### Chapter 291: eating (7)

...

He didn't come here to find trouble. There was no point in talking about what had happened. He said in a low voice, "I really need to keep a low profile for now! You've offended too many people. Do you still want to go to the ruins?"

"It doesn't matter if I go or not."

Yuan Shuo laughed. He did not care at all.

Hao lianchuan's defense was broken in an instant. Feeling helpless and aggrieved, he said, "It doesn't matter if you don't go, but what about Li Hao?"

"What happened to him?"

Yuan Shuo laughed. "It doesn't matter if he goes or not. Will he die if he doesn't go?"

Hao lianchuan took a deep breath. After a while, he broke the news, "Do you know why we insist on going to the ruins? There are so many remains, and this is not the only one that's beneficial. But the night patrolmen have been insisting on going there time and time again. They even joined forces with large organizations and suffered heavy losses to go there ... Professor Yuan, do you know why?"

"I know," Yuan Shuo replied calmly. "Don't forget, who discovered the remains?"

He said sarcastically, "there must be origin God weapons in the ruins! And there was more than one! That's the first possibility. The second possibility is that the relic is a defensive-type relic, and there might even be a special defensive-type origin divine weapon ... Enough to cover a large city!"

Hearing this, Hao lianchuan's heart skipped a beat and he quickly looked at Yuan Shuo.

How was that possible?

They had paid a huge price and many people had died to find out this information. Three years ago, Yuan Shuo had been injured and had not gone there again.

Yuan Shuo laughed, "Minister Kuang, don't keep me in suspense. Is there a point? I, Yuan Shuo, have seen many things and explored countless ruins. For you, the most important thing is that defensive-type origin divine weapon. Once you get it, you can cover an entire city. At that time, you will have the confidence to defend white moon City, attack, and defend, and take the initiative in the upcoming changes ... Right?"

Hao lianchuan's expression changed again and again. At this moment, he was really a little depressed.

After a while, he nodded slightly and said helplessly, "You're right. This is the treasure we're after."

"So ... What does it have to do with Li Hao going or not?" Yuan Shuo laughed.

Hao lianchuan couldn't help but say, "those ruins might have some connection with the eight great families ... Although it's only a possibility, if it's true, then we might be able to hand over the origin God weapons we seized here to Li Hao!" At that time, he will be someone the night patrolmen must protect. To him, this is the safest. "

"Hehe!"

Yuan Shuo didn't bother to say much and said casually, "Up to you. Alright, we'll talk later. It's still early anyway. Let's eat first, department head Hao. Don't Starve. "

"No, professor Yuan, listen to me ..."

Yuan Shuo waved his hand and continued to eat. He said vaguely, "I know, I know. I promise I won't kill anyone or fight. I'll keep a low profile and wait for the relic to open, okay?"

"....."

It was like he was coaxing a child.

Hao lianchuan felt helpless. He had no choice when it came to people like Yuan Shuo.

In the past, he was easily suppressed, but now ... Forget it. He might not even be a match for this guy. This guy was too abnormal.

On the side, Li Hao said with an innocent face, "Hao bu, I'll persuade teacher not to do anything in the near future. As night patrols, we have the responsibility to maintain the peace of the Silver City. Hao bu, you can rest assured!"

Go to hell!

Hao lianchuan didn't trust him at all. "Keep pretending, keep pretending." 1

He was a little dispirited. He stood up and said, "Think about it carefully. That's it. One last thing, even if you don't think about yourself, you have to think about the people of Silver City ... Alright, that's it!"

He stood up and left.

After he left, Yuan Shuo smiled and said, "don't worry about him. We won't do anything if Hao lianchuan doesn't say anything."

Li Hao nodded, and the master and disciple began to eat.

The other tables were also eating in silence.

There was no sound.

It was a banquet, but it was as quiet as a graveyard.

Even if they ate, there were many people who didn't even know what they were eating. Some supers couldn't hide their panic when they ate.

The Silver City was getting more and more dangerous.

[Author's note: it'll be on the shelves at 12 noon tomorrow.]

## Chapter 293: hou Xiaochen

...

White moon City.

The night had fallen, but the city center was still brightly lit.

A big city with a population of 30 million was bustling beyond imagination, far more prosperous than Silver City. Even though it was late at night, the Urban area was still bustling with noise and excitement, looking like a Golden Age.

Night patrolman was not an official title.

The full name of the night patrolman was the night Inspection Committee of the inspection Division.

The night patrolmen's headquarters in Whitemoon city was known as the headquarters of the Silver Moon province's night Inspection Committee.

In name, they were still under the name of the inspection Division.

Of course, as their powers grew stronger, the night patrolman's position in the inspection Office gradually rose from a branch to a leading position. In terms of status, he was already starting to surpass the ordinary Inspection Office.

The Nightwalker Silvermoon's headquarters was located in Whitemoon city. It was located in the South City Region and was not in the same direction as the inspector's headquarters. The inspector's office was located in the North City.

The distribution of violent institutions in Whitemoon city was very unique.

South City, night patrolmen headquarters.

Northern city, Inspection Office headquarters.

West City, Garrison headquarters.

Dongcheng, provincial Department headquarters.

If the night patrollers and the inspection Office were separated, the four powerful organizations were distributed in the four directions of North, South, East, and West, protecting the entire Whitemoon city. The central area was all commercial areas, and only the branch office of the Whitemoon city was stationed there.

At this moment, in the South District, there was an old building that was no higher than six stories. This was the famous Silvermoon province's night patrolman headquarters.

As night fell, the place seemed to have just started work.

People came and went at the gate, and people kept coming in and out, making it particularly lively.

Night patrol was a habit of many supers.

Sixth floor.

The minister's office.

Hou Xiaochen, who had a slender figure and long hair, was currently working on some difficult cases.

At this moment, a large screen lit up beside him, and mysterious energy surged indistinctly.

Hou Xiaochen raised his head and looked at it. This was the core information transmission method of the entire night patrolman organization. It broke some communication restrictions and combined with ancient technology, it could be used to communicate at any time. It was also the foundation of the government's rule over the various places.

"Urgent report: at around 8:50 p.m., Silver city's Yuan Shuo was suspected to have fought with three suns. The battle ended ten minutes ago. Three suns went missing, and Yuan Shuo returned safely ... The head of Silver city's night patrollers, Liu Long, led all the night patrollers in the Silver City branch to battle. The specific results of the battle are unknown ... The chief of Silver city's Inspection Division, Mu Sen, and Zhan Yueying were at the inspection Division ..."

The message was very long. Although it didn't describe in detail, the big movements of the entire Silver City had been transmitted.

Hou Xiaochen frowned.

Another three yang!

Moreover, his whereabouts were unknown. Had he escaped or died?

Hou Xiaochen was silent for a while before waving his hand, and a line of words appeared on the screen: "Continue to observe and deal with it as you see fit. If there is no violation of the law, just ignore it. Yuan Shuo has advanced and is very proud. Unless he's going to die, there's no need to interfere!"

Even though this was full of secrets, including where the three suns came from, why Yuan Shuo made a move, and what role Li Hao, the descendant of the eight great families, played ...

All of this was not important.

As long as these people did not violate the law and kill the innocent, Yuan Shuo was confident that he could settle the war of superpowers. He could not be bothered to interfere too much.

Hao Lianchuan was concerned about whether there would be any problems with their cooperation, but Hou Xiaochen did not care about that.

As the Supreme ruler of the Silvermoon province's night watchers, he had a higher vision.

Whether it was Red Moon or Yama, since they had already agreed to cooperate, they would not break their promise for such a small matter. If they really broke their promise ... What could they do?

Not participating in the exploration?

Anything will do!

The night patrollers did not beg them to come for the relic exploration. Those guys relied on their strength to force a share of the loot. When they really entered the relic, they would have to kill and fight. It was just that there might be some cooperation in the early stages.

After replying, hou Xiaochen pressed a button.

A moment later, someone knocked on the door and entered.

Hou Xiaochen didn't even raise his head as he continued with his work, but his voice rang out, "Go and find out all the information about the Qiao family in Silver city's Qiao's mining industry. In addition, check all the information on the three suns on Silver moon's side and see if there's anyone who's done anything strange tonight. The fire element's three suns are the main ..."

"Yes!"

The person who entered quickly noted it down.

Just as he was about to leave, hou Xiaochen thought for a moment before suddenly saying, "By the way, how many clones of Blood God are there in the warehouse?"

"Nine."

"Only 9 left?"

Hou Xiaochen thought for a moment and said, "take one three-sun Blood God, one solar illumination Blood God, and three Dark Moon blood gods. Send them to the Silver City. Have Huang Yun deliver them overnight to Hao lianchuan. Tell him that it's for Yuan Shuo and the others as a reward for killing the enemy!"

"Minister!"

"There's only one triple-sun realm Blood God and two sun glory realm Blood God illusions in the storage room," the woman said in surprise.

In order to obtain these, the night patrolmen paid a high price.

But now, he was actually going to send it to the Silver City!

"That thing is very useful for martial masters, but it's not very effective for superpowers. Since Yuan Shuo has become the number one silver Moon Martial Master, giving it to him will make the best use of it."

"But ... But Yuan Shuo isn't one of the night watchers ..."

"It's fine if he's not," hou Xiaochen raised his head and smiled faintly, "as long as his enmity with the red moon of the three major organizations hasn't been eliminated, he won't be able to make an enemy out of the night patrollers. The only people who can protect him and help him are the night patrollers." 1

Chapter 294: hou Xiaochen (2)

...

Did it have to be the night patrol?

The people below might think so, but he didn't care.

A person like Yuan Shuo didn't have to join the night patrolman. It was fine as long as he could get close to him, and they had the same general direction.

There were such people everywhere.

Not everyone was willing to work for the government, but at a critical moment, they would often be willing to help if they went to the door.

Even though the Secretary was a little hesitant and a little reluctant ...

She was not a Secretary in the ordinary sense, but the chief butler of the entire Nightwalker headquarters. She knew how rare these blood gods were. They were treasures obtained after fighting with Red Moon many times and even the Minister personally killed a three-sun god.

They were formless and incorporeal. It was only because of the division head's strength that these clones of Blood God were refined into pills that could be consumed.

Now, he actually wanted to give it to Yuan Shuo ...

However, the Minister had already made up his mind, so she could only follow his orders. The entire Silvermoon province, including Hao lianchuan, who was also at the three suns realm, did not dare to go against Hou Xiaochen's decision at this time.

"I know, but will it be dangerous for Huang Yun to go?"

Huang Yun was only at the early stage of the radiant sun realm. Of course, he was asked to deliver it because he was of the wind element, so he was very fast.

"It's fine,"

Hou Xiaochen didn't say anything else. According to his judgment, they wouldn't try to kill Riyao.

.....

Very quickly.

Huang Yun, who was still on vacation, received an order from the headquarters.

Send a treasure to the Silver City and reward the Silver City's night patrol for killing the enemy.

Huang Yun took the sealed box and scratched his head. He had yet to receive any news from the Silver City. At this moment, he couldn't help but look at his Secretary and ask, "Manager Yu, what's wrong with the Silver City?"

The reason why he said "again" was because it had not been long since the last battle. How could he have made another contribution?

"The silver Blizzard city's night patrollers were officially established today. They killed some of the transcendents who were causing trouble."

“Oh!”

Huang Yun nodded and thought for a moment before asking, “What’s his strength?”

“I’m not sure,”

Chief Yu was indeed not sure. The Minister did not say anything, but the Minister had actually rewarded him with a three-sun level Blood God. He did not know who Yuan Shuo had killed this time.

“Alright, I’ll be back soon!”

Huang Yun’s speed was fast, and he didn’t want to stay there. Yuan Shuo from the Silver City was not to be trifled with. However, since department head Hao was also there, he didn’t have to worry about having too much interaction with Yuan Shuo.

He quickly took the box and ran out at full speed. He flew up ... The next moment, he landed on a small car, entered the door, and started the car!

Yes, driving.

From this city to the no man’s land, he would then get off the car and fly.

Only a fool would keep flying without using up his mysterious energy.

It was only a few hundred miles in the middle, where the roads were rugged and difficult for vehicles to travel, that was when they could fly.

.....

Silver City.

The banquet had ended.

The various transcendent experts left one after another. When they left, they were all very careful, as if they were afraid of alerting someone.

When they walked out of the inspection Office, it was as if they had just survived a disaster. Many of them heaved a long sigh of relief. The next moment, they all walked back home, not even daring to drive their cars. They were afraid that they would make too much noise and cause someone to be dissatisfied, and they would be hacked to death.

“The effect is not bad!”

Liu Long suddenly laughed. He had killed the chicken to warn the monkeys. Although they didn’t know that the chicken was the monkey, it was actually killing the monkey to warn the chicken. However, the effect was the same. The Silver City’s transcendents would surely be quiet for a period of time.

Hao lianchuan ignored him. Seeing that Li Hao was about to send Yuan Shuo off, he said, “Come again tomorrow. The headquarters just sent a letter. In order to commend your contributions, the headquarters will reward you with some treasures ...”

Yuan Shuo was a little surprised. He turned to look at him and saw that he didn't seem to be joking. He couldn't help but laugh. "Hou Xiaochen's courage is much greater than yours, but ... I don't care about ordinary treasures."

Hao lianchuan furrowed his brows and said, "Yuan Shuo, it's fine if you're being rude to me!" You should be more polite to hou bu. Don't forget, who protected you when you were at your most difficult time? Have you forgotten who was the one who forced Hong Yue to retreat when she forced him to hand over? Even the central headquarters are afraid of an existence like Ying Hongyue, and the Marquis tribe protected you under great pressure!"

"Although you've explored many ruins for the night patrollers over the years and gained a lot of benefits for them, as a warrior master, you clearly distinguish between kindness and hatred. If we really force you, will you be willing to work for free?"

Naturally, there was a past.

Yuan Shuo had not offended an ordinary person, but the leader of the Crimson Moon, who was extremely powerful.

In the past, everyone didn't have much contact with the field of superpowers and didn't feel much about it. But now, everyone knew that Ying Hongyue definitely surpassed the three suns. Many years ago, Ying Hongyue definitely wasn't weak.

At that time, Ying Hongyue had personally come to Silvermoon province to wash away her humiliation. However, she had been forced to retreat by hou Xiaochen. The two sides had not fought directly. Hou Xiaochen had killed one of Hong Yue's upper echelons and attracted the experts from the central region to come and help, which ended the battle.

It was rare for Yuan Shuo to be a little depressed. After a long while, he said, "I'm not someone who doesn't appreciate your kindness. I've always remembered hou Xiaochen's help back then. Otherwise ... Do you think the night patrolman would've been able to keep getting benefits from me? But how old is hou Xiaochen? do you really want me to call him father hou?"

"....."

Hao lianchuan was speechless. He waved his hand. "Forget it. I have nothing to say to you, old man. You're just talking nonsense because of your age!"

Chapter 295: Hou Xiaochen (3)

...

Yuan Shuo could not be bothered with him and got into the car in front.

Seeing Li Hao get into the driver's seat, Liu Long wanted to say something but stopped.

Wang Ming shot a glance at mu Sen. Seeing that mu Sen didn't seem to mind, Wang Ming immediately shut up.

That car belonged to the inspection Division.

It seemed to be mu Sen's car!

However, after tonight, whether this car could still be used ... Was hard to say.

Wang Ming rejoiced that he hadn't bought a car. After all, it was money. If Li Hao had asked to borrow a car from him, should he have lent it or not?

It was only when the vehicle curved and left the inspection Office on a very special route that mu Sen seemed to realize that something was wrong. He whispered to Liu Long, "This Li Hao, did he drive it this way to avoid being followed?"

"That's right!" Liu Long nodded after a long while.

Mu Sen looked at him suspiciously. After a while, he said, "It's fine. It's just a car. It's no big deal to give it to elder Yuan. It's ... Public money anyway!"

"....."

Liu Long was a little speechless. He was too lazy to say anything, so he turned around and walked inside.

Mu Sen still wanted to follow and chat a little more, but Liu Long turned his head and said, "It's an internal meeting of the night watchers. You can leave now. Director mu, why are you following me?"

?!

Burning the bridge after crossing the river!

Mu Sen cursed in his heart. He actually wanted to ask Liu Long why ... Why did Liu Long give him a different feeling?

Although Hao lianchuan was strong, he was not a Martial Master.

Mu Sen was a Martial Master!

As a Martial Master, he was more sensitive to the changes in martial masters. Tonight, Liu Long and Li Hao both seemed a little off. Li Hao was fine, but Liu Long's behavior was definitely off.

"Liu Long, do you have time for a chat?"

"I don't have time!"

Liu Long didn't even turn his head.

Mu Sen's face was gloomy and filled with unwillingness. "Damn it, let's have a chat."

Did you have a breakthrough?

That fool, Liu Long, didn't even comprehend Shi, so what kind of changes could he make?

However, Yuan Shuo would definitely give him some pointers. Even so, Shi was not something that could be mastered with just a few pointers. Moreover, it was useless for Liu Long to master it. The old injuries

left behind by the ninth forger's strength were too severe. It would not be a good thing to force himself to comprehend Shi. Instead, it would only worsen his injuries.

That was why Mu Sen never mentioned this. He understood Liu Long. Once Liu Long tried to comprehend Shi, he would not be able to resist trying it out. At that time, he would be completely useless.

.....

In the car.

While driving, Li Hao's mouth was also busy. "Teacher, is Minister Hou very strong?"

"I'm not sure,"

Yuan Shuo seemed to have just woken up as he said weakly, "However, he was one of the earliest three sons of Silver Moon province. However, he seemed to have been injured later on and has been trapped in Silver Moon for these years. Back then, the three great organizations were still quite powerful. Back then, they were running amok in Silvermoon, and Hou Xiaochen had to kill many of them before they were able to keep them in check. Otherwise, Silvermoon would've fallen into chaos a long time ago."

"So, he's the one who protected teacher?"

Li Hao also asked whatever he wanted to ask. Since they had a good relationship, it was fine to ask.

Yuan Shuo's expression was complicated. After a while, he nodded, "Yes! But Hou Xiaochen ... I don't really like him!"

"Why?"

"He protected me back then. With your teacher's personality, he would naturally know how to repay his kindness. It's not a big deal to work for the night patrollers, work a job, or explore the ruins. He wouldn't have any thoughts of rebellion. After all, he saved my life."

Yuan Shuo sighed. "But that guy is too fond of setting a price. He stipulated that I had to explore 30 ruins for him to pay off his debt. He would pay me if I exceeded that ... It was originally a life-saving favor, but he insisted on making it a deal! Since he said so, I won't be polite with him. Then let's just talk about business and not friendship."

Hou Xiaochen ...

Li Hao didn't ask any further. He could tell that his teacher had complicated feelings for this person. Of course, Li Hao knew that he was a man.

From what his teacher had said, the other party's personality was rather interesting.

He didn't want to talk about kindness, he wanted to talk about reality.

I saved you, and you work for me. Other things aside, it's actually not bad.

"Teacher, are we going to the remains that the night patrolman found?"

"Go!"

“But there’s no rush for that. Take a break for two days, and I’ll take you to the mine to have a look ...”  
Yuan Shuo added.

At this point, he felt a little strange and said in a low voice, “It might be a little special. I felt the aura of sword energy there, but it’s even more special. I think there’s also the aura of saber energy ... It’s a mix, but I didn’t go deep.”

Li Hao’s eyes lit up!

Really?

If that was the case, did it mean that his sword energy could be replenished?

Now, he was in urgent need of sword energy.

He needed to neutralize the mysterious energy, extract the energy of the five elements, and heal his wounds. In short, his rapid progress was largely related to the sword energy. Without the sword energy, he could only cultivate step by step.

At this moment, Li Hao’s heart was burning.

Under the heat, there was a bang and the car made a sound again.

Yuan Shuo raised his eyebrows. After a while, he remembered that this was not his car, but mu Sen ‘S. Forget it, it was fine. Mu Sen was driving a public car anyway. His small car, on the other hand, had been knocked into the building by this kid. It was probably completely ruined now.

“You haven’t absorbed all the mysterious energy you exchanged last time. This time, after killing that guy, you’ve obtained a large amount of fire energy. The mysterious energy can only be used to increase your strength. I don’t need this for the time being. If you need it, you can tell me.”

Chapter 296: Hou Xiaochen (3 in 1)

...

Yuan Shuo mentioned it again, and Li Hao nodded.

Another three yang, at least a thousand cubic meters of mysterious energy.

“Let’s see how it goes. Right now, everyone has it except for Liu Long, who didn’t get any. If Liu Long needs it, we can discuss it later. ”

“Also, take this!”

As he spoke, Yuan Shuo handed a small round object to Li Hao ...

Bang! Bang!

The car had just started when it crashed again.

Yuan Shuo cursed in his heart. He was stupid. Why was he giving it to him now?

This time, Li Hao stopped the car and took the disc. He asked curiously, "Teacher, What is this?"

"Qiao Feilong has a treasure on him. He should be using this to conceal his superpower aura."

"You've just come into contact with Shi, so you don't have a deep understanding of it," he continued, "and it's easy for you to leak some of your aura. Unlike me, I've been trying to sense it for many years, and no one can sense it. You've improved too quickly, and it's a little superficial. Take this, and even a Martial Master will find it hard to sense your condition."

Li Hao's progress was fast, and his Shi was still in its embryonic form, so it was too easy for him to be discovered.

Tonight, Hao lianchuan might not have noticed it. However, he looked at mu Sen's eyes and felt that something was not right. He might have guessed something and that was not a good thing.

Li Hao's rapid progress made it easy for him to be targeted.

Li Hao was overjoyed. He played with it for a while. After thinking for a while, he poured some inner strength into it. The next moment, the disc emitted a faint light and was instantly extinguished. However, Li Hao clearly felt something different.

The round disc seemed to be emitting a layer of faint light film, which wrapped itself up.

It was very convenient to use!

It didn't require the mysterious energy to activate it, and inner strength could easily activate it.

"This should have been obtained from the ruins. It can even conceal the three suns, so perhaps it can conceal even stronger experts. Don't let anyone find out. To supers, the mysterious energy that is spreading out is something that is difficult to control, so it is difficult for supers to hide each other. This thing is not big, but it can cover the whole body, and it is not something that ice crystals can compare to!"

If one wanted to use ice crystals to conceal one's aura, one would have to wrap one's entire body without leaving any gaps. Under normal circumstances, if one were to be wrapped in ice crystals, the ice crystals might shatter the moment one moved, so it was obviously not very practical.

However, Yuan Shuo felt that it was especially practical and could be used anywhere.

Li Hao was overjoyed. He quickly nodded and stuffed the small round plate into his pocket. He planned to string the small round plate and the small sword together and put them on so that they wouldn't drop.

Qiao Feilong was really a good person, and this treasure suited Li Hao's habits.

One must keep a low profile!

"Don't be so arrogant. Look at our Captain. He just entered the Qian battle stage, and now everyone in the team knows about him. Soon, everyone will know that he is already in the Qian battle stage. As for me, only a few people know that I have broken through a hundred."

.....

That night, the Silver City was eerily quiet.

Li Hao also had a good night's rest. After a battle, he and Yuan Shuo were both tired, so they didn't study at night. Li Hao didn't go home, either. He slept in his teacher's house.

As for the dog running back in the middle of the night, Li Hao and Yuan Shuo didn't care.

The Black Panther might have been worried that it would be held accountable for not attacking the shadow earlier. After killing a superhuman, it pretended to scout the surroundings and disappeared. Li Hao and the others were not too worried about its safety, so they let it run.

As expected, this guy still ran back in the middle of the night.

.....

August 2nd.

It was dawn.

Li Hao woke up very early, and Yuan Shuo, who had also woken up early, had a slightly pale face.

At this moment, Li Hao understood that his teacher's injuries might really be very serious. The bloody blade technique was a technique that could cause mutual destruction. Although his teacher had used a bit of sword energy, it wasn't enough and didn't make up for the consumption.

He couldn't continue like this. He had to go to the ruins at the mine as soon as possible.

This time, strictly speaking, he wasn't a burden to his teacher, because without him, the black shadow would have attacked his teacher. However, at the last moment, it was indeed because his life was in danger that his teacher had used the blood Blade technique.

Thinking of this, Li Hao said while punching, "Teacher, let's absorb the energy from the sword first. If it's gone, we can go to the remains to find a way. We should be able to replenish it."

He felt that the energy in his Jade sword was almost gone, but there was still a little bit left.

Yuan Shuo did not absorb all of it. Perhaps he was worried that he would not be able to replenish it after he finished absorbing it.

"No rush!"

Yuan Shuo, who was also practicing his boxing, said, "he won't die so easily. It's better this way. If he can keep it up for a few days, Hao lianchuan will be able to tell. If he really recovers now, it will only make him suspicious."

Since his teacher said so, Li Hao didn't mention it again.

After finishing his boxing and eating the breakfast that the ancient academy had sent over, Li Hao received Liu Yan's message. Someone from the night patrolmen's headquarters had arrived.

Huang Yun!

The old man who came here last time was scared away by the teacher.

He didn't expect the night patrolman to really send a reward. This was really strange.

After the call, Li Hao looked at Yuan Shuo, who was basking in the sun."Teacher, are you going over?"

"Go. Hou Xiaochen sent someone to deliver something, so you still have to give him some face."

Yuan Shuo laughed."But he doesn't have anything good. I know what the night patrolmen have. I found many of them and they're not of much use to me."

The master and disciple didn't have much hope, but since he had sent it, they would just take it.

It would be a waste not to take it!

.....

At the same time.

In the law enforcement building.

Hao lianchuan was a little surprised and surprised. He could not help but look at Huang Yun and cursed,"These fellows disobeyed orders and acted on their own. The Marquis tribe even gave them such a heavy reward ... Is this an encouragement for them to do this again?" 1

Chapter 297: -hou Xiaochen (1)

...

The blood God!

And he actually gave a total of five, and the key point was that he even gave the three yang level one.

He also knew a little about the origin of this thing.

Some of the Crimson Moon's experts would carry this, but it was difficult to find and extract.

When Hong Yue's Broken Sky died, he had guessed that there might be some, but he had no way to extract it. Only the Minister could bring the origin divine weapon over to retrieve it, but the Minister could not leave white moon City. So, even if he knew that there might be some, Hao lianchuan did not have the idea.

The inventory of the night patrolman headquarters was also very small. This one from three suns was the only one.

This thing was actually used by the night patrollers to train new people. Some of the previous Dark Moon level things were given to new people so that they could advance to the ten slashing realm of Martial Master and then advance to become supers. Most of them could enter the Dark Moon realm, saving a lot of time.

For example, Wang Ming had actually obtained a blood deity at the Dark Moon level before, but they didn't know what it was.

This time, he had given so much!

"I don't know," Huang Yun said innocently. "Chief Yu asked me to send it over. I was just running an errand."

"It's none of your business!"

Hao lianchuan was a little depressed. He thought about how to distribute it.

Although the Minister did not directly say how to distribute it, he knew that the third sun's pill must be for Yuan Shuo.

As for the one in sunlight, it was for Liu Long.

However, the three Dark Moon pills were not very useful for supers ... They should belong to Li Hao, Liu Yan, Wu Chao, and Chen Jian, but he only gave them three. What was the meaning of this?

How about 4?

He suspected that the Head of the Department didn't know that Li Hao had become a Martial Master. Or rather, he knew, but he hoped that Li Hao could become a superpower, so he didn't give it to Li Hao. He was worried that it would be difficult for Li Hao to become a superpower after he became a Martial Master.

"So, the department head hopes that Li Hao can become a superhuman instead of a Martial Master?"

He made a judgment. Although the Minister did not say it clearly, he could roughly guess what the Minister meant.

Did he think highly of Li Hao or not?

While he was thinking, Liu Long and the others arrived one after another.

When Wang Ming saw Huang Yun, he revealed a bright smile. He was quite familiar with this sunshine expert. They had even carried out a mission together before, and it was this person who had asked him to come to Silver City last time.

What a good person!

Although Silver City was a bit chaotic, and people were killing everywhere, killing people would give him 120 cubic meters of mysterious energy. He had to thank Huang Yun for sending him here.

Wang Ming didn't really want to go back now.

Back at the headquarters, although there were some unexpected gains, such as a small mission, he could also obtain one or two mysterious energy, which was not a small amount in a year, but it could not be compared to here, where he could get 120 cubic meters for killing a random sunlight.

Huang Yun was actually feeling a little guilty. He had sent Wang Ming and the others here last time, but he hadn't expected a battle to break out so quickly in Silver City.

But when he saw Wang Ming's bright smile, he was a little suspicious. Was this guy satisfied or not?

I don't understand!

Just as she was guessing, the door was pushed open.

Li Hao helped Yuan Shuo into the house.

Huang Yun hurriedly got up. He was really a little vague. The old devil was becoming more and more domineering. This time, he heard from Minister kui that he might be fighting with the three suns again. It was really F \* cking terrifying.

Hao lianchuan was too lazy to make small talk and said directly, "The Marquis tribe sent Huang Yun to deliver the reward, 5 Blood God's illusions! This was a precious medicine that could strengthen a Martial master's inner strength and increase their physical strength! You guys, Yuan Shuo, Liu Long, Liu Yan, Wu Chao, and Chen Jian, each have one!"

"As for the others, because this treasure is very useful for martial masters but not for superpowers, there will be no rewards for the time being!"

Wang Ming and the others didn't care, and Li Hao didn't say anything either. If he wasn't around, so be it. He didn't care too much, anyway.

However, when Hao lianchuan took out the medicine bottle from the box, Li Hao's eyes flickered.

Yuan Shuo also smelled it, and his eyes trembled.

He didn't know much about the blood deity, because he had never obtained one before.

At this moment, he was a little surprised.

Blood God?

This ... From the aura, it seemed to have the special energy fluctuations of the red shadow.

Moreover, he sensed that one of them was full of energy, even more so than the red shadow that Li Hao had obtained last time.

"What is this?"

Yuan Shuo could not help but ask, "where did you get it?"

"No," Hao lianchuan said unhappily. "The department head spent a lot of effort to get them. It's impossible for ordinary people to extract them. They even had to use the origin divine weapon to get them! Professor Yuan, make good use of it. This is also the only three-sun level Blood God in the entire Night Watcher."

Three suns!

Blood God?

Yuan Shuo looked at Hao lianchuan thoughtfully, then at Li Hao. He had a guess, maybe ... He had gotten it from Hong Yue.

Hou Xiaochen seemed to have killed one of the red moon's higher-ups, right outside Whitemoon city. Could it be that he had obtained the red shadow?

The origin god weapon ...

Ordinary people couldn't collect it, but if they had an origin god weapon, they might be able to.

Of course, the red moon might have their own unique techniques.

This was indeed a good thing!

He had been injured quite badly last time. He had used part of his sword energy and the other part of the red shadow energy to heal his injuries. This thing could neutralize the sword energy, and the effect would be better.

He'd originally felt a bit regretful that he'd used up all of the last one, but now, hou Xiaochen had actually given him a three-yang treasure.

Chapter 298: -hou Xiaochen (1)

...

Not only that, but there was also one that should be at the radiant sun tier.

He looked at Liu Long and suddenly said, "Liu Long, I don't need your crystal. I'll use 300 cubic meters of mysterious crystal to exchange for yours."

Liu Long was already at the thousand-man battle stage. To him, a red shadow at the radiant sun Stage could only be considered an additional flower on top of a brocade, but it was not of much use.

Yuan Shuo wanted to give this to Li Hao.

If Li Hao absorbed those at the radiant sun level, he might be able to quickly reach the middle stage or even the late stage of the breakthrough 100!

At that time, Li Hao's cooperation would speed up his progress to the Qian Qian stage.

"Professor Yuan, don't force me to buy ..." Hao lianchuan frowned.

300 cubic meters was a lot!

However, this was a reward from the department head. It was obvious that he hoped that Liu Long could use this Blood God's fragment to step into the Qian Douluo realm or to heal his old injuries. Yes, this thing was very useful for injuries.

It was normal for an old man like Liu Long to have accumulated old injuries. With this, he might be able to fully recover from his injuries and successfully enter the thousand warrior class.

Liu Long didn't know about the benefits of the blood God, but it didn't matter even if he did. His injuries had already recovered. At this moment, he nodded and said, "It's fine, if elder Yuan likes it, then take it. It doesn't matter if it's mysterious ..."

Yuan Shuo laughed, "isn't that a robbery?" Let's make it 300 cubic meters. It's worth this price. Of course, it varies from person to person. Anyway, it's fine as long as you know that it's not of much use to you."

"I naturally believe in elder Yuan."

Hao lianchuan had no choice but to interrupt him. "Liu Long, don't agree so easily. I'm here. He won't dare to do anything!" This treasure can help you heal and even improve your martial cultivation. To you, it's much more valuable than the mysterious energy!"

It was fine if he didn't know, but once he heard that it had such an effect, Liu Long became even more indifferent.

I have already advanced!

No wonder elder Yuan said it was useless.

"Thank you, Hao bu, but I don't need it. I'll find a way to advance myself ..."

Idiot!

Hao lianchuan cursed under his breath. "These guys from the silver Blizzard city are so disobedient. They don't even understand what I'm saying. Serves them right for being tricked by Yuan Shuo."

I don't care anymore!

He handed the three Dark Moon blood deity pills to Wu Chao and the other two, and threw the remaining two pills to Yuan Shuo.

After he was done, he went downstairs. "I'm going back, you guys do as you please!"

Blizzard Silver City was a place where he got angry every time he came.

Huang Yun quickly followed. He did not want to be alone with Yuan Shuo.

After they left, there was a sudden burst of laughter in the office.

"It seems like Hao bu has been angered," Liu Long couldn't help but laugh.

Yuan Shuo also smiled and reminded, "Don't rashly consume this Blood God. And that fatty and skinny guy, you two should think about it carefully. If you consume this thing, it's very easy for you two to break through the 100th level! If it breaks 100, it will be difficult to become a super. You have to think about it carefully."

"Come back with me!" He said, patting Li Hao's shoulder.

The blood God!

He was in a good mood. If he took this three yang pill, his injuries might be healed. Of course, if he had enough sword energy, he might as well use sword energy to recover.

Li Hao couldn't digest this three suns pill, but if he could, he might be able to take a step further on the path of Qian Qian.

This time, hou Xiaochen had really given him a good treasure!

He quickly led Li Hao downstairs. At this moment, Li Hao was also a little excited. He knew that the one at the solar brilliance realm was probably for him.

So, I can become stronger again?

Chapter 299: the secret of gossip (1)

...

The yuan family.

Li Hao and Yuan Shuo widened their eyes as they looked at the two pills in front of them. Yes, they had been refined into pills.

At this moment, Yuan Shuo could not help but feel a little excited. "I didn't think that hou Xiaochen would really bring me a treasure. This must have been obtained after he killed the Crimson Moon expert. Origin God weapons can be extracted ... I wonder if the stone blade can."

He was more concerned about this.

At first, he had thought that only Li Hao could do it. So, even if he had some tricks up his sleeve or wanted to kill the red moon's people and take the red shadow, the key was that he couldn't see or touch it.

How to extract it?

But if hou Xiaochen could do it, why couldn't he?

Wasn't the stone saber an origin divine weapon?

In any case, Yuan Shuo felt that the probability of it being an origin divine weapon was very high. There must be something special about it that could allow him to extract it.

As such, his mind was alive.

He wanted to do it!

To whom?

The Crimson Moon.

Previously, he hadn't thought too much about this. He couldn't defeat Ying Hongyue, so there was no need for him to take revenge. He'd also been easily targeted.

However, what if he could extract the power of the Crimson Moon by killing their people?

This was a Martial master's treasure.

Yuan Shuo wasn't just happy that he'd gotten the blood God's clone this time. The important thing was that it was better to teach a man to fish than to Give a man a fish. He wanted to get the method to extract the Crimson Moon from hou Xiaochen.

With this method, he could empty out the Crimson Moon, provided that he was still alive and not killed by the Crimson Moon experts.

"No... I have to ask hou Xiaochen!"

Yuan Shuo was usually not very excited, but at this moment, he was a little excited."When I ask, I'll go and sweep it up when I'm interested. Maybe we can make a fortune. This thing, coupled with sword energy, I think your Qian Douluo will be very fast."

Li Hao also grimaced in pain.

He laughed!

He couldn't help but laugh.

"Teacher, I feel that the blood god of the sun glory is only slightly weaker than the red shadow last time. Wasn't that red shadow the three suns?"

"Probably not. That Duan Tian is only at the initial stage of the three yang realm, and the red shadow he carried might be at the peak of the radiant sun realm."

At the peak of the radiant sun realm, Yuan Shuo had absorbed most of the energy and given a small portion to Li Hao, who took the opportunity to break through to the early 100-stage.

This time, he was going to let Li Hao absorb all the energy from the corporeal body. It was not a big problem for Li Hao to release his internal energy from his torso, but it was hard to say if he could release it from his head. It was a little dangerous.

But it shouldn't be much worse.

At that time, Li Hao would have comprehended the embryonic form of Shi, which would be considered a perfect breakthrough.

For Qian combat, Li Hao would need to have a deeper understanding of Shi in order to successfully break through.

He had paved the way for his last disciple and calculated his future. Yuan Shuo felt that he couldn't stay here any longer. He had to leave and draw everyone's attention away from the Silver City.

"Let's go to the remains tonight!"

Yuan Shuo made up his mind and said in a low voice,"we have to go quickly. If we can't open it this time, we'll wait. I'll find a way to hide the remains, and then you can pretend that the remains don't exist. We'll explore it when we're strong enough."

He had taken a quick look at the ruins. They were definitely not simple.

There was also the door. He tried it and punched it, but it didn't move at all.

If Li Hao's sword and his saber couldn't be opened this time, he could only wait for an opportunity.

"En!"

Li Hao nodded and stared at the red pill in front of him. The more he looked at it, the more he looked forward to it.

Last time, he couldn't absorb and digest it, so he dual cultivated with his teacher. His teacher absorbed a lot. This time, his teacher had three suns. If he enjoyed it alone, the effect might be better than expected.

The master and disciple duo had nothing to say at this time.

Each of them had their own thoughts, thinking about their own beautiful things.

They were waiting to go to the remains tonight.

Hao lianchuan had already left, and Blizzard Silver City was now their world. Even if they caused some trouble, they could still resolve it.

.....

The sky gradually darkened.

By the time it was past nine in the evening, it was already completely dark.

The yuan family.

This time, the master and disciple did not drive and would walk there tonight.

Under the night sky, two shadows were running and jumping like monkeys. They were extremely fast and their movements were light. They didn't make any sound. They were both wearing black clothes and moving quickly in the night.

Although Yuan Shuo's injuries had yet to recover, his speed was not something that Li Hao could compare to.

At first, Li Hao used the ape art to chase after him, but he couldn't catch up.

After he left the Urban area Li Hao stopped using the ape technique. He stepped on the ground, and a faint force overflowed. He borrowed the power of the earth and comprehended the force of the earth.

The fusion of blood and Qi was also an upgrade for Li Hao.

His comprehension of Shi had become even deeper!

At this moment, he was running on the ground and felt the pleasure of stepping on solid ground. He ran all the way, and his speed became faster and faster.

In front of them, Yuan Shuo turned around and sped up as well, a smile on his face.

It was really good!

The little fellow actually had an extremely special comprehension of Shi and did not continue his own path. This was not a bad thing, but a good thing that made him proud and gratified.

He himself was very strong, and Yuan Shuo also felt that his Shi was powerful.

However, that didn't mean that he wanted Li Hao to walk the same path as him. He wanted Li Hao to walk the momentum of the five birds, and he was the first person to do so. It would be difficult for Li Hao to surpass him, which was not what he wanted to see.

He quickened his pace. Behind him, Li Hao was also thinking.

Not fast enough!

It was good to be on solid ground, but it still felt slow.

Chapter 300: the secret of gossip (2)

...

Among the five birds technique, the ape technique and the flying bird technique could both increase speed, but Li Hao rarely learned the deer expansion technique.

In the five animal technique, tigers and bears were good at attacking, while apes and birds were good at escaping.

Only the deer was neither up nor down.

They didn't fly as high as birds, didn't have the agility of monkeys, and didn't have the strength of tigers and bears.

The new book of five birds said that Lu Ying was light.

Light, was it as light as a bird?

At this moment, Li Hao thought of many things.

He then thought of what his teacher had said about how the monkeys were strong and healthy in the forest.

In the sky, the birds were free.

On the other hand, deer dominated the grassland. Even tigers and cheetahs would find it difficult to hunt deer. This was because the lightness of a deer was not an exaggeration. In an instant, the speed of a deer even surpassed some top hunters.

As for the deer mind control technique, it mainly focused on being natural and smooth.

The explosive point wasn't in the legs, but rather the waist. This was also the difference between this technique and the other five birds techniques.

Logically speaking, shouldn't the legs be the one exerting force if the speed is fast?

No, the explosive point of the deer fighting technique was at the waist.

He exerted strength in his waist and abdomen to move his legs.

This was very interesting!

At this moment, Li Hao thought of many things. Therefore, he used the deer stealth technique, which he didn't pay much attention to. He exerted strength in his waist, lifted his waist, and lightened his body.

In an instant, he felt lighter.

It was just like when he first absorbed the wind energy. His entire body was much lighter. The strength of his legs did not change, but he felt that his speed was faster than before.

Like the wind, Li Hao galloped on the ground.

At this moment, the ground seemed to have become the grassland he was running on. Li Hao was getting faster and faster. He even wanted to roar to vent his restlessness.

After the eight great families were exposed, he had become the focus of everyone's attention.

This was not the life he wanted, nor did he like to be noticed.

He wanted to live in silence, not like what he was doing now.

Li Hao's body rose and fell slightly like a deer as he galloped faster and faster.

Up ahead, Yuan Shuo couldn't help but turn around to take a look. Once again, a strange expression appeared on his face.

Good boy!

Five birds technique. He originally thought that Li Hao was only good at the ape technique, so he mainly taught the ape technique later on. But today, he realized that Li Hao might have just been inattentive, but he used the deer expansion technique very well.

He didn't look like a newbie at all.

At this moment, Yuan Shuo suddenly stopped in his tracks. When Li Hao caught up to him, he bent his back slightly, spread his legs slightly, and chuckled in a low voice. "Follow me!"

As soon as he finished speaking, he leaped like an elk on the grassland. He leaped more than ten meters with ease and lightness.

Li Hao hurriedly looked at his teacher and felt a slight difference between him and his teacher.

He slightly corrected his posture and quickly caught up with his teacher.

One old and one young, at this moment, they were running madly in the wilderness. There was no sense of urgency at all, only a sense of relaxation. They had even forgotten about the ruins.

"The ruins are only external objects. A Martial Master still has to rely on himself!"

The master and disciple were in urgent need of the ruins to improve themselves. Running here was also a form of cultivation.

At this moment, both Li Hao and Yuan Shuo knew that such an enlightenment was worth their time.

.....

In the mine.

Hu Hao suddenly woke up. He quickly got up, came out of a mine, and looked into the distance.

Chen Jian also quickly followed with a rocket launcher in his hand.

The two of them had been chatting and had a meeting in the morning. Chen Jian went back to get some food and collect the blood God. He was just asking Hu Hao if he wanted to use this thing when Hu Hao suddenly said that someone was coming.

In the distance, in the darkness, two black figures, like night leopards, rapidly flew up the mountain. Their speed was extremely fast, and even Hu Hao was a little shocked.

“Who is it?”

He said in a low voice. Chen Jian was a little solemn. “I don’t know, boss didn’t say he was coming ...”

It was not Liu Long.

As for Li Hao and Yuan Shuo, they had originally planned to go to the foot of the mountain to inform the others, but they had long forgotten about this matter and were now heading straight for them.

Hu Hao quickly grabbed Chen Jian and flew into the sky, hiding in the darkness.

Chen Jian lowered his head and looked down. The more he looked, the more shocked he was.

“Martial Master!”

He said in a low voice. These two were martial masters, not supers.

If one of them had been a little slower, he would have thought it was Li Hao and Yuan Shuo, but ... Both of them were extremely fast, which made it impossible for him to judge. In his impression, Li Hao was ruthless, but he was indeed a new martial artist, and a ten slash realm kid at that.

And if boss came, he would definitely say,”

Who were these two people?

He was a little nervous and clenched the rocket launcher in his hand. He wanted to fire a shot at the other party.

Just as he was feeling nervous, suddenly, the two of them pounced up like birds, took a step forward, and glided.

Chen Jian was stunned.

“Five birds technique!”

This was the five birds technique!

In that case, this person must be in Yuan Shuo's faction. Yuan Shuo might be here, but who was the other person?

He stepped into the air, glided, landed, and jumped ...

Hu Hao, a superhuman who did not learn martial arts, suddenly felt that it was extremely beautiful. It was natural, light, and not ugly at all. It was a beauty that blended in with nature.

Knowing that it was the five birds technique, the two of them relaxed a little.

However, they were still confused. Who was the second person?

Yuan Shuo might be here. Could it be another disciple of Yuan Shuo?

Before Li Hao, Yuan Shuo had students, but they were older and had been accepted a few years ago.

Li Hao was the only one left in the silver Blizzard city. Could it be that his disciple had returned?

Just as he was thinking, the two of them suddenly jumped tens of meters high. At this moment, the two of them even reached the same level as Hu Hao. Hu Hao also saw them. They didn't cover their faces and were only wearing black clothes.
