

Constellation 511

Chapter 511: harvest (3)_7

...

“Didn’t I already give you what should be yours?” Look at the treasures that the red moon, flying heavens, and Yama brought out, which one did I not give you?”

At this moment, a brawny man with blood-red hair said coldly in the sky, “Hou Xiaochen, cut the crap! We want the remains. In addition, hand over Yuan Shuo, or hand over Li Hao!”

“You ... You’re so anxious!” Hou Xiaochen laughed bitterly. Yuan Shuo is missing, where am I supposed to find him? As for Li Hao, he hasn’t even come out yet, so why are you in such a hurry? Perhaps they had already died inside. Didn’t you hear what the people who came out said? It’s very dangerous inside. Look, so many people went in this time, but it’s said that only 30 people are alive. Including those who came out, there are only about 50 people ... Are you sure Li Hao can come out alive? Now you’re so anxious to find trouble ... Do you really have no respect for the night patrol?”

The blood-red haired expert snorted coldly, “I’m afraid that Yuan Shuo was able to escape because of you, hou Xiaochen!”

“Whatever you say!”

Hou Xiaochen shook his head helplessly, “I’m a poor man, so I can only accept this!” After all, you’ve been injured for many years, and you’ve long since lost even one-tenth of your original power. Red-haired, you were lucky to have reached the rising light Dao...You’re quite a powerful figure. I wouldn’t dare to offend you. ”

The red-haired expert’s expression changed.

F * ck!

The more this guy said this, the more he didn’t dare to act rashly.

Before he had come, Ying Hongyue had personally summoned him and told him not to fall out with hou Xiaochen unless absolutely necessary.

Yes, just this one sentence!

Even if he was Xu Guang and hou Xiaochen was just a sickly Third Sun ... He knew that the leader wouldn’t say something like that.

It was obvious that hou Xiaochen was not to be trifled with.

Don’t be fooled by this fellow’s sickly appearance, coughing from time to time ... To be able to remain so quiet even with the presence of the rising sun, could it be that he was afraid of the night patrollers?

No, he was afraid of hou Xiaochen!

Hou Xiaochen looked at the time and said, "There's still ten hours. We've waited for three days, so there's no hurry. If Li Hao really comes out, we'll have a good talk ... What does a young man, an ordinary person, know? Other than you, Red Moon, the others probably don't have that many problems ... You're really impatient. "

"Everyone, it's too tiring to keep flying. Why don't we land and take a rest in our tents?" he added.

No one cared.

"Then I'll go rest for a bit. I'm not as strong as you guys, but my body ... Sigh, it's getting worse by the day!" Hou Xiaochen laughed.

Shaking his head, he entered one of the tents with the help of Chief Steward Yu.

Everyone watched silently. Some of the experts of the new generation felt a little strange.

This time, people from the central region came.

Some of the new generation didn't actually know who Hou Xiaochen was, but they saw that the rising light powerhouses of the central continent didn't make a sound and kept a low profile.

This sickly guy in front of him didn't look like he was to be trifled with!

At the same time, they were also shocked by the scale of this event. Many people from the central region had actually come. Was Yuan Shuo's promotion really that important?

Sunguang was a top-notch existence in the central region.

Even if the large organizations had the rising light, they wouldn't have many of them.

As for the three great organizations, almost all of them had sunguang-ranked existences.

However, no one dared to move. This was what was even more shocking.

.....

Inside the tent.

Chief Steward Yu frowned and said softly, "Minister ... Many sunguangs are forcing ... Li Hao ..."

The trouble was not small!

Hou Xiaochen chuckled. "What's the rush? The inspection Office and the military law Department haven't sent anyone yet, and even Xuguang is here. Unless they're certain that they've given up on Silver Moon and no longer control it, someone will come sooner or later! We're just night patrols of the border ... The matters of the central continent should be settled by the central continent!"

Chief Steward Yu fell into deep thought. Was it possible?

Those people might be eager for them to test the Minister.

"Cough, cough, cough ..."

Hou Xiaochen coughed for a while before continuing, "It's fine. Those people won't care ... I'll announce that Silver Moon is no longer in a state of dynasty ... If it's chaotic, then so be it. Once Silver Moon announces his departure ... The dynasty will be anxious. They're afraid ... Afraid that it will cause a chain reaction!"

Once Silver Moon left, and the reason was because of the attack of the rising sun, the central continent would not care ... The result would be that many ambitious people would quickly spread the news and leave the dynasty after Silver Moon left.

Once they entered this state, the star dynasty might collapse soon.

As such, Hou Xiaochen was certain that as long as he didn't make a move, these people would definitely try to stop him.

Hou Xiaochen didn't say anything else. Instead, he began to think.

He didn't know what was going on inside. Those people had entered the inner city ... The inner city ... Was not easy to enter!

Chapter 512: comprehending the sword (1)

...

In the ancient city.

Li Hao's group searched around. There were only Nine Streets, so it was easy to find any old houses.

The result proved that ... Everyone was overthinking it.

No!

Why was this city abandoned back then? did the people in the city all die or migrate? no one knew.

No one dared to go in to see what was inside the house.

According to Minister Zhou and the others, some of the old houses that were opened were empty. At most, there would be some old antique furniture left. They were not treasures and were not much different from the furnishings of some normal houses.

After searching for about an hour, no one was willing to waste any more time. One by one, they sat down to cultivate and digest what they had obtained this time.

There were 14 living people in the entire outer city, but it was frighteningly quiet.

Hao Lianchuan and Hu Dingfang had also suffered some minor injuries and had also begun to heal their injuries.

.....

Somewhere further away from them.

Li Hao and Hong Yitang started to chat.

Perhaps it was because they were both martial masters, or perhaps the other party was also a senior Martial Master in the past and didn't seem to have a deep hatred for his teacher ... Li Hao was more than happy to chat with this person.

"Martial uncle Hong, are there many experts from the Silver Moon martial forest who have survived?"

Hong Yitang had nothing to do, and he seemed to be reminiscing. After a while, he said,""Back then, although Silver Moon martial forest didn't have a thousand martial masters, it was one of the top martial arts forces in the 99 provinces! There's no other reason. There are too many of us who have broken through the 100th level!"

"Furthermore, many of the Silver Moon citizens have walked out of Silver Moon. Many of the top martial artists in the provinces have been promoted by me!"

Hong Yitang sighed,"at that time, before the appearance of superpowers, Silver Moon martial masters were all over the star dynasty. They dominated the world!" Everyone knows that if we want to truly carve out a Path of Blood ... We have to go to Silver Moon!"

"If you want to truly experience the bloodshed of the martial arts world, go to Silver Moon!"

"Until 20 years ago, when supers appeared. In the beginning, it was nothing much. Silver Moon martial forest was powerful, and some supers who had just emerged were nothing. Not to mention Starlight and dark Moon, even if they quickly entered sunlight ... Just those rookies would usually be killed when they encountered those who had broken through 100!"

20 years ago, those in sunlight were all god tier Masters blessed by the heavens.

The ones who survived were at least three suns, and the strongest were all sunguang.

However, in that year, he could not survive in Silver Moon.

There were too many martial masters!

It was only later that the martial masters' progress was too slow and they were caught up by those people. There were even three sun powerhouses. At that time, the martial masters could no longer hold on.

Li Hao nodded.

Hong Yitang laughed again,"Silver moon's superpower realm isn't that strong. Martial masters have their own merits too ... He killed too many! Back then, a group of god tier Masters came to the Silver Moon, and many of them were born there. In the end, many of them were killed, and it wasn't just your teacher. I also killed a few god tier Masters ... It's a pity that if they were still alive, those guys would at least be three suns, and sunguang would be normal. "

Li Hao nodded thoughtfully and said in a low voice,""Minister hou, are you a Martial Master?"

"Him?"

It was no wonder Li Hao asked this question. Hou Xiaochen was young, but he was said to be very strong. Could he have been a Martial Master back then?

However, he had never heard of it.

If he was a Martial Master, he should have been quite famous back then.

“He ... Could be, could not be.”

Li Hao was stunned. It was possible?

If it wasn't, then it wasn't!

Hong Yitang explained. “Back then, there were actually two forces in Silver Moon martial arts. One was the pugilistic World Martial Arts ... The other was the Imperial court's Lackey ... Cough, cough, no, you know what I mean!”

Li Hao understood!

Seeing that he understood, Hong Yitang smiled and said, “At that time, the Imperial court wanted to ban martial arts, and to ban martial arts naturally required strength. It was also the martial arts of the people that were banned, not the martial arts of the Imperial court! Thus, in order to deal with some of the more experienced martial masters, the Imperial court also trained a group of martial masters to hunt down martial masters!”

“Before the rise of the supers, Minister Hou's name was almost unheard of. However, he quickly made a name for himself at the Silver Moon Inspection Office. Not long after the night patrollers were established, he quickly rose to the top ... So we suspect that he was the Imperial court's ... Cough, one of those things!”

He whispered, “he might be a strong Martial Master. Then, with the help of the star dynasty, he quickly became a superpower. Once he became a superpower, he would be at least a solar flare. There were not many superpowers back then. If he could seize the opportunity, it would be understandable that he would become a three suns cultivator soon.”

In short, he judged that the other party was either a god tier master or a super-master who had advanced to the level of over 100 martial masters.

However, no one really understood Hou Xiaochen.

The martial masters trained by the Imperial court had all hidden their names back then.

They were considered to be doing secret work, and it was not a good thing to be famous. On the contrary, it was easy for them to be surrounded and killed by the pugilistic world.

“I see ...”

Li Hao nodded. If that was the case, it could be explained. If this person specialized in secret work back then ... To be honest, he was definitely not weak to be able to kill martial arts experts.

Otherwise, he wouldn't have dared to do this.

However, he sounded like a bad guy, a Lackey of the Imperial court ...

Forget it, why did he scold him?

Li Hao was embarrassed.

The night patrolmen ... In fact, wasn't it this kind of organization in the past?

They were specially hired to work for the Imperial court.

"Eagle hounds" were martial artists. According to the night watchmen, these people were up to no good. They destroyed social order, killed people everywhere, created a bunch of murders, and ignored the law ...

The officials hated people like Yuan Shuo the most!

Chapter 513: sword comprehension (2)

...

Of course, Yuan Shuo kept a low profile after that. With the rise of superpowers and the many bad things they did, Yuan Shuo's reputation was cleared a little. In fact, this old demon was also a wanted criminal by the Imperial court back then.

Hong Yitang saw that Li Hao seemed to be thinking about something, so he didn't interrupt.

After a while, seeing that Li Hao had woken up, he said, "I've seen you practice the sword. Your teacher practices the five birds technique and follows the five birds momentum. Although he also knows sword techniques and is not weak, he has not condensed the sword momentum!"

Li Hao's eyes lit up.

Hong Yitang continued to smile, "at that time, Silver Moon martial forest had Seven Swordsmen. It was quite famous. They're known as the seven Silvermoon swordsmen, and they've all comprehended sword force. There's more than one type of sword force!"

"I see that you know Shadowless Sword. You must have received the inheritance of Shadowless Sword, right?"

Li Hao nodded.

In fact, he liked to talk about these things with the Martial Master. Although his teacher knew a lot, he was not a professional swordsman. Sometimes, he might not be able to surpass these swordsmen in certain aspects.

Hong Yitang saw that he was interested and continued, "The seven Swordsmen back then had the Earthcover sword, Shadowless Sword, wind and thunder sword, light sword, luosheng sword ..."

He spoke for a while before continuing, "seven people, seven different sword forms!" Sword artists, in my opinion, aren't weak ... Of course, you can't compare to your teacher. He's abnormal and has fused five forms. Otherwise, if he had mastered one of the five bird forms, he definitely wouldn't be the opponent of any of the Seven Swords. "

Li Hao nodded, but he cursed in his heart. More importantly, teacher has mastered the five moves. Also, why did you rank the overturning earth sword first?

Hong Yitang didn't tell him all this to show off. He just wanted to watch him practice. He continued, "If you want to walk the path of the sword, and don't want to become the eighth sword of the Seven Swords...Then you have to learn from your teacher!"

Li Hao was slightly confused.

Hong Yitang could only explain in more detail, 'a sword is not a kind of sword force! The earth overturning sword is actually somewhat related to the earth. Once the sword is drawn, the earth and the sky will overturn, and the earth's power will be borrowed!"

Li Hao's eyes instantly lit up.

Hong Yitang laughed, "Shadowless Sword is fast and sinister. Its core lies in its invisibility! Do you think it's similar to the current dark powers?"

Li Hao was deep in thought.

"The sword is actually ever-changing! There was far more than one sword force! No one can deny that the five bird forms are powerful, but is the connection between the five bird forms more important than the sword forms?"

"After the rise of the supers, there's an attribute that they pay attention to, and that's the attribute of the sword force! Metal, wood, water, fire, and earth, which one of them wasn't a sword force? Wind, rain, lightning, dark light, and void, which one can't gather sword power?"

"If you're just purely following your teacher's path, then I won't say anything."

"However, I have a feeling that ... You have a different understanding of the way of the sword. It might not be the same as your teacher's path. Then I hope that Silver Moon martial forest can produce another swordsman, a powerful swordsman!"

At this point, he felt a little regretful, an unspeakable regret.

For example, sun Yifei felt regretful even though he had reached the late-stage of the three yang realm.

His eyebrows-abrest rod hadn't reached its peak!

For example, Hong Yitang's earth overturning sword was now just an empty name.

Silver moon's martial masters could not forget their glorious years back then!

At that time, the Seven Swords had swept across the pugilistic world, but they were all defeated in the end. Now, they were either dead or scattered. They were only the Masters of a small swords gate, no longer the Silver Moon swordsman they were before!

"Your teacher has fused the five birds. Why can't you fuse the seven, eight, or even Nine Swords?"

"No... Senior uncle Hong," Li Hao said after a long while, "even if I can comprehend many sword forces, I'll be old by the time I fuse them!"

You must be joking!

Hong Yitang laughed, "why would I?" The first one to fuse with it would definitely be very difficult! That was because he had always been exploring, so he had no experience. However, the second one will definitely be easier."

"Your teacher, how did you fuse the five birds? "He must have his own methods, his own laws, his own system What you need to do is use your Supreme talent to gain enlightenment of various sword forms. It doesn't matter if it's not sword forms. You need to understand that all things can be swords!"

"The earth is the sword, the sky is the sword, the Thunder is the sword, and everything can be the sword!"

"The essence is better than the impurities! Everything can be transformed into a sword, walking on the path of the sword. Even your teacher's five birds force can actually be transformed into a sword...How he fused it, you can try to fuse it!"

"This, only you have this opportunity ... The others don't know how to fuse, and your teacher probably won't tell you."

He laughed at himself, "it's a pity that we don't have such talent and ability." "You already have a very good foundation and a huge advantage. You advanced in one go, but that's just an ordinary Martial Master. You can't surpass your teacher ... And what Wu Lin wants the most is for each generation to be stronger than the last!"

"Let everyone know that the martial arts world is still around. Let everyone know that the martial masters are still around!"

"It's a pity ... That the seven sword inheritance is broken!"

He sighed again, "your teacher killed Tempest sword, Shadowless Sword, and Luosheng sword, these three swordsmen. He probably knows them very well." Li Hao, if you can master multiple sword forms ... Come find me, and I'll teach you the earth overturning sword!"

Li Hao was stunned. He looked at him in disbelief.

The martial arts world really valued inheritances!

It wasn't a random rumor. Even if he was no longer a Martial Master, the earth overturning sword was not a nobody.

Chapter 514: sword comprehension (3)

...

For Hong Yitang to be able to survive here, he might not be strong, but his experience and other things were first-class, which was why he could survive.

Such a person had given him the overlaid sword and still wanted to pass on the sword Dao to him?

“What, do you think I’m up to no good?”

Hong Yitang laughed. “If you can really master a few sword forces, you have a chance to surpass Yuan Shuo and become a top-tier Silver Moon swordsman ... You will be able to clear the name of the martial arts world. Swordsmen are stronger than the so-called five birds technique. No matter who your master is, you are worth making an exception for!”

“If you can really learn many sword forms ... I’ll tell you a secret. The strongest swordsman of the Seven Swords, sky sword, is still alive! Moreover, he’s a Big Shot now. If you can fuse sword force with him ... I can recommend you to learn the heaven sword from him!”

“Heavenly Sword?”

Li Hao blinked. Hong Yitang smiled and nodded. “Yes. Ask your teacher. He’s fought against Tian Jian three times. He lost the first time, fought to a draw the second time, and won the third time ... But he killed so many people. Did he kill Tian Jian?”

“Your teacher was only able to defeat his opponent after fusing the five stances. From this, one can easily imagine how powerful that person is!”

Li Hao took a deep breath!

Really?

He had never heard of it.

To think that his teacher was only able to defeat the other party after fusing the five Forces together, and not even kill the other party ... Just how strong was that fellow?

“That man ... Is still alive?”

“Of course!”

“Are you a superhuman now?”

Hong Yitang’s expression was a little sad as he nodded. “Yes! You even entered the so-called rising light realm ... But ... Sky sword can only become a super now, which is why I admire your teacher!”

“That ...” Li Hao said earnestly, “my teacher actually wants to become a super, but he has never succeeded ...”

“It’s not that I didn’t succeed!”

Shaking his head, Hong Yitang laughed. “I know your teacher. He must be trying to become a warrior of the thousand world before becoming a super. He wants to experience the power of a warrior of the thousand world. Otherwise, do you really think he can’t become a super?”

Li Hao was silent.

His teacher had mentioned this before.

He had indeed wanted to enter the universe before becoming a superpower, but ... He was injured and his path to the universe was cut off. After that, he began to think about becoming a superpower, but it was already too late.

Hong Yitang sighed and didn't say anything else.

Li Hao, on the other hand, remembered this.

His teacher had another enemy.

Heavenly Sword!

It was said that his teacher had already made an enemy of an expert who was already at the rising sun.

Of the Seven Swords, the earth overturning sword and the sky sword were still alive. His teacher said that he had killed three of them, but he didn't know if the remaining two were still alive.

He was also thinking about Hong Yitang's words.

Everything could be used as a sword!

This was a swordsman. An old Martial Master's words might be overpraising a swordsman, but what he said was not necessarily without reason.

He had comprehended sword force ... But he had always felt that sword force belonged to metal!

As for the terrain, it was of the earth element, so he created the sword of Mount Tai. However, this so-called sword of Mount Tai was actually just adding the gravity of the terrain to the sword momentum.

The two of them were actually not considered a fusion.

Of course, Li Hao felt that he had succeeded, but after hearing Hong Yitang's words today, he suddenly felt that he ... Might not have succeeded.

True success might not be like this.

Instead, when the sword was drawn, be it metal or earth, they would all fuse together. A sword was a sword, and there was no need to add any mountains. It could directly kill the earth and metal powers, or even more, or directly fuse them into a new power.

This was the experience of the old Martial Master.

Often, one sentence could make one think of many things.

The prerequisite was that you had enough wisdom to understand.

Seeing that Li Hao was deep in thought, Hong Yitang only watched in silence. He felt emotional and sad.

The life of a swordsman was gone forever!

Could this person bring the sword Dao to greater heights?

Who knows!

However, he still remembered the powerful sword intent that he had vaguely felt earlier.

Silver Moon martial forest's swordsmen and sabermen were all defeated in the end. They were defeated by one of the five birds ... A beast could also become a King?

Bah!

Unconvinced, this was inevitable.

However, everyone was beaten into submission.

However, he was still unwilling to give up!

If Yuan Shuo's disciple was famous for his swordsmanship and could defeat Yuan Shuo ... Even if this was just an internal battle within five birds sect, it would be ... Very interesting!

Thinking of this, Hong Yitang wanted to laugh.

If Li Hao could really defeat that guy with his sword Dao, and he was also a Martial Master ... Hahaha, he wanted to laugh and cheer when he thought of this.

Yes, we can't defeat you!

In particular, Yuan Shuo had broken through to the spirit accumulation stage and was extremely powerful. It was not considered a feat to defeat him with superpowers ... What about a pure Martial Master swordsman?

Tian Jian probably had the same idea.

It wasn't just Tian Jian. The other guy who was still alive probably had the same thought ... But that person ...

Thinking of the other one of the Seven Swords, he was a little distracted.

That person ... Was he still persisting?

Now, he had even given up on skysword and was still persevering ... Was there really hope?

Perhaps ... There really was one. Yuan Shuo had found the path to accumulating spirit. If he had known earlier, he would have persevered in the past. Unfortunately, things changed with the passage of time. He hoped that there would be a good ending for that person.

"Martial uncle Hong!"

Li Hao's words woke him up.

"What's wrong?" Hong Yitang laughed.

"Senior uncle Hong," Li Hao said seriously. "You said that everything can be a sword. Then, is the nature of a sword of the metal element?"

Chapter 515: comprehending the swordsmanship (4)

...

“Of course not!”

Hong Yitang shook his head. “The metal attribute is only a carrier. Swords made of metal are sharper!” However, if the stone sword is sharper than the metal sword, do you think the essence of the sword is metal? If steel and metal can’t be smelted, the sword at the beginning might only be wood, porcelain, or stone. Do you think the essence of the sword is wood and earth?”

“Li Hao, you have to distinguish between a sword and a carrier! The sword was a skill! It was a spell! A technique! Of course, to you now, it’s a kind of aura. Aura doesn’t have any attribute. Attributes are given by you!”

“Don’t try to distinguish between the elements ... That’s not right!”

At this moment, Hong Yitang found the joy of teaching disciples. He was in a good mood and continued, “Your Shi, does it have any attributes? No! For example, Liu Long thinks that his Shi is like the ocean waves ... He practices the ninth form of the force, but do you know what attribute his father, Silvermoon’s Silver spear, has?”

Li Hao shook his head. He didn’t know.

“It’s fire ... According to the current saying, it’s fire!”

“His father’s spear is like fire! The spear is like a fire Dragon. When the spear strikes, Nine Dragons will stack. The silver spear is also known as the fire Dragon Spear!”

“But can you say that the ninth-refinement force is of the fire attribute? Of course not, and it’s not water either. It’s up to you. Everyone has a different understanding. ”

At this moment, Li Hao finally understood.

Momentum did not differentiate between attributes!

His teacher had divided the animals into five elements because the five animals corresponded to the five elements. He had come to a realization and divided them into five elements, but that didn’t mean that Li Hao had to do the same.

So that was how it was!

His teacher had never mentioned this. Perhaps his teacher had only hoped that Li Hao would walk the five animal path in the beginning.

In the end, Li Hao used sword form ... And he had only comprehended sword form on the same day. At that time, Yuan Shuo simply didn’t have the time to explain this to him in detail.

And now, a top-notch swordsman from back in the day had filled Li Hao in.

“The sword ... Does not have any attribute!”

Li Hao suddenly thought of something. He couldn’t randomly merge his sword energy with the metal element. If he did, his sword energy could only be of the metal element.

Previously, he had wanted to merge the sword into his five internal organs.

But now ... He didn't have to do that.

"Uncle-master, that sword power is all-encompassing, right?"

Li Hao asked again, "for example, if my sword force doesn't belong to anyone, then if I comprehend the fire sword or the earth sword ... Can these sword forces be integrated into one? like my teacher, he can merge the five birds. There's no need to distinguish them ..."

"That's what I'm talking about!"

Hong Yitang chuckled. "You finally understand. The sword is not the only one!"

Li Hao nodded. "Then, if I comprehend other types of Shi, I can use them as swords, right?"

"Not bad!"

"So, the sword is actually a superclass. I can comprehend the sub-branches of the superclass and finally combine them into a superclass, right?"

"Smart!"

Hong Yitang praised. He suddenly felt that Yuan Shuo's disciple was really smart!

Yes, the sword was the superclass!

As for Li Hao, he was also a little excited. That's why he said that he could split them into fire swords, earth swords, wind swords, water swords ...

In short, as long as I can comprehend any force, I can change it to a sword of any element.

Finally, the swords fused!

It formed a new sword essence!

"The five internal organs contain the five spirits ... They contain the five swords and finally combine into one to form the sword of the superclass?"

Li Hao kept thinking and even tried.

He had turned the mountain in his spleen into a sword!

The earth element sword!

At this moment, he had a different understanding of the way of the sword.

.....

"Li Hao is having a good time chatting with that person!"

Hao lianchuan glanced at Hu dingfang and smiled. "Who do you think is fooling?"

"What?"

Hu dingfang looked at him in confusion.

Hao lianchuan chuckled. "What are you looking at me for? Hong Yitang is a smart man. He wouldn't chat with Li Hao for no reason. Li Hao isn't in the mood for that either. The two of them must have their own thoughts for them to be able to chat so enthusiastically."

Hu dingfang was not interested in this. He frowned and looked at the inner city in the distance. "Do you think ... We can still enter the inner city?"

"We can't!"

Hao lianchuan immediately shook his head. "There's no hope. Don't even think about it!" "Also, even if the powerhouses from the central continent come ... They might be able to enter, but I think it's impossible for them to take that turtle seal. This gold-tier warrior is already terrifyingly strong. Think about how strong that silver-tier warrior was when he awakened."

"We can't explore these ruins now. Otherwise, even three to five sunguang's would be sending themselves to their deaths. This is only one of the dangerous places. How many places have we explored in the entire inner city?"

As he was speaking, a muffled groan was heard not far away.

Li Hao's internal organs suddenly started bleeding, and he vomited blood.

Hu dingfang and the other man disappeared quickly. When they reappeared, they had already surrounded Hong Yitang. The two of them frowned. What was going on?

As for Hong Yitang, he was innocent.

I ... I didn't do anything!

"I'm fine ... It's just a bleeding spleen ..."

Li Hao smiled. "It's not senior uncle Hong's fault. My internal injuries are too serious. I haven't been able to recover ..."

"You ..." Hao lianchuan could not help but say, "you've already absorbed three sunbeams and you're still not fully recovered ... How serious are your injuries?"

He wanted to curse!

However, Li Hao's injuries didn't seem to have healed. Look, his internal organs were bleeding again!

"That Kong Qi is too strong, so he left a hidden force in my body ..." Li Hao said helplessly. 1

Chapter 516: comprehending the swordsmanship (1)

...

"Didn't you say before that it wasn't done by the people from Feitian?"

Li Hao smiled bitterly. "Hao bu, they had two three suns before. Even if they were, I couldn't tell them. Otherwise, wouldn't I be causing trouble for my Nightwalker?" It doesn't matter if I'm injured, but can I

let the night patrol provoke a strong enemy for me? Now that they're dead, I dare to say that it must have been Kong Qi's doing ... Forget it, he's already dead, why talk about this?"

"Then I'll go to Ziyue and ask for a few more blood deities!" Hu dingfang said with a headache.

This injury actually exploded!

After all, Li Hao had come in without any benefits, and he couldn't just be injured.

He had originally thought that he could at least gain something by helping Li Hao when he came in, but in the end, he had nothing!

"Hao lianchuan, give me a wood-elemental divine power Stone!" He suddenly gritted his teeth.

"Ah?"

"What?" Hu dingfang said coldly. "I've got 20 at least. Can't I have one?" The effect of absorbing the energy from the divine energy stone was excellent. Although it was a bit of a waste, his injuries had not healed yet. How could he advance to a warrior of the thousand class at this rate? You're going to take responsibility for wasting too much time? A wood energy stone should be able to heal him and strengthen his body ... It's just one stone, can't I take it?"

Hao lianchuan was helpless. "No... What I mean is that we can find him a good healer or provide him with some wood energy when we get back. It's too wasteful to use the divine power Stone now."

"Then let's just waste it!"

Hu dingfang insisted!

"Don't ... Don't waste it ..." Li Hao coughed up blood and hurriedly said.

"Hao lianchuan!"

Hu dingfang was furious. "We got 50 divine power stones this time. What's wrong with one?"

Hao lianchuan rolled his eyes.

?!

You ...

Forget it, forget it. He didn't say anything more. After a while, a wood energy stone appeared in his hand. The stone was green and seemed to be full of vitality.

He said helplessly, "wood energy stones are actually very rare. Out of 50, only a few are wood energy." This thing ... Was really precious. If you sell this tiny one in the central region, you might be able to sell it for several thousand cubes of mysterious energy!"

Even though he said that, he still handed it to Li Hao. "Absorb it according to the breathing technique of five birds. Not only can it heal your wounds, but it can also strengthen your internal organs, your body, and even your inner strength ... It can be said that the divine energy stone is the best medicine, even more precious than the blood God ... But it's too rare and has too many uses!"

“Is this ... Appropriate?”

Li Hao seemed a little embarrassed, and Hao lianchuan rolled his eyes. “I always feel that this guy is pretending to cheat me of my divine power stones.”

However, the blood that he vomited did not seem fake.

What a headache!

“It’s suitable, I’ll give it to you!”

“Don’t worry, I won’t deduct it from your 5000 cubic meters,” Hao lianchuan replied casually. You have to give Hu dingfang some face ... Of course, you don’t have to give him face. One divine power Stone can’t be exchanged for the five birds breathing technique ...”

Hu dingfang frowned slightly, glanced at him, and left without saying anything.

This was a taboo to him, and he didn’t want anyone to mention it.

If it was 20 years ago, they would have already broken their heads to find out about the Wulin heritage being leaked.

Moreover, if word got out, it would be bad for his wife’s reputation. Yuan Shuo might not care about the leaking of the core law of five birds sect, but the older martial masters would be furious.

Li Hao didn’t say anything else. He picked up the wood energy stone and tried to absorb it.

As soon as the secret skill of five birds was used, a special energy quickly gushed into his body.

At this moment ... Li Hao felt a little strange.

It was actually somewhat similar to sword energy!

Of course, it was still a bit lacking. It did not feel as gentle as the sword energy, nor did it have as good an effect as the sword energy. As such, it was still not as good as the sword energy, and it was much stronger than the violent mysterious energy.

A gentle wood attribute energy entered his body.

Repairing his spleen that was almost shattered ... There was no helping it. Li Hao had wanted to transform into a sword just now, but he had caused a mountain riot and almost shattered his spleen.

At this moment, Li Hao also felt that this energy was indeed very useful.

His liver, in particular, was being nourished by the wood element.

However, Li Hao still felt a little regretful ... It wasn’t as good as sword energy!

Moreover, it was even better to be able to strip the sword!

However, what the sword could usually strip off was the mysterious energy. Could it strip off this wood energy stone?

If possible, could it be purer?

“Also, this thing ... Can it be used to supplement the sword energy?”

Li Hao thought to himself, but he didn't have the chance to try. If he could, the divine energy stone was the real treasure!

His internal organs were all being strengthened.

His body had also gradually strengthened a little, but it was not obvious.

Hao lianchuan frowned as he looked at the wood energy stone in front of him, which was gradually dimming. He had to remind her, “Don't absorb it all. As long as its color doesn't completely fade, this thing can still recover! This is the true foundation of the treasure!”

Li Hao was surprised. It could recover?

“Is it very fast?”

“It's not fast, but after three to five years, it can recover a lot. That's why the divine energy stones are the most precious treasures ... 50 of them can form a small mine vein ...”

Li Hao was speechless!

With just 50 small stones, you call it a mine vein? what a joke!

All of them added together were not as big as a ball.

After Hao lianchuan finished speaking, he suddenly sent a voice transmission, “Kid, your absorption speed is so fast. I feel like you've absorbed more than a hundred cubes, but why haven't there been any changes? Under normal circumstances, there would be some changes. Is there a problem with you?”

“What?”

Li Hao said, looking confused.

Hao lianchuan was depressed. He sent another voice transmission. “Logically speaking, it's impossible for someone who has broken through 100 to absorb so much energy so quickly. It's also impossible for you to absorb so much energy as if nothing has happened. Did you secretly advance to a thousand-man warrior?”

Chapter 517: comprehending the swordsmanship (6)

...

“What are you talking about, Hao bu?” Li Hao asked in surprise.

“.....”

Hao lianchuan was completely silent.

In the distance, Hu dingfang frowned and glanced at Hao lianchuan. He transmitted his voice to him, “What are you talking about?”

He felt that Hao lianchuan was talking bad about him!

It definitely was!

Otherwise, why would Li Hao look at him so many times?

Hao lianchuan was so speechless that he wanted to vomit blood. 'I'm not talking about you.'

Forget it. This little brat was exceptionally treacherous. He didn't say anything and only glanced at Hu dingfang, and this guy was already looking for trouble.

Li Hao, on the other hand, ignored him.

Why are you asking so many questions!

It would delay his absorption of wood energy.

At this moment, he was secretly happy. The wood energy stone was really not bad. Its wood energy was replenished. Previously, he had the least wood energy. He had absorbed 600 cubic meters of fire and water energy, while his wood energy was only 300 cubic meters.

At this moment, wood energy was quickly replenished by nearly a hundred cubic meters.

Good stuff!

Li Hao remembered that among the divine power stones he had collected, there were not many of them that had wood energy.

It's not bad to earn one for free!

Of course, this was just an unexpected gain. The real gain was Hong Yitang's words, which gave Li Hao some insight. It was also an additional stroke in perfecting his own martial arts path.

The path of martial arts was actually very messy when one reached the peak of the 100-plus.

After entering the battle of thousands, everyone was confused.

Yuan Shuo was currently perfecting the technique, but Yuan Shuo's path might not be suitable for anyone. In fact, Li Hao had also begun to think. Of course, he was too young and inexperienced, so he could only obtain some inspiration from others bit by bit.

Today, he felt that he had gained something in terms of sword Dao.

Before this, he was also very confused. The self-severing sword, the sword that pressed forward, the sword that broke through the heavens ...

He had seen many powerhouses from the ancient civilization making their moves, and he was a little uncertain as to what he should choose.

Today, Li Hao had some enlightenment.

No matter how many changes there were, it was still the same origin!

The core was still the sword intent and momentum. As for how the momentum was presented, it would depend on the scene, the battle, and the adaptability.

Li Hao considered these things as he absorbed.

The others didn't feel much, but Hong Yitang took a few more glances ... This guy had a unique sword intent!

In the distance, Liu Long and Hu dingfang also glanced at Li Hao.

Liu Long didn't say anything, but Hu dingfang was also a little confused.

Force?

He didn't know much about Li Hao, but he did know some things about five birds force. As Yuan Shuo's last disciple, Li Hao actually chose sword force instead of five birds force ... He really ... Didn't know how to explain it.

.....

Li Hao, on the other hand, didn't care what others thought.

He didn't walk the five bird form not because he didn't like it, but because his teacher's path might not be his own path ... Fine, in reality, he didn't like it, and he didn't want to lie to him.

Because of that ancestor's sword, he was looking down on the five birds force!

Therefore, other people might not understand, but the teacher probably knew what he was thinking.

This was actually Yuan Shuo's own advice to let Li Hao comprehend that sword technique.

Yuan Shuo himself was clear that his current five birds force was absolutely no match for that sword ... That terrifying sword!

This was why Li Hao, as the last disciple, did not try to comprehend five birds force.

.....

Time passed by slowly.

Li Hao had absorbed a lot of wood energy. He had even achieved a balance between wood, water, and fire, which was about 600 cubic meters. The wood energy stone had also become much dimmer.

Now, his earth and metal powers were the weakest.

There were only about 400 of them, but the other three were chasing after them.

In his spleen, the mountain was being compressed. Li Hao had consumed so much energy not only to nourish his five internal organs, but also to transform the terrain into earth sword force.

The huge mountain in the spleen gradually became smaller.

At this point, it was only slightly bigger than a pillar.

Li Hao felt that there was hope for him to complete the compression before he left.

If he succeeded, his terrain would change and he would become even stronger!

One hour, two hours ...

When the wood energy stone in Li Hao's hand turned black ... Hao lianchuan had no choice but to interrupt his training. "Your internal organs haven't been successfully repaired?"

He looked at the wood energy stone and his heart ached, "This wood energy stone ... You've used it all up!"

In the distance, Hu dingfang was surprised, 'this ... Is fake? Or is it that he's almost used up? otherwise, no matter how much Li Hao absorbs it, he can't possibly use it up. Even you and I can't absorb a divine power Stone so quickly, can we?"

Hao lianchuan was speechless. "It's probably been used up ..." He said. "It's probably been too long, and a lot of energy has been lost."

He was also confused!

This wood energy stone wasn't big, but it should have at least 500 cubic meters, right?

In the end ... There was no more!

Even if Li Hao was a bull, he wouldn't be able to absorb all 500 cubic meters of mysterious energy!

Li Hao opened his eyes and looked at the wood energy stone in his hand. He said embarrassedly, "You've finished absorbing it? No wonder it's useless ... Hao bu, I'll return this to you. Keep it ... Your five internal organs are much better now, although they haven't fully recovered yet ..."

"Cough, cough, cough!"

Hao lianchuan almost vomited blood. Not fully recovered?

Li Hao sighed regretfully. He hadn't completed the compression yet. He was so close to it that he didn't dare to continue because he was afraid that he would cause too much of a commotion.

However, it would be soon.

He was looking forward to what would happen when Earth Force became earth sword force.

Hao lianchuan had no energy to complain and could only keep the wood energy stone. "Let's go out of the city and wait at the entrance of the remains. It should be here soon!"

The ruins were about to open.

If they didn't go out today, they could only go out next month. The key was that everyone might not be able to leave alive next month.

Li Hao didn't have any objections. The group of people quickly walked outside.

.....

At the same time.

The inner city.

The big turtle floating in the air seemed to have opened its eyes.

His gaze fell on the direction Li Hao and the others had left in.

The descendant of one of the eight great families ... Sword intent ... The descendant of the Li family?

So weak ...

So weak that they couldn't believe that this was one of the eight great families of the past!

Would the Li clan's longevity sword sect still exist?

Countless thoughts slowly emerged and were quickly destroyed.

His line of sight once again fell below. There, a Black Dog could be vaguely seen ...

The big turtle looked on silently. Was the descendant of the human demon subduing envoy so ordinary now?

In his memory, a scene appeared ... But it disappeared very quickly. It was too far away, and he couldn't think about it. Once he recovered ... It would be over. A moment later, he disappeared.

The eight great inheritances, the descendants of the demon subduing emissaries, and the descendants of the sea subduing emissaries ... All of them were memory fragments!

At this moment, the ancient city once again fell into a deathly silence, and the light dimmed.

Chapter 518: The terrifying hou Xiaochen (1)

...

After leaving the outer city, Li Hao looked back.

He vaguely felt like someone was looking at him.

Li Hao turned around and stopped for a moment. Beside him, Wang Ming whispered, "What, you still can't bear to part with those treasures?"

Does it have anything to do with you?

Li Hao was still not satisfied with his gains this time!

Li Hao smiled, shook his head, and continued walking.

He had never walked this path before.

Darkness enveloped the area.

After passing through the darkness, they would arrive at the gate they had entered earlier, the gate of the cliff.

There was only one path, and it was very dark.

And this road was actually not safe.

As he was walking, something seemed to come out of the darkness. With a pfft, it pierced through the void.

Bang! Bang!

Hu dingfang threw a punch and sent something in the darkness flying.

Li Hao frowned slightly. What the hell?

Hao lianchuan knew that Li Hao didn't know because Li Hao had teleported directly into the inner city. At this moment, he casually said, "There seem to be some strange things on both sides of this road. They feel like wooden spikes ... They might be some kind of mechanism."

Wooden spikes?

Li Hao felt a little strange, but he didn't say anything. There was no way out on either side, so he could only walk along this road.

The wooden spikes weren't too threatening.

However, he felt that this was not a trap.

It felt like ... It felt like a living thing!

However, it was impossible. This place had been sealed for countless years. How could there be any living things? even those puppet fighters were dead. They only seemed to have a trace of consciousness left. After they recovered, they quickly collapsed.

As they continued forward, the attacks continued several times.

However, they were easily neutralized each time, so they didn't suffer any losses before coming.

Soon, a flash of light appeared.

The next moment, Li Hao and the others arrived at a huge square. In front of the square was a gate that looked like a cliff. This was the exit.

At this moment, it wasn't time to go out yet.

Everyone stopped.

After a while, footsteps could be heard in the dark.

After a while, the Samsara King walked out, with the guy who threatened Liu Long still following beside him. This guy's life was really tough. Even Li Hao admired him. He had survived until now and was the only descendant of Yama.

Soon, the purple Moon also walked over, and similarly, she was followed by three red moon's sunlit.

This time, other than a group that had left earlier, there were only six people left from the three great organizations.

Seeing the two of them come out, Hao lianchuan laughed and said, "Have you two discovered any treasures?"

"The treasures are all in the inner city," the reincarnation King said indifferently. "If Minister Hao likes them, you can go back and get them!"

Treasure?

If there really was a treasure in the outer city, would it even be their turn?

They would have been chased away by the night patrolmen.

At this time, the purple Moon and the king of Samsara were one. The night patrolmen did not suffer much losses this time. With the two three suns present, it was hard to say if they could get out of this place even if they had any disagreements.

"I wouldn't dare!"

Hao lianchuan laughed and said, "I'm only at the initial stage of the three yang realm. I'm not like you two. You're both strong!" After we go out this time, even if Red Moon and Yama's headquarters send people, the two of you will probably be able to come in next time ... It's hard to say!"

"I'm just an early-stage three yang cultivator ..." Hao lianchuan sighed. "I don't have much say."

Although his words were a little fake, the truth might really be like that.

Zi Yue was not interested in his hypocritical words. She looked at Li Hao and said calmly, "Li Hao, you don't know how many people in the world will find trouble with you this time! With the night patrolman's strength ... If he were to go all out, he would naturally be able to protect you. But ... Do you think that's possible? Let's not talk about the Nightwalker's headquarters, even in the Silver Moon branch, how many people do you think would be willing to protect you?"

Li Hao did not say anything.

"Come to the Crimson Moon!"

"Coming to the Crimson Moon doesn't necessarily mean death!" Zi Yue smiled faintly. "I know that you're afraid that Hong Yue will kill you ... But as long as I don't have to kill you, and there are other ways, you ... Can live on, and you'll live very well!"

"If you don't kill me ... How are you going to carry out your plan of gathering all eight branches?" Li Hao said softly.

You must be joking!

Do you really think I'm stupid?

Ziyue chuckled. "That's in the past. He's just an ordinary person. If he dies, so be it. Do we have to specially nurture him, capture him, and slowly study how to deal with him?" Now, your teacher has

advanced to the spirit accumulation stage, and you have also broken through to the hundred perfection stage ... The value is different, so the treatment is naturally different!"

Hao lianchuan laughed and said, "I say, isn't this ... Inappropriate?" You, Hong Yue, killed the other members of the Eight Families and also wanted to kill him. His parents' deaths were probably caused by you, and now you want to win him over? Alright, Li Hao, if you're not afraid, go ahead!"

You must be joking!

He felt that Ziyue was a little crazy. How could she dare to say such a thing?

"There's nothing inappropriate about it. You won't understand the red moon's mission, and you won't understand it!" Only when you join will you know that the Crimson Moon ... Is greater than you think!"

"Hehe!"

Hao lianchuan laughed and did not bother to say anything.

Hu dingfang glanced at her and said calmly, "You're only relying on Ying Hongyue and her people. Will those people ... Come to Silver Moon? If you didn't come, what right do you have to be so arrogant?"

"The Crimson Moon's power is not something you can understand!"

"You're wrong if you think only the leader is as strong as the red moon!" Zi Yue said indifferently. Hu dingfang, don't think that your Tiger wing Army is so powerful. In this era of the rise of superpowers, an Army formed by a group of ordinary people ... Is not worth mentioning! Sunlight can fight thousands, three suns can fight tens of thousands ... The so-called hot weapons will lose their effectiveness in the face of the rise of superpowers!"

Chapter 519: The terrifying hou Xiaochen (2)

...

"At least I can still use it now!"

Hu dingfang was extremely cold, 'now, it shouldn't be a problem to blow you up! If you don't believe me, you can try!"

There was silence.

The two sides stopped talking. Such threats had no effect on either side.

At this moment, he could only wait for the ruins to open.

On the side, Hao lianchuan glanced at Li Hao and said telepathically, "When we get out, just speak less and ignore this woman. Does she think that she can force hou bu just because the three great organizations sent people? Don't look down on hou bu ... He's the ruthless person who couldn't take your teacher away even when Ying Hongyue personally came back then!"

Li Hao nodded.

Was he nervous?

He wasn't too nervous.

If the night patrolmen really had no other way ... They could just run away. What was there to be afraid of?

The teacher had also run away. If he was careful, he might be able to escape.

Even if these people caught him, they wouldn't kill him immediately. Hong Yue still wanted to capture him alive.

At this moment, there was a loud boom!

The cliff in front of him started to shake.

In the blink of an eye, they could vaguely see the scene outside. When they entered earlier, they could not see clearly what was inside. It was similar to a one-way mirror that could clearly see the situation outside.

Outside the cliff, there was no danger, and no one was there. Only hou Xiaochen could be seen!

That's right, hou Xiaochen was at the door!

This time, it was the purple Moon and the reincarnation king who were nervous.

Where are the people from the three major organizations?

Why was hou Xiaochen waiting outside?

The two of them were extremely nervous, and the sunlit soldiers were even more nervous. Hou Xiaochen ... The boss of the Silvermoon Nightwalker. Even though hou Xiaochen didn't have any battle records in the past few years, everyone was still afraid of him!

Just as they were nervous, the cliff trembled and the water rippled.

This meant that he could leave!

The Samsara King and Ziyue did not dare to go out rashly, but Hao lianchuan and the rest did not have any scruples. They all walked out with a smile.

Li Hao quickly followed.

This time, Ziyue and the others could only brace themselves and walk out. If they didn't go out, this place would be closed, and that would really be courting death.

.....

"He's out!"

Fortunately, the moment they stepped out, they heard a familiar voice.

He instantly heaved a sigh of relief!

The pressure of facing hou Xiaochen was immense.

Ziyue was relieved when she heard his voice.

She knew who was here!

Red Moon had seven leaders, red, orange, yellow, green, cyan, blue, and purple. Purple Moon was only the third generation, but she was also one of the leaders ... Although she was not as powerful as sunguang, her status was still very high, which was due to her identity.

There was naturally a reason why he could inherit the identity of Ziyue.

Of course, zirai had no interest in reminiscing.

Apart from the 7th moon, Red Moon also had some experts who were quite famous. For example, the person who had spoken was the red-haired butcher. He was a famous expert from Red Moon and had killed countless people. He was also a famous expert in the central region.

Within the Crimson Moon, her status was second only to July. Together with some other strong people, they formed the second level of the Crimson Moon, the elders Council.

The red hair had arrived, and it was at the sunrise level!

Ziyue was relieved!

As for the reincarnation King, he was also calm. He had also heard the voice-the king of equality had arrived!

The ninth Hall Master of the Ten Kings of Hell, King Pingdeng!

Compared to him, the last-ranked King of Samsara, this one was much more impressive. In addition to being the rising light, the king of equality also controlled 16 small Hells. He had 16 experts under him to fight in all directions, and these 16 were all three suns!

Of course, the king of equality was usually not active in Silver Moon. He was usually active in the South, so it was unexpected that this person would come this time.

Even though he was ranked ninth, he was much stronger than the reincarnation King.

On Silver moon's side, whether it was Purple Moon or the Samsara King, they were both leaders of their respective organizations. However, in terms of strength, they were both the weakest. If they were to be strictly investigated ... They were both related to hou Xiaochen and Yuan Shuo.

These two ... The reincarnation King was also the third generation!

The first generation was dead ... As for whether it was Yuan Shuo or hou Xiaochen who killed him, no one knew.

The second generation ... Still died!

In any case, more than one or two of those heaven blessed God tier Masters were killed back then, so Yuan Shuo and the others wouldn't admit to it even if they did.

The only thing that could be confirmed was that the second generation Zi Yue had been killed by hou Xiaochen, and he had done it in front of Ying Hongyue. Everyone knew this. The Yama's Samsara King had died two generations ago, but that was a mystery.

In truth, it wasn't really a mystery. The people who died on Silver moon's side were either hou Xiaochen or Yuan Shuo, and regardless of whether they were the ones who died, they were the ones who had to be found!

The two of them were thinking about this.

In front of him, hou Xiaochen smiled. "Samsara, Purple Moon, both of you are out!"

Hou Xiaochen's smile was quite friendly. He looked at the two of them and nodded slightly. He then looked at Hu dingfang and the others and also nodded, "Not bad!"

There were many who survived.

As for Zhang Ting's disappearance ... It was fine if she was gone.

He glanced at Li Hao, then at Liu Long ... And smiled again. "Not bad! It's a good thing that you're out."

At this moment, Zi Yue and the others quickly rose into the air and flew out.

There was still pressure here.

The king of equality and the red-haired man were both waiting outside.

In the distance, a cloaked man's voice was cold. "Dingchen didn't come out?"

Hou Xiaochen turned around and looked at the man. He then looked at Hao lianchuan and smiled. "This is Banshan, do you know him?"

"Didn't the mountain ... Disappear?" Hao lianchuan was a little surprised.

"Cut the crap!"

"He's asking you a question. Where's dingchen?" hou Xiaochen interrupted.

After he finished, he added, "Banshan advanced to the rising light tier, otherwise, do you think he wouldn't come this time?" He's a Big Shot of the rising light realm, so be polite and answer truthfully. Where's dingchen?"

Chapter 520: The terrifying hou Xiaochen (3)

...

Hao lianchuan was speechless, but he still answered honestly, "Dingchen and Kong Qi both died in the inner city. You might know the general situation. There was a gold-tier warrior in the inner city who killed Ding Chen with one punch and shattered his origin divine weapon ... Then, when we were running away together, Kong Qi was a little stupid and insisted on running in the air ... In the end, he was shot dead by the inner city's defense system!"

After saying that, he immediately looked at the cloaked man and said, "Banshan, don't say that I'm creating rumors. Ask Ziyue and the others yourself. Red Moon and Yama are not on the same side as me. Everyone saw this ... Don't accuse me of setting them up ..."

The cloaked man looked at Zi Yue and the others.

Zi Yue frowned slightly and said, "he's telling the truth!" Not only dingchen, but I was also injured. The origin god weapon couldn't stop those monsters at all!"

"What about the others?"

"All dead?" Banshan coldly asked.

It was understandable that two three suns died because of bad luck.

But what about the remaining sunlight?

"Without the protection of the three suns ... Don't look at me. We won't help you protect them. The inner city is extremely dangerous. After the three suns died, those people were all wiped out by the gold-tier Warriors. No one will help you protect the people in the fairy realm ... So, don't say that you're not going to help them ... There's no reason to save them!"

These words were cold-blooded, but they were reasonable.

"We did see them being killed ... But who would save people they don't know? they're not from the same organization.

Under the cloak, Banshan was silent.

Two three suns led the team, many sunlit soldiers, and the origin god weapon ... In the end, they were all annihilated!

No, there were six.

But ... All the core forces were dead!

At this moment, the expression of the leader of the Silver Moon's fairy clan under the cloak was not good.

Heavy losses!

"So ... You entered the inner city ... And didn't obtain any treasures?"

Banshan asked again.

Not far away, the reincarnation King said indifferently, "yes, there are many origin God weapons. They are very strong!" It was at least a heaven-grade origin god weapon! There are divine energy stones everywhere. We just picked them up casually and found quite a few!"

As soon as these words were spoken, some people in the surroundings became restless.

At this moment, there were people on the cliff, but they couldn't get close.

Zi Yue also laughed mockingly. "That's not all. There's also the puppet above the rising light realm. If we bring it back, we can guarantee that we can kill those at the rising light realm!"

"Let's see if you ... Have the life to take it! We're not strong enough, so we're barely able to protect ourselves!"

At this moment, the few of them echoed one another.

Not to help anyone, but to help himself.

Absolve him of responsibility!

It's not that we're weak, it's not that we're incompetent, it's just that it's too dangerous inside.

They had suffered heavy losses this time, and they knew that the problem was serious. If they were held accountable, they would be in big trouble. Since that was the case, they could just push the blame to others, not the night patrol. If they couldn't even win against Hao lianchuan and the others, it would be a sign of their incompetence.

This was the fault of the ruins.

Moreover, the inner city of the ruins was indeed dangerous. That gold-tier warrior was an existence that no one could match. This was also a fact.

At this moment, the surroundings fell silent.

Everyone understood what he meant.

He couldn't take out the item because there was a powerful puppet inside. It was extremely terrifying to have killed Ding Chen, who had an origin god weapon.

Red hair, King Pingdeng, and Banshan all frowned.

So strong?

Of course, as sunguang-ranked beings, they weren't afraid. Although it sounded very powerful, it was just a puppet. It wasn't as incredible as it sounded.

On the other hand, heaven-grade origin divine weapons ... Divine power stones ... These things made their blood boil.

Is that true?

The red-haired man looked at Zi Yue. Zi Yue nodded slightly and said, "I'm not lying. There's at least one heaven-grade original God weapon inside ... Moreover, we didn't explore too many places and only explored one area. There are indeed divine energy stones everywhere. We obtained 40, about the same for the Yama, and more night patrols, about 50 ..."

Their people had also obtained some.

All in all, the three parties had obtained more than 100 divine power stones.

The red team was slightly moved by his words.

There were so many of them just by picking them up?

Is that true?

This relic was a little scary, but it was also extremely important.

Just as they were conversing in secret, someone in the distance shouted, "We don't care about the remains. Whether it's the three major organizations or the night patrollers, these are not what we care about! I just want to know if Yuan Shuo's disciple, Li Hao, made it out alive."

That sound was extremely high-pitched!

In the crowd, Li Hao saw that he was mentioned and glanced at Hao lianchuan. Seeing that they didn't say anything, he said, "I am Li Hao!"

At this moment, a rough man ran over quickly from the cliff. He didn't fall down, but stood on the cliff and shouted, "You're Li Hao? Li Hao, let me ask you, did your master really reach the warrior energy level?"

Li Hao nodded. "Probably. I don't know the details."

"Nonsense, how could you not know?"

"In other words, he has really stepped into the so-called spirit accumulation realm, right?" the man roared.

"I really don't know, but my master killed sun Yifei, and he said it was the accumulation of spirit ..." Li Hao said again.

"That's it!"

The man laughed. Seeing that Li Hao didn't seem to know him well, he said, "You, come with me!"

Li Hao was dumbfounded.

Where did this man come from?

He didn't see any light balls, so he was obviously a Martial Master. However, there were usually only over 100 martial masters, and it was rare to see a warrior Qian. Even if this person was a warrior Qian ... How arrogant was he to shout for him to go with him in front of these three suns?
