Chapter 871: great harvest (2 in 1)

...

The security Director fell silent again.

After a long time, he said, "is that so?" Then the person in control of this ... Should be a descendant of one of the eight great families, outsiders could not control it. It seemed that with the passing of time, some rebellions had appeared in the eight protector clans ... But that was normal. It had been too long! It's normal to forget the glory of our ancestors, so don't ask for too much. "

He seemed to be very open and open-minded.

However, after thinking for a while, he said, "if that's the case, be careful. That person must not be weak!" It seems that even if you don't look for that person, that person will look for you. Since he knows something, he will definitely make a move on you!"

Li Hao nodded. "He tried to kill me many times. At first, he was sneaky, but he was discovered later. Also, at the beginning, he didn't try to kill me. Instead, he used a blood shadow to devour my bloodline ..."

"He just wants to unseal the starry sky sword."

The security Director knew quite a lot of things. "The starry sky sword is the core of the eight ancient weapons. Even if the other seven ancient weapons are lost, the starry sky sword is strong enough and has the potential to replace the other seven weapons."

"It seems like this person knows a lot. Otherwise, he would be too stupid if he still tried after knowing that the Black Tortoise seal of the Wang family is not here."

Li Hao was still a little confused. Unfortunately, he knew too little, not as much as Ying Hongyue.

In that case, Ying Hongyue was really the successor of one of the eight great families?

That might not be true!

Perhaps ... There was someone else behind this?

Who knows!

The security Director didn't say much, nor did he say how to deal with Ying Hongyue. He only said, "You should be careful. As for the blood shadow you mentioned, I have seen it before. Those things outside the city, right? That's a Blood Dagger, not a good thing. If you raise a Blood Dagger, be careful not to suffer a backlash! The origin of the blood banner is to devour the blood Qi of some people and make it. After nourishing the blood banner for a long time, the body will be seriously damaged ... Of course, there are also villains who use other people's blood Qi to nourish the blood banner. The people outside may be the subordinates or enemies of the person you mentioned. "

Li Hao nodded. "They're all from the Crimson Moon. The leader of the Crimson Moon is the villain I was talking about!"

"It seems like this person has obtained some crooked inheritance. He's not on the right path."

After saying a few simple words, the security Director finally said, "If you can kill him, then kill him. If you can't ... Don't worry. Sooner or later, you'll be digging your own grave! Just avoid them, they can't be too weak. I see some of the blood centipedes outside are quite well raised. Although they harm others, they also benefit themselves. "

Li Hao nodded. Ying Hongyue was definitely very powerful. There was no way she could escape.

That guy's five internal organs might be extremely powerful.

He ate the blood God's spawn every day, so how could he not be powerful?

However, from his tone, it was not a good thing. The powers that nurtured the blood Shadows might ... Suffer some losses, but they themselves were not aware of it.

"Get out, there's nothing else for you to do!"

"....."

Li Hao was speechless. Um ... Aren't there any benefits for me?

You called me here just to collect ancient weapons?

This person was a little stingy!

As if he understood Li Hao's intentions, the security Director calmly said, "There's no need to look, there's no benefit! In this world, there were no benefits without reason. Only by giving would there be gains. Everything was equivalent to exchange! Martial arts must be fought, so he had to fight for it! "Everything a cultivator has, they have to fight for it themselves. Even the eight great families are no exception. Let alone the eight great families, in the past, when the human king rose to power, for a single energy stone, he killed countless people, stepping on the bones of others to obtain it ... You joining the heaven battling Army is already an advantage of your bloodline. As for the rest ... You can trade for it yourself, you can fight for it yourself. Heaven battling city is just a platform for you!"

"Your ancestor has already won you some advantages. Don't think about anything else!"

Alright!

Li Hao thought for a moment and nodded. It made sense.

It was better to earn things by oneself.

"Then ... Thank you, general. I'll take my leave first!"

Li Hao turned around and left. At this moment, he didn't have much regret.

Although he didn't obtain any benefits, he still knew some things. At least he knew that Ying Hongyue, that bastard, was really powerful and that she might be the successor of one of the eight great families ... That was enough.

Just as Li Hao was about to leave ...

The police chief seemed to have thought of something and suddenly said, "I can't give you any benefits, but I can give you a clue. In the past, the eight great families established a martial arts university named Silver Moon martial arts university in order to cultivate their descendants. If you can find this place, you might be able to obtain some unexpected gains, because this martial arts university was established entirely for the eight great families!"

"Among them, there are some battle techniques, battle techniques, and some unique training methods that are unique to the eight schools. "It's just that times have changed. Back then, this martial arts university was located in the middle of the eight cities. As for where it is now ... I'm not too sure either, but it shouldn't be too far from your so-called Eight Trigrams diagram!"

Li Hao's eyes flickered. He turned around and thanked her again. "Thank you for your advice, general!"

"It's just a clue. It still depends on your luck. Maybe it has already been destroyed!"

"Yes, I understand!"

Li Hao then turned around and left.

After he left, the gold-tier warrior was silent for a while and suddenly said, "Guardian, are you really not going to give me a pointer or two?"

"The present and the past are different. Our physiques and Dao paths are different. "Even if we give him a powerful cultivation technique, he might not be able to cultivate it. On the contrary, it will only delay his cultivation. The cultivation methods of these people are different from ours. Look at his spiritual energy, it's so powerful that it far surpasses his physical body ... Not only him, but many people outside the city are like this too. Would it be like this in our era? It's hard to say who's better, but perhaps ... This is the most suitable method for them. You gave him some powerful cultivation techniques, and he became addicted to them ... In the end, he might be completely crippled. "

"Understood!"

The security Director didn't say anything else. He had originally wanted to give them some benefits, but he was stopped by The Guardian.

I can 't!

If he gave it to her, he might harm her.

As for auxiliary techniques like the five bridges building method, he could still refer to them. If he really gave them a complete system of cultivation techniques, Li Hao would just be an ordinary ancient martial arts practitioner.

In this era, the greatest possibility of practicing ancient martial arts was that ... They were not as strong as their own path.

After watching Li Hao leave, the security Director once again fell into a deathly silence.

Chapter 872: -comment (1)

...

The three people and one dog left the city Lord's mansion.

Li Hao turned around and glanced at the huge turtle in the sky. The statue was so lifelike that it looked like a real turtle.

It was very, very big!

It was said that heaven battling city had shrunk many times. Could it be that this tower was even taller in the past?

The few of them walked out silently.

Li Hao walked halfway and looked at Hong Yitang. He asked in confusion, "Uncle Hong, even the ancient civilization has been destroyed. Is there no need for the path of martial arts to exist?"

"....."

Hong Yitang gave him a strange look. "Why are you suddenly thinking of this?"

"It's nothing,"

Li Hao shook his head and sighed. "It's just that I suddenly thought of a phrase. 'Prosperity means suffering.' Death means suffering. 'A group of martial masters tormented me every day and forced me, a good student, to become a murderous demon. What a F * cking B * stard!"

"Now, we've seen the destruction of the ancient civilization, leaving behind these pitiful people ..."

He looked behind him and then at the East Gate. "I feel that these people have a hard time."

Perhaps they didn't think so, but Li Hao did.

After being silent for so many years, he had woken up and suffered immense torture. Then, he continued to protect his home. He couldn't describe his feelings. Perhaps he was too young and didn't have the kind of touching feelings that were engraved in his bones.

Li Hao only grumbled and didn't say anything else.

At this moment, he was only a little confused about his future and life. However, when he thought about how much he still had to do, he quickly threw all of this to the back of his mind.

The enemy hadn't been killed yet, so what was the point of thinking so much?

He didn't think about any great goals, grand plans, or the pursuit of the ancient civilization. However, this time, everything he had seen and heard in the ancient city made him have some thoughts. These thoughts were suppressed in his heart and he didn't reveal them.

Hong Yitang glanced at Li Hao but didn't say anything.

The young Li Hao was perhaps a little lost.

However, he had already said what he needed to say.

In the end, one had to walk one's own path.

Everyone had their own pursuits. For example, Yuan Shuo, that old man, was probably very enthusiastic about pursuing it now. He had found his direction in life and was now mingling in the central region like a fish in water.

What about me?

In fact, Hong Yitang had also thought of him.

It was very powerful, but it was also very weak ... Compared to the ancient civilization, it was just so-so.

He had some pursuits for the strength of the ancient civilization and some thoughts about the path of martial arts.

But in fact, wasn't she still confused?

Could he change anything?

Or was he like the southern Fist, living without a heart and only pursuing a breakthrough in martial arts?

This era ... Seemed to be very boring.

This era seemed to be lacking something.

Actually, Hong Yitang had a vague idea of what was missing, but he couldn't do it, and he couldn't make up his mind to do it. It wasn't something that a human could do. It was a Saint, and he wasn't.

Therefore, he could only say it. If he were to really do it ... He really did not have the confidence and courage.

Seeing that Li Hao didn't ask any more questions, Hong Yitang fell into deep thought.

Nan Quan seemed to have sensed something and transmitted his voice, "Old Hong, what are you thinking about?"

"It's nothing,"

"Tell me. What are you afraid of? we're old friends. Are you worried that I'll laugh at you?"

"Get lost!"

Nan Quan laughed and transmitted his voice, "actually, I also feel a little uncomfortable after wandering around the ancient city. Old Hong, do you think that the current star dynasty is lifeless?" The people have no creativity and want to dig for everything. Ancient civilizations have everything anyway, so why don't we go and dig? The battle between superpowers is also meaningless. They don't know what to fight for and kill each other. In the end, it's just to dominate a region ..."

"We lack the unity of the ancient city. We lack their passion and faith, right?"

Hong Yitang laughed. "You even know this?"

“Nonsense, I’m not an idiot!”

“Do you think hou Xiaochen and the others killed the North-guarding general?” Nan Quan asked.

“What do you mean?”

“If it was hou Xiaochen and the others who killed him, then they’ll just sit back and watch as the three northern provinces fall into chaos, and even the entire northern region will fall into chaos. Hou Xiaochen and the others are quite ambitious and aren’t good people! He said that he was going to the central region, but he left a mess in the North ... I think he will come back sooner or later. At that time, I’m afraid that heads will roll ...”

“Were you just wondering why no one in our era has ever considered the ordinary people?”

Hong Yitang laughed and said, “Why should we consider ordinary people? Only a fool would think this way. What was the point of considering them? “It’s actually not a big deal if more ordinary people die. They can’t be creative, and they can’t do work either. Look, aren’t most of the technology nowadays excavated by the ancient civilization? From small things like steel smelting, big things like planes and cannons, and even architectural styles ... Our era is actually built on the remains of ancient civilizations, absorbing some of the essence of ancient civilizations. That’s how we’ve come to this day, and it’s a bit of a deformed path. ”

This was an abnormal era!

There were planes and cannons, city-destroying bombs, and super martial masters, but it was up to the heavens for the commoners to farm. They could harvest as much as the heavens wanted. It was only these few years that the heavens were open to them and the harvest was good.

But now, because of the rise of superpowers and the war between superpowers, all of this was destroyed.

Sooner or later, they would face the crisis of world destruction!

Of course, it didn’t matter if they had Martial Master superpowers. If they didn’t have them, they could just Rob them. Why would they starve these people?

Chapter 873: comment (2)

...

With the inconvenience of transportation, they could barely fill their stomachs with food, clothing, shelter, and transportation.

Everything was developing, but as it developed, the people still seemed to be living the same way. They were a little numb and had no interest in life.

“What are you saying in a fit of anger!”

“Old Hong,” Nan Quan laughed, “you suddenly attacked hou Xiaochen this time because you’re resentful. You think that this guy killed the North Garrison general and watched as the North fell into chaos, causing the people to live in misery, so you’re intentionally trying to embarrass him?”

“I didn’t, but you did punch him!”

Nan Quan laughed. “I don’t care. That guy had an ugly smile, so one punch was considered light. You, on the other hand, have always been calm and collected. This time, you actually exploded and beat him up. It wasn’t easy!”

“What do you want to say?”

Hong Yitang didn’t want to talk to him anymore.

However, Southern Fist took the initiative to say, “I’m not thinking of anything. I just want to pay my debt. Didn’t I owe you 3000 divine energy stones?” I can’t pay you back in a short time, so Let’s Make a Deal. I’ll ask the royal family to give you a small title and a small fief. You can be the master of the family and don’t need to be at the mercy of others ... You can take in whoever you want. I’ll get you a batch of food and a batch of war orphans ...”

Nan Quan wasn’t stupid. He could tell something was wrong, so he said, “You shut the door and play your own game. I don’t think you’re willing to do anything to fight for hegemony. You’re still different from hou Xiaochen and the others. They might think further and do more, but you, old Hong, feel like you’re more down-to-earth ... What do you think?”

Hong Yitang laughed and sent a voice transmission. “F * ck you. 3000 divine power stones. Is this how you repay your debt?”

“Let’s do it or not!”

Nan Quan then transmitted his voice again, “I’ll pick a good place for you. There are many good fields near swords gate, but they all belong to others. There are not many people farming them now, and silver Moon has been a lot more desolate in recent years.” I don’t think you have any great ambitions, so why don’t you just shut your door and be your own boss? isn’t that pretty good?”

“Get lost. Besides, the royal family doesn’t have the final say.”

“That’s fine. As long as the royal family gives you a name, it’s better than you taking your own land. Taking your own land is a rebellion. If the royal family gives you a name, anyone who dares to find trouble is a rebellion! Do you think you’re afraid of them? It’s enough to have a reputation. ”

Hong Yitang fell into deep thought.

“I wouldn’t say this to an ordinary person,” Nan Quan continued. “But old Hong, you’re a little like an ancient Saint. Although it’s just a little ... Can’t I help you?” I know that you have a few hundred orphans in the swords gate. You are used to keeping a low profile, and you only use the name of the swords gate to intimidate the supers around you. If I give you a bigger territory now, you might be able to do better ... The world is going to be in chaos!”

Nan Quan sighed and transmitted his voice again, “The three northern provinces are in chaos, the central region is in chaos, and the whole world is in chaos! “Actually, it’s good. Only in troubled times

can there be innovation. It's better to live muddleheaded than to open up the People's wisdom in troubled times. You have your own ideas. I saw that you've been watching those schools for a long time and even promoted the literacy rate with me. Don't I have some ideas? If you want to, then do it ..."

Hong Yitang didn't say anything. After walking for a while, he shook his head and transmitted a message. "I can 't, I can't do it!"

So, I can only say it.

He didn't have the courage nor the boldness.

"Don 't! You're so powerful, what are you afraid of? If he wanted to do it, he could do it. If he was afraid of difficulties, was he still a Martial Master? No matter how difficult it is, can it be more difficult than Yuan Shuo knocking on your door three times, but you didn't come out?"

"....."

F * ck!

Hong Yitang cursed in his heart. What nonsense was he saying?

Was it the same concept?

"Don't you think that you're actually very calm in this city?" Nan Quan tried to persuade him again. Hei Teng is standing guard outside, and you are living a peaceful life. I think if it's possible, you are even thinking of bringing your wife and children in ... Think about it, all these years, have the children of swords gate been thinking the same thing? If you're here, they'll be at ease. But if you're not, will they be at ease?"

"It's not the same concept. Stop misleading me. After all that, you just don't want to pay back the money, right?"

"That's right!"

Nan Quan didn't deny it and chuckled, ""You want me to pay you back ... I really don't have that much money. Even if I get some military merits, I might not be able to pay you back. But I can still get you some ordinary things!"

"Let's talk outside!"

Hong Yitang didn't say anything, nor did he want to say anything.

Nan Quan was pleased with himself. He knew that this guy was tempted.

It seemed that it would not be difficult to repay the debt.

The divine power stones were hard to come by, but it was not difficult for him to get some basic resources with his status, strength, and identity. Now, everyone was more concerned about the resources for the cultivation of superpowers.

As for the ones used by ordinary people, they were temporarily put aside.

He had heard what Hong Yitang had said after entering the ancient city and thought about it for a while. Li Hao suddenly sighed with emotion just now. He saw the confusion and hesitation in Hong Yitang's eyes and could roughly guess what he was thinking.

Sure enough, this guy didn't refuse too firmly. It seemed that he could pay off the debt!

After laughing for a while, he suddenly felt a little emotional.

He didn't know ... If it was right to encourage old Hong to do this!

Was it really right to let earth overturning sword become the head of the orphanage?

If this continued, would it make his martial Dao stronger, or would he completely fall?

Who knows!

But even if he didn't say anything, would this guy stop?

Chapter 874: -comments (3)

...

If he said it, he could even pay off his debts.

.....

At this moment, Li Hao, who was walking in front, didn't think so much.

The group of them walked to the East Gate.

Li Hao rose into the air and went to the East Gate. At this moment, there were not many black Vatican soldiers below, and they were all on the city wall.

In the distance, outside the city, they could still see superpowers.

There were less people than before, and it no longer felt like a sea of people. At this moment, there were only five to six hundred supers left.

Li Hao's vision was not bad, and he could still see the light sword that had been looking into the city ... He was a little confused. This old man ... This old woman ... It was hard to say that the old woman was the old man's Martial Master. Xu Feng's death seemed very strange.

She didn't seem angry or sad because her family had died, nor did she seem like someone unimportant had died. Instead, her emotions were so complicated that Li Hao couldn't understand what she was thinking.

He was talking about revenge, but he didn't sense the feeling of monstrous hatred.

He said he didn't want to take revenge, but he kept looking at Li Hao and the place where Xu Feng died ... It was so F * cking weird.

Li Hao no longer looked at her. Instead, he looked at the two groups of people who were clearly separated.

She couldn't leave, and she didn't dare to come in.

Presumably, these people were in more pain than him.

.....

When Li Hao appeared on the city wall, the people outside actually saw him.

"Minister!"

"Li Hao has come out," Chief Steward Yu said via voice transmission.

Hou Xiaochen had been a little absent-minded at first, but he was jolted awake by Li Hao's words. He looked over and saw Li Hao. The guy no longer hid his face, and directly exposed his head from under the silver armor.

This was because Li Hao felt that he couldn't breathe.

"You're quite bold."

"Looks like this guy's a lot more confident after killing Xu Feng," Hou Xiaochen replied with a smile.

"Minister, what should we do now? On the heaven battling Army's side, the three silver-ranked Warriors and the gold-ranked warrior have also appeared. Now, there are Li Hao and a few others. They are all extremely powerful. I'm afraid that it won't be easy to break into the inner city and take the black Tortoise seal!"

It wasn't just difficult!

It was hell-level difficulty.

Hou Xiaochen, on the other hand, didn't seem to care at all. "Don't worry too much. It's fine if we can't get it. Now, we should focus on ... How to annihilate those guys from the three major organizations!"

"What?"

"The three large organizations are gathered here, and more and more people are paying attention to Silver Moon ... Whether it's to make them afraid or to suffer heavy losses, we should not let the three large organizations leave this place! Heaven battling city ... Let's just leave it here."

As he said this, he looked at Chief Steward Yu and transmitted a message, "When you have the chance, go to the city and have a talk with Li Hao ..."

"Me?"

"En, go ahead. It's fine. You didn't attack the heaven battling Army. Take the key I gave you and go to the city gate. When you see Li Hao, ask him if he can persuade the others to join hands and annihilate these people!"

Chief Steward Yu was startled, but he did not ask further.

If the Head of Department said it would be fine, then there was a high chance it would be fine.

At this moment, no one dared to enter the city, for fear of being besieged by the powerhouses of the heaven-battling Army. In fact, chief Yu and the others were also worried, but the Minister said that they would not be targeted ... So chief Yu took it seriously.

Fortunately, no one else heard this telepathic message, otherwise ... They would have scolded Yu Luosha for being stupid!

At this moment, Chief Steward Yu transmitted another message, "By the way, what about Hu Qingfeng and Qi gang? I think these two guys are a little scared out of their wits. They're not saying a word and their eyes are rolling around. Maybe they have some ideas. Will they rebel?"

This time, not many people came in. There were only a few outsiders on the official side, Hu Qingfeng, his two subordinates, and Qi gang.

However, the series of unforeseen events that had happened earlier had also frightened them.

At this moment, the two of them were probably thinking of escaping this place.

"Don't worry about it, I'll make the necessary arrangements," hou Xiaochen replied.

Chief Steward Yu then stopped asking.

As for hou Xiaochen, he had just established a new voice transmission channel. "You two!"

"....."

In an instant, Hu Qingfeng's hair stood on end, and his face was full of fear.

Qi gang was slightly better off, but he couldn't hide the worry in his eyes as he looked at hou Xiaochen.

"Special Agent Hu, you contacted LAN Yue and the others last time. You wanted to work together to kill me ... Why did you give up?"

The fear in Hu Qingfeng's eyes was beyond words!

At this moment, he only had one thought in his mind-escape!

It's finished!

He knew!

"Don't run, don't be afraid. I don't mean to kill you. If I really wanted to, I could have just used a little underhand move earlier and you would have died at the hands of the earth overturning sword."

Hu Qingfeng didn't say a word, but his legs were a little weak.

"You're from the yellow Dragon clan, right?"

Hu Qingfeng suppressed the fear in his heart and said timidly, "Yes!"

The night patrollers naturally had their own factions.

Some were independent, some were warmongers, and some were ambitious. There were all kinds of people. After gaining power, not everyone was willing to give their lives to the dynasty or the nine divisions.

We're already so powerful, do we still have to work for others?

"Huang Long is one of the Giants in the night patrollers" system. He is one of the Deputy Ministers of the night patrollers "headquarters. Other than that, he also serves as the Deputy Director of the inspector general's office. The head of your headquarters also serves as the Deputy Director of the general office.

In terms of rank, the two were actually of the same rank, but one chief and one Deputy, the position of the head of the headquarters was slightly higher.

It was also because of this odd part-time job that both sides had the capital to compete with each other in the night watchman system. Huang Long believed that his position was not lower than the Head of the Department. In addition, he had the support of someone behind him, so he always had some ideas.

Chapter 875: comments (4)

...

Hu Qingfeng was in his line.

"What do you think of Huang Long's strength?"

Hu Qingfeng didn't dare to not answer, but he was also afraid that he would make the other party unhappy if he answered wrongly. After hesitating for a moment, he sent a voice transmission."Very strong. I think ... I think ... He's no weaker than Minister hou."

"Oh, really? Then how does it compare to the earth overturning sword?"

"This ... I'm not too sure ... From the methods they've shown ... Maybe ... They're slightly worse?"

"The earth overturning sword has unsealed my strength. I'm actually the same as him, do you understand?"

"Yes, I can!"

The fear in Hu Qingfeng's eyes grew. He knew this, as they had talked about it before.

These people were terrifying to the extreme.

They were so powerful that they hadn't even unlocked their full strength yet. He found it hard to imagine if these fellows had surpassed Xu Guang. It was very likely that ... They had surpassed him. Their methods didn't even feel like Xu Guang's methods.

"I'll probably be going to the central region this time. I've thought about it, and I might accept the Deputy Minister position of the Nightwalker headquarters. I don't have many acquaintances there, and I'm not familiar with the people and the place. Can you consider it?"

"....."

Hu Qingfeng was dumbfounded!

What was going on?

You won't kill me?

You ... You're even trying to rope me in?

"H-Minister hou...I don't understand what you mean ..."

"I don't mean much. I'm just unfamiliar with this place and need some help. I can't just tell everyone I'm good, right? Everyone would treat it as a joke! There are some things that you still need help with. You're at the early stages of the rising light realm, so you're not weak. You can help out a little. "

Hu Qingfeng's eyes flickered.

When he saw hou Xiaochen's smiling face, he suddenly shivered and didn't dare to think about anything else. Instead, he sent back a message,"Minister hou ... I ... Actually, my position in the headquarters ... Isn't too high. Other than a few ministers, there are a few more freaks who are stronger than me, and the five military governors ... Compared to them, I'm just a small figure ..."

"This is the type I want!"

Hou Xiaochen chuckled as he sent another message, "I've checked your file. It has a lot of shortcomings, it likes success, bullies the weak and fears the strong, is as timid as a mouse, has great ambition but little talent ..."

Hu Qingfeng was a little embarrassed by his words, but he could only suppress the anger in his heart when he thought of his strength.

This ... This was too F * cking humiliating!

"However, I've done some research and realized that you're actually not that bad. You still have your strengths. Those who are stronger than you, much stronger, are obedient ..."

Was this considered an advantage?

Hu Qingfeng wanted to vomit blood."I'm Xuguang, a genius!"

I'm not that bad!

"One more thing. Your men have done a lot of bad things. You are a little stupid, but you don't even have control over your men. This is your chance to survive ... As for colluding with the three major organizations, I don't want to talk about it. There are too many people in the central continent who have done this. We can't investigate all of them."

Hu Qingfeng wanted to cry, but he held back his tears and sent another voice transmission."Minister hou ... Are you ... Asking me to follow your orders?"

"Right!"

"But ..."

“Are you afraid that Huang Long will cause you trouble? Don’t be afraid, it’ll be fine. ”

Hou Xiaochen smiled radiantly, “you’re afraid of the yellow Dragon? the yellow Dragon wouldn’t kill you. You should be more afraid of whether or not you can walk out of here alive, right?”

“.....”

“The Minister is right. From now on, I ... I’m the Minister’s man!” Hu Qingfeng said through voice transmission.

On the side, Qi gang’s scalp went numb as he listened. He was also speechless at Hu Qingfeng’s shamelessness.

Why would hou Xiaochen want to take this person in?

More importantly, why are you telling me to listen to this?

“Qi gang, what about you?”

“What ...”

Qi gang’s forehead was covered in cold sweat.

“You don’t understand?” hou Xiaochen looked at him and laughed. I’ve always said that you’re very smart, why are you so stupid now?”

“Minister hou, I’m from the Division of Administration ...” Qi gang struggled for a moment before he replied via voice transmission.

“What’s wrong with the administration Division?”

Hou Xiaochen wasn’t worried at all. “It’s all the same. Also, don’t think that the nine divisions are extremely powerful. The central region is much more complicated than you can imagine! There are actually a lot of people like me in the central continent, and silver Moon ... There are also quite a few of them! “By chance, since you’ve seen it, just join it. If you don’t join, you’re so smart, don’t you understand?”

“I know, but I’m more worried that Minister hou is just trying to comfort me. You know, we’ve seen so much. There’s no room for resistance here, but after we go out...Minister hou, aren’t you afraid that we’ll leak the secret?”

“How could it be!”

Hou Xiaochen laughed in a very gentle manner as he sent a voice transmission, “I already said you’re a smart person, why would you tell on me? Was there any benefit to telling on him? You can also go back to the division and do what you need to do. If you tell others, they might not give you anything in return. If you don’t tell them ... You can build some friendship with me. Do you want to walk the dead end of the road?”

Qi gang exhaled and quickly transmitted his voice, ““You’re right, Minister, I understand!”

“Well, it’s easier to talk to smart people. Hu Qingfeng is more stupid. I have to make it clear.”

On the side, Hu Qingfeng didn't say a word, nor did he dare to say anything.

In fact, he was also thinking about what would happen if he went to Huang Long and told him about this.

And then ... He thought to himself, "no matter what happens, the yellow Dragon might not be able to do anything to Hou Xiaochen. There are too many powerful people in Silver Moon. The only thing I'm sure of is that I'm going to die!"

Chapter 876: -comment (Part 5)

...

Therefore, it did seem that only death awaited him if he told on her.

"If there's a battle, the two of you don't need to do much. Just get close to the three major organizations. If someone secretly tries to rope you in, that's even better. You can join them directly. We want to take care of these annoying fellows more easily ... Do you two understand what I mean?"

"Understood!"

"Understood!"

The two of them quickly replied. Understood, wasn't it just being a snitch?

This one is familiar!

Hou Xiaochen then transmitted his voice to Hu Qingfeng. "Right, these two underlings of yours ... You can clear them up yourself!"

"Ah?"

"Ah what?" Hou Xiaochen's face was calm. "You've done quite a few bad things. You're just like Yu Xiao. You suddenly gained power and acted like you're the king of the heavens. You can get rid of them yourself. I'm too lazy to do anything."

Hu Qingfeng's expression changed, but he still sent a voice transmission, "Alright!"

Hou Xiaochen chuckled and sent a voice transmission, "be good. That'll be proof of your loyalty. I'll record it for you later. If you don't, I'll say you killed your colleagues and colluded with the three major organizations ... And then I'll execute you. Do you understand?"

"....."

Hu Qingfeng didn't dare to say a word. He cursed in his heart, but he felt more at ease.

'Hmm, there's a threat ... That's okay. I feel safer this way. Otherwise, I won't feel at ease.'

As for Hou Xiaochen, he no longer paid any attention to the two.

As for the two of them being stupid and wanting to do something, it didn't matter.

At this moment, he once again looked into the distance. He looked at Li Hao, then at the earth overturning sword and Southern Fist beside Li Hao. After a moment, he suddenly turned around and left. "I'll go and see if the door to the ruins will open tonight ... There's no need to stay in this place!" He said.

After that, he left.

Nearby, Green Moon and the others were all on guard!

However, when hou Xiaochen really left, these people felt a bit more at ease. With hou Xiaochen here, they felt a lot of pressure.

At this moment, he couldn't wait for the other person, Kong Jie, to leave as well. With this person here, he would feel pressured.

Kong Jie seemed to have heard their thoughts. She looked over and smiled. "I'll go and see if there's any other way. Everyone ... Don't have any crooked thoughts. We'll be nearby. If anything happens, we'll find you immediately! It's best for everyone to leave the ruins in peace."

After saying that, he also disappeared.

This time, Green Moon and the others were relieved!

It's good that he left.

Of course, he also had to be careful of what these two people were up to.

.....

At the same time.

On the city gate, Li Hao watched for a while. When he saw that hou Xiaochen and Kong Jie had disappeared, he frowned.

What were the two of them doing?

At this moment, he was also thinking about how to discuss this, or rather, could they discuss this?

He glanced at the three silver-tier Warriors and thought about how these people could not leave the city ... Those people were hiding outside the city, and it was highly likely that he, sword of overturning the earth, and Southern Fist would not be able to do anything to them.

Now, these people were all hiding outside the city. If he went over, there was a high chance that he would be targeted by these people, and he might even be besieged. The light sword was also there, and he did not want to court death.

The southern Fist and the earth overturning sword had suffered heavy losses previously. If they were to do it again ... The losses would be too great this time.

While Li Hao was still thinking, Nanquan came over, stared outside the city, and said with a smile, "That Smiling Tiger hou Xiaochen is probably up to something bad again. He just disappeared out of nowhere. Could he have set up some kind of trap?"

He didn't seem too satisfied with Hou Xiaochen. The first time he saw Nanquan, it was Nanquan who had scolded Hou Xiaochen.

Hong Yitang also saw the two of them disappear. He thought for a while and said, "Make your preparations. Hou Xiaochen and Kong Jie are most likely going to block their path of retreat and force these people into the city. They're going to join forces to kill them."

"Huh?" Li Hao was stunned. He looked at the two of them and asked, "how ... Did you two know?"

He didn't see that in Hou Xiaochen's eyes.

"We're old acquaintances, who doesn't know who?"

Nan Quan said disdainfully, "this guy is a sickly ghost. Among the three commanders, he's the only one who has many thoughts. That's why he's naturally sickly. Even the heavens probably think that this guy is too evil and gave him a sickly body."

"Didn't you say that not many bad guys practice shooting?"

"He's one of the few bad guys!"

"He deserves to cough every day!" Nan Quan laughed.

Hong Yitang said angrily, "enough! Stop talking nonsense. You're making up rumors!" Hou Xiaochen's illness doesn't have much to do with his condition. This guy's soul-splitting Spear's divine intent is too strong for his body to handle. That's why his body has been weak ever since he started practicing martial arts. When he reached the five internal organs stage, it was even harder for him to handle the strong divine intent. He even took the risk to become a superpower and broke his superpower lock before healing himself ... In any case, if this guy really unseals, I'm probably not as good as him. He's a terrifying guy!"

"The southern Fist is far inferior to him. Don't think that he sent him flying with one punch. If the southern Fist dares to punch him again ... He'll be stabbed to death with a spear!"

Nanquan pursed his lips. Who are you looking down on?

One shot?

What a joke!

He can't kill me without three to five shots!

Li Hao, however, was a little surprised. He looked at the two of them and said, "You mean ... He's stronger than you?"

"He's stronger than me,"

Although Nan Quan was dissatisfied, he still mumbled, "I don't think he's stronger than this guy. This guy is probably about the same as him. Kong Jie is slightly weaker, but that bastard Kong Jie should be slightly stronger than me ... But, I dare to unseal myself, but do they dare? Therefore, if we really fight with our lives on the line, even if I die in the end, they won't have a good ending either!"

Chapter 877: -comment (6)

...

Li Hao glanced at Southern Fist ... So you're the weakest!

"Where's the light sword?"

"Her?"

"She's not weak. She's about the same level as Kong Jie. She's also very strong." This fellow's cultivation speed is fast, but there are also disadvantages, which are much more obvious than us. You can see it from her current appearance. Other than the four of them, there's me, Yu Luosha, and Jin gun ... Killing blade is a little weak ..."

"Yu Luosha isn't weak," Hong Yitang said with a half-smile. "I think she's changed."

"Tsk!"

Nan Quan said disdainfully, "Yu Luosha should find her own path first. What's the point of relying on hou Xiaochen?" Let her unseal herself and see if her body is as strong as mine. I'll kill her with three punches!"

He would admit that someone was stronger than him, but he was not willing to admit that someone weaker than him was strong.

Yu Luosha mainly relied on hou Xiaochen, so he didn't really think much of him. Of course, he was still really strong.

Li Hao had an idea. Chief Steward Yu was probably not as good as the southern Fist.

Or rather, it was quite full. Otherwise, the southern Fist would not be so tough.

However, with hou Xiaochen's help, Chief Steward Yu would probably be very strong. He might even be able to unseal himself like the others, and his battle power would not be underestimated.

"Can't golden spear and the others unseal the seal?"

Li Hao asked again.

"What do you think?"

Nan Quan was speechless. "Not all martial masters can unseal it. The Golden spear hasn't reached its limit yet. It has to reach its limit at a certain level, be it qi and blood, or physical body, or divine will ... Such martial masters can't improve anymore. Only then will they strengthen the Super Lock. Only when the Super Lock is strong enough can it be unsealed. Otherwise, you'll become a superpower ... The Golden spear broke the superpower lock, which means you've become a superpower. Otherwise, you won't be able to unleash more power!"

Hong Yitang nodded his head, "it needs to reach a certain level where the power lock can be unlocked. The Golden spear is still lacking, but ... If this guy can break through hou Xiaochen's divine will, then there's a chance!"

"Him? I don't think there's a chance!"

"No." Nan Quan shook his head. "It's too early. I was affected a long time ago. Otherwise, there would still be some hope. Or, you can learn from Yu Luosha and give up on your own thoughts and follow hou Xiaochen. Maybe you'll have a chance. That guy's very awkward right now. One moment, he wants to go out on his own, and the next moment, he wants to rely on hou Xiaochen ... He's a little lacking in energy."

Li Hao understood some of what they were saying, but he didn't quite understand some of it.

However, he also understood that it was a pity that golden spear, frenzied blade, and the others could not unseal their combat power.

"What you mean is that they still hope to cooperate and get rid of the people from the three major organizations," Li Hao interrupted. "Is that right?"

"Right!"

"That's good!"

Li Hao smiled. "I've observed for a while. The three suns of dawn have many members. It's not easy to take them down alone. But if they work together ... It'll be no problem!"

He looked at the three silver-tier captains beside him and thought for a moment before saying, "Minister hou probably wants us to send three regimental commanders and the police chief to take action together ... Including the two martial uncles, I'm also one of them. This way, we can easily suppress the other side!"

"If the three silver-ranked captains don't resuscitate, it'll be difficult to deal with sunguang. I still hope that you can persuade the gold-ranked warrior."

"Hou Xiaochen doesn't want to unseal his combat strength. He's worried that something might go wrong. Otherwise, he would've done it himself," Hong Yitang laughed.

Li Hao understood. Without saying anything, he quickly jumped off the city gate tower.

"Where are you going?"

"I'm looking for director Wang for help!"

"We're just guessing ... You ..."

Li Hao didn't care. He quickly ran toward the mayor's mansion. He had made a guess himself, and it was probably the case.

Not only director Wang ... He was also going to find that division commander!

Yes, the teacher who had punched him.

The role of this division commander was very simple ... He would hide and guard against hou Xiaochen and the others!

Yes, that was what Li Hao was thinking.

Who knew what hou Xiaochen and the others were thinking? perhaps after they destroyed the three great organizations, they would make their move on heaven battling city ... At that time, if the teacher made a move, hehe, I'd take all of you down with me!

No one knew that there was a gold-tier warrior in the city. When he showed up, it would be a big surprise!

Although the southern Fist and the others said that they wanted to be reckless, they had to hide something.

.....

Half an hour later.

Li Hao walked out of the city Lord's mansion, satisfied. Director Wang didn't have any objections. If it wasn't for the fact that he couldn't leave the city, he would also want to get rid of these people. Since he could get rid of them, he had no reason to refuse.

.....

In the military camp.

Under Hong Ling's lead, Li Hao once again entered the office.

That division commander seemed to be very busy. He lowered his head and did his work. At this time, all of them were dead, so what was there to do? he didn't know if he was acting cold, but he felt like he wasn't as easy to talk to as director Wang.

"Speak!"

It was just one word, and it sounded very cold.

After Li Hao explained his purpose, the gold Division teacher looked up at Li Hao and said calmly, "You mean you want me to hide and kill those people the moment they have the intention to attack?"

"Yes,"

"Then why don't you make the first move? Instead, they are passively waiting?"

Li Hao was startled. A moment later, he said, "they're Silver Moon ... Officials from the province I'm in. Silver Moon is still alright at the moment, and Minister hou even saved me once. If he doesn't fall out with me first, I can't fall out with him first."

If hou Xiaochen didn't fall out with him, he wouldn't fall out with him.

Therefore, he was a little confused when he was asked. Was it wrong?

Just as he was thinking, the teacher seemed to be thinking about something as well. After a moment, he calmly said, "Alright, let's do that! I don't want to fight if I can. Every time that guy from the city Lord Mansion and I fight, we'll consume a lot of Origin Energy in the city. It's more important to consume less energy than to kill some people."

"Oh, thank you, master!"

"Change your bad habit!"

The cold teacher said indifferently, "Next time, you have to say that you obey orders! Or, nuo! It means that you have heard and understood. Don't be sloppy in front of your officer, understand?"

"Understood!"

"You ... Get lost!"

The Huang Jin division commander waved his hand, too lazy to bother with him.

Li Hao was dazed for a moment. Then, he came back to his senses and hurriedly said, "Yes!"

After saying that, he turned around and left. He was a little angry. What a temper!

Director Wang was the best!

She just didn't react subconsciously just now. Why was she so fierce?

After Li Hao left, the teacher pondered for a while and suddenly took out a piece of paper. It was the same paper that had Li Hao's situation written on. After some thought, he added a line.

"He has a basic conscience, his talent is acceptable, but his wisdom ... Requires further observation!"

After writing this line, he thought for a while and finally added another line, "Lawless and disorderly. The new recruit camp has been restored. This person must undergo training!!!"

Li Hao obviously didn't know what had happened.

He also didn't know that the other party had given him some comments and clearly stated that Li Hao had to be stuffed into the recruit camp to experience what the real rules were.

If he knew, he would probably regret it and not look for this person.

Li Hao was in a good mood.

Now that the two gold-rank experts had agreed, they were full of confidence. At the same time, they could also earn a sum of military merits. However, they did not know if their military merits would double this time.

A moment later, Li Hao returned to the city gate tower. He looked into the distance, waiting for the next change.

Chapter 878: -take action (updated on Saturday)_1

...

The night descended.

The day and night of the ancient city were actually about the same, but at night, the light of the turtle Tower was slightly dimmer.

They entered on the morning of the 28th. It was already the second night, the night of the 29th.

Tomorrow night, the three-day deadline was up, and they could leave the remains.

Everything was quiet.

The three major organizations no longer wanted to enter the ancient city. At this moment, they only wanted to leave as soon as possible.

.....

On the platform at the end of the tree hole.

Hou Xiaochen was silently looking at the wall. At 12 am, the wall began to flash with a bright light. At this moment, it was possible to leave the ruins. Of course, as long as there was someone outside to cooperate, it would be fine.

However, hou Xiaochen didn't do anything.

He was just waiting and watching.

After half an hour, the light would disappear, and then ... They would have to wait until tomorrow night. There were 23 and a half hours in between, and the entire remains would be completely sealed off, and nothing would be able to get out.

There seemed to be some movement in the surroundings.

In fact, some people from the three major organizations had followed them to investigate.

When they saw the wall shining, some people wanted to go out and try it out. However, when they saw hou Xiaochen there, they gave up on that idea.

It wasn't until the wall stopped shining and became a wall that the people behind gave up on the idea.

He felt somewhat powerless!

However, when he thought about it, everyone was going out tomorrow, so he suppressed the fear in his heart.

On the platform.

Hou Xiaochen looked on silently. As he watched the flickering wall become deathly still, he revealed a faint smile.

From now on, for 23 and a half hours, no one would be able to leave this city.

Of course, he didn't know if those who had already become part of the heaven battling Army could do it.

He turned around and walked towards the tree hole.

The tunnel was dark, and the people following them quickly left. Hou Xiaochen didn't care whether they left or not.

When they walked out of the tree hole, Kong Jie suddenly appeared.

Hou Xiaochen glanced at Kong Jie, who crossed her arms and looked back at him. She smiled and sent a message, "Aren't you afraid that the three major organizations will hunt you down in the central continent by doing this? Moreover, some of the financial backers behind these guys will probably get angry."

"What does it have to do with me? It's just dangerous in the city."

"Who would believe that?"

"Who needs to believe it? Just an excuse will do."

Kong Jie laughed and didn't say anything.

He turned to look at the inner city of the ancient city and fell into deep thought.

A moment later, he sent another voice transmission, "yuluo will be at the side for a moment. Is that okay?"

"There's a high chance that it won't be a problem. It all depends on what Li Hao thinks."

"Him? Can't Hong Yitang and the southern Fist make the decision?"

Hou Xiaochen thought for a while and shook his head, "no, don't forget, the silver-rank is Li Hao 's!" This guy looks easy to talk to, but he's actually not that easy to talk to. He appears to be listless, but he's actually very bad."

Kong Jie almost laughed.

You have the cheek to say that others are very bad?

He didn't say anything else, and began to chat with hou Xiaochen.

In the distance, the three major organizations and the wandering cultivators were watching the two of them. They seemed to be discussing something.

At this moment, the three temporary leaders, Green Moon, King Pingdeng, and elder chiming, in addition to the general of Linjiang's Governor Mansion among the Rogue cultivators, and the young man of the Financial Secretary Liu family, were discussing something.

"Hou Xiaochen and Kong Jie are discussing something ... Everyone, be careful!"

They were very strong. With three parties and the Rogue cultivators, there were still nine sunguangs.

Not counting the light sword and Yuan xingwu, there were 32 people in total who were at the three yang level. This strength was still very strong.

The remaining 500 or so unaffiliated cultivators were almost all at the sunlit realm. The weak ones had long been killed.

Many elites had come from the northern provinces and the central region. Unfortunately, the wandering cultivator forces in the North would enter an empty period after this battle.

After all, Lu Yue was also an experienced person. At this moment, when she saw the two of them chatting over there, she was still a little frightened and quickly transmitted her voice to all sides.

“Hou Xiaochen, Kong Jie, Jin Jin, and Yu Luosha all have the power of a rising sun. Although frenzied sword is a little weaker, he’s barely at the level of a rising sun ... There’s also Hu dingfang and the other military powerhouses, who are all around the peak of three suns ... If we add Qi gang and Hu Qingfeng ... Although there aren’t many of them, they’re all at the level of a rising sun, so their combat power is very strong!”

There were not many people from Silver moon’s official party, but none of them were weak.

The weakest one was at the late three yang stage.

Green Moon said a few words, and everyone was on guard. At this moment, Blue Moon suddenly interrupted, “Over there ... Hu Qingfeng contacted us. He said that if ... If Qi gang comes to a critical moment, he hopes that we can accept them. What do you all think?”

As soon as he said this, elder crimsonbright quickly sent a mental message. “Can Hu Qingfeng and the others be trusted?”

King Pingdeng sent a voice transmission. “We can trust him. Qi gang aside, Hu Qingfeng is a man who’s greedy for success, but as timid as a mouse, and is afraid of death ... He thought we could deal with hou Xiaochen, so he wanted to join forces with us to deal with him. At the very least, we have to force hou Xiaochen to rebel.”

“Then, he felt that hou Xiaochen was too strong. Two of his three sons were killed. He felt danger and quickly gave up on his plan ... This person is under Huang Long. Huang Long doesn’t want hou Xiaochen to enter the central continent and fight him for power ...”

“I’m not too familiar with Qi gang, but Hu Qingfeng ... As long as he’s not stupid, he’ll know the situation he’s in. He’s seen too many things. If he doesn’t join us, he might not be able to make it out alive.”

The three major organizations knew Hu Qingfeng well.

In the crowd, the young man from the Financial Secretary’s Liu family also said: “That’s right. Hu Qingfeng is a man who stomps on the weak and is afraid of death. He’ll run away as soon as he encounters danger. Even in the light of dawn, we know something about him.”

Chapter 879: take action (1)

...

All of them were talking about Hu Qingfeng, thinking that he was probably really scared of death.

In fact, it was indeed so.

If hou Xiaochen didn't take the initiative to recruit him, Hu Qingfeng wouldn't dare to have such thoughts. In order to save his own life, there was a high chance, or rather, he would definitely join the three major organizations and seek protection.

Therefore, no one was surprised by Hu Qingfeng's decision.

At this moment, Green Moon was more concerned about Qi gang. He was from the administrative division, would hou Xiaochen do anything to him? He came in on behalf of Silver moon's Administrative Bureau. Everyone else is fine, but something happened to sakgang ..."

"I don't think there's a need to think about all this. No matter what, it's best that we can reach an agreement now! What I'm worried about the most is that Earthfall sword and the others in the city are working together with hou Xiaochen!"

If they didn't work together, while hou Xiaochen's side was very strong, if they really fought, the other side would definitely suffer losses. Unless they were like Earthcover sword and the others, they could instantly burst forth with even more powerful power.

"The people in the city can't come out ... The only ones we need to be wary of are earth overturning sword, Southern Fist, and Li Hao ..."

"....."

The crowd chimed in, not knowing what to do at the moment. However, after comparing their strength, they all felt that it was better to appease Hu Qingfeng and Qi gang.

Green Moon, on the other hand, began to try to touch the light sword.

When others tried to approach the light sword, the other party would ignore them. Green Moon was a Silver Moon Martial Master, after all. Even though her reputation was not very good back then, she could still talk to him. Green Moon hoped to win him over.

This man was extremely powerful. Even with the explosive power of the southern Fist, his opponent was only injured and sent flying with one punch. At this moment, it seemed that his injuries were not too serious. It could be seen that he was very powerful.

As for Yuan xingwu...No one tried to win him over.

The three large organizations knew this person's identity. He was Yuan Shuo's eldest disciple. Even though this person was currently leading a few of the three suns of the star Army and hiding in a corner, not joining the Silvermoon government ... The three large organizations would not trust Yuan Shuo's disciple.

Even the southern Fist would be more reliable than Yuan Shuo's faction. The three major organizations did not trust Yuan Shuo's faction.

.....

The inner city.

Chief Steward Yu sneaked over quietly, and the black Phoenix at the city gate did not make a move on her. They were all very quiet.

Even the three great silvers on the city wall could only watch silently.

The key in his hand was the proof.

In addition, the other party didn't kill the heaven-battling Army, and he didn't cause any trouble in the battle with Hong Yitang. At this moment, even though the three Regiment commanders knew that he was an outsider, they still chose to ignore him.

Sometimes, the rules were just that simple.

The three great commanders didn't have the ability to change the rules of heaven battling city's guest welcoming tower. Unless the city Lord and the Army commander were present, they didn't have the right to change anything.

Chief Steward Yu didn't move forward. Instead, he looked at Li Hao on the city wall.

Li Hao glanced at chief Yu, who was hiding in the dark, and smiled. It seemed that overlaid sword and the others were right.

"Chief, as long as you force them into the outer city ... We'll naturally take action! In the city, that gold-tier warrior will also make a move, and so will the three silver-tier powerhouses ..."

Chief Steward Yu glanced at Li Hao. At this moment, Li Hao looked very calm.

"I need the three of you to go out of the city to assist me!" Chief Steward Yu sent a voice transmission after some thought.

"That won't do!"

Li Hao refused directly."We still have the help of the heaven-battling Army in the city. It's too dangerous outside. I don't mind. It's just that you two martial uncles are worried about the Minister. I can't do anything about it."

The biggest problem was that the heaven battling Army couldn't help. If it was a trap, then it would be a big problem. Who said that hou Xiaochen wouldn't work with the three major organizations to get rid of them first?

Was that even possible?

It was very possible!

Li Hao couldn't accept such a result.

Chief Steward Yu was also speechless. What do you mean by the two martial uncles being worried? it's you!

She felt that Li Hao was overthinking things!

“Li Hao, why are you so suspicious? If the Minister wanted to deal with you, he would have done so long ago. The Minister already knew that you were holding the real sword of the Li family and even lent you his Fire Phoenix spear. He even helped you kill the red-haired man last time ... You’re too suspicious!”

“I told you I can leave the city, but you’re still worried. When they attacked the Minister, uncle-master Nanquan kept saying he didn’t want to work with them. I persuaded him for a long time and he dispelled his worries. Chief, don’t make things difficult for me. I trust the Minister.”

“.....”

Chief Steward Yu didn’t want to talk at all. He kept talking about martial uncle and Southern Fist. He kept saying that he was in a difficult position and that he could do it without hesitation ... In fact, those two people didn’t say anything at all.

She knew that she couldn’t say anything more, so she quickly said, “Wait for our signal!”

After saying that, he quickly disappeared.

On the city wall, Nanquan chuckled, glanced at Li Hao, and said, “Brat, you’re lying, aren’t you even blushing?”

Li Hao also laughed. “It’s also to help my uncle get back at them. At the same time ... I’d like to see how strong Minister hou and the others are. They’re not weak. Even if the light sword is involved, I think they have a chance of moving the battlefield to the outer city. Even Uncle Hong can be unsealed a little, but he’ll have to bear some consequences. Can’t Minister hou and director Kong do the same?”

Southern Fist didn’t say anything else.

The group of people stood silently on the city wall, waiting for the Silver Moon officials to make their move.

He did need to be careful. Hou Xiaochen was a man with too many tricks.

.....

Outside the city.

Hou Xiaochen looked into the distance, then turned to Kong Jie. “Then let’s move out. I’ll leave the three sunguang of Yama to you. Red Moon’s Green peacock still has some strength, I’ll do it! Little Jade and golden spear against the flying heavens. Qi gang will deal with that guy from Linjiang, and Hu Qingfeng ... He’ll play with that guy from the Liu family.” 1

Chapter 880: take action (updated on Saturday)_3

...

The Sunglow expert immediately made his arrangements.

“Where’s the light sword?” Kong Jie asked.

“Don’t mind her!”

“You’re that confident?”

It was obvious that hou Xiaochen felt that the radiant sword would not interfere.

However, Kong Jie was a little worried. The other party was worried that if they succeeded and killed her, the light sword would definitely not attack.

“Trust me, the light sword ... My brain is not completely muddled!”

“Then what about Yuan xingwu and those people from the star Army?”

Hearing this, even hou Xiaochen frowned. After a while, he suddenly laughed, “No matter! We’ll leave it to Li Hao after this!”

Yes, he had an idea.

Yuan xingwu was not easy to deal with.

I’ll leave it to Li Hao!

Moreover, Hu dingfang was still here. Hu dingfang should know Yuan xingwu, and the two parties might have worked together before. It was indeed not easy to deal with this person. He handed him over to Li Hao, and at the same time, he could see Li Hao’s methods and ideas.

“Those rogue cultivators and the three suns ...”

“Just disperse them. They won’t be able to escape. Once sunguang fights in a large area, what do you think will be their first choice?”

Besiege?

Don’t mess around!

A group of people who were scared out of their wits. If they could surround and attack these top experts, they were not wandering cultivators but an elite army. Even the Wei Wu Army might not be able to hold on in such a situation.

On the other hand, the heaven-battling Army in the city still had their military spirit. In this situation, there was a high chance that they would be able to counterattack. As for the Rogue cultivators ... Hou Xiaochen didn’t even care about them.

Don’t be fooled by the number of people, don’t be fooled by the three major organizations’ wishful thinking. With so many individual cultivators working together, they could even kill dozens of three suns ... But in fact, power was not as simple as one plus one equals two.

The power of 500 freelance martial artists might not be as strong as that of 50 people. It was possible to fight a favorable battle, but how could it be possible to fight a disadvantageous battle?

Kong Jie smiled and didn’t say anything.

All he had to do now was wait for Yu Luosha to return.

.....

At the edge of the outer city.

Sword of Light kept looking into the city, letting Green Moon nag at him, not responding.

It was only when he saw a ghostly shadow flash by that he noticed from the corner of his eye that there was another person not far away. It was Yu Luosha. The sword of radiance understood that these people were about to make their move.

The green peacock did not understand these people at all.

At this moment, the green peacock was still trying to persuade her. The light sword suddenly coughed and turned to look at her, sighing, "Ying Hongyue, you're still so confident."

Green Moon was slightly startled. Why was the leader mentioned again?

"I'll go into the city to take a look ... You guys have fun!"

She coughed and stepped into the outer city. This action shocked everyone.

This guy still dared to enter the city now?

Was he not afraid of the gold-tier warrior and the earth overturning sword?

He was sent flying by the southern Fist earlier. Was he going to die?

Luyue was a little confused as to why the light sword had chosen to enter the city at this moment. Even if it wanted to take revenge, it would have to wait for everyone to solve some problems together or come to an agreement. It would be much safer to enter then.

As for the radiant sword, it did not say anything and walked straight towards the direction of the inner city gates.

Not too far away, Hou Xiaochen was about to make a move, but when he saw what was happening, he suddenly stopped. He looked at the light sword with a look of confusion.

.....

The inner city gate.

Li Hao and the others were surprised to see the light sword approaching.

This guy actually came in?

And he didn't take the second passage ... Of course, as long as a Martial master's power wasn't leaked, even if he flew into the sky, it would be fine. Li Hao had tried this before.

But ... This was Li Hao's territory.

A moment later, the light sword arrived near the inner city gate. It looked at the people above, then at Li Hao, and suddenly smiled. "Li Hao, you are Yuan Shuo's disciple, right? Perhaps, overlaid sword and the others have told you how strong I am. Do you think I can kill you after I break all the superlocks? Or do you think that the earth overturning sword and the southern Fist can stop me?"

“Even though they can recover, they don’t dare to completely break down and release all their potential ... But I ... Dare.”

Li Hao frowned.

The light sword continued, “you’ve destroyed some of my hopes ... In fact, it’s not much different from taking my life. You shouldn’t have killed Xu Feng ... Or, if you were a little later, I wouldn’t care even if you destroyed the Xu family ... But you shouldn’t have killed Xu Feng now.” 1

“And then?” Li Hao raised his eyebrows.

Li Hao looked at her and said, senior, you want to kill me? Or do you want to fight to the death now? Senior is very confident ... I believe that senior is powerful, but if senior thinks that you can kill me here ... Then you’re underestimating heaven battling city too much!”

“It’s not that I’m underestimating heaven battling city, but aren’t we waiting for you outside the city?”

The light sword coughed, and its aura seemed to be gradually increasing. “Li Hao, promise me one thing, and I’ll let go of the matter of you killing Xu Feng.”

“Conditions?”

Li Hao glanced at the old man, whose gender could not be determined, and smiled. “Senior, please tell me.”

The light sword was silent for a moment before it slowly said, “The explosive power of the southern Fist and the earth-overturning sword must have something to do with you ... There’s no need to deny it. The southern Fist has been in the central region for so many years, but it didn’t dare to explode. Now that it’s here, it’s become more daring. It’s either related to you or heaven battling city, but in conclusion, it’s still related to you.”

Li Hao thought for a moment and nodded.

“I know you might not be willing to do anything else ... But I have one request. If I break the superpower lock ... I will try not to break it completely. I will find you ... You must suppress it for me once!”

Li Hao was stunned. What ... Was this?
