

## Constellation 261

### Chapter 261: rushing to die (1)

30th of July.

On the last day of July, Xingyuan calendar did not differentiate between large and small months. Each month had a standard 30 days.

Today was a rest day. Be it the inspector or the night patrol, everyone had a rest day. There were six days of rest every month. Relatively speaking, eating a public meal was still very comfortable.

...

Of course, when he was busy, he would not rest for the whole year.

On this day, Li Hao woke up late.

It wasn't that he was slacking off because he didn't go to work. After Yuan Shuo destroyed a mine last night, he came to Li Hao's room and scared him to death in the middle of the night. Then, he tormented Li Hao the entire night.

The main thing was to feed him the mysterious energy!

That was called forcing it. You had to suck it in no matter what, as long as you could.

Yuan Shuo had prepared 1000 cubic meters of five elements energy for him.

Li Hao had absorbed so much five elements energy that he almost vomited blood, yet he had only managed to absorb less than 100 cubic meters ... If this news were to spread, it would be terrifying.

Who could absorb 100 cubic meters of mysterious energy in one night?

Even a douqian Martial Master like Liu Long might not be able to absorb so much at this moment, mainly because he could not digest it.

But Li Hao had sword energy.

After the sword energy was neutralized, the energy would become gentle energy. Even if it could not be absorbed, it could still be stored in the body.

However, Li Hao and Yuan Shuo both sensed that the sword energy was decreasing.

As for the problem of the sword power decreasing, Yuan Shuo did not know how to deal with it. The origin god weapon was a top secret in the field of superpowers, but there was no such thing as an origin god weapon in the ancient records. It was probably a concept proposed by the modern supers.

Absorbing 100 cubic meters ... Was enough for a person who broke through 100 to become a super. For example, Liu Yan, who broke through 100,100 cubic meters should be enough to advance.

When Yuan Shuo had broken through to the great circle of one hundred, he had said that if he wanted to advance, he would only need a few hundred or a thousand cubic meters.

Li Hao, on the other hand, had absorbed so much energy mainly to strengthen his five internal organs and his physical fitness.

As for the release of internal strength from the torso, Li Hao still needed to Polish it himself. It would take some time. In terms of physical fitness, even Yuan Shuo said that this guy's internal organs were not worse than his when he had broken through 100 perfection.

At that time, he had relied on his inner strength to nurture it. He didn't have Li Hao's conditions and had relied on his special ability to strengthen it.

Thus, Li Hao got up a little late and felt very full.

The feeling of eating too much!

The branch's founding ceremony was tomorrow night, which was the night of August 1st. It was still early. It didn't matter if Li Hao didn't work today, nor did he care if he woke up a little late.

"A big house is good ... But it's a little inconvenient!"

Li Hao, who was still digesting the information, felt a little emotional.

This place was very good and comfortable, but it was a little bad. There was no place to eat breakfast. In the wealthy District, who would eat breakfast every day like Li Hao?

Everyone had a nanny and chef.

Otherwise, he could get up in the morning, go out for a walk, eat some breakfast, exercise his body, and practice the five animal technique. It would be very good to maintain his health.

At this moment, Li Hao grumbled. Then, he felt his body, only to feel that his internal organs were like a furnace.

It was warm!

His blood was flowing crazily, and every time it flowed, it would produce strands of inner strength. At the same time, it would strengthen some of his blood vessels, skin, bones, and bones.

"Lightning body strengthening, wind speed increasing ..."

Li Hao felt helpless when he thought of the Thunder energy.

Ying Hongyue's son was of the lightning element, and Yuan Shuo had managed to extract some lightning energy after killing him. In the end, Huang Yun had taken half of the lightning energy, and the remaining bit had been exchanged for by the other party.

Yuan Shuo had wanted to stay, but then he felt that the five-element energy was more important. Now, he had only exchanged the five-element energy for 1000 cubic meters, and Li Hao felt that he had lost out by getting 300 cubic meters of useless attribute-less mysterious energy.

What could Huang Yun do with lightning?

Wasn't he a wind-type?

Attribute-less mysterious energy was indeed effective in strengthening martial masters, but attribute-less mysterious energy was not as precious as attribute-less mysterious energy to Li Hao.

Despite his complaints, Li Hao started to practice his boxing.

A lazy fist technique!

This was the appearance of the five birds technique when it was not in battle. It was known as the number one technique of health maintenance, and the battle was not intense.

At this moment, Li Hao could feel the increase in his inner strength and the strengthening of his flesh. He felt a strong sense of power.

Of course, he didn't dare to use too much force, afraid that he would make too much noise and attract the attention of the house next door.

He didn't know if Qiao Peng would still be in the mood to hook up with him today.

The corner of Li Hao's mouth rose slightly. Last night, his family's mine had collapsed. In the middle of the night, Li Hao had sensed that Yue Ying, who had followed Qiao Peng, had gone out. The light source was very obvious in the middle of the night.

However, in the morning, the other party returned. It seemed that the collapse of the mine was almost settled.

When he said Qiao Peng, Qiao Peng arrived.

Li Hao actually couldn't sense Qiao Peng's aura, nor could he sense Yue Ying's aura. However, the other party was a huge light bulb moving towards him. Li Hao wasn't blind, so he could still see it.

Li Hao now concluded that this pair of all-seeing eyes should be due to his bloodline. There was no other explanation.

But sometimes, Li Hao thought that the night patrollers seemed to have absorbed some of these people. Could it be that they were also of the bloodline of the eight great families?

However, this was not logical. If the other party was also a descendant of the eight great families, that meant that the night patrol knew about it, so why didn't they know about the Silver City?

These things were not good to ask directly.

Wang Ming might know, but he wasn't too stupid. If he asked too much, Li Hao was worried that the guy would guess something.

There was no rush in this matter. After this battle and forming a deep friendship, he would slowly ask. At that time, he would not be afraid.

## **Chapter 262: rushing to die (2)**

What happened to those who saw the red shadow?

Also, was it a secret that the red shadow was in the higher-ups of the night patrollers?

It might not be!

...

Otherwise, how could the night watchman know that these people were special the moment they saw the Red Shadows?

That's right. There were always some powerhouses with special abilities among the night watchers. Moreover, existences at the three suns might be able to see them directly ... It was just a guess. It was Li Hao's fault for not knowing friends at the three suns.

As these thoughts flashed through his mind, he pretended not to see that fellow's arrival.

Until someone knocked on the door of the courtyard.

"Who is it?" Li Hao's voice was heard.

"It's me, patrol li. Are you busy?"

Outside the door, Qiao Peng and the driver were waiting.

Soon, the door was opened. Li Hao frowned and looked at him coldly. "Qiao Peng, I've told you, if you don't mess with me, I won't bother with you! What's the meaning of this so early in the morning?"

"Don't misunderstand!"

Qiao Peng laughed, "I really don't have any other intentions. Patrol li may have some misunderstandings about me. I'm here today because I have something to discuss with you."

"What is it?"

Li Hao had no intention of letting him in. He directly blocked the entrance of the courtyard.

Qiao Peng wasn't angry at all. He explained, "It's like this. The Qiao's mining industry has a mine in Silver City. Patrol li went to see it the day before yesterday. You know about this, right?"

"Of course!"

"There was a collapse accident in the Qiao's mine last night ..."

"Someone died?" Li Hao's eyes lit up.

He looked at the other party and suddenly laughed, "you want me to help you settle it?" "Let's talk about how many people died first. If there are more than three people, you guys can go to the inspection Office to solve it yourselves. If there are less than three people, I don't like money, and money has no meaning ... I need mysterious energy!"

"....."

Qiao Peng was dumbfounded. Who said that this grandson was a good person?

Oh my God!

This fellow had only been an official for a few days, yet he had already learned how to ask for bribes.

So he didn't have a chance to show off in the past?

He really didn't expect that Li Hao would ask for money to settle the matter. He really didn't come for this.

"No, no... The Qiao's are kind to their workers. They don't work at night. Last night, the collapse only caused the mine to collapse, but no one was hurt. From today on, the mine will be closed until the new well is built."

At this point, Qiao Peng finally revealed his purpose, "It's like this. Professor Yuan is the most famous geologist in Silver City ..."

"You want my teacher to help you open a new mine?" Li Hao asked.

"It really isn't!"

"Professor Yuan is the strongest Man in Silver City now," Qiao Peng laughed. "I don't dare to trouble him with such a small matter! We all know that you're the professor's disciple, and that you've specialized in this field in the past. We've come today to ask for your help ..... Help us locate a new mine. "

Li Hao frowned slightly.

His head quickly turned.

He didn't expect that the Qiao family would actually ask him for help in the end. What did this mean?

The Qiao's mining industry was a professional. Why would they lack an expert?

It really wasn't bad!

It's not a difficult thing, the Qiao's are the professionals, why are you looking for me?

This ... Was really strange.

A moment later, Li Hao had some ideas.

Find me!

Damn, what help would it be to Mrs. Qiao?

It was of no help!

Not only was it of no help, but he also had to be careful not to discover anything. But Qiao Peng still came ...

Li Hao's heart skipped a beat. A relic!

He roughly understood the Qiao family's intentions. Perhaps the collapse of the mine was not worth paying attention to at all to the Qiao family, but if they could use this opportunity to let him go to the mine, and if his bloodline could stir up some movement in the remains ... It would be a huge matter for the Qiao family.

Perhaps ... He wanted to kill him?

Li Hao took a deep breath.

It was not impossible!

The silver Blizzard city had attracted a lot of attention, and so had Li Hao. Ordinary reasons for him to go to the mine were not very reliable. He had gone there the day before yesterday, but he had gone with a Nightwatch. Many people knew about it and had been watching.

If he used the excuse of exploring the mine today to invite him to help in private, the others might not care.

Yuan Shuo was an expert in this industry, and Li Hao was his favorite student. It was reasonable for a big company like the Qiao's mining company to ask Li Hao for help.

I'm afraid ... I won't be able to come back!

Qiao Feilong might kill him, make a fortune, clear the ruins, and run away. At that time, even if they were exposed, they wouldn't be afraid.

"It's dangerous!"

At this thought, Li Hao instantly smelled danger.

The Qiao family might really take the opportunity to kill him.

It was no wonder that despite knowing that it was a relic and their secret, he still took the initiative to invite Li Hao to help ... He definitely had ill intentions.

Thinking of all this, Li Hao looked troubled.

"Don't let patrol li come for nothing. If you need star currency or mysterious energy, we can discuss it ..." Qiao Peng said in a low voice.

"I didn't learn my teacher's skills!"

Li Hao frowned. "Besides, it's just setting up a new mine. Does your Qiao's group lack such people?"

Qiao Peng helplessly said, "we don't lack for experts. To be honest, if it's possible, we would like to have our own people settle it. However, the location of the collapse isn't very good. Our experts are all old people, and they aren't skilled enough. We hope to find an expert who can quickly determine the location and restart the mine ... In Silver City, only inspector li and professor Yuan are suitable, but professor Yuan ... I really can't afford to hire him!"

### **Chapter 263: rushing to die (3)**

Qiao Peng laughed bitterly. "He's a warrior master, a God of the land. How much should we pay him for this?" The value of our Qiao's mines is there, we can't bear to give too much, and the professor won't be satisfied if we give too little ... After thinking about it, inspector li should have learned about 80% of the professor's knowledge, and that's enough!"

This reason was really well thought out.

Why didn't he look for Yuan Shuo? that was because Yuan Shuo was too expensive.

...

Why did she look for Li Hao? it was because Li Hao was a fighter among experts. He was good, fast, convenient, and didn't procrastinate.

"Then how much are you guys offering?" Li Hao raised his eyebrows.

"One mysterious energy, or 1 million star dollars!"

"This price is definitely fair!" Qiao Peng said seriously.

Li Hao was disappointed. "Forget it. My monthly salary already has a mysterious ability. I thought that the Qiao family was rich and powerful. In the end, it's only this little?"

Qiao Peng cursed in his heart!

I'd like to offer you 10 or 100 cubic meters, but I'm afraid you won't dare to accept it!

Besides, I'm only asking you to explore it. I've given you so much, and you're still not satisfied?

This fellow was far greedier than the rumors had said.

"Investigator li, it's really not a small amount. It's not that the Qiao family can't pay a higher price ... But to be honest, it's not worth it to pay too much. Even if we can resume work tomorrow, the Qiao family will have to pay a higher price ... Then ... Then we might as well wait a few days."

"It'll only take one or two days at most to get one cubic meter of mysterious energy," Qiao Peng added. "Inspector li, just ask if the price we're offering is fair or not."

Li Hao seemed to be moved. He thought for a moment, then nodded and said, "Okay, then wait for me ... I'll go now?"

"Right, the faster the better!"

Qiao Peng quickly nodded. He couldn't wait for Li Hao to follow him.

As for taking him away by force ... Forget it. There might be people in the city keeping an eye on them. Besides, they were too close to Yuan Shuo.

In addition, if Li Hao was taken away by force, the Silver City would definitely explode.

He had to make the other party follow him willingly!

By the time they reached the mine, the others might have already figured out their goal. They were only here to explore a new mine. At that time, they would enter the mine, and the others would not rashly enter to investigate.

The father and son of the Qiao family had a good plan.

This time, he had some special plans. If Li Hao approached the remains and something really happened ... He could either kill Li Hao on the spot or find a way to get some of Li Hao's blood at the mine.

In short, the Qiao family had to confirm Li Hao's role.

If nothing happened and the blood had no effect, then killing Li Hao would be equivalent to offending someone for nothing. It would also expose the secret that he had been hiding for many years. The gains did not make up for the losses.

In short, he didn't call Li Hao over this time because he didn't plan to return empty-handed.

At the very least, Li Hao had to leave some blood behind.

And in the mine, it was also the least noticeable method.

The mine had just collapsed, so there was a lot of rubble. Li Hao was only in the tenth slash realm, so it was very common for some rocks to break his skin.

.....

Li Hao didn't waste any time. He directly entered the house, changed his clothes, and quickly left the courtyard.

She had just walked out of the door and got into the Qiao family's car.

The communicator in his hand suddenly rang. Li Hao picked up the call. Qiao Peng, who was in the front row, tilted his head to eavesdrop on Li Hao's conversation.

"Li Hao!"

"Boss, what's the matter?"

Qiao Peng raised his eyebrows.

"Minister Hao has come from white moon City. He said that he will help us host the branch establishment ceremony tomorrow. If you have time, please come over and meet Hao bu!"

"Now?"

"Yes, the sooner the better."

"That ..."

Li Hao hesitated. "Boss, why don't you wait for a while? or you can just drive to the Qiao's mine and wait for me at the entrance. I'll go and set up a new mine for the Qiao's mining right now. It'll be done soon."

"What nonsense are you talking about!"

"Hao bu is waiting for you!" Liu Long shouted angrily, "you're going out to earn some extra money?"

"No, that's not what I meant ..."

Li Hao explained, "our Inspection Office also has the responsibility to help deal with some cases. The collapse of the mine was a safety accident in the first place. I mainly went to investigate and see if the Qiao's had concealed the casualties. Boss, I'm busy with official business."

"Nonsense! Hurry up and come back!"

Li Hao, however, was a little reluctant. He gritted his teeth and said, "Boss, it's just an hour ... I'll go over as soon as I'm done. I promised someone and we're almost there. Boss ... I ... I'm lacking in mystical energy."

"++!"

Liu Long cursed, "if you weren't Yuan Shuo's F \* cking student, I would have slapped you to death!" Just you wait, I'll drive there right away, so you'd better get it done quickly. Li Hao, you've read too much! Don't think that you can do anything just because you're Yuan Shuo's student. Hao bu is here, and you still dare to do this ... I really didn't see this before!"

"What a coincidence!"

Li Hao hurriedly explained, but Liu Long had already hung up.

Li Hao felt helpless and couldn't help but curse in a low voice. He then looked at Qiao Peng in front of him and said angrily, "Look, because of you, chief Liu scolded me. Qiao Peng, I don't care what, it'll take at most an hour. It'll be best if we can locate it, if not ... You'll have to pay!"

At that moment, Qiao Peng was about to curse!

He was about to explode from anger.

Liu Long is going too?

Hao lianchuan was here?

Once Liu Long left, Li Hao would also be there. Wouldn't people immediately pay attention to them?

If Hao lianchuan were to pay attention to them ... Then they would have to be extra careful. If they brought Li Hao and Liu Long over and attracted their attention, they might be exposed.

#### **Chapter 264: rushing to die (4)**

"Don't, patrol li. Let's forget about it today. Don't let chief Liu make a trip. We'll meet again when we have time."

If Liu Long were to go, then the plan would be ruined.

Rest early, what's there to go.

...

Li Hao frowned. "Cut the crap. I've already been scolded. If I don't ask boss to go now, wouldn't I be asking for a scolding?" Chief Liu takes good care of me. I'm short of mysterious energy anyway, and spending an hour to earn one ... Boss won't mind. He's just scolding me. "

As he spoke, he glanced at Qiao Peng and laughed to himself.

I'll make you suffer!

Liu Long's message came at such a timely time because Li Hao had just entered to change his clothes and greeted him in advance. Since Mrs. Qiao was so polite and warmly invited him, there was no harm in going.

If he didn't go, it would make people suspicious.

Liu Long followed ... He wanted to see if Liu Long could sense anything, and if he could check out the specific attributes, abilities, and strength of the three superpowers.

Martial masters were good at concealing themselves, but they were super-powered. Especially at the radiant sun realm, Liu Long should be able to sense something since he was so close to Martial Master Dou Qian.

He was just worried that he didn't understand his opponent well!

This was a good opportunity. Otherwise, Liu Long, the head of the night patrol branch, would have no reason to go there.

Although Yuan Shuo was there last night, what he sensed might not be the same as what Liu Long sensed.

Perhaps Yuan Shuo felt that Liu Long could be dealt with, but that was only for him. It also depended on Liu Long's own feelings.

.....

At the same time.

Liu Long Drove his carriage towards the mine, feeling extremely strange in his heart.

He was really ... A good person who came to his door.

Was the Qiao family in such a hurry to die?

He had wanted to sneak into the mine to take a look, but he was worried that he was not as good at hiding as Yuan Shuo. If he was discovered, he would be in deep trouble.

Now was the perfect time to go and take a look openly.

He drove very fast, just like his personality, Swift and decisive.

Before Li Hao's group arrived, he had already arrived.

Because of the collapse of Mrs. Qiao's mine, there were very few people left in the mine at the moment. Liu Long arrived, but he didn't go in. He just stood at the entrance of the mine, got out of the car, and lit a cigarette.

When someone stepped forward, Liu Long said indifferently, "I'm Liu Long!"

The person who came out had a change in expression.

The next moment, Liu Long asked again, "where's Li Hao?" Tell him to come out quickly!"

The people who were left behind were naturally the mine's higher-ups. When they heard this, they quickly said, "Liu...Captain Liu, I don't think patrol li is here. Are you looking for him?"

"Right!"

Liu Long frowned, "he didn't come?" He's playing with me?"

Then, he frowned and stared at the person in front of him with a cold face, "I heard there was a landslide here. Did anyone die?"

"No, I'm really not ..."

The person in charge quickly explained, his face full of fear.

There weren't many people in the Silver City who weren't afraid of this man. He was the Big Brother of the law enforcement team ... He wasn't one anymore, but most people didn't know about this.

As they were talking, a car stopped.

"Boss, how did you get here faster than me?" Li Hao was delighted.

Qiao Peng, who got out of the car as well, really wanted to curse in his heart.

You're really fast!

"Cut the crap!"

Liu Long also saw them, but he ignored Qiao Peng and frowned at the driver. He looked a little uncertain, then looked at Li Hao, "Hurry up, Hao bu is still waiting!"

"You're a superhuman?" he pointed at the driver.

"Have you registered?" he asked with a sharp gaze.

"No," the middle-aged driver replied softly. "I'm just preparing to register with the night patrol tomorrow."

Qiao Peng also explained, "this is the bodyguard my father hired for me. I didn't hide it from the night patrol. I was going to register him before ..."

"Shut up, you're not in a position to speak!"

Liu Long's eyes were cold as he snorted, "Register early!"

He didn't say much. Everyone knew that he was hiding something from the supers.

Qiao Peng knew that he was here, but he still brought his driver. On one hand, Li Hao was in the car, so it was inconvenient to change the driver. On the other hand, he wanted to test the night patrolman and see if he knew anything about the Qiao 's.

From Liu Long's performance ... There shouldn't be any problem.

Otherwise, Liu Long would have pretended to be deaf and mute.

Qiao Peng may have looked like a Playboy, but he was not without schemes. Every step he took was calculated. The driver's exposure was not an accident, but on purpose.

After all, in such a big Mrs. Qiao, it didn't even have a Dark Moon or a hundred people, which was not in line with the status of Mrs. Qiao.

Liu Long didn't want to waste his breath. He frowned and said, "I don't care what you agreed on. Li Hao, hurry up. I'll go with you. Get it done quickly!"

Then, he glanced at the driver and said, "If this guy stays here, and I stay here, who would dare to harm you, the young master of the Qiao family?"

As he spoke, there was a hint of mockery in his voice. "Keep a low profile! Don't think that you can do whatever you want just because you have money. In the past, I was too lazy to care and didn't have the power to care, but it's different now!"

"I understand, I understand!"

"Chief Liu, why don't you sit here for a while? it's been hard on patrol li, he'll be out soon ..." Qiao Peng quickly nodded.

"No need, let's go together!"

Liu Long was incomparably cold and arrogant. "With the Qiao family's status, you should understand that Li Hao is still in great danger. Better to be safe than sorry. If someone is hiding in the mine and is harmful to him, the Qiao's can not afford to take responsibility!"

Qiao Peng cursed in his heart.

He was really unlucky this time.

If he had known earlier, he wouldn't have acted so smart and insisted on inviting Li Hao ... Alright, even Liu Long was drawn here.

How troublesome!

### **Chapter 265: rushing to his death**

As for killing Liu Long as well ... Forget it. Hao lianchuan was in the city, and there was also Yuan Shuo. If they turned against each other now, it would be very easy for problems to arise.

It seemed that he could only give up on the plan.

It was better to send this pair of gods of plague away as soon as possible.

...

He didn't dare to say anything more, nor did he dare to delay. He quickly led the two people towards the collapsed mine area.

As for Liu Long, he didn't say anything and followed Li Hao with his arms crossed.

He walked into the mine openly!

The moment he stepped into the mine, he vaguely felt something. Three extremely weak Auras ... If he hadn't stepped into the universe, he wouldn't have been able to sense them at all.

At this moment, he could vaguely sense it. If he had not known in advance, he might have ignored it.

From this, it could be seen that the Qiao family was really good at hiding.

Could these three people be like Qiao Feilong, hiding a treasure that could conceal their aura?

But even so, what he sensed was extremely weak.

Therefore, either the other party had superpowers, or they were in an extraordinary place. Their aura was isolated, or maybe ... They were isolated by ice crystals!

Thinking of this, Liu Long's eyes suddenly lit up.

Could this be the case?

The ice crystal could indeed hide one's aura, but once that happened, it meant that the other party would find it difficult to use all their powers within the range of the ice crystal.

Of course, under normal circumstances, ice crystals were fragile. If one wanted to break them, it would actually be very fast. It would only take an instant.

However ... As long as he seized this opportunity, it might be of great use.

"Is it an ice crystal? Or is it the relic effect that Li Hao and the others mentioned?"

He judged in his heart that there was a high probability that it was an ice crystal!

The Qiao family might not have really entered the ruins. If it wasn't fully opened, then there was an 80 to 90 percent chance that it was ice crystals.

"The heavens are helping me!"

At this moment, Liu Long was also very excited. If this was the case, he could sneak over in advance and catch the other party off guard. Before the ice crystals shattered, he might be able to get rid of the three sunlit Warriors in advance!

This trip was worth it!

But very quickly, his feeling disappeared.

Because the collapsed area was quite far away from that place, the sense gradually weakened until it could no longer be sensed.

This also allowed Liu Long to confirm that the chances of it being covered in ice crystals were higher.

Li Hao, on the other hand, was not idle. He looked around.

In fact, he had been observing the three orbs of light the whole time, observing their specific strengths and weaknesses. Using Huang Yun as a comparison, this was also the most direct observation. This way, he might be able to determine the specific strength of the three people.

He looked at the special colors in the light balls ... If they were supers with common attributes, he might be able to see their attributes.

Soon, they arrived at a collapsed area.

Li Hao had some real skills. He observed the surroundings and moved very quickly.

Soon, Li Hao jumped up from the ground. "It's simple. We don't need to open a new mine. Just clean it up and we can go back to work in eight to ten days! Opening a new mine might take even longer."

"In order to prevent a second collapse, it's best to send people to clean up the scene after three days!"

Li Hao said in a deep voice, "don't ignore human lives!" It's good that the Qiao's are rich, but they're all local. There's the risk of a second landslide here, it's best to wait a few days, wait until it's completely stable, then clean it up, understand? I'll keep an eye on you guys, so don't mess around. You don't want sister Liu to remember anything unpleasant because of this, so don't blame me for not giving you face!"

"Of course not!" Qiao Peng quickly replied. Are you sure you don't want to open a new mine, investigator li?"

"One hundred percent!"

Li Hao said proudly, "although I'm not as good as my teacher, I can understand this kind of small problem with one look!" You invited me ... I can only say that it's a waste of money. Others can see it too, but your Qiao family is big and rich, so you don't care."

"That's different. I'm much more at ease now that you've said that, inspector li ....."

"If you're done, then come with me now; what are you waiting for?" Liu Long said impatiently;

Li Hao chuckled and nodded. He then looked at Qiao Peng.

"I'll send someone to deliver it to him when he returns tonight. It's not convenient to bring it with me right now," Qiao Peng quickly said.

"I don't think you would dare to take my money!"

Li Hao laughed and didn't say anything. He followed Liu Long outside.

Qiao Peng walked them all the way to the outside of the mine, and only let out a sigh of relief after the two of them got into the car.

He could not help but curse when the car drove away!

"I almost succeeded!"

"Damn it!" He cursed. What a coincidence that Liu Long came running over.

Soon, he thought of something and quickly looked at the driver beside him. He whispered,""Go and ask if there's any special situation."

He was a little regretful that he didn't get Li Hao's blood.

However, he didn't know if Li Hao's arrival would affect the other side.

The driver didn't say anything and quickly disappeared.

.....

At the same time.

In the car.

Liu Long Drove for a long distance before he said in a low voice,"The aura is weak and hard to sense, but it should be sunlit without a doubt. There is a faint flame aura rising, possibly fire element!"

Li Hao nodded. He had also seen some fiery red."I think there are two fire elements. The other one might be earth or wood ... I'm not too sure." My teacher went to see them last night, and he told me that the three of them should all be slightly weaker than Huang Yun ... It's the wind element Night Watcher from last time. "

### **Chapter 266: rushing to his death (6)**

"Your teacher ... Is really strong!"

Liu Long sighed with emotion. He could only sense a little bit of things, but he did not expect Yuan Shuo to see so much last night. He had even detected Yuan Shuo's strength. Yuan Shuo was truly a God!

"Huang Yun is at the mid-stage of the sunlit realm. This means that there are three early stage sunlit realm cultivators here, or close to the mid-stage sunlit realm ... Anyway, it's best if they don't surpass Huang Yun!"

...

"Did your teacher say that their aura was concealed because of the remains, or because of the ice crystals?"

This ... Yuan Shuo had never mentioned this before!

Of course, Li Hao didn't care. Not only that, but he also didn't mention anything else. Last night, his teacher didn't investigate at all, afraid that he would be discovered.

He judged for a moment and said,"it might be the effect of the ice crystals. The ruins are very strong and won't be too fragile!" Ice crystals are weaker. The collapse last night might have caused some cracks to

appear in the ice crystals, causing some power to leak out. Otherwise, you wouldn't have been able to sense it."

Li Hao said this because he saw some mysterious energy leaking out of the light, not the feeling of being surrounded, so it was probably caused by a small crack in the ice crystal.

This time, Liu Long was confident.

There was no need to doubt Yuan Shuo's words.

"I've pretty much investigated your strength and attributes. What a coincidence today, the Qiao family actually invited you to explore the mine. Something must have gone wrong with your brain!"

Liu Long laughed.

Li Hao pursed his lips. Did water enter his brain?

It wasn't that he was in the water, but that he was thinking of something good.

If you're not here, the Qiao family will most likely kill me.

"Then now ..."

"To see Minister Kuang. Do you think I'm joking?"

Liu Long looked at him in surprise. You're a Deputy Minister of a branch. What are you thinking if you don't meet your boss?

Li Hao thought for a moment, nodded, and said, "What's Minister kui's three yang level?"

"It's hard to say,"

"Boss, you don't know?"

"How would I know?"

Liu Long shook his head.

However, Li Hao was thinking that he should be able to determine Qiao Feilong's realm with Hao lianchuan as a standard. Was he at the peak of the radiant sun realm, the early stage of the three yang realm, or even stronger?

In his vision, Qiao Feilong's ball of light was slightly weaker than Hao lianchuan's, but not by much. It was also slightly weaker than Broken Sky's, but not by much.

.....

The car quickly stopped at the law enforcement building.

Li Hao also saw Hao lianchuan again, the expert who had been called by his teacher to be a backup.

Hao lianchuan looked rather familiar.

He was also smiling very kindly.

When he saw Li Hao, he first praised him, expressing his concern for Li Hao, and then briefly explained the difficulties of the night patrolmen. The sword patrolmen of the Li family would give him the items, but he would need some time.

It was a typical bureaucratic tone!

Li Hao didn't mind. After Hao lianchuan talked for a while, Li Hao suddenly said, "Hao bu, my teacher said you're very strong. He could kill Duan Tian, but he might not be a match for Hao bu ... My teacher said that Duan Tian's strength is not considered strong among the three suns, and Hao bu is stronger than him. Could Hao bu be at the mid-stage of the three suns?"

To ask someone about their strength in person ... Especially when they were of a lower level, was very impolite and very unruly!

However, the one asking the question was Li Hao, a student who had yet to graduate ...

Furthermore, the other party was Yuan Shuo's student. The key was that he said that his teacher had praised him and said that he might not be a match for him.

Anyone would like to hear praise!

Hao lianchuan was no exception. He immediately smiled and didn't feel displeased by Li Hao's words.

Liu Long, on the other hand, frowned slightly and said, "Li Hao, be more obedient!" Don't ask what you shouldn't ask! Hao bu was only in the sun glory realm before, so even if he entered the three yang realm, he should only be in the early stage of the three yang realm. How could he enter the middle stage so quickly?"

Hao lianchuan frowned.

He didn't like to hear this.

Although it was the truth!

He wasn't too satisfied, but Liu Long was a straightforward person, so he didn't say anything.

He smiled and said, "I'm fine!" Children were full of curiosity. "Li Hao, just like what your Department Liu said, I'm also only at the early stage of the three suns ... Of course, if we follow your middle to late stages, I'm indeed at the early stage. There's nothing to hide about this. It's just that the three suns are still far from you, so there's not much point in saying this."

Li Hao nodded, a look of yearning on his face. "Three yang ... Is already very powerful! If even the teacher said that Hao bu was powerful, then someone who could be praised by the teacher must be extremely powerful! Hao bu, I really hope that one day, I can be as intimidating as Hao bu!"

"You'll have a chance, you're still young."

Hao lianchuan's smile was bright. This sentence really made sense!

'Yuan Shuo, Oh Yuan Shuo, you're arrogant, but your student has exposed everything. So You Think I'm strong behind my back?'

What an innocent child!

If your teacher heard this, I'm afraid he'll give you a good beating.

For a Martial Master to be envious of a superhuman like himself was the greatest failure for Yuan Shuo. He had killed three suns, but in the eyes of his disciple, he was still inferior to him. How satisfying!

Li Hao also smiled shyly and quickly said, "Then I won't bother Hao bu anymore. Hao bu is very busy every day, and I'm already very satisfied to be able to see him! I'll take my leave first!"

"Mm, work hard and strive to become a superhuman as soon as possible. The environment in Whitemoon city is better than this. I hope to see you there soon!"

Li Hao smiled and nodded. He didn't leave with Liu Long, but left alone.

But in his heart, he was thinking that Qiao Feilong was only at the early stage of the three yang realm, but he was still slightly weaker than Hao lianchuan. Teacher should be able to deal with him, right?

In the office.

Hao lianchuan praised Li Hao for a while more and said with a smile, "Educated people are indeed different. They are educated and reasonable. In this aspect, Yuan Shuo can't be compared to them. That guy is very hypocritical and is not a good person in essence. Fortunately, his student is different from him."

Liu Long felt helpless. "Good fellow, is this all you, Hao lianchuan, can do?"

However, Li Hao was too good at confusing people.

To be honest, this was the first time he saw Li Hao's shy smile. He also felt that this child was too innocent and shouldn't be involved in such dangerous matters.

Of course, he didn't think so anymore.

That little fellow was a fraud, no different from Yuan Shuo.

Liu Long didn't say much and just said a few perfunctory words before quickly saying, "Then, the founding ceremony will be held tomorrow. The others and I will come later."

"What?"

Hao lianchuan was stunned. How could this be?

The master was late and wanted him to go first. What was going on?

Liu Long explained, "the night watchers division has been established. Hao bu knows about our Demon Hunter team's situation. Liu Yan and the others want us to pay respects to the Demon Hunters who died in battle before the opening ceremony. It's not appropriate for Hao bu to go ..."

"I ..."

Hao lianchuan sighed and nodded. "I should! Speaking of which, these people are all good. It's just that ... The night patrolmen also had their difficulties before, you know that."

“Yes, we have no complaints!”

Liu Long said calmly, “Li Hao said that we’re the night patrollers now. Scolding the night patrollers is the same as scolding ourselves. So, there’s no need to blame anyone. It’s all our own choice!”

Hearing this, Hao lianchuan couldn’t help but sigh. What a good child!

These words could only be said by cultured people. Liu Long didn’t have such a standard.

“Then you guys go and hold the memorial ceremony. I’ll help host it first. When you guys come, it’ll be officially established!”

“I’ll have to trouble Hao bu!”

Liu Long replied politely. Hao lianchuan smiled and said, “You’re welcome, it’s my duty!”

Both parties exchanged a few more words before Liu Long turned around and left.

Tomorrow, Hao lianchuan would be hosting the ceremony here ... If no one came, it would not cause Hao lianchuan to be dissatisfied or suspicious. This was good.

Perhaps he would still have time to attend the banquet after killing everyone.

.....

After Liu Long left, Hao lianchuan thought for a while and felt that something was wrong ... But he couldn’t put his finger on what it was.

Forget it, it’s fine with me here.

He was just a little puzzled. Did he need to take Wang Ming and the others with him?

“It’s good that they’ve brought them along. It means that Liu Long and the others have accepted these people ... It’s a good thing!”

When he thought of this, he smiled, revealing a gratified smile. Being able to merge together was naturally the best result.

## **Chapter 267: Departure (1)**

**Translator: 549690339**

A day passed in the blink of an eye.

1st of August.

Silver City.

...

Qiao’s mining industry.

In the office on the top floor.

Qiao Feilong stood in front of the window and looked down at the entire Silver City. The Silver City wasn't very big, but everything came into view from this floor-to-ceiling window.

The sky was clearly clear and bright, but it gave Qiao Feilong a sense of oppression.

"The wind is about to blow!"

The white-haired Qiao Feilong murmured softly.

This wind did not just start today.

When Hong Yue made a move to capture the last descendant of the eight great families, the result was that Yuan Shuo killed one of her three sons, and this wind began to blow in Silver City.

It wasn't just Silver City. In the entire Silver Moon province, there was no place with a stronger wind than Silver City.

Red Moon, flying heavens, Yama, and a few other small and medium-sized organizations, as well as the Nightwalker, all looked at Silver City.

How long could the Qiao's that had been hidden for so many years be hidden?

Once he was exposed, the first person to deal with him would not be anyone else but the Yama.

He was a chess piece that the Yama had planted in Silver City. The Yama originally only knew a little about Silver city's eight great families, but after understanding Red moon's arrangements in Silver City, and because he, Qiao Feilong, was a citizen of Silver City, he had sent him back.

Back then, Qiao Feilong was only a Martial Master at the peak of the tenth realm.

Of course, in that era, this strength was still considered acceptable, but to the Yama, it didn't matter whether Qiao Feilong was added or not.

It was mainly to put a nail in Red moon's head.

However, no one had expected that Qiao Feilong would really discover something in the Silver City, and even obtain many benefits. Unknowingly, countless people had not been able to step into the three suns realm despite all the fighting outside.

He, on the other hand, had quietly stepped into the three yang realm.

If the news was leaked, the Yama would definitely send people to kill him, and even the leader of the Yama would come personally ... To let a ten decapitation realm enter the three suns realm without much experience, the ruins of the Silver City were obviously more powerful than imagined.

"It's time to go!"

Qiao Feilong muttered to himself again.

The Silver City wasn't a place to stay for long. When one of the red moon's three suns died, too many people paid attention to this place. However, he was unwilling to give up ... He hadn't completely excavated that ruin.

He felt that he had only gained a tiny bit of the benefits, but even so, he had entered the three sun realm.

If he could inherit all of them, he would definitely be able to surpass the three suns and even create a powerful superpower organization that was not weaker than the three major organizations.

He was unwilling to accept this!

Greed was something everyone had. Furthermore, he had already obtained some benefits, so how could he be willing to give it up?

“Li Hao ...”

Thump thump thump!

There was a knock on the office door.

“Come in!”

Outside, Qiao Peng pushed the door open and entered, “father.”

Qiao Feilong turned around and looked at him with a calm expression. “What’s wrong?”

“Father, the night patrolman division will be established tonight. Minister Hao lianchuan will be hosting the event personally. Although father and I are not on the invitation list, Uncle Chen and the others are on the list ...”

“Yes.”

Uncle Chen, who was the driver, had been protecting Qiao Peng recently. He was also the most powerful person in the Qiao’s mining industry, who was half-hidden and now on the surface. He was at the level of Yue Ying.

Such an existence was no weaker than Liu Long, which was enough to prove the status and strength of the Qiao’s mining industry.

Qiao Feilong was also trying to avoid some people being blind and having ideas on their Qiao ‘s. When the time came, they would be in trouble. Should they deal with it or not?

If this Yue Ying had appeared in the open a few days ago, would that Liu Long have dared to sneak into his room in the middle of the night?

It was precisely because of this that this expert had appeared on the surface in order to prevent these annoying things from happening. To the outside world, or rather to some upper-class people, the information revealed was that this person was an expert that Qiao Feilong had spent a huge sum of money to hire to keep watch.

Every year, they had to provide him with 100 cubic meters of mysterious energy, which was worth as much as 100 million star dollars. Even the monthly salary of a branch head like Liu Long was only 3 cubic meters of mysterious energy, which was 36 cubic meters a year. This was the treatment given by the only large official organization’s night patrollers.

Obviously, following Mrs. Qiao, he gained more.

Qiao Peng saw that his father was deep in thought, so he interrupted him again, "Father, can I attend the ceremony tonight?"

"You?"

"What are you going there for?" Qiao Feilong furrowed his brows.

He was not a superhuman, and the other party had not invited him. Would he be looking for trouble if he went over rashly?

"I want to take this opportunity to have a chat with Liu Yan and resolve our previous grudges. In addition ... I also want to interact more with Li Hao!"

"If it wasn't for Liu Long causing trouble yesterday, I might have already obtained Li Hao's blood," Qiao Peng said unwillingly.

He had yet to recover from yesterday's failure.

Just a little bit more!

Qiao Feilong frowned slightly and quickly shook his head. "No need! I've made arrangements for Li Hao."

Qiao Feilong didn't want to drag this on any longer. Although the ruins hadn't been completely explored, once the night patrollers finished exploring the other ruins, the Silver City's peace would end.

He did not have much time to waste.

He had to deal with Li Hao before that and try to unlock the remains. Unfortunately ... The Li family's sword seemed to have been given to the night patrolmen. He was not sure if he needed a weapon or a bloodline.

It was also because of this that it seemed to be a little repetitive.

"Father, the arrangement you mentioned ... Is?"

"Create an attack!"

Qiao Feilong said coldly, "impersonate the red moon's men and attack him once. I don't ask to kill him, but you must take a part of his blood. It's best if it's the blood from his heart!"

### **Chapter 268: Departure (2)**

He could only do so.

Qiao Peng nodded. He didn't have any objections, but of course, it was useless even if he did.

"Then, should we wait for Hao lianchuan to leave before we make a move?"

...

"Yes,"

Qiao Feilong nodded. If not for the fact that he had no other choice, he would have waited for Yuan Shuo to leave before making his move. However, Yuan Shuo would most likely bring Li Hao along to another ruin. These people would not allow Li Hao to stay in Silver City, because they all knew that Red Moon was watching him.

Now, the Qiao family's only advantage was their concealment.

No one knew how strong they were, and no one knew their situation. If they impersonated the red moon and attacked Li Hao, they would only be able to find the red moon, which might give him more time to fully explore the remains.

He still couldn't bear to leave!

The father and son chatted for a while. Qiao Peng looked left and right, hesitating.

Qiao Feilong furrowed his brows again. "Speak!"

"Father, we might have to leave the Silver City soon. When ... When can I enter there and become a super?"

He still couldn't hold back and said this.

He wanted to become stronger!

Especially yesterday, when Liu Long directly ignored him, looked down on him, and only said a few words to the driver, Uncle Chen. That kind of contempt and disregard made him very uncomfortable.

Li Hao too!

Because he was just an ordinary person, and Li Hao had entered the tenth slash realm, Li Hao also ignored him.

Qiao Peng couldn't take it anymore!

He wanted to become a superhuman, and according to his father's wishes, he would be leaving soon.

"Father," Qiao Peng said hurriedly, "if we leave and I'm still a normal person, it will take a long time. If I can become a super, then at least I won't be a burden."

Qiao Feilong frowned.

Now was not a good time.

Of course, Qiao Peng was his only son, and he didn't want to keep it a secret. He had been suppressing it in the beginning to keep it a secret, but also for another reason.

When he saw the anxiety and resentment in the depths of Qiao Peng's eyes, he knew that his son was a little angry after being suppressed for too long.

"Peng 'er, it's easy to become a superpower!"

Qiao Feilong said softly, "if it was ten years ago, I would have made you a super long ago!" "However, in the past few years, as I discovered more and more, as I grew stronger, I made even more discoveries."

He looked at Qiao Peng and said in a strange voice, "It's said that opening the Super Lock is a pass to the mysterious! However, over the years, my discoveries have told me that opening the superpower lock too early is an overdraft of one's potential and a burning of one's life force."

"A Martial master's limit is at the thousand warrior tier, and the road ahead is cut off. Therefore, becoming a Martial Master was not the right path. As for superhumans ... They might not be safe, and they might not have a better future than martial masters."

"I think some powerful supers might have discovered some problems through some relics and ancient books," Qiao Feilong said in a deep voice. Just wait a little longer, when we have more exploration of the remains, I promise you will become a strong Esper!"

His father's words were unclear, and Qiao Peng felt aggrieved and a little unhappy.

What did his father discover?

Not safe?

Now, with the power of supers, some of the stronger supers could already fly in the sky like Immortals. No matter how unsafe they were, were they safer than ordinary people?

"Father," he could not help but say, "no matter what path I take, my martial arts have not improved all these years. My superpowers have not improved either ... I can't just wait and do nothing to become a strong person, right?"

Even if superpowers were not safe, what about martial arts?

However, his father didn't even let him absorb the mysterious energy. Naturally, he didn't make much progress on the path of Martial Master. Until now, he hadn't even entered the tenth realm. He could only be regarded as an ordinary person with a rough understanding of martial arts.

Qiao Feilong was a little impatient, "do you think I'd harm you?" He couldn't absorb too much of the mysterious energy at this moment. If he did, it would destroy his potential! I've already discovered an even more special and powerful energy in the ruins!"

His eyes lit up. At this moment, he was a little excited. "That energy is different from other mysterious energy and inner strength. It can nourish your body and make your superpower lock more powerful! It didn't seem like it could increase his strength by much, but once combined with his mysterious energy, it was simply the power of heaven! As long as we obtain more of that energy ... You'll be able to break through the hundred or even thousand threshold of the master realm very soon ... Then, you'll be able to break through the superpower lock with your powerful body and become a radiant sun or even three suns!"

Qiao Peng's expression changed slightly. To become the sun glory and three suns?

How was that possible?

Even though his father had excavated the ruins, it had taken him more than ten years to reach this stage.

He felt that his father was talking about a fantasy.

“This ... Father, is this true?”

“Of course!”

Qiao Feilong furrowed his brows and said, “it’s not just you. Even I’ll be able to make up for some of the internal injuries I’ve sustained in the past because of this energy. I’ll also be able to replenish the potential I’ve expended.” “After entering the three yang realm, I realized that it was difficult for me to improve any further. This was because I had overdrawn my potential previously. Now, my potential has been completely exhausted, but that thing can help us make up for it.”

After saying that, his face turned red.

If he could get that energy, he would be able to make up for everything and advance again. He could even surpass the three suns and become a true powerhouse, on the same level as the leaders of the three major organizations.

At that moment, Qiao Peng was also wavering. He no longer insisted on becoming a super immediately.

Since his father had already said so, he probably would not lie to him.

Unless she was not his biological daughter.

.....

### **Chapter 269: Departure (3)**

After a short exchange, they drove away Qiao Peng, who was full of anticipation.

Qiao Feilong’s smile gradually disappeared. He sighed and suddenly said, “What do you think we’ve been opening all these years? is it the real ruins, or ... Just the periphery?”

...

“Why do you say so?”

A low voice came from the empty office.

Qiao Feilong frowned and said, “the area we discovered ... As we continued to develop it, I felt ... I felt that it was more like the outer area and not the true core area! The core area is most likely behind that door. Otherwise, what do you think is behind that door?”

“Behind the door?”

The ethereal voice sounded again, with some uncertainty, “There might be nothing behind the door ...”

“Impossible! The energy is coming from that door!”

“It’s just that the amount leaked is very little. Also, you can see that on the door, I can see some dents. Do you think it needs the eight great families’ weapons to be inserted to open it?” Qiao Feilong frowned.

“Only after that can we enter the true eight great families’ ruins!”

The more Qiao Feilong spoke, the more certain he became, but ... He had no choice.

The other seven families of the eight great families were all dead, except for Li Hao, who was still alive. However, his sword had also been given to the Nightwalker. Even if he knew that he might need it, he could not do it.

Therefore, this was also an important point that made him waver on whether he should leave as soon as possible.

"I want to seal the ruins first. When I'm strong enough, I'll find the Crimson Moon and take back the weapon they took away. Then I'll get the night patrolman to take back the sword ..."

This was Qiao Feilong's recent plan.

"You make the decision!"

In the dark, the voice came again.

Qiao Feilong laughed. "You're still the same. Forget it, then I'll decide for myself!"

"It's a pity that you can't get enough energy, or else I think that energy might be able to help you rebuild your body ..."

"It doesn't matter,"

In the dark, the man laughed. "Boss, it's precisely because I'm free from the restraints of external objects that I can be where I am today. I've been living my life. Who can say that it's a bad thing to be without a body?"

"But it's still not perfect!"

"According to the information I've gathered over the years, the physical body is still extremely important," Qiao Feilong said in a low voice. "The so-called abandoning the physical body and transcending beyond the world is not reliable! The Crimson Moon has such a plan. You've seen and felt some of the things you've discovered before. Those things are just puppets, not true gods!"

"God ..."

The person in the dark was silent.

At this moment, he thought of those Red Shadows. They were like puppets, without their own consciousness. Although they were completely invisible and invisible to outsiders, they had not transcended.

Red Moon might have discovered something and even started to try it out.

But now, everything had proven that it would not work.

"Did Red Moon send someone to take those things away?" Qiao Feilong asked.

"I'm not sure. Yuan Shuo was in the city, and Hao lianchuan was still there, so I didn't dare to check on him. When I checked again, he was gone. He might have been taken away by the red moon, or he might have been scattered."

“What a pity!” Qiao Feilong sighed with emotion. Otherwise, he would have wanted to give it a try and see if he could capture some. Perhaps it would be of great use.

.....

Li Hao naturally knew nothing about the conversation at the Qiao’s mining company.

At this moment, he was hiding in the basement with Liu Long and the others.

In the basement, there was an extra car.

A modified car.

At this time, yunyao was in the process of transforming the entire carriage. Pieces of ice crystals were gently embedded in it, turning the entire carriage into a sealed ice crystal Shield.

At the side, Liu Yan crossed her arms and smiled.””There’s no problem with modifying it, but we definitely can’t let Li Hao be the driver. If he’s the driver ... No matter how tightly you wrap yourself up, this thing will still be smashed to pieces by him!”

“Sister, I can still drive these few days!” Li Hao said awkwardly.

“That’s enough!”

Liu Yan was disdainful.

At that moment, Wang Ming and the others were also there. Wang Ming looked them up and down, then frowned. “What’s the point of modifying cars? The sound of your driving will also attract the other party’s attention, so you can only cover up your superpower.”

Why would he modify this?

He didn’t think it was necessary. Ice crystals weren’t cheap, and they were easy to break.

“It’s enough to hide my power!”

“All of you supers, get into the car to prevent your powers from leaking out and being detected,” Liu Long said calmly.

Martial masters were not afraid of this, but supers were the most likely to be exposed.

Next to the car, Chen Jian was carrying weapons. As he carried them, he asked,”Boss, can’t we reveal the target now?”

“What’s the hurry?”

Liu Long interrupted him.

He then looked at Wang Ming and the others.”I’ve already told you your mission. There’s one more thing you have to remember. Try not to walk out of the carriage! Unless the enemy is running towards you, you can kill your way out ... The purpose of the ice crystal barrier is not only to hide yourself, but also to make it convenient for you to launch a surprise attack. You must seize this opportunity!”

After he finished, he said to Chen Jian and the others, "You, Wu Chao, and Liu Yan's mission is to use firearms and destroy the target! The target will definitely think of a way to kill you at the first moment ... Of course, he might let you go, but for riyao, there's a high chance that he will take revenge after being bombarded by firearms!"

The few of them nodded. Clearly, they had been used as bait.

This was not the first time.

#### **Chapter 270: Departure (4)**

Compared to the other supers, they were more dangerous.

"What about me?"

Li Hao asked. Liu Long didn't make any arrangements for him.

...

Liu Long glanced at him and said, "What do you think you can do?"

'I ...'

Li Hao was speechless. Of course, he knew Liu Long's intention. Liu Long also wanted to protect him. Liu Long knew that Li Hao had broken through 100. In fact, he was a bit stronger than Chen Jian and Wu Chao.

"Your mission is very simple ... Deal with that Zergling!"

Liu Long still assigned a mission. He was afraid that Li Hao would run off, and Zerglings were talking about Qiao Peng.

He had to exterminate the Qiao family.

"Then why don't we let sister Liu go ..."

"Just listen to my orders!"

Liu Long said in a low voice, "furthermore, if that person was in the office at that time, it would be more appropriate for you to go. I'm afraid that your teacher won't care about Liu Yan's life or death. Do you understand?"

Li Hao understood.

If Qiao Peng had been there, it would have been troublesome.

Of course, if they were here, Yuan Shuo might have just settled the matter.

Li Hao thought for a moment and said, "boss, is that guy really not going home?" Why are you still in the office so late at night?"

"Yes, he has been living there for many years."

Qiao Feilong didn't go home, but stayed in the office. This was also very strange. Perhaps it was to keep it a secret, or perhaps it was something else. Anyway, he had a bedroom in the office.

Liu Long had gone there to spy on him back then, so he knew that Qiao Feilong wouldn't leave at night.

"Since we're going to act separately, everyone should be careful. We'll act according to the fixed time. Now, let's compare our watches!"

Everyone started to match their watches, but the supers were not wearing any.

They had no choice. It was easy for superpowers to interfere with these things. However, they would be moving together with Liu Yan and the others, so it was not a big problem.

After doing all this, Liu Long took a deep breath and began to wait silently.

In the basement, there was only the sound of everyone working.

After an unknown amount of time, the car was finally modified. Liu Long stood up and said, "Li Hao, let's go out for a walk and let everyone know that we're still here ... As for the others, Liu Yan will drive the team to the designated location!"

"Yes!"

Liu Yan's eyes were also filled with excitement and agitation. She knew who her target was tonight.

Mrs. Qiao!

She only had one task now, which was to drive to a high point near the mine and hide there. When the time was up, she would shoot!

Very quickly, Wang Ming and the others also got into the car.

Except for Liu Long and Li Hao, the others all got on the car.

The door closed. Liu Long tried to sense it, but he could hardly sense any mysterious energy. He then nodded in satisfaction.

Otherwise, Wang Ming and the other newbies would easily have the mysterious energy overflow, and once the three sunlit experts walked out of the remains, they would easily sense their presence.

Another door in the basement opened, leading to the underground parking lot. No one would notice if they drove out from there.

.....

After everyone had left, Liu Long couldn't help but feel a little nervous.

As he walked, he said softly, "This is the strongest opponent I've ever faced in my entire career, and it's not just one person. There's also your teacher ... We can't afford to make any mistakes, or we'll be in trouble!"

The Qiao's mining headquarters was located in the city, and it was easy to make mistakes.

Of course, according to their analysis, both Yuan Shuo and Qiao Feilong did not want anyone else in the city to know about the situation. Hao lianchuan was still in the city, so Qiao Feilong would definitely leave as soon as they started fighting.

And this was only a judgment. As for whether it was true or not, there was no way to confirm it.

“Boss, we’ve already done what we should. As for the result ... It’s useless to think too much. The more perfect the plan is, the easier it is to make mistakes. At this time, we can only bite the bullet and go!”

“Alright!” Liu Long nodded slightly and said, “there’s only one task for you. Just protect yourself!”

“Boss, don’t worry. I’m at least a hundred.”

Hearing this, Liu Long didn’t say anything more. After some consideration, he said, “Maybe you can bring Black Panther along to avoid some unknown danger. Supers have many means. Sometimes, dogs can see things that humans can’t.”

He showed extra care and concern for Li Hao.

It was because Li Hao had contributed a lot to his advancement into the thousand-combat level.

“I will!”

As the two of them talked, they had already reached upstairs.

Just then, Hao lianchuan came downstairs and saw the two of them. He asked, “Wang Ming and the others have left?”

He did not sense the presence of any other supers in the building. Had they left?

“They went to buy some items for the memorial in advance. Where is Hao bu going?” Liu Long nodded slightly.

“To find Yuan Shuo.”

Hao lianchuan laughed. “No matter what, he’s still the number one person in Blizzard Silver City. We should invite him. However, he might not give you face if you go. I’ll personally invite him!”

It can’t be that he won’t even give me face, right?

On the side, Li Hao hurriedly said, “Minister, I’ll go!” How can I trouble the Head of Department to invite him? I’ll go get my teacher. ”

“You’ll go?”

Hao lianchuan thought for a while and nodded. “That’s fine.”

As they were talking, mu Sen walked in from outside and laughed, “Hao bu, old Liu, should we impose martial law on the gathering of transcendents tonight? After all, some people might not follow the rules, so we can avoid trouble. ”

“That’s the best!”

Liu Long looked at the time and said, "let's bring it forward tonight. The curfew will start at 8 O' clock!" In case some guys are blind and cause trouble on the way here, the party will start at 9 o' clock!"
