

## **Crazy Wife 2831**

### [Chapter 2831 New Trend \(2\)](#)

Then, everyone heard a miserable shriek ...

By the time they looked at mu Li's hand, it was already bleeding profusely.

Uncle long couldn't stand it anymore, so he shouted at the two crabs, "Get back to the lake, or I'll eat you tonight!"

As soon as he said that, the two crabs that were baring their fangs and brandishing their claws at mu li immediately crawled down from her feet and dove into the lake, unwilling to show their heads again.

Seeing this, mu li was extremely sad and angry. He looked at uncle long with a face full of resentment and said, "The crabs here are such bullies! Wuwu ..."

"Uh! That was because they had been bullied by strangers before, so when they saw a stranger, they couldn't help but clamp down on him first! Don't worry, they already know you, they won't do it again!" Uncle long smiled evilly and comforted him. In fact, he didn't say that the other party was only acting in self-defense. After all, he was the one who invaded their territory first!

However, he also knew that once he said this, mu li would be depressed to death.

After that, uncle long and the others took the initiative to change the topic and asked about mu Li's purpose in coming here. When they found out that mu li had been sent here by the Mistress of the Dark World, uncle long and the others immediately understood. Of course, mu li would not tell them that he had come here not only to be the Lord's Messenger, but also to avoid the harassment of the laws of heaven and earth.

Just like that, mu li also settled down in Demon City. From time to time, he would tell his Lord about the situation.

However, Leng ruoxue had always been in closed-door cultivation. Hence, he did not send back much information about her.

Five years later.

Feng Da and the others finally came out of seclusion. Uncle long and the others were overjoyed to see them. Back then, when they were in seclusion, they had said that they would not come out until they became divine emperors. The first thing he did after he came out of seclusion was naturally to advance.

Feng Da and the others who were in seclusion had finally fulfilled their promise and advanced to the divine sovereign realm. After the promotion, uncle Dragon immediately organized a grand celebration to celebrate Demon city's rise in strength.

Of course, uncle Dragon and the others were still the happiest about Demon city's popularity. Although Demon City had been developing rapidly in recent years, many humans and beasts had chosen to seclude themselves and cultivate after realizing that their strength was too low.

Whether it was the Luo family, the Leng family, or the LAN family, they were all the same. As a result, the huge Demon City suddenly became deserted. Other than a few godly venerable rank elders like them, there were almost no other idle people.

Although the atmosphere in Demon City was comforting, uncle Dragon and the others did not feel good. Apart from a few old fellows, they did not even have a little kid to play with. This made their lives dull.

But now, Feng Da and the others had come out of seclusion, which meant that they would have fun again in the future! Therefore, after seeing Feng Da and the others, uncle long and the others were so excited that tears welled up in their eyes.

Feng Da and the others were all overwhelmed by the unexpected favor. However, when they found out that their miss, Cheng Wu, and the others were in seclusion again, Feng Da and the rest immediately decided to continue their seclusion!

They could not fall behind Cheng Wu and the others too much!

Feng Da and the others 'decision was very progressive, but when uncle long and the other old men who were so bored that they were about to rust heard it, they had a bad feeling.

Wuu ... How could this be?

They had been looking forward to the stars and the moon, and finally, someone had come out of seclusion. Who knew that before they could even warm up the person, he would actually go into seclusion again. This, this kind of result, it really broke their hearts! However, they couldn't stop the young people who wanted to improve, could they?

Therefore, uncle long and the others sent Feng Da and the others away with tears in their eyes.

As life went on, uncle long and the others were getting more and more bored!

In the end, they were so bored that they collectively decided to add some popularity to Demon City. After a careful discussion, they decided to first pick some remote mountains and forests to attack!

For a time, the mountains and forests that few people set foot in became important places for uncle long and the others to pass time.

Not long after, the beasts in the mountains and forests were incorporated by uncle Dragon and the others, becoming a member of Demon city's beast Army. Although some of the Beasties were not very willing at the start, they could not afford to offend the powerful human. As such, they could only obediently wait to be captured and follow uncle Dragon and the others to settle down in Demon City. But after coming here, the beasts really liked this place. Not only was this place safe, but most importantly, the spiritual Qi here was extremely rich. It was simply a Holy Land for beasts!

After the beasts settled down, uncle long was in a good mood. As a fellow beast, he finally had something to do, and that was to guide the cultivation of these beasts.

However, although uncle long was happy, master ning and the others, as humans, were not. It wasn't that they looked down on Beastie, but when these new members who had just joined saw them, they were like mice that had seen a cat. They ran away so quickly that they couldn't even find a little fellow to have a heart-to-heart talk with.

When they told uncle long about this, uncle long only pouted and said, ""Who can you blame? It's all because of you humans!"

"....."

As humans, master ning and the others were secretly worried. Although they wanted to refute uncle Long's words, they found that their refutations were powerless.

Al! To the orcs, humans were not their friends. Especially some of the weaker beasts, if they were caught by humans, they would not even have the chance to resist.

With this thought in mind, master ning and the others could only be lonely. In the end, it was uncle long who couldn't stand it anymore and suggested, ""Why don't we recruit some small clans from the divine realm?"

Demon City was currently quite large, and their population was limited. Naturally, they did not need such a large space. Although Demon City was developing well, some of the more remote areas had yet to be fully developed. The main reason for this was the lack of permanent residents. Uncle long had thought of this for a long time, but due to their high requirements for the personnel stationed in the base, this matter had not been carried out.

But now, after Xue 'er and the others had all gone into seclusion, they truly felt cold and lonely. They also hoped that there would be some new blood to fill in.

But uncle Long's suggestion made master ning and the others hesitate again.

It wasn't that they didn't think that way, but to be honest, they didn't have the confidence that human families would be on their side! Unless you could sign a contract of never betraying them, which clan in the divine realm would be willing to sign a contract with you unless they had no other choice?

"What, don't tell me you're not confident?" Uncle long, who could tell what they were thinking, laughed and joked.

### [Chapter 2832 New Trend \(3\)](#)

"This ... I'm confident, but I'm afraid I can't recruit a decent family." Master ning didn't want to be too embarrassed, so he had to force himself to say it.

"It doesn't matter if they're decent or not. We don't need super families like the eight divine regions. The most important thing is that they must be loyal! This is the most important thing!" Uncle long replied with a smile.

It's just that I can't guarantee loyalty!

Hearing this, master ning smiled bitterly to himself.

However, uncle long obviously didn't want to give master ning and the others any more chances to find excuses, so he made the decision.

After mu li heard this, he also joined in the fun and declared that he was the best at attracting people!

When uncle long heard this, he waved his hand, and mu li became the chief commander of Demon city's recruitment this time. He also handed over the beasts that had been incorporated into the city to him!

After that, Demon City sent the news to the Guild of quests to release it.

Not long after, this became the hottest topic in the divine realm. The various large and small families enthusiastically participated in Demon city's recruitment with various objectives.

First of all, during the registration period, all the families were eager to sign up. In just three days, the number of families who had signed up had exceeded the expectations of uncle long and the others.

When uncle long and the others saw the name list of the families who had signed up, their faces immediately darkened.

Your sister! At least half of them were fake reviewers, and the other half were probably up to no good.

Holding the list, uncle long glanced at master ning and asked, ""What do the Lu and Yin families mean by this? Are you here to cause trouble?"

"You bastard!" Two of the eight divine domains had actually signed up. Could it be that these two great families were planning to give up their current territories and settle in Demon City? He would not believe such a thing even if he was beaten to death.

"Uh! "I don't think they would dare to cause trouble. I guess they want to set up a branch in Demon City ..." Master ning's voice became softer and softer, and his face became even more red.

"Set up a branch? So that he could report the situation in Demon City back? That's wonderful thinking!" Uncle long snorted.

Although they had plans to recruit people, they only wanted to recruit young people without any Foundation. Such families were the easiest to train and would cling to them. But the eight great divine regions? Hehe! Forget it! They didn't need disobedient guys.

Seeing that uncle long was obviously unhappy, master ning's heart trembled as he tried to save him. ""Why don't I go talk to the two family heads and ask them to withdraw their registration?"

"No need! "It's also because we didn't think it through in the beginning and didn't make it clear on the announcement that we would only recruit small families. If we change our words now, it will definitely cause dissatisfaction among most families. So, let's just leave it at that! It's useless even if they sign up. " Uncle long said after thinking for a while.

The registration was only the first step. There were still many tests and tests to follow. Therefore, uncle long was not worried that those families with ulterior motives would sneak in. Now, it was a good opportunity to see the reactions of those families.

"That's true, isn't it up to us to decide who to let in!" Master ning was relieved to hear that. Otherwise, he was really afraid that uncle long would get angry!

The registration period lasted for a month, and on the last day of the registration deadline, it triggered another craze for registration. After some calculations, the number of clans that had registered actually exceeded three quarters of all the clans in the divine realm.

Most of the families that didn't sign up were on good terms with Demon City. They knew that Demon city's recruitment wouldn't be so simple, so they didn't want to get involved.

After the registration, it was time for the test and examination. All the major families were aware of this when they first registered. Hence, after receiving the invitation from Demon City, all the families sent their family elders to attend the event.

Upon arriving in Demon City, the families that had never visited the city were astonished and curious about the city.

In order to arrange their living arrangements, mu li had specially arranged for Beastie to follow them closely. Of course, it was mainly to guide them, as there were some places in Demon City that they couldn't set foot in.

Mu li had also specially selected some beautiful, cute, and likable beasts for them. But even so, some families still protested and even complained to uncle long and the others.

There were a total of five parties who protested. These five families weren't small and were quite famous in the immortal realm. Therefore, after uncle long and the others received their complaints, they arranged for the matter to be handled in public to show their caution.

Mu li and some of the beasts were naturally included as the victims. Moreover, uncle long had specially sent people to invite representatives from other families to listen, euphemistically calling it fair and just.

Uncle long personally took charge of the complaint. From the beginning, he arranged a seat for mu li. As for the representatives of the five families, they all stood.

Such a sharp contrast naturally caused the five families to be dissatisfied. Some families immediately protested against uncle Long's unfairness.

Seeing this, uncle long smiled and asked, ""How am I being unfair?"

"We're the guests and the party making the complaint, but why are we all standing while he's sitting? Isn't he your Demon city's butler? Hmph! What right does a servant have to sit in front of us?" A certain clan's representative said disdainfully.

Hearing this, uncle long sighed and then looked at mu li with hidden bitterness. To be honest, in terms of seniority, mu li was even above him! It was based on status! Mu li was the confidant of the Mistress of the Dark World, and he couldn't be compared to him. Therefore, he didn't dare to show a trace of disrespect to mu li, but this person in front of him ...

Could he call the other party 'disgusting'?

Uncle long truly admired the other party's courage. However, seeing that mu li didn't seem to be angry, he was happy not to expose mu Li's identity.

Uncle long glanced sympathetically at a certain someone, whose face was red with anger. He said, ""You're mistaken. He isn't our Demon city's butler, nor is he a servant. Just like you, he is a guest of our Demon City. "

Uncle Long's words stopped there. Whether the other party could understand or not was not within the scope of his concern. The man obviously didn't believe him. He looked at Uncle Long suspiciously and said, "How is that possible? If he's not a resident of Demon City, what right does he have to manage your city's Affairs?"

The person who spoke had a hint of anger in his voice, and his tone was not very good. Uncle Long was quite patient and asked, "I authorized it to him. Why, I can't? Or do I need your permission?"

"Uh!" The man didn't dare to say anything after being questioned by Uncle Long. Who was Uncle Long? Uncle Long was no longer the low-key Uncle Long that no one knew about! In addition, Uncle Long was extremely powerful, so he did not dare to talk back to him.

Uncle Long continued, "I know what you're thinking. You just think that letting Beastie follow you will lower your class. In fact, our Beastie even thinks that you're low class!" Furthermore, you want to be served? No! The people in our family are all in closed-door cultivation. At present, only Master Ning and a few others are idle. Who among you is qualified to have them serve you? Just say the word, and I'll arrange it. As for me, don't even think about it, because I'm also a Beastie. "

Although Uncle Long's tone was very light, everyone present could feel a trace of disdain in his words, as well as a faint anger. More importantly, Uncle Long's words made everyone present quite horrified!

F \* ck! Who dared to let Master Ning and the others serve them?! Not to mention their status, no one would dare to order them around with their strength! Wasn't this courting death? At this moment, no one dared to look down on those Beastie who were putting on an aggrieved expression. In fact, some people even wanted to worship these Beastie like they were their ancestors! This included the five families that had complained.

At this moment, they were filled with regret.

"F \* ck! Who dared to look down on Beastie? Father, exterminate them all!" At this time, a child-like voice suddenly rang in everyone's ears, instantly making everyone's hearts tremble.

Who was this? His tone was really big! He actually wanted to exterminate them all? The crowd couldn't help but mutter to themselves. Uncle Long and the others who heard this couldn't help but twitch their lips, and they were all speechless.

Needless to say, it was definitely Bing Yao who had come out of seclusion! Because other than it, there was no one else who could call him 'father' with such confidence! Ai! Who asked him to have a good father!

Then, Ice Spirit appeared with the chubbier Ice Phoenix.

Seeing the Father and son, Uncle Long and the others were quite calm, but the people present couldn't calm down no matter what. Someone even couldn't help but exclaim, "Qilin!"

Upon hearing this, many people wanted to kneel down! Your sister! Aside from the dragons, phoenixes, and white tigers, Demon City had even summoned a Qilin. How could this be?

Everyone burst into tears.

But even so, Bing Yao had no intention of letting them go. He grinned and said, "Who was looking down on Beastie just now? Come out and let me see! I'll have my father send you on your way!"

Its father, wasn't that the old Qilin? The one that was holding it?

Everyone looked at the ice Spirit in confusion. They couldn't tell what the ice Spirit was, but they didn't dare to get angry because of what Bing Yao said! Who asked him to have a good background! The Qilin clan could not be provoked!

When uncle long and the others heard Bing Yao's arrogant and domineering words, they could only sigh. It was indeed different to have a good father! Bing Yao, this originally cute little fellow, was becoming more and more violent!

However, Ice Spirit admired the violent nature of the ice Phoenix. As his Ice Spirit bloodline, this was how it should be!

It could be said that Bing Yao's confidence was related to Bing PO's unconditional pampering. But fortunately, Bing Yao had always been biased and only knew how to bully outsiders. Therefore, Leng ruoxue and the others were willing to pamper it like Bing po did.

Because of how Leng ruoxue and the others treated their son, Ice Spirit would be biased. Now, he was going to stand up for his son again ...

#### [Chapter 2833 Count Me In \(1\)](#)

"That's right, who's looking down on Beastie? And he wants all the human Supreme gods here to serve him?" Ice Spirit said on purpose.

In fact, he and Bing Yao had come out earlier than this dispute, but the father and son didn't plan to show themselves directly, but watched the show in the dark. Now! Naturally, it was because his son had seen enough of the show and was planning to interfere!

As a father, he had to support his son in whatever he wanted to do. In addition, as a top-notch expert among the magical beasts, he truly felt that these humans in front of him needed to be taught a lesson!

F \* ck! They were just a few puny human ants, why did they have to be so nosy? As an expert, Bing po naturally respected experts, especially uncle long and master ning. They might not be as senior as him, but they were experts and deserved his respect. How could Ice Spirit be in a good mood when she was questioned by a few pieces of trash?

When he was in a bad mood, it meant that someone was going to be unlucky today! As for who would be the unlucky one, it was self-evident!

All the family representatives subconsciously kept their distance from the five birds after hearing Ice Spirit's words.

Oh my God! This Qilin race expert had better not count them as those idiots! They definitely did not look down on any Beastie, nor did they dare to look down on any Beastie!

Seeing their reactions, Ice Spirit looked down on them even more! He could not understand why Demon City wanted to absorb this trash. All of them were not presentable!

At the thought of this, he glanced at uncle long in confusion and displeasure. Instantly, uncle Long's nerves tightened.

Uncle long didn't know what senior ice soul meant by that glance. However, he could also see that the other party was somewhat dissatisfied. At this moment, uncle long heard one of the five birds speaking up with a slightly choked voice, "Senior, we didn't ask for the human Supreme God to serve us!"

Sob ... Even if you're strong, you can't wrong people like this, okay? A certain someone was quite worried, but he didn't dare to argue too fiercely with the other party, so he could only speak in an aggrieved manner. After ice Spirit heard his words, she said indifferently, "Did I hear you wrong? you want the Hierarch of the beast race to serve you?"

"What do you think of me?" Ice Spirit paused and asked.

At this moment, the representatives of the five families present wanted to kneel down in front of ice soul. His words had clearly told them that he was also a reverent-God! To a certain extent, the Hierarch of the beast race was even more powerful than the Hierarch of the human race ...

The representatives of the five clans wanted to cry, but no tears came out. They looked at each other in dismay, not knowing what to do. On the other hand, uncle long laughed in his heart after hearing what ice soul said.

Hahaha! I didn't expect senior ice soul to make a joke!

"Count me in!" Suddenly, another gentle voice rang out. Everyone turned their heads in unison and looked in the direction of the voice, only to see an extremely handsome and gentle young man.

Who ... Is this?

No one present could tell the young man's strength. As soon as uncle long saw this person, the corners of his mouth twitched violently, and his forehead was full of black lines.

The person who spoke was the reclusive and introverted Shui mo. When uncle long heard Shui Mo's words, he couldn't understand why he would suddenly leave the room.

One must know that Shui mo had two hobbies in his life: formations and food. Before Xue 'er went into seclusion, she gave him many peerless formations for him to slowly comprehend. She also promised that if there was anything that the other party could not figure out, the two of them would think of a solution together after she came out of seclusion. With Xue 'er's words, Shui mo didn't even leave the room. They were also the ones who sent people into other people's rooms in different ways every day.

They had not seen Shui mo for a few years. Therefore, when they saw him for the first time, uncle long and the others were quite surprised and very puzzled. Why did this top otaku leave his room? There was no sign of this at all!

Now that he had said something so out of character, how could they not be frightened?

"I'm Shui mo from the Qilin race. " Seeing the confusion on everyone's faces, Shui mo introduced himself.

When everyone heard that, it was indeed another beast that they couldn't afford to offend! And he was from the Qilin race! Sobs ... What's wrong with this world? Why did the Qilin race, which was usually not seen, appear in groups today?

Just as everyone was complaining, Shui mo added with a smile, "I'm also a Hierarch and I know how to use formations. I should meet your requirements,"

"....."

Ancestor! Don't scare them like this! They were cowards!

Everyone's heart ached. What was going on? The counterattack of the Hierarch of the beast race? He couldn't afford to offend any of them! It was wrong! It should be said that none of Demon city's residents could be provoked!

Seeing that everyone was so scared that their faces turned pale and they didn't dare to say a word, uncle long couldn't help but add fuel to the fire. "Since the two seniors of the Qilin clan have taken the initiative to ask for a job, count me in! Those who don't mind my service, please come forward to register, first come, first served!"

"..." Everyone burst into tears. At this time, no words could express the grief and indignation in their hearts. These reverent-god level cultivators were really bullies!

After waiting for a long time, uncle long saw that no one had come forward. He couldn't help but have a trace of anger on his face as he roared, "What are you guys trying to do? You're the ones who are dissatisfied with the ordinary Beastie's attendants. Now that we're going to personally attend to them, why aren't you all coming forward to register? Do we really have to invite him personally?"

"..." You can't do this!

Everyone's expression was quite ugly, and some of the more timid ones couldn't help but cry. The sound of soft sobs drifted around.

Seeing this, uncle Long's anger grew. He raised his voice and continued to shout, "What's wrong? Are you guys feeling aggrieved? Aren't you the ones who are finding trouble with us? Now that I've solved your problem, you're crying like we're bullying you!"

"That's right! We should be the ones feeling wronged, right?" At this time, mu li calmly interjected. Then, he stood up and walked to the front of the five outstanding birds. He patted their shoulders and sized them up. Then, he said, "You guys are quite bold! You dare to despise me?"

"No, I don't dare!" One of them quickly tried to please him. At this moment, they could deeply feel the dark aura on mu Li's body. This aura made them feel an unprecedented fear. At the same time, it also made them regret. Why did they have to be the first ones to stand out? Sobs ... In fact, the five guilds weren't the only ones who had objections to Demon city's arrangements! But now, this demon-like man had his eyes on only the five families.

Unlucky! He was really unlucky! Why did they think that this man was easy to bully? Now, he had kicked a big steel plate!

[Chapter 2834 Count Me In \(2\)](#)

The representatives of the five families were filled with regret. But it was too late!

Not only that, an extremely disdainful voice rang out in the ears of the five representatives at this time, "They said that they don't like the fact that we've arranged for other families as well."

"..." They didn't say! Absolutely not! He only thought about it!

Hearing this slander, the faces of the five representatives turned even paler. The faces of the other people present did not look too good either. Needless to say, the other families were definitely referring to them! Therefore, all the clans present were enraged! However, since Uncle Long and the others were present, they didn't dare to show their anger. Otherwise, they would be guilty of the crime.

Moreover, the person who had spoken had yet to appear. Wasn't it obvious that he was trying to frame them to the end?

At the thought of this, some families immediately protested, "Uncle Long, who's that? Let him come out and confront us. How can he wrong us like this?"

"Do you really want to confront it?" Uncle Long glanced at the person who spoke and asked with uncertainty.

"Of, of course." Facing Uncle Long's meaningful look, the man cowered a little, but he still gathered his courage and said loudly. Since he had already said it, he naturally didn't want to be looked down upon. So, now that he was being forced to do it, he had to bite the bullet!

"Senior Cang, someone wants to confront you!" After hearing this, Uncle Long looked at the person who spoke with a gratified expression and shouted in a certain direction.

"....."

F\*ck! Why is it another senior?

The person who had braced himself to confront him was completely dumbfounded. He ... He knew what kind of old man he had provoked? When he heard Uncle Long call him senior, his little heart began to tremble violently. The time he had to wait for the other party to appear seemed so long, making him feel as if he was in hell. In fact, he really wanted to say, senior! You don't need to come out, he doesn't want to confront you! He admitted to this crime! But when he opened his mouth, he couldn't say what he wanted to.

Then, everyone saw a white light flash in front of their eyes. Then, a snow-white palm-sized kitten appeared in front of everyone and steadily landed on the head of the little Qilin ...

Such, such courage!

Seeing the little white cat that landed on the head of the small Qilin, everyone thought in unison. When they saw that the little Qilin was not angry at the snowy white kitten's actions, they were even more surprised.

One had to know that Qilin was one of the top beasts. As for cats? Since when could he climb to the top of the Qilin's head? Could it be that the cat race had risen to power without them knowing?

Everyone was puzzled. The carefree Azure only glanced at the crowd before turning his gaze to the person he wanted to confront. He narrowed his bright eyes and said, "You want to confront me?"

"I, I ..." The man was so depressed and scared that he couldn't even finish a sentence.

Seeing this, Cang was extremely disappointed. Why was the current divine realm full of trash? These guys, it's a waste of food to keep them alive. They should really be sent back to the furnace to be remade!

Thinking of this, he saw Azure from the corner of his eye and smiled evilly, "Mu li, how about you help me?"

"What favor?" Mu li raised his eyebrows and asked.

"Put all this eyesore back into the furnace!" Little Cang pointed his claws at the crowd and shouted.

Hearing this, mu Li's mouth twitched and he was speechless.

"I can help you with this, but I don't know when!" He said helplessly.

"It doesn't matter. I'm not in a hurry anyway." Azure said unconcernedly.

"That's good." Mu li was relieved. He was afraid that Cang would ask him to melt it down now, because the amount of work would definitely not be small. Among the people present, except for uncle long and the others, no one else knew what "meltdown" meant. But when they saw the man and the cat dumbing, they could tell that it was definitely not a good thing.

When they thought of a certain possibility, some of the family representatives who reacted quickly immediately cried out, "Senior, we know we were wrong. Please let us go!"

Sobs ... No matter how they were sent back to the furnace, they didn't want to experience it!

"Wrong? Where did I go wrong?" "What is it?" Azure narrowed his eyes and asked indifferently.

"We ... We should be able to see where we are." Someone immediately replied, and the others followed suit.

"Then can you see where you are now?" Azure continued to speak in a neutral tone. In fact, it wasn't that it had to send these people back to the furnace, but it was absolutely necessary to scare them.

"I saw it clearly! I definitely saw it clearly!" Everyone said in unison.

"If that's the case, then all of you better behave yourselves. If anyone dares to create trouble for me, don't blame me for being impolite." After threatening him like this, Cang even deliberately showed his meaty little claws.

Ice Spirit's mouth twitched when she saw it. She thought, "can such meaty claws threaten people?" However, reality proved that Azure's threat was very effective!

In addition, there were many reverent-gods in Demon City, and all of them acted as if they were idle and bored, not afraid of others coming to cause trouble. Therefore, for a time, those who had some small ideas all quieted down.

Uncle long and the others even showed their magnanimity and forgave the other party's rudeness. On the surface, everyone seemed to be in harmony again.

But what about in private?

Uncle Dragon and the others naturally wouldn't tolerate these clowns. However, these clowns had too low a status, and they weren't worth their time. Hence, they only ordered their subordinates to reveal what had happened in Demon City to their families and left it at that.

After that, Demon City entered a temporary state of harmony.

Why was it short?

After the complaint incident, everyone was still afraid that Demon City would take revenge on them. Hence, they all carefully tucked their tails between their legs and behaved like obedient children. However, as time passed and Demon City didn't make any major moves, some people began to grow restless again. This was the day that uncle Dragon and the others had been waiting for. Hence, they chose to turn a blind eye to the chaos caused by some people.

As such, some people were even bolder. There were even people who had ideas about Bing Yao.

Perhaps Bing Yao had been locked up by her father for too long, so when she sensed that someone had designs on her, she deliberately shook off her father. When she had nothing to do, she would lie alone on the stone table in the garden and bask in the sun.

"Little Qilin, look what big sister brought you."

One day, just as Bing Yao was about to fall asleep, she suddenly heard a sweet female voice. The voice was so gentle that it could melt one's heart.

### [Chapter 2835 Count Me In Too \(3\)](#)

However, Bing Yao didn't even bother to raise her head and remained motionless on the table. When the woman who spoke saw the other party's lazy appearance, her eyes lit up.

How she wished she could hold this little Qilin in her arms! She was really too cute! The woman who was staring at Bing Yao looked like she was in her early twenties, but in reality, she was not young anymore. She was also an elder of a mid-tier family clan and could be considered a woman with status and status. As such, this woman was extremely proud. She even often compared herself to Leng ruoxue and felt that she was not inferior to her. The only thing she was not as good as her was luck.

After seeing Bing Yi, she didn't care about her clan's mission anymore. She only wanted to abduct Bing Yi! According to her plan, if she could obtain this little Qilin, it would be equivalent to obtaining the powerful backing of the Qilin clan. In that case, her clan would naturally be able to squeeze into the ranks of the eight great divine regions without any effort. By then, what would Leng ruoxue be? She would also definitely become the woman with the most status in the divine realm, apart from Wu Han!

It could be said that her vision was extremely perfect. If she could succeed, perhaps her clan would really become a super clan in the divine realm as she had imagined. However, she, who had already been blinded by this beautiful pie, clearly only thought of the good side and did not think about what would happen if she failed.

How could the Qilin race tolerate a human having designs on their young?

However, the woman was smart enough not to use force. Otherwise, she would have been dead.

In the distance.

Ice Spirit watched helplessly as a certain woman took out a few fruits to please his son. However, he could only protect her from a distance because his son had said that he would personally teach a lesson to those who dared to have designs on him. If he couldn't beat them, he would look for his father!

Ice Spirit had no choice but to agree. However, he was worried and would not let his son deal with everything by himself. After all, humans were cunning. If something happened to his son, where would he find the medicine for regret?

Uncle long, who was accompanying her, saw that Bing po was worried but didn't dare to come forward. He sighed in his heart. "What a pitiful parent!"

"Senior, don't worry! We're very safe here, no Beastie can be kidnapped!" Uncle long consoled. With green vessel and Azure monitoring Demon City, it would be difficult for outsiders to do anything! Unfortunately, those people were not aware of this situation, so they all thought that no one knew about their little tricks.

Every time they thought of this, uncle long and the others found it ridiculous!

"When will these people get lost?" Ice soul didn't feel happy after hearing uncle Long's words. Instead, he questioned him angrily.

F \* ck! With these people around, her son would no longer be close to her! It was undeniable that the great former clan leader of ice soul was burning with jealousy.

"Uh! The investigation was not over yet! After the review is over, it will be their test. " Uncle Long's heart trembled, but he told the truth.

"Your work efficiency is really low!" Ice Spirit scolded angrily.

Uncle long was speechless. After a long time, he explained in a low voice, ""Senior, our Demon City has a limited number of people!"

Originally, green vessel could read minds, and because green was too strong, those people's little thoughts could not be hidden from it. If these two fellows were willing to help, the evaluation would not be a matter of more than a few minutes. However, these two masters would not do such a small thing. As such, they could only do it themselves. This way, the evaluation speed naturally slowed down.

Ice soul fell silent after hearing uncle Long's words.

Uncle long also thought that Ice Spirit understood their huge workload, so he was slightly relieved. All! As long as this ancestor didn't make a fuss, it was fine!

But not long after, uncle Dragon met the Qilins of the Qilin race. He realized that ice soul disliked their low work efficiency. Otherwise, she wouldn't have sent more than half of the Qilins here.

The Kirin leading the team was Huo Yue.

As soon as they arrived at Demon City, Huo Yue and the other Qilins immediately started working. Uncle Long was speechless when he saw the Qilin's true forms.

W-what are these guys planning to do?

When Uncle Long asked this question, Huo Yue looked down on him.

Huo Yue said contemptuously, "investigate them, of course!" Your methods aren't good, you're too gentle! Watch us!"

After Huo Yue finished speaking, he was the first to capture the two humans who were already trembling with fear and interrogate them.

This scene made the mouths of Uncle Long and the others twitch.

This method ... Was indeed too simple and crude!

Uncle Long and the others were completely speechless, while the people being interrogated were all like mistreated wives. Their eyes were full of tears, and their small bodies were shivering in the cold wind. Those who were more timid passed out before Huo Yue and the other Qilins could interrogate them.

"Xiaolong, will this work?" Seeing this, Mu Li couldn't help but ask worriedly. They wanted to investigate the eight generations of these people's ancestors! He was not interrogating them like prisoners. More importantly, the interrogator was a Qilin, which put a lot of pressure on everyone!

Hearing the name "Xiaolong", Uncle Long's mouth twitched again. In fact, in the face of Mu Li's question, he wanted to say, "please don't call me Xiaolong, okay?" However, thinking of Mu Li's unrepentant attitude, Uncle Long gave up correcting him and said helplessly, "Even if it doesn't work, it has to work! Let's just see how many people can hold on. "

In fact, at this moment, Uncle Long suddenly felt pity for these people. Although these families had all sorts of reasons for moving into Demon City, most of them were harmless to Demon City. Now, Demon City was probably going to leave a shadow in their hearts.

It had to be said that Uncle Long was right.

The families that had signed up didn't expect to see the Kirin in Demon City. The Kirin had always been low-key, reclusive, and mysterious. Now that the Kirin had personally investigated the matter, some of them couldn't take it anymore and confessed. They even revealed the purpose of their family's visit.

In this way, it didn't take long for more than half of the families to sign up. Uncle Long and the others also saved a lot of trouble. Meanwhile, the families' representatives, who had various motives and confessed under the Qilin's threats and promises, felt aggrieved. Fortunately, Demon City didn't make things difficult for them and simply invited them down the mountain to settle the matter.

But what if he returned to the clan?

Everyone was not sure if they would be blamed when they returned to their families. After all, their mission was considered a failure. As for the clan elder who had always wanted to take advantage of Bing Yao, he was forced to stay under Bing Yao's strong request.

Knowing that it was at the request of the little Kylin that the demon City did not drive her out, the female elder's mind became active again. She even felt that the little Kylin should have a good impression of her! Otherwise, she wouldn't have been the only one left among so many people. However, not long after, she was completely tragically defeated ...

As for those who were not sent away, after knowing that the Qilin clan would intervene in their test, they were not very calm. There were even families who gave up and took the initiative to withdraw from the next test.

As a result, the families that had really stayed were already less than one-third of the total registered families. However, uncle long and the others didn't mind, because their principle was to seek quality and not quantity!

As for the remaining 40-plus families, uncle Dragon and the others weren't sure how many of them would qualify to live in Demon City and become a part of it. After all, the final request would decide whether they would stay or leave. This was also a two-way choice for them to make.

After giving the fifty families a few days to rest, uncle long gathered them again.

In the living room.

Uncle long looked at the forty or so family representatives who were extremely reserved and comforted them with a smile, "Don't be nervous, there's only one last test left. "

Hearing that it was the last one, the family representatives finally heaved a sigh of relief. However, they couldn't help but feel nervous again.

Since it was the last test, it would not be easy, right?

In an instant, all the family representatives immediately sat up straight, not daring to be careless in the slightest.

Seeing them like this, uncle long smiled and said, "Calm down. The final test only requires you to answer questions."

Answer questions?

What kind of test was this? All the family representatives were stunned. The previous interrogation had already asked them a lot of questions about their respective families. Why did they have to answer questions now? Originally, they had thought that they would need to compete with the remaining families to determine who was better! Who knew that he would answer another question?

Although the crowd was puzzled, they all calmed down in an instant. This was because they believed that they had already answered most of the questions that needed to be answered. There was really nothing else to ask.

Uncle long laughed to himself when he saw how many families relaxed after knowing that the final test was to answer questions! How could the problem they had raised be so simple?

However, it was also good that these guys were not so nervous, in case it affected their condition.

After that, uncle long had the families draw lots to decide the order in which they would answer the questions. Then, he ordered everyone to enter a dark room.

In the room, other than Huo Yue, Cang was also the examiner. Of course, Huo Yue was the main examiner, while Cang's task was to determine the authenticity of these people's answers. Originally, it didn't want to do such a small thing, but uncle long had used Niu to persuade it. So, in order to find some loyal residents for Niu, it had to agree.

As the test began, the people being tested had to answer the fire Yue's questions in turn. The time to answer was only three seconds, so there was almost no time to think and they had to make a choice by instinct.

In the beginning, the person who answered the question was quite confident, but as the question went deeper, the subject gradually broke out in a cold sweat.

Especially when he heard the person in the dark ask, ""When your family and Demon city's interests clash, what will your family do?" When such questions were asked, the people being tested felt a deep pain in their balls ...

#### [Chapter 2836 We Didn't Agree To This, Did We?\(1\)](#)

How should he choose? Was there a need to ask? It must be like his family? The family representative who was asked this question couldn't help but think to himself. However, he wasn't stupid. He knew that the other party wouldn't be happy with such an answer, so he thought he was smart and replied, ""Of course, we'll prioritize Demon city's interests!"

"He's lying!" As soon as the representative of a certain family finished speaking, Cang's cold voice rang out in the dark room. As soon as Huo Yue heard this, his temper got worse and worse, and he directly punched a certain unlucky person without thinking ...

Because the fire Yue had used quite a bit of strength, a certain unlucky fellow was directly beaten unconscious and lost the chance to continue answering the next question. He was then dragged out by his thigh by a Qilin.

The people waiting in the living room couldn't help but tremble when they saw the person being dragged out. This was because the other party's current appearance was somewhat miserable. Although his clothes were still considered neat, his face was swollen like a pig's head, and it was almost impossible to see his original appearance.

That was really tragic!

Wasn't it just answering a question? Why did he become like this? Everyone was frightened and confused. In addition, because this person was the first person to enter the room to answer the question, no one could judge whether he would end up like this when he answered a question.

With the previous experience, everyone became nervous.

Seeing this, uncle long smiled and comforted him, ""Everyone, don't be nervous. He only answered the wrong question, so our examiner beat him up in a fit of anger! So, as long as you answer seriously, you won't be beaten up!"

"....."

F\*ck! Did he have to get beaten up for answering the wrong question? What kind of examiner was this? How could he be so violent? And uncle long was acting like it was a matter of course. Couldn't he do something about it?

Although everyone was thinking this, no one dared to say it in front of uncle long. Not only that, but they also simultaneously thought that they had to be more careful when answering the questions later. They had to make sure that they didn't answer wrong, or they would be beaten up later!

However, reality was often different from one's ideal. When they actually entered the room and started to answer the questions, they suddenly realized that it was really too difficult to answer the questions correctly.

After the unlucky man, the few people who entered the room were all beaten up by Huo Yue without exception. The reason was simple, they lied!

Your sister! Why couldn't anyone honestly express their thoughts? As the main invigilator, Huo Yue was so angry that he wanted to kill those people directly when he saw that the candidates in front of him only knew how to say good things and didn't mean what they said! Therefore, he naturally didn't hold back when he attacked! Anyway, uncle long had told him that as long as he didn't die, he could do whatever he wanted to him.

However, he did as he pleased. Looking at the candidates being dragged out one by one, uncle Long's face was filled with black lines. He couldn't help but think to himself, isn't Huo Yue a little too honest?

Uncle long had to admit that he had said that he would let him do whatever he wanted, so the other party had really beaten him to death. This was really too much, why didn't he leave a few alive to let him have a taste of his own medicine!

Uncle long was very angry, and the consequences were serious.

When the rest of the people saw uncle Long's gaze on them, and how the previous few people had all walked in and out, they were so scared that they wished they could just faint and avoid this.

But that was obviously impossible! Not only was it impossible, but uncle long also warned him, "I told you to answer seriously, why didn't you listen? AI! Our Head Examiner is very violent, so don't make him unhappy! Otherwise, I won't be able to save you!"

Uncle Long's warning made the remaining 30 or so family representatives even more nervous. Some of the more timid ones even asked carefully, "L-uncle long, is it too late for our clan to back out of this?"

F\*ck! How was this an answer to a question! This was clearly asking for his life! Although they had all been interrogated by the Qilin, at least the Qilin had been somewhat gentle at that time and had not directly attacked them. He had only questioned their ancestors for eight generations. But now, they did not know what had happened to the other party. Why were they all beaten to the point of dying?

Some of the representatives who couldn't figure it out wanted to give up.

I can't go on like this, or I don't know if I'll still be alive!

However, when uncle long heard some of the representatives' questions, he raised his eyebrows and said with a little displeasure, "Forfeit? Do you think that Demon city's people are easy to bully? He actually wanted to give up at a time like this? Let me tell you, no way! If you give up now, we won't even let your family off, let alone your lives!"

..."A threat! This was definitely a threat!"

After hearing uncle Long's words, the families who wanted to give up were filled with grief and indignation! How could he do this? Are there any human rights left? As they thought about this, the few families who wanted to back out still said carefully, "We, we won't forfeit, we're just joking! Hehe! Why did he give up? It wasn't easy to get to this stage!"

"You're not giving up?" Uncle long blinked and asked.

"No, I won't." The family representatives replied in unison. It was too terrifying. Not only would they have to give up their lives here, but even their families would suffer. Under such a threat, those who dared to give up were no ordinary people!

"So you're playing with me? Is this fun?" Uncle long didn't seem to be happy when he heard that the other party wasn't giving up. Instead, he asked angrily.

"....."

This time, the few families who wanted to give up were even more at a loss.

However, uncle long didn't give them a chance to turn over a new leaf and allowed them to enter the room together.

After entering the room, everyone was still in a state of shock. Then, they heard a voice in the darkness. "Eh? Why did so many of them come in together this time? Uncle long, did you make a mistake?"

Facing Huo Yue's doubt, they did not know how to say it. More importantly, this voice sounded familiar! But they couldn't remember.

After a moment of worry, everyone forced themselves to calm down and acted as if they were ready to answer any questions. However, why didn't Huo Yue start asking questions immediately?

Oh! What was this called?

It would cause absolute mental pressure on the other party! He would first let them feel the fear in the darkness, then, he would take them by surprise! Huo Yue thought so. Then, he secretly observed the other party's expression with a smirk.

For a moment, the room was silent. Other than the nervous heartbeats of a few candidates, there was only the sound of the wind blowing through the window.

The more sinister the atmosphere was, the more terrifying it felt. However, they didn't dare to urge the other party to start, so they could only silently endure everything. But at this time, the other party had already left a perverted impression in their hearts!

## [Chapter 2837 We Didn't Agree To This, Did We?\(2\)](#)

"They said you're a pervert!" Suddenly, in the silent darkness, a voice that sounded like a smile yet not a smile rang out, causing the expressions of everyone in the room to change drastically!

W-what was this?

Just as they were thinking this, they heard a certain examiner, who they thought was perverted, angrily say, ""F \* ck! Whoever thinks I'm a pervert, stand out! I'd like to see how bold you are to talk about your Grandpa like this!"

"....."

No one dared to step forward, and no one wanted to. This was really too much of a pain in the ass! Could he not be so mischievous?

But obviously, this was absolutely impossible. Because in the next second, they heard the strange voice speak again, ""They're all thinking about it in their hearts. "

"Aowu!" The fire Yue roared angrily. Then, a few loud bangs came from the darkness, followed by a few human screams. Then, everything returned to silence!

"You haven't answered my question!" Cang, who was in the dark, laughed evilly as he looked at fire Jade.

"Uh! They got zero points!" The embarrassed Huo Yue said with some annoyance. He would never admit that he was a little impulsive, because those humans were too annoying! If he let it go, it would Sully the Qilin clan's reputation!

"Alright! But you have to be clear that none of them have passed the test. " Azure reminded.

"I know! However, uncle long had said that he only wanted the most loyal ones! But those from before are clearly not!" Huo Yue quibbled for himself.

When Cang heard this, he didn't expose his guilty conscience and just sighed. ""Ai! It's too hard to find a loyal subordinate!"

"Yup! Uncle long and the others are too demanding!" Fire Yue also echoed.

"Higher by what? Do you think it's that easy to suck up to Demon City?" Hearing this, Azure said angrily.

"Uh!" Fire Yue was very depressed. He had just echoed the other party's words to please him, but how did he get hated again? This ancestor was difficult to serve!

Huo Yue was in tears!

Can't we just work together happily?

However, Azure didn't care about the other party's resentful thoughts. He directly raised his small claws and ordered, ""Tell the people behind to quickly come in! "You bastard!" My time is very precious!"

"I'll go and inform them. " Upon hearing this, Huo Yue didn't dare to delay and immediately sent a message to Uncle Long. Uncle Long, who had received the voice transmission from the fire Yue, was puzzled at first. How long had it been since they had entered? Why had they finished asking so quickly?

Then, he saw the few people who went in vertically and came out horizontally. He instantly understood!

Another violent attack!

Uncle Long couldn't help but sigh. It seemed that he couldn't count on the fire Yue to be gentle anymore. When he saw the family representatives present, and those who came out lying down, their faces turned even paler. He quickly comforted them, "Everyone, calm down. They must have done something wrong. Otherwise, they wouldn't be treated like this!"

..."What wrong have you done that you need to do this?"

The people who were still safe and sound felt that the simple questions they had thought were even more terrifying than the previous interrogation of their ancestors! Although they hadn't entered yet, they were already feeling the burden! Uncle Long's words of comfort could no longer ease the tension in their hearts.

When the next person was called, a certain family representative even took a long time to realize that he was the next person. After he realized it, his whole body was a little stiff as he walked into the room as if he was rushing to the execution ground.

Uncle Long silently gave his blessings as he watched him leave.

I wish you good luck, little guy!

After that, he turned to the others and said kindly, "Believe me, as long as you answer my questions seriously, nothing will happen! Of course, if you take the initiative to anger the examiner, then I can't help you!"

It had to be said that Uncle Long's kind reminder was quite useful. The families that went in later were obviously treated better than the previous ones because they all came out on their own.

However, the moment they came out, all the representatives were pale and their clothes were drenched in sweat.

Since they had already come out, Uncle Long would definitely arrange for someone to send them back to their rooms to rest. At this time, someone made an excuse that he wanted to go to the toilet. After saying goodbye to Uncle Long, he left. However, the people who left did not go to the outhouse at all. Instead, they sneaked into the residence of the family representatives and tried to find out the contents of the test.

After asking one family after another, the representatives of the families who thought they were so smart that no one knew about it were deeply depressed! This was because everyone had told him different things! How was he supposed to prepare for this?

When he returned to the living room, the family representative returned to his seat with a guilty look. Uncle Long only smiled at him without saying a word, which made him nervous.

When it was his turn to enter the room to answer the question, due to his guilty conscience, he was identified as lying on the first question and was disqualified!

Of course, he was also dragged out!

After seeing what had happened to a certain someone, uncle long looked at the rest of the people and sneered. "Did you see that? This was the result of being self-righteous and acting smart! Don't learn from him! In our Demon City, nothing you do can be hidden from us!"

With a certain someone's example, the people who followed became more and more cautious.

And when all the tests were over, the results were naturally disappointing!

Out of nearly fifty families, only ten or so barely passed!

This result disappointed uncle long and the others.

But even though he was disappointed, he still had to do the last step!

After giving them a few more days to rest, uncle long gathered the dozen families in the living room again.

This time, the important moment that would decide their fate was finally coming.

When the representatives of the dozen or so families who had been summoned saw the several reverent-gods sitting in the living room, they immediately tensed up.

W-what was he doing? Was there a test?

Such a thought caused everyone to tremble in fear!

Wu ... Please don't come again! One had to know that the test of answering questions earlier had almost cost them half their lives! If they were to be tested again, they would completely collapse.

Uncle long comforted everyone when he saw their uneasy expressions. ""Don't be nervous. I just want to explain the rules for joining Demon City, and I want you to make your final decision."

The first half of uncle Long's sentence made everyone's hearts, which had been in their throats, relax a little, but the second half made them feel nervous again.

F \* ck! Why did he have to choose? Are you done?

Faced with the repeated investigations, answers, and the current choices, the representatives present were obviously on the verge of a mental breakdown. However, uncle long didn't care about that and continued, ""This choice is extremely important to both you and Demon City,"

### [Chapter 2838 We Didn't Agree To This, Did We?\(3\)](#)

"Uncle long, what is your choice? just tell me directly!" Someone couldn't wait and urged.

"Alright! Then I'll say it. " Uncle long didn't get angry at being urged. Instead, he was still smiling.

Then, he cleared his throat and said, ""Although we have many rules in Demon City, the most important one is loyalty! He had to be absolutely loyal! If you want to join Demon City, you can't be half-hearted!

Since you've joined Demon city's big family, you must do your best to protect Demon city's interests, and place Demon city's interests above your families '. Of course, the resources we can provide you are definitely beyond your imagination! However, I won't give you these resources for free. You'll have to put in a certain amount of effort to get them, do you understand what I mean?"

How could the representatives present not understand? Uncle Dragon's intentions were clear. Back when they had answered the question, they had already come into contact with him. However, they never thought that they would have to make another choice. And this choice would determine whether Demon City would accept them or not.

At that time, they had the chance to pass the test because they had told the truth. In this truth, someone naturally mentioned that the interests of the family were more important than anything else! The families that replied in this way were obviously not within the scope of uncle long and the others 'consideration. However, because of their honesty, uncle long and the others still gave them an equal opportunity.

After hearing uncle Long's words, the representative who had said that the family's interests were more important than anything else knew that his family had no chance at all. Therefore, he immediately questioned, ""I can understand that Demon City needs our loyalty, but why won't you give us your resources for free if we're loyal to you?"

Uncle long looked at the family representative, who was obviously looking for trouble, and said with a cold smile, ""Why should I give it to you for free? This is the first time I've heard that the major clans are supporting their vassal clans for free!"

"It is! Without any labor, wasn't it a fool's dream to get protection and resources with just a word of loyalty? Not to mention you families with no blood relations, even if you're a branch of the ning family, you wouldn't dare to say that you're getting resources for free!" Master ning, who was sitting on the side, sneered when he heard this, and instantly blacklisted the family of this representative.

"You bastard!" This person was clearly here to find trouble!

Who didn't know that the relationship between the big families and the affiliated families was that of being affiliated and being affiliated! The subsidiary clans relied on the enormous resources and powerful strength of the subsidiary clans to receive the protection of the other party in the divinity. The affiliated family would gain the loyalty of the other party, and in this relationship, the status of the affiliated family was completely equivalent to that of the servant. Since they were the servant, how could they ask the master to support them for no reason?

Why? There was absolutely no such saying in the immortal realm!

"Didn't you ... Invite us to Garrison in Demon City?" After thinking for a long time, the family representative finally said.

"You were invited to enter? Are you daydreaming? We hinted in the announcement that we are recruiting affiliated families, don't you know what it means to be affiliated families?" Uncle long said with a faint smile.

This time, that person could no longer quibble! With uncle long and master ning's agreement, no one dared to question anything. Finally, uncle Dragon told them that if they wanted to become a subsidiary family of Demon City, they would need to sign a loyalty contract!

Hearing this, the expressions of the representatives present changed.

Loyalty and signing a loyalty contract were two completely different things! After all, as long as one had a mouth, one would be able to speak of loyalty. However, after signing the loyalty contract, if one were to betray, the punishment would definitely be unbearable! None of the people present had thought that they would need to sign a loyalty contract. This way, it was not something that the family representatives could decide.

After someone expressed their thoughts to uncle Dragon and the others, they were very understanding and gave them a month's time to return and discuss with their families. After thinking it through, they would become a member of Demon City! Naturally, they would be protected by Demon City!

After sending off the last dozen or so families, uncle long and the others had some free time.

A few days later.

In the garden, master ning was yawning in boredom. When he saw uncle long coming over, he immediately pulled uncle long over to make a bet with him.

Seeing this, uncle long shouted helplessly, ""If you're really that bored, you can go back to the ning family and manage your grandchildren!" Why are you bothering me!

Uncle long was so frustrated. It had been half a month, but there was no news from any of the families. Was this the sign of recruitment failure? He was quite worried, but at the same time, he felt angry for the shortsightedness of those families!

Hmph! If they failed, they failed. Sooner or later, they would regret it! Uncle long secretly complained to himself.

Master ning, who was being yelled at, was thick-skinned and obviously didn't mind that uncle long was angry. He even added fuel to the fire."Old dragon, let's make a bet and see how many families will be smart enough to make the right choice, okay? The one who loses has to agree to one condition. How about it?"

"Not much! Are you really that free? If you're bored, go pull out the grass!" Uncle long couldn't take it anymore and roared.

Obviously, he was already very annoyed, but this old man still wanted to bet with him! Bet your sister! What's there to bet on? Uncle long was very angry, and he glared at master ning with his fiery eyes.

But master ning didn't care at all and said with a smile, ""Old dragon, I know you've been very angry recently. Calm down! Even if those small families are unwilling, so what? that's because they have no foresight, and it has nothing to do with us!"

"The entire firmament knows about the recruitment plan this time. Don't you feel embarrassed if you don't recruit even one in the end?" Uncle long couldn't help but ask.

He didn't believe that the ning family's old boy's attitude was so good that he didn't care at all? Brother Dongfang Yue was also quite troubled recently! More importantly, this would affect Demon city's future development. Hence, it was necessary to recruit new blood! Meanwhile, uncle Dragon, who had long since treated Demon City as his home, naturally hoped that Demon City would one day replace the misty Castle! At the same time, he wanted to give Xue 'er, who was in seclusion, a surprise. He hoped that by the time Xue' er came out of her seclusion, Demon City would already be in a relatively large scale!

However, before this idea could be realized, it seemed to be on the verge of defeat. How could he not be anxious? He wasn't as heartless as master ning!

"What's there to be embarrassed about? It's such a good opportunity, yet those small families don't know how to grasp it properly. They'll regret it in the future. " Master ning said calmly.

"Alright! You're right, but I'm still depressed. Why didn't any family know how to grasp such a good opportunity? You must know that there might not be such an opportunity in the future, but even if you recruit people, I'm afraid it won't be as simple as this time!" Uncle long sighed with hidden bitterness.

"Old dragon, calm down! Don't bother with those annoying things, let's make a bet!" Master ning still didn't forget to make a bet with uncle long.

Uncle long was truly helpless. This old man was really ...

"Hmph! Let's bet then, who's afraid of who?" Then, uncle long made up his mind and said,"

"That's more like it! Come, let's bet on how many families will have good eyes. " Master ning said happily when he saw that uncle long had compromised.

"Five! There are at least five!" Uncle long said immediately.

"I said there are three!" Master ning also said. This was the conclusion he had made after analyzing and understanding those families in detail.

"So little?" Uncle long frowned and looked at master ning with dissatisfaction. This old man was really too detestable! This was clearly boosting other people's morale and diminishing their own prestige! Why did he not believe in the attraction of Demon city's signboard?

"Quite a few!" Master ning said confidently.

Not long after, Dongfang Yue and the others who had heard about the bet also requested to join in. The bet between uncle long and master ning had become an important event for the bored Supreme gods in Demon City. Even Huo Yue and the other Qilin had come to join in the fun.

Seeing the Yue fire, uncle long naturally remembered the good things this guy had done when he was the head Examiner. He said angrily,""What are you still doing here? Go back to your Qilin clan!"

"Hehe! I'm sorry, but I'm afraid I'll have to appear in Demon City more often in the future. I've already discussed with the ancestor to set up a branch of the Qilin race in Demon City. The ancestor has agreed to it, and I've also chosen the location. We'll be starting work soon!" Huo Yue said with a proud smile.

When uncle long heard this, his face darkened immediately!

F \* ck! Why didn't they know anything about this? Did these Qilins really think that Demon City was their backyard? He wanted to set up a branch in Demon City, yet he didn't even acknowledge the master? Tell me only after you've decided? Who was that? Did they agree?

Uncle Long's expression was extremely unsightly. He glared at Huo Yue and said, "We didn't agree to this, did we?"

"The ancestor has agreed. If you have any different ideas, feel free to bring them up! I'm just an errand boy doing hard work. I don't care about the affairs between you high-level people!" Huo Yue pushed the responsibility to his ancestor.

"....."

Your sister! Hearing Huo Yue's words, uncle long really wanted to scold Qilin! What would he say if he went to find the ice Spirit? Did he object? Demon City doesn't welcome Qilin's presence?

### [Chapter 2839 Boss, I Knew You Wouldn't Die \(1\)](#)

Not welcome, my ass! There must be something wrong with his head to object to the Qilin race moving in! Uncle long couldn't help but Mutter to himself. In fact, he had thought about this for a long time. He wanted Xue 'er to tell ice soul, but Xue 'er rejected him. In Xue 'er's words, even though we have done the Qilin race a favor, we can't force them to repay us. Otherwise, the Qilin race would definitely be unwilling. If they had any other thoughts, it would affect the relationship between the two parties. He also said that if they wanted to, they would bring it up themselves.

Now, just as Xue 'er had said, he wanted to. However, he didn't bring it up. Instead, he made his own decision and even thought of a place to stay! This, this was a little ...

At the thought of this, uncle Long's face darkened and he said to Huo Yue in a slightly displeased tone, "If the Qilin race wants to enter Demon City, we will definitely welcome you. However, shouldn't you inform us, the Masters, as well? Or do you want to act first and report later? are you planning to tell us the day we find out that you've broken ground?"

"Uh! I thought you guys already knew!" Huo Yue couldn't help but feel a little embarrassed.

"I know nothing! Did any of you Qilin greet us?" Long shuhuo roared.

"Calm down! Calm down! Calm down, I didn't think this through, please forgive me! Please forgive me!" Seeing that uncle long seemed to be really angry, Huo Yue hurriedly put in a good word.

"Hmph! Since you've already decided, we welcome your Qilin clan to come and live here. Let's forget about this matter! Now, can you please tell me which place you have chosen to make the Qilin clan's base?" Uncle long looked at fire Guangdong and said, not wanting to argue with him.

"Hehe! Wait, I'm going to get the map!" Huo Yue gave a perverted smile and took out a map.

That map was the topographic map of Demon City.

After opening it, the fire Yue was about to point it out to uncle long, but uncle long stopped her and said, "Wait, tell me, where did you get this map?"

"Why does this map look so familiar?" Master ning said after looking at the map.

"Hehe! This map is the one you placed in the Council Chamber. " Seeing that he couldn't hide it anymore, Huo Yue had to tell the truth.

"....."

Hearing this, everyone present was silent for three minutes.

"You bastard!" Not using the Council Hall for too long was very harmful! They didn't even know that something had gone missing. If the other party hadn't taken the initiative to expose themselves today, they would probably not even be able to find the thief's shadow when they realized that something had been stolen.

"Uh ..." Dongfang Yue opened his mouth and wanted to express his opinion, but he found himself speechless. What should he say?

Blame the other party? From the looks of it, the other party obviously didn't mind! However, it didn't seem right if he didn't criticize them. What if everyone learned from him in the future? wouldn't Demon City be in chaos?

Sensing the seriousness of the matter, Dongfang Yue frowned deeply.

"You're going a little too far like this!" After thinking for a while, Dongfang Yue finally squeezed out a sentence that didn't hurt the other party.

His words were instantly despised by everyone except Huo Yue.

Uncle long was so angry that he shouted, "guards!" Arrest this thief!"

"....."

"Don't be like this! I'm not a thief!" Seeing the others in a daze, fire Guangdong quickly explained for himself.

"If you're not, then who is? They've even stolen into our meeting hall!" Uncle long shouted with a red face.

"I didn't steal it, I just borrowed it!" The fire Yue continued to explain.

"Borrow? Damn it, did you return it after you used it?" Uncle long was even angrier when he heard this! If they didn't find out that Huo Yue had stolen their map, this matter might have been exposed later!

"Didn't I forget?" Huo Yue said, a little embarrassed.

"Only a ghost would believe your words! Men! Arrest this thief!" Uncle Dragon was infuriated. However, after shouting for a long time, he suddenly recalled that Demon city's residents had all gone into seclusion. Other than the old fellows present, there was no one else who was idle. "Some beasts, catch this thief for me," he immediately changed his words.

Unfortunately, even after he shouted for a long time, not a single beast came to capture him!

Instantly, uncle long was enraged and decided to do it himself! Master ning and the others felt very embarrassed!

Currently, Demon City had neither humans nor beasts! No wonder they didn't even know that they had lost something! Seeing that uncle long was really going to catch him, Huo Yue panicked and hid everywhere, shouting, ""Old whale, don't be like this! I've really forgotten!"

"Soul egg! I don't care about that, stealing should be punished!" Uncle long shouted and chased after him.

For a moment, uncle long chased the fire Yue all over the yard. Master ning and the others shook their heads and sighed. What, what was going on?

"Eh? Are you playing hide-and-seek?" At this moment, a curious voice was heard. Then, a small Ice Phoenix appeared in the garden.

The ice Phoenix still appeared with a blue crown on its head. Seeing this pair of little beasts, master ning and the others 'mouths twitched again. He didn't know when it started, but senior Azure liked to lie on the head of the ice Phoenix.

"I want to play too!" Seeing that no one answered him, Bing Yao continued to speak.

Then, he ran into the field and joined the ranks of the people chasing after the fire Yue.

When Huo Yue saw this, he wanted to cry but had no tears.

"Little Prince, we're from the same country. How can you help this old whale chase me?" Huo Yue, who was being chased and blocked by uncle long and Bing Jie, wanted to kneel down in front of Bing Jie. He had never seen a Qilin who was so ungrateful. This really made him sad.

"Eh? Aren't we playing hide-and-seek? I want to be on the same side as uncle long, so I naturally have to chase you!" Bing Yao said matter-of-factly.

Hearing this, uncle long gave Bing Yao a look of admiration. He thought to himself, "I didn't dote on this little guy for nothing!" Then, uncle long said to Bing Yao, ""Bing Yao, it's right to chase after him. He's a thief who stole things from our house. Catch him and arrest him!"

"What? You dare to steal from my house? He really didn't want to live anymore! This kind of thief must be caught and tortured!" When Bing Yao heard this, he was furious.

When Azure heard this, he lazily opened his eyes and asked, ""What did he steal from our house?"

"All we know is a map. We still need to investigate the rest!" Uncle long was very happy to see the reaction of the two jerks who had a common enemy, so he told them the truth.

"I only took this map!" Huo Yue quickly explained when he heard that uncle long suspected that he had taken something else.

"Do you think we will believe you?" Uncle long raised his eyebrows and made up his mind to find trouble with the fire Yue. Otherwise, where could he vent his anger? More importantly, this was the result of Huo Yue's own actions. Although he had only stolen a map, it was a map today. Who knew what would

happen tomorrow? Therefore, uncle long felt that it was necessary for him to kill one hundred people! To prevent others from learning from him!

### [Chapter 2840 Boss, I Knew You Wouldn't Die!\(2\)](#)

"Yes, we won't believe you!" Bing Yao was very happy to replenish.

"..." Huo Yue burst into tears upon hearing this. He couldn't help but look up at the sky and sigh. 'Little Prince, where are you going to put your elbow?' He could accept that uncle long was looking for trouble, but how could Bing Yao join in the fun? He felt that his heart had already shattered into pieces.

Sob ... He would never love again!

Just as Huo Yue was lost in his thoughts, uncle long rushed forward and grabbed his arm, restraining him.

Snatching the map from Huo Yue's hand, uncle long said fiercely, "'I'll deal with you for the thief later. Now, tell me, where did your Qilin clan choose to live?'" Although uncle long had caught them, he didn't forget what he was here for.

Upon hearing that, Huo Yue thought that uncle long had already let him off the hook for taking the map. He then relaxed and pointed at the map. When he finished pointing, he looked at uncle long and was surprised to find that uncle Long's face had turned black.

At this time, the curious master ning and the others also took a few steps forward. Huo Yue saw this and pointed out to them again.

After knowing the location of the Qilin clan's base, everyone's expression turned a little strange. They stared at fire-lit without blinking. They all wanted to see what the structure of the fire Yue's brain was.

Azure was more direct and coldly laughed. "Why doesn't your Qilin clan make this a base as well?"

"Uh ..." After hearing Cang's words, Huo Yue was stunned for a moment before he said weakly, "'T-that won't do. Isn't this your base camp?"

"Hmph! The entire Demon City is our main base, but didn't you take away a third of it?" Azure's body emitted a cold aura as he continued to sneer.

At this moment, Huo Yue finally understood that there was a problem with the encampment that he had assigned! No wonder these people's faces suddenly changed! But, but ...

After thinking for a long time, Huo Yue carefully said, "'The bases that I've chosen are all ownerless. Since they're ownerless, it's no big deal for our Qilin clan to use them, right? As you all know, our Qilin clan's main body is too large, and it's simply not enough when it's small. More importantly, it's close to your main residence, so it's more convenient for us to visit our ancestor, right?"

"Who made the rule that ownerless things have to be used by your Qilin clan? Don't you know that Demon City is recruiting subsidiary clans? My Head Examiner!" Azure said with a smile that was not a smile.

"Well ... No family has joined us yet!" Huo Yue said in a low voice. Hearing him mention that, uncle Long's face turned even uglier.

Then, everyone heard uncle long roar, ""But I can't give it all to you! You're so close to our ancestor, but you've taken up a third of Demon city's space! To tell you the truth, these places were originally left for our affiliated families! Or does the Qilin race have plans to acknowledge their master and pledge their loyalty?"

"Yup! If you acknowledge Xue 'er as your master, I can make the decision to give you the place you like. " Azure said indifferently.

"..." How is this possible!

The Qilin race would never acknowledge anyone as their master! One had to know that even master Yu didn't force them to recognize him as their master ...

"With me here, they don't need to recognize me as their master." Suddenly, a confident voice rang out in everyone's ears. Then, they saw a handsome man in white appear before them.

The one who spoke wasn't the white-robed man, but a palm-sized furry little beast that glowed with a dark golden luster.

Master ning looked at the little beast in front of him carefully, then looked at the man in white and asked, ""Senior Dreamdust, this little beast ...?"

This little Beastie looks so familiar! However, the little beast had a lot of tails, so no one dared to recognize it.

"Hmph! It's the little mouse by that idiot Yu's side!" Before Huan Chen could reply, Azure said with a disdainful expression.

A little mouse?

Hearing this, master ning and the others were speechless. They really didn't know what kind of deep hatred senior Cang had for this little beast, why did he call it a little mouse? Which part of this little guy looked like a mouse? On the contrary, they were somewhat similar to Azure. However, they naturally didn't dare to say such words.

Everyone was smart enough to remain silent.

The little beast on Huan Chen's shoulder didn't dare to make a sound and only glared at Azure. Seeing this, Xing couldn't help but laugh proudly.

Huan Chen felt helpless about this. However, artifact spirits also had levels. Cang's level was the highest and he was the strongest. Therefore, he didn't dare to anger Cang and could only be a peacemaker. "Cang, don't bully baby, okay? It has just recovered all its memories and strength. "

"Hmph! Even if this idiot had recovered his memory and strength, he was still an idiot! If you can't even protect your own master, what's the point of living?" Cang was obviously disgusted with the baby.

"I admit that I'm useless. I'm weak, but you're not weak. How could you have protected master?" Baobao finally retorted.

Mighty Baby!

Hearing this, Huan Chen couldn't help but give the baby a like. However, Azure didn't seem to mind. "Master? That's your master, I don't recognize him! She had no obligation to protect him! Besides, if he didn't seek Death himself, would that B \* tch Wu Yan have killed him?"

"But, but you shouldn't just stand by and do nothing?" The baby continued to criticize weakly.

"Didn't the laws of heaven and earth do nothing to save him? do you want to ask him why?" Azure smiled in disdain.

"..." Baby heard Cang's words and could only cry in his heart. Sob ... Sister, I was bullied!

The people who were listening to Cang and Baobao's conversation also thought of something at the same time, especially the Dongfang brothers, whose eyes were wet when they saw Baobao.

Master ning and uncle long could also tell that baby and Cang were acquaintances! Furthermore, he had a close relationship with master Yu! However, they didn't know the details of the reasons.

Only Huo Yue was confused. Seeing that Cang and the little beast had stopped bickering, he asked stupidly, "What does it have to do with you whether our clan recognizes a master or not?"

Baobao was silent. It seemed that it had not appeared for a long time, and the beasts had long forgotten about it. For a moment, it had a myriad of feelings in its heart, and it didn't know what to say.

Cang laughed out loud and pointed at Baobao, "Who told you to act mysterious and go missing? look at you now, your subordinates don't even remember who you are!"

Huo Yue was shocked!

Subordinate? Was he talking about him? When did he become this little beast's subordinate? Why didn't he know about it? Fire Yue was shocked by Cang's words. When the baby saw the fire Yue's confused look, the depression in his heart deepened.

Alright! It admitted that it was acting mysterious. Back then, other than the four kings of the four great king divine beasts, there were not many beasts who had seen its true appearance. Moreover, it usually used the four great king divine beasts to directly manage the other beasts, and it did not show itself. But to go missing? It would never admit this! It didn't disappear on purpose! It was dead, alright?
