

## Constellation 301

### Chapter 301: the secret of gossip (3)

...

He was stunned for a moment ... And almost fell!

It wasn't that he was in a bad mood, but that he was surprised that the other person was Li Hao!

Chen Jian's mouth was also wide open. He could not even hold the rocket launcher.

Li Hao!

He was still wondering which of Yuan Shuo's disciples it was, but it turned out to be Li Hao.

Li Hao of the tenth realm!

How was that possible?

"Li Hao ..."

Chen Jian muttered, his face full of shock.

Was this really Li Hao?

Hu Hao was also shocked. Li Hao was at the tenth level?

Didn't they say that Li Hao had just started learning martial arts?

How was this the tenth realm? if all tenth realm existences were like this, then with just this speed, even a hundred people wouldn't be able to catch up to him, right?

Li Hao, who was in the air, suddenly came back to his senses.

When he saw their shocked gazes, he realized that he had been too high-profile.

It had been too comfortable and smooth just now. He couldn't help but use the five birds technique all the way. In the end, he forgot that he was only a Martial Master of the 'ten slashing realm'.

How could someone at the tenth realm run so fast and jump so high?

In an instant, Li Hao fell from the sky.

In the air, Li Hao somersaulted like an ape before landing on the ground. He stomped on the ground, leaving a small hole in the ground. He landed steadily without falling.

However, he felt that it wasn't very appropriate ... He was falling from such a high height. Should he fall?

However, this was a mine, and the ground was too dirty. Wouldn't it be bad to fall?

While he was hesitating, Hu Hao landed with Chen Jian.

"Li Hao, you ... Why did you jump so high?" Chen Jian asked immediately.

"I broke through 100 levels tonight!" Li Hao gritted his teeth.

"Ah?"

Chen Jian was stunned. He had not broken through a hundred, but Li Hao had.

Hu Hao, on the other hand, looked as if it was only natural.

Li Hao should have advanced.

Otherwise, it was impossible for him to advance so quickly. This guy was also very good at using the five birds technique. It was incredible.

Li Hao laughed. "Teacher gave me a lot of mysterious energy. He guided me step by step. I finally advanced."

"Congratulations ..."

Chen Jian had nothing else to say except this.

Yuan Shuo also walked over and laughed, "Alright, you're almost there too. You all have a chance. After all, he's following me. It's normal for him to improve faster."

Alright, with Yuan Shuo around, they could only accept this.

"We'll go in and take a look, you guys guard outside. "

Yuan Shuo added, and Chen Jian quickly nodded.

Hu Hao also nodded slightly, but he still couldn't help but glance at Li Hao.

It broke a hundred!

It was said that this nominal little senior brother was just an ordinary person last month. In the blink of an eye, he had broken through a hundred, while he was still a Dark Moon, and he was only at the peak of the waning moon, not even half a month.

Of course, he had obtained quite a lot of mysterious energy this time, so half a month shouldn't be a problem. However ... Strictly speaking, he was only at the same level as Li Hao.

He suddenly felt inferior.

Li Hao smiled innocently. "Brother Hu, brother Chen, I'll go in and take a look. If there's anything good that everyone can use, I'll give it to everyone ..."

Chen Jian smiled naively and did not say anything.

Hu Hao gently exhaled. "It's fine. It was originally yours. We've already received a lot of rewards. Besides ... You and I are considered fellow disciples ..."

Li Hao was stunned. What fellow disciple?

When Yuan Shuo said those words, he was not by his side.

"I've taken Wang Ming and the other two as in-name disciples," Yuan Shuo said calmly.

“Ah?”

It was Li Hao’s turn to be surprised. There was such a thing?

“We’ll talk about this later!”

Yuan Shuo didn’t give him the chance to ask any more questions and walked straight ahead.

Li Hao could only smile apologetically and say in a low voice, “Then we’ll talk later!”

The two of them watched Li Hao and Yuan Shuo enter the mine. Hu Hao was silent, and Chen Jian could not help but whisper, “Brother Hu, which do you think is better? Martial Master or super power?”

The superpower that he had always yearned for seemed to be just so-so.

Hu Hao was speechless. I’m a super and you’re a Martial Master. Why are you asking me this?

“I originally thought that martial masters would progress very slowly, but ... Look at Li Hao.”

Hu Hao laughed, “he ... Can he treat it as normal?” It’s up to you. I’m not too familiar with martial arts, so it’s not easy to compare.”

Well, Chen Jian suddenly felt that maybe he should not pursue superpowers.

Why don’t I just eat the blood God and break through 100?

.....

At the same time.

Li Hao followed Yuan Shuo and turned left and right in the mine. Not long after, they passed an iron gate. There were some fragments near the iron gate, which seemed to be ice crystals.

“This door?”

Was it special?

The teacher said that there was a door to this place.

“What kind of eyes are these? they created these to prevent others from entering. They embedded ice crystals in them to prevent their superpowers from leaking.”

Yuan Shuo pushed open the metal door and was greeted by a spacious cave. It was quite large and had some crystal lamps that illuminated the entire cave.

There was a karst cave in the mine?

This was a special sight.

There were some daily necessities here, but many stones had fallen down, and some fragments were all ice crystals. It was obvious that the previous bombardment had caused this place to shake.

Li Hao sensed a weak energy the moment he stepped in.

Just as his teacher had said, it seemed to be the energy of sword energy and saber energy.

“There’s nothing good here. They’ve all been taken away. If there’s anything good, Qiao Feilong and the others have already used it.”

Yuan Shuo had been here once before, so he was familiar with the place. He led Li Hao forward.

Chapter 302: the secret of gossip (4)

...

The karst cave was huge and deep.

It didn’t seem rugged. Obviously, the Qiao’s had developed here for a period of time.

Everything that should be there was here. Li Hao even saw some toiletries and cutlery. It was clear that the three sunlit experts would usually eat here. They were really hardworking, but Li Hao did not cook.

After walking along the cave for a while, he saw some embossed on the walls on both sides.

Li Hao took a look at it. There was nothing special about it. It was just a simple embossed. He didn’t know if it was carved by the ancient people, but it was a little blurry.

But soon, Li Hao stopped.

Yuan Shuo sensed that he was not leaving, so he turned around and looked at him. “He’s still in front!”

“No...”

“Teacher, come and take a look.”

Li Hao shouted. Yuan Shuo walked over with a frown and followed Li Hao’s line of sight. It was a blurry stone sculpture.

There was a person on the stone statue, but it was also very blurry.

And this person was holding a sword.

It wasn’t very clear, but it was very thin and long, so it should be a sword.

And this person seemed to be standing in front of a door. One could vaguely see that this person seemed to be going through the door and was turning his head to look behind.

Yuan Shuo looked at it for a while, but he did not see much.

“You came in alone with a sword. Why?” he asked.

“You think it’s related to your sword?” he looked at Li Hao.

Li Hao nodded slightly. “Yes, I have that feeling.”

“This is just an ordinary embossed. It’s no longer clear. Let’s go. We’ll continue moving forward. Perhaps we’ll be able to discover more things ahead.”

Li Hao didn’t say anything more and followed his teacher.

.....

After walking for a while, they seemed to have entered a different space. They entered an empty underground hall.

The entire Hall was extremely clean, and all the treasures had probably been taken away by the Qiao family.

The first thing he saw was a stone gate.

Yes, it felt like the stone door was right in front of the hall.

The stone gate stood there for a long time. The energy that Li Hao and the others had felt was coming from the stone gate.

“Be careful!”

“They’re probably stationed here to open this stone gate,” Yuan Shuo reminded. “The reason why Qiao Feilong’s wife became like that might also be related to this stone gate.”

Indistinctly, one could actually see some traces of explosives being blown up on the ground, as well as traces of fire.

Clearly, these people had been trying to open the door.

Yuan Shuo walked over and observed carefully. He then said, “You!”

Li Hao hurried forward and immediately noticed the difference.

On the stone door, there was a small dent.

“A mechanism?”

Li Hao’s interest was piqued. “Is it possible to open this door if I put my sword in?”

“I’m not sure,”

Yuan Shuo looked at it for a while, thought for a while, and said, “We can try ... But first, we need to absorb the sword energy to recover. Then, we can absorb the blood God’s clone. I don’t want to be too late to react.”

He was afraid that something would happen if he put something in.

That would be troublesome.

Now that he could feel the overflowing energy, the stone saber in his hand was ready to move, and so was Li Hao’s sword. It was better to heal his injuries first.

“Alright!”

Li Hao didn’t say anything else. He and Yuan Shuo left the stone gate. When they were a little far away, they sat down cross-legged.

At this moment, the small sword in his arms seemed to be very active.

Li Hao's eyes brightened after he used the five animals breathing technique. He could absorb energy without the small sword, but ... The energy was slightly different from the small sword's.

Li Hao sensed it, and his eyes flickered. "Teacher, this seems to be a mixture of several types of energy. It's not just pure sword energy."

"Yes."

Yuan Shuo nodded, "I also felt it, there's also saber energy within it, it's probably a mixture of the eight great families' energy. We're now mainly absorbing sword energy to heal our injuries ..."

As he said this, he looked at Li Hao. "Place the sword in the middle. I can feel that the stone blade is absorbing and extracting saber energy. The sword should be doing the same. The mixed energy feels very strong, but it's not suitable for single healing."

Li Hao did as he was told and placed the small sword between the two of them. The small sword was trembling slightly, and a special energy was absorbed by it.

At that moment, the sword energy around them was much denser.

Yuan Shuo pondered for a moment and placed the stone knife to the side, keeping it a distance away from him so that the knife would not interfere with them.

In the next moment, the master and disciple began to use the breathing technique of five birds.

Yuan Shuo's main purpose was to heal his injuries, while Li Hao's injuries weren't serious. He had also absorbed a lot of sword energy, and the problem caused by last night's outburst was almost fully recovered.

While cultivating, Yuan Shuo warned, "You can eat the sunshiny Blood God and use the breathing technique of five birds to absorb and digest it with the help of the swords here. Just this energy alone is worth it!"

"Yes."

Li Hao didn't hold back. He took out the blood God and swallowed it.

The moment he swallowed it, Li Hao's blood suddenly began to boil.

At this moment, he seemed to have entered the state he was in the last time.

Li Hao's eyes were a little dazed, and his blood was boiling.

This was something he had never experienced before. It was only when the red shadow invaded his body that he had such a change. He looked up and seemed to have passed through the stone wall. At this moment, he saw the huge Eight Trigrams again.

It covered the entire Silver City!

This time, Li Hao wasn't nervous because he was prepared. Instead, he was curious about what the eight trigrams was.

Chapter 303: the secret of gossip (1)

...

He took a closer look and saw eight lines.

One of them was connected to his body.

As for the other seven, just like last time, they were gathering in one direction. They shouldn't be in the Silver City.

Li Hao's eyes widened. He wanted to take a closer look.

What did this gossip mean?

He vaguely felt like he had seen something.

It seemed to be a starry sky, but it didn't seem to be ... He blinked his eyes hard. In the center of the eight trigrams, he seemed to see a person ... A person?

Li Hao was stunned. Did he see wrong?

He took a closer look, and the figure that seemed to have appeared just now was gone again.

Li Hao's heart skipped a beat. He thought for a while and started to look up along the red line above his head. He wanted to see what his line corresponded to.

He tried his best to look, and at this moment, he really seemed to see something special.

At the end of the red line, he saw another person ... A human figure!

"Mm ..."

Li Hao was startled. This figure was somewhat similar to the embossed he had seen outside.

It was a man with a sword on his back!

One man, one sword.

The moment Li Hao saw the figure, the figure seemed to sense something and suddenly looked down. What kind of gaze was that?

Unruly?

Invincible?

Or looking down on the common people?

"Sword, heavenly demon subduing!"

At this moment, Li Hao could vaguely hear the words in his head.

The next moment, Li Hao's eyes turned red, as if something had pierced his eyes. He vaguely saw a man holding a sword and slashing the sky!

“I have a sword that can cut off longevity!”

“The lives of the world are like swords, breaking the heavens, breaking the earth, and breaking me!”

BOOM!

At this moment, Li Hao felt as if his head had exploded.

He saw ... He saw that person. He saw that person slash the heavens with a single sword strike, and he saw that person destroy the starry sky with a single sword strike.

He vaguely saw that under that man’s sword, the sky was destroyed and the starry sky was shattered ...

Two streams of blood tears suddenly fell from his eyes.

A swordsman!

He was a top swordsman.

“Pfft!”

A mouthful of blood spurting out, and this mouthful of blood instantly burst out with an extremely sharp sword Qi. Yuan Shuo, who was recuperating, subconsciously waved his hand to stop the blood from spurting out ...

Puchi!

Yuan Shuo’s expression changed drastically as his palm was pierced through!

What?

A mouthful of blood, Li Hao’s blood, pierced through his Shi, broke the Divine Will, and penetrated his palm.

“Li Hao!”

Yuan Shuo couldn’t care less. He exploded in an instant and grabbed Li Hao!

What was going on?

As for Li Hao, he opened his eyes in a daze. He felt a sharp pain in his eyes, and his vision was blurry.

He was a little weak and coughed painfully. “Teacher ... I saw ... I saw a man holding a sword, cutting through the heavens and shattering the starry sky ...”

“Nonsense ...”

Yuan Shuo was just about to scold him when he was slightly stunned. He said with a horrified expression, “Where did you see it?”

“In the sky!”

Li Hao pointed at the sky and said in pain, how terrifying! It’s so terrifying that ... I feel that even if we’re hundreds of millions of li apart, the other party can kill me, no, kill everyone with just a single strand of sword Qi!”

It was too terrifying!

At that moment, although he had seen it, he clearly felt that the other party was very far away from him, so far that it was unbelievable.

He had only seen it, and not really come into contact with it. In fact, he hadn't even seen it. It was just an impression ... Even so, that sword strike had almost killed him.

Sword intent!

At this moment, he felt what sword intent was.

On the ground, the small sword placed in the middle suddenly trembled slightly, and a faint sword aura spread out. The blood that Li Hao had just spat out had stained the small sword.

The blood of sword Qi!

Yuan Shuo's expression was extremely heavy. He raised his head to look at the sky, but he saw nothing.

"Anything else?" he asked in a low voice.

"And ... That Eight Trigram ... It seems to correspond to some people, and there seems to be people in the middle ..."

Li Hao coughed up blood again. "That person also said that his sword could break the sky, the earth, and the longevity ..."

At this moment, Li Hao was a little confused. "Teacher ... Can ... A person ... Really cut through the sky like what I've seen? Or is it just an illusion?"

Li Hao felt that Yuan Shuo and the three suns would have been destroyed by that sword strike.

It was an unimaginable strike!

At this moment, Yuan Shuo fell silent. After a long time, he said softly, "I don't know. Maybe, there really was such a thing during the ancient civilization. Besides, if you don't have any questions, maybe that person ... Is an ancestor of your Li family."

"Old ancestor?"

Li Hao was taken aback. The next moment, he smiled bitterly. "That's impossible! 'If my ancestor was this powerful, then ... Then my Li family would have become a hegemon of a region, no, the hegemon of the world! It's like this?"

Of course, no one could be sure.

However, that kind of power was deeply imprinted in his mind at this moment.

He would never forget that sword.

He didn't know what that person was slashing at, but he saw that sword slash through everything. No matter how strong the enemy was, they should have been annihilated by that sword, right?

"How is it?" Yuan Shuo asked.

“It’s so uncomfortable ...”

“However,” Li Hao suddenly said, “the power of the blood God seems to have become purer. I’m absorbing it.”

After he finished speaking, Li Hao was slightly stunned. He raised his hand and looked at it, then suddenly said in surprise, “Teacher, don’t you think my skin is a little whiter?”

Yuan Shuo also subconsciously took a look and took a light breath.

“It’s not white, it’s purification! That sword energy ... No, it might not be sword energy, but the sword intent that came from a distance has purified your body a little. ”

What kind of ability was this?

At this moment, the master and disciple looked at each other, speechless.

As for Yuan Shuo, he looked at his palm and saw that the bloody hole was slowly healing.

Even after absorbing the sword energy, the healing speed was still very slow.

“Teacher, I’ll help you treat ...”

“No!”

Yuan Shuo shook his head and suddenly became fanatical, “I want to leave this scar, this hole!”

He was a little excited, “it’s indestructible!” What kind of power was this? It felt even more powerful than saber energy. It was just a wisp of blood that was stained with sword intent, but it pierced through my hand and everything ... If it had hit my head, I would have died. ”

He was an expert who had killed three suns, but he had been killed by a mouthful of blood ... If he really died, there would be no one to blame.

It was too terrifying!

However, this kind of terror also made him excited.

“Li Hao, perhaps ... This is an opportunity, the greatest opportunity, and the direction of the road ahead!”

He suddenly had a goal and motivation.

That’s right, this was the direction to go.

“One sword to break the firmament, one sword to split the sky ...”

He stared at his hand and even tried to stop the wound from healing. He silently felt the sword energy, but there was nothing, because there was no sword energy in the first place. It was just Li Hao’s telepathic connection.

It was too terrifying!

As for Li Hao, after he vomited a few mouthfuls of blood, he suddenly discovered, to his surprise, that his torso ... Could release inner strength.

He felt a little strange. He had broken through to the middle of the hundred stage?

It was so simple!

Of course, at this moment, he felt that a cultivator in the middle stage of breaking through a hundred was just so-weak.

Compared to his teacher, they were all very weak.

Not to mention the figure he saw, he couldn't even be compared to a child.

At this moment, Li Hao felt that the three suns and douqian could not be compared to what he was seeing.

He thought that if he could do the same, he would not be afraid of the red moon.

I'll kill you with one sword!

The next moment, Li Hao suddenly exclaimed, "Teacher!"

"What?"

"Isn't my sword a little too big?"

Yuan Shuo hurriedly lowered his head. Indeed, the small sword on the ground, which was originally only the length of a finger, seemed to have grown to the length of a chopstick.

It had become bigger!

"I absorbed some blood ..."

He suddenly looked at Li Hao. "Your blood just now was stained by something special. It seems to have been absorbed by this thing. It might have been unsealed a little. Do you think this sword is the sword that that person used?"

Li Hao shook his head. He really couldn't be sure.

He could only see the sword light and could not see clearly.

However, it seemed to be a good thing that the small sword had become bigger. It was just that the length of the chopsticks ... Would not be easy to hide in the future. It would also be a little troublesome to carry it on one's back.

He picked up the small sword and casually stabbed it into the ground ... It fell without a sound and directly penetrated the stone on the ground.

At this moment, the master and disciple were once again stunned.

It was so sharp!

He didn't feel any sharpness at all, but this sword really pierced through the stone easily, without any hindrance.

For a moment, the entire Hall fell silent.

Yuan Shuo felt that the secret of the silver Blizzard city and the eight great families might really be beyond everyone's imagination.

Chapter 304: promotion (1)

...

Li Hao saw a peerless swordsman in the gossip.

After absorbing some of Li Hao's blood, the seal on the starry sky sword loosened a little. Before this, Li Hao had bled, and the small sword had also been stained with blood, but this had never happened.

It was obvious that the unsealing of the starry sky sword might be related to that figure.

This made Li Hao and Yuan Shuo realize that the swordsman might really be the ancestor of the Li family.

A peerless expert!

Yuan Shuo suppressed the throbbing, shock, fear, and a trace of anticipation in his heart. His voice changed a little, "Let's not worry about that for now. It's too far away from us, and it involves some experts from the ancient civilizations. Our top priority is to strengthen ourselves!"

He was awake.

Only when one's strength was strong was the foundation.

The waters of this world were perhaps very, very deep, so deep that the ancient civilization had disappeared, and all inheritances had disappeared, leaving behind only a few historical sites and the extremely weak Silver City of the eight great families.

No, there was only one now.

It could even be said that there was only one person left.

Li Hao also gritted his teeth and tried to forget everything that had just happened. He didn't dare to think about it anymore. Every time he thought of that sword ... He couldn't help but feel fear and excitement.

Was he still human?

He carefully picked up the small sword and suddenly said worriedly, "Teacher ... This is too sharp. I won't be killed by my own sword if I carry it with me, right?"

Yuan Shuo was stunned.

After a long while, he said, "that ... Extraordinary items might not be ordinary. Some extraordinary items can recognize their owners. Why don't you stab yourself with your sword? you might not be hurt."

"....."

Was this something a human would say?

It was so sharp. What if it could hurt him and stab him to death?

Of course, if he poked it lightly, it might be fine.

Alright, he could trust his teacher's words. If he didn't believe his teacher, who else could he believe?

.....

After a while.

Li Hao looked at his bloodied arm, then at his teacher. He was speechless for a long time.

Yuan Shuo was a little embarrassed.

Looking left and right, he said hesitantly, "this ... You might really hurt yourself. You might not have completely recognized me as your master yet. It'll be fine in the future. Don't worry, I'll make a sword sheath for you later. You can also carry it with you and use it as a dagger."

I have no choice.

He glanced at the stone blade not far away and felt lucky. Fortunately, this thing was a blade and made of stone. Even if he unsealed it in the future, it wouldn't hurt him like this sword, right?

Li Hao didn't say anything else. He wiped the blood off his hand. It was just a wound. What was it?

When a teacher spoke, 99 sentences were right and only one sentence was wrong. There was no need to doubt the teacher.

It's not that bad, it's really not that bad!

"Teacher, next time, why don't you think about this kind of self-mutilating thing first before suggesting it?"

I trust you!

Don't ruin your own credibility like this, I'll suspect that you're omnipotent.

"You little bastard!"

Yuan Shuo cursed. Who are you talking to?

Didn't he just poke me once?

You just spat out a mouthful of blood and almost killed me. Did I say anything about you?

"Cut the crap. You've only absorbed a bit of the blood God's energy. What are you doing? Hurry up, don't waste it!"

Alright, Li Hao didn't have any other thoughts after hearing this.

Absorbing energy!

He activated the breathing technique of five birds again, and the sword energy in the void seemed to be pouring in even faster.

Not only him, Yuan Shuo also felt it, and his eyes lit up slightly.

The starry sky sword had been unsealed a little, and the effect was obviously better.

The speed at which the sword energy gathered was even faster!

At this moment, Yuan Shuo's injuries were much better than before. The essence, Qi, and spirit that the blood Blade art had consumed had recovered by quite a bit.

A red ball appeared in his hand.

The Scion of the blood God was a three-sun level being. He was even more powerful than the red shadow that Li Hao had killed last time.

After Yuan Shuo entered the warrior power level, he didn't have much of an understanding of it. He didn't even know how to distinguish the levels of the warrior power level. It was obvious that he had been lying when he said that he was at the peak of the warrior power level.

He did not even know what the performance of each level of the warrior power was like. How could he distinguish which level he was at?

However, Yuan Shuo was indeed on the Dou Qian road, traveling a thousand miles a day.

It was related to his accumulation, the power of the red shadow, sword energy, and saber energy.

At this moment, he looked at the red ball in his hand and began to fantasize.

If I eat this, will I be able to reach the level of Qian warrior?

There was no record of the path of Martial Master above the thousand-man warrior tier.

What was the realm above the thousand warrior realm?

"Supers are all trash. Above the solar flare is called the three suns, and above the three suns is called the nine suns ... So uncultured!"

Yuan Shuo cursed in his heart. He was considering if he should give above thousand warrior a name or something.

After all, he couldn't just say that he was above the thousand-man tier every day.

"Cut ten, break a hundred, fight a thousand ..."

Yuan Shuo fell into deep thought. After a long while, his eyes lit up slightly. "Killing ten people, breaking a hundred, fighting a thousand ... The next realm, how about it be called the world suppressing realm?"

How about one person suppressing ten thousand people?

As he thought about it, he felt a surge of emotions.

In ancient times, an Army of 10000 people could be considered a great army.

An Army of 10000, some who liked to brag would dare to call it an Army of 800000.

The killing intent of an Army of this scale was enough to make many people tremble with fear. However, a Martial Master at that level could fight against ten thousand people alone!

Suppressing ten thousand people!

“Not bad, it seems possible ...”

He was somewhat satisfied with his naming skills. He didn't know when he would be able to step into this level. Would there be any qualitative changes?

Chapter 305: promotion (2)

...

He didn't care anymore.

He stopped thinking about it and swallowed the red ball.

He activated the breathing technique of five birds, and the powerful energy was instantly absorbed and quickly digested.

He seemed to be very hungry. In the previous battle with Qiao Feilong, his inner strength had been exhausted, and he had been in a state of emptiness. At this moment, with the red ball's energy replenishment, Yuan Shuo instantly felt that he could fight the three suns again.

He really wanted to find three suns and try to fight again!

It was a pity that Hao lianchuan had left. Otherwise, he could have found an excuse to fight with him and feel the state of an experienced three-sun powerhouse. Perhaps he could experience his own strength better.

Qiao Feilong was a wooden club. He had ambushed Broken Sky, but he had never had the experience of facing an experienced three suns head on.

Yuan Shuo fell into his fantasy.

.....

At the same time.

Li Hao was also absorbing the red shadow's energy. He was also happily thinking, can I successfully enter the late stage of the breakthrough 100 level this time?

If I can, I can be considered to have broken through a hundred perfection.

“That's because I've learned the embryonic form of Shi.

Breaking through 100%... What day was it again?

Number 2!

Li Hao thought again, when was the last time I entered the ten decapitation realm?

In the middle of last month ... Oh, it hadn't even been a month.

Li Hao was also in a good mood. As for that sword attack, he had suppressed it in his heart. Some people liked to compete with people who were too far behind them. The more they competed, the sadder they would feel. In the end, their confidence would be crushed, and he would not compete with these people.

Li Hao's target of comparison was now Liu Long, but the next time, it might be a teacher.

However, Li Hao felt that he would never compete with the swordsman in the gossip, at least for the next ten years. He was too terrifying.

The master and disciple pair fell silent again.

The silence this time was different from before.

At this moment, the red shadow's energy filled the air and was quickly absorbed by them.

Some of the red shadow energy still managed to spread out ...

At this moment, Yuan Shuo suddenly felt his heart palpitate.

Li Hao was the same. His reaction was slightly slower than Yuan Shuo.

Without waiting for him to open his eyes, Yuan Shuo grabbed Li Hao's head. Yes, his head. He grabbed Li Hao's head and dragged him out of the cave.

The moment the two of them left their original spot, BOOM!

A loud bang rang out!

A powerful energy instantly exploded where they had been.

Yuan Shuo, who had fled dozens of meters away, let out a violent roar. Like a giant bear, he flung Li Hao far away and sent him crashing into a wall. Li Hao almost vomited blood from the impact, and he felt as if his bones were about to break.

As for Yuan Shuo, the power of the five birds erupted.

A total of five forms of divine intent-Tiger, bear, deer, ape, and bird-burst forth. They combined into one and instantly collided with a powerful energy.

Bang!

Yuan Shuo was sent flying, his entire body floating in the air as blood spurted out of his mouth.

Yuan Shuo's eyes were a little empty ... I need to replenish my blood.

He had vomited too much blood in the past two days.

Even beating three suns wasn't this bad.

He had just been F \* cked by Li Hao, and now he was F \* cked by an energy explosion. He lost a lot of blood.

"Teacher ..."

Li Hao exclaimed.

"Cough, cough, cough!"

Yuan Shuo landed on the ground and looked into the distance. His eyes changed."He's not dead!"

Li Hao hurriedly ran to Yuan Shuo and helped his teacher up.

Yuan Shuo gasped for breath, his expression changing for a while before he said,""Red Moon!"

"What?"

"The Crimson Moon might have some connection with the eight great families ... The Crimson Shadow was created by the Crimson Moon organization, and the energy of the Crimson Shadow can be neutralized by sword energy. However, once it comes into contact with the mixture of the eight types of energy, it will cause a violent energy conflict and an energy explosion."

Just now, some of the red shadow power that had spilled out had fused with the eight mixed energies and actually caused a huge explosion.

It had almost blown him up. It was too terrifying.

Li Hao was slightly startled,"you mean, the energy of the eight great families and the power of the red shadow might be in conflict?"

"That's very likely!"Yuan Shuo nodded.

Then, he spat out a mouthful of blood and suddenly laughed,""Good news!"

"What?"

Had his teacher vomited too much blood recently and gone crazy?

Was it a good thing to be blown up like this?

The next moment, Li Hao's eyes lit up as if he had thought of something."Good news!"

Yuan Shuo looked at his student and was a little surprised."You also think it's a good thing?"

Li Hao nodded frantically,"teacher, collect eight types of energy!" Then, I'll get some red shadow power. Oh my God, it's a super big bomb! If it can even blow you up, then wouldn't it be able to blow up the three suns?"

"....."

"Teacher, you think so too, So You Think it's a good thing, right?" he looked at Yuan Shuo.

"....."

Yuan Shuo looked at him silently. He wanted to say that it was not the case.

I'm not as quick-witted as you, and I'm not as black-hearted.

Good boy, how black is your heart?

Yuan Shuo had said that it was a good thing because he was thinking that if the energy of the red shadow and the energy of the eight great families were in conflict, then in the future, if the Masters of the red moon were to be lured here and destroyed the red shadow, there might be some extremely special situation ... The red moon's people might be killed by their own explosion.

Well, it was actually pretty much the same.

However, he didn't expect that Li Hao would try to get some energy and use it as a bomb.

The master and disciple had similar thoughts. However, Yuan Shuo felt that he wasn't as black-hearted as Li Hao. He only wanted to lure people in, while Li Hao wanted to attack. This kid's offensive power was really strong.

At this moment, Yuan Shuo didn't say anything else. He only frowned. "I'm afraid that this kind of energy will not be easy to collect!"

Chapter 306: promotion (3)

...

The eight types of energy were mixed together, and not much of it seeped out.

At this moment, the main energy that was overflowing was sword energy and saber energy, which might be related to the presence of the two weapons.

The Qiao family had probably been collecting this energy all this time, but it was probably difficult to do so.

There was a high chance that the ice crystals would be useless. Otherwise, Qiao Feilong would have collected a large number of them.

Li Hao nodded and did not continue. Instead, he said, "Teacher, let's go out and digest the red shadow energy first. Otherwise, we'll both be blown up later. That would be a big loss."

"Hahaha, that's true!"

Yuan Shuo laughed. As he laughed, he felt a little sad. Damn it, he was really unlucky today.

He was a Grand warrior, but he almost died here twice tonight.

These ruins were really dangerous.

He felt that it was even more dangerous than the one the night patrolman had discovered. Although there seemed to be nothing here, he could die here if he was not careful.

The master and disciple duo didn't dare to continue cultivating here.

Yuan Shuo picked up the swords and sabers, then carefully led Li Hao out. They would come back in after they had digested the energy of the red shadow.

Otherwise, if he accidentally used this energy and it leaked out, he would be dead tonight.

When he went out to cultivate, his sword and saber seemed to have absorbed a lot of energy. It should be enough for now.

.....

He walked out of the hall and returned to the cave.

When Li Hao passed by the embossed, he took another look. After a long while, he said, "Teacher, the person I saw might be the one in the embossed. With a long sword on his back, I can tell that he's a peerless expert with one look."

"Stop looking. It's no use. They're too far away from us."

Yuan Shuo smiled. "Work hard on your own. One day, you and I will be able to embark on this path. Remember, this is not an obstacle on the path of cultivation. It is a driving force!"

"Understood!"

The master and disciple consoled themselves for a while before they began to absorb the red shadow's energy in the cave.

Li Hao felt that his head seemed to be producing inner strength.

It was a very special feeling, a tingling sensation.

He felt as if his head had been licked by a dog ...

Alright, it wasn't a feeling.

When Li Hao opened his eyes, he was completely speechless.

Black Panther?

?!

Where did this dog come from?

He and Yuan Shuo didn't bring the Black Panther with them when they went out at night. How did it find them?

He had really been licked by a dog.

Woof! Woof! Woof!

Black Panther looked at Li Hao with teary eyes, as if saying, how can you abandon your dog?

It could smell the fragrance, the smell of energy.

It had been running like crazy for the whole night and had almost died of exhaustion before it found this place. It had not been easy.

At this moment, Yuan Shuo also opened his eyes. He looked at the Black Panther and laughed, "You're really capable! To think that you could catch up to me from tens of li away ... I've underestimated you! I thought that you were a dog that was about to become a demon, and that it might not be a good thing to make you stronger ... But you really did come after me."

He didn't bring Heibao with him on purpose.

It was said that it was not a bad thing for Li Hao's dog to be stronger.

However, dogs were still dogs. They were of different races.

In the central region, it was said that there was a great demon that had become a spirit and swallowed three suns in one mouthful. It was extremely terrifying.

This dog knew a lot of things. Wasn't it afraid of backfiring on Li Hao?

Woof! Woof! Woof!

The Black Panther called out in a fawning manner. Li Hao laughed, "Since we're already here, it's also fate! It looks like I can't get rid of you! If I didn't give it to you specifically, you can absorb as much as it seeps out."

Woof! Woof! Woof!

The Black Panther was satisfied. It didn't mind just drinking a mouthful of soup. It was good enough to have soup to drink.

Li Hao continued to absorb the power of the red shadow with his eyes closed.

The master and disciple still had some energy leaking out, or else it wouldn't have caused the explosion just now.

At this moment, Li Hao once again felt his head go numb.

This time, it wasn't a dog's lick.

Instead, it was true inner strength surging, causing his head to feel numb.

His eyes were like lightning!

The moment Li Hao opened his eyes, he experienced this feeling. A wave of inner strength exploded around his eyes, making his eyes look as if they were filled with electricity.

Yuan Shuo didn't even open his eyes, as if he could feel everything. He said softly, "It's very dangerous to have inner strength in your head when you're in the late 100th level! Of course, this danger was only relative. As long as you don't mess around, there won't be any problems ..."

"Stop!" He suddenly shouted.

He opened his eyes and looked at Li Hao. "Are you out of your mind? Aren't you afraid that you'll be blinded if you pour your inner strength into your eyes?"

"Didn't you say that I'm going out?" Li Hao asked in embarrassment.

“Get lost!”

Yuan Shuo cursed and sighed, “Alright, I forgot to remind you. You’re always improving so quickly. You improved before I even finished speaking. I didn’t even have time to teach you.”

“The eyes are very fragile,” he continued. “Although the inner strength is soft and not as domineering as the mysterious energy, it still hurts your eyes and you’ll be blind. “You need to do it step by step, slowly. Your inner strength should first accumulate in other tissues, slowly integrate into it, and flow into your eyes through the human body’s system. Only then will you enter the late stage. Don’t rush, take it one step at a time ...”

Just as he finished speaking, he saw Li Hao domineeringly fuse his inner strength into his nose, causing blood to spray out.

“Eager for success!” Yuan Shuo frowned.

“Teacher’s words are right, but this student is not rash. ”

Li Hao’s nose was bleeding, and his tears were falling. “What I’m thinking is that I have sword energy. As long as it’s not an unhealable injury, I can heal it. Teacher, I’ve absorbed one of these clones today. It’ll be a waste if I don’t. ” When can I get a Blood God at the solar glory realm next time?”

Chapter 307: -promotion (4)

...

Li Hao looked at Yuan Shuo. “I can’t always be under teacher’s protection. Teacher has his own things to do.” Moreover, as teacher’s last disciple, according to the traditional rules, I should be the one dealing with strong enemies for teacher, such as teacher’s enemy Ying Hongyue. According to the rules of martial arts, if the other party comes to our teacher’s door when teacher is old, I should attack, either kill or cripple them. In short, I can’t hide behind teacher and enjoy peace!”

“Teacher, do you think I’m right?” Li Hao smiled shyly.

Yuan Shuo was speechless.

Last disciple ... I didn’t take you in so that you could keep up my appearance and deal with strong enemies. I just hope that you can inherit my knowledge.

However, things changed when Li Hao became a Martial Master.

This was his martial arts disciple!

Yuan Shuo was silent for a moment before he smiled and said, “Right! You and I are very similar when we were young. However, the rise of superpowers in my middle age made me a little depressed ... I hope that you can continue on smoothly!”

At this moment, he no longer tried to stop Li Hao.

Perhaps Li Hao was right.

I can't protect him forever. He has to bear the burden and grow on his own.

Li Hao's nose was still bleeding. He was very bold and resolute. Of course, this was also built on the foundation of sword energy. Otherwise, such a violent attack would have caused some serious consequences.

In general, martial arts was a gradual process.

Nose, ears, mouth ...

Gradually, Li Hao's inner strength began to erupt in some parts of his body. It was his first time controlling it, so it was a little immature. The impact of his inner strength was too strong, causing his soft tongue to spurt blood. This was the first time Li Hao felt pain, but he got used to it.

Yuan Shuo looked on silently, absorbing the power of the red shadow.

The more he looked at the student in front of him, the more satisfied he was.

Low-key, smart, bold, ruthless, and sinister ... This was only his own opinion. To others, he would say that Li Hao was very kind. 1

However, as a Martial Master, how could a powerful Martial Master not be sinister enough?

It had to be sinister, cunning, and even sinister!

Silly and sweet people all died early.

Gradually, Li Hao's face seemed to be enveloped by a gas.

This was a sign that he was about to finish releasing his inner strength.

Once the inner strength was completely released, it would form a Special Defense system. At that time, a Martial Master could avoid some surprise attacks.

At that time, the Martial master's attack would also cover the entire body.

Any part of the body was a weapon to kill.

"Hmph ..."

Li Hao snorted. He couldn't bear the pain. Blood-red tears flowed out of his eyes. He frowned and endured the pain. "Teacher, the eyes are too fragile. I'm not afraid of death...But now that I'm blind, I'm a little afraid. Is there any way to avoid it?"

"You little brat, there are times when you're afraid?"

Yuan Shuo snorted and quickly smiled again, "I told you to learn literature, but you have to learn martial arts! It's fine if you learn martial arts, but can't you at least try to understand some books? I've already said that I have to strengthen my eyes through the human body's system. "

"In the frontal bone above your eyes, there are tear glands. Do you know what tear glands are?"

"It's for crying!"

“Why are you still asking when you already know?”

Yuan Shuo finally found something to comfort himself with. He smiled and said, “Cry more. You can use the red shadow Force to penetrate into your tear glands. The same goes for your inner strength. Don’t directly strengthen your eyes. Just cry, keep crying, don’t be afraid of wasting it, every time you cry, it’s an enhancement!”

Cry?

Li Hao thought of something. “Then, Can Li Meng’s third eye be strengthened like this?” he asked.

“Sure, but that girl is too big-headed and can’t be taught. If you teach her, you might see a three-eyed blind person tomorrow.”

Li Hao laughed. Yuan Shuo couldn’t help but laugh as well. “It’s better for her to strengthen herself honestly and take one step at a time. Actually, I don’t recommend you to do that. If you cry too much, I’m afraid you won’t be able to cry in the future.”

“Teacher, there’s no scientific basis for this. The amount of tears isn’t constant. It will be produced continuously ...”

“Get lost!”

Yuan Shuo chuckled and scolded. “Do you think I don’t know?”

It was just a joke.

Li Hao, on the other hand, followed his teacher’s advice and slowly let his inner strength enter his tear glands. This was safer than directly entering his eyes, but of course, it was also very dangerous.

However, people who practiced martial arts would not be unable to withstand even a little danger.

Even if his tear glands were damaged ... He would stop crying in the future.

Tears of blood gradually flowed from his eyes.

It was especially horrifying!

Yuan Shuo just looked at him.

Today, however much blood you shed will be how much you gain.

Li Hao, I hope you can understand that no matter how good a teacher is, no matter how much power he has, he can’t compare to the strength of your heart. And you ... Seem to be much stronger than I expected.

A true expert was never strong in appearance, but in realm.

Those so-called three yang, the so-called above three yang, must they have a strong heart?

Yuan Shuo thought of many things at this moment. He didn’t expect that Li Hao, who was usually humble and polite, would be able to endure such pain.

It was only when Li Hao's eyes were blurred by tears that Yuan Shuo said softly, "Have you thought of your future path?"

"Yes, I've thought it through."

Li Hao laughed and shed tears, "the Crimson Moon will be destroyed. This is my first big goal!" Second, what is gossip? I want to see the people and things in the gossip. "Third, teacher is old. I want to take care of him in his old age ..." 1

Chapter 308: advancement (Part 5)

...

?!

Yuan Shuo wanted to curse. Who was he cursing?

"I'll pass on the third one. I've already reached the warrior of the thousand class, so I can live for at least a hundred years. You can live until then before you die. I'm already thinking of finding you a master's wife."

"....."

"Cough, cough, cough!"

Li Hao almost choked. 'I'm being sincere. As your last disciple, I'm supposed to take care of you in your old age, right?'

The master and disciple laughed and chatted, and Li Hao forgot his pain.

He knew that his teacher was teasing him on purpose.

Li Hao wouldn't complain if he wanted him to forget this pain. He would only remember this pain, and this pain was brought to him by Hong Yue ... Yes, Hong Yue, he would remember it deeply.

After an unknown amount of time, when the power of the red shadow was almost exhausted, Li Hao's tears stopped flowing.

It was almost finished.

The water in his body was severely lacking.

At this moment, Li Hao's mouth was dry.

However, it could not stop his jubilant mood.

He felt that his eyes seemed to have brightened up, and his vision was restored. He could even see further and brighter.

He closed his eyes.

When he opened his eyes again, it was as if a killing intent had exploded out of them. It was no longer the kind of killing intent that could be felt, but a substantial killing intent formed by inner strength!

Bang! Bang!

A wave of inner strength flowed out and hit the Black Panther.

The Black Panther turned to Li Hao and wagged its tail.

It didn't hurt.

It felt like a massage, and it was a little comfortable.

It was a refreshing feeling.

What's wrong?

At this moment, Yuan Shuo revealed a gratified smile, "Even if we can't get anything tonight, it's enough!"

Now that his injuries were healed, Li Hao had advanced.

He even broke through three levels in a row!

He had broken through the middle stage of a hundred, then the late stage of a hundred ... And Li Hao was powerful enough to be considered to have broken through a hundred.

This was much faster than he had expected.

He was too gratified.

"Teacher, is this the post-production?"

Li Hao frowned slightly. "Its lethality is too weak. I don't feel like I've improved much at all. Just now, in the middle stage, I felt that there was still a slight improvement ..."

"It's different!"

"This is just the beginning. What you need to do next is to integrate your inner strength into one!" Yuan Shuo said with a smile.

After saying that, he thought for a moment and said, "At this time, you need to do one thing. Complete the integration of inner strength!"

"Teacher, please speak."

"Divine intent visualization!"

Yuan Shuo's voice became dignified. "Actually, it's the preparation work for stepping into the thousand warrior realm. For example, my divine intent is like a bird, and it has the momentum of the five birds. When I fight, you sometimes feel that I'm like a tiger or a bear ... In fact, it's not something you fantasize about out of thin air. My divine intent is like that!"

“For example, Liu Long’s divine intent is like waves and tsunamis. This is not your guess, but his own creation.”

“Next, you will need to go through this stage as well. You are still a distance away from becoming a warrior of the thousand-force class. You can’t enter it directly like Liu Long. This is because he has not yet comprehended force, but he has already integrated his inner strength into one and is already familiar with it. He just lacks the final confirmation by observing the shape.”

“Teacher, are you saying that I need to visualize the earth in order to integrate my internal strength into one and then become a warrior of the thousand-force level?” Li Hao asked, although he didn’t fully understand.

“Not necessarily.”

Li Hao was stunned. Not necessarily?

“No one said that there can only be one type of momentum. For example, I have the five animal momentum combined to form the five birds technique!”

Yuan Shuo explained, “although you seem to be comprehending the force of the earth, don’t forget that your Li family might be the family of swordsmen. I think you’re more suitable to visualize a sword!” It’s the sword you saw just now ... The sword of killing, breaking the sky, breaking the earth, and breaking the longevity!”

“Which do you think is stronger, the sword or the earth?”

Li Hao fell into deep thought. After a moment, he said heavily, “That sword is even stronger! I think that sword can cut through the earth. Anything that blocks it will be destroyed.”

“Then, which do you think is stronger, the earth or the sword?” Yuan Shuo asked.

“Of course it’s that sword!”

“That’s good. If you’re pursuing a strong attack, you should first visualize that sword. Of course, you can also visualize the earth at the same time. The earth is for defense, and the long sword is for offense. Only then can you attack and defend at the same time.”

At this moment, Yuan Shuo displayed his profound knowledge as he answered Li Hao’s questions.

Finally, he said, “you were originally comprehending the embryonic form of Earth Force. I shouldn’t have distracted you at this time and should have continued to comprehend it in depth. However, the opportunity is too rare.” I didn’t see it with my own eyes, but I could already feel that it was extremely lethal. Plus, you have this sword, so I really can’t bear to let you give up such an opportunity.”

Li Hao’s eyes flickered. He wasn’t just going to listen to his teacher.

But what his teacher said made sense.

The style of that sword was simply unimaginable. If he could also slash out that sword, what Ying Hongyue? would he be afraid of her?

“Teacher, where should I start?”

“The sword in your hand!”

Yuan Shuo pointed at the sword that Li Hao had wrapped around. “First, feel the physical object, then think about how powerful that sword is. Let your inner strength gradually merge into one and form a sword! It’s not just inner strength, there’s also force!”

“When your force is like a sword, then you have succeeded. After you’ve completed all the training to break through the 100th level, you’ll be able to get stronger step by step and officially step into the Dou Qian class.”

He explained the entire training process from breaking through 100 to 1000 units in great detail. He was afraid that he wouldn’t have the chance to tell Li Hao a second time. This guy was improving too fast.

Chapter 309 promotion (6)

...

“Sword ...”

Li Hao stroked the small sword. It was too familiar.

It was really too familiar.

He had been carrying it for more than ten years and had always been by his side. He could even know what this sword looked like with his eyes closed.

Comprehension?

What should he comprehend?

The shape was obviously not.

What his teacher wanted him to comprehend was the killing intent of the sword, the strength of the sword, and the attack of the sword.

But this sword ... Really didn’t have any attack power.

Just as he was thinking, the small sword in his hand trembled slightly.

At this moment, Li Hao’s mind wavered. He suddenly held his sword and released his inner strength, fantasizing about the style of the previous attack.

It could break the heavens and earth!

Sword slash!

Buzzzzzz!

The short sword seemed to cut through the void, and a faint sword Qi overflowed. With a slash of the sword, the Black Panther had long jumped and ran away. Yuan Shuo, on the other hand, watched with bright eyes.

He knew that his student would be able to do it.

Of course, this was only the beginning.

After that, every time Li Hao swung his sword, a different power would burst out.

The small sword was as short as a chopstick, but in Li Hao's hand, it gradually produced a long sword ray.

It was produced by the fusion of inner strength with the small sword.

One time, two times, three times ...

Li Hao slashed again and again. He thought of the scene he saw in the gossip. Not only did he not forget that sword attack, but it became clearer and clearer.

"Dang!"

At this moment, the small sword seemed to let out a cry of joy. The blade trembled slightly, letting out a clear sound of metal vibrating.

With a thought, Li Hao suddenly charged at Yuan Shuo with his sword.

This was called "real battle reveals truth."

Yuan Shuo laughed. He stood up and threw a punch, like a tiger pouncing.

The master and disciple quickly exchanged blows in the cave.

Yuan Shuo didn't take the attack head-on. The sword was too sharp. Although he had many ways to deal with Li Hao, he was only feeding his disciple moves. He couldn't be too ruthless. A teacher who was good at teaching was guiding his student's strengths, not preventing his student from displaying his strengths.

"Sword is the ruler of all weapons. I don't want you to be a gentleman. I just want you to strike with your sword. You have to be neither fast nor ruthless. You have to kill your opponent in one strike without causing him any pain. You have to die directly. This is what a gentleman should do ..."

Li Hao almost couldn't continue!

He was a little dazed. Teacher, don't mislead the students.

The Lord of a hundred weapons, is this how you understand it?

He was fast, accurate, and ruthless. He killed the enemy with one strike, but the enemy did not feel any pain. Was this the Lord of a hundred weapons?

Yuan Shuo sent him flying with a punch and frowned, "It's just an example. It means that you have to be fast, accurate, and ruthless! One must hit the vital point with one sword and kill the opponent with one sword. This is the correct understanding. If you don't give the enemy pain, you are also a gentleman, right?"

"That's the right way to think. Your goal now is to kill me with one strike ... Come quickly!"

Li Hao didn't say anything, but drew his sword even faster.

The sword struck out soundlessly.

Fast, accurate, and ruthless!

Sword after sword flew towards Yuan Shuo's vital points.

He released his inner strength and the sword Qi exploded. The small sword was only the length of a chopstick, but it could shoot out a one-meter long sword ray.

.....

The master and disciple pair sparred for an unknown amount of time.

Li Hao became calmer and faster.

Kill!

He didn't need to worry about his teacher's safety. He wouldn't be able to kill him.

The swordsman who claimed to be able to break the heavens and earth was still reverberating in his mind. As for the Divine Master duantian who was killed earlier ... He was nothing.

Just as he was reverberating with the sword, his inner strength suddenly burst out and a faint sword intent burst out from his body.

He drew his sword!

It was extremely fast.

With a buzzing sound, the air was split open.

Yuan Shuo pushed his palm out and pushed the small sword away, but he was slightly grazed by the sword ray.

Li Hao stopped and looked at his teacher's palm.

The palm of his hand was slightly damaged, and it had fused with the bloody hole from before.

Yuan Shuo stopped and looked at his palm, then at Li Hao. He smiled and nodded. "It's not a complete success yet, but you've already made great progress. As long as you persist, it won't be long before you truly break through a hundred perfection!"

At this moment, Li Hao also showed a bright smile.

It was worth it!

Tonight was worth it.

"Let's go. I've digested most of it. Let's see if we can open the stone door. If not, we'll use our swords to absorb more energy."

Yuan Shuo laughed. He did not have much hope of opening the stone door.

This was because he had determined that the weapons of the eight guilds might need to be gathered together.

Qiao Feilong hadn't been able to open the stone door for many years, so it was clear that breaking it open by force was not an option.

.....

The master and disciple pair returned to the main hall once again.

The stone gate stood still.

Li Hao was holding a sword, and Yuan Shuo was holding a stone knife. There was a small dent in the stone door.

Li Hao stuffed the small sword into the dent, but he felt that it didn't fit.

Similarly, the stone saber would not work either.

He was unable to fit in.

Yuan Shuo looked at it for a while and studied it carefully. After a long time, he suddenly smiled and said, "How interesting!"

"What?"

"Heaven and earth quake, Li Kan Gen DUI."

"The Li family's sword, the Zhang family's saber, the Zhao family's fists, the Liu family's legs, the Wang family's turtle ..." Yuan Shuo said softly.

He mumbled to himself, "this is the Li fire position. Qiao Feilong and the others have all obtained fire energy. Among the Eight Families, there must be one family whose weapons have fire energy! According to the song, it could be the Wang family's turtle shell ... However, a turtle shell sounds like a defensive type, so it could be an earth type."

"Could it be that the turtle shell is also a fire-type extraordinary item?" he frowned.

If it wasn't a turtle shell, then was it the Hong family's hammer or the Zhou family's spear?

He looked at the depression for a while and said, "Li Hao, what do you think this depression looks like? A turtle shell or a hammer?"

Chapter 310: advancement (7)

...

It was a little round and looked like either a turtle shell or a hammer. It didn't look like a gun.

"A hammer?"

Li Hao also looked carefully for a while. Then, he asked curiously, "Teacher, you mean ..."

"There might be ... Eight of these doors!"

Yuan Shuo's eyes were strange, "they're all under the Silver City!" Of the eight stone doors, one should correspond to a sword, while the other should correspond to a saber. The eight doors, perhaps they will have to be opened together to successfully open the ruins. "

Eight gates!

"There are eight of these places?" Li Hao was shocked.

"Yes, I originally thought that there was only one, but now it seems that's not the case. Otherwise, swords and sabers should be able to be placed inside, but not the other way around, so this stone gate is not the only one. Only when the eight gates converge or open at the same time can the true remains of the eight great families be opened!"

"I'll go back and carefully study the map of the silver Blizzard city. Then, I'll secretly investigate. "

Yuan Shuo laughed. "Now ... Let's absorb some energy and leave quickly. This remains can't be opened, so we can seal it first. When the sword has run out of energy, we can absorb more. I don't think much has seeped out."

"Teacher, why don't I let out some blood first ..."

"Hehe!"

"Come on," Yuan Shuo sneered, "do you really think you're the only heir? You've just lost your blood, so there's a reaction. It's already started a long time ago. This place is 99% opened by the combination of the eight weapons. "

Eight gates!

Li Hao's eyes suddenly twitched. "Teacher, in that case, if the Qiao family doesn't excavate the other places, even if we can't open them, won't we be able to get a lot of benefits?"

"The probability is!"

Yuan Shuo laughed as well, but it was an unusual laugh.

Perhaps, he was going to make a fortune next.

He didn't have a lot of wealth, but he definitely had a lot of small wealth.

Of course, the premise was that they could find the other seven stone doors. This was only speculation at the moment.

"Hehe ..."

The master and disciple laughed at the same time. It didn't matter if this place couldn't be opened. If they could really find the other seven places, they might have unexpected gains.

Qiao Feilong was able to become one of the three suns and even nurtured three sunlit experts.

"We found seven places ... Can we cultivate seven three suns and 21 sunlit Warriors?"

Damn, he could even start a war with the night patrolmen of Silvermoon province.

“Quickly absorb it. We’ll leave after we’re done. There have been a lot of people paying attention to us recently. I’ll just seal this place off in case they find out anything.”

“Alright!”

Li Hao took out the small sword and began to use the five animals breathing technique. Yuan Shuo did the same, first absorbing some energy and bringing it away.

As for taking the mixed energy away, Li Hao had yet to find a good way to do so. He had yet to find a carrier. He could think about it later. This thing, when combined with the red shadow energy, was also a great weapon.

.....

After a long time, Li Hao couldn’t absorb any more energy, and the energy seemed to have run out. It was overflowing little by little, not enough to absorb.

The master and disciple duo chose not to absorb anymore.

Yuan Shuo led Li Hao out of the hall. He punched out, and a huge rock fell to the ground. Yuan Shuo picked it up and sealed the iron gate.

However, it would be difficult to avoid the detection of some people.

Yuan Shuo looked at it for a while and gritted his teeth. “I’ll blow up the entire area when I get back. I’ll make the entire mountain collapse.”

“Teacher, this is too big of a commotion. It’s not good, right?”

“That’s true ... Forget it, I’ll think of a way later. Otherwise, I’ll be easily exposed. Even if I’m really exposed, no one can open it.”

The two of them did not feel any reluctance and quickly left the mine with Black Panther.

Li Hao took one last look back. This place ... Was definitely still his.

No one could snatch it away!

He was actually curious about what was behind the door. From the engravings, the swordsman might have entered behind the door ... Was it this embossed door?

Unfortunately, he had no way and no strength to explore it.

“Red Moon, six of the Eight Families’ weapons might be with them.”

Thinking of this, Li Hao’s hatred grew.

Putting aside the fact that he wanted to kill me, he even stole my clan’s treasures ... The eight clans are one, and with the other clans gone, the treasures of the eight clans will naturally be his.

Hong Yue had robbed the other families of their treasures, which meant that she had robbed him.

Li Hao felt even more resentful at this thought.

I'll kill you all sooner or later!

Yuan Shuo saw that he was gritting his teeth and thought that he was unwilling to give up. He felt a little helpless. This kid, why did he become greedy again at this time?

You've broken through a hundred perfections tonight, isn't that enough?

What an insatiable brat!

But ... I like it!
