### Chapter 50: Torrential Pear Blossom Needle

After thorough observation Yi Tianyun didn't find any other treasures, he choose to leave the palace for there is nothing else he got to do here.

"It seems that it is time to leave. I have no reason to stay here."

Yi Tianyun headed to the door but suddenly there was a loud sound coming from outside, it seems that someone is try to open the door forcefully and even attack it, but no matter what they do, they can't open it. This is Dragon God Palace, it won't easy to break the door.

As for the strength needed to forcefully open the door, he doesn't have a clue, at least it must be above the Core Condensation level.

"Well obviously people will swarm this place after seeing the shining light." Yi Tianyun frowned, this is not good, there will be many people outside, if he goes out now, he will be surrounded.

But there is just no option left for Tianyun, he can't hide in here forever, he has to get out any other way.

"It seems that there is no option left, now or never..." Yi Tianyun's eyes flashed in the cold!

Immediately, he pushed the door hard. The entire door immediately shook and the light in the palace dimmed with the rumbling sound of the door, slowly opened.

"The door! it opened!"

"It's really weird, it suddenly opened, I wonder know what kind of monster will come out!"

"Will the palace owner come out as well? We should escape immediately!"

The people that are trying to enter the palace earlier is began to murmur between them self. After the door is fully opened, the shocked expression is clearly visible from their eyes, its not a monster that is in front of their eyes, nor a super expert, but just a teenager!

They were stunned. How could a teenager come out from such a place? Judging from appearance it doesn't seem like he's a strong cultivator either

They looked at Yi Tianyun, Yi Tianyun also looked at them, he observed everyone, and conclude that the lowest cultivator is at Fifth Level Spirit Refinement, the highest is also still in Spirit Refinement. It seems that they're here on adventure to hone their skills by defeating the beast around the mountain, or just a passerby that by chance saw the light from the palace.

No one at Core Condensation is here at the moment, although Illusory Beast Mountain is a good place for cultivation, but that's not the case for Core Condensation cultivator. The strongest cultivator here at the moment is only at Ninth Level Spirit Refinement.

He kind of knew this is gonna happen. He can't act surprised now, after seeing such shining light obviously anyone who see it will gather here.

Yi Tianyun ignored their gaze and walked outside. When he barely set his foot outside the palace, the door was slammed shut, slowly and steadily as if the door was never opened before, he immediately realize that he is the only one that can open it because of Dragon God Grass.

Everyone looked at him slyly. When he walked through the crowd, the cultivator at Ninth Level Spirit Refinement tried to stop him, "Hey kid, Stop!"

Yi Tianyun paid him no heed. He continues to walk forward, but the crowd in front of him began to surround him, blocking his path. He can't walk away like he intended to do, unless he can fly then it would be a different story.

Stealth is useless. After all, there are too many people here, and getting too close to someone, can expose his position.

"What is it?" Yi Tianyun said indifferently.

"How do you get out?" One of the cultivators is asking quite fiercely.

"by opening the door obviously, how else would I get out?"

Yi Tianyun said: "Don't mind me, the door that you want to open so badly still standing strong there, continue your effort because I didn't get anything in there, so please step aside, I'm in a hurry!"

When he finished his words, even more people surround him, making it harder for him to breakthrough them.

"You must be joking, do you think we will believe you?" One of the big men sneered: "Hurry up and hand over the treasure, otherwise don't blame us for what will happen to you!"

“Yeah, give it up now, or open the door. Otherwise we will do anything we can to force you!”

“Do you think that you can escape from this many people, and keep the treasures for yourself? Do you think we are stupid?”

They all looked at Yi Tianyun fiercely. They knew that Yi Tianyun is still young, they thought that because of that he is weak mentally and can force him to hand over everything he has?

“If you want to open the door, go ahead, knock yourselves out. Why do you need my help? And even if I really get the treasures, why should I give it to you?” Yi Tianyun looked cold.

“We have been waiting here for so long, you must give us some compensations!”

“Yes, hand over the treasure, or you will die today!”

Their faces are fierce, who would believe someone that coming out from such a big palace didn't get any treasures whatsoever.

“I will say this for the last time, please let me leave, otherwise don't blame me for what ever happened to you!” Yi Tianyun's eyes completely showing no emotions, why would he give anything to these people? It's not like he asked them to wait up for him here. What a complete utter bullshit!

However, his words gave a little to no threat, the looks in their eyes is even more fierce and keep approaching him.

“Being polite is fine too, but we want to see how hard you can hit!” After the practitioner finished, he immediately charged at Yi Tianyun, grabbing him.

Yi Tianyun remained calm, he quickly draws his sword the Wind Chasing Blade and slashed it forward, like a lightning bolt. The next moment the cultivator's arm that touch Yi Tianyun is completely cut off.

“Ah...”

The cultivator screamed at severe pain caused by the loss of his arm, the electric shock effect of Wind Chasing Blade cause him to convulsing. This ferocious movement didn't scare any of them way, but gave an opposite effect, it seems that more greedy gazes is set toward him.

“This power! It surely is a upper level spirit weapon!”

“I saw the flash, I suspect that weapon is a true spirit tool, upper level didn’t have such effect!”

“That kid said he didn’t get any treasure, then what is this! Hurry and hand it over, don’t think you can escape from here!”

They quickly surrounded him, Yi Tianyun is clearly shocked by how greedy someone can get. Yi Tianyun just cut off an arm and that didn’t scare them away. They think that because the first cultivator is weak that Yi Tianyun is also weak?

Yi Tianyun looked really furious. He calmly said: “This is a final warning, either get away or die!”

After that, he took out the Torrential Pear Blossom Needle!
