

D. Hero 31

The Domestic Hero - Chapter 31

...

“Quick fist!” Scud said with a stagnation in his eyes.

“Smelly smell.” Wuya Ange sneered and said mockingly, “Wang Yan, you have metabolites all over your body. How many cells have died this time? Go and take a shower, then let your sister check you well body of.”

He was laughing at his mouth, but he was very shocked. She is no stranger to the essence of Neidan. But she has never seen a person who can use such an inner essence to reach such a reborn person.

Wang Yan also smelled the smell, and his body was covered with a layer of greasy and black dirt. This is not the kind of toxins excreted in the body in fact. In fact, the cells are strengthened and replaced in a large amount in a short time, and the body performs a large amount of metabolism in a short time.

This is not the first time Wang Yan has experienced such a thing. But this time, it came so violently. His whole body felt as if he had been completely reborn and full of spirit.

After a laugh, he ran to the bathroom to wash and brush it. After washing, it was inevitable that I admired myself in the mirror again. The figure is tall and well-proportioned, with sharp muscles and smooth lines. Shoulder width and narrow waist, clear abdominal muscles. With a little pressure on the whole body, the muscles swell up and the texture is polished like marble, perfect.

And because of the body's evolution to perfection again and again, some messy small acne, melanin deposits, small scars disappeared without a trace.

The skin is very healthy, smooth and full of moisture and elasticity.

“This is to make Brother evolve towards Xiaobai’s face.” Wang Yan muttered on his mouth, but he was complacent in his heart. Holding his chin and saying with emotion, “If this image is early, is there any other way to live in the university?”

In just over ten days, Wang Yan has transformed from an ordinary young man into a male god. At the same time, he felt an unreal dream.

Fortunately, the face shape is not much different from the original one. After careful identification, my parents can still recognize themselves. It’s just that the corners are more distinct and the skin quality is many times better. What acne pimples, freckles and little black spots, no bird.

This makes those star male gods who have spent countless money on their faces feel sorry for?

Clean, sunny and handsome.

After Wang Yan summed up to himself, he went out after changing to clean sportswear.

...

“Bang!” A loud noise!

Wang Yan punched the sandbag again, and this time the giant sandbag rocked back and forth directly. At the place where it was struck, the fist marks were recessed.

“728 kilograms!” Bursting bear eyes burst into amazement, “you can blow ordinary people’s skull with this punch.”

Another whip leg was pulled out, the air sizzled, and the sandbag was drawn more than thirty centimeters to the left. Terrible, you know this giant sandbag weighs more than two tons

“931 kilograms!” Although he had been mentally prepared for a long time, the explosive bear still threw his fists and said excitedly, “If you work harder, your strike force will break through 1,000 kilograms. “

Wang Yan also felt the hands and feet of his body and began to evolve towards the killing machine. One punch and one foot are full of terrible power. Especially that whip leg is estimated to be able to pull people flying out.

After testing the hitting power, Wang Yan tested his 100-meter speed again.

Running down in a breath, the female voice in the treadmill rang: “Congratulations, Your Excellency Wang Yan, your speed of 100 meters is 5.48 seconds, the fastest speed is 23.68 meters. It refreshes your previous 100 meters Results, 6.53 seconds. “

“I!” Scud glanced at him enviously and jealously, “Fuck!”

Wang Yan’s speed of 100 meters has already overcome the Scud. This gave him the nickname of “Scoot”.

Then, another round of tennis bombardment contest began.

The speed is also 200 kilometers per hour, and it is also a four-person bombardment. But for half an hour, Wang Yan was accidentally hit three times only a few minutes ago, followed by the evasion of clouds and water.

...

After half an hour.

In the office of the branch director.

An old man in a loose kung fu suit, carrying a purple clay pot, said enthusiastically: “Xiao Wang, sit, don’t be restrained.”

Wang Yan was sitting on the sofa, and still said nervously: “Director Feng, are you looking for me?”

“Young man, don’t be nervous, let’s just talk casually.” Director Feng made a tea pot for him personally with a smile. “I have listened to Xiao Wu’s report in your situation. Highly recommended. “

“Thank you Director Feng for your appreciation.” Wang Yan drank some tea before he settled down. The biggest official I have seen before is the director of a street office. The one in front of him is said to be a cadre at the official level. It seems that his hometown and the secretary of the provincial party committee are at the same level ...

This is the great God of Zhenger.

“It’s still too restrictive. Although we are a national unit. But because of its special nature, we are like a family in the bureau.” Feng Yuande smiled very kindly. “Many little guys like to call me grandpa, your name is I am old Feng. “

After the two chatted for a while, Wang Yan relaxed a lot. I have always been an innocent person, and my parents are also part-time workers, so there is nothing to be afraid of.

In a little while, Feng Yuande said with a smile: “Xiao Wang, I heard that your parents are all employees of state-owned enterprises. I should really be able to train excellent children like you. I should really thank them.”

“Lao Feng, actually I am just an ordinary person, just luck awakened.” Wang Yan scratched his head and said, “If it wasn’t that accident, I’m still pushing three rounds to give kits to major pharmacies. “

“Awakening is of course luck, but I value your simple nature.” Feng Yuande said with a smile of satisfaction. “This is inseparable from your parents’ training of you, and your precepts and precepts are inseparable. I will come back to visit the elders in person ,Express thankfulness.”

“Ah !?” Wang Yan said a bit stunned, “Old Feng, you will freak them out like this.”

“Haha, then don’t go. But in your hometown, I also have some friends.” Feng Yuande smiled, “I will ask someone to help your parents with a more leisurely job. The two of them worked hard for the country. Many contributions should also be enjoyed. “

Wang Yan said with some excitement: “Thank you Mr. Feng, I really don’t know how to thank you.”

“Without your gratitude, you can do your job with peace of mind, even if it is the biggest reward for me.” Feng Yuande took out the key with a smile, “From today, you will be officially corrected. Based on your excellence I will give you a bonus on behalf of the bureau’s training performance, and I will hit your salary card in the future. In addition, this is the personal housing assigned to you according to the contract. Of course, the house will be transferred to your name. But you are not allowed to sell for ten years. “

bonus! housing!

The bonus is not mentioned for now. But the house touched the soft part of Wang Yan’s heart all at once.

Holding the heavy key in his hand, Wang Yan’s thoughts were a little disordered. The house, just for the house, broke up with his ex-girlfriend. I originally thought that I had to work hard not to know how many years before I could own my own house.

But I didn’t expect it to happen so soon. It feels like a dream.

“Young man, what are you still doing?” Feng Yuande seemed to know something, and patted his shoulder gently, said, “I’m off work soon, go to see your new home.”

...

The Domestic Hero - Chapter 32

...

From the single dorm, Wang Yan changed into a clean T-shirt and shorts. With an inch of hair, the whole person looked very refreshing and clean, and then went out after carrying a bag.

The address of the new house already exists in the mobile phone, and through navigation, the transportation route is identified.

Facing the fiery sun in the evening, Wang Yan trot all the way in his private park and spent 15 minutes at the subway station. With his current physical fitness and strong physical qualities, even a drop of sweat did not appear.

After taking the subway, Wang Yan realized that he was really different from before. The tall figure, Bai Jing's handsome and masculine face, and the clear, sunny breath attracted a lot of attention along the way. From the little girl of 5 or 6 years old to the aunt of 40 or 50 years old, his eyes will stay on him for a while.

"Uncle is so handsome." Especially the lovely little girl with two pigtails stumbled over, head straight up, and blinked her eyes to ask Wang Yan for intimate contact, "Warm and warm hold."

"Nuan Nuan, this is too rude." A white and tender young woman, twenty-seven or eighty years old, blushed and pulled a daughter. But her eyes were secretly glanced at Wang Yan.

Wang Yan was keenly aware of this scene, and when he looked down, he could not help embarrassing slightly, and his face was hot. This T-shirt was bought before, and it is quite loose to wear, but the skeleton is now several times larger. So this T-shirt is tightly worn on the body, which also reveals the lines of the figure.

Although this is done, it is indeed quite lethal to young women, but it is inevitable that some people are suspected of selling meat.

Wang Yan smiled awkwardly and squatted down and said softly to the little girl, "Little sister, what is your name? Nuan Nuan? The name is so nice. How old are you now?"

"Five and a half years old, uncle, Nuan Nuan wants to hug." This lovely little girl named Nuan Nuan has round eyes and clear black and white.

Wang Yan looked up and asked the young woman's opinion with her eyes, after getting her consent. He picked up the little girl and said with a smile: "Nuan Nuan, you are so cute. When you grow up, you must be a pretty girl."

"Uncle is also very handsome, and his body smells good." Nuan Nuan was very happy and turned back to the young Bai Nen woman. "Mom, let's ask Uncle to come home as a guest."

"This, warm. Uncle is an adult, he must be busy with work." The young woman blushed and glanced at Wang Yan secretly.

Wang Yan sweated, this man looks too handsome, has strong affinity, and has many problems. Listening to the young woman's reaction, I really wanted to invite myself back to be a guest.

She is not afraid to lead wolves into the room or the like. Wang Yan had no choice but to ignore her temptations and chatted a few times. After Liuzhan Road, Wang Yan arrived. When he just wanted to say goodbye, he found that the young woman had also got out of the car.

Look at each other.

“This, my house is nearby.” The young woman’s cheeks were flushed, “Xianghu Community.”

“It’s so coincident?” Wang Yan smiled and touched his nose. “My future home is also in the community, and I’m going to see it.”

“Ah? What a coincidence.” Young Bai Nen’s eyes brightened and hesitated and said, “Then let’s go together.”

“Wow, I haven’t been there yet. It’s just a trouble for you to lead the way.” Wang Yan smiled and said, “Let me warm up, it’s too hot, I’m afraid to heat this pink and tender little princess . “

In this way, Wang Yan went out of the subway station with Nuan Nuan all the way. Without air conditioning, a heat wave rushed outside. The sun sets late in summer, and the sun at five in the evening is still very poisonous.

But the young woman was ready, took the UV umbrella out of the bag, and stretched out a shade.

But in this way, Wang Yan and the young woman’s body distance is much closer, he keenly feels that she can feel the breath from her body.

“Are you renting this community? What building?” The young woman walked for a few minutes with a blush before turning into a Xianghu community and asking softly.

“It should be Building No. 18.” Wang Yan thought for a moment and said, “The house is not rented, it is a welfare room divided by unit.”

“That’s really a coincidence. I live in Building 16 and they are all good properties along the lake.” Bai Nen’s young woman’s pretty face is slightly amused, and some strangely said, “What kind of

unit are you? And Building No. 18 is the king of the community with the best location and the best Feng Shui. “

“Here, the unit has a confidentiality agreement, and I won’t let it be said.”

Wang Yan followed her all the way, and it was obvious that this was a garden-style high-end community. The cars are all at the entrance and enter the wide underground parking lot.

The ground of the whole community is covered with cobblestones, bluestone slabs and other footpaths. There are many trees and flowers planted on the road side by side, giving people a lush, like the coolness of being in the garden.

A pristine river, winding along a cobblestone road, only two or three meters wide, with clear water and green grass on both sides.

There are still small leaf water lilies in the small river, the leaves are tender and green, and the lotus lumps are full and erected, floating in the wind. A frog squatted leisurely on the water lily blade and slept lazily in the sun.

The small river meanders through several small buildings, and finally injects into a small lake that appears like dark willow flowers. The lake is in the shape of muskmelon, the water surface is very wide, it must be tens of meters wide and thousands of square meters.

On the clear lake, there are egrets and other waterbirds predated and playing.

Along the lake, various small buildings were built. The designers make full use of the natural environment, and all kinds of small buildings are staggered distributed, and there are scenery or trees blocking the view from each other, making each building fully enjoy the privacy.

Wang Yan looked a little dumbfounded. The environment of this community is simply challenging his psychological limit of hanging wire. And it is not far away from the city center, so quiet and quiet, the environment is natural and comfortable.

The housing prices in Huahai city are already prohibitively expensive. How much does it cost to spend one square meter in a high-end community with such a good location and such an excellent environment?

Our National African Bureau is really wealthy to a certain extent. We can't find a second unit in this kind of welfare distribution room all over the world?

"Mr. Wang, here is Building No. 18." The young woman took him to a small building built by the lake and covered with rose flowers on the guardrail. He said, "Because the land for the villa is difficult to approve, the development The merchant was very clever to build this kind of high-end small apartment. The small buildings along the lake are only six stories high, because each household is designed up and down. So in this building, only six families can live . In fact, this is more cost-effective than selling a single house. "

"I live in 501." Wang Yan never recovered from the shock. Compared with the old community house that he rented with Liu Lang, this is simply heaven.

Waiting for this to happen, you must bring your parents and enjoy them. The old couple should not have seen this level of community. In fact, based on Wang Yan's previous knowledge, I did not expect some high-end residential areas to have such a good environment.

"That should be the combined duplex on the 5th and 6th floors." The young woman said with a slight blush. "Thank you for coming back with warmth all the way. You have just come over and there may be things to clean up. We won't bother You 're right, have n't you arrived for dinner yet? I happened to be going home to make ravioli, and I 'll send you some to congratulate you on your move. "

"Ah, Miss Wen, why is that so embarrassing?" Wang Yan just groaned in his stomach and scratched his head embarrassedly. This way, everyone exchanged their names in the chat. As for Nuan Nuan, I do n't know if I 'm tired of playing, but I fell asleep in Wang Yan 's arms.

"Everyone will be a neighbor in the future, so we should take care of each other." Wen Ruhan hugged and took the warmth that had been sleeping in Wang Yan's arms, and said with a blush, "Then you are busy, I'm warm Warm will bring you ravioli at half past six. "

Although Wang Yan had the intention to send her more, but when people first met, they always felt that they could not speak. Forget it, big deal and order takeout.

By the way, I do n't know how much bonus Feng Lao paid himself. These days they are consumed, and I have three hundred dollars left. Fortunately, the unit does not have to pay for its own meals, otherwise the money may not be enough for one meal ...

Wang Yan called and asked about the balance on his salary card.

One hundred thousand!

...

The Domestic Hero - Chapter 33

...

Wang Yan was very pleased that our unit was indeed rich and wealthy. I just finished the newcomer training brilliantly, and I voluntarily paid a full 100,000 yuan bonus.

Listening to Sister Nanlian, it turned out to be correct. Joining the National African Affairs Bureau is really a wise choice.

However, compared to this house, the one hundred thousand yuan bonus is a little bit of a big one.

Wang Yan swiped the room key matching the key and entered the front hall of the small building. Worthy of being a high-end community, the front hall is not only luxuriously decorated, but even equipped with a security guard.

After the usual questioning, the middle-aged security uncle discovered that Wang Yan turned out to be the future owner, which was unavoidably polite. Also enthusiastically helped open the elevator doors.

Wang Yan thanked him and took the elevator directly to the fifth floor. Although this small building has six floors, the elevator buttons are only B1 and the first, third and fifth floors.

After reaching the fifth floor, Wang Yan got off the elevator, and the number on the left side of the elevator was 501.

When opening the door with the key, Wang Yan's heart was a little upset and excited. In the past ten days or so, my life has changed so fast that, in retrospect, it is somewhat unreal as a dream.

Click ~

The door was opened, and Wang Yan glanced at the probe,

First of all, it is a huge living room with luxurious decoration, leather sofas, solid wood furniture and gorgeous crystal chandeliers. At the end of the living room is a huge floor-to-ceiling glass door.

Outside the door is a large terrace directly facing the lake. There are some shelves on the terrace, and several vine plants climb up, lush, making people feel cool and comfortable.

On the right side of the living room, there is a clean and tidy open kitchen. The oven and microwave are all available. The most striking thing is a huge double-door refrigerator.

Wang Yan's heart thumped and checked the surrounding rooms. One of them is a study room, and the solid wood book shelves are somewhat empty. But on the big desk, there is a computer, and the huge LCD screen should have a full thirty inches. Use this to play games, it will definitely burst into the sky.

The other is a small gym, but the equipment inside is a bit less professional than the unit. There is also a small room.

After visiting the living room bathroom that made Wang Yan dumbfounded, Wang Yan couldn't wait to go up the second floor along the corner stairs. Duplex houses, usually the second floor is where the real owner lives.

There is only one small hall on the second floor, but all are paved with solid wood floors. A few comfortable sofas and a small coffee table create a relaxing area for relaxation.

The master bedroom is about 50 to 60 square meters, which is almost the size of a small commercial building. Directly facing the lake, at this height, all the beautiful views in the community are panoramic. Especially at this point in time, the sun has been slanting westward, and the reddish glow is splashing on the lake, the picture is really beautiful.

And what makes Wang Yan very happy is that the hard and soft outfits in the whole house are readily available, and they have truly achieved the point of carrying bags and living.

This made Wang Yan feel a lot more in the game.

So far, I haven't made much achievements, but I have properly arranged my life in the bureau.

Wang Yan was lying on a comfortable bed, feeling very happy and unspeakable. The whole duplex house, if two large terraces are added, at least more than 300 square meters, right?

Such a large area, so luxurious, plus the environmental bonus of this lot and high-end community. Wang Yan is a little afraid to calculate, how much does it cost?

When he was shocked, the phone rang. When I picked it up, it was Zhao Xiu, the logistics director in the bureau, calling.

"Xiao Yan, this is Zhao Xiu, ha ha."

"Director Zhao, hello, hello."

"Hello hello, Xiao Yan, have you seen the house yet? Are you satisfied? If there is anything bad, just talk with my old Zhao." Zhao Xiu was very kind and warm on the phone, "I'm doing logistics, so that everyone can live and work at ease. In short, as long as you mention all kinds of trivial matters, I will help you solve them in minutes. "

"Ah, thank you very much." Wang Yan was a little uneasy. "I just think this house is too good. I'm just a newcomer. The contract doesn't mean that the welfare is not less than 100 square meters. Room? This, at least three hundred upwards! And the environment is so good. "

"Oh, Miss Nanlian is right, your character is really simple. Who thinks that your welfare room is too good? The contract says it is not less than 100 square meters, this house is really not lower than One hundred squares. But you have the right to own this house, but you are not allowed to sell it within ten years. Do you know this? As for ten years later, it's your freedom to live, love and sell. "Zhao Xiu called on the phone Head, haha said with a smile, "Yes, you will open an authorization letter for me tomorrow, I will move your account from the talent market, and there are house transfer procedures, and all kinds of insurance pensions will be in your hands. Do it well before paying the salary. "

"Director Zhao, this is really too much trouble for you." Wang Yan was in a mood. I am really excited. This house will really be my own in the future.

“It’s all my own, and these are my duties. Is there anything troublesome?” Zhao Xiu said with a smile, “Then I won’t disturb you to visit your new home first, what needs to be added, and join me tomorrow Say.”

After being polite, he hung up. Wang Yan threw a fist in excitement. Director Zhao’s words made all the untruthful feelings in Wang Yan’s heart disappear.

Not only the house, but also the household registration for the elderly, and so on, have been solved at once. This should be put in more than ten days ago, when I was still riding a tricycle, it was something I dare not do in my dreams.

After more than ten minutes of excitement, he even smoked two cigarettes, and Wang Yan’s mood was finally calmer. Picked up the phone and called home.

“Son!” Said the mother over the phone, and said in surprise, “Is work finished today?”

Upon hearing her mother’s voice, Wang Yan’s emotions just calmed down, and she was a little excited again. I have n’t dared to call home because I have n’t been sure about many things in the past ten days.

Think of the parents who have been working hard for themselves for all these years. His nose was sour, and his voice choked: “Mom, son is not filial.”

“Ah? Son, what’s the matter with you? What happened?” The mother was anxious. “Son, don’t do anything stupid. Listen to the mother saying, don’t put too much pressure on you, you must make money as soon as possible. You can rest assured that Mom and Dad have already thought about it. The fund-raising house at home can be sold first because of its good location, so that as long as a part of the money is paid out, you can use the provident fund loan to buy a small set in the suburbs. The remaining money, In addition, some of the family ’s deposits can make up about 500,000, which is enough for you to pay a down payment and decoration there. In this way, you can marry Xiaowei first. “

My mother’s words pierced her heart like a cone, painful, painful. Let his tears flow out: “Mom, don’t do this, I now ...”

“Stupid boy, don’t cry. My parents are still young. There is a good thing I haven’t told you. The unit benefits have improved in the past two years, and my parents’ income has also improved a lot. Small houses can use our provident fund. Also, your house, we can help you at least 6,000 yuan a month. So you and Xiaowei after marriage, there is not much burden. “Mother said on the phone with a smile,” This is your mother-in-law. There should be no comments? “

“Mom, thank you.” Wang Yan wiped the tears on her face, some choked up. In fact, he knew that his parents had worked hard all his life and saved up the fund-raising house and some deposits. In fact, he knows better that the benefits of that state-owned unit are getting worse day by day. Parents must want to save money and frugality, or even do more part-time jobs to repay their loans every month.

“What stupid child say stupid things, you are a good son of your mother, my mother believes you will have a good time.” The mother smiled happily and said, “You work well outside, don’t worry too much about your parents, our health. Oh, yes, you will go to Xiaowei’s mother tomorrow and discuss our family’s decision with her. Remember, be sincere in your attitude and don’t resent her. Other mothers are not bad people. Thinking about her children? She just wants her daughter to live better and not to suffer too much. “

“Mom, I ...”

“Have you remembered? Don’t feel resentful. It’s not easy to be a mother. If your mother has a girl, it must do the same.”

...

The Domestic Hero - Chapter 34

...

“Mom, I actually found a new job.” Wang Yan wiped away her tears and said happily, “It’s just in Huahai City.”

“Huahai City? Then you and Xiaowei ...” Mom said hesitantly.

Wang Yan lit a cigarette and calmed his emotions and said, “Mom, Xiaowei and I have broken up for almost four months. She is a good girl, but we are no longer possible.”

“Ah ~” Mom sighed a long time. “Since you have made up your mind, Mom will not say more. However, the price of Huahai City ...”

Wang Yan knew that house prices in Huahai City were several times higher than those in W City. My mother was worried that even if you hit the pot and sell iron, you would not be able to get a down payment. Therefore, he hurriedly said: “Mom, don’t worry. My job is very good now, and it belongs to a national civil servant with a formal establishment.”

“Public, civil servant !?” Mother’s voice was a little trembling. After a while, she recovered. “Son, what are you talking about, son? You, you are admitted to the civil service? This, this ...”

“Mum, you heard it right, it’s a civil servant, working in a decent state unit.” Wang Yan made his voice as easy as possible. “And Director Feng asked me to talk to me today and praised me for doing well. Right now, you have to go through various formalities in these two days. By the way, your hukou will also be moved to Huahai City. “

Mother’s breath is very heavy and very fast. After more than ten seconds, she screamed: “Pharaoh, did you hear that Pharaoh? The son said he was a civil servant, and he has been turned right. Me, am I dreaming? Old Wang, you pinch me. Oh, you old pinch, do you really pinch? “

Wang Yan laughed on the phone, he felt how excited and happy his parents were to be civil servants. It seems that the decision to enter the National African Affairs Bureau is really wise.

Not only for yourself, but also for parents to feel at ease and proud. After all, the two of them are old, and the most important thing is that the son can live peacefully and happily.

“Son, your dad wants to say a few words to you.” Mom yelled the phone to his dad and threatened in a low voice, “Say a few more words with your son, don’t be bored for a long time.”

Wang Yan laughed dumbly, and then heard his father’s rattling smoking and deep breathing on the phone. After a long time, he heard some old and low voice: “Hardly.”

After a few seconds, my mother urged to continue.

“It’s part of being a person.” The father sighed again.

At the time of Wang Yan Khan Ran, my mother couldn’t bear it, grabbed the phone and said, “Son, your dad is this kind of virtue. In fact, he still cares about you. You can’t sleep. You don’t have to learn him. Although we have to do things practically, we must do our part. But this is a must-have, and flattery leadership is also a matter of learning. My parents are just because they don’t. , Your dad won’t let me say it. Then let’s do this first. I’ll give your dad a few snacks to make him happy with a drink. “

“Hey, Mom. The unit gave me back ...” Wang Yan didn’t finish the second half of the speech, and her old man snapped the phone over there. He made him scratch his head and smile, the mother is this temper, temperament. However, the character of his father’s boring gourd is a perfect match.

After making this call, Wang Yan’s mood was really comfortable. Now their old couple should be very happy and let them rest assured that they can work with peace of mind here.

At this moment, the doorbell rang.

When Wang Yan went downstairs and opened the door, it was Wen Ruhan’s mother and daughter who arrived as scheduled.

“Good Uncle Wang.” Nuan Nuan girl greeted politely.

“Warm warm little girl is good.” Wang Yan chuckled and caressed her head, and then greeted Wen Ruhan, who changed her home skirt, and said, “Miss Wen, how are you, thank you so much Bring ravioli over. Please come in, please come in. “He said, and helped her pick up the fresh food box.

“Uncle Wang’s family is so beautiful.” Nuan Nuan walked in and was very happy.

“Warm warm, don’t run around first, wear shoe covers.” Wen Ruhan hurriedly pulled her, said lowly, “This is very impolite.”

“Miss Wen, don’t be restrained.” Wang Yan said hurriedly, “I just arrived today, I didn’t get anything up, no shoe covers and slippers. I just trampled on, just come here, you come quickly Sit first and eat some fruit first. “

Wang Yan had seen fresh fruit, drinks, tea and other things in the refrigerator with double doors. So he ran away neatly, washed the food box, put some lychees, and the apples came out.

The water dispenser is also turned on, just to make tea.

I thought, the logistics office in the bureau is really meticulous. It seems that the house has been picked up before giving me the key. Many basic living materials are well placed.

“The welfare of your unit is really good, I thought you had a lot of things missing. Mr. Wang, eat ravioli first, so as not to cover it up.” Wen Ruhan opened the food boxes one by one on the dining table. There are cooked ravioli, some soy sauce chili sauce, small dishes and tableware.

It can be seen that she should be a pretty delicate woman.

“Oh, I didn’t expect that my colleagues in the logistics department helped me so well.” Wang Yan saw her take out three sets of tableware and hurriedly said, “Let’s eat together.”

“Well ~ I don’t know the amount of your meal, so I prepared more.” Wen Ruhan whispered with a blush, but when she saw her daughter was about to start eating, she said lowly, “Warm warm, go wash first If you eat it again, you are very unhygienic. “

Wang Yan’s hand holding chopsticks also stopped halfway. He smiled embarrassingly, and then ran away with Nuan Nuan to wash his hands. When they came back, Wen Ruhan was all ready.

In order to avoid smashing the ravioli with two big food containers, she also used a layered food container to spread out.

The amount is indeed quite a lot. However, I am afraid that it is far from satisfying Wang Yan’s appetite. Forget it, wait for their mother and daughter to go back and order some noodles. There are several rolls of egg noodles in the refrigerator with double doors.

Their mother and daughter ate very elegantly, and wontons chewed slowly. Wang Yan was also embarrassed to gobble up, just eating slowly one by one, he felt that his digestion speed exceeded the speed of eating. It is really uncomfortable to keep secreting such strong stomach acid.

But the ravioli is really delicious, with cortical spring teeth, tender meat, and fresh shrimp.

His share was awkward and fell into Wen Ruhan's eyes. She smiled gently and wiped her lips with a napkin before saying, "Mr. Wang, you can just open your mouth to eat. You will feel uncomfortable, and I will feel uncomfortable. I and Nuan Nuan are almost full after eating a few. It's good if you eat it."

"Uh, okay." Wang Yan rubbed his hands and said with a smile, "Mr. Wen's wonton is really delicious, then I'm welcome."

After talking, Wang Yan was really open to eat.

Under the expression that the mother and daughter's eyes were more rounded and rounded, and the smaller mouth opened wider. Two minutes later, all the ravioli left Wang Yan's belly.

After froze for a few seconds, Warm Eyes pushed the last ravioli in her dish gently to Wang Yan: "Uncle Wang is so pitiful, so hungry, there is another warmth."

"Uh, hehe." Wang Yan wiped his mouth blushing and said, "This, I'm sorry. My meal is slightly larger, slightly larger. And it's not easy to control the speed."

Wang Yan didn't lie, and now his appetite is too big. Once started to eat, the strong secretion of stomach acid will prompt him to eat quickly.

But even after eating so much, it's just 20% full, which is more uncomfortable than when you don't eat.

While Wang Yan was hesitant about the next pot of noodles, the doorbell rang again. Somewhat strange in my heart, who just came to this house, who would come to visit? Property?

A glance through the cat's eyes only saw an extremely thick neck. Uh, it turned out to be Brother Xiong.

As soon as Wang Yan's door opened, he carried a stack of ten packs of pizza bears and squeezed in with a big smile: "Xiao Yan, congratulations on turning right, and you have been allocated such a good house. It seems that Director Feng Very important to you."

“Brother Xiong, I have just arrived here and didn’t have time to call you. Sorry, sorry.” Wang Yan smiled and hugged him, and took the pizza, said, “Thank you Xiong Brother, knowing that I haven’t eaten anything, and give I bring pizza. “

Seeing that Wen Ru seemed to be coming from a colleague of Wang Yan, when thinking of cleaning up the table, he almost stumbled after hearing the sentence of no food.

What is this called? Are those two big boxes of wontons feeding dogs?

...

The Domestic Hero - Chapter 35

...

Following the explosion of the bear, a person carrying four boxes of wine’s hairy legs, he smiled and said: “Xiao Yan, congratulations on turning right. Come and help carry the wine.”

“Brother Leg is broken.” Wang Yan was a little surprised, but Brother Leg turned? Are these wines cheap?

“You’re welcome, what are we doing ... ouch ~”

Before SCUD spoke, he was kicked into the living room. Behind is Wuya Ange, who is dressed in a tights and has a graceful figure. I saw her carrying two plastic bags of snacks. Xiumei raised her head and said, “You are a grandiose platform, are you paying for the money?”

Scud lowered his wine box without blushing and panting, and the old **** was saying, “Everyone is a colleague, there is no need to be so clear? Anyway, I moved here.”

“Huh?” When Wu Ya Ange just wanted to ridicule him, he found a couple of beautiful women standing by the dining table. Frowning her brow, she suddenly said, “Oh, you are not the one who lives in Building 16 ...”

“It turns out to be you.” Wen Ruhan also recognized Wuya Ange, blushing slightly and said, “It turns out that you, you and Mr. Wang are colleagues?”

“Wait! What’s the situation?” Wang Yan froze, looked at Uya Ange, and looked at Wen Ruhan again. A bad hunch emerged spontaneously, “How can you two know each other?”

“I have to ask you, didn’t you just come here today?” Wu Ya Ange also said funny and angrily, “You are big enough, and the young woman next door came back together in a blink of an eye.”

“Hello, don’t talk nonsense. Miss Wen is to see that I haven’t eaten dinner, and send some ravioli to congratulate me on moving.” Wang Yan hurriedly explained.

“Mr. Wang, don’t you know? This lady lives in Building No. 18.” Wen Ruhan explained with a slight blush, “I saw a few times before going out to buy vegetables.”

“What? Wuya Ange is here in your house?” Wang Yan was all excited, and the ominous hunch in his heart was fulfilled. Picked up the phone and said, “No, I have to find a leader and change my house. No, I want to change a community.”

In response, Uya Ange didn’t react very much, just hugged his hands and looked at him charmingly.

“Hey, Xiao Yan, do you want to change your house? You can change it, but the problem is that there is no reserve house in the bureau.”

“Small, remote, simple. It doesn’t matter? Isn’t it? The basement is also OK! Ah? Then can I go out and rent a house?”

“Xiao Yan, because of the special nature of our work, we need to consider security, privacy, and emergency contact in housing. If you rent a house casually, the mobility is too large, which will cause a lot of trouble in the bureau.”

After hanging up the phone, Wang Yan felt very sad. Being a neighbor with a demon girl like Wuya Ange is very psychologically stressful.

“That, Mr. Wang. Now that you have a guest, I’ll leave with Nuan Nuan first.” Wen Ruhan pretty face blushed, picked up the food box.

“It’s okay, it’s okay. We and Xiao Yan are colleagues. He moved newly, and we came here to be noisy.” Scuderia put together very diligently, squeezing a smile to Nuan Nuan, “Children, how cute they are, How old are you? “

Nuan Nuan looked at him pitifully, and his mouth suddenly deflated and cried: “Wow ~ Mom, there is a blame for milo, so terrible. Nuannuan don’t blame for milo, but Nuannuan is handsome and uncle Wang.” Ru Han ’s beautiful legs cried miserably.

Scud legs were struck by lightning and sweat on the forehead. Everyone is human. Why should that kid be handsome and handsome Uncle Wang? And you blame the milo?

“Strange sorrel, don’t scare the kids here with the pestle, go pack some glasses and divide the wine.” Wu Ya Ange kicked over and then waved at the bursting bear, “Stupid bear.”

“Small is here.” The bear burst into excitement and lowered his eyebrows together, “What does Her Majesty tell you?”

“Responsible for making the little girl laugh.”

“Don’t worry, look at me.” Burst Xiong wailed, walking like a giant bear, learning the lines in the cartoon, saying, “Bear, you have to have a bear-like appearance. Xiong Er, bald head is going to cut again Our tree is gone, oooo ~ “

This strong man two meters tall and weighing more than 150 kilograms. You don’t have to look like a bear. This vivid and vivid performance is even more laid-back, much stronger than in the cartoon.

“Giggle, Uncle Xiong is so cute.” The Nuan Nuan little girl burst into tears and smiled happily.

I have to admit that although the bear’s physique is exaggerated, his affinity is still very strong.

Next, it was natural to laugh again. Sure enough, the new house needs to be noisy to be more like a home. A group of people, except Wen Ruhan, have to bring Nuan Nuan back to bed at eight o’clock.

The rest of the people were wandering around in the middle of the night in Wang Yan, and four boxes of red wine were not enough. Scud also ran downstairs to the Uya Ange home, and brought up a box of liquor.

Drinking and drinking, Scud lying on the terrace and fell asleep. Bursting bear curled up on the sofa, muttering something in his mouth. As for Wang Yan and Wuya Ange, they no longer know where to go.

Early next morning.

A woman screamed on the second floor: "Why am I here? Wang Yan, where is your hand?"

"I don't know why my hand is there with you." Wang Yan cried in horror, "Help, I didn't mean it."

After a few seconds.

A man in a messy clothes flew down the stairs.

Immediately afterwards, a woman in a tight leather jacket, with her scorpion-like tail high and her teeth clawed, said: "Is your home Ange 's tofu so delicious? Come on, my sister will wake you up Sober mind. "

"Brother Brother Help."

"Hey, boy, don't let your brother down ~ ah ah ~" burst Xiong miserable cry, "Uya Ange, you got the wrong person."

"Brother Leg Help."

"Don't come here, kid, you're a stranger. You come back. I jumped, I jumped, I really jumped." Scud looked at the dangling scorpion tail, his teeth bite, and his heart crossed the fifth floor. The balcony sprang out.

But before it fell, he was caught in the scorpion's tail and dragged back. Then, it was his screaming scream.

...

Ten minutes later, in the underground garage. In a tough-styled Mercedes-Benz G-Class off-road vehicle, the three men were pale and emaciated, shrinking into the back seat like three poor lambs.

In the front driver's seat, the radiant Uya Ange hummed a little song and applied lipstick to the vanity mirror. Appreciated several times, I felt very satisfied, and turned back with a charming smile: "Can you be more energetic? After going to work in a unit, others think I have done anything to you?"

"Yes Yes Yes!"

Wang Yan and three others squeezed a smirk. I was scolding in my heart, what do you think? Obviously what you really did.

Especially the bear burst and the scud all cast malicious eyes on Wang Yan.

Can everyone still be friends happily? Why did your kid take advantage of it, but asked the brothers to stay together? Not honestly, where did you put your hands down?

what? Your kid is really brave enough, how does it feel?

Injustice! That's how I woke up, and I haven't had time to recollect it ~ Just ...

By the way, you mean all night ...

Do n't do that, I have to ponder my thinking.

A few men began to communicate with their eyes in behind.

...

Almost at the same time, inside the Huahai Public Security Bureau.

Seven or eight policemen in majestic uniforms were arguing fiercely around a table. Everyone's eyes were covered with blood, and the ashtray was full of cigarette butts.

“Chen Ju, the autopsy report of this floating corpse has been very clear, and there are traces of piercing fangs on his neck. And before his death, the blood in the body has been sucked clean.” A middle-aged policeman said strictly, Obviously, this serial murder case has deviated from the scope of our public security bureau. I suggest that it should be immediately transferred to the comrades of the National African Bureau to avoid unnecessary mass casualties and police officers 'sacrifice.”

“Deputy Director Hao, I think the autopsy report alone is not enough to characterize it as an abnormal event.” A 30-year-old Guozi face police retorted, “According to past experience, there are also individual psychologically distorted murderers who will There is a similar style of crime. “

“Captain Gao.” Deputy Director Hao raised the volume and said quietly, “You can't judge the nature of the case without permission because of some personal emotions. This will cause unnecessary harm to the property security of the people and police officers. The autopsy report said It was already clear that the victim had only a very short trace of struggling before he died. We have every reason to judge that this case is unusual. “

“Okay, let's not argue.” Director Chen, who is more than fifty years old and looks majestic, said: “No matter what the nature of the case, the suspects are extremely cruel and difficult. Please ask the comrades of the National African Bureau to help follow up. No harm. Break up! “

...

The Domestic Hero - Chapter 36

...

State-African Branch, in the office of the director.

“Xiao Yan, are the objectives and details of the mission clear?” Feng Yuande looked serious. “This mission is not difficult, but it is related to the harmonious and stable situation in which some shemales coexist peacefully. Therefore, this mission can only be successful, not allowed. failure.”

“Yes, Feng Feng, I get it.” Wang Yan said in earnest, “I will do my best to complete it.” There was a little excitement in his heart. Unexpectedly, as soon as this was turned right, there was the first task.

After practicing for so long, the strength is rising, and I am eager to try it. Someone just put a pillow on this sleep.

“Very good.” Feng Yuande was very satisfied with his mental state and nodded. “Xiao Zhao will lead you to the warehouse for a while to get your car and equipment.”

Vehicle? equipment!

Wang Yan’s eyes brightened.

I remember that Nan Lian ’s car was a Maserati sports car. And it has undergone a series of modifications, which is very conducive to catching all kinds of superpower criminals.

The Wuya Ange’s car is a Mercedes-Benz G-class off-road, which is also very popular.

Man, who does n’t want an arrogant car?

Equipment is also very important. The silver rune bracelet of Sister Nan Lian, combined with her ice ability, can be condensed into an ice sword ice shield, which is dazzling and fierce.

Even Guan Nuo’s palm thunder is extraordinary.

Wang Yan followed Zhao Xiu longingly, and went all the way to the underground warehouse.

Then he became dizzy. Is this underground warehouse a luxury car expo?

Red Ferrari, yellow Lamborghini Daniel, Bentley, Porsche, really everything. Each one exudes her unique charm under the lights.

Which one should I pick? Suddenly, Wang Yan felt like he was emperor when he traveled back to ancient times. The various enchantments of the three houses and the six courtyards took various poses and allowed themselves to ask for what they wanted.

“Xiao Yan, regarding your car, the old man has already selected it for you.” Zhao Xiu enviously envied, “Compared to their mass production, your car is the only one in the world. It seems, Grandpa really values you. “

Wang Yan’s heart is more excited, the only one? Isn’t this the only artifact-level car in the game? In contrast, the luxury cars that ordinary people dream of are indeed scumbags.

“The old man and Master Yan Zun spent all their time and effort to build the car by hand for a whole year.” Zhao Xiu couldn’t help but feel a little excited. “The materials used are all rare and rare. The main material consumed is even more valuable, and the world is unparalleled. At that time, when the car came out, it directly alarmed the central government. “

Yan Zun? Value-for-money? Alarmed the central? Waiting for a series of keywords, Wang Yan’s heart almost burst out of his throat. Swallowing saliva, he asked weakly: “Director Zhao, may I ask Mr. Yan Zun? The name sounds very high.”

“Master Yan Zun.” Zhao Xiu’s eyes showed a strong admiration, and his voice was very excited. “He is a myth, and he has created countless legends in his life. About his glorious history, even three days and three nights I can’t finish it. Let’s talk about that city luxury multi-functional special combat vehicle first. ”

City luxury multifunctional special combat vehicle?

It sounds professional and very big. Wang Yan’s heart swelled, and he couldn’t wait to see the legendary car.

“This car can pass through the congestion zone without obstacles when the city is congested, without noise and quickly approach the target. The maximum design speed is up to 300 kilometers per hour.”

Barrier-free crossing? Does this car still fly? Wang Yan's eyes burst with excitement. If he drives in a so-called car to attend a classmate's party, will it shock their eyes?

Zhao Xiu led him all the way to the depths of the garage until the last small room.

"It's here!" Zhao Xiu's eyes burst into excitement.

Wang Yan also became nervous. The room in front of her was covered with a layer of tarpaulin. Was her exclusive car hidden under the tarpaulin?

"Come out, the city's luxury multifunctional special combat vehicle." Zhao Xiu slammed and pulled away the layer of tarpaulin. I don't know how much time the dust has accumulated.

"Cough!"

In the mist, Wang Yan fanned the dust, his heart thumped, his eyes widened, searching for his beloved mount.

Suddenly, he froze.

I saw the dust, and an old bicycle stopped quietly in front of my eyes. It is an old bicycle, to be precise, a 28-inch large frame bicycle mainly produced in the 1970s and 1980s.

It was covered with dust and oil stains, black paint mottled, there are many rust spots on the rear fender.

"This?" Wang Yan burst out of his heart and gave an ominous hunch, "Zhao, Director Zhao. What about me, my car?"

"It's right in front of your eyes!" Zhao Xiu patted the bicycle cushion gently, with a look of pride, that look, that expression, really looked like an artifact-level car.

"Here, this is the so-called urban multifunctional special combat vehicle?" Wang Yan's heart seemed to be hit hard by a hammer, and he staggered back two steps, his face slightly pale, "said, said good luxury What about? "

“Matte mysterious black, zero response time, practical T-shaped steering wheel, retro-style mechanical alarm system, 28-inch alloy oversized wheels, closed chain rear drive system, front and rear suspension handbrake, breathable leather seat, tough guy-type shock absorber system, 360-degree wide field of vision without dead angles, dual-use rear frame, independent rear wheel suspension parking system. “Zhao Xiu replied deeply and melodiously,” low noise, infinitely variable speed, and zero fuel consumption per 100 kilometers. It has truly achieved an excellent design that is pollution-free, healthy and environmentally friendly. You even said that it is not luxurious enough? “

Wang Yan almost spit out his old blood, clutching his heart and saying, “Director Zhao, how does it look, or is it a bicycle?”

“Xiao Yan, you are still young. I tell you with a middle-aged person’s past experience, looking at people or things, can’t just look at its surface.” Zhao Xiu patted his shoulder with a solemn face, “We want to learn Looking at the essence through the phenomenon, you think about it. On a hot summer day, the big guys are blocked on the way home from work. When you blow a brisk whistle, humming a happy little song through the traffic, How many eyes will envy jealousy and hate? “

“But I also want a sports car that pulls the wind! Is this also embarrassing?” Wang Yan muttered, jokingly, riding the two or eight bars to attend the class meeting, how can it be mixed?

“Vulgar, it’s too vulgar!” Director Zhao sneered, and then said Wang Yan on the shoulder with a long heart. “Xiao Yan. The charm of man comes from the true strength of his inner heart. If you want to lean out To decorate yourself with something that means you are not really strong enough. Xiao Yan, the old man has high expectations for you, don’t let him down. “After that, he secretly squeezed his eyes.

Wang Yan seemed to understand a little. It seemed that this bicycle was built by a grandfather and a great ***** named Yan Zun, and it also alarmed the central government. Does it mean that this bicycle really has extraordinary connotations under its ordinary appearance?

“But Director Zhao, why does this car look a bit worn out? These putties can’t even be wiped off?” Wang Yan asked after checking it.

“This is the designer’s brilliance, this is called ‘multi-directional high-end psychological and tactical disguise’.” Zhao Xiu said with amazement, “If it is too gorgeous and tall, the first will cause the alert of the person being pursued. Second, it ’s easy to be stolen. Look at this car broken like this, and it ’s bad to give it to a thief. “

Wang Yan's tears almost fell, and indeed the thief was too lazy to steal. The designer was really successful. How about high-end psychological and tactical disguise ...

"Say so much, it's better to test drive." Zhao Xiu patted his chest and said, "When you experience the power of this car, you will be sure to put it down. The Porsche Ferrari Daniel's cars and this ratio are scum."

Unbelievably, Wang Yan lifted the car to try it, but didn't expect to use the power, but he couldn't pick it up. Is this a joke?

Wang Yan froze.

With his current strength, even a thing of one or two hundred pounds can be easily lifted up easily.

But this car ...

Wang Yan used force, and finally picked it up. But I felt heavy in my hands. His mouth opened: "This car weighs at least 150 kilograms."

"Accurately, 175 kilograms." Zhao Xiu said with a smug smile, "I told you earlier, it depends on the essence of things. The value of the car's material cost is far more than those outside. Add up. "

One hundred seventy-five kilograms? Many motorcycles are not so heavy?

Wang Yan was shocked and tried to ride. Because the body is too heavy, the pedal has a strong starting power. Changed to an ordinary person, it is estimated that they can't move.

But after slamming a few times, its speed soared immediately, and it did not see much slower after sliding for more than ten meters.

Riding down two laps, Wang Yan stopped in front of Zhao Xiu with a sudden brake, and his face was a little weird: "Director Zhao, this car is indeed very special and of good quality."

“It’s not just good quality. Its theoretical design has a maximum speed of 300 kilometers per hour. But in fact, during the test drive, the maximum speed reached 400 kilometers per hour, and it lasted for an hour. The bicycle was still stable like a mountain.”

400 kilometers per hour? Hold for an hour!

Wang Yan was stunned, not just because of the car, but the person who “tested”. I can’t imagine the scene of a person riding a bicycle to a speed of 400 kilometers per hour on the road. With such a strong strength, there are really mountains and people outside the world.

...

The Domestic Hero - Chapter 37

...

And this car is also exaggerated enough, what materials are used to build it? Also, how can the tires be consumed? When he raised his doubts, Zhao Xiu said directly: “This is a state secret. In fact, you now can barely play part of the performance of this” artifact “class car. Go back and practice slowly to strive for an early date. Reached the limit speed. “

Wang Yan thinks about it too. According to his current ability, it is estimated that he can ride at a speed of more than 100 kilometers per hour at most. If you think about it carefully, it is quite convenient to have this bike, so don’t be afraid of traffic jams.

As for shame, uh, what is shameful about riding a bicycle if you have pedaled for three long times?

“Starting today, this artifact will be handed over to you. I hope you use it to protect people’s property and national security.” Zhao Xiu said seriously.

“Yes!”

“Very well, I’ll take you to see your weapon, which is also an artifact level.” Zhao Xiu nodded in satisfaction, and then went to the weapon storehouse with a disturbed Wang Yan.

After visiting various and dazzling weapons.

Zhao Xiu pulled out a uniquely shaped weapon from the corner of a small warehouse, and handed it to Wang Yan with some breathlessness.

“This!?”

Wang Yan secretly uttered, and his head was dizzy.

This is a huge hammer, consistent in style with a bicycle. It is also mysterious black matt, simple and heavy shape. No, to be precise, it is simple and ugly.

The hammer handle is a three or four centimeter thick iron stick with a rough non-slip ball on one end. The other part is fused with the hammer body.

It is not so much a hammer body as a rectangular iron bump. More than thirty centimeters long and ten centimeters wide.

The whole image looks very similar to a big hammer hitting a wall on a construction site. But in fact, it is rougher and has no shape, and it is several times larger.

What about the gorgeous shape of the artifact? What about dazzling rune formations?

I can't imagine that this thing will be my own exclusive weapon in the future. Wang Yan's mouth twitched endlessly, with such an ugly hammer in his waist and went out to fight. It was enough to laugh at the enemy before he even fought.

Artifact is really an artifact.

When Wang Yan took over his hand, he didn't expect the hammer to sink suddenly. Fortunately, he responded quickly and forcefully, so he didn't let the hammer hit the ground. Suddenly, his eyes were hot.

The hammer looks inconspicuous, but the weight is terrible.

Weighed it a bit and judged from experience that the total weight of this hammer is probably not less than 300 kg. Because with Wang Yan's power, when he lifted it with one hand, he was very reluctant.

It takes two hands to carry it, but it can carry it. But if you want to wave it, you can't stop it. This shocked Wang Yan. He must know that his current deadlift indicator is nearly 700 kilograms, which has long exceeded the limit of ordinary people's strength. Who on earth can afford this kind of warhammer?

"Xiao Yan, it seems that your strength is not enough." Zhao Xiu sighed and said, "Play with a light weapon first."

"No." Wang Yan flicked it violently and put it on his shoulder. "That's it. I like such a heavy fellow. I still have two Neidan essences that are useless. I used them in these two days, More exercise, you can barely use this hammer. "

This thing is really strong, and it doesn't look like a hammer of three hundred kilograms at all.

"Alright, today you are familiar with weapons and equipment, and you will start tomorrow." Zhao Xiu thought about it and nodded.

...

The next day, on the highway to Province Z.

Wang Yan was wearing sunglasses, enjoying the air-conditioning of the car, and leaning comfortably on the co-pilot.

Because of time constraints, Wang Yan spent only one day to improve himself. Therefore, he exercised bicycles and hammers to put himself into infinite exhaustion, and then injected the essence of Neidan.

After the refinement of the two essences of Neidan, Wang Yan's physical quality has taken another qualitative leap. The strength data of the straight-leg deadlift has exceeded a staggering 1,000 kilograms.

In other words, an ordinary car parked on the side of the road, he can lift one side.

The explosive power of a punch has also reached similar data. Of course, this is because his strength is rising fast, and his skills cannot keep up. Because normally speaking, a well-trained professional boxer, the explosive power of boxing will far exceed his own strength.

The driver is Wang Yan's task partner this time-Guan Nuo. She had clean and refreshing short hair, and while driving the car, she felt a little uneasy in her heart.

This guy started to sleep as soon as he got into the car, feeling that she was a free driver. The most abominable thing is that he still insists on stuffing a 28-inch old bicycle into the back seat.

Wait, there is an ugly and heavy hammer.

Poor, after saving a few mission bonuses, the newly purchased Range Rover Extreme Edition became a tractor in a few days. What's the use of that bicycle? After his own Range Rover has been adjusted and modified, all-terrain off-road is not a problem.

However, the words came back. It's been more than ten days since I saw it, and Wang Yan was completely reborn and evolved into a tall and handsome male god.

Guan Nuo glanced at him while driving. The tender cheeks were slightly red, and they did become very different.

It stands to reason that the evolution of superpowers will indeed make people better from the skin quality to the body.

But he changed so drastically that Guan Nuo did not even hear it.

After a while, the car drove into the cross-sea bridge. The cable-stayed bridge stands in the bay, stretches for dozens of kilometers, and is magnificent.

On both sides of the bridge deck are magnificent waves, the boundless sea. Occasionally, several fishing boats travel by wind and waves, and the tiny ones are like sparrows.

Guannuo was in a good mood, opening the panoramic sunroof. Enjoying the refreshing feeling of the violent sea breeze, the slight sea smell made her feel a hundred times more energetic.

But the good times are not long, the traffic speed in front suddenly slowed down. In the end, she was stuck on the bridge.

Guan Nuo unfastened his seat belt and turned over and got out of the skylight. I stepped on the roof and looked around. Oops, there was a major accident a few hundred meters ahead.

The front of a large truck hit the guardrail, and the box body directly traversed the bridge.

“Damn it!” Guan Nuo, like a fish, got into the car sensitively. Seeing that Wang Yan was still asleep, it was irritating and hot, and he pinched a finger on his thigh.

“What happened?” Wang Yan pushed the sunglasses frame and woke up. “Why didn’t the car move?”

“Traffic jam, you won’t watch it yourself?” Guan Nuo glanced at him angrily.

“Oh, then I’ll sleep for a while, and call me when I get to the ground.” Wang Yan shrank back to his seat. In order to get the best effect of Neidan essence, he was exhausted all day long.

Oh, you are a dead man. Guan Nuo was so angry that he could not help but toss this guy off the cross-sea bridge.

While being drowsy, Wang Yan’s mobile phone rang.

A glance at the number came from the local police of the mission partner: “Is it Expert Wang? The criminals who asked us to contact us seem to be in contact with the boss of the ship and there are signs of escape. Are you going to dispatch the SWAT team and take them under?”

“Don’t act rashly.” Wang Yan woke up and said quickly, “Please continue to watch carefully and wait for us to come and act.”

Criminals who can be bothered by the State-African Bureau are definitely not simple things. He does not want the special police to sacrifice in vain.

“Okay. We will obey the instructions, but please ask the two experts to hurry up. Once the other party goes out to sea, it will be troublesome.” After hesitating for a while, the other party said this and then hung up.

“Contact the helicopter.” Guan Nuo’s face was a little heavy, looking at this posture, I don’t know when to block it.

“That’s too slow. According to GPS, we are only 60 kilometers away from the destination.” Wang Yan said, “I still use my car faster.”

Special car? Guan Nuo was stunned, but immediately remembered his broken and heavy bicycle that he had bought from somehow. When the corner of the mouth is pumped, is it really a treasure?

Wang Yan unloaded his bicycle and inserted his heavy hammer on the rear seat frame. Then patted the front bumper: “Kanno, you can sit here.”

Guan Nuo blushed at first glance, this posture is too ambiguous. Although you are a little emotional, you have to be restrained for a while? So, she twisted a sentence: “Not very good.”

“Okay, let me go to support the scene first.” Wang Yan did not reluctantly, he stepped on the car directly and drilled through the cracks of the previous car.

“Damn it, bastard.” Guan Nuo kicked the tire tirelessly. “Invite one more sentence to die, Miss Loss will put you here hard. Oops, Miss Toe.”

...

The Domestic Hero - Chapter 38

A small fishing village near the sea has a quiet and natural environment, and every kind of seafood is dried in front of every door.

There is an old brick-and-tile factory next to the village. Because it is often used for processing and storage of dry seafood, the smell of the whole factory is very strong, enough to cover up many traces of human activities.

On the one side of the plant is the vast sea, and on the other side, it is close to the dense hills of the jungle. It looks like a treasure trove of divergent escape routes.

Several strong men in army green vests crouched in front of a stainless steel cage, watching a tease-sized ferret.

The ferret trapped in the cage has white hair like snow and no motley color. The fur is smooth and delicate like white satin, and the water droplets do not invade. Especially its black pupil eyes are clean, clear and spiritual.

At this time, it curled up in a cage in fear, his eyes full of humanized fear.

“Boss, this little thing is so beautiful. How much is this sale worth?” Said a scared man with excitement.

“How can I get one million.” Another lean man interjected.

“One million? You steal it. This is a purebred ferret. Are you the garbage in the farm? I tell you, this ferret already has spirituality, at least 10 million.”

“Ten million!?”

Several strong men exclaimed, their eyes panted.

“Okay, don’t you guys talk here.” A hairy beard hidden in the corner, playing with a hunting knife, said, “The FBG company’s people will arrive in half an hour, you give it to you. I ’ll be smart. Go to work and act according to plan. When it ’s done, make sure you each share one million. “

One million per person!

The brawny men were immediately boosted by their morale, and each took up their weapons, ambushing in ambush, patrolling in patrol. Judging by their operational qualities, they are all very professional, and obviously all have experienced professional soldiers.

The beautiful little ferret held in a cage showed a hint of unwillingness in his smart eyes.

“Small things, I know you can understand.” Mao Beard wiped the heavy hunting knife and sneered at it from afar. “You obediently cooperate, maybe there is a chance. If you dare to give birth to something Thinking, I will peel off your skin. I would rather earn less and ask for peace of mind. “

The little ferret shivered and shrunk into the corner in fear. His eyes dangled, afraid to look at the beard, apparently very afraid of him.

...

A small room on the second floor a few hundred meters away.

Two plainclothes policemen stared at the factory warehouse with a telescope, and reached the peak with communication equipment: “Head, the target seems to have acted. What should we do?”

“Have the two experts sent from above have not arrived yet? Then wait, if the experts have not arrived when the target contacts the third party, immediately notify the SWAT team to take action and knock them out.”

“Roger that.”

After the communication was cut off, a tall and thin policeman lit a cigarette and complained: “Isn’t it just catching a group of wild animal poachers? Two experts were sent over to intervene, and I don’t know what to think? Expert, hehe , I do n’t know what the “brick house” is. “

“Hush, be quiet.” Another older policeman stopped, looked around left and right, and said mysteriously, “Xiao Zhao, in my experience, this matter is not that simple.”

“Brother Li, please tell me, why is it not easy?” Xiao Zhao helped him light a cigarette.

“This thing is full of weirdness. Have you ever seen this kind of thing used to locate criminals?” Lao Li took a deep breath and pointed his finger at a piece of light blue smooth jade on the table.

“I haven’t seen it. But this thing works, it can accurately point out the direction of our target.” Xiao Zhao scratched his head and said, “It looks a bit like the magic jade in the fantasy novel. But this is impossible. Well, it is estimated to be the latest agent tracker developed by the National Secret Agency. “

“Even if it is the state’s confidential equipment, it will be exposed for a group of poachers, and experts will be sent to supervise the mission.” Lao Li’s eyes were a little serious, “You think those leaders in high positions are full. Are you okay? “

“Then what is the reason for your analysis, Brother Li?” Xiao Zhao was suddenly excited. “I’m also a little bit surprised when you say that.”

Lao Li hesitated and said, “Actually, I’m not sure. After listening to the old leaders drink a lot of wine, I accidentally mentioned that the country has such a secret institution. They are powerful and have mysterious styles. They deal with some ordinary people. The incident. Although the mysterious institution, although not known to outsiders, they belong to the “upper” direct leadership. “At the end, his voice became lower and lower.

“Old Brother Li, you mean.” Xiao Zhao’s voice showed a little excitement, “The two experts who came are ...”

“Hush ~ I didn’t say it.” Lao Li smoked slowly and said innocently, “It’s all chatting, chatting.”

At this moment, a sneer came from behind them: “I said your policemen have been staring at us for a long time, but they haven’t acted. What kind of **** brick house are you waiting for?”

“who!?”

Lao Li and Xiao Zhao hurriedly pulled out their guns and turned back.

But one step later, a scarred man wearing a military green vest jumped from the window like a tiger, kicking Lao Li with a kick. Then his wrist flipped over, caught Xiao Zhao’s arm, grinned cruelly, and snapped.

Click ~

Xiao Zhao only felt a sharp pain in his arm, screaming and fell to the ground.

“Xiao Zhao.” Old Li just wanted to get up in despair, the black hole’s muzzle was already on his head, and there was a grinning smile from the scarred man in his ear: “I advise you to be honest. “

“Are you a member of that criminal gang? Do you know how guilty of assaulting the police and seizing the gun?” A drop of cold sweat slipped from the forehead of Lao Li, but he still insisted on saying, “Look at your age. If you are obsessed, you will fall deeper and deeper. I urge you to surrender early, redeem the merits, and strive for leniency. In the future, you will have the opportunity to be a good man. “

The scarred man was ignored. With a sneer, he paid the old Li’s gun and sat down leisurely. Picking up the mysterious jade pendant with green awns, I said excitedly: “I’m still wondering, how do you little policemen stare at us. Tell me honestly, what is this thing, what’s the role? Also, what kind of **** When will the experts come? What is the way to contact you? “

Old Li lifted up Xiao Zhao and was glared at by the scarred man, as if being stared at by a fierce beast, his coolness rose from his heart. Secretly whispering, this guy is so strong and imposing. If all of their criminal gangs are such terrible characters ... No wonder, they will send experts to deal with the case.

“We don’t know.” Lao Li gritted his teeth and said.

“Oh, my favorite is hard bones.” The scarred man licked his lips. “But I have served in a foreign army, and more than twenty people have died on my hands. My favorite is to do it. The thing is torture. I like to listen to the sound of those hard-boned guys, whose bones are broken by me. This sound is really, so beautiful. Ha ha! “He stepped over step by step with bad intentions.

The strong murderousness made Xiao Zhao and Lao Li froze, and his body was soaked. As criminal policemen, they have never caught some murderers. But compared to the murderers, the murderers are like good babies.

“Give you the last chance, what are the names of the two **** bricks? How did you get in touch?” The scarred man grinned coldly, and his rough fingers caught Lao’s arm. “I can’t wait anymore.”

“Can’t wait to go to jail?” The voice of a young sunshine rang loudly.

“Who is it?” The scarred man turned angrily, and the gun was pointed at the source of the sound. But he couldn’t help but froze for a while, because the person was wearing a loose white T-shirt with a white face. It looks like a tall, clean and handsome big boy in sunshine.

But with a big hammer on his shoulder, he felt a weird, inconsistent. Provoking the scarred man to twitch straight, he asked fiercely, “Who are you?”

Wang Yan showed a bright and friendly smile and pointed to his face and said, “Me? That’s the ***** expert you said.”

...

The Domestic Hero - Chapter 39

...

The scarred man was stunned, and then he laughed. I just dismissed the words just now, but I still have some small worries in my heart. I am afraid that the experts sent by the country are very fierce.

Old Li and Xiao Zhao were also stunned, this, this is the long-awaited expert? It is totally different from the imagination. If you encounter it elsewhere, you might think that a newly debuted male ***** star has gone out for a stroll.

What made the two of them even more sweaty is that you, the expert, are here. Why do you want to play so well? Sneak attack, take Lengzi to give this bad guy a fierce okay?

When it was over, the whole army was wiped out.

and many more! its not right! ? There are two experts dispatched this time.

Could it be said that this expert is a bait ...?

Okay, good strategy!

Before the two policemen were excited, the scared man's laughter stopped abruptly, and he looked around cautiously and said, "No, the police said, there are two experts. Boy, how about your associates? He came out. "

This is in trouble! Old Li Xiaozhao glanced at each other, and could not wait to put a mouth on himself, calling his mouth so cheap that he didn't know that the wall had ears? Now let the criminals know the information, it's over ...

Wang Yan shrugged his shoulders calmly, and said honestly: "First, the word" colleague "is generally used to describe criminals. Our popular name is colleagues. Second, I guess she is still stuck in the cross-sea On the bridge. "

"Boy, do you think I am an idiot?" The scarred man snarled fiercely, striking Lao Zhao's head with a gun, "First, call you associates, no, colleagues come out immediately. Second, take you The broken hammer is on the ground. "

"First, I won't summon from a distance. Of course, it won't do from a short distance." Wang Yan sighed and looked at him sympathetically. "Second, are you sure I want to drop the hammer?"

"First, your first one !? Boy, don't think that your mouth is slippery, you can take care of your head, and you can take care of me, and make me scratch your handsome face." In addition to the fierce scarred man, holding the double The gun, his eyes glanced cautiously, "Throw away your hammer first, otherwise I will shoot this policeman with a single shot."

"Don't be impulsive, I lost it, wouldn't it be enough to lose this broken hammer?" Wang Yan held the hammer's hand and slammed it, and the hammer rolled over and fell to the ground.

Everything looks normal.

But when the hammer hit the ground-"Boom ~" with a loud noise, the concrete floor was directly smashed into a big pit, and the scum splashed around.

Such unexpectedly exaggerated sounds and visual effects instantly attracted everyone's attention.

Especially the vigilant scared man, he was stunned for about a second.

One second is very short for ordinary people. But for real masters, there are many things that can be done in one second.

After so many days of training, after all three Nedan essences have been injected, Wang Yan's comprehensive physical fitness has continuously exceeded the limit. In the last test before leaving, the 100-meter speed had already exceeded the five-second mark.

The top speed exceeded 27 meters, and the start speed reached an astonishing 23 meters.

The distance between him and the scarred man is only 6 meters.

Wang Yan's body swept through a series of afterimages. For a quarter of a second, the scarred man had not recovered, and his chest was hit by a high-speed car.

“Boom ~” A muffled heartbeat!

The body of the scarred man of seven hundred and eighty pounds flew out like a broken sack, and his back hit the wall hard. The double-handed pistol also flew to the corner.

The poor strong man stuck it against the wall for a full second before sliding down the wall to the ground. His eyes were white and his body twitched conditionedly. Eyes, nostrils, and mouths all gurgled with blood clots.

There is a depression in the chest, apparently several ribs have been violently broken. No, it was broken!

This trick sprinted into the shoulder, Wang Yanlin also tested it before departure, and the explosive force reached a terrible 2103 kg. And the force area is completely concentrated on the size of the slap.

Even if it is a sturdy cow, it has to be hit on the side, so it has to fall down.

What's more, it was a human being.

died!

Just now, the brave man with a daring scar, stopped his breathing with a crooked head.

The first time he murdered, Wang Yan's heart was throbbing. I took a cigarette and lit it up, and took a deep bite before calming down a bit. Fortunately, before killing a coquette, it was still a humanoid beauty, but it was not too uncomfortable.

What's more, this kind of fierce criminals, killed on the spot can be regarded as the people's killing.

The two police comrades did not seem to react until this time. Xiao Zhao swallowed and said stutteringly: "Wild, brutal collision! Brother, buddy, how many levels are you? Had there been a fire?"

Just a moment ago, it simply refreshed Xiao Zhao's outlook on life and world. The brutal collision in a certain game is already domineering enough. But this buddy, more fierce than in the game, instantly killed people.

"Savage Clash? This is a good name. In the future, this will be called a brutal clash." Wang Yan froze, then said with a frown, "What's the fire?"

"The fierce swordsmanship, the signature skill of the warrior level 35." Xiao Zhao said with a quivering smoke, "Have you never played the blood legend?"

"I've heard of it, but I haven't played it." Wang Yan shook his head and said, "My classmates and I have played more together."

"We are not a generation, buddy, you are quite young."

As the two of them logically chatted about the sky, the older Lao put in a sentence: "What do you have to do? When I was young, I used a recorder to play break dance. Wait! Topic Why is it so far?"

“He hurriedly wiped his sweat and straightened his body.” You, are you expert Wang? I talked to you by phone. “

“Oh, Comrade Lao Li, hello hello.” Wang Yan shook hands politely with him, “Sorry, sorry, traffic jam on the road, came late.”

“It’s not too late, if you arrive in time, Xiao Zhao and I will ...” Old Li was ashamed and grateful, holding his hand, “Thank you, thank you so much.”

“Man, how is your arm?” Wang Yan asked, looking back with concern.

“It’s okay, it’s not the first time I broke my arm, just go back and pick it up. Expert Wang, you are so fierce!” Xiao Zhao finally came back, clutching his broken arm, although it hurt so much. Sweaty. But he still thumbs up and said, “Serve, I really do. It is worthy of the expert sent from above.”

“Oh, so sloppy, it’s more powerful than me. It’s still not the king expert Wang expert called, it sounds weird. Everyone is serving the people, they are all their own family.” Wang Yan said with a kind face. , “The two still call me Xiao Wang, eh, right.” Speaking of which, the most annoying polite words in Wang Yan’s life is that you still call me Xiao Wang ...! Therefore, I usually like others to call myself Xiao Yan. But now in the mission, the real name is not allowed to leak ...

“Then I’m welcome, Comrade Xiao Wang. By the way, what about another Guan expert?” Lao Li looked around and asked suspiciously.

“Don’t you just say? It is estimated that she is still stuck on the cross-sea bridge at this point.” Wang Yan said with a straight face after he said, “How are the two comrades, the poacher’s situation? Before leaving. The leadership has repeatedly explained that this task is related to national security and cannot be tolerated. “

“Comrade Xiaowang, let me explain to you in detail.” Old Zhao Lima looked serious and took Wang Yan to describe it.

The three began to squat together, smoking cigarettes while talking about the details of the task.

...

Almost at the same time, on the bridge across the sea.

“Bomb, four tips!”

“Wang fried the tube, and then five, six, seven sisters, one three. Little sister, you lost again.”

I don't know which boring driver set up a table, and a bunch of people fight the landlord.

Guan Nuo was obviously out of luck, and his pink face was covered with white paper strips. The sea breeze blew and rattled. Thinking of the sadness, she could not help but humming again. Stinky Wang Yan, bad Wang Yan, actually left Miss Ben here.

All terrain buggy!

The more Guan Nuo looked at his new Range Rover, the more angry he became. At a critical moment, it is not as good as a broken bicycle. I really want to kick it into the sea.

...

The Domestic Hero - Chapter 40

...

Dilapidated seafood storage factory.

A bearded man in a camouflage T-shirt, sitting diagonally on a wooden box. His wrist shook, and the wiped hunting knife pulled out a swaying knife flower, and was inserted into the leather sheath. His eyes squinted through the cold color.

“Senior Deng, the scar has not returned yet?”

Lean Deng, the lean man, hesitated and said, "It should be very easy to remove the small tails by pressing the skill of the scar. Perhaps it is addiction and torment. For the boss, do you want to send someone to find it? He comes back? "

In order to avoid leaking whereabouts, being monitored or the like. The criminals did not have ordinary communication tools such as mobile phones when they were operating. Only use the satellite phone for external contact.

"No, the FBG company's people are almost here." The bearded hand waved and commanded, "Let all brothers enter the ambush point just in case. Wait for the fourth son, you follow me to prepare for the FBG company."

"Yes, boss."

at the same time.

A standard fisherman's fishing boat slowly docked on the small pier of the fishing village in the boom of the engine. Like this humble little pier, the entire coastline is unknown. It is extremely unrealistic to want complete monitoring.

The waves slammed against the pier, and the dangling fishing boat walked down five people one after another. Four of them are Asian faces. They are all in suits and leather outfits and dressed as a senior white-collar worker. Only the last man in a black vest and jeans and a peaked cap was a white Western man with a scum beard.

He is tall and naked, with exposed arm muscles and distinct pieces, and a wolf head tattoo on his arm. Although the fishing boat undulated along with the waves, every time the white man took a step, he seemed to have roots under his feet, as steady as Mount Tai.

His brown eyes swept at random, and he seemed to feel a sense of danger.

After all five of the party got out of the boat, they walked straight to the dilapidated factory not far away.

As soon as he stepped into the factory building, Mao Beard greeted him and smiled heartily: "Wolf, my brother. This way, you are working hard."

The white man, Wolf, politely embraced him and went straight to the subject and said, “Zhang, what I want.” His Mandarin is very common, but understandable.

“Wolf, this is not the first time we have cooperated. Do you still know my abilities and credibility?” Mao Beard led him to the middle of the factory inadvertently, lifting the tarpaulin cover to reveal a stainless steel cage.

The ferret in the cage squeaked with a “squeak”, curled up into a snowball, and the pitiful trembling shivered.

Wolf took off his cap and squatted down, his dark brown eyes carefully watching the ferret. Then he took out an instrument and continually tested it against the ferret. After half a minute, he nodded with satisfaction: “It is indeed a purebred ferret, very spiritual. According to your China country, this little demon already has It ’s been a hundred years. “

“That’s of course, this ferret was sneaked into Daxueshan by myself. It took half a year before and after.” Mao Beard said proudly. “I dare to pat on the chest. No one but me. Can sneak into the forbidden area of Daxue Mountain and trap a spiritual ferret. Wolf, since you have checked the goods, please send money to my account. “

“Our company is very interested in this ferret, but ...” Wolfe nodded indifferently, “our company also likes your particular gene.”

“What do you mean?” Mao Beard’s complexion changed, and he took two steps backward cautiously. As soon as his wrist shook, the sharp hunting knife was already sheathed.

“Zhang, don’t be nervous.” Wolfe smiled with sharp teeth. “I heard that you were originally a forest hunter. One day, you stumbled and fell off a cliff. The result was not only dead, but also caused a genetic mutation to become an awakener. Your body becomes stronger and faster, and you also have a special ability-‘Environmental Fusion’. I heard that once you use the special ability, you will be fully integrated into the environment, even the smell It will dissipate. This is a great ability, but you only use it for hunting. “

“It seems that your FBG company has investigated me very clearly.” Mao Beard’s face was a little ugly, and the hunting knife was on the cage. “The money hit my account, and then took your goods.”

Wolf didn't care to make a gesture, and a suit man took out a mobile phone and quickly operated it a few times. Then Mao Beard contacted the overseas bank with a satellite phone, and his face was better: "The money has been received."

"Okay, let's talk about the next business. Our company needs you 500ml of blood, and the price is not lower than the figure just now." Wolfe licked his lips with cold eyes.

Mao Beard felt cold, and of course he knew what FBG company wanted his blood to do. Although it is unlikely, but what if they have discovered the secret in their genes?

Don't sell, don't sell firmly. Mao Beard made up his mind to say, "Walf, I'm not too poor to sell blood. Now that the deal we have agreed is completed, please leave with the goods."

"In your Chinese language, this means toasting instead of eating fines." Wolf's evil grimace laughed. "Since you don't want to give it, then I have to take it by myself."

The word "了" came out.

He grabbed his hairy beard, and on each finger, a strange half-foot claw grew strangely.

Mao Beard's reaction and speed were not slow, and his skills swept backwards very agilely, tumbling and hiding behind the box after landing. Touching his chest, he was shocked to find that he had three claw marks.

"Boom!"

Then the two sides entered into conflict, and the back of the furry mustache was started. The men launched attacks from various ambush points, and for a time the guns were loud.

"Hey." Wolf shook his body, evading a few bullets like a ghost, hiding behind a pile of dried seafood. The changes in the body continued, thick black hairs continued to emerge, the body arched forward, and the fangs in the mouth stretched out.

"Oh!"

Howling wolf.

His few Asian faces also showed extremely strange changes. The body twisted into a black wolf with scarlet eyes.

They are as strong as calves, bullets hit them, and blood spatters suddenly.

But this did not stop them, howling one by one, jumping to the ambush points.

“Help, monster!” Although Mao Beard’s men are all murderers who do not blink. But he has never been in contact with such a terrible scene. After being caught by the black wolf, he screamed one by one.

Especially the fourth elder Deng, who looked pale and wanted to flee. But he was directly fell to the ground by a black wolf, ah whipped his neck.

“TMD, bastard.” Mao Beard was soaked in his body, holding his breath. As his special ability started, the surrounding air twisted. Something amazing happened, his body gradually twisted and merged into the environment.

Even the odorous molecules of blood disappeared from the air.

Wolf is different from his men who turned into black wolves. He maintains the shape of half man and half wolf. The whole body is covered with thick black hair, the muscles are rock-solid, the arms stretch like an ape, and the claws extend a full foot.

He licked the blood on Feng Rui’s paws, and Sen Han’s eyes were full of excitement: “Zhang, I already remember your smell, you can’t escape it.”

At this moment, a huge horn shouted outside the door: “The people inside listen, you have been surrounded. Immediately dropped your weapon and raised your hands to surrender.”

The sound was from a SWAT van. Two heavily armed SWAT teams are standing by in a standard tactical posture.

In addition, there are seven SWAT teams that have all been separated, and the dilapidated factories have been sealed off.

The commander is a majestic middle-aged policeman. He turned around and said: “Expert Wang, poachers and foreign hostile elements have all been surrounded. Please indicate the next step. Do you need to prepare an armed assault !?”

Wang Yan frowned, and with his excellent hearing, he naturally heard the sounds of howling wolves. Where is there any wolf in this coastal area?

He also vaguely heard the words that those people shouted before he died.

“Director Qian, don’t act rashly for now.” Wang Yan knows that there are some monsters in this world that ordinary police can’t deal with. “Continue to surround, I’ll check it out first.” Someone sacrificed it.

It is now.

Suddenly, with a bang, one of the glass in the plant blew up to the ground.

A black wolf with a small calf sprang out of the window. It was covered with blood, and its speed was incredibly sensitive. It rushed towards the SWAT team with a ghostly spirit.

The distance between the two sides was only a few tens of meters, and when the special police responded, it had burst out of the 20 meters.

“shot!”

The SWAT team leader screamed.

Suddenly ~ the bullet pours towards it. But it leaped sideways sensitively and got into the grass. The bullets all hit the sand, and countless dust splashed.

After just two seconds, the black wolf jumped up from the side grass piles, and the distance of just seven or eight meters was instantaneous. Opening his mouth wide, showing Han Han's teeth, he bit into the throat of a special police officer.

The special policeman was so tight that he froze in a cold sweat. The strong fear made him unable to move half his fingers. Even, he could smell the stench in the black wolf's mouth, even if he was unable to fight back with a gun.

Just when that special police officer was about to die from a wolf kiss.

“call!”

A heavy whistling sound ripped through the air.

The black wolf leaping in mid-air was hit by a sudden hammer.

“Boom!” The ground mumbled.

The black wolf uttered a sigh, stayed in the air for half a second, and then flew out for more than ten meters before hitting the ground obliquely. In the middle part of its body, only the skin and flesh are still connected, and the bones directly hit by the hammer have been broken. Even without the extra screams, he screamed directly.

The special police for the rest of the robbery stared at the young man who appeared like a ***** of war and appeared in front of him with a hammer. His heart was shocked.
