Chapter 851: attack (4)

...

Xu Feng, on the other hand, was somewhat furious!

He snorted coldly, grabbed his sword with one hand, and threw a punch at Li Hao with the other!

Bastard!

Li Hao's long sword shook, and his other hand also swung a fist. The ninth refinement force erupted. BOOM!

When the two fists came into contact, Li Hao felt that his fist was about to break. Even though he was wearing the silver armor, it was still the same. He didn't care about this. The sword energy entered his body. He roared and attacked like a tiger, punching again!

Bang Bang Bang!

The two of them punched each other hundreds of times. With a loud bang, a crack appeared on the silver armor. Inside the armor, Li Hao's fist was bleeding, but it was quickly repaired by sword energy. Sword energy didn't have the ability to regrow flesh, but it helped Li Hao quickly heal his wounds and stop his blood from flowing.

His left fist was a little weak.

He held a sword in his right hand. The long sword kept trembling, but it couldn't leave the palm of the other party, and was held tightly by Xu Feng.

Xu Feng grabbed Li Hao's sword with his left hand, while his right hand clenched into a fist and punched him again and again. At this moment, the hand under his glove was also somewhat damaged. He was also slightly shocked. This guy really can hold on!

The sound of heavy breathing echoed in their ears.

Li Hao was panting heavily, and so was Xu Feng. Dealing with Li Hao was much more difficult than dealing with an ordinary early stage rising light expert. How did this guy do it?

Li Hao, on the other hand, used the ninth refinement force again and again.

One after another, he punched out without holding back. At this moment, a wave gradually formed and surged out. With a bang, this time, nine overlapping waves hit Xu Feng's fist back!

"The ninth-form force?"

Xu Feng gasped for breath and laughed, "the Silvermoon Liu family's cultivation technique ... I have passed it to you. It seems that the descendants of silverspear are all trash ..."

Li Hao also smiled.

It was really comfortable and pleasurable to exchange fists with a mid-stage Sunglow realm cultivator. They had exchanged more than a hundred punches, and his arm was almost completely broken, but ... He just felt comfortable.

Sure enough, the southern Fist was right. Being reckless was the way of martial arts!

The long sword in his right hand was still vibrating, but it could not break away from the other party's control.

Li Hao didn't care about this.

It was a good thing that the starry sky sword had its own dignity and temper.

The waves started to surge.

The water force that had been unable to be condensed after he killed Xie Gang was now slowly showing itself. Li Hao sighed with emotion.

Among the four forces, water force was perhaps the one he had comprehended the longest.

The terrain was the simplest, and the Enlightenment in his heart appeared instantly.

The fire was slightly difficult, but it suited the state of mind. Watching the Tiger come out of the cage was also a smooth process.

The moment the metal force broke through the soul-splitting spear, it also appeared easily.

Li Hao had always known how to display water force, and he had also reached the peak of the ninth-refinement force. He had also observed the waves of the sea and seen Liu Long display it many times ...

However, this kind of deliberate learning was even more difficult for Li Hao!

He had come into contact with the ninth form of the force a long time ago. To others, it might not have been long, but to him, the ninth form of the force was something he had learned when he first entered the martial arts world. However, it was only today, at this very moment, that the force of the water could barely be seen.

It was too difficult!

The moment the wave appeared, it was like a water dragon. The waves overlapped and the water Dragon attacked, but it didn't seem to be too strong. Xu Feng didn't even care about it and directly broke the Water Dragon with a punch!

There was a hint of mockery in his eyes.

His Shi was not bad and could even deal with peak three yang.

However, compared to Li Hao's sword attack, the Water Dragon was ... Very weak.

Even the sword attack couldn't do anything to him, much less this water dragon.

The Water Dragon dispersed as if it was unwilling to give up. In the next moment, it reappeared, but it disappeared in an instant.

A chain shot out from Li Hao's internal organs and kidneys. In an instant, the Water Dragon was captured.

The previous few lock-on attacks were quite difficult.

But today, it was extremely easy. Li Hao's powerful internal organs and body gave him a different kind of confidence. In an instant, he completed the locking force.

At this moment, among the five internal organs, the lungs locked the metal force, the heart locked the fire Force, the kidney locked the water force, and the spleen locked the earth Force. Except for the liver, which was still empty, the four forces were all present in the four internal organs.

Li Hao and Xu Feng were still exchanging punches.

In the distance, the old man frowned and was about to take a closer look when he suddenly turned back. At this moment, not only him, but even Nan Quan couldn't help but turn back. In the distance, a golden light flashed and came!

The faces of the experts from the three great organizations, including people like Hou Xiaochen, all changed slightly!

Golden armor!

The Golden armor in the city had actually appeared!

"Not good!"

Everyone was shocked. The silver-armored demon had awakened and the power it could unleash was extremely shocking. The three great organizations were all facing one silver-armored demon each, but they could not take it and could only passively defend.

They had thought that only by entering the city and using the Black Tortoise seal would the Golden armor counterattack. At that time, they would be able to deal with the Golden armor after dealing with the heaven battling Army.

But now ... He couldn't!

Hou Xiaochen's expression changed again!

BOOM!

It was as if Mount Tai had collapsed and the sky and earth had cracked. A sword came from the sky and from all directions. Hong Yitang didn't care about the Golden armor at all. At this moment, when they were distracted, he slashed down with his sword!

BOOM!

Hou Xiaochen was sent flying through the air and crashed to the ground. He coughed up a mouthful of blood, and a look of shock and anger appeared in his eyes.

Hong Yitang! 1

With a loud bang, a bloody gash appeared on Kong Jie's fist. Blood dripped down and she fell to the ground. Several experts nearby were also cut to the ground. The Golden spear and Chief Steward Yu both vomited blood ...

Chapter 852: attack (3)-5

...

So many powerhouses had joined hands, but at this moment, they were all cut down from the sky!

Hu Qingfeng was even more miserable. With a loud bang, one of his arms exploded. His face turned pale with fright, and he hurriedly ran toward Qi gang. Qi gang's qi and blood surged, and he couldn't stop vomiting blood. He cursed in his heart.

What are you doing here?

If he had known, he wouldn't have come to this damned place.

He was a figure on the God tier master ranking list, but he was just a passer-by and was almost beaten to death. If the other party didn't deliberately target him, he suspected that he would have been cut into pieces long ago!

Silver Moon was too dangerous.

Just as he was thinking about this, he saw the Golden armor flying towards him, and his expression changed. He hurriedly looked at Hou Xiaochen, who coughed out a mouthful of blood. He looked at the Earthcover sword and gasped, "Are you satisfied now?"

Hong Yitang was extremely calm, "you seem to be asking a child if candy is good." Hou Xiaochen, you can pretend in front of others, but in front of me ... If you're really capable, then unseal your organs! I also want to try and see who can kill who after the seal is completely removed!"

"Is there a need?"

Hou Xiaochen looked at him, his face slightly pale. That was a sign of his internal injuries acting up. "For so many years, I've rarely targeted you or swords gate. The last time was because of the appearance of the Silver Moon ... I needed some help, and you want to fight me to the death just for that?"

"Hong Yitang, that's enough," Kong Jie chimed in. "If we don't unseal ourselves, we're indeed not your match ... Even if we don't unseal ourselves, there's not much of a difference between us. There's no need to make a fool of ourselves in front of others ..."

At this moment, Hu Qingfeng and the others were all pale.

These words ... These people didn't try to hide them.

The meaning behind it was too terrifying.

Unseal?

What did that mean?

Could it be ...

Hong Yitang alone was already so powerful that they were shocked. Could it be that Hou Xiaochen and Kong Jie also had such power?

If that was the case, it would be too terrifying!

Hong Yitang had wanted to say something more, but his eyes suddenly twitched. He had originally wanted to force Hou Xiaochen into a more miserable state, but now, his brows furrowed. He wasn't looking at the Golden armor behind him, but at a place far away.

In the next instant, Hou Xiaochen and Kong Jie also turned around.

The others were a beat slower.

.....

In the distance.

Li Hao locked down the fourth force. A moment later, the longsword trembled, and a wave of water force gushed into it.

The old man who was looking at the Golden armor suddenly turned around and glanced at Li Hao, as if he had thought of something.

Accumulating Five Forces!

In the next moment, the old man stepped into the air without saying a word. As if he had teleported, he instantly disappeared from where he was.

At that moment, a surge of blood Qi suddenly exploded!

The southern Fist appeared. At this moment, it was aimed at his heart. With a boom, a Super Lock was broken. The next moment, another punch was aimed at his lungs and liver.

The consecutive strikes broke the three organs 'Super Lock, and an extremely powerful aura gushed out!

It was even more powerful than what he had experienced in the Cang mountains.

At that time, he had only broken one superpower lock. Now, in order to deal with the old man, he broke three in a row. Under the old man's angry gaze, Nanquan threw a punch!

BOOM!

The sky was falling and the earth was cracking. At this moment, even Hong Yitang and the others in the distance were slightly stunned. Hou Xiaochen's teeth were aching. "Has the southern Fist ... Gone crazy?"

The strength of the southern Fist was not as good as Hong Yitang or them. Strictly speaking, it might not even be as good as Chief Yu ...

Yes, the middle stage of the rising light realm. This was the normal explosive power.

In fact, at this moment, Chief Steward Yu's strength was a little stronger than an ordinary middle-stage.

However, after breaking three of his superpower locks, the powerful blood Qi covered the entire sky. A huge fist appeared in the sky!

Overbearing, cold, and crazy!

“He Yong!”

“You’re crazy!” The old man roared.

In the next moment, a long sword pierced through the sky and earth. The light illuminated the sky and earth, illuminating the entire ancient city.

The long sword crossed the sky, and the sword intent illuminated the world!

“Light sword ... You’re the one who’s crazy!”

“Hong Yitang!” He Yong shouted coldly, “I also want to see if you, who is ranked third in the Seven Swords, can be stronger than Hong Yitang.”

BOOM!

Fist against sword, the fist broke the void and shattered the sword. The old man roared and reached out his hand. An even more powerful Sword of Light appeared between the heaven and earth!

He Yong, you bastard ... Xu Feng can’t die yet ...

As for Nanquan, he was completely enraged when he saw that he had summoned an even more powerful sword. Was Seven Swords very strong?

It’s fine if you’re not as good as the Earthcover sword, but you’re only ranked third in the Seven Swords. Do you really think you’re the number one of the Seven Swords?

On the hero list, the sky sword and the earth-covering sword were both ranked in the southern Fist back then. However, the third-ranked light sword was only on par with him. I broke three shackles, and you still dare to resist?

“You’re looking for death!”

“Break!” With a furious roar, a loud boom sounded as if a chain had exploded. The fourth shackle was broken in half by him, and an incomparably powerful force gushed out. In the distance, Hong Yitang took a deep breath. It was over!

?!

This madman had started fighting, not caring about the consequences.

Breaking four chains, even if not all of them ... Could easily cause a chain reaction. Even Li Hao might not be able to repair it, and three was the limit. Why did he have to take advantage of it?

The old man’s expression also changed!

BOOM!

With a loud sound, the long sword was directly shattered by this punch. He Yong punched out again, as if thousands of fists were gathered together. Boom ...

Chapter 853: -attack (6)

...

Even the void was blown apart!

Countless swords of light appeared from the old man, but they were all destroyed one after another. The powerful He Yong was now three times stronger than when he fought against the Golden Eagle and the others. At this moment, he was even above the Sunglow, or rather ... He was almost there.

The old man's strength was also extremely powerful. However, he was still hit by the explosive Southern Fist!

With a loud boom, the old man was sent flying. His bones were broken and he spat out a mouthful of blood!

He was sent flying for several hundred meters and heavily crashed into an ancient house. The indestructible ancient house trembled violently.

At this moment, He Yong was floating in the air with unparalleled dominance!

His face was cold and indifferent!

The light sword was indeed very powerful. He might not be able to defeat this old man without four shackles sealed, but ... Did he dare to undo the seal?

I dare!

With an absolute advantage, he directly smashed the light sword and seriously injured it. Who gave you the right to be so F * cking arrogant?

At this moment, Kong Jie and Hou Xiaochen also felt a headache coming on.

Another one!

If he hadn't unsealed his shackles, they would have fought him fairly. He Yong was the weakest, but now ... This madman didn't care about his life. With four shackles unsealed, even if they fought side by side, they might still be blown apart by this fellow in their current state.

It was too brutal!

At this moment, Hou Xiaochen didn't say anything. He kept a low profile.

Hong Yitang wanted to say something but stopped ... Stop pretending and go find Li Hao. If the four seals were broken and not sealed, he wouldn't become a super but would die. His internal organs would explode!

The sudden burst of Southern Fist made some people ignore their previous feelings.

However, in the next moment, a sword light suddenly burst out when the light sword was destroyed!

“Break!”

An angry roar came from Li Hao’s mouth. He didn’t care about anyone else. What did the light sword and Southern Fist have to do with him?

My enemy is this bastard in front of me!

Xu Feng’s expression changed drastically. The hand that was holding the long sword suddenly cracked, and even his boxing gloves were full of cracks.

A soldier soul appeared in the glove, and it looked frightened.

In the next moment, the gloves suddenly flew away, escaping!

The longevity sword!

Xu Feng, who had lost his gloves, had a huge change in expression. He also let out an angry roar and exploded his mysterious energy. At this moment, he actually wanted to avoid it, but ... Near the frozen area, he had also sealed it with his heart-protecting mirror ...

At this moment, it was too late to avoid it.

There was no escape!

In the distance, the light sword that had been sent flying spat out a mouthful of blood. It managed to stand up with difficulty and quickly rose into the air. It looked over with a pained and helpless expression as it roared, “Li Hao, one thousand divine power stones ...”

Before he could finish speaking, Li Hao turned a deaf ear and slashed out. This sword attack combined the four forces, and the blood Blade art burst to its peak!

Not only that, but all the sword energy in the starry sky sword surged out and turned into power, which was then slashed out!

What divine power Stone?

You think I care?

Go to hell!

BOOM!

As the sword slashed down, countless ice blocks shattered. The starry sky sword seemed to be very angry. It was angry that this person had been suppressing it. At this moment, it exploded with unprecedented brilliance!

The sword fell!

The Golden-armored warrior who had just arrived at the city gate tower suddenly looked in that direction, and his eyes shone with a sharp light.

The sword saint’s inheritance!

“Ice shield!” Xu Feng roared, and the mysterious energy exploded again. Countless mysterious energy gushed out and turned into an ice shield, trying to block this sword!

BOOM!

The ice shield directly exploded, and Xu Feng instantly bled. As the sword fell, Xu Feng suddenly punched Li Hao, and with a bang, his fist hit Li Hao’s body ... But when this punch hit, his arm instantly cracked!

Xu Feng’s eyes revealed a hint of disbelief. He looked at Li Hao, and after a while, he suddenly said, “Do you know ... I’m from the Xu family!”

At this moment, pieces of flesh were falling down from his face.

On his body, his flesh and blood were constantly exploding.

He did not cry out in pain, nor did he feel despair. He only felt some disbelief. “You ... Do you know the Xu family?”

The person in front of him had killed him!

Even in the central region, not everyone would dare to provoke the Xu family. Even the nine divisions and the imperial family would not kill the Xu family easily. Even the three major organizations would not do so!

As for the fellow in front of him, how dare he?

“Cough, cough, cough ...”

Li Hao spat out a mouthful of blood and punched out. With a boom, he directly shattered his opponent into pieces!

Then, he punched again and again!

He threw out 36 punches in a row, completely smashing Xu Feng’s entire body into a meat paste. Only then did he spit out a mouthful of blood, with some disdain, “Oh, the Xu family ... Is it as glorious as my Li family?”

Bah!

What the hell!

I didn’t even show off my family background, and you’re still showing off?

Do you know what the Li family, one of the eight great families, does?

Do you know how powerful the Li clan’s ancestors were?

To compare family background with me ... F * ck your Grandpa!

Unless you were from the family of a venerable sovereign or a human King, your family background was nothing.

The surroundings fell silent for a moment.

Xu Feng was dead.

This guy even whipped Xu Feng's corpse, directly beating him into a pulp of flesh.

Li Hao's Silver armor disappeared, revealing his true appearance. He smiled at the surrounding superpowers and waved at the three major organizations. "It's a pleasure to meet you. I'm Li Hao from the Silver City's Li family, and I'm Li Hao from the five birds sect ... Greetings!"

The surroundings were silent.

In midair, Nanquan smiled. Well done!

The next moment, his expression suddenly changed. Oh no, he couldn't hold on!

He instantly landed beside Li Hao. At this moment, the ice seal had completely dissipated, and the heart-protecting mirror had also fallen to the ground. He didn't care about this. He grabbed Li Hao's hand and sent a voice transmission. "Save me!"

Chapter 854: attack (Part 7)

...

But he shouted, "Li Hao, are you okay?" What bullsh * t xu family, if anything happens to you, I'll slaughter the Xu family!"

As soon as he finished speaking, his surging blood Qi even broke through the clouds!

The extremely powerful blood Qi caused even the light sword, which was about to fly over, to change its expression again and choose to stop. It was too powerful!

The expressions of the three great organizations also changed.

'Damn it, why are these martial masters in this damn place? each one is more terrifying than the last!'

In the distance, some of the supers even felt that they were about to explode from the pressure of the blood Qi. All of them were pale and ran away.

As for the southern Fist, it was extremely fierce, but it kept transmitting its voice. "Save me, quickly save me. Hurry, Li Hao, or we're finished. Hurry ..."

Li Hao held his hand, and the next moment, his expression changed slightly. "That energy ... It's all gone!"

Nanquan's face under his armor turned completely pale!

Don't mess around!

BOOM!

His blood was surging and mixed with some supernatural power. At this moment, the powerful Southern Fist became the brightest existence on the scene. It was even more powerful than the three silver and the gold!

His face was pale, but he roared, "Heaven-battling Army, kill!"

BOOM!

Grabbing Li Hao, he leaped into the air and threw a punch at Hou Xiaochen ...

Hou Xiaochen's expression changed as he tried to Dodge, but he was unable to. With a boom, he was sent flying by Ling Chen's fist, and he coughed up blood as an angry look appeared on his face!

Did I provoke you?

The next moment, Nan Quan flew to the city wall with Li Hao and disappeared without looking back.

Help!

He had gone too far!

At this moment, everyone was a little dumbfounded.

The next moment, a huge golden sword pressed down without any hesitation. With a loud bang, the red moon, who was defending, was smashed down by this sword. The three suns experts in the team were all shattered!

Purple Moon, who was at the peak of the three suns, had long been under the protection of Blue Moon and green Moon. The three of them escaped together.

The other suguang watched helplessly as the three of them fled and abandoned him. At this moment, his status was clearly shown. He was not as important as Ziyue. With a bang, his huge sword pressed down!

BOOM!

It was directly smashed into pieces by this sword. It was smashed, not slashed!

"Run!"

With a furious roar, the flying heavens and Yama experts fled.

Not only that, even Hou Xiaochen's expression changed as he roared, "Retreat!"

BOOM!

The huge sword fell and countless sword shadows appeared. BOOM! Like a mountain peak, it smashed the supers to death!

At this moment, an ancient voice came out of the Golden warrior's mouth, "Heaven-battling Army, attack!"

"A mere Bandit dares to show off his might!"

You're just a group of bandits, and you dare to invade heaven battling city? If it wasn't for the fact that you can't be revived easily, I would have killed all of you long ago!

In the next moment, the remaining heaven battling Army soldiers rushed out one after another!

The black armor was like a flood. Under the leadership of one yellow and three silver, they charged forward continuously, and miserable screams rang out.

The superpowers retreated quickly. It was not enough to retreat to the square. No one thought of using the second passage to leave the city again. They all fled and escaped outside the city!

The gold-tier warrior did not stop until he reached the edge of the square. He looked at the fleeing supers with a murderous look in his eyes. Unfortunately, time was merciless, and they had long died.

Now, the area outside the city had become their shelter!

What a pity, what a pity!

After losing their bodies and souls, they had lost everything. Even he couldn't leave the ancient city and could only watch as these people survived.

"Go back and defend!"

With a single order, the remaining soldiers instantly retreated towards the inner city to defend it.

Outside the city, the experts were panting heavily in fear.

The sudden change and the power of the gold-tier Warriors were beyond some people's expectations. In an instant, except for the three leaders of the red moon, all the three suns and one suguang were killed on the spot.

And before this, the enemy's Strongest Battle record was only killing a mid-stage three yang ... Has this city really been revived?

As for hou Xiaochen, he let out a sigh of relief and looked back at the city with a look of helplessness.

He seemed to have been beaten up several times today!

Southern Fist, earth overturning sword ... These two bastards!

Chapter 855: post-war (1)

...

Fear and alarm filled the entire perimeter of the ancient city.

Following hei Teng's charge, the gold-tier Warriors and the three silver-tier elites attacked together. Even though some of the stronger ones were able to escape quickly, the majority of the unaffiliated cultivators and weaklings weren't able to do so.

Originally, close to 2000 people had entered.

Hundreds of people died in the first round of battle. Li Hao's group secretly killed hundreds of people. Another batch died in the previous battle. Now, with the collapse of the supers, there were even more casualties.

As the gold-tier Warriors stopped near the Plaza and went back to defend, hou Xiaochen looked around ... And couldn't help but sigh.

People would die for money!

This time, there were quite a number of supers. However, at this moment, with just a glance, there were at most 500 of them. There were many casualties. Some of the supers were scared silly. Even if they made it out alive, they would not have a good end.

If a transcendent was frightened to the point of mental collapse, it would be difficult for them to advance any further.

Moreover, could they leave so easily?

At this moment, they had only been in here for a day. At the earliest, they would only be able to leave here tomorrow night. They would still have to wait for the people outside to open the remains and receive them. Before that, they had already informed them that they would not open the remains.

They could only wait for the third day. At that time, even if there was no response from the outside, it would automatically open.

There were still two more days!

He glanced around. In just a short while, there were originally many rays of light, but at this moment, another ray of light had died on the red moon's side. Only the Blue Moon and the green Moon were left, plus a pale-faced Purple Moon at the peak of the three suns.

On the Yama's side, King Pingdeng was still there, but there was also a group of people missing. Fortunately, there were still two sunguang's following him, and the three sunguang's were still alive.

On Fei Tian's side, there was one less elder. At this moment, there were only two elders left. It was unknown if one of them had been killed by the silver-tier powerhouse.

On the side of the freelance martial artists, including Xu Feng and Yuan xingwu, there were originally 5 xuguangs, which was not a small number, but now there were only 3.

Xu Feng was dead, and the other man was killed by the southern Fist.

There was also the light sword. At this moment, it was alone not far away. It looked into the city with a constantly changing gaze. No one knew what it was thinking.

At this moment, Chief Steward Yu and the others were still in shock, but fortunately, they recovered very quickly.

Chief Steward Yu looked at a place not far away and suddenly said, ""He's the radiant sword?"

As one of the 36 heroes, she had previously felt that it was familiar. She had guessed many people, but she had never guessed that it was the light sword.

Northern fist, and even BA Dao, were all on her list.

But there was no Sword of Light!

It was normal for old acquaintances to change their appearances and conceal their identities, unwilling to be recognized by outsiders.

But ... It couldn't be that a woman would become a man, right?

That's right, the light sword was the only two female swordsmen out of the Seven Swords, and the other one was the jadesword.

Sky sword, earth-covered sword, light sword ... This person was ranked third among the Seven Swords. He was very powerful, and it was not surprising that he had his current strength, although he had surpassed many of the martial masters who were also among the 36 heroes.

But ... Chief Steward Yu had never thought that this person would be the Sword of Light!

The gender has changed?

Hou Xiaochen looked over and shook his head, "I didn't!"

"Then ..."

"Don't ask anymore. "

Hou Xiaochen cut her off. He knew some things, but he couldn't say too much. At this moment, the light sword seemed to be in a daze, so he couldn't say much.

There must be a lot of secrets behind the radiant sword's entry into the Xu family.

Chief Steward Yu did not ask any more questions. At this moment, the remaining powerhouses of the three major organizations quickly gathered together. The seven sunguang's from the three major organizations who were still alive gathered almost immediately.

Three suns also had more than 20 people still alive, and they quickly gathered together.

7 Xu Guangs and more than 20 three suns formed the strongest camp in the blink of an eye. Not only that, at this moment, Lu Yue looked at the few individual cultivators Xu Guang¹ and said in a deep voice, "What are you still doing? All of this ... Might just be a trap! How many people had died? how many people had died? Huang Yue is dead, and so is Xu Feng, who was on the God tier Masters Ranking. The southern Fist and the earth overturning sword were all hidden very well, but they were exposed one after another today. Hou Xiaochen and the others are all shockingly powerful ... Do you still not understand?"

Once she said that, there was actually no need for her to remind them. On the side of the freelance martial artists, there were three people including Yuan xingwu. The remaining two people quickly moved closer to them. Yuan xingwu frowned and did not speak, not moving.

In the blink of an eye, the three major organizations had gathered nine Sunglow experts. Among the scattered cultivators, there were more than ten three suns experts who quickly joined them, strengthening their strength in an instant.

Apart from Yuan xingwu and some soldiers of the star Army who didn't move, and only the Sword of Light who had been looking into the city in a daze, the entire outer perimeter was instantly divided into two camps.

The Silver Moon officials and the three great organizations.

On the official side, Hu Qingfeng was seriously injured, and his face was full of fear. Qi gang was also seriously injured, and he was recuperating in silence.

At this moment, they all felt a strong sense of danger.

If it wasn't for the fact that the situation didn't allow them to, they would have run.

Yes, there were some things that one couldn't help but think about. It was too terrifying.

Why were there so many Silver Moon martial masters of the older generation in the heaven battling city ruins?

Furthermore, none of them were weaklings. They were all so powerful that one would not even dare to imagine them. So ... Martial masters were actually so powerful!

The two sides were clearly divided. At this moment, they stood on both sides. If it wasn't for the fact that they couldn't leave, the three major organizations would have taken their people and left.

However, they didn't dare to leave now. They were afraid that once they left, these people would quickly collude with the people in the city.

Chapter 856: after the battle (2)

...

Perhaps ... Hou Xiaochen and Li Hao's group also had some differences in opinion.

Otherwise, why would the earth overturning sword keep tangling with them?

Without the earth-overturning sword, or if these people joined forces with the earth-overturning sword, that would be terrifying. Right, there was also the southern Fist, which was also extremely terrifying.

Green Moon looked at the light sword in the distance and suddenly said, "Light sword, if you want to protect yourself, you have to join us. Otherwise ..."

Not far away, the old man turned to look at Lu Yue, as if he had regained his senses for a moment. After looking at her for a while, he revealed a smile that was not known whether to cry or laugh. "Peacock, you guys probably won't be able to get out!"

Green moon's expression changed!

What did that mean?

Were hou Xiaochen and the others really going to kill them all?

However, don't forget that there were many sunguang here, and so many three suns ... If they really fought to the death, these people would not be able to gain any advantage.

Hou Xiaochen glanced at the radiant sword and calmly said, "Don't spread rumors. We don't have the intention to do so. At this moment, we are not interested. What I am more interested in is whether the three silver-tier Warriors will completely disappear ... Or will they remain? I think that gold-tier warrior is leading them into the city!"

Yes, there was no silver or gold on the city gate tower.

The city seemed to have returned to silence.

Hou Xiaochen was indeed considering whether or not the three great silver rankers could survive. If they were completely annihilated, perhaps ... They still had a chance.

However, if they could survive and continue to recover ... Three existences comparable to the peak of the rising light realm, along with the southern Fist and the earth overturning sword, it would still be very difficult to deal with them. Moreover, there were even more terrifying gold-tier Warriors.

The light sword ignored him and continued to look into the city.

What about the southern Fist and the earth overturning sword?

Why did he dare to open the superpower lock? wasn't he afraid?

Or ... Could there be a way for them to recover in the city?

At this moment, everyone in Green Moon was on high alert. The individual cultivators had also joined their camp one after another. Each and every one of them was incomparably terrified. They had only come in to make a fortune. How could they have known that it would involve so many things?

A group of Silver Moon martial masters, each and every one of them extremely powerful, beyond imagination ... Some of them even joined the heaven battling Army, which was beyond imagination.

The more he knew, the more dangerous it would be!

Everyone understood this principle.

In that case ... Would they be able to successfully leave heaven battling city's ruins?

Many people were extremely pessimistic. They might not have a chance.

Of course, if a powerhouse like the radiant sword joined them, along with silver Moon, Hu Qingfeng and Qi gang would be trembling in fear. They might ... Choose to rebel.

This way, he might have a chance!

Among the Rogue cultivators, there were two dawns, one in the middle stage and the other in the early stage. In fact, they were rogue cultivators, but how could the dawns appear so easily?

One of them was a young man from the Financial Secretary's Liu family, who had the strength of the early stage of the rising light.

The other was a powerhouse in the middle stage of the rising light realm. He was from the governor's mansion next door and was a famous high-level figure in Linjiang.

Originally, Silver moon's side actually did not have sunrise on the surface.

It was only when hou Xiaochen had made his move that everyone knew that he had reached the rising light Stage. After steward Yu and the Golden spear had made their move, everyone knew that he had the Silver Moon Rising light, and that they were not weak.

However, Linjiang province had always displayed strength that surpassed Silver Moon's.

However, at this moment, the general of the governor's mansion was in shock. How could he still think that Linjiang was stronger than Silvermoon?

None of these people had simple identities.

Among the three suns, there were also some experts from various major forces, but they had concealed their identities. At this moment, it was not appropriate to reveal them. They could only hang out with the three major organizations, hoping to be protected and leave this place together to report this information.

It was too terrifying!

On Silver moon's side, hou Xiaochen and Kong Jie were incredibly powerful. Were they the only ones here, or were there more?

The earth overturning sword and the southern Fist were also extremely powerful.

It was said that Li Hao could kill three suns and was comparable to a peak three-Sun Expert ... Nonsense, a peak three-Sun Expert could kill an expert on the God tier masters list?

It was all fake!

Silver moon's martial masters were all treacherous people, each of them hiding their strength.

At this moment, both parties were barely able to maintain their calm.

No one knew if they would be able to leave this place alive.

However, as long as the people in the city did not join forces with Silver moon's men ... They would not necessarily be afraid of the Silver Moon officials. If they joined forces, they would not stand a chance.

.....

At the same time.

Within the city.

Nan Quan put Li Hao down and hurriedly took out all the storage rings in his hands, including the storage ring that Li Hao had not put away in time when he killed Xu Feng, the escaping glove, and the fallen bronze mirror. He put them all away.

Also, he had killed a sunguang himself, so he also had a storage ring.

Also, he had killed many people and had many storage rings.

At this moment, he quickly took out the treasures. The divine power stones were piled up in the blink of an eye. In total, there were more than 600 of them, mainly provided by Xu Feng and the other sunguang.

The other two origin God weapons were both Xu Feng 's. The other guy didn't have any.

He looked at Li Hao anxiously."Will that do?"

After he finished speaking, he saw Hong Yitang who had landed on the ground and said hurriedly,""What about you? The storage ring that you picked up and the storage ring that killed Huang Yue are all with you. Hurry!"

Hong Yitang was speechless. Weren't you extremely arrogant just now?

He shook his arm, and in an instant, divine power stones also fell. However, they were not as many as Southern Fist. There were only about 400 of them, but he had a total of 1000.

Chapter 857: after the battle (3)

...

"And that big one!" Nan Quan was getting anxious.

A thousand of them was not a small number.

However, he and the earth overturning sword had used up around 800 of them the last time. This time, the two of them had activated even more. Would it be enough?

"Hurry ... Don't be sad ... Old Hong, big brother Hong, master Hong ... I can't hold on much longer!"

Nanquan was on the verge of tears. He had a great time beating her up just now.

However, the pleasure he felt just now was as bad as it was now.

He had broken four of his superpower locks. If he had not strengthened his five organs recently, Li Hao had helped him once, and he had obtained some benefits from the spring water, he would not have been able to withstand the attacks.

Hong Yitang cursed in his heart, but he still took out a piece. He had scraped off some at the spring. The piece he took out now was this slightly damaged piece. As for the other two pieces ... He couldn't bear to take them out.

Although this thing was only comparable to about 3000 divine power stones in terms of energy, its quality was much higher.

This thing, if he wanted to exchange it for 3000 divine energy stones ... It would be more or less the same if he gave him a big slap!

Li Hao didn't say anything. His sword energy had been completely exhausted just now. At this moment, he simply stabbed the small sword into the largest divine power Stone. Hong Yitang raised his hand, wanting to stop it ...

In the end, he sighed with some resentment and helplessness."I can use the small one first ..."

Why did he directly stab the sword into the big one?

"It's too late!"

"It's too slow to convert the small ones," Li Hao said hurriedly."We have to use the big ones with high purity!"

Yes, it was too late.

Of course, it wasn't really too late. It was fine as long as Southern Fist could control it.

But ... The small sword couldn't wait.

The little sword that had been indifferent to the divine power stones seemed to have absorbed a delicacy for the first time. It was the first time it had eaten something edible. In fact, it was already anxious. It stabbed the sword into the stone and a large amount of divine power was extracted in an instant!

The small sword trembled, which was a sign of pleasure.

Everything he had eaten before was trash!

As for the soldier soul, it was actually not bad. However, the soldier soul was just a snack. It was uncomfortable to eat a few snacks without eating the main course.

In the blink of an eye, a rich sword energy was born.

Not long after, the small sword's size was also growing. Previously, it had already grown a small arm, but now it was growing longer again.

As for Li Hao, he quickly extracted the sword energy and transferred it into Nan Quan's body. He also absorbed some of it. The quality of the sword energy seemed to be higher now, and Li Hao's injuries were not light either.

After the four forces merged, he found it hard to control them.

He was able to kill Xu Feng because that guy was too arrogant, consumed too much energy, and his gloves ran away, catching him off guard. He also sought his own death by sealing off the surroundings. Otherwise, Li Hao, who had just fused four forces, might not have been able to kill a mid-stage rising light.

A match, maybe not much different.

However, killing them ... Was very difficult.

Li Hao quickly extracted the power of the divine power Stone. At this moment, the three of them sat cross-legged and absorbed the sword energy crazily. Nan Quan finally heaved a sigh of relief, but Hong

Yitang said, "Remember, you owe me 3000 divine power stones. I didn't ask for more. Do you think I can buy this big one with 3000 divine power stones?"

"....."

Nan Quan was speechless, and only after a long while did he say, "You also absorbed it ..."

"A little is enough for me. I don't need that much. I'm not like some people who broke four superpower locks for the sake of their dignity. Otherwise, why would they consume so much?"

It had consumed almost 4000 divine power stones in one go, and 3000 of them had formed a big one. The actual value was more than that!

If this continued ... The three major organizations would go bankrupt!

It would be strange if the three major organizations did not go bankrupt after consuming so much in one battle.

This fight was indeed pleasurable, but in reality, the price was shockingly high. Hong Yitang glared at Southern Fist a few times. This lunatic, F * cking hell, don't be so arrogant if you don't have money!

This wasn't a fight, this was burning money.

To block the light swords, breaking three of them was definitely enough. Or rather, breaking one would barely be enough.

This guy had broken four of them in one go purely for the sake of acting. Otherwise, how could he have sent the light sword flying with a single punch?

How did he send Hou Xiaochen flying with one punch?

But was there any meaning to it?

Hong Yitang cursed in his heart. 'If I'm willing to spend money, I'm better at pretending than you are. I didn't even pretend, but you did. The point is, you're spending my money!'

He knew that this guy was done for, so he should have been more ruthless and not let him use it!

Nan Quan was embarrassed and didn't say anything.

"I was trying to protect Li Hao ..."

"Shut up!"

Hong Yitang didn't bother to say anything. Protect Li Hao?

Even so, there was no need to do this!

Otherwise, just like the last time, 1000 divine energy stones should be more or less enough.

As he was speaking, he was slightly stunned and looked to the side. The sword power consumption was huge, and the divine power Stone was also being consumed at a fast speed. The key point was that other than the three of them, it seemed that there was someone else.

He turned his head and was shocked.

Unknowingly, a Black Dog had appeared near them. It was somewhat skinny and bony. At this moment, it was sticking out its tongue and its eyes were full of excitement, as if it had seen a delicacy that it had not seen for many days. It was madly absorbing the sword energy.

At first, Hong Yitang was still a little vigilant. Why would there be dogs in the city?

An ancient dog?

But soon, he looked at Li Hao suspiciously. Li Hao didn't say a word and continued to draw sword energy with his eyes closed. He also transferred some to Gou 'Zi.

Chapter 858: after the battle (4)

...

It was very unexpected!

Li Hao was extremely surprised, but he didn't have the mood to think about it at the moment. The dog seemed to be starving to death. Since he met it here, he might as well give it some. After all, he was taking advantage of others, not spending his own money.

Of course, it also cost money. Some of the divine power stones on the ground were Xu Feng 's, but it was only a small amount of money compared to the amount absorbed.

The reason why Hong Yitang was surprised was that the dog ... Seemed to be using the breathing technique of five birds.

Nan Quan also felt it. When he turned his head to look, he was also dumbfounded. What was going on?

A dog had suddenly appeared here. More importantly, this dog ... Seemed to know the breathing technique of five birds.

The next moment, the two of them were slightly shocked.

Also, this dog ... Is very strong!

Martial Master dog?

He didn't seem to sense any energy waves, but he was able to get close to them without them noticing until he absorbed the sword energy. It was clear that this dog's ability to hold his breath was very strong.

This was a little scary!

Where did this powerful demon come from?

This big demon dog probably had a chance to compete with the great demons of the Cang Mountain, right?

Of course, it was hard to judge anything before he made a move.

They saw that Li Hao seemed to have deliberately sent some energy over. They guessed that Li Hao probably knew it, so they didn't say anything. However, Nan Quan looked at Li Hao with some resentment. This ... Is the energy I borrowed, you should use it sparingly!

Three people and a dog were absorbing the sword energy.

The next moment, the gold-tier warrior landed with the three silver-tier Warriors who were on the verge of collapsing. He looked at them and a mechanical voice was heard, "Captain of the Twelfth Regiment, make a trip to the city Lord's mansion when you have time!"

After saying that, he left quickly with the three silver.

Hong Yitang's eyes were a little strange as he looked in the direction they had left.

"It seems like the three silver-ranked people are dying!" Nan Quan also transmitted his voice.

Hong Yitang nodded slightly. Yes, he felt it too. It was a feeling. The three silver-ranked experts were about to disappear completely.

Li Hao opened his eyes and fell silent as he looked at the three silvers who had left.

Were they ... Going to disappear?

.....

City Lord's mansion, under the turtle Tower.

The gold-tier warrior stood silently for a long time, bringing along the three silver-tier Warriors who were on the verge of collapsing. He suddenly said, "Please have mercy on me, Guardian!"

"Are you sure...You want to do this?"

The old turtle's voice rang out.

The gold-tier warrior's voice was resounding, "I'm sure!" I'm sure they'll be willing to become soldier souls, just like me! Become the soul of the silver armor, until the day the heaven battling Army returns, until the day the human King and the others return ..."

Soldier soul!

By refining some of their remnant souls and thoughts into the silver armor, it meant that they would become the soul of the weapon, just like those origin God weapons.

As for the origin god weapon, it was a special product during the war between humans and the demon clan during the ancient civilization era. It was extremely brutal. Demons were killed and their souls were extracted to refine these origin God weapons.

Later, after the war between the human race and the demon race ended, the demon protector even came from the demon race. Therefore, the method of making the origin god weapon was destroyed and no longer used.

It was already cruel to demons, let alone humans.

“By extracting the remnant soul, for all eternity, as long as the weapon isn’t destroyed, you won’t die. However, you will gradually lose some of your memories and your own soul, becoming the weapon soul of the silver armor.

“Guardian ... We ... Are willing!”

At this moment, one of the three silvers’ mental energy fluctuated.

“I ... Don’t want to dissipate like this! On the day the tenth leader disappeared, the city might not have enough power, so he didn’t have any extravagant hopes ... Today, after killing over a thousand energy path cultivators ... The city’s reserve power should be sufficient ... I hope that the protector will fulfill my wish!”

That day, the silver-tier warrior chose to slash the sky with his sword because the energy reserves in the city were very weak at that time.

Even if there was a chance, it would probably be impossible.

But today, he should be able to.

They wanted to stay, but there were still too many wishes that had yet to be fulfilled. Even if it was just to take a look, it was fine.

With a soft sigh, the old turtle’s mind fluctuated for a moment. In an instant, the three silver armors disappeared. When they reappeared, they were already at the top of the tower. A special flame overflowed, and screams echoed in the armors.

The method of making them was extremely cruel, which was the reason why Origin God weapons were banned.

As for old tortoise ... He had experienced it himself.

However, that was a long time ago, and it had forgotten everything.

Below, the gold-tier warrior seemed to be relieved. That was good.

In any case ... It was not better than now.

After becoming a soldier soul and continuing to control the armor, it might not be any worse than it was now.

“Those few people at the city gate ...”

“We don’t need to worry about it for now!”

The old turtle’s voice reverberated. “I’ve seen everything that happened today. I’ll first observe his actions, then observe his heart ... Even if it’s the inheritance of the sword venerable, the heaven-battling Army will not recruit him casually. For now, the silver Commander is enough!”

“Yes!”

The gold-tier warrior responded and instantly disappeared from his spot.

.....

At the same time.

A large amount of energy was devoured by the three men and one dog until all the divine power stones on the ground were broken. The three men and one dog had absorbed more than 4000 divine power stones. Only then did their injuries recover and their five internal organs become stronger.

Southern Fist had a smug look on his face!

Hong Yitang reminded him again." 3000 pieces. Remember to return it. If you don 't, there will be a 10% interest increase every month!"

Nan Quan's expression changed.

"You ..."

"Don't talk nonsense, or you can try to renege on your debt!"

"....."

Nan Quan was extremely sullen and depressed. This fight had made him bankrupt and he was also in countless debts. It was fun, but it was really sad. He had worked in the royal family for so many years, but his salary was not enough to pay off his debts! 1

Chapter 859: post-war (Part 5)

...

As for Li Hao, he had also recovered some of the side effects from the previous four forces eruption. The side effects from the blood Blade technique explosion had also been repaired, and his injuries were starting to heal.

He didn't waste any time and put the two origin God weapons into his storage ring.

At this moment, his storage of origin divine weapons had already reached four.

The windchimes left behind by the Samsara King, the gloves and heart-protecting mirror left behind by Xu Feng, and the yellow armor left behind by Yan Luo Xie earlier. Among them, the levels of the heart-protecting mirror, windchimes, and gloves were not low, but the level of the yellow armor seemed to be slightly lower.

Four origin God weapons!

Li Hao also had a lot of divine power stones in reserve, including the ten pure divine power stones that were given out. He also had some that he had obtained from the killing this time, some of which he had not had time to count.

At this moment, Nan Quan suddenly laughed and said,""How many military merits do you have?"

He grinned and laughed,""I actually have 55 points!"

Hong Yitang glanced at him and said, "I have 60 points."

"How is that possible?"

Nanquan was stunned. That can't be. You didn't kill anyone this time, so how can you be higher than me?

"It's not like you have to kill someone to gain military merits. I stopped a strong enemy, so it's naturally counted as military merits!"

Hong Yitang wasn't too surprised. This Military Merit system was quite perfect, which was normal.

Li Hao, on the other hand, remained silent.

He would not tell them that his military merits were higher than theirs because he had killed many supers before this. He even killed some of the three suns and a mid-stage rising light. At this moment, his military merits were as high as 78 points!

Even Li Hao was surprised that his military merits had increased so much.

Of course, he didn't know what military merits were used for.

However, this many military merits did not seem too bad.

As he was thinking, a mechanical voice suddenly appeared in his mind. "The city defense Battle has temporarily come to an end. The inspection guard has approved the establishment of your military achievements. The 12th Regiment is newly formed. This is the first battle. The members are not satisfied. However, they are brave and good at fighting. The military achievements will be doubled!"

As soon as he said that, Li Hao felt that his military merits had doubled!

156 points!

It wasn't just him. The other two also received the message and were stunned. This efficiency ... Was really fast.

This meant that the military's system of military merits was still in operation. The inspection guard and the others knew, but those Red Kite ... They were actually in charge of checking whether the military merits were reasonable or not. Was this to put an end to some problems?

A moment later, another sentence appeared in Li Hao's mind: "The newly formed twelfth Regiment is brave and good at fighting. The soldiers under them have outstanding achievements! Li Hao, the commander of the 12th Regiment, is specially rewarded with 30 military merits for his good leadership! 1st Company's commander, Hong Yitang, stopped a strong enemy. 20 military merits awarded! First company soldier He Yong, additional 10 military merits awarded!"

In the blink of an eye, Li Hao's military merits had reached 186 points.

As for Hong Yitang, his Military Merit first doubled to 120 points, and now he was rewarded with another 20 points, reaching 140 Military Merit points in an instant.

As for He Yong, he had 120 military merits.

Li Hao scratched his head. There was an additional reward as the captain?

Not bad!

Moreover, an increase of 30 points at once was equivalent to killing 30 early and middle three suns experts. This was not a small number.

Even though the three of them didn't know what the military function was for, they knew that it was definitely not a bad thing.

Only now did Li Hao have the time to look at the burping Black Panther, who was absorbing the energy.

The Black Panther was also very excited. It suddenly pounced over and pressed Li Hao to the ground. Then, it licked Li Hao's face crazily. Li Hao had just taken off his silver armor, and was immediately speechless and shocked.

I'll go!

The Black Panther had great strength!

"Black Panther, stop!"

Li Hao roared. The Black Panther wagged its tail excitedly, but it still stopped.

Li Hao sized him up and frowned slightly. He had lost some weight, but he felt that he had become much stronger. However, he couldn't tell because this dog was different from the big demons. It seemed to be different from the other big demons in the Cang Mountain, as it didn't have any light orbs!

Did he ... Become a Martial Master dog through and through?

There was no mystery at all!

"You were here last time?"

Heibao nodded hurriedly.

"Can you speak? I've seen a big demon, it can talk ..."

Woof! Woof! Woof!

Heibao shook his head. Li Hao was a little surprised."So ... You're not strong enough?"

The four great demons of the Cang Mountain could all speak with spiritual fluctuations, but the Black Panther couldn't. Did this mean that this guy wasn't very strong? he had just held him down, and his strength was really not small!

The Black Panther wagged its tail and didn't respond. It didn't know what was strong and what was weak. It only knew that the battle outside was fierce and it felt that it could bite some people to death.

For example, if this big-bearded man did not transform, it felt that it could bite him to death!

However, after transforming, the Black Panther shook its tail. It was too terrifying and looked like it couldn't be defeated.

Unfortunately, it could not speak.

Li Hao didn't ask any more questions, but he felt a little strange. The Black Panther had stayed here for a month, which meant that he had been recognized by heaven battling city. Could it be that the Black Panther had also obtained the key?

That's impossible!

Then why could he continue to stay here?

At this moment, Hong Yitang transmitted his voice. "This dog isn't weak. Although I don't know exactly how strong it is, this dog's aura is reserved, and it feels like he's on the same path as a Martial Master. It's a little strange. Great demons nowadays will more or less absorb some mysterious energy, but this dog ... Actually doesn't. It's really strange!"

He also found it strange!

Li Hao also found it strange. If that was the case, the Black Panther he had seen in the city was real. He said, "Black Panther, did you see the battle outside?"

Chapter 860: after the battle (6)

...

Heibao nodded hurriedly!

"You think ... You can beat me?"

Black Panther shook his head crazily!

It was a dog, but it wasn't a stupid dog. Of course, it couldn't answer like that. Otherwise, there would be a share of the delicious sword energy for itself?

I'm starving!

"Then ... What about the silver-ranked Captain before he recovered?" Li Hao stroked his chin.

The unresuscitated silver possessed the combat power of the peak of the three suns.

Even Hong Yitang said that Gou 'Zi wasn't weak, and Li Hao also felt that this guy was very strong. Could he have the power of three yang?

As for Black Panther, after some consideration, he nodded his dog head!

Li Hao took a deep breath. Not weak!

In that case, this guy might have the power of the peak of the three yang realm or the early stage of the rising light realm. How did it do it?

"Did you obtain any benefits in the city?"

The Black Panther nodded and looked at the turtle Tower in the distance. Then, it trembled and cried out again, as if saying that it would rather die than go. It was too painful!

Li Hao patted its head and said in surprise, ""You're good! I've been fighting to the death outside, and if I hadn't fused the fourth force this time, I wouldn't have been your match ... What the hell!"

This dog was quite lucky!

She had followed him and eaten the first mouthful of soup from the starry sky sword. Then, she had entered the ruins and obtained some benefits. Why did she feel that her luck was even better than his?

His luck was considered pretty good!

However, compared to Gou 'Zi, it made him feel inferior.

Woof! Woof! Woof!

The Black Panther barked and licked Li Hao's hand. It wagged its tail as if saying, "we're all on the same side. If I become stronger, you'll benefit too."

Li Hao didn't say anything. It was good that this dog had returned.

Previously, he had thought that he would either die or escape. In the end, he had been hiding here.

However, Li Hao still patted its head and said, ""I'm fighting to the death outside, and you're watching from the City Tower. You actually didn't go down to help!"

Heibao was innocent and did not dare to go down.

At that time, Hong Yitang was killing in all directions down there. If he went down, he was afraid of being killed by this person by mistake. How terrifying!

Hong Yitang also stood up and said, ""Let's not talk about this Black Dog for now. Li Hao, are you interested in making a trip to the military camp? "I'm curious about the use of these military merits. 140 military merits is quite a lot. "

As for the people outside, he couldn't be bothered to care about them at the moment, because the gold-tier warrior had personally gone to the City Tower at this moment. It seemed that he was guarding and gathering hei Teng.

The ruins had only been open for a day, and they couldn't go out for the time being.

There was plenty of time to deal with those guys outside.

If he could exchange his military merits for some benefits, that would be good.

Other things aside, he only had two big rocks left. He really couldn't bear to use them recklessly. It was all because of that bastard Southern Fist, who had spent one of his big treasures!

Of course, this time, he and Southern Fist's five internal organs had been strengthened again, so they could release even more powerful combat power.

Li Hao was also very curious.

Hearing this, he nodded. He also wanted to go and see what military merits could do. He didn't know if he could be promoted. If possible, he could change to golden armor, which might be more powerful.

Southern Fist, on the other hand, kept thinking about the divine power Stone.

He was too poor at the moment!

If he didn't return the money, Hong Yitang would really kill him. Don't take the swordsman's words as a joke. Hong Yitang was so narrow-minded that he might just want to kill him.

As for Li Hao, he asked in confusion while walking, "That person earlier was the radiant sword? I heard that the light sword is a woman. Also, what does the Xu family do? the information they gave me didn't have much introduction. Is that Xu Feng so arrogant?"

Nan Quan pursed his lips and said as he walked, "the situation is a little complicated. The light sword is indeed a woman, but there are some problems with the cultivation technique. This is also an ancient secret technique. Light is yang, and when cultivated to the extreme, one can even change gender. The Yang is strong, and the yin is weak ... Now, it's actually neither male nor female! Her joining the Xu family is most likely related to some of the Xu family's secrets, which may solve her problem."

"As for the Xu family ..."

He Yong thought for a moment before saying, "The Xu family isn't simple. To be honest, we have to go back to the founding period of the star dynasty. When the Heavenly Star King established the kingdom, he received help from three great clans to establish the Heavenly Star dynasty. The Xu family is one of them."

"Later on, the patriarchs of these three great clans were conferred the title of founding Duke. The Xu family was one of the hereditary families. It was the Duke of dingguo who was in charge of Dongfang province. However, ever since the nine divisions forced the imperial family to withdraw, the three major Duke families had also retreated behind the scenes. Otherwise, the Xu family would have been the master of Dongfang province in the past. The other two clans are in charge of the west and south. As for the North, it's our side. It's a poor land, and with martial masters running amuck, it's in complete chaos. A Royal Highness is personally in charge here, and he's also the founder of the star martial guards!"

"After the rise of superpowers, the eastern Duke dingguo's mansion also gained many benefits. The Xu family is very powerful in the East. Xu Feng can be listed in the central continent's god tier master ranking list because he has always been active in the central continent. The Xu family also has a force in stellarsky city and can be considered a strong supporter of the royal family ... But in reality, they probably have the intention to be independent. The three great Dukes may not be on the same side as the royal family anymore!"

He Yong was very familiar with these and said, "Also, among the three great organizations, perhaps ... One of them has the support of the Xu family! There are many dark hands behind the scenes in the three major organizations. The Xu family is in charge of the East, and the royal family has actually speculated that the tyrannical Yama might have obtained some support from the Xu family."

"Therefore, the three major organizations, the nine divisions, and the royal family will all give the Xu family some face to avoid causing some fluctuations. After all, it has not been confirmed yet."

Li Hao raised his eyebrows and said after a long while, "I understand!" No wonder they're so arrogant, but ... I thought they were a family from the ancient civilization. So they're a family from the founding era, what's there to be arrogant about!"

"....."

He Yong was speechless. You're crazy.

As one of the three founding clans, couldn't they be arrogant?

It was a fact that he had to give face to the princes and princesses.

Xu Feng was arrogant, but he had the right to be so. Even Hou Xiaochen wouldn't dare to touch him, and with the protection of the light sword, if it wasn't for him, it would be impossible for Xu Feng to kill him!

Of course, the light sword was a little strange. Previously, it had recklessly tried to stop him and did not even care about Yuan Shuo's threat. There was definitely something wrong. He Yong thought to himself, "could it be that she gave birth to this Xu Feng?"

It can't be!

She'd cultivated the Sword of Light to the point of Qi deviation and was no longer a man or a woman. Who in the Xu family would have such a heavy taste to have a child with her?

He didn't dare to think about it, it was too terrifying!

Otherwise, it was just protection. If he died, so be it. The Xu family would not give up on a powerful person like the light sword for a descendant.

For example, the southern Fist. Even if he protected the Prince, the royal family might not find trouble with him if the Prince died.

Hong Yitang also said as he walked, "just don't go to the East. In the northern province, the Xu family is nothing. They wouldn't dare to come here. If they come, we can send them to heaven!" But the East ... It's someone else's territory, so don't mess around with it. "

It was very dangerous!

To be able to support one of the three major organizations, even if he did not have all of the financial backers behind Yama, was already very terrifying. It was not something that Li Hao could handle alone.

"Understood!"

Li Hao nodded and didn't say anything else. But in his heart, he was thinking, should I find a way to kill everyone outside?

This way, no one will know that I did it!

Unfortunately, he felt that it would be very difficult!
