

Crazy Leveling System

?Chapter 16: I Will Forging Spirit Tool!

“Summon Xiao Lian at once!” Second Elder hurriedly ordered the disciples nearby to find Xiao Lian.

In less than a moment, Xiao Lian presented herself in front of the elders, she was confused as she didn't know why she was summoned here.

“Palace Lord?” Xiao Lian came over and asked.

“Master Kong here wants you to be his dao companion. I wonder if you are willing?” Second Elder asked with a smile, Xiao Lian is considered to have a bad talent, so marrying out, in exchange for three spirit tools is undoubtedly a very good trade.

“No, I'm sorry but i can't comply with your wish...” Xiao Lian looked at Master Kong and immediately shook her head and refused.

After this refusal, Master Kong face was contorted to a frown. He is a master, a promising blacksmith. The future achievements are limitless! He did not expect that she ?did not even consider his proposal and straight up refuse him.

“I am a third level blacksmith. After you marry me, you will have a better live. I will be fourth or fifth ?level blacksmith in the future, even so, you still refuse to marry me?” Master Kong eyes are full of discontent.

“Thank you for your kindness Master Kong, but i don't want to be anyone dao companion for the time being. I hope you can understand that there are other sisters in Jade Palace you can choose from.” Xiao Lian refused Master Kong and she seems didn't care about Kong feelings at all.

“Damn, you are just maidservant, yet you dare to reject me!” Master Kong felt a humiliation and looked at Xiao Lian with cold voice: “If you don't want to be my dao companion, then forget this spirit tool, you must find other master who is willing to forge you one!”

“Xiao Lian, what are you thinking!” Second Elder hurriedly said: “This is Master Kong. If you marry him, a mere plebeian like you will be treated like a noble, stop disrespecting him! Your family is not rich people, if you marry him. He will do what you want!”

Second Elder do not want to lose this opportunity. It's three spirit tools for free? How can she let go of such a sweet deal?

Master Kong expression on the high side, coldly watching Xiao Lian, the previous smile disappeared, revealing a cold expression.

“Leave at once! Shi Xueyun glared at him coldly “I address you master as a form of respect! I didn’t expect you to be this arrogant, I’ve had enough! I will ask others to forge the spirit tools for us, I no longer need nor appreciate your help for us any longer!”

As the title suggests a palace lord sure have an intimidating aura, domineering the entire room, who dares to oppose her now that it comes to this? If she gladly accepts then she surely won’t have anything to say, but it will be different when she is being forced, she surely would not be happy.

“Plebeian? sister Xiao Lian has always been a noble, what is this you are talking about?” Yi Tianyun was also uncomfortable at this time. He sees Master Kong and laughed: “Master Kong, it seems that you are not needed anymore. if it’s just a spirit tool, even I can forge it myself!”

He stood up and looked at Master Kong with a smirk.

The moment he finished his sentence, they all froze and stare at Yi Tianyun, even Shi Xueyun looked at him with disbelief at first. Being a blacksmith is not something you can do overnight. It takes a long time to be able to forge weapon, not to mention a Spirit Tools. And out of the blue Yi Tianyun boasted that he can create a spirit tool. Isn’t this questionable?

She can only think that Yi Tianyun said it out of desperation to stop Master Kong.

“You want to forge spirit tool?” Master Kong sneered and said: “I heard that you are a trash without blood qi, and it seems you have won against Spirit Sect, didn’t expect that you are an idiot as well.”

When Shi Xueyun heard this, her eyes were cold and murderous. Obviously, his words is out of the line, inciting her anger.

Yi Tianyun immediately hold her little hand and stood up and sneered at Master Kong: “Then what if i can forge one?”

“If you can forge a spirit tool, then I will give you this spirit weapon, and I will walk with my head later!” Master Kong took out a long sword, it is indeed a good spirit weapon, but this weapon only belongs at low level spirit grade. But it’s already worth the price, which is 50.000 gold. At his level, he can only forge lower level.

His eyes were full of disdain, and he felt that he was being provoked. He did not expect to be humiliated too after being rejected by a servant!

“If you can’t, what then? She’ll marry me, how is that?” Master Kong sneered, and even if Xiao Lian married to him, he definitely wouldn’t treat her as a wife, she will be treated as a maidservant, no maybe even worse.

He had a high standing and held by a high regard by people, and with this humiliation, it is naturally impossible to treat this Xiao Lian as a wife anymore.

“Sister Xiao Lian is not a tool, nor a bet!” Yi Tianyun said coldly: “If I can’t forge a spirit tool, then I will cut an arm, how is that?”

“Cut one of your arm?” Master Kong smirked and said with a smile: “Alright! If you are willing to go that far. It’s a deal! Begin immediately. If you fail, then cut an arm! If you can’t do it, you can give me an authority of Jade Palace, don’t blame me!”

Master Kong’s realm is not high, but he has good backings. At the very least knowing a few big families and giving some pressure to Jade Palace is not a problem.

“No problem” Yi Tianyun turned to look at Shi Xueyun and then said: “Palace Lord, please give me material of spirit tool, I will forge a spirit tool now.”

“Ding! get side mission to forge spirit weapon. Mission reward is 5,000 experience, immortal fire.”

『Quest: Forge a spirit weapon.』

『Reward: 5.000 exp and Immortal Fire.』

『Immortal Fire: Can’t be extinguished, can be used to forge high level tool, or alchemy, can also be used to attack.』

He discovered a new task, and the reward is Immortal Fire! This thing is the best, although it is a low level item, it can be leveled up, this is incredible!

They all looked dumbfounded in this scene, especially the three elders, who all thought that Yi Tianyun was stupid. And make a bet too to boot. Does he really know how to forge a spirit tool? Being able to forge a spirit tool at such a young age, is simply genius.

Obviously this is just plain impossible. Master Kong is thirty years old and he is still at this level, it is almost unbelievable if Yi Tianyun can actually do this!

“Are you crazy, you even dare to say such a things, quickly apologize to Master Kong!” Second Elder snapped.

“Apologize? why should i apologize to him? It’s just a spirit tool, I can also forge it!” Yi Tianyun sneered: “Sister Xiao Lian, everyone can marry whoever they want. You are not a tool!”

“Young Master...” Xiao Lian’s eyes reddened. She look guilty and thought this happened because of her . She almost agreed out of guilt. She didn’t expect Yi Tianyun and Shi Xueyun to stand by her side.

“Well said! now I will take you to the forging room and you will forge a spirit tool to show them what you capable of!” Shi Xueyun actually agreed to this matter, and did not stop him!

“Aunt, do you believe me?” Yi Tianyun said, with complete confidence he stare at his aunt.

“If I don’t believe my own family, who else will?” Shi Xueyun smiled and that smile is so beautiful.

Chapter 17: Forging

Shi Xueyun’s words truly put him at ease, she’s the only one who would trust him when everybody else around him wouldn’t and that’s enough for Yi Tianyun, enough to keep him going.

Yi Tianyun smiled lightly and said immediately: “I will live up to aunt’s expectation who believes in me!”

Following Shi Xueyun, everyone came to the temporary forging room, which was originally built for Master Kong. Considering there will be more people helping to forge weapon here, it would be better to build a new forging room that is bigger.

Since this room is relatively new, there is not that much equipment here, that being said, it is enough to forge spirit tool.

“These are the materials originally prepared for Master Kong to forge spirit tool, but we only prepared five sets of materials, in other words only two failure at most for him.” But now that it becomes a challenge for Yi Tianyun, he only needs to successfully forge one Spirit Tool which means he can fail 4 times.

“I won’t fail, not even once.” Yi Tianyun said indifferently.

He is well aware of the level of the blacksmith skill he obtained earlier, and he’s convinced that he can forge a good spirit tool, but due to the level of his blacksmith skill, he can only forge a low level spirit tool, but that’s good enough, what matters is to prove that he can forge a spirit tool.

“You won’t fail? Not even once?, that’s big coming from you, unless you reach have reached fifth level blacksmith. Your blacksmith level is already that high or what?”

It's as if Yi Tianyun made fun of him, because even at his age and level he can't guarantee 100% success to forge a spirit tool, at most he can guarantee 50%. So when Yi Tianyun said he won't fail, he was so irritated.

"I am indeed not a fifth level blacksmith, but who said to forge a successful spirit tool, you must be at least fifth level blacksmith?" Yi Tianyun said a faint sentence, then immediately looked at Shi Xueyun and said: "What kind of weapon should I forge?"

"A long sword, we mostly use long swords here." Shi Xueyun said.

Yi Tianyun nodded and picked some materials, then he approached the furnace. This furnace is full of ordinary flames, so the process will take a while.

However, this won't be a hindrance, this is just enough to forge a spirit tool.

"I want to see how long you can keep this farce up!" Kong master thought that Yi Tianyun was bluffing, he wanted to see his expression when everyone knows he just pretend to be able to forge a spirit tool as revenge for declining his offer.

Yi Tianyun is after all an infamous trash who doesn't possess blood qi and can't cultivate, now that trash thinks he can forge a spirit tool?

Yi Tianyun completely ignored him and was getting ready to put in the materials into the furnace.

The three elders chatters inconspicuously, they are so skeptical toward Yi Tianyun. They thought that Palace lord treats Yi Tianyun specially. If he fails, not only we will suffer a great financial loss, but also attract Master Kong's hostility. It's like rubbing salt on your wound.

"Palace Lord, if he fail..." Third Elder couldn't help but say.

"You can hold me responsible for that." Shi Xueyun faintly replied.

"Palace Lord, you can't act on a whim like this, I know that you are pampering him, but you must make decisions logically! What shall we do if he fails? How do we enter the Heavens Immersing Ancient Ruins, if we have no suitable weapon!" She kept worrying about the worst possibilities. She is already unable to get the quota to enter ancient ruins for her disciple. Now, if he fails, even the weapons to enter the ruins are gone.

The price of these materials is not cheap, so every failure is extremely distressing.

"I will bear any consequences regarding this matter." Shi Xueyun responded so faintly.

Third Elder filled with doubt and dissatisfaction, but since their position and authority is below palace lord, all they can do is retreat to the corner.

Third Elder ?did not intervene with the forging, but Second Elder is getting impatient and she keeps jabbering nonsense.

“If he fails, we will report this matter to the ancestors, and leave the decision to them!” Second Elder suddenly added another sentence.

In an organization, the oldest is not the elders, but ancestors who have retired, their realms are unfathomable, as the most powerful backing.

“Feel free to do so.” Shi Xueyun said faintly.

This makes her even more infuriated, because she thinks this is all for for Jade Palace.

“Palace Lord, I can...” Xiao Lian felt that things have gone too far, and she felt responsible, then ?whispered to Shi Xueyun.

Before she managed to finish her sentence, Shi Xueyun said indifferently: “I believe in him.”

Xiao Lian glanced up and looked up at Yi Tianyun, she felt a deep admiration toward him for standing up for her.

During the conversation, Yi Tianyun put in all the materials into the furnace, and began the process.

“Haha, How long are you going to make fool out of yourself? Throwing all the materials at once, you really are dumb! Even if you want to pretend, at least make make it believable!” Kong master pointed at Yi Tianyun’s behavior and laughed.

Yi Tianyun ignored him, he channels his spiritual power to the weapon at his own pace, and continuing to temper the weapon.

The other elders can only watch from afar now since whatever they say to Shi Xueyun is meaningless now.

“It’s a pity, those good material have become scap now. If only you are not so stubborn and insist to forge the spirit tools without fail, even i can only forge it at 50% chance. But still it’s better than seeing the materials become scrap like this...” Master Kong laughed and thought that Yi Tianyun is only making fun of himself at this rate.

Yi Tianyun remain calm, letting Master Kong say whatever he wants.

As time went by, the furnace did not explode, and the material inside gradually began to take shape. Formed a long sword, with the constant tempering, keep shrinking, it looks more and more like a long sword.

At this time, Master Kong's laughter ended abruptly, and his face glared at the sword in the furnace. If he failed, it wouldn't shape like that, it would instantly become scrap.

"This, this is impossible... To refine all the materials at once you need absolutely strong control. This is absolutely impossible!" Master Kong began to panic. He thought Yi Tianyun would fail. But that's not the case.

Yi Tianyun showed him he won't fail, and will keep shaping his future toward success the way he is now.

Chapter 18: Go Out!

When Master Kong saw Yi Tianyun's situation, he began to panic, especially when he saw the materials Yi Tianyun tempered began to take shape, he felt flustered. In his head, he kept swearing at Yi Tianyun, hoping that Yi Tianyun somehow failed to forge that weapon. Otherwise not only he would be humiliated once again he will also lose a spirit tool.

At this time, Master Kong and the three elders succumbed to silent. Although they don't understand all the process of forging, at the very least they know that Yi Tianyun is doing a rather remarkable job In front of them, there is no sign of failure.

The elders start to murmur behind him: "Will he actually succeed?"

They are stunned to disbelief. If that is the case, then Yi Tianyun really is a super genius. He can reach this level at a young age. Which means he can reach even higher level in the future? Not only his realm is not low, but he can also forge! How did he learn all this?

They couldn't help but look at Shi Xueyun. They thought Shi Xueyun somehow allowed Yi Tianyun to learn how to forge? They have no other idea how can Yi Tianyun forge.

In fact, it is not only them, but even Shi Xueyun are completely stunned. The forging is not easy, and that is completely different challenge than a simple cultivation. The mysterious powerhouse who taught him is so powerful that he knows how to forging right away.

Despite the chattering, Yi Tianyun maintains his concentration and continue to temper the long sword inside the furnace, as time goes by. The material slowly but surely shaped into a bright sword.

"Forging completed!"

Yi Tianyun shouted, and immediately a long sword was tossed out of the furnace.

This long sword flew out, after a spinning in the air, the sword fell down and pierced the ground. The surface of the ground become icy, representing the effect of its ice properties.

Some of the materials creating the sword is having a cold properties, so the effect will be amazing.

『Ding, Congratulations to completed the mission. Get 5.000 exp, Immortal Fire!』

He got 5.000 exp. Immortal Fire fell into his ability bar and became a unique ability!

Not only that, His Forging Mastery is also increased by 10 point, it's good but he must forge at least a hundred in order to level up. However, if he can forge high level spirit tool, the mastery he earned will certainly be higher, but will undoubtedly increase his chance of failure.

If he is forging a low level spirit tool, there will be no chance of failure, because from the system point of view, the success rate is 100%, so he can boast to Master Kong that he won't fail.

“Master Kong, can you confirm is this a spirit tool?” Yi Tianyun said with a smirk never leaving his face.

This does not need to be confirmed at all, as long as that person is not blind, everyone can see the sword sparkling icy attribute, confirming anyone that sees it as a spirit weapon. Although it is low level, he successfully forged it is a fact.

Master Kong panicked, and the three elders are stunned! this way, they don't need to use master Kong service any longer. Yi Tianyun can be his replacement, and of course he won't charge for his service thus reduce the cost they needed to forge a low level spirit weapon for the disciples. Jade Palace finally has a blacksmith, this is just too good to be true.

Shi Xueyun pulled the sword out, she immediately channel the sword with her spiritual power, and the icy blue aura of the sword flashes. After a little wave of the sword, Shi Xueyun looked at Master Kong faintly and said: “This is indeed a spirit sword. Would you care to try it yourself?”

“No!” master Kong was furious, looking at Yi Tianyun and full of malice he said : “I didn't expect you to really forge a spirit tool, you deceived me by deliberately pretend you can't forge a spirit weapon!”

“When did I tell you that I can't forge a spirit weapon?” Yi Tianyun sneered: “I am willing to gamble and you lose, hand over your spirit weapon, and walk out with your head!”

Master Kong action earlier can't be forgiven easily in Yi Tianyun eyes, he completely insult Xiao Lian who doesn't do him wrong.

"Don't get ahead of yourself! This gamble is my loss, but all of you conspire to frame me up, you are not interested in asking me to forge weapons, you want my weapon! Master Kong shouted his words rebelliously.

"You are joking right? If you didn't provoke me by insulting sister Xiao Lian, i will just stand still and leave the negotiation to you and the elders." Yi Tianyun sneered: "Never belittle our Jade Palace again, you better remember that! Although they are all women, but here, women are the real masters, not you!"

In this world, not only in terms of realm, male completely dominates everything in every aspect, so they all look down on female cultivator.

Yi Tianyun's words immediately changed the three elders view of him, they expect him to have the final says regarding his win over Master Kong, but completely out of everyone's expectation, he compels his rights to everybody else in Jade Palace, this is completely absurd in the eyes of the elders, how can this young man so trustful and respectful despite our treatment toward him?

"Sister Xiao Lian has her own choice, she's not a tool. I hope you can respect that." Yi Tianyun added: "Now you can scam from Jade Palace, of course, walk out with your head!"

"Telling me to walk out with my head, who do you think you are?" Master Kong said with cold eyes.

"Then perhaps you will comply when i'm the one telling you to?" Shi Xueyun took over the attention and looked at him coldly: "Master Kong, you promised, be a man and accept the consequences!"

Yi Tianyun even goes as far as betting his own arm, and Master Kong bets his spirit tool, this is already decided beforehand

"Okay, fine!" Master Kong was so angry that he bite his lips, turned around and went out, and said: "I will remember you, don't think this is the end!"

"Go away!"

Yi Tianyun rushed, and kicked Master Kong out. Master Kong screamed, startled by the suddenness of the attack. It's not fatal but the power he put into the kick is quite strong. Unexpectedly, Yi Tianyun was so bold that he dare to actually kick master Kong out.

Yi Tianyun is not that forgiving, by provoking him, that person should be ready to experience Yi Tianyun's retaliation, Master Kong not only forced Xiao Lian to marry him, but also insult Jade Palace, Yi Tianyun can't just let Master Kong get off easily.

"You kid, just you wait!" Master Kong yelled: "take my advice, don't ever leave Jade Palace if you want to live a long life!"

After threatening Yi Tianyun, he ran straight out. He was alone, meanwhile Yi Tianyun has Shi Xueyun on his side. Rather than fighting a disadvantaged battle he immediately leave, saving himself from more humiliation.

"Palace Lord, is this really worth it? Master Kong have a good status in Moon City. If he really find someone to put pressure on us, what should we do?" Second elder still unable to justify Yi Tianyun's deed.

"This problem is mine alone, I am an outer disciple, what I have done, has nothing to do with Jade Palace!" Yi Tianyun took all the responsibilities, this problem started because of him, if in the future Master Kong retaliates, it will be fine as long as he is the target, and not Jade Palace he is fine with it.

The three elders once again was moved by Yi Tianyun words, Yi Tianyun really had the courage!

"This is problems of the entire of our Jade Palace. This Master Kong looks down on our Jade Palace. This is something that elders have witnessed themselves! Our Jade Palace is not strong, but that does not mean they can look down on us, if they want to put pressure on us we will retaliate and take them on!" Shi Xueyun stood up again, still in her domineering aura.

?Chapter 19: Shock

Shi Xueyun once again showed her real power, even the elders especially Second Elder is trembling in fear. Even Yi Tianyun sensed the aura his aunt emitted, he just tried to calm himself down knowing full well that anger is not aimed to him.

This is all because she is too timid and tend to keep everything low-profile so Jade Palace doesn't attract additional threat from outside, instead it encourages other faction to suppress them!

"Palace Lord, please don't make such a rash decision, if this results in a conflict, it will be extremely unfavorable for Jade Palace!" Third Elder could not help but stand up and speak.

"It seems that you worry too much. Do you think Master Kong have that much influence? He's just a third level blacksmith, Yi Tianyun's level is higher than him. Do

you think there is anyone else beside us here who knows what actually happened?” Shi Xueyun said solemnly.

If Yi Tianyun’s level is higher than Master Kong, those clans that usually request help from him will eventually realize, and they are sure to be inclined to come here instead of favoring Master Kong.

What’s necessary is the strong, not the weak!

“Yi Tianyun’s level is a little higher, but the gap between them is not that big, so it ‘s not like we have big advantage or anything, plus nobody else actually knows about Yi Tianyun’s capabilities in forging, so compared to Master Kong who has been a blacksmith his whole life, obviously he is more renowned.” Second Elder retorted.

“So there is no problem if my level is much higher than him?” Yi Tianyun said indifferently: “If that is the case, then I will show you once again. I will forge several spirit tools. After seeing the result, you will know the difference.”

Although these three elders kept pointing out his flaw, it is undeniably for the sake of Jade Palace. In order to reduce Shi Xueyun’s burden, what he can do for now is stand up and help.

Immediately Yi Tianyun once again put in the material into the furnace and began to forge spirit tool. He was doing the exact same steps as before except for one, after he put all the material into the furnace he put in the Immortal Fire he obtained earlier, and quickly tempered the materials.

The combustion process is a lot faster, and the extraction rate of impurities is improved!

“This, what kind of fire is this?” everyone is looking at it intensely. Blacksmith usually have some kind of special flame. They are all born with a strong fire within them, or they can absorb a special flame later on.

They didn’t expect Yi Tianyun to have this special flame!

Of course, Shi Xueyun is not an exception either, She genuinely thought it is incredible, so incredible she almost didn’t believe her eyes. They are all speculating, how is it possible for Yi Tianyun to be capable of forging weapons, not to mention spirit tools, they also did not expect him to have a special flame, which means when he challenged Master Kong earlier, he’s not even serious?

Although that’s not the case. Yi Tianyun was definitely trying his best earlier, and he obtain Immortal Fire after he finish the quest, if he obtain Immortal Fire prior to it, obviously he would use it in the challenge earlier.

And finally he finished it, he firmly held it in his own hand to confirm its quality. This sword is better than the previous one, and it is cold. At the very least it belongs to middle level!

“Middle level spirit tool?!” After they saw it, they were shocked. The price difference between lower and middle level was huge.

For the time being, regardless of the power, the price difference is about two or three times. For example, lower level spirit tool costs 30.000, and middle level spirit tool to at the very least will cost 60.000 or higher.

『Ding, congratulations to got 50 blacksmith mastery.』

After successfully forging middle level spirit tool, mastery increased by fifty points, five times the amount compared to earlier. At this rate, leveling up the blacksmith skill won't be as difficult. It's all thanks to Immortal Fire, not to mention when he forges using Immortal Fire, its mastery also increased just like his martial arts.

Immortal Fire also increases the success rate, success rate of forging middle level Spirit Tool at Yi Tianyun's level originally is only 30%, due to Immortal Fire it increases the success rate to 80%, it is not 100% so fortunately, he didn't fail this one, otherwise it would be really embarrassing.

“It's really a middle level spirit tool, you can forge middle level spirit tool too?” They were all shocked, even though Yi Tianyun himself is as surprised as everyone else.

This is the best proof he can show everyone for now.

This time they have nothing to say, what else can you say? This strength is much more powerful than that Master Kong. To the side of the family there, a group of people have invited him to be a guest.

“Elders, how is this compared to Master Kong's goods?” Yi Tianyun said indifferently.

“I will prepare the materials at once...” Great Elder is convinced of Yi Tianyun's capabilities. In the end, Shi Xueyun is absolutely right, she has faith in him, which we don't have.

“Palace Lord, if there's nothing else, I will excuse myself for now... I will heed your instructions later.” Second Elder sighed deeply, she can't look down on him anymore. He managed to reach this level, her disciples are no longer qualified to compete with him.

This is the benefit of possessing additional skill like blacksmith, it gives you advantage, additional option, etc.

Third Elder also excuses herself, she has no choice but to acknowledge Yi Tianyun. However, this matter has a great impact on them. Shi Xueyun will undoubtedly be even more respected in the future. Just like what she said, Jade Palace cannot keep their heads down and remained suppressed any longer.

Because this is the case regarding Heavens Immersing Ancient Ruins. Spirit Sect is trying to forcefully snatch their entry permit. They think we are weak because we kept giving in to their conditions to the point where they challenged us to a duel and the one losing have to give the entry permit to the one winning! Obviously the challenge us because they don't even see us as a threat.

Every faction has a different amount of entry permit granted to them. Jade Palace only got two. If we ended up losing in the duel against Spirit Sect earlier, there will be only one permit remaining, and it will be even more embarrassing for us.

After they left, Yi Tianyun handed the spirit sword left by Master Kong to Xiao Lian: "Sister Xiao Lian, this sword is for you."

"This, this... Young master i can't accept this, this is a spirit sword!" Xiao Lian hurriedly refused.

"Spirit sword is still a sword, Master Kong harasses you earlier, at the very least take this to relieve yourself from anger toward him!" Yi Tianyun laughed.

"Yi Tianyun said it is yours. This is only lower level spirit sword. As you can see he can forge middle level spirit tool. This sword is nothing for him." Shi Xueyun persuaded Xiao Lian to take the sword.

"Well, then i'll take you up on it, thank you young master, thank you Palace Lord!" Xiao Lian was so excited that she could get a sword. It will help her a lot. Most disciples in the palace had no spirit tool, yet she has one.

"Then I will continue to forge the rest of the materials, so when the time comes we'll be ready." Yi Tianyun said with a smile: "It is better to bring out all the materials, i'll keep forging several spirit swords for my sisters here, so no one will look down on us anymore!"

Being able to forge spirit tool is just so awesome, other benefits is he can increase the mastery for his blacksmith skill, when it leveled up later on he'll be able to forge something even better that spirit tool.

Chapter 20: Blacksmith Level Up

"Having said that much, then I grant you the permission. I will immediately prepare the materials so you can continue to forge new swords!"

Shi Xueyun is certainly not polite. Jade Palace usually doesn't have enough money to hire a third level blacksmith. Their service is quite expensive and The material fee was nothing to sneer at as well so they are struggling to make Spirit Tools.

Now that they discovered Yi Tianyun's capability in forging, undoubtedly they can make more Spirit Tools with less money. This is enough to strengthen the entire Jade Palace, absolutely cost-effective!

『Quest: Completed Mission From Shi Xueyun.』

『Reward: 5.000 exp and 10 favorability.』

“Ah, I acquired a task... there is favorability this time?”

Yi Tianyun squatted, he did not expect this kind of favorability to improve, thinking back, his previous tasks, are all to collect stuffs or defeat enemies, none of them is to help someone. Defeating enemies obviously only increases the value of hatred, and does not increase the favorability whatsoever.

This special point is Shi Xueyun's affection for him.

“Can i see my aunt favorability though?” Yi Tianyun immediately saw favorability of Shi Xueyun on him is 330 points.

He didn't know what how the measurement works, but the system quickly categorize it.

0 favorability – passerby.

10 favorability – acquaintance.

100 favorability – good friends.

200 favorability – loved ones.

300 favorability or more – life and death.

Generally it categorizes into these stages, and the same amount for negative favorability is applied, but he realized about this explanation a tad too late, if he realized sooner and have a look at Master Kong's favorability it's definitely a negative amount.

“It turns out that my aunt favorability for me is so high...” Yi Tianyun didn't expect it to be already at the level of life and death... he wonders whether increasing Shi Xueyun's favorability any further will have any effect?

“What's wrong?, you're looking at me so intensely, is there something on my face?” Shi Xueyun blinked and wondered why Yi Tianyun stared at her.

“Nothing, it’s just that my aunt is so beautiful.” Yi Tianyun smiled.

“Flattery will get you nowhere young man!” Shi Xueyun gently hit him, while blushing, and immediately shouted: “I will prepare the materials beforehand, you get ready!”

Soon a bunch of materials is ready to be forged, Yi Tianyun began his mass forging.

『Ding, Congratulations successfully forge a middle level spirit tool, mastery increased by 50, and earned 1.000 exp!』

He got middle level spirit and at the same time, earn get 1.000 exp. This is quite beneficial. Then a brilliant idea struck him, he immediately activated Crazy Mode when he is almost done forging, and the experience bonus doubled!

Although it consumes a Crazy Point, it is still worthwhile. It gives twice the amount of experience, but unfortunately the mastery is not doubled as well.

So he continue this, activating Crazy Mode when he’s about to finish forging, and deactivate it again repeatedly until he used up all the materials, otherwise he won’t have enough ?Crazy Point if he activate it the whole time.

『Ding, Congratulations succesfully forge a middle level spirit tool, mastery increased by 50, and earned 2.000 exp!』

He got a bunch of exp, meanwhile average blacksmith just get Spirit Tool after forging, he got exp, and Blacksmith mastery as well.

Not long after he used up all the materials and forged a total of eight spirit tools. He only managed to forge that many due to the lack of materials. Jade Palace has limited resources to begin with so this is all they can afford. These materials were originally for Master Kong, and now Yi Tianyun already forged them all into these magnificent Spirit Tools.

『Ding, Congratulations for completing the task, earned 5.000 exp, and Shi Xueyun’s ?favorability is increased by 10 points.』

『Quest Completed.』

『Reward: 5.000 exp and 10 favorability.』

『Ding, Congratulations to level up to second level of Spirit Refinement Realm!』

The system immediately notified about the level up, after completing the task earlier. He can easily breakthrough simply by forging, who else have this luxury?

“Is there no more material left?” Yi Tianyun said to Shi Xueyun.

While he’s at it he also wanted to increase the level of his Blacksmith skill. He also wanted to increase as much exp as he can.

“Whoa, i can’t believe you already used up all the materials and succesfully forged every single one of them. And all of them are middle level spirit tools!” Shi Xueyun is so excited seeing so many swords forged by Yi Tianyun, this will undoubtedly strengthen Jade Palace.

“Hehe, as long as it is my aunt’s request, i’ll definitely get it done. If you have some good herbs, then I can also make pill for you!” Yi Tianyun laughed.

“You... can make pill as well?” Shi Xueyun is confused.

“Yeah, kinda...” Yi Tianyun touched his nose. Now that he has immortal fire, it would be much easier to refine pill.

“Really?” Shi Xueyun hugged him and ecstatically said: “Great, if that is the case, we don’t need to beg anyone’s help anymore!”

Yi Tianyun touched his nose, feels the warm fragrance, this warmth really puts him at ease...

“It’s just that we don’t have any herb here, we have no choice but to go outside and buy it.” Shi Xueyun didn’t care too much, and immediately said: “I have a better idea, I will order someone to purchase some herbs and materials for Spirit Tools as well!”

“Purchase...outside...” Yi Tianyun’s eyes lit up. Ever since he came here he never goes out, not even once. He immediately volunteered: “Aunt, can i do it instead? I will buy the necessary material, and sell extra spirit tools i forged earlier to earn more money the Jade Palace.”

“It’s good to let you go out. It will serve as an experience as well.” Shi Xueyun nodded and said immediately: “Unfortunately I can’t let you go by yourself, I’ll send two disciples to accompany you. So, I will send An Ling and Qin Xue with you, they are both companions who will enter Heavens Immersing Ancient Ruins. With this opportunity, you can get to know them, so it will be easier to cooperate with them later on.”

“No problem, i’ll do as you say.” Yi Tianyun smiled, this is not bad, they will enter the Heavens Immersing Ancient Ruins together later, if he doesn’t get on their good sides how will they cooperate later?

“That’s good, I will arrange it now!” Shi Xueyun happily walk out to talk to the elders.

Looking at Shi Xueyun, Yi Tianyun felt warmth from her. As far as he know, he rarely saw Shi Xueyun laugh so happily. Whenever he is busy doing something in Jade Palace, she is just so happy for him.

“Aunt, I will protect you forever!” Yi Tianyun squinted, he wanted to help Shi Xueyun to stabilize her position and strengthen Jade Palace even further. This is his current goal!
