Wondering how she discovered our business, I recalled how she used to visit us in the old neighborhood and still had a lot of friends there. My thoughts snapped back to how to proceed. Fulfilling my lustful fantasy of making love to my aunt, I wanted it to be a special session for both of us.

I bottomed out in one quick stroke, tearing through her sensitive pussy walls. She scr

I captured her mouth again, and we tongue fucked while my hands gripped her ass, helping her humping hips meet my thrusts. My cock slammed against her back wall each stroke, causing hot air to gush from her lungs each time.

"Good morning. How did you sleep?" Mom rose, allowing me to see it was Rachel fucking herself on my rod. Her ass faced me with her head near my feet. Groaning so loud that she couldn't hear our conversation, it was evident that she had been enjoying my prick for a while. I replied, "I slept well, and hopefully, I can wake up like this every day."

Traveling down her hot skin, my hands stopped several inches below her swinging breasts. Spreading my fingers out, they sunk between each rib and squeezed tight. I could feel her heart pumping at an elevated rate. Stopping my hip movement, I fucked her by pulling her back and forth, using her ribcage as leverage. Her mini-orgasms didn't satisfy her

My prick enlarged to accommodate the large lake of sperm boiling through it. Mom's spasming pussy continued to contract, attempting to coax out the river of hot cum flowing up my shaft. The large head of my prick felt like it exploded when the first load of hot, baby-batter shot out, bathing her insides.

She screamed in ecstasy when I felt a shock
