

## Constellation 841

### Chapter 841: transformation (7)

...

Where's the Golden spear?

He looked at Jin gun, who seemed to be immersed in his own world. He must have been struck by a blow.

The old man's eyes revealed a hint of a smile.

He deserved it!

If I had broken Yuan Shuo's shackles back then, how could an early rising light realm cultivator compare to me now? why did I have to believe hou Xiaochen's nonsense ... Whether or not I can break the shackles in my heart ... Or the one hou Xiaochen placed on you, it'll all be up to you, Jin ting.

Hou Xiaochen was even stronger than Yuan Shuo.

If you can break it, you'll be able to advance to the next level, and it'll be a blessing in disguise.

A moment later, he looked at the top of the wall in the distance. There was a Silver Ray there. It might be the black banner that Xu Feng had just mentioned ... Martial Master ...

All kinds of thoughts emerged in his mind. Heaven battling city, eight great families ... Could it be Yuan Shuo's disciple?

The old man's eyes were filled with reminiscence, but he quickly restrained his emotions.

He glanced at Xu Feng one last time. This power was obtained easily, but it was still too difficult to subdue. It might not be a good thing for you to have a smooth journey. I hope heaven battling city will be the key to your transformation.

If you can't transform, you'll never be able to match up to those true elites.

Even if they were supers, there was still a chance to surpass them. The true elites of the central continent were also supers, but even people like Tian Jian did not dare to underestimate them. Energy only depended on how one used it, it did not mean anything.

At this moment, the old man exuded a different aura.

In the distance, Jin Jin, who was still immersed in his own world, suddenly turned his head and looked at the old man again. This time, he seemed to be more emotional. His eyes were filled with disbelief.

He looked at her a few more times and wanted to say something, but in the end, he kept his mouth shut.

Hou Xiaochen also looked over, smiled, and then turned back. Kong Jie rubbed her chin and glanced at the old man with a half-smile, as if she had seen something. She crossed her arms in front of her chest, looking like she was watching a show.

This place was getting more and more interesting!

Old hou's announcement of heaven battling city was actually a good thing. He had met many old friends. If he could call Tian Jian, BA Dao, Yuan Shuo, Huang Yu and the others over ... Hehe, that would be fun. A reunion at the Silver Moon martial arts world!

It was a pity that the eyebrow-raising rod had been killed. Yuan Shuo, this murderer, had better stay away from him. He had killed so many old friends. 1

At this moment, these powerhouses did not seem to be nervous or afraid of Huang Yue's death.

What was there to be afraid of?

He had seen even crueller things.

It was just the death of a Heavenly Mountain goddess who wasn't even on the 36 heroes list. If she died, then so be it. Her death wasn't even as valuable as the eyebrow raising staff.

On the day that the eyebrows-measuring stick died, they were still sad for a while.

He was cursing Yuan Shuo in his heart for killing people again!

At this moment, she didn't think too much about it. The heavenly Mountain goddess should feel honored that she was killed by the Joint Forces of the earth overturning sword and the southern Fist. With Ying Hongyue here, she couldn't say anything.

Just as the powerhouses were having their own thoughts ...

In the distance, King Pingdeng said in a deep voice, "we can't delay any longer. We must join forces and attack that side. Take them down!" Otherwise, we'll just give up and wait for the three days to end before we leave the ruins!"

If this continued, there would only be fewer and fewer people, and it would only become more and more dangerous.

A few sunrises had already smelled danger.

"Minister hou, do you have any objections?"

Hou Xiaochen was extremely calm. "No. If you want to join forces, then we'll follow our previous plan. If you don't want to join forces, then we'll split up and think of a way to enter the inner city. You have more people, so you have the final say!"

The few of them cursed in their hearts!

He really wanted to ignore everything and get rid of this guy first, always showing that calm and collected appearance, as if he was very capable!

The next moment, Green Moon gritted her teeth. "Then let's take advantage of this now to take them down. If we can't take them down, or if there's someone who doesn't want to do anything ... Then retreat!"

Huang Yue's death made her a little flustered.

Hou Xiaochen chuckled and nodded.

At this moment, he was rather curious about what Li Hao and the other two were up to.

'Perhaps, I'll be able to find out a thing or two later. These few fellows are interfering with my plan again. And Hong Yitang ... I really want to try your sword!'

Chapter 842: city defense (3)

...

Superpower advancement.

With the disappearance of a large number of superpowers and the disappearance of many of the three suns, the Rogue cultivators did not dare to act alone in a panic.

Money was important, but his life was more important.

Wandering cultivators went with the flow and did not have much ambition. They only wanted to get some benefits.

But now, they didn't get any benefits, and many people died.

In fact, some of the individual cultivators wanted to go out. However, the people outside had said that the remains would only open in three days. Now that the remains were not open, they had to leave the ancient city or they would have to follow.

Wealth came from danger, and a portion of itinerant cultivators still wanted to enter the inner city to fish for some benefits.

In addition, with so many people around, everyone was still worried, afraid, and a little excited as they followed the main group.

.....

On the city wall.

Li Hao saw it too. The supers had started to move.

These people were no longer scattered. Instead, they gathered together again, and this time, they seemed to be more United than the first time. After suffering so many losses, they now knew that working together was the best way to save their lives.

There were many rays of light ...

Just from the sunguangs that Li Hao saw, there were three more on the Crimson Moon's side, three more on the Yama side, and three more on the flying heavens side. There were a total of nine sunguangs.

Silver moon's side was even more terrifying. Jin gun, hou Xiaochen, chief Jade, Kong Jie, Qi gang, Hu Qingfeng ... They were even more powerful.

In the Rogue cultivator camp, there was Xu Feng, Yuan xingwu of the star Army, and three other people, Xu Guang, who acted alone ...

Huang Yue, who had been killed, and some martial masters who had been hiding their strength were also included.

This time, the strength of those who had entered heaven battling city was actually very terrifying.

There might be more than 20 people with the power of sunguang.

If it weren't for the two dead in the Cang mountains, as well as the deaths of a large number of the three suns, it could be said that the number of Masters in this trip to heaven battling city's ruins would have even exceeded the total number of Masters in the entire 19 northern provinces.

.....

Li Hao looked at his own side. Even if the three silver-ranked powerhouses had recovered and were very powerful, they might not be able to match hou Xiaochen and the others.

The southern Fist and Hong Yitang were also very powerful, but they were outnumbered.

He turned his head and looked into the city ... If the gold-tier Warriors did not appear, he could not think of any way to win.

Although the three thousand black puppets were strong, there were also many rogue cultivators. There was still a group of three suns.

A sure-lose situation!

Of course, they could try to enter the city and lure the enemy in. Then, they could learn from the outer city and enter the ancient house to fight guerilla warfare with these people.

Li Hao was thinking about how to win.

However, at this moment, the three silver-ranked captains beside him were so calm that it was as if they had really died!

A moment later, three thousand Black Phoenix gathered at the city gate.

It formed a black torrent.

They had lost some Black Phoenix before, but it wasn't a large number, so it didn't affect the entire camp too much.

There were bound to be losses in war.

These group leaders seemed to have experienced countless battles. This small disturbance didn't affect them at all.

Just as Li Hao was thinking, the three Regiment commanders seemed to be looking at each other or communicating with each other. They blocked Li Hao. Perhaps Li Hao was too young in their eyes, and they didn't want to talk to him.

A moment later, the three silvers seemed to have completed their strategy.

The next moment, the leader of the seventh Regiment raised the long sword in his hand high!

The three thousand black hou raised their Spears and swords without a sound!

It was extremely strict!

At this moment, the captain's voice came out of Li Hao's Silver armor. His voice was cold and majestic, and it echoed in the minds of all the armored warriors.

"Zhan Tian! Kill the enemy! After being silent for countless years, the heaven battling Army has been forgotten. Don't forget, we are the heaven battling Army, the name given by the venerable sovereign. We once swept across the world, even if we were only the garrison, we must kill our way to the name of the heaven battling Army!"

"How dare you bully me like this, you little rascal!"

"Kill!"

An explosive roar resounded in his mind.

Li Hao was slightly dazed. In the next moment, three silver statues soared into the sky, holding big swords, and charged out instantly!

Thump thump thump!

On the ground, the sound of war drums could be heard.

The murderous aura made Li Hao feel a little suffocated.

The three great White silvers didn't hesitate at all. They immediately took the initiative to start the battle and annihilate the enemy outside.

In the distance, the superpowers suddenly felt suffocated. They were even more nervous than the first time. At this moment, the powerhouses of the three major organizations also looked serious. It was hard to imagine that the heaven battling Army, which had been dead for many years, still had such combat power and power.

"Fight, fight, fight!"

"The heavens can be broken, the earth can be destroyed, and the heavens can be cut!"

The loud slogan reverberated in Li Hao's mind.

In an instant, 3000 Black Phoenix soldiers charged into the enemy camp. This was a group of true warriors, not the garrison soldiers that Li Hao had imagined could only defend the city.

Heaven battling city's Garrison was also an old army.

It was at this time that they understood that if they cowered and avoided battle, they would only die faster. They had to rush out and throw the enemy's camp into chaos. They had to kill until the enemy was terrified and their morale was low. Even if the enemy was stronger, they would still be defeated.

BOOM!

The two sides collided. In an instant, countless superpowers erupted. In the crowd, Green Moon and the others roared, "Kill! Earth element imprisonment, wind element blowing them, water element freezing ..."

There wasn't just one person in command. Many experts were in command.

It could not be helped, this was not a team of supers, but a team of countless secret practitioners and the three major organizations.

At this moment, the wandering cultivators only had one thought ... No matter who was the commander, they would fight first and talk later.

Hong long long, the sound of collision instantly rang out.

The sound of explosions was endless.

There were also screams and wails.

Chapter 843: city defense (2)

...

The sunrise experts quickly set their eyes on the three great White silvers. At this moment, the three great organizations were all charging towards the silver experts. King Pingdeng transmitted a message and roared, "There's still one more on the city wall. I'll leave him to Silver Moon!"

Hou Xiaochen looked at the unmoving silver statue on the city wall and felt a little strange. The unmoving one ... Was it Li Hao?

You're leaving it to us?

As for Li Hao, he still didn't move. Before the seventh commander left, he had told him to observe first and only go when he needed to.

So, he just watched silently.

Beside him, Hong Yitang and Nan Quan didn't leave either. They just stood there and watched.

They watched as the Army charged forward. Hong long long, the black banners were struck, flipped over, and swept away. Some black banners were even directly broken by a palm strike from an expert.

Sunguang was among them, and an expert of the sunguang family could even break through the black banners directly!

The White bones in the black armor were revealed, and the White bones turned into ashes in an instant. The last proof of the soldiers of the heaven battling Army's existence in this world was destroyed.

However, the black Phoenix continued to charge forward, ignoring everything.

Thinking back to the past, they had fought in all directions and killed without equal. They had seen and faced all kinds of powerful enemies, so why should they fear these people?

The three great silvers also quickly made contact with the Sunglow powerhouses.

In an instant, the rumbling sounds were endless.

In the blink of an eye, the three great White silvers were surrounded by the experts of the three great organizations. The powerful silver armor gave them a strong defense, but they were people who had been dead for many years after all. Their strength was only at the peak of the three suns.

BOOM!

A silver figure was sent flying by Green moon's palm. A handprint was even left on the silver armor.

And this was only the beginning.

After all, the supers were strong, and their individual strength far exceeded these soldiers. The black hou were quickly destroyed, and even the bronze hou was directly blown up. However, it also killed many supers!

There was a copper miasma that seemed to have detonated the armor on purpose. At this moment, it destroyed a large number of superpowers in the surroundings.

.....

On the city wall.

Li Hao watched as the two forces collided. He breathed, and breathed again ...

At this moment, he seemed to see faces, solemn faces. These Warriors were also humans in the past. They had died many years ago, but they still protected this city.

The next moment, he looked at the two powerhouses and said softly, "Martial uncles, you said that I only care about being reckless. With you around, I have the confidence ... Since that's the case, I won't be polite with you!"

Hong Yitang looked at him and had to say, "That ... Don't find someone too powerful ..."

I don't feel at ease hearing your words.

Li Hao didn't say anything. Silver instantly turned into black armor and jumped off the city wall, landing in the camp. In the distance, Green Moon roared, "The silver statue has landed on the ground ..."

Hou Xiaochen nodded slightly. He took a step in the air and flew directly toward Li Hao.

At this moment, when Hong Yitang saw this, he glanced at the southern Fist and transmitted his voice, "I promised that guy ... I can't go back on my word! Leave this to me. I'll just finish the battle with this guy ... You keep an eye on Li Hao!"

Nan Quan smiled and instantly fell into the ground, disappearing.

As for Hong Yitang, he took a light breath and rose into the air the next moment. Normally, a bronze chariot couldn't leave the ground, but at this moment, he was Walking in the Air and a majestic sword essence covered the surroundings!

In an instant, many people in the crowd looked at him.

As for hou Xiaochen, he looked at Hong Yitang, and his expression changed slightly. In the next moment, a monstrous sword intent surged forth, and he drew his sword!

BOOM!

A long spear appeared in hou Xiaochen's hand, and as he thrust it forward, the sky seemed to split open!

BOOM!

A deafening sound reverberated through the heavens and earth. In an instant, the black Phoenix beneath the two of them was completely overturned. All the superpowers below the three suns exploded on the spot. The three suns experts were also seriously injured and retreated in fear.

In the distance, Lu Yue's expression changed. At this moment, they knew how Huang Yue had died!

A strong Esper!

An extremely powerful expert wearing a bronze armor, perhaps...It was a disguise of a gold-tier warrior.

The earth overturning sword had quite a reputation.

However, he had stopped fighting many years ago. Many people could recognize his earth overturning sword, but this did not include these superpowers. Green Moon was also a Martial Master back then, and she was even the famous green peacock.

At this moment, she felt that this sword intent was somewhat familiar, but she couldn't remember whose sword intent it was. Moreover, the sword intent she was dealing with was from heaven battling city, so she couldn't think of this earth-overturning sword.

"This person is incredibly powerful," hou Xiaochen said calmly, "the Silvermoon officials can only be responsible for him ... Does anyone have any objections?"

No one spoke.

Even green Moon and the others couldn't say anything else at this moment. This bronze armor might be a disguise of a gold-tier warrior, and it even felt stronger than the awakened silver-tier Warriors. What else could they say?

Beneath them, both black Phoenix and the supers quickly retreated.

It was too terrifying!

Hong Yitang's face was hidden under the bronze mirror. In the next moment, he slashed out his sword. Heaven and earth were sealed, and the surroundings became a barrier. The sword fell. BOOM!

With another deafening sound, the sword caused a Phoenix weapon soul to appear on the fire Phoenix spear.

"Hou Xiaochen, I don't like the look on your face as if you have everything under control ... Next time, Don't Smile at Me. It's really ... Uncomfortable!" 1

A wave spread out, and in an instant, the earth overturning sword fluctuated in all directions. The area within a hundred-meter radius instantly turned into hell. The earth collapsed, and even the extremely solid ground seemed to crack!

There was only one sword in the world!

Chapter 844: -city defense (3)

...

In the distance, the expressions of chief Yu and the others changed. He was too strong!

But ... This was not enough!

Right at this moment, an even more powerful aura rose up. In an instant, the earth-overturning sword's five internal organs were split open. Under hou Xiaochen's shocked gaze, the heavens and earth were turned upside down, and the soul-splitting spear intent was instantly suppressed to the limit!

In the blink of an eye, Kong Jie, the Golden spear, the frenzied blade, the Jade supervisor, Qi gang, Hu Qingfeng ...

In an instant, everyone was surrounded by a circle!

The sword essence was getting stronger and stronger!

It was so powerful that it was terrifying!

Hou Xiaochen's expression changed slightly as he looked at Ling Chen."What are you doing?"

Don't you want to live?

He was only here to spar with this person and not to fight to the death.

"What are you doing? I'll kill you!" 1

Hong Yitang laughed, 'as a Silver Moon Martial Master, sparring is a life-and-death battle! I've already said that I'll take care of silver moon's officials, so just leave it to me. Hou Xiaochen, Kong Jie, you two come at me together!"

As soon as he finished speaking, the long sword covered the earth and slashed down!

As hou Xiaochen thrust his spear forward, Kong Jie's expression changed slightly. At this moment, she felt as if there were countless Hong Yitang attacking her. This guy was crazy!

But ... Who would be afraid?

The Golden spear also roared and shot out!

Chief Steward Yu's eyes were cold and sharp as he struck out with his palm!

Then let's fight!

The martial masters all attacked. Qi gang, who was on the God tier master list, roared as well. A golden sword appeared in his hand, but it was instantly destroyed by a sword intent. With a loud boom, Qi gang looked at his sword in disbelief.

The next moment, he roared and a special black sword appeared in his hand. It was no longer the condensation of superpower but an origin divine weapon!

These experts attacked one after another, charging towards the earth overturning sword.

He charged towards this crazy fellow who had directly unsealed his five internal organs!

Although hou Xiaochen and Kong Jie didn't understand, they could guess that this guy might have a way to counter it. The two didn't think too much about it and attacked one after another. One used a spear, and the other used a fist. They were both extremely powerful, and the power they unleashed in that instant was even greater than the Golden Condor in the Cang mountains.

In the distance, the people from the three large organizations were all dumbfounded!

Just dealing with a copper puppet ... They had thought that the other party was very strong, but at this moment, the fighting power that these people instantly erupted with was far beyond their imagination. At this moment, Green Moon could only rejoice ... Fortunately, these guys were facing this terrifying swordsman.

Was he really dead?

The sword seemed to be the heaven and earth. With a single swing, the world was turned upside down. No one dared to stand in all directions. There were so many experts in the Silvermoon government, but they were all blocked by this man and his sword.

A smile appeared on Hong Yitang's face under the armor.

Whether it was hou Xiaochen or Kong Jie, they weren't any weaker than him.

But ... What could he do?

They did not dare to unseal it!

If that's the case, then don't blame me for being rude to you. I've long wanted to kill off your prestige, hou Xiaochen. You really think you're a god? how dare you plot against my hei Teng? last time, I stayed in white moon City for a few days, but I didn't even get to see this guy.

**BOOM!**

The longsword swept across the sky, one strike after another. It was as if the earth was pressing down. Everyone could clearly see the majestic power of each strike, but ... It could not be blocked!

Even hou Xiaochen and Kong Jie were frowning as they continued to throw out punches and Spears.

Jin Jin and the others all erupted and roared.

Everyone was shocked by his powerful combat strength. Both Jin Shan and chief Yu were extremely powerful at this moment. Even the rising sun was shocked.

What was even more terrifying was that such an existence was still being pushed back by the other party.

Qi gang, who was in the middle stage of the rising light realm and was an expert on the God tier master list, had an origin divine weapon in his hand. Even though he was only at the edge, he was still forced to retreat by this sword. His face was flushed, and there was only shock in his eyes.

Hu Qingfeng, who was in the early stage of the rising light realm, even started to vomit blood when he saw the sword coming at him!

The early stage of the rising light realm seemed particularly weak on such a battlefield.

There was only fear in Hu Qingfeng's heart!

He was too strong!

It wasn't just the person in front of him who was strong. The people around him were all beyond his imagination. He knew that hou Xiaochen was strong, but he didn't know that Kong Jie was also extremely strong. The power that erupted from that punch made him feel like he was being torn apart.

Why did the Silver Moon government ... Have so many experts?

.....

There was a battle over there.

In front of him, Li Hao attacked with his sword. At this moment, he didn't want to see, think, or think about how strong hou Xiaochen and the others were, or how strong Hong Yitang was ...

He only had one thought, charge, kill the enemy!

With a slash of his sword, several supers in front of him were cut in half at the waist. Some of them shouted in fear, "This is the silver ..."

Pfft!

With a slash of his sword, he directly cut the other party in half, and blood splattered out.

Li Hao was surrounded by Black Phoenix, who were charging with him. At this moment, they were rapidly blocking the gathering of superpowers in the surroundings. They roared silently and fought a bloody battle. With Li Hao as the vanguard, they were breaking through the line formed by the superpowers.

As someone shouted, several three suns cultivators came over from the individual cultivators. Not only that, in the distance, several Sun glow cultivators were also ready to move. They tore apart the black banners around them and rushed over!

When Xu Feng saw Li Hao, his eyes flickered, and he charged toward him.

The old man behind him frowned and followed him.

Before he could catch up, his eyes suddenly moved. He looked not far away and saw a Black Phoenix looking at him. 1

Chapter 845: city defense (3)

...

“Young master!” The old man stopped and sent a voice transmission, “young master, let’s watch first. Don’t act rashly!”

“I know!”

Xu Feng gave a perfunctory reply and quickly squeezed toward Li Hao.

As for the old man, he glanced at Hei Teng who was not far away. He let out a breath and transmitted his voice, “What do you want to do?”

“I don’t want to do anything, just stay here and don’t move!”

“Your master is not weak. He’s at the mid-stage of the rising light realm and he’s on the God tier Masters Ranking ... He’s quite famous in the central continent. Of course, I don’t care about him!” But you, stay here and don’t move! If you dare to move, don’t blame me for being impolite ... Of course, I might not be able to do anything to you, but if you dare to interfere, when Yuan Shuo returns and finds out that you dared to bully his disciple, if he doesn’t beat you to death, my surname isn’t he!”

He said that he might not be able to do anything to him!

At this moment, the powerful Southern Fist actually said such words.

The old man was silent.

Nan Quan no longer paid attention to him. He only gave a warning and transmitted his voice again, “Also, the rules of the martial arts world apply to you as well, and it also applies to you, the master! Li Hao’s strength is much weaker than his. I can save Li Hao once ... But you can’t! If your master is killed, then so be it ... Do you understand?”

“He Yong, I’m just returning to my hometown to see Silver Moon ...” The old man replied.

“I don’t want to talk nonsense with you! If you insist, I’ll just stop you ... I’ll wait for Yuan Shuo to come back and see if he can beat you to death!”

“.....”

The old man was speechless.

Yuan Shuo!

In their eyes, a Martial Master who was only at the peak of the three-sun realm was actually very weak ...

However, people like he Yong were all saying, "I can't kill you, so I'll kill you when Yuan Shuo comes back."

Such words would probably cause others to scoff at him, but the old man did not take it as a lie. He seemed to be struggling. Even if Xu Feng only went to find Li Hao, a three-sun realm cultivator, he was also wondering if something would happen ... And what he would do if something happened?

If something were to happen and he were to interfere ... Would it cause Yuan Shuo to be dissatisfied and angry?

If that fellow knew that he had interfered in his disciple's battle, he would definitely go crazy and get back at him. Definitely!

The old man took a deep breath and didn't speak again. He stepped aside.

Seeing this, Nan Quan laughed and killed a super with a punch before sending another message, "I know a thing or two about you ... However, don't forget that you're a Martial Master. You're so petty!"

With that, he disappeared in a flash.

He had to take care of Li Hao. Among all the people present, the only one he was afraid of was this old man. As for the others, Hong Yitang would deal with the stronger ones.

The old man watched him leave and then glanced at Xu Feng, who was not far away. At this moment, Xu Feng was approaching Li Hao, as if he wanted to study or capture this silver-tier warrior.

.....

Pfft!

After Li Hao killed a three-sun god, he suddenly felt a gaze on him. He looked in that direction and saw that it was the guy who had destroyed his enlightenment.

Xu Feng!

He was in the middle of the Sun glow stage and was on the list. He was very powerful and Li Hao was definitely no match for him.

He didn't care about Xu Feng. This guy was no match for him now ... He would definitely be beaten up or even killed. He wanted to find a guy in the early stage of the rising light realm to fight.

Among the Rogue cultivators, other than this guy and Yuan xingwu, there were three other existences at the sunguang level.

One of them was in the middle stage, and the other two were in the early stage.

His target was one of the two.

However, he didn't want to find this person, but this person came to find him. When Li Hao charged again, Xu Feng suddenly flashed in front of him.

The middle stage of the rising light realm was blocking his way.

Under the armor, Li Hao's expression was unsightly.

He, who was at the peak of the three yang realm, was probably far from being the opponent of the other party ... This was troublesome!

If he had comprehended the fourth force, there was still hope.

But now, he had only gathered three forces.

What about the southern style?

You didn't even come out to stop me, you said you would let me be free to do whatever I want!

At this moment, the voice of Southern Fist rang in his ears, "Just try it, what's there to be afraid of? You're a young master of a big family and a god tier master, and you advanced to the mid-stage of the rising light realm in just a few years. You're not a Martial Master, so I think you're as strong as an early-stage rising light realm cultivator ... As for this one, even if you can't beat him, you should at least try to feel the power of the God tier Masters."

Li Hao cursed in his heart!

?!

It's easy to say, it's the middle stage of the rising light. Is the southern Fist teasing me?

He had said before that he would find an early stage opponent to fight and take a risk. Was this a risk?

This was risking death!

"Go, let's have a fight. If you really can't match him ... I'll make a move!"

Li Hao took a deep breath, gritted his teeth, and cursed in his heart.

In the next moment, he stopped thinking about it.

Alright!

I'm on a pirate ship ... What else can I say?

In an instant, the three sword energies merged.

On the other side, Xu Feng originally just wanted to test how strong this silver was and whether it would appear in the so-called recovery state, but at this moment ... He was slightly stunned and somewhat surprised. This ... Seemed to be momentum!

Even silver has power?

Moreover, it was also a sword force.

There were quite a few swordsmen in the heaven-battling Army who knew how to use a sword.

Li Hao's three sword auras merged. After thinking for a moment, he gritted his teeth and activated the blood Blade technique. Blood Qi filled the air. Xu Feng frowned. This ... Seems familiar. What is this?

Li Hao's three stances combined, and the blood Blade technique burst forth. He no longer hesitated and slashed out!

BOOM!

This sword was also extremely powerful. As for Xu Feng, his eyes flickered slightly. With a wave of his hand, an ice-sealing force spread out. With a boom, the long sword slashed on a large ice block.

Chapter 846: -city defense (3)

...

The ice block was extremely powerful. Li Hao's sword broke it, but Li Hao also suffered a powerful backlash.

"Interesting!"

"Why do you feel that ... You're still alive?"

This seemed to be a living person?

Was that even possible?

He seemed to be very calm. With a wave of his hand, countless ice arrows appeared and instantly shot towards Li Hao. He had a smile on his face. Interesting. This silver-ranked seemed to be different from the other three.

Could it really be a living person?

If that was the case ... He found it hard to believe. Were the ancient people still alive, or could the people of today also become a member of the remains?

Boom! Boom! Boom!

Countless ice arrows exploded on Li Hao's body. Li Hao couldn't Dodge in time. His opponent was very fast, and the ice arrows were formed in an instant. This was much more powerful than the superpowers he had encountered before.

Without saying a word, Li Hao rose from the ground and slashed again!

This time, the long sword was silent. It was the Shadowless Sword technique.

Buzzzzzz!

It was not until the long sword pierced through the ice that a loud explosion was heard. Xu Feng was even more surprised!

At this moment, three auras suddenly burst out in the distance!

At this moment, the seventh commander's voice sounded in Li Hao's mind. "We're about to be completely revived. Leader 12, if we can't defeat the enemy, if you're not dead ... Protect heaven battling city!"

Li Hao was stunned. BOOM!

At this time, Xu Feng threw out an ice-sealing fist, instantly freezing Li Hao. Li Hao's inner strength burst out, and with a boom, the ice shattered. However, he was still attacked by the cold air.

This guy was a Water-type mutant with the ice element.

Li Hao couldn't care less. Looking at Xu Feng in front of him, he gritted his teeth and the longsword in his hand instantly changed into the starry sky sword. One could use their own weapon in the silver armor, but it would be covered by the weapon that the silver armor itself had. From the outside, it would still look like a standard longsword.

However, the effect was completely different.

Li Hao stopped thinking and looking.

His sword rapidly slashed out, and his three-element force erupted. The fierce tiger roared, and the earth was covered. The golden sword force exploded!

Xu Feng also moved slightly and disappeared in an instant. However, Li Hao took a step forward and instantly stuck close to him. His longsword struck out, covered in killing intent!

Kachaa!

With a crisp sound, the ice in front of Xu Feng shattered instantly. This time, it was out of his expectations. It shattered too quickly and he was a little too late to avoid it. He was stabbed in the chest by the sword, and a loud bang was heard.

A mirror appeared in front of his chest.

Heart-protecting mirror!

Xu Feng glanced at Li Hao, then at the mirror. His expression changed slightly, and he quickly looked at the sword in Li Hao's hand. It was too sharp, and a small scratch actually appeared on his mirror.

Not only that, there were weapon souls in the mirror, but they couldn't come out no matter how he controlled them.

He was only using the mirror's own strength to block the opponent's sword.

What was going on?

This silver wasn't weak. Xu Feng sensed that it probably had the strength of the early stage of the rising light realm. Even if it was a little weaker, it wasn't too far off. However, compared to him, it was still a bit weaker.

However, his super skill, the ice shield, was shattered in an instant!

This was unbelievable.

Also, what was that tiger roar?

He frowned slightly, feeling even more strange. In the distance, Yuan xingwu suddenly frowned and looked at Li Hao with some doubt. Just a moment ago, he also heard a tiger's roar.

That tiger's roar ... He had actually heard it many times. Of course, it was not quite the same as his master's.

However, in the martial arts world, only the five birds technique could produce such a majestic tiger roar.

Yuan xingwu turned his head and saw Xu Feng. His expression changed slightly. This person was very strong, a figure on the God tier master ranking list. He naturally knew him. Then, he looked at Li Hao, who attacked again. His longsword shone in the sky. The three sword forms merged and burst into a brilliant light. It was completely different from the fighting style of the three silver-ranked fighters!

"Three sword forces ... Tiger roar ... Blood Qi ... Blood Blade technique ..."

Yuan xingwu's eyes revealed a touch of disbelief!

Yes, at this moment, he couldn't help but think of one person, Li Hao, who he had read about in the information!

That Junior Brother whom he had never met.

It was Li Hao!

Li Hao had disguised himself as silver.

He found it hard to believe. How was this possible?

At this moment, Li Hao was swinging his sword again and again. He didn't care if he was exposed or not. He was not only using his sword, but also using the five birds technique. He moved up and down at an extremely fast speed, sometimes like a fierce tiger, and sometimes like an ape.

Anyone who knew Yuan Shuo would know that he was a member of the five birds sect from that action!

Not only Yuan xingwu, but at this moment, in the distance, Hu dingfang, who was not included in the earth overturning sword, also looked over. The next moment, his expression also changed slightly. Li Hao!

He had actually sneaked into heaven battling city and become a silver-tier warrior.

And ... Li Hao was fighting a mid-stage rising light realm cultivator. It was hard to imagine!

.....

And Li Hao didn't care about anyone.

He only thought of the water's momentum!

As long as water force was used, locking force was not difficult. His five internal organs were extremely strong, and locking force contained spirit. He could lock the fourth force in an instant. Combining the four forces and blood Blade technique, he might be able to fight with this person!

Li Hao stopped fighting. Being reckless didn't mean that he was going to die.

He began to fight, and his blood Qi exploded. At this moment, Xu Feng also realized something and suddenly said coldly, "You're not an ancient person ... This move of yours ... Is somewhat similar to Silvermoon's five birds sect! You're ... Li Hao!"

He found it hard to believe. Li Hao?

Chapter 847: city defense (6)

...

A guy who had only practiced martial arts for a few years actually possessed the power of sunrise. 1

What kind of opportunity did he obtain?

Li Hao didn't reply. So what if they recognized him? they were all dead!

With a slash of his sword, Li Hao instantly disappeared into the darkness. So what if he was in the middle stage of the rising light realm?

BOOM!

The area was frozen. A powerful super power swept in all directions, freezing the area where Li Hao was. Xu Feng said coldly, "I thought you were a silver-tier warrior and was a little worried about the so-called recovery ... Now it seems that you have just used the bloodblade technique to possess your current strength. It seems that ... You can't carry out the so-called recovery!"

Since that was the case, he no longer held back. He was very curious about how Li Hao became a silver-tier warrior.

In an instant, the surroundings were frozen, and cold air permeated.

Li Hao had disappeared into the darkness, but he was forced to show himself.

The moment his figure appeared, he threw a punch. It was an ice-sealing fist!

With a crack, Li Hao tried to escape, but his path was blocked by ice. Li Hao stomped his feet, and the ice cracked. The earth trembled. He was delayed for a moment, and the punch landed on him!

BOOM!

Li Hao only felt that the shock was extremely powerful. If not for the strength of his five internal organs and physical body, an ordinary three-yang would have been killed by the shock!

As expected of a famous genius in the central continent.

Xu Feng also threw a punch. Seeing that Li Hao hadn't fallen, he was a little surprised. The next moment, he continued to throw a punch, and the power of the ice was extremely strong.

Li Hao was almost unable to fight back.

However, with his powerful internal organs, vitality, and the silver armor, Li Hao could quickly recover even though he was continuously being defeated. His sword energy was also replenishing his energy and healing his injuries.

Li Hao gradually recovered from the ice, and his eyes flickered.

This guy ... Seemed to be unable to kill him!

That's right, he couldn't help but think back to his battle with Liu Long. As long as the other party didn't kill him, he would be able to exhaust him to death with his sword!

In the next moment, Li Hao slashed with his sword!

The sharp starry sky sword was indestructible. Xu Feng had no choice but to Dodge it, which gave Li Hao an opportunity. He took a step, rose into the air, and gave a ring kick. The ninth refinement force exploded instantly!

This time, he had no scruples. He only had one thought and that was to show his strongest strength. Even if he couldn't kill this guy, he had to exhaust his superpower!

Superpowers were not infinite, and it took time to replenish them.

BOOM!

Li Hao kicked him one after another. His legs were frozen, but they were instantly broken. He slashed out with his sword and forced Xu Feng to retreat. He then continued to swing his sword, punch, and kick.

The style of a Martial Master was displayed to the extreme at this moment.

The more Xu Feng fought, the angrier he became.

This person ... Won't he get hurt?

He shook it many times and transmitted it through the armor. Could it be that this armor was so strong that it could dissipate all his power?

He didn't understand!

If that was the case, this armor was simply a Supreme treasure!

At this moment, Nan Quan, who was not far away, revealed a smile. The next moment, he threw a punch and forced a Xu Guang who was trying to get close to him to retreat. The Xu Guang's expression changed and he quickly fled.

The readers were in disbelief. F \* ck, why are there so many experts in the black Phoenix? 1

He was still sunguang, but he was injured by hei Teng's punch. It was too terrifying!

Nan Quan forced a suguang back with a punch and turned to look at the battlefield. The three great White silvers seemed to be recovering at this moment. Their strength and aura were getting stronger and stronger. The leader of the seventh Regiment swung his big sword and even shattered a peak three-Sun Warrior of the red moon with one strike.

The expressions of Lu Yue and the others also changed.

The resurrected silver was unimaginably powerful, and it was vaguely advancing towards the transformation stage of the rising sun.

“Defend!”

“There’s a time limit to their recovery!” Someone shouted. “They’ll completely dissipate soon. Don’t fight them head-on!”

As for retreating ... It was probably impossible to do so now. They could only choose to defend and wear them down, letting the silver-tier Warriors die from exhaustion. This was also the reason why they were not afraid of the other party’s recovery.

As long as he could hold on for a while, according to his previous experience, these silver tael could only fight for a short time.

“All three yang and above, come to the aid ... Defend together ...”

Someone shouted again, and the surroundings were in chaos!

At this moment, some of the bronze puppets seemed to have recovered and instantly reached the combat power of the three suns. In the blink of an eye, they killed some of the superpowers in front of them. The two streams of people mixed together and screams rang out!

.....

Li Hao, on the other hand, didn’t care about anything else. With a single thought, he would exhaust you to death, you bastard!

Boom! Boom! Boom!

He punched and kicked, and even used the tiger’s roar.

“Roar!”

The violent roar shook the surrounding supers, causing them to bleed from their seven orifices. They hurriedly retreated and Xu Feng was a little dizzy from the shock. This guy ... Why is he so strong?

An existence that couldn’t be killed?

The killing continued.

More and more people died, and the number of hei Teng who were crippled also increased.

.....

At the same time.

Within the city.

In the city Lord’s mansion, the gold-tier warrior held the Black Tortoise seal and floated in the air. He looked at the eastern city gate in the distance and suddenly looked up at the old tortoise.

The old turtle was silent, but his eyes also looked in that direction.

After a long time, a fluctuation suddenly came. "Isn't it ... A form of release?"

Yes, wasn't this a form of release?

Actually, it wasn't that he couldn't save her, it wasn't that he couldn't stop her ... But to be imprisoned in the armor for thousands of years, what a painful thing!

This was the most painful torture!

There were no memories, no souls, only lingering obsessions. At the last moment, they would be revived and remembered the past. Wasn't this a kind of gift and relief?

At this moment, a wave came from the Golden armor."But ... We're ... Willing!"

If they were willing, they would continue to stay behind!

They were willing to continue to protect this city!

The old turtle seemed to be a little emotional. After a moment, it said,""You can go!"

"Yes!"

With a sonorous reply, the next moment, the gold-tier warrior shot out, carrying an extremely strong killing intent!

We're willing, willing to bear this loneliness, this pain.

The so-called release ... Was not that important.

Protecting this city was the oath he had made when he joined the heaven-battling Army. Now, he was not fighting for the humans, but to protect this empty city. Even so, he was willing to do it!

The gold-tier Warriors quickly approached the East Gate.

The hovering old turtle revealed some emotions that it shouldn't have ... Was it still willing to continue suffering such pain?

It had originally wanted to free them completely. The torture of time was too unbearable.

Was the heaven-battling Army not willing to be completely destroyed?

Chapter 848: draw the sword (3)

...

Outside the city, there was a battle going on.

At this moment, Li Hao was also extremely ferocious. Three swords merged and the blood Blade technique was used.

The sword could protect the body and heal injuries.

He was frozen again and again, and he stood up again and again to attack and draw his sword!

The sword light was brutal!

With a loud bang, a black banner was directly torn into pieces. Li Hao couldn't hold it any longer and roared, "Get lost!"

It was unclear whether these black hou had received orders or were naturally stubborn. When Li Hao, the general of The Guardian Army, was knocked down several times, some black hou would quickly rush over and act as meat shields.

The black banner, which could break through a hundred levels, together with the black banner, was only comparable to the brilliant sun.

The black-armored warrior couldn't even withstand a single palm strike from the mid-stage Sunglow. Even his black armor was shattered by the palm. This was the power of the Sunglow.

These Black Phoenix were only here to die.

The first time, the second time, the third time ...

Li Hao actually didn't feel anything.

Hei Teng had died long ago.

In the beginning, he had felt that hei Teng's defense was not bad. He could act as a meat shield and restrain his opponent, wearing down his opponent's strength.

However, the black-armored warriors seemed to be unaware of danger, fatigue, or death. They threw themselves into the battlefield again and again, only to be shattered again and again. Li Hao was furious!

One after another, the black puppets were shattered.

A moment later, bronze-armored warriors appeared near Li Hao.

"Kill!"

A wave of fluctuation spread out. It was the shout of Tong Yan.

The moment Li Hao was frozen again, a bronze spear charged at him, followed by a group of black-armored warriors. They fearlessly charged forward with greatswords in their hands and killed their enemies!

"Zhan Tian!"

A not-so-clear shout seemed to explode in his ears!

Li Hao instantly shattered the ice, but the bronze armor was still fearless. With a boom, it was the first to explode. The bronze armor exploded, causing Xu Feng to stagger and take a small step back. He was not injured, but he blocked Li Hao again.

Xu Feng was also extremely frustrated!

He didn't care that he couldn't kill Li Hao, but he was a little annoyed by the fact that these black hou and bronze hou were still charging at him even though they had been dead for countless years!

What can you do even if you rush here?

What could it change?

He blocked it for an instant ... And then?

Then, wouldn't he continue to crush Li Hao?

Was there any meaning to it?

Li Hao, on the other hand, had broken the ice. At this moment, he looked at the bronze armor that had exploded just now. It was clearly the same armor and the same equipment, but at this moment ... He seemed to recognize the bronze-armored warrior who had just died in battle.

"Garrison 9th Division, 7th Regiment, 3rd company commander Hu Xinwu ..."

Li Hao was slightly confused, but he instantly regained his calm.

They ... Were long dead!

They were only acting according to their instincts.

Even bronze armor didn't have much intelligence. It was only because he was the captain of silver armor that these dead soldiers were willing to stand up and charge forward again and again to buy him time.

All for the silver armor.

Li Hao thought to himself. Attack!

A brilliant sun sword!

With a slash of his sword, his killing intent became even fiercer. The next moment, Li Hao jumped up and slashed in all directions. BOOM!

With a swing of the sword, some of the surrounding superpowers were killed instantly.

To nurture killing intent!

After failing to kill Xu Feng for a long time, the starry sky sword seemed to be anxious. Li Hao's eyes were cold and sharp. He rushed out quickly and no longer attacked Xu Feng. Instead, he charged toward the crowd in the distance!

"You want to leave?"

Xu Feng snorted coldly. "You still want to leave after being targeted by me?"

In your dreams!

He teleported and blocked Li Hao's path. Li Hao was extremely quiet. He didn't speak or even breathe. He tilted his body and passed his opponent. With a slash of his sword, he killed another sunlit super.

The surrounding superpowers fled in fear.

Li Hao quickly gave chase.

[Storing power]!

That's right, the current Li Hao was filled with an indescribable anger or other feelings. Originally, he was just going all out. Success or failure didn't matter. With Southern Fist still watching, he wasn't afraid.

But now ... He wanted to kill this person!

BOOM!

Xu Feng waved his fist again and directly blew up a Black Phoenix that was jumping toward him. He didn't bother to look at it and chased after Li Hao again.

What an annoying lump of metal!

He smashed the black puppet with a punch and quickly gave chase.

Li Hao, on the other hand, had pierced through a Sunstrider with his sword. His killing intent was no longer exposed. Instead, it was extremely restrained. He charged in another direction.

The surrounding supers started to escape.

However, the black hou and the bronze hou in the surroundings didn't escape. Instead, they continued to charge toward Xu Feng.

The seventh Regiment's leader said, here, you only need to charge!

You don't need to worry about anything around you. As long as the heaven battling Army is here ... You can rest assured that your enemy is only in front of you!

He said it so naturally!

In fact, Li Hao didn't feel anything before, but at this moment, a mid-stage rising light realm cultivator was chasing after him. However ... Even if he stopped killing, Xu Feng was still blocked outside. Under the lead of the copper puppet, the crazy black puppets blocked the other party's path at the cost of being shattered and completely dissipating.

Bang! Bang!

"32!"

Li Hao muttered in his heart. 32. Xu Feng had broken the armor of 32 heaven-battling Army soldiers.

They were all dead people, long dead ... Why ... Why did he have to remember these dead people?

Their bones had long been turned into dust.

It was just an obsession!

Buzzzzzz!

The sword pierced through the air and a fleeing early-stage three yang cultivator's eyes were filled with fear. A bloody hole appeared on the back of his head and his body fell to the ground!

## Chapter 849: attack (2)

...

The wandering cultivators in the surroundings screamed in fear and fled.

The three suns were dead!

He was killed in one strike!

“That’s not an armored warrior!” Someone roared. “That’s Li Hao, Yuan Shuo’s disciple!”

“Li Hao, how dare you kill innocent people? we’re not from the three major organizations. You bastard, what are you doing?”

They were not from the three major organizations and had no enmity with Li Hao.

Li Hao, this bastard, actually killed them!

Li Hao’s face was expressionless. Didn’t you ... Also kill the heaven-battling Army?

Didn’t you guys also drag their armors and be ecstatic like they were treasures?

I’m the commander of the 12th Regiment ... With the three great silver ranks dead, I’m the highest leader here. You killed my soldiers, so why ... Can’t I kill you?

Buzzzzzz!

His long sword cut through the air, and he ignored the ice-sealing force behind him.

Because he knew that someone from the heaven battling Army would appear to help him block it.

As expected, there was a loud bang!

A bronze statue exploded.

Li Hao didn’t even turn his head. He seemed to know the name of this bronze statue, which had entered the outer city with him to fight.

“Garrison 9th Division, 8th Regiment, 9th Company commander Wu Kai Fu!”

“Li Hao!”

At this moment, Xu Feng’s voice was cold, “is there any meaning in controlling these iron blocks to block?” Was there any point in killing these weak supers? Come and fight me, I might not kill you ... Take off your armor and hand it over to me, and I might even protect you!”

In fact, he wasn’t very interested in killing Li Hao.

What he was interested in was the armor!

This is so interesting!

Moreover, it seemed to be able to control these black-armored bronze-armored warriors. If he could get it in one piece ... Such a treasure would be on par with a heaven-grade origin divine weapon. Moreover, that sword was indestructible, so it might also be a Supreme treasure.

The Li family's sword?

At this moment, he also thought of such a rumor. If it was true, perhaps ... He would have a huge harvest this time.

Pfft!

Li Hao attacked again, piercing through one of them. Blood splattered, and the armor was stained with blood.

Behind him, he didn't turn to look at the dead copper Yan.

In fact, he didn't even care about it. The soldiers that came from all directions to protect him ...

He only continued to charge forward!

With a stomp of his foot, the earth trembled. Someone flew over and was pierced through by his sword.

The ferocious Tiger roared. With a violent roar, some people started bleeding from their seven orifices. They were directly shaken by him until they were dizzy. They stopped and were beheaded by his sword!

His body was like a flying bird as he charged forward and directly smashed an Esper into pieces!

At this moment, Li Hao had even broken through the defense line of the supers.

That was because the experts were all fighting the others at the front.

The three great silvers were all recovering and becoming incomparably powerful. The powerhouses were all on the defense. The Silvermoon officials had many powerhouses, but at this moment, they were also defending against the attack of the earth-overturning sword. The aura of the earth-overturning sword was getting stronger and stronger, to the point that it seemed to be out of control. A few weak people in the crowd were already heavily injured.

Outsiders like Hu Qingfeng and even Xu Guang were all covered in blood.

Only Xu Feng continued to chase Li Hao.

In fact, there were other Sunglow cultivators who wanted to give chase ... But they were quickly scared away by others. Some of them were unwilling to give up, but they fell to the ground and couldn't move. One of them was an early-stage Sunglow cultivator, who was currently being stepped on by Southern Fist.

Nan Quan's eyes were indifferent. He stepped on a ray of light and punched out!

BOOM!

The head of the sunguang powerhouse was smashed into pieces!

He didn't really care if he killed these people or not, but he had threatened them once, and they still didn't give up. They continued to pursue him, so he couldn't be blamed for being rude.

"Southern Fist!"

In the distance, Yuan xingwu's expression changed slightly.

It was the southern Fist. At this moment, he recognized it.

He instantly recalled who the person who had dealt with the others was ... The earth overturning sword, Hong Yitang!

The terrifying Silver Moon martial forest!

He once again looked into the distance at Li Hao, who was charging at him, and at Xu Feng, who was chasing after him. He seemed to want to move, but the aura of the southern Fist instantly locked onto him. "Yuan xingwu, right? Help him or harm him ... At this moment, don't go over! Otherwise, my fist will not recognize you! Yuan Shuo also doesn't acknowledge you as his first disciple. I don't need to be too merciful to you!"

Yuan xingwu's face was solemn. "He's not Xu Feng's match. Xu Feng is a master on the God tier master list, a mid-stage Sunglow. If he continues to run, without the protection of those black armors and bronze armors, he will die!" If senior is really going to help him ... Why don't you deal with Xu Feng yourself?"

"I don't need your guidance!"

Would Southern Fist die if he ignored him?

How would he know if he didn't force it?

Li Hao was a little indecisive, not in handling matters, but in battle. He dealt a heavy blow to the weak, but was always overcautious when dealing with the strong ... Was there any meaning in that?

This time, I'll give you a strong one to play with!

Bullying the weak and fearing the strong. Li Hao was quite good at this. In fact, Southern Fist didn't like it and wanted to find an opportunity to make Li Hao suffer. Of course, if Li Hao really died, he would naturally attack.

At the very least, if he pulled Li Hao along, the old man next to him would have nothing to say. The difference in strength between the two of them was so great that even in the past, he had the right to pull Li Hao along. This was a form of support and help for the weak.

This was to prevent martial masters from being overcautious and not daring to challenge the strong.

.....

But Li Hao didn't think about that at this moment.

After killing another escaping Third Sun, Li Hao gasped for breath, and the sword in his hand became even more restrained.

Looking ahead, there was no one left. Even if there were, they had all hidden in the outer city and did not dare to come out. Around them, many supers had been scattered. If they continued killing, they would not be able to kill more than a few.

Chapter 850: drawing the sword (3)

...

Behind him, another cracking sound came.

“36!”

Li Hao repeated in his heart. 32 black-armored, 4 copper-armored.

The strength of the rising sun was reflected in these armored warriors. Xu Feng’s main target was still Li Hao, but even so, he still killed a total of 36 soldiers of the heaven battling Army.

Li Hao turned his head and stopped.

Xu Feng also panted slightly. He looked at Li Hao and smiled. “You’re not running?”

The surrounding Black Phoenix had either been scattered or killed. At this moment, the closest Black Phoenix was also dozens of meters away. It was breaking through the blockade of superpowers and rushing over.

“Li Hao, as I said before, hand over your silver armor and I have no interest in killing you.”

Xu Feng smiled. “It’s not easy for a Martial Master to reach this stage. I value talents. You can come and help me. Of course, you can also refuse. I won’t be angry because of this. Silver armor doesn’t belong to you. Hand it over ... And I’ll give you some divine power stones as compensation. What do you think?”

Li Hao, who had been silent all this time, finally spoke. “You ... Killed 36 Warriors!”

Xu Feng was stunned for a moment, then quickly smiled. “Li Hao, stop joking and don’t waste time. It’s meaningless. The three silver resurrections will be destroyed very soon. I can let you go, but the three major organizations won’t. Hand over the silver armor now, and you can escape. There’s still time ... Otherwise, even if I let you go, you won’t have time to escape.”

“I want to kill you!”

Li Hao was very serious. “Your life might not be comparable to theirs. Unfortunately ... You only have one life! I rarely say anything to a dead person, but I’m not sure if I can kill you or not ... But I’ll do my best to kill you!”

“You’re so stubborn!”

Xu Feng was a little impatient, “Who Do You Think You Are? Do you really think that martial masters are so powerful? Do you think your teacher Yuan Shuo is very strong? Do you know that the so-called thirty-six heroes of Silver Moon back then are only servants of my family now ...”

What a laughable fellow!

At this moment, Li Hao took the initiative.

He stomped on the ground. He didn't soar into the air, but rather, he borrowed the force from the air. As he stomped on the ground, a wave of power from the earth surged into his body. That was the power of the ancient city.

Li Hao drew some of the power of the earth.

The sword broke through the air!

Xu Feng snorted when he saw the sword coming for him. He used his ice ability again. This time, it was different. The ice instantly turned into a mirror-like existence and spread out in all directions.

Ice-sealed world!

An area of several dozen meters was instantly sealed off by ice. Not only that, as if he was worried that Li Hao would escape again or that the black skeleton copper cauldron would cause trouble again, he waved his hand, and a copper mirror flew out!

That was his origin god weapon. At that moment, the bronze mirror turned into a huge barrier that completely locked down the surroundings.

Xu Feng's long hair fluttered in the wind, covered in frost. He looked at Li Hao, who was charging at him. "Continue to run and let me see!"

Run!

Li Hao punched out. It was a frosty fist. Crack! The void seemed to be frozen. Li Hao's longsword broke through layers of defense, but in the end, it was completely frozen by countless ice cubes!

It was nothing more than this!

With a low growl, Li Hao leaped up like a fierce tiger. A burst of flames erupted, and with a bang, the ice shattered. The next moment, nine overlapping waves burst out from the longsword. It broke through and exploded!

Clang!

With a loud sound, a pair of boxing gloves suddenly appeared on Xu Feng's fists.

"I have more than one origin god weapon!" He smiled.

Do you think that I can't resist without the bronze mirror?

Li Hao, you're too inexperienced.

Even the Xu family didn't have many origin God weapons. However, as the most outstanding descendant and an expert on the God tier masters list, he had two. One was a heart-protecting mirror for defense, and the other was a pair of gloves for attack.

Both offensive and defensive!

This was the reason why he was so confident in using the heart-protecting mirror to seal off his surroundings. Otherwise, he wouldn't have thrown the heart-protecting mirror out, knowing how sharp Li Hao's sword was.

However, just like the heart-protecting mirror, the weapon soul in the glove was also dormant at the moment, which made the origin divine weapon lose some of its enhancement effect. This made Xu Feng a little angry, but it also made him a little greedy.

He could feel that his origin divine weapon's weapon soul seemed to be afraid of Li Hao's sword.

It was a good thing!

This meant that this sword's level was very high, so it suppressed the explosive power of the origin god weapon.

With a clatter, Li Hao once again stabbed out with his sword. Xu Feng waved his fist and punched out, causing the long sword to deviate a little. His other hand reached out and formed a palm, directly grabbing the long sword!

Although the gloves didn't have a weapon soul, they were still extremely strong.

Therefore, he was not afraid of anything.

As he grabbed the sword with one hand, he knocked the sword away with his other hand. Then, he punched Li Hao's head.

This reckless fellow!

At this moment, Li Hao, who hadn't said much, suddenly opened his mouth. A gap appeared on the armor. It was his mouth. A mouthful of inner strength gushed out, and his inner sword exploded!

**BOOM!**

Li Hao had been holding back this sword of inner strength for a long time. It deflected his fist and went straight for Xu Feng's head.

Xu Feng's eyes sharpened, and an ice shield automatically appeared in front of him.

With a bang, the ice shield exploded. Xu Feng's face was cut by the broken ice, and his fist hit Li Hao's head. Li Hao was dizzy and felt a sharp pain in his head, but he still smiled.

It was only at this moment that he managed to hurt his opponent.

From the beginning of the battle until now, his opponent had a heart-protecting mirror, a pair of boxing gloves, and an extremely powerful ice shield. He had stabbed his opponent several times, but his opponent was not injured. Only this time, the sword Qi and ice shield exploded, leaving a bloody mark on his face!
