Chapter 811: Seeing and hearing the ancient city (Happy Mid-Autumn Festival)_3

...

Their eyes flickered. There seemed to be some other color flowing in the water. It gave people the feeling that it was a treasure.

Could it be that this water was also a treasure?

Nan Quan was anxious. "Li Hao, quickly take a look. Can we go to this place? it seems to be in our backyard. Can we go?"

Li Hao didn't say anything. He quickly flipped through the heaven battling city tour guide in his hand.

After flipping through it for a while, he soon turned to the page about Furong yard. He read it carefully, and soon, his eyes flickered. "This pond is called the fountain of life. According to the introduction, there was an ancient Tree of Life here in the past that poured the water of life into the fountain. It has the effects of nourishing the body, healing injuries, and assisting in cultivation. Each house has a sub-spring pool for the guests to use. "

"However, you need to pay a price. It's not free."

"What's the price?" Nan Quan asked hurriedly. The fountain of life ... I seem to have heard of it before. "

Hong Yitang also exhaled lightly, 'how extravagant! "I know about this. During the ancient civilization, some powerful demons, I mean plant-type demons, cultivated to a certain level and took root in huge divine energy stone mines. They could extract some legendary water of life! The effect ... Was shocking! Li Hao, I've been suspecting that the energy you gave us earlier might be similar to the legendary life energy ... Healing, repairing, strengthening ..."

"I didn't expect that a hotel like this could actually provide such services. It's hard to imagine how extravagant the people of heaven battling city were back in the day."

Li Hao shook his head and said, "not necessarily!" "This is for entertaining guests, especially important guests. It's clear that the key that senior uncle Hong has is better than mine. It might be distributed according to the difference in strength. The ordinary residents of heaven battling city may not necessarily be able to enjoy this. "

"However, you have to pay a price before using the pool," he added.

"What's the price? tell me!" Nan Quan asked anxiously. This is good stuff. Even if it contains just a little bit of the water of the spring of life, it's still very important to us!"

"Energy stones ... Also known as divine energy stones."

Li Hao looked at the catalog and said softly, "some divine power stones have to be thrown into the pool before it can be used. It's also to maintain the operation of the spring of life. Moreover ... It needs to be of high purity!"

He read the instructions carefully and said, "The energy stones mentioned by the ancient people might not be the same as what we said. They even set a purity level product."

Hong Yitang muttered to himself for a moment and looked at Nan Quan, who looked at him innocently.

Why are you looking at me?

I don't have money!

"How much do you need?"

Hong Yitang glanced at Li Hao, who said, "I don't know. He didn't say anything. He just said that he's going to put in one piece. I don't know how big the ancient civilization piece is either. Is it the one we're talking about now or as big as the one uncle Hong just got!"

Hong Yitang was speechless.

The value of that piece was shocking.

I'm not doing it!

High-purity ... Did that mean that ordinary ones wouldn't work?

However, Southern Fist hurriedly said, "let's give it a try, old Hong. This thing is hard to find. It wasn't easy to get in here. How about we give it a try?"

"You'll pay?"

"....."

Nanquan was speechless. He was a little helpless. I didn't.

"You don't have any divine energy stones? I don't believe it!"

Hong Yitang didn't trust him. "You've been in the royal family for so many years. You didn't get any benefits. Who are you trying to fool?"

Nan Quan was speechless and only muttered after a while, "There is, but the purity might not be reached."

"Then let's try!"

"This is my room," Hong Yitang said bluntly. "Li Hao brought us into the city, and you haven't taken a single hair from it ... Now it's your turn. Let's go to the backyard and take a look!"

The three of them weren't in a hurry to look at the others, so they decided to try this thing first.

Good stuff, good place!

Soon, the three of them passed through the small building and entered the small courtyard through the back door. The other flowers and plants in the small courtyard were gone, but the spring was still flowing. It was as if there was a layer of glass between them, and the three of them wanted to enter the range of the spring, but they could not.

On the other hand, there was a small pond next to the fountain with a few lines of words on it. Li Hao squatted down and looked at them for a while, then said, "It's here. According to what's written on it, as long as there's enough energy, it can be used."

"I still have some divine power stones," he said. "I'll put one in."

Then, he took out a divine power Stone and put it in. There was no reaction at all. When the divine power Stone fell into the small pool, not only did it not react, it did not even move. It fell into the water directly like a stone and there was no change at all.

Seeing this, Nan Quan gritted his teeth and took out a larger divine power Stone from his storage ring. It was shinier than the one in Li Hao's hand and he put it in. This time, there was a slight reaction.

When the divine power Stone entered the fountain, the water in the fountain washed over it slightly. The water swept past and the divine power Stone was crushed. However ... The energy disappeared and the stone was crushed. The protective shield on the fountain seemed to still be there.

"What?" Nan Quan was in pain. "This divine power Stone has at least twenty times the energy of a normal divine power Stone ... One stone is equivalent to twenty stones. And it's not enough?"

"There's a reaction!"

"It's stronger than mine," Li Hao said hurriedly. "It's probably not enough. Martial uncle he, put more in."

Go to hell!

He Yong cried out in his heart. So expensive, how much would it cost if the pool was opened? 1

Chapter 812: Seeing and hearing the ancient city (Happy Mid-Autumn Festival)_4

...

More importantly, what if it didn't work?

Also, after opening it, the effect wasn't that good.

Although the spring water could still flow, it had been countless years. What if the thing that injected life into the pool water died?

Didn't that mean it was a waste?

However, at this moment, he was also very tempted. He gritted his teeth and stuffed another piece in. Just like before, after he stuffed it in, it instantly shattered and the energy was absorbed. In the end, there was still no reaction.

Nanquan was in so much pain that he was sweating!

He had already stuffed two pieces, so he was not afraid of a third piece ...

Three, four, five ...

When he stuffed the fifth piece, he couldn't take it anymore and said in pain, "That's all I have. I do have some savings in the royal family, but I have to cultivate in these years. This is all I have. I've stuffed it all in!"

"That's comparable to 100 divine power stones!"

"100!" Southern Fist said in pain, "if we use the price outside, 1000 cubic meters of mysterious energy for one piece, that's 100000 cubic meters of mysterious energy! I can't even activate it ... I can't do it!"

It's too expensive!

Li Hao's heart ached. This was indeed frighteningly expensive. He said uncertainly, "Could it be that it's been too long, and some of the mechanisms are broken, so ..."

"You mean, this thing can't be opened?" Southern Fist was immediately anxious.

Who knows?

Li Hao muttered in his heart. After all, countless years had passed. Who could be sure?

Seeing how anxious Nan Quan was, Hong Yitang frowned and said, "Shut up, stop pretending! 100 divine power stones are a lot, but you bastard, I don't believe that's all of it. If it's all of it, would you be willing to throw it all in? Last time at the Cang mountains, we used up 800 divine power stones and you didn't even frown."

"No, the last time ..."

Wasn't that the spoils of war?

It didn't hurt to spend something he didn't have!

Hong Yitang didn't bother to pay attention to him. He thought for a while and felt a little heartache. He took out a huge divine power Stone that he had just picked up. At this moment, he carefully scraped a small piece off.

That was called small!

He stuffed it into the pool, and the pool churned. It was still not enough. Hong Yitang took a deep breath and continued to scrape a little more. Then, he continued to scrape a little more, and the pool started to boil.

The spring water at the side also began to boil. The light barrier seemed to be disappearing, but it had not disappeared.

The threads that Hong Yitang scraped off became smaller and smaller.

Don't waste it.

Just like that, after scraping for more than ten times, with a 'bang' like a water bubble bursting, the light barrier disappeared, and a warm and moist feeling assaulted his senses.

At that moment, the spring water was completely opened!

Nan Quan was overjoyed. He wanted to rush over, but Hong Yitang grabbed his shoulder. Hong Yitang didn't even look at him. He looked at Li Hao and said, "Bring some water up and see if there are any benefits."

Li Hao smiled and took a step forward. There wasn't much water in the pond, but spring water was still flowing from the opening. The spring water had some colors and glows, making it very beautiful.

Li Hao reached out and grabbed a handful of water.

As soon as he put his hand into it, he felt a special energy surge and seep into his arm. That energy was indeed somewhat similar to sword energy, but it was not completely the same.

After carefully sensing it, he found that the energy was not as rich as the sword energy. It was a little thin, but as the energy entered his body, Li Hao felt that his body was indeed being transformed.

Some dead skin suddenly appeared on his arm.

Li Hao's eyes flickered. This energy was very special. It seemed to have the ability to rejuvenate one's youth. This reminded him of what his teacher had said. He had once found a dead tree stump. The moment the stump cracked, a drop of water suddenly disappeared. He had only absorbed a little, but he felt like he had regained his youth.

Of course, that feeling seemed to be different from this.

Li Hao observed carefully and absorbed some of the energy in the water. He judged that perhaps ... This was the diluted energy?

"Li Hao, don't keep everything to yourself. How do you feel?" Nan Quan said anxiously.

"It's alright!"

Li Hao retracted his hand and smiled. "It has the effect of gentleness and changing one's physique. It should be quite effective for both of you. You won't lose out on the divine power stones you've spent. It should have the effect of nourishing the whole body. The effect is quite good. It can even remove some hidden injuries."

The effect was similar to the sword energy, but he was unable to determine whether it could separate the five elements. The energy had seeped into the water and was difficult to extract and use again.

The next moment, Hong Yitang released his Southern Fist. However, the first thing he did wasn't to jump into the water. Instead, he sprawled on the ground and took a deep breath. A stream of water entered his mouth and was swallowed!

"....."

Li Hao and Hong Yitang both watched in silence, speechless.

This was for bathing!

However, it was actually the same. Li Hao had done the same thing in the past. He even wanted to drink the water licked by a dog, not to mention bathwater.

After swallowing a large pile of water, Southern Fist carefully and silently experienced it. His eyes lit up. "Good stuff! But ... It doesn't feel as good as what was recorded in the ancient books. The ancient books said that a drop of life potion could even regrow a broken limb. Why didn't I feel this way?"

"Diluted!"

Li Hao explained, "it's obvious. Are we really going to give you the treasures in the pond?" It's already not bad if there's even a little bit of it, and it might even be a remnant from back then. "

Alright!

Southern Fist was a little disappointed.

As for Hong Yitang, he couldn't be bothered to say anything. He took off his clothes, except for his underpants, and jumped into the spring. In an instant, the spring water boiled. Seeing this, Nan Quan cursed in his heart! 1

Chapter 813: Seeing and hearing the ancient city (Happy Mid-Autumn Festival)_5

...

Go to hell!

You can just drink, but you're really going in to take a bath?

Li Hao also laughed and jumped in!

The pool wasn't small, it was enough for three people. If Nanquan wanted to drink, then he would.

Nanquan was a little speechless as he cursed, "What are you guys doing? It's such a waste, finish it all ..."

"Since we're allowed to soak in it, we'll do it according to the rules!"

Hong Yitang said calmly, "maybe something was added to it. It's not suitable for drinking." If you want to drink, drink it yourself. "

After saying that, he started to circulate his breathing technique.

Li Hao didn't hold back either. He used the five animals breathing technique.

The effect of sword energy was actually very good, but this kind of energy was slightly different from sword energy. Sword energy could heal injuries and strengthen the body, but it didn't have any other abilities. When this energy rushed into his body, Li Hao discovered that some of the wounds on his body were actually disappearing.

As expected, this energy was very special.

After absorbing it for a while, Li Hao felt that his skin had turned white.

Previously, he was still a little black. Moreover, it was impossible to practice martial arts without being injured. If he was injured, the sword could heal and speed up the healing of the wound, but it could not make the wound disappear.

He had many injuries on his body.

But at this moment, these scars were fading.

Of course, this was not important.

More importantly, as the energy entered his body, he felt as if his five internal organs had been completely refined. It wasn't the kind where only one element was refined, but his five internal organs were in balance. Li Hao could only achieve this balance according to the amount of elements he had absorbed.

However, at this moment, his five internal organs seemed to be wrapped in this energy, which had a unique balance.

The effect was slightly worse than that of the five elements.

It was similar to blood energy, but blood energy was not as gentle as this energy.

Nan Quan also quickly jumped into the spring. At this moment, the three of them were madly circulating their breathing techniques to absorb the energy in the spring water.

At the same time, Li Hao opened the book again and began to read it.

"The black turtle Tower of Heaven battling city!"

He saw an introduction to a very important scenic spot. According to the records, there was a black turtle Pagoda in heaven battling city, which was a landmark building. At the same time, the black turtle Pagoda was actually a divine weapon.

Li Hao was stunned. The black turtle Pagoda was a divine weapon?

Then ... What about the Black Tortoise seal?

He quickly flipped through it, but there was no introduction to the Black Tortoise seal. Li Hao frowned in confusion. Hou Xiaochen and the others were determined to get the Black Tortoise seal, but there was no introduction to the Black Tortoise seal on the manual. Instead, there was an introduction to the Black Tortoise tower.

Of course, it was only a guide and might not reveal all the secrets.

"The southern part of the city is a commercial area ... The eastern part of the city is a residential area ..."

"Every night, if you don't return home before 12 o'clock, you must bring a dormitory token with you if you go out. Otherwise, the city will expel these outsiders. If you disobey the order and refuse to be expelled, the defense system will be activated and these intruders will be killed ..."

Li Hao glanced at the things to take note of, and his heart stirred.

This meant that they had to return to their residence at 12 o' clock in the evening. If they didn't return, it wasn't impossible, but they had to bring their accommodation keys to prove that they were guests here.

It was still very human-like!

However, if they didn't have the key ... They would be expelled immediately instead of killed. However, if they refused and were expelled ... They would be killed!

"He's actually giving me so many chances?"

Li Hao thought to himself, the manager of heaven battling city doesn't seem to be the kind of person who only knows how to kill. Instead, he's very human, even gentle. He'll give you many chances. Even if The Infiltrator is driven out at the first moment, he won't make things difficult for you.

However, Li Hao didn't know how it was expelled ... If an ordinary person didn't know, they would probably resist, and that would be the end of it.

"So, it's only safe with the key?"

Li Hao thought to himself as he continued to read. In addition, the book also introduced some things. One was not to trespass on other residents and shops. They were private property and could not be violated.

However, there were also exceptions. The heaven battling Army could be activated for proper inspection work.

On this page, there was an additional point about how to join the heaven battling Army.

Li Hao's heart moved. It was written that the North City was a military area and also a recruitment point. One could choose to join the heaven battling Army in the North City. If one joined the heaven battling Army, not only would there be many benefits, but one could also receive the support of heaven battling city.

Heaven battling city, as a whole, was a huge weapon that could provide a large amount of energy support for the heaven battling Army.

Heaven battling city welcomed guests from all over the world to join the heaven battling Army. As long as one obtained their approval and passed the test, they could become a glorious member of the heaven battling Army.

The heaven battling Army had an important duty, which was to protect all mankind and heaven battling city ...

There weren't many rules, but they emphasized one point. Those who retreated before the battle would be killed without mercy!

Therefore, the heaven-battling Army had to be brave and good at fighting.

Li Hao looked at it for a while. He was slightly tempted, but soon felt helpless. Nowadays, the heaven battling Army was gone, and only a few puppet fighters with some obsession were left. They probably wouldn't recruit anyone, right?

But ... It's hard to say!

Perhaps he could give it a try.

In addition, some of the training equipment in the Army seemed to be higher and better than these places.

The treatment in the Army was the best in heaven battling city.

He continued to flip through the illustrated book. There were some rules on it. No one was allowed to step into the restricted military zone. No one was allowed to barge into important bases for no reason. There were some facilities in the city that were free of charge and could be used for free.

For example, as long as the city's guests and residents had a Resident Certificate and a guest's residence certificate, they could enter the largest library. However, if they didn't have these, they couldn't trespass.

Chapter 814: Seeing and hearing about the ancient city (Happy Mid-Autumn Festival)_6

...

Public property can not be damaged for no reason, or compensation will be required. If no compensation is paid, you will bear the consequences!

And so on and so forth ... And so on and so forth.

In addition, the locust tree passage outside the city was also a scenic spot. The special passage formed by the 10000-year-old locust tree could not be casually carved, leaving behind uncivilized actions. It could not arbitrarily gather the life energy in the locust tree, but it could throw some energy stones in a certain place. If the locust tree was willing, it might exchange some life energy with you.

Li Hao's heart skipped a beat. Did that mean that the long passage outside was really a tree?

A tree that had turned into a spirit?

He continued to flip through the book and reached another point. No one was allowed to barge into the city Lord's mansion. The city Lord's mansion was a place of authority and did not allow visitors. However, if there was an important matter or someone from the eight great families, they could go to the city Lord's mansion and discuss important matters with the city Lord ...

Li Hao was startled. This was the first time that he had clearly seen the records of the eight great families in ancient books.

Of course, it did not refer to the eight great families, but the eight great protector clans.

The protector clans ... Director Zhao had said the same thing before.

He kept flipping through it. He didn't even care that they had absorbed all the energy in the spring water. At this moment, Nan Quan and Hong Yitang seemed to have become much younger. Their hair was black, and Nan Quan's big beard was also much darker.

The two of them seemed to have become much younger all of a sudden. The benefits they had gained were probably far beyond the divine energy stones that they had invested.

This made Nan Quan overjoyed and he couldn't wait to soak in it a few more times!

As for Li Hao, he had also finished reading the catalog. After all, it was only a guide, not a complete collection of heaven battling city's survival skills. Some things were only briefly explained, not very comprehensive.

However, this was enough!

Li Hao's eyes revealed a hint of joy, but he quickly glanced at Southern Fist."Junior Master he ... You'd better go out now and go through the second passage again. It'll be best if you get the key, but if you don't ... You'll have to keep going through the second passage. Otherwise ... It'll be very difficult for you to survive in this place!"

"....."

He Yong was stunned. He looked at Li Hao and said after a long while,"That ... Do you really have to do this? Aren't I fine now?"

"Then stay here and don't go out. You may be able to do it during the day, but not at night."

Was there day and night here?

"Why?" Nan Quan was a little depressed.

"At 12 o' clock in the evening, this place will expel any outsiders without any proof. The first time you're expelled, if you don't listen, kill! Does martial uncle think that you can block the attacks from here?"

"....."

Definitely not.

"Can we really get it?" Southern Fist was a little vexed.

This was the key.

"There's no restriction in the outer city," Li Hao said."We stayed there for three days and weren't chased out or killed. You can stay there too."

The southern Fist was helpless.

Li Hao thought for a moment."But ..." He said,"we can try other ways. Become a soldier!"

"What?"

"Become a soldier, a heaven-battling Army!"

Li Hao glanced outside and said with a smile, "The heaven battling Army takes in people. Once you join the heaven battling Army, you will have a legal identity."

"They're all destroyed ..." Nan Quan was stunned.

"Then what's the battle going on outside?"

That's right!

At this moment, the three of them looked at each other. After a while, Hong Yitang said, "Let's try it then. Maybe we'll get more benefits if we join the heaven battling Army. At the same time, we'll also experience how powerful the heaven battling Army is."

"Also," Li Hao said, "if you join the heaven-battling Army now, you might be transferred to the front line, which is the East Gate, to defend it!"

Nan Quan and Hong Yitang were both slightly stunned as they looked at Li Hao.

Li Hao, however, was very calm, "it's the heaven-battling Army's duty to repel the enemy! So, it's up to the two of you to decide if you want to try or not. If we try, we may have to fight with the supers outside."

Nan Quan licked his lips and sneered, "Try it! What was there to be afraid of? Besides, it doesn't matter who we fight. I think it's easier to fight those guys outside than these armored warriors!"

Li Hao didn't say anything more. The three of them quickly walked out of the empty pool, dried their clothes, and headed toward the north of the city.

Let's try and see if we can join the heaven battling Army.

Chapter 815: The new twelfth Regiment (3 in 1)

...

The sounds of battle outside the city seemed to have weakened.

The superpowers seemed to have retreated, and the heaven battling Army seemed to have sounded the alarm and retreated, guarding the city gate and not going out again.

Li Hao and the others didn't care about this.

Now that no one had entered, it was their chance. The three of them quickly moved toward the north of the city. With the tourist guide, they were more familiar with the city. They didn't even go in to take a look when they saw some open houses.

There was no hurry.

If they could defend this city, they would have all the time in the world.

They couldn't stay in heaven battling city for a month, and the people in the city couldn't live that long because the fixed cleaning time would kill those who stayed in the city. As for the outer city, if they stayed too long, they would also be driven away and cleaned by the heaven battling Army.

This was the reason why the ruins would be closed three days later and he would not be able to see anyone else the next time he came.

However, if they obtained a legal identity, they could naturally stay here forever.

.....

The three of them ran very fast.

Heaven battling city wasn't too big, and it didn't take long for them to enter the northern region.

The north of the city was like a huge military camp.

They were blocked at an entrance before they could enter the northern District.

This place seemed to have been guarded in the past.

However, at this moment, there was no one else. There was only a long iron railing blocking their way. Trespassing into a military restricted area without permission would result in death. In front of them, there was a sign with the words "military restricted area" written on it.

The three of them stopped.

Li Hao looked around, but there was no one.

There was a guard room on the other side of the iron bars, but at the moment, it was empty and there was no one there.

The metal bars were closed.

Nan Quan saw that the iron railing didn't seem to be very high, and he could climb over it. He transmitted his voice, "Flip over ..."

Li Hao shook his head.

This is inappropriate!

The city was still in a state of recovery and had not completely died. Jumping over the railing might cause irreparable consequences.

He stepped forward and checked.

There was indeed no one in the guardroom.

However, the door to the guardhouse was open, and there seemed to be an operating system in the guardhouse. Li Hao was not familiar with this system, but he saw a few buttons.

Among them, there was a button with the word 'call' written on it.

Li Hao was a little hesitant. Should he press it?

If he pressed it, would anyone come?

Or would there be some trouble if he pressed it?

He looked at the two people behind him and asked, "There's a call button here, should I press it?"

Hong Yitang thought for a while and said, "Press! If we come uninvited, we're thieves. We're here, but there's no one. If we call the other party and they don't respond ... Then we're not thieves."

He had also treated this city as a living city.

Otherwise, there was no need to be so cautious.

Li Hao considered for a while, nodded, and pressed the button.

There was no movement.

However, the few of them began to wait. Perhaps there would be a different result.

In less than a minute, Li Hao's eyes flickered, and Hong Yitang also became alert. At this moment, two figures suddenly appeared behind the railing.

Someone was there!

The city was still in operation.

However, it wasn't *hei Teng*, nor was it a warrior in bronze armor or silver armor. It was two warriors in red armor.

Hong Luan!

Li Hao was slightly dazed. He carefully looked at the two armors and saw a line of small words on their arms: "inspector".

They ... Seemed to be different military units!

Nan Quan's expression also changed. This heaven-battling Army had more than just the types of troops they knew. There were also special types of troops. The two armors in front of them seemed to be of a different system.

As for his exact strength, he had no way of knowing.

"Inspector!"

Li Hao said telepathically, "the word 'inspector' is written on these two armors. It's probably similar to the Internal Affairs Department of the heaven battling Army or the inspector Department ... The kind that manages internal affairs."

The two of them nodded. At this moment, they were having a headache. How should they communicate?

Can you communicate?

Although the Soldiers of Heaven battling city could still fight, it seemed that they could no longer communicate with each other, unless they were resurrected, which meant that they were completely dead.

Li Hao's eyes flickered when he saw the two soldiers quickly approaching him.

Soon, he took out the 'heaven battling city travel guide' and quickly flipped to the page about the recruitment of soldiers.

When the two soldiers came forward, he hurriedly raised the booklet in front of him. He wanted to be a soldier!

As for whether this method would work or not ... Who knew!

The two soldiers stopped behind the fence.

The red armor seemed empty, but it also seemed to have some spirituality or obsession that allowed them to continue carrying out the mission they had completed when they were alive.

Conscription!

It was as if she had seen the contents of the booklet and knew that almost all the people who had come at this time were here for the interview. One of the Hong Luan waved her hand, and an iron fence opened with a flash of light.

Li Hao and the other two were slightly moved.

While they were thinking, one of the red luans pointed at Li Hao and Hong Yitang, signaling them to go in.

Li Hao felt strange, but he still walked in.

Hong Yitang also followed him in.

Just as the southern Fist was about to enter ... BOOM!

All of a sudden, the red-armored man pulled out his saber and slashed down. However, he did not slash at Xiang Nanquan. Instead, he slashed in front of Xiang Nanquan, blocking his path. A red light shot out from the eye sockets of the red-armored man!

It seemed to be a warning!

Nan Quan's expression was ugly. He was depressed and in pain. Damn it!

If I don't get the key, I'll end this?

Chapter 816: The new twelfth Regiment (2)

...

He didn't even give her a chance to be a soldier?

What a coward!

Li Hao was also surprised.

In that case, it would be difficult for the southern Fist to obtain a legal identity?

He thought for a moment and suddenly threw the key in his hand to Nan Quan. Then, Li Hao took out the starry sky sword. Under Hong Ling's gaze, the starry sky sword emitted a faint glow.

In the next moment, the two red hou suddenly did the same thing as the silver hou. They pounded their chests with their right hands, making clanking sounds.

Li Hao hurriedly saluted and pounded his chest with his right hand.

For a moment, there was a Holy feeling.

This kind of etiquette was very manly. At this moment, Li Hao's mind was in a daze. He suddenly thought of something. It was fine for a man to hit her, but would a woman feel some pain?

Hong Luan seemed to be different from silver Luan. At first, she might not have recognized Li Hao, but they seemed to have sensed something after the appearance of the starry sky sword. Did it mean that her level was lower than silver Luan 's?

Silver Phoenix was a thousand-man commander, and the black Phoenix didn't feel anything before. It was only when Silver Phoenix bowed that the black Phoenix followed suit.

Hong Luan only bowed at this moment.

At this time, Nan Quan got the key. He didn't know whether it was because of Li Hao's identity or because he had the key, but when he stepped into the fence again, he wasn't attacked. The two red kuns didn't attack him again.

Nan Quan's face was full of dejection. Fortunately, Li Hao was here. Otherwise, even if he entered the city, it would be difficult for him, a member of the three nobodies, to move even an inch.

Hong Luan didn't make any more movements. After the bow, the southern Fist entered.

After waiting for a while, he seemed to be silently saying something.

A moment later, he waved his hand again, and the metal bars closed.

In the next moment, the two red Luan walked in front and started to lead the way.

The three of them were a little apprehensive. At this moment, as they walked through this huge military city, they seemed to feel a murderous aura.

Just like that, he kept walking forward ...

After walking for about five to six minutes, a large hall appeared in front of them.

Li Hao's eyes lit up!

He sent a voice transmission, 'the recruitment Hall! This is a place for conscription, and these two red kuns really know what we're going to do. Do you think they have a mind of their own?'

Hong Luan had really brought them to the recruitment point!

Hong Yitang and the other one were also a little strange. Were these soldiers really just moving like machines, or did they actually have some consciousness, but they just couldn't communicate with people?

The recruitment Hall was open. Li Hao glanced around and saw armored soldiers inside. Even with the battle outside, there seemed to be still some heaven battling Army soldiers here.

The two red hou stopped at the door. After a while, a bronze hou walked out of the recruitment Hall.

His empty eyes swept across the three of them.

Then, he waved his hand, turned around, and entered the hall.

Seeing this, Li Hao hurriedly followed them, and so did Hong Yitang and the other two ...

Li Hao had just taken a step when he suddenly felt his clothes tighten. He was slightly stunned and turned around, only to see a red hou reaching out and grabbing him with a steel-like arm.

Under Li Hao's confused gaze, Hong Luan pointed forward!

The other red Luan also extended her hand and made a "please" gesture.

Li Hao was stunned. What did this mean?

Nan Quan and Hong Yitang also hurriedly stopped. At this moment, a red hou drew his blade and knocked on Nan Quan as if he was chasing away a fly. Just as Nan Quan wanted to fight back, Hong Yitang said with a toothache, "Let's go. These two want us to follow Centurion Tongan in. Li Hao ... Might be going somewhere else. I get it. The Crown Prince has joined the Army, so he's probably in a different place from us!"

Nanquan rolled his eyes. At this moment, he could no longer hold it in.

"?! It's been countless years, did the ancient civilization also go through the back door? People from big families are here, but the soldiers are not in the same place?"

This time, he also understood what she meant.

Li Hao had other places to serve him, while the two of them were just here to enlist. They were not here together.

Hong Yitang didn't know whether to laugh or cry.

Who knows?

The people of the eight great families, perhaps during the ancient civilization period, had also received different treatment, probably ... This was very normal?

What could he say?

He didn't say anything else!

Seeing that the copper chariot was about to disappear, the two of them hurriedly followed. Hong Yitang sent a voice transmission to Li Hao, "You can go with them. Maybe it'll be different from us, but it might be a good thing!"

.....

Li Hao was also scratching his head. To be honest, he had never felt any special benefits from the bloodline of the eight great families.

Unexpectedly, after coming to heaven battling city, he had some different treatment.

Now, he felt that the bloodlines of the eight great families were somewhat different.

The feeling of being a boss.

It felt pretty good!

He didn't say anything else and continued to walk with the two red Luan. After walking for about ten minutes, Li Hao finally stopped.

At this moment, Hong Luan didn't advance.

One of the red hou walked to the front of a small building and knocked on the door. To Li Hao's surprise, the door opened, and a red hou soldier walked out.

Unlike the two red Luan that led the way, this one didn't wear an inspector medal.

They seemed to be communicating with each other. A moment later, the red Phoenix that had just appeared looked at Li Hao with its hollow eyes. Soon, its hollow eyes fell on the short sword in his hand.

It was as if he had recognized this sword ... As if he understood what this sword represented!

The next moment, it extended its mechanical arm and waved at Li Hao.

Li Hao hurriedly stepped forward!

At this moment, Hong Luan turned around and entered the small building. The two Hong Luan's outside bowed and quickly left.

Chapter 817: The new twelfth Regiment (3)

...

Li Hao was speechless. He hurriedly returned the gesture.

At this moment, he no longer dared to treat these Warriors as puppets. These Warriors ... Might still be alive ... Not physically, but in a conscious way.

Hong Luan led Li Hao into the building. The building didn't look big from the outside, but after entering, Li Hao realized that it wasn't small.

Along the way, there was not just one red Luan, but many.

They were coming and going, and it seemed like they were still in the office.

The building was still operating.

Li Hao, a person with special privileges, felt a different feeling here. Hong Luan kept bowing to him, and Li Hao kept returning the bow. It was as if he had really entered a large military camp. This feeling was more obvious than when he was in the Wei Wu Army.

In the Wei Wu Army, he really didn't feel much.

They walked through the long corridor until they reached the end. It seemed to be an office.

Hong Luan, who was leading the way, knocked on the door. The door opened automatically.

Hong Ling entered the room and walked out a moment later, indicating for Li Hao to enter.

His mission seemed to have been completed.

Li Hao was a little uneasy, but after some consideration, he quickly walked in.

The moment he walked in ... He was a little stunned.

This ... Office ... The layout was similar to that of a modern office, but there was ... There was a powerful man in golden armor in the office!

Li Hao's face turned green!

There were gold-tier Warriors here?

How was that possible?

A Centurion was a silver rank, and according to their thinking, a gold-tier warrior might be a Captain. However, it had appeared in the mayor's mansion before, which meant that this city might be ruled by a gold-tier warrior, and there were no other gold-tier Warriors in it!

But why was there another one here?

What was that person in the city Lord's mansion?

The city Lord?

But why was the city Lord the same as this one, only a gold-ranked warrior?

Li Hao's mind was in a mess. He didn't dare to think too much and hurriedly bowed.

At this moment, he was treating this existence as a living person.

The gold-tier warrior also stood up and bowed to Li Hao. The next moment, he sat down again and looked at Li Hao.

His line of sight seemed to fall on the short sword.

It was as if the sword was the core.

Just like that, the dead silence remained for a while.

The next moment, under Li Hao's bewildered gaze, a fist suddenly appeared in front of him.

Bang! Bang!

Li Hao was still in a daze. He punched out, and with a loud bang, Li Hao was sent flying. He crashed into the wall and slowly fell off the wall like a painting.

Li Hao was shocked!

Reacting quickly, he jumped and was about to fight back ... But the gold-tier warrior returned to his seat as if he had not made a move.

It was as if Li Hao had just been dreaming.

While Li Hao was still at a loss, the gold-tier warrior lowered his head and looked at the pieces of paper in front of him. No one knew what he was thinking.

At this time, the gold-tier warrior put down his brush and started to write something.

Li Hao was stunned. He could only stop and watch in silence.

After about a minute, the other party finished writing.

He knocked on the table. Outside the door, Hong Luan, who had led the way, walked in. The gold-tier warrior handed the paper to Hong Luan. Li Hao tiptoed slightly and took a look at the paper. There were many words written on it ...

He didn't see everything clearly, but he saw some.

"The bloodline of the Li family, the inheritor of the starry sky sword, weak and unable to be trained. The core of the Eight Families, entering heaven battling city, should be given the title of general ... However, he is too weak, he is now a Colonel ..."

Li Hao was stunned. Too weak ...

These few words, they were really ... Really sad.

So it was just a test of his strength?

He couldn't even take a single punch, so the other party felt that he was too weak and lowered his level?

The core disciples of the eight great families had come here to serve as soldiers, and it seemed that they had already started off with the rank of general ... Truly awesome!

Unfortunately, he seemed to have lost face.

He was directly demoted by a large amount!

A moment later, Hong Luan also finished reading the text. She looked at Li Hao and motioned for him to follow her. Li Hao looked at the gold-tier warrior helplessly. What could he do? the gold-tier warrior didn't even care about him now!

He completed the test in such a muddled way.

Li Hao helplessly continued to follow Hong Luan.

This time, he walked out of the building.

They entered another place. Li Hao didn't know if it was an Armory, but there was a silver-tier warrior guarding this place. He took the piece of paper.

After a while, some things appeared in front of Li Hao.

There was a token, a suit of armor, a manual, a storage ring, and a piece of paper that seemed to require Li Hao's signature.

The armor was silver in color.

Li Hao's mind wandered. Silver armor!

So, a silver-tier warrior was a field officer?

If it was a general position, wouldn't it be golden armor?

It should be known that although the black banner could be taken out of heaven battling city, the copper and silver banners above it couldn't be taken out.

He would self-destruct!

What Li Hao was thinking was, if he took the silver armor and sent it up, could he still leave the city?

If it exploded as soon as he left the city ... What if he was killed?

However, being stared at by Hong Luan, and with a silver-armored warrior in front of him ... Li Hao gritted his teeth. At this point, there was still a golden-armored warrior nearby. If he didn't want it, would he be treated as a deserter and killed on the spot?

It was not impossible!

This city was very reasonable.

Deserters would definitely be executed.

He picked up the silver armor in a flurry, but he didn't know how to use it. He knew how to use the black Phoenix now, but this was the first time he had seen it, so he really didn't know how to use it.

Chapter 818: The new twelfth Regiment (3)

...

Hong Luan, who had brought him here, seemed to be speechless.

He reached out and took Li Hao's hand. The next moment, a sharp thorn appeared on his finger and pierced through it. A drop of blood appeared. The man controlled Li Hao and dripped the drop of blood on a bump on the silver armor.

At this moment, Li Hao suddenly had a feeling.

He felt as if the silver armor had become a part of his body.

The next moment, with a thought, the silver armor easily covered his body.

Not only that, there seemed to be something else in his mind. It was as if someone was telling him how to use this thing.

At this moment, Li Hao had already become a silver-tier warrior.

With a thought, a long sword appeared in his hand. With another thought, the long sword turned into a long saber, and with another thought, it turned into a long spear ...

Li Hao was shocked. What a powerful thing!

It even came with a weapon!

Moreover, it could change at will.

“Clang clang clang!”

At this moment, the silver in the Armory knocked on the table. At the same time, a stiff voice seemed to appear in Li Hao’s mind: “New here, sign here to confirm!”

“.....”

Li Hao was shocked!

He suddenly looked at the silver-tier warrior.

The silver-tier warrior seemed to have lost his patience. He knocked on the table again. “You came through the back door, right? Even if it’s the eight protector clans, they’ll have to sign it. Otherwise, if we lose a set of equipment, do you want me to pay for it?”

“You’re still alive?”

Li Hao was extremely shocked.

He opened his mouth, but it was useless.

The other party didn’t seem to have heard or understood him. Li Hao’s heart moved. He thought of the operation plan of the silver armor and operated it in a hurry. His divine will fluctuated for a while.

After fiddling with it for a long time and seeing that the other party was about to hit him, he finally understood a little. A wave of divine will came out. “You can talk?”

He seemed to have received her words.

The next moment, an impatient voice rang out in his mind, “Newcomer, I’ll kick you to death if you talk nonsense again! Stop talking nonsense, hurry up, sign the agreement, and then get lost!”

“.....”

Li Hao couldn’t be more shocked!

However, he could feel the other party’s impatience, so he obediently started to sign his name ...

Just as he finished signing, the silver-tier warrior opposite him tore the paper apart. He was incomparably furious and handed over the same piece of paper. "If you continue to draw talismans, I'll behead you for the crime of delaying the military!"

"....."

Li Hao was stunned for a moment. The next moment, he realized something and hurriedly wrote his name in ancient characters. Li Hao!

However, the next moment, it was torn apart again!

The silver warrior seemed to be extremely angry. "Newcomer, you dare to provoke me again? It was written with a spiritual imprint! Do you not understand, or are you just toying with me?"

Li Hao was stunned for a moment, somewhat distressed.

He hurriedly sent out a wave of divine will and contacted the other party through the silver armor. "I don't understand ..."

"Trash!"

"....."

He was being scolded!

Li Hao was vexed and helpless. After thinking for a while, his divine will began to fluctuate. Spiritual brand, it must be divine will, right?

He tried to imprint Li Hao's name on the paper with his divine will. The next moment, the paper was quickly put away, and the silver-tier warrior on the other side was satisfied.

Hong Luan, who was in charge of leading the way, indicated for Li Hao to put away the other things.

Li Hao tried to send a message over, but he found that it was useless.

He had a headache. What was going on?

Only silver-tier Warriors could transmit it?

They didn't belong to the same system, so it didn't work?

Or did he not have enough authority?

Scratching his head, Li Hao could only take other things, a token, a booklet, and a storage ring.

He hurriedly entered his divine decree to check the storage ring.

The next moment, he took a slight breath.

Good fellow!

There was nothing special in it, just 10 divine power stones ... However, compared to the divine power stones in his hands, these divine power stones were all glowing. One look and one could tell that the ones in his hands were trash. This was the real treasure!

Was this ... The military's pay?

Other than the divine power stones, there were two sets of undergarments and two sets of coats. They were not armor but two sets of ordinary clothes. They seemed to be military uniforms that were usually worn. They looked very handsome.

Other than that, there was nothing else.

However, after Li Hao searched carefully, he still found a key. In the school officials 'dormitory area, Room 109.

This seemed to be his dormitory.

Then, he picked up his own token and took a look. On it, there was also a line of words: "heaven battling Army, 9th Legion reserve guards, 9th Division."

Li Hao scratched his head again. So, they were only reserve guards?

So, this heaven battling Army wasn't a frontline Army?

He picked up the booklet and flipped through it quickly. It was filled with regulations, military regulations, and some things to take note of. There was a special note that stated that obeying military orders was the first duty!

Li Hao was also panicking. Many of these military rules were very strict.

If he wasn't careful, it would be resolved with a slash.

This ... Will it work?

Was it a good thing to be a soldier?

Of course, at this moment, he was also feeling around. Gradually, he also felt something different. The silver armor on his body suddenly exuded a faint light as he touched it. The next moment, a wave of energy from the ground rushed into his body!

Li Hao's heart skipped a beat. Not only could he absorb this energy, but it also seemed to have strengthened his armor's defense.

Other than that, it seemed to have other uses.

Also, he seemed to be able to fly!

Chapter 819: The new twelfth Regiment (3)-5

...

He was not flying in the conventional sense. Instead, after controlling the armor, he seemed to be able to connect with the defense system of the entire city. However, Li Hao had yet to figure out the exact method.

At this moment, a mechanical voice sounded in Li Hao's mind. "Welcome to the heaven battling Army! The 9th Division is full, and the training of the new troops has stagnated. The 9th Division's 12th Regiment commander, Li Hao, has difficulties in recruiting new soldiers, so the recruitment Hall has recruited two new soldiers. They have not gone through systematic military training and have weak combat ability. Are you willing to accept new soldiers into the regiment?"

Li Hao was stunned!

After a while, he suddenly felt like laughing!

The two new recruits had no combat ability. This was referring to ... Hong Yitang and the southern Fist?

So, I'm also a guild leader?

"More importantly, I seem to only be a Regiment commander with an empty title. I'm probably at the rank of a thousand-man commander, but there are no new recruits for me right now. So, now that I've recruited two new recruits ... They're assigned to me, a mere commander?"

Li Hao didn't know whether to laugh or cry!

However, the next moment, he quickly followed the instructions and chose to accept it.

A moment later, a row of data appeared in his mind. The two new recruits were indeed Hong Yitang and he Yong. These two didn't use fake names?

It was a little unexpected.

Of course, it didn't matter if it was a fake name.

On Li Hao's side, the data displayed showed that Hong Yitang was actually a Lieutenant, which meant that he was a copper Punisher in the conventional sense. He could be considered a small official at the rank of a Centurion.

And the southern Fist ... Was a big-headed soldier!

Li Hao was stunned. How did this work?

How did they judge and distribute?

Even if the southern Fist didn't explode, he was still at the middle stage of the rising light realm. In the end, he was just a big-headed soldier. Wasn't it divided according to strength?

It was possible.

As for Hong Yitang, he made an exception to become a Lieutenant. Perhaps it was because he was too strong that he ended up like this?

At this moment, Li Hao was very confused.

But at this moment, no one could clear his doubts.

The silver-tier warrior who had spoken to Li Hao before also ignored some of Li Hao's questions. He didn't reply and was impatient ...

Very quickly, he followed red armor out.

A moment later, a bronze hou, a black hou, and a red hou walked over.

The next moment, Nanquan's voice was heard. "Li Hao, I've received the news. We've been incorporated into the Twelfth Regiment of the ninth Division. Old Hong is actually my superior, the commander of the first company of the Twelfth Regiment. I'm just a F * cking soldier in black armor!"

Hong Yitang was also speechless. "Cut the crap. I've also received news that I have a superior now. Commander Li Hao!" He asked me to report to Regiment commander Li Hao!"

Although Li Hao was wearing silver armor, both of them knew that this was Li Hao.

As their boss in the Army, from far away, his armor gave him a warning. "Regiment commander, please pay attention!"

Hong Yitang was also speechless.

Were the eight great families really that great?

Tsk!

Li Hao joined as a silver-ranked Captain. Good Lord, this expert had managed to get himself a bronze order. Of course, he was still inferior to the others. Nanquan was the pitiful one. He was now a big soldier under his command!

Hong Yitang continued, "I've figured something out. Li Hao, this armor isn't ordinary. Its defense is very strong. Even if it's just a bronze armor, I feel that it's extremely powerful. We might have used it wrongly before. The black armor's defense is only comparable to sunlight. You can ask old he. His black armor's defense seems to be very strong ..."

He Yong immediately said, "right, I feel that this thing is very strong. It still depends on one's strength. The stronger one is, the stronger one's defense will be and the more energy it can extract from the ground. It's just that ... It seems like it can't leave the ground. If it leaves the ground, it will have a normal black Phoenix defense."

There were some limitations to Black Phoenix.

Li Hao had also met up with them.

Upon hearing their conversation, a voice came from the armor, "I've also discovered something. You seem to have become my direct subordinates. I seem to be able to communicate with you through the inside of the armor ..."

Then, their divine will rippled. Li Hao's voice sounded in their minds, but it did not come out of the armor.

"Is it fun?"

"....."

The two of them were stunned. Hong Yitang also tried it. The next moment, he said, "I can do that too, but I think I can only send messages to old he. However, as long as you give me access, I think I can also send you messages to report my work ..."

"This armor is amazing!"

"During the ancient civilization, these soldiers were ridiculously powerful. The craftsmanship of their armor was also terrifyingly powerful. This is an internal communication system that can effectively make the team obey the command."

He Yong and Hong Yitang were filled with emotions. Amazing!

This was only a reserve force!

Just the cost of forging these armors was not something that the current star dynasty could do or bear.

At this moment, Li Hao's armor beeped again.

"The new 9th Division, 12th Regiment commander, Li Hao. The 9th Division has encountered a battle in the East City. The enemy is very strong. "As a newly-formed Army, your combat strength is weak and you don't have enough members. You can reject reinforcements and wait for the members to be ready and the military training to end ..."

Li Hao raised his eyebrows. Who was the one who made the system sound?

Were they the gold-tier Warriors in the city, or were they born with such a system?

If silver-tier Warriors could speak through this system, it meant that gold-tier Warriors could as well.

However, Li Hao didn't want to stay here. According to the rules in the booklet, new recruits had to undergo at least three months of military training. If they didn't go to battle, he would have to take these two new recruits to undergo three months of military training here! 1

Chapter 820: The new twelfth Regiment (3 in 1)

...

Don't mess around!

Three months ... Forget it.

The next moment, Li Hao accepted the reinforcement mission.

"The new twelfth Regiment, immediately rush to the battlefield, follow the command, and resist the enemy! For the human race, for heaven battling city, fight!"

A sonorous and powerful voice, which seemed to have more emotion, sounded in Li Hao's mind.

At this moment, a voice sounded in Hong Yitang and he Yong's minds.

"New twelfth Regiment, attack! Kill the enemy!"

Behind them, the two red hounds seemed to know that they had accepted the mission. In the next moment, they saluted again and hammered their chests, producing a clanging sound!

Not only that, at this moment, everywhere, including where the soldiers were, seemed to have heard the order.

Knowing that another army was about to enter the battlefield, clanging sounds could be heard in the next moment.

Wherever he saw, all the soldiers were bowing and sending him off.

"He's so hot-blooded," Nanquan mumbled. "It's like he's letting everyone down if he doesn't return in triumph ..."

This feeling was so weird!

The people outside were modern people, and they ... Were actually one of them. Could they be considered ... Traitors of the era?

At this moment, the members of the southern Fist gang, including Li Hao, actually felt a little strange.

Are we ... The traitors of this era?

He had joined the Army of the ancient civilization and was now under military orders to deal with the modern human race ...

Alright, this feeling disappeared in a flash.

I don't care!

However, this feeling was a little different. Li Hao said as he walked, "When I set off from the Wei Wu Army, no one else sent me off ... If I were to do the same, perhaps ... I'd be a little excited too!"

That was the truth.

Sometimes, some unintentional small actions could indeed be unforgettable.

At this moment, wherever they went, the soldiers they could see saluted them. Even when they could no longer see them, the soldiers still watched them leave, as if they were sending off heroes on a campaign ... Li Hao felt very satisfied just by this.

A moment later, the three of them arrived at the place where they had entered.

At this moment, there was an additional red silk guard.

When he saw the three of them, he quickly opened the railing and slammed it on his chest. If it wasn't for the fact that he couldn't speak, he might have said something loudly.

The three of them had actually felt that feeling.

The three of them walked out of the military camp in this strange and hot-blooded atmosphere.

It wasn't until they walked out that Nan Quan let out a sigh of relief. "I feel like if I stay in there for too long, I'll be assimilated by them. It's so scary!"

It was a feeling of constant brainwashing and the constant transmission of thoughts. 1

It was even more terrifying than what Hong Yitang had said before.

As for Hong Yitang, he sighed and said, "this is why these soldiers are so powerful!" "We have our own way of thinking, and we're not even from this era. But after joining this Army, we've only been in it for a short while, and we already feel a sense of solemnity, responsibility, and heavy responsibility. It's not hard to imagine that after three months of military training, we'll probably feel even more ... Terrifying places!"

Li Hao didn't say anything. At this moment, he received another order and said, "Let's go. I don't know if it's an order from above, but we have an hour to get to the battlefield. If we're late, we'll be punished by military law!"

This place was not far from the East Gate, so an hour was more than enough.

It was obvious that they were rather lenient with their new three-man team.

Li Hao, on the other hand, flew up quickly. At this moment, he felt very good flying without any obstruction. For a moment, he was somewhat proud.

The two people below looked at him and didn't do anything.

The three of them quickly rushed toward the East Gate. Hong Yitang transmitted a message from below, "Don't be too ostentatious. Your strength is about the same as a silver-tier master who hasn't awakened. However, once a silver-tier master awakens ... You're not qualified. Be careful that you'll be attacked by the powerful rays of the rising sun. Having a high silver-tier might not be a good thing!"

After saying that, Li Hao's body changed color. The next moment, it turned black. He chuckled, "As a silver-ranked Captain, I can disguise myself. This is my privilege. What are you afraid?"

This was something he had seen last time.

At this moment, he had only figured it out and put it to use. Li Hao laughed and gritted his teeth. "This is great. I'll definitely kill more people from the three major organizations later! They'll have to bear the consequences!"

This guy had finally found an opportunity to kill the enemy head-on.

The two people below didn't say anything. At this moment, they both had their own thoughts.

Becoming the heaven battling Army of heaven battling city was actually beyond their imagination. At this moment, they didn't know how to carry out their next plan, so they could only take it one step at a time.

They were clearly here to snatch the treasure, but now, they had become one of them.

Li Hao, on the other hand, didn't think so much.

There was another gold-tier warrior in the city. In addition to the one in the military camp, there were actually two gold-tier Warriors.

This time, even if they didn't cause trouble, those people might not succeed.

After flying for a while, Li Hao suddenly looked into the distance and was a little dazed. Was my vision blurry? did I see a Black Dog running?

Strange!

Black Panther?

The Black Dog instantly reminded him of Black Panther, but ... What nonsense. Black Panther had run away long ago. If he hadn't run, he wouldn't have appeared here.

He didn't think about it anymore. Maybe he was wrong. He couldn't see anything now ... He had to go to the East City first.

.....

At the same time, at the East Gate.

The battle had temporarily come to an end. The supers retreated and left the city gates. They gathered in the square far away. The noise was endless. All of them were sad. What was going on? they came here and a battle broke out first. They didn't even get anything.

In such a short time, 300 to 400 supers had died!

A battle like this was rare even in the central region.

In the midst of the commotion, the large organizations and experts frowned. This time, it was different. It wasn't like the last time. This time, the black-armored warriors seemed to be more difficult to deal with.

They didn't split up!

It felt like he was more intelligent than before. Was it because someone was commanding him?

The Golden-armored warrior in the city?

As for the hundreds of people who died, no one cared too much. They were not their people. Most of them were independent cultivators. If they died, so be it. They were not on the same side. As for themselves, of course, they would observe the situation first.
