

CRAZY PLEASURE

*Chapter 26 Fuc*k Damn Good: Cousins In a Room 11*

First off she didn't see us till she was half way across the bedroom floor." Then I told her what all Aunt Julie told her and what mom did and how she kept looking at my dick before she ran out of the room, into the living room, "As I walked across the living room past Aunt Julie, mom watched me which I figured she was watching my cock as I walked past till I was out of sight from her."

Looking down at my dick and taking a hold of it, "It is such a beautiful cock that any woman should be wanting to get a hold of this and put it in either her mouth or pussy." then Helen bent over and started licking the head of my dick before sucking it into her mouth.

"Mm, I can taste mom on your cock baby. How about we go into the bathroom and clean this big boy off first because my pussy needs to be cleaned before this big fuck tool gets into my pussy." Helen and I both then stood up and headed toward her bathroom on the other side of her bed.

Helen got undressed while I got the water turned on and adjusted, then I turned to see if she needed any help to finish undressing to find her turning toward the shower, which I then kissed her and helped her into the shower. Once we got good and wet from the water she took the soap and started soaping up a washrag, then she started at my shoulders and washed me from my shoulders down, while I washed my hair and face.

Once I was washed from head to toe I rinsed the soap off then took the washrag and put more soap in it and went to washing Helen off from her shoulders down, while she washed her hair and face and after having every part of Helen washed but her pussy, I got my hands full of soap and then started washing her mound and pussy with my hands getting in between her pussy lips.

With the soap rinsed off of her head and hair I then stuck my cock between her legs and started sliding my dick back and forth between her legs with my cock up against her pussy lips and started kissing her at the same time.

Shortly after we had started kissing each other we broke the kissing off, then I turned Helen where our backs was toward the running water and had Helen face the wall and then I rubbed my dick head back and forth between her pussy lips for a moment, then I stuck my cock into Helen's pussy all the way in to the hilt, "Oh fuck yes baby. Your big ass cock feels so damn good in my pussy baby. Now fuck me and make me cum."

"Oh fuck I'm cumming again. I never stopped cumming and then I started cumming again, fuck what did you do to meee."

While keeping one hand on one tit I reached down with my other hand and started rubbing her clit while still fucking her pussy with my hard cock and I felt even more cum squirt out from around my dick again. I could feel Helen's legs getting weak so I stopped, pulled out, turned her around, then lifted her up and stuck my cock back into her pussy and shut the water off,

then took her to her bed and laid her down on her bed, after I had fucked a few strokes while standing up, holding her, causing her to squirt cum every step of the way.

I pulled outward then slid back into her pussy all the way again. As I pushed in and pulled outward Helen pushed back at me when I pushed inward and she pulled away some as I pulled outward and with her pushing back toward me when I pushed into her, I know my cock was fucking her really deep into her pussy.
