

Constellation 901

Chapter 901: news spreads everywhere

...

However, this might not be suitable for Liu Long.

Liu Long frowned slightly and did not say anything.

Li Hao continued, "boss, are you worried about sister Liu and the others?" If boss is worried ... Bring them along. If he's not worried, they ... It's best if they follow me. "

He didn't want Liu Long to follow him, but let Liu Yan and the others follow him.

Liu Long looked at Li Hao in surprise.

Li Hao continued, "if they follow boss, they can only go to the swords gate. Then, they will have to retire in peace. But their personalities ... They are not like boss!" I can tell that brother Chao, brother Jian, and even sister Liu are not willing to stay in the Silver City for the rest of their lives. They'd rather go out and fight with a grudge in their hearts. In fact, they're just like me-they have a grudge, but they don't know how to vent it. "

Wu Chao's entire family was killed by Fei Tian, and he had yet to take revenge.

Liu Yan's husband had been killed by the Yama. Although the Tiger soul was dead, Liu Yan didn't seem to have let it go.

As for Chen Jian's side, Li Hao didn't know what was going on, but Chen Jian seemed to be very happy in the Wei Wu Army.

Perhaps these people were more suitable to run around with him. Perhaps they would only be inspired if they were in danger. As for Liu Long, he preferred to stay and guard the Silver City. This was a group of people with different personalities.

"Are you really going to the central continent?"

Liu Long didn't say anything more, but he was puzzled, "You still have room for improvement here ..."

Li Hao thought for a moment and said, "I haven't made up my mind yet ... Maybe I'll wait a little longer, wait for my teacher's news!" If he doesn't come back, I'll go to the central continent! I was too weak before, so he didn't take me with him when he left. Now that Hong Yue is chasing after him, I have some power ... How can I just sit back and watch?"

"When I was at my most dangerous and helpless moment, in the entire world, only boss and teacher were willing to stand up for me. Once boss has settled down ... I'll go and look for teacher!"

Li Hao smiled. "That day, knowing that it was dangerous, boss fought the Crimson Moon cultivators for me in the city. My teacher risked his life to kill the three suns ... My parents have passed away, and my best friend died tragically in front of me ... I have no one else to worry about except you!" Martial uncle

Hong's heart is broad and boundless, and I ... May not be as benevolent and righteous as him, but I know one thing, a drop of kindness should be repaid with a spring!"

"I still have to go and take a look at teacher."

He didn't go to the central region to see more powerful people. Even if there were some, they were only a small part of the group. He wanted to see Yuan Shuo.

Don't die outside.

Now that he could fight Xuguang, he was no longer the weakling who could not even truss a chicken.

Liu Long didn't say anything else.

On the side, Wang Ming was also listening quietly, a little excited. "You're going to the central continent?"

"Are we going to find the teacher?"

"Take me with you!" Wang Ming said excitedly.

Liu Long was speechless, "you're really not afraid of death!"

Wang Ming chuckled and said, "Minister Liu, who isn't afraid of death?" However, mediocrity was more terrifying than death! To be honest, I like excitement. Mediocrity is worse than death! I saw how my grandfather struggled between mediocrity and transcendence. He exhausted his remaining strength and entered the peak of three yang, but it was difficult for him to take another step forward ... Look at these people in the hou Department, each of them has their own unique talents. Men, if they don't live like this and live like my grandfather, it's actually very sullen!"

"If your grandfather hears you, will he beat you to death?"

Li Hao laughed, and Wang Ming also chuckled. "I don't know about that, but I do know that it's a rare opportunity. If we can't leave now, we might not be able to leave this place in this lifetime! "I don't really understand the path of martial masters, but I do know that the path of superpowers is a path to walk ..."

Li Hao didn't say anything, nor did he promise anything.

Wang Ming wanting to follow him was actually a little unexpected, but it was also reasonable. This guy was actually very bold. If he wasn't, how would he have dared to attack the three suns in the remains?

If they were not courageous, how would they dare to be his bait?

He wasn't brave enough to follow Li Hao and ignore Hao lianchuan and hou Xiaochen's orders because he wanted to follow Li Hao and have more opportunities.

This guy was very bold!

A group of people walked towards the small town in the distance, where the demon hunt squads were still waiting for them.

.....

And on this day, the news spread rapidly.

The Silver Moon supers were completely annihilated!

Thousands of supers had fallen in a single day, and the number of rays of death could be counted on two hands.

Among the three major organizations, nine of them from the remains today ... Including Huang Yue, there were actually ten of them. They were all annihilated, along with a few independent cultivators, Xu family members, Liu family members, and the general of the Linjiang governor's mansion ...

In addition, there were the mountain and tsunami who had disappeared earlier, as well as the three suns and the king of Samsara, and the red-haired man who had died earlier ...

In the short span of a month, the number of sunrise powerhouses who had gone missing or died on Silver moon's side had already exceeded twenty!

As for the three suns, they were even more terrifying. After careful calculation ... Over a hundred three suns had died. This was simply an incredible loss. Too many experts had died in heaven battling city's ruins!

The news was spread by some people and it immediately caused a huge commotion!

The central region had been in war for many years, and there had been some deaths, but none like today. Several leaders of the red moon had died in a relic exploration.

The same was true for the Yama. King of equality and King of Samsara, one dead and one missing!

Chapter 902: -news spreads everywhere

Other news also started to spread. The person who had escaped from the Xu family was the holy sword of the past. This news was spread by a Nightwalker. Along with this news, the holy sword of the past threatened Li Hao in the ruins. Because of Xu Feng's death, the holy sword of Light wanted to kill Li Hao and threaten hou Xiaochen ...

...

Yes, that was how the news came out.

Why would he use Li Hao to threaten hou Xiaochen? who knew?

Some people speculated that Xu Feng might have died at hou Xiaochen's hands ... It wasn't a suspicion, but a fact. Everyone thought that the three major organizations didn't need to go against the Xu family if they wanted to be active in the Eastern Province.

Hou Xiaochen, on the other hand, was fearless and didn't seem to care about anything.

There was a 99% chance that the Xu family had been killed by hou Xiaochen.

At this very moment, hou Xiaochen's name had spread far and wide. He was an incomparably fearsome fellow, a fellow that everyone feared.

No one knew what was going on, but they all knew that almost no one from Silver moon's government had died. Two of the three suns had died, but they had been Hu Qingfeng's men.

Anyone with a discerning eye could see that there was something fishy about this.

At the same time, there was another piece of news.

One of the leaders of the red moon, one of the seven moons, Zi Yue, was not dead yet. Instead, he was locked up in the prison of the inspection Office. It was not the night patrolman, but the inspection Office who locked Zi Yue up.

The inspection Office immediately spread the news to the public, asking orange moon to turn herself in!

Otherwise, the purple Moon would be sentenced to death very soon. As the leader of the three Darksider organizations, there was a 99% chance that they would be sentenced to death. Even though no one had tried the powerhouses of the three organizations, Silver Moon might appear for the first time.

The news quickly spread across the North Sea and to the central region!

All of a sudden, even the central area was shaken.

It was at this time that hou Xiaochen announced to the public that he was going to take up a position in the central region. He accepted the night patrol's order to head to the headquarters and take up the position of Deputy Minister.

Once the news was out, it once again caused an uproar.

Hou Xiaochen, who had just intimidated the entire world, had given up on his independence and silver moon's independence. He had given up on being the rebel King and was now in the central region, taking up a post in stellarsky city. This was simply unbelievable!

Everyone's gazes instantly shifted from the dead bodies to hou Xiaochen.

This man is coming to the central continent!

.....

In the distant stellarsky city.

That night, as the news spread, every department was brightly lit!

"Hou Xiaochen agreed to the transfer ... But now that he's here, who would dare to use him?"

"Yes, how to use him is a big problem!"

"The three large organizations will not let him go. He is too ruthless. He actually annihilated dozens of sunguang, hundreds of three suns, and thousands of supers in Silver Moon ... He is indeed one of the three commanders of the Wei Wu Army. His methods are too brutal!"

"Hehe, let's just sit on the mountain and watch the Tigers fight. Let's solve the internal problems of the night patrollers first. Huang Long has always wanted to control the night patrollers. Originally, that

person was no match for Huang Long. Now that a Dragon has crossed the river, I think Huang Long should be the one with the biggest headache!”

“Haha, that’s true! But ... I don’t know if the financial division will make things difficult for us. Hou Xiaochen was too arrogant and wild. He actually killed a member of the Liu family.”

“.....”

That night, the entire stellarsky city was not a quiet one.

The news from the border and the Wildlands instantly swept through the entire stellarsky city. Some people were looking forward to it, some ignored it, and some were gnashing their teeth in hatred!

.....

At the same time.

In a hotpot restaurant, Yuan Shuo was eating hotpot. He breathed in deeply, and his mouth was full of oil. Suddenly, he took out an object from his pocket. It was a small jade pendant, and some words appeared on it.

Yuan Shuo took a glance at the message. He did not pay much attention to the first one. Instead, he read the second one and suddenly sneered.

On the other side, jade light sword, who was also eating hotpot, was curiously scooping up a piece of meat. He felt that it was strange to eat it, and when he saw him sneer, he asked, “What are you doing?”

Yuan Shuo wiped his mouth and sneered. “It’s nothing. The Seven Swords of the Silvermoon are just arrogant!”

Jadesword was speechless!

Who was he talking about?

But ... She didn’t mind. She was definitely not talking about herself.

This was only one of the reasons why he had followed Yuan Shuo to the central region and killed in all directions. What Azure light sword was more interested in recently was the various changes in the central region. The food and drinks there were all different, and he had been eating all kinds of delicacies with Yuan Shuo recently.

This fellow was truly bold. Every time he killed someone, he would swagger off to eat good food, causing even Jade lightsaber to feel that he had lived in vain all these years. Yuan Shuo was still the most carefree and unrestrained.

There was no deep hatred or bitterness as he had imagined. Yuan Shuo was a person who knew how to enjoy life. He could live in a hotel, eat a big meal, and have all kinds of identities at his fingertips. He pretended to be anything, and Hong Yue was completely led by the nose by him.

At this moment, Yuan Shuo also picked up a piece of meat and ate a few mouthfuls. As he ate, he said, “That old witch, the light sword, is still alive! I didn’t kill her that year because of her special

cultivation method. I couldn't bear to lose this inheritance in the martial arts world. She's quite bold to actually bully my disciple!"

Yuan Shuo's eyes flickered with a cold light. "That old hag is in Silver Moon. How dare she bully Li Hao? Li Hao has only been practicing martial arts for a few days, while she's an old thing who has been practicing martial arts for decades. How dare she interfere in the matters of my five birds clan ... I'll beat her to death sooner or later!"

He wasn't joking when he said that he would kill them. He would really kill them.

Jadesword glanced at him, then lowered his head and continued eating without saying anything.

The Sword of Light was confused!

Even if you challenge Yuan Shuo to a duel, it's still better than finding trouble with his disciple.

If that doesn't work, I'll have you send someone to find Li Hao. Yuan Shuo, this villain, still follows the rules and won't say anything. If you personally take part ... I'm afraid you won't have a good ending.

Yuan Shuo quickly regained his composure and continued eating. After a while, he said, "The little monkey is quite capable. He killed a lot of people, including a large number of Xuguang. It seems that he's coming to the central continent."

"Oh."

Yuan Shuo felt like he was playing the zither to a cow, so he didn't say anything more. He chuckled and said, "Let's not talk about this. Ying Hongyue, that little brat, is probably really anxious this time. The green peacock and the others have all been killed. I don't know what she's thinking now."

Wu Hongjun didn't care much and said casually, "With his personality, do you think he would care? It's long past that period, but ... Revenge is certain. Ying Hongyue's desire for revenge is still very strong."

"That's true!"

Yuan Shuo laughed as he ate. Suddenly, he said, "I want to play with Tian Jian ... I don't know how strong this guy is now. The light sword's whereabouts are unknown, but Tian Jian has a name. What do you say ... I give him a good beating?"

"....."

Wu Hongjun was too lazy to pay attention. Can you fight against Heavenly Sword?

He killed Xuguang with a single sword strike a few years ago. It's very terrifying. You'd better escape from the Black Widow first!

Yuan Shuo didn't continue speaking and just ate his meal quietly.

She was still a little depressed.

It seems that the deterrence is not as good as before. If it was 20 years ago, these people would not dare to take the initiative to find trouble with me even if you lent them three guts.

It was a pity that the strengthening of his five internal organs was not completed. The fusion of the fourth force was still a little short. Yuan Shuo was cursing in his heart. Just wait and see!

Of course, he would not return to Silver Moon at this moment.

He would not return until the five Forces had fused!

Li Hao seemed to be fine, too. He wondered if he had made any progress this time.

'He was able to kill a peak three yang expert before, but this time ... He shouldn't have improved so fast that he could kill Xu Guang, right?'

There had to be a reason for the radiant sword sect to find trouble with him. Threatening Hou Xiaochen would be a joke. It was more likely that it had something to do with the Xu family.

The Xu family seemed to have lost Xu Feng, a character on the bullshit god tier master ranking list, in the middle of the rising light Stage ... Li Hao couldn't have done that, could he?

Countless thoughts flashed through his mind. He couldn't believe it, but ... He felt a sense of urgency!

This won't do!

The so-called "the student surpasses the master" was all a lie he had made up to Li Hao. Li Hao should be weaker than him for life, or it would be too embarrassing. 1

Chapter 903: A new era (3)

...

The news from heaven battling city's ruins was flying everywhere.

The entire Sky Star dynasty was in a heated discussion, even suppressing the turmoil in the three northern provinces. The three northern provinces were in turmoil, but thousands of supers and dozens of Sunglow died at once.

As for the deaths of the common people, no matter how many of them died, not many people would care.

The turbulence continued, and countless people died, but it was not as shocking as the fall of a single sunguang.

.....

In the small town.

The members of the demon hunt squad were all listening to Liu Long's explanation of the situation in the ruins.

After a long time, Hong Qing couldn't help but say, "the Deputy Captain said that a few more powerful swordsmen have appeared in the remains this time." "The light sword can even rival the peak of the rising light?" My father's ranking in the Seven Swords was higher than this person's ..."

He suddenly felt a little sour!

Sword of Light!

She heard that the light sword could rival the peak of the rising light. She suddenly felt a little jealous. "My dad's overhand sword is one of the Seven Swords of the Silver Moon. He was the second-ranked swordsman back then."

Now, the Azure light sword was following Yuan Shuo, killing in all directions in the central region.

The Sword of Light appeared, extremely powerful.

The heavenly Sword was in the middle.

"The other swordsmen are all dead. Of the living ones, my father is the most miserable. Hearing this ... It's not good."

Uncomfortable!

My father used to be three suns, and I thought he was very powerful. Now ... Three suns is nothing, he can't even win against the leader.

Liu Long was at a loss for words.

For a moment, he didn't know what to say.

During this trip to the ruins, his greatest shock was probably the explosive power of the earth overturning sword and the southern Fist, but ... It was hard to say.

Li Hao didn't mention it, pretending to be confused.

He couldn't say much now.

However, when he saw Hong Qing's envious and jealous look, he felt so sour that his teeth were about to fall out. He really wanted to say, "your father ... Is really strong. He can fight a group of people by himself, and even the Silver Moon officials 'experts were suppressed by him."

However, as the daughter of the person involved, she knew nothing about it. Until now, she still thought that her father was just an ordinary three yang.

On the side, Li Hao was flipping through an ancient book and said with a smile, "Martial uncle Hong isn't weak. It's better to keep a low profile. The people from the light sword sect are too high-profile."

"I wish my father could be more high-profile, but ..." Hong Qing said enviously.

Forget it, I don't have to say it!

She then added, "but the light sword is too shameless. She's bullying the weak. As a Silver Moon Martial Master, she doesn't follow the rules at all. Although my father's strength isn't as good as hers, he always says that we should follow the rules. If everyone doesn't follow the rules, the world would have been a mess long ago."

Li Hao smiled.

Liu Long couldn't help but ask, "what does sword head Hong usually do in swords gate?"

At this moment, he was very curious.

He wanted to ask around so that he could judge Hong Yitang's character. Asking around meant that he was actually a little tempted. There was no doubt about Hong Yitang's strength, but now, he wasn't familiar with him, so he hoped to get to know him better through others.

And right in front of him was the best channel. His daughter, disciple, disciple, there were all kinds of them.

"What are you doing?"

Hong Qing was stunned for a moment before he answered, "I don't think he did anything. My father taught us martial arts, cultivated flowers, and planted vegetables ... Oh right, he would sometimes take us to carry out some missions from the surrounding cities. Some of the cities are affected by the interference of the superpowers and they would ask us for help. The night patrolmen are sometimes too busy ... This way, we can earn some money to support our daily cultivation."

"Sometimes, they would also give us some money and supplies. There are many people on the mountain, so we have to make money."

"Earn money?" Liu Long was stunned.

"Yup,"

Hong Qing nodded and said, "there are a lot of people in the swords gate, and a lot of children. My father always likes to go out and wander around. Sometimes, when he goes out and sees some homeless people, he wants to take them in ... After a while, the number of people in swords gate has reached a thousand."

"But swords gate only has thirty to forty martial masters and thirty to forty supers. That's less than a hundred."

Swords gate's 30 martial masters joined the demon hunt squads, but in fact, apart from Hong Yitang, there were no other martial masters in the school. Even if there were, they were all people who hadn't stepped into the tenth severing realm, and thus couldn't be considered martial masters.

However, after saying a few words, Hong Qing said excitedly, "But now we can support ourselves, and we have gained a lot, much more than the small tasks in the surrounding cities! We'll send some back when we receive our salary next month. Father can pick up some children. It doesn't matter."

Liu Long and Li Hao both looked at her with sympathy.

Was this the most pitiful second generation of the martial arts world?

He had a powerful father, but ... He didn't know anything. He had to go out and do some small tasks to earn money for his meals. Not only that, when he came out to work, he still had to send the money back to support the family.

Not only her, but the swords gate martial masters also seemed to have the same idea.

Waiting for his salary and then sending the money back to support Hong Yitang ... What a miserable feeling.

Liu Long was speechless and sent a voice transmission to Li Hao, isn't the earth overturning sword a little too much? Even if he's hiding his strength, he has the power of three yang. He shouldn't need to let his daughter and disciple work to support the family, right?"

So, these people were still waiting for their salaries!

For so many years, Liu Long had almost never considered the matter of salary.

Speaking of which ... It was quite laughable.

Li Hao smiled, looked at Hong Qing, and then at the others."Senior-martial uncle Hong is going around picking up people, and you guys aren't going to stop him? Besides, it's difficult for a Martial Master to cultivate on his own, and it's not good to support others, right?"

Chapter 904: A new era (2)

...

Hong Qing chuckled."It's okay. Some children are very cute. When I was in the mountains, they pestered me every day and called me big sister ... Leader, you don't know, but these children are very interesting sometimes."

On the side, Hong Hao was calm as he took over the conversation,"Leader, you don't know this, but we were actually one of the people who were picked up back then ... There was no sword sect in this world. Master took pity on us and took us in. He taught us to read and write, taught us martial arts, and helped those who couldn't learn martial arts to develop a skill so that they could survive even if they left the world ..."

"Nowadays, there aren't many adults in swords gate, most of them are children. But in the past few years, many of them have left swords gate. On Silver Moon land, many of the children who left swords gate are now either officials, inspectors, entrepreneurs, businessmen, and workers ... Most of them are willing to return the favor. Many of them, other than the necessary expenses, will send their own money back to swords gate ..."

Hong Hao looked at Li Hao."Therefore, we all support master's decision and hobby. Without master's carefulness ... We wouldn't be where we are today."

There was no sword sect in this world!

The so-called swords gate was just a sudden act of kindness by a certain person, who took in a group of people, and then ... The earth overturning sword became a burden, and gradually, the swords gate appeared in the Silver Moon land.

Therefore, there were not many strong cultivators in the swords gate, except for his eldest disciple Hong Xiu who had broken through to the three suns realm. In the huge swords gate, there were only a few people in the solar system, and there were even fewer martial masters.

This kind of strength was actually not as good as the light Island, the island that was easily destroyed by Yuan Shuo.

That was because Hong Yitang wouldn't go out of his way to look for God tier Masters or martial arts geniuses. He would just leave it to fate. Among the people he took in, he would teach them a thing or two if they were suitable for martial arts.

Therefore, the people of swords gate were all very peaceful and had a solid foundation. However, if they were really amazing, they would have long become a Qian warrior.

Hong Yitang didn't have high expectations of them. In this chaotic world, it was enough to have some ability to protect themselves.

He didn't have high expectations for them, as long as they didn't commit any crimes outside of swords gate, he didn't care if they admitted that they were from swords gate, or if they switched sides and joined other organizations.

At this moment, Liu Long was silently listening.

"Then, have the swords gate adopted a lot of people all these years?"

"I don't know,"

Hong Hao shook his head. "Sometimes, people will come and sometimes, people will leave. I won't stop them. If everyone wants to leave, they can leave. When you become an adult, it's fine if you go out to work, get married, have children, or other things ... I won't care too much. He's more casual and rarely goes out except for taking on some night patrol missions. However, in the past 20 years, master has picked up at least 8000 children, if not 10000, right?"

Who would still remember?

There were now more than a thousand people in swords gate, but there were still a few who came back to check on the situation. There were also some who never returned after leaving swords gate.

Hong Hao had seen through all of this and was used to it. It was fine if he didn't come back.

At the very least, there were still many people who were willing to come back and visit swords gate every year, and they were also willing to provide some support to swords gate. Most of the food and clothing were also sponsored by those people.

Hong Qing also laughed and said, " my father only has this hobby. Later on, my Senior Sister ... Ahem, she also helped my father to go out and pick up more children. In the past few years, they have been picking up more children. Otherwise, I remember that a few years ago, the number of daily members in swords gate was maintained at around 500 ... But now, there are almost a thousand. "

" That Senior sister of mine ... Even encouraged my father to pick up some adults ... But it's not that bad, some of them came from the war-torn zones, and they're actually quite nice. They usually help out with some chores like cleaning, cooking, and washing clothes. The swords gate is much cleaner than a few years ago, but there were too many people a few years ago, and most of them were children. It was so dirty that I had to do the laundry during that time ..."

Speaking of this, Hong Qing's face was filled with tears and snot. A few years ago, there were only a few young children in swords gate, and not many adults. Even as the daughter of the headmaster, she had to wash her dirty clothes.

Not to mention how sour and refreshing it was. The clothes of older children were still fine, but for children, the kind that could not control their bowel movements, when she washed them ... It was really sour and refreshing.

Hong Hao also laughed. " Master said that when you get married, you'll know everything. You won't be bullied anymore. You'll know how to wash clothes, cook, take care of children, and even martial arts ..."

Hong Qing rolled his eyes and said, ' I'm not getting married. To become a powerhouse like the captain, do you still need to be at the mercy of others? "

Li Hao was silent.

He continued to read his ancient book, the five bridges building method.

Liu Long, on the other hand, seemed to be very interested,"are all the children of swords gate Silver Moon 's?"

"Not really. Actually, most of them are foreigners. Some are from the central region, and some are from other provinces in the North ... Silver Moon is actually fine since there aren't many wars. There are more Wars in the three northern provinces because there has always been some unrest in the three northern provinces."

"Sword head Hong also teaches other skills besides martial arts?"

"My father only taught martial arts. My Senior Sister would teach other things. Senior Sister ... Actually knows quite a lot. It is said that my Senior Sister was born in a rich family ... Cough, who knows? "Senior Sister can teach girls some other skills. Not to mention cooking and washing clothes, Senior Sister knows a lot. She knows zither, chess, painting, and even weaving ..."

Chapter 905: A new era (3)

...

Liu Long continued to ask, and Hong Qing, who had nothing to do, kept answering.

It was not a big secret. Hong Hao listened at the side. Sometimes, when Hong Qing talked about the martial Dao of the earth overturning sword, he would stop him without batting an eyelid. He did not care about anything else.

There weren't many secrets about the swords gate, other than the gossip of his master and Senior Sister, to the outside world, it was just a normal daily life.

.....

Such questions were boring, but Liu Long, Hong Qing, and the others chatted until it was almost dawn.

The crowd also dispersed.

Today, they still had to rush back to white moon City.

After everyone left, Liu Long looked at Li Hao. Tonight, Li Hao had been reading the entire time, which was a rare sight.

"If you go to the central continent ... I ... Want to stay." Liu Long took a deep breath.

"Boss, you're sure?"

"En!"

Liu Long said in a deep voice, "find extraordinary in the ordinary!" I didn't know much about Swordmaster Hong in the past. There's only one rumor about him in the pugilistic world ... He's timid and weak. Not daring to fight with professor Yuan is his biggest flaw in the pugilistic world. "

"But ... But after hearing about the swords gate, I think, maybe ... This is what Swordmaster Hong is after. He is a free man, but he has to shoulder some responsibilities. Now that he wants to do more, I think ... I should stay. To be able to receive Swordmaster Hong's invitation is something to be proud of."

"Besides, my strength is nothing in the central continent. He could still take care of the Silver City here. "Although Silver Moon isn't at war and the three great organizations have been annihilated, I'm still worried that the three great organizations will retaliate sooner or later ..."

He decided to stay.

He hadn't made up his mind at first, but after a night of chatting, he made up his mind.

"Then stay!" Li Hao nodded.

"Are you sure you want to go to the central region?" Liu Long exhaled.

"I'll take it slow for now. I've had a lot of resources recently, so I'll absorb them first. Even if I go ... I'm not going to be hunted down or to die. I'm going ... To kill!"

Li Hao's eyes turned cold.

Kill who?

The Crimson Moon was naturally his first choice!

Some grudges can't be eliminated.

The hatred of my parents, the hatred of my brothers, and even my parents "corpses have been dug up. Such hatred can't be eliminated even if you pour all your resources into the world. My heart won't be at peace until the Crimson Moon is destroyed.

Liu Long could stay, but he couldn't.

If the red moon's people didn't come, he had to go.

However, now wasn't the time. Li Hao decided to continue strengthening his body and his qi and blood. He would strengthen his five organs, build his five bridges, consume the spirit-accumulating fruit to

strengthen his Shi, and then cultivate the Willow silk sword to the extreme. It would be best if he could sense wood Shi, but if he couldn't ... He even had the intention to consume the sky Golden Lotus and strengthen his other Shi.

As for the other types of Shi, if they were too strong, then the comprehension of wood Shi would cause the Shi to become unbalanced ... This was a matter for the future.

Therefore, Li Hao had a lot of things to do.

Not so idle.

Hou Xiaochen could leave freely because he was strong. He was so strong that even if he went to the central continent, he would still be a powerhouse. Li Hao couldn't.

.....

The group of people had breakfast at dawn and then rushed in the direction of white moon City.

It was October 1st.

After crossing the Hengduan Canyon, there were only a few people in the canyon. Most of them had left or were dead. Only a few night patrollers and Wei Wu Army soldiers were left to guard the entrance to the ruins.

When Li Hao crossed the transverse Canyon, he ran into Hao lianchuan, who was in a hurry.

Hao lianchuan also saw Li Hao's group and quickly rushed over. He panted and said, "You're going back to Whitemoon city?"

"Yes, where are you going, Minister?"

"To hunt down the remnants of the three major organizations!"

"It didn't stop the whole night. There were too many people from the Crimson Moon, and many of them ran away. There were thousands of Crimson Moon supers in the 19 provinces in the North, but many of them died and many of them ran away ... I still have to lead a team to yinbei. I heard that some supers have entered the Cang mountains ..."

Li Hao frowned and quickly reminded him, "Forget about the Cang mountains, don't bother about them."

"What's wrong?"

"I've gone in once before, and it was extremely dangerous. Over there, Banshan, tsunami, the king of Samsara, and the Lords of the sixteen Hells were all killed!"

"....."

Hao lianchuan took a deep breath. He really didn't know about this.

No wonder these people never appeared.

He had thought that these people who had been chasing Li Hao had either lost their way or were still wandering in the Cang mountains ... Only now did he realize that they were all dead. This was too terrifying.

Seeing that he didn't know, Li Hao explained, "there's a powerful demon there. It's very powerful. I was lucky enough to escape. Since those people have gone in ... Let them go in. They'll die!"

"But, since Minister Hao is going ... Why don't you stay in the Silver City for a few days?" he said after some consideration. "In case some members of the three major organizations who have been defeated will attack the Silver City."

Currently, there was only one person, sunlight, in charge of Silver City.

Although the three major organizations were running for their lives like stray dogs, once they felt that there was no way to escape, they might do something that would anger the heavens and the people.

At first, Li Hao was prepared to let Liu Long return and stay for a few days, but after thinking about it, Li Hao felt that perhaps ... He should give Liu Long more benefits these few days. Perhaps when he left, Liu Long would part ways with him. He had to strengthen Liu Long's five internal organs to a certain level first.

Chapter 906: A new era (3)

...

"I'm going to Silver City?"

Hao lianchuan was a little stunned. I'm the Deputy Minister, and you want me to take charge of Silver City?

Li Hao smiled. "I have some treasures with me. They might be helpful for you to discover the fifth superpower lock."

Hao lianchuan immediately became righteous. "Okay, I'll take a team to take a look. Silver City is far away and close to the Cang mountains. It's indeed dangerous!"

"Alright!" Li Hao smiled and nodded. "Then I'll have to trouble you, Minister!"

"It's my duty, it's my duty!"

Hao lianchuan chuckled. It didn't matter where he went. He would just take a look at Silver City and come back in a few days. Silver moon's chaos should be more or less settled by then. It would be great if Li Hao could help him find the fifth Super Lock.

Soon, he left with his team and headed to Silver City.

Liu Long couldn't help but laugh. "Our Minister Hao is indeed made for work. No wonder Minister hou hasn't been in charge for so many years and has left everything to him."

Look at how proactive he was!

With some benefits, he could do the work with his blood boiling.

Li Hao laughed as well. However, after some thought, he decided that it was time to help Hao lianchuan find the fifth SuperLock. After hou Xiaochen left, if Hao lianchuan's strength had not improved, he would not be able to survive.

If hou Xiaochen left, there was a high chance that Chief Steward Yu would follow him. Perhaps Jin gun and the others would leave as well ...

As a result, there would naturally be many Silver Moon experts, but the strength of the night watchmen would instantly drop to the bottom.

.....

It was not until the afternoon that the group of people rushed back to white moon City.

The White moon City was as peaceful as ever.

No one would come to the White moon City at this time to throw away their lives. Hou Xiaochen and the others had returned. The danger level of the White moon City was higher than any other place.

"You guys go back to the Wei Wu Army's camp first, I'll go to the night patrolmen ..."

Li Hao warned them for a while and then went to the night patrolman's camp alone.

As a member of the Wei Wu Army, he was currently hou Xiaochen's subordinate. When he was outside, he could still say that he was busy, but now that he was back, he still had to report.

Rules!

In the past, Li Hao wouldn't have cared, but when he thought of the rules of a Gold Division Senior ... He was afraid that hou Xiaochen would punch him!

.....

At the night patrolman's encampment.

When Li Hao arrived, it was bustling with people.

When someone saw Li Hao, he hurriedly greeted him.

This person was not an ordinary person. He had killed six three suns in the past. Even if his battle record was not obvious in the remains and no one knew the situation, he could escape the pursuit of the three major organizations and enter the remains. He was also a fierce person.

Li Hao nodded with a smile and continued on his way.

Hou Xiaochen's office was on the sixth floor.

His office was the only one on the sixth floor.

The office door was open. Hou Xiaochen was in the office, and so was Chief Steward Yu. Li Hao knocked on the door and said, "report!"

“.....”

Hou Xiaochen and chief Yu were both surprised and looked at Li Hao.

I know you're here, and I know you've come in ... Why are you still shouting so loudly? 1

“Come in.”

Hou Xiaochen said as he sat behind his desk. When Li Hao entered, he raised his chin and motioned for him to sit down.

Li Hao stomped his feet and sat down on the side, his face solemn.

“.....”

“Are you trying to show off the discipline of the heaven-battling Army?” hou Xiaochen chuckled.

Li Hao smiled. “No, I just think it's very handsome. I think it's necessary to try it!”

Hou Xiaochen smiled. He glanced at Li Hao, then at Chief Steward Yu. “You can go first, I'll go later.”

“Alright,” he said.

Chief Steward Yu nodded and walked out. When he reached the door, he turned around and glanced at Li Hao. “Remember, your mission has not been completed yet. Don't forget what you promised when you borrowed the fiery phoenix spear.”

After saying that, he turned around and left.

This guy was getting arrogant.

Don't forget what you promised.

Li Hao coughed and didn't say anything. He had promised that he would help hou Xiaochen get the Black Tortoise seal in the remains to repay the two favors he had done for him. One was Yuan Shuo's remaining, and the other was his.

I do remember, but ... If you want me to take the black Tortoise seal from director Wang, you might as well just kill me.

Hou Xiaochen chuckled and glanced at Li Hao. “Don't listen to her nonsense, I'm a person who doesn't expect anything in return for my kindness ... You owe me a weapon comparable to the weapons of the eight great families, that Black Tortoise seal is probably the Wang family's weapon, you owe me one, just remember that.”

“.....”

At this moment, Li Hao was speechless.

He didn't say anything, and hou Xiaochen didn't mind. He smiled, “What's the matter?” he asked.

“No, I'm just giving a simple report of the situation.”

Li Hao thought for a moment. "We killed some people before and were chased to the Cang mountains. There, I encountered four powerful demons. They were extremely powerful. Banshan and the others were killed by these demons ..."

He briefly explained the situation. He didn't know if Hou Xiaochen knew about the great demon of the Cang Mountain, but he might.

After he finished, Hou Xiaochen nodded his head, "The monster race of the grey Mountain ..."

"The grey Mountain isn't simple. There are many treasures in the depths of the grey Mountain, and there are even remnants of some historical remains. The Li Dynasty opposite the Cang mountains is not simple either. It's a good thing that the demon clan of the Cang mountains exists now, as they've stopped the powerful cultivators of the Li Dynasty from entering the Silver Moon. "

As expected, he knew, and he knew quite a lot.

"Everyone thinks that the Li Dynasty has been destroyed, but we all know that it still exists. Not only that, but there are many powerful people! He's just an overbearing Dali expert, but he's currently unable to cross the Cang mountains and is being held back by the demons of the Cang mountains. Otherwise, he would have attacked the Silver Moon Kingdom long ago. "

Chapter 907: A new era (3)

...

"The Li Dynasty may have also obtained the heritage of the ruins, so there are many strong people, and many of them walk the path of ancient martial arts. Ancient martial arts are somewhat different from modern martial arts. These people's physical bodies and qi and blood are extremely strong, but their divine will is much weaker. There are many superpowers and strong martial masters ..."

Li Hao was a little surprised. You speak as if you've been to the Li Dynasty.

"Has the Minister been to the Li Dynasty?"

"I've been there once ..."

Hou Xiaochen nodded, "It's very dangerous. If you don't have anything important to do, try not to go there. However, it'll be helpful to go there and spar." Taking everyone's strong points, extracting their essence and removing their dregs, and turning them into his own use were all ways to improve himself. The Li Dynasty won't be able to come over in a short period of time, but we have to be careful of any agreement between the Cang Mountain demon race and the Li Dynasty ..."

"However, Silver Moon has his own strength, so there's no need to worry too much. It's just that once the Li Dynasty invades, Silver Moon will be in trouble, and war will be inevitable."

After a few simple words, he said, "You don't have to worry about the monster race in the Cang Mountain at this stage. I will leave the Silver Moon in three days. I won't bring too many people with me, but I can't go without people. If I don't bring people, I won't have the confidence to go there." Xiao

Yu and the Wei Wu Army will follow you there. That place will be their new opportunity. What are your thoughts on this?"

"The Wei Wu Army?"

"Yes,"

"Take them all!" Hou Xiaochen nodded. Here, it will be difficult for everyone to enter the warrior tide. Go to the central region, participate in more battles, and train them. Only then will they have the hope of entering the warrior tide and become a guard Wu Army!"

He wanted to take away the Wei Wu Army, and all of them at that. This was out of Li Hao's expectations.

"What about the Pirates?"

If the Wei Wu Army was taken away, what would happen if the Pirates came to the Yuehai?

"Do you think that Silver moon's Wei Wu Army is enough to handle this?"

He laughed."Don't look down on Silver Moon. The inspection Division, Garrison, and administration Bureau are not useless. It's just that when I leave and the Wei Wu Army leaves, aren't they still here?"

"You're actually concerned about the Pirates? I thought you were more concerned about the Wei Wu Army's departure and your salary. "

Li Hao was stunned for a moment, but he quickly smiled."I've only heard them talk about it. Pirates aren't weak. Since the Minister said so, it's fine."

"What do you think?" hou Xiaochen asked.

"I'm not sure yet. Before my teacher left, he told me to keep a low profile and leave with the department head ... Maybe it's too high-profile."

"As you wish."

Hou Xiaochen didn't say anything. He only reminded Li Hao, "Don't keep going to the ruins, you have the bloodline of the eight great families, but you also have to understand that it's not necessarily a good thing to enter too many ruins, the impact is too great. You can learn the ancient martial arts inheritance, but you can't learn all of it, if you completely indulge in it, you will be the next ancient martial arts practitioner. Those who cultivated ancient martial arts were all very powerful, but those who cultivated ancient martial arts ... Were not extremely powerful! Jade lightsaber, frenzied blade, and the others all walk the path of ancient martial arts. Their strength is not weak, but compared to the others, they are still a step behind. "

Li Hao nodded.

"Go on, do your thing!" Hou Xiaochen waved his hand.

"Yes, sir!"

Li Hao stood up, stomped his feet, and left.

This made hou Xiaochen feel a little uncomfortable.

After he left, he shook his head and smiled. Little guy, who are you showing off to?

After some thought, hou Xiaochen dialed a number, "Li Hao might not go to the central region for the time being. If he doesn't go Then let Li Hao's demon hunt squad stay in the moon ocean."

On the other side, someone replied, "the number of demon hunt squads doesn't even reach fifty, can he stay in the Moonsea?"

"I'll just take a look. "

"Alright," he said.

After the conversation ended, hou Xiaochen stood up, walked to the window, and looked downstairs. Li Hao was currently walking out.

Hou Xiaochen's eyes flickered. No one knew what he was thinking. He watched Li Hao leave before sighing softly. The eight great families ... The protector clans ... Perhaps they had long been forgotten after countless years.

.....

Li Hao quickly returned to the Wei Wu Army's camp.

Gold spear and the others were not around. They might have gone to encircle and annihilate the three major organizations. There was only a 100-man team left in the base.

As for Li Hao, he found a large training room and gathered the demon hunt squads. He trained in the small training room in the middle, while the others trained outside and began to extract elemental energy.

This time, he was prepared to improve himself.

He used all the treasures that could be used.

Now that hou Xiaochen and the others had left, even if he didn't leave, he had to be prepared. Compared to hou Xiaochen, he was even more unfamiliar with some of Silver moon's people, such as Kong Jie, director Zhao, and Huang Yu.

At the very least, hou Xiaochen was more reliable than these people.

After hou Xiaochen left, he was the only group left in the Wei Wu Army, so he didn't know if they would run into any trouble.

Also, the Pirates that he had been talking about ... Would they attack when they found out that hou Xiaochen had left with the Wei Wu Army?

All kinds of thoughts appeared in Li Hao's mind.

At this moment, he had started to absorb the elemental energy and was also pondering about the five bridges construction method. If he didn't construct the five bridges, he would need to maintain the balance of his five internal organs every time and would need the same amount of elemental energy. It was too troublesome and would seriously delay his cultivation speed.

.....

At the same time.

Swords gate encampment.

It was a huge mountain. On the mountain, the swords gate had established a sect and a place of residence. At this moment, people were coming and going, and it was quite lively.

The sound of children reading could be heard from some buildings.

Outside the building, there was farmland. At this moment, there were also people working in the fields.

It was like the source of peaches.

Hong Yitang just looked at it from his two-story building. Ever since he returned, he had been looking at it for a long time.

“You’ve been watching for a long time. You must be tired. Do you want to eat something?”

Behind him, the young Hong Xiu looked at him worriedly. It had been a long time since this tall and sturdy man in front of her had been like this. He had not spoken, as if he was making some important decision.

The last time he was like this ... It was because he had decided to marry her.

That was a challenge that broke the ethics of the world. Hong Yitang had hesitated for a long time before finally making a decision.

Hong Yitang continued to read and suddenly said, “As the ancients say, don’t do it because evil is small, and don’t do it because good is small. A little kindness was also kindness. I’ll do it if I can. I’ve been following this line of thought for many years. I’ve been willing to contribute a little for the world when I can do it. I’m willing to be a little more kind without affecting myself.”

Hong Xiu hurriedly nodded. This was not a small kindness. In this era, this was the heart of ultimate benevolence.

That was why she admired and loved the man in front of her, even at the cost of everything, because ... There were too few people like him.

“But I also hold on to a philosophy,” Hong Yitang continued. “If I’m poor, I’ll be good for myself. If I’m good, I’ll help the world. I can’t worry about the world first and enjoy the world later. I’m not the most powerful person in this world. If I were to count ... I might not even be ranked in the top five. In this world, I might not even be ranked in the top hundred. This is strength.”

“As for power ... The small swords gate has dozens of superpowers and martial masters, not to mention me. The overlords created Wars and dominated the world ... How can I help the world?”

“You’re a good person when others are fighting for hegemony. Even if you don’t intend to get involved, in the eyes of others, you’re just a hypocrite. In this chaotic world, your good reputation is an original sin ... The swords gate is so harmonious, if you get involved rashly, what will the disciples of the swords gate do?”

Hong Xiu seemed to understand and said softly, "As a man, there are things you should do and things you shouldn't. [The disciples of swords gate are all willing to follow you, my husband. Be it going to war or going into seclusion, we are just floating ducklings in troubled times, we have no roots, no ties, no ties ... Whatever my husband wants to do, no one in swords gate will object, they will only support him!] We share the same fate, we don't know gratitude, we don't know pity, why ask for the same?"

Hong Yitang was silent for a long time. He gently pulled the beauty beside him over and looked at the farmer who was working. After a long time, he smiled. "Then ... Do as I wish!"

At this moment, the terrain churned!

The huge swords Gate Mountain seemed to be shrouded by a powerful force at this moment. The sound of reading and laughter spread out from the mountain, and the sparks of fire spread out from the mountain.

When the heavens changed, someone had to stand out. This era shouldn't be like this!

Chapter 908: -cultivation, promotion, and departure

...

Cultivation, endless cultivation.

Mysterious energy, elemental energy, divine power stones ...

Li Hao didn't spare any thought for this.

He also adhered to a principle: use when you should. If you don't use it today, it will be used by someone else tomorrow.

If he wanted to take revenge, he needed strength.

At this moment, he didn't care about any ambitions or grand plans. He only cared about revenge.

The day when his hatred was eliminated might be the day he could walk out. His heart was sealed, and now, how many people could walk into his heart?

Hong Yitang, hou Xiaochen, the heaven battling Army, and many others were trying to change him.

Li Hao was not an idiot.

He understood.

He understood the meaning of every word they said, but ... They didn't understand that hatred could make people lose themselves.

Li Hao, who had been admitted to the ancient academy and was chosen by Yuan Shuo in this era, was not an idiot. On the contrary, he was very smart. However, the smarter he was, the easier it was for him to get in and not get out.

Smart people couldn't live without a heart.

For example, he had been hiding in the inspection Office for a year. He had been low-key and humble, and no one felt that he was inappropriate. However, at the critical moment, he gave Hong Yue a thunderous blow, instantly destroying all their plans.

Before that, Ying Hongyue probably didn't expect that Li Hao would be the one to ruin her plan. Perhaps she had thought of many people, but Li Hao was the only one she had never thought of.

Rich elemental energy filled the entire Hall.

Li Hao didn't absorb much. It was the others who did it.

He was trying to build the bridge of the five internal organs.

The more he tried, the more shocked he was.

The bridges of the five organs weren't just bridges of energy, nor were they simply meant to strengthen the five internal organs. As he tried, Li Hao vaguely discovered that there was a secret to the five internal organs.

The five internal organs contained the spirit ... It contained the five Forces!

The fusion of the five Forces, the fusion of the five abilities.

When he tried to use the superpower lock to build this bridge, the five bridges vaguely touched each other. The moment they touched, a brilliant force exploded. That force ... Was similar to inner strength, but it was not exactly the same.

"Five internal organs, Five Forces, five elements, five energies ..."

"It's a pity that I haven't gathered my wood force!"

At this moment, Li Hao felt a little regretful. If he had gathered wood force, he might have had a different feeling. At this moment, he vaguely felt that he understood what his teacher's so-called Soul Fusion stage was.

He also had some vague ideas about the God-breaking realm after the spirit-fusing realm.

A line of numbers appeared in front of Li Hao, which were brought by Yin Lu. This time, he took out three books, all of which were ancient books that he urgently needed.

At this moment, he opened the first book.

"Basic courses of martial Sciences universities"

Yes, it was just a basic course.

It explained in detail how to strengthen the body, limbs, bones, and bones, all the way until the five internal organs, and finally enter the so-called Grandmaster realm. Then, the mentality would be corporeal, which was what was known as the divine decree.

According to what was written, Li Hao and the others were already Grandmaster powerhouses when they reached the Qian warrior realm.

It was even more than that!

According to the books, grandmasters could not achieve the level of Li Hao and the others, who could manifest their divine will and kill people with their divine will. At the very least, they could not do it as easily and casually as they did, and their bodies could not withstand the powerful divine will.

The present and the past were indeed different.

The bodies of the ancient people seemed to be weaker, and weaker bodies seemed to be easier to strengthen. The weak five internal organs could be strengthened and tempered a long time ago without worrying about the divine intent being too strong and bursting the five internal organs.

The book also said that in the early stages of the ancient civilization, the human body was actually in a semi-sealed stage. There was a so-called Sanjiao gate in ancient times, which transferred a large amount of energy to a special area.

However, it was different now. His body was strong, and he had nowhere to release his energy. He could only store it within his body ...

Super Lock!

At this moment, Li Hao thought of the Super Lock.

Super Lock, lock energy, lock the five internal organs, lock the four limbs ... Great power gathered in one's body.

Therefore, the superpower lock was not a chain but a self-protection mechanism. Now that the superpower had unlocked the superpower lock, it meant that it had released its potential and given up on self-protection. Therefore, there were many drawbacks to the superpower.

Li Hao quickly flipped through the second book. It was about the differences between the path of energy and the path of vitality.

After looking at it for a while, he fell into deep thought.

The ancient people's path of energy was equivalent to today's path of superpower, but ... It was not exactly the same. The ancient people's path of energy could actually transform the entire body, especially the fragile five internal organs.

No wonder!

In this way, he naturally did not have to worry about the energy invading his five internal organs because he had already been assimilated. He was the energy, and the energy was him.

"Today's supers are made of flesh and blood. They've even broken the superpower lock and given up on their own protection. Of course, they're much weaker ... As such, compared to energy, the disadvantages of superpowers are even greater. In the end, they might not be able to escape death!"

Looking at the ancient records and comparing them to the people of today, Li Hao had many feelings.

There were some differences between the two systems.

The key was that the difference between their physiques was completely different. The ancient people's energy was transmitted to the outside through the Sanjiao gate, but in today's world, all the energy was actually gathered in the body, and the Sanjiao gate did not matter.

The Sanjiao gate was a form of weakening, but it was also a form of protection.

The superpower lock had the same effect. However, the superpower lock would still explode in one's body in the end ... This would also cause people to suffer a greater backlash and pay a greater price.

Chapter 909: cultivation, promotion, and departure (2)

...

"Why is this so?"

Li Hao wondered why the Sanjiao gate had disappeared.

If it was still there, it might be easier to do it step by step.

According to the ancient books, one could cultivate smoothly and become very strong if they followed the prescribed order. However, he did not understand why the Sanjiao gate in the book had disappeared in the modern era.

Even though the superpower lock had a similar effect, a Martial Master ... Would be in deep trouble if he kept storing energy into his body!

The stronger the superpower lock was, the harder it would be to break it in the end.

If he released his body, he would encounter the same situation as the current martial masters. The power contained in the superpower lock was too strong for the five internal organs of the body to withstand. The five internal organs of the ancient people might not be as strong as those of the current martial masters. In Li Hao's opinion, their so-called tempering felt like ... A light cultivation.

It might not be comparable to Yuan Shuo's decades of nurturing, but Yuan Shuo could not bear the power of the Spirit in his five internal organs.

One thought after another flashed through his mind.

The ancient books that Yuan Shuo had passed down to him in the past also surfaced in his mind.

He then thought of the black-armored soldiers. After they died, their souls and obsessions would not be destroyed for thousands of years ... This was not what the ancient people called a beginner. It should be the spiritual energy of the so-called Grandmaster realm martial masters.

Countless Grandmaster martial artists!

This was an Army made up of grandmasters. Otherwise, their physical bodies would have been destroyed long ago, and their obsessions would not have remained.

Li Hao continued reading. Waves of energy entered his body and continued to strengthen his body and five internal organs.

“In order to build the five bridges, the ancients only needed to open the blood Qi channel and construct the energy circulation system ... But now, if we do the same, the fragile blood Qi channel can’t support the powerful power of the five internal organs. Especially for people like us, with the powerful Super Lock and powerful momentum, it’s impossible to penetrate the energy circulation system of the five internal organs.”

At this moment, Li Hao thought about it and decided that the only thing that could really support it was the Super Lock.

However, could the superpower lock allow energy and blood to flow?

The superpower lock absorbed energy. Once the blood and Qi circulated, it might be absorbed directly by the superpower lock. In that case, the superpower lock would become stronger and stronger unless it reached a limit and stopped absorbing.

However, was there a limit to the superpower lock?

Li Hao frowned. He didn’t know this.

He had never heard of it.

Others might have been trying, but Li Hao had never experienced the feeling of the superpower Lock No longer absorbing energy.

At this moment, he thought of a person.

“Summoning the southern Fist company commander!”

“.....”

After a long time, the silver armor beside him sent out a signal from Nanquan, “What are you doing?”

“Is martial uncle Nan Quan still nearby?”

“I’m leaving in a few days, why?”

“I have a question. Martial uncle Nanquan, is there a limit to the power lock? It means that it will no longer absorb energy, and it will remain in the same state without any changes ...”

“Yo, not bad, kid! The research had already reached this stage? Of course, there is a limit. I told you before, to be able to break a chain, to be able to undo a seal, all of them have reached the limit of one Dao ... And this limit actually has a sign, the Ultra-Lock No longer absorbs energy!”

The southern Fist didn’t expect Li Hao to start researching this system so quickly.

He continued, “the discovered superpower locks on the human body are usually counted in nine, not counting the head. Superpowers don’t matter. On the master’s side, people like us have superpower locks on our limbs that no longer absorb energy. This is the level we’re at now. When the four limbs “superpower locks are full, we’ll be as strong as sunguang!”

“Now, let’s go and strengthen the five organs Super Lock ... This is also the most difficult step because strengthening the Super Lock can’t strengthen the five organs, so the five organs will be very weak. Right

now, none of my five organs super locks are full ... Hong Yitang and the others might have already reached the maximum capacity for one of their five organs super locks. Therefore, they can usually unleash the combat power of a peak sunrise while I can only unleash the combat power of a mid sunrise!"

Nanquan gave a detailed introduction and said,""This is actually still a long way from you. I can feel that the superpower locks on your limbs are not fully saturated ... So, before this, old Hong and I did not say anything. I did not expect you to start researching this in the blink of an eye."

Li Hao's eyes flickered.

So that was how it was!

At this moment, he finally understood what it meant to be a Martial Master.

Super Lock!

"Then why don't you unseal the four limbs instead of the five internal organs?"

Li Hao still had some doubts that he had yet to get an explanation for.

"I don't know about the others," Nan Quan continued."We might not be on the same path. As for me, I've tried but there's nothing I can do. Although the four limb's superpower lock is saturated, I found that the five organs 'superpower lock is easier to loosen ... The four limb's superpower lock is more solid and can't be broken, so it can't unseal combat power. You've been holding it in for so long and all you've got is a fart ... That's funny!"

Li Hao chuckled.

With more thoughts in his mind, he continued,""So, all of you are experiencing the saturation of the locks in your limbs and now the saturation process in your organs?"

"Not all of them are like this. We can also strengthen the five viscera Super Lock first ... It depends on the individual's choice. In fact ... What about the lock on the head? BA Dao might be like that, his divine intent is extremely powerful, so it's possible that he'll strengthen the head first ..."

Li Hao understood."So, what my teacher is doing now is probably to strengthen the five organs Super Lock?" he asked.

Chapter 910: cultivation, promotion, and departure (3)

...

"Right!"

Nan Quan continued,"the five internal organs are the most difficult. In other words, it's similar to the head. The four limbs should be the easiest path. So, most martial masters nowadays are like this. I am like this, and old Hong is probably the same ... In the end, we will still end up with the same destination. It just depends on how everyone will walk in the middle."

He added, "there's another point to the difficulty of the five organs. The five organs have five separate superpower locks. They have five different powers. These five powers ... Actually conflict with each other!" Conflict is the biggest problem, and it can easily lead to the five internal organs shattering. This is also the reason why we have been unable to find a suitable way to step into this level. "

"Your teacher, the breathing technique of five birds ... Might be able to solve this problem. That's why we're all waiting and looking forward to it ... Sigh!"

He sighed. It seemed like he had been tormented quite badly.

Strengthening the five internal organs was a very difficult path.

"Even if your teacher succeeds, he's at the mastery of all Five Forces while we only have one. That's the difference ... Tell me, even if he succeeds, do we have any hope?"

He was very pessimistic.

However, Li Hao's eyes flickered. "Don't forget the five bridges construction method. Teacher's five birds breathing technique might still have some problems in the end. But what if we cultivate the five internal organs as one?"

"You've been looking at the five bridges construction method, did you get anything?" Nan Quan's heart was moved.

"Yes, but there are still some problems ... I may need some of my teacher's theories to support it ..."

The problem was that his teacher's organs had not reached their maximum capacity yet. So, how was he going to temper his organs without weakening them and strengthening his superpower lock?

In this ... There were still some key points that his teacher had not mentioned.

Maybe she only realized it after he left, but she didn't know if she had resolved it.

However, if he couldn't solve these problems, Li Hao would have to strengthen all five of his super locks to the maximum in order to successfully build the five bridges. If that was the case ... The southern Fist and Hong Yitang should give up!

Who knew how long it would take for him to reach that stage.

Li Hao's current knowledge was not enough for him to make some changes. As for the breathing technique of five birds ... Perhaps only his teacher could modify some of the plans to balance the energy and avoid the absorption of the Super Lock.

The next moment, Li Hao cut off the connection.

Since he could not find his teacher now, it did not matter. If it did not work, he would try to strengthen his five organs and five organs Super Lock. Anyway, he had sword energy, so strengthening it was much easier than others.

If not ... He would have to spend many years to successfully strengthen a single Super Lock.

However, with the sword energy, it was much easier.

With this thought in mind, Li Hao began to absorb elemental energy. The energy quickly merged into his body.

At the same time, the martial masters outside were also strengthening their five internal organs. Countless amounts of energy overflowed for them to absorb. A Black Dog also opened its mouth from time to time to suck a few times. It was obviously fatter than when it had just come out. It had eaten so much that it wanted to sleep.

This place was still the most comfortable!

At this moment, apart from Liu Long, almost all of the other 49 martial masters had broken through to the late-stage of the 100-plus level. There were only two or three who hadn't broken through yet, but it was only a matter of time.

The team leaders had already begun to study the divine decree.

There was a special case in the crowd: Wang Ming.

At this moment, Wang Ming was different from these martial masters. They still needed to comprehend divine intent, but Wang Ming didn't need it. He absorbed a large amount of elemental energy, washed through the superpower lock, and absorbed it into his five internal organs, which clearly strengthened his metal element Energy.

In the blink of an eye, he was already at the late stage of the sun glory realm, and even began to move towards the peak stage.

Superpowers had their advantages and disadvantages.

The advantage was that they were not facing any major bottlenecks. As long as they found the superpower lock and broke it bit by bit, they would become powerful sooner or later.

He was improving rapidly!

However, Wang Ming wasn't in a hurry to break the next SuperLock. He could only see five at the moment, which was theoretically enough for him to cultivate to the rising light Stage, but he also remembered what Yuan Shuo had said back then ... The potential would be greater if he strengthened the SuperLock!

Back then, he had broken a superpower lock and fused the chain fragments into other superpower locks. It was strengthened once. Now, he began to absorb some elemental energy to strengthen the superpower lock. He was not just trying to wear them down.

Since he couldn't become a Martial Master, he would become a powerful super!

If he had obediently followed the prescribed order and absorbed all this elemental energy, he might have already broken through to the third yang realm. But after much consideration, Wang Ming decided to take it slow.

In the same realm, even if he couldn't defeat a powerful Martial Master, he was invincible among supers!

In the distance, Liu Long was also strengthening his five internal organs.

This time, Li Hao had gained a lot. Everyone had benefited from it and were all training crazily.

Time passed day by day.

Li Hao's divine power stones and mysterious energy were also being consumed rapidly.

Li Hao, who had more than 2000 divine power stones, had used 30 of them to exchange for the water of the spring of life, which was equivalent to spending 300 divine power stones. One divine power Stone could be converted into 250-280 cubic meters of mysterious energy.

In the past few days, Li Hao had consumed almost 300 divine power stones and converted nearly 70000 cubic meters of mysterious energy because he had absorbed so many people.

Black Panther had stolen a lot, Liu Long had absorbed a lot, and so had Wang Ming. The martial masters had absorbed a little less.
