

## Constellation 491

### Chapter 491: three heroes killing three suns (2)

...

"I have such an idea."

"Don't you mess around!"

Wang Ming reminded him.

People would die!

Even the three suns couldn't block it, and you, who broke a hundred, also wanted to block it?

Li Hao smiled and said, "isn't sister Zhang here?" If I really got hit, I might just be slightly injured. Sister Zhang, if you treat me, I might be fine. "

"Nonsense!"

Wang Ming ridiculed, "it's just that sister Zhang is a Dark Moon. It's not that I'm looking down on her ... If she really encountered that kind of injury, sister Zhang wouldn't be able to do anything about it. What are you doing? if you're so interested, why don't you go into the city and take a look?"

"Wang Ming's right," Zhang Ting also said. "It's better not to try. It's too dangerous!"

Li Hao didn't say anything. Instead, he looked at the city gate tower again.

Moreover, he was much closer this time.

He carefully looked at the two words in the sky. He had a premonition that if he got close, or even touched it, or felt it for himself, he might have some unexpected gains.

Wang Ming next to her ... Was actually nothing.

More importantly, this Zhang Ting kept following him, and sometimes, it really made him impatient.

The middle stage of the three yang realm and the origin divine weapon ... Even the defense would be hard to break.

If he could avoid taking risks, Li Hao was not willing to do so at this point.

The difference was huge!

If he was Yuan Shuo, he would dare to directly attack after merging the five Forces.

However, he was only a douqian that had fused two forces!

Li Hao didn't say anything. He continued to read the two characters. After a while, he heard some vague movements in the city. It was possible that someone was fighting ... But it had nothing to do with him. He couldn't be bothered.

Zhang Ting was a little curious and looked inside. Unfortunately, the distance was too far and she didn't know if the three suns had fought.

The movement was quite big, and it was very likely that the three suns had made a move.

"Sister Zhang, why don't you wait outside the square?"

"It's still dangerous here," Li Hao said again.

"You're not going?" Zhang Ting asked. "If you don't go ... I'll stay with you. After all, I'm at the full moon level, so I can still help you."

On the side, Liu Long also frowned slightly.

This woman ...

Did she cling onto Li Hao?

He knew this person's identity. He was at the middle stage of the three yang realm and might even be wearing an origin divine weapon. He was extremely difficult to deal with!

He was not willing to take the initiative to provoke them!

Zhang Ting was indeed pestering Li Hao, because at this moment, she was very curious about Li Hao. Li Hao said that these two words were very special, and it seemed that he wanted to take them off and have a look ... She also wanted to know why these two words were special.

At this moment, Li Hao was relieved. He laughed. "It's fine if sister Zhang doesn't want to go, we're all on the same side... Old Wang, let me tell you a secret. I just spilled some blood on the door, you know that, right?"

"I saw it, what's wrong?"

Zhang Ting also perked up her ears. Could it be that ... Li Hao's blood was useful?

Li Hao raised his head and said, "at that time, I felt that these two words were very special. There seemed to be a special fluctuation. Perhaps it was a hidden treasure that was related to my blood. Perhaps the bloodline of the silver Blizzard city's eight great families really had something to do with this place!"

"This heaven battling city is very likely the home of one of the eight great families, the Wang family!"

Wang Ming took a deep breath, "so awesome?" To be honest, I also know about the eight great families, but if you're talking about one of the eight great families, the Wang family has such a large city and so many powerful guards ... So, if you were in the ancient civilization, would you still be a Crown Prince?"

Amazing!

However, Li Hao's words might really be related to the eight great families.

But ... Zhang Ting is here, why are you saying this?

He was a little speechless. Sometimes, Li Hao's mind wasn't very clear.

We're on the same team, so we're considered fellow disciples. Zhang Ting ... I'm not even familiar with her, but you, Li Hao, are?

He trusted others so much?

Why didn't he just keep quiet and say it in front of her?

And this Zhang Ting...She's a little tactless. Li Hao is telling her a secret, can't you just keep it a secret?

Wang Ming ridiculed in his heart!

Zhang Ting didn't seem to hear him, nor did she see Wang Ming's expression. At this moment, she remained silent and didn't say a word, as if she didn't exist.

Li Hao, on the other hand, glanced at Liu Long.

Liu Long was a little nervous!

He was really nervous.

If he had just advanced to the thousand warrior tier, three suns ... He felt that if he dared to do it, he had nothing to fear. If Yuan Shuo could kill him, so could he!

But now ... The more he knew, the more timid he became.

Moreover, he was not even at the early stage of the three yang realm!

He understood the look in Li Hao's eyes.

Li Hao had made up his mind to get rid of this woman.

The key was ... He ... He really had no confidence.

Even if Li Hao was standing next to him, and this guy had also advanced to the Qian warrior tier, Li Hao's strength would be limited. Could this guy break the three-sun defense?

Liu Long took a deep breath!

Wang Ming looked at him in surprise. What happened to Liu Long?

He felt ... Very nervous!

Zhang Ting also felt it and looked at Liu Long. At this moment, Liu Long seemed to be extremely nervous, and his breathing was abnormal.

Zhang Ting paid more attention and was a little confused.

As for Liu Long's attack on her ... She didn't think about it, because it didn't make sense.

If he did not know his identity, there was no reason for him to attack the night patrolman.

If he knew his identity ... Would a mere Qian Dou dare to attack an intermediate three yang?

That was even more unreasonable!

“Boss, are you worried about that person from the Yama?”

Li Hao laughed. “What are you afraid of? I’m over a hundred, after all. Plus sister Zhang from Yueying, we have a thousand-man fighting and a sun glory. Why should we be afraid of him?”

Wang Ming nodded and said, “that’s right!” Even if it’s the peak of the sun glory realm, it’s not the three suns. If we join forces, it’s not impossible to deal with it! Besides, they’ve entered the city and might have seen the city full of treasures. Who would have the time to care about us?”

Chapter 492: -three heroes killing three suns (3)

...

Liu Long didn’t speak.

He only looked at Li Hao.

He was waiting for Li Hao’s call.

He didn’t know when it had started, but he felt that it would be better for Li Hao to make the decision. However, things had changed without him realizing it. In fact, it was mostly because of this trip to the outer city, where Li Hao could see everything because of his special eyes.

Gradually, he took the initiative and Liu Long liked to listen to his opinion before doing anything.

And this was also a very wise decision.

So many people had died this time, but the three of them were extremely safe. No problems had occurred at all, and they had even obtained many benefits.

Liu Yan, who had broken through the late 100th stage, had not only taken revenge, but had also safely left the ancient city.

Among those who had retreated, he was considered relatively weak.

There weren’t too many people who had retreated. There weren’t even many who had a full moon. They were either sun glory or full moon.

At this moment, Li Hao pointed at the two words on the city wall with the Earthcover sword and said, “I still want to go up and take a look. Boss, do you think we should go and take a look?”

He held the sword in his hand and pointed it upwards.

Liu Long, on the other hand, was silently observing the sword ... This was a signal.

When the sword fell ... It meant that Li Hao wanted him to attack.

At this moment, Liu Long suppressed his nervousness.

In fact, he had a plan to deal with Zhang Ting. Once he made a move, the only thing Liu Long had to do was to send the other party flying into the sky!

Zhang Ting didn't go to the second passage, perhaps because she was afraid of being exposed, or because she was afraid of death. This also meant that once she entered the sky, she would be attacked. The powerful city defense system would quickly collapse her.

The premise was that he had to hold on for about 10 seconds to have a chance of breaking through her origin divine weapon defense system.

At that time, it was not impossible to take a gamble!

However, these 10 seconds were extremely difficult to endure.

Hao lianchuan's suggestion was to do it in the midst of the black armor. However, now that the black armor was gone, there was no one below and there was no danger. Zhang Ting was not an idiot. Could she not land quickly?

Because of this, when Hao lianchuan left, he didn't think that Li Hao would dare to touch his whiskers.

However, he didn't know that Li Hao had advanced to the Qian warrior realm.

The double forces advanced!

Moreover, he had managed to seal the terrain and strengthen his five internal organs. Although he might not be as strong as Yuan Shuo, who had just advanced, Li Hao was much braver than before.

He really wanted to see the two words 'heaven battling'!

The sword in his heart, he wanted to kill it ... Perhaps, Zhang Ting was very suitable!

If he didn't find a strong person to attack, was he supposed to attack a weak person?

Even at that moment, the silver-tier powerhouse did not attack these people. After recovering his memory, he felt that these people were just ants and they were all humans. Therefore, he gave up on killing them.

Swinging their swords to the sky and slaying powerful enemies was what they were after!

At this moment, Li Hao held his sword and said again, "Boss, what do you think that silver-tier elite was thinking when he swung his sword at the sky?"

"Kill the enemy!" Liu Long frowned and said in a deep voice.

"Yeah, kill the enemy!"

Li Hao's heart seemed to be surging with emotions. He waved his longsword lightly. The next moment, he held the longsword in his hand and suddenly swung it down heavily. He shouted, "Shouldn't we martial artists be like this? I'll die with no regrets if I swing my sword to kill a strong enemy!"

**BOOM!**

The longsword fell heavily, and the high-pitched sound instantly attracted Zhang Ting and Wang Ming's attention.

At this moment, Liu Long's arm wriggled and the ninth refinement force erupted.

He was like a ferocious Tiger. At this moment, he suddenly threw a hook punch at Zhang Ting, sending her flying!

This was his demand and goal!

He had never thought that he could kill a middle stage three yang with one punch ... That was impossible.

If he really killed him, it meant that he had hit the wrong person and had hit Wang Ming instead.

Wang Ming really hadn't come back to his senses. He was still listening attentively to Li Hao's words, feeling a little overwhelmed ... As for the whistling sound in his ear, he subconsciously turned his head to look, and in that moment ... He was a little lost.

He was truly at a loss!

Why?

Liu Long ... Wanted to hit Zhang Ting?

What was this for?

It can't be, right? he just didn't leave and heard some secrets. Although it's a little annoying, it's not necessary to silence him, right?

He was a little angry. Such emotions had just been born, but in the next moment, he lost them ...

Because at this moment, Zhang Ting also woke up from her shock.

What a joke!

Did Liu Long ... Really sneak attack her?

Is he crazy or am I seeing things?

In the next moment, a powerful wave of water energy erupted from his body and instantly covered his entire body. The water energy even turned into Ice Energy and spread towards Liu Long's fist in an instant. A powerful Ice Energy appeared in the blink of an eye.

It wasn't Water-type ... Or rather, it wasn't a simple Water-type superpower.

Zhang Ting was a powerful ice-type powerhouse!

Even so, her aura didn't leak out. It could be seen that her origin god weapon probably had the effect of concealing aura, which was very effective.

However, his aura did not dissipate, and his powerful superpower was undoubtedly revealed.

At that moment, Wang Ming, who was next to him, even felt as if his thoughts had frozen.

As for Liu Long, he also felt that his fist had been frozen in an instant. The momentum formed by the waves had also been frozen at this moment. The surging waves instantly turned silent and turned into ice.

Powerful!

The mightiness of the mid three yang realm was fully displayed at this moment. Zhang Ting's reaction speed was extremely fast.

Bang! Bang!

With a loud bang, Liu Long's fist still smashed down.

However, the anticipated blow to send the other party flying ... Failed.

The layer of ice on Zhang Ting's body instantly shattered.

The sneak attack, and the sneak attack of the ninth-form force at that, was still somewhat threatening. With one punch, it directly broke her three-sun super defense. It was very powerful!

Chapter 493: -three heroes killing three suns (3)

...

However, a cold aura flashed across his body. In the next moment, another wave of power overflowed.

An origin divine weapon!

Zhang Ting's face turned ugly as she looked at Liu Long with a cold gaze, her eyes filled with killing intent!

He dared to sneak attack him!

She took a step back and felt a little uncomfortable in her chest. Her opponent's ninth refinement force was still extremely powerful. If not for the origin divine weapon, her internal organs might have been injured by that punch!

Her face was cold as ice, and an ice sword, or rather, an ice awl, instantly formed in her hand!

That long and thin weapon, which was like an icicle, instantly pierced towards Liu Long's eye!

To think that a douqian Martial Master, who was not even as fearsome as Yuan Shuo, would dare to launch a sneak attack on him ... He was truly courting death!

At this moment, just as she was about to ruthlessly kill this guy, she suddenly felt her hair stand on end and a chill run down her spine.

At this moment, a sword light shot up into the sky!

At some point, Li Hao silently attacked with his sword. Li Hao had been holding back for a long time.

The sword momentum was powerful!

Not only that, but the ground seemed to be shaking and locking the void.

A mountain seemed to have appeared outside Li Hao's body, a mountain that was locked.

The sword of the mountain!

At this moment, Li Hao was no longer thinking about the sword strike of the Li family's ancestor, but the sword strike of the silver warrior ... Killing the enemy!

It was purely to kill the enemy!

The heavy sword, coupled with the overbearing sword, and the terrain, was like a fish in water. Zhang Ting's expression changed slightly as the sword slashed down. She instantly retracted the icicle and stabbed it at Li Hao's long sword!

Li Hao ... Was actually not simple.

BOOM!

Liu Long once again punched out with a whistling sound, and Li Hao's sword instantly stabbed out!

Crack!

The sword broke the icicle directly. The sword light was blinding.

Pfft!

Crack ... The ice covering his body shattered. Li Hao's sneak attack was more lethal than Liu Long's.

With a single sword, he had once again shattered the three Yang's defense.

Clang!

The tip of the sword seemed to have stabbed into something and met with a huge resistance.

Zhang Ting's eyes were filled with anger, pain, and cold-blooded!

You think ... You can kill me like this?

You're underestimating me and the origin god weapon!

At that moment, her origin god weapon appeared.

It seemed to be a snake, a shadow snake.

This dark Water-type shadow snake instantly turned into a thin sword. It extended from her body and instantly appeared in Zhang Ting's hand.

Just now, Li Hao's sword attack had encountered this snake.

An origin divine weapon!

Even the lowest-grade yellow origin god weapon couldn't be broken by people like Li Hao.

Zhang Ting's face was cold. At this moment, she seemed to have regained her confidence and said coldly, "You ... You've miscalculated!"

Two Qian fighters launched a sneak attack, and Li Hao was unexpectedly powerful. He even broke through his defense and pierced into his body ... It had to be said that if it were an ordinary three yang, he would be seriously injured even if he didn't die.

These two people really had the ability to kill three suns with a sneak attack!

But who was she?

She was from the Nightwalker headquarters and was a mid-stage three yang cultivator. She also had an important mission to monitor hou Xiaochen's existence. This shadow snake sword had been specially given to her by the headquarters for aura concealment and self-defense!

In the central region, origin God weapons were not everywhere.

Even the lowest-grade origin divine weapon was something that ordinary three-Suns could not obtain. Most of them were peak three-Suns, and only existences like Zi Yue had a chance of obtaining it.

The reason why Zi Yue could obtain a black grade Thundergod armor ... Was because she was the person in charge of Silver Moon and needed to train new people. Otherwise, she would only be able to obtain a yellow grade origin god weapon at most.

So, Zhang Ting's origin divine weapon was a special gift!

The shadow snake sword appeared and blocked Li Hao's attack. At this moment, there seemed to be a snake sticking out its tongue at the tip of the sword!

It was extremely dangerous!

Had he miscalculated?

Didn't Li Hao know about origin divine weapons?

Of course he knew!

At this moment, he and Liu Long stomped on the ground at the same time and leaped into the sky. Even if Li Hao didn't enter the second passage, he was still flying.

He seemed to be escaping!

Zhang Ting's expression changed and she snorted coldly. The next moment, a powerful super power, ice-sealing world, spread toward Li Hao and the others.

He wanted to escape?

What a fool's dream!

Since he had already made his move, there was no need to show mercy. There was no need to hide. He had to kill them!

Li Hao stomped on the ground, and his inner strength burst out instantly. His sword momentum burst out, and he turned around and slashed the ice.

At that moment, he seemed to have seen a snake!

A silent snake was about to swallow him!

Shadow snake sword!

Li Hao knew that because he posed a greater threat and was more powerful, his killing power was much stronger than Liu Long 's. Thus, the other party would definitely choose to kill him at the first moment. Thus ... This sword would definitely deal with him at the first moment!

This was the moment he had been waiting for.

Abandon the sword!

He directly threw out the earth overturning sword, and it went straight for Zhang Ting. As for Li Hao, he was unarmed, and it seemed like he was going to deal with the shadow snake sword ... Zhang Ting almost laughed.

He didn't have time to laugh!

Because Liu Long had returned, and his axe was chopping towards her. There was a tacit understanding between martial masters, and that was how it was.

There was no discussion ... But Liu Long knew that this was what he had to do at this moment!

Li Hao, go deal with that sword!

He, on the other hand, was dealing with this middle stage three yang.

As the axe chopped down, the waves once again swept across the world. However, the waves this time seemed to be a little different. The waves were still the same as before, but vaguely, they carried an indomitable will, as if they were looking at death as if they were returning!

The strike of the warring heavens Army!

Chapter 494: -three heroes killing three suns

...

Unknowingly, the Martial Master seemed to have been affected.

Slash!

Zhang Ting's face was filled with mockery. An icicle appeared in her hand again and she stabbed forward!

You think you're worthy?

At that moment, a golden longsword silently exploded behind her, and Wang Ming was still dumbfounded ...

However, it didn't stop him from using underhanded means.

He was really stunned!

Even now, he was still not clear-headed.

Three yang?

It didn't seem to be an ordinary three suns. Li Hao and Liu Long wanted to F \* ck three suns ... He was almost scared to death.

But ... Killing the three suns was a big deal!

Previously, they had worked together to kill glorious sun, and he had quickly advanced to glorious sun. This time, he had actually killed three suns ...

As for who Zhang Ting was and why she was three yang ... Anyway, those who hid their strength were not good people. Who cared who she was, just do it!

The scattered flower sword exploded!

BOOM!

Zhang Ting didn't expect that this timid fellow, who had been scared silly earlier, would still dare to launch a sneak attack on her in such a state ... She was so angry that she laughed. Have these people gone mad?

How dare an early stage sunlit realm cultivator ambush him!

He's not even as good as Liu Long!

With a loud bang, the golden sword exploded, but the ice Armor on her back only shook for a while ... It didn't break.

This was the difference!

Although Wang Ming, who was in the early stage of the sunlit realm, wasn't weak, Liu Long and Li Hao had broken through her Defense one after another while facing a middle stage three yang cultivator. Only Wang Ming ... Hadn't been able to do it.

It only shook the ice Armor a little, and that was under the situation where the opponent was distracted.

Wang Ming was dumbfounded and a little shocked.

How was that possible?

The ice Armor didn't shatter?

Li Hao shattered it and pierced it into the opponent's body. Liu Long shattered it and hit the opponent until he was bleeding ... I ... I didn't even shatter it?

"Hmph!"

With a cold snort, Zhang Ting's eyes turned cold as she pierced the short axe in Liu Long's hand with her awl, even completely freezing his right hand. Just as she was about to stab The Awl into his throat, Wang Ming, who was behind her, wasn't willing to give up. With another roar, the Golden longsword didn't explode this time, but instead went straight for the back of his head!

He was furious!

Who are you looking down on?

Buzzzzzz!

Metal-type, it was indeed the strongest attack-type. At this moment, Zhang Ting, who was multitasking, frowned slightly. This sword...Was a little threatening.

He couldn't ignore it!

The icicle had failed to pierce Liu Long's throat. Liu Long had already shattered the ice seal and retreated. She didn't care and waved her hand in return. An icicle swept behind her. With a crack, the golden sword was instantly shattered!

Wang Ming spat out a mouthful of blood with some shock and some fear ...

"Li Hao, you scammer!"

Such a thought flashed through his mind. He was dead.

You're crazy to deal with a three-sun strong man. This time, you're dead!

At this moment, a sharp voice was heard.

In midair, Li Hao drew his sword. Yes, he drew his sword again.

It was a small sword that wasn't too long!

He pulled out his sword. This time, he didn't use a silver sword, but a self-severing sword. He slashed at the small snake. At this moment, a snake seemed to really appear on the shadow snake sword.

That snake had eyes.

His eyes ... At this moment, were filled with fear!

It seemed to have remembered something, but it also seemed to have forgotten something ...

A sword!

This sword, this sword momentum ...

In the little snake's few memories, which had already been obliterated, the person who had once slashed with this sword seemed to appear.

That was a high and mighty existence that one could only look up to!

And at this moment ... It seemed to have remembered.

"Hiss hiss hiss!"

A hurried neigh sounded, but it was too late.

Li Hao bellowed and slashed out with his sword!

Kill me!

Puchi!

A snake, perhaps just a shadow ... Was instantly cut into two by him.

The shadow dissipated in an instant.

But Li Hao's eyes moved.

At this moment, the small sword in his hand seemed to have devoured the shadow. A familiar power began to be born in the small sword ...

Li Hao was shocked, shocked, happy, and crazy ...

Sword energy!

He didn't have time to think. At this moment, a black short sword in the air cracked and fell to the ground with a bang.

It didn't have the divine aura from before!

It was as if the little snake that had just been killed was the essence of this sword.

When the little snake was killed, this sword, this origin god weapon that was a treasure anywhere ... Seemed to have lost its spirituality.

"Pfft!"

Zhang Ting, who was about to kill Wang Ming, suddenly spat out a mouthful of blood. She turned to look at Li Hao in disbelief.

At this moment, she was shocked and in disbelief.

How was that possible?

The shadow snake sword ... Was broken!

The origin god weapon was broken.

She looked at the sword in Li Hao's hand, and her eyes instantly brightened. The sword of the Li family!

This ... Must be the Li family's sword!

At this moment, she finally understood.

So the Li family's sword wasn't in Hou Xiaochen's hands, but in Li Hao's hands all this time. Of the eight great families, if the Wang family was so powerful, what about the Li family?

How could the Li family's sword be simple?

As soon as this thought appeared, Li Hao slashed out like a flying bird!

This strike had six layers of sword radiance!

Li Hao suffered a huge backlash. In the next moment, an armor-like object floated above his body. It was not an origin divine weapon, but his own Shi!

He pressed forward with indomitable will, disregarding everything else, defending with the terrain, and killing with his sword momentum!

Zhang Ting was suffering from the backlash of the origin god weapon ... At this moment, she let out an angry roar and struck out with an extremely powerful palm!

The ice-sealing force instantly sealed off all of Li Hao's escape routes!

You're just a Qian warrior, and you want to kill me?

That was impossible!

Chapter 495: -three heroes killing three suns (3)

...

The breaking of the origin god weapon was beyond her expectations. She was injured, but she could recover quickly.

Li Hao, don't even think about killing me!

This time, you're dead for sure. Also, the Li family's sword will belong to me!

If she got this sword ... It might be an earth-level source god weapon, or even ... A heaven-level source god weapon. With this sword, she could even kill Hu dingfang and the others and seize the most precious treasure in the city.

If she also got the defensive origin god weapon of this city ... She could even fight against Sunglow with two top-notch origin God weapons.

This was not a crisis, but an opportunity!

At this moment, Li Hao's sword was extremely fierce and full of killing intent. Although it was still a little immature, the killing intent was still powerful. It even seemed to trigger some resonance in the ancient city.

It was as if it came from the heaven-battling Army who had died in battle!

The sword broke through the ice seal, and with a Kacha, the sword streaked across the sky. With a bang, an arm fell to the ground.

Zhang Ting's eyes widened ... My hand!

She ... Had her arm cut off by a douqian Martial Master!

His other hand slapped out. With a bang, the terrain armor on Li Hao's body instantly split open. Li Hao spat out a mouthful of blood, and his spleen seemed to have been shattered.

The terrain could not block this palm!

However, the attack was still weakened by more than half. Li Hao's defense was extremely strong, but he still couldn't block this palm. It was clear how powerful this mid three suns realm was.

Bang! Bang!

At the same time, Liu Long threw out a punch. The nine waves stacked on top of each other. While Zhang Ting was being slashed by Li Hao, Liu Long also threw out a punch. With a bang, the ice Armor's defense was shattered. With a bang, the punch heavily landed on Zhang Ting's back, causing her to spit out a mouthful of blood.

The ice-sealing force spread to Liu Long's arm, causing his arm to instantly stiffen.

Liu Long frowned!

He still had the power to defend and counterattack ... Was the three suns really so powerful?

The two powerful fighting Qian martial masters, sunlight, and Li Hao's sword, which had broken the origin divine weapon ... Had launched a sneak attack, but they still couldn't take down Zhang Ting.

His arm seemed to have frozen to death!

BOOM!

At that moment, there was another loud bang. Before the ice Armor Liu Long had just split open could recover, Wang Ming, who had been so scared to death just now, condensed another sword and directly exploded!

The explosion sent Zhang Ting's back flying with blood and flesh.

Zhang Ting looked at him with her blood-red eyes ...

The intense pain in her back made her go a little crazy.

She hadn't expected that this injury wasn't caused by Liu Long, but by that trash Wang Ming!

Wang Ming's face was full of fear as he quickly retreated, extremely terrified. "No... It's not me ... I just ... Just subconsciously ..."

Yes, he subconsciously captured the opportunity.

He was also considered a talent!

He subconsciously blew up his metal-elemental sword, subconsciously attacked, subconsciously prepared to kill a three yang ...

Thus, he naturally succeeded in his sneak attack.

It directly blew a huge bloody hole in the back of this three yang.

Neither Li Hao nor Liu Long had expected this attack.

The two of them were speechless.

A talent!

“Pfft!”

Zhang Ting spat out a mouthful of blood. It was unknown whether it was due to her anger or her injuries.

Her arm was cut off and her back was hit by Liu Long’s fist. In fact, the injury was not serious. However, as a sunlit expert, her injury was further added to her injury. At this time, the goddess scattered flowers and directly injured her back, spreading to her internal organs.

This time, his injuries were really not light!

She was furious. The next moment, she struck at Li Hao again.

Ice-sealed world!

Li Hao felt as if he was instantly frozen and couldn’t move. Zhang Ting was also fighting for her life. At this time, she had been injured several times, and her injuries were not light. If this dragged on and these shameless guys found an opportunity, she, the third Sun, might really die with hatred!

Kill Li Hao!

Li Hao was too much of a threat to her, especially that sword. It was indestructible. If Li Hao hit her again, she would be crushed.

At this moment, Li Hao had recovered a little because of his sword energy.

He had done something that he had never thought of doing before, nor did he dare to do.

At this moment, he suddenly roared. His voice was frozen, but he didn’t care. A huge mountain broke out of his spleen!

Accumulating spirit power!

Previously, Li Hao didn’t dare to do this, because his spleen wasn’t strong enough. If he dared to do this ... His spleen would explode and he would die.

However, the sword had recovered a little, so what was there to be afraid of?

Only those who dared to try were true warriors.

His teacher’s heart fire ape directly killed sun Yifei, who was at the late stage of three yang realm. His heavy mountain...Couldn’t he kill a heavily injured middle stage three yang realm?

The huge mountain appeared and instantly turned into a special mountain sword.

Li Hao slashed out with his sword!

BOOM!

The ice seal shattered. At this moment, Zhang Ting felt a mountain pressing down on her. She was filled with shock and disbelief.”Spirit accumulation?”

That was impossible!

How could Li Hao be at the profound spirit stage?

As the mountain broke, Li Hao also felt his own power. At this moment, he felt that he was very strong.

The sword of Mount Tai exploded!

Zhang Ting felt as if she had been frozen and suppressed. She saw a heavy sword falling from the sky, slashing towards her.

She was unwilling to accept this!

“Impossible!”

The power of ice instantly spread out, turning the entire world white. Ice!

It was all fake!

She didn't believe that Li Hao really had a profound spirit. If it were true, he could have killed her with a sneak attack earlier. Why would he wait until now?

It can't be true!

Ten thousand miles of ice!

BOOM!

The heavy sword fell and cut the ice Mountain. All the ice was shattered in an instant. Li Hao's face was flushed, and his blood was surging.

Chapter 496: -three heroes killing three suns

...

With a single sword strike, the ice-sealed world was split open.

Pfft!

Zhang Ting vomited blood again. At this moment, she was afraid. The next moment, she suddenly turned around and wanted to escape!

She was the third Sun and these people were not as fast as her.

Li Hao, on the other hand, slightly frowned. The next moment, his expression changed. He was so troublesome.

A surge of blood Qi gushed into the sword.

Blood Blade technique!

The sword momentum merged with the long sword, the terrain merged with the long sword, and the blood Qi and inner strength merged with the long sword.

With the sword energy ... He could be more open.

The Martial master's decisiveness made him choose to kill without any hesitation.

If this person escaped ... This time, he didn't know how many of his secrets would be exposed.

In the distance, Liu Long also punched out, blocking the other party's path.

The Golden longsword in Wang Ming's hand instantly turned into ten thousand swords, which shot towards the other party and exploded with a bang ... He was a fake swordsman, and the only thing he knew how to do was to scatter flowers, but the effect was generally pretty good.

Zhang Ting directly ignored him!

Even if he was injured, he could not stop.

Behind him, the heavy sword was as sharp as a blade.

Li Hao took a step in the air and pounced forward like a bird. This step covered dozens of meters. His speed was beyond imagination, and his body was as light as a bird in the wind. He instantly appeared behind Zhang Ting.

He slashed out with his sword, and the sword Qi turned red!

BOOM!

With a loud sound, the ice Armor was instantly shattered. As the sword fell, Zhang Ting was still running ... And as she ran ... She was directly broken!

His entire body was split into two.

At this moment, the two people who had been split apart ... Were still running.

After running for a few dozen meters ... He finally fell to the ground.

Behind him, Li Hao coughed, and blood gushed out.

His spleen was bleeding profusely!

The armor disappeared, the longsword disappeared, and everything disappeared. Li Hao's face instantly paled, but he smiled.

He didn't beat his opponent into the sky!

Two Qian fighters and one sunlight cultivator had killed one of the three suns in a frenzy!

Liu Long and Wang Ming instantly rushed over, still in shock and disbelief.

He won?

The battle actually did not last long, not more than a minute. In this one minute, they fought many times and almost died a few times, but in the end ... The one who died was actually the third Sun!

"I ... Killed three suns?" Wang Ming muttered.

Yes, he made his move!

Not only did he attack, the bloody hole on Zhang Ting's back was caused by him. If it wasn't for this attack, Zhang Ting might not have been defeated so quickly.

So, when he said that he killed Third Sun, Li Hao and Liu Long didn't say anything.

It could be said like this!

This guy was usually unruly, but today, he really exceeded Li Hao and Liu Long's expectations.

They had thought that when they made their move, Wang Ming would choose to escape!

They didn't care ... Wang Ming probably wouldn't make trouble or help this woman, and that was enough.

The two of them did not expect that he would choose to attack!

Moreover, he had been very sharp in grasping the opportunity several times, which had made Li Hao suspect that he might really be a fighting genius. It was only now, when Wang Ming was smiling so widely that his teeth were showing ... That Li Hao felt that he had been overthinking things.

A genius in combat ... This fellow was also a fool.

"Hu!"

Liu Long and Li Hao gasped for breath at the same time. They were exhausted!

"Water-type energy ... Fast! And the origin god weapon ..."

Li Hao shouted at Wang Ming. He couldn't move anymore. Sword energy quickly spread and exploded in his body, and he transferred a part of it to Liu Long. If he didn't take care of the captain's hand, it would be completely crippled.

If he hadn't obtained some sword energy after breaking the origin divine weapon, he would have thrown his opponent into the air.

However, this time, they did not use the city's defense system and still managed to kill Zhang Ting.

The result was ... Without sword energy, Li Hao would probably die. This made him feel the benefits of sword energy again.

At this moment, he thought of the origin divine weapon.

Cutting off the origin divine weapon ... To replenish sword energy?

This thought flashed through his mind. If others were to know about it, they would probably go crazy.

Who would intentionally break the origin divine weapon?

Moreover, those who had such thoughts were all heretics who should be killed!

"Boss ... How is it?"

Li Hao looked at Liu Long. Liu Long's cold face suddenly revealed a faint smile, "The three yang ... Can be broken!"

My ninth-form force has destroyed the three Yang's defense twice!

At this moment, his confidence had returned!

The confidence that had been crushed by Yuan Shuo and Li Hao instantly returned.

I, Liu Long, can also break the defense of the three yang!

“So, I'm not as weak as I thought ... It's just that the people I met were too strong and crazy!” 1

In the distance, Wang Ming was so excited that he wanted to scream. So much mysterious energy, so much, so much ... And some other treasures. He was rich!

Chapter 497: The terrifying ancient city (1)

...

The sword energy surged.

His shattered spleen was rapidly recovering, and so was his consumed Shi and inner strength.

With swords around, both Li Hao and Yuan Shuo were very violent.

Without his sword energy ... Yuan Shuo would keep a low profile, and Li Hao would keep an even lower profile.

Previously, Yuan Shuo could not bear to use up the last of his sword energy, so he killed a group of Crimson Moon powerhouses and ran away ... If he could use his sword at that time, with Yuan Shuo's personality, he would have directly absorbed the sword energy to recover. The flying heavens and Yama who were present that day ... Probably could not even think of living!

That was a truly ruthless person!

He ran away because he was not strong enough and his injuries were too serious. Otherwise, how could he have just killed Hong Yue's men?

As for why he had killed the Yama and the fairies ... He didn't need a reason to kill.

If they had to, then these two organizations ... Also had enemies!

That's right, there was still a group of people who managed to make it out of the Silvermoon martial forest. Fei Tian and the Yama did indeed have enemies, but they weren't as well off as Ying Hongyue.

At this moment, Li Hao was in a similar situation.

After absorbing the small snake, his sword energy had recovered a lot. It was almost the same as what he had absorbed at the stone door. It should be known that the sword energy absorbed by the stone door had also extracted a lot of mysterious energy.

Yuan Shuo was full of spirit, Li Hao advanced to thousand-fighting, and Wang Ming advanced to sunlight ... All of this had consumed sword energy.

In addition, Li Hao had fought with Liu Long for many days, and he had used up a lot of energy to repair himself every day.

This amount of sword energy was enough for Li Hao to use for a long time.

However ... When he finished repairing the spleen, he also repaired Liu Long ... Li Hao felt that he had used up a lot of energy.

Save some money!

Sword energy was the real hard currency.

Not far away, Wang Ming ran back happily, holding the storage ring that Li Hao had just thrown at him. It had been given to him by Dingchen from Feitian, and it contained 100 cubic meters of fire energy.

Today, the remaining four grids were filled with 800 cubic meters of water energy, which was full!

In addition, there were two extremely strong human bones, which also contained about three to four hundred cubic meters of water energy.

This was all!

There were actually more mid three yang realm experts.

However, this place was special. The rate at which the ground absorbed a portion of the water energy was not slow. In the blink of an eye, it had absorbed a portion of the water energy, leaving close to 1200 cubic meters. This was already not bad.

At least he didn't Rob them all!

It wasn't just this mysterious energy. Wang Ming also held a Broken Sword in his hand. Even if the origin divine weapon was broken, it was still a first-class extraordinary item that was incomparably sharp. Moreover, this origin divine weapon had the effect of concealing its aura.

Although it was broken, Wang Ming actually felt as if his supernatural waves were suppressed when he held it.

Origin God weapons and mysterious energy were his biggest gains.

There was also a small booklet.

Zhang Ting didn't bring too many things, and it was impossible for a spy to bring a lot of things, let alone any identification. Those who did that were fools.

Wang Ming didn't understand the booklet.

He directly threw it to Li Hao and said, "look, What is this?" Is it a secret manual or something?"

Li Hao took it, looked at it, and shook his head. "It's not a secret manual. It should be some kind of secret language used for communication. This is very common. Sometimes, we can only communicate through some special methods. We might choose some numbers to correspond to the words in a certain book and translate them ... It's a very primitive way of transmitting information."

"It seems she's not the only silver Moon!" Li Hao laughed.

Since they had to keep in touch, there was definitely more than one spy in Silver Moon. Who knew how many there were, but she might be the strongest.

It was only then that Wang Ming came back to his senses, and he said in a strange voice, "That ... She ... Who is she?"

I forgot to ask!

He was too focused on fighting and killing people. At this moment, he suddenly came back to his senses. This ... This is the night patrol, right?

It's a big crime for us to kill our own people.

"Night patrolman!" Li Hao glanced at him and smiled.

Wang Ming coughed violently and couldn't help saying, "This ... This must be fake. She's so strong. She must be an undercover agent from the three major organizations ..."

"It's really not him, he's the night patrolman. "

Wang Ming was dumbstruck. In the next moment, he swallowed his saliva. "Don't ... Don't mess around ... Kill ... Kill the three Sun night patrolman ... We're finished!"

"Don't worry, it's not Silver Moon 's. "

"That's good!"

Wang Ming heaved a sigh of relief. It wasn't like there was a metal board between provinces. It was another province, and although it was troublesome, it was still acceptable.

"From the headquarters!"

"....."

Wang Ming was stunned again.

"Which ... Which headquarters?"

"Central headquarters!"

"....."

At that moment, Wang Ming sat paralyzed on the ground and suddenly said in pain, "We're finished! He was really finished! You knew her identity, yet you still killed her ..."

"You killed him!"

Li Hao chuckled. "It has nothing to do with me. You just said that you killed Third Sun. Does that have anything to do with me?"

"....."

Wang Ming wanted to cry but had no tears!

Liu Long comforted him. "It's okay. Minister Hao asked us to kill him. Minister Hou knows about it too."

"What?"

Wang Ming swallowed again. He was already a little crazy at this moment. What was going on?

"It's nothing. The Silvermoon people don't want to be governed by the central government ... It's as simple as that. A dynasty is a dynasty, and a Silver Moon is a Silver Moon. Do you understand?"

Wang Ming was completely dumbfounded.

After a long time, he stood up and distanced himself from Li Hao. He said gloomily, "I ... I don't know anything! I didn't hear anything, I beg you, don't harm me, I can't take it!"

The sky had collapsed!

Li Hao smiled and threw a human bone over. "Do you want it?" 1

Chapter 498: The terrifying ancient city (2)

...

"....."

Do you want it?

Of course ... I do!

He instantly took the human bone. His entire body was struggling. About 200 cubic meters, that was a lot!

Li Hao threw over half of the origin god weapon that had been broken into two. "Want some?"

"....."

Want!

Wang Ming once again caught it in his hand. Even if it had lost its soul, that incomparably sharp origin god weapon wasn't something half of the extraordinary items could compare to. Just by holding it in his hand, he could feel the sharpness of its Qi.

Can I not?

This thing was not something that could be bought mysteriously!

I'll go back and find someone to forge it. Maybe it'll be another killing weapon!

Although it was a Water-type weapon ... The soul had already been killed. Now, it was just that the material was stronger. And the material just happened to be of the metal-type, which was more suitable for him. He had been self-destructing the metal-type super sword because he did not have a suitable weapon.

This thing, if given to him, might be of great use!

Wang Ming swallowed and moved closer to Li Hao.

He had taken the item ... It seemed like he had boarded a pirate ship!

“Are you a participant now?” Li Hao asked with a smile.

Wang Ming was at a loss. After a long while, he nodded. “Right?!”

“You killed Zhang Ting, right?”

“That ... The three of us did it together, cough cough ... The two of you did the work, I’m just the errand boy.”

Wang Ming was embarrassed.

Li Hao laughed, and so did Liu Long.

This fellow was still unwilling to part with the benefits of splitting the spoils.

Li Hao said, “water element. You won’t need it. Give it to boss. We’ll give you 200 cubic meters of metal element!”

“You guys have it?”

Wang Ming was puzzled.

In Li Hao’s energy storage ring, there were 100 cubic meters of fire element.

Li Hao smiled. “Of course. Why not?” It’s only 200 cubic meters, one glorious sun is enough ... Let me calculate for you, right now the Yama has two glorious Suns, the Crimson Moon has four, and the fairy has seven, a total of 13 glorious Suns!”

“Let me ask you, among these 13 people, is there any metal element?”

Wang Ming was flabbergasted and nodded. “I ... I think so!”

So, the ... The 200 cubic meters you mentioned is here?

Are you going in to kill someone?

At this moment, he, who was a little slow to react, suddenly came to a realization. He took a deep breath and said, “You ... How are you so powerful?”

Qian Dou?

Li Hao laughed, “powerful?” Not powerful! When my teacher stepped into the thousand warrior class, he killed three suns! What about me? The three of us worked together and killed for half a day. We almost killed ourselves before we succeeded in our sneak attack and killed a three yang ... Do you still think I’m powerful at this time?”

Wang Ming thought carefully about this and shook his head.

Not considered powerful, just average!

But the next moment, she was on the verge of tears. F \* ck, who’s as scary as our teacher!

Liu Long was also a thousand-man warrior, but he didn't kill any three suns.

Why do I feel like I'm the weakest one here?

To think that I've been boasting every day that I'm already frighteningly powerful after entering the glorious sun.

As the few of them conversed, the bloodstains in the distance had already disappeared. The scene of the battle had completely returned to normal. This was the ancient city, a terrifying ancient city.

Killing someone here ... Was simply too mysterious.

Of course, the ground didn't swallow clothes.

Li Hao glanced over there and took out a bit of fire energy. He threw out a fireball ... In an instant, everything on the ground turned to dust, and his clothes disappeared.

Everything about Zhang Ting had disappeared.

"Boss, absorb some water energy to nourish yourself first. As for the origin divine weapon, you and Wang Ming can split it in half!" Li Hao said. Let's see if we can keep it in our bodies ... I'm worried that when we get out, someone will find trouble and search us ... We'll use everything we can and turn it into strength!"

Kill them to silence them!

Zhang Ting was one of the three suns of the central region, and she was from a higher-up Department. If this were to be leaked, and Hou Xiaochen refused to admit it, Li Hao and the others would be in trouble.

He had offended the three major organizations and also the night patrolmen. He could not take it.

Before he left, Li Hao hoped to turn all his gains into strength.

At this moment, with the sword energy, he was a little more arrogant.

It could be absorbed!

Previously, his five organs had absorbed about 400 cubic meters of metal, water, and earth. The most was fire energy, which was about 500 cubic meters.

At this moment, wood energy was the least, only around 300.

Actually, Li Hao didn't lack water energy at the moment, but if Zhang Ting insisted on not leaving, then he couldn't be blamed for being impolite. In any case, he had his eyes on her for a long time!

"Old Wang, help us keep an eye on it ... Boss and I will absorb some water energy first."

"Ah?"

"You ... You can absorb water?" Wang Ming was startled.

What's going on?

"I can absorb any Martial Master!"

Wang Ming was instantly so envious that he felt like drooling."I want to become a Martial Master! Look, there's still a limit to how much mysterious energy we can absorb, and we're not as strong as martial masters ... Sunlight ..."

A few days ago, he was still crazy about the sunlight.

Now, he felt that riyao was really trash.

He couldn't beat Martial Master douqian!

Look, Yuan Shuo, Li Hao, Liu Long, these three Qian fighters, which one of them can't beat him?

He felt so inferior!

I also want to become a Martial Master, but he has already broken the superpower lock. I'm afraid there's no chance."

"Cut the crap, help me keep an eye on ..."

Li Hao no longer paid attention to it. At this moment, he quickly used sword energy to extract water elements.

As for the two words ... There was no hurry.

He had just recovered from his injuries, so the stronger he was, the better. The words were right there. If he couldn't read them this time, it would be the same next time.

He did not let Liu Long absorb the water energy alone. Instead, he extracted a large amount of water energy and released some of it into Liu Long's body.

Chapter 499: The terrifying ancient city (3)

...

Then, he mentioned a lot of attribute-less mysterious energy and said,"Old Wang, you can just absorb a portion of the attribute-less mysterious energy ..."

Wang Ming was confused and didn't know where these attribute-less ones had come from.

But ... Who cares!

Absorb!

Having no attributes was actually not bad. It could strengthen both the superpower lock and the body, but it was not easy to level up.

The three of them quickly began to absorb.

Li Hao was still fine, but Liu Long was like a bottomless pit.

He was too weak!

Li Hao's kidney had absorbed 400 cubic meters of water energy. Liu Long hadn't been around for a long time, and he hadn't reached the point where he could nourish his five internal organs yet. He was far inferior to Yuan Shuo. At this moment, he was receiving elemental energy for the first time.

In the blink of an eye, it had devoured at least ten cubic meters of water elemental energy.

He was at the Qian dynasty, which was the time for him to nurture his five internal organs.

To him, the water energy came at the right time.

More importantly, this was pure elemental energy, which was different from ordinary water energy.

Liu Long wanted to groan!

It felt too good!

Was this the embodiment of the five internal organs?

Li Hao didn't bother to say anything. He also quickly absorbed the water. His kidney began to absorb the water energy.

The three of them were quickly exhausted.

Wang Ming absorbed attribute-less energy, Li Hao absorbed both attribute-less energy and water energy, and Liu Long focused on water energy.

In the blink of an eye, it had only been about twenty minutes.

A piece of human bone was shattered.

The three of them opened their eyes and looked at each other. They were all dumbfounded.

Li Hao was actually fine. He was used to it.

Liu Long swallowed his saliva and was slightly shocked, "We ... We killed ... Fake three yang?"

It was about 200 cubic meters in 20 minutes. The three of them finished?

However, after feeling his kidney ... Well, he felt that it was normal.

At this moment, he could clearly feel that his Shi seemed to have been affected and was growing stronger!

The divine intent was even more abundant!

Wang Ming was also speechless. No wonder Li Hao and the others had to kill people every day. First, they killed riyao, then three suns.

Even the night patrolmen could not afford to feed them like this.

Li Hao and Liu Long had absorbed about half of the 200 cubic meters of water elemental energy.

At this moment, Li Hao had absorbed 500 cubic meters of water energy, which was the same as fire energy.

However, Li Hao was prepared to absorb the second human bone as well. After absorbing another 100 cubic meters, there would still be 100 cubic meters of fire energy left in the ring. That way, the water and fire would reach an equilibrium, reaching a level of about 600 cubic meters.

Metal and earth also maintained a balance of about 400 cubic meters.

As for wood energy ... Wood-type energy was indeed rare. He would see in the future.

“Absorb more and absorb the other bone as well ... This way, the rest will be stored in the energy storage ring.”

Liu Long didn't have any objections, he also felt that his desires were somewhat dissatisfied.

It felt great!

No one asked where the pure elements came from. There was no need to ask.

As long as there were benefits to be gained, it was fine!

He continued to absorb!

After another 20 minutes or so, the last human bone was broken.

Li Hao said, “I'll absorb some more fire energy ... Boss, you and old Wang keep an eye on them. They've been in the city for almost an hour. There was some movement before, but now there's nothing ... Don't tell me they're all dead.”

Liu Long coughed. That's not necessary, right?

Li Hao didn't care about this. He continued to absorb fire energy.

Strengthen the power of the heart!

100 cubic meters was neither fast nor slow to absorb ...

By the time Li Hao had used up all his fire energy, both water and fire had reached 600 cubic meters. There were still 800 cubic meters of water energy left in the ring.

.....

At this time, the three people's strength had improved by quite a bit.

The one who improved the most was naturally Li Hao.

However, Liu Long wasn't bad either. He had just tried it out and found that the ocean wave force was very strong, at least 20% stronger than before. For Dou Qian, it was 20% stronger. He was confident that he could fight against the middle stage of the sun glory realm and win.

Of course, in the later stages ... He would think about it after the battle!

“It's been almost an hour?”

Li Hao stood up and looked at the city. It was frighteningly quiet.

He also frowned slightly. The tower was only about 20 miles away from here. The three suns could still fly, so they should be able to arrive very soon. Snatching the treasure, wouldn't it take an hour?

Moreover, there was almost no movement from that side.

Also, none of those guys who entered the city came out.

Originally, Li Hao had thought that if these people went in and didn't find anything, someone would come out soon.

The result was no!

Of the 30 people, other than the three of them and the dead Zhang Ting, none of the remaining 26 were seen!

"Do you want to go in and take a look?"

At this moment, both Wang Ming and Liu Long were full of confidence.

We're so powerful, and we've killed the three suns. Why don't we go in and take a look?

"No rush!"

Li Hao looked at the city, then at the two large words above his head. In the end, he decided to comprehend the two words "Zhan Tian." As for the treasures and origin God weapons, although he also wanted to ... Cut them off and replenish his sword energy, he still wanted to understand them.

However, he had been coveting these two words for a long time!

Of course, he had to look at the words first!

No matter what happened in the city, they would have to come out in the end. It would be best if both sides suffered losses, and maybe they could get some benefits. At this time, his thoughts were similar to Zhang Ting's.

Li Hao had just tried it. Martial masters could indeed fly.

Even if it was only the second passage, it would still be the same.

Since that was the case, he didn't have too many scruples.

He stomped his feet and climbed up the huge city gate.

The huge city gate became his stairs.

Step by step, Li Hao quickly climbed to the city gate.

He directly sat on top of the city gate. The thickness of the city gate was frightening. It was at least two to three meters thick. When he sat on it, it was no different from sitting on a bed.

Chapter 500: terrifying ancient city (2)

...

And in front of him were those two large words.

Upon closer inspection ... It seemed to be on the wall, but it didn't seem like it. It felt like it was floating in the air, or even in another space.

Li Hao wanted to reach out to touch it ... But he vaguely felt that he couldn't!

It was just that complicated!

After a moment of silence, Li Hao suddenly forced out a drop of blood from his heart and shot it at the two characters.

BOOM!

The blood entered the character.

At this moment, Li Hao felt like he had entered a different space, a different world!

He was in a daze.

In her daze, she heard someone exclaim, "The venerable sovereign is here!"

"The venerable sovereign is here!"

It was as if the people of the city were exclaiming, cheering, and going crazy.

"Venerable sovereigns are invincible!"

Li Hao was still in a daze. He wanted to open his eyes, but he found that he couldn't.

In the midst of their daze, they seemed to have seen something. A figure descended from the sky ... Countless figures surrounded that person. Some were jumping for joy, some were excited!

"Venerable sovereign, this small city has just been established. If you don't mind, I hope you can give it a name ..."

"You're too polite!"

Li Hao vaguely heard a gentle voice, but it was not as domineering as he had imagined.

"Speaking of which, we're all from the same family ..."

In the haze, the venerable sovereign who was Walking in the Air seemed to have said something that caused the whole city to cheer again.

A moment later, Li Hao's vision blurred.

He seemed to have appeared in a new place ... After taking a closer look, wasn't this the city gate where he was sitting?

But ... It seemed a little different.

It didn't have an ancient feel to it and seemed to be newly forged.

At this moment, his vision blurred again, and a back appeared. Li Hao's eyes flickered. It was that person!

At the moment of the inscription!

He ... Seemed to have seen a different era.

In the darkness, this person picked up his brush as if he was thinking about something. Vaguely, a voice from ancient times seemed to reverberate. "I can't name myself either ... I thought about it again and again, but I don't know what to name myself. I'm different from that guy. He always likes to give himself weird names and is very proud of himself ..."

It seemed like he was mocking her, but it also seemed like he was just teasing her.

"Forget it. I'll name it ... Zhan Tian!"

As soon as these words came out, it seemed to cause a commotion.

Li Hao heard a series of wild shouts and roars. It seemed that everyone was very excited.

Zhan Tian!

This seemed to represent something extraordinary. The strong man who had welcomed the venerable sovereigns earlier seemed to be moved at this moment. The old man's excited voice rang in Li Hao's ears. "Zhan Tian? This ... How could he do this! This is ... This is the title of the venerable sovereign ..."

"It's fine. Zhan Tian ... Isn't my honorific title! "Even if he is, it's all in the past. He is worthy of respect, but I ... Am not him!" However, his life is still worth reminiscing ... Let's fight the heavens! He likes to educate people, and he hopes that heaven battling city will be able to send more good men to the human race in the future. Don't use my name to do such unscrupulous things!"

"I don't dare! The venerable sovereign named him Zhan Tian ... In Zhan Tian divine city, who would dare to insult the venerable sovereign's name?"

His roar seemed to shake the world!

The old man seemed to be somewhat crazy, as if this name, this heaven battling city, had given them a sacred mission!

In the next moment, Li Hao almost vomited blood, because the countless cheers and roars were ten times, no, a hundred times stronger than before!

He could not imagine how a person could be so excited.

At this moment, he thought of those black-armored people and the silver-armored soldier.

Zhan Tian seemed to be extremely divine!

He was an existence that must not be humiliated!

"Zhan Tian!"

"Zhan Tian!"

The roars and shouts were so uniform that they shook the world. The excitement, the passion, and the violence ... Even though they were separated by time and space, Li Hao's blood was still boiling!

It was just a few ordinary words and a name ... It actually caused such an outcome. It was simply unimaginable!

Li Hao was stunned!

After a long time, his vision brightened again. The back view started to write.

He picked up the brush and began to write the two words "Zhan Tian" seriously.

The moment the other party picked up the pen ... Li Hao couldn't help but feel his blood boil.

When the word "fight" was completed, Li Hao suddenly understood the people in the city. When he saw the word, his fighting spirit surged. In an instant, he felt as if he was on a battlefield.

There were countless powerful enemies all around.

Battle!

He fought against the heavens and earth, killing, endless slaughter. There seemed to be wild beasts and demons around him. He killed again and again, fighting again and again!

He had killed all the enemies and everything!

If the enemy did not die, the battle would not end!

Li Hao felt as if he had become that person ... At this moment, he could feel it.

Saber!

That's right, with a long saber in his hand, he cut off the heads of his enemies one after another!

And in front of this person ... There seemed to be another person.

That person's back and appearance could not be seen clearly, but it could be vaguely seen that the person was killing in all directions and rampaging without fear. He seemed to be an expert who also used a saber!

And that blade ... With one slash, one could only vaguely see countless heads flying.

A killing star!

Li Hao felt a little muddleheaded, but he was also full of fighting spirit. Who was that person?

Who was the one he had leaned over and substituted in?

Was it this venerable sovereign?

He didn't know!

He could only feel that his opponent was constantly striking out with his saber. The moment he struck out, it was as if he was the one striking out.

He would kill all the way ... Until the end of the sky, and the enemy would be gone!
