

Constellation 891

Chapter 891: Borrowing a book (3)

...

Li Hao didn't do anything else in the following time except cultivate.

There was still a little bit of time before he could leave, so he didn't want to waste it.

Now, the strength of his five internal organs and his body were the easiest to improve. It was a piece of cake for Li Hao to improve them. With his sword, there were no problems.

Li Hao had exchanged 210 military merits for 110 divine power stones, which was equivalent to 1100 stones. Including the ones he had on him, Li Hao had more than 2600 divine power stones.

With the remaining 100 military merits, Li Hao exchanged them for 10 more spirit-gathering fruits. Now, he had 20 spirit-gathering fruits.

A divine power Stone would be able to convert about 250 cubic meters of sword energy, which was a little less than 300 cubic meters.

In other words, if Li Hao didn't use the divine power stones recklessly, he could convert them into nearly 700000 cubic meters of mysterious energy.

In addition to the five origin God weapons, one origin god weapon could be converted to at least 100 divine power stones ... Of course, origin God weapons shouldn't be wasted like this. The sword energy of origin God weapons should be used to nourish the body and the effect would be better.

Before this, Li Hao's internal organs, including his body, had absorbed around 5000 cubic meters of energy.

At this moment, Li Hao began to work toward 10000 cubic meters.

It sounded like a lot, but in fact, 10000 cubic meters was not a lot. This was mysterious energy, not the amount of divine power stones. In fact, a divine power Stone was worth about 1000 cubic meters, but the energy contained was not that much, about 300 to 500 cubic meters.

Li Hao's body and internal organs had only absorbed about ten divine power stones. Of course, he had absorbed about a hundred divine power stones in his body.

However, how much he absorbed didn't mean how much his body could improve.

In reality, people like Nan Quan had definitely absorbed a lot of divine power stones. However, it was impossible for their physical body and five internal organs to reach the level that they had absorbed.

.....

With the fusion of the four forces, Li Hao's need for his five internal organs had increased.

Although his body and five internal organs could still withstand the fusion of the four forces, Li Hao had to be prepared for the fusion of the five Forces. It should be known that the five Forces could be an explosive point.

As such, if his body's five internal organs were not strong enough, he would be the next sick ghost.

Mysterious energy was quickly extracted by him, and he had plenty of storage rings.

He also had a lot of mysterious energy.

At this moment, Li Hao was mainly absorbing the energy of the dark element, five elements, and wind and thunder elements. Among the common types of energy, Li Hao had never absorbed the light element, which was rare.

The dark element could strengthen his concealment ability, the wind and lightning could strengthen his body and bones, while the five elements could strengthen his five internal organs.

In fact, Li Hao was also very curious about the light element. What could this thing be strong about?

He had collected many types of mystic energy, including many variations such as ice and stone, but light ... Was really rare. Li Hao searched for a long time but couldn't find it, so he had to give up on trying.

Li Hao made a judgment in his heart. The mysterious energy of the light series, perhaps ... Perhaps it was related to some vitality?

Wood-type actually had healing properties, but they were usually not as powerful as light-type supers. Perhaps absorbing light-type superpowers could make one younger?

Who knows?

Li Hao's philosophy was to spend money to strengthen himself. He usually wouldn't keep any treasures, unless they couldn't be used at the moment.

At this moment, in an ancient house in the outer city.

Li Hao absorbed it for a long time. After more than ten hours, someone shouted outside the door, "Li Hao!"

It was the voice of the southern Fist.

They all knew that Li Hao was here.

Now that she had called him, it was probably about time.

The exit of the ruins was about to open again.

Li Hao sensed that his five internal organs and physical body were about 6000 cubic meters. After such a long time, he had absorbed about 8000 cubic meters of mysterious energy, and his current absorption speed was much faster than before.

Otherwise, it would have taken him a day to absorb all of them.

Thirty divine power stones were nothing to Li Hao.

It seemed that he could only use the spirit accumulation fruit after he got out.

There was also the five-bridge construction method. If he succeeded, there would be a great benefit. Li Hao didn't have to care about the attribute of the energy. As long as it was energy, he could absorb it directly. He didn't have to let his five internal organs absorb it separately, which would save him a lot of time. He could also achieve balance directly without having to deliberately control it.

However, there were still some key points that Li Hao didn't understand. He wasn't in a hurry to try them out.

.....

As Li Hao pushed the door open, three people and a dog were waiting outside.

Liu Long was talking to Hong Yitang in a low voice at the moment. When he saw Li Hao come out, he quickly stopped.

Li Hao, on the other hand, vaguely heard a few words, but he didn't say anything.

As for the Black Panther, when Li Hao wasn't around, it would pester Liu Long more. This fellow had a very good impression of Liu Long. Liu Long had taught it the ninth refinement force and even taught it very carefully. Therefore, when Li Hao wasn't around, this fellow was close to Liu Long and didn't pay attention to Hong Yitang and the others.

"You improved again?"

Hong Yitang chuckled and glanced at Li Hao. Li Hao had just finished his cultivation, and his aura was still leaking. He could barely tell that Li Hao had made some progress.

"I'm just building my foundation!" Li Hao shook his head.

To him, these were just the basics.

The physical body, the five internal organs, and the bones and bones were all essential elements to become stronger. However, whether it was him or Yuan Shuo, the key was not in these but in the divine intent and momentum!

Only when their divine intent was strong and their momentum was perfect could they become stronger!

Chapter 892: Borrowing books (2)

...

Even if their physical bodies were not strong, if they could instantly burst out, they would not be weak if they could accumulate the five Forces.

The physical body was the foundation, while the divine intent and force were the explosive points.

Without these, Li Hao's body would be much more mediocre, no matter how strong it was.

Thus, the current Li Hao hoped to quickly comprehend wood force. However, after comprehending the fourth force, he didn't think he could learn the fifth force in a short time, even though he already knew how to practice the Willow silk sword.

Li Hao had a deep understanding of how troublesome the water was.

Southern Fist grumbled, "Foundation?" With your Foundation, we want it but we can't do anything about it. With your conditions, I would have unlocked my superpower lock long ago. "

In fact, Li Hao was also curious about this. They chatted as they walked.

"Martial uncles, I understand your current situation. Breaking the superpower lock and releasing the potential that you've accumulated will make you stronger instantly ... But what's next? What would happen after it was completely broken? I can't keep sealing myself like this, can I?"

At this point, they seemed to have fallen into a strange circle.

If you want to become stronger, unlock the superpower lock. After unsealing, you may become a superpower or die directly.

Even if their internal organs were strong enough to sustain their collapse, they could still become superhumans instead of martial masters. This was another problem.

Southern Fist sighed, "that's why we're in a dilemma before we find a specific method and path!" At this stage, many people are actually at this stage. We don't want to become supers, so ... So far, old Hong and I have discussed a few plans. "

"First, after breaking the power lock, a mysterious source will appear. If you break the mysterious source ... You might be able to avoid becoming a superpower. I heard that your teacher broke it before?"

Li Hao thought for a moment and nodded. That time in Silver City, he was about to become a super, but he felt that the power was devouring his inner strength. He quickly shattered the mysterious source and gave up on becoming a super. "

"This is what we've been thinking about," Nan Quan said in pain. "However, Yuan Shuo was still very weak at that time. He had just advanced and his inner strength was very strong. The moment the SuperLock broke, he repaired it. His inner strength is even stronger than the SuperLock. So he can ... We might not be able to do it because our superpower lock is very powerful!"

Li Hao pondered. "Then, does this mean that my teacher can break the superpower lock without any worries in the future?"

"No... But you can be at ease and boldly destroy one of them. It's the one that he destroyed back then. With that broken organ, one of his five internal organs won't be able to give birth to the mysterious source again."

Li Hao nodded.

Nan Quan continued, "that's the first method. The second method is to break all five at once. Old Hong and I are guessing that if all five of them are broken at the same time, perhaps ... Something unusual will happen. The Fusion of the Five Elements might become a special power instead of a superpower."

“The third method is to continue strengthening the Super Lock, body, and organs ...”

“The superpower lock represents potential. Old Hong and I both speculate that at a certain stage, the superpower lock might not break but fuse with the body and become a part of the body. When the potential is released or the body enters a certain stage, the superpower lock will be opened naturally, not by force like what we are doing now!”

Li Hao nodded again. The two of them had made some progress in their discussion.

He thought for a moment and said, “I’ve talked about it with my teacher before. He said that we should first cultivate our spirit and then fuse our strength. He didn’t go into the details because he probably only had a concept at the time. I think he probably considered fusing our strength to enter the Super Lock ... And finally breaking out of it!”

“Break the momentum naturally and enter the next advancement. Unlock the Super Lock.”

The two of them listened attentively, listening to Yuan Shuo’s immature ideas.

At that time, Yuan Shuo had just entered the spirit accumulation stage, and some of his ideas were still immature, but ... He might be able to use them as a reference.

Li Hao continued, “Also, let’s not talk about anything else. At the current stage of spirit accumulation, I feel that even if we merge the five Forces, I don’t think it’s the limit of spirit accumulation. Spirit accumulation, spirit accumulation ... You have to accumulate force! However, I feel that I don’t have the opportunity to cultivate the five powers now. I don’t know if it’s because the method is wrong or because I don’t have a matching treasure, so I want to try the effect of the spirit accumulation fruit.”

The accumulation of spirit was in the word accumulation.

It was a process of cultivating Shi.

However, Li Hao discovered that unless a new type of Shi was born, it would be very difficult for his Shi to become stronger.

For example, the fusion of the three forces could kill a peak three-yang cultivator, and perhaps even an early stage rising light cultivator ... But if this continued, even if Li Hao’s body was extremely strong, he would still only be able to kill an early stage rising light cultivator with three forces ... Because force itself wasn’t strong.

It was wrong to become stronger every time a new trend was born!

His teacher should be in the same situation as well. Yuan Shuo had yet to fuse the five Forces. Once he did, he would reach his limit and peak. At that time, he could only try to break through from other aspects.

“Powerful divine intent, powerful momentum ...”

Hong Yitang thought for a while and said, “the divine intent and force are more mysterious. They are not like the physical body, which can be easily strengthened with pills, treasures, and divine energy stones. However, for a Martial Master, there is also a way to strengthen their force. That is to fight more, to train more, and to think more!”

“The stronger the heart, the stronger the force! It’s a process of accumulating power, the kind of invincible power that the ancient people cultivated ... The reason why you didn’t feel any change is because you’ve only stepped into this level for a short time.”

Chapter 893: Borrowing a book (3)

...

“The five internal organs nurture Shi. I don’t know if it can be nurtured to a stronger level ... I’m afraid you can only ask your teacher about this. We all nurture it slowly, and it’s different from your path.”

Li Hao thought for a while and nodded.

That was true.

Everyone’s path was still slightly different. He did not know much about these things now. He could only wait and see if the teachers had any new discoveries or solutions.

As for Li Hao himself, at this moment, he deeply felt that he was lacking in knowledge and understanding of martial arts.

He should quickly convert some of the ancient books in his mind into practical knowledge.

At this thought, Li Hao suddenly changed direction and walked in another direction. They were a little dazed. Where were they going?

“Li Hao, you’re going in the wrong direction ...”

“No!”

Li Hao laughed, “actually, there’s a place I haven’t been to since I came to heaven battling city. It’s a very important place!” The library! “It is said that heaven battling city’s library is very large, and there are countless books inside. Although they don’t touch on specific martial arts secret books, there are also some elaborations and theories about martial arts. Although the system of ancient civilization is not completely the same as ours, there are many people who practice ancient secret techniques. Since they can successfully practice them, it means that the two are similar. I’d like to borrow some books on the basic theory of ancient civilization. I think if teacher were here, he would have gone to borrow them long ago.”

The few of them looked at each other and did not say anything.

It was normal that they didn’t go, because they didn’t understand it and it would be a waste to go.

However, he didn’t expect that Li Hao would think of borrowing books at this time.

Are there any more books there?

They did not know.

.....

After a while, they arrived at a building. It was not very high, only six floors, but it was called a building because it covered a very large area.

This place was near the city Lord's mansion, not too far away.

However, the area it occupied felt even bigger than the city Lord's mansion.

A few large words were written on it: heaven battling library.

Not only that, but there were also guards at the entrance. They were not black-armored soldiers, but several green-armored figures. Li Hao had never seen them before.

Another new type of soldier?

However, upon a closer look, there seemed to be words embedded in his chest. It was a Pixiu guard!

He knew.

The people from the security Department!

Li Hao thought of director Wang. He remembered that the security of the city was usually the responsibility of the security Department. In that case, there used to be a green armored Army, and it was the security Department?

"Dang!"

As soon as Li Hao stepped forward, the guards at the door saluted him. The etiquette was different from that in the military. Instead of beating one's chest, the guards pointed at one's head. Li Hao didn't know how many kinds of etiquette there were in the ancient civilization, but they didn't exist in the modern Inspection Office or the military.

After the salute, the guards ignored Li Hao. They didn't say anything, either. It was unclear whether they couldn't or didn't want to.

.....

The first floor of the library was a spacious hall.

However, there were some screens in the hall that had already turned black. At this moment, one of the screens suddenly lit up. Perhaps it had sensed that someone was coming, or perhaps there was an expert in the city who had given him some authority.

Li Hao quickly stepped forward.

"A book borrowing guide."

A few words were written on the screen.

Li Hao was a little curious. After thinking for a while, he touched it with his hand. Instantly, a small page appeared.

"Martial arts, Science and Technology, people's life, education, novels, literature and art, popular science, Story Club ..."

Small pages appeared one after another, representing the different types.

At that moment, a line of words flashed on the screen: "Identity verified. General of the 12th Regiment of the reserve guards of the heaven battling Army. You are allowed to borrow any book below the fifth floor for free. You can borrow three books and return them regularly ..."

A line of small words appeared for a while. Li Hao looked at it for a while and scratched his head. He seemed to be only able to borrow three books.

Li Hao looked at Nan Quan and the others, and Nan Quan also went up to take a look. It was as if the machine could see him or use other methods to identify him. A moment later, his information was also displayed.

A junior officer could borrow two books.

Then, Liu Long also went up to try ... With one big-headed soldier, he could borrow one book and take it out.

Li Hao wanted to go upstairs to take a look ... But he found that there was no door.

That was strange!

Just as he was thinking, another line of words appeared on the screen: "Borrow books. After selecting the book, the system will automatically transfer it into the war puppet. The physical book will be sealed. In order to protect the legacy of civilization, the library is temporarily not open to the public. When the war puppet reads the book, text transmission is allowed!"

When Nan Quan saw this, he exclaimed, "This ... Is this the legendary intelligent system? Amazing! To seal physical books and protect the heritage of civilization, the ancient civilization isn't just powerful in martial arts, these methods are also amazing!"

Hong Yitang kept nodding his head. It was true.

In order to protect the inheritance, the physical book could be directly sealed, and the knowledge could also be directly transmitted into the battle armor. This way, it could also prevent the enemy from obtaining some of the knowledge inheritance.

Li Hao's interest was also piqued. He quickly opened the pages, and the names of the books appeared. There were countless books in each category, and just the pages were enough to scare people.

Li Hao took a look and saw that there were some other keywords.

After understanding it for a while, he understood what it meant.

He also exclaimed, "the Silver City's ancient Academy also has a library. However, the classifications are very messy. It's very difficult to find a book. Sometimes, if you want to find a book, you have to read countless books before you can find it. Unless you're an old librarian, otherwise, you'll have to search for a book bit by bit ..."

Chapter 894: Borrowing a book (3)

...

Hong Yitang also sighed, 'this is the power of knowledge! The star dynasty also attached great importance to this, but ... There were too few scholars, and they were unwilling to waste too much time on this. It was just a library, and it was fine as long as there were books. The ancient civilization still values it. "

Li Hao also nodded. After thinking for a while, he wrote two words in the box on the screen: 'Martial arts'.

In an instant, countless books appeared!

Li Hao's eyes were dazzled.

How was he going to find it?

He could not lend out much.

"Basic theory"

Li Hao typed in a few more words, and the number of books decreased. There were about 20 books per page. This time, there were only a few dozen pages, unlike the previous few thousand pages. There were about 1000 books on basic theory.

Li Hao was also speechless. It was only the basic theory of martial arts, but there were thousands of books!

The Silver City's ancient Academy's library could be considered the biggest library in the Silver City. At present, it only had 30000 books in it. This was the biggest library in the Silver City, and it was the most abundant library. 30000 books was actually quite impressive.

However, compared to this place, there was really no way to compare.

Li Hao didn't continue to type in keywords after the 50-odd pages. Instead, he read the title of the book page by page.

Flipping through the pages, he was unable to see the specific contents of the book. Looking at the name, he might be able to gain something.

"Analysis of basic palm technique ... Analysis of basic fist technique ... Analysis of blade technique ..."

All sorts of basic cultivation analysis content.

For a moment, Li Hao didn't know which one to choose. He wanted to take them all out, but unfortunately ... He couldn't.

At this moment, Li Hao was suddenly stunned. On one of the pages, the name of a book was gold. It was different from the names of the other books.

"Martial arts university basic martial arts theory course"

Li Hao was stunned. He had heard of this martial arts university a few times. It seemed to be a place that taught martial arts during the ancient civilization. However, the ancient academy was similar, except that it didn't teach any martial arts.

The basic theory course in a martial arts university ... Should be very comprehensive, right?

Li Hao made this book his choice and continued to read. The color of the name of the previous book was different, which probably meant that the importance of the book was different.

As he continued to read, he saw another book with a somewhat special title.

"The difference between energy system and blood Qi system"

Li Hao's eyes flickered. Energy system, Super System?

When he first came here, the silver-tier Captain had said that superpowers were a type of energy. Li Hao hurriedly classified this book as his second choice. He could choose three books and take them away. Including the one he had just taken, he still had one book to choose from.

As for the other three, they could take five books. Li Hao also prepared to let everyone choose. They might not understand, but Li Hao could.

He continued to read for a while, and after a while, he made a choice.

Li Hao didn't hesitate much. He couldn't figure anything out from the names, so he could only choose according to his own ideas. The three books were "martial arts university basic martial arts theory", "explanation on the differences between energy, Qi, and blood", and the last book "analysis of basic sword techniques".

As a swordsman, in the end, he still chose a sword technique analysis book.

The Library of Heaven's Path didn't seem to have any specific cultivation techniques. This was somewhat clear, but Li Hao wasn't too concerned about it. 1

It was enough to elaborate on some theories.

"Martial uncles, boss, you should also choose a few books!"

Li Hao selected three books. Soon, data flowed on the screen, which seemed to connect with his silver armor. A moment later, Li Hao saw a line of numbers inside the silver armor, indicating that the three books had been entered and he could read them at any time.

It's so convenient!

At this moment, Li Hao was full of admiration. This method was truly impressive. If there were such methods in the modern world, Li Hao wouldn't have to memorize them when Yuan Shuo taught him. He could have just transmitted the data directly.

Moreover, the armor was unique and confidential. Even if someone else got it, they couldn't use it.

Many secret techniques of the modern era were lost because they were kept secret. Many secret techniques were lacking here and there. Once their inheritance went extinct, these secret techniques would be gone. The ancient people, on the other hand, could directly transmit data.

Liu Long glanced at it as if he was reading a heavenly book. He could only say, ""Help me choose, I don't understand!"

"That's simple," Nan Quan said casually. "The color of the names is different, which means they're very important. The two books Li Hao chose are both in gold. It's the right choice to follow this!"

Apart from the analysis of basic sword techniques, the other two books that Li Hao chose were written in gold.

Nan Quan didn't hold back. Even though he couldn't understand it, he still pointed at it. After a while, he saw a book with golden words and said in joy, ""This is good. The color is bright. Li Hao, I choose this. What do you think?"

Li Hao glanced at it. He didn't pay much attention to it at first, but after taking a closer look, he was surprised.

"" Demon atlases ""!

Li Hao mumbled. He glanced at the screen. This person had just randomly clicked into a science book. Was this considered a science book?

Li Hao nodded. "That's a choice. Demons ... Although Silver Moon doesn't seem to have any powerful demons, I've encountered a few of them in the Cang mountains. I don't know much about them. I wonder if there are any similarities between the modern demons and the ancient civilization."

The next time he met her, he might be able to be prepared.

Nanquan laughed. "I said it's not bad, right? in fact, this thing is very good. There are many demon races in the central region. With this book, we may be able to find out some of their weaknesses. Maybe they themselves don't know it. The current demon race hasn't been awakened for long. If they had it since the ancient civilization, at least they would have studied it more thoroughly than us!"

Chapter 895: Borrowing a book (3)(3)

...

Li Hao nodded. Southern Fist quickly chose the second book, which was still written in gold.

"Record of heavenly materials and earthly treasures"

Li Hao was stunned. He looked at Southern Fist. Why did you choose all these things?

"This is a catalog that records all the treasures in the world ..."

"Good stuff!"

Nan Quan laughed and said, "that's good too. Now that we've come across some treasures that you don't even recognize, it'll be a pity to miss them. You might not know how to use the treasures you found in the ruins, or what they are of use to you. You might mistakenly treat the treasures as trash. This is good!"

Li Hao thought for a moment and nodded.

Suddenly, Hong Yitang said calmly, "of course he's satisfied. These are probably all with pictures. Just look at the pictures. If you ask him to choose without pictures, he'll definitely not be happy ..."

Li Hao was stunned for a moment, and Southern Fist was a little embarrassed and angry. "Who are you looking down on? After I leave, I'll learn the ancient language!"

However, he was right.

Nanquan was also overjoyed. These two illustrations were better than those things he couldn't understand. Even if he gave them to Li Hao, but ... But it seemed like he couldn't transmit these things to others. He could only memorize them, write them to Li Hao, and then translate them ... It was too troublesome!

If it was a catalog, there would definitely be few words, but as for drawing ... Nanquan really knew how to do it.

He wasn't illiterate and could read and write. He also had some talents and could draw. He just didn't know the ancient characters.

Li Hao laughed and didn't say anything.

Hong Yitang thought for a while and said, "Help me find a book on how to increase food production."

Li Hao was stunned. Looking for this?

Li Hao didn't say anything. He quickly typed in the keywords, and a moment later, many books appeared.

Among them, there was a book with a golden name.

"The comprehensive collection of improved species cultivation ..."

Li Hao mumbled. Hong Yitang directly pressed the "select" button and said, "And find me ... The encyclopedic books on people's livelihood."

Li Hao could only continue to help. A moment later, another book appeared.

"Basic people's livelihood Construction Record ..."

"I want this!"

Li Hao silently helped him choose this book. At this moment, Hong Yitang had also finished choosing his book.

Liu Long didn't say anything. "Li Hao, you can help me choose!"

Li Hao considered it for a moment. A moment later, he entered the keywords, and some books appeared. He chose the “mountain and river records”, which seemed to be an Atlas that introduced some famous mountains and rivers during the ancient civilization era.

Li Hao hoped to have some understanding of the geographical locations of the ancient civilization.

Unfortunately, he didn't find the complete map of the ancient civilization. It didn't seem to be here, or he didn't have enough access. These books were on the sixth floor, so he could only choose the books below the fifth floor.

At this moment, the book selection was completed.

Li Hao's last wish had been fulfilled. He didn't stay any longer and left the library with his group.

After they had walked for a while, a shadow suddenly appeared in the library. It seemed to be a turtle with a turtle shell on its back. The turtle looked at the screen, and the names of some books flashed on the screen. The names of the books were all marked in red, which was more eye-catching than gold.

“At this stage, it's enough to understand those things ... We'll talk about these later!”

On it, books with titles such as 'educational records of martial Kings', 'military law of Hades', 'complete collection of spirit casting' ...

However, they were divided into many volumes and not the complete version.

These were all stored in the library.

However, Li Hao's group didn't have the authority to do so, and they were deliberately trying to control it. These things were too profound for Li Hao's group to understand. Moreover, once they read them, the famous works left behind by these people, given their status and strength, could easily influence the choices of these new-era martial masters.

The old turtle gently waved his hand, and the entire library instantly dimmed. A moment later, the shadow disappeared.

.....

At the same time, Li Hao and the others were very satisfied.

Soon, they walked out of the ancient city.

At the city gate, Li Hao waved at the three silver-tier powerhouses. “Three leaders, I'm going out. I'll come back to see you later!”

“Be careful, have a safe journey!” The seventh leader said in a calm tone.

They didn't feel too reluctant. This wasn't a place for Li Hao and the others to stay for long. It wasn't a good thing to stay here for too long.

The seventh Regiment commander didn't say anything, but the ninth Regiment commander who had been silent all this time suddenly sent a message: “Twelfth commander, when we go out, we can pass by general Huai's place. We can place some energy stones at the exchange point back then. Perhaps ...

We can exchange them for some life essence. General Huai might just be silent and not completely dead.”

Li Hao’s heart moved, and he nodded.””Thank you for the information!”

He had read about this in the travel guide.

Life essence ... It was probably the water from the spring of life. When he was bathing, he seemed to have contained some of it. This ancient city seemed to lack this energy and could not be activated.

General Huai ... Monster plant ... Is it a big tree?

A big tree can also confer a general title?

A tree demon, right?

Li Hao waved his hand again. A moment later, they left the ancient city.

The three silver-ranked powerhouses were watching silently.

Only after the few of them had left did the seventh leader send out a mental message,””Old ninth, you’re quite talkative. Your great-grandfather graduated from mcmau. How many years has it been? do you still want to please the descendant of the sword venerable? do you have any shame?”

The ninth leader was extremely calm,”please?” It was just a reminder from his comrade! “Moreover ... There’s no need to curry favor with him. The division commander is mcmau’s direct descendant. You should go and tell the division commander about this.”

Chapter 896: Borrowing books (3 in 1)_6

...

“I’m not going!”

The three leaders seemed to have gained some spiritual intelligence. After chatting for a while, they talked about the past. It was obvious that their spiritual intelligence had been awakened much more than before. Their soldier souls were also more stable than before.

.....

Outside the city.

The group of people gathered.

28 people and a dog.

On Yuan xingwu’s side, perhaps he had come to an agreement with hou Xiaochen, but Li Hao didn’t care or ask.

There was still one person missing, the light sword.

The other party was probably waiting on the platform.

Li Hao didn't care about this. He followed Hou Xiaochen and the others. After a while, he asked, "Minister, have you given up on the Black Tortoise seal?"

"....."

Asking the obvious!

Hou Xiaochen ignored him, and Li Hao continued, "What if there are still people from the three major organizations outside?"

"Kill them!"

"Most of the strong ones have already entered," Hou Xiaochen said, "the ones left behind are the weak ones. The three major organizations won't send people here without limit, so we don't have to worry about that."

"North-guarding general, you killed him?" Nan Quan suddenly asked.

As soon as he said that, even Yuan Xingwu's footsteps stopped.

Because of that person's death, the three northern provinces have been in turmoil. Was it Hou Xiaochen and the others who killed him?

Before, they had only been a little suspicious, but now, they were certain. Hou Xiaochen and his group were very strong. They had a chance of killing the peak Sunguang under the protection of tens of thousands of soldiers.

"What, you want to take revenge?" Hou Xiaochen chuckled.

He was a member of the imperial family.

Nan Quan raised his eyebrows. "I'm not interested in revenge, but if you're the one who killed him ... I'll avoid you in the future. Although that guy has caused a lot of anger, the benefits outweigh the disadvantages if he's alive. If you kill him directly, the three provinces will be in turmoil. The 19 northern provinces will be affected, and even Silver Moon will be affected."

"Whatever you think," Hou Xiaochen chuckled.

"Tsk!"

Nan Quan sneered and didn't say anything else.

Li Hao only listened in silence and didn't interrupt.

He was only a Silver Moon citizen, so he did not know much about Silver Moon, let alone the three northern provinces. He did not have a clear feeling about it.

It didn't matter if he was dead or who killed him, it didn't matter much to him.

Soon, the group of people walked to the tree hole.

Li Hao looked around. There should be a small altar here. It was a favorite place for tourists and residents of heaven battling city. If he offered something here, he might be able to exchange it for some water of the spring of life.

However, it might not be able to be used now. This tree seemed to have died.

After walking for a while, Li Hao saw an altar in the darkness.

It was very small and covered in dust. If one didn't pay attention, one wouldn't have noticed it.

Li Hao quickly stepped forward to check it. There was a small hole in it. He hesitated, wondering if he should put some divine power stones in.

According to his understanding, it would not be good to stuff ordinary divine power stones here. He had to stuff them with the kind that could be exchanged in the military camp.

As for him, he had only exchanged for 156 Yuan. In addition to the 10 yuan He had originally received, he only had 166 Yuan in total.

If he stuffed it in, he wouldn't be able to get it back without giving anything in return.

It was just like when Nan Quan stuffed the bathhouse. If there was too little or not enough, it would be gone.

Hou Xiaochen and the others looked at him in silence, not sure what he was up to.

Li Hao gritted his teeth. If you can't give up a child, you won't be able to catch a Wolf.

Try it!

He might be able to exchange for some of the water from the spring of life that was left behind in the past. It was said that this thing was extremely useful. The bathwater from before might only have a little residue, but the effect was extremely good.

It could even regrow broken limbs, which was even more effective than sword energy.

One, two ...

Seeing Li Hao stuff the divine energy stone into the bag, the crowd felt a little annoyed. This guy is so rich. I really want to Rob him!

The divine power Stone did not look ordinary.

He stuffed six pills in a row, but there was no reaction at all.

Li Hao was a little regretful. Six stones were comparable to 60 ordinary divine power stones. It was such a waste. This might be a bottomless pit ...

If it wasn't for the ninth leader's warning, he really didn't want to try.

"Give me 10 more ... If there's still no reaction after I give you 16 ... I'll leave!"

Li Hao gritted his teeth and began to stuff the cards into his mouth again.

This time, he put in another 10 orbs. Seeing that the altar still didn't respond, Li Hao prepared to leave with tears in his eyes. He couldn't keep gambling in this bottomless pit. If he lost 16 orbs, he would be cutting his own flesh.

Otherwise, he might lose his life later!

It seemed that this general Huai was really dead.

Just as Li Hao was about to give up, Hong Yitang suddenly said, "Stuff more!"

"What?"

"There are some ... Fluctuations!"

Hong Yitang seemed to have sensed something and said, "Just stuff some more."

Hearing his words, Li Hao didn't leave with tears in his eyes. Instead, he gave him a few more ...

Then, he looked at Hong Yitang and felt like crying. He stuffed another five pills into his mouth, but it was still useless.

"Continue!"

Li Hao wanted to vomit blood, but since Hong Yitang said this, he must have sensed something. Li Hao could only continue.

25.....28.....

When the number reached 30, Li Hao himself felt something strange. The altar seemed to shake slightly.

His eyes flickered, and a moment later, he stuffed six more in.

He stuffed a total of 36 divine power stones into the bag, which greatly reduced Li Hao's stock.

At this moment, a drop of water slowly appeared on the altar. Hou Xiaochen's eyes suddenly twitched. Hong Yitang glanced at him and threw a bottle to Li Hao, "Keep it!"

Li Hao quickly put the drop of water into the bottle. He was somewhat confused. This is the water of the spring of life?

I don't feel anything!

"This is sealed. You'll know when you use it."

After saying that, Hong Yitang added, "let's go. Don't stuff it anymore. I feel like it's a reserve of the spring of life. If you stuff it again, there might not be any more reserve. This tree ... Seems to be fishing. Don't stuff too much in, or you'll have nothing left in the end!"

Li Hao was stunned. Fishing?

Then, he didn't know whether to laugh or cry.

Hou Xiaochen suddenly said, "Li Hao, how about we exchange this?" I'll use the origin divine weapon to exchange for ..."

“No!”

Li Hao immediately refused. He didn't lack origin divine weapons, so why would he exchange them?

Hou Xiaochen had nothing to say.

He wanted to give it a try, but he lacked a divine power Stone like Li Hao 's, and he also felt some fluctuations. If he tried to stuff it in, it would be like throwing a meat bun at a dog. This tree did seem to be fishing.

After this, no matter how much you tried to stuff in, it might be useless.

With some regret, they left the tree hole without saying anything more.

After they left, the altar trembled as if the tree hole was shaking. It felt like someone was cursing ...

In the ancient city, the old turtle looked over and shook his head.

“It seems that general Huai is really poor to the extreme. Although he's not completely dead, he'll be dead soon ... Unfortunately, we can't get out and can't help you. It doesn't matter if we lose a drop of life essence.”

As for the other party absorbing a little more energy stones, the effect would not be great. Unless there were millions of them, it would be a waste.

.....

On the platform at the end of the tree hole, the light sword was indeed there.

Seeing that everyone had arrived, he wasn't afraid of anything. He glanced at Li Hao and then at hou Xiaochen.”It can be opened. Can we go out now?”

Hou Xiaochen didn't waste any time. He just looked at the wall and waited for a while. It was about time.

With a wave of his hand, the wall became transparent.

Outside, the Wei Wu Army was still standing guard.

As the time was up, the people outside were also operating. A moment later, a vortex appeared on the wall, and they could leave.

The light sword was the first to drill out and quickly disappeared.

The others also walked out one after another.

After everyone left, heaven battling city was once again sealed, and it completely fell into a deathly silence.

Chapter 897: news spreads everywhere

...

Hengduan Canyon.

Three days passed by in a flash.

At this moment, there were quite a few people outside the transverse Canyon. Some were unaffiliated cultivators who had not been able to enter, some were people who had stayed behind, and some were officials from Silver moon's side.

Everyone was very nervous as they waited for the remains to open.

Today, it was time to come out.

Even in the middle of the night, the valley was still brightly lit, illuminating the surroundings.

In front of a group of night watchers, Hao lianchuan was also a little nervous.

Hou Xiaochen had gone in personally and even brought chief Yu and the others with him. He was very nervous and didn't know what the result would be. The three major organizations had sent quite a few experts this time. Would they do anything to the Minister?

On the other side, Wang Ming was also very nervous. Li Hao had gone in, so was he alright?

Only Deputy Director Zhou looked calmly at the opening below. He was thinking about how many people would die this time.

As for what happened to hou Xiaochen, he didn't think about it.

It wasn't to that extent.

Although the three major organizations had sent many experts, they were still far from being able to do anything to hou Xiaochen and Kong Jie. Even if the three major organizations joined forces, it wouldn't be that simple.

If hou Xiaochen and the others were forced into a corner, as long as one of them was unsealed, all of them would be in deep trouble.

Of course, unless it was absolutely necessary, hou Xiaochen probably wouldn't choose to do this.

Deputy Director Zhou was thinking about it. At this moment, his eyes moved.

The remains had opened!

The next moment, a figure appeared. In an instant, the figure rose into the air and quickly disappeared.

Some of them didn't even have the chance to see who it was and the person had already disappeared. Deputy Director Zhou saw it clearly and was slightly stunned. He frowned, this is ... The light sword right?

If I'm not wrong, the one who came with the Xu family should be her.

She ... Came out alone?

Something happened to Xu Feng?

Deputy Director Zhou was a little surprised. With the light sword, the three major organizations and hou Xiaochen wouldn't do anything to this person, right?

Then why did he leave the radiant sword alone and quickly escape?

Yes, it felt like he was fleeing.

As the light sword was the first to appear, Deputy Director Zhou was a little surprised. Of course, it wasn't too much of a surprise. It wasn't too strange for someone to die, but hou Xiaochen's death was the big news.

"Who was that just now?"

"I didn't see it clearly, it was so fast!"

"I think it's the Xu family's housekeeper?"

"Is that so?"

"....."

Outside, the crowd was also discussing. Some were puzzled. Some people didn't see clearly, while some people caught a glimpse of it. But what they were puzzled about was why this person was the first to come out.

Then, the crowd was no longer surprised.

The second person to appear was hou Xiaochen.

Hou Xiaochen was as calm as ever.

He had taken a step forward. Some people felt a little regretful that he was still alive. It seemed that the three major organizations did not lay their hands on him, or had they failed?

After hou Xiaochen, there was another group of people.

Yu caretaker, Jin Jin, Kong Jie ...

Then, it was Li Hao and the others, and finally, Yuan xingwu and the others.

Everyone had come out.

It was only when the Black Panther appeared that some people were surprised. Why was there another dog?

Did someone bring this in before?

Why didn't I see it before?

Of course, they didn't have the time to think about it at this moment. Many people were looking at the vortex behind them in anticipation. Why hadn't the others come out yet?

At that moment, hou Xiaochen coughed lightly.

It was as if this was a signal.

In the next moment, a fiery red spear appeared. Hou Xiaochen's calm voice spread in all directions, "The three major Darksider organizations have committed unforgivable crimes. They killed powerhouses from all over the ruins. Their crimes are unforgivable. We worked together and killed them in the ruins!"

"Superpowers from all sides, as one, have killed the powerful enemies of the three Darksider organizations ... Unfortunately, they were buried in the ruins. I am ashamed that I can not bring their bodies back ... The only way is to kill the remaining members of the three Darksider organizations and avenge all of you!"

BOOM!

With a loud bang, a long spear crossed the sky. A rumbling explosion instantly erupted. In an instant, a team of ghostly faces in the distance was instantly blasted apart!

"No..."

Some people shouted in fear, some were in disbelief, and some were completely stunned.

What did that mean?

The experts from the three major organizations were all killed?

Then ... What about the many supers who went in?

It was not just one or two. There were too many supers going in this time. The three suns from all sides probably added up to a hundred people. It could be said that the elite rogue cultivators from the 10 northern provinces were almost all caught in one fell swoop!

Where was he?

It's impossible that only a few people are left alive, right?

"Ah!"

A blood-curdling screech erupted.

The spear killed more than ten ghostly faces in an instant. Some of them were terrified and fled frantically. Some of them were in disbelief and roared, "Impossible ... Hou Xiaochen, you guys did something to the ruins ..."

"The ruins are fake, it's a trap!"

BOOM!

The spear pierced through the heavens and earth. In an instant, a large number of superpowers were killed on the spot.

Hou Xiaochen took a step into the air, his face calm as he spoke, "The three great Darksider organizations must be exterminated by everyone! I thought that it wasn't easy for you to cultivate, but I didn't expect that you wouldn't give up on destroying your dynasty. I'll be loyal to you and sweep the world! Kill him!"

BOOM!

A long spear, like a phoenix, instantly swept in all directions, burning the sky and illuminating the world with a fiery red.

.....

Above.

Deputy Director Zhou's expression changed. He looked at the people below in disbelief. Even he didn't dare to believe that so many people had died and only so few people were left. 1

Chapter 898: the news spreads in all directions

...

He had thought that some people from the three major organizations would die, but he had never thought that ... All of them would die!

"Hou Xiaochen ... He's still as ruthless as ever. It's just that ... He doesn't seem to be injured ..."

As he thought about it, he saw some of the supers escaping towards him. He looked at them and not long after, the few of them changed their direction and went around him.

BOOM!

The spear pierced through the heavens and earth, killing the supers one by one.

Those who died were all from the three major organizations.

The flying strong practitioners, the red moon strong practitioners ... At this moment, there were still three suns left behind. One of the three suns roared angrily, "Hou Xiaochen ... You demon! Impossible, they can't die. You demon, you'll die a horrible death!"

This was simply unbelievable!

How many powerhouses had gone into the three great organizations?

Three leaders of the seventh lunar month had entered the red moon ... Some people didn't know about it, while others did. Including Huang Yue, there were actually four of them!

Apart from Red Moon, orange moon, and blue Moon, the leaders of July and the elders had all gone in, but ... All of them were gone?

On the Yama's side, King Pingdeng had also entered. King Pingdeng had also brought two Sunglow powerhouses, and on Fei Tian's side, three great elders had also entered together ...

But now, they were told that all of them were dead!

Not only that, in the crowd, someone's face was full of disbelief, and someone shouted, "How could this be? No one else? The Liu family didn't come out!"

"General mu hasn't come out from the Linjiang governor's mansion either. Who can give us an explanation?"

The powerhouses from the Linjiang Governor-General's mansion were roaring angrily!

This time, some forces left a few people behind, while others left three to five people behind. There were not many who went in all at once.

But now, they were all stunned.

Where was he?

All gone?

Hou Xiaochen's apologetic voice once again rang out in all directions, "Except for us, they were all killed by the three major organizations. However, some experts from the star Army, the division administration Department, and the night patrolman headquarters are still alive ... By the way, on the Royal side, the southern Fist is still alive, and some experts from the Xu family have also left alive ..."

There were quite a few people who survived.

Don't all the major forces have them?

It's not like we're the only ones who came out.

Look, it's the royal family, the division Secretary, and the Xu family ... As for those who didn't come out, it's all because of bad luck.

The fiery phoenix spear swept across the world!

As everyone was terrified and panicking, hou Xiaochen's voice rang out, "Night patrollers, military, Inspection Office, and the Wei Wu Army ... Now, move out and annihilate all members of the three great organizations within the Silver Moon territory! Kill all of them!"

"Receive the order!"

In an instant, Hao lianchuan and the others came back to their senses and quickly led their men in all directions!

The experts of the three major organizations had almost been wiped out in one fell swoop. Now, there were still many people hiding in the stronghold. This time, the three major organizations were really doomed.

The wandering cultivators in the surroundings also quickly fled.

Their faces were pale and they were terrified.

Oh my God!

Something big was about to happen. Thousands of supers had gone in and all of them were dead. This was unbelievable!

Moreover, it seemed that many important figures had died.

The Liu family of the financial division, the general of the Linjiang governor's mansion, the core figures of the three major organizations, and the Son of the Duke of dingguo's Xu family ...

These people were famous even in the central region.

His family background and power were all first-class.

Who would have thought that they would all die in Silver Moon!

.....

Below.

Li Hao watched and listened in silence. When he heard hou Xiaochen's words, he was also impressed. Pointing at a deer as a horse and reversing black and white, it seemed that everyone had their own tricks!

The three great organizations had suffered too great a loss this time.

As for the other wandering cultivators, hou Xiaochen didn't kill them.

There was no need!

He was still counting on these people to spread the news. As for whether they believed it or not ... What did it matter?

Do you have any evidence?

If you don't believe him when he says the three major organizations killed them, then you can go into the remains to investigate.

Mu Lin had already led the Wei Wu Army to chase after the members of the three major organizations who had escaped.

The Golden spear remained silent.

Hou Xiaochen had only killed a few people in the beginning. As he landed on the ground, he coughed and returned to his graceful and somewhat sickly appearance. However, no one dared to underestimate him anymore.

He was a terrifying person!

"Let's go!"

Hou Xiaochen coughed and said to everyone. Li Hao grabbed the Black Panther's neck and flew up, in case a dog was too powerful and attracted attention, even though it was already eye-catching enough.

With the help of Chief Steward Yu, hou Xiaochen once again rose into the air ... He had been flying with great energy earlier, but now, he needed someone to help him. 1

A group of people landed in front of Deputy Director Zhou.

In a short while, a few more people arrived from afar.

Director Zhao, Huang Yu, and the other upper echelons of Silver Moon also arrived.

Hou Xiaochen didn't care about this. When everyone arrived, he coughed and said, "Give the order to exterminate the three major organizations! They were too ruthless, killing innocents in the remains. Unfortunately, they were unlucky and many experts were killed by the existences in the remains ..."

Director Zhao didn't say anything. He looked at Hou Xiaochen and the people behind him.

"It's good that you're fine!" He said after a while.

"Yes," he said to Deputy Director Zhou. "Pass this information to the higher-ups and inform Stellar City ... Tell them that Silver Moon's three major organizations are causing trouble and they need some support!"

"Alright," he said.

Chapter 899: the news spreads in all directions

...

Deputy Director Zhou nodded his head and didn't say anything.

Huang Yu took a look at the people from the military. Seeing that there was no problem, he did not waste any time and said in a deep voice, "The people from the military will return with me. Yuan Xingwu, as for the Star Army, will you return with me, or will you be setting off for the Star City now?"

Yuan Xingwu originally wanted to stay and see Chen Yuhua, but when he heard Huang Yu's words, he was slightly startled and surprised. Huang Yu meant to chase him away.

After thinking for a moment, he said, "We still have a mission. There's no need for Commander Yu to worry. Let's set off immediately and return to Stellar City!"

"Be careful on the road!"

"Don't run around on the road anymore," Huang Yu said coldly. "Return to Stellar City as soon as possible and tell the military law Department that Silver Moon's military is not strong enough. If possible, mobilize some experts to help defend the city."

Yuan Xingwu didn't say anything and just nodded.

After dealing with this, he turned around and glanced at Li Hao, hesitating to say something.

Li Hao, on the other hand, was calm.

Seeing Yuan Xingwu look over, he nodded his head slightly. He wasn't enthusiastic and didn't take the initiative to talk to him. He had no choice, he really wasn't familiar with him. If his teacher often mentioned him, then he would have to say hello.

More importantly, his teacher ... Had never mentioned it before!

Li Hao guessed that this senior brother of his might have done something to hurt Yuan Shuo. Otherwise, he wouldn't have kept it a secret. After all, even his name was given by his teacher, and he was also the first disciple of the sect. There was no reason for him not to mention it once.

Yuan xingwu sighed. Seeing Li Hao's expression, he could roughly guess what was going on. He took the initiative to send a voice transmission: "Little Junior Brother ... I'll take my leave first. I didn't have time to talk to you this time. I'll try my best to think of a way to get master to help. If I can convince the experts of the celestial star Army to help ... Master's safety will naturally be guaranteed!"

"As for Junior Apprentice-brother, try ... Try not to go to the central region, especially with hou Xiaochen. If he enters the central region, he'll definitely be surrounded by powerful enemies. He's taken over Silver Moon, and that has already caused some dissatisfaction. With such a big incident happening, if you go to the central region, you'll probably be attacked from all directions ... There might even be attacks from the imperial family ... Junior Apprentice-brother, think about it!"

"Thank you for the reminder!"

Li Hao also sent a message, appearing to be quite polite.

"Then ... I won't say anything more."

Seeing that Li Hao wasn't interested in talking about it, Yuan xingwu didn't say anything more. He turned to Hu dingfang and said telepathically, "You have to be careful. Silvermoon's situation is complicated, so go back and discuss it with Yu Hua. Don't be in a hurry to do anything, and don't have any other thoughts. You saw it for yourself today. I'm going back to stellarsky city first. You have to be careful and don't get too involved with the Bai family ..."

Hu dingfang nodded and didn't say much.

Yuan xingwu's group didn't stay any longer and left quickly.

"Director Zhao, Minister hou," Qi gang suddenly said. "Hu Qingfeng and I will leave together ..."

"It's on the way. It'll be safer if we go back together!"

Director Zhao looked at hou Xiaochen, who coughed and nodded his head, "Alright, have a safe journey. Let's go together. We can take care of each other."

Qi gang heaved a sigh of relief and glanced at Hu Qingfeng. Hu Qingfeng felt like he had just survived a disaster, so he quickly put on a smile and said, "Hou tribe, then I will take my leave first. I will wait for your arrival in stellarsky city ... I will go back early to Scout the path for you and make some arrangements. I will respectfully wait for your arrival!"

Under Qi gang's somewhat disdainful gaze, Hu Qingfeng didn't care. After greeting him, he hurriedly left with the others.

The group of 12 people walked very quickly.

With three sunguang and nine three suns, he didn't have to worry about encountering any danger on the way back.

At the same time, Hong Yitang also sent a message to Li Hao. "Then I'll take my leave first. Whether you want to go to the central continent or not ... There's no rush. If you want to go, you can decide for yourself whether you want to go with Nan Quan or hou Xiaochen. "However, I suggest ... That you go

alone and keep a low profile. It's too high-profile to go with them. I might need to go into seclusion for a while, so I don't have time to look after you ..."

Seclusion?

Li Hao's expression was strange, and Hong Yitang seemed to understand. He was speechless and said telepathically, "I'm really going into seclusion. I'm thinking about my future path and some things. Don't think too much."

He indeed had to go into seclusion for a few days to consider his next path.

Even though he had made some decisions, he still couldn't completely put his heart at ease. Besides, even if he really wanted to do it, he had to be prepared.

"I know. Take care, martial uncle ..."

"En, by the way, regarding the two books and the five bridges construction method, I'll make a copy of it for you later. You can just translate it and pass it to me. You can just send the message directly through the armor. I should be in swords gate, less than a thousand miles away from white moon City."

Hong Yitang said a few words and was about to leave.

After thinking for a moment, he suddenly sent a voice transmission, "if you really want to go to the central continent, following hou Xiaochen might be safer than following Nan Quan." Although hou Xiaochen was a calculative person, he had his own way of doing things. He liked to do equivalent exchanges. "Nan Quan ... You should know him a little. He's not stupid, and he's not as honest as he looks, but he won't do anything rashly. He still hopes that you can help him suppress the chains of his internal organs. But you have to remember one thing. To be able to mix in with the royal family like a fish in water, there are many conspiracies and tricks. Don't be deceived by appearance."

Li Hao nodded. He knew what to do.

Chapter 900: -news spreads in all directions

...

Last time at Cang Mountain, he had actually felt it. If Hong Yitang hadn't been at Cang Mountain last time, the southern Fist ... Might not have let him go so easily.

Of course, if Southern Fist was there alone, Li Hao might not have made a move.

Hong Yitang was actually a good person.

This was his first time in an ancient remain, and he had already taught Li Hao some things. Li Hao didn't know why he was teaching him, but he felt that Hong Yitang was a generous person, so he was willing to have more contact with him.

Hong Yitang didn't chat with Li Hao anymore. He turned to look at the others and cupped his fists. "There are many things to do in swords gate, I shall not disturb you anymore. Marquis, commander Yu ... Everyone, I will take my leave!"

With that, he turned around and left.

Hou Xiaochen glanced at him, but didn't say anything.

Kong Jie also took a look and suddenly said, "Are you interested in coming to Whitemoon city? Old hou will be leaving soon. If you come, I can guarantee that you'll be the Deputy Secretary or Deputy Minister ..."

"No, thank you!"

Hong Yitang turned around and left. He had already disappeared.

Director Zhao and the others looked on silently. Kong Jie said, "This guy ... He's already reached that stage. In the ruins, even old hou was beaten!"

As soon as he said that, the pupils of the few people shrank slightly!

Hou Xiaochen chuckled and sent a voice transmission, "I've been abused. Why are you so happy?" "However, it's indeed a bit unexpected for the earth-overturning sword to reach this stage. His sword intent is majestic and has the meaning of virtue and tolerance. There's no need to worry too much about what he will do. The earth-overturning sword probably has its own thoughts. At least it won't commit evil."

Huang Yu's voice rang in their ears, "How's the southern Fist?"

"It's alright, just average."

Hou Xiaochen didn't give him too high of an evaluation. Instead, he sent a message, "Seal off the ruins completely. Some of the existences inside might have recovered!"

As soon as these words came out, the expressions of the few people changed again.

It was resurrected!

This was a terrifying thing.

No matter who was in the relics or what kind of existence it was, it had been so many years, good or bad, their stance at that time didn't mean anything. People who were not in the same era and didn't belong to their own tribe would always have different thoughts, not to mention the existences from so many years ago.

"Li Hao ..."

"Eight great families, it's indeed the eight great families. Silver City is not simple! Li Hao might have gained a lot too, but we don't have to worry about it for the time being, in case it causes some unpredictable results!"

"....."

The few of them had a simple conversation and did not talk about the specific situation.

And Li Hao didn't say anything. While the others weren't paying much attention to him, he led Heibao and Liu Long and waved at Wang Ming. Wang Ming ran over and hurriedly left with Li Hao, not paying attention to his grandfather's expression.

.....

On the road.

Li Hao didn't speak.

After they had walked for a while, Li Hao looked at Liu Long and said, "Boss, previously in the city, martial uncle Hong seemed to have told you that he wanted you to do something for him, right?"

Liu Long nodded.

Li Hao pondered for a while and said hesitantly, "I can understand some of boss's thoughts, but I don't feel it too deeply. Uncle-master Hong said that I'm too inexperienced and don't understand some things. He's right."

"That day in Silver City, boss, you said that the mission of the demon hunting squad was to protect that city ... To be honest, even now, I still can't fully understand it."

"It doesn't matter," Liu Long said, "we've all been through this. No one was born to be righteous and kind. My thoughts are related to some of my experiences. When I was young, my father died of illness. At that time, my enemies came to me, and the people of Silver City helped me a lot. In the Silver City, I still managed to grow up and join the inspection Office. I obtained the help and trust of some people ... That's how I got to where I am today. "

Therefore, he wanted to give back to the people who had raised him.

Therefore, he didn't leave Silver City in a hurry after he gained the ability.

This was related to his personal experience.

Silver spear died of illness, and his enemies were everywhere. That year, the martial masters of Silver City stood up to protect him, and some big shots of Silver City also came out to protect him. The son of silver spear, the silver of silver spear, was actually the silver of Silver City!

He was the pride of the silver Blizzard city. Back then, as silver Spear's son, some of the older martial masters of the silver Blizzard city had fought for him many times. These experiences were different from Li Hao's.

Li Hao exhaled. "Boss, I might go to the central region. It's getting further and further away from the Silver City. I called you from the Silver City to the White moon City, but now, I might have to leave again."

"I'm getting further and further away from that home!"

"Senior uncle Hong is very strong. I've heard some of his ideas before, and I want to change them ... Since he thinks that you're suitable to go with him, I think you can give it a try."

Hong Yitang had recruited Liu Long.

Li Hao had heard this. Perhaps Hong Yitang had let Li Hao hear it on purpose. Liu Long running around with Li Hao might not be of much use. Liu Long's personality and divine will could not improve by killing more people.

Sometimes, what was needed wasn't these, but a kind of belief and motivation.

If Hong Yitang wanted to establish a Pure Land, he needed the help of someone like Liu Long. Otherwise, he might not be able to accomplish it alone.

Water was soft. Liu Long's comprehension of the force of water did not have a violent personality. This kind of divine intent was still on the gentle side. His current wave force was on the brutal side because of Li Hao and Yuan Shuo's suggestion.
