### Chapter 501: The terrifying ancient city (1)

...

When everyone had finished killing, the figure in front of them stopped, as if he was saying something.

Li Hao wanted to listen and focus. He wanted to hear what that person was saying.

He exhausted all his thoughts ...

At this moment, he seemed to have heard a sentence, a sentence that made him stupefied.

"F \* ck, they're so bold. I told them to commit suicide, but they refused. In the end, they wanted me to use my saber. I didn't expect that they would all be killed in the blink of an eye ..."

Who was this?

Li Hao was shocked. How crazy!

It was as if he had asked them to commit suicide, but they refused, and in the end, he killed everyone ... This ... Why did it feel like he was even more murderous than his own teacher?

This was what a demon was, right?

In a daze, Li Hao's vision blurred again. He was back at the same place. The man was still writing, but the word "battle" had already been written.

The next moment, it was the word 'heaven'.

When he finished writing the word "heaven," Li Hao felt like he had entered another scene.

That scene ... Was exceptionally different.

It was as if he was in a starry universe. He saw another person, and it seemed to be the same person as before.

"Are you even worthy of being called the heavens?"

"I'm going to kill you!"

"Heavenly Emperor ... What a joke!"

BOOM!

The sun and the moon were shattered, and the starry sky was destroyed. A suffocating existence had his head crushed in an instant!

BOOM!

Li Hao felt like his head was about to explode!

At this moment, he could vaguely see that person ... Arrogant, overbearing, cold, and murderous!

He ... Seemed to have killed an expert called the heavenly Emperor ...

Who dared to call themselves the heavenly Emperor?

Li Hao was dumbfounded again. Who would dare?

The Heavenly Star King dared to call himself the heavenly Emperor?

What a joke!

No one dared to call him the Emperor of heaven.

But ... This heavenly Emperor seemed to have been killed!

The one who killed him was still the same person from before, the arrogant fellow.

.....

Li Hao woke up.

This time, he was sure that he was awake, completely awake.

He couldn't see the crazy murderer, nor the venerable sovereign who was writing. He could only see Liu Long and Wang Ming below.

He looked at the two words again ... They seemed very ordinary.

He didn't gain much ...

He only remembered that the venerable sovereign he had possessed seemed to have killed a few people with a knife, and then ... He could only remember watching the other person kill.

But ... Was there really no gain?

Li Hao was a little dazed. Yes, it was very, very big!

He had seen a different world, and he had seen the power of the ancient civilization. He was convinced that there was really someone who could break the sun, the moon, and the stars.

He saw that person crush the head of a Celestial Emperor!

He waved his blade ...

He didn't have a saber, so he subconsciously waved the sword in his hand.

At this moment, Li Hao suddenly had a different feeling.

He swung his sword so naturally ...

Buzzzzzz!

A beam of sword Qi burst out and shot down. The city gate was 100 meters tall, and 100 meters was actually the limit for the attack of Martial Master douqian.

But at that moment, the sword Qi shot towards Wang Ming in an instant.

Wang Ming didn't pay much attention when he saw Li Hao casually waving his sword from a hundred meters away.

However, the next moment, his hair stood on end!

Even his hair exploded!

Without a word! He condensed 10000 swords.

The moment the ten thousand swords appeared, a flash of sword Qi shot over, and with countless sounds, the ten thousand swords shattered. Wang Ming's eyes were filled with horror and simply couldn't believe it!

Beside him, Liu Long roared and punched out!

The ocean waves hit the sky!

BOOM!

In the huge waves, a Qian Douluo was now at close range. Under the loud rumbles, the sword Qi began to be destroyed.

However ... Liu Long was also extremely shocked.

He looked at his fist ... It was covered in blood, so deep that his bones could be seen!

From a hundred meters away, Li Hao's casual sword energy almost killed a sunlight warrior. Even a warrior master like him almost failed to destroy the sword energy.

In the sky, Li Hao was also stunned.

How could this be!

He didn't use too much force. He just ... Waved his hand casually according to some of his previous habits, or in other words, according to some habits of the venerable sovereign who had previously possessed him.

How could it be like this!

He instantly jumped down from the city gate and looked at the two of them. After a long while, he opened his mouth with difficulty and said, "You guys ... Are trying to scam me?"

"....."

Wang Ming broke out in a cold sweat. He looked at Li Hao as if he had seen a demon and shivered. He couldn't help cursing, "You ... You want to kill me, you must be! Are you going to silence me?"

'Damn it, I was almost killed!

"This ..." Liu Long frowned as well, "this sword ... Why is it so powerful?"

Li Hao scratched his head and said after a long while, I don't know! I really don't know, I just casually waved it ..."

With that, he waved his hand again.

Wang Ming fled in a hurry in fright, but this time, there wasn't any sword Qi in the air.

Li Hao was a little dazed, and Liu Long also frowned. After a long while, he said,""Did you have some sort of enlightenment and was in a state of enlightenment just now?"

"Comprehension?"

After a long while, Li Hao didn't know whether to laugh or cry."If ... If watching people kill can be considered enlightenment ... Then it should be!"

He only saw someone killing people.

Perhaps, it was really amazing.

He recalled how the venerable sovereign killed the enemy with one strike ... Li Hao felt that perhaps this was the true enlightenment this time. As for that crazy murderer, Li Hao didn't see anything, nor did he learn anything.

At this moment, Li Hao let out a breath. He might not be able to release that sword attack at any time.

He might need some time to digest this!

Also, at this moment, he realized that although the sword just now seemed to be nothing, the inner strength in his body had been completely consumed ... That feeling was no worse than using the blood Blade technique.

Chapter 502: The terrifying ancient city (1)

...

He felt as if his body had been hollowed out, and he didn't even notice it just now.

How terrifying!

No wonder old Wang was so scared that he almost peed his pants. One could imagine that Li Hao's casual sword attack had emptied himself. Even if he wasn't specifically targeted at him and didn't use his aura, one had to know that he had killed Zhang Ting, who was at the middle stage of the three yang realm, with one strike.

He looked at the fleeing Wang Ming and didn't know whether to laugh or cry. "Don't run, who wants to kill you! If I really wanted to kill you, would you still be alive?"

In the distance, Wang Ming swept him a glance and started cursing.

This guy was too dangerous!

At this moment, Liu Long was also looking up at the sky. He looked at the two words, but he saw nothing.

He was a little speechless and depressed.

It seemed that he didn't have such an opportunity.

Li Hao raised his head again, but quickly lowered his head. Forget it. He couldn't bring these two words away or touch them. He would see if he had the chance in the future. He still needed to absorb and digest what he had learned before.

Anyway, it seemed that other than himself, no one else could move.

At this moment, Li Hao finally had the time to focus on the city.

The city was still quiet.

But soon, Li Hao saw a ball of light moving toward him from the city.

From the looks of it, it wasn't the three suns.

It's at the radiant sun level!

He didn't know who it was, but he was a little far away and couldn't see it clearly.

"Someone's coming!"

Li Hao reminded them. Wang Ming and Liu Long hurriedly gathered and looked into the city, but there was only a dim Avenue in front of them, and no one was in sight.

Just as Wang Ming thought Li Hao was lying, a figure appeared.

Yama's people!

Yama had sent in two sun glory ... However, this one was not the one who had threatened Liu Long before, but the other one.

When he saw Liu Long and the others, that person's expression turned slightly solemn.

However, he soon relaxed a little. There were only three people!

One was a warrior of the thousand-tier, one was at the early stage of the sunlight shining tier, and one was above the hundred-tier ...

Although he was only at the middle stage of the sun glory realm, he had nothing to be afraid of.

If they really fought, he might not lose.

However, he didn't want to make a move at this moment.

Li Hao and the others looked at the package in his hand. It was a package made of clothes. Wang Ming said in surprise, "Can I come in and get something?"

When he thought of this, he was a little excited!

No wonder no one came out. If they could enter the house to take things ... Wouldn't they be rich?

Who is willing to come out!

"Go and see for yourself!" The man said coldly, frowning.

After he finished speaking, he saw the three of them blocking the door and shouted again, "Move!" He shouted.

He wanted to go out!

Although he couldn't leave the ruins now ... He didn't want to stay in the inner city anymore. It was a little dangerous.

He had already obtained a good treasure. If he stayed any longer, he would be too greedy and might not be able to leave smoothly.

Moreover, if he really did bring out too many treasures, he could only hand them over and not keep much for himself.

Wang Ming glanced at Li Hao. Seeing that Li Hao didn't say anything, he smiled and asked curiously, "Don't worry. We're very curious about the situation in the city. Why did you come out? And ... What are you holding in your hand?"

The Yama's expression was ugly.

What, are you three planning to Rob me?

He moved slowly and said calmly, "the inside of the city is similar to the outside of the city. We can't get in the closed houses ... But some houses have their doors open. At first, we didn't dare to enter, but after we tried, we could enter ... So we each looked for those houses with open doors and took some worthless items ..."

"What do you think about opening it?"

"If it really isn't worth anything, then we'll make way!" Wang Ming said seriously.

"You want to die?"

The man was furious. "Do you really think you can do anything to me?"

He just didn't want to fight at this moment. After all, he had gained something. Killing these guys ... They all looked poor, so what was the point?

Moreover, it was three against one. If they really lost and died in their hands, it would be a waste.

Li Hao said, did the Samsara King and the others go to the tower? Why hasn't he come out yet?"

The Yama expert frowned and said coldly, "I don't know. If you want to know, you can go and see for yourself!"

"You don't know anything ... The Yama isn't a good person either!"

Li Hao snorted. At this moment, he couldn't help but want to kill someone ... It's over. He was affected by that Demon King of killing from before.

Li Hao casually slashed out with his sword!

That person was furious.

A person with a cultivation base of over 100 actually dared to attack him. He was courting death!

He was also enraged. If this doesn't work, I'll kill these three fellows first ... Do they really think I'm easy to deal with?

He waved his hand and a huge axe appeared. Earth energy swept through the surroundings. It was an earth-type superpower ...

The moment the huge axe appeared ... The sword Qi arrived.

Puchi!

The sword Qi pierced through his earth energy defense and instantly pierced his throat.

At this moment, the Yama expert's eyes were blank.

I ... Am dead?

Li Hao didn't care what he was thinking. He took a step forward and attacked again.

Wang Ming, on the other hand, was extremely excited. He didn't need Li Hao's permission to collect the corpses and extract the mysterious energy.

Even mosquito legs are meat!

Moreover, he could extract two to three hundred cubic meters of mysterious energy from just one sunlight.

It was a pity that it was earth-type and not metal-type.

And Li Hao directly opened the package.

The moment they opened it, they were all stunned.

What was this?

A bag of stones?

However, when Li Hao looked closely, his breathing became heavy.

At first, Wang Ming didn't pay much attention and really thought it was a stone. After a while, he gulped and said in disbelief, "This ... This ... Seems ... Seems to be ... A divine power Stone!"

"What?"

Liu Long was at a loss. He didn't feel anything, only a pile of stones.

Chapter 503: The terrifying ancient city (1)

...

Wang Ming gulped. "This ... This is a treasure that some experts found in an archaeological ruin. It's a stone that contains a lot of mysterious energy! Furthermore, it could be of various attributes. The key was that this mysterious energy was very pure, and ... There was a lot! A stone can contain hundreds or even thousands of cubic meters of mysterious energy ..."

He was shocked, 'in the past ... In the past, I've discovered it in some historical remains! However ... Sometimes, only two or three pieces can be found in a ruin. It is said that the rise of organizations like the red moon was due to the discovery of a large number of divine power stones, which allowed them to grow rapidly!"

"Moreover, this is also the key to supplement the origin god weapon's energy ... In fact ... In fact, the night patrolmen also have it. Didn't I say before that each family has a way to train new people and create mysterious energy?"

"The divine power Stone is the best treasure! Through the origin god weapon, a large amount of divine power can be rapidly extracted ... And it can also be strengthened ..."

He swallowed his saliva and said in disbelief, ""This guy ... He actually picked up dozens of them!"

That's right, there were about a few dozen stones in the bag.

I'm rich!

He was really rich!

No wonder this guy was in a hurry to run. If it had been Wang Ming himself, wouldn't he have run away after picking up so many divine power stones?

Not only did he have to run, but he also had to hide!

If he brought this thing out ... Once it was discovered, it might cause the three yang to hunt him down, or even higher.

One must know that divine power stones were very valuable!

One or two pieces was fine, but dozens of pieces at once ... That was too much.

At this moment, Liu Long and Li Hao were also shocked.

Just this thing alone was worth hundreds or even thousands of cubes of mysterious energy?

These ruins ... Were they too rich?

This was only a room with the door open, what about those that didn't?

It was unbelievable!

Would the others be able to find so many divine energy stones as well?

At this moment, Li Hao also looked over. He felt that something was wrong because of his good eyes. He could see that these stones contained a lot of energy, but he didn't expect that there would be so much!

At this moment, even he felt that he had made a fortune.

He quickly counted. There were 32 stones of all sizes!

According to Li Hao and Wang Ming's judgment, there might be more than ten thousand cubic meters of mysterious energy, or even more ...

It was much more unbelievable!

The next moment, Wang Ming took a deep breath and said, "this ... Isn't easy to take out!" The stones are not small, and we haven't even entered the city yet. If someone sees us carrying a package ..."

Getting rich was getting rich, but there were still many three suns inside.

At this moment, the three of them were frowning.

Do you have a storage ring?

Do you have a space-type?

If they were all carrying a bag like this fellow, even a fool would know that there was a treasure!

Liu Long gritted his teeth and said, "if it doesn't work ... I'll just swallow it!" A Martial master's stomach is good, and his five internal organs are strong. If it doesn't work ... I'll drag him out again when we get out!"

"....."

Li Hao and Wang Ming both despised it!

You're disgusting!

But on second thought ... Perhaps this was the best way to hide.

Over ten thousand cubic meters of mysterious energy!

If it was three suns or even Xu Guang, they wouldn't mind getting rid of the few of them, right?

As for absorbing it on the spot, that was no joke.

The three of them were almost full, so how could they absorb it?

Besides, he couldn't finish it!

Just as they were thinking about how to deal with these treasures, in the center of the city, the quiet ancient city suddenly burst out with a golden light!

At this moment, Li Hao and the others were shocked.

They all looked over!

With the help of the weak light from the central tower, they saw ... A fist!

One punch!

With just one punch, a figure that had broken through the air was directly smashed into pieces and disappeared in an instant.

And the figure that flew out ... Looked a little familiar!

Even though it was far away, everyone's eyesight was good. Moreover, they were still high in the sky, and the fist seemed to be glowing. From here, they could still vaguely see something.

Li Hao's mouth was wide open, and Liu Long and Wang Ming were even more frightened.

That ... Seems to be dingchen!

That's right, Fei Tian's middle stage three yang expert even brought an origin god weapon!

In the end, he was blown up by a single punch!

Not only that, but Li Hao also saw a thin sword fly out. Vaguely, it looked like a fierce beast, but he couldn't tell what it was exactly. It was similar to the shadow snake.

As for the shadow snake, it had been cut to death by him.

At this moment, the huge beast seemed to be trembling.

The next moment, a golden fist punched out!

Bang! Bang!

With a loud bang, the giant beast and the sword were turned into dust by this punch!

The yellow-grade origin divine weapon ... Was instantly crushed into fine powder!

It wasn't broken, it wasn't broken, it was completely destroyed!

It happened in the blink of an eye!

In the next moment, several figures flew out one after another and fled frantically!

In the distance, under the tower, a golden light flickered.

A golden armor appeared!

The Golden armor floated in the air and did not give chase. Instead, it silently watched those people escape without any regard for their lives!

The reason why he killed Ding Chen was that this person actually plotted to snatch the Black Tortoise seal from his hands.

The Golden armor was floating in the air.

In the city, the three suns experts fled one after another, each of them with a look of horror on their faces.

Gold!

?!

He had thought that it was just a decoration, a fake ... In the end ... It was alive!

One had to know that the silver-armored warrior from before had burst out with the power of the rising light or even stronger at the last moment. What about this golden-armored warrior?

Did he regain his consciousness?

It was possible that he didn't!

Recovery seemed to mean that he had completely disappeared.

Chapter 504: terrifying ancient city (8)

...

But even if he didn't recover ... According to the norm, the silver chiliarch was previously at the late or peak of three yang realm. This ... Was probably Xu Guang?

Or even above the rising light?

Forcing him into a corner and allowing him to regain his consciousness ... Could it be that he had surpassed the rising sun?

No one dared to think about it!

The other party had killed Ding Chen, who was at the middle stage of the three yang realm, with one punch, and also destroyed an origin divine weapon ... With these two moves, everyone knew that it was useless to join forces. They would only be destroyed one by one!

Run!

He could only run!

If they didn't run, they would all be finished.

At the city gate, Li Hao was also shocked. Holy sh \* t, golden armor!

He also turned around and ran!

It was too terrifying!

He was at the city gate. At this moment, as he fled, the huge city gate suddenly began to close slowly.

Li Hao didn't notice it at first ... But after running for a while, he turned around and was greatly shocked.

This ... Is it closed?

Once the door was closed, Hao lianchuan and the others would not be able to escape!

They couldn't fly in the city!

It's over, department head Hao is finished!

The city center was more than 20 miles away from here, and it would only take a while for the door to close. Department head Hao was dead for sure!

There was also that Kong Qi. Among the three yang, only the two of them had not entered the second passage.

Li Hao was a little anxious. Department head Hao was a good person ... It would be a pity if he really died.

He wanted to try and see if he could stop the city gate from closing ... A while would do.

He turned around and ran back. Seeing this, Liu Long and Wang Ming could only grit their teeth and run back as well. Clearly, they had also seen the city gate close.

In the next moment, Li Hao was stunned.

As he approached the city gate, the city gate ... Opened again!

He was stunned. What was going on?

.....

At the same time.

The Golden armor seemed to have glanced at the city gate.

In the air, the crouching turtle seemed to have opened its eyes again and looked in that direction, as if it had seen something.

One of the direct descendants of the Eight Families?

No one knew if the thought came from the old turtle or the Golden armor.

It instantly dissipated.

Heaven battling city also welcomed guests.

The direct descendants of the Eight Families were all welcomed.

The Eight Families were of the same breath and branch, so when they came to visit, they should open their doors!

Of course, the premise was that heaven battling city had to be restored ...

Yes, the city was recovering.

It was obvious that Li Hao had failed to open the city gate earlier because the city was still in a deep sleep and had yet to awaken.

At this moment, it seemed to have recovered a little.

The Golden armor still stood there.

The crouching old turtle was also motionless like a statue.

He allowed those people in the city to escape!

Heaven battling city had never feared its enemies.

As long as they didn't go too far, heaven battling city welcomed all guests ... Only, they didn't welcome bandits and thieves.

With the appearance of the gold-tier Warriors, the ancient city fell into a dead silence again, with only the sound of the air being torn.

The three suns in the city were all scared out of their wits. Even Hao lianchuan's face turned pale. The next moment, the fire Phoenix spear appeared. He immediately rode the fire phoenix-like creature and fled toward the city gate.

He didn't care that this was the Minister's beloved origin god weapon!

Hu dingfang had transformed into a deer-like existence. His four limbs were on the ground as he jumped and flew wildly. His speed was faster than flying, and he was also scared out of his wits.

As for the others, without exception, even if they saw each other, no one had the mood to fight.

Let's run!

.....

At the city gate, Li Hao's expression was strange.

He looked at the city gate and then at the people who were coming. Suddenly, he grabbed the divine power Stone and ate it in one bite. One, two, three ...

"Eat!"

Li Hao said in a low voice. Liu Long and Wang Ming came to a realization and hurriedly started eating!

Once these people returned and saw this ... They might snatch it.

Eat first!

As for Li Hao, he estimated the distance and looked for Minister Zhou and the earth element Zhao Huan. He didn't know if they had escaped, but he was ready to run when Hao lianchuan and Hu dingfang were about to arrive.

Close the door!

As for whether the door could still be opened, or whether it could fly out ... He didn't care!

It was obvious that the sunlit and dark moons had gone in a shorter distance.

Not long after, a few of the sunlit Warriors fled in this direction.

Li Hao also saw Zhao Huan and Minister Zhou. As for the dark moons, they might have been too slow and didn't see them ... Li Hao didn't care about them. They might be spies, so who cared?

Yue Ming didn't have any good intentions when she stayed.

Seeing these sunlit soldiers escape, Minister Zhou ran out of the door and shouted, "Still standing there, run!"

These fools!

Still standing there?

His brain was flooded!

"Wait ... Wait for the Minister ..." Li Hao said drily.

?!

This silly boy!

Minister Zhou pulled him and ran, shouting, "Don't worry, they're fast ..."

Li Hao was mentally exhausted!

As he was pulled away, the city gate began to close again, but no one noticed it at this moment.

In the distance, Hao lianchuan and the others also saw that the city gate was closing. Hao lianchuan was so anxious that he was sweating profusely. The city gate was also closing?

Quickly run!

He used all his strength to escape frantically. The speed of the Phoenix spear was like a cannonball, faster than a cannonball!

The city gate was about to close!

He couldn't fly, and even if he could, he was worried that he wouldn't be able to escape.

In an instant, a flash of fire rushed out.

In the next moment, the reincarnation King was like a gust of wind, rushing out instantly. Zi Yue turned into a bolt of lightning, rushing out as well.

Hong Yitang wasn't strong, but he suddenly rolled on the ground like a giant bear ... Li Hao was dumbfounded. What kind of skill was this?

Hu dingfang was not weak. He also kicked and jumped out directly!

On Fei Tian's side, Kong Qi was the weakest.

He didn't care anymore. When he saw the city gate close, he immediately rose into the air, hoping to use the power of flight to fly out ... But he had never entered the second passage. In an instant, there was a rumble, and a white light flashed.

He was gone!

It was gone!

Fei Tian's losses weren't big before, but in the blink of an eye, the two three suns had disappeared.

The flying sun gladiators who ran out were all dumbfounded.

No more?

The two leaders ... Died just like that?

BOOM!

The city gate was completely closed!

"Hu hu hu ..."

The sound of intense breathing reverberated in everyone's mind.

The three suns experts were all panting and sweating profusely.

The scene today would probably become their nightmare.

Chapter 505: harvest (3)

...

(Please give us a guaranteed monthly ticket. Don't worry about double the end of the month. We can still give out tickets if it's double.)

The city gate was closed.

In the city, the Golden-armored warrior was still floating in the air. In the dark, even through the huge city wall and gate, some golden light could be seen.

The panting sounds continued.

Everyone was shocked and scared.

At this moment, he could neither leave nor stay.

Still running?

The gold-tier powerhouse didn't seem to be chasing after them, and the city gate was closed ... Would the other party come out?

When he thought of the tortoise shell seal floating in his opponent's hand ...

At that moment, whether it was Purple Moon or wheel, or even Hao lianchuan, a hint of greed rose in their hearts. However, in the next moment, it turned into fear.

He was too strong!

Ding Chen was directly blown up by a punch and had no strength to fight back.

"How much longer ... Until the ruins open?"

Ziyue's face was pale, but she still asked. She had lost track of time, or she didn't have the time to think about how long it would take for it to close.

"It's still early!"

Li Hao, who was being dragged by Minister Zhou, replied from a distance, "You've only been in there for about two hours. There's still about 22 hours before the last opening."

It's still early!

It had only been two hours since these people had entered.

Even if they wanted to leave now, the ruins' gate couldn't be opened.

This was also the reason why everyone did not continue running. Even if they did, they might not be able to run far.

Moreover, they wouldn't be able to fly if they came back after leaving the outer city. They wouldn't leave the outer city rashly.

Towards the inner city ... These guys still had the heart to covet it.

At this moment, Ziyue couldn't care about this. She gritted her teeth and said, "It's all because of that idiot dingchen! That golden armored warrior should be silent. As long as we don't touch the turtle seal in his hand, he definitely won't make a move ..."

After entering the city, the few of them quickly ran towards the tower.

But it was a pity that they had been at the tower for a long time ... And still couldn't go up!

He couldn't even fly!

He had no choice but to look around and think of a way. Finally, he found the Golden armored warrior in an ancient house under the tower.

In the beginning, they were still afraid and vigilant.

No one dared to approach them rashly. After all, they all knew how powerful silver-tier Warriors were.

However, after probing for a long time, some of them even boldly attacked the other party ... But there was no response!

This made them think about it. Ding Chen took the opportunity to sneak away and wanted to seize the Black Tortoise seal while the others were in chaos ...

The result was obvious.

When the gold-tier warrior moved, everyone was scared out of their wits!

At this moment, Ziyue blamed the problem on dingchen. Of course, since the other party was dead, no one would object to her words.

In fact, these people all had their eyes on that thing. It could only be said that Dingchen was too unlucky. He was the first one to come into contact with the Black Tortoise seal and as a result, he died an extremely miserable death.

Hao Lianchuan didn't say anything. He just glanced at the city gate.

"What?" Hu Dingfang frowned slightly. "There are still people in the city who haven't come out!"

Yes, there were still some people who had not come out.

Previously, there were 30 people. Li Hao's group had killed Zhang Ting and Yama Riyao, as well as two three suns, so there should be 26 people left in the city.

But now, there were still 5 three suns.

There were only 11 people from sunlight.

In addition to the three on Li Hao's side, there were only 19 people left. Seven of them hadn't left the city, including the other four dark moons among the night patrols. None of them had managed to escape. Clearly, these four guys had entered deep into the inner city and were slower. They couldn't fly either, so they couldn't evacuate in time.

The others also took a glance.

Seeing that the night watchmen had suddenly lost five people and the five dark moons were not around, they could not help but sneer.

Yue Ming even dared to stay!

What was left behind was all gone. He was courting death!

Aside from the fact that there were so many fewer night patrols, Yan Luo also took a look ... There was still one more Miao Miao beside him. He was a little helpless. Another one was missing!

As for the rest, there were two less flying sun Warriors and one less Crimson Moon.

At first, Hao Lianchuan didn't pay much attention to it ... But when he took a closer look, his eyes flickered.

What about Zhang Ting?

He remembered that he was with Li Hao. Where was he now?

It was normal for the other dark moons to go missing and be trapped in the city, but Zhang Ting was one of the three suns!

Moreover, there was no black armor or silver armor here.

The methods that he had explained previously would not work at all. Even if Zhang Ting was launched into the air, the other party would be able to land rapidly, and Liu Long would not be able to stop her.

And ... Liu Long and the others didn't seem to be injured, which was even more impossible!

It was impossible for him not to be injured when dealing with three suns and douqian.

His eyes flickered. He looked at Li Hao and said in a deep voice, "Didn't Zhang Ting not enter the city?"

Li Hao shook his head. "They went in ... After you guys went in, sister Zhang said that she wanted to go in and take a look. It didn't seem to be dangerous ... In the end ... They didn't come out!"

No one saw it, so he could make up whatever he wanted.

Hao lianchuan was also puzzled.

Did he really go in?

What if the other party was still alive?

The people in the city might not be dead, they might just not be able to come out.

"Are we still going in?"

Hao lianchuan asked. At this moment, there were only five three suns left.

Hong Yitang was very straightforward, "I'm not going!" I'll just wait for the ruins to open, I'll leave immediately!"

What a joke!

He wouldn't go in now. It was too fucking dangerous. If he had been a little slower, he wouldn't have been able to come out. What would the consequences be if he couldn't come out?

Who knows!

Both Purple Moon and the Samsara King seemed to have suffered heavy injuries. After these people entered, they might have fought.

Chapter 506: harvest (2)

...

However, Li Hao glanced around and saw that these people didn't carry anything ... He didn't know if they didn't get any other treasures, or if they did, but had some means to hide them, such as a space ring?

This, it was possible.

There were records in ancient books, and there might be some in the ruins.

Also, space supers seemed to exist.

Since it existed, it was not impossible to create it. Therefore, it was possible for these leaders to have such a thing. From the looks of it ... It did not seem like they had come back empty-handed.

It was just that he didn't get the most important treasure.

Li Hao observed them silently. Five three suns and 11 sunlit soldiers, two of which were night watchers.

Of the three major organizations, only nine were left.

Among them, Yama had one, Red Moon had three, and fairy had five.

However, the death of the two three sons of Fei Tian was a real loss.

There were fewer and fewer people.

Other than the 20 people who had gone out, there were 19 people left here ... There were close to 200 people who had come in, but only 30 or 40 of them could make it out alive. After all, there were only 19 people here ... Some might not even make it out alive.

“Can Hao lianchuan and Hu dingfang deal with the Samsara King and the purple Moon? If Hong Yitang doesn’t interfere ... Me, Captain, Wang Ming, Minister Zhou, and Zhao Huan, a total of five people, will deal with those nine ...”

At this moment, Li Hao had such a thought.

He even felt that at this moment, there was hope for him to kill all of these people.

The purple Moon divine weapon was damaged, but Hao lianchuan had the fiery phoenix spear. He was not completely powerless ... As long as Hong Yitang did not interfere and cause trouble, Hu dingfang was actually capable of dealing with the Samsara King.

However, he quickly extinguished this thought.

He didn’t have to kill all of them!

If Ziyue, linghuan, and the others really died, it would actually cause a lot of trouble, and it might cause even greater trouble.

When he got out, there would definitely be experts from the three great organizations.

Seeing that all of their people were dead, would they be willing to let it go?

If the two three sons were still alive and could prove that Fei Tian’s three sons didn’t die in the hands of the night patrolmen ... Some trouble might be avoided.

At this moment, Li Hao was thinking about many things.

If he were to explore alone, he would have the ability to kill and it would be fine to kill all of them.

However, the night patrollers still needed to take root in Silver Moon.

At this thought, Li Hao gently exhaled. His killing intent seemed to have increased!

It was all that homicidal maniac’s fault ... He seemed to have affected him. His killing intent definitely wasn’t so strong before. In the end, after seeing him in the illusionary realm, he had been affected by him.

Words like “I want to kill you, if you don’t kill yourself, I’ll have to kill all of you” kept reverberating in his mind!

Was this something a human could say?

Kill the embryo!

Li Hao cursed in his heart. I'm not that kind of person. I've rarely even killed chickens since I was young!

Who doesn't say that I, Li Hao, am a gentleman?

That person was indeed terrifying. It was just a scene from someone else's memory, and it was separated by countless years ... Yet it could still affect him. It was truly too terrifying!

While he was still thinking about this, the next moment, Hao lianchuan suddenly looked at one of the sunlit cultivators in the sky and said with a strange look, "You ... What are you holding?"

The cloaked men instantly became nervous.

One of them was holding onto a bag tightly. It was very big and was stuffed into his chest previously. At this moment, it could no longer be hidden.

"I ..." Hao lianchuan said, "I think I felt something ..."

Not only him, at this time, Purple Moon and the reincarnation King also looked over, and soon, each of them had a strange expression.

And Li Hao had already seen it.

The people of the fairy clan seemed to have picked up some divine power stones, just like the people of Yama.

The few sunshine cultivators of the flying heavens were so nervous that they were terrified.

In the next moment, a late-stage sunlit cultivator threw the bag out and said in a deep voice, "I picked it up ... Milords need it, so just take it!"

At this moment, he chose to give up.

That was because the two three suns had actually died.

Ding Chen was still fine, but Kong Qi was really scared out of his wits. At that moment, he did not enter the second passage, but chose to fly. Did he think he was Zi Yue? Did he think that he had the protection of the Thunder God's armor?

The bag fell!

At this moment, stones rolled out one after another, and the three suns' eyes changed.

It was really a divine power Stone!

Hao lianchuan was not in a hurry to get it. Instead, he said in a strange tone, "There are ... Divine energy stones in the city?"

The flying expert said in a low voice, "yes!" There are some ancient houses in the city with their doors open. When we went in, we found some divine power stones in some of the empty houses. There weren't many, some three to five and some one less."

“It’s not just us. Those who went in to explore, other than a few Lords who went to the tower, the others should have found something ... And because of this, we have been stopping to search for these divine power stones.”

Zi Yue glanced at the Crimson Moon experts and they nodded slightly. Obviously, they had also found something, but their three suns were still there, so they were not afraid.

The divine energy stone!

This thing was the key to the growth of the large organizations. Night patrollers also had them, but they only appeared in some historical sites. Under normal circumstances, unless it was a special historical site, there were very few of them.

But this time ... Just the number of flying heavens that had thrown out was already fifty to sixty!

This was a huge number!

Hao lianchuan laughed. “This is the fairy’s harvest. If we take it, wouldn’t we be bullying them?” Please take it back ...”

He glanced at the purple Moon and the reincarnation King and laughed, “Do the two of you have the same intention?”

Chapter 507: harvest\_3

...

Zi Yue laughed coldly, and the Samsara King also said, “Dingchen and Kong Qi died unexpectedly, the three major organizations are of the same breath ...”

Before he finished his words, in an instant, the five three suns attacked at the same time!

BOOM!

One for each person!

The five flying powerhouses knew that things were not going well and wanted to escape. However, there was still a gap between the three suns and the sun glory.

In the blink of an eye, Hao lianchuan had killed one of the sunlit Warriors with his spear!

The others were almost the same. When they attacked at the same time, they killed their enemies almost at the same time!

Hong Yitang had a helpless expression!

He didn’t want to!

However, when the Samsara King and the others started to chat, he knew that he had to kill them. The flying three suns were dead and these people still had so many divine energy stones.

Who didn’t want it?

However, if he let Fei Tian's people go and spread the news ... Wouldn't he be looking for trouble for himself?

Since that's the case ... Then don't leave!

These three suns, when they were ruthless, they were not careless at all.

Without the three suns, Fei Tian should just die!

Naturally, no one would say anything if he died.

Hao lianchuan picked and picked and found more than 20 divine power stones on them. Some of them ... Were found in these people's bodies.

"That's a lot, 80!" He laughed.

There were 80 divine power stones in total!

It was much more unexpected.

At this time, he didn't pretend to be a good person anymore. This concerned the distribution of benefits, who would be willing to pretend to be a good person?

"Ziyue, linghuan, how do you think we should split this?"

"I don't want to!" Hong Yitang was extremely straightforward.

He didn't want to.

But he killed someone!

This was wisdom.

If he didn't kill anyone and didn't want anything ... These guys might even kill him. After all, the fairy realm experts were not to be trifled with. If they found out that he had killed five of the fairy realm's sunlit experts, he would be in trouble.

Hong Yue and Yama were no exception. Those assassins would not care about anything.

Now that he had killed someone, he would naturally keep it a secret.

Since he didn't want it, Hao lianchuan didn't hold back either. The divine power Stone was a strategic treasure. He said directly, "The four of us will take 20 each!"

"Can you eat that much?" the Lord of Samsara asked coldly.

20?

Wouldn't he and Hu dingfang get half of it?

Hao lianchuan laughed, "I can eat!" Old Hu and I aren't afraid of you two ... Ziyue's injuries aren't light, so don't use force anymore. There's also the rotation, your only seedling ... Protect him well!"

The reincarnation King's face turned cold. After a while, he said coldly, "Ziyue and I will take 25 each. The remaining 30 will be yours!"

30 pieces, according to the size of these divine power stones, were actually about 10000 cubic meters.

10,000 cubic meters of mysterious energy was actually a lot, but for the large organizations, it was not too lacking. It was not worth it for them to kill the five sunbeams of the flying sky.

However ... The divine power Stone was not ordinary.

It was not a matter of how much mysterious energy it contained. It was the power source of some origin God weapons and a strategic treasure. Li Hao and the others wanted to extract the mysterious energy inside. In fact, to the large organizations, extracting mysterious energy was an idiotic act!

This thing contained 300 cubic meters of mysterious energy. If you sold it to a large organization, they would be willing to buy it even for 1000 cubic meters.

.....

At this moment, Li Hao and the others were all dumbfounded.

Wang Ming's eyes also widened!

He thought that he and Li Hao were bad enough ...

In the end, he found out that this domain was full of bad people!

Before these people could finish their words, Fei Tian had already handed over the treasure obediently. In the blink of an eye, these three suns might not have contacted each other and directly killed. It was still fine for others, but Hong Yitang didn't even want the treasure and directly killed ... Obviously, they were cautious and immediately knew the danger involved!

He swallowed his saliva ... He felt that this world was too dangerous!

He was too pure!

Li Hao's group killed Zhang Ting without a word, and these people killed all the members of fairy. In the blink of an eye, there were 14 of them now!

At this moment, Li Hao's voice rang in his ear. "Go, collect the mysterious energy."

"Are you crazy?"

Wang Ming's face turned purple!

At this time, you want me to collect the mysterious energy of these five people?

"There's a metal-elemental one ... We, the night patrollers, have the upper hand. We'll get less, so we'll take what we deserve!"

Wang Ming cursed in his heart. Then why don't you go?

But ... Forget it, I'll take a gamble!

He carefully made his way over, but the important figures didn't seem to care about him. It wasn't until he started to collect mysterious energy that the three suns looked at Wang Ming. Wang Ming's scalp

went numb from their gazes, and he said nervously, "I ... I'm afraid that you'll dirty your hands. The ground will soon absorb all this mysterious energy. I'll help you collect it ..."

Hao lianchuan laughed. "Take them. They're all ours. We'll split the divine power stones as you've said. Any objections?"

Zirai and Samsara did not say anything.

Five sunlights would at most be able to collect more than 1000 mysterious energy, and it was not pure. Killing people to steal the mysterious energy was actually the stupidest thing to do.

Getting an extra divine power Stone was still better than killing five sunlit Warriors.

The mysterious energy in a dead person's body actually had a lot of impurities. It was not pure and had mixed attributes, so it was not necessary for powerhouses to cultivate.

Behind him, Wang Ming heaved a sigh of relief.

Li Hao finally didn't trick him!

These people really did not care about this. However, to them, even if they had obtained some divine power stones or thousands of cubic meters of mysterious energy, it was not a small amount. Previously, they had only obtained this much after killing Zhang Ting's three sons.

At this point, after the death of the two three sons, the flying heavens had no right to speak and was instantly destroyed.

Other than the six fairy realm experts who had left earlier, the rest had all died here.

Chapter 508: harvest\_4

...

Out of the remaining 14 people, half of them were night patrols.

Hu dingfang didn't care about the others. He glanced at Li Hao, and seeing that Li Hao was fine, he said, "The Golden armor is protecting the origin divine weapon. I'm afraid we can't get it! At the very least, we don't have the strength! The ruins here will open once ... I don't recommend that we continue to take the risk!"

This time, he had gained quite a lot.

The divine power Stone and the black banner were all treasures.

Not only that, but they also had some other gains when they entered the ancient house where the gold-tier warrior was.

It was already a lot!

If he still entered the city at this time, he would really be courting death.

The few three sons had actually given up.

Zi Yue glanced at Li Hao. It was a good thing that Li Hao didn't die.

It would be troublesome if this guy died.

The ancient city of heaven battling was extremely dangerous.

There must be a large number of divine power stones in the city ... That was for sure.

The Black Tortoise seal was also a top-tier origin divine weapon.

In addition, there must be a Supreme treasure on the tower that he couldn't go up!

They had only explored a little of the surface of the ruins. They were unable to explore the rest with their strength.

"If we don't get anything this time ... I'm afraid we won't be able to control it the next time!" Ziyue said after a moment of consideration.

He was still a little unwilling.

This was because there were already people who had gone out this time, so they would definitely spread the news to the outside world. Whether it was the three great organizations or the night watchers, there would probably be a large number of experts gathering at Silver Moon.

They were only the rulers of Silvermoon, and the experts of the central continent had not paid much attention to a small ruin.

But soon ... Those people would pay attention.

Next month, the remains would open again, and these people might all enter.

Hao lianchuan sighed, "there's nothing we can do about it. It's not something we can control!" "Let's not talk about other things. To deal with that gold-tier warrior ... I think that even one or two sunguangs won't be enough! We might need many sunguangs to work together to have a chance of dealing with him!"

That was not something the three suns could compare to!

Even an origin god weapon was destroyed with one punch. With such strength ... He suspected that the other party's strength might be above that of sunguang.

In the central region, had an expert who was above the rising light walked out?

.....

Li Hao just listened in silence.

It seemed like these people were planning to give up.

He didn't care about this and just looked at the city gate in the distance.

'Damn, the city gate opened ...'

I don't need to go through the second passage. I can fly without any problem.

Is this because of my bloodline?

Or something else?

It didn't seem difficult to open the city gate, but it wasn't that simple. Previously, they had to fly through the second passage and open the city gate ... But now, Li Hao suspected that the city was different.

Could Ziyue and the others still fly over to open the city gate?

The reason why he made such a judgment was that Li Hao vaguely felt that this city was somewhat ... Somewhat lively!

The Golden armor in the city, including the tower, seemed to be brighter.

The city that was illuminated was not as dark as before.

He didn't know if the three suns had discovered it ... But Li Hao assured him that they probably wouldn't dare to fly over to open the door.

At this moment, Li Hao felt that it was better to avoid unnecessary trouble.

It's best to go out!

In any case, his harvest this time had already exceeded his imagination. There were still eight hundred cubic meters of water energy in the ring, more than thirty divine power stones they had obtained, and more than a thousand cubic meters of mysterious energy that Wang Ming had just extracted.

She was definitely not going to give this to Hao lianchuan!

In addition, the fellow who had killed the Yama earlier had also obtained two to three hundred cubic meters of earth energy ...

There were also two words that he had gained some enlightenment on.

He advanced to the warrior of thousands ...

It could be said that Li Hao was perhaps the biggest winner of this exploration, while he remained low-key, so low-key that other than Wang Ming and Liu Long, not even Hao lianchuan knew that they had gained so much.

Everyone felt that they had been waiting at the gate and had not entered the city at all.

In fact ... The few of them did not enter the city!

In everyone's eyes, Li Hao was still the guy who had broken through 100%.

Moreover, he had just broken through to the 100th level.

The three suns discussed for a while. Hong Yitang was not willing to go in again. The others also had the same idea. In the end, they decided not to explore.

It was too dangerous!

.....

After the discussion, the Samsara King took his only child to the other places in the outer city to see if there were any open ancient houses.

Zi Yue also left with the three red Moon sunlit cultivators. They didn't dare to go too far away from the Samsara King for fear of being attacked by the night patrollers. Now, the two of them had to join forces to resist the night patrollers.

As for Hong Yitang ... This fellow was even more straightforward. He simply followed the night patrolman, who sometimes had a good reputation.

At this time, the night patrollers had all gathered together.

Hong Yitang didn't go near, but stood guard in the distance.

Hao lianchuan glanced at the remaining people and sighed, "This time ... It's a good thing we let the others leave. So many people entered, but 80% of them died. It's much more dangerous than our previous explorations!"

"Department head Hao, there are still a few night patrollers in the city ... Are we really not going to do anything?" Minister Zhou frowned.

Hao lianchuan shook his head, looked at the sky, and said in a deep voice, "Don't enter the city again, it's very dangerous! "Now, I suspect that even those who use the second passageway might not be able to enter the inner city. Look at Ziyue and linghuan. Do they still dare to fly into the city? There's no way to save those few!"

Chapter 509: harvest (3)

...

Zhao Huan and Minister Zhou didn't say anything else.

As for Hao lianchuan, he glanced at Li Hao and said, "Are you sure that Zhang Ting has entered the city and hasn't come out?"

"We've entered the city!" Li Hao nodded.

Hao lianchuan fell into deep thought.

Actually, it was still alright after entering the city.

What they were afraid of was that Zhang Ting had not entered the city but was hiding somewhere ... That would not be good. She was a spy from the central region. In fact, they had discovered some secrets in the city, but the three suns had a tacit understanding and would not say anything.

There weren't many survivors now, so they probably wouldn't say much.

As for the situation in the outer city ... He could just casually say it!

He had not given up on the Black Tortoise seal.

He was not the only one; the entire Silver Moon would not give up.

But Zhang Ting ... Had really entered the city?

If he really entered the city, with such a big incident happening just now, even if his identity was exposed, he would also expose his strength and escape. After all, he had an origin divine weapon and was at the middle stage of three yang. It was not like he would be killed by a gold-tier warrior directly, so he would not die so easily.

However, if he didn't enter the city ... Would he die?

He still couldn't believe it!

She didn't believe that Liu Long and the others had the strength to kill her.

He glanced at Wang Ming and felt a little strange."Wang Ming, your strength seems to have improved a little ..."

Wang Ming chuckled and hurriedly nodded."MMH! Hao bu, when you entered the city just now, I absorbed some of the gains from before and made some progress. Hao bu's eyes are really good, he can even see this! Amazing!"

He flattered her like crazy!

Hao lianchuan raised his eyebrows slightly.

"You didn't go in. You've been with Li Hao and the others?"

"Yeah!"

"What's wrong?"Wang Ming asked in surprise. I'm not afraid. Li Hao said that he needed me to protect him, so I stayed. I'm not afraid of entering the city. Hao bu, please don't misunderstand!"

Alright, that's all then.

Wang Ming had always been there, and this guy was a good seedling that the night patrolman had nurtured. Even if Li Hao and the others had any ideas, they wouldn't have done it in front of Wang Ming. After all, this guy had only been in Silver City for a few days.

In that case ... It could only be said that Zhang Ting was unlucky and had probably mistakenly entered some dangerous areas in the city.

Since that was the case ... Who cared if she lived or died!

This time, it wasn't just one or two three suns that died. Two Fei Tian died, and one Yama also died. He and Hu dingfang had been following them all this time. No matter what, even if the central region continued to investigate ... There was no reason to blame them.

Moreover, they did not dare to say it out loud.

He could only swallow this loss in silence!

At this moment, Li Hao said in embarrassment,""Hao bu...I have something to say."

“What?”

“That ... Last time, I handed over a sword. You said that you could give me a large number of treasures or choose three treasures from the ruins. Now ... Is the exploration of the ruins over?”

“.....”

Silence!

Hao lianchuan did not expect that this guy would still remember this.

Li Hao said awkwardly, “well ... It’s not that I have to say it, but this time, we almost got nothing. Black Phoenix was also found by everyone, so it had nothing to do with us. Boss and I came in, and we almost didn’t get any income ... So I thought ...” 1

Nothing?

Liu Long was silent.

Right!

Probably!

We might really end up empty-handed.

Hao lianchuan glanced at him and said after a while, “What do you want?”

Li Hao said drily, I definitely can’t get a treasure that’s too precious, and I don’t dare to! Does Hao bu have an origin divine weapon?”

“.....”

Hao lianchuan was stunned. Beside him, Hu dingfang, who was resting, also opened his eyes suddenly and almost lost his breath.

Origin god weapon?

“Do you know what an origin god weapon is?”

Li Hao hurriedly nodded, “yes, I know!” Wang Ming said that you can extract the mysterious energy between heaven and earth ...”

“Nonsense!”

“Don’t even think about it!” Hao lianchuan snapped. I don’t even have one, and this fire Phoenix spear belongs to the Marquis. Where do you want me to find it for you? There are some in the city ... Go get it yourself, and it’ll be yours once you get it!”

“Then ... What about the water of the spring of life?” Li Hao asked regretfully.

“What?”

“My teacher said that there is some water from the spring of life in some historical remains that can help people regain their youth ...”

“Get lost!”

Hao lianchuan was furious. He had heard of this legend, but he had never seen it before. What was this bastard doing?

Li Hao sighed and could only say, “then forget it, I want the mysterious energy!” I want all of them except those with no attributes! Do you have a Scion of the blood God? If there is, I want it too, the more the better! We’ll convert everything into mysterious energy. According to Hao bu’s promise, it’s worth about 5000 cubic meters ...”

Hao lianchuan’s face turned green. After a while, he said faintly, “”Alright, I’ll go back and tell hou bu!”

Forget it, it’s none of my business!

The Marquis will be responsible for solving this!

5000 cubic meters was a lot, but it was also a little ... In fact, it was just that much. He had gained more than that this time, so he could still take it out.

However, at this moment, he was very suspicious. The sword that Li Hao handed over ... Was it really a sword of the Li family?

Who knows!

No matter, this was the matter of the Marquis.

At this moment, Li Hao spoke again, “Hao bu, why don’t we consider attacking Red Moon and Yama?” If senior uncle Hong agrees to help ...”

Hao lianchuan shook his head slightly and said in a low voice, “”You think killing them is a good thing? Not necessarily! At least we know these two guys very well. If we really kill them, the stronger ones from the central continent will come ... That will be troublesome! Moreover, they had suffered heavy losses this time. The three major organizations would definitely send people over. If they sent people over ... They might not be able to live in peace with them! Therefore, I’m afraid that the three major organizations will be in some turmoil with Silver Moon. This is actually an opportunity for us Nightwalker!”

Chapter 510: harvest (3)\_6

...

“Don’t just think about killing,” he said meaningfully. “Sometimes, killing isn’t the only way to solve a problem!”

Li Hao was deep in thought ...

However, he also had his own thoughts.

That’s because you haven’t killed enough!

In his memory, that person had killed everyone ... Who could still object?

That would be ... Bah, how could I have such thoughts?

As for the fact that Zi Yue and Huan Huan were still alive ... Li Hao thought about it and smiled. It was not bad.

Here, his strength was not enough, and he did not dare to act rashly.

When he returned, he would absorb and digest it, consolidate his realm, devour the mysterious energy, strengthen his five internal organs, and then accumulate spirit to break momentum ... At that time, perhaps he could go and talk to them alone.

As for the hidden strength of these people ...

Hehe!

'With my eyes here, unless these guys are hiding in the latrine ... Not even the latrine can do that. As long as I sweep my eyes over them once, there's no place for them to hide!'

An origin divine weapon!

That's right, at this moment, he had his eyes on the purple Moon and the rotating origin God weapons.

He really needed sword energy!

Now, there were only two ways to recover his sword energy. First, he could find the second stone door. The stone door was too slow to dissipate, and the first one might not have recovered yet.

Second, the soul within the shattering origin divine weapon!

Thus, after thinking about it carefully, Li Hao felt that it was not the right time to make a move. Even if he did, Ziyue would be killed by them and the origin divine weapon would not be given to him. It would be taken by the night patrolmen.

This was not Li Hao's goal!

"The Minister is wise!"

Li Hao smiled. "I was wondering why the Minister would let the people from the three major organizations go when he's so powerful. It turns out that he's preparing for the next step ..."

Hao lianchuan looked at him strangely for a while. What was wrong with this guy today?

"Minister, what's the use of those stones?" Li Hao asked again.

Hao lianchuan saw that he was no longer sucking up to him, so he did not say anything else. He quickly said, "That's a divine power Stone! It was a treasure used for cultivation during the ancient civilization. During the ancient civilization, there were countless experts, and it was related to this treasure. However, it had long disappeared from the land of Heavenly Star. This thing has many uses. The most basic one is to directly extract energy for cultivation, but this is the biggest waste!"

"Secondly, it can be used to revive some dead origin God weapons ... Some of them have already been completely dormant and can only be revived with divine power stones!"

“Third, the divine power stones can also drive some puppets from the ancient civilization ... I suspect that the gold-tier Warriors in the city may have a lot of divine power stones that can drive him and allow him to burst out with such powerful strength!”

“Fourth, this thing is actually good for martial masters as well. It strengthens the body ... But generally, it’s not so wasteful!”

“The fifth ...”

He said a lot, and Li Hao looked envious. “Can I have some?”

“.....”

Hao lianchuan put on a fake smile. “This is a strategic resource. Anyone who has any gains must hand it over!” Of course, he would spend money to buy it. “If you have it, you can hand it in. It depends on the size. Under normal circumstances, the smallest piece can be sold for 500 cubic meters of mysterious energy ... Do you have it?”

Li Hao was embarrassed. “No. Then, can I exchange my 5000 cubic meters for 10 yuan?” he asked.

“Don’t even think about it!”

Hao lianchuan immediately shook his head. “That’s impossible. All the major forces need the divine power Stone. This thing is also the key to the advancement of supers. Some newcomers can advance more easily through the energy inside! Otherwise, why do you think the death rate of the night patrollers is so low when they draw energy into their bodies? It’s all because of the divine power Stone!”

Alright, it did look precious.

In this case, Li Hao wouldn’t hand it over. He had snatched it from Yama. If he didn’t, it would belong to Yama.

At this moment, Minister Zhou and Zhao Huan also took out a small package ... It was a divine power Stone.

The two of them had also noticed something.

Hao lianchuan already knew what was going on. He nodded and accepted the package. “Same old rules. You two can also get a large amount of mysterious energy this time. Or you can exchange it for something else!”

He counted and the two of them found a lot too, a total of 20 pieces.

In total, he had obtained 50 divine power stones from Fei Tian and the two of them.

As for himself ... The three suns didn’t get any divine power stones, but it wasn’t like they didn’t get anything. They got a lot, so there was no need to tell these people.

After they were done, Hao lianchuan stood up and said, “Let’s take a look around the outer city as well ... Although we’ve seen it many times before and there weren’t any ancient houses with open doors, we might be able to discover something now that he Teng is gone. If we can get some divine power stones, the strength of all the Nightwatchers will rise again.”

Their losses this time weren't big, and they had gained a lot, so Hao lianchuan was in a good mood.

Li Hao, on the other hand, kept staring at him until he saw the package really disappear ...

Li Hao was certain that this person had a storage treasure!

Perhaps ... He could change to this.

He couldn't store the Galaxy Sword in his body now. Although it wasn't too big, and Li Hao had always kept it on him, if he really lost it ... Li Hao would cry to death.

.....

At the same time.

Outside the transverse Canyon.

Powerful auras filled the valley.

However, at this moment, many night patrols were standing around, and there was even a military blockade, blocking these people outside.

Inside the blockade line.
