchuan landed on the ground breathlessly and pushed the door open angrily. "Professor Yuan, do you really have to go this far? Using the inspector General to threaten people isn't a good idea!"

He was somewhat dissatisfied!

It was fine if he was joking normally, but mu Sen had said it so seriously that if he didn't come today, Yuan Shuo would kill him!

Since it involved a city's inspector ... Even though Hao lianchuan was extremely busy, he still rushed over quickly.

Yuan Shuo's threat was a little too much!

He also overstepped the rules!

“Where’s the thing?”

Yuan Shuo ignored him and went straight to the point. “Did you bring the things? Don’t say so much. You took my things and left. I haven’t heard from you for many days, and you even swallowed the Li family’s sword. If I don’t take the initiative to ask for it, are you not going to give it to me? The night patrolman is going to commit a public robbery?”

“.....”

“I’m helping you change the mysterious energy ...” Hao lianchuan said helplessly.

“If the night patrolman can’t even take out more than 1000 points of five-element mysterious energy, then he should close down his business!”

Well, Hao lianchuan had nothing to say. Of course, he could take it out.

However, he did want to delay it until after the remains exploration. In the end, this person refused, so he could not keep refusing to give it.

“I’ve brought the items. 200 cubic meters of energy for each of the five elements ...”

“I’ve given you 1300 cubic meters!”

Yuan Shuo’s expression was cold. He looked at him with some dissatisfaction.

Hao lianchuan explained, “I really didn’t take your money for myself. I don’t think it’s that bad!” “But you insist on having the same amount, so I can only give you this much. As for the other 300 cubic meters, I’ll exchange them for attribute-less mysterious energy, which is more helpful to martial masters. What do you think?”

Only then did Yuan Shuo nod his head. This was fine too.

“That’s it then. In addition, Liu Long came to my place this morning. He said that if you came, you should help him hold an opening ceremony ...”

“I’m so busy, I don’t have time to do this!”

Hao lianchuan was so angry that he almost laughed. “I have too many things to do. Do you think I have the time to help him?”

You must be joking!

“There are many snakes, insects, rats, and ants in the Silver City. Do you think he can suppress them with a hundred people?”

Yuan Shuo replied calmly, “up to you. It’s only the day after tomorrow. Since you’re already here, are you rushing back now?”

“.....”

Hao lianchuan thought for a while and was speechless. After a while, he said, "Alright! There shouldn't be any major events happening in the near future. I've already spoken to a few large organizations, so you can rest assured! The central region is chaotic, but it hasn't affected us yet. We'll talk about it after we've finished exploring the ruins."

"Yes."

Yuan Shuo waved his hand to chase him away. "That's enough, you can leave now."

Hao lianchuan was even more speechless. "I'm still a three yang."

This guy was getting more and more arrogant!

At this moment, he really did have the demeanor of old demon Yuan.

He didn't bother to say anything more and left immediately. As for why Yuan Shuo wanted to exchange the five elements energy, he didn't bother to ask. He had some guesses in his heart. Last time, Yuan Shuo had asked him to absorb some energy from other elements, and he had done so. The effect was not bad.

His chest pain seemed to have weakened a little, even though it didn't seem to be of much help to his strength.

However, this matter was still rather important.

Hao lianchuan was ready to test it out for a while. If there were no major problems, he would inform the night patrolmen to see if they could study it and see if a balance of the five elements was needed to better promote the progress of superpowers.

It was also because Yuan Shuo had provided him with this information that he had been so enthusiastic. He had come immediately when Yuan Shuo had called for him.

He walked out of the yuan family's courtyard and stopped in his tracks.

He stepped on a broken tile, looked down, and raised his eyebrows.

As a three-Sun Expert, he had a good eye.

"The use of Shi?"

He guessed that it didn't seem to be Yuan Shuo's. Could it be Liu Long who came in the morning?

In that case, Liu Long had also started to come into contact with Shi. This was not bad. It seemed that this guy might have the hope of entering the thousand warrior class.

At this moment, Hao lianchuan smiled.

It was an unexpected gain!

No one told him about this, not even Liu Long himself. Could it be that he was planning to give the night patrolman a surprise after he advanced?

"If he can advance ... That's not bad. It's worth it to hold the fort for him this time!"

Hao lianchuan chuckled as he walked toward the inspection Office. He was in an exceptionally good mood.

As for the silver Blizzard city, the others couldn't do much right now.
