The Domestic Hero - Chapter 1851

...

“Why, why?”

“How can there be such advanced military power in the earth world?”

“Why is there no information collected?”

At this moment, including the two demons of Dark Mist and Bloodthirsty, every abyss demon was a little flustered.

They simply cannot understand, how could the earth world master such terrible military technology in such a short time?

The most important thing is that now all of these strong ships and cannons are aimed at them, which makes them unlucky abyss demons, what should they do next?

In fact, these abyss demons who did not put the earth humans in their eyes knew where the earth humans had accumulated power in the dark as long as they knew there was an extraterrestrial threat.

Humans seem weak, but in fact they have extremely high plasticity like white paper. And how can the world-leading wisdom fail to discover the pagan spies that have penetrated into other worlds?

In addition, in the past, all major human organizations were in a state of competition with each other, each with their own areas of expertise, and they were all hidden quite deeply.

To put it plainly, humans are better at creating absorption and hiding their cards than other races. The rough means of taking a self-righteous view of the abyss world simply cannot detect how deep humans are hiding.

Especially after the death of Kaos, the former abyss master, the entire abyssal world was in chaos, and the acquisition of intelligence on the earth remained completely a few years ago.

During this time, the entire humanity was united and united, and everyone was living for the life and death of all mankind.

During this time, all the technologies mastered by humans have been taken out and shared together. Coupled with the many resources brought by Wang Yan and the sharing of technology on other planes, the scientific research technology of the earth world is like riding on a rocket, and has achieved excellent results quickly in a short time.

Many theoretical assumptions in the past were fully realized at this moment.

At present, in addition to the three Sky Devil cruisers captured by Wang Yan, which have been converted into human main ships, all the other warships provided by Wang Yan have been

dismantled and analyzed, and finally transformed into a three main ship. , Dozens of various auxiliary ships, and a combined fleet of hundreds of frigates!

These fleets from the earth are full of the hard work of all human beings, as well as the deterrent force from the earth.

“Oh, dear world, the deity is back!”

With a stern stern drink, shock came from the flagship of the Earth Fleet, just like the landfall of thunder, rolling in the abyss world, terrifying a large number of abyss demons, trembling, trembling.

Needless to say, the person who made the noise at this time was the Yanzun Cao Jinglue sitting on the flagship commander’s seat!

When he took the comrade-in-arms and his wife Linghu Yaofei and sneaked into the abyss world for destruction, there was only a demigod state. The destruction was indeed caused by him, but several of them are also in the abyss world, chased and blocked by many abyss demons, almost killed in the dark sea, and even the green light almost appeared above the head.

Now that he has mastered the divine state, it is different from today. Once again coming to the abyss world, already a ***** above all things!

This is a different situation than before, and it really made him feel very emotional.

“What time is it, and what to do with these abyssal demons? Quickly follow Xiao Yan’s plan and fire immediately!”

As the deputy captain of this main ship, and the representative of the earth demon clan, the uncle Pao Yanzun ’s wife, Jiuwei Tianhu, Linghu Yaofei, is wearing a beautiful red skirt, standing in the uncle Pao sitting In the face of the abyss battlefield where the flames of war were raging, he immediately pointed his forearm with one arm and smirked.

“Yes, yes, what my wife learned is, fire! Fire immediately!”

Uncle Cannon’s expression relaxed, and he quickly asked his wife for a good voice.

In fact, he had long wanted to cry without tears in his heart, and secretly dared himself as the son of the earth, and finally represented the plane of the earth, came out to pretend to be a prestige, but his face was not exposed, and he was robbed by the apprentice.

Now my three wives and two daughters are his apprentice. He is a master. His heart is really complicated.

But at this juncture, it really does not delay.

After Uncle Gun coaxed his wife, he immediately stood up from his seat and ordered loudly through the internal communication network: “All warships listen to orders, the secondary guns fire in volley and fire!”

“Boom!”

Hundreds of large and small Earth battleships, all secondary guns instantly emit terrible electromagnetic firelight.

It is a powerful shipborne magnetic rail gun!

In an instant, a round of cannonballs encased with blue currents, almost at a speed that was difficult for a superpower to catch, swept across the sky, and instantly moved dozens of abyssal warships trying to stay away from here, with thick armored hulls. All through.

“Boom!”

The explosion soared, and dozens of abyss warships shot into sieves were immediately swallowed by the great light, and were completely destroyed in this dark sea.

Silence, abnormal silence spread in every corner of the scene.

Whether it is the purgatory demon, the battle angel, the abyss demon and the more powerful extraterrestrial demon, Qi Qi was completely shocked by the shocking scene in front of him.

“A single salvo will destroy me, our battleship detachment, all, all?”

“Well, what a terrible weapon is this? How could it be so powerful!”

The two abyss leaders, Dark Mist and Bloodthirsty, were jaw-dropping in the ship’s cabin, panicking.

Their abyss warships may not be as good as the kingdom of God, and more powerful extraterrestrial demon, but their abyssal demon warships have always been known for their strong and durable behavior. The heavy armor and enhanced shields on the battleship are what they are proud of Powerful defense.

But what is going on now?

In their eyes, the originally very weak human beings on the earth only used a round of secondary guns to make their warships a sieve!

This armor-breaking ability and powerful kinetic energy is simply breathtaking, it is really terrible!

“No, isn’t it? When is our earth ally so powerful?”

Under Wang Yan’s men, the Scarlet Demon King from the Purgatory Demon Realm is trembling at all this in front of his eyes.

He and the ogres Ablon Giantmaul, as well as so many comrades around him, abolished the power of nine cattle and two tigers, before they destroyed and captured seven or eight abyss warships.

But allies from the earth, in just one round of salvo, completely destroyed the remaining abyssal warship units.

This terrible combat capability gave them allies from the world of ***** to have a whole new understanding of humanity on earth, at least they no longer dare to underestimate the military power of humanity.

Under Wang Yan's other men, the archangel Antalya from the Kingdom of Light and the numerous fighting angels were also taken aback by the powerful military power displayed by the coalition forces in front of him.

Antalya and other battle angels, despite not speaking, have been impressed by humans on Earth.

With their abundant knowledge from the Kingdom of Light, they can see at a glance that the human beings on the earth use a kinetic energy weapon that is very different from other planes.

Races of other planes are usually good at using some kind of energy in the universe, and thus using these energy principles, various beam weapons have been built on the battleship, and the Kingdom of Light is also one of them.

Moreover, the Kingdom of Light is also a master of beam weapons. Their warships of the Kingdom of God have particularly strong defense capabilities against beam weapons.

But the earth world has taken a different approach, still using kinetic weapons that other races disdain. The key is to exert the power of kinetic energy weapons to a certain extreme.

Not only is it accurate, high-energy, but even the rate of fire is extremely fast.

Taking the power of the volley just from that round, even if it is a demon god, if you don't make a defensive frontal bombardment, the powerful ***** body might be beaten into a sieve.

This terrible kinetic energy damage is really too much threat for the Shenguo warship that is not good at defending kinetic weapons.

Fortunately, the earth and the Kingdom of Light are firm allies, otherwise such weapons will appear in the enemy's camp, and their Kingdom of Light will definitely burn their heads.

...

"Lord, what kind of weapon are your compatriots using? This penetrating power is really amazing!"

In Wang Yan's main ship, the Bliss Devil Ji Cui Lisi was leaning on Wang Yan to sit down and asked quietly.

She also stared at her beautiful eyes with amazement. Now that she has the strength to reach the gods, she naturally understands the power of that round of salvo.

Not to mention, in her estimation, a fleet of the earth alone, together with the help of the master, may be enough to hunt a galaxy monster in the void!

"That's our world of the earth, a shipborne weapon that has been studied for a long time, an electromagnetic rail gun!"

Wang Yan raised the corner of his mouth slightly and gave a weapon name, "The orbital gun fired through the electromagnetic force field can generate pulse power of ten times or even more than one hundred times that of ordinary shells. Coupled with our earth-specific armor-piercing shells, those abyssal magic The battleship armor of the Clan cannot be resisted at all. "

In order to fight against plane wars and prevent the invasion of abyssal demons and extraterrestrial demon, in the past time, the earth world has already made sufficient preparations.

Especially after possessing a large number of resources and samples provided by Wang Yan, the earth has been advancing all the way in its familiar research field, and the electromagnetic rail gun is one of them.

This kind of kinetic energy weapon that is launched after the warhead is accelerated to the extreme with electromagnetic force along the guide rail has powerful lethality.

Compared to ordinary shells, it has a longer range, stronger power, a faster rate of fire, and more accuracy. And with the electrical energy stored in the ship as a source of power, there is no doubt that the consumption of this weapon is also lower.

In particular, the high-intensity kinetic energy brought by the extremely high rate of fire is a hundred times higher than the shooting speed of a rifle bullet at one kilometer per second!

Under such strong kinetic energy, coupled with the metal such as purgatory steel provided by Wang Yan, the energy storage armor-piercing projectile made by the traits, the terrible power of one shot, even Wang Yan and Uncle Gun did not dare to be physically connected.

Not to mention the rough abyss warships of the abyss demons. Although their abyss warships are thickly armored, the elaborately designed armor-piercing weapons on the earth are all like paper paste and cannot be resisted.

In addition, according to the target and the user, this electromagnetic force and range can also be quickly adjusted to control the firing kinetic energy of the weapon.

As a result, a variety of individual weapons powered by electromagnetic acceleration orbits, such as the well-known Gauss rifle, are one of them.

These new weapons, aimed at enemies outside the ground, are being replaced with new weapons.

“Is it called a magnetic rail gun? What a powerful weapon!”

After hearing this, Bliss Magic Ji murmured, “Humans seem weak, but their ability to make weapons of war is more creative than our extraterrestrial demon.”

Wang Yan smiled and did not answer. This is indeed the advantage of mankind, but if it is not used well, it may become the root cause of the destruction of humanity and even the universe.

But for the enemies who try to invade the homeland of mankind at this moment, it is the time when mankind exerts its superiority and rises up to resist.

“Our reinforcements have arrived, the bow of the ship turns, let us block these abyss demons!”

Wang Yan’s eyes were bright and he ordered aloud, until then he didn’t understand the entire plan of the Demon Crew, and immediately shouted and responded with morale.

It turned out that their master, Wang Yan, dared to use this main ship as a decoy to attract the attention of the abyss Demon, completely because he had full control to wipe out this group of enemies.

This is the powerful strength from the side of the earth!

“Turn the bow!”

“All shipboard aircraft, go!”

“Let us obey the command of the Lord and destroy these inferior abyss demons!”

In an instant, the warship Wang Yan, which had just stood out, turned his head and attacked the two abyss leaders, Dark Mist and Bloodthirsty.

At the same time, a large number of carrier-based aircraft began to leave the main ship of Wang Yan like the swarms of nests, and killed the abyss fleet.

An unprecedented fierce air battle immediately broke out in this dark sea.

If placed before, the leader of the abyss, Dark Mist and Bloodthirsty, will ridicule Wang Yan's overconfidence.

But now, the two of them saw Wang Yan killed, his head suddenly tingled, and his heart was full of terrifying fear.

Just in a blink of an eye, their abyss has changed from a siege to a siege.

The key is in their impression that the human beings, who have been tepid, actually have such a powerful military force, even the number and elite of warships are superior to their abyss Demon Race.

Now their entire abyssal fleet is surrounded by regiments, like live targets, constantly under attack.

How should they fight this kind of ghost battle?

“boom!”

“Boom!”

The powerful Earth Allied Forces, in an exquisite and rigorous battle formation, are continually making salvos and advancing behind the abyssal fleet, and they are going to crush them all.

On the left and right sides of the abyss fleet, Wang Yan's two old departments, one left and one right, constantly cooperate with the main force of the earth, and the harassment continues. In addition, there is a Wang Yan main ship in front of Zhang. The offensive is waiting for the abyss demon to pass. Die.

For a time, the weapons and equipment, the number of battleships and combatants were no match for Wang Yan and the abyssal fleet on earth, and they were completely in a deep panic.

“Brother Dark Mist, what shall we do? We will be over in this way!”

In the Dragon King ship of the Abyss, the bloodthirsty demon **** was cold and sweaty, he could not sit down anymore, there was no doubt that they would lose by air battle alone!

“What else can we do? Until now, we can only do it ourselves!”

In another Dragon King ship, the Dark Mist demon gritted his teeth, and his eyes were cruel, “We will fight that Wang Yan together, and this battle is won!”

“What are you waiting for? Let’s go together!”

Suddenly, the two regiments, like huge battleships, suddenly rose from the abyss fleet.

A group of dark energy lingered, a group of ***** sensation, and a few fierce and fierce figures of the two demon gods, gradually appeared in the magic fog.

It is the two great abyss leaders, the dark fog and the bloodthirsty, which reveal the power of dharma, sky, and earth.

With the appearance of the two demon gods, the sharp atmosphere at the scene immediately became a bit shabby.

“Wang Yan! Today is your death time!”

“Everyone, punch this seat!”

Dark Mist and Bloodthirsty were forced to a dead end, and now they have also launched a ruthless attack. After summoning the surrounding men, they launched a general attack on Wang Yan.

The powerful strength of a demon ***** is far above a void main ship. At this time, the dark fog and bloodthirsty joint shot, the scene is really majestic.

All anxious abyss demons seemed to find a way out in despair, driving battleships and warplanes one after another, following the two demon gods, and killing Wang Yan together.

The dying abyss demon looked particularly fierce at the moment.

In a flash, Wang Yan and his battleship were shrouded in murderousness.

...

The Domestic Hero - Chapter 1852

...

“Lord, these despicable abyss demons, since they want to die, then the concubine will help them.”

Beside Wang Yan, Bliss Devil Ji Cui Lisi came out smilingly, asking the battle, “Concubine asked to fight!”

“Xiao Yan, I also request to play.”

On the other side, Nanlian, the goddess of ice in a white skirt, also came out. “Those abyss demons are only cannon fodder. Our real enemy, the demon outside the realm, is waiting for opportunities nearby, so this battle cannot be delayed. Must be quick and quick. “

“Cui Lisi, sister Nan Lian, the two demon heads of Dark Mist and Bloodthirsty will be given to you.”

As the supreme decision-maker of this warship, Wang Yan nodded and replied, “If they can be resolved as soon as possible, the abyss Demon Clan will not attack itself.”

No, he gave orders to the three-legged Jinwu who was always on standby in the ship’s cabin: “These little babies will be handed over to you. After the little cubs are broken away, he will support Cui Lisi and Sister Nan Lian.”

“Haha! It’s finally the turn of the gods!”

The three-legged Jinwu excitedly raised his head and shouted, “Ah! Then it will be handed over to the god, and I will keep the sacred armor! Aah!”

Facing an abyssal demon with a nearly suicidal charge, Huangfu Nanlian and Bliss Devil Ji Cui Lisi, respectively, led elite aircraft groups to fight against.

Although the abyss demon is coming fiercely, in addition to the two abyss demon gods, there are countless large and small fighters, but Huangfu Nanlian and Jile Devil Ji Cui Lisi are the top powerhouses who have reached the ***** realm.

The two of them, a frozen mile and a charmed sentient beings, are powerful gods who are very good at large-scale combat. As soon as they are shot, a large number of abyss demons are stunned and exhausted.

In addition, the two demon gods, Dark Mist and Bloodthirsty, are just puppet masters who have been forcibly promoted to divine realm by the deity Lord Luo Sui. Where are the Huangfu Nanlian and the Bliss Mo Ji, these two battle-hardened Opponent?

Almost just a few rounds later, Dark Mist and Bloodthirsty Demon fell into miserable passive.

“Ah! The ***** is here, the dregs of the abyss, trembling under the power of the god! Ah!”

At this time, the three-legged Jinwu, which was also as strong as a god, glided out arrogantly, and the fire outside it passed was like a sky, covering the main ship of Wang Yan layer by layer.

With this layer of fire curtain protection, the abyssal warships and fighters that rushed over could not attack Wang Yan at all. Instead, they were forced by fire and had nowhere to go.

And those abyss warships and fighters that have been in a mess are chased by the three-legged Jinwu, just like an irresistible bug, pecked and swallowed by the three-legged Jinwu.

“Hahaha, it’s my apprentice of Cao Jinglue! Look, Xiao Yan’s own strength alone is enough to hold down the abyss demons, it’s really powerful!”

Behind the abyssal fleet, the uncle Cao Jinglue of the Earth Fleet looked at the situation in front of him and was excited with the rest of the captains, including the Pope Bright, Director James Shield,

Director General of the National African Bureau Han Hongbo and other earth leaders. It's the color of showing off.

Other leaders of the superpowers of the earth, after gaining the advantage at the moment, praised Uncle Cannon all over with red light and were proud of it.

“Cao Cannon! What's going on with you as a master?”

On the side of Uncle Gun, Princess Linghu Yao immediately glared and blamed, “Xiao Yan is fighting against the main force of the abyss by her own strength. As a result, you are better, you do n't even need to help, even bragging with those old men. ? “

“Well, Yao Fei, you don't need to ignore them, these old men are bad!”

The avatar of Prince Rose also jumped out of the main screen, with cold eyes angering, “Xiao Yan is now facing two abyss demon gods and the main force of the whole abyss! Now he is not a master, let's go!”

“Yes, none of these old men can be trusted.” The head of the bright angel, Daier, also jumped onto the main screen at the right time, “Yao Fei, Rose, let's go!”

“Stop, my wife, my wife, listen to me!”

Uncle Pao wanted to cry without tears, and quickly stopped to stop.

Xin said that his baby apprentice, where else needs his master to save?

What are the two abyss demons? When he met his apprentice, he was looking for his own way.

Not to mention, his apprentice has only two God-level slaves, plus his girlfriend and himself, there are four God-level strongmen!

In addition, his apprentice also has tens of thousands of loyal gods and elites, and hundreds of thousands of old men. Now even without their Earth Alliance, his apprentice can win the game steadily.

However, his three wives have always been great at protecting their disciples. As a master, he cannot always look at his wife and fight the two demons in the battlefield?

Besides, there is indeed a need for quick battles and quick decisions, and only by quickly defeating the abyss Demon Race can you force out the extraterrestrial demon. Only by killing this large group of enemies first, they will not be able to deal with the enemy when they are killed outside the territory.

“My wife, Xiao Yan is my baby apprentice. I, the master, have been staring.”

Uncle Pao Cao Jingluo quickly expressed his determination to protect the calves to the three wives, “Relax, I will help now, and I will be busy immediately!”

“Humph! You have a conscience!”

Wang Yan's three teachers and sisters saw that Cao Jingluo was about to go out in person. His tone finally softened, and each of them closed the communication, and the avatar retreated from the main screen.

Uncle Cannon and those older leaders of the earth superpowers were relieved.

In the world of the earth, it is these powerful women who can't be bothered the most.

"In order to quickly defeat these abyss demons, this seat will personally play!"

Before Uncle Cannon's battle, he used a communication system to shout out to the personnel of the whole ship, "Next, our Earth Alliance, temporarily handed over to Pope Philhos, the Commander of Light!"

The Pope of Light can be said to be the most respected old generation leader of the earth world, except for Uncle Pao Yan Zun. He has led the Bright Holy See for decades and has already achieved fame.

Now, this magnificent and bright Pope is on another main ship.

However, in the realm of strength, his bright pope has been completely surpassed by Uncle Cannon. This makes his old man who has fought side by side with Uncle Cannon for decades and has been talking about each other for decades.

No, as soon as Uncle Cannon's voice fell, the Bright Pope communicated privately, and deliberately fought: "Cao Cannon, hurry and help your apprentice. The Pope's command ability is much stronger than you, and he will never let go of an abyss demon!"

"Hey, Xiao Feifei, I think you just can't eat grapes and say grapes are sour! Forget it, let's go to fight the demon **** here. You still have peace of mind to command the fleet, do n't let go of an abyss Oh demon! "

"Poof!" The light pope's urge to vomit blood, and cursed that this pair of mentors and disciples were really a virtue, and now resented and resented, "Cao Cannon, you, do you think it's great to be promoted to God? Taking this pope as a way Fight against the devil? "

"Of course it's amazing to be promoted to God. If you have the ability, you can get one?"

Uncle Cannon laughed casually, and dizzy the light pope's dizziness, but before he had time to respond, he heard a loud laugh from the private news, "Haha, Xiao Feifei commanded our fleet, Ben Go to the seat! "

At the next moment, I saw a fiery streamer, with a mighty power like a comet falling, and rushed into the abyss demon fleet.

"Boom!"

Uncle Artillery, who was covered in fire, fell heavily under an abyss warship, and the whole warship was instantly enveloped by a fire.

Soon, as Uncle Gun stomped under his feet and leaped again, this unlucky battleship, directly under the great force passed under Uncle Cannon's feet, exploded into a mass of void garbage.

Uncle Cannon didn't even look at it again, again like a fiery comet, rushing to the two abyss demon gods in battle.

“Good!”

At this time, in the main ship of the earth, the light pope who witnessed all this could not help but secretly cried out. The coalition of the whole earth was also because of Yan Zun Cao Jingluo's personal action, the emotions were boiling, and the morale was like a rainbow.

This is the terrible power of a god!

A heavily armored abyss frigate, at the feet of a god, is vulnerable like a turkey dog, and is easily stomped by a foot. This suffocating absolute power, the mighty rule of law, is truly enviable and awe-inspiring.

At least in the eyes of his bright Pope, Cao Jingluo has great perseverance to achieve today's achievements. He is deeply admired and convinced.

...

As Uncle Cannon joined the battlefield in person, the abyss fleet, which was originally at a disadvantage, was completely chaotic.

In addition to the surrounding coalition forces and the continuous bombardment and siege of the fleet of Wang Yan, the encirclement began to become smaller and smaller, and the abyss Devil who had just tried to penetrate the earth and began to fall into deep despair.

In addition, Uncle Gun, Nan Lian, Three-legged Jinwu, and Bliss Devil Ji Cui Lisi, began to face the two devil gods of Dark Mist and Bloodthirsty respectively.

These two abyss demon gods were only temporarily promoted by the demon master Luo Sui to control the puppets of the abyss demon clan. Their strength is far inferior to that of Uncle Cannon, the four powerful gods in battle.

And the four-on-two situation has already formed. Dark fog and bloodthirsty have almost completely fallen into a miserable situation of passive beating, and there is no way to escape.

In addition, in the main ship of Wang Yan, the more powerful Wang Yan himself has not yet shot.

It can be said that the situation is very clear now. The failure of the Abyssal Fleet and its complete destruction are only a matter of time.

“Love, wife! How can the earth's fleet be so powerful? And actually, there is another god!”

Far from the rear of this battlefield, in the two Sky Devil fleets, the Sky Devil God Black Meteor Apostle Gunter stared at the scene in front of him, “Love your wife, you can't go on like this.

Their extraterrestrial demons, like the abyss demons, never thought that humans on earth would have such a powerful force. They thought that the abyss demons alone would be enough to destroy most of the earth's main force. Once Wang Yan was forced out, the two of them would kill him together. That would be a great contribution.

But at the moment, I never thought that the main force of the earth did come out, but the abyss Demon Clan had already been wiped out, and the more powerful Wang Yan did not even make a shot.

How about that?

“Yes, we can’t wait any longer, we must eliminate these humans!”

On the other main ship, the plague apostle Theramis’s heart thumped, so that’s okay?

But their couple was wearing sin, and they were ordered to take down the plane passage and force the flame **** Wang Yan. If they fail again, the consequences will be unimaginable!

“The main gun is ready!”

“All fleets, all attack!”

The plague apostle Xeramis, and her husband Blackfall Apostle Gunter, immediately contacted and immediately issued an offensive order.

Soon, two powerful Sky Devil fleets, as many as two hundred warships, entered the battlefield with great force. Especially the main weapons of these warships, all aimed at the warship Wang Yan in front.

“Want to attack the son of this seat? Huh! You extraterrestrial demon, so bold!”

Suddenly.

A powerful anger, a shock came from the head of all the demon outside the domain.

The soldiers of the extraterrestrial demon can be said to have the highest individual quality and the strongest psychological quality among the many races in the universe, but at this moment, still in this domineering wild, full of screaming anger, all tight, The heart trembled.

“who?”

Plague Apostle Theramis and Blackfall Apostle Gunter quickly looked through the main screen diagonally upward.

I saw the abyss filled with rich dark energy, the space suddenly began to flow at a rapid speed, and a deep dark plane channel appeared instantly.

In this huge plane passage, a Void Fortress, which is not much smaller than the Sky Devil Void Mothership, slowly crossed over.

This is not enough. After this giant fortress, there are elite fleets of three or four hundred warships, one after another.

The Plague Apostle and Blackfall Apostle couple, seeing this scene, their faces are black.

From the sturdy hull cast of that whole metal, and the greasy hellfire paint, they can clearly recognize that the void fleet that has just passed through the plane is the purgatory demon from the world of hell.

The terrifying ***** who just threatened is the fierce and warlike Satan, the purgatory demon!

“Damn! It’s Satan, the purgatory demon!”

The plague apostle Theramis suffocated a grievance on the spot and yelled out, “This seat has long been expected, ***** world is a hidden danger sooner or later, but I did not expect these despicable races to come at this time! Can’t you live with this seat? “

“Humph! Satan, do you dare to block our extraterrestrial demon, have you considered the consequences?”

The husband of the plague apostle, Gangte, the black meteorite, was also angry and angry at this moment, and he opened his mouth and scolded. The powerful and powerful voice spread through every inch of the scene through the vibration of the space.

“Hahaha! Joke!”

In the Purgatory Bastion, Satan, the Purgatory Demon God, laughed when he heard it, and then his expression was ruthless.

“Infernal Demon, attack with this seat!”

...

The Domestic Hero - Chapter 1853

...

“Oh!”

Behind Satan, the purgatory demon, among the hundreds of warships, a loud cry broke out.

The name of Demon Flame and Satan continued to be called out loudly in the mouth of those purgatory demons.

Wang Yan’s other identity, Demon Flame Son, inherited from Satan’s father and son, are the two greatest demon gods in their purgatory demon clan.

Coupled with Wang Yan’s past achievements and unparalleled prestige, it almost inspired the hearts of the entire Purgatory Demon Race.

The Purgatory Demon Race is a well-known fighting race in the world of Hell. Once the group is excited, the army wants, even if it is the enemy’s extraterrestrial demon, they are not afraid.

“Crazy, are a group of lunatics!”

The plague apostle Seramis had a pretty blue face, and the scene in front of him was trembling.

She never imagined that even backward races such as the earth and even ***** would not even want to succumb. How dare they dare to confront their extraterrestrial demon so openly!

The most important thing is that there is this old demon ***** Satan, led by the purgatory fleet. Here, they cross the foot, and their mission of making a contribution to crime will probably fail.

“Satan! Have you considered the consequences?”

Black Meteor Apostle Gunter was slammed by Devil God Satan and gritted his teeth with hatred. On the spot, he yelled and threatened, “Whoever wants to die, Luo Sui, will have to die, that Wang Yan cannot escape! Persevere, the whole ***** will be buried with you! “

“Yo, you devil, it’s such a big breath!”

Suddenly, a dark and pure, full of terrifying breath of terror, accompanied by a casual male voice, slowly came from above.

“In hell, when was he the only Satan devil? Huh, wanted to invade hell, did you ask this seat?”

Before the sound fell, a void fortress that was only better than Satan, a floating castle above No. 1, was flying from the just opened channel of the plane.

At this moment, the whole world seems to be silent.

“Samuel the Fallen Demon!”

The couples of the Plague Apostle and the Black Fallen Apostle couldn’t help but keep their eyes closed, and their hearts were hidden with hatred.

The fallen demon Samel, but the old demon ***** of the same name as Satan in the ***** world, now that he has no doubt that the situation is even worse for their couple.

really.

After the large floating city where the fallen demon Samel is located, more than three hundred large and small warships like metal tombstones flew into the abyss world from the plane of hell.

It is the Void Fleet composed of fallen angels and undead races.

“Not just the world of hell, today you guys want to touch Wang Yan with one finger!”

A majestic female voice was coming from behind a floating main city in a secondary main ship.

The couples of the Plague Apostle and the Black Fallen Apostle immediately looked forward to the sound.

Found this familiar voice, it was the Dark Lady Catherine who met in the Kingdom of Light!

The dark saint they met at the time had only the strength of a demigod peak, but now it has become a new demon god! And the majestic divine power, full of the breath of death and death, is very similar to the fallen demon Samel.

So powerful and so dangerous, it made the couples of the Plague Apostle and the Black Fallen Apostle feel cold in their hearts.

“Hahaha, good, good!”

Satan, the demon in the Void Fortress, saw that the fallen demon Samel and the dark maiden Keslina arrived in time, and his heart suddenly settled in half, and immediately smiled boldly in the sky, “Wifey, relatives, if you are Come a little bit later, these extraterrestrial demon who don’t know life or death, but only corpses! “

“Oh, corpses? Wouldn’t it be better to give them their bodies?”

The fallen demon Samel sneered. Although he was in the floating city, he didn’t even show his face, but the gloomy eyes that seemed to be condensed by Shennian, slowly swept through all the extraterrestrial demon, as if they saw the earth. Corpse.

That kind of extreme chill makes almost every Celestial Soldier present at the scene as if the cold water poured in, and all were terrified.

I heard that the fallen demon who controls the laws of death and death is extremely good at manipulating souls and corpses. If it falls into his hands, no matter the soul or the corpses, eternal life and eternal life cannot be released!

“Well, have you heard the priests of the Purgatory Demon Clan? You will pay attention to this seat later and leave a whole body to those demon!”

Satan, the Purgatory Demon God, has his eyes wide open, his lips grinning openly, “Then all those corpses will be brought back to this seat and sent to our relative’s family, Samer!”

The ruthless Purgatory Demon Clan is cheering again. In their eyes, the heir to the Fallen Demon Realm, the Dark Saint Catherine is already their fiancée under His Majesty, and the Fallen Demon Realm is naturally their own.

The fallen demon Samel snorted irresponsibly. He and his fallen angels are very cold, but their name for their relatives is already a default.

Is there any way? That Wang Yan had already mastered the divine realm, and Samel himself believed that he might not be his opponent.

Not only that, this Wang Yan also saved the world of hell, and paid such a valuable gift to the Dark Lady Catherine, and the two fell in love with each other. This could not be better. In addition to that, Wang Yan also generously gave away the water of life and the true dragon blood crystal to Samal, which completely cured the dark disease left by his **** body.

Such a powerful son-in-law, Samuel naturally loves it. It can be said that up and down the Fallen Demon Realm has very much recognized and respected this family matter. So far, there has not been a voice of opposition in the entire hell.

At this time, the Dark Lady Catherine didn’t even say a word. Under her eyes, she looked a little blushing, quite embarrassed.

However, she has already accepted this. In her view, it is already a matter of time before others see Wang Yan as his wife.

“Love, wife, no match! I, we have to withdraw our troops!”

Black Meteor Apostle Gunter saw two hells and three demon gods, blocking their front road, and the cold sweat permeated on the spot, saying, “To this day, the mission given by His Majesty the Lord Lord has been unable to be completed, we can only withdraw Please, His Majesty the Lord, come forward personally, and believe that his old man can look at the current enemy and forgive our guilt. “

“Withdraw! Withdraw troops!”

The plague apostle Seramis acted more decisively. When she saw that the two demon gods committed suicide, why did she dare to procrastinate? Quickly issued an order, the transfer fleet will escape to the abyssal hinterland.

At the moment, it is quite unreasonable, and its strength is far more than their **** demon war, it is completely self-seeking. Now drop the abyss cannon fodder, return to the abyssal hinterland and ask the demon Lord Luo Sui to come forward in person, only to have the chance of surviving.

Even if the demon Lord Luo Sui would be furious because of the Thunder, the two of them could save their lives.

“No! Your Majesty Theramis! Your Majesty Gang!”

“You, you can’t leave us behind! Our abyss demons are faithful servants of the heavenly demons!”

“No, no, you can’t go! Oh!”

The Demon Fleet, who had just arrived to support it, turned and fled. The abyss Demon Clan, who had been stunned in the center of the battlefield, all panicked.

Especially the two dark fog and bloodthirsty, the four gods such as Gun Uncle and Nan Lian, beaten by the abyss leader of the abyss, seeing that their savior had fled before they came, and the deep despair rushed into them. Heart.

Finally at this moment, all abyss demons are deeply aware of the sorrow of cannon fodder.

Dark Mist and Bloodthirsty, the two abyss leaders who rely on Heavenly Demon, have no chance of surviving.

At this time, the couples of the Plague Apostle and the Black Fallen Apostle were too late to escape. Where would they care about the life and death of the Abyss Demon Race?

But at this moment, a plane passage full of ferocious darkness suddenly appeared directly behind their fleet.

The Void Fleet that followed, completely blocked their retreat.

“I, Uya secret song swears in the name of his father Mamen, the rest of his life will fight against the extraterrestrial demon in the end!”

There was a cold and cold drink, and the majestic spread from the plane channel, spreading out in all directions.

It is Wuya Ange, the new emperor who has inherited his father's personality and the entire dark demon domain!

At this time, Uya Ange was wearing a heroic black and red battle skirt, and stood in a fortress with a glorious attitude.

This majestic fortress of war is the relic of the dark demon ***** Mamen, and the dark demon ***** Mamen died in the hands of those demon.

As the daughter of the Mamen, Wuya Ange has long hated the outside world.

Not only her, but everyone in the Dark Demon Realm who was touched by the old Demon God Mamen was full of resentment against the Heavenly Demon outside the realm.

Today, it is their moment of revenge against the extraterrestrial demon!

The war fortress commanded by Wuya Ange slowly passed through the plane passage.

Behind the War Fortress, three hundred void warships of various sizes, as well as more than ten galaxy giant beasts, also leaped with their heads.

Those warships are naturally an elite army composed of three races of the Dark Devil. And more than ten galaxy giant monsters, their fighting power is extraordinary.

These gray and black hard skin, hundreds of meters in length, like a unicorn manatee, the galaxy behemoth, is an ally of the dark demon Mamen, the unicorn bite!

The unicorn star eater is a rare species in the universe. They feed on asteroids floating in the universe. The unicorn on the forehead has the power to label space coordinates and open the plane channel.

In this way, they have been nomadic for a long time in the endless sea of stars, with a gentle temperament and no dispute with the world. However, once they are irritated, they will show the real giant body of the Xinghe Behemoth, and will also have a terrible destructive ability.

In the beginning, after the sacrifice of the dark demon Mamen, Uya Ange contacted this unicorn star eater tribe in accordance with his legacy.

The leader of this unicorn horde tribe is a male beast that is as strong as a god.

It is the old knowledge of Demon God Mamen, and also an ally of Demon God Mamen, and has been sheltered by Demon God Mamen many times.

Now hearing the news that the demon ***** Mamen was killed by the extraterrestrial demon, and future generations asked for help, the leader immediately led the most powerful warrior in the tribe, like a giant whale, coming from the depths of the galaxy and the sea to support.

In addition to its god-level beast, the other dozen-odd bitter beasts all have powerful strengths that are as strong as the demigod, and even the peak of the demigod. Once the true body of the galaxy monster is revealed, it will have more than a normal The battleship also needs powerful destructive power!

As Uya Ange led the fleet of the Dark Demon, and the unicorn star beast allies entered, filled with the fierce power of the primitive wildness, immediately suppressed the audience.

At this moment, all the extraterrestrial demon trapped in the same place fell into the bottom of despair.

However, before waiting for these heavenly demons to respond, a dazzling light, like the rising sun, fell upon them.

The hearts of the plague apostle Xeramis and the black meteorite aunt Gent were immediately cold, and hurriedly turned to look up.

I saw a floating city covered with golden light, and I don't know when it was suspended above their heads.

Around this floating city, there are luxurious warships with gorgeous shapes and full of beautiful shapes, densely arranged with five or six hundred ships!

"It's over, yes, it's a bright old thief!"

Plague Apostle Theramis and Blackfall Apostle Gunter felt dizzy and nearly fell to the ground.

With such a financial power and such a powerful force of armament, who else can have the bright Father and God?

At the beginning, the couple, the Arkman who swallowed the stars together, and Kaos, the Lord of the Abyss, almost destroyed the God Capital and the floating city.

But the father of the light is indeed deep, and in a blink of an eye, this huge floating city has been repaired. And it seems that this time the Father of Light seemed to be carrying elite, and he was out of the nest. Regardless of the quantity and quality of the fleet, even these two Devil God couples were terrified.

"Xiao Yan, in order to entertain a few allies, the **** came late."

The bright father who has always loved to show off, just mapped his projection onto the floating city just after he arrived.

I saw a giant phantom composed entirely of shining holy light, wearing a golden crown, wearing a pure white armor covered with golden inscriptions, a pair of golden light wings condensed by a rich holy light, and majestic and majestic, raised high, The rich and majestic sacred breath immediately spread from the moment his phantom appeared.

For a time, he attracted allies in the **** area, and secretly scolded, but the earth side and the soldiers of the kingdom of God, but the group was excited and the morale was high.

"Why, what?"

“Also, there are allies?”

The plagued apostles and black meteorite couples besieged by the regiment, as well as all the extraterrestrial demon under their hands, all had cold hands and feet.

How should they do this way?

Is it impossible to surrender to them for mercy? But even if they surrendered, they are still dead in the face of the coming demon Lord Luo Sui!

“Xiao Yan, we have brought all the other allies of the galaxy, and I will introduce them to you later.”

A sweet female voice was passing from the secondary main ship below the floating city to Wang Yan in the distance.

Then, as if intending to see Wang Yan, a phantom girl holding a scepter and wearing a gold-encrusted robe slowly appeared from above the secondary main ship.

It was following the retreat of the Father of Light for a long time.

Lulu’s promotion to the ***** realm was of course due to the precious gift offered by Wang Yan to her. Fortunately, she did not live up to the expectations. With the careful cultivation of the Father of Light, she became the second in addition to the Father of Light. God of light.

“Senior Bright God, Lulu, and you guys, it’s been a long time! But now it’s not time to speak, the abyss of the abyss here will be handed over to us, and the extraterrestrial demon over there will have you!”

Wang Yan also had a lot of emotion in his heart. He could see many old people, and it could make all the forces of the galaxy that were originally torn apart to form a unified resistance alliance. It was indeed encouraging enough.

However, at this very moment, it is a matter of urgency to give priority to annihilating the energetic forces of the enemy.

“Oh, rest assured, none of these demons can escape!”

The Father of Light sneered softly, then waved one arm, and all battleships from the Kingdom of Light immediately shot deadly artillery fire.

Not only the Father of Light, the Three Demon Gods from Hell, and all their fleets, but also launched a full-scale attack on the fleets of the Heavenly Demon.

The fierce battle broke out instantly!

...

In the distance of this battlefield, a giant starship resembling an iron continent, Luo Su, the unparalleled Demon Lord, was sitting on a hundred feet of God.

He has lavender tough skin and majestic eyes. A set of dark golden old armor, but on his body, outlines a terrible and terrible texture.

At this time, his deep purple eyes were looking into the distance with great interest. After a while, the corners of his mouth raised slightly.

“The little mice are finally here.”

A whisper, a strong murderous intention, instantly bloomed in his eyes.

...

The Domestic Hero - Chapter 1854

...

“Love, wife! We can’t stand it anymore, hurry, escape!”

During the war, the black apostle Gangte issued a desperate call to his wife’s plague apostle.

At this time, the fleet of his wife Plague Apostle Seramis was above the dark sea of the abyss and suffered an unprecedented devastating blow.

After hell, the kingdom of light, and the destruction of the abyssal forces, the earth and Wang Yan, who came with them, and many other powerful forces jointly attacked, and almost caused their two Heavenly Demon fleets to fall into extinction.

“Husband, I, we will run away! I believe His Majesty, you can understand our failure!”

The plague apostle Theramis trembles in his heart, and his eyes are filled with deep despair.

Surrounded by fire and sky, roaring and shaking, one after another, the Demon battleships were continuously destroyed and sunk.

Looking around, all over the sky are the battleships of their enemies.

Earth, hell, and the Kingdom of Light and other multi-party forces, the total number of light warships may be two or three thousand, which is not counted as carrier-based aircraft, transport boats, and individual combatants above the warships.

Otherwise, intensive fighter planes like a bee colony and more than one million fighters from all sides have already reached the sky and cannot be counted.

Right now, the Plague Apostle and Blackfall Apostle couple are relying on only two solid void motherships to support them. The frigates around their motherships have been destroyed.

The annihilation of the whole army is a foregone conclusion. These two demon gods will not escape anymore. I am afraid they will follow the mother ship together and be buried in this deep abyss.

“I have long expected that these inferior inferior races will join forces to form a group, but I didn’t expect that they would cooperate so intimately!”

Gunte, the black apostle, looked at him and his wife, and all his family life was saved in the fire. He gritted his teeth in anger on the spot and almost spit blood.

They did not think that the major forces of this galaxy would join forces, but they did not expect that they would join forces to such a degree.

You know, according to the information they collected, most of the other plane forces such as the earth, hell, and even the kingdom of light are mostly dead enemies.

According to past records, these forces, not to mention opening up plane channels to each other, are accidental contacts, and it is also a life-and-death struggle.

However, these forces are all united together, and for the sake of a small earth, all the forces of the Milky Way galaxy are actually out of the nest.

Especially the world of hell, not only joined forces with the Kingdom of Light and shared information, but also provided a plane channel to the army of the Kingdom of Light and its allies!

In the past, this was simply an incredible thing.

“It’s him! It must be that bastard! It must be because of the flame ***** Wang Yan, these plane forces are united together!”

The black apostle Gang Te was dumbfounded and screamed resentfully, “Hate! Damn Wang Yan, this seat can’t spare him!”

Except for Wang Yan, he could not have imagined any other person who could let the forces of the torn apart Milky Way galaxy reunite together under the pressure of their demon army for a small earth.

“Fujun, that Wang Yan has repeatedly caused us heavy losses. We must repay this hatred! But before that, we have to escape!”

The plague apostle Theramis was more sensible in the moment of crisis, and they were full of confidence in escape.

In this kind of melee, with the abilities of their two great gods of gods, they abandoned the warship and ran away alone, but were more mobile and flexible, and they could escape thousands of miles in an instant.

As long as they break through this layer of encirclement, their two demon gods, aren’t they high-flying birds?

At that time, as long as it meets with the main force of the demon Lord Luo Sui, he requests His Majesty to come in person, and then it will be the death of Wang Yan and this group of resistance!

“Good! My wife, let’s go!”

The Black Meteor Aunt Gunte did not dare to ask him, and he quickly greeted his wife, Theramis, who was above the other mothership, and broke away from the battleship, and began to flee to the outside world.

The two of them did not cast the law of heaven and earth, or other powerful means to break through the enemy line, but with the height of ordinary demon, no attack skills were used at all, always covering the sound, quietly avoiding people's eyes and ears, and fled away from the distance. .

However, at this moment.

Two figures, one black and one white, then came up and exceeded their flight trajectory.

Plague Apostle Theramis and Blackfall Apostle Gunter looked around and their hearts were suddenly tight.

These two gods, one black and one white, with strange appearances, were the fathers of the light who had found helpers, the white elf queen Ashley, and the black elf king Polman.

This race, which is the same but has some differences, is an ally that the Father of Light pulled from the depths of the Milky Way.

They live in the depths of the Milky Way galaxy, in two adjacent planes, and have the same blood ancestors as the purgatory demon and the abyss demon.

The ancestral home of the elves originated from a beautiful plane with rich natural resources.

As a result, under the pressure of natural forces, a peculiar civilization race was born. This civilization race was originally called the wood elf, and it is also the predecessor of the white elves.

The wood elf has pointed ears, thin eyes, and a long figure. There are a pair of transparent wings on the back, and the skin is like a tree-brown yellow.

This race is kind and orderly, loves nature, and has no disputes with the world. However, as the population grows and the civilization develops, some wood elves begin to explore other planes that can survive in a starship.

Later, this part of the wood elves that left their original place of residence, because of the new world discovered, the long-term effects of various elements and the environment, gradually became the black elves after millions of years.

A series of changes have taken place in the dark elf's dark skin, face, and way of using power.

And as the black elves started the war of independence, they have since become a new independent race. Coupled with long-term dealings with other plane races, their nature also began to become more fierce and cunning.

The wood elves who stayed in their ancestral land, because of the natural forces they mastered, continued to invade, and their appearance began to change more and more beautiful, and their skin changed from the original brownish yellow to a soft and fair white.

In addition, they use the natural power of healing, and also to face the black elves, so the wood elves are gradually called the white elves by the outside world one million years later.

The kings of the white elves and the black elves have the power to reach the gods. They have a small population, but under the union of the bright father and god, the two elven kings are

determined to defend the common home. All its strengths joined the resistance alliance of the galaxy.

The two elven kings of Fangcai, each led more than two hundred void warships, and hundreds of thousands of elves elite, joined the battlefield after the arrival of the bright Father.

In addition to this, there is another remote but powerful racial mountain giant who joined the resistance alliance after the two elves.

As a descendant of the ancient giant Titan, the mountain giant has a skin like a mountain and a strong body like a mountain.

Their physical strength is astonishing, and the leader Orton has the terrible combat power to reach the **** realm, but they are peaceful by nature and advocating oneness with nature.

Therefore, they have always lived on a planet full of rocks and hills, and share the original and quiet surroundings with other weak races.

This time Orton, the king of the mountains, led hundreds of mountain giants, and boarded several other race warships without gods and weaker forces. After the two elven races, they also joined the battlefield and became another chase. An important force to aid.

Right now, the two elven kings, with their outstanding racial characteristics, instantly caught up with the plagued apostolic couple who fled.

If it weren't for the return of the extraterrestrial demon and the personal appearance of the Father of Light, the two of them would probably not join forces for the rest of their lives. Now, it is the moment to abandon the past and defend the enemy together.

“Space folding!”

The white elf queen Ashley and the black elf king Polman glanced at each other, and jointly exhibited the high-level secrets of the elves.

“Wow!”

With the palms of the two elven kings reaching forward and the four wings flapping, the surrounding natural forces that had almost merged with them immediately surged out.

Suddenly, a terrible space storm immediately violently scraped in front of them.

Plague Apostle Theramis and Blackfall Apostle Gunter are using the power of space to flee quickly.

If you make an analogy, they seem to dive into the water and swim quickly. But it was at this time that the two elven kings, performing the elven secret technique, immediately set off a huge wave in the space.

This huge wave of space caused the plagued apostle and the black meteorite couple to be in a space where the naked eye collapsed and fluctuated. The two were trapped in it, and were suddenly pushed back by the huge wave of space.

“Do not!”

Plague Apostle Theramis and Blackfall Apostle Gunter, at this time even have the heart of death.

They saw that they were about to escape from birth, but they were pushed back by the huge waves of space. So far, all their efforts have been abandoned before this moment.

“Heaven is going to die! Ao!”

At the moment when the plague apostle and the black meteorite couple were pushed back by the force of space, Orton, the king of the mountains, gave a majestic roar in the sky, and at the same time, he extended his giant palm and shot it down suddenly.

In an instant, a vast giant palm that looks like a mountain, suddenly spawned out of thin air, and landed in the air.

Just listen to “bang”.

The plague and apostle couple who had just been pushed back to the center of the battlefield, together with their destroyed Void Mothership, were smashed by the giant palm into the air!

The two Nether Carriers and their surrounding auxiliary ships were directly smashed into a pile of rubble.

The plague apostle Xeramis and his husband, Black Meteor Apostle Gangte, spit blood on the spot. The whole person was like two pieces of void fragments, lying on the sky above the dark sea with despair.

At this point, the little bit of war finally came to an end.

This battle was a complete success as the first battle in the abyss since the formation of the Galaxy Resistance Alliance.

Because the intelligence is accurate and efficient, the multi-party forces have abandoned the past, and they have cooperated to resist the alliance. With only a small price, the resistance alliance successfully killed the two abyss demon gods, Dark Mist and Bloodthirsty, and combined the main force of the abyss with the two Devil Fleet, all annihilated.

This is undoubtedly an exciting feat for all races that have always feared the extraterrestrial demon!

The army and warships are now regrouping, and soldiers of all races are starting to ride single-handed tools. They are about to quickly clean the battlefield and count the prisoners of war.

Wang Yan, the Father of Light, and leaders of allies all began to step out of the battleship and gather in the center of the battlefield.

They need to have a brief strategic consultation, to put it bluntly, the alliance between the Heavenly Demon and the Abyss they are now eradicating is nothing more than a cannon foe invading the plane of the earth. The enemies they will face next, but the incomparable demon Lord Luo Sui, and the real extraterrestrial demon main force.

But in any case, they successfully opened up in the abyss battlefield, avoiding the destruction of the plane of the earth by the flames of war. At the same time, the complex abyss of the abyss plane is

full of space nodes leading to various places, which is very convenient for the strategic actions of many allies .

Being able to achieve this level has successfully taken the first step strategically.

Next, specific information about the demon Lord Luo Sui and his main fleet can be obtained from the two prisoners, the Plague Apostle and the Blackfall Apostle.

“Speak, you guys understand what we need.”

Without further ado, as one of the representatives of the resistance alliance, the flame **** Wang Yan, as the host and several other **** leaders, conducted a simple greeting, and then began to interrogate the plague apostle and the black apostle couple.

The crisis is raging right now, and it’s almost impossible to procrastinate.

“Boy, we lost in your hands, we admit it!”

Gangte, the black apostle, was imprisoned by the mysterious father of the light, but he sipped the blood in his mouth and laughed coldly, “But if you want to get information from us? Oh, die this heart!”

“Giggle, do you think we can win the game by winning? Giggle, stop dreaming!”

The plague apostle Seramis, who was also imprisoned, also laughed coldly at this moment, “How great is His Majesty the Lord? We are nothing but finger-tip playthings before the Lord, the ants under your feet, you humble people Of the inferior race, why fight against the great deity His Majesty? “

“Funny surrenders surrender to us and confess our sins. Perhaps His Majesty the Demon Lord can show mercy and leave a chance for your race to linger.”

The God of Heavenly Demon does have enough stiffness. Under the siege of many gods, the Black Meteor Apostle Gunter and the Plague Apostle Syramis still have no change in their faces and are not afraid, but instead have an indifferent attitude of breaking the jar.

Now including Wang Yan, many Alliance deities can’t help but frown.

First, they did n’t have time to spend with these two guys. Second, there were many gods and races on the scene. Almost all of them had been hurt by the extraterrestrial demon, but now they are the captives of Gunter and Theramis. Such a reckless attitude made everyone disgusted.

So as the master of death and soul control, the fallen demon Samel first raised his eyes and said quietly: “In that case, then we will kill them. The dead are often more honest than the living.”

“You, what do you mean?”

Black Meteor Apostle Gang Te immediately shivered, and his wife, Plague Apostle Syramis, also felt a cold that penetrated into her heart, making her pores expand.

“Haha, what can it mean?”

As Samuel's old neighbor, Satan, the purgatory demon, immediately laughed secretly, "Of course it is slaughtering you, and then searching for your soul! With Brother Samel's shot, what else can you hide?"

"Oh, don't think of dying to death, there is a bright old thief, you will be hard to die."

Satan, the devil, raised his mouth and said cruelly, "We will kill you by hand, and then practice all your **** bodies into living corpses, so that your soul will be sealed in the corpse forever.

Satan, the demon god, now says that this is naturally a way for the fallen demon **** Samel to make undead creatures. As long as he falls into his hands after death, his soul will be slain by him, and he will never be free from eternal life.

In addition, Satan, the demon god, was so cruel, that the Black Meteor Apostle Gunter and the Plague Apostle Syramis, the two demon gods, no matter how good in heart, could not help but shudder.

This is the power of death relative to life.

Of course, people such as the Father of Light, the Virgin of Light, and the White Elf Queen Ashley all showed disgust, but because they were already allies, they could not attack.

On the contrary, it is Polman, the king of the black elves, with a terrifying look and full of interest.

"Do you kill God? Interesting! Interesting! Let this king do the work for you." During the talk, Polman's arms of the black elf began to deform rapidly, and his long hands turned from the wrist part into two handles. Sharp sharp edge.

"You, what can't you do!"

"We are, the apostles sealed by His Majesty the Lord, if you kill us, His Majesty will not let you go!"

"No, don't come!"

"The devil saves his life ..."

The plague apostle Xeramis and his husband, Black Meteor Apostle Gente, were banned by the light father and **** with light in and out of their bodies. At this time, they were like two pigs tied by big flowers. , Not even suicide.

"Death is the fate of every creature!"

Polman, the king of the black elves, slowly squinted, revealing a grim and cheerful expression, "The devil that fell into the hands of this king, admit it!"

The next moment, Polman flew up from the spot, raised his arms and turned his double blades, and would pierce the heart of the Black Apostle in front of him.

But at this moment, a great power suddenly came from above.

Polman's heart shuddered, and the violent fear caused him, an elf demon admiring the power of darkness, to stop all his life, and the whole person froze in the air.

"Why, what's going on? How could there be such a terrible power?"

Polman, the king of the black elves, looked at the sky beyond belief.

Just listening to a violent blast of air, the atmosphere above everyone's head seemed to be crushed by something.

At the next moment, a giant fortress resembling an iron continent slowly broke through the clouds, and it would slowly crush all the terrible shadows and slowly fell on everyone's head.

...

The Domestic Hero - Chapter 1855

...

"What the **** is that?"

"Why, how could it be so huge ?!"

Fear, like the tide, flows through the hearts of all creatures on the scene.

Even as strong as the gods, the primal fear that originated from the heart at this moment has been fully inspired.

Everyone couldn't help but feel the tightness of his spine, his heart was beating wildly, all in place, his eyes wide open and he looked towards the sky.

This super giant fortress exudes a strong sense of danger. It is so large that it can't even be described by an aircraft.

It is like a steel continent floating in the void. The whole body shows a dark and cold metallic luster. I am afraid that the thickness is only dozens of miles, and the diameter is so stretched that it is difficult to count.

In an instant, the terrible shadows that overwhelmed everything covered almost the entire world.

The dark world of the abyss lost almost all its light at this moment. Only the dark shadows of terror above its head spread to the surroundings.

And this huge ship, with its difficult-to-counter hulls and amazing quality, has just crushed the border, making the deep abyss of the abyss world abruptly undergoing drastic tidal changes. The entire abyss world seems to be crushed and exploded.

"Too terrible ..."

"This ... is like a steel planet!"

The first time I saw this kind of big killer, the white elf queen Athelia, and the Bright Virgin, and others, their eyes were wide open, and their inner shock was already at this moment, reaching an unspeakable point.

“Tianmo’s technology is indeed amazing.”

Although he was unwilling to admit it, God the Father of Light still sighed in amazement, “In such a huge warship, it would take at least hundreds of years for the ***** to gather all the human and material resources of the kingdom of God, before it would be possible to build seven or eight. Eight degrees. “

It took hundreds of years to build seven, seven, eight, eight, and it was only a preliminary estimate of the Father of Light, and there is still some exaggeration.

First of all, to build such a huge warship, the materials and supplies needed are already an astronomical figure. Not to mention, it takes a lot of time to prepare these huge quantities of materials and materials.

Even if the materials, materials, manpower and resources, and the large amount of energy consumed, are not considered, just to build this giant, the technical support required, and the long time spent are as amazing as the world. Feat!

And if you want to build such a giant monster in the void, you must stay away from the gravitational range of the parent star and even other planets. You need to build a colonial satellite and ancillary factories in the vast universe. Use planets rich in mineral resources as raw materials for smelting metal minerals.

Only in this way can we guarantee that this unparalleled sky-hidden ship, when it is gradually built, will not cause itself to fall into its parent star due to the gravity generated by its huge mass, and collide with the mother ship to destroy!

“Giggle, how can you humble inferior races understand the greatness of our Lord Lord Majestic Luo?”

The imprisoned plague apostle, Theramis, laughed wildly and sarcastically, “Our great devil majesty, as early as tens of thousands of years ago, has concentrated all the precious resources in our territories, and will be our mother , Creating an invincible fortress of war! Now this exclusive star destroyer is only a small part of our mother star! “

“Just a small part of the parent star? A group of lunatics!”

As the ***** of ice and snow on the earth, Huangfu Nanlian’s face was gloomy, and she was deeply rejected. “These devil actually transformed their mother star into a war machine. There is no bottom line!”

“Haha, there is no bottom line? You guys know what a fart!”

Black Meteor Apostle Gangte laughed with a head lifted and said, “Only absolute force can stand forever in the universe! Transforming the parent star into an unsinkable battleship is our love for the parent star!”

“Besides, all things in this world will eventually have reincarnation, and the universe will also have an end. All of you inferior races will die in the rebirth of the reincarnation. Only our Heavenly Devil is the only master in this world, and the only one in the future. Survivors! “

Gang Tei, the black apostle, said that the expression became more and more fierce. “Now instead of letting you waste all the resources in the world, let us collect all the devil’s monsters. Fortunately, after a reincarnation in the future, a new universe will be rebuilt!”

Everyone at the scene couldn’t help but frowned, they never thought that the ambition of the extraterrestrial demon was so strong.

Not only do they want to be the master of the universe now, but they want to be the master of the universe forever!

“No, no ... this, this is wrong!”

Ji Cui Lisi, who has joined Wang Yan’s camp, shook her head and stepped out from behind Wang Yan. “I think these practices and ideas ... are all wrong!”

She was born on the Devil Star. From the moment she was born, the star she saw was the cold appearance of a steel machine. The remarks made by Black Meteor Apostle Gangte at this time are also the lofty declarations she has received since childhood.

But it wasn’t until this moment that she realized that her mother star used to be green and full of life, but the devil Lord Luo Sui and the high-level leaders, because of their greed, turned it into a war machine!

Even those remarks such as the reincarnation of the universe, the supremacy of the heavenly demon, etc., are also the tools they use to brainwash and rule other heavenly demon.

Not to mention whether the universe has reincarnation, even if there are, it will also happen hundreds of millions of years later. Moreover, the Bliss Magic Ji, who has co-existed with other races on the earth, has deeply realized that the universe in the world should be diverse, and a multi-ethnic coexisting world should not have only one extraterrestrial demon.

Even if there is a universe reincarnation, it should be a multi-ethnic problem to face together, rather than just leaving the surviving seed of the devil.

Of course, her thoughts, if her compatriots had no personal experience, she could not pass on to those compatriots.

Moreover, the heavenly demon supremacy and the universe reincarnation that centered on the demon Lord Luo Sui have been deeply entrenched in the hearts of the heavenly demon outside every domain. Unless the Lord Luo Sui is overturned, she can’t imagine how to live together peacefully.

“Bah! Humble traitor! You are not qualified to talk about our extraterrestrial demon!”

The plague apostle Theramis, seeing the Bliss Magi, was like a life and death enemy, scoffing and scolding on the spot, “Last time in front of this seat, to seduce this seat of the husband, this account has not yet had time to talk You count, you still dare to question your dear Majesty, really looking for death! “

“Alas, the old and ugly bitch, the concubine is not as common as you are.” The Bliss Maggie Trilith glanced at Theramis without any intention of arguing with it.

Just sighed slightly, because she understood that at this moment, it does n’t make any sense to argue with any demon about which is right.

“What? Old and ugly? Where is this seat old and where is it ugly? It’s you ***** ...”

Bliss Mo Ji didn’t speak, but Xeramis was so angry that she was so angry that she saw the main ship of Demon Lord Luo Sui had already arrived. For a time, she was fierce and shouted.

It wasn’t until the Wuya Ange on the side was slapped and slapped out of thin air that it completely silenced.

“Humph! Noisy!”

On this side, Wuya Ange, who had become the new Dark Demon God, glanced coldly at the two Heavenly Demon captives, and then said, “Everyone has seen it, and they don’t even care about their mother star. Our galaxy and race? If we surrender to the devil today, then we will never have a future! “

With the appeal of Wuya Ange, the scene suddenly became silent.

No matter the gods on the scene, or the many races from all planes of the galaxy, their brows can not help but look dignified.

Right now, it’s time for life and death, and the attitude of the Heavenly Demons just outside the world, they are also very clear.

Perhaps as Wuya Ange said, the extraterrestrial demon does not take other races into consideration at all. If they give up today, they will have no future at all.

“Miss Ange is right, now it is not just an earth, a galaxy, but the whole universe, and the survival of all our races.”

At this time, as the leader of the Earth’s resistance, Yan Zun Cao Jingluo was awe-inspiring and hung high above the earth’s main ship. Prestige slowly scanned the surrounding allies and compatriots, “If we lose now, then our Children and grandchildren will always live in a world full of humiliation and slavery! “

“Yes, we can’t give in!”

“We must resist to the end!”

“This universe, it’s not his turn to take charge of Luo Su!”

“Even if there is a reincarnation of the universe, then the seeds that can survive should not be the only ones they have!”

The scene responded with a hundred echoes, not only the ***** leaders of all strengths, but also ordinary warriors who shared the same enemy.

Be aware that at the moment they are behind their beloved home, where they were born and raised, as well as where their loved ones, relatives, and descendants live together.

If they missed here, it means that their homeland was lost. By then, once the extraterrestrial demons are driving straight in, everything they cherish will be completely destroyed.

For many brave soldiers on the scene, it was more painful than killing them.

“You, the moment of decisive battle is coming, let us use blood and life to defend our dignity and homeland!”

At this moment, Wang Yan was bathing in fire and standing above his main ship. The scorching fighting intent began to burn like fierce flames over the dark sea of the abyss.

Perhaps it was infected by Wang Yan and other gods. All the soldiers at the scene held their breaths and waited. All the warships turned the bow, started the engine, and turned the muzzles of the black holes against the upcoming demon Lord Luo Ai.

Soon, the devil Lord Luo Sui’s huge destroyer finally approached.

The unparalleled amazing quality caused the deep abyss and the deep sea to boil completely.

And as the main ship of the devil Lord Luo Sui gradually approached, Wang Yan and others could clearly see that there were more than a thousand large and small Tianmo warships underneath this super-giant warship.

Among them, there are more than a dozen of the void motherships and battleships that are the flagship of the Devil God!

Through the sub-marks on these battleships, Wang Yan and others can clearly see that not only pure-blood heavenly creatures and mixed-blood heavenly spirits, but also powerful dragons, extraterrestrial evil spirits, void aliens, and warfare are coming with the demon Lord Luo Sui Giants, even crypt worms and other affiliated races.

These races that follow the demon Lord Luo Sui seem to be showing off, and all of them have released their own power and breath without concealment.

Wang Yan and others who already know something about them can clearly perceive that there are eight demon gods in this army! The Dragon Clan, the War Giant, and the Crypt Worm each have a god! In addition, in this army, there are still two ends entangled in chains, like a worm like a god-level galaxy monster!

“A terrible army ...”

Many gods such as Wang Yan and Father Guangming were all in place, their faces almost subconsciously showing a dignified look.

The enemies in front of us are fierce and powerful.

According to the information they collected in advance, among the enemies approaching, the Dragon Race is already familiar to Wang Yan and others.

The Dragon Clan is a humanoid fighting race that belongs to the Dragon Clan branch. Later, their mother star was conquered by the Demon, and the surviving Dragon were forced to transfer to the outside of the territory.

Once the apostle Ackerman, who swallowed the stars, invaded the Dark Demon Realm of Hell, a dragon family rebelled against Ackerman and surrendered to Uya Ange. Now he is in the fleet of Uya Ange to help her fight against the extraterrestrial demon.

Except for the Dragon Clan, the extraterrestrial evil spirit is an energy body creature similar to **** shadow demon, born with spiritual fear, good at energy attack, and can condense the soul armor on its own. If you want to kill an evil spirit, you must destroy them. The crystal nucleus hidden inside the soul armor.

The Void Alien is a barbaric race wandering in the abandoned planetary belt or chaotic void. They have low intelligence, but are bloodthirsty and violent, and they are exceptionally strong. They can regain their vitality by swallowing the flesh and blood of the other party, thus recovering As well as strengthen one's own strength.

War giants and mountain giants are close relatives and are descendants of the ancient Titans. But unlike mountain giants, war giants make a living by fighting and have always been one of the most powerful mercenaries in the universe. Now it is absorbed and conquered by the extraterrestrial demon.

In addition, the Crypt Worm is absorbed by the extraterrestrial demon conquest, which is a very mysterious ancient race.

They are a kind of intelligent species that is half human and half insect, and coexist with the terrible cosmic worm in a complex and chaotic rocky galaxy.

Among the crypt wormmen, there is a wormman god, and it also controls the two god-level universe worms.

The god-level galaxy behemoths that Wang Yan and others perceive are the gods of the crypt worms, dedicated to the two god-level universe worms of the demon Lord Luo Sui.

On such a side, apart from the demon Lord Luo Sui who transcends the realm of the gods, there are eight local demon gods, and the other vassal gods are five! Coupled with the elite army of the Devil itself, and the slave army composed of many other vassals, I am afraid that the number of soldiers in sight has exceeded tens of millions!

This is definitely a terrible teacher enough to overcome all obstacles. Now they are facing the edge, it is Wang Yan and the bright Father, who finally formed a successful resistance coalition.

...

The Domestic Hero - Chapter 1856

...

“Humble ants, you are struggling needlessly. In front of the deity, it has no meaning.”

A slightly hoarse, but indifferent voice suddenly came from above everyone's head.

It was Luo Shou, the demon Lord who had just arrived!

The terrible power finally spread out at this moment. The kind of inexplicable, even unbearable pressure of divine thought, almost instantly shrouded the audience.

At this moment, the space seems to be solidified and viscous, and the heavy pressure is like a huge rock capable of crushing everything, always suspended above people's heads.

"Yes, it's the demon Lord Luo Sui!"

In the resistance coalition, I do n't know who was the first to exclaim, but at that moment, fear began to spread like a tide in people 's hearts.

Even the bright Father and many other gods, heavy helmets and armor, a solemn expression, and a bodyguard like a sculpture were all tight at this moment, and their eyes were full of panic.

Just like a low-level creature in nature, in the face of a brutal predator, instinctive fear is rapidly increasing from the bottom of their hearts.

"Haha, you group of stupid and humble races, when you see His Majesty the Lord, are you still rushing down?"

Seeing the demon Lord Luo Sui and his army coming, the Black Meteor Apostle Gunter and the Plague Apostle Seramis, as if they were seeing a savior, the spirit of the whole person began to run wild.

"Your Majesty the Lord! Your humble servant, here!"

"Your Majesty, please save your humble servant!"

The Black Meteor Apostle Gunter and the Plague Apostle Xeramisi hurriedly knelt out of nowhere, and despite their physical strength, they still kowtowed for help.

In their view, the demon Lord Luo Sui had arrived, and they finally recovered a life.

"Sammel, these two devils must never let them escape!"

Satan, the Purgatory Demon God, exposed the fierce light secretly and secretly whispered the sound to the fallen Demon God Samel. It will be bad for us. "

"You don't need to say this."

The fallen demon Samel still has a temperamental cold voice answer, but in his palm has quietly squeezed a fire of silence, as long as the situation changes, he will immediately and the purgatory devil Satan, one left and one right, Quickly kill Gunter and Theramis,

As Satan, the sly old and fierce purgatory demon, said, the extraterrestrial demon and its slave legion are fierce. Although their strength is strong, they are not paperless to resist the coalition forces.

In terms of the number of battleships alone, the two sides are actually similar to the basic strength. The number of high-end god-level powerhouses is also quite the same, except that there is a variable beyond the realm of the devil Lord Luo Sui.

Of course, if the plague apostle Siramis, and the two demon ***** captives of the black meteorite aunt Gunter, once rescued by the demon Lord Luo Sui, then the two demon gods will have an overwhelming absolute advantage. .

In this situation, the resistance of the coalition forces is absolutely not allowed.

“Xiao Yan.”

On the other side, the Father of Light used his eyes full of wisdom and majesty, and looked at Wang Yan, who was opposite to him, and his meaning was beyond words.

Wang Yan also nodded and responded.

Almost in this moment full of change, all people, including all fleets, made the first time to kill the two demon prisoners and prepare for the war.

The anti-Allied forces originally wanted to find out from them the information of the devil Lord Luo Sui, and their heavenly demon army, but they had to arrange a response plan in advance.

But now all this is not necessary. The demon Lord Luo Sui has led his army to close. Once the Black Meteor Apostle Gunter and the Plague Apostle Siramis let them escape, they will resist the Allied forces against them with their strength to reach the Divine Realm. Is a huge threat.

So once they reach that juncture, they will have to kill the killer early.

“Theramis, Gunter, this humble servant.”

At this moment, the cold and hoarse voice of the devil Lord Luo Sui came again with majesty, “You, failed again.”

At the same time, his figure slowly appeared above the star destroyer.

Luo Su is a burly and overbearing figure with an upright forehead horn, under the lilac skin, strong muscles with clear lines, full of awesome tough texture. A set of dark golden armor with old-fashioned and simple decoration, which he wore on his body, showed an extraordinarily great workmanship.

His eyes are majestic and indifferent. Under the dim light of the fragments, it seems like two black holes that are not visible. As his eyes look down, it seems that everything in the world will collapse.

“Your Majesty, please save your servants! Although your servants failed this time, we fight against each other without humiliating the devil’s prestige!”

“Yes, that’s right! I, we haven’t leaked a little bit of information, but we didn’t expect these enemy forces to be too much, and our failures are justified, please ask Your Majesty!”

The plague apostle Xeramis and his husband Blackfall Apostle Gunter, when they felt the sight of the demon Lord Luo Sui swept them, they were immediately terrified and trembling.

But now is the time for life. The two hurriedly kowtowed for help. In their view, it is impossible to obtain the battle with Wang Yan and other resistance coalition forces with their strength against the abyss, so failure is justified Thing.

“But you have attracted all the annoying ants for this deity, and your value has been reached.”

The corner of the mouth of the demon Lord Luo Sui slowly raised, it seemed to show a smile of applause, but his eyes fell on the two of Theramis and Gunter, but it was full of indifference, which seemed to be enough to freeze the surrounding world.

Xeramis and Gunter suddenly gurgled, and a bad hunch immediately filled their limbs and bones, but the devil Lord Luo Sui’s thoughts, where can they both conjecture?

As of today, if you want to survive, you can only ask the Demon Lord. After all, the two of them are Devil Gods, and they still have great value.

“Devil, Your Majesty, you are right, our value has reached this time. No, but we have greater value. Your Majesty, please save us, we will do our best to serve you!”

“Yes, yes, we still have value. We also invite His Majesty the Lord to show his might and save us from returning to the great Demon camp!”

however.

Plague Apostle Theramis and Blackfall Apostle Gunter, the words of begging for mercy have not yet fallen, and the devil Lord Luo Sui raised his finger casually.

Suddenly, a terrible killing broke out with it!

I saw a faint purple light, suddenly shot from the fingertips of the demon master, and instantly penetrated the bodies of the two of Theramis and Gunter!

Until then, the surging power that was enough to suppress the universe was like the deepest darkness, spreading around every inch of the scene.

“Your Majesty, Your Majesty ...”

“I, we, have, price ... price ...”

Black Meteor Apostle Gunter and Plague Apostle Syramis, the words stuck in their throats have not been spoken. The bodies of the two have died instantly, and they fell slowly in front of everyone.

The two of them have lost their lustrous eyes, full of confusion and fear. I’m afraid they didn’t even think about the death of them. Their identity as a pure-blooded devil is still nothing in the eyes of the demon Lord Luo Sui.

There was a sudden silence in the scene, both the enemy and the enemy, because of the sudden change in front of them, they were stunned in place.

Wang Yan, Father Guangming and other people couldn't help but frown. On the other side, Satan, the purgatory demon who has already begun to make a move, and the fallen demon, Samel, are also slightly stunned.

No one at the scene thought that the devil Lord Luo Sui was so cruel and so cruel to his cronies. And the seemingly inadvertent shot contains endless mysteries.

Wang Yan, the bright Father and other gods and spirits present could clearly perceive that the descriptive finger of the demon Lord Luo Sui, as if the rule of annihilation, had been exerted to the extreme.

It seems that as long as he points his finger, everything in the world will be slaughtered with one finger!

Cruel, fierce, domineering, and extreme indifference, all mixed together, the horror and coercion produced is extremely deep, making it difficult to breathe.

Wang Yan and his companions exchanged glances secretly, each of them could not help but dignified.

This battle is not easy to fight.

...

On this side, as expected by Wang Yan and his companions, the finger of the devil Lord Luo Sui was full of annihilation, just like the plague apostle Xeramis and the black meteorite Gangte, and they were banned by the **** of light. He was killed with one finger by the demon Lord Luo Sui.

“Click, click, wow ...”

The finger holes that penetrated the **** bodies of the Plague Apostle and Black Meteor Apostle began to expand rapidly in a short time, and continued to decay and decompose the bodies of the two demon gods.

In the blink of an eye, the bodies of the two demon gods, turned into a piece of fly ash by the finger of the demon master Luo Sui, did not leave a trace of vitality.

“Heaven, the demon rot body, this, this is the real infinite magic skill!”

Beside Wang Yan, from the Bliss Devil Ji Cui Lisi, her delicate body shivered slightly.

She is the one who knows the demon Lord Luo Sui best among the group of Wang Yan. In her identity as a pure-blood god, almost from the moment she was born, she lived under the divine power of the demon Lord Luo Sui all the time.

It can be said that every creature in the entire Demon Territory lives in the shadow of Demon Lord Luo Sui. Even if the name of Demon Lord Luo Sui is heard, the heart will tremble subconsciously.

This is so natural because the devil Lord Luo Sui is the first-hand creator of the entire Demon Empire, and he created all kinds of exercises used by the Devil and his slaves.

If all the techniques used by the heavenly demons and their demon gods are merged into one, you can find that it is the infinite amount of magical powers of the deity Lord Luo Sui!

Among them, the celestial demon corpse is just a way of using power in the infinite magic skill. The use of this kind of power alone is enough to make a demon ***** sing the world.

As a result, no one can estimate how terrible the devil masters the complete immeasurable magical power is.

“The deity said that if you fail again, it will make you completely disappear from this world.”

The demon Lord Luo Su saw cruelty in his eyes, and lifted his palm. The plague apostle and the black meteorite apostle had turned into ashes, and two shining deities flew into his palm.

“Rather than letting you waste this power in vain, let it return to its deity.”

In words, the demon Lord Luo Sui raised his hand and swallowed the two divinities into his abdomen.

The plague apostle and the black meteorite, the consciousness that has not yet dissipated, are completely dissipated at this moment in terror and despair. The demon Lord Luo Sui, who received the power of the two immortals, suddenly exploded in divine power.

Horrible and terrifying, the vast prestige of the world, as if boundless, covered the entire abyss instantly.

The thick and thick divine power almost solidifies this time and space.

Regardless of the enemy and the enemy on the scene, under such heavy pressure, they are all mentally tense and trembling, as if inadvertently caught in a black hole enough to crush everything, thoroughly crushing bones and bones.

“Small, Xiao Yan, this demon Lord Luo Sui is simply a monster! And his main ship, Gee, is really exaggerated! In short, the situation is not good for us now, we must act immediately!”

The situation was urgent. As the commander-in-chief of the Earth Allied Forces, Uncle Gun came to Wang Yan with a flash.

“My Flame My Son!”

On this side, Satan, the Purgatory Demon God, also nervously preached to Wang Yan, “Like you ... what Master said, we must start with the strength first, while the demon Lord Luo Sui is still absorbing the divine personality, we must give him Hit hard! Otherwise, when he is ready, we may not have this good opportunity! “

The murderous opportunity of Satan, the purgatory demon god, has always been arrogant and arrogant, but in front of the demon Lord Luo Sui, he deeply felt weak and weak.

This sense of insignificance made him nervous, and if he could not take the opportunity to kill him, he might have trouble sleeping and sleeping all his life.

“Xiao Yan, it’s time to act, we will act according to plan.”

On the other side, the bright Father God's eyes were solemn, he nodded slightly to Wang Yan, and motioned to execute the plan.

"Xiao Yan, our Dark Demon is ready!"

"What should you do, just say it."

"Your Lord God, our elves follow your instructions."

"Oh!"

Not only Uya Ange and Huangfu Nanlian, but also the black and white two elven kings, and allies such as mountain giants whose light bodies are like a big mountain, all looked forward to Wang Yan, waiting for Wang Yan's orders and instructions.

Wang Yan never expected to be a leader, but invisible, he has become the backbone of this resistance alliance.

In the face of those friends and relatives, as well as old and new partners, the eyes full of trust and expectation, Wang Yan knows that he can no longer refuse, and he will never avoid rejection.

Wang Yan looked around, his eyes gradually firmed up, and then nodded, and said, "You guys, please listen to me."

...

On this side, the demon Lord Luo Sui is enjoying the power of Pang Ran brought to him by the two gods.

During the digestion process, the demon Lord Luo Su slowly opened his eyes and looked down at hundreds of thousands of meters away, the resistance coalition forces from all walks of life in the Galaxy.

At this time, the resistance coalition, with its flag halted, seemed to be already under his prestige, trembling and at a loss.

"Humph, the ants should be settled on the fate of the ants."

The demon Lord Luo Sui was proud and full of scornful humming, "There can only be one master in this universe! And you, you should prostrate at the feet of the deity!"

"Now, the deity can give you a chance."

During the speech, the demon Lord Luo Sui looked around with a high air, Xiao Sha said with majesty, "Hand over Wang Yan, the **** of flames, and I will forgive you for not dying."

This is the consistent practice of the devil Lord Luo Sui to conquer other planes.

In his eyes, the race in this world is just a group of ants that are greedy for life and death. Under the strong desire to survive, he dare not fight against the real strong man.

As long as they show absolute power to these weak races, then these weak races will cry and cry to become his slaves.

Even willing to offer a part of the tribe, let him deal with slaughter.

Now that he has become such a humble servant, why should Luo Luo destroy their entire race? After all, their extraterrestrial demon also needs to raise many slaves.

However, this time it was far beyond his expectations.

Just as the demon Lord Luo Sui was contemptuous, waiting for the successor of the fire Lord Luo Sui to be executed by himself, a hot flame burst into his face and suddenly shot at him.

“Being your mother’s spring and autumn dream, Lao Tzu Yan Zun, will never hand over your apprentice to this bastard!”

The person who took the lead was the Yan Zun Cao Jinglue who showed the true flame.

He stood tall in the void, shouting his arms, and all the warships of the Earth Allied Forces sent the most fierce bombardment to the demon Lord Luo Sui!

“Boom!”

“Fire!”

“Fire!”

“Non-stop fire!”

...

The Domestic Hero - Chapter 1857

...

The roaring roar, echoing continuously in the sky, countless ship-borne shelling, almost tearing the world’s space.

At this time, not only the coalition of the earth, the world of hell, the kingdom of light, and the fleet of Wang Yan itself, all the resisting coalition forces, at the first time, initiated the devotion of all of them to the demon Lord Luo Sui and the star destroyer Total attack.

Although most of the attacks are resisted by the demon guards around the star destroyer and the defensive shields generated by their phase matrix, thousands of warships, large and small, and hundreds of thousands of fierce attacks have already been like violent storms. , Completely enveloping the demon Lord Luo Sui and his army, and the resulting terrible explosion almost closed the eyes of all the demons.

“It’s now!”

Seeing that it was actually mature, the Father of the Light was decisive and intimidated, and all the gorgeously shaped carrier ships of the Kingdom of God were dispatched in unison and rushed towards the Demon Legion where the demon Lord Luo Sui was.

“Strike!”

“All attack!”

The Three Demon Domains of Hell, and even the fleet directly under Wang Yan, as well as the carrier aircraft of many alliance fleets, all took off and attacked, and the target was directed at the Celestial Corps in front.

These warriors on all sides of the carrier aircraft have already prepared for death. At this moment, they have only one belief in their hearts, that is, to complete the mission and allow the coalition plan to be implemented!

“Lao Cao, Xiao Yan, and everyone, I will definitely complete the task today!”

In the Earth Fleet and the cockpit of the carrier-based fighter, the male superhero is discerning and persevering. Through internal communication, he asked several friends and Wang Yan to ask, “I am willing to give everything for my second home planet, including my life. It’s just ... If I fail to come back, Xiao Yan, I hope you can take care of my cousin. “

Cousin?

Is n’t his cousin the female superhero? Wang Yan reacted.

The women’s superhero is naturally beautiful, powerful and beautiful. It was a brilliant show at the youth conference that year, leaving a deep impression on Wang Yan. Although the female supergirl always wanted to rejuvenate the Krypton race with Wang Yan, this idea has always stayed in the imagination, and Wang Yan’s relationship with her is not a step closer.

But now her cousin, the Super Boy, suddenly said such a request at this moment. This is simply the rhythm of standing flag?

“This, I can’t promise you now.”

Wang Yan categorically refused, “If you really want to introduce me to the women’s super League, it’s better to wait for you to come back. Let’s drink and celebrate and talk about it again.”

Just kidding, who can get back when the flag is set?

Everyone on the scene was stunned for a while, and the Super League laughed suddenly: “Haha, okay! I see!”

“You warriors, follow me!”

With the order of the Super League, more than a thousand Earth Alliance shipborne fighters set sail in an instant, just like a swift flying swift, quickly trailing behind the leading force, and accurately facing the extraterrestrial demon star destroyer main ship. Attacked.

The Earth's shipborne fighters have borrowed the technology of many extraterrestrial races, and at the same time have their own technological characteristics. The most core propulsion system is the small nuclear propulsion.

This kind of thruster can make the earth's ship-based fighters have extremely high linear acceleration and reaction rate. Therefore, all the drivers of a thousand top fighters have undergone a lot of hard work, and they are all capable of more than half-step S-class elite superpower. By.

Among them, the male supercar is a special model that not only strengthens the fuselage, but also has the extreme high speed of three times the speed of other fighters.

Among the 1,000 drivers who perform mission-critical tasks, only the male superhero, a superhero who is as strong as a demigod, can have this kind of reaction speed and physical strength that is almost beyond the limit and can drive that special fighter.

And out of these 1,000 earth fighters, one hundred carry a large number of nuclear warheads.

These nuclear warheads are the ultimate cards of the Earth Alliance!

However, for the safety of our own fleet, the 100 bombs carrying nuclear bombs have undergone special treatment. After the fighters are hit, the nuclear bombs will not explode. Only when the fighters reach the designated position can they be controlled by directional control. Detonate.

Therefore, in order to reduce the weight and make the fighters more flexible and maneuverable, this thousand fighters dismantled all weapons and equipment, leaving only the two basic laser guns that existed at the factory under the fuselage.

And of the 1,000 fighter planes, nine hundred are the cover and cannon fodder of one hundred nuclear bomb fighters.

A large part of them may not be able to return in the end, but their sacrifice will not be in vain. As long as a small number of one hundred nuclear bomb fighters can be successfully approached to the destructive main ship where the devil Lord Luo Sui is located, then their plan is considered successful.

At least they and many leaders of the Anti-Union Forces believe that a large equivalent of nuclear bombs is enough to end this war!

"Boom!"

"Cover our friendly army!"

"Don't be afraid of the extraterrestrial demon, we have drilled thousands of times to meet them!"

"Trust our friendly army and ***** them to the past!"

"Well! Heavenly demon is going to die!"

The flames of war were terrible, and the terrible explosion seemed to be thundering. The sky of the whole abyss was shaking and trembling. There were fights everywhere, ***** fights everywhere.

The Galaxy Anti-Union led by Earth, Hell, and the Light Kingdom, dispatched more than 10,000 carrier-based fighters this time, cooperating with all the fully-fired warships, and all the powerful gods, launched a surprise attack on the side of the heavens and demons.

But the strength and details of the extraterrestrial demon are indeed strong enough.

After suffering the first round of the Galaxy Anti-Union strike and losing a dozen warships, they immediately dispatched their fighters to respond.

The number of ship-borne warships of the Demon and its slave legions is staggering, which is more than twice that of the Galaxy Anti-Union, spreading in the void like a raven flock.

In addition, the number of warships of Demon and its slave legions is significantly more, and the firepower is more fierce.

In addition to the preemptive attack by the Galaxy Anti-Union at the beginning, they were a little caught off guard. It didn't take long for their warship's counterattack to fire like a violent storm, pouring towards the galaxy.

Afterwards, dozens of demon gods were also dispatched, and each met with Uncle Cannon, Nan Lian, and the gods of the bright father and Satan.

For a time, terrible battles spread all over the sky of the abyss world.

The bombardment of battleships and battleships, the fighting of gods and spirits, and the endless number of fighters and heavy soldiers, tracking and fighting each other in the dazzling artillery gap ...

The entire abyssal world, almost in the blink of an eye, turned into a tragic asura field.

Everyone is fighting every moment, and likewise, life is passing away.

The star destroyer where the devil Lord Luo Sui was located was covered by a large number of galaxy anti-union main guns, and did not join the battlefield in a short time. But he was not in a hurry to shoot, but looked at all this with great interest.

It seemed that the colorful flames of war and the wanton blood scent made him quite enjoyable.

It also made him want to see, in what way these humble inferior races in front of him will fight against him as the supreme **** of devil.

“It will be successful soon, all the warriors of the earth, rush in with me!”

The male super-spirit is tense, he drives the fighter plane in the upper void of the abyss, making a limit rotation of about 360 degrees.

The super fast reaction speed and the performance of the battleship made him lead the squad in the intensive enemy artillery fire, rushing left and right, charging forward quickly.

This is the excellent performance of space fighters. Unlike ordinary orbital fighters on earth, this fighter can do almost 360 degrees of tumbling climb at any angle in the void, and difficult flight such as free hovering and reclining. action.

But because of this, the enemy's attack may also come from 360 degrees, any angle, and a little carelessness will cause the driver to lose his life in the vast universe.

No, the enemy's fleet was already set up as a blocking net, and immediately came from the oblique side to the cluster where the men's super team was located. Instantly, dozens of guard teams of the men's super team were killed.

"No! If you go on like this, the fighter planes of the Earth's friendly forces will be wiped out!"

"Let's dig a hole and **** friendly fighters into the demon's defense!"

"Friends of the Earth are ready, let us send you in!"

The armament and combat power of the Heavenly Demon and its slave army are indeed far more than that of the Galactic Resistance Allied Forces, but the Resistance Allied Forces, with their blood and blood, simply withstood the overwhelming power of the other party.

At this time, hell, the kingdom of light, and even fighters from the two elven races were all close to the outer layer of the earth fighter team led by the male superhero. With their flesh and blood, they formed a layer of defense shell to **** the male superhero. The squad, like a long dragon traversing the void, meanders and spins, rushing into the fire net composed of the group of celestial fighters.

"You ..."

The male super eyes are moist, and there is an unspeakable sorrow in his chest.

He wanted to say something to the brave and fearless soldiers around him, but he could not speak at the moment, and he could only turn all the emotions held in his chest into the last command, "All Earth Warriors, accelerate the charge! Let us throw the nuclear bomb, Give these **** extraterrestrial demon! "

"Boom!"

The outer fighters guarding the men's super team, one after another, were constantly being knocked out. The rumble of explosions and the silence of the interruption of communication were like sharp needles stuck in each of them. In the nerves of the staff.

In the void, the short distance of tens of thousands of meters seems to become extremely distant at this moment. The fighter squad led by the men's super team is accompanied by a large number of casualties for every slight advance.

As many as tens of thousands of fighter planes on both sides of the Demon and the Anti-Union, in this area, it seems to be caught in a large meat grinder. All flesh machinery here will be twisted into thin pieces and vanished.

at last!

Two teams of fighter planes of the Shining Kingdom and the Fallen Demon Realm succeeded in making a big mouth in the Heavenly Demon Machine Group.

The two groups of angel fighters, the Light Kingdom and the Fallen Demon Realm, rushed into the Sky Demon Group one by one, one by one, like two sharp knives, constantly disturbing the formation of the Sky Demon Group.

The remaining three domains of ***** and elf fighters continue to ***** the male super team and its team, rushing towards the star destroyer all the way.

“Successful!”

The men’s super team and their teammates were very happy.

They rushed along the way as if it had passed a century. So far, nine hundred Earth escorts and one hundred bombers carrying nuclear bombs have been damaged by more than half. .

After rushing through the Demon Machine Group, the anti-cooperation fighters of various races escorting the male Super League, and fighting with the Devil Machine Group, bravely and stubbornly broke the Super League and its team.

The male super team and his team, facing the dense melee air defense artillery of the demon giant ship, launched a final charge to the star destroyer where the devil Lord Luo Sui was.

“You are ready!”

In the Super League and its team members, the heart is trembling slightly because of excessive tension. However, the excellent performance of the earth fighter’s small and high speed played a decisive role at this moment.

Despite the fierce firepower of the Devil’s major battleships, it is somewhat inadequate to deal with the small space fighters with small cannons and mosquitoes. It may also hit the surrounding warships.

At this point, after paying a certain price, the earth ***** finally successfully escorted the men’s super team and its remaining squads to the tens of thousands of meters of the Sky Devil Extermination Starship.

“Set the detonation time and drop bombs immediately!”

The voices of the commands given by the male super players are shaking, but there is no doubt that they succeeded!

Although there are only more than 20 space fighters loaded with nuclear bombs, an average of 12 high-energy nuclear bombs are mounted on each fighter, and a total of more than 200 high-energy nuclear bombs. If they explode at the same time, it is enough to put a planet into a nuclear winter for decades. !

As long as these nuclear bombs are all fired at the star-extinguishing giant ship where the demon Lord Luo Sui is located, I believe that the chain reaction produced by the explosion is enough to destroy the entire Demon Fleet!

In addition, the reason why we chose to use the nuclear weapons of the earth’s world as our main attack weapon is because the main weapons of other civilizations are mainly energy storage launches. In addition, all forces have corresponding information and also have their own defensive

measures. But the earth civilization underestimated by the heavenly demons and the research and creation of nuclear weapons can make up for this.

Although the nuclear weapons in the earth's world now appear crude in the eyes of many civilizations, the efficiency of energy conversion is not high. However, under the premise of a large equivalent of nuclear bombs, it can produce extremely powerful destructive power. This point even the bright Father who is good at defense does not dare to resist after seeing the preliminary test.

At present, if more than two hundred nuclear bombs explode at the same time, the huge energy generated and the continuous impact damage of high temperature, high explosion, and high radiation are absolutely fatal.

“Run!”

After the order of the Super League, all space fighters carrying nuclear bombs immediately fired all the nuclear bombs, and then turned around and evacuated to the distance.

“Why, what's going on?”

“Aren't the humble warships of the humble race just fought? How did they all retreat?”

“Haha, they must be afraid!”

“It's time to make a contribution, let's chase!”

In the first war, the extraterrestrial demon did not understand the tactics of the earth world, so all their fighters continued to pursue and kill.

On this side, more than two hundred nuclear bombs were shot down a lot by the ship's anti-aircraft guns, but the remaining more than one hundred nuclear bombs successfully exploded in a few seconds.

The terrible mushroom cloud rises directly in the high altitude of the abyss world. Almost all the space can be violently roared into a loud noise that exceeds the hearing range of the human ear, instantly turning the whole world into silence.

The extraterrestrial giant monster destroyer and its affiliated fleet were instantly engulfed by mushroom clouds.

Immediately after this silent impact, the flames of the mountains and the tsunami swept away, sweeping away in all directions.

The fighter group on the side of the Devil, caught by surprise, was caught up by the shock wave instantly, and turned into nothingness in the blink of an eye.

The fighter groups of the Galaxy Anti-Union are racing against the shock wave, and the other coalition warships have stretched their shields in the first time to prepare for the shock fluctuations coming from afar.

“Boom!”

For a long time, the violent roar passed.

At this moment, the entire abyssal world became hot, a large dark sea below was evaporated, and a large number of species were unfortunately destroyed.

Both the weapons used in war and the war itself are always cruel and ruthless.

For a long time, this violent explosion finally subsided slowly.

The smoky smoke dissipated, the armor shattered, and the blood-stained male superhero hung in the center of the battlefield, panting heavily.

Just now, his fighter jet rushed out tens of thousands of meters in one breath, but was still caught up by the nuclear explosion shock wave. In order to carry more nuclear bombs, his fighter had already removed the escape equipment, but fortunately, he was wearing a defensive secondary artifact, and with his kryptonite's strong physique, this was only on the verge of nuclear explosion. Survived.

“Knot, is it over?”

The male superhero turned to look around. At this time, there was confusion everywhere, debris and wreckage everywhere. Fortunately, the Galaxy resistance coalition fleet successfully survived.

The various fleets of the resistance coalition are at a certain distance from the center of the explosion. In addition, at the moment of the explosion, multiple defensive shields were arranged to withstand the impact of nuclear explosions.

However, the impact of the nuclear explosion was indeed resisted, but many warships were washed up and down, and a large number of warships were damaged to varying degrees. Even several flagships were damaged due to system damage, and the entire warship was in a restart state. in.

“Companion, my companion ...”

The superhero suddenly realized that there were still many companions, and he was running away with him, and quickly searched around.

Fortunately, around the battleship, there was a little escape cabin, and finally let him breathe a sigh of relief.

Although a large number of fighter pilots sacrificed in this air battle, many of the companions who fled with him withdrew earlier than him, and most of them rushed to the edge of the explosion at the last minute. With the excellent escape equipment of the fighter, they successfully survived. .

“I, we won!”

The Super League looked around the surviving anti-united warship, and an indescribable sense of joy surged into his heart.

Even though the distance was still far away, he could even hear the cheers of surviving companions in the distance.

It should indeed be cheered, because this ***** battlefield is finally over!

“It seems that the cousin Shang and Wang Yan should go back to Manhattan and have a few drinks.”

The male super slightly raised the corner of his mouth, as if a beautiful and comfortable future is in the near future. Speaking of which, he should also propose to his girlfriend Louise.

Under this imagination, the male superman slowly drove out his force and began to fly in the direction of the Earth Fleet.

But at this moment, an extremely cold supernatural power shrouded him instantly.

At the same time, a cold and hoarse voice exploded in his ears.

“Oh, it turns out to be you, the tiny Kryptonian.”

...

The Domestic Hero - Chapter 1858

...

“what?”

The male superman shivered and hurriedly turned back.

The terrible scene that appeared in front of him was almost unbelievable, making him whole in the same place.

The aftermath of the explosion gradually dissipated, and a super-giant warship, like a steel continent, gradually revealed its magnificent and majestic hull from the smoke.

It is the star destroyer where the devil Lord Luo Sui is!

The nuclear explosion just now was indeed powerful, and even the powerful shield of the star-extinguishing ship was destroyed by a single blow. But just when the armor of the star-extinguishing ship was melted by the nuclear explosion, the demon Lord Luo Sui finally shot.

With his almost omnipotent magic power, he successfully blocked the power of nuclear explosions, and protected most of the surrounding fleets.

At this point, the nuclear power is huge, hurting the enemy one thousand and self-destructing 800, just destroying a group of shipborne fighters of the devil Luo Luo, and dozens of warships scattered at a distance.

Demon Lord Luo Sui's star-extinguishing main ship is just the front surface layer, which has been melted with a layer of armor. Nearly a thousand large and small warships behind it, in addition to consuming a lot of energy, the rest are still intact.

As the leader of this aggression army, the devil Lord Luo Shui still stands on the upper end of the star destroyer, and his head looks down at all the resistance coalition forces in the distance. The domineering power of the world is really desperate and daunting.

“No, impossible!”

“How can Luo Su be so powerful?”

“Why, how is it possible! How can even a nuclear explosion hurt him?”

In the Galaxy Anti-Union, everyone was shocked, especially the uncle Cao Jingluo, Director General of the National African Affairs Bureau Han Hongbo, Super Shield Secretary James, and Polar Bear Special Secretaries, all of them were shocked on the spot.

No one was more shocked than they were at the scene. The nuclear bomb was the earth world, the most powerful weapon of destructive force on the earth. Once detonated, almost all objects in the world could be destroyed.

But right now, not only did not hurt the devil Lord Luo Sui, even the army of heavenly demons under his protection did not destroy much.

Such a terrible power is simply unbelievable, and the gods overriding all life cannot be compared with it.

“This time it **** ...”

The bright Father looked dignified and frowned tightly.

He knew that the devil Luo Luo was much stronger than him, but he didn't expect it to be so strong!

At least one year ago, after personally witnessing a nuclear explosion test, he believed that the holy shield he had known as absolute defense was able to resist the power of more than ten nuclear bombs. After that he overdrawn the divine power, and the guardian of the Divine Skill Holy Shield will also collapse. At this time, if there are a few more nuclear bombs, his **** body and soul will be torn and destroyed under the huge equivalent of energy, and he will also fall completely.

But the demon Lord Luo Sui and his fleet faced the terrible destructive power of more than one hundred nuclear bombs exploding at the same time!

Demon Lord Luo Sui not only successfully resisted the impact, but also successfully protected the surrounding fleets. Based on this alone, he brightly sighed.

“Why, what should I do? I, what should we do? Demon, Lord Luo Sui could never be defeated!”

“Then, such powerful weapons ... all, can't hurt Luo Ai, I, we're done ...”

“Run, run? Me, let's run ...”

The terrifying power of the devil Lord Luo Sui profoundly affected every soldier who resisted the coalition forces.

Many thrilling and disturbing discussions began to spread rapidly among the various fleets. Some soldiers with lower strength and lack of courage have already appeared in the state of mind. The idea of escape and surrender continues to spread among the various fleets.

“Everyone is optimistic! This war is not over. If anyone dares to disturb the military like these soft eggs, this person will tear him up!”

Satan, the cruel and overbearing purgatory demon god, tore a shivering demigod-level general on the spot, torn it in half by hand, and then pulled out the other party’s soul and burned to death with **** fire.

Such a **** and horrible scene is being broadcast live in front of every soldier through the fleet’s internal network.

It was only then that, under the most cruel and immediate threat of death, resistance to riots within the coalition forces came to an end.

In the coalition of the earth, trembling, preparing to command Yan Zun, the commander of the coalition forces, and surrendering the leader of the Dongying Super Guard, Mitsui, was also seeing this terrible scene, and swallowed all the surrender speeches into his belly.

After all, surrender is probably a death. Even if one escapes to the side of Heavenly Devil, it is only a low-level slave, not a pig or a dog. This is very clear to every resistance army present.

But it is probably a death to resist in the end, but there is still a glimmer of hope in this ending.

As long as there is such a fluke, it will be enough to support the Resistance and persevere.

After the riots subsided, Satan, the purgatory demon, finally relieved, turned away the communication video, and privately contacted several other **** leaders: “You, the situation is not good for us now!”

“Many of our warships are in a state of paralysis and restart under the impact of nuclear explosions. It is difficult to defend the enemy in a short period of time. The most important thing is that this demon Lord Luo Sui is terrible. How do we destroy him is really a problem! “

Especially when it comes to the demon Lord Luo Sui, Satan, the purgatory demon god, has a dignified face, and does not see the prestige of the previous demon god.

However, no one can answer how to defend the enemy and how to solve the problem of the devil Lord Luo Sui.

The Father of Light, Satan the Fallen Demon, together with the two elven kings, and Yan Zun, the leader of the earth, etc., for a time, was a bit bleak and lost in thought.

It is extremely urgent right now, a large part of their own fleet is under the impact of a nuclear explosion, the system is paralyzed and is restarting.

If there is a war at this time, there is no doubt that the Galactic Resistance Allies will be devastated. The most important thing is that this demon Lord Luo Sui is unfathomable. So far, he has not even brought out his real strength. The several **** leaders on the scene did not even know **** him, let alone how to deal with it. He fought.

At this point in thought, Khan, a few spiritual leaders of the resistance coalition, came out.

Satan, the ***** of refining the demon, naturally couldn't withstand this pressure and turned to ask Wang Yan: "Mo Yan Wu'er, you have always been resourceful. Think about it quickly, what should we do next? Leave us time Not much. "

The shock wave generated by the nuclear bomb also has a certain impact on the system of the Demon Battleship. This is also the main reason why the Demon Battleship did not start attacking in the first place.

It is just that if there is no more preparation, once the war starts, the resistance coalition that has lost its advantage will surely usher in a disastrous defeat!

"There is no way ..."

Wang Yan shook his head slightly at the video, and in a word let all the ***** leaders on the scene fall to the bottom.

The establishment of their allied forces was entirely made by Wang Yan interspersed with it. Almost all forces were condensed together because of him.

Although Wang Yan believed that he was still junior and was not used to being a leader, he gave the command of the coalition forces to the father of the light, but the backbone of the coalition forces was actually his undoubtedly Wang Yan.

At this time, Wang Yan, who had been constantly planning, suddenly said that he had no way. This undoubtedly gave all the coalition leaders a cold pot of cold water and went straight into the bone marrow.

At the scene, there was a silence. If Wang Yan didn't know what to do, everyone at the scene really didn't know how to persevere.

"However, there is only one way to do this."

Wang Yan exhaled slowly and looked back at everyone, "I'll lead Cairo to see you win the war."

"what?"

"Hey, this won't work!"

Many ***** leaders at the scene were shocked.

The first half of Wang Yan's sentence undoubtedly gave them hope, but the second half of the sentence made them into a panic again.

"Xiao Yan, you can't go!"

Nan Lian, the goddess of ice, first leaped into the bridge of the main ship, and fell in front of Wang Yan. "The devil Lord Luo Sui is not an existence that we can overcome with our own abilities. You cannot take this risk!"

"Nan Lian is right."

The dark demon Wuya Ange, the same one flashed across the space, came to the bridge where Wang Yan was, “You are going to lead the demon Lord Luo Sui, I absolutely disagree!”

“Yes, this plan is too risky. Demon Lord Luo Sui can’t fight at all. Wang Yan, we can’t watch you take a risk. And, and ... we are a coalition army, we should work together. “

Lulu, the light virgin, and Catherina, the dark virgin, also arrived at the main ship bridge where Wang Yan was.

Although the Dark Lady Catherine did not speak, her expression was already full of concern.

“No, we can’t win this war if we don’t lead Luo Shou.

Wang Yan shook his head. Although there was seriousness in his eyes, it was more calm and even determined.

At this time, even many leaders such as Uncle Gun, Father of Light, and Satan, the Purgatory Demon God, all panicked and traversed to the bridge where Wang Yan was.

“Xiao Yan, you can’t be impulsive. As Lulu said, this plan is too risky. If you go to take Luo Sui alone, you might end up with ...” Father Guangming frowned slightly, and the last sentence could not be said.

If Wang Yan leads the demon Lord Luo Sui, then he must face the terrible devil with his own strength. Well, Wang Yan may not be able to come back in the end.

“Xiao Yan, indeed as you said, we will not be able to defeat his fleet without drawing Luo Ai.”

After thinking for a long time, Uncle Cao Jing Cao simply squeezed a calm smile in his worries, “So, let’s go for the teacher!”

“Strategy!”

The three ladies and girls who had just arrived suddenly gave a cry of exclamation, and tears immediately poured into their eyes.

On one side is the apprentice Wang Yan they treat as children, and on the other side is their husbands, no matter which side they sacrifice, they can’t give up or accept.

“Don’t talk about it.”

Uncle Pao waved to the three sisters and interrupted, “I have no children in my life, Xiao Yan is like my own child. In this life, I can have such a good apprentice as Xiao Yan, and I have no regrets in my life.”

Speaking of Uncle Gun, he sighed softly in his heart, and said that he was finally going to the realm of God. He had not had time to enjoy the joy of the world.

Forget it, since he is the son of the earth, the leader of the superpower of the earth, and the master of Wang Yan, he has the responsibility to face the demon Lord Luo Sui.

Even if he will pay the price of his life for this.

“Ji Jie, the ***** of the earth, this seat admits that you are very sturdy, but with your fragile human body, how long can you hold Luo Su?”

At this time Satan, the Purgatory Demon God grinned, and said coldly, “Let’s go from this seat. Our Undead Demon Body of the Purgatory Demon Clan has the most tenacious life factor in this universe, enough to delay you to defeat the Demon Fleet!”

“By that time, Jie Jie, even if the devil Lord Luo Sui returns, will return to the lack of skills!”

Satan, the devil, was cruel and chuckled, then turned to look at Wang Yan, “My son Moyan, this son can finally have your son heir to continue the blood, this life is enough. When this seat is gone, you are purgatory King of Demon Realm, our Purgatory Demon Clan will surely lead to unprecedented splendor under your leadership! “

Satan, the Purgatory Demon God, deserves to be a hegemon in the world of hell. Even at this juncture of despair, he can still face the demon Lord Luo Sui, face the death without any fear.

The atmosphere at the scene was very gloomy. Although Uncle Cannon and Satan God tried to show indifference and fearlessness as much as possible, the lingering depression and sadness still permeated in front of everyone.

Wang Yan turned to look at the crowd around him, his heart warmed slightly, and the whole person’s expression and mood calmed down.

These are his lover, elders, master, and father of blood.

But there is no doubt that they are willing to give everything for him, and even life.

So, what regret is there in his life?

Fighting to protect them, Wang Yan felt calm and calm, without regret.

“You guys, please listen to me.”

Wang Yan looked at the people calmly and said softly but steadily, “The goal of the devil Lord Luo Sui is me, and I am the heir of the fire master Zhu Rong. He will definitely do away with my troubles at all costs. So the devil master Luo Sui can only be led away by me, otherwise it won’t succeed if he is replaced by anyone. “

“Yes, but ...”

Nan Lian, An Ge, and the two saints all had red eyes at this moment.

They understand that Wang Yan is talking about this truth, and only Wang Yan can really attract the attention of the demon Lord Luo Sui.

The reason why the demon Lord Luo Sui launched this war directed at the earth was to eliminate Wang Yan, which had been eliminated.

It’s just that they couldn’t watch Wang Yan taking the risk. Once a little accident happened, their Wang Yan couldn’t come back!

“Fool, I just went to Cairo, not to seek death.”

Wang Yan looked at the four distressed fiancées in front of him, and his heart softened slightly, then opened his arms and put them all in his arms, softly, “I promise you, I will definitely come back.”

“Okay, we are waiting for you.”

The four women also stretched out their hands to hug Wang Yan and pressed their heads tightly to his chest, for fear that Wang Yan would disappear as soon as he released his hand.

However, time waited for no one, Wang Yan had to pat their beautiful backs lightly, and reluctantly let go.

“Xiao Yan, you can rest assured that after you leave, we will do our best to eliminate these heavenly demons!”

In the majestic eyes of the Father of Light, a strong killing intent instantly condensed. To this day, only by the end of the dead fight can Wang Yan be sacrificed.

“Xiao Yan, come back almost, don’t force yourself!”

“Yes, you must not fight hard with Luo Ai. You will come back when you feel exhausted. Then we will join hands with the father and son to deal with the old guy!”

“Xiao Yan, you must remember that there is a master behind you, a teacher ...”

“...”

Uncle Cannon, Uncle Cannon, Satan the Devil, and all others are expressing Wang Yan’s deepest concern to Wang Yan.

Wang Yan’s heart moved, and finally a thousand words, all turned into a solemn promise.

“I will definitely be back.”

...

At the time of brief discussions between Wang Yan and his companions, the male superhero in the middle of the battlefield was already shrouded in the murderous intention of the demon Lord Luo Sui.

The heart of the male superhero is beating violently. The murderous intention from the demon Lord Luo Sui, cold into the bone, makes almost every cell in his body tremble.

Under this horrible oppressive force that overrides almost everything, the Super League even feels like a fragile cub forced into desperation. Even movement and breathing have become extremely difficult.

“Oh, the tiny Kryptonite, is it you who led the fleet and tried to blow up the deity’s fleet?”

Before the words fell, the demon Lord Luo Sui raised his hand and pointed a destructive magic light full of the meaning of annihilation, and immediately shot towards the male super.

“A surviving Kryptonite who dares to try to fight his deity is really looking for death!”

At this moment, the demon Lord Luo Sui was very angry.

If it is not that his main ship’s shield is strong, his response is timely, if not he has just absorbed two divine personalities and is full of power. It is very likely that the nuclear explosion just made him a heavy loss, and it is very likely that this invasion will have to return.

And all this is thanks to this tiny Kryptonian! This made him angry and unbearable.

“Uh!”

The faint purple destruction magic light instantly shot at the male superhero, and the terrifying power caused ripples in the space traversed by the magic light.

Time suddenly stopped, the male super pupil dilated, and the severe crisis made his nerves tight to the extreme.

In his anxiety, he almost forcibly broke away from the pressure control of the demon Lord Luo Sui by virtue of the fighting instinct in his blood and barely twisted his body.

Only listening to the sound of “Poo”, the Destructive Magic Light instantly penetrated the left wrist of the Super League.

The indescribable pain caused the male superhero to growl and fall into the void.

However, things are far from over.

The powerful force of annihilation began to quickly follow the wound and quickly corroded the arm of the male superhero.

If it is not stopped in time, the life of the male superhero will be completely destroyed by this finger-sized wound!

“Um! Uh!”

In anxiety, the male super hero shouted and teared off his injured left arm with his right hand.

The left arm of the Super League was thrown into the air, and in the blink of an eye, it turned into a rotten fly ash.

This is the most terrifying annihilation force in the universe!

Everything under this kind of power will vanish into nothingness.

“Interestingly, it’s really a tenacious ant who can escape the blow of the deity.”

Demon Lord Luo Sui looked at the painfully struggling male superhero with great interest, and slowly raised his finger again, trying to give him a fatal blow.

The male superhero is desperate, and the matter is here, he is unable to resist.

Just then, a figure of Wei An who was covered in fire suddenly fell from the sky and fell in front of him.

It is the flame **** from the earth, Wang Yan.

The Domestic Hero - Chapter 1859

...

“It’s you, you are that Wang Yan.”

The demon Lord Luo Sui slowly squinted, and the corners of his mouth followed a cruel arc.

It is him, this kid must be rumored, Wang Yan, the heir of the fire lord Zhu Rong, no doubt!

The fire master Zhu Rong’s breath, he Luo Sui can not forget for life, now this Wang Yan, the flame breath is exactly the same as Zhu Rong, absolutely can not be wrong!

He was really happy to be able to force Wang Yan out so easily.

The last time he fell, it was precisely because of the fire master Zhurong who had mastered the true meaning of chaos!

The flame that carried the true meaning of chaos seemed to have a natural relationship with him Luo Luo, posing a great threat to him.

Now the Fire Lord has fallen, and Luo Luo has been reborn. Now his only concern is that this new fire God Wang Yan, which carries all the inheritance of the Fire Lord Zhu Rong.

As long as Wang Yan can be removed, he believes that in this universe, where the earth and the earth are big, he will not have any threats!

“Oh, the devil Lord Luo Sui really has supernatural powers. I didn’t think that even a small person like me can take care of you.”

Wang Yan sneered and sarcastically, and the superhero, who was not badly injured, was behind him, “Since this war is due to you and me, it is better for us to solve it.”

An awe-inspiring power rushed out, and the scene became quiet.

The male superhero stood up hard. He glanced deeply at Wang Yan’s back, knowing that he would only hinder Wang Yan’s hands and feet, so he solemnly asked: “Be careful, this devil is powerful!”

Wang Yan responded with a nod, the male superhero turned and flew towards the camp.

Once upon a time, the male superhero was the superpower of the earth. He was a great figure who compared Cao Jingluo with his shoulders, and was looked up by countless younger generations. Now, as his former junior, Wang Yan has stood in front of him.

Looking up at Wang Yan's back, the male super hero understood that now not only his personal safety, but the future of the earth and this universe fell on Wang Yan's shoulders.

Demon Lord Luo Sui turned his eyes slightly, watching the male superhero leave quickly, and didn't mean to block.

A Kryptonian couldn't even talk about threats in his eyes.

Afterwards, the devil Luo Luo turned his gaze back to Wang Yan and lost his smile, saying: "Ignorant junior, do you want to win against this deity? Ha ha, really a joke! You and all the lives that dare to resist this deity will be destroyed by the deity! What capital do you have to talk to the deity?"

"That's it!"

Wang Yan's eyes were cold, and his fighting intentions suddenly appeared.

The thick pure yang real fire began to rise suddenly on his body surface, and the more it burned, the more it was like a dazzling star. In a blink of an eye, the devil qi that suppressed Xiao killing around was swept away.

At the same time, the endless flame, like a surging tide, was constantly used around him. Layers of flames began to be produced in large volumes in the void, and the overbearing great shore divine power was like a torrent of tsunami, rushing into the hearts of every demon and its slaves.

"Fire King!"

The demon Lord Luo Sui's eyes slowly tightened, and it seemed that he remembered the moment when he opposed the fire leader Zhu Rong, and hated him to grind his teeth in the dark.

The so-called flame monarch is a powerful field that the fire master Zhu Rong expands with his own aura!

In this field, all flame elements between heaven and earth will gather here, respecting the fire lord as king, and let the fire lord drive at will.

Now, the field of flames that Wang Yan has expanded is not only ten thousand hectares? Just like the sky, cover most of the void. The terrifying power emanating from this seemed to ruin the world, and almost every soldier on the opposite side of the Devil and Slave Corps widened his eyes, and his eyes were full of fear.

If the demon Lord Luo Sui brought them extreme indifference and fear, then the flame **** Wang Yan in front of them made them feel really hot and magnificent.

Even if it is just the endless sea of fire that almost fills up the entire void, it is enough to make any proud and arrogant warrior afraid, and the atmosphere will not dare to take a breath.

"Oh, good, good, the deity appreciates your courage."

The demon Lord Luo Sui embraced with both hands and slowly rose from the star destroyer. "Since you take the initiative to find death, the deity will give you a chance."

So far, everything is very clear. This kid confirmed that he is the successor of Zhu Rong.

Although the current strength of this kid is still far from reaching the realm of the fire master Zhurong, it is not much worse. If this kid is not removed now, once he is allowed to grow up, the troubles will be boundless!

The best way now is to kill and destroy it by hand!

The vast divine power emanating from the demon Lord Luo Sui almost crushed this space, and the intense killing intention began to pervade all around. Everyone held his breath subconsciously at this moment.

Wang Yan's relatives and friends are already filled with worry and concern, and can't even bear to look up.

Only Wang Yan himself was still in the same round as the sun, hung upright in the center of the battlefield, unyielding and imposing.

As a wave of overwhelming coercion struck head-on, the indestructible demon finally came to Wang Yan.

The sharp atmosphere at the scene reached the ultimate instantaneously.

"Huh, there are too many people here, it's a hindrance. If you want to fight, let me go elsewhere!"

Wang Yan glanced at the demon Lord Luo Su and flew out into space in a flash.

"Crazy kid!" Demon Lord Luo Sui's eyes were full of anger.

Dare to be so disrespectful to him, this kid is the first.

However, this kid will not be rampant for a long time, no matter what trick this kid wants to play, he will completely destroy it with his own hands!

Soon, the demon Lord Luo Sui rolled up a magic mist and chased towards Wang Yan.

The strength of both of them is unfathomable, and in a blink of an eye, they disappear into the boundless void.

...

Looking at the back of Wang Yan's departure, Huangfu Nanlian, Wuya Ange, Lulu and Catherine and other women were filled with dismay and worry.

But with Wang Yan's figure, completely disappeared into the depths of the void, all the complex emotions in the eyes of the women turned into a firm trust.

"Wang Yan, will be back!"

The women were so convinced in their hearts that they turned their eyes to the bright Father God of the leader of the Galactic Alliance, Cao Jingluo, the **** of the earth, Satan, the **** of purgatory in the world of hell, and Samel, the devil.

The four of them are the backbone of this anti-Unification Army. Wang Yan is away, and the people who can preside over the overall situation and lead the battle are the veteran leaders of these major forces.

“Yes, my child Moyan will be back. Before that, we will wipe out these extraterrestrial demons!”

Satan, the fierce and fierce purgatory demon, first showed a fierce look.

“According to the plan we previously discussed with Xiao Yan, our coalition army is still under the command of Senior Bright God.”

Yan Zun Cao Jinglue is also serious and self-righteous, “I believe that Xiao Yan will be able to return safely, so we must eliminate the devil in the shortest time, so as to give Xiao Yan the greatest help when he returns.”

“Well, this seat temporarily follows the dispatch of the **** of light.”

The fallen demon Samel glanced contemptuously at the bright Father, and then his eyes showed a fierce, “Destroy their living power as much as possible, this seat will personally let them feel the fear of death!”

The other girls looked at each other, then nodded, and looked seriously and solemnly at the bright Father: “It’s not too late, please order!”

“it is good!”

Bright Father God’s brows were slightly frowned, and the solemn and aura of gas spread out instantly, “For Wang Yan, the whole army is ready!”

...

“Ah! Boss, why don’t you take the **** with you! Ay!”

Just as several veteran leaders laid out their tactics, the three-legged Jinwu in the cabin, facing the void, let out a screaming cry.

Its previous owner was killed by the terrible Luo Shu. At that time, it could only helplessly watch all this.

Now it is finally reborn, and regained its former divine strength, but the current owner Wang Yan, but he is not allowed to follow the auxiliary.

This made it anxious and anxious.

Not only it, the ancient Yanmo who bowed his head in silence, the succubus succubus who was uneasy and worried, under the command of Wang Yan’s fleet, his head shrunk, and the hairy crab vomiting bubbles was full of worries about the safety of owner Wang Yan.

At this time, Wang Yan 's other maid, Bliss Devil Ji Cui Lisi sighed slightly: "The battle between the Lord and the Devil Lord is far from our level, and we can intervene. We will only add chaos when we follow. , Maybe it will drag on the hind legs of the Lord. "

"Today's plan is to resolutely implement the plan laid before the Lord's departure, and defeat this Sky Demon main fleet in the shortest time!"

Bliss Maggie Trey, although the words are a bit shocking, but it is true.

Wang Yan's strength is far superior to the ordinary gods, and the demon Lord Luo Sui is a terrible existence that overrides the gods. The battle between the two is far from being able to be intervened by others.

If they, who are servants, keep up, they may even drag Wang Yan at the moment of crisis.

Therefore, for today's plan, only to do what they can, and then prepare for it, waiting for Wang Yan to return.

"Ah! Although you make the God very uncomfortable, but you are right!"

The three-legged Jinwu was helpless, and some gritted his teeth, "Praise this main fleet, quack! It's the best support for the boss! Quack!"

"Ah! Little ones, prepare for the god! For the boss, destroy the devil! Aah!"

"Oh!"

"For His Majesty the Vulcan! For our homeland!"

"Destroy the Devil! Ao!"

The three-legged Jinwu responded with one hundred, the entire battleship, and even the entire anti-joint fleet, all the soldiers were excited at this moment, and one by one was preparing for the upcoming general attack.

"Indescribable fate, please listen to me ..."

In a quiet corner, as the heir to the **** of fate, Belika, the Mayan priest high priest, was kneeling in front of the window, holding the wheel of destiny, raising her eyes towards the boundless universe void, and praying the most pious.

She also previously wanted to use the mysterious and unpredictable fate technique to deal with the demon Lord Luo Ai.

But she just tried to observe the fate of the demon Lord Luo Su, and she spit out blood because of the anti-bite.

There is no way, the strength of the devil Luo Luo is too strong, so strong that the wheel of fate cannot bind it. Even the **** of destiny, which was a powerful **** realm, could not directly cast a spell on the demon Lord Luo Sui, not to mention that she is currently only a half-god peak.

In desperation, High Priest Berika can only pray to fate with the most pious heart, hoping that Wang Yan can gain strength from the expectations of so many people, and hope that Wang Yan can return safely.

Silence spread on the battlefield.

I do not know how long the past, the Galaxy Anti-Union and the Demon Fleet, at the same time, bravely violently.

Battleships, warplanes, gods, and tens of millions of heroic soldiers on both sides, all at this moment, launched the most fierce and tragic attacks on each other.

...

“Oh, boy, do you think that the deity will be led away, and those of you who will win the deity’s fleet?”

Deep in outer space, Luo Su, who was chasing behind Wang Yan all the way, couldn’t help but laugh at this moment, “The ants are ants after all, in front of the army of the deity, but they are dying and struggling. And you, too!”

At this time, Wang Yan and the demon Luo Luo had been flying in the universe at high speed for a long time. The abyssal world had already turned into a small spot behind them, and finally disappeared completely.

Silent and silent all around, there is a deep darkness everywhere, only a little star light, scattered scattered in the distance.

“It seems that this is a good place for a decisive battle.”

Wang Yan was secret, he believed that his companions would never let him down.

Now, it is the moment when he inherits the will of the Lord of Fire and ends all his long-cherished wishes!

“Oh, you are really powerful, but if we can win, how do we know if we don’t try?”

Wang Yan learned the tone of the demon Lord Luo Sui and sneered.

But in a flash.

In high-speed flight, he looked back suddenly, raised the hot fiery childlike hammer in his hand, and smashed into the face of the demon Luo Luo behind, trying to kill Luo Sui by surprise.

“Trick and worm skills.”

Demon Lord Luo Sui showed a daunting color in his eyes, then stretched his palm forward, and a layer of translucent lilac light curtain quickly bloomed in front of him.

Just listen to the loud noise of “Bang”!

Wang Yan's swift blow, which was enough to explode the Nether Mothership, hit the light curtain incomparably heavy, and the violent force turned into a fierce fire, like a solar flare, exploding in a blowout.

However, the thin light curtain in front of the demon Lord Luo Sui actually didn't move, and even no trace of ripples appeared.

On the contrary, in order to hit the demon Lord Luo Sui in a raid, Wang Yan almost exerted all his strength.

But if this warhammer went down, he seemed to hit the steel plate with a punch. The violent anti-shock force made his five internal organs tumbling, and his arm bones were about to shatter. Even the childish weapon spirit in the Warhammer was under the strong anti-shock, and he was almost unconscious on the spot.

“puff!”

Wang Yan spouted a sip of blood on the spot, and the whole person flew out under the anti-shock force.

“What the **** is this? How can I fully rebound my strength?”

At this time, Wang Yan cursed inwardly, feeling that this time he really met a ghost. He knew that the demon Lord Luo Sui was very strong, but he didn't expect that it would become such a situation!

This is a combination of offensive and defensive, omnipotent?

“Ji Jie, kid, all your tricks are not worth mentioning in the face of the absolute power of this deity.”

Demon Lord Luo Suo hung in the void, and gathered together with one hand a group of horrible magical energy that seemed to be earth-shaking.

But when he wanted to kill Wang Yan, he found that Wang Yan, who had just been bombed, had disappeared.

“Boy, don't you want to win against this deity? Where are you going now?”

The demon Lord Luo Su suddenly angered, but the next answer of Wang Yan in the distance, even made him almost angered without spitting out an old blood.

“Are you stupid, I won't kill you?”

Wang Yan gave Demon Lord Luo Sui a white eye in the distance, and then fled non-stop to the depths of the universe.

The demon Lord Luo Sui was left behind him, his anger was exposed, and he scolded the bullshit.

...

The Domestic Hero - Chapter 1860

...

“Boy, you can’t escape my palm!”

The demon Lord Luo Sui’s teeth tickled, and he immediately rose to catch up, and even swear in his heart. This kid is really slippery. Where is the slightest shadow of the former fire master Zhurong?

Just now it was clear that this kid wanted to decide his victory and defeat, and his dazzling demon lord could promise, it was already a great favor to this kid.

But it’s good now, this ***** kid hit and ran, and actually dare to call him stupid? This is simply the biggest insult to Luo Luo!

Now if he doesn’t catch up with this kid and kill him completely, he can’t swallow this breath.

However, is Wang Yan so easy to catch?

The movement and binding in the universe is extremely small, so once Wang Yan is fully deployed, it is much faster than the fastest fighters in the starship.

Coupled with Wang Yan’s divine power and his deep understanding of the laws of space, he uses space cracks and space folding to move at high speed, which is generally easy to spread in his own garden.

At this moment, he saw his thoughts, and immediately, like a fish, he suddenly drilled into a space crack, and when it appeared again, it was already millions of miles away.

“Luo Ai, don’t say too much, if you really have that ability, catch up with me and talk!”

Wang Yan deliberately ridiculed and immediately escaped into the distance again.

“Fuck, shit! Boy, do you think that with your ridiculous ability, you can escape the lock of the deity?”

Luo Sui, the demon master who chased behind Wang Yan, gritted his teeth. How can he bear being despised by a junior as a divine demon lord?

In the same way, he quickly penetrated into a space crack, and when it appeared again, he had chased behind Wang Yan.

In the universe, the use of space gaps and space folding to achieve high-speed movement is a capability that almost all top-level gods have.

Demon Lord Luo Sui is far more powerful than the general Divine Realm, but the realm of strength, or power reserve, is higher than Wang Yan. Once fully exerted, his speed is no worse than Wang Yan.

The only difference is that Wang Yan ’s understanding of the laws of space not only has his own unique understanding, but also inherits all the experience and skills of the fire master Zhurong.

So much so in terms of flexibility, Wang Yan is even better.

In addition, the devil Lord Luo Sui itself is not a strong man known for speed and tracking, so it is as strong as the devil Lord Luo Sui, and is almost the same as Wang Yan in speed. It's not that easy at half past one.

So one chase after another, time just keeps elapsed in the chase.

“Haha, the lord of the heavenly demons, but is that the case?”

“You have the ability to catch up!”

“Why? Will Luo Sui, the Lord of Devil, only insult me, my junior?”

Wang Yan really can't confront the demon Lord Luo Sui, but he is constantly stimulating with words, turning his mouth and guns in a trick, which is also his usual tactic. After at least disturbing the other's mind, his opportunities gradually appeared.

“Boy! You are waiting for the deity, the deity vows to smash you to death!”

The demon Lord Luo Shue chased behind Wang Yan closely, but he was scolded and cursed, but he couldn't beat it. He could only vomit blood all the way and tremble.

Especially when he looked at Wang Yan's speeding ahead, it made him angry and hateful.

At this point, he just wanted to put this Wang Yan to death, and he could not stop, he could only chase it all the way down, otherwise once stopped, Wang Yan would have to slip away, when the universe was boundless, where did he go? Looking for descendants of this fire owner?

As for his main fleet of Heavenly Demon, he has long been left behind. From his point of view, the last thing he should worry about is his army of demon.

He is confident that with his main force of Heavenly Demon, he can completely defeat the Galaxy and defeat all forces. And he only needs to completely wipe out this Wang Yan, then in this universe, there will be no more people or forces that can threaten him.

For Wang Yan, the galactic resistance of the earth, hell, and the Kingdom of Light, together, can only be temporarily left behind by him.

He believes that his companions will be able to defeat the main force of Demon. And now that the matter is over, he also has no way to stop, and can only go forward at high speed in one go.

Otherwise, the speed will slow down, once he is caught up by the demon Lord Luo Sui, he may be difficult to fly.

However, high-speed flight in the universe, and the opening of small space tunnels, the use of space folding and space crevices to accelerate themselves, consume a lot of energy.

Wang Yan was once exhausted by the power of the demon Lord Luo Sui. Under unfavorable circumstances, Wang Yan often chose a star and plunged into the star.

With the surging flame energy inside the star, he supplemented his strength.

It is just this process, which is often destroyed by the devil Lord Luo Sui halfway through.

Demon Lord Luo Sui will use his supreme magic skills to forcibly smash the entire star. Wang Yan had to flee again, and the stupid power after the star exploded would be completely absorbed by the infinite amount of magic power of the demon Lord Luo Sui, becoming his power supplement.

Under such circumstances, chasing and fleeing has become a very intense tug of war.

Time has always been relatively speaking, and for these two top powerhouses who have overtaken everything, time has long been a negligible thing.

So, in this constant flight and constant chase, the thousand years of time passed.

Although a long millennium has passed, time has little effect on Wang Yan and the demon Lord Luo Sui, and even the two of them have no real sense of how long time has passed due to their dedicated pursuit.

But even after spending thousands of years, Wang Yan still failed to get rid of the demon Luo Suo behind him.

Demon Lord Luo Sui was not discouraged either. He was completely stunned by Wang Yan's mouth gun. In addition, Wang Yan is also a big trouble for his heart and soul, it must be removed.

So he hunted down all the way to this point, and naturally he couldn't give up halfway.

Right now the chase continues, and the fierce situation has intensified once.

"It seems that we can only rely on it."

During the high-speed movement, Wang Yan sighed helplessly, and then took out a simple flying sword full of Chinese charm of the earth.

After many sacrifices, this flying sword can now shrink freely. At this time, it is only three inches in size suspended in the palm of Wang Yan. And on the sword of this flying sword, the word Chunyang is clearly inscribed.

There is no doubt that this dexterous flying sword is exactly the relic of Lu Zu from the pure Yang line.

Chun Yang Lv Zu was a legendary figure in ancient China who relied on his own strength to follow in the footsteps of the fire leader Zhu Rong.

At that time, he took a step before Wang Yan, and found the remaining will of Zhu Rong, the fire lord, but he lacked the chance to bear the weight of fate. So under the guidance of the fire Lord Zhu Rong's will, he took a step forward to explore the origin of the mysterious universe.

Before leaving, Lu Zu left his saber as a posterity, that is, Wang Yan's road sign.

Now the flying sword is floating lightly in Wang Yan's palm, the blade is shining brightly, and after being taken out by Wang Yan, he swings left and right flexibly, and then points directly in one direction.

There is the direction of Lvzu Chunyang.

From the current point of view, as long as the location of Lu Zu is found, nature can find the origin of the universe.

And as Wang Yan continues to fly in that direction, this flying sword will also tremble slightly, as if resonating with Lu Zu in the distance.

Obviously, Wang Yan is getting closer and closer to this goal.

“You can rely on this trick!”

Wang Yan silently calculated in his heart that the information left by the fire leader Zhu Rong showed that the origin of the universe is very dangerous, but it is also full of endless power of chaos.

Therefore, it is also called the sea of chaos. In the depth of the sea of chaos, it is the origin of the universe, and the origin of all the forces of chaos, that is, the location of the heart of the universe.

Wang Yan and other powerful people above the realm understand that the universe came into being in the initial chaos explosion. The force of chaos that explodes outwards has evolved into everything in the universe today, with many different elements of power.

The central point of this explosion is now the destination Wang Yan is going to.

Because it is extremely dangerous here, it is a good place to get rid of the demon Lord Luo Sui. And Chun Yang Lu Zu arrived at this place long before Wang Yan.

Perhaps in thousands of years, Lv Zu has already been promoted to a ***** here, gaining infinite divine power.

If Lu Zu can help, Wang Yan believes that by the joint work of the two of them, he may be able to have a battle with the devil Luo Luo.

Of course, all this is Wang Yan's hope.

Wang Yan can't say whether he can succeed, but as long as there is a glimmer of hope, he will always try hard.

What's more, Wang Yan has also been chased after nothing. This is the last move he can use.

...

So another thousand years have passed.

The sun and moon flew like a shuttle, and almost rushed to the exhausted Wang Yan. Without knowing how many galaxies flew through, how many space tunnels, and finally through a crack in space, he reached the edge of a cyclone full of chaotic spirit.

Cyclone is not enough to describe its vastness.

To be precise, here is a nebula, completely a nebula cyclone composed of chaotic aura!

Its vast expanse, in the depths of this vast universe, is almost endless, and even top gods such as Wang Yan and the devil Luo Sui cannot detect.

Its edges are gray and foggy, with a thick chaotic aura, like waves and tides, according to a constant law, rotating and surging, waves are magnificent.

Further down, the Chaos Aura seems to be mixed with many different elements, and the Nebula Cyclone has begun to show many gorgeous and brilliant lusters.

“What a rich chaotic aura, this, here is ...”

“Fuck, sea of chaos ?!”

One after another, Wang Yan and the demon Lord Luo Sui were shocked on the spot, and all the emotions were surging.

Such a majestic chaotic cyclone is stronger than they only met for the first time.

Even if it is a supreme deity on weekdays, it can condense a trace of chaotic spirit, which is also a great harvest.

But at the moment, the bewildering chaotic spirit is like the endless Wang Yang.

Do not! The chaotic aura here is wider than Wang Yang and bigger than the galaxy. Looking at the whole chaotic cyclone, the infinite, rich chaotic aura seems to be inexhaustible!

If you can survive in this chaotic cyclone for a long time, and absorb some chaotic auras randomly every day, even if you take time, I am afraid that even a pig can be promoted to a god?

Not to mention, if all this vast and endless chaotic cyclone is occupied, would n't even the universe be creeping under his feet?

“Ha ha ha! Ha ha ha! Found it! Finally let the deity find it!”

Behind Wang Yan, the demon Lord Luo Sui could n't bear the excitement in his heart, and he smiled with his head up, “Thinking that the Fire Lord Zhu Rong, the damn, would not say the location of the heart of the universe until he died. Struck by mistake and broke into the origin of this universe! “

“Jin Jie, the heart of the universe is hidden in the center of this place of origin. As long as the deity accepts the heart of the universe, the deity will become the real master of the entire universe, and even the ultimate universe reincarnation must follow the will of the deity!”

Demon Lord Luo Sui's eyes are full of enthusiasm, as if he has harvested the heart of the universe and become a true supreme master.

“From, the place of origin? The universe reincarnation?”

Wang Yan was a little unclear, so he was amazed.

Although he did hear about the origin of the universe before, when he was able to witness it with his own eyes, he really realized how magnificent it was.

It was also because I arrived here in person that I began to realize that the universe reincarnation said that perhaps it really exists.

“Ji Jie, boy, everything in the world has a final, the universe will have a reincarnation!”

The demon Lord Luo Sui raised his mouth and smiled secretly, “The universe originated from the explosion of chaos. When the power of chaos that has spread out has expanded to the extreme, everything will collapse again and return to the origin of chaos. This origin is Heart of the universe!”

“The heart of the universe is connected to the law of operation of the entire universe. When the power of chaos carried by the heart of the universe is compressed to the extreme, a new round of explosion will occur, and the new universe will be born from it, and everything in the old universe will be This annihilation. “

“So, it is a reincarnation!”

Demon Lord Luo Ai said, the more intense his eyes became, “Everything has its laws of operation, positive and negative, dynamic and static, life and death ... Even the universe itself operates in accordance with this law. But when the deity obtains After the heart of the universe, everything will change! The deity will transcend the reincarnation of heaven and earth and become the master of the entire universe! By that time, the deity will be the only consciousness of this universe! Everything will be controlled by the deity, even the final reincarnation will also Submit to the deity!”

“This ***** old monster is so ambitious that even the consciousness of the universe wants to control it.”

The more Wang Yan listened, the more terrified he was, and secretly going on like this, if he didn't succeed, he would really have to be a benevolent.

If, as the devil Lord Luo Sui said, the heart of the universe is connected to the law of operation of the entire universe, wouldn't it be that whoever controls the heart of the universe, who can control the heavenly path of this world?

Even in the end, beyond the heavenly path, beyond the final reincarnation, to achieve true all-round immortality?

If it was really that moment, the devil Lord Luo Sui really took control of the heart of the universe, would n't he turn his hands over the clouds and rain, and no one could compete with him?

At this point of thinking, Wang Yan's heart began to beat quickly.

He began to realize that now is the moment of real crisis. If he can't stop the demon Lord Luo Sui here, then not only the destruction of their Milky Way galaxy, the entire universe will usher in an end!
