## - Chapter 41 - 60

### Chapter 41: Demon-hunting team (3)

Translator: 549690339

Li Hao silently nodded.

Seeing this, Wang Jie didn't say anything. He actually quite liked Li Hao.

However, this was his goal in coming to the inspection Office, so he couldn't persuade him any further.

"The self-immolation case is over. If you still want to come back, you can write a report. You're always welcome to come back!"

"Thank you, chief!"

Li Hao thanked him, and Wang Jie said with a smile, "You're welcome. Go and report to the law enforcement team first and see when they will officially transfer people. When the transfer order is given, organize a farewell party in the confidential room."

"Thank you, chief!"

Li Hao thanked them again. Everyone had been nice to him in the critical room.

In fact, if it wasn't for the situation, he would have thought that staying in the importance room was a good choice.

1

.....

When Li Hao left the office, he didn't tell anyone that he was going to be transferred.

Li Hao didn't pack anything. After saying goodbye to Chen Na, he went out for a while and quickly headed to the law enforcement team.

The law enforcement team and the confidential room were both at the inspection Office headquarters.

However, they were not in the same building.

The computer room was in the office behind the patrol Hall, while the law enforcement team was in the building next to it. The entire building was the territory of the law enforcement team, which was much more luxurious than the computer room.

Li Hao, who was wearing an inspector's uniform, walked to the entrance of the law enforcement building. No one stopped him.

At the entrance of the building, the members of the law enforcement team were coming and going, each and every one of them looking very tough.

Compared to them, Li Hao seemed to be a little thin and unremarkable.

Li Hao didn't ask anyone and went upstairs.

He went to look for Liu Yan.

Liu Yan was the vice-captain of the law enforcement team and had her own office on the sixth floor.

Soon, Li Hao reached the sixth floor.

There weren't many people on the sixth floor, only some leaders' offices.

After looking around and finding the name plate, Li Hao knocked on the door of an office.

"Come in!"

Liu Yan's voice didn't sound as flirtatious as last night's. Instead, it was a little cold.

When Li Hao pushed the door open and entered, Liu Yan's tone changed. She said with a smile, "Oh, little Li Hao, you're here. It seems that you didn't sleep well last night and missed your sister so early in the morning?"

"Good Morning Captain Liu!"

Li Hao saluted and remained unmoved. He was very well-behaved.

She was flirtatious but not attractive to him.

Moreover, danger was lurking everywhere. He wasn't interested in admiring this person's charm. Not to mention, this Captain Liu wasn't simple and was in cahoots with Liu Long. Li Hao didn't want to find trouble for himself.

"Little Li Hao, why are you being so serious?"

Liu Yan smiled like a flower, while Li Hao stood straight and glanced at her office.

He was secretly shocked.

The office was huge. It didn't feel like it was smaller than the computer room's office area. It was at least 100 to 200 square meters.

1

That wasn't the main point. It was normal for the law enforcement team to be generous, but what was abnormal was that Li Hao saw some weapons of mass destruction placed in the office.

What was the third generation of the vortex?

Such a small pistol was trash!

Storm 1!

Li Hao had heard of this before. It was an extremely destructive assault gun that could fire 300 rounds at a time.

The Eagle Eye IV was the most advanced sniper gun with an accurate range of more than 500 meters, and its actual killing range was even larger.

Armor-breaking second generation, it was said that it could directly penetrate steel.

.....

This wasn't an office, this was an Armory!

Li Hao was shocked.

Liu Yan seemed to have noticed the change in his expression and immediately laughed. "Little Li Hao, don't be surprised. These are just models. I'm just playing with them. They're not real!"

Li Hao was speechless. Do you think I'll believe you?

Model?

The metallic texture emitted a cold metallic light. Was this a model?

Do you think I'm blind?

The law-enforcement team was really something. Liu Yan actually placed these weapons of mass destruction in her office in such a grand manner.

“It really is a model!”

Liu Yan laughed. Suddenly, she picked up a black grenade and threw it at Li Hao.”I’m just playing. It’ll be fine!”

Li Hao’s expression changed, and he hurriedly took it.

Cold sweat could be seen on his forehead!

F \* ck!

It won’t explode, right?

“Don’t be afraid!”

Liu Yan approached him and chuckled. Seeing Li Hao reach out to take the grenade and pull the pin, she chuckled and said,“I’m fine. The bolt wasn’t pulled. What happened?”

Li Hao’s scalp went numb!

Are you crazy?

She actually pulled the bolt!

At this moment, Li Hao wanted to escape.

Fortunately, Liu Yan quickly smiled and took the grenade, throwing it out of the window.

“I’m really fine, it’s fake!”

BOOM!

A loud sound was heard, and the room shook.

Li Hao’s face turned pale. Fake?

‘Also, is this woman crazy? you threw her down and she even exploded. This ... This is still fine?’

Liu Yan, however, had been staring at him. Seeing Li Hao's face turn pale, she suddenly stopped smiling and said calmly, "Little Li Hao, you can't do that!"

"What?"

"You're already scared?"

Liu Yan returned to her seat and leaned back in her chair. She placed her feet on the office table and said lazily, "This thing can't compare to supers! Some people could casually cast a small fireball and its power might be greater than this! If you are not careful ... You will die! If you're afraid of a grenade's explosion, you're too timid. How can you join us?"

Li Hao furrowed his brows slightly, but they quickly relaxed. "I don't understand any of this! I'm just an ordinary person. Even if I really join the law enforcement team, I might not have to deal with these people. Captain Liu, I should be afraid. I'll be more used to it after a few more times. "

## Chapter 42: Demon-hunting team (4)

Translator: 549690339

"Is that so?"

Liu Yan laughed, "you're so timid, but that's different from what boss said. He said you're very bold!" In fact, I also think that you're quite courageous. If you're really a coward, you know that the self-immolation case isn't simple, but you still dare to continue investigating it?"

"There are some things that I have to do!"

Li Hao also regained his calm, "you know that there are Tigers in the mountain, but you're still going to the Tiger Mountain! Just like you, Captain Liu, you know that supers are not easy to deal with, but you still provoke them. Are you not afraid? I think that everyone is afraid, but ... Sometimes, we have to do it!"

"That makes sense!"

Liu Yan nodded in agreement and laughed again. "That's right, everyone is afraid, I'm afraid too, boss is actually afraid too! Just because we're scary doesn't mean we'll give up!"

She looked at Li Hao. "I don't think you'll be of any help to us, but ... Since boss said so, then I welcome you to the law enforcement team. This isn't important. What's important is that I welcome you to the demon hunting squad!"

Demon hunting!

Li Hao's eyes flickered. Was this the name of their team?

Seeing Liu Yan's outstretched hand, Li Hao reached out to shake it.

As soon as they made contact, Li Hao's heart skipped a beat. The next moment, Liu Yan exerted force on her wrist and grabbed Li Hao's right hand. With a twist of her hand, before Li Hao could react, Liu Yan threw him over her shoulder. With a bang, Li Hao fell heavily to the ground!

The moment he fell to the ground, Li Hao quickly jumped up.

He had practiced the ape art for three years, and it was somewhat effective. Li Hao endured the pain and jumped out of Liu Yan's attack range.

Liu Yan didn't attack again and just watched quietly.

With a hint of admiration, he teased, "Not bad! Although his vigilance was a little weak and his skills were average, his reaction speed was still okay. This was the ape technique from the new book of five birds, right? You've trained quite well!"

1

Li Hao was silent and alert.

He was also shocked. This woman looked weak, but when she grabbed his arm, he felt that her hand was as hard as steel. Li Hao didn't need to look to know that his arm was swollen!

He had great strength!

1

He felt like he was being held by steel!

"I'm just testing your skills, don't be afraid!"

Liu Yan smiled flirtatiously and returned to her previous appearance.

Li Hao, on the other hand, didn't dare to be careless!

“It’s a good thing that you have the foundation of the five birds technique. The ape technique is not good at attacking, but it’s good at escaping. If you can practice it to your teacher’s level, even ordinary supers might not be able to catch up to you!”

Hearing this, Li Hao’s eyes flickered. He thought for a moment, then said in a low voice, “Captain Liu, you mean ... My teacher’s ape art is very strong?”

“What?”

Liu Yan was stunned for a moment. In the next moment, she laughed so hard that her body swayed back and forth.

“Who wrote the new book of five birds? It was made up by old Yuan! You suspect that the creator of the ‘new book of five birds’ isn’t strong in the five birds technique?”

Liu Yan laughed for a while before suddenly stopping. Your teacher, Yuan Shuo, may not be a superhuman, but back when superpowers were not around, he was a top-tier master in the mortal realm! However, when superpowers appear, if you don’t enter the realm of superpowers ... Sigh!”

He sighed, not knowing if it was for Yuan Shuo or for himself.

So what if the mortal’s martial arts were profound?

No matter how good one’s skills were, they might not be able to block a fireball, a flash of blade light, or a flash of lightning from a super.

This was a tragedy!

However, Liu Yan quickly sobered up. She retracted her smile and walked out. “Let’s go and find the boss. We can also let you understand what we’re doing and what you should do. You should have some understanding of the enemy and yourself. We don’t expect you to do anything, just don’t drag us down!”

Li Hao’s heart started beating.

Super power!

Perhaps, he could learn more about superpowers from Liu Long. This would be his first step towards becoming a superpower.

These people dared to attack supers, so they must have a good understanding of supers.

This was another important reason why Li Hao wanted to join the law enforcement team. Only by understanding his opponent could he better deal with the red shadow.

## Chapter 43: I feel like I'm very strong

Translator: 549690339

Liu Yan didn't bring Li Hao to Liu Long's office.

Instead, he turned left and right and finally entered the basement of the law enforcement building, which was an underground area that no one else could enter.

The place was very big. As soon as Li Hao entered, he felt that it was a little empty, but it was very quiet.

It was so quiet that it was a little scary.

If it could make one's hair stand on end in the law enforcement building, this place was obviously not ordinary.

At the entrance area, there was a large number of training equipment.

Just like Liu Yan's office, a large number of weapons were hanging on the wall.

There were both hot and cold weapons.

Blades, Spears, swords, halberds, everything was present.

As for hot weapons, Li Hao even saw a small cannon. Li Hao's scalp went numb. My God, how many weapons did these guys have?

The law enforcement team had an advantage.

Even if Liu Long's place was found, it would not matter. He was the captain of the law enforcement team, the boss of the blizzard Silver city's violent organization. If he said that these weapons were used to deal with criminals, no one would be able to find any fault with it.

If Li Hao dared to hoard so many weapons, he would have been captured and shot to death long ago.

In front of the fitness area and the weapons warehouse, there was a small passage that seemed to lead to other areas.

Liu Yan didn't bring Li Hao in.

Upon entering the fitness area, Liu Yan shouted, "Boss, they're here!"

A moment later, a few figures walked out from the depths.

Liu Long was tall and strong, Wu Chao was as thin as a bamboo pole, a man so fat that he trembled when he walked, and a petite woman who looked kind and was not very old.

Including Liu Yan, there were exactly five people.

This was the demon hunting squad of the law enforcement team.

Even though it was very hot in this season, Liu Long still wore a windbreaker, mostly to cover the weapons hanging all over his body. Otherwise, anyone would be able to tell that there was something wrong with him bringing so many weapons out.

“Liu Long!”

Liu Long strode over, his face still as cold as before. He introduced himself once more, “Captain of the demon hunting squad, you’re in charge of a frontal assault!”

1

Wu Chao, who was thin and weak, also laughed faintly, “Wu Chao, Scout of the demon-hunting team. You’re in charge of intelligence gathering and attracting fire from the side!”

The astonishingly fat man introduced himself with a simple and heavy voice, “Chen Jian, the shield Guard of the demon hunting squad, in charge of defense!”

The petite woman’s voice was also very gentle. “Yunyao, the doctor of the demon hunting team. She will be in charge of the treatment.”

Four people with different positions and different functions.

The division of labor was very clear!

Although there were few people, they had all the vital organs.

Li Hao glanced at Liu Yan. What was she in charge of?

Liu Yan smiled sweetly. When she saw Li Hao looking at her, she said, “What are you looking at? Liu Yan, the vice-captain and vice-attacker of the demon hunting squad! Boss is the main attacker, I’ll be responsible for the last hit!”

Li Hao understood.

Liu Long looked at Li Hao and calmly said, “we are all members of the demon hunting squad!” There were more people in the past, but now ... There’s a lot less. It’s just the few of us!”

“Now, the team only has two main and Deputy attackers, one doctor, one shield defender, and one Scout each.”

“Li Hao, are you willing to join us?” he asked in a deep voice.

Li Hao nodded.

Liu Long looked at him deeply, “Li Hao, do you know why we are called the demon hunting squad?”

Li Hao didn’t say anything.

Liu Long answered his own question, “because ... We are justice!”

Justice?

At this moment, Li Hao was even a little dazed. He looked at the people in front of him. Are we ... Justice?

Liu Long’s voice was cold and unquestionable, “We are justice! Perhaps we have our own goals and thoughts, but don’t forget that we’re the law enforcement team of the inspection Office! We’re a law enforcement agency, we uphold justice, we protect the Silver City, everything we do, on one hand, it’s to protect ourselves, to strengthen ourselves, on the other hand, it’s to maintain peace!”

“The demons we’ve hunted are all those who disturb the mortal world and have blood on their hands!”

“Li Hao, the first thing you have to do after joining us is forget everything else. Remember, we are justice! And those supers who made mistakes are demons. It’s just that the Nightwatchers can’t clean them up, so we’re in charge of cleaning up the filth!”

The moment he joined the demon hunting squad, Liu Long began to instill the mission of the squad into Li Hao.

Or rather, this was the badge of a demon-hunting squad!

A small team with their own plans was extremely dangerous to them, because the enemies they were dealing with were beyond their imagination.

Therefore, this small team actually had their own beliefs or beliefs.

1

Justice!

Regardless of whether it was true or not, they believed that they were the messengers of justice and were driving away the demons for the Silver City.

“Justice ...”

Li Hao muttered.

“That’s right!” Liu Long’s voice was extremely serious. Justice! Li Hao, remember this! The demon hunting squad was The Guardian of the Silver City! Without us, the Silver City would have suffered countless casualties and become the backyard of many supers!”

“Of course, you may not believe it now! However, go out and take a look. This vast world, with hundreds and thousands of cities, is in chaos except for the central region. The chaotic world has come, and human lives are like ants!”

“The appearance of a transcendent could cause chaos in a city! My Silver City had been living in peace for the past few years. Although there were riots, it had been peaceful! The demon hunting squad has been established for five years and has killed five supers, one per year. Every time, they are saving the Silver City!”

## **Chapter 44: I think I’m very strong**

Translator: 549690339

Liu Yan stood beside Li Hao with her arms crossed. She smiled and said, “Boss is right. Although boss likes to brag, his words are true! We joined the demon hunting squad for our own reasons. Maybe our original purpose wasn’t to protect anyone, but that’s the truth. Because of our existence, the Silver City can live and work in peace!”

Li Hao was deep in thought.

Perhaps, what Liu Long said wasn’t wrong.

They might have hunted down the supers to make themselves transcendent, but in fact, they might have also hunted down some supers who were preparing to wreak havoc in the Silver City.

Was it very chaotic outside?

Li Hao didn’t know.

He had almost never left Silver City. He had been to the neighboring city once, but that was many years ago.

“Li Hao, this is the first lesson I’ve taught you since you joined the team!”

Liu Long's tone was menacing. "Don't think that we're ghosts who act in the dark. Wrong, we're law-enforcement officers. We're messengers who uphold and uphold justice! Therefore, to us, anyone who makes a mistake is a devil! Demon hunt, demon hunt, we hunt these demons!"

Li Hao suddenly felt relieved.

Even though Liu Long's words were somewhat self-praising and had the meaning of a strategy.

However, when Liu Long said that they were the true justice and the true enforcers, Li Hao suddenly felt ... Very comfortable.

He just felt comfortable for some reason!

We're not sinister people who act in the dark. We're the Guardians of the entire city. Although this might not be our original intention, the truth is here.

An expert!

At this moment, Li Hao felt even more strongly that Liu Long was an expert.

Not only was his strength and mind top-notch, but the other party was also very good at guiding his thoughts.

He made every member of the demon hunting squad believe that everything they did was for justice.

No sense of guilt!

Killing supers would only make one feel accomplished. It was to protect the people, to protect justice, and to protect the Silver City.

This kind of psychological satisfaction was not something an ordinary leader could achieve.

As for Liu Long, he actually had some achievements in this area.

At this moment, Li Hao felt that joining a demon hunting squad might be a good choice.

At this moment, Liu Long said in a deep voice, "Li Hao, introduce yourself!"

Li Hao thought for a moment, then said, "I'm Li Hao, the chief patrol officer of the original intelligence office. I'm an expelled student from the Silver City ancient Academy! I'm skilled in the ape technique of the five birds technique, and my movements are more agile. "

“No more?”

Liu Long looked at him. Li Hao was a little embarrassed. “No,”

“Just like that, you’ve become Yuan Shuo’s last disciple?” Liu Long said coldly.

“That’s teacher’s favor,” Li Hao said, a little embarrassed.

“Li Hao, if you don’t have enough value here, we won’t give up on you when you’re in danger, but we won’t risk our lives to save you! If you have enough value, even if we have to sacrifice our lives, we will still let you live. Let our beliefs continue!”

Li Hao was silent for a while, then added, “I’m also good at deciphering ancient texts. In the exploration of ancient civilizations, deciphering ancient texts is an important part. My memory is very good, and this is one of my strengths. ”

The few of them looked at each other with strange expressions.

Ancient text analysis!

Would it work?

There was!

It was very useful!

Yuan Shuo’s current status was high because he was the head of the ancient civilization Exploration Department. His identity was not the key. The key was that Yuan Shuo was also an expert in ancient civilization and had a deep understanding of ancient civilization.

Therefore, even the night patrollers relied on him a lot.

However, the night watchmen did not dare to let Yuan Shuo become a super, because once Yuan Shuo became a super, a lot of trouble would happen.

There were some things that were useless to ordinary people, but they were very useful to supers.

However, supers often did not have enough knowledge and insight to identify things that were useful to them.

Yuan Shuo could do it!

An ordinary person like Yuan Shuo would not dare to keep it for himself.

However, once Yuan Shuo became a superhuman, he might not be able to control himself. Once he found some treasures, he might take them for himself without anyone knowing.

At this moment, Liu Long's eyes slightly lit up!

"How much of Yuan Shuo's true inheritance did you obtain?"

Li Hao said humbly, "Captain, you overestimate me. My teacher's knowledge is as vast as the ocean. I'm just absorbing a drop of it."

"Speak human language!"

"....."

Li Hao had no choice but to say, "I only followed my teacher for two years in the ancient academy. I mainly studied. I didn't participate in any practical activities." "Teacher is good at too many things. Right now, I'm only studying the analysis of ancient characters. Other abilities are far inferior to teacher's. Teacher is good at too many things, such as trap cracking, antique preservation, Feng Shui positioning, ancient civilization and culture ..."

Speaking of Yuan Shuo, Li Hao was also full of emotion. He sighed and said, "After I left the ancient academy, I was busy with other things and didn't have the time to study. Teacher's abilities, I really can't catch up to you!"

Liu Long said in a deep voice, "it's already very good!" To be able to catch Yuan Shuo's eye, it means that you have talent and ability!"

Ancient language analysis ...

He didn't say more about this and quickly said, "Very well then. Li Hao, from today on, you are the intelligence analyst of the demon hunting squad and ... The bait!"

"....."

There was silence.

Bait can also be a part-time job?

On the side, Wu Chao smiled faintly. His smile was always so ghostly and a little cold.

"Little friend, it seems that I can be liberated! Before this, after the previous bait of the demon hunting squad died, I had always been the one to take over the position. I was really afraid that I would die one day, but now it seems ... Someone has taken over the position!"

## Chapter 45: I think I'm very strong

Translator: 549690339

It turned out that he was the previous generation!

Li Hao was also speechless.

Of course, before he came, Liu Long had already made it clear that he was the bait.

However, it was now officially confirmed.

The next moment, Liu Long looked at Li Hao and said with a slight frown, "Of course, I asked you to be the bait, not to send you to your death! Your strength doesn't seem to be much with that body of yours. Even if you've cultivated the ape Arts, you won't have much of an impact in such a short time!"

Then, he walked towards the fitness equipment. "Come, let's test your abilities! Let me have an idea of how I'm going to train you next. At the same time, I'll see if you have the confidence to escape from the hands of supers. "

Experiment?

Li Hao didn't say anything and followed him.

The others were also very curious and followed him.

Liu Yan's mouth was almost touching Li Hao's ear. She softly laughed and said, "Show me all you've got, don't hide! You're too weak, so there's no need to hide it. Hiding your strength will only make your harvest small. Boss still has some good things on hand!"

Li Hao didn't say anything. He just avoided the other party's mouth. Don't blow into my ears. It's uncomfortable.

"Giggle ..."

Liu Yan laughed happily. In front of them, Liu Long didn't care about this.

The other female member, the doctor, Yun Yao, chuckled and said, "Sister Yan, stop teasing him."

"Who's teasing him?"

Liu Yan smiled like a flower. "Little Hao is so good-looking. Look at our team. They're ugly!" He was as thin as a bamboo pole and as fat as a wall. The captain was still

alright, but not only was he old, his skin was also dark, like a black coal ball! Little Hao is still the prettiest!”

The other three men’s footsteps slowed down.

No one said anything.

However, Li Hao felt that he was innocent. He seemed to have offended three people at once.

I didn’t say any of that. It was Liu Yan who said it, so don’t hold a grudge against me.

At this moment, everyone had already arrived at the fitness area.

All kinds of equipment!

Liu Long didn’t care about what had just happened, and his voice remained the same, “Before entering the transcendent realm, humans also have powerful cultivators. For example, your teacher Yuan Shuo has cultivated the five birds technique to the extreme, and his combat power is extremely strong!”

“For example, the previous patrol Secretary wore an iron cloth armor and cultivated it to the extreme. Ordinary swords can’t penetrate it, and firearms can only leave some external injuries.”

“These people are all in the mortal realm. They are the representatives of a divine technique that has been cultivated to the extreme!”

“Before the appearance of transcendents, we called these people martial masters! He’s a martial arts master and a Grandmaster. He’s the representative of a mortal body that can resist firearms!”

A Martial Master!

Li Hao listened carefully. These were all areas he had never been involved in before.

Liu Long continued, “there are also strong and weak martial masters. Of course, most of the time, it’s not just a matter of strength!” Some are skilled in speed, some are skilled in defense, some are skilled in strength ...”

“Everyone has their own strengths, so naturally, it’s not good to put them together and distinguish them! The faster one might be able to kill the stronger but slower Martial Master! The stronger one can also kill the faster Martial Master with one punch. ”

“As a Martial Master, you must have an outstanding ability that surpasses ordinary people. Only then can you be called a Martial Master! Speed and strength are the most

intuitive manifestations. As for other aspects, such as defensive ability, such as Chen Jian 's, it is difficult to measure how good he is until it is a life and death moment. ”

Li Hao nodded again.

This was the logic!

He looked at Liu Long and asked curiously, ”Captain, are you saying that it’s difficult to distinguish between the strong and the weak? ”Therefore, all martial masters are similar ... ”

“Nonsense!”

“ .....

Li Hao was speechless. You said so.

Liu Long turned to look at him, ”don’t think too much. The strong are strong, and the weak are weak!” Therefore, more than ten years ago, martial masters were also divided into strong and weak, but there were not many levels. They were ten-slash, hundred-breakthrough, and thousand-combat! This is a Martial Master!”

Li Hao was slightly stunned. This ... Was too intuitive!

It was too simple!

Liu Long seemed to know what he meant and coldly said, ”You understand it immediately, right? He was just this direct! The people here referred to the standard of the soldiers in the regular army! The most basic requirement for anyone who could be called a Martial Master was to be able to break through a ten-man team and kill them. This was the standard of killing ten! If you can defeat an Army of a hundred with a single strike, you are an expert who has surpassed a hundred!”

“As for Qian warrior ... ”

Liu Long took a deep breath. ”That’s only in theory. In reality, no matter how strong you are, you’ll still die if you encounter an Army of a thousand people, even without firearms!” Your physical strength and mental strength will be rapidly consumed in battle. No matter how strong you are, there is a limit. You can’t possibly achieve a thousand-man move!”

1

“It wasn’t until the appearance of supers that some powerful supers were truly equipped with the ability of a thousand-man fighting machine.”

Li Hao was slightly dazed. He asked, "Captain, do you mean that only powerful supers can do this? does that mean that some weak supers can only kill ten or break a hundred?"

"Also?"

Liu Long looked at him and said with a mocking tone, "Just? You'll know when you try! Breaking a hundred, one against a hundred! His speed and strength had both reached an extreme. This kind of superhuman also had some special abilities. Even if there were more than 100 martial masters, they would still have a slim chance of survival if they encountered this superhuman! Do you think it's weak?"

Li Hao didn't say anything.

Breaking a hundred ...

It didn't sound difficult, but in fact, there was really a 100-man team on the other side, all of which were powerful soldiers. Li Hao would probably be hammered to death as soon as he charged in.

## **Chapter 46: I feel like I'm very strong**

Translator: 549690339

At this moment, Li Hao was very curious about Liu Long's strength.

"Then the captain ... Has the strength of over a hundred?"

Liu Long's face was indifferent, and Liu Yan continued with a smile, "I guess so, barely! If the boss is not strong, how can he lead us to kill supers? Supers are still very strong. Even the weakest one has the strength of over 100, and they are more difficult to deal with!"

This time, Li Hao clearly knew how strong his Captain was.

Of course, he only knew what it meant literally. As for how powerful it was in reality ... He really didn't have any direct experience.

Breaking 100 didn't sound like much.

"What about teacher Yuan?"

"Your teacher probably had over 100 combat power at his peak, but now he's old and weak. His physical strength and speed are declining. I'm afraid he won't be able to do it."

Liu Long shook his head slightly, "back then, a portion of the top-notch martial masters had reached this level!" However, in the past few years, as firearms became more powerful and superpowers appeared, everyone pursued superpowers. Very few people would put in the effort to cultivate these ordinary martial arts anymore!"

"With the introduction of the mysterious energy, one will be able to reach the sky in a single step. His physique will be strong and his physical abilities will be strengthened. He might be an ordinary person, but after a day, he might be comparable to a Martial Master who has slashed ten times. After some time, he will become a martial Dao Grandmaster who has slashed over a hundred! Tell me, how many people are still willing to practice ancient martial arts?"

He looked at Li Hao and sighed. "Superpowers are to break the limits of the human body. They allow humans to break through their limits and increase their upper limits infinitely. Even a wooden bucket with a little water can contain more water than a wine glass!" And the ordinary martial masters were the wine cups! Superpowers were like wooden barrels! Do you understand?"

Li Hao nodded in understanding.

It was indeed very despairing!

If a normal martial artist could not absorb the mysterious energy and become a super, they would not be able to break through their limits even if they trained for their entire lives. If they could not even defeat a beginner super after years of hard work, how despairing would that be?

Yuan Shuo, for example, had been practicing martial arts at a young age. Now that he was over seventy, his physical strength was declining. He had been a leader in the martial arts world, but the result was good. He had broken through a hundred in the past, but now he might only have the strength to slash ten.

This kind of strength was only at the beginner level among supers!

A 70-year-old Grandmaster could only be compared to some young people who had just entered the sect. No wonder when he was practicing the five birds technique, teacher Yuan had only said that he would have an additional life-saving ability to strengthen his body.

He had never said that this was a killing technique!

Because the reality was too despairing!

As for Liu Long, he gave a simple introduction and quickly said, "Go and try. I'll observe your speed and strength to see what you're capable of."

Li Hao didn't say anything else.

He didn't hide it and there was no need to.

With his basic ape art skills, he was afraid that these few people really didn't care about him.

In the arena, Li Hao was like a monkey, jumping and rolling around the entire fitness area. From time to time, he would use his Monkey Fist and hit some sandbags, causing them to bounce out.

.....

Outside the stadium.

Liu Long observed silently.

The thin and weak Wu Chao looked at it for a moment before shaking his head lightly, "He's stronger than most people and he's on par with some of the old patrol officers in the team. But ... Boss, can he escape from the pursuit of a superpower?"

The chubby Chen Jian also said gloomily, "I definitely don't have the level to cut ten. At most, I'll cut two and three!" This is the first time our demon hunting squad has recruited such a weak guy in all these years, right?"

If he encountered two or three soldiers, Li Hao's abilities might be of some use and he could kill them.

However, the difference between two or three and ten was not three or four times, but more than ten times the difficulty.

In their eyes, Li Hao was too weak.

Liu Yan crossed her arms and looked at it for a while. She smiled and said, "Keep him. It's not bad to look at him. He can also do some logistics or intelligence analysis. He's a civil servant, not a warrior like you!"

Li Hao was a civilian staff, so he should have been prepared.

Liu Yan didn't think there was anything wrong with it.

Everyone thought about it and felt that it made sense.

Liu Yan continued, "get some firearms. Is slashing ten very powerful?" With one shot, he would still be killed! Of course, once you've broken through a hundred, be it a Martial Master or a superhuman, it'll be hard to deal with them. "

The main thing was that it was difficult to lock onto a target. Once you saw someone, your brain would issue an order. The next moment, the other party would appear in front of you and kill you with a single slap. Then, no matter how strong the weapon was, it would be useless.

In fact, firearms still possessed extremely powerful killing power.

If there was someone holding him back, it was not impossible for him to be blasted to death if he broke through 100.

Liu Long also nodded slightly, "he'll definitely carry firearms. Pick some that are easy to use, convenient, and light for him to use!" As long as this guy has the brains, it's fine. As for his skills ... If he can kill a superpower and introduce some mysterious powers into him, even if he can't become a superpower, it's not difficult for him to break through 10 points in terms of physique and speed. "

"The point is, this guy ... He's not just a civilian, he's also an expert in the ancient language. Although he's definitely not as good as Yuan Shuo, he's probably enough for us!"

The moment these words came out, the few of them were deep in thought.

Li Hao was still quite useful.

Joining a demon-hunting team seemed like a good idea.

.....

At this moment, Li Hao, who was jumping at high speed, felt that he was not bad. At least, he was much stronger than before.

When he left the field, panting, he said with some anticipation, "Captain, do you think there's a difference between me and a Martial Master who has cut ten? can it be counted as breaking ten?"

He felt that he had the chance to fight ten people by himself!

As for Liu Long, he hesitated for a moment and was also a little embarrassed. He was unable to reply for a long time. Where did this kid's confidence come from?

Ten cuts, that's it?

As for the others, they also looked at each other in dismay. Humans indeed did not know their own limits!

Cut ten?

You should wash up and go to sleep!

Li Hao also gradually sensed that something was wrong. After a while, he said, somewhat embarrassed, "Nine beheading?"

"....."

The few of them didn't say anything.

"Cut five?"

"....."

It was still silent.

Li Hao's expression changed. It can't be, right? after drinking the sword water, I thought I was already very powerful and could even fight with teacher Yuan. But teacher Yuan's power is over 100, so I can't be that much weaker, right?

Teacher yuan can make five rounds with her ape art. If she can make a ten-minute round trip, I can also make a nine-minute round trip!

After a long time, Liu Long broke the silence, "don't think too much. I'm not afraid of weakness. I'm afraid of laziness!" If you do well, you'll only be able to cut ten. "

"....."

There was silence again.

Li Hao understood and felt helpless and sad. So I don't even have the ability to cut five?

'Then why did I still want to kill the red shadow? F \* ck, the ignorant are really fearless!'

## **Chapter 47: The superpower territory (1)**

Translator: 549690339

"Is beheading ten very strong?"

In the basement, Li Hao was still in disbelief.

Beheading ten really didn't sound like much.

One against ten, it didn't feel that exaggerated, right?

As far as he knew, some old patrol inspectors seemed to be able to do it.

“Is he very strong?”

Liu Long said coldly and arrogantly, “to me, it’s naturally very weak!” For you, a Martial Master of the ten slashing realms can kill several of you without any problem!”

On the other side, the short yunyao said softly, “Li Hao, don’t underestimate any Martial Master! “Beheading ten directions to become a Martial Master. If you can break through an army formation of ten people and kill all of them, that’s beheading ten directions! One against ten and one against one, killing ten people in a wheel battle, are two different concepts. ”

“It’s useless to talk too much to him. Chen Jian, go and teach him what a Martial Master is!” Liu Long said lightly.

“Me?”

The big fatty Chen Jian was a little honest, “I’m not good at attacking, and I’m very slow. This kid’s speed is still okay.”

They were good at different things!

Li Hao’s speed was even faster than his, and he was better at defense.

“Try it!”

Liu Long frowned slightly. “Just play with him. You’re good at defense and not at offense. That’s to avoid killing him!”

Alright!

Hearing this, Li Hao was a little sad. So he had found a shield to test himself, but he was afraid that he would die.

However, Li Hao was really tempted.

Men all had a competitive heart and a little desire to fight.

He didn’t know how powerful the fat Chen Jian was, but the other party’s physique was so big. Even if he couldn’t beat him, if he ran, the other party wouldn’t be able to catch him, right?

At this moment, Chen Jian’s smile was simple and honest. He glanced at Li Hao, who was somewhat eager to try, and said, “Then let’s have a spar?”

He then added, "I'm the weakest in our team, and I'm good for nothing except defense!" You've practiced the five bird ape technique, so you're quite fast. I might not be able to catch up to you ..."

Li Hao glanced at him. It was fine if he didn't say anything, but now that he did ... Li Hao was a little worried.

This fatty couldn't be very powerful, right?

"Chen Jian is the weakest in the team in terms of speed, attack, and breakthrough ability, except for defense. If you're not willing, then let's change it to Wu Chao!" Liu Long said impatiently.

Li Hao glanced at Wu Chao and shook his head.

Forget it!

The Thin Man was obviously very agile, and the other party was a Scout in the team, who was smarter than a monkey. Li Hao knew his own situation well. He might not even be able to touch him.

"Then here I come!"

Chen Jian took a step forward, his movements very slow.

Li Hao didn't say anything else. Just as he activated the art of ape, Chen Jian's fan-like palm slapped over.

Without thinking, Li Hao jumped up and retreated.

This guy's slap didn't look light.

On the other side, Chen Jian slapped Li Hao. Seeing Li Hao jump up, he did not think twice. His movements did not seem fast, but he slightly moved to the right. The next moment, Li Hao's expression changed.

His landing point was over there!

He didn't fall behind directly!

In midair, Li Hao hurriedly leaped into the air to borrow the force of the attack. He kicked his feet in a flurry, without any sense of beauty.

Real martial arts didn't have much beauty to it.

The ape technique was still fine, but some of the other techniques of the five birds technique looked even more silly. They even had to lie on the ground and run on all fours, making them even uglier.

On the other hand, Chen Jian's fat face revealed a simple and honest smile, as if he had already guessed it.

This was not because his reaction was faster or because of his strength, but because of his experience!

If one did not have any experience fighting supers, they would have died long ago.

Li Hao kicked randomly, using the air resistance to shift his position. At the same time, Chen Jian was not in a hurry, as if he had casually taken two steps. At this moment, Li Hao could no longer borrow force, and fell directly.

This time, the landing point was less than a meter in front of Chen Jian.

The two sides were practically face to face!

The moment Li Hao landed on the ground, he felt the force of the ground and was about to use the force to bounce away. At this moment, he saw a big palm from the corner of his eye. It was the big palm from the beginning.

Pa!

A crisp sound!

Li Hao rolled in the air and fell to the ground with a bang.

Chen Jian did not hit his face, but his neck. At this moment, his neck was blood red.

At this moment, Li Hao was completely dumbfounded.

His neck seemed to be broken!

At this moment, he couldn't feel anything. His head was dizzy, and he couldn't even feel anything below his neck.

He jumped and used the air as leverage, but he was stunned by a slap.

He was completely stunned!

As for Chen Jian, he was still simple and honest. At this moment, he looked at his own big palm, then at Li Hao, who was on the ground. He smiled awkwardly and turned to look at Liu Long and the others.

“I ... I didn't expect his reaction to be so slow ...” Said Jian Jia.”Also, I didn't expect him to jump as soon as he came up. Boss, you said that if you're not strong enough, jumping in the air is suicide ... I didn't expect to encounter it today.”

If one's strength wasn't enough and they jumped into the air, once their path of return was blocked, they would be at the mercy of others.

This was a huge taboo in actual combat!

Even if there were more than 100 martial masters, unless it was absolutely necessary, they would rarely leap into the air in actual combat. If that happened, all the openings would be exposed, and there would be no chance to counterattack.

Being down-to-earth was something that every Martial Master had to remember in actual combat!

Li Hao, on the other hand, thought that he was faster and more agile after learning the ape art, so he jumped into the air. However, he was immediately stunned!

.....

The entire basement was silent.

There was only Chen Jian's simple and honest explanation.

## **Chapter 48: The superpower realm (2)**

Translator: 549690339

Li Hao, on the other hand, had his head lowered and his face flushed red. He, who thought he was smart, had suffered a huge blow today.

Li Hao, who thought he was quite strong, was sent flying by a Shield Guard in his team with a light slap. If he hadn't shown mercy, Li Hao suspected that his neck would have been broken by the other party!

Li Hao, who had just thought that he could at least cut five or six times, had completely given up.

At this moment, he seemed to have come to a realization and understood something.

“I ... Am not a Martial Master. Strictly speaking, I am just a dabbler who has only practiced martial arts for a few days. I have not had any actual combat experience. In fact, I am just a real noob. He has always overestimated himself!

Thinking back to the scene last night, he was still thinking, "as long as I draw my gun fast enough, can I kill the red shadow and the person behind the red shadow?"

Thinking about it now ... He was really naive!

How childish!

.....

The others all looked at Liu Long, then at Li Hao, and revealed strange expressions.

Had this guy collapsed from the blow?

This ... His mental fortitude seemed to be very poor!

Liu Long also frowned slightly. He did have the intention to intimidate Li Hao, but that wasn't the main thing. He wanted Li Hao to understand that the enemy they were facing was far more powerful than he had imagined.

But in the end, Li Hao seemed to have lost his confidence after a single spar.

At this moment, Li Hao was still lying on the ground. Could it be that he couldn't accept such a failure?

"Is that all?"

A hint of disappointment appeared in Liu Long's eyes. He had originally thought that even if Li Hao's strength was lacking, his mind, brain, patience, and bearing ability were all top-notch. After all, he had caught Yuan Shuo's eye and was even willing to secretly investigate a year's worth of cases for his friend's sake. He felt that Li Hao was still worth nurturing.

But at this moment, Li Hao's life was too smooth. Could such a person withstand the blow?

He was thinking.

At this moment, Li Hao stood up and rubbed his neck, a hint of shyness on his face.

He was like a young boy!

In reality, he wasn't old to begin with. If he didn't drop out of school at this time, he would still be a student of the ancient academy.

"I always feel that I'm different from the rest. I'm smarter than everyone else. To be able to get into the ancient academy, to be accepted by teacher Yuan as a disciple, to be

able to successfully enter the inspector's office, to be able to investigate cases ... I feel like I'm capable of anything. I feel like I'm doing pretty well in everything ..."

As Li Hao spoke, he shook his head and smiled bitterly."Today, I learned that I'm nothing when I fight! I've only learned the ape Arts for three years, and I've been slacking off for the past year. How can I compare with you guys? I'm afraid you've been practicing martial arts for many years, right?"

"Sixteen years!" Chen Jian replied honestly. I only started practicing martial arts when I was 12. "

"....."

Li Hao was speechless.

It wasn't because he had been practicing martial arts for 16 years, but because ... The other party was 28!

What a joke!

You're only 28?

At first glance, he thought that Chen Jian was at least 40 years old, but he was only 28 years old?

He was speechless!

Li Hao thought to himself, but he didn't say it out loud. He looked helpless."My teacher once said that in practicing martial arts, one needs talent and two needs hard work! Hard work was more important than talent! I've been practicing martial arts for 16 years. I don't care if I have talent or not, but even if I do, I'm just a lazy person. I'm lucky that I didn't get killed by brother Chen!"

Chen Jian laughed embarrassedly."Don't say that. It's actually not that bad. Although I held back, I used 30% of my strength. You didn't even faint when I slapped you. You were just lying on the ground. It's actually very powerful."

"....."

Was this a compliment?

Li Hao looked at him. This fatty who looked like a simple and honest old brother ... Didn't have any other meaning in his words, right?

A Shield Guard only smacked you to the ground with 30% of his strength and didn't kill you. Is that something to be proud of?

At this time, Liu Long spoke, "it's good that you can come back to your senses. I was still thinking that if you want to quit after this slap, I'll fulfill your wish. It seems that you're quite resilient."

"But I want to tell you that Chen Jian is only a Martial Master with ten kills, and his main focus is defense!" You must remember that any super is far superior to him! If you can't even avoid Chen Jian's attack, don't even think about escaping from the hands of supers. "

"Of course, you've just joined us, so it's normal for you to be a little weaker. You're only a reserve team member now. Other than dealing with the guy in the self-immolation case, you'll be the bait. At other times, you'll mainly be strengthening yourself and helping us analyze and organize some data!"

He didn't expect Li Hao to come in handy now.

There was no hope at all!

After he finished speaking, Liu Long tightened his trench coat and looked at the others. He quickly said, "Liu Yan, help this guy and figure out the situation first! Don't die in the next mission for no reason. "

"Don't worry, boss. I'll take care of him!"

Liu Yan laughed heartily, while Li Hao wanted to say something but stopped. After thinking for a while, he decided to just let it be.

At this moment, he was just a little brother in this demon hunting squad.

Even Chen Jian, who was known as the weakest, could easily kill him. What else could he say?

As for doctor yunyao, Li Hao didn't want to ask her any more questions. She looked kind and weak, but in fact, no one knew what was going on. Some people looked weak, but they were actually more terrifying.

As for Liu Yan, he was at least more familiar with her and had at least spoken a few more words.

Liu Yan looked at Li Hao with a smile. "Little Li Hao, come to the office with your sister for a chat. It's too depressing here."

## **Chapter 49: The superpower territory (3)**

Translator: 549690339

“Captain Liu, there’s no hurry.” Li Hao thought for a moment and said.

“Captain Liu ...” He looked at Liu Long.

“I’ll allow you to call me boss!”

Liu Long’s face was cold and arrogant, as if calling him boss was a great achievement.

Li Hao didn’t say anything. Since he was under the roof, he was the boss.

“Boss, Zhang Yuan’s murderer probably already knows that we’re investigating him last night because we made quite a commotion! I’ve studied the case records, and every rainy day might be the time for the other party to make a move ... And it’s been almost a year since the last incident. According to the time, the other party might make a move in a rainy day in a few days. ”

“I know!” Liu Long nodded lightly. I’ll naturally prepare for it. You’re trying to say that you’re probably the next target, and you’re afraid, aren’t you?”

Li Hao didn’t say anything.

“Don’t worry!”

Liu Long didn’t explain too much. He only reminded Li Hao, “Your goal now is to understand more, to know more, and to better protect your life! As for the person behind the self-immolation case, we will find a way!”

Li Hao could only choose to trust them!

Moreover, he didn’t think that Liu Long would seek death.

After saying that, Liu Long strode out. Wu Chao and Chen Jian quickly followed him. Yun Yao didn’t follow him. Instead, she greeted Li Hao and the others before walking deeper into the basement.

Liu Yan glanced at Yun Yao, and then saw Li Hao staring at Yun Yao. She suddenly felt a little amused and chuckled in a low voice. “Little guy, is it stressful to chat with your sister? This one, don’t keep thinking about her, she’s a good sister. ”

“Captain Liu, you misunderstood!”

Liu Yan laughed again, “misunderstanding or not, it’s nothing. I’m just reminding you!” A doctor ... Not everyone could be a doctor! For us, it’s useless to find a doctor for

ordinary injuries! Besides, doctors are usually the most important people in a team. They have to take on tasks that no one else can do. ”

Li Hao’s interest was instantly piqued. He curiously asked, ”What?”

At this moment, Li Hao was interested in everything. Only by understanding everything quickly could he keep up with the others.

“Strip the mysterious energy!”

Liu Yan smiled as she spoke, but there was a hint of fear in her smile.

Strip the mysterious energy!

Li Hao was slightly dazed.

The mysterious energy was something that normal people could not see. As for whether supers could see it ... They might be able to see it, but the people in front of them were not. It was obvious that it was not easy to strip away the mysterious energy.

And yunyao could do it!

According to Liu Yan, Yun Yao was indeed an extremely important part of the team. They hunted supers to take away the mysterious energy. Without Yun Yao, there would be no meaning to the existence of this team.

Even someone as unscrupulous as Liu Yan was afraid of her.

Li Hao kept this in mind.

Although this team was made up of ordinary people, in reality, they were not simple. None of those who could enter the team were easy to deal with.

“Let’s go, stop looking!”

Liu Yan casually kicked Li Hao and chuckled. ”This woman, stay away from me! She’s even more difficult to deal with than boss, and you can even joke around with boss, but don’t talk to her!”

Li Hao obediently nodded.

At this time, he was very honest. It was as if he had returned to a year ago when he first entered the important room. At that time, he was also very honest and didn’t dare to say a word. He just treated himself as a little brother.

I’ll do whatever I’m told to do!

A year later, he was still as honest as ever, but the entire computer room would say good things about him. No one would say he was bad, and that was enough.

.....

Following Liu Yan, the two of them returned to the office on the sixth floor.

He had only stayed for half an hour, but when he came back up, the office, which had been terrifying a moment ago, gave Li Hao a sense of security. It was much better than what he had experienced downstairs.

Bang! Bang!

Liu Yan still slammed herself heavily into the chair without any regard for her image. She placed her legs on the table and gestured for Li Hao to sit anywhere he wanted.

After Li Hao sat down, Liu Yan spoke in a casual tone.

“Boss asked me to give you a brief introduction ... I don’t know where to start. After all, I know everything. Why don’t you ask me yourself? if there’s anything you want to know, you can ask and I’ll answer!”

Li Hao said seriously.

He looked polite, but in order to understand more, he would not be polite. He was direct and immediately asked, “Captain Liu, How do I become a super?”

“Two situations!”

“Number one, I was born with it!” Liu Yan said directly. Some people are born with the ability to absorb mysterious energy. They don’t need to cultivate or draw energy into their bodies. Their bodies have some mysterious Energy Foundation, which is naturally strengthened. These people are also known as heavenly God Masters!”

Heavenly priest!

Li Hao remembered this name.

“Second, draw energy into the body! This was the conventional way of advancement, which was to absorb mysterious energy, use it for baptism, and activate the mysterious energy in their bodies. This kind of super was the mainstream and a step that most supers had to take! These people are also known as Starlight Masters in the entire superpower system!”

“Mysterious powers, like the resplendent Starlight, are absorbed by the supers, so they call themselves the Starlight that shines upon the world.”

Starlight master!

Li Hao remembered it again.

In other words, the entire superpower system was divided into two main categories due to the different methods of birth?

“Just these two?”

Liu Yan nodded. “Strictly speaking, we’re also considered the second type. We want to advance to become supers and Starlight Masters by introducing the mysterious energy. So, we’re not considered the third type.”

## Chapter 50: The field of superpowers-4

Translator: 549690339

After some thought, she said, “But rumor has it that there’s actually another way to advance.”

“What method?” Li Hao asked, a little interested.

“It’s said that some powerful supernatural items can directly change one’s Foundation and allow one to advance into the supernatural realm!” In other words, with the help of external objects, you can become a super. ”

Li Hao’s heart skipped a beat!

A super item!

Did the starry sky sword and the stone saber count?

Liu Long should also know that these items were in his hands, but why ... Did he not mention them? was he secretly planning something, or did he really not care?

In the next moment, Liu Yan continued, “of course, this method is not mentioned because it’s very difficult!” First, the Super item needed to be very powerful, and it was impossible for ordinary people to obtain it. Secondly, it was said that there were some restrictions to the Super items. Not everyone could transform after obtaining them. I don’t know the details, but boss might know, but you don’t have to worry about it. ”

Li Hao didn’t say anything and just nodded.

Changing the topic, Li Hao said, “Then what did boss say about matching superpowers and drawing energy into the body? what’s the situation?”

“Everyone’s body is different and they are good at different things. There is not one superpower but many forms. For example, boss was good at attacking, but he didn’t know what kind of attack he was good at. Was it lightning? Flame? Bingxue? In short, with the difference in attributes, he doesn’t know what kind of power he has. At this time, if he draws on an incompatible mystic energy, it will be very difficult to unlock the superpower lock in his body!”

“A superpower lock?”

“It’s what we call a Super Barrier! I don’t know if it exists or not. The boss said that the night patrollers said that everyone had a lock that locked the mortals and superpowers! Only by opening this lock can you step into the supernatural realm!”

Li Hao understood.

Unlock the SuperLock!

This was what these mortals were after.

This was all Li Hao could ask about supers. The next moment, he asked something more important, “Captain Liu, if I want to become a super, is there any way?”

“Draw energy into your body, but it’s probably very difficult for you to get any mysterious energy right now unless you kill the murderer of the self-immolation case this time. Let’s see if I can get you some ...”

“That depends on how much you’ve contributed!” Liu Yan replied bluntly. It didn’t mean that just because you were weak, you had a reason to be allocated more! Our demon hunting squad is very fair on this point. Whoever contributes the most will get the most. ”

Li Hao nodded in understanding.

“Then, I ...”

“You want to say, do you have any way to become stronger?”

Liu Yan smiled and nodded, “yes!” Before becoming a superpower, if he could not directly enter the realm of superpowers, he would have to strengthen his martial arts abilities! You’re too weak, but there are many ways to strengthen yourself. ”

Li Hao raised his head in anticipation.

“First, you can continue to train hard!” Liu Yan said after a moment of consideration.

“Second, a good martial arts technique. Your five birds technique is actually very good. Elder Yuan was a Martial Master with a cultivation of over 100 martial masters, so

there's no need to say much about this. Moreover, the five birds technique is actually very comprehensive. It's good at attack, defense, and defense."

Li Hao nodded. This was true. The five birds technique had five main categories, and he had only learned the ape technique.

"Third, external force!"

Liu Yan smiled."This external force is mainly the mysterious energy. If the mysterious energy can't help us unlock the superpower lock, it can help us strengthen our physique. Physique is the foundation!" You have a good body and strong qualities. With a powerful cultivation technique, you will naturally be stronger!"

Mysterious energy!

Li Hao was deep in thought. This ... I do!

Soaking in sword water!

"Of course, there's more than one type of external force. The mysterious energy is only one of them. In fact, there are many other external forces that can strengthen one! If that's the case ... Perhaps you can look for your teacher. "

Li Hao was startled. What did he mean?

Liu Yan smiled happily and said playfully,"as the Dean of the archaeological Department, I've explored countless archaeological ruins. The night patrolman did take most of the spoils, but in order to appease your teacher, he would leave some for him!" And the archaeological ruins have the most treasures! Since you're so weak, you'll naturally benefit endlessly if your teacher gives you something good!"

Li Hao didn't say anything. How could he ask his teacher for a treasure?

You must be joking!

"Hahaha, don't be shy. Not only your teacher, but our demon hunting squad also has such good stuff!"

The next moment, Liu Yan whispered,"you won't lose out if you listen to me. As long as you perform well in front of boss and are worth investing in, boss won't be stingy!" After killing a few supers, plus we are the law enforcement agency of the Silver City, we still have a small Treasury. "

Li Hao blinked. He understood!

After some consideration, Li Hao asked, "Sister Liu, is there no clear sign of an increase in strength other than one's own feelings? For example, will there be any changes when you reach the tenth realm?"

"Change?"

Liu Yan was taken aback for a moment before she quickly smiled and said, "there is, but a Martial master's strength still depends on actual combat and true ability!" There's an actual combat training room at the back of the basement. You'll know when you go in. When you can pass the first level in there, you'll be ten beheading! It means that you have the strength to kill a ten-man elite team!"

Training room?

Li Hao noted it down again and became interested.

He looked at Liu Yan again. Apart from these, was there no other benefits or help in joining the demon hunting squad?

Liu Yan was taken aback by his stare. She seemed to understand what he meant and laughed a little after a while. Her smile was as bright as a flower. "Little guy, you don't seem to be as honest as you appear to be!"

"For justice!" Li Hao smiled innocently and said softly.

For justice!

Liu Yan could no longer smile. After a long while, she shook her head and sighed. "You're really good at applying what you learned! I Can't Give You Anything else since you've just joined, but ... Take as many firearms as you can in my office! Moreover, they're all legal. Right now, you might need these things more. Strengthening yourself really isn't something that can be done in a short time. I've been practicing martial arts for almost twenty years, but this is all I've got ..."

Li Hao nodded. It's been twenty years. How old have you been practicing martial arts?

The person before him looked to be around thirty, but he couldn't be older than forty, right?

Of course, Li Hao didn't dare to ask.

These people practiced martial arts for ten to twenty years, which was quite terrifying. Li Hao knew how difficult it was to practice martial arts. In fact, it was quite difficult. In the past three years, he said that he didn't put in much effort, but in fact, he practiced the ape art whenever he had time. Seven or eight of the hanging rings at home had been broken, and many of them had fallen to the ground.

Li Hao asked a few more questions, and time passed quickly.

It was only when Liu Yan reminded him that it was almost time for dinner that Li Hao finally stopped his questioning.

The more he understood, the more he yearned for it!

If he couldn't enter the superpower realm quickly, it would be good for him to improve his martial arts and have more self-protection abilities.

“Soaking in sword water is a good thing. I have to get more and drink more!”

Li Hao felt a cool sensation on his chest. This might be the only way for him to quickly close the gap between him and the others.

## **Chapter 51: Chapter 16: teacher (1)**

Translator: 549690339

On this day, Li Hao didn't do anything but ask and listen.

Apart from seeing Liu Long once in the morning, he was nowhere to be seen the rest of the time. He might have gone to set up something.

As for the law-enforcement team, they didn't transfer Li Hao away.

Perhaps they were worried about alerting the enemy, so they didn't go through the transfer procedures. Other than the few members of the demon hunting team, only Wang Jie in the critical room knew about the situation.

.....

At six in the afternoon.

It was time to get off work.

Li Hao packed up. The vortex Mk III was still with him. Although Liu Yan allowed him to choose some weapons, Li Hao did not choose them for the time being. The more powerful a weapon was, the more inconvenient it was to carry around.

As for the grenades, Li Hao took a few. They weren't too big and could be kept in his pocket, provided they didn't explode.

He looked up at the sky. It was clear.

It probably wouldn't rain tonight.

“Demon-hunting squad ...”

Li Hao got on the bicycle. He looked back at the inspector’s office, and then at the law enforcement building in the distance. He seemed to feel a pair of eyes, or several pairs of eyes, observing him.

Liu Long?

Now, were these people already staring at him? had the bait plan already begun?

“I can’t not trust Liu Long, but I can’t completely trust him either!”

Li Hao had his own judgment. He wasn’t familiar with Liu Long, so it was impossible for them to hit it off at first sight. If Liu Long was on the side of justice, he might not have intentionally harmed Li Hao. However, if he had really been killed by the red shadow, then so be it!

Liu Long would not even bat an eye if he sacrificed himself to kill a superhuman.

Even the teacher had nothing to say!

Liu Long didn’t kill him personally, so his teacher couldn’t say anything. Li Hao judged that Liu Long didn’t ask about the saber and sword, perhaps it had something to do with his teacher. The position of Captain of the law enforcement team still restricted Liu Long.

After all, he wasn’t on the side of the evil order.

He was from the inspection Office, and there was a night patrol watching his back.

“Even if teacher didn’t do anything, actually ... He still vaguely saved me.”

Li Hao was well aware that without Yuan Shuo, even if Liu Long didn’t kill him, he would definitely ask about the sword and saber. He might even use the excuse of evidence as bait to force Li Hao to hand it over.

But now, the other party was clearly feigning ignorance, obviously because he was wary of Yuan Shuo.

“I’m still too weak!”

A creak was heard.

Li Hao got on his bicycle. He didn’t know if the Red Shadows were watching him or if Liu Long and the others were following him. These people were deliberately avoiding him, so it would be difficult for him to notice them.

“Only self-improvement!”

Li Hao said quietly. Even Liu Yan, who was extremely warm to him, didn't dare to believe him. If he really encountered danger, she might not necessarily save him.

“I hope I can be stronger before they make their move!”

Li Hao didn't dare to drink too much of the sword water before. On one hand, it took a long time to digest, and on the other hand, he was worried that he would use up all the mysterious energy.

But at this moment, Li Hao realized that if he died, it would be useless no matter how much mysterious energy he had.

Therefore, he had to make more and drink more!

Not only that, Li Hao even considered whether he could destroy the Jade sword and release more mysterious energy. At this point, he didn't care whether it was a family heirloom.

If the Jade sword didn't work, wasn't there a stone knife at home?

.....

The bicycle moved forward slowly.

Li Hao's eyes were dazzled, and he didn't care about anything else.

Soon, they arrived at Qiming community.

Block 6, unit 302.

Before he even entered the door, the Black Panther scuttled out from the corner like a shadow. This fellow's speed was even faster than before.

“Woof!”

The Black Panther wagged its tail, as if to say that everything was safe today. After Li Hao left, no one seemed to care about where he lived, nor did anyone come to check.

Li Hao, on the other hand, glanced at the Black Panther, which seemed to be a little bigger than yesterday, and patted its head.

He pushed the door open and entered.

Li Hao took off his clothes and turned on the light. The room was still dark, and the curtains were tightly drawn.

Li Hao sat on the sofa and thought about everything that had happened in the past two days.

It was too fast!

It made him feel like he was having a hard time digesting the information, and he was unable to clearly analyze the various clues.

“The demon-hunting squad, the red shadow side, the night patrollers, the eight great families ...”

“And I may be the sole survivor of the eight great families!”

“The Red Shadows’ target is me, and the Demon Hunter squad’s target is the supers on the Red Shadows’ side. The night patrolmen might not come because they are busy, but teacher is about to set off, so the other party might have sent someone here!”

“The red shadow we met last night and the existence behind the red shadow, were they all of the red shadow’s men, or ... Was it just one of them?”

How many supers were there?

Li Hao didn’t know!

However, Li Hao guessed that there might be more than one. The one last night was probably just a stalker and not all of the red shadow’s people.

“Liu Long, have you considered this? If it wasn’t just one superhuman, but two, three, or even four, would the demon-hunting squad be able to handle it?”

Li Hao gently knocked on the table. Although the demon hunting squad had given him some help, they still couldn’t give him a sense of security.

There were thousands of things to think about!

At this moment, no one could help him.

The next moment, he thought of someone. After a moment of hesitation, Li Hao took out his communicator. He needed his teacher’s help, not necessarily practical help. Even if it was just to comfort him, it was fine.

.....

Silver City ancient Academy.

Yuan Shuo was practicing an extremely ugly set of fist techniques in the courtyard. It was not accurate to call it a fist technique, but more like a fluttering old hen.

## Chapter 52: Chapter 16 teacher (2)

Translator: 549690339

This wasn't a chicken fist, but a flying bird technique!

It was one of the five birds technique.

Tiger, deer, bear, ape, and bird. The ape technique was light and allowed one to escape easily. The flying bird technique was also a light technique, but it was even better at escaping than the ape technique. Of course, each of the five bird techniques was a killing technique!

Be it the ape art or the flying bird art, they all had a set of killing techniques.

It was just that Li Hao hadn't studied these things deeply and thoroughly enough. He had always practiced the ape art as an escape art.

Buzzzzzz!

Yuan Shuo's movements were slow and he did not seem to be using much strength. When he punched, it was like an old hen flapping its wings. There was no beauty to it. However, the sound of air exploding was heard in the courtyard.

A Martial Master with over a hundred points!

He was once one of the top figures in the field of martial Dao.

However, as he grew older, his physical strength declined. Coupled with the appearance of superpowers and the proliferation of firearms, this generation had gradually retired from the martial arts world. In the eyes of outsiders, he was just a pure scholar, a top expert in the ancient civilization Department.

"Ding ding ding!"

Yuan Shuo was pulled out of the thump after a ring. He glanced at the communicator on the side and picked it up.

"You went to the law enforcement team?"

"En!"

Yuan Shuo wasn't surprised. Since he, the last disciple, had said that he was going, he wouldn't hesitate.

It was as if he knew what Li Hao needed.

"Not confident anymore?" Yuan Shuo laughed. Did Liu Long give you a bad scare today? Do you think you're useless and can't survive outside?"

"A little."

Li Hao didn't deny it. "Teacher," he said softly, "with the appearance of superpowers, do you think Xuewen still has a future?"

After witnessing the strength of those people, Li Hao thought, is there really a future for studying literature?

In the future, would this world be the world of supers?

Would they, the non-supers, be able to live and work in peace like they did now?

"There's naturally no way out if you only study literature! But pure violence has no way out!"

"I've never heard of anyone who can rule over everything just by using force!" Yuan Shuo said firmly. The wisdom of humans was the key to unifying the world and becoming the master of the world! For martial artists to learn literature, it took twice the effort with half the results! For scholars to learn martial arts, it was twice the result with half the effort! Don't think that you've wasted all your time. Wrong, you're only building your foundation. Even if you really enter the superpower realm, you'll realize that wisdom and knowledge are priceless treasures that will make your path smoother!"

He needed to clear up the students' confusion.

Preach, teach, and dispel doubts!

It was Li Hao's first time coming into contact with superpowers, so it was normal for him to doubt himself. But at this moment, he couldn't waver his belief.

"Back then, my superpowers weren't obvious, and I was one of the few people who stood at the top of the world in terms of martial arts. But I'm famous not because I can fight, but because of my research in the field of ancient civilization!"

"After that, firearms developed rapidly. In our generation, those who purely practiced martial arts didn't have a good ending. The more famous they were, the faster they died! I, on the other hand, have lived to this day, and even now, I'm a guest of honor in the eyes of the supers ... Even though there are some restrictions, I'm still doing well. "

“Supers are strong now, but that doesn’t mean that no one can restrain them or punish them ...”

Yuan Shuo said a lot, and Li Hao listened quietly.

His mood gradually became more cheerful.

After a while, Yuan Shuo laughed heartily and said, “Don’t worry too much about the law enforcement team. If you really encounter any trouble, Liu Long and the others might not be able to solve it. As I said before, you can come to my place to lie low. ”

“Teacher, do the night patrols know about the situation in Blizzard Silver City?” Li Hao asked after some thought.

“I’m not sure. I might know, but even if I know, I might not appear immediately. Liu Long and the others are just cannon fodder and Pathfinders!”

Yuan Shuo’s words were dripping with blood, and the true situation of the demon hunting squad was bone-chilling!

“There aren’t many night watchers, and every superhuman is a treasure that can not be easily sacrificed! The Silver City’s situation was still unclear, so he would let Liu Long and the other cannon fodders test the waters first. If Liu Long and the others could successfully take it down, then everyone would be happy! If they can’t take them down, the night patrolmen will be able to make a general judgment. They will know themselves and their enemies, and know what kind of strength they should use to deal with the Silver City’s troubles. This is the reason why the night patrolmen rarely appear. ”

He wanted to maintain his own sense of mystery and let outsiders not know the inside story.

Liu Long and the other peripheral organizations were only Pathfinders. If they died, then so be it. It was not a loss.

If he could kill supers, advance, and join the night patrollers, he would be able to strengthen the night patrollers.

This was the nature of the dark clouds in Blizzard Silver City!

As for Yuan Shuo, he had long seen through these intrinsic qualities.

Li Hao gently exhaled. How realistic!

His teacher’s words allowed him to see through some of the fog. He also completely understood that the demon hunting squad was not completely unrelated to the night patrollers. Perhaps ... Liu Long himself was an outer member of the night patrollers?

It was not impossible!

At this moment, Yuan Shuo suddenly said, "Don't think too much. If you don't want to come to my place, I won't force you to come! Since you've already understood some of the situation, I'll explain it to you briefly so that you can have as much self-protection as possible."

What?

Li Hao had thought that his teacher was going to give him a treasure, but that wasn't the case.

The next moment, Yuan Shuo suddenly used a secret code to communicate with him. This was a special way of communication between Yuan Shuo and his students. For people like Yuan Shuo, it was very easy to create a special way of transmitting information.

## **Chapter 53: Chapter 16-teacher (3)**

Translator: 549690339

"The Li family's sword, the Zhang family's saber ... The appearance of these families in the song and their supernatural items were a joke in the past. But now, it may not be the case!"

Li Hao was startled, but he returned to normal in the next moment.

Even Liu Long could guess it, not to mention his own teacher. In Li Hao's opinion, his teacher was perhaps the smartest and wisest person he had ever met.

"If you have these things, it'll be a blessing and also a curse!"

"Zhang Yuan's death might be related to this. It's obvious that you've been targeted by supers, and their target might be these things. As for the song of the eight great families, it has been passed down for countless years. Even I, who have heard it, don't know when it started spreading, and there are no records of it, it has been passed down from generation to generation ..."

"According to my research, it might be related to the ancient civilization. You are my student, so you know a little about the ancient civilization. The new book of five birds was actually found in the ruins of the ancient civilization, and I made some modifications to it later."

Li Hao didn't say anything and just listened to his teacher.

“There’s a common characteristic about the treasures in the song. Outsiders are unable to use them. Perhaps the reason why Zhang Yuan was burned was to extract his bloodline, soul, or mental energy, and thus, was able to use the Zhang clan’s saber!”

“As for the time span, I’ve made some deductions. It’s very likely that the other party’s superpower means are limited. Every time we burn the other party’s blood and soul, it may cause the method to enter a dormant period!”

“However, it is obvious that the enemy is improving. Or rather, the dormancy period is shortening!”

Li Hao hurriedly nodded, even though Yuan Shuo couldn’t see him.

But at this moment, Li Hao was full of admiration. His teacher didn’t know anything. He only read the file yesterday, but he could deduce so many things today. Li Hao couldn’t help but be impressed.

Of course, it also had to do with his teacher’s vast knowledge.

“There’s one more thing. The other party always strikes on rainy days, which means that his ability might only be able to be used on rainy days. What he needs is not just to kill, but to extract what he obtains from you after killing you.”

At this point, Yuan Shuo paused for a moment before he continued, “Don’t underestimate the person behind this case. You have to know that if the first person to die is from the Zheng family, it means that the other party has been around for at least 15 years!”

“You have to know that superpowers only appeared about 20 years ago. If the other party was a superpower from the start, do you know what that means? The other party is an old hand among the supers, not a newbie who has just absorbed energy into his body!”

“Of course, this might not be done by one person,” Yuan Shuo said. “Perhaps the supers who started this had already left, and now it’s the other party’s organization members or disciples who are keeping watch. After all, a strong person can’t stay in Silver City forever.”

Li Hao took another deep breath. He had considered this point before, but not as carefully as his teacher.

Had Liu Long considered this?

“You might not be able to use the Zhang family’s saber! However, you can definitely do it with the Li family’s sword! Superpowers ... Should have existed since the ancient civilization era. Now, they have just been resurrected, and they did not appear all of a

sudden. If you are the Li family descendant of the Li family swords, you can find a way to activate this sword if you have it. ”

“Activate?”

Li Hao finally spoke. The Li family’s sword was a secret, but it wasn’t a secret either. Those who had heard the song of the Xun might have thought about it, but no one had seen it before.

Was he considered to have activated?

Water bubble sword!

“Yes, activate! It had been sealed for many years, so how could it be used so easily? I know many ways to activate it, but they are all too difficult for you. The simplest way is to bind it with blood ... The premise is that this sword really belongs to your family and not stolen. ”

“Teacher, it’s no use!” Li Hao smiled bitterly.

It was dripping with blood!

“Nonsense, it’s definitely useless if you drip a drop of blood on it. Do you think a blood contract is just a stupid drop of blood?”

“ .....

Was it not?

Li Hao was speechless.

Yuan Shuo continued, “this blood is not just any blood. It’s especially so for descendants like you who have been here for who knows how many generations. Your bloodline is already different.” For you, it’s possible to unseal the two types of blood. “The first one is the blood from your heart ... Actually, I don’t recommend this because the damage is too great. However, if you encounter a life-and-death crisis and are almost killed by someone, you can stab your own heart. Don’t be too harsh, just stab yourself to death!”

“ .....

Li Hao was embarrassed.

It was indeed dangerous!

“Second, cultivate the five birds technique diligently to strengthen your physique and improve your bloodline. If you can reach my level, you might be able to unseal yourself with a drop of blood!”

Li Hao was tempted. Over a hundred?

However, he was running out of time!

“Teacher, are there any mysterious powers in the superitems?” he asked.

“Yes, yes, and no. It depends on the situation.”

“If yours has it, you can try to absorb a little. It might not be of much use!” Yuan Shuo quickly replied.

Li Hao was startled. Not much use?

This was something that he had high hopes for!

“Teacher, isn’t it said that one can become a super by drawing energy into the body?”

“What are you thinking? It won’t be that simple!”

“Of course, I’m not too sure about your situation. Let me explain what I know. Some supernatural items contain some mysterious power, but it’s very weak. If you can absorb it, it might help you improve your physique, but it won’t be as useful as you think. It’s almost impossible to become a superpower with it!”

## **Chapter 54: Chapter 16-teacher (4)**

Translator: 549690339

Li Hao’s eyes revealed a hint of disappointment.

“Of course, it’s hard to say. After all, we have too little research on superpowers and we haven’t been out for long. We don’t have any specific reference case.”

Yuan Shuo continued, “this is also the key point. You probably really have that thing. Then I’ll teach you a set of breathing techniques that are not recorded in the” new book of five birds “!”

“A breathing method?”

“Yes, it’s more complete than the breathing technique. I’ve combined many ancient books and reorganized them to complete it over the years.”

“Because you, kid, don’t know how to absorb the mysterious energy!”

Yuan Shuo laughed, “you’ve never come into contact with superpowers before. It won’t be of much use to teach you this! “Even if you didn’t come to me today, I would have come to you and taught you the new breathing technique of five birds. It’s for the sake of absorbing the mysterious energy. However, in our daily lives, we almost can’t absorb the mysterious energy. You’re different. You might have already come into contact with it. This is your chance!”

“Teacher, then can you draw ...”

“Me?”

Yuan Shuo laughed, “you want to share it with me?” Forget it, a super item might not have much mysterious power. To me, it’s like a cup of water on a burning cart of firewood! Let me put it this way, the stronger you are, the harder it is to become a super! Our transformation is much more difficult than ordinary people’s! Liu Long actually had a high chance of advancing directly, but this guy’s martial cultivation was not low, so it was particularly difficult for him to advance! If you don’t have any Foundation in martial arts, it’ll be easier for you ... Of course, you’ll be weaker after you become a Starlight master. ”

Li Hao was suddenly enlightened!

So that was how it was!

“That’s why, a little bit of mystery energy is good for you, but for me ... It’s useless! If you can’t become a superhuman after absorbing the mysterious energy, your martial arts Foundation will become even stronger. As time goes on, it’ll be hard for you to level up. ”

“It doesn’t matter!”

Li Hao didn’t really care. He was just curious. “Teacher, you mean that the stronger the martial Dao Foundation, the stronger it will be after the advancement?”

“Nonsense! Take me, for example. I’m a Martial Master who’s over a hundred. If I’m still on the same level as the weakest star light Master after advancing, then what’s the point of advancing? The weakest Starlight master, if he really comes, it’s hard to say who will be the one to kill who!”

Without saying much about himself, Yuan Shuo said sternly, “Alright, don’t ask these useless questions! And don’t think about me, you’re too weak, it’s a waste of time! I’ll teach you the breathing technique of five birds, but you’d better remember that you’re not allowed to teach it to anyone! Your teacher’s hard work over the years is all on this.

Superpowers have only been around for 20 years. The things that the night watchers have come up with might not even be as powerful as mine!”

“This is the power of knowledge. They don’t know sh \* t about supers. Even though I’m not a superhuman, I knew about the existence of supers even earlier than these guys. I’ve read about them in books forty years ago ...”

After Yuan Shuo praised himself for a while, he stopped talking nonsense and began to describe his breathing technique of five birds.

At this moment, Li Hao was listening attentively.

He felt that it was quite simple!

Even though his teacher had praised it, he only felt that it was slightly better than the breathing technique. As for how much better it was, he didn’t really have much of an opinion.

What Li Hao didn’t know was that Yuan Shuo, who had been the first to learn about superpowers and studied the ancient civilization’s superpowers, had not only gained his own understanding but also integrated a large number of the ancient civilization’s superpowers into it.

The breathing technique of five birds might sound simple, but it might be the most powerful cultivation method in the entire superpower realm.

Li Hao, on the other hand, adjusted his breathing as he listened.

The breathing method was not only different in the rhythm of breathing, but also contained other things, such as the adjustment of posture. At this moment, Li Hao was like a big Frog, with his belly facing up and his five hearts facing the sky. His posture was very stupid.

The starry sky sword, which had been silent all this time and could only be drawn out by the bubble sword, suddenly flickered as it hung on Li Hao’s neck.

In the next moment, a dense wave of mysterious energy poured into Li Hao’s body.

Originally, this mysterious energy would have leaked out very quickly.

However, at this moment, Li Hao’s pores seemed to be breathing as he swallowed a large amount of mysterious energy.

Countless pores were absorbing the mysterious energy!

It was faster than he had imagined, much faster than he had imagined!

On the other side of the communicator, Yuan Shuo had finished speaking. When he saw that Li Hao had stopped moving, he couldn't help but shake his head.

"Young man, you just can't hold your temper. Are you cultivating while listening?"

After giving it some thought, he realized that the fellow might have already absorbed a portion of the mysterious energy.

Yuan Shuo smiled and hung up the communication. He shook his head and said, "He's still too young. He looks smart, but he's actually very stupid! There was no sound after he started cultivating, so it's obvious that he absorbed the mysterious energy. In that case, the Li family's sword is by his side, or is it simply on him?"

"If it's by your side, it's too obvious ... Then it's on your body?"

Yuan Shuo thought for a moment and was a little surprised. "Good boy, the Li family's sword is not simple! I thought it was really a big sword, so it's that small jade pendant?"

If Li Hao were here, he would probably feel his scalp go numb!

Yuan Shuo, on the other hand, recalled the jade pendant that Li Hao was wearing. He shook his head again and chuckled. "Amazing, I'm afraid this sword is not simple! I don't feel any difference, and it's so small ... If I hadn't seen it before, I wouldn't have guessed that it was the Li family's sword!"

"I've passed the 'five birds breathing technique' to this kid. I wonder how much I've gained ... It's been sealed for so many years, and there might not be much mysterious energy on that sword. If I'm lucky, I'll be able to obtain superpowers. If I'm unlucky, after absorbing it, I'll be able to cut five or six times, not ten times, right?"

Yuan Shuo made a judgment based on his own experience. It was still not safe.

This matter was not that simple.

A superpower that appeared fifteen years ago. Even if there was no improvement in the past fifteen years, the weakest one would be over a hundred. It was definitely not something that ordinary people could deal with.

It had even exceeded 100 and reached the thousand-man combat in martial arts!

In that case, firearms would be almost useless.

If the power was too great, they would be killed before they could kill the enemy.

.....

While Yuan Shuo was thinking about this, Li Hao was also absorbing the mysterious energy.

So many!

Li Hao's consciousness was still clear, as it was much stronger than the bubble sword. At this moment, he was facing the sky, his heart in shock. His teacher's "breathing technique of five birds" was so powerful. It could really absorb the mysterious energy, and at an extremely fast speed.

His Constitution was transforming.

At this moment, Li Hao could even vaguely feel that there were chains in his body that were sealing off the mysterious energy. Otherwise, the mysterious energy would enter some core areas, such as his heart and brain.

"A superpower lock?"

Li Hao had some speculations. Could this be the Super Lock that Liu Yan mentioned before, the lock that separated the mortal world from superpowers?

"Too many!"

Li Hao didn't have time to think. In the next moment, he felt that he had absorbed too much, and his body was about to explode.

This feeling was even more than drinking ten cups of water!

"Practice martial arts!"

The next moment, Li Hao jumped up and hit his head.

His body was covered in dazzling Starlight!

At the side, the Black Panther's eyes were wide open, and it kept sticking out its tongue to lick.

Not only that, the Black Panther seemed to have realized something. It suddenly lifted its limbs, and its breathing rhythm was exactly the same as Li Hao's.

Li Hao didn't hide his practice of the breathing technique of five birds from this guy, nor did he want to hide it from a dog.

At this moment, the mysterious energy exuding from Li Hao's body suddenly stopped spreading, and instead rushed toward the Black Panther.

The Black Panther's four limbs were facing upwards, and its breathing was regulated. Every breath it took was also dazzling like Starlight!

In the small room, a person was jumping around like a monkey.

A dog that looked like a human with its four limbs facing up was swallowing and spitting Starlight. It was especially horrifying!

## **Chapter 55: Chapter 17-second visit (please collect and recommend)\_1**

Translator: 549690339

In the room, Starlight energy flickered, but it did not overflow.

Outside the room, even if there were people, even supers, they could not see or feel it.

The mysterious energy that was overflowing from the starry sky sword didn't have a large range of radiation. After a certain range, it would quickly dissipate and disappear into the space.

Moreover, Heibao was here.

The overflowing mysterious energy had been completely absorbed by this guy, and there was no overflow.

Li Hao had overdone it!

At this moment, he felt full of energy and was restless. He kept practicing the ape art for three minutes per round, but Li Hao had no idea how many rounds he had practiced.

He felt that if he didn't vent it out, he would explode.

I've absorbed too much!

Even so, Li Hao didn't stop practicing the breathing technique of five birds. Of course, it wasn't the complete version, but the breathing technique was still in use.

The breathing technique of five birds could actually be divided into two small Parts.

One was the complete version, which was a combination of the posture and the breathing technique. The other was a non-matching posture. In fact, a simple breathing technique could also absorb some mysterious energy, but the effect was not as good as a matching posture.

“Ha!”

A muffled shout sounded.

Li Hao, who had been jumping non-stop, suddenly stopped. His hands were like ape hooves as he grabbed at the wall.

The ape art was not just a light body technique.

In the past, Li Hao rarely used the ape Art’s killing technique, because there was no need for it.

At this moment, there was too much energy in Li Hao’s body. He couldn’t bear it. In addition, he would soon be in danger. He didn’t care about this. He bent his hands like an ape waving its claws.

Bang!

“Hiss!”

Li Hao took a deep breath. It hurts!

After all, his hand was still made of flesh. When he clawed at the wall, a few small holes appeared. However, Li Hao’s fingers were in so much pain that his nails were almost knocked off.

However, Li Hao couldn’t care less about the pain!

He instantly looked at the wall, and his eyes flickered.

Using his hands to grab the wall and make a few small holes in the flat wall was something that he couldn’t do before.

The contact area of his fingers was too small, so he could not exert much force.

Moreover, the wall was smooth, and there was a lack of strength to grab it.

It was not an earth wall, but a painted cement wall.

“Previously, Liu Long’s punch was even more powerful when he punched through the kitchen wall. Furthermore, the kitchen of the Zhang family was only made of red bricks ... Of course, he was still very strong. However, the current me seems to be much stronger than before!”

Li Hao was secretly shocked. Today, he only practiced the breathing technique of five birds, but he suddenly felt that he had become much stronger.

Of course, this had something to do with him being too weak.

The weaker it was, the more obvious the improvement.

At Liu Long's level, there were many mysteries, but to them, it was just a drop in the bucket. It was impossible for there to be much changes.

"Teacher's technique is still the best!"

Li Hao observed his fingers. They had been red and his nails were dark purple.

At this moment, as the mysterious energy continued to surge in, these small injuries quickly disappeared.

Li Hao also felt that his muscles had tightened.

His blood seemed to be flowing even faster!

The bone armor was also slowly changing.

That feeling, strictly speaking ... Was compression!

Yes, the mysterious energy seemed to have compressed Li Hao a little.

The original Li Hao was about 178 cm tall, not too tall, but not short either.

At this moment, although Li Hao didn't measure his height, he felt that he was a little shorter. Perhaps it was only one centimeter or less, but Li Hao still felt that he was short.

It was being compressed!

His muscles were tight, and the gaps between his bones were even smaller.

"If this continues ... I won't become much shorter, right?"

Li Hao felt a little strange. Liu Long was quite tall.

In the past, he had never seen anyone practice martial arts until they became shorter.

Of course, they had all started training at a young age. Unlike Li Hao, he had only started training at the ancient academy three years ago, and he hadn't put much effort into it during those two years.

Li Hao didn't delay.

The next moment, he suddenly opened his right hand. Instead of grabbing at the wall with his five fingers closed like before, Li Hao now opened his fingers and grabbed at the wall in front of him!

Bang! Bang!

With a crisp sound, mixed with some unpleasant sounds of nails rubbing against each other, his five fingers pierced directly into the wall. The hole was not deep, only leaving a palm print on the wall, but he did not touch the concrete structure inside.

But this time, the entire wall seemed to shake slightly. Perhaps it was just Li Hao's illusion.

However, Li Hao felt that it was even more lethal than before.

"Tiger Claw!"

This was the attack method of the Tiger fighting technique in the new book of five birds.

Li Hao wasn't very familiar with the other four birds technique, but that didn't mean he didn't know it. Yuan Shuo had taught him all of them, but Li Hao mainly used the ape technique.

He felt that the Tiger fighting technique was better for attacking.

Sure enough, when the Tiger Claw struck out just now, the way it was exerted was different. It wasn't just a change in posture, but also a adjustment in breathing. The different way of exerting force immediately made Li Hao feel that the Tiger Claw struck out with more force!

The ape Art's ape hooves explored the way, and its movements were light and fast, but the strength it used was far inferior to the Tiger's claws.

"The Tiger fighting technique is indeed the most suitable for attacking among the five birds technique!"

Li Hao felt the subtle changes in his body, and he was moved.

His strength had increased!

His muscles reacted faster, and his body felt lighter.

It was as if he used to run with weights on his back, but now, he felt like he was running with less weights. Was this the effect of the mysterious energy?

## **Chapter 56: Chapter 17-second visit (2)**

Translator: 549690339

It was too obvious!

No wonder the Black Panther's fur immediately became shiny after drinking water on the first day. Back then, Li Hao had thought that the effects might be different because the Black Panther was a dog.

But today, after thinking about it carefully ... Li Hao cursed in his heart!

It must be the first bowl of water that Heibao drank, there must be more mystery in it!

He drank the second bowl of water that day, and black Panther had already drunk the first bowl. Did he only drink some leftover water?

Thinking of Black Panther, Li Hao seemed to have thought of something.

Heibao didn't do anything today!

Li Hao turned his head and was stunned.

At this moment, Black Panther's belly was facing the sky. He mimicked Li Hao's earlier actions, and his breathing rhythm was similar to Li Hao's.

This guy ... Was cultivating!

"What the hell?"

Li Hao was a little dazed. Black Panther understood his words, and Li Hao could understand.

But ... This guy's learning ability was so strong?

It was actually learning from him and practicing the breathing technique of five birds!

As Li Hao stopped his cultivation, the mysterious energy no longer overflowed from the Jade sword, and the mysterious energy in the room gradually dissipated. A moment later, Li Hao was still watching, and the Black Panther could no longer absorb the mysterious energy.

It opened its dog eyes and saw Li Hao staring at it. The Black Panther leaped up and pounced at Li Hao!

Li Hao dodged slightly, avoiding the Black Panther's attack.

The Black Panther did not care. It fell to the ground and stuck out its tongue to lick Li Hao's foot.

"Go away!"

Li Hao kicked his legs, bent over, and touched the Black Panther's head. Frowning, he said, "Are you trying to become a spirit?"

He was thinking whether this was a good or bad thing.

The Black Panther actually felt like it was about to become a demon!

As an ordinary person and a member of the inspection Division, Li Hao's first thought was whether this would lead to bad consequences.

However, when he thought of those supers and the red shadow that ordinary people could not see ... Li Hao lost all other thoughts.

In this day and age, who would care if a dog became a spirit or not!

What was that red shadow?

He was obviously not human!

The Black Panther was familiar with him and could be considered as half-raised by him. If it really became a spirit, then it would become a spirit.

"Teacher said that the breathing technique of five birds can't be taught to outsiders!"

Li Hao looked at the Black Panther and felt a headache. "It's alright. It's just an imitation. I did learn the essence of the breathing technique, but I don't think I learned any essence of the five birds coiling technique ..."

Breathing techniques were about rhythm, and the breathing needed to be adjusted in coordination with the breathing through the pores. This dog had actually imitated it to 80% perfection.

The five birds coiling technique, which was the five hearts facing the sky posture, was not as simple as it seemed on the surface. It also required some unique techniques, which the Black Panther did not learn.

Moreover, humans were different from dogs. Even if he learned it, this guy might not be able to use it.

"The breathing technique was stolen. I was too careless!"

Under normal circumstances, even if he were to cultivate a breathing technique, he wouldn't forget himself too much. He wouldn't even use the entire breathing technique in front of others. If there was even the slightest mistake, the entire breathing technique would be wasted.

But there was only a dog in front of him, so Li Hao didn't care too much. His breathing was heavy, and black Panther saw everything.

The Black Panther seemed to have understood something. It raised its head and looked at Li Hao with a fawning look.

Li Hao frowned and said in a deep voice, "I know you can understand. In the future, unless I'm by your side, you're not allowed to use this!" Also ... When I'm free, I'll go find teacher ... And see if he's willing to take in a dog as a disciple ..."

Li Hao suddenly laughed.

It was as if he was scolding himself!

"Forget it, just pretend I didn't say anything."

He had wanted to tease his teacher, but after thinking about it, he decided not to. His teacher was not one to stick to the rules. If he really wanted to say that this dog was his student, he would introduce it to him when he went out. "This is my student, Li Hao. This is my student, big black dog ..."

At that time, he would have to dig underground!

The Black Panther, on the other hand, was a little confused. It only looked at Li Hao. Seeing him smile, the Black Panther also laughed and wagged its tail.

The dog was human. It knew that Li Hao was happy, angry, sad, and happy. In fact, it was a little scared.

Li Hao smiled, which meant that he was fine.

Li Hao didn't dwell on this matter. He would report it to his teacher when he had the time. Given his teacher's personality, he was probably just curious and wouldn't mind a dog learning his breathing technique.

Ignoring the Black Panther, Li Hao took out the Jade sword in front of his chest and examined it. His eyes lit up.

"Mysterious energy!"

There seems to be a lot of mysterious energy in the Jade sword.

Of course, to other people, the mysterious energy might not be the key. What they cared more about was the Jade sword itself.

According to his teacher, the mysterious energy in the Super items was limited. Some of them were already at an extremely low level. Perhaps after one or two more uses, the mysterious energy would be completely depleted.

Liu Long didn't care much about this, perhaps because he knew.

He might have felt that the mysterious energy in these items was too little and was not of much use. He might not be able to use the family's super items, so he did not care.

Perhaps Li Hao was too worried. He had originally guessed that Liu Long was secretly planning something, but now it seemed that he might not be so.

"They don't care, but I do!"

Li Hao muttered in a low voice. His teacher felt that it was too little and useless to him.

Liu Long was also someone who had broken through the top 100, so he felt that it was useless.

However, Li Hao was a weakling who hadn't even cut ten. Even a little bit of mysterious energy was enough for him to improve by a large margin.

"My speed, strength, and Constitution have all increased!"

"Now that I'm being tested again, what level of strength do I have?"

## **Chapter 57: Chapter 17-second visit (3)**

Translator: 549690339

The probability of cutting ten was less than that.

Not that fast!

Moreover, compared to Chen Jian, who had attacked him before, Li Hao felt that he might be able to avoid the other party's slap now, but it was almost impossible to say that he had a 50 – 50 chance of winning against Chen Jian.

And Chen Jian was at the realm of cutting ten.

As for whether it would be ten or ninety, it was hard to say.

According to Li Hao's understanding, the difference between cutting ten and breaking a hundred was actually quite big.

Apart from Liu Long, the other four members of the demon-hunting team seemed to be in the stage of killing ten people. However, there were also strong and weak people among them. On the surface, Liu Yan was the strongest, but she said that doctor yunyao shouldn't be provoked.

"I'm afraid I haven't reached ten yet. I still need to work harder, at least ... To save my life!"

In the upcoming crisis, he had to save his own life.

The red shadow was not to be trifled with.

"Continue cultivating!"

This time, Li Hao didn't use the breathing technique. He still had some mysterious energy left in his body. At the moment, he was full of energy, which was enough for him to continue practicing the five birds technique.

He had to seize every moment!

Since he could improve, there was no reason to slack off.

.....

At the same time.

Qiming community, Building 5, floor 6.

Liu Long crossed his arms and stood on the balcony. He looked at Building No. 6 across the street. The window of a unit on the third floor was closed and the curtains were drawn.

He could vaguely see people jumping around.

It was Li Hao's house.

Beside Liu Long, the tall and thin Wu Chao was also watching. After a while, he shook his head, "This guy drew the curtains even before it got dark. He's still on guard. I'm afraid he's already suspected that Zhang Yuan's case is a murder case."

After saying that, he looked at Liu Long and said, "boss, are we just going to keep watch like this?" Will anyone come?"

“I don’t know,”

“Keep an eye on it!” Liu Long said calmly.

Wu Chao didn’t say anything more about this. He looked in other directions, glanced around, and said in a low voice, “Boss, our position is the best for observation! However, I’ve just done a little investigation and there are no strangers coming to Building 5. ”

“Is there no one watching Li Hao, or is he being watched by some supernatural means?”

There was no need for someone to come personally to follow them.

For example, there were some superpowers that could follow people quietly. However, it was rare for superpowers to follow a normal person.

Liu Long didn’t deny it, but he didn’t think that there was really a superhuman following them.

It was more likely that the other party was only observing in secret. The time was not yet up, and they were waiting for the arrival of the rainy night as Li Hao had said.

Li Hao was here, and he wouldn’t run away.

If he wanted to run, he would have run long ago.

Since that was the case, it didn’t matter whether he followed them or not.

After considering for a moment, Liu Long did not continue this topic, but said in a low voice, “How much mysterious energy do we have left?”

Wu Chao thought for a moment and said, “12 cubic meters. 10 cubic meters have attributes. The other two have no attributes.”

Liu Long seemed to be thinking about something, and after a while, he said, “Tomorrow, when Li Hao goes to the inspection Office, tell him to come see me! Extract the two attribute-less mysterious energy and let him try to absorb it. ”

Wu Chao wasn’t too surprised, but he was a little envious. “Boss, we don’t have many left! The non-elemental one is more precious ... Why don’t we give him the elemental one?”

The mysterious energy with attributes was mixed with some special powers, such as fire and lightning, but it might not be compatible with the person.

Of course, if he met a match or a super who specialized in that attribute, it would be better to have an attribute.

It varied from person to person!

However, to martial masters like Wu Chao who had not advanced to the level of a super, attribute-less martial arts were more precious. This was because it could improve one's strength, and there would be no rejection. The danger was very low.

In a team, everyone would pay more attention to attribute-less Mystic abilities.

"He's too weak!"

Liu Long said calmly, "we're not the night patrolmen. There's no expert who can extract the mysterious energy at any time. Once we absorb it and reject it, it'll be difficult for us to control and suppress it. His body will explode. After we kill him, you'll be in charge of being the bait?"

Alright, Wu Chao stopped talking.

Li Hao was indeed too weak. He had just joined the team, so it was only right to give him some benefits to improve himself.

It was just that Wu Chao still had a doubt, and he said softly, "Boss, are you recruiting him for a one-time thing ... Or do you really intend to keep training him?"

This was also what he was puzzled about.

Liu Long glanced at him and laughed, "If you can survive, then you'll always be teammates! As long as he's still alive, he's a comrade. What's his is his, he'll protect what he needs to protect, and he'll teach what he needs to teach ... If he's dead ... What's the point of saying anything?"

Wu Chao understood.

He had also been through this.

Survival of the fittest!

Only the ones who survived in the demon hunting squad were teammates. There was nothing they could do about the ones who died. From the first day they joined the squad, everyone understood how dangerous it was to hunt supers.

Without a story or a goal, he probably wouldn't join.

"It's better to be a newcomer!"

He sighed with emotion. Newcomers didn't have to do anything and could get benefits just by entering. He was envious.

Of course, this was also a rule.

If the newbies were too weak and didn't have any protective measures, the team would gradually lose the new blood and become weaker and weaker, dying sooner or later.

However, when they entered before, there was only one mysterious power.

Moreover, none of the parties that had joined at the beginning had any reserves. The little reserves they had now were also squeezed out from the gaps between their teeth.

Wu Chao thought about it and said with some anticipation, "I don't know if we can get rid of him this time. How much mysterious energy can he provide? is it attribute-less or attribute-based? boss, if you absorb more, will you be able to level up?"

## **Chapter 58: Chapter 17-second visit (please collect and recommend)\_4**

Translator: 549690339

Liu Long shook his head and did not say anything.

Advancement?

Difficult!

If he couldn't successfully draw energy into his body to advance to a Starlight master the first time, it would only make his martial cultivation, physique, and strength stronger, and it would be more difficult to advance in the future.

He was a Martial Master who was over a hundred. If he wanted to advance, he would probably need a few more times. It would be best if he could find a matching Mystic ability.

Although attribute-less mysterious energy was useful, it was more useful to improve his physique. Absorbing more of it might not be a good thing. Instead, it would make it harder for him to advance.

Sighing in his heart, Liu Long once again looked at the window opposite him and said, "You stay here and keep an eye on him. If there's anything, inform me!"

"Alright!"

Liu Long did not say anything more and turned around to leave.

Li Hao would probably be fine for the next few days, but it would be hard to say when the rainy season came in a few days. He might be in danger at any time.

.....

Not long after Liu Long's departure, the sky gradually darkened, and very quickly, the night completely fell.

In the room, Li Hao was still practicing the ape art.

The amount of time he persisted was getting longer and longer.

The sweat on the ground had already made the ground wet and slippery.

Just as Li Hao was about to continue his practice, the Black Panther, which had been lying on the ground, suddenly started barking.

Li Hao's heart moved.

Someone's here?

The next moment, Li Hao's heart skipped a beat, and even his breathing stopped. Soon, Li Hao returned to his original state and began to practice the ape art again, but this time, he was much weaker.

At this moment, Li Hao was extremely shocked.

And fear!

From the corner of his eye, he saw a red shadow appear on his window. The red blood shadow was stuck to the window.

The red shadow was here!

This was the first time that Li Hao had seen a red shadow in his own home!

Is Liu Long nearby?

Did he see that?

Can you see it?

Damn it!

Li Hao was a little anxious. Was the red shadow monitoring him?

He could only pretend to be calm and pretend he didn't see anything.

After practicing the ape art once, Li Hao looked very tired and stopped practicing.

The red shadow was still floating on the window.

It wasn't through the curtains, but through the curtains and stuck to the glass.

Li Hao guessed that the superhuman behind the red shadow was also nearby.

Would he attack him now?

He was too bold!

The Zhang family's destruction had just happened yesterday, and the other party dared to appear tonight. This showed that he didn't put Liu Long and the others in his eyes at all!

"What do we do?"

The red shadow didn't leave. Li Hao was very anxious. In order to hide his uneasiness, he could only go into the bathroom and take a bath.

The moment he took a shower, his hair stood on end. Soon, Li Hao forced himself to calm down. He didn't dare to look or think too much, for he was afraid that the red shadow would notice him.

At this moment, the red shadow was actually right beside him. Damn it!

In the small bathroom, Li Hao and the red shadow were almost stuck together.

"Don't worry! 'The other party only appeared to stare at me and didn't attack me immediately. It definitely isn't to kill me now. According to teacher's speculation, now isn't the time either ... Relax, I didn't see him!' Martial arts is so cool. Liu Yan's breasts are so big. Will she be a burden in a fight?"

He shifted his gaze, shifted his thoughts, and continued to let his imagination run wild.

He was afraid that he would be frightened if he kept thinking about it.

The Jade sword in front of his chest didn't have any reaction, just like an ordinary jade pendant. Li Hao didn't know if the red shadow would think too much about it, but he couldn't care less at this moment.

Li Hao didn't care that the red shadow had seen his naked body.

Who would consider this at this time?

"My situation is getting more and more dangerous!"

As Li Hao's imagination ran wild, time slowly passed. It was not until he finished his bath that the red shadow disappeared without a trace.

In the living room, the Black Panther had been lying on the ground the entire time, extremely quiet.

Only when the red shadow disappeared did the Black Panther let out a sigh of relief.

At the same time, Li Hao heaved a sigh of relief. The man and the dog looked at each other, but neither of them made a sound.

As for the Black Panther, there was still some doubt in his dog eyes.

You can see it too?

I thought you were blind!

So powerful, you acted like you didn't see it, even more of a dog than me!

[PS: 100000 words. Please give me some monthly votes. Even if it's not on the shelves, you can still cast your monthly votes.]

## **Chapter 59: Chapter 18\_Starlight master, mysterious energy**

Translator: 549690339

In the room.

Li Hao felt a sense of relief after a disaster.

Two times!

For the past two days, the red shadow had been approaching him. Did this mean that the other party was about to make a move?

Therefore, the red shadow had been observing him for the past two days.

It was like observing if the pigs they raised had gained weight.

Could he be killed?

How much meat would they get if they killed him?

Yes, that was exactly what Li Hao was feeling right now. The red shadow's observation seemed to be an appreciation. Was his crop ripe?

"Damn it!"

Li Hao cursed in an inaudible voice.

What do you take me for?

In the past, Li Hao could only accept his fate, but he had to take a gamble. Now ... He refused to accept his fate!

The Jade sword was an extraordinary item. He had also learned his teacher's breathing technique, come into contact with the supernatural realm, and could absorb mysterious energy. Why did he have to accept his fate now?

"No matter how strong he is, he's not strong enough to have no worries!"

Li Hao gritted his teeth. If he was really so powerful that he wasn't afraid, why would he be so careful?

He was still afraid!

Who was he afraid of?

He was definitely afraid of the night patrollers!

There must be someone more powerful than the red shadow among the night watchers, so the red shadow didn't dare to make too much noise.

"Why are you scaring yourself?"

Li Hao comforted himself. Looking at Black Panther, he couldn't help but curse in a low voice, "You're such a waste. Every time I see you, you're always so terrified."

The Black Panther dog's eyes were filled with innocence.

I'm just a dog, very weak. If you're afraid, I'm afraid too!

Besides, Heibao felt that it was normal to be scared since he was still young.

A man and a dog were sitting in the living room, paralyzed. They didn't speak for a long time.

After a while, Li Hao suddenly picked up his communicator and dialed a number.

This time, he was not looking for his teacher.

After waiting for a while, Liu Long's cold and arrogant voice came from the other side of the communication device, "Speak!"

There was no prelude, just one word.

"I feel like someone is watching me!"

"Oh!"

Liu Long's reaction was calm, without any fluctuations.

Li Hao thought for a moment. Could it be that this person felt that he had discovered the demon hunting squad's tracking?

However, the red shadow was not a demon hunting squad.

Guessing that Liu Long might have misunderstood, Li Hao was silent for a while before saying, "I don't know how to put it. I just felt that when I was in the room just now, I suddenly felt a cold and gloomy feeling! I have a stray dog at home. It suddenly barked and then lay on the ground, motionless. I just checked and it even peed!"

"What?"

Liu Long was stunned.

Cold, barking, peed?

He suddenly realized something and could no longer remain calm. His cold voice rang out again, "Are you sure?"

Li Hao kicked Black Panther. Black Panther seemed to be depressed. Peed?

You're the one who peed!

Your entire family peed their pants!

Unfortunately, it couldn't open its mouth to speak, so the Black Panther could only accept its fate.

Li Hao didn't even blush when he lied. He immediately said, "I'm sure!"

"Understood!"

Liu Long's voice was solemn. After some consideration, he said in a deep voice, "Don't move now and don't say anything. I'll go over later, but I won't show myself! From tomorrow onwards ... I will follow you in secret. Don't reveal anything. "

He didn't ask Li Hao not to go home and live in the inspection Office.

He still needed Li Hao to be exposed.

Li Hao didn't say anything. He simply nodded and said, "Boss, so I'm not going to do anything now?"

"Don't worry about it!"

Liu Long's voice was cold and solemn. "You only have one mission. If you feel this feeling again, you don't have to do anything else. Just pull open the curtains!"

"I'm afraid that I ... Won't have the chance to pull it open. "

Li Hao muttered.

Liu Long seemed to have realized this as well, and after some consideration, he said, "Come to the inspection Office tomorrow and look for me directly!"

"Alright!"

Li Hao agreed readily. With his intelligence, he could guess that Liu Long might be able to dig out something good. This would be the best.

If he could deceive ... Cough, cough, if he could get something, then he would ask for some benefits.

A crying child would get milk.

In the demon hunting squad, if you didn't say anything, you might not get anything. Liu Long felt that he was very petty. Today was his first day in the squad, and he didn't give anything. At least Liu Yan said that she could take any hot weapons she wanted.

"Hu!"

After hanging up, Li Hao sat on the ground and fell into deep thought again.

Soon, he looked at the palm print on the wall and frowned.

The red shadow ... Did you see it?

It was not a big deal to observe him. Superhumans would not care about a fake Martial Master who could not even kill ten.

If they really thought that this was Li Hao's hidden strength, it would be a good thing.

Li Hao still had the mysterious ability of the Jade sword, and he also knew the breathing art. In the next few days, he might improve every day. Judging himself with his current strength, it would be useful in confusing his opponents.

Even if he did, he might not be a threat to supers, but Li Hao would not give up.

.....

It was a peaceful night.

14th of July.

The sky was clear.

Another night passed, and the appearance of the red shadow still did not attract anyone's attention.

Li Hao had a good night's sleep. Before he left, he gave the Black Panther a few more words of advice and left some dog food for it, then rode his bicycle to work.

Li Hao didn't know if Liu Long had come last night.

He could not ask as he only remembered that he was going to look for Liu Long today to see if he could get some benefits. It would be best if he could get himself some powerful super items.

Of course, it was mostly wishful thinking.

.....

In the confidential room.

Li Hao was still working here.

As soon as he entered, Chen Na arrived even earlier than him. Excited to see Li Hao, she hurriedly beckoned him over.

## Chapter 60: Chapter 18: Starlight master, mysterious energy (2)

Translator: 549690339

Li Hao felt a little strange. What was this guy doing here so early?

Chen Na was the colleague he was most familiar with since he came to the inspection Office. They had a good relationship and were closer than the others. They were also the youngest in the confidential room.

“Li Hao!”

“Good news!” Chen Na said excitedly when she saw Li Hao.

“What’s wrong?”

“There’s going to be a new member in the room, have you forgotten? Every year, this is the time to recruit new people. We’re finally free. In the future, we don’t have to come early to clean the house or serve tea!”

Chen Na was very excited.

She and Li Hao were both newcomers. Of course, she was a little earlier than Li Hao, so Li Hao had more work to do. However, there were some things that Chen Na still had to do, such as organizing documents. Sometimes, Li Hao couldn’t handle it alone.

“Recruit new people?”

Li Hao was slightly stunned. He had almost forgotten about this.

Besides, it wasn’t a big deal.

He was about to leave the critical room. In fact, he was no longer a member of the critical room. He just hadn’t been informed yet.

So this was the reason!

Li Hao smiled and looked happy. “Good news! Then we’ll be free. I was wondering why you came so early today. Don’t tell me you’re a newcomer?”

Chen Na nodded and said happily, “yeah!” In fact, I’ve already chosen them, but they’ve been training recently. They’re officially here today!”

“Mm, that’s good!”

Li Hao laughed as well, accompanying Chen Na.

He should be happy!

Otherwise, if he left and there were no more newcomers, Chen Na would have to take over Li Hao's work, and this person would be furious.

"A few newbies?"

"Two ... No, three!"

Chen Na was well-informed. She laughed. "I heard that there were only two people at first, but I think one more person was added. There are three people! It's better than us. When I came, I was the only newcomer. You were a transfer student. I did all the work by myself. It's not that tiring for people to have three at once. "

Li Hao responded and nodded.

In fact, he really didn't take it seriously!

When the chief came later, he still had to go and take attendance, and then go to the law enforcement team. He still had official business to do, so he didn't have the time to care about this.

However, he was a good person and an honest man in the secrets room. Even if he left, he couldn't ruin his character and had to accompany happy.

As they were talking, the others arrived one after another.

Li Hao started to get busy again. As usual, he didn't slack off just because he was leaving.

Wang Jie arrived at around nine o' clock.

Not only him, but there were also three newcomers behind him.

They were all very young, two men and one woman.

"Everyone, quiet down!"

Wang Jie had a smile on his face. He clapped his hands and said loudly, "Let go of what you're doing first ..."

Actually, other than Chen Na and Li Hao, the others had already read the gossip and didn't have anything to do.

Wang Jie didn't seem to see this and laughed."There are three new people in the essentials room today, and they are all elites! Being able to join the importance room represents their strength and ability ..."

After a round of praise, the three newcomers appeared.

At this moment, Li Hao stopped what he was doing and looked at the three newcomers, two men and one woman. They were all wearing inspector uniforms and looked very heroic.

He didn't pay much attention to the woman, but focused on the young man on the left.

He was very young, even younger than Li Hao, probably only eighteen or nineteen years old. Of course, it was hard to say his exact age.

He was very handsome and very sunny!

Li Hao was usually known as the most handsome man in the secrets room. Of course, this was a little exaggerated. After all, the people in the secrets room were all uncles and aunts, and there were not many young people.

However, Li Hao wasn't ugly. Compared to the guy in front of him, he was a little worse. The most obvious difference was his skin.

The young man's skin was fair, but it wasn't pale. It was milky white and looked tender.

Big sister Yu's eyes were shining at this moment. She had always wanted Li Hao to be her son-in-law. Perhaps she had changed her mind and wanted him to be her son-in-law.

Chen Na also took a few more glances. She even looked at Li Hao and suddenly chuckled."Li Hao, did you see that? Your biggest competitor is here. That guy's called Wang Ming, right? I'm even more handsome than you!"

Li Hao smiled and nodded."It's good that sister Na likes it. "

"Tsk! I don't like cute little dogs!"

Even though she said that, Chen Na still took a few more glances and couldn't help but say,"His eyes are so bright!"

Yes, it was very bright!

He looked especially energetic!

The eyes were a person's first window. If a person was handsome, their gaze would be weak and make them feel dispirited and useless, but this man called Wang Ming's eyes were also very bright.

"Hello everyone, Hello seniors. I'm Wang Ming, from the inspection college, and I just graduated this year ..."

Wang Ming introduced himself.

Soon, Wang Jie and Wang Ming came to Li Hao's side. Glancing at Li Hao and Chen Na, Wang Jie said with a smile, "Li Hao, Chen Na, you're both seniors now. Wang Ming, you learn from Li Hao first and familiarize yourself with the files in his hands. Chen Na and Li Hao, you two teach him."

He had asked Wang Ming to study with the two of them not because he was special, but because Li Hao was leaving. Chen Na didn't know about this, but Wang Jie did.

Therefore, he had to find someone to replace Li Hao.

Wang Ming was very suitable!

"Sure," Chen Na giggled, "should we prepare a new desk?"

"No need!"

Wang Jie smiled. "Just bring a chair over. We'll make do for a few days!"

Chen Na was a little confused, but she didn't ask further. She would just make do with a few days.
