

## Constellation 881

Chapter 881: take action

...

What did that mean?

“Not now. Perhaps ... It’ll be some day in the future!” The light sword looked at him and said.

“What if I refuse?” Li Hao frowned.

The light sword laughed. “That’s not a big deal. It’s just that we have a Martial Master who can break the Super Lock at any time. His combat power should be one or two times stronger than the southern Fist. It’s not a threat ... It’s a threat!” If you don’t want to ... Then you’ve forced me to do this!”

Li Hao was silent.

Was this condition difficult?

It wasn’t difficult, but it consumed a lot of resources.

The key was that the other party was indeed threatening him to help.

However, the meaning of the light sword was clear. He had killed Xu Feng, which might have interfered with some of her plans, or the solutions to some of her problems had been disrupted by Li Hao.

On the side, Southern Fist pouted.

What are you bragging about!

One or two times?

You must be joking!

Of course, this guy had broken all the Super locks, so he was indeed very strong. At this moment, he and Hong Yitang didn’t interfere with Li Hao’s decision. They wanted to see what Li Hao would do.

Li Hao let out a breath and smiled. “Senior, your conditions are not simple! As for Xu Feng, it was a fair fight. He deserved to be killed by me! After beating up the young one, the old one came ... Fine, I’ll admit it this time! But ... Since senior is like this, then let’s follow the rules of the martial world. This time, you bullied me because I’m weak, and I’m no match for senior ... Wait for my teacher to return! If teacher is back and can get back at us ... I hope senior won’t avoid the battle!”

Sword of Light’s eyes flickered.

Li Hao’s meaning was clear. He admitted defeat this time, but her light sword was bullying the weak. If Yuan Shuo could get back at her, he would definitely settle the score with her. Whether it was a life-and-death battle or something else, that would have to wait and see.

The current Yuan Shuo was very weak.

Now, he might be at most at the early stage of the rising light realm.

However, everyone believed that Yuan Shuo would not be weak forever!

She didn't expect that Li Hao wouldn't say that he would take revenge, but instead let Yuan Shuo stand up for him ... In fact, even the southern Fist and the earth overturning sword were a little surprised by his words.

One had to know that Li Hao had just killed a mid-stage rising light realm cultivator!

They looked at Li Hao strangely, but Li Hao didn't say anything.

It was nothing!

Give your teacher some motivation and pressure. Your disciple is being bullied by the strong and has come looking for you. You should just fuse the five Forces earlier. If you don't become stronger, I can take revenge myself! 1

He had thought it through ... This time, when he went out, he would spread the news and let his teacher know that the radiant sword sect was bullying him!

If his teacher didn't want to come back now, he should come back earlier ... He still had a lot of swords to provide him. He could even fuse the five Forces directly. How many people of the Crimson Moon would he have to kill in order to obtain so much blood power to strengthen his five internal organs and complete the fusion of the five Forces?

"Alright!"

The light sword didn't say anything else. Since Li Hao said so, then so be it.

Yuan Shuo ... She would just wait!

Nan Quan laughed and looked at her playfully. These senior martial masters seemed to have a lot of confidence in Yuan Shuo. No matter how strong Yuan Shuo was now, Nan Quan only felt that the light sword's actions this time would probably leave him with big trouble.

The light sword took a deep breath and left without saying anything.

She would be waiting!

As long as she succeeded, even if Yuan Shuo completed all the cultivation of the spirit accumulation stage, she would not be afraid of anything.

After she left, Hong Yitang suddenly smiled. "This guy ... Is probably a little anxious! And Li Hao, are you going to release the news?"

"Yes,"

"Then ... That's interesting. I'm afraid your teacher will have to fight Hong Yue to the end. I don't know if he's forcing himself, your teacher, or Ying Hong Yue."

Li Hao also laughed. "It's the same. Only with pressure will there be motivation. It's the same for me and my teacher."

As the radiant sword turned around and left ...

Just as they were talking, BOOM!

A deafening sound rang out!

In the distance, Lu Yue roared, "hou Xiaochen, you're crazy!" You really dare to make a move ... Do you really think those people in heaven battling city will help you?"

The decisive hou Xiaochen immediately made his move.

After the Sword of Light left, hou Xiaochen couldn't be bothered to wait any longer.

In an instant, a great battle broke out.

BOOM!

The loud noise continued as the spear reflected the void. A fiery red spear swept across and instantly suppressed Lu Yue, who was at the late-stage and LAN Yue, who was at the mid-stage of the rising light realm.

On the other side, Kong Jie's pair of iron fists smashed down, forcing King Pingdeng to retreat continuously. The three great sunrises of Yama were blocked by him alone!

A great battle instantly erupted.

The Rogue cultivators did as he had expected. When they saw the battle between the two sides break out at dawn, they fled in an instant. They didn't care if there was another way out. They all fled with pale faces!

.....

On the city wall, Nanquan's hands were itching, "it's all military merits!" Li Hao, are you really not going out?"

Li Hao didn't say anything. He landed on the ground and flew toward the edge of the city. "Let's wait over there. If we don't leave the city ... Be careful that our Minister might eat us up as well. "

The three of them quickly flew over.

In the next moment, the three silver-ranked experts also flew over. Director Wang didn't appear.

The Black Panther ran on the ground, somewhat excited, and followed them with great interest.

.....

BOOM!

At this moment, the battle broke out suddenly, but both sides were prepared. The three major organizations had been worried that they would attack. At this moment, they were not caught off guard.

Even though they were prepared, when they really fought, Lu Yue and the others felt the pressure.

Immense pressure!

## Chapter 882: take action

...

Hou Xiaochen's spear seemed to be tearing them apart one after another, making LAN Yue and Lu Yue feel extremely uncomfortable. At this moment, the two of them no longer cared about anything else. Origin divine weapons appeared on their bodies.

On the other side, King Pingdeng did the same. An origin divine weapon the size of a small house appeared and instantly enveloped the surroundings, turning it into a dark hell. In this hell, countless little ghosts appeared and pounced at Kong Jie!

Kong Jie's blood essence was strong. With a boom, she exploded countless little ghosts. She sighed, "The Yama is bloodthirsty. I didn't feel it clearly before, but now I do. Pingdeng, this origin god weapon of yours isn't a good thing. These tens of thousands of dead souls ... Did you massacre the entire city?"

King Pingdeng's expression was cold as he cursed in his heart!

If it wasn't for the fact that the 16 Lords of Hell hadn't come, they would have been the ones guarding the origin god weapon. With the Shura hell net and the 10 million dead souls, even a peak sunrise would have a chance of dealing with them!

Unfortunately ... Damn it!

At this moment, he also felt hatred!

Yama was naturally confident that he would be able to keep watch here. He was very strong, and together with the sixteen Lords of Hell, they could actually defeat Green Moon. But now, it was all Li Hao's fault ... Where did his own sixteen Lords of Hell go?

Is He Dead?

He regretted even more that he let the king of Samsara leave with them.

"Kong Jie, don't force me!"

"I'll force you!"

BOOM!

Kong Jie threw another punch. Suddenly, blood Qi filled the air!

It was like a wild lion's roar, like a tiger that had been released from its cage!

In the distance, Li Hao took a look and was a little surprised. He looked at the southern Fist: "He's a Northern fist?"

"No."

Southern Fist shook his head. "Northern fist isn't like this. Northern fist's fist is similar to old Hong's sword. It's extremely majestic. Kong Jie's fist is a killing fist. My fist is a domineering fist! If this fellow hadn't joined the Imperial court, he would've been Silvermoon's three punches. But now that he's joined, no one has given him a ranking. "

"Is he one of the three great commanders?"

"No."

Nan Quan shook his head again, "of the three great commanders, hou Xiaochen is one, the other is probably Huang Yu, and the last one ... Could be your director Zhao. Of course, I'm not sure."

"Deputy Director Zhou seems to be a strong person ..."

"Him?"

"Who knows?" Nan Quan thought for a while. "He has been working with that Zhao guy for many years. Perhaps ... There won't be one third commander, but two?"

Li Hao was stunned. He had never thought of this.

However, the two of them had worked together for many years, so it wasn't impossible.

As the head coach of the royal family, Nan Quan knew a lot of information. He must have his reasons for saying this.

As he said that, the first person to flip out in the distance was none other than Yu Luosha!

At this moment, Chief Steward Yu's aura was like that of a devil, filled with a sinister aura!

Her opponent was elder chiming from the flying heavens sect, an assassin at the mid-stage of the rising light realm. At this moment, this assassin had disappeared into the void, but in the next moment, he suddenly reappeared. Yin Qi appeared in the surroundings, and Yu Luosha struck out with a palm. This palm strike was even somewhat nauseating, and the smell of blood was so thick that it was rancid.

Li Hao's expression changed slightly. His killing intent was so strong!

How many people had he killed?

"Yu Luosha's Luosha palm was raised by killing. This woman wasn't a good person back then. Without your teacher to stand in front of her, she killed some famous martial masters. This woman was the martial arts troll back then!"

"The three great commanders didn't kill her?"

Li Hao was a little surprised. Could it be that the person whose hands were covered in blood was a woman? was that why hou Xiaochen didn't kill her?

Nan Quan chuckled. "This woman ... It's hard to say. Back then, she entered the martial arts world for revenge. She came from a martial arts family, but her family was massacred. She killed her way up to take revenge, and in the end, she killed her way up to her family. She killed many people to take

revenge, but hou Xiaochen probably had his own standards and judgment, so he didn't kill her in the end."

"Later on, that old lecher Ying Hongyue set her eyes on her. With the rise of superpowers, this woman left with her and joined Hongyue. This woman doesn't have a heart for justice and joined hou Xiaochen ... It's probably because hou Xiaochen has a pretty face and didn't kill her back then. He's infatuated with her and that's why you guys have chief Yu."

Li Hao didn't say anything more. He just watched. At this moment, Yu Luosha's bloody palm was too murderous and bloody. Even if the other party was a top assassin, his cloak was torn to pieces by the murderous aura, revealing a face that wasn't too old. In fact, it looked very young.

This elder crimsonbright wasn't very old.

"Jade Rakshasa ..."

BOOM!

Chiming seemed like he wanted to say something, but Chief Steward Yu had no intention of speaking at all. One palm after another, he was extremely crazy, completely different from his usual calm.

When a black origin god weapon appeared on her opponent's hand, Yu Luosha suddenly shouted. A pair of Scarlet gloves appeared on her hands. They seemed very thin.

However, as the glove appeared, she slapped it down, and the smell of blood became more intense. The nauseating smell filled the entire outer city.

BOOM!

Elder chiming was actually no match for Yu Luosha. This expert who had once tried to assassinate Xu Guang no longer had the demeanor of an assassin. He hurriedly entered the void again, wanting to escape.

Li Hao looked at her for a while, then turned to look at the others. 1

Chapter 883: -take action

...

On the Golden spear man's side, his opponent was also a rising light from the sky Realm. However, he was only at the early stage of the rising light realm. At this moment, he was being suppressed by the Golden spear man's spear and had almost no power to fight back.

Li Hao wasn't surprised. Golden spear was a pure Martial Master and was extremely powerful. Although his opponent's movements were strange and agile, he was still restrained by the Golden spear. The powerful spear intent pierced through the darkness, leaving no place for his opponent to hide.

Looking at the other two places, Hu Qingfeng seemed to be slacking. As he fought with the young man from the Liu family, he seemed to be getting closer to Kong Jie. It was unknown if he was trying to

launch a sneak attack ... As for Qi gang, he was fighting to a draw with the general of the Linjiang governor's mansion.

Hu dingfang and the others were hunting down some itinerant cultivators ...

Li Hao's interest was piqued. He felt that they were not needed. These Silver Moon officials had a chance of dealing with their opponents ... Of course, it would be difficult to kill them.

However, before the light sword was used, the old woman, who had threatened Li Hao for a while, had already left the outer city with the unaffiliated cultivators. Li Hao was not sure what the old woman was thinking.

At this moment, something happened.

Hu Qingfeng probably wanted to take the opportunity to launch a sneak attack on the young man of the Liu family. The two sides exchanged perfunctory pleasantries. While Hu Qingfeng was fighting the young man, he approached Kong Jie ... In the end, before Hu Qingfeng could launch a sneak attack ... Suddenly, with a loud bang, Hu Qingfeng was sent flying by the young man of the Liu family with a spear strike, and he was severely injured in one move!

Hu Qingfeng spat out blood and was sent flying backward, his face full of disbelief!

Didn't we agree to ambush Kong Jie together?

Why did you change your mind?

The young man from the Liu family looked cold. Idiot!

Do you really think I believe you?

After sending Hu Qingfeng flying with his spear, the other party turned around and attacked Qi gang with his spear. Together with the man from the Linjiang governor's office, they instantly defeated Qi gang.

In the distance, hou Xiaochen, who was currently suppressing Lu Yue and the others, saw this scene ... And was speechless.

What a F \* cking piece of trash!

'Hu Qingfeng is the worst of the worst. He can't even deceive people or be a snitch. He must have exposed some flaws and fallen for their trick. More importantly, he didn't have much vigilance against them. He's too arrogant and thinks that they've been deceived by him!'

Now, in the blink of an eye, he had been sent flying, and even Qi gang was in danger.

If it wasn't for the fact that he had the strength of Xuguang, hou Xiaochen wouldn't even bother to look at him.

.....

Within the city.

Li Hao was also speechless. Was Hu Qingfeng the weakest Xu Guang he had ever met?

He felt that he had a chance of beating this guy when he fused the three forces back then.

At this moment, Hou Xiaochen spoke, "Li Hao, Earthcover sword, Southern Fist ... Let's end this quickly!" I don't have any other thoughts, but I'm not in a good position to unseal too much. My situation is more serious than yours ..."

His soul-splitting spear will was too powerful. It kept pressing down on his body and he kept coughing. It was much more serious than the earth overturning sword and the others. This also meant that he might be stronger after unsealing.

However, in normal battles, killing a late-stage rising light green Moon Martial Master was still a little difficult.

Li Hao was actually worried about him.

But at this moment, Hong Yitang still sent a message, "Make your move! At the very least, we still have the confidence to return to the city. This guy has fought with me before, and he hasn't recovered yet. "

After Hong Yitang said that, Li Hao considered for a moment. In the next moment, he instantly broke through the air without a word!

Although he wanted to wait a little longer, since Hong Yitang had said so ... He had to make a move.

As long as he returned to the city, with the two gold-rank experts, Hou Xiaochen and the others wouldn't be able to do anything to him.

He went straight for the Governor-General of Linjiang, who was at the middle stage of the rising light realm. Although Li Hao had killed Xu Feng earlier due to some unexpected factors, this man was the best target for him to practice on now!

He slashed out with his sword!

The sword gleamed as the four forces merged. Qi gang was being suppressed by the two of them when he suddenly saw a flash of light in front of his eyes. A sword gleam had pierced through the air!

At this moment, Nan Quan punched the origin god weapon on Yama's side. The origin god weapon that was originally trapping Kong Jie trembled a little.

As for the earth overturning sword, it was even more direct. The sword pierced through heaven and earth, and with a loud boom, the elder who was fighting against Jin gun was killed on the spot. Jin gun looked at him with a stupefied expression.

Hong Yitang also looked at him and said calmly, "Think about it carefully. The more you fight, the more chaotic it becomes. Silvermoon's three Spears, silver spear, and copper spear are all dead. You're the only one left, but you ... Don't seem to have been able to make the three Spears famous!"

The Golden spear lowered its head. At this moment, it seemed to be at a loss.

He looked around ... At this moment, he suddenly felt like his spirit was about to collapse.

North and South two fists, Silver Moon Seven Swords, square blade King, Silver Moon three Spears ...

The others all had their own representative figures, but the three Spears of Silver Moon seemed to have completely declined!

Li Hao, on the other hand, was like a fish in water. He attacked again and again, and the injured Qi gang heaved a sigh of relief. He went to fight the young man from the Liu family, leaving Li Hao to fight the general of the governor's office!

At this moment, Li Hao didn't think of anything else but sword practice!

Sword Qi crisscrossed, five birds technique burst out, sword, fist, leg ...

It seemed a little messy, but gradually, they were all getting used to it and merging.

When he killed Xu Feng before, he didn't have time to experience the feeling of the fusion of the four forces. Now, he had a new experience.

As the three of them joined the battle, the three large organizations knew that they had lost!

Chapter 884: take action

...

The Silver Moon Martial Master was too strong!

The green peacock let out a furious roar. With a loud boom, the blood Qi in its body exploded and its strength increased by 30%. However, its face was pale as it roared, "If we die Here, the red moon will not let you off!"

Was it Ying Hongyue or the Hongyue organization?

At this moment, hou Xiaochen knew that she was actually talking about Ying Hongyue.

Hou Xiaochen coughed and chuckled, "If Ying Hongyue doesn't let me off ... That'll have to wait until the future. Besides, who knows if I'm the one who won't let him off?"

BOOM!

The long spear crossed the sky, erupting with a resplendent flame. A Phoenix tore through everything and suppressed the green Moon!

"Isn't it normal for Peacock to die at the hands of Phoenix?"

Hou Xiaochen chuckled as the massive Phoenix exploded with divine intent. BOOM! It was as if the heavens had been split apart as the Phoenix tore through everything in its path!

Lü Yue's spirit seemed to have been completely obliterated in an instant. She looked at hou Xiaochen with a dazed look in her eyes, "Why ... Have you not completely declined?"

How could a Martial Master from Silvermoon still maintain such a powerful combat strength?

In the past, she had left with Ying Hongyue because martial masters had started to decline and superpowers had risen. She had chosen the path of superpowers and given up on the path of martial masters.

“Because ... Ying Hongyue didn’t give up either!”

“Isn’t he also a Martial Master?”hou Xiaochen chuckled. The Silver Moon Martial Master had dominated the world for many years. How could he fall so easily? You’re ... A little silly!”

BOOM!

The green Moon exploded into pieces, and hou Xiaochen sighed, “There’s one less Silver Moon Martial Master!”

However, the green peacock had long lost the heart of a Martial Master. So what if it died?

He was just a fake Martial Master!

Beside him, LAN Yue was terrified. At this moment, she was in extreme despair. She looked at hou Xiaochen, no longer as calm as before.

As for Zi Yue, she was also a little dazed.

Her strength was not worth mentioning at this moment.

Even green Moon was dead, not to mention them.

Hou Xiaochen looked at the two of them and sighed, “We’re all descendants of old friends, so I didn’t want to bully the weak ... It’s a pity that I’m leaving Silver Moon, so I can’t leave you behind to harm him. Let’s die together!”

BOOM!

The long spear pierced through the heaven and earth once again. LAN Yue was a little desperate and depressed. Her eyes dimmed instantly, and her body collapsed. However, her spirit had long been completely torn apart.

As for Ziyue, she was a little confused. She was still alive.

“Leave it to Xiaoyu and Li Hao!”

One was her mother’s friend, and the other was her teacher being hunted down by Zi Yue’s mother. Hou Xiaochen had only heavily injured her with a single spear strike, but he had not killed her. He smiled, then disappeared and reappeared on the Yama’s battlefield!

With a group of top-tier Silver Moon martial masters working together, these people had no hope!

In the blink of an eye, the Sun glow were killed on the spot.

A moment later, Li Hao let out a roar and completely activated the art of bloody blade. With a loud boom, he gasped for breath and split his opponent in half!

The next moment, he rushed into the outer city without looking back.

Everyone looked at him, and after a while, hou Xiaochen laughed.

This guy ... Had misunderstood him too deeply!

Li Hao, on the other hand, panted for a while and then roared, "Boss, don't run around!"

Liu Long was still running around with the Rogue cultivators. Be careful not to be killed by mistake!

As soon as he finished roaring, he suddenly looked in another direction. The Black Panther, which had been silent all this time, suddenly appeared in a strange way. It swiped out with its claws, which actually contained nine overlapping forces!

BOOM!

Chiming, who was trying to avoid Yu Luosha, looked at the claw that suddenly appeared on his chest in disbelief ...

He turned around and saw the Black Panther disappear instantly. It had also taken away his storage ring and the black longsword.

Even Yu Luosha was shocked. She looked at the Black Dog that was running away, and she was extremely surprised and shocked!

Although chiming was suppressed by her, he still had the strength to fight. In the end, he was killed by a dog's sneak attack! 1

Li Hao's eyes and mouth were wide open ... That was a mid-stage rising light realm!

In the end, this dog killed him with a single claw. Even if Yu Luosha was there, this shouldn't have happened!

The Black Panther ran very quickly. Not only that, but its figure also traversed the entire battlefield. In the blink of an eye, all the spoils of war that it had not collected in time were all in the Black Panther's mouth.

The Black Panther had a pile of storage rings in its mouth. In the blink of an eye, it ran to Li Hao and threw them at Li Hao's feet, its face full of anticipation and its eyes full of excitement.

Was it enough to eat the sword energy?

It knew that Li Hao seemed to be very poor ... So it had snatched a lot of storage rings. It knew that there seemed to be good stuff inside that could be used to replenish its sword and eat!

At this moment, Li Hao was stunned.

?!

This dog is amazing!

It was even more powerful than he had expected. He killed chiming with a single claw. He definitely had the strength of a mid-stage rising light expert. How was this possible?

When he killed Xu Guang, he even used the art of bloody blade.

But this guy ...

Li Hao sighed. At this moment, he suddenly became very suspicious of his own strength. 1

Chapter 885: Departure (3)\_1

...

With the addition of the earth-overturning sword and the southern Fist, the three major organizations were completely powerless to resist.

Earthfall sword, hou Xiaochen, Kong Jie, Southern Fist, Jade Rakshasa, golden spear ...

These famous martial masters had all cultivated to an extremely profound level when they joined forces to kill the enemy. How could these rising lights, who were only at the middle-level strength of the large organizations, be a match for them?

King Pingdeng's physical body had a huge hole in it from Kong Jie's punch. He looked at Kong Jie with some unwillingness. At the moment of his death, he was still somewhat unconvinced. "My Lord of the 16 Hells didn't return ..." He said.

"They're all dead!" Li Hao said in the distance.

"....."

King Pingdeng turned to look at Li Hao. A moment later, he closed his eyes and died.

They were all dead!

This could be considered a form of comfort.

Those people were dead. Otherwise, they would have returned. The unwillingness in his heart lessened a little.

Kong Jie scoffed. "Strength lies in oneself. Even if your so-called Lord of hell is alive and has come ... What can you do?"

With the death of King Pingdeng, the remaining two Yama powerhouses were killed by the southern Fist!

All the experts from the three great organizations had fallen on the spot.

As for Qi gang, he had also taken down the young man from the Liu family. He looked at the crowd hesitantly and said, "He is from the Liu family, the Financial Secretary ..."

The Liu family, one of the nine divisions that controlled the financial division.

Even if they were not the core members of the Liu family's younger generation, they were still people of the nine divisions.

The young man from the Liu family turned pale.

Hou Xiaochen glanced over and calmly said, "I've said before that people from the nine divisions can join Silver moon's government. Since he's joined one of the three great organizations ... Let's kill him!"

Qi gang's heart trembled when he heard this!

Do I really have to kill him?

This was not one of the three hostile organizations, nor was he the general of the governor's mansion in the neighboring province. This was one of the leaders of the nine divisions in the world, the Liu family!

"You and Hu Qingfeng, deal with him!"

Hou Xiaochen looked at him calmly, then at Hu Qingfeng, who was still playing dead.

Hu Qingfeng's face turned pale.

His injuries weren't that serious, but it was too dangerous to fight against Xu Guang. Therefore, he had pretended to be dead when Li Hao and the others joined the battle. But now ...

Hu Qingfeng gulped when he saw hou Xiaochen's indifferent eyes. He quickly stood up, no longer seriously injured.

As for the Liu family young man who had been heavily injured by Qi gang, he was still breathing heavily. He looked at hou Xiaochen and said, "if I die ... You won't have an easy time either! "The three major organizations don't dare to kill the direct descendants of the nine divisions. This is a tacit understanding! Now that everyone from the three organizations is dead, everyone will know that this is a trap set by you, hou Xiaochen!"

"I'll put all the blame on you, hou Xiaochen!"

On the other hand, hou Xiaochen was calm and looked at Qi gang and Hu Qingfeng in silence.

Hu Qingfeng gritted his teeth and struck at the young man with his palm!

BOOM!

The young man from the Liu family was already heavily injured, and his bones were all broken by the palm.

Qi gang's heart turned cold, but he didn't dare to say anything.

Gritting his teeth, he let out a low growl and punched out!

BOOM!

The young man's five internal organs exploded, and his eyes widened. He was no longer moving.

At this moment, all the sunguang-ranked experts had been killed.

No, the light sword and Yuan xingwu were still alive.

Yuan xingwu had been standing in the distance the entire time. He didn't run away, but he didn't participate in the battle either. He didn't help hou Xiaochen or the three big organizations, so no one knew what he was thinking.

The star Army, by right, knew that something was wrong. With Yuan xingwu's status, he could have joined the ranks of the three major organizations, and hou Xiaochen wouldn't have rashly attacked him.

A proof of allegiance was still necessary.

However, the other party did not make a move until the end.

"Xiao Yu ... Go and deal with the others!"

Under hou Xiaochen's command, Chief Steward Yu disappeared.

In the distance, the sound of battle could be heard. This time, in addition to them, Hu dingfang and the others had also come. The three suns had gone to chase after the collapsed itinerant cultivators.

Among the Rogue cultivators, there were many three suns.

Hou Xiaochen didn't say anything else. On Li Hao's side, the earth overturning sword and Southern Fist also retreated into the city. The two sides were separated by dozens of meters and didn't speak again.

.....

After about half an hour.

The group of people returned.

They were all bathed in blood.

Hu dingfang and the others seemed to be slightly injured, but Li Hao ignored them. He looked at someone in the crowd and raised his hand. "Boss, he's coming!"

It was none other than Liu Long.

At this moment, Liu Long's body was also covered in blood, but it was unknown if it was his or someone else's.

Liu Long was panting. Seeing Li Hao wave at him, he didn't say anything and walked into the city. Hou Xiaochen glanced at Liu Long, but didn't say anything.

Silver Moon had sent in a dozen or so people this time, but only two were missing.

They were all Hu Qingfeng's subordinates.

As for the others, even if they were injured, they did not die. This was a huge victory for Silver moon's officials.

After a while, Chief Steward Yu returned and said, "The light sword said that once the remains open, she will leave ... She won't reveal anything to the outside world, but it'll be fine as long as Li Hao remembers the agreement!"

Li Hao frowned and glanced at hou Xiaochen.

Hou Xiaochen seemed to know what he was thinking and laughed, "It's not that the light sword can't be killed. If we really want to kill her, we can join forces. Even if we don't unseal her, we still have a chance of killing her if we unseal all of her!"

## Chapter 886: Departure (2)

...

“But ... There’s no need! She won’t leak the secret, and ... As long as she’s alive, she’ll help us do some things, including you, Li Hao. That’ll take a lot of pressure off you, and the Xu family ... Will have to put in a lot of effort because of her. ”

Li Hao fell into deep thought and didn’t say anything.

The Xu family ...

In that case, the reason why the light sword asked him to help her suppress the seal once was to find trouble with the Xu family?

Strange!

Li Hao didn’t know much about the inside story, but he didn’t ask for details.

At this moment, Li Hao’s side had four people and a dog.

On hou Xiaochen’s side, there were only 13 people.

In addition to the 10 members of the star Army not far away, the light sword, and the purple Moon who was lying on the ground, there were only 29 people in the huge ruins at this moment, and a dog was still alive.

And when they entered, there were close to 2000 people!

These martial masters were all very ruthless. They were simply going to cut the weeds and eliminate the roots. They didn’t think too much about who they couldn’t kill, who they shouldn’t kill ... To hou Xiaochen, anyone who entered the ruins was either his own or his enemy. He could kill them all!

Hou Xiaochen glanced at Li Hao and smiled. “What’s your plan for Yuan xingwu?”

In the distance, Yuan xingwu was expressionless.

No one knew what he was thinking. In fact, Li Hao didn’t understand either. What was the point of him standing here?

On the other hand, the other three sons of the star Army were a little nervous and afraid.

How could they not be afraid when they saw these people kill so many people?

“Minister hou is asking me?” Li Hao smiled.

“Yes,”

“It’s up to you to decide,”hou Xiaochen said calmly.” If you think you can kill them, then kill them all ... Although these people didn’t join forces with the three major organizations, it’s a crime for them to sit by and watch the government attack the Darksider organization!”

Li Hao laughed and didn't say anything. Instead, he said, "Brother ermu, I need your help."

Among the crowd, Mu Lin kept an extremely low profile.

At this moment, Li Hao suddenly called out his name. Confused, he hurriedly said, "What favor?"

"Move the bodies ..."

Li Hao pointed at the corpses and said, "throw them into the city!"

It would be a waste to die outside.

It would be better to throw it into the city and let the earth absorb some life force, which could restore heaven battling city even more.

So much light of dawn was wasted.

As for the mysterious energy ... To be honest, at this moment, the mysterious energy obtained from killing people was actually just so-so, it was not worth wasting too much energy.

Killing one rising light would at most give him 10000 cubic meters of mysterious energy.

Then, one divine power Stone could be exchanged for 1000 cubic meters of mysterious energy, which was only 10 divine power stones. In fact, it was the amount of a normal cultivation divine power Stone. Then, one military Merit could be exchanged for it!

Therefore, even if you risk your life to kill a sunguang, and a late-stage sunguang at that, you will only be able to extract one point of mysterious energy.

It was no wonder that experts at this level would not kill for the mysterious energy.

It was not worth it!

In the past, Li Hao was too poor and ignorant to even see a divine power Stone. At that time, he naturally killed people to obtain energy. Now ... He could be more generous.

Mu Lin looked at hou Xiaochen.

Hou Xiaochen glanced at Li Hao, then at heaven battling city. He nodded slightly and didn't say anything.

Only then did Mu Lin start to move. He quickly threw the corpses into the city.

These corpses were thrown into the outer city and quickly began to melt and be absorbed by the earth. This city ... Was also a city that devoured people!

No matter how many people died, it would not take long for them to look as good as new, leaving no traces behind.

Hou Xiaochen looked at the unmoving Zi Yue on the ground, then at Li Hao, and then at chief Yu. "Xiaoyu, I'll leave her to you."

Chief Steward Yu glanced at Zi Yue, who had a hint of desire in her eyes.

She knew that Yu Luosha and her mother seemed to be good friends. At this moment, she wanted to live!

Yu Luosha knew what Hou Xiaochen was thinking. She looked at Li Hao. "Li Hao, you decide!"

"Me?"

Li Hao was a little surprised. You're giving it to me again?

These few people were interesting.

He pondered for a moment. Since Orange Moon did not come in this time, it meant that she was still chasing after his teacher.

Back then, Orange Moon had also been a Martial Master. Not only was she a Martial Master, but she was also one of the 36 martial masters, known as Black Spider. Her strength was either at the late stage of the rising light realm or at the peak. Even Green Moon was at the late stage, so it was highly likely that she was at the peak of the rising light realm or even stronger.

He was also a Martial Master, one of the thirty-six people. His strength couldn't be weak.

Can teacher escape Orange Moon's pursuit?

At this thought, Li Hao looked at Zi Yue, who was lying on the ground, and smiled. "Leader of the Purple Moon, can I ask you a question? Will your mother take revenge on us because you're dead?"

Zi Yue did not know how to answer and did not dare to answer randomly.

"Also, have you been in contact with your mother? For example, the kind where you just need to inform them and they will come to save you?"

Zi Yue was extremely nervous and did not know how to answer.

"Then kill him!" Li Hao laughed after watching for a while.

"....."

"My mother knows that I've been captured," Zi Yue said hurriedly. "She'll save me. She'll pay any price!"

She finally understood!

Li Hao laughed. "All right. I'll leave it to you, Minister Hou. Bring it back to the night patrollers and lock them up. What's the point of me staying?" Put it in Heaven Battling City and let each of the Heaven Battling Army slash it?"

As he said this, he looked at Yuan Xingwu who was not far away and said, "I'm not too familiar with the Star Army, and I don't know much about Yuan Xingwu's name. My teacher has never mentioned him before ... But since you know him, you can do as you see fit! It's an official matter. I'm just a City Patrol, so I won't say much." 1

Chapter 887: Leave (3)

...

He wasn't going to take this.

What should I say?

He said not to kill?

Why should I say it!

Hou Xiaochen was good at doing favors. He wanted Li Hao to continue accepting favors ... But Li Hao didn't accept them. He wasn't familiar with Yuan xingwu to begin with, and Hu dingfang was also in the team.

As expected, Hu dingfang hurriedly said, "Minister hou, Yuan xingwu is ... Is Yuan Shuo's eldest disciple and also Yu Hua's senior brother. Furthermore, he has always supported the Silver Moon military ..."

He couldn't help but speak hurriedly.

He was familiar with Yuan xingwu. Not only were they familiar, but they had also communicated with each other before. One was in Silver Moon, one was in stellarsky city, one was in the center, and one was in the border. They relied on each other.

The power behind him was a little complicated.

The Bai family, Huang Yu, and the star Army all supported him ... But Hu dingfang knew that the most reliable one was Yuan xingwu, who had a good relationship with Chen Yuhua.

As for the Bai family, it was a relationship of interests.

As for Huang Yu, he was just giving the Bai family some face, and he also had the intention to suppress the Bai family. Therefore, he had to beg for mercy at this moment!

At this moment, that Yuan xingwu finally opened his mouth and said in a deep voice, "Please forgive me, Lord Marquis. It wasn't that I didn't want to help just now, but I knew that it would be useless to do so, so I didn't want to disrupt your plans. This time, I've come to Silver Moon on behalf of the military law Department to discuss some cooperation. I also want to find out your strength ... Silver Moon is powerful, so we can move on to the next few collaborations ..."

"You?" hou Xiaochen laughed. You're too weak, you're not qualified. "

"Yes, I know,"

Yuan xingwu was not surprised, but he still said again, "There are many reasons why the military law Department sent me here. Second, my master is the five bird King, and he has some reputation in the martial arts world. Third, I am familiar with dingfang and can talk to commander Yu. Fourthly ... The military law Division also knows that Li Hao is a Nightwalker, and Li Hao ... Is my Junior Brother. This is also one of the points. "

He looked at hou Xiaochen, "I just didn't think that the Silver Moon martial forest would still be so powerful!" I've been running around all these years, raising these brothers of mine. They won't leak the

secret. If the Marquis is interested ... Even though I can't do much, I can still pass on a message or two for the Marquis."

Not far away, Li Hao just listened in silence and didn't interrupt.

Did Yuan xingwu really come on behalf of the military law Division to discuss cooperation with hou Xiaochen? or was he simply here to steal the treasure or even deal with hou Xiaochen? Li Hao didn't really care about that.

It had nothing to do with him!

At this moment, he was watching Mu Lin throw the corpse over while collecting some special energy, such as Fei Tian's dark element.

He didn't lack the energy of the five elements.

On the other hand, there were not many special energies.

Then, he checked the storage rings that Black Panther had brought and did some simple cleaning.

The flying origin divine weapon, the sword, was in the hands of the Black Panther.

Li Hao now had five origin God weapons.

King Pingdeng's small house, the repair yard, had been taken by Kong Jie, while LAN Yue and Lu Yue's origin divine weapons had been taken by hou Xiaochen. The Liu family's young man also had an origin divine weapon, which had been taken by Qi gang. As for whether or not he would give it to hou Xiaochen, Li Hao had no interest in knowing.

He checked through all the storage rings on his hands.

Li Hao now had 40 storage rings. It should be known that only three suns and rising light would wear storage rings ... He had gained a lot this time.

He looked through them, mainly at the storage rings and the divine power stones.

After counting, Li Hao had found more than 800 divine power stones!

A terrifying number!

Li Hao didn't actually get many storage rings from top-level powerhouses. With the three suns' accumulation and the ones he had obtained this time, he had more than 800.

In addition to the previous 100 or so, he had just about 1000.

This was just an ordinary divine power Stone.

He had exchanged for 46 high-level divine power stones at the military supplies Department. In addition to the 10 that he had given out previously, he had a total of 56 high-level divine power stones, which was equivalent to 560 divine power stones.

Therefore, Li Hao now had 1560 divine power stones.

Five origin God weapons.

As for the mysterious energy, there was too much. At this moment, he had a large number of storage rings. The storage rings that Li Hao had come into contact with before all stored 1000 cubic meters of mysterious energy, because most of them were unnecessary. For example, people like Xu Guang mostly cultivated with divine energy stones. Very few people used mysterious energy anymore.

As for the storage rings, Li Hao now had about 200 of them, which meant a total storage capacity of 200000 cubic meters. However, some of them had been used.

But even so, Li Hao's mysterious energy had already exceeded 150000 cubic meters!

A wave of fat!

At this moment, Li Hao had transferred all these items into his storage ring.

He didn't care about the people outside. He moved the divine power stones and the storage rings into the largest storage ring.

This storage ring was Xu Feng's.

The young master of the Xu family was not very powerful, but his storage ring was big. An ordinary storage ring was only as big as a coffin, but Xu Feng's was about the size of a house.

Besides the divine power stones and the mysterious energy, Li Hao also found some secret manuals.

He didn't have the time to look at all of these, so he stuffed them all into his storage ring.

Then, he found more blood gods, and there were quite a lot of them. They didn't come from one storage ring, but from different storage rings. Obviously, someone had killed the strong cultivators of the red moon secretly.

Chapter 888: Departure (3)

...

This time, none of Hong Yue's seven moons experts had a red shadow. However, there was also an elder at the sunguang realm on her side. He had been killed by a gold-tier warrior outside the city. Unfortunately, his red shadow had been shattered.

Li Hao didn't even see the remaining three-Sun Red Shadows, perhaps Hou Xiaochen had taken them away.

After checking his spoils, Li Hao actually found some other treasures. Some were stored in bottles and jars, but he didn't know what they were. He was in no hurry to open them. Xu Feng's storage ring had some of these things.

In addition, he also had a petal of the heavenly Golden Lotus and a lotus seed. The ones he had obtained at the Cang mountains were all treasures.

Looking at his military credits ... He had just killed Xu Guang and received another 10 military credits. Not only that, Li Hao heard the mechanical voice again."9th Division 12th Regiment commander Li Hao,

heroically killed the enemy, annihilated the enemy and outside the city, outstanding merits, led the 12th Regiment to repel the enemy's attack, awarded 100 military merits!"

"....."

Even Li Hao was stunned. This was probably the most military credit he had ever received. Obviously, heaven battling city felt that although Li Hao's team hadn't been the main contributor in annihilating the enemy outside the city, it was indeed because Li Hao and the other side had reached an agreement to cooperate.

At this moment, he was actually rewarded with 100 military merits!

This wasn't the end. In the next moment, another mechanical voice sounded,""Li Hao, the commander of the 12th Regiment, has provided life energy for the restoration of heaven battling city. He will be rewarded with 100 military merits!"

In the blink of an eye, Li Hao's military merits had reached 210 points.

And this was actually because he had ordered people to throw the corpses into the city.

Li Hao looked back. The three silver-rankers were still there, but director Wang and his teacher weren't there. Li Hao suspected that the two of them had seen it, so they were rewarded.

He did not expect that such a casual action would actually earn him 100 military merits.

One hundred military merits could be exchanged for one hundred high-level divine power stones, which was equivalent to one thousand ordinary divine power stones. This was more valuable than the dozens of storage rings that Li Hao had seized!

He had earned big!

Li Hao was grinning from ear to ear!

A total of 210 military merits. It's a pity ... He didn't say that he would double it. Li Hao was a little regretful.

He glanced at He Yong and Hong Yitang. The two of them had also gained a lot. At this moment, one of them had 50 military merits, the other had 70 military merits, and Hong Yitang had 70 military merits. It seemed that they had also been rewarded.

Otherwise, they would have to kill 7 rising lights. Obviously, the two of them didn't kill that many rising lights.

Nanquan also seemed to be laughing happily. At this moment, Li Hao suddenly sent a message in the armor channel,""Martial uncle Nanquan must have obtained a lot of military merits, right? Previously, I borrowed 10 military merits from martial uncle ..."

The southern Fist was speechless!

What the hell?

What did he mean by borrowing?

'Isn't that the reward for me protecting you?'

Since the inspector guard had passed, it was obvious that he approved. You want to ask me for it? dream on!

He had worked so hard to accumulate 50 military merits, so there was no way he would give them to Li Hao.

Li Hao laughed and didn't care. At this time, Hou Xiaochen and Yuan Xingwu seemed to have come to an agreement. Li Hao didn't care much about it, and he didn't care about it at this moment. Instead, he said, "Manager Yu, do you have a key? The key is the token of Heaven Battling City, so it needs to be retrieved. Manager Yu, please return the key to me first ..."

Chief Steward Yu was slightly taken aback as he looked at Hou Xiaochen.

Hou Xiaochen gave a meaningful smile, "The key is obtained with one's own ability. I didn't know I would take it back."

But Li Hao needed this.

Only those with the key could join the Heaven Battling Army. Otherwise, they would have to go through the recruit training. However, the recruit training had not been restored yet, so he wanted Liu Long to join the Heaven Battling Army.

Therefore, he needed this key.

As for Chief Steward Yu and the others ... Li Hao naturally didn't want them to join.

"Then take it," he said directly, "but I'm now the Heaven Battling Legion's regimental commander. With the key, the only thing you can do is join the Heaven Battling Legion, and joining ... Will only mean joining under my command!" In the Heaven Battling Army, there is a strict hierarchy. As a superior, you must obey military orders. If you don't mind, Minister, you can let Chief Yu join us. I won't arrange any difficult tasks for Chief Yu!"

"As for those who refuse to carry out military orders ... If they run out, they'll be annihilated by the Heaven Battling Army in Heaven Battling City!"

Hou Xiaochen's eyebrows rose slightly.

Li Hao was doing well in Heaven Battling City. If she didn't give it to him, the key wouldn't be of much use.

Do you dare to join the Heaven Battling Army?

If Chief Steward Yu came, there was a high probability that it would only be Hei Teng. Would Hei Teng dare to refuse to carry out the regiment commander's orders?

The new recruits would probably all join Li Hao's 12th Regiment.

"Sure, give it to him!" Hou Xiaochen laughed after some thought.

Chief Steward Yu didn't say anything and simply threw the key to Li Hao.

Li Hao didn't say anything when he got the key. Even if he gave it to Liu Long, it would only be a black banner, but it was an activated black banner. Other things aside, its defense was pretty good, and it could also communicate over long distances.

Li Hao had asked before. Black Phoenix's communication range was quite wide. In the past, when the heaven battling Army was out on a mission, as a Regiment commander, they could definitely contact each other within a thousand miles.

It was hard to say now, but it might not have a big impact.

With the people killed and the mess settled, hou Xiaochen looked at Li Hao and said, "What do you plan to do?" 1

"What?"

Chapter 889: Departure (3)

...

"Do you really want to stay in heaven battling city?"

"You'll have to go out eventually," hou Xiaochen replied calmly. "I'll probably be leaving for the central continent this time." What are your plans?"

"Minister, are you really leaving?" Li Hao was surprised.

"Of course!"

"Silvermoon's side has suffered heavy losses this time, so there's a high chance that they won't dare to enter heaven battling city again," hou Xiaochen said with a smile. "They probably won't dare to go anywhere other than heaven battling city. Right now is not the time for some of the Silver Moon ruins to be opened, so everyone should be aware of this. "

"As for the central continent ... The headquarters of the three great organizations, the nine divisions headquarters, the seven divine mountains, the experts of the four Seas, the imperial family, the three great Duke families ... Many, many experts are in the central continent, and there are also some prodigies. Don't underestimate supers. Although there are many disadvantages to supers, that's because many of them can't control their inner desires. True geniuses won't completely lose their composure even if they suddenly gain power. Li Hao, aren't you one of them?"

Li Hao had only gained strength for a short time.

"Among the supers, there are powerhouses who broke the rising light. To be honest, they're stronger than us now. At least, at our level, we don't dare to break the limit easily. Among the supers, breaking six superpower locks is above the rising light. It was easy to open the four meridians in the four limbs, but it was difficult to open the second Meridian in the five internal organs ... But that didn't mean it was impossible! As for the five internal organs ... Everyone has their own ways. Some people even obtained the water of the spring of life to repair some of their problems. Naturally, they won't explode easily. "

Li Hao's eyes flickered as he looked at Hou Xiaochen.

"You'll only be able to wait in Silver Moon. Are you interested in coming with me to the central continent?"

This invitation was beyond Li Hao's expectations.

"It's true that Silvermoon is at the center of the earth, but that was a long time ago. Unless you're exploring the ruins, the current Silvermoon won't pose much of a threat to you! You're already able to kill someone on the God tier masters list. Are you going to stay here and wait for them to find you? It's very interesting in the central continent. The seven divine mountains, the nine divisions, and the three great organizations all have a large number of experts active in the central continent ..."

He looked at Li Hao and said, "these people didn't come to Silver Moon because they wanted to become stronger in the central continent!" The central continent is a chance for you to rise up, and Silver Moon is the last chance for a top-tier expert to transform. You haven't reached that level yet. "

"There are many opportunities in the central region. There are divine power stones, water of the spring of life, and ancient ruins."

He invited Li Hao to go to the central continent with him!

From what Hou Xiaochen said, it seemed like he was going to the central continent to enter the next transformation stage.

Seeing that Li Hao didn't say anything, Hou Xiaochen smiled and said, "I'm afraid that your master might not be willing to return in a short period of time. He actually knows very well that it will be very difficult for him to grow in Silver Moon and quickly become an expert like the Earthcover sword and the others! You'll only have a chance in the central region. "

"Li Hao, this world is very, very big! Silvermoon...He'll return sooner or later, but for now, let him have some peace. "

"With you around, I'm afraid even Silver Moon won't be able to calm down ..."

Li Hao was speechless.

"Who asked you to be the only descendant of the eight great families?"

Hou Xiaochen laughed, "if you stay here, you'll definitely have a lot of trouble. It'll be better if you go to the central continent, because there's a balance of power between all sides!" There are so many young people on the God tier Masters Ranking list, but the older generation rarely attacks them ... This is because all parties keep each other in check. "

Li Hao didn't say anything.

Li Hao naturally wouldn't have much of an opinion if Earthcover sword had invited him.

But Hou Xiaochen ...

If you follow him to the central region, be careful that even your bones will be swallowed.

Yes, Li Hao was still somewhat on guard against this man. Otherwise, he wouldn't have stayed here and deliberately separated himself from Hou Xiaochen.

Hou Xiaochen seemed to have noticed something and laughed, "What are you afraid of? Li Hao, while you're still young, you should go out more often. The Silver Moon martial masters have always been exaggerating their combat strength. In fact, there are many people like me in the central continent. If you don't go out and explore, you'll never know how strong the outside world is. There are a few geniuses among the night watchers who are extremely powerful. Even though they are supers, they are still very powerful. If I don't unseal them, I might not be their match. "

"Also, don't think that just because you killed Green Moon and yellow moon, the three great organizations are already crippled ... You're too naive! What kind of person was Ying Hongyue? The so-called July, other than him, the rest are actually just his harem. "

Li Hao glanced at chief Yu. Chief Yu's expression was cold as he looked at Li Hao. "What do you mean by looking at me?"

She had left Red Moon a long time ago!

Li Hao coughed and quickly shifted his gaze. "Minister, do you mean that there are still strong people in the Red Moon elder group?"

"Of course!"

"Not just the Council of Elders," Hou Xiaochen laughed. "Apart from July and the Council of Elders, Red Moon also has a secret organization called the ancient divine guards. They rarely appear, and their only mission is to explore ruins! It's similar to our Wei Wu Army, but much stronger. There are many strong people in it ..."

On the ground, even Ziyue was at a loss.

This ... She didn't even know.

"A portion of the ancient divine guards are martial masters, while a portion of them are Ying Hongyue's test subjects. There are also a few heavenly-eyed cultivators who are extremely powerful! "The so-called heavenly eye cultivators are those who have opened their heavenly eyes and have strong spiritual power. You should know that spiritual power is slightly different from divine intent, but it is still very strong. These people are from the three major organizations and the nine divisions!"

Chapter 890: Departure (3 in 1)

...

"If you don't go out for a walk, how are you going to meet these people? If we wait here and wait here, I'm afraid that we'll be completely outmatched in the end. "

At this moment, Nan Quan also said, "we can go to the central region and take a look. There are still many strong people." In addition to some organizations that we know of, there are also some experts who have obtained the inheritance of the ruins in the early years, or are like your master and the others,

who have excavated some ancient secret skills and experts who cultivate ancient secret skills. There are also some ancient martial arts families that have been around for many years. After the rise of the supers, these people may not have been as strong as the Silver Moon Martial Master back then, but they're all pretty strong now. ”

Hong Yitang also replied, ”I can consider it. I still have to go to the central region. I went there when I was young, and most of the Silver Moon martial masters went there. Whether it's for fame or to see more experts, only by sweeping the central region can I have the right to return and dominate the Silver Moon!”

“I'm just worried that hou Xiaochen is trying to set me up ....”

Li Hao didn't try to hide it. He directly said, ”This person ... Has too many thoughts.”

“You're not afraid of him?”

“He won't do anything to you as soon as he arrives. It's still not certain who's the one scheming against who!” Although you're young, you've improved very quickly. I'll protect you when you reach the central region. Why should you be afraid of him?”

“.....”

Tsk!

You can't beat him.

“Alright, I'll consider it!”

Li Hao didn't immediately refuse. After saying this, he said, ”Then I'll go back to the city and ask for the opinions of the generals. Minister, do you want to come in and have a seat?”

“.....”

“Forget it,” hou Xiaochen chuckled.

The little fellow was still on guard even now. 1

.....

Li Hao didn't stand on ceremony and quickly left.

Four people and a dog quickly entered the city.

He was still preparing to give Liu Long an identity.

He had to go out. He couldn't stay here forever.

After letting Nan Quan accompany Liu Long to the military camp, Li Hao went straight to the city Lord's mansion. Director Wang was easier to talk to, so he was going to have a chat with him.

.....

City Lord's mansion.

He didn't know if director Wang went out before, but he was still here.

"Report!"

"Come in!"

Director Wang was a little surprised. This guy was interesting. He even learned how to shout "report".

"General!"

"May I ask if I can still enter heaven battling city after I leave?" Li Hao asked directly.

"Yes, you are a member of heaven battling city, so as long as you wear the silver armor, you can enter and leave at any time."

Li Hao was overjoyed. As expected.

I knew it. It's impossible to restrict everyone in our own city.

"Will heaven battling city still be open to the public? It's open for three days every month, can you close it?"

"Why shut it down?" director Wang asked calmly. You're worried that someone will take the city?"

"....."

Ahem, that was indeed interesting.

However, Li Hao naturally wouldn't say that. He hurriedly said, "I'm just worried that after we leave, there will be no one to guard the city, and those bandits will seize the opportunity. "

"It's fine!"

Director Wang calmly said, "they're only here to die. At this stage, if the bandits you mentioned are the ones who came this time ... Heaven battling city isn't a place they can enter and leave as they please!"

That's good!

"General," Li Hao said after some thought, "the new recruit camp hasn't been restored yet. I want to recruit some people from the outside to join the heaven battling Army, but I don't have the key ..."

"This isn't my business."

Li Hao was speechless. He didn't really want to find that teacher.

But he wanted to activate the black armor on the outside and let the Wei Wu Army wear the fully functional black armor.

However, director Wang still gave a suggestion, "You're going out. Because your organization isn't full yet, in the past, there were regimental commanders who recruited their own soldiers, so you usually have to go through the new recruit training once. However, since it hasn't been revived yet ... Go to your division commander and ask for a special privilege. It's the same to temporarily give you the special privilege to activate Zhan Tiangang."

Li Hao was helpless. More importantly, that person wasn't easy to talk to. Otherwise, he would have gone to look for her just now.

Alright, Li Hao had no choice. Before he left, he asked, "General, are there any particularly good treasures on the sky Star Island?"

"Sky Star Island? Does the energy mine count?"

"Is there nothing else besides this?"

"Of course there are, and there are a lot of them. Unfortunately, time has passed, who knows what else is left behind."

Sighing, director Wang seemed to be reminiscing. After a while, he shook his head, "I don't really remember the details, but I do remember that there might be a side residence of the sea Guardian envoy on the sky Star Island. As for whether it's there or not, I don't know."

"The sea Protector?"

Li Hao was stunned. What was this?

"Back then, the human race won a great victory and the human King pacified the world. In order for the human race and the demon race to progress together, two of the most powerful demons were conferred the title of demon protector and Sea Protector!"

"The demon protector rules over all demons, but the sea area is too vast, so he was appointed as a Sea Protector to suppress the four Seas for the human race!"

"Is he very strong?"

Li Hao was curious.

"Very strong ..." Director Wang thought for a while. "Of course, not as strong as the Overlord and the others, but compared to ordinary powerhouses, he's still much stronger!"

"Then ... Then how do you compare it to my ancestors?"

"....."

Director Wang was speechless. After a while, he said, "slightly worse."

Li Hao was relieved. So that's how it is. It's not as powerful as my ancestor. I thought it was powerful from its name.

The demon protector's mansion ...

Li Hao did remember it. There might be some good stuff, but it was a pity that he didn't know if it was still there. Besides, it was unknown whether the star Island was in the middle of the star dynasty.

The world had changed so much. Who knew how many years it had been since the ancient civilization? who knew how the geography had changed?

"General, I'll take my leave now. I'll probably be back a long time later."

“Yes.”

Director Wang didn't say anything and remained calm.

Seeing this, Li Hao could only leave. It seemed that this person really had nothing to give him. What a pity.

After he left, director Wang said, “This little fellow is quite interesting. He keeps staring at me. It seems like I really hope to give him some benefits.”

The ethereal voice echoed in his ears, “fight for it yourself. Don't worry about this.” “He has accepted three missions, but I'm not sure if he can complete them. As for the other seven cities, I can vaguely sense that they have not been completely destroyed ... Perhaps they still exist! If we can contact the other seven cities, then we ... Might still have a chance!”

“Yes, I'll try my best.”

Director Wang said and didn't say anything else. The city fell silent again.

.....

As for Li Hao, he cautiously made a trip to the military camp and met the division commander again ...

He briefly explained his request, and in the end, the other party arrogantly replied with one word: “Yes!”

“.....”

And then, Li Hao was gone!

He always felt that he was a little afraid of this person who looked like he wanted to hit him.

After Li Hao left, the division commander raised his head and looked in the direction he had left in. He shook his head slightly. It was a pity that the new recruit camp had yet to be completely restored. Otherwise, he would have to make Li Hao stay for a while. 1

This kid didn't deserve the inheritance of the longevity swordsman ... The more he looked at it, the more awkward he felt.

.....

Li Hao went to the military supplies Department.

He exchanged all 210 military points for cultivation resources. He was going out and didn't know when he would come back. There wasn't much use for military points, so he might as well exchange them for treasures.

As for the sky-piercing Sword Art ... He would think about it later.

Now that everything was settled, Li Hao was ready to leave heaven battling city. Tonight was the last day of the city's opening. Although he could leave at any time, he wouldn't attract too much attention if he left with hou Xiaochen and the others.

If he left alone, it would be easier to attract the attention of others.

The moment he walked out of the ancient city, Li Hao turned around and glanced at the two large words above heaven battling city ...”Next time, I’ll come again.”

He actually wanted to look at the words again, but Li Hao knew that he couldn’t see anything right now. Perhaps there would be greater opportunities in the future. The words left by a venerable sovereign couldn’t just be for him to see some illusions from back then.
