Chapter 281: Killing the three suns and destroying the sun (4)

“In addition, I hope that director mu can quickly clean up the scene. Don’t let anything leak out. If it involves some of my teacher’s trump cards, it will be easily exposed and targeted.”

Mu Sen took a deep breath and patted the black communicator on his ear. Very quickly, he said, “Wash away all the blood around the Qiao’s mining company and burn all the bodies on the spot to prevent the contamination of the mysterious energy! In addition, quickly restore order and let people clear everything in the Qiao’s mining building and burn it on the spot! Call for people to pour cement and directly block the damage caused near the street ...”

He quickly made the arrangements.

...

With his power, the order would be carried out quickly. As a violent organization, it would not take long for the inspection Office to restore everything except the damaged Qiao’s building.

It would be very difficult to find anything else.

Li Hao was silent for a while. “If you have any requests, you can also bring them up. My teacher will probably consider them.”

“No need!” Mu Sen replied in a low voice. “I just want to say one thing. Next time ... I hope there won’t be a next time. If there is, please inform me in advance!” Do you know that such a sudden battle, and it’s a battle at the three yang level, will cause a huge number of casualties if you are not careful!”

Fortunately, it happened in the business district tonight, and there was a curfew in advance. Otherwise, there would be many people on the streets.

It was obvious that Li Hao’s team was well-prepared.

Otherwise, there was no need to have a curfew tonight.

“I know.”

Li Hao nodded and didn’t say anything.

Countless thoughts ran through mu Sen’s mind. After a while, when they were almost at the inspection Office, he suddenly said, “That three suns ... Will they appear again?”

“I won ‘t,”

He was dead!

Mu Sen was shocked. He had really died. Although he had guessed it, when he heard that the other party had really died, he was still extremely shocked.

The second three suns!

Yuan Shuo was terrifying. He was too terrifying.

Li Hao added, "to outsiders, it's always the other party who has escaped!"

"I understand!"

Mu Sen nodded his head. Although the news had spread, Yuan Shuo's reputation was even greater, and he could even be regarded as the number one person in Silvermoon province. However, the greater his reputation, the more dangerous it would be. Now that he was said to have escaped ... The premise was that the three major organizations would not reveal to the outside world that he had three suns that had fallen.

Was it the unknown three yang?

Otherwise, he would not be able to hide this.

If the unknown three yang master died, then no one would know.

While they were talking, the car stopped.

At this moment, the entire inspector's office was frighteningly quiet.

A wave of aura rose. Hao lianchuan had not left. Instead, he had been keeping watch here. The extraordinary powers of the entire silver Blizzard city were gathered here tonight. There were nearly a hundred people.

Liu Long and the others were not around, and mu Sen had left. If he left ... Who knew what would happen?

Therefore, even though he was extremely anxious, he still did not move.

The main reason was that Yuan Shuo did not send a distress signal. Perhaps Yuan Shuo could handle it.

When he sensed that mu Sen and Li Hao had driven back, Hao lianchuan heaved a sigh of relief. Both of their steps were firm, so it was clear that there was no problem.

What about the three suns?

And it's the fire element Three yang!

At this moment, Hao lianchuan was already trying to figure out whose Third Sun had come here.

The three suns were known. Even if they didn't reveal their strength, they knew a little about them. As for the three suns of the fire attribute ... Red Moon seemed to have them, but Red moon's main power was concentrated in the middle region. How could one of them kill Yuan Shuo?

Was he crazy?

No matter what, Yuan Shuo had killed three suns before. Moreover, he was still here. In fact, many things did not make sense.

Just as he was thinking, the two of them entered the room.

In the hall, the others quickly looked at them.

At this moment, mu Sen was holding a large blade in his hand. He was full of killing intent, with a heavy and angry tone."Hao bu, someone attacked professor Yuan. There's a big fight on the street. The attacker has escaped from the scene and professor Yuan is chasing after him ..."

"Is she alright?" Hao lianchuan asked in a low voice.

"I'm not sure,"

Mu Sen kept walking forward as if he was going to report to Hao lianchuan.

Hao lianchuan, on the other hand, frowned slightly and glanced at him.

Although mu Sen was a Martial Master and it was difficult for most people to see through him, at this moment, when mu Sen was close to him, he could feel that this guy's inner strength was in a state of eruption.

Betrayal?

Mu Sen has rebelled and wants to ambush me?

How was that possible?

Putting aside whether he knew how to do it or not, even if he did, it was impossible for him to kill him at such a close distance since he was over a hundred.

Hao lianchuan's expression did not change, but he cursed in his heart. What was going on in Silver City?

The night patrolman division was disobedient, and even the Inspector General was acting weird.

Just as he was thinking, his eyes moved.

Out of the corner of his eye, he glanced at a person. It was a middle-aged man who looked honest, but at the moment, he seemed a little worried. It was the driver of Mrs. Qiao.

"Mu Sen wants to kill him?"

"Why?"

Such a thought flashed through his mind, and he even wanted to stop it ...

But at this moment, another person appeared in front of him. Li Hao said,""Hao bu, my teacher said ..."

Hao lianchuan didn't hear what the teacher said. In fact, Li Hao didn't say anything at all.

At this moment, mu Sen's eyes flashed with killing intent. He held the long knife and slashed at the driver!

At the same time, he let out a thunderous roar,""The Qiao's colluded with bandits to kill professor Yuan, they must be executed! Whoever dares to move will be regarded as an accomplice!"

BOOM!

A loud sound rang out. The Yueying elite only reacted at this moment. Mu Sen had ambushed him.

He quickly blocked it and exploded with a powerful super power, which was also fire.

Just as the power burst out, the long saber slashed down with a pfft!

Chapter 282: Killing the three suns and destroying the sun (5)

At such a close distance, even Yue Ying couldn't block the sneak attack of a peak-stage Martial Master who had exceeded a hundred.

Pfft!

The head was directly chopped into pieces, along with the opponent's raised hands, which were completely chopped into pieces.

...

Hao lianchuan frowned slightly and glanced at Li Hao with a cold look.

These people were all ignoring him.

He had even deliberately stopped him!

Li Hao, Yuan Shuo, Liu Long, mu Sen ...

The whole of Blizzard Silver City had become one entity. Not even a drop of water could get through. They covered for each other, and even the night watchmen did not trust them. Yes, these people were obviously hiding some secrets. Even Hao lianchuan did not trust them!

Hao lianchuan was a little annoyed.

However, in the next moment, he snorted coldly and a fire Dragon burst out. In an instant, five or six transcendents who had some strange movements in the crowd were all burned to ashes!

The moment mu Sen made his move, not only were the transcendents of the Qiao family scared out of their wits, some of the more problematic transcendents were also scared out of their wits and wanted to escape!

But they didn't think about Hao lianchuan's strength.

He couldn't even be bothered to capture these small fries and interrogate them. He immediately unleashed his Fire Dragon and killed all the transcendents who were making a move!

"You think I'm dead?"

Hao lianchuan's voice was cold. It seemed like he was talking to the people who were scared out of their wits, but in fact, he was talking to mu Sen and Li Hao.

Do you think I'm dead?

Killing people in front of me, silencing me, what do you want to do?

He was very frustrated!

The Whitemoon city had just reached an agreement with the three major organizations and the other organizations, and now there was such a big mess here.

Damn it!

And here I was, thinking that Silver City would be fine for the time being.

As for Li Hao, he lowered his voice and said, "Hao bu, everything is fine. It's just that a local company in Blizzard Silver City colluded with some dark powers and tried to kill my teacher ... It's over now."

Hao lianchuan turned to look at him, his eyes cold.

"Get Liu Long to give me a detailed case analysis tomorrow!" After a long time, he regained his composure.

After saying that, he no longer paid attention to Li Hao. Instead, he looked at mu Sen and said with a frown, "Get someone to clean up the bodies. This is the inspection Office, not the market!"

After he finished speaking, he looked at the people in the hall who were silent like cicadas in winter and said coldly, "Everyone, there's no need to be afraid. As long as you're not guilty and don't do anything to disrupt social order or commit any crime, the night patrolman is your protector, not a butcher! Tonight, I'll have to trouble everyone to stay here for a while longer. When the bandits of the Silver City are killed, everyone can eat and drink. It's the first day of the establishment of the Silver City's night patrollers, and we're already cracking down on crime and killing criminals. It's worth celebrating! I hope that everyone will take this as a warning and not commit any crimes just because you're extraordinary!"

"I don't dare!"

Everyone responded, their faces pale.

This time, it really scared everyone.

The strength of the three yang was also extremely shocking.

Hao lianchuan casually threw out a few fire dragons and burned seven or eight transcendents to death. Although they were only martial masters of the tenth severing realm and some Starlight Masters, how many people were there, including Yue Ming and those who had broken through a hundred?

The strongest one was probably the one killed by mu Sen.

At this moment, everyone was still in shock. They knew that mu Sen was not weak. Last time, mu Sen had killed a Dark Moon flying super with a single strike. However, today, although he was suspected to have launched a sneak attack, he had killed a Dark Moon elite with a single strike. Furthermore, the Super felt very strong, and could even be a top existence among the Dark Moon elites ... From this, it could be seen that this fatty had probably reached the peak of the 100-plus realm.

As for mu Sen, after killing the man, he regained his smile and glanced at Li Hao. When Hao lianchuan finished speaking, he also smiled and said, "Don't be afraid, everyone. Those who are still alive are law-abiding. As long as everyone is registered, not only will the inspector and the night patrolman not cause any trouble, but they will also take the initiative to help everyone to the best of their abilities ..."

“Let’s have a few drinks when chief Liu and the others return to calm our nerves. After tonight, Silver City will be peaceful!” “In addition, after everyone goes back, I hope that you can convey the opinions of the inspection Office and the night patrolmen. Some people might have forgotten to register, or they have been in closed-door cultivation for too long and should not be disturbed ... When they come out of closed-door cultivation, it’s best to come and register!”

As soon as these words came out, some people’s expressions changed slightly.

Were there any unregistered superpowers in the city?

There must be!

After tonight, would he still dare to not register?

He probably didn’t dare.

Unless there was really a problem, if the night patrolman showed his power tonight and directly killed people to establish his authority, he would not know how he died if he was really found out.

For a moment, the entire Hall was frighteningly silent.

As for Li Hao and the others, they didn’t move at all and were all looking at the door.

Li Hao was wondering if there would be a problem with the captain.

Three sun glory!

There was still some distance between the mine and the Urban area. Even if Yuan Shuo made it there, the battle might have already ended.

As for the outcome ... It was hard to say.

However, the captain was still fighting against Qian, so he should be able to solve the problem, right?

This place had also left behind some aftereffects. For example, Hao lianchuan’s impression of him would probably not be too good.

He wouldn’t even have a good impression of the entire Silver City.

Deceive the bottom and deceive the top!

To put it more seriously, the blizzard Silver city’s night patrollers and the inspection Office didn’t take Hao lianchuan seriously at all. If Hao lianchuan was a little narrow-minded, it would be normal for him to hate them for this.

And then there was mu Sen. This time, Li Hao had a deeper understanding of this person.

He was a ruthless character!

Chapter 283: Killing the three suns and destroying the sun (6)

He did not ask too much. Although he had guessed some things, he did not ask and directly killed them to silence them. The decisiveness of a Martial Master was also deeply reflected in mu Sen.

...

The other thing was the small sword ...

At this moment, Li Hao was also thinking about the starry sky sword.

The starry sky sword had actually absorbed some of the black shadows, and it seemed to be replenishing its sword energy ... It wasn't just the starry sky sword. The Zhang clan's stone saber had also done the same. When he and his teacher had fought earlier, the two weapons had devoured the black shadows as if they had seen something delicious.

What was so special about the black shadow?

Previously, the red shadow did not devour either of them.

Is it related to the ruins?

Perhaps, the ruins controlled by the Qiao family might have something that could replenish the energy of the small sword.

Thinking of this, Li Hao was a little excited.

He needed the sword energy, and so did his teacher. His teacher had used the blood Blade technique and was badly injured. Although he had absorbed a little sword energy, it was definitely not enough. Even if he had absorbed all of it, it would not be enough.

They didn't know how much more trouble they would encounter next. They had to let their teacher's injuries recover quickly.

.....

While Li Hao was thinking about these questions ...

In the Qiao's mine.

The cannonballs bombarded the ground, and a mountain peak directly collapsed, revealing some ancient ruins that could be vaguely seen below.

At this moment, Liu Long directly killed a riyao who had just run out with his axe.

Of the remaining two, one was entangled with Liu Long, while the other went straight to another Hill. He wanted to kill those guys who sneaked an attack on him, not because he didn't want to join forces with the other one to deal with Liu Long.

It was just that as they were making their move, there were constant sniping from the distance.

If that was the case, it would be too easy for him to reveal his flaws.

He had to kill these annoying guys first. Sunlit's defense was strong, but while fighting with the chrysalis, it was easy for him to be killed if he was targeted and sniped.

Bang! Bang!

A Cannonball exploded next to the incoming sunlight, but he dodged it quickly.

Chen Jian carried a bazooka, aimed at the other party, and fired again.

The other party dodged again.

The power of sunlight was evident.

Liu Yan wielded her twin blades. At this moment, her eyes were also filled with fanaticism. Sunlight ... Was indeed very powerful, and she was clearly no match for it. However, the opponent did not only have to face the few of them, but also the three supers in the car.

On the other side, Liu Long's fists were like waves, directly beating the other person to the point that he couldn't stand still. Clearly, he had the absolute upper hand.

As long as they could hold him off for a while, there would be no problem.

"Kill!"

With a low shout, Liu Yan took the initiative to meet the attack.

The early stage of the 100th level was an entire level away from the early stage of the sun glory realm.

But at this moment, they were fearless.

"You're looking for death!"

The ambushing fire element super did not look very old and his face was filled with anger and frustration. He did not have the mood to waste time with them and had to quickly kill them before turning around to kill Liu Long.

Something had happened here, but he wondered if something had happened to the leader.

They didn't have the time to think about this as their opponent's fire energy quickly erupted. A small crystal Shield instantly appeared in the hands of Liu Yan and the other two.

Ice crystal Shield!

However, this thing was extremely fragile.

When the small shield came into contact with the fire energy, the fire energy was suppressed by half. The remaining impact instantly shattered the shield. This was the disadvantage of the ice crystal Shield. Otherwise, it would be a godly weapon against superpowers.

The fire element didn't care, the ice Barrier was easily broken, it only suppressed him for a moment.

These guys would still die.

At this moment, a loud explosion was heard. In the next moment, a golden light slashed out from behind.

Full moon Wang Ming was a metal-element super!

At the same time, Li Meng's third eye had already opened. This was not the last time, and they had prepared for this in advance. They were much more prepared.

Li Meng's third eye instantly exuded a special and mysterious energy.

In the blink of an eye, the fire-type felt as if he had entered a black hole ... It was only for a moment, and he quickly roared, his fire energy exploding, shattering the black hole. However, this moment was also a fatal moment.

The Golden long sword had disappeared without anyone knowing.

He subconsciously erupted with fire energy to break through the long sword, but he felt his scalp go numb. In the sky, Hu Hao had unknowingly dragged Wang Ming up and was now falling on top of his head!

At the side, Liu Yan let out a violent roar and stabbed her two blades forward.

Wu Chao, Chen Jian, and the others did not get close. Instead, they opened fire from a distance.

Hot weapons, cold weapons, and supers, at this moment, completely sealed off the fire element.

In the rear, yunyao used her water power, but she didn't attack the other party. Instead, she covered the others with a layer of water defensive barrier to prevent them from being burned to death by the other party's powerful fire power.

Four dark moons, one with a cultivation base over 100, two with a cultivation base close to 100, seven night patrollers attacked at the same time. In an instant, they created a sure-kill situation for a sunlit soldier.

"You're looking for death!"

"Fire!" The other party roared again as fire energy erupted, burning the heavens and earth.

The water Defense was instantly shattered.

Li Meng's third eye closed again and blood flowed out.

The moment Liu Yan's blades pierced into her opponent's body, they were immediately set on fire. The blades melted, and in an instant, the flames spread along the blades to her arms, wanting to burn her arms and her entire body into ashes.

At this moment, the fire descent Esper tilted his head and dodged the golden sword. His eyes were cold.

How could yiyao be killed so easily?

The biggest threat among the people in front of him was Wang Ming, but this guy seemed to be in actual combat. He only knew how to poke and stab people ... He didn't even know how to react. 1

Chapter 284: slaying the three suns, destroying the sun (7)

...

Just as the fire system was thinking this, Wang Ming suddenly felt happy in midair.

The other party had just tilted his head to avoid his golden longsword when Wang Ming looked ecstatic.

The Golden longsword didn't stab down at this moment.

Instead, they exploded like feathers in an instant.

BOOM!

With a loud sound, the metal element exploded and countless golden feathers shot out. The fire element thought that the sword could only be used to stab and did not expect it to explode. In an instant, he was hit by the countless feathers.

Countless bloody holes instantly appeared on his head.

Wang Ming was ecstatic. "He's a newbie as expected ... He actually doesn't know about super skills!"

Newbies only knew how to use their powers.

However, superpowers had developed for 20 years. How could they only know how to fight each other? among the night watchers, supers could learn super skills. For example, his goddess scattering flowers ... It was the name he gave it.

This wasn't a direct stab, but an instantaneous explosion, like a flower scattering superpower.

The moment his opponent dodged, he knew that he was going to hit!

Chief Liu was right. The other party was a newbie who had never seen a superpower before. If he was an experienced member of the three major organizations, he would not have fallen for it so easily.

This move was also extremely dangerous.

Once the other party was prepared, they would not avoid it like this.

His attack was successful and his opponent's head was beaten into a hornet's nest. The next moment, Hu Hao, who was flying in the sky, also exploded his power and kicked out. With a boom, his opponent's head was crushed.

Yunyao's face turned pale as she let out a low cry and activated her Water-type powers. A water dragon covered Liu Yan's hands and extinguished the flames on her hands. However, it still left behind some burnt marks.

Liu Yan frowned slightly and didn't say anything. Although she was in pain, she was still extremely ruthless. She extended her withered hands and stabbed them into the other party's chest, tearing it apart.

In an instant, the battle was over.

In the distance, the expression of the last sunlight cultivator changed drastically, and he suddenly turned around to escape.

The first sun glory was killed by Liu Long's surprise attack, while the second Sun glory was killed by a group of hundred moon demons. At this moment, he knew that the situation was over, so he did not dare to stay and continue fighting.

"Kill!"

At this moment, the sound of a huge wave reverberated through the forest. It was as if rain had started to fall from the sky.

There really seemed to be waves bursting out!

Yes, it exploded.

Countless droplets of water and raindrops exploded one after another. Liu Long's arms turned blood-red, a sign of the full force of the ninth-refinement force.

He held the short axe with both arms and hacked down violently!

BOOM!

With a loud bang, the escaping sunlight was split into two by the axe, and his body exploded.

The blood vessels in Liu Long's arms also burst, and blood splattered everywhere.

In the distance, Wang Ming and the others all looked aghast.

"Qian Dou!"

Another Qian warrior!

At that moment, Wang Ming and the other supers were all dumbstruck.

Silver city's second Qian fighter!

Previously, when Liu Long had killed a member of the sunlight sect, everyone had some speculations. However, the battle had been too intense and Liu Long's performance was not as violent as his current one. Hence, they could only guess and not think too deeply about it.

But at this moment, after killing their opponent, they heard the commotion and subconsciously looked over. In the end, they saw this violent scene.

He hacked a sunlit man to death with an axe.

This was Liu Long!

"Cough, cough, cough ..."

Blood was also seeping out of the corner of Liu Long's mouth, but he still smiled and turned to look at Wang Ming and the others in the distance.

"It's done!"

Tonight, he had killed two sunlit cultivators by himself. Although the first one was lucky, he had killed the second one with his true strength!

He, Liu Long, did not become a super, but he still killed sunlight!

Thousand combat!

At this moment, everyone's hearts were surging with excitement!

Wang Ming and the others were also a little dazed for a moment. Silver City ... This place was too f*cking strange. Two Qian fighters had appeared one after another, both super ruthless people.

He had thought that Liu Long would join forces with the others to kill a sunlight sect disciple ...

Good fellow, three directly!

Fortunately, they were all dead.

"The three sunlit cultivators are dead ..."

Wang Ming mumbled. Since when had sunlight become so worthless? three of them had died at once, and one of them had even died at his hands. It was too inconceivable.

In the next moment, Liu Long's sudden words shocked him even more.

"Elder Yuan came so quickly ... Is that Third Sun dead?"

Three suns!

Wang Ming and the others' eyes almost popped out. Yuan Shuo hadn't come, and they had thought that he hadn't arrived in time, but in the end ... He had gone to kill three suns?

As for Liu Long, the reason he didn't hide it was because he didn't want to hide it since they had gone through life and death together.

Yuan Shuo, who had just landed, frowned slightly.

However, he didn't say anything and just nodded slightly. "Kill him."

Such calm words once again set off a storm.

"Thousand slaughter three suns, thousand slaughter sunlight ... Martial masters ... Have they really declined?" Li Meng mumbled.

At this moment, he suddenly lost confidence in his powers.

Why did it seem so easy to kill the three suns in this place?

Chapter 285: Eating (1)

...

In the mine.

Yuan Shuo arrived, took a look at the corpse of the dead sunlight, and nodded slightly.

Liu Long's performance was not bad.

It was still quite good to kill two people from riyao when he had just entered the thousand-player guild.

He couldn't be compared to Liu Long, and there was no need to. He was 30 to 40 years older than Liu Long, and Liu Long was not as experienced as him. Moreover, they were not of the same generation, so there was no point in comparing.

At this moment, the others also arrived one after another.

Among them, Liu Yan was the most seriously injured, followed by Li Meng. The two women's injuries were worse than the Men's, and Yuan Shuo shot a glance at Wang Ming and the others.

"You're a disgrace to men!" 1

"....."

At these words, Wang Ming and the others' faces flushed.

This ... Why did he say that?

We didn't want to, but we can't take care of it in a battle, can we?

Of course, Yuan Shuo was only saying it in passing.

At this moment, he didn't have the time to care about them. He stepped forward and walked towards a pit in front of him. The pit had collapsed a little. Yuan Shuo turned to Liu Long and said, "You guys wait here, don't let anyone enter!"

Liu Long nodded.

He knew what Yuan Shuo was going to see.

Soon, Yuan Shuo disappeared from the spot.

The people who were left behind looked at each other, not knowing what to say.

Three sun glory and one three suns!

What secret is Mrs. Qiao hiding?

No, it was a big secret!

Even Li Meng had come back to his senses. Everything that had happened today was not an accident. Liu Long, Yuan Shuo and the others had already known about the situation and what kind of opponent they would encounter.

Three suns and sunlight had never appeared before. At this moment, they also subconsciously thought of one thing ... Ruins!

"Chief Liu ..."

Wang Ming glanced at Liu Long, who said in a calm voice, "What do you want to ask?"

"That ... This ... Is this a relic?"

Wang Ming still asked.

These people were relatively straightforward. If it was an old fox like mu Sen, he would definitely not ask this.

If he asked, he might be killed.

If one could enter any ruins and obtain benefits, there would often be bloody incidents.

Liu Long shook his head, "I don't know."

You don't know?

This answer was beyond his expectations.

Liu Long explained once again, "we really don't know, and we've already discussed it in advance. This has nothing to do with us!" Wang Ming, according to what we discussed earlier, the mysterious energy and treasures of the three riyao's men will be ours for this murder. "

"Of course, I won't take it. The benefit I get from killing people is that professor Yuan helped me advance to the level of a thousand-man warrior ... He has already paid me."

"Therefore, after the death of the three sunlit cultivators, you guys will be the ones to split everything!"

"The three sunlit experts can extract at least 500 cubic meters of mysterious energy, even up to 900 cubic meters ... However, these guys aren't too strong, about 500 to 600 cubic meters."

Sunlight could usually extract about 200 cubic meters of mysterious energy.

Of course, it also depended on one's strength.

If they were at the peak of the sun glory realm, there should be more. They had never killed them before, so they did not know the situation.

This time, the three sunlit experts were killed, so it was not a big problem to withdraw five to six hundred cubic meters.

In the team, Liu Long and Li Hao didn't want any, so the other seven members of the team could each get nearly 100 mysterious energy units, which was several times more than last time.

Not even Wang Ming had ever taken so much mysterious energy at once.

However, Wang Ming was still a little conflicted at the moment.

Liu Long frowned slightly, "you should know that three suns is much stronger than shining sun. Professor Yuan killed them!" And if I didn't enter the thousand warrior stage in advance ... I wouldn't have been able to kill them so easily this time! Besides, Li Hao provided us with a lot of information, which is why we are so well-prepared today ..."

He thought that Wang Ming had his eyes on the ruins and felt that this distribution was inappropriate.

But Wang Ming quickly shook his head. "I'm not talking about the distribution ... It's ... Um ... Chief Liu, according to the rules of the night patrollers, you can distribute your usual spoils. However, once it involves the remains, we need to report to the night patrolmen ..."

Liu Long said calmly, "so that's what you're talking about. But I remember that night patrollers also have a rule. Try not to take the initiative to participate in the fight for the remains!" You have to understand that this isn't our trophy, it's someone else 'S. So, do the night patrollers have to learn from the three major organizations and snatch it?"

"I don't mean it that way ..."

Wang Ming was a little embarrassed, but as a Night Watcher, he had already seen it. If he didn't report it ... He would still feel a little guilty.

He felt that he would be led astray!

Liu Long and the others always felt that they had been breaking and trampling on some rules.

On the side, Liu Yan snorted coldly. "Wang Ming, just tell us directly. Are you joining us, or are you going to report it selflessly and then have a falling out with professor Yuan and the others?"

Join?

This doesn't sound right. We're a righteous faction, the night patrollers, and the only official superpower organization.

Good fellow, you've already joined us.

Were all these people from the Silver City bandits?

Wang Ming smiled bitterly and helplessly.

During his years as a Night Watcher, this was not the education he received or the training he received.

According to the training system of the night patrolman, he should report to his superior immediately ... Well, his superior was Liu Long.

Night patrols didn't really advocate reporting to higher-ups, unless there was a problem with the higher-ups, such as a rebellion, or something like that. Otherwise, they didn't encourage higher-ups to tattle.

Wang Ming thought a lot, and after a moment, he said helplessly, "My professional ethics tell me that I can't ignore it! So ... I've decided ..."

Chapter 286: eating (2)

...

Everyone looked at him, even Li Meng and the others.

"I've decided to report this to the organization!"

He ignored their angry gazes and mumbled, "My superior is chief Liu. I'll report to you anyway. As for whether you report it or not, it's none of my business!"

"....."

Everyone looked at each other.

Liu Long's mouth slightly twitched.

"Good fellow, we didn't make you the scapegoat. This kid is good, he's not stupid. He reported it to Liu Long anyway. As for the follow-up problems, it has nothing to do with him."

If something really happened, it would be Liu Long who didn't report it, so what did it have to do with Wang Ming?

Of course, Wang Ming's choice not to report this above his level at this time also showed his attitude. It was just that this kid was also a little sneaky!

After saying this, Wang Ming suddenly laughed, a little sneaky. "Um ... Minister, how ... How much do we get?"

Liu Long raised his eyebrows.

He glanced at yunyao, who was in charge of extracting the mysterious energy. She was squatting on the ground and checking. Feeling his gaze, she raised her head and said, "Three people, two fire element, One Earth element!"

Speaking of this, yunyao revealed a smile. "The one with the earth element was more unlucky. He was killed by the captain as soon as he came out. Otherwise, once he escaped underground, it would be really difficult to deal with him."

"I've taken a look. The earth element can extract about 220 cubic meters, and the consumption is very small. Two fire elements, I can extract about 400 cubic meters of fire energy, about 620 cubic meters in total, the difference won't be too big."

She had experience, and her judgment was usually not wrong.

Liu Long didn't wait for them to go back and distribute it. At this moment, everyone was in high spirits and needed more motivation.

"Wang Ming, you're the main contributor this time. I saw your super skill burst out and blow up the other party's head."

"So this time, you'll get 120 cubic meters."

Wang Ming's eyes instantly brightened. 120 cubic meters ... This wasn't from corruption. Unlike Li Hao's case, this was distributed by the night patrolman's superior according to credit, so he couldn't refuse at all. 1

120 cubic meters ... According to his current salary, one cubic meter a month, it would take ten years to get 120 cubic meters.

Of course, this was only for now. He was still young, and he would definitely be promoted.

However, he had earned ten years' worth of salary all of a sudden, and he was still very excited.

"For the remaining 500 cubic meters, the moment Li Meng's third eye confused the opponent, he also paid a considerable price in the battle to kill the opponent and created an opportunity. Li Meng, 100 cubic meters!"

Li Meng's eyes were so bright that they were almost emitting stars.

She wasn't as heroic as Wang Ming; he was excited, but she was so happy that she almost fainted.

Oh my God!

That was 100 cubic meters!

"Liu Yan is in charge of luring the enemy head-on. She's the main attacker for head-on attacks, 100 cubic meters."

Liu Yan nodded her head slightly and didn't say anything.

However, she wasn't as excited as she had imagined. At this moment, her hands were like scorched wood. If her hands couldn't recover, what could she do with 100 cubic meters of mysterious energy?

Of course, it was normal to be injured in battle.

At most, she would be dismissed. She thought that the Qiao family had already been destroyed, and her enemies had been reduced by half. The only thing left was the murderer on Yama's side ... As for Yama, she didn't think about it. She might not be able to bring Yama down in this life, so why bother?

Half of his enemies had died. Even if he didn't get any benefits this time, it was worth it.

"Hu Hao, Yunyao, Chen Jian, Wu Chao, you're all assisting in killing the enemy. Although your strength is different, the degree of contribution is equal in my opinion. Each of you has your own role, and there is no mistake, but there is nothing special about you. The four of you will split the remaining 300 cubic meters, 75 cubic meters per person. Any objections?"

The few of them shook their heads.

"Boss, we only killed one. You killed two. You ..." Chen Jian could not help but say.

"I've already said that I've already obtained the benefits I've obtained in advance!"

Liu Long smiled, "I've advanced to the warrior of thousands, but I'm not as good as one or two hundred cubic meters of mysterious energy?"

When he said this, they came back to their senses. Even Wang Ming couldn't help saying enviously, "Department head, you've actually advanced in rank without a sound! Didn't they say that it was ten times more difficult to advance to a Martial Master than to become a super? How did you advance so quickly?"

It was too unbelievable!

“Elder Yuan is just amazing!”

Liu Long laughed, while Liu Yan raised her brows and said, “Li Hao won ‘t?”

“Him?”

Liu Long smiled. “Elder Yuan killed a Third Sun. Li Hao’s contribution was also there ... We don’t participate in the harvest there, so he doesn’t share it.” But of course ...”

He looked at the collapsed area in front of him and said softly, “No matter what’s here, I hope that everyone won’t probe too much. We’ll get what we should get. This time, we’ve gained more than we’ve ever had!”

Even the least received 75 cubic meters of mysterious energy.

In addition to the previous round, Chen Jian and the others had also received 20 cubic meters of mysterious energy. After two rounds, they had earned an unimaginable amount of mysterious energy.

Wang Ming shrugged his shoulders. Since he had already decided to report it to Liu Long, he didn’t care.

Ruins?

What does it have to do with me?

Actually, there are quite a few remains. The key is, can you develop them?

There were actually quite a number of ancient ruins in the wild, but they were often full of traps and dangers when they were developed. Otherwise, the night patrollers would not have cooperated with the three major organizations to explore the ancient ruins.

Wang Ming also knew this.

Therefore, he was indeed tempted by the ruins here, but he knew how weak he was. It was not something he could covet.

Li Meng and Hu Hao both shook their heads and didn’t say anything.

Chapter 287: Eating (3)

...

At this moment, Yuan Shuo suddenly jumped up from the ground. He frowned slightly, but his brows soon relaxed.

He didn’t say much and punched out. With a boom, the place that hadn’t completely collapsed collapsed instantly.

Liu Long revealed a suspicious expression.

Yuan Shuo shook his head and said, “it’s not easy. Let’s not talk about this. Let’s clean up the battlefield here first. Also ... Just arrange for two people to keep watch here. Just don’t let ordinary people enter by mistake. Don’t worry about the rest.”

“Boss, I’ll stay here and watch,” Chen Jian looked at Liu Long and said honestly.

Liu Long looked at Chen Jian and thought for a while before saying, “Hu Hao, you’re not injured and can still fly. If you encounter danger, you can escape immediately. How about you stay here with Chen Jian?”

Hu Hao was a little surprised.

He was a man of few words and few words.

Logically speaking, there was a big secret here. He was also Yue Ming, so he was stronger than Chen Jian. At this moment, there were only him and Chen Jian guarding this place. There might be some changes. For example, he might have some thoughts, kill Chen Jian, and secretly seize some treasures ...

In the end, Liu Long asked him to watch?

This was truly unexpected!

“Minister ... I ... Am I suitable?”

Hu Hao said in a low voice.

Without waiting for Liu Long to speak, Yuan Shuo indifferently said, “What do you mean by suitable or not? the three of you are my in-name disciples. This ruin was left behind by your little senior brother’s family. Without him, you wouldn’t have been able to open it! If there are really benefits, with your little senior brother’s open-minded nature, he will definitely give you a share! If you really want to keep it all for yourself ... Then do as you please. Even a three suns can’t open it completely and take the benefits. If you can take it, that’s also a skill!”

As soon as these words came out, the few of them were stunned.

That was true.

If it could be taken away easily, it would have been taken away by others long ago. Obviously, there were probably no treasures left in the ruins now. Even if there were, they would have been taken away long ago. If he wanted to obtain more benefits now, he would have to explore it again.

“I understand.” Hu Hao nodded. “Don’t worry, teacher Yuan.”

Yuan Shuo didn’t mind that he stuttered when he called him teacher. He was just an in-name disciple, and he didn’t care if he was sincere or not.

As for Liu Long and the others, they were slightly surprised.

Little senior brother?

In-name disciple?

What the hell is this?

“Liu Long, let’s go back first. If we don’t go back, Hao lianchuan is probably going to flip out.”

Yuan Shuo chuckled. Suddenly, blood gushed out from the corner of his mouth.

Liu Long’s expression changed, and so did the others.

Was he ... Injured?

"I'm fine!"

Yuan Shuo waved his hand and wiped it away. The blood disappeared. He looked around and said softly, "It's just a small injury! There's no need to say anything to the outside world."

He was currently the silver Blizzard city's stabilizing force. Once the outside world knew that he was severely injured, there might be some slip-ups.

Even though they were worried, they didn't say anything.

Yunyao also quickly collected the corpses. The bones of the sunlit corpse had the function of preserving mysterious energy.

Everyone quickly cleaned up the battlefield. Of course, it was very difficult to completely clean up the battlefield in such a state. They could only wipe out everything that might reveal the identity and strength of the three sunlit experts.

After all this was done, they put everything into the box. Except for Chen Jian and Hu Hao, who stayed behind to guard the place, everyone else got into the car and prepared to return to the Urban area.

.....

In the car.

It was very quiet.

Wang Ming, who wasn't injured, was driving, while the others were more or less injured.

Even Liu Long was slightly injured. Many parts of his body were severely burned, and the blood vessels in his arms had burst.

"Elder Yuan, is everything going well in the city?" Liu Long asked after a while.

"It's alright."

Yuan Shuo nodded, "but let us know one thing. Don't underestimate anyone. No matter how incompetent a super is, he has a lot of power." "Although supers are mostly incompetent, once they can display their strength, the advantage of a Martial Master is actually gradually losing."

Wang Ming and the others were a little embarrassed at this.

Especially Wang Ming!

Most of them were superpowered and incompetent ... If word got out, they would probably become public Enemies.

How crazy!

Of course, this cheap teacher had the right to be arrogant and kill two three suns existences. It must be known that in the entire Silvermoon province, there were only two three suns night patrolmen, one was Minister hou and the other was Hao lianchuan.

This was equivalent to Yuan Shuo killing the two night patrolmen's commander in chief.

Of course, Minister Hou's strength was very strong and not comparable to those two guys.

Yuan Shuo seemed to have sensed Wang Ming's thoughts and said calmly, "Wang Ming, although you're just in-name disciples that I've casually accepted, I'll give you a few words of warning since I've accepted you. It's your business whether you listen or not, and it's my duty to tell you or not."

"Please speak, teacher!"

Wang Ming still replied respectfully. Li Meng also opened her eyes, a little curious.

"Just remember a few things," Yuan Shuo said in a deep voice. "Not only you guys, but the rest of you as well!"

"First, superpower overdrawing one's potential is too powerful. I don't know if the powerhouses above three suns have a way to solve it ... But those below three suns probably haven't come into contact with this aspect, so it's easy for problems to arise. When you cultivate your superpowers, try not to give up on martial arts."

"Although dual cultivation will delay the progress of cultivation ... You have to understand that there are no benefits to drying up the pond to catch fish! The key is to move steadily. If we're not slow now, we'll go far in the future!"

The few of them nodded with serious expressions, taking note of this.

"Second, when inner strength is produced, it will usually be devoured by the superpower and become a part of the mysterious energy ... Yunyao, this is your situation, right?"

Chapter 288: eating (4)

...

Yunyao nodded. "Yes. After I became a super, my inner strength turned into a mysterious energy."

Yuan Shuo nodded. "That's why it's difficult for you to generate inner force even if you practice martial arts after you become supers ... It's fine. According to my research, when you practice martial arts, your inner force is generated and it won't be devoured immediately ... It's stored in your five internal organs! The five internal organs are all locked with power. You haven't unlocked all the power locks yet."

"Elder Yuan, the inner strength will strengthen the superpower lock and increase the difficulty of advancing ..." Yun Yao frowned.

"I know!"

Yuan Shuo replied indifferently, "if you do, then listen!" If you don't believe me, then don't listen! The choice is up to you. The internal force in the five internal organs will indeed strengthen the Super Lock and increase the difficulty of your advancement. However, you must understand that things that are easy to obtain are often not very precious."

The few of them were deep in thought.

Wang Ming and the others, on the other hand, were a little uncomfortable. Wang Ming couldn't help saying, "Master, I ... I'm at full moon now. Once I cultivate inner strength and use it to strengthen the superpower lock, my chances of breaking the superpower lock and advancing to the sunlit realm will be greatly reduced ..."

Not all the superpower locks could be unlocked in one go. Every time he advanced, some of the superpower locks would be unlocked, allowing his body to contain more mysterious power.

However, Yuan Shuo had asked them to strengthen the superpower lock.

Why was this so?

Yuan Shuo remained calm. "That's why it's up to you. If I tell you, it might delay your progress!" This can't be helped. Also, it's not necessarily better to be stronger. Of course, perhaps when the strong reach a certain level, they can make up for this problem. I don't have an answer to this question at the moment, I'm just giving you my suggestion. It's up to you to take it or not. "

Liu Yan, who was shaking Jiao Gu's hands, suddenly laughed, "Elder Yuan, I'm not a superhuman, so it's fine. I just want to ask, is there any way to restore my hands? Elder Yuan is experienced and knowledgeable, do you think there's still hope?"

Yuan Shuo glanced at her hands and said casually, "It's almost completely dead. Under normal circumstances, it's hopeless ... But I'll think of a way for you later. It's not a big problem. "

Liu Yan's eyes lit up. She suddenly thought of Li Hao. Could it be that Li Hao's energy was really a special type of inner strength?

Yuan Shuo taught him?

At this time, she thought of many things, but she did not ask in detail.

Li Meng was also a little impatient. "Old ... Teacher, my ... My eyes are often injured. My defense is very weak. Do you have a solution?"

The defense of her third eye was too weak. If she was not careful, she would be easily counterattacked.

Of course, the third eye's special feature was also very useful.

For example, this time, he had created an illusion and seen through the opponent's movements and fog ... The three-eye ability was still very strong, but its defense was too weak, and it often bled and cried.

The night patrolmen had a solution too, which was to strengthen the mysterious energy. According to the powerful night patrolmen, the stronger the mysterious energy, the stronger the defense of the third eye. There was no need to make up for it.

"Your eyes are not ordinary!"

"Your superpower is a special one!" Yuan Shuo suddenly interjected. There are two possibilities. First, according to the ancient records, there were some special bloodlines during the ancient civilization, and you might have awakened a special bloodline!"

“Second, the embryonic form of a type of divine ability!”

“If it’s the first method, the best way is to strengthen the bloodline, which means to purify it. That is to strengthen one’s own body. I suggest using martial arts to strengthen the power of the bloodline instead of superpowers!” Yuan Shuo said in a deep voice.

“If it’s the second type, divine power ... It’s actually a special ability that was born naturally in the body of some powerful martial masters during the ancient civilization when they reached a certain level. If you’re in the embryonic form of divine power ... I still recommend you to practice martial arts!”

“.....”

Li Meng was a little speechless. He glanced at Yuan Shuo. Both methods were martial arts ... Was this ... Was this reliable?

Of course, she didn’t dare to ask too much.

Yuan Shuo smiled, “believe it or not, it’s up to you.” I’m just an in-name disciple, so I’ll learn as much as I can. It’s fine even if I don’t learn anything. ”

These words made Wang Ming and Li Meng a little embarrassed.

He was too straightforward!

At that moment, the vehicle had already entered the city.

The city was under martial law and the people from the patrol office were ordered to patrol the entire city. Liu Long’s car stopped and when the patrol office outside saw Liu Long and his group, they immediately let them through with respect.

“Secretary mu is quite efficient.”

Liu Long sighed with emotion. They had completed the martial law so quickly, and each checkpoint was guarded. Mu Sen’s control and execution were still top notch.

“Elder Yuan, is there any hope for mu Sen to enter the warrior of thousands?” he suddenly asked.

The moment he said that, the few of them looked at Yuan Shuo.

Even Wang Ming, who was driving, almost learned from Li Hao and almost hit a wall.

Yuan Shuo glared at him, and Wang Ming hurriedly forced a smile and continued driving, a little absent-minded and shaken. Could it be that Yuan Shuo really had the ability to mass-produce a cheating machine?

Impossible!

“Mu Sen ...”

Yuan Shuo pondered for a moment and shook his head, “I’m not sure, it’s hard to say. “Mu Sen is more astute than you, and he is more low-key than you. He should be at the peak of over 100. As for whether he has perfected it or not, whether he has grasped force, I can’t tell. Unless he attacks me with all his

strength or shows his force, you know that without comprehending force, how can he advance? do you really think that it's easy to enter the Qian dynasty?"

Chapter 289: eating (5)

...

If he could Master Force, heal his internal injuries, and then use his Qian warrior to stimulate and guide his opponent with force, then his opponent might be able to step into Qian warrior.

If he didn't grasp force, then all of this wouldn't even be worth mentioning.

If he, Yuan Shuo, had the ability to let someone else control force, he would have long since pushed Li Hao into the Qian Dou position. Why would he have let him do as he pleased?

Liu Long didn't say anything else.

The car soon arrived at the patrol office.

A group of people got out of the car.

As soon as they got out of the car, someone walked out from inside.

Hao lianchuan's expression did not look too good. He looked at them and then at Yuan Shuo. After sensing for a while, he raised his eyebrows and quickly smiled. "Thank you, professor Yuan, for your help in eliminating the dark powers!" The man said.

"There are some people who don't want to see us successfully establishing the blizzard Silver city's night patrolmen division. They deliberately caused trouble and killed guests. Minister Liu Long has made the right arrangements and killed these evil superpowers. I will report this to Minister hou and reward him accordingly!"

He said a few polite words in a loud voice, then said, ""Since Secretary Liu and the others are back, today's founding ceremony will officially begin! It was not a bad idea to celebrate the opening with the heads of a few supers! Let's all have a good meal tonight and enjoy ourselves to the fullest!"

After saying that, he turned around and walked back.

He ignored Liu Long and the others, but he heard Hao lianchuan's roar, ""Yuan Shuo! I gave you face, so I didn't want to argue with you in front of everyone, but you acted rashly at this time and killed the Super. You should know that we've been preparing for that ruin for a long time. If you ruin our cooperation ..."

Yuan Shuo's lips moved slightly, "look at how timid you are. How scared are you?" You want to cooperate, but those guys don't? "Besides, it's nothing much. You only killed a few supernumerary personnel. As for the three major organizations, you can just brush them off and they won't say a word!"

"What's with that three suns?"

"What three yang?"

“Where did the three suns come from? are you confused?” Yuan Shuo asked curiously. It’s just a Dark Moon ...”

“You’re f * cking farting!”

Hao lianchuan was furious. Do you think I’m an idiot?

Wasn’t that the three yang?

Of course, he was very far away at that time, but even so, for him to be able to sense an aura that spread over ten thousand meters, if it wasn’t the three yang, could it be a ghost?

“There’s really no three yang!”

Yuan Shuo’s lips trembled again. “Believe it or not. If you don’t believe me, you can ask the other organizations. Have three suns come?” He wasn’t stupid. He knew that I killed three suns, but he still dared to attack me alone? ‘It’s just a bold Yue Ming who thinks that he can kill me and make a name for himself ... He’s out of his mind!’ I killed him directly. ”

“Nonsense!”

Hao lianchuan would never believe that it was Yue Ming.

However, Yuan Shuo had made a solemn vow. He thought for a moment and suddenly transmitted a message, “The unknown three yang? Or has the other party already run away?”

If he ran away, needless to say, the large organizations would not admit that they had sent people to kill Yuan Shuo.

If it was the unknown three suns, it would be fine if they were killed. Since it was unknown, it was obvious that the others did not know either.

Hao lianchuan was probably the only person in the entire Silver City who could confirm that the other party was at the three-sun realm.

Of course, if the scene of the battle was seen by someone, some experts would be able to deduce the situation. However, now that the scene had been destroyed and the inspection Office was still sealing it up, after tonight, no one would be able to see how intense the battle was.

“I don’t know what you’re talking about.”

Yuan Shuo ignored him and walked toward Li Hao.

Hao lianchuan wanted to scold her, but he was still worried and did not dare to.

Old man, you’ve gone too far.

She really wanted to beat him to death!

He was definitely a three-Sun Expert. Moreover, he might have been killed, and it was unknown three-Sun Expert ...

The more he thought about it, the bigger the problem.

He couldn't get angry, so he suddenly walked towards Liu Long and lowered his voice with some anger, "This is what you meant by paying respects to your comrades?"

Liu Long nodded and said softly, "killing people as a sacrifice to the flag, as a form of Memorial, is all for justice, for the light!" Don't worry, Hao bu, we're the ones who took the initiative to kill them. We won't ask for a reward from the headquarters. "

And you still want to ask for a reward ... I want to slap you to death. 1

"Liu Long, tell me the truth. How many did you kill?"

"Three! Including elder Yuan, it might be four. "

Hao lianchuan frowned. "You guys killed three of them. What's your strength?"

"Two Starlight Masters and one moon underworld master."

"What?"

Hao lianchuan fell into deep thought. Really?

The battle outside the city was too far away, and he couldn't sense it from here. He only heard some faint explosions, which might be caused by firearms.

He then looked at Wang Ming and the others. Wang Ming wasn't injured, but Liu Yan had her hands in her pockets, so he couldn't look carefully. She seemed to be a little injured.

As for Li Meng ... He was used to getting injured, and he could even get injured while fighting a Starlight master, so he couldn't be bothered to say anything.

Since that was the case, it wasn't impossible for Liu Long and his men to kill one Yue Ming and two Starlight Masters.

As for sunlight ... If these people joined forces, they might be able to kill one of them.

However, it would definitely not be so easy!

Thinking of this, he nodded slightly, 'that's it! Don't come looking for trouble for me, I'll settle this. I've only killed a few evil supers, so it's fine ... As long as the three major organizations don't pursue it, there's no need to care too much. "

"Hao bu, are you saying that we'll admit defeat if the three major organizations pursue the matter?"

Chapter 290: eating (6)

...

Liu Long suddenly stopped and looked at him. There was some fire in his eyes, and he seemed to be angry and dissatisfied.

Hao lianchuan frowned slightly and shook his head. "It's not what you think, but the actual situation is that we really can't fall out with the three major organizations now! In the central region, the

headquarters can't give us support and keeps asking us to provide support. The Marquis tribe has been resisting the pressure and hasn't gone over. The strength of the three great organizations in Silver Moon is much stronger than ours ... We've already fallen out with Red Moon. If Yama or Fei Tian are involved, Liu Long, you should know the consequences. Sometimes, you have to endure!"

"Endure?"

Liu Long furrowed his brows, but after a moment, he regained his calm and nodded slightly, "I understand! If the three major organizations really want to pursue the matter, we can take the blame for Hao bu. We'll just say that we killed Red moon's outer circle members to avenge Li Hao. We've offended them once, so we're not afraid of a second time!"

Hao lianchuan sighed and did not say anything else.

After taking a few steps, he suddenly thought of something and said, "Do you want to go to the relic exploration at the end of the month? If you want to go, I can apply for a place for you. It's possible for you to become a warrior or a super. Of course, the risk is huge!"

Previously, Liu Long was not within this range.

However, Hao lianchuan was worried that he would not be able to hold on if this guy did not level up after killing so many people. It would be better to take him there and see if he could level up. It would be much safer after he leveled up.

"I'll think about it," Liu Long's heart moved slightly.

After saying that, he hesitated for a moment before saying, "Hao bu, what do you think our chances of winning are if we start a war with the three major organizations in Silver Moon?"

"No chance of winning!"

"Of course not," Hao lianchuan said bluntly. "Unless we give up everything and defend Whitemoon city with all our might. If any experts come, we'll use weapons of mass destruction to deter them! However, we can only hold our ground and not come out. At that time, we will have to give up on the other small cities ... Do you think you will be willing to do that?"

"Is he inferior in all aspects, or is it just that he doesn't have as many experts as the other party?"

Liu Long asked again. Hao lianchuan sighed again, "They're all inferior! We're not afraid of one of the three great organizations! If it's two, we'll be at a disadvantage. The three of them together ... We'll be hung up and beaten!"

Alright, Liu Long roughly understood the situation.

He didn't say anything more and just calmly walked to the front and sat down directly. He picked up the chopsticks and began to eat. As he ate, he said, "The food is cold. Everyone, eat."

The entire Hall was silent for a moment. Then, the sound of bowls and chopsticks could be heard.

Liu Long, whose body was still stained with blood, had given them a sufficient amount of deterrence tonight. At this moment, all the transcendents in the Silver City were keeping a low profile.

.....

At another table.

Yuan Shuo also started to eat. He was famished.

Li Hao was pouring wine for him. He said in a low voice, "Teacher, Hu Hao and Chen Jian ..."

"Stay there."

Yuan Shuo mumbled and said in a low voice, "Don't go there for the time being. We'll wait for two days. We might have an unexpected harvest this time, so don't save your sword energy. I'll treat your injuries first."

"En, then teacher, you ..."

"I'm not in a hurry."

Yuan Shuo immediately gnawed on a large pork trotter at an extremely fast speed. Moreover, his teeth were so good that even the bones had been chewed to pieces.

After eating for a while, Yuan Shuo said in a low voice, "This time, Hao lianchuan and mu Sen might have sensed something. As for the others, they probably didn't sense anything. It shouldn't be a big problem."

Li Hao nodded and didn't say much.

It was impossible for there to be no movement at all.

"Teacher, is there any hope for Minister Hao and Secretary mu to join our side?" he asked.

"What camp?" Yuan Shuo was stunned.

He was a little surprised. He looked at Li Hao and thought, "good Lord, you're already building a faction ..."

Where did the camp come from?

Li Hao was a little embarrassed. "No. I mean, it's similar to the captain and the others. For example, they do some private work and won't report it."

Yuan Shuo was speechless!

He glanced at Li Hao and said after a long while, "Don't think about these things. You little brat, the most important thing now is to enter the thousand warrior realm! As long as you can enter the warrior dimension, together with me, we can tie up that idiot Liu Long. With three warrior dimension Masters ... We can make a name for ourselves anywhere!"

"There's strength in numbers ..."

"That's because there are more people with quality!"

“No!” Yuan Shuo interrupted. “Even if an ordinary person is holding a gun, he will be instantly destroyed when he meets the three suns. Not to mention the three suns, even the sunlight can instantly destroy the other party. Therefore, if you want to be strong, you need to be strong!”

He wiped the grease from his mouth and suddenly laughed. “There are a lot of people on the field right now, right? We’re all transcendents, but other than Hao lianchuan and a few others, everyone else is trash that I can kill with a single slap! Why do you need more people?”

Just as he said that, someone beside him said coldly, “Professor Yuan, who do you want to beat to death this time?”

Yuan Shuo glanced sideways at him and laughed, “Minister Xi, this old man is just joking, and you’re taking it seriously? “Let’s sit down and eat together. It’s fortunate that department head Hao is here this time. Otherwise, who knows what kind of trouble we would have caused ... Of course, I’m the victim, so I won’t thank you. Let Liu Long thank you. And Li Hao, you’re also department head Hao’s subordinate, so you should thank him!”

Li Hao hurriedly stood up. “Thank you for your help, Hao bu!”

“F * ck!” Hao lianchuan cursed in his heart. “I’m not falling for this.”

None of them were good things!

Previously, he thought that Li Hao was obedient and well-behaved, but now ... Hehe! 2

Just like Yuan Shuo, they were all up to no good.
