

D. Hero 91

The Domestic Hero - Chapter 91

“What did I do?”

“Abducting women, threatening the government, rebelling against law enforcement agencies.” Wang Yan broke his finger and said to him, “Every crime you committed here is not light. I shot you on the spot, which is also legitimate. “

As soon as he heard the gunshot, the carp spirit glanced at the super sniper rifle, swallowing in a guilty conscience, and said, “This lord, can I look down on the meritorious part of my guardian, and take it lightly?”

His response made Wang Yan secretly applaud. Sure enough, the negotiation of such things must be based on fist. At that time, the US emperor did not say that he dropped two atomic bombs to Japan and directly surrendered.

Think about it, if carp essence prevails now, prestige. Where can I talk so arrogantly?

“It’s not impossible to say something lightly.” Wang Yan frowned and said with his hands behind his back, “So, it’s not easy to read your way, and you have been conscientious for hundreds of years. This crime is also confusing to the adulterer , Just betray you and be imprisoned for 300 years. “

Three or three hundred years! ?

The carp essence originally listened to Wang Yan’s words and felt hopeful from the light. But his face changed when he heard about 300 years of imprisonment. And that demon prison is not a good place to hear.

“Lord, sir.” The carp is like an eggplant with a stubborn face, and said with a bitter face, “I was in the lake since I was born, and my hometown is hard to leave. let go?”

“The law is not a child’s play.” Wang Yan said with a staring eye.

“This ...” Lei Jing sighed in disappointment. “Okay, since I did something wrong, it will be three hundred years after being shut for three hundred years. I hope I can come back and check here again ...”

This guy is really an honest monster, and he doesn't even ask for pleading! Wang Yan had to squeeze his chin and pretended to be embarrassed, saying: “Fuck, see you pitifully, I'll help you again. Even if I'm scolded for a fight, I'll help you to ask for love. “

“Thank you, sir.” The carp's dead eyes gleamed with glory, and said inexplicably.

Wang Yan gritted his teeth, took out the phone and dialed the telephone in the bureau, and began to pretend to be pleading. Feng Yuande on the other side of the phone wondered, when should he severely fine the carp essence?

The kid made it clear that he wanted to treat himself as a bad guy. Feng Yuande, a well-established man, immediately dressed up on the phone. The one on the left said that carp sperm violated national laws and must be dealt with according to law. The one on the right says that even the death penalty is exempt. Living sin is also hard to spare, and it is inevitable that demon prisons serve their sentences.

Wang Yan was so kind, he begged hard. I hope that the carp essence can serve his sentence in Danghu Lake, do more good things for the people, and accumulate more virtue.

The entangled Feng Yuande said angrily: “You put a monster that violates the law in Danghu. What if he is fierce and one day, what will happen to the people of Li Min?”

“I'm willing to protect him and take joint responsibility.” Wang Yan filled his face with indignation and seriousness, “Director Feng, this carp spirit demon is really good, and he helped fight the Japanese devil back then. So, even if you do it again Scold me, and I want to protect him too. “

In order to let the carp essence listen to the truth, Wang Yan is talking in hands-free.

The carp essence on the side, already heard tears, was grateful to Wang Yan. This adult is really a good person. In order to be acquainted with each other, he was willing to be punished for such a guarantee.

“Well, Wang Yan, I’ll give you a chance.” Feng Yuande was violently violent on the other end of the phone. “If the carp essence dare to do anything again, I won’t let you eat together.”

Dudu ~ Feng Yuande, who was a wicked man, put down the “cruel talk” and hung up the phone aggressively.

The carp stared at Wang Yan staring blankly, and gave him a deep hug with tears: “Master Wang Yan, you will be my brother in the future. Whoever dares to bully, I will not spare him first. Woo ~”

“Remember, don’t break the law anymore.” Wang Yan patted his shoulder with deep affection and said, “I’ll ask you to drink alcohol when I look back, and give you the terms of the coexistence of shemales.”

“Uh huh! Sir, what you say, I will listen.”

“You’re all called brothers, what kind of person is it? If you don’t dislike it, you can call me Brother Wang. By the way, our brother’s feelings belong to the brother’s feelings. The procedures to be done can’t be less, you are a Wild monsters must be registered. Name!”

“My name is Danghuhushen.”

“It’s a nickname, but it’s not possible to register. It’s easier to get a human name, so it’s easier for you to apply for your ID. So, if you are a carp, you’ll have the surname of Li. The most prominent thing about carp is that it’s just a jump Hualong, you call it Li Hualong.”

“Li Hualong, good name, good name. Brother Wang, are you also a scholar?”

“Uh ... barely graduating from college ...”

“It turns out that Wang Xiandi is a college student, a pillar of the country, and admires it.”

Wang Yan is speechless, can college students be called Guozhi Liang these years? But it doesn’t matter. Then he asked again: “How old is Brother Li?”

“Probably six hundred and forty.”

“This ... you will be registered on your ID card in 1975 and will be 40 years old this year.”

After the registration of several key data, Wang Yan asked someone to take a chip from the helicopter and hit Li Hualong inside. This chip will generally not start, if Li Hualong really committed any cases and escaped. You can start the chip and track him. This is just in case.

Then Wang Yan shook his hand and said, “Brother Li, congratulations and congratulations. Starting today, you are a demon with identity.”

“Oh, thanks to Brother Wang Xian.”

“Brother Li, do you like this phone? I will give you one later.”

“Why, how dare you be? How much, thank you Wang Xiandi.”

Liu Baomin on the side looked dumbfounded. Not long ago, both sides were still fighting to death. Why is this a flicker, one person and one demon are already good brothers?

Nan Lian floated on the water, looking like a smile on the corner of her mouth. This kid, I am afraid that the strongest is not the power, nor the flame. It 's fooling, right?

The coquette was actually killed by him. In the match with Wuya Ange, Wuya Ange was also fooled by him.

Only Lei Hong, whose hair style was not messed up, continued to look cold, posing a posture that had nothing to do with him no matter what happened.

“Brother Li, I will continue to ask you to take care of this lake in the future.” Wang Yan said solemnly.

“That is of course, I will keep this side safe.”

“My parents live in Xiaonanshan. I often travel away from home, and I have to ask Brother Li to take care of me.” Wang Yan said in the end, finally revealed his true intentions.

In fact, it takes so much effort to conquer this carp sperm. First of all, he is regarded as a demon. He is only a good monster with responsibility, and he can't bear to be killed or imprisoned. Secondly, if he can be subdued, the safety of the lake is assured.

This is a monster with a B rating. Wang Yan felt that it was really safe for him to protect his parents.

Sure enough, as Wang Yan expected, the carp essence Li Hualong said solemnly: “You can rest assured that your parents are my Li Hualong's parents. Even if this life is spared, they will be protected from harm.”

Wang Yan is also very convinced of this commitment. Although Li Hualong is a little stunned and has been out of touch with modern society for too long, he is definitely a monster with loyalty. Seeing that he worked so hard to avenge his hatred for “Catfish Sages”, he knew that he was very affectionate.

After dealing with Li Hualong's affairs, Wang Yan asked him to find a place to heal first, then turned back to him and talked with him to describe his feelings.

After he left, Wang Yan turned to thank Nan Nan and Lei Bang, “Thank you Nan Nalian and Lei Bang brothers just now.” He knew very well that if they were not helped by their crackdown, he would definitely not be able to deal with a B Level monster.

“It's okay, I still take your light.” Nan Lian floated onto the fishing boat. “This time will take a long time, but it is a simple and high-level B-level task. What about meritorious service?”

As for Lei Hong, he nodded to Wang Yan.

“It's all here, it's better to go to the house for a meal and then go.” Wang Yan suggested.

“No, we have to rush back immediately.” Nan Lian shook his head. “The blood angel leader task has been judged as a B-level task, and the manpower is very tight. The blood angel leader is not as dumb as this one. Wild monsters are very difficult and cunning. Lei Hong and I came to support you temporarily, and we need to rush back immediately. The follow-up things here will be left to you.”

“Nan Lian and Lei Hong brothers have gone all the way.” Wang Yan said goodbye to them, and watched the three armed helicopters drifting away. Then I remembered that there were eight girls on the cliff of Huxin Island.

Driving the boat all the way to the island.

Wang Yan climbed up with agility, and somehow he was blocked by several girls as soon as he reached the cliff. One of the apple-faced girls came in spite of the danger.

Seeing that the cliff behind is not easy to hide, Wang Yan let her hug her face in resignation.

“Gosh, I’m so lucky.” The apple-faced girl fainted in excitement. “Sure enough, prayer is effective.”

The rest of Yingyingyanyan also screamed and said thank you for the life-saving grace, and then took the opportunity to rub up various oils.

“Hey, don’t everyone touch it, will you?” Wang Yan sweated in a waterfall, and suddenly, Yu Guang glanced at a figure in his eyes. Suddenly, he seemed to be struck by a thunder and froze on the spot.

Xiaowei!

...

The Domestic Hero - Chapter 92

...

At this time, the dark clouds had dispersed. The clear sunlight sprinkled on the lake. The sound of the waves was shimmering.

Wang Yan never dreamed that his reunion with Xiaowei would be in this situation! After hitting a monster boss, and then being held by a group of girls, she met her ex-girlfriend.

A drop of cold sweat!

Fortunately, this group of girls is probably because their mood was too excited after being rescued, and their behavior was a little bit out of the question. After the emotions vented, he stepped back automatically.

However, those eyes still glanced at Wang Yan, and there were a lot of signs that he was going to eat him.

“Xiaowei, me, do we have to take the opportunity ...” The glasses girl was a little embarrassed to see that Xiaowei didn’t move. But now the opportunity is really rare.

Who knows Xiaowei lowered her head, bit her lip, and squeezed the skirt in her hand, motionless. This made the glasses sister anxious, and it was too rare to miss the opportunity.

“Uh ...” Wang Yan grinned and said with a cigarette, “Xiaowei, I haven’t seen you for a long time.”

“Okay, I haven’t seen you for a long time.” Xiaowei lowered her head, and some dare not look at Wang Yan. “You, you have changed a lot recently.”

Yeah, the changes are quite big.

Wang Yan was dumb and sighed helplessly. Recalling the changes over the past few months, it really made him feel like an illusion. Facing graduation, looking for a job, falling in love, decadence, looking for a job, etc., the drastic changes made him a fledgling young man quickly transformed into a childish spirit.

He thought that if there was no chance to help the old lady to get up, there was no chance to become a awakener by chance. Maybe you are still riding a tricycle today, and you are sending kits from store to store? Perhaps, you will find a new job and start slowly and hard.

“You ...” Xiaowei bit her lip, her face slightly pale, and said, “You, you must be blaming me?” She didn’t know why she said that.

“It was a little at first.” Wang Yan chuckled lightly and said honestly, “But I want to understand later, which mother does not want her child to live a better life? If I insist that you be between me and my aunt, It ’s too hard for you to make a choice. “

“Wang Yan, me, yes ...” Xiaowei’s eyes were reddish and he whispered to apologize.

“It’s okay.” Wang Yan shrugged and stopped, saying, “It’s all over. You can rest assured that I won’t hate you. By the way, I heard from my classmates that my aunt arranged you for a blind date? How? , Is that man nice to you? “

Xiaowei’s eyes were red, two tears slipped down, and he nodded choked with choked voices, “It’s pretty good.”

“Then I’m relieved.” Wang Yan smiled lightly and smiled very brightly. “When I get back to get married, let me know. I will let someone go for a gift.”

Xiaowei opened her mouth and wanted to say something.

Two more helicopters flew straight into the sky, but these two were armed transport planes, and secret agents came to do tail-cleaning.

One of them flew over first, slid down from the back cabin of a secret agent wearing a black uniform, and trot all the way to Wang Yan to salute: “The chief, Tang Jianye, the captain of the special six team, came to report, please ask the chief to give instructions.”

In the National African Affairs Bureau, superpowers who are fighting on the front lines have always been the core. And the secret service teams are all doing various auxiliary work. Therefore, the secret service staff will respect the superpowers very much.

But don’t underestimate the special agents of the National African Affairs Bureau. Each of them is the elite of the elite in the army. They belong to the elite special forces level and almost reach the limit of ordinary humans, but they have not awakened to become superpowers. If we only discuss some military qualities, Wang Yan cannot match them with long-term training.

Wang Yan returned a solemn ceremony seriously, and then said with a smile: “Captain Tang, I have to trouble you again.” It was yesterday that Tang Jianye came to deal with the follow-up incident.

“You are too polite, you have a lot of soldiers in our Secret Six team who adore you. It is our honor to assist you in carrying out your mission.” Tang Jianye said solemnly, “Please ask the head to instruct the next move.”

Tang Jianye didn't lie about this. Wang Yan didn't join the SAA for a long time as an awakening superpower, but some of his outstanding performances and records have been widely circulated in the bureau.

The people of the Secret Service, not all superpowers, will worship and respect. Only those who are not afraid of danger and can fight in the first line of life and death can admire and respect them.

As for those superpowers who take some dead wages, eat all day and wait for death, they will feel contempt. Some superpowers will be given different talents tomorrow, and their strength is not weak, but they are greedy and afraid of death, willing to be a turtle.

“Captain Tang, these girls were all kidnapped by the target.” Wang Yan pointed to the girls and said, “Everything is handled according to the rules and regulations of the bureau.”

“Yes, Chief.” Tang Jianye picked up the communicator and directed the secret service personnel on the helicopter to come down to respond. This desert island has no flat ground for helicopters to dock, so they can only lower the rope ladder and let them climb up.

“Wang, Wang Yan. This, this is ...” Xiaowei and several other girls were nervous. I don't know what these secret agents are going to do to them.

The girls with big brain holes have already thought about whether they will know too much, catch them and kill them?

“You can rest assured, this is just a normal incident handling process.” Wang Yan was patiently explained by the presence of Xiaowei, “There will be some experts to help you check the physical and mental health, and need to sign some confidentiality clauses. Everyone knows that if what happened today is spread, it may cause unnecessary social panic. “

“Male god, we believe in you.”

“Handsome guy, my mental state seems to be a bit problem. Can I apply for you to help me with psychological counseling?”

“I want it too, so do I.”

Tang Jianye took a few secret service personnel to block up: “Please be quiet, please follow us one by one.”

Ten minutes later, the two armed helicopters circled in the air for a week before leaving.

On the plane, the girls surrounded Xiaowei and started various interrogations. It seems difficult for them to understand that, even if she is a boyfriend of the male **** level like Wang Yan, she would even give up the scorer?

...

At the same time, Wang Yan sailed here and sent Liu Baomin to the ancient town wharf. Then drove the boat to the center of the lake, lying on the deck, watching the lake and the sunset glow against each other, the scenery is beautiful.

At this time, his heart, like the waves of the lake, is rippling.

“Squeak ~” As if feeling the waves in Wang Yan’s heart, the little ferret arched his fluffy head and rubbed his chest intimately.

“Xiao Xue is good.” Wang Yan patted it lightly and looked at Wan Xia to herself, “I used to hear that women are the best men’s schools. I always don’t understand it. Now I think about it, but I understand it at once a lot of.”

“Tell ~” Little Ferret responded.

“There are many things in life that are helpless. If you miss it, you miss it.” Wang Yan gave a cigarette and smiled bitterly. “When I saw Xiaowei today, I should be separated from myself in the past. I hope she will, Happiness and happiness. “

“Squeak ~” Little Ferret blinked his watery eyes, “Tell.”

“It’s impossible. Xiaowei and I are already people from two worlds.” Wang Yan stretched out his hands and smirked at sunset, and said with a smile, “Like this sunset, beauty is born because of the distance. Leave a trace of thoughts, When you get old, you can still take it out for aftertaste. “

“Go, Xiaoxue, let’s go home!”

The fishing boat started, and in the blue waves, dragging a long white water mark, all the way to the sunset to embark on a return journey.

...

A subway entrance in Huahai City.

An old man in a black and white robe, a neat figure, and a few wisps of flowing white beard, was sitting at the subway entrance with a little pony.

He half-closed his eyes and lightly stroked his beard, quite like the appearance of an old fairy. It’s just that the swaying brush words “Tiekou Straight”, “Three Proverbs in One Day”, “Don’t Accept Money” and other slogans on the Huangban signboard that he was inserted into the crack of the wall by his side. But it is the temperament of his rivers and lakes cheater, the most obvious.

“Girl, girl, your hall is red, and your eyebrows are scattered. I’m afraid your boyfriend is suffering from blood damage recently.” The old fairy said to a young girl, shaking her head.

“I don’t have a boyfriend.” After a little surprised, the young girl suddenly punched in the face of the old fairy with an angry whisper, “Old rogue, is Huang Duanzi fun? There are no cucumbers, no carrots in my house, and nothing more Eggplant. Stinky rogue! “

After scolding and finishing, she went away. Only ten steps later, she shook her hand. She just twisted her fist to the ***** just now, and there was some old fairy nose blood on it ...

Then she froze for a moment, flushed, and hurriedly hurried to run.

...

The Domestic Hero - Chapter 93

...

Leaving the old fairy alone with a bleeding nose, he groaned innocently and said, “What a yellow paragraph? I’m really out of it. Now in the society, who are these people? Don’t give money or hit people Right? “

“Oh, the old fairy is really straightforward, or help me?”

I don’t know when the bursting bear and the Scud appeared around him, and both of them laughed insignificantly. Obviously, the scene just looked at him.

“It turns out to be you two?” The old fairy wiped his nose with his sleeves and recovered his calm face. He said, “I’ll count it for you. It must be that Old Man Feng has encountered a problem and asked you to Two come and invite me. “

“Old fairy, it’s a gossip, isn’t this a clear-cut thing?” Scud said with a smile. “Why don’t you do it for me? When can I talk to my girlfriend?”

“How old are you?”

“Thirty-five years old ...”

“In the first half of your life, don’t expect it. But in the second half of your life ...” The old fairy looked like he was talking.

Scud quickly pulled out a red ticket and sent it. Although it was distressed, he smiled and smiled: “Old fairy, have I started to move the red luan star recently, and began to transfer? More girlfriends in the rest of my life Not finished? “

The old fairy touched his face calmly, the red ticket disappeared in his cuff, and the iron mouth straightly said: “You will get used to it more and more in the rest of your life.”

“I’ll just go!” The hairy legs were pale and shaky, and tears twirled in their eyes. Because he knows that the old fairy iron mouth is straight, there is always no wrong reason! It seems that his life’s hang ~ silk destiny is already doomed.

“Haha, let me tell you, you have no hope.” Bong Xiong said with a smirk on his face, “Sister Zeng Ling is so intellectually revealing a charming woman, how can you look like you are thin?” Middle-aged uncle? Even if she is looking for it, she has to find a man of my stature, who is as reliable as a big mountain. An old fairy, help me count as one. “He said, he pulled out generously A lot of money.

Who knows, the old fairy didn’t lift his eyelids, pointing to the words “Three Pros in One Day” on the signboard streamer: “Today’s three trigrams are exhausted, please be early tomorrow.”

“Old fairy, don’t need to do this.” The bear and the hairy legs are dumbfounded. “How do we get back to the business? The old man is still waiting for you to help him.”

“No way, the rules passed down from the ancestors.” The old fairy picked up the pony and rolled up the signboard, which was considered a stall. Looked at the lad money that burst into bears covetously, “This world is getting harder and harder.”

“It doesn’t matter, Zeng Ling must have taken a fancy to me.” Bao Xiong said with a smug smile. “Scout, you can admit your fate. She cast a wink on me today.

“Clearly eyes!”

“Glamorous!”

“Blind eyes!

...

At this time, in the back seat of an ordinary bus, two women wearing sunglasses and peaked caps curled up on the seats. If carefully identified, He Ran can find that they are actually Shen Mengting, the president of the Shen Group, and Zeng Ling, the personal secretary.

Zeng Ling held a PAD in her hand and looked at the photos of the group above. She licked her **** lips and excitedly said, "It's really nowhere to be found through the iron shoes. I didn't expect him to go to the lake alone. When a male god, it is a godsend opportunity. The yang in him is really pure and exuberant. If you master him, you can be promoted again and become a pure-blooded blood angel. At that time, we will no longer be afraid of the State Council. Those people. "

"Ling slaves, don't underestimate the SAFE." Shen Mengting whispered indifferently, "As the world's top and counted superpower organization. The SAFE has always been a hidden dragon and a tiger, and the strong are like clouds. But even the SAFE will Qiang, Sinu Yunnu 's hatred, I must repay. "

"The abominable State and African Affairs Bureau, the abominable Wang Yan. He killed Yunnu and arrested Sinu." Zeng Ling licked his lips and said, "I will make him regret living in this world. I don't know Sinu. How is it and where was it held? "

"After waiting for Wang Yan's anger, I will be promoted again." Shen Mengting's eyes under the sunglasses flashed a hint of scarlet. "We grabbed a few members of the National African Bureau to change back to Sinu. Accumulate some strength and come back to revenge. "

"Wang Yan, Wang Yan, I can't wait for you to try it, I have Zeng Ling's methods." Zeng Ling whispered the hatred, "I will definitely make you want to die."

"Two beautiful women, where are you going to play?" At this moment, the two young people in the front row came over to chat.

"Let's go to Danghu to see the scenery." Zeng Ling took off his sunglasses and showed a sweet smile, "How about you guys?"

"We're going to Danghu too." The two young men laughed brightly. "It's a long journey, why don't you go together and form a team?"

"Wow wow wow." Zeng Ling's eyes showed a lingering light, warmly invited them to sit down together.

Within a few minutes, a faint **** smell filled the carriage.

...

Shanshuiren's villa area, Wang Yan's private dock.

A white fishing boat slowly docked under the setting sun. Wang Yan carried a big basket of big fish and jumped from the boat. Perhaps it was to figure out a lot of things and put down a big burden in my heart. His eyes were exceptionally clear, his expressions and movements were more restrained and calm.

The mother who washes vegetables on the lake beach and saw rice, when she saw Wang Yan, said: "You stink boy, it's been a long time since you came out of the lake. I can't get through your phone. It's really uncomfortable."

"Oh, mother. You can rest assured, I just go fishing, nothing will happen." Wang Yan said to mention the fish protection, "Look at what this is? Daqiaozui, Taihua, Are still alive. "

"Ouch, what a big fish." Mom said with a frown. "It's still pure wild. It's going to be sold in the vegetable market. It's estimated that there are hundreds of pieces. I will give you the fresh fish. Boil a soup, steamed a big mouth. I will pickle the rest ... "

In a few words, the mother assigned the fate of the fish properly.

As Wang Yan was happy with her, she handed over the fish to her. Turned around and asked, "What about Dad? Where did it go?"

"I was fishing hurriedly in the lake just now, but I caught a few kitten fish, which is totally incomparable with what you got back." The mother said in a hurry, "This is not nagging him a few words. After running angrily, the wild rabbit went to the edge of the mountain. They all said that the younger and the younger, they really lived and became smaller. "

"Is there a hare in this little Nanshan?" Wang Yan said slightly surprisedly, "The natural environment is really good." But ordinary people want to rely on a single shot to fight the rabbit,

which is basically a delusion. It is estimated that the father was bothered by nagging and went out for a lap for some reason.

as predicted. At dinner, the dad didn't catch the rabbit. Carrying a bag of oranges back home, he said it was sent by the orange farmer on the side.

At dinner, the mother habitually whispered him a few words. Wang Yan has been surprised for a long time, and the two of them are such a mode of getting along. If one day my mom stopped nagging, my dad would not get used to it.

After dinner, the family sat in the large living room and watched the sixty-inch ultra-clear TV. Nibbling seeds while eating fruits, while chatting together. Then the mother suggested that moving this new house would be equivalent to Shangliang.

The dad whispered, "Will this be too shocking?"

"What's the trick?" Said the mother hummily. "Whose relatives in our family buy a new house and move. Which one doesn't invite you to move wine? We all give gifts. We don't consider it excessive. "

"Mom makes sense. Our family moved a new house without asking for wine. Relatives and friends would whisper that we had money, so we raised our eyes and raised our foreheads. We didn't even know where the house was going." Wang Yan agreed. Tao said, "Normal relationships between family and friends should also be appropriate, there is nothing to sway."

"It's still our son who knows how to behave." The mother said in a conclusive voice, "Taking advantage of the son's vacation for a few days, I can do it quickly."

Rarely accompanied my parents to watch TV until more than nine o'clock, everyone went back to the room to wash and sleep.

When it was more than ten o'clock, Wang Yan was on the large terrace outside the room on the third floor, watching the stars in the sky and listening to the sound of the lake. He breathed for a long time, his heart was like water, and he slowly entered the state and began to practice pure Yang Shengong.

This is why he moved into a big house as soon as possible. The room at home is too small and the sound insulation is poor. Once practicing, it's not good to be disturbed.

Sister Nan Lian is already rated B-level, and Lei Bo seems to be also B-level, both of them are extraordinary in strength. In this world, there are no fewer masters hidden in various places.

Great boy, with such a good opportunity, how can he spend a lifetime in mediocrity? Wang Yan's blood gradually began to heat up and became hot. I hope that I will one day, I hope that I can become a master of this world.

...

The Domestic Hero - Chapter 94

...

Wake up overnight!

Wang Yan was naked with his upper body, and his skin was as red as a soldering iron. The morning dew dripping from the eaves was evaporated by a rising heat wave before he was close, and a white mist filled the upper part.

Take credit!

The redness of the whole body receded like a tide and was summarized in the lower abdomen. Wang Yan could clearly feel the fiery aura in his lower abdomen.

He slowly opened his eyes, glorious and restrained, calm and without losing the clear sunlight. The skin that faded the red tide was warm and jade but dense and tough. Once the muscles are strained, ordinary people may not be able to cut in with a kitchen knife.

Although Wang Yan has not tested it, he is confident that with his physical strength, some small-caliber pistols have become a threat to himself.

And thanks to the excellent comprehensive qualities of vision, dynamic vision, hearing, nerve reaction speed, body reaction speed, agility and so on. The ability to survive under the rain of bullets has already changed.

Hiding bullets is not just literally seeing bullets and then avoiding them. This involves the perception of danger, relying on obstacles and flexible speeds to make it impossible to aim, and predicting the other party's shooting moment to effectively avoid it.

With Wang Yan's current comprehensive quality, it is temporarily impossible to visually capture the bullet trajectory, and then the body makes evasive actions. This is too much test for dynamic vision, nerve reaction speed, and body speed.

But even so, Wang Yan, who is making a little progress every day, is not human enough.

He got up and put away an empty and delicate wooden box, and one of the C + grade inner pill essence had been consumed. Rao is Wang Yan's current big family, and also feels very painful. It's worth 30 points of merit, or a minimum of three million yuan.

A small C + grade inner dan essence is enough to make some wealthy families go bankrupt, or they can buy three sets of luxury apartments outside the wetland reserve.

If you let my mother know that she spent so much money in one night of practice, it is estimated that she will faint directly.

But the distressed feelings were distressed, and Wang Yan felt that it was all worth it. In this world, only strength is the real king. Money is important, but in the face of absolute strength, it is floating clouds.

Think about it, if one day one can become an A-level powerhouse, the ability to make money alone is not many times stronger than it is now.

Wang Yan put away his distractions and took a hot bath. At breakfast, the unit sent a courier overnight. Open the box and find that it is actually a small screen smartphone.

When the phone rang, Wang Yan heard Director Zhao's voice after picking up: "Xiao Yan, I heard that you have always been out of ordinary signals recently. I made a claim to get you a 'smart satellite communication phone' This is a national high-end scientific research institution, a smart

phone tailored for us. In addition to various applications that can meet daily needs, one of the biggest features is that all its signal transmission is through six dedicated satellite clusters around the world. Covering achieved. “

“Good thing, thank you Director Zhao.” Wang Yan also feels inconvenient for ordinary mobile phones, and he has to be equipped with a dedicated satellite phone when he leaves the ship. This thing rains in time.

“Don’t be too busy, the second feature is that it uses a rare element battery that will keep your phone on for 48 hours.” Director Zhao said with a smile, “I also asked the master to inscribe The energy rune can quickly convert electrical energy, thermal energy, and solar energy into battery energy, which greatly enhances the field endurance. “

“Come on, technology and mysterious runes.” Wang Yan said in amazement, “isn’t this baby cheap? Thank you, Director Zhao.”

“Don’t be too busy to say thanks. Many parts of this baby must be made by hand. The materials used are very sturdy and rare. The cost price is half a million.” Director Zhao said on the phone, one by one. The mobile phone case asked the rune master to engrave a power-up rune with a friendship price of 1.5 million. We will not make any money in the bureau. We will post your courier fee and count you two million. “

“What?” Wang Yan said in shock, “I have to collect money for a mobile phone in the bureau?”

“Xiao Yan, do you think you’re so stingy in the office?” Director Zhao sighed. “If it’s an ordinary smart phone, I will pay for you to buy a few. But this phone is so expensive. Would n’t it be enough to send one for each person? Besides, our superpowers can usually make money so much, why not buy a mobile phone for two million? “

Wang Yan was a little crying and laughing. What does it mean to pay two million to buy a mobile phone? This is going to be heard by others. I thought we were a neuropathy.

He was a little hesitant. Although the phone is good, two million is too expensive ...

“Xiao Yan, this mobile phone can withstand the water pressure of 300 meters deep and can be dropped from a height of 200 meters. It is very safe and durable. Think about it. If you are in a place with no signal, do you want to call the headquarters by thousands of miles. Rescue? No matter how

good the money is, it 's better to have a better life. If you really do n't want it, then let the courier return it, but I finally helped you get a trial machine. "Director Zhao 's voice sounded a little faint.

"Director Zhao, what are you talking about?" Wang Yan hurriedly said, "How come I don't like such a good mobile phone." In fact, it also makes sense to think about this level of baby on the body, the key moment But it can save lives. What's more, it failed to disappoint Director Zhao's good intentions.

"Then I just let the finance deduct it directly from your account." Director Zhao said, "Is it good for the discovery of the modification and the super-sniping?"

"Shun, very smooth." Wang Yan nodded seriously and said, "The modification found that the performance is very good, the horsepower is strong, the passability is strong, and it can also be bulletproof. As for the super sniper, it will be even cooler."

"This is the case, because your novice equipment has been identified as the" urban multi-functional combat vehicle "and the artifact warhammer, those two units are distributed to you free of charge." Director Zhao said with a smile, "Before Director Feng in advance It is for your use because you are just starting to take care of you ... "

"I see." Wang Yan said with a bit of tears, "It's like some free pit father games now, first to equip you with all kinds of cool, cool addicted and then start charging."

"Xiao Yan, there are also difficulties in the bureau, and Grandpa Feng must also come in accordance with national regulations." Director Zhao said helplessly, "The grandpa can take special care of you, but if the General Administration of Finance comes to check the accounts, there will always be an impact. Yes. Otherwise, you can return the bike and Warhammer to Curry. "

"Uh ... well, how much is the total cost of these two kinds of equipment?" Wang Yan thought, anyway, this time it was good luck. He completed a D-level task alone, and another B-level task is also the leading finisher. There should be a lot of income ...

"The conversion found that the cost price was 3.5 million, the super sniper rifle cost 6.5 million, and the bullet cost 10 million. The total cost is 10 million."

Director Zhao reported a series of appalling figures!

Wang Yan was shocked, is this too exaggerated? Especially the super-sniper, the cost price is 6.5 million ...

But then again, that super-sniper is really powerful. Targets below level B can hardly block a shot as long as they are hit.

Good things are good, but the price is really expensive, so painful. Wang Yan took a breath of air, and the three big things of guns, cars, and mobile phones combined amounted to 12 million.

“Okay, I owe it first.” Wang Yan was reluctant to let him hand it over. “After the task is settled, I will settle the bill with the unit.” With the money advanced from the unit, I owe the unit already. Eighteen million.

“Don’t worry about the checkout, your municipal party secretary Tian has negotiated an endorsement contract with the old man.” Director Zhao smiled, “The endorsement contract is for three years, the total price after tax is 30 million, and it is prepaid within a week Fifteen million dollars. The old man said, the rules are the rules, this contract will deduct you 10 million management fees. Xiao Yan, I really envy you, you can make a fortune by brushing your face. You can also increase income for the unit! “

Wang Yan was speechless, and Secretary Tian and Grandfather Feng were too exaggerated, so quickly negotiated a contract and sold themselves. Also deducting his own management fee, is this the rhythm of preparing to rely on the National African Bureau to the entertainment industry?

However, with the remaining 10 million prepayments, he owed only 8 million units. In his pocket, there are 10, hundreds of thousands of people left.

In this way, it is not necessary to rely on merit to exchange money, not to mention, the completion of those two tasks, the various benefits will not be too small.

Sure enough, Director Zhao began to talk about the task: “The old man said that you have been a critical period of cultivation recently, and you should be short of resources, so you settled both tasks overnight.”

“First talk about the catfish essence task, the task evaluation is D-level, the basic merit is 20 points. Originally, according to your completion, you should get an excellent evaluation, and then add 10 merit points. However, you are blackmailing the rescued. , There is a suspicion of discrediting the unit, which will greatly reduce your evaluation criteria. The old man gave a bad review, so you will

get 10 merit points for the catfish essence task. The repurchase price of the body of the catfish essence is one million. “

Wang Yan fainted, and blackmailing the rescued would result in a poor mission review? One by one leads to a gap of 20 merit points! But then again, even if there is a 20-point difference in merit, it will be two million if you change it to money, but it will increase your income by 10 million.

However, I have to pay attention to it later. This is only a D-level mission, and its merits are relatively low. If it is a B-level mission, it is very likely to outweigh the gains.

“Let’s talk about the lake ***** carp essence task again, the task evaluation is B level, and the basic merit is 500 points.” Director Zhao reported the number over the phone.

Before Wang Yan had finished listening, his heart swept. Sure enough, the B-level mission is different, the starting price is 500 merit points. This terrible number, if it is replaced with money, it is a full 50 million! ! !

At this point, Wang Yan’s heart became hot.

...

The Domestic Hero - Chapter 95

...

Moreover, this is only a basic evaluation.

If Master Feng can give an excellent evaluation, then this task alone is worth 750 merit points! You can exchange for more than twenty C + grade inner Dan.

But then, what Director Zhao Xiu Zhao made Wang Yan’s heart pop out.

“If you kill carp essence, this task is also a B-level evaluation.” Director Zhao Xiu said with a smile on the other end of the phone, “but you take the initiative to take a higher difficulty because you are

a good monster and you clearly distinguish right from wrong “Persuasion education” way to complete the task, the difficulty is far more than killing the target. Therefore, the task is automatically upgraded to B + level! The basic merit is 1000 points. “

Wang Yan felt that his head was about to explode, 1000 points! Compared to that badly rated D-level mission, there is a 100-fold gap.

God, he felt like he was flooded into the body with a happy warmth, and his tears fell off with excitement. It’s no wonder that Director Zhao and Master Feng will think that they are not poor now, and they will not give themselves credit for equipment.

With so many merits, what are you afraid of? The modified version of Land Rover found two, one for driving and one for viewing. Buy ten boxes of super sniper bullets and play with machine guns.

Sure enough, persuasion education was the right choice.

“Actually, you should upgrade the corresponding mission level in the game. This should be the case. If you choose to kill the carp essence, the inner dan and other loot you can get must be worth more than 50 million.” Director Zhao said with a smile. Encouraging good behaviors of some good monsters must be accompanied by corresponding incentives. As you might expect, this task is evaluated as excellent, and the merit value is increased by another 50%. The total merit value is 1500 points. “

Wang Yan suppressed the excitement in his heart: “Director Zhao, according to your estimate. If I kill it to get Nedan combat spoils, what will the old man say?”

“That’s a rare good monster that serves the country and the people. If you kill it, although you can also have 500 basic merit points for B-level tasks. But the father will definitely give you a bad review, and the total contribution value can only get 250 Three more points! “Director Zhao explained patiently.

really! Wang Yan couldn’t help but wave his fist, and the decision he made according to his heart was very correct. According to various sources, Li Hualong is a good monster, and he can’t bear to kill him.

Good intentions still have good rewards, if 1500 merit points. Even if the three participants are evenly distributed, they can get 500 points. This is an astronomical number.

Director Zhao did n't appease Wang Yan 's appetite, and quickly said: "The old man has discussed with Nan Lian and Lei Bang. Because in this task, you played a decisive role. So you will get 1,000 merits alone. They are B-level combat power, It also has an indelible effect, so each person gets 250 merit points. "

"Well, I got 1,000 points alone. Isn't it too much?" Although Wang Yan jumped excitedly, he asked a little timidly, "After all, Lei Hong and Sister Nan Lian are both B-level strongmen. Without them, my task will be difficult to complete. "

"That being said, but everyone agrees that you have a much greater effect in this task. Sometimes, the task does not necessarily need to fight." Director Zhao explained, "The role of the two of them is also only It 's limited to deterring each other, it 's not a decisive credit. The distribution plan of the old man is completely okay. And Nan Lian and Lei Hong also feel very reasonable and very happy. They have returned 250 merit points on a business trip.

Since it seems reasonable! Wang Yan removed the burden from his heart, and it was not enough. Unexpectedly, the task of carp essence was so rewarding.

1000 merit points, how many C + level inner pill essence can be exchanged! ?

"Director Zhao, besides the essence of Neidan, is there anything else in the bureau that can be exchanged?" Wang Yan thought of what Rabbit said that day, and the merit value is very useful.

And also heard what Paladin Ronnie said, the sacred space equipment. This name should be a storage bracelet, a tall treasure like a space ring.

Wang Yan really wants a space equipment. From now on, hammers, weapons like Super Sniper can be carried with you.

"Yes, merit points can be exchanged for many things." Director Zhao said, "In your new mobile phone, there is an APP app called 'I Love Unit'. The account number is your name, and the password is six ones. Redemption list. This APP is eligible for the official members of the National African Affairs Bureau to log in, but because you passed the assessment too quickly, the personal file has not been completely built, it will be delayed until today. "

“You don’t need to say too much. You are a young man. It’s very slippery to play with it. It will be studied slowly by myself.”

After Director Zhao hung up the phone.

Wang Yan first brewed a pot of tea for himself and cut some water. Then on the large terrace on the third floor of the villa, half lay in the pure wood Taishi chair. Drinking tea, enjoying the cool lake wind blowing on your body, breathing pure and fresh air.

What catches your eyes is a vast expanse of clear lake water, the sound of the waves, the dive birds and birds, which make people’s state of mind open and distant, quiet and comfortable.

Little Ferret was lying on his back comfortably, his head resting on Wang Yan’s belly. The fluffy tail rests on the abdomen, the fluffy short Erlang legs are curled up, and small sunglasses are placed on the eyes. Then the small paw pointed at the fruit tray lazily.

“Uh ... you tired lazy, which looks like a pet, more and more like the landlord.” Wang Yan angrily picked up a grape and stuffed it in his mouth.

“Awwwww.” Little Ferret was unmoved and ashamed and ate very happily. He also spit out the peel and core in Wang Yan’s palm.

“BIU!”

The next second, the little ferret flew out like a shell. “Boom” fell into a lake hundreds of meters away. It took more than ten seconds for it to get out of the water, a head of waterweed was on his head, a water column spouted out of his mouth, and his white hair was wet and tangled into a strand.

“Squeak ~” One of his paws was holding his sunglasses. One of the paws grabbed a lively meal fish sometime and cried angrily in protest.

Wang Yan could n’t even bother to hear it or not, and took a sip of tea slowly with Erlang’s legs, letting the bitter taste permeate in his mouth, and tasting the lingering energy. Then click on the APP “I Love Unit” that Director Zhao said. After logging in, I changed the password first and added triple physiological verification of iris, fingerprint and voice.

Only at least two of them can be verified to log in to this APP.

After entering the APP homepage, Wang Yan first opened the personal center.

The front is some basic information such as name, age, gender and so on. Behind, however, there are information such as the current combat power rating C level, administrative level, and other subjects.

There is a task resume, you can check some tasks you have done in the past, as well as leadership evaluation, teammate evaluation and so on.

Take Wang Yan's first task in his life, the "Poacher Task". Leadership evaluation is that the task is excellent. Please continue to work hard. The teammates commented on Guan Nuofa, "Pig! Pig! Pig!" Although she was abusive, she still made an excellent score.

There is also a small reminder below the comment: "The teammate has already evaluated you, you can make a corresponding correct evaluation of the teammate through this link. Please note that your evaluation will affect the teammate's character value and character value. Too low will make it difficult to find teammates. "

This ... Wang Yan is a little sweaty, why is our country's up-and-coming state unit, how to make an APP and online games, e-commerce and the like?

Who came up with the idea? It's really not serious!

...

"Ah!"

In a famous shop, Cao Cannon wearing a vest, shaking Pu Fan and nibbling at the watermelon sneezes heavily. Angrily rubbed his nose and said: "Which guy is vomiting me in the back?"

After a pause, he said to himself sadly, "My apprentice is really unconscionable. I have gone back to see my parents for so many days on vacation, and I don't know if I want to visit and visit Master.

Sister Zhou's sister-in-law, come to make soy sauce? Come, come here, I have entered a new type of soy sauce of 1992, and you are satisfied. "

Then all kinds of attentive hospitality with eyebrows and smiles, the apprentices have been thrown out of Jiu Xiaoyun.

...

The Domestic Hero - Chapter 96

...

"The teammates are very cooperative in accomplishing the task, and their character is trustworthy." Wang Yan made a positive evaluation of Guan Nuo. Somehow, he felt that he missed Guan Nuo a little bit.

Somewhat strange, why would she miss her? Is it because the pair of bouncing bouncing, beautiful and cute little white rabbits? Well, it looks wrong, as if the girl owes herself an alien notebook.

Therefore, Wang Yan added a message as a matter of course: "Don't forget the notebook where your pig teammates died."

Then he glanced at some other tasks. Although the messages among his teammates were ridiculous, the evaluation was quite positive. In response, Wang Yan responded to the comments one by one.

Later, Wang Yancha looked at the merit value again.

"Your Honor Wang Yan received a total of 1110 points of merit, a cumulative cost of 90 points, and the remaining merit points are now 1020 points."

At 1020 points of merit, Wang Yan's heart and blood surged, excited. Even if it is the most foolish to convert all to cash, it can be more than 100 million yuan. The little money owed to the unit is nothing.

Of course, Wang Yan is not really stupid enough to exchange cash for cash with merit. Even if you are short of money, you'd rather first convert it into a sought-after item. For example, the essence of Nedan ...

So Wang Yan looked forward to the exchange list.

“According to your evaluation level and administrative level, you get the corresponding exchange authority.” Then a row of material exchange lists are displayed.

“D-class inner pill essence, each with 3 merit points.” “C + level inner pill essence, each point has 30 merit points.” “B-level inner essence, 150 points merit each.”

“Hiss!” Wang Yan took a breath of air! The excitement of the past dissipated the Thai half, although it had been expected, but when I saw the high price of the B-grade Nedan essence, I still couldn't help but heart pumping.

There are a lot of 1020 merit points on hand, but it is enough to exchange six B-level inner pill essence. Wang Yan pressed his heartbeat and continued to look down.

“Essence of B + level inner pill, 300 merit points each.” This price is really horrible!

This is the highest level of inner Dan essence that Wang Yan can exchange. It is estimated that there will be A level, but Wang Yan has insufficient viewing rights. And what is more pitfall is that the exchange authority is also related to the administrative level.

For example, the essence of the B-level inner pill, Wang Yan's strength evaluation level C, can be viewed by Wang Yan. But if you want to redeem it, you must reach the administrative level of the division.

If he wants to upgrade to the current level, he must first use 20 points to get to the deputy level, and then use 100 points to get to the level.

“Who is this exchange system set up? How is it similar to those of the third-party online games that are squandering money on the market? Wang Yan couldn't help but shout.

...

“Ah, ah.” Cao Dagong started sneezing again in a famous shop, and his eyes were fierce: “Which **** is vomiting and I can’t stop vomiting, right? Let’s not let people soak up ... Oh, Wife, are you home? Are you tired of shopping today? Come on, I’ll give you a beat! “

This speed of face-changing is comparable to that of Sichuan Opera.

...

Wang Yan took a deep breath, took a sip of tea, and ate a few pieces of fruit quietly. Looking at a material exchange list, I saw myself as ups and downs, and my blood was surging.

It seems that the cultivation of one’s mental state is far from enough.

Wang Yan skipped the essence of Nei Dan for the time being and consulted the materials that can be exchanged within other jurisdictions.

“Ballistic version of Ferrari 458, 70 points of merit each.” “Ballistic version of Bugatti Veyron, 450 points of merit each.” “Ballistic version of Land Rover found that 35 points of merit each.”

He saw his Land Rover found that the unit managed to collect 3.5 million yuan without receiving merit, and it was already taken care of. In theory, the merit value is 100,000, but the actual value is more than a cut. Because for many superpowers, making money is much easier than earning merit.

In addition, the units of these exchanged materials only recognize merit, not money.

It really makes sense to think about this. If a superpower starts a company and makes a few tens of billions of dollars, then what if he desperately exchanges various materials from his unit?

Wang Yan has studied this exchange mechanism, and the unit can also use merit points to recover these materials. However, according to different types of materials, the discounts for recycling are different.

For example, 10% off in the first year, 20% off in the second year, and so on. However, there is no discount for recycling such as the essence of Neidan.

Of course, if the vehicles and weapons were distributed free of charge when they first entered the game, the unit will not collect the merits.

These small details of exchange have been considered very rigorously, and many small loopholes have been blocked.

After Wang Yan saw the car, he checked the other cars. Suddenly my eyes were red because there were several categories marked on it. Water transportation, air transportation, amphibious transportation.

Great handwriting, really great handwriting!

Wang Yan was shocked. The merit points can be exchanged for ships, planes, and even amphibious tanks ...

Click on the water transportation category, from speedboats to yachts to warships. However, the warship that can be viewed is a small warship only over 50 meters long, equipped with only one main gun and two machine guns.

But even so, the small warship has 1500 merit points, and the administrative level can only be redeemed when it reaches the main hall level.

Wang Yan is really a bit ignorant. The means of our National African Bureau is so great that even warships can be exchanged. It is conceivable that, after own evaluation level and administrative level are higher, you may be able to exchange for large warships.

Think about it, if any guy in the classmates and friends circle dares to show off yachts and the like, how did we pull a warship in the past?

Which boy does n't like the warship artillery?

However, Wang Yan can only think about it now. The merits required by warships are so high that it is outrageous and requires a high administrative level. It is far from what you are now and you can afford it.

It is some modified yachts, you can consider it first when you have extra merits. For example, the 32-foot small yacht originally produced in Italy and converted by a domestic military unit. The exchange price is only 150 points, and the administrative level reaches the deputy office.

The color is pure white, the lines are smooth, and the appearance is very fashionable. Wang Yan recently played a speedboat fishing boat, and was quite coveted by this small yacht that can go offshore.

In addition to ships, there are also planes.

On the exchange list, there are civilian helicopters, small private jets, gunships, er, and Xiaolong fighter jets.

Fortunately, he is no stranger now, and he doesn't feel his heart pumping. The exchange price of Xiaolong is not too high, 600 merit points, but the administrative level also needs the main hall level. The armed helicopter is lower, and the exchange price is 200 points of merit, which requires the official hall level.

As for ordinary civilian helicopters, the price is very low, starting from thirty or fifty to one or two hundred points. At Wang Yan's current official level, you can redeem it.

Wang Yan hesitated whether to build a helipad beside his villa. Because from here to the unit, the straight-line distance is only two or three hundred kilometers.

A slightly better cruise speed for civilian helicopters can be reached in about an hour. It has been theoretically possible to live in Danghu and go to work in an exaggerated way.

However, if you think about it for a while, it's still a matter of time. Finally, luck bursts into a large amount of merit, which is justified to improve your strength. Although there is demand for helicopters, it is not hard enough.

Turning over the transportation and the like, Wang Yan checked the mysterious equipment category he was most concerned about. The ice bracelet of sister Nan Lian, and the thunder pistol used by Guan Nuo, also looked quite popular.

And Wang Yan is even more looking forward to the legendary space equipment. Wearing that one on your body will avoid the embarrassing situation of inserting a warhammer in your waist all day and carrying a large box.

His own weapons and equipment are too heavy and huge.

Sure enough, there are mysterious rune storage bracelets!

...

The Domestic Hero - Chapter 97

...

Wang Yan saw the picture, with an obsidian-like luster, a simple and elegant style, covered with dense mysterious mysterious runes. Looking at the introduction, the standard version of the low-end storage bracelet has a built-in space of 1m * 1m * 1m, totaling one cubic meter.

The exchange requirement is 500 merit points, and the administrative level requires being at the division level, and it is necessary to master the mental strength.

“His!” Wang Yan took a breath of air, is this too expensive? A broken bracelet is equivalent to 50 million yuan? Even before it was exchanged, Wang Yan felt distressed.

But think about it from another standpoint, expensive is expensive, but this thing is indeed worth the price! Think about it, if those billionaires are billionaires. Even if they spend 100 million yuan to buy this kind of storage bracelet, they will never be soft-handed.

Unfortunately, they cannot buy it. Even if it can be bought, there is a condition that requires a preliminary grasp of mental strength. So mysterious equipment is really not available to anyone.

Wang Yan has not tested his mental strength, but I believe there is no problem with a storage bracelet. The biggest problem is that the price of this thing is too high.

No wonder that even Sister Nanlian, Wuya Ange, and Lei Bang have no storage bracelets.

Moreover, Wang Yan is not very satisfied with its space specifications. The upright square space is indeed standard enough, but after being assembled, Wang Yan 's super-sniper is 3.73 meters long, and even after being disassembled and folded, it is two meters long and cannot be put in.

Fortunately, in addition to the standard type, the storage bracelet also has a variety of non-standard types, with different lengths, widths and heights. After flipping through several pages on the phone, Wang Yan found a storage bracelet that best meets his requirements. Its internal space is 0.5m * 0.5m * 4m, which is exactly one cubic meter.

In this way, you can put it in full without disassembling it, and take it out at any time to participate in the battle. And its internal space can also put down its own warhammer, super sniper bullets, and other small bits and pieces.

This storage bracelet is not just convenient for Wang Yan to carry equipment. Theoretically, it has indirectly improved the combat effectiveness and survivability.

Imagine that you don't have to carry a heavy hammer with you. It plays a decisive role in chasing and running away at critical moments.

So Wang Yan is a bit old, and this type of storage bracelet has a great effect on himself. But this price can't afford it.

Because he still wanted to buy more essence of Neidan to speed up the cultivation process and enter the field level as soon as possible.

Alas ~

Think about it, or because you are poor. In spite of this, he missed each other and was stretched.

At first, when I knew I had more than a thousand merit points, I was so excited that I could afford it all over the world. But when I really saw the exchange list of units, I knew how poor I was.

Quiet first! Don't spend money blindly!

Wang Yan temporarily closed the exchange list and smoked a cigarette to calm down. There are too many good things that units can get. Many things Wang Yan wants, but the merits are just that.

It must be arranged reasonably.

“Squeak ~”

It took a lot of effort for the little ferret to swim back and climbed down the drain to the large terrace on the third floor. This time it dare not be arrogant, know who is the head of the family. Shaking the drops of water on his body, he rubbed to Wang Yan’s side, helpfully knocking his back, pounding his legs, and feeding fruit.

Wang Yan was enjoying the fruit of the little ferret and decided to give up the blind exchange first. Enter the internal forum of the unit to see if there are any reasonable experience posts to learn.

Unexpectedly, as soon as I entered, I was shocked by the various posts on the screen of the main forum.

“The D-class mission near the coast of HS, the captain is a D-class strongman. Seek group E-level remote supporters, one D double E wait for one E, come and go!”

“D + level high-end missions near H Mountain, seek group D + level strong tank, no rookie below D + level, please cooperate!”

The following row of posts, “Is D + class amazing? Who didn’t get through it step by step?” “Brother asks to bring ~ I don’t pick things up, I just ask for insights, rubbing 1 merit.” “Upstairs, a bit Is the morale good? “” Since the ancient second floor, I’m stupid. “

“Heavy money for a D-class Nedan essence, some with a price mad M!”

There is another row of posts below: “Who now has the essence of Neidan sells money? More and more rare, non-renewable resources in the short term. Do you understand?” “I have one, because I urgently need 600,000 yuan to sell you.” I think the money is crazy, and the D-class inner pill essence is up to 350,000. “” The third floor, 350,000, I charge as much as you have. “

Wang Yan was surprised when he saw this post. Sure enough, under such scarce resources, money is really not a thing. The price of the essence of Neidan is rising. He also completely dispelled the idea of exchanging the essence of Neidan for sale.

I just checked the personal consultation, and after deducting the repurchase price of catfish essence, I still owed the unit 7 million. But those 7 million do n't have to worry about it. After the publicity film of Danghu Ancient Town is finished, Secretary Tian will call the remaining 15 million endorsement fees to the unit. After the payment, I still have 3 million left.

There are more than 10 million remaining in my bank card. Wang Yan decided to leave a million for parents to spend, and the rest will buy the essence of Neidan. Soon, Wang Yan posted a purchase post on an internal forum.

“Each 3.5 million! Take three C + grade inner pill essence, some crazy M.” The money is enough, because the little ferret still owes himself 1.2 million D grade inner pill money, then directly brush it from its card Too.

“Squeak ~” Little Ferret also salivated the essence of Neidan on the side, and encouraged Wang Yan to help it collect a little. It is not demanding, anything below C level.

Indeed, with its current behavior, even the D-level evaluation is still worse, it can only be regarded as E + level.

“400,000 received D-level inner pill essence, 700,000 received D + -level inner pill essence, some crazy M, unlimited number.”

Seeing that it was kicking its legs and knocking on its back, the trick was quite neat, and Wang Yan helped him to collect it.

Wang Yan is now a celebrity in the unit, and the unit forum has adopted a real-name system. So as soon as he spoke, he began to have various replies.

Most of them are for hooking up and making friends.

One of them is like this: “Brother Wang Yan, I have a D-class inner pill essence, and I saved two E-level tasks to redeem it. I originally wanted to use it myself. But my girlfriend asked to buy a house in my hometown. , It's still half a million ... can you use me to get the essence of 500,000? “

Wang Yan looked a bit stunned, a D-level essence with 3 merit points, and an E-level mission with 5 merit points. How frustrating did he have to perform in two E-level missions to get that kind of merit?

But Wang Yan still remembers that the minimum monthly salary of a unit is 20,000, which is theoretically not poor. This guy just wanted to kill an injustice and spend more money. Therefore, Wang Yan replied and said: "I have deep sympathy for your experience, but the market price cannot be chaotic, and the 400,000 one is not low."

Then he pretended to whine twice and decided to sell it to Wang Yan.

Then someone asked: "Brother Wang, see your information is a C-level evaluation, how can you still receive the D-level essence? This seems to have little effect on you?"

"It was collected for the little ferret at home." Wang Yan said indifferently.

"Boss Wang Yan, you, did you even feed your family pets with D-level and D + -level essence? I'll just go for it, it's too rich! Seeking **!"

"Brother Wang Yan. I'm a pretty girl with E + grade. I will sell cute and ask for adoption!"

"I will warm the bed, please be warm!"

"Please feed!"

A post aroused thousands of waves.

Wang Yan is speechless. The big money is our little ferret? However, Wang Yan saw a large number of E-level, E + -level superpowers concentrated on the forum.

I found myself already a master!

...

The Domestic Hero - Chapter 98

...

“Boss Wang, I heard that you are going to enter the film and television industry and make money by brushing your face. Can you piggyback your brother? I’ll just run with you.”

“Well, I don’t have that plan for the time being. I think it’s more reliable to make money by doing tasks.”

“Brother Wang Yan, you’re a real bull, you can eat with your face, you have to rely on talent.”

“I suggest that Brother Wang Yan can develop amphibiously. With his temperament and temperament, his popularity will definitely increase. One year, one hundred or two hundred million will be a joke, which is more cost-effective than doing tasks alone.”

“What is one hundred or two hundred million dollars? If our boss Wang enters the entertainment industry, he can easily take the position of the next brother. Looking back at a movie, it will be worth an A-level mission.”

“Fart, why don’t you say that Mr. Wang has found a rich woman **? Coaxing the rich woman to be happy, dumping one billion eight billion, what tasks do you do !?”

Wang Yan originally thought that everyone is a colleague. Being a bad person is too indifferent. At the beginning, he also communicated with them seriously, but the gang of second-hand goods became more and more outrageous, and they were too lazy to care about them.

It happened that Sun Wise, Secretary Sun called to find him. It is said that the film crew of the Danghu Ancient Town Promo Film has been found, let Wang Yan first familiarize himself with the lens, and strive to complete the shooting task within three days.

Wang Yan thinks about it, this list is 30 million. Although the unit was deducted 10 million management fees, but even so, it can be combined to more than 6 million a day.

This year, I really do have a good job by brushing my face to eat.

Wang Yan first found her mother, transferred a million cash to her card, and let her and her father take the time to buy a family car. The remaining money can add something to the family.

Then he took the little ferret and drove directly to the ancient town of Danghu, in order to prevent those female fans from recognizing and causing congestion. Wang Yan also wore sunglasses, masks and caps.

In a secluded high-end tea house, Wang Yan and Secretary Sun met and entered the elegant room on the second floor.

This teahouse looks like an old teahouse during the Ming and Qing Dynasties. The eaves window mullions and the coffee table and wooden chairs all seem to be old objects of some years, with a somewhat antique charm.

Porcelain antiques are placed on the old Bogu shelf, and rows of ancient books are displayed on the shelf. On the wooden wall are several pictures of mountains, rivers and waters, and ink paintings of the boat house of the farmyard.

A pretty girl wearing blue costumes is holding a sleeve of white lotus roots, holding copper tongs to add spices to the incense burner. In the copper-colored hollow furnace cover, there is a refreshing fragrance that makes people feel refreshed and calm when they smell it.

There is also a girl in red costume, her hair turned into a bun, and her pretty face is made up with light makeup. Sitting on the body leaning obliquely, holding a pipa, her jade fingers are light and smooth, and the notes like the spring of the mountain stream flow through the heart stream swiftly, accompanied by her ancient charm of Jiangnan folk minor, which is really amazing. It seems to have traveled back to ancient times.

“Brother Wang Yan, let me introduce to you, this is Zhou Zhiyi, the boss of Mengli Water Town Teahouse, and boss Zhou.” Sun Zhihui greeted Wang Yan when he sat down and said with a smile, “Boss Zhou is an overseas Chinese, and his ancestry is We are the Lakers. The Zhou family generations are fragrant, and the ancestral family has a Tanhualang family, two second-class jinshi backgrounds, and six fellow jinshi backgrounds. There are countless talent shows. He is also a Harvard doctor. “

Zhou Zhiyi looked like he was 40 or 50 years old. He was wearing a loose gown and glasses, and his face was square and fair. He really was very cultural.

Wang Yan was stunned and said politely: "Boss Zhou really has a family history and admires it."

"Brother Wang is really polite. Speaking of it, I still want to thank Brother Wang." Zhou Zhi came together and solemnly arched his hands.

"What's the situation with Boss Zhou?" Wang Yan also hurriedly stood up to support him, and said with a strange expression, "Boss Zhou, did we know before?"

"My brother Wang and I met for the first time." Zhou Zhiyi smiled, and then waved his hand, and the girls who played the lute and Tim Xiangcha all happily went out. Then he said politely, "Brother Wang may not know, what is the relationship between our big carp in the lake and our Zhou family?"

"This?" Wang Yan looked suspicious, and turned to look at Sun Wise. This is a state secret!

Sun Zhizhi comforted Wang Yan to sit down and helped him make a cup of tea and said: "Brother Wang, don't worry, listen to boss Zhou slowly tell you."

Wang Yanjing calmed down and took a sip of tea. Sure enough, it's a very good tea. The taste of the tea is clear and clear, with a hint of sweetness and bitterness. He doesn't understand tea, and he knows that this tea is not inferior.

"Brother Wang, you don't know. Since the Yuan Dynasty, the Lake God has a deep relationship with our Zhou family. I don't know how many times the Zhou family has lived under the care of the Lake God, and the family has been prospering ever since. "Zhou Zhiyi sighed and said," A few years after the outbreak of the Anti-Japanese War, the Japanese devils stared at our Zhou family, and they were all sheltered by the lake god. It was also after that time that our Zhou family was moved to the family. Overseas. The Zhou family stayed overseas for 70 years. "

It turned out that Wang Yan understood. Li Hualong, a common carp elder, said that he had been caressing her descendants ever since she was rescued by the lady from that big family.

Feelings Zhou is the descendant of that lady. This makes sense. Zhou Yi should have learned through some channels that he had put Li Hualong in the task, and he was very grateful to him.

“I grew up listening to the legend of the lake god. I have always sniffed at the legends of the lake **** and our Zhou family, thinking that it is just an ancestor superstition.” Zhou Zhiyi said, “I lived ninety years ago Before his death, his grandfather told me to return to his hometown and return to his hometown of Danghu Lake. The most important thing is to rediscover the Lord Lake God and worship him to thank the old man. I see that the motherland is also prosperous and I return to my hometown to invest And worked with the government to build this Danghu ancient town and wetland protection area. It was only in these years that I only listened to the legends of the lake gods, but disappeared. After a long time, I gradually forgot, and I thought that the lake gods were more It ’s just a legend created by ancestors. ”

Speaking of which, he shook his head mockingly, as if annoyed by his ignorance.

“It turns out that this ancient town and wetland protection area is the credit of boss Zhou.” Wang Yan said with little admiration. “This is a project of immense merit, conserving the environment, benefiting the people, and protecting traditional cultural properties.”

Wang Yan was right. Especially in that large area of wetland park protection area, the climate can be adjusted, the air and water quality can be purified, the habitat of wild animals and plants can be enriched, and the harmony between man and nature can be strengthened. This is a great thing that can make many people in the surrounding areas healthier and benefit for life and prolong life.

“This Danghu Lake is the ancestral home of our Zhou family, and our ancestors were born here for generations.” Zhou Zhiyi said with a smile, “Our Zhou family’s wealth also extends here, and it is also for our parents and fellow villagers. Of course. Brother Wang, I really have to thank and thank you. “

Wang Yan smiled and said, “That’s just my job, but boss Zhou you have to sign a confidentiality agreement.” Then, Wang Yan glanced at Sun Zhizhi.

“You have misunderstood me, brother.” Sun Zhizhi smiled and shook his head bitterly. “But it wasn’t me who leaked the information to boss Zhou. I’m a person in the system. How come I don’t understand the crime of leaking secrets?”

“Brother Wang, don’t get me wrong. In fact, Lord Lake God found me personally yesterday.” Zhou Zhiyi also helped to explain, “Master Lake God said that he was fooled by adultery and almost made a big mistake. Fortunately, Brother Wang, you didn’t take it for granted. He immediately arranged a legal identity for him. So I found Secretary Tian and wanted to inquire about the identity

of my younger brother to express my gratitude. As for the confidentiality agreement, I will definitely sign it. If it leaks out, I am willing to accept the sanctions of the law. “

Wang Yan's face looked better now, drinking tea and said, “Boss Zhou is too polite. Brother Li is very kind for the demon. I protect him, and it belongs to his job. But, Brother Sun, you don't mean to ask me Are you going to make a promotional video? “

Suddenly sweating in his back, Sun Zhizhi said with a sigh of relief: “Brother Wang, you don't know. Boss Zhou is the real gold payer for your endorsement fee. Originally, according to Secretary Tian's intention, a standing committee vote was necessary. Decide on how much money you are willing to pay. But after the boss Zhou came to the door last night and heard of the matter, he directly made an endorsement that the endorsement fee went from Guzhen Investment Company, and the asking price was directly 30 million cash. And the previous twelve Monthly total sales are used as a benchmark, and the increased income will be awarded to the younger brother by 5 points. “

This is how Wang Yan understood. Before that, he wondered how the efficiency of Secretary Tian could be so fast? Moreover, one give is 30 million! How can it be so refreshing, is it not even necessary for a meeting to study it?

It turns out that there is a big gold behind.

“Brother, don't underestimate those 5 points.” Sun Zhizhi saw that Wang Yan didn't respond, and reminded him, “The total turnover of the previous twelve months was 700 million. According to the previous estimate, at least 30% will be in the next year. Increase in revenue. However, due to your excellent publicity, the number of tourists is now exploding, and if the promotional film is offensive, the most conservative estimate in the next year can reach 2 billion revenue. Your 5 points are equal to 65 million dividends. . “

“There are so many dividends?” Wang Yan took a breath of air. Isn't this just waiting to collect the money? Then it was so exaggerated!

“This is the most conservative estimate.” Zhou Zhi smiled and helped Wang Yan tea. “If we manage properly, it may even reach 2.5 billion, 3 billion. I strive to let my brother pay a dividend of more than 100 million.”

Wang Yan stayed for five or six seconds before frowning and said, “Boss Zhou, I know you thank me. But if you give me money like this, I am very uneasy.”

“Send money?” Zhou Zhiyi said with surprise, “Why did you get this kind of misunderstanding? Brother Wang? It’s just that you sent me money. The reason why I want to thank you. Lord Hushen is one thing, the other On the one hand, it ’s because you are really my wealth boy. “

The Domestic Hero - Chapter 99

...

“After you came out, my name of Danghu Ancient Town has already resounded in China.” Zhou Zhiyi chuckled, “According to my big data analyst, under normal circumstances if you want to achieve the current reputation. At least. I have worked hard for ten years, gradually accumulated word of mouth, and the advertising cost billions! Brother, how much money have you earned me in just two days? Now I want to help you build a longevity brand and offer it respectfully. . “

Uh.....

Wang Yan used to think that the money was a bit embarrassing, but listening to him said that he felt at ease. Think about it, indeed, I have turned the words of Danghu Ancient Town into super hot search terms.

“Brother Wang, according to expert estimates, the income of Danghu Ancient Town alone can help our city’s GDP increase by at least an additional 2% next year.” Sun Zhizhi also said with excitement and emotion, “This is not yet This includes the intangible increase in investment opportunities, business opportunities, employment opportunities, etc. due to the sudden increase in the city ’s fame. All of us are occupying your light. There are even experts who believe that if this wave If the operation is good, our city’s GDP will increase by about 5% on the original growth rate. And this is a real, effective GDP without moisture. “

Wang Yan was a little crying and laughing, and he mentioned GDP growth with himself! Rendered by them in this way, this face of my own really became a god’s face. Relying on the face to greatly boost GDP growth and help the people improve their living standards.

“Oh, Secretary Tian really appreciates you.” Secretary Sun emphasized again, “I also appreciate you.”

He is not kidding, such a large and effective increase will definitely rank among the top county-level cities in the country. Secretary Tian, as the leader, will certainly receive the attention of the central government, but this is a political achievement that no one can obliterate.

“Well, let’s put the topic on the filming of the promotional video.” Wang Yan lit a cigarette and didn’t want to talk about the use of Yan value to brush GDP.

“This promo must be done, bigger and more exciting.” Zhou Zhiyi stated, “I have invited the most famous director team from Hollywood, and they will be able to reach our ancient town tomorrow. The momentum of this wave is extremely Rarely, we must burn another fire to expand the popularity of Danghu ancient town. “

This week, Zhiyi is really generous. Wang Yan could n’t help but be amazed by his courage. He invited those from Hollywood to come. The cost must be astronomical, and it ca n’t be done with money alone. It should be the use of relationships and human relations. .

Sure enough, any successful person in this world is not that simple. Whether Zhou Zhiyi is wise or decisive, he reflects his success.

For most of the next day, Wang Yan was very busy.

It is not that simple for ordinary people to quickly adapt to the sense of nature in front of the camera. Fortunately, Wang Yan is much more experienced than ever. With his own strength and strength, he easily adapted to the lens without any sense of restraint.

“Brother Wang Yan, do you really not consider signing a contract with me? I have seen countless newcomers, and your talent is definitely top-notch.” Banshee producer Zhao Qingtian personally commanded a camera team to help Wang Yan Create a tense shooting atmosphere and warm up the feeling.

While Wang Yan was taking a break, he ran around to hand over drinks, fanning his back, pleasing him.

“This ... President Zhao.” Wang Yan, wearing a peaked cap, said politely with a drink, “It’s not that I don’t think about it, but I’m too busy with my job. Your TV series is two or three months, I really don’t have it air.”

“But brother, Wu Xiuxin, the host of our crew, has already terminated the contract peacefully with us through the brokerage company.” Zhao Qingtian said pitifully, “At this point, where do you ask me to find the right man to replace? I The crew of the film’s hundred or so people can’t work, and every day people eat horse chews, and before long, my old Zhao will have to go bankrupt. Otherwise, I will raise the price for you again, one episode one million, a total of forty. You are 40 million. Brother, this is already the most popular first-line coffee price. “

“Zhao Zhao, I know your sincerity.” Wang Yan said helplessly, “This is really not a matter of money.”

Forty million! If you change to Wang Yan more than a month ago, you will definitely hear faint. But now, Rao is putting this huge sum in front of him. Despite the heartbeat, the impact is not too strong.

“Buzz!” Wang Yan’s inconspicuous appearance, but worth two million mobile phones rang lightly. When I picked it up, it was the “I Love Unit” app with an internal text message.

I swiped my finger and read the message. It was sent by a guy named “Shen Tu Tian Lu”: “I have six C + grade inner pill essence, the total price is 24 million yuan, can you accept it?”

Wang Yan’s heart moved, six? However, the average price is 4 million yuan per stick, and the price exceeds the benchmark price. However, in the current market, the essence of Neidan is a scarce resource, and some demand exceeds supply.

“Brother, is it slightly more expensive? 21 million yuan, I will accept it.” Wang Yan now has only more than 9 million cash in hand, but he is not afraid of lack of money. Three days later, as soon as the promotional film was finished, the follow-up funds were passed. So, he gave back a sentence.

“No, it’s a big deal. I’ll just go to auction, just wait a little more than half a month.” Shen Tu Tianlu quickly replied, “Since you’re not sincere, just forget it.”

Wang Yan opened his profile and found that he was not from the East China Branch. It came from the North China Branch, and he kept the rest of the information confidential.

“Isn’t you sincere?” Wang Yan replied casually, “The price of 4 million is usually someone who wants to break through the bottleneck before he gritted his teeth and killed him. If you pack six sales, even if you go to the auction If I sell my price at most, I have to deduct the handling fee. “

Wang Yan had never been to the auction, but he was just talking about it. This looks taller and is not easy to be fooled by others. Then the other party didn't return, and Wang Yan ignored it, and put the phone in his pocket. Buying and selling such things can't always be squeezed.

Zhao Qingtian waited patiently for Wang Yan to finish his message, and then he looked forward to saying: "Brother, in fact, we can shrink the shooting time. If you are willing to endure hardship, I can arrange to concentrate your drama on half a month. It was finished in 20 days. Many things can actually be produced by post-editing. Brother, just help my old Zhao, after all, Wu Xiuxin's withdrawal has a lot to do with you. "

Twenty days?

Wang Yan was a little emotional, and money was still a good thing. If you can earn 40 million in 20 days, it is a good opportunity. This money can be exchanged for many training resources.

In fact, he also understood that with his current C-level comprehensive evaluation, it would be a very long and far-reaching thing to want to earn 40 million worth of training resources by brushing tasks.

The Lake God's mission earned a lot of money, and that pure crush is a coincidence. It is almost impossible to reproduce this miracle again.

Anyway, I have already started to make money by brushing my face, so I do n't care if I brush one more time.

What's more, the cooperation between Lao Zhao and Wu Xiuxin was really disturbed by oneself, and it was somewhat responsible.

After thinking for a while, Wang Yan said: "So President Zhao, during my filming of the promotional film, you will find if there is a suitable actor. If you can find it, it would be better, and everyone will be happy. It's not good Let's sit down and talk about specific cooperation. "

"Brother, thank you very much." Zhao Qingtian said with a frown, "You, everything is up to you. I'll go back and let the director group sort out the scenes of the male lead and make various overall optimizations." In his view, asking Wang Yan to film "My Neighbor is a Banshee" for 40 million is

really an exaggeration. However, if he believes that Wang Yan will join him, he will definitely be able to double his profits with his current momentum.

And he also paid attention to it today. Although Wang Yan is a newcomer, he is particularly accustomed to the lens and naturally smooth. And Wang Yan's skill seems to be very good, many martial arts can save a lot of trouble.

A businessman is a businessman. How can it be possible to buy or sell at a loss?

At this moment, Wang Yan's mobile phone shook again, and it was still the guy named "Shen Tu Tian Lu". He did not know if he would not negotiate, or he was in a hurry to use the money: "One price, 22 million! If I can, I will immediately ship it to your East China Branch. After you receive the goods, you will pay me within an hour."

Although the price is slightly over budget, Wang Yan, who is about to make another big income, is too lazy to bother with him.

"Yes, you let our director of the East China Branch Zhao Xiu receive the goods. As long as he confirms the arrival, I will pay immediately." Wang Yan agreed to reply.

For Wang Yan now, the most important thing is not money, but actual training resources.

After dealing with this matter, Zhou Zhi, dressed in a gray silk costume, came over with a smile: "Brother Wang Yan, it is really hard for you. Take a rest today, I have prepared some simple meals in the Guanhu Zhiwei Building, just right I want to introduce an excellent niece to you. "

niece?

Wang Yan was stunned. This week, I know that I will not be full. I will do nothing. Looking behind him, he saw two beautiful girls standing behind Zhou Zhiyi in a beautiful way.

"Huh? It turned out to be them!" Wang Yan was a little strange.

The woman on the left wears a pair of tortoiseshell glasses on her nose with a pretty face, a white shirt with a bezel and a black tight skirt, slim waist and hips, and a pair of slender beautiful legs wrapped in flesh-colored stockings. Beyond the intellectual beauty, there is a fascinating charm.

On the right, she was very tall, wearing a blue-and-white flower-printed cheongsam. Long hair braided out a beautiful flower bun, curvy and graceful figure, a pair of lotus arm skin is white and tender, the skin of beautiful legs is looming at the split of the cheongsam. It shows the temperament of the classical and graceful goddess, and there are some women in the Jiangnan water town who are like a gentle and gentle water.

Shen Mengting, the Shen Group CEO, and her secretary Zeng Ling.

Wang Yan met them in the Shen Group building that time, but did not expect to happen to meet again in this ancient town hundreds of kilometers away.

“Wang Yan, hello.” Shen Mengting’s expression was indifferent, and he bowed a little.

“Handsome guy, I didn’t expect to see you in more than a week.” Zeng Ling looked at Wang Yan with a pair of winks, “You’re a goddess of danghu.”

“Mr. Shen, how are you, Secretary Zeng.” Wang Yan smiled politely, “What male gods are not male gods, but they are all touted blindly.”

“It can’t be touted, because of your body shape, it is indeed much stronger than that of Wu Xiuxin’s girly body.” Zeng Ling’s eyes contained a smile, and he looked at him up and down unscrupulously, “And at a young age, he is already Zheng Ke It’s no wonder that those big girls and little wives are so eager for you. “

“Hehe ...” Wang Yan couldn’t answer.

“Okay, Zeng Ling, you are not allowed to talk indiscriminately.” Shen Mengting handed a slightly serious look to stop, and turned to apologize to Wang Yan. “Sorry, our family Zeng Ling just likes to joke, I hope Commissioner Wang don’t mind. “

“It’s okay.” Wang Yan smiled. “I heard it. Miss Zeng Ling praised me.”

“Oh, you all know it, it would be better.” Zhou Zhiyi, who is quite Confucian and commercial, smiled, “Brother Wang Yan, our niece is a hero in the female middle school. Since inheriting his father’s career, his family business is not only Instead of declining because of this, it is getting stronger and stronger. Even our old guys admire her very much. “

“Uncle Zhou, you have won the prize. Your Zhou family is the leader of overseas Chinese businessmen, known as the Chinese Rothschild. The elite in the family are gathered and deep into all walks of life, and Uncle Zhou is the most outstanding contemporary Zhou family. Representative people. “Shen Mengting’s calm temperament, not indignant,” Meng Ting, as a junior, hopes to learn from Uncle Zhou. “

“Haha, Meng Ting, your touted, let your uncle Zhou’s legs flutter.” Zhou Zhiyi smiled heartily, “You and brother Wang Yan are the real young talents, in the future world-wide figures, inevitable There is a place for you. Let ’s go to the Zhiwei Building and taste the pollution-free lake. Brother Zhao will also come together. You can help him to audition. “

Zhao Qingtian said with a happy face: “Teacher Zhou, then I’m welcome.” Although he is a program producer, his net worth is also impressive. But it’s a far cry from Zhou Zhiyi, a mega-family in the Chinese business community.

A group of people walked along the old streets and alleys to Guanhu Zhiweilou. Bypassing several ancient stone arch bridges with turbulent water, walking along the bank of the lake where the willows lean, stepped on the wooden water corridor.

At the end of the tens of meters long water corridor, it is a pure wood structure tower building built on the lake. Those roof beams, cornices, and eaves are carved with all kinds of lifelike flying dragons, beasts, fish, birds, flowers and insects.

Outside the uppermost floor, there is a huge red-tail carp adorned with a pure wooden carving. The fish scale is vivid and the fish eyes are vivid, which is obviously a masterpiece of everyone.

“Boy, I’m afraid you don’t know something? This Guanhu Zhiwei Building was designed by Mr. Zhou personally.” Zhao Qingtian saw Wang Yan admiring it and took the initiative to pat the horse fart.

Wang Yan secretly praised it. Although Zhou Zhiyi is a giant businessman, he is still a merchant with a deep background. He designed this quaint lake tower so elegantly and elegantly that Juanxiu was magnificent.

“Welcome.” More than a dozen waitresses dressed in antique costumes greeted the guests with soft words. Although he doesn’t look like Shen Mengting, Zeng Ling is so dazzling, but it can be regarded as a little jade-like appearance.

Especially the foreman, who has a charming appearance and a charming figure, is only half as good as Zeng Linglai.

Boss Zhou treats guests naturally in the Honghu Hall with the best view and the best meaning on the top floor. Not only is the hall wide and luxuriously decorated, but it is also ingeniously combined with the natural environment.

Through the carved window frame, a ray of red sunset light shone through the hall, and the exquisite building design allowed the refreshing lake wind to penetrate the hall. The abundant oxygen, clean and humid air, and high-density negative ions make people feel comfortable and refreshed before enjoying the food.

And that endless sight, the surging lake of Jinbo, was so refreshing and refreshing, that within a few breaths, all the worries and worries were swept out of Jiu Xiaoyun.

A picture was hung on the antique wooden wall.

“Listen to the taste, drink the turbid wine half-bucket, why must Honghu why must be immortal.”

“The design of the Zhiwei Building is entirely from the hands of Uncle Zhou.” Shen Mengting said with a pleasant expression, “Uncle Zhou, you are worthy of being a talented student of the Harvard Architecture Department. It can express the Chinese traditional architecture so incisively and vividly. Absolutely full of splendiddness.

“Ashamed and ashamed, I just made a lot of things together and made them out.” Zhou Zhiyi smiled humbly. “Chinese traditional architecture is rich and majestic, and it can trace a half-claw. This life has been endlessly used. Just like my name, I know one thing, only one, not the other. “

Wang Yan was also impressed by Zhou Zhiyi. He was able to design and build this Guanhu Zhiwei Building. Even if he is not an architectural designer, he is at least a master.

This makes Wang Yan also slightly embarrassed. He is an overseas Chinese who has such a deep understanding of the traditional culture of China. As a native of China, I was either playing football or playing games with fox friends and dog friends in the four years of college, or I was in love with each other. As for learning, it seems to be a task, just finish it.

Are you the one who is really ashamed? Wang Yan also had some affection and admiration for Zhou Zhiyi.

“Mr. Zhou’s line is written with magnificent charm, strong bones, rich and thick fonts, and quite a face style.” Zhao Qingtian looked at the line and shook his head and shouted. “Listen to know the taste, drink turbid wine.” Half-bucket, why must Honghu be so immortal. ‘It’s really good, that is, the elegance of a literati, and the boldness of men and women from the rivers and lakes. I also see the merits and demerits of the world. “

“Oh, President Zhao has been praised, just graffiti.” Zhou Zhiyi said with a smile, “You guys touted it again, you can’t eat this dinner anymore. Come and come, sit and sit. Brother Wang Yan, What are you doing sitting beside me as an old man? He looks so handsome, he should spend more time with the beauty. “

“Squeak!”

After listening for a long time, the little ferret was unhappy. An ***** first occupies a seat, what kind of ancient rhythm architecture, what kind of poetry of Yan style. The sister wants to eat fish, the sister wants to eat meat.

“Xiao Xue, no naughty.” Wang Yan blushed and picked it up and hugged him in his arms. “Everyone forgive me, forgive me. My little ferret is spoiled at home, it’s too noisy.”

“How could it be? This little ferret is pure and flawless, the skin color is oily and smooth, and the cry is soft and the eyes are moving.” Zhou Zhiyi said with a smile, “It’s really a beautiful and cute little guy, very flattering.”

“Squeak ~” Little Ferret threw a wink at him, the old guy still had some eyes. Xiao Xue is so beautiful, of course, cute.

Everyone laughed and then sat down one after another. Under the stirring of Zeng Ling, Wang Yan and Shen Mengting sat next to each other. In this regard, Wang Yan didn't have any objection. Everyone had a meal. What does it matter who sits next to someone?

What's more, Shen Mengting is also a woman with temperament, appearance, and family skills, and is top-notch. Sitting on the edge is also very pleasing.

As soon as everyone sat down, the dishes prepared with various fresh ingredients came up one after another. Cold dishes are brine boiled shrimp, oil-boiled small fish, fresh pickled drunk fish, boiled edamame, freshly fried snails, tofu with green onions, assorted braised pork and so on.

It's not a big dish, but it's obviously made with carefully selected ingredients. For example, the brine boiled shrimp was originally the most popular dish on the lakeside. The shrimp is only big and tender, and it is boiled in brine to retain the most original taste. The prawns are smooth and firm, with a sweet and sweet taste.

The oil-boiled small fish is also a specialty of Jiangnan's hometown of fish and rice. The fish is crisp and the sauce is sweet. Bite down bit by bit, mouth full of delicious.

At first, the little ferret dismissed this kind of kitten fish, but after eating one, he couldn't stop talking anymore and ate one by one. He also lost his eyes on Wang Yan, which was better than you had to grill fish.

Wang Yan fainted. The mouth of the snack was getting more and more tricky. How can I support it in the future?

After eating a few dishes, Zhou Zhi started to persuade him. The wine from his expensive big boss is certainly not bad.

It was a large jar of rice wine, and it was not a commercially available rice wine. The jar was very old, and there was some mud in the rough gaps that was not cleaned. The mouth of the jar was also sealed with yellow mud covered with crushed straw.

South Jiangsu and North Zhejiang all have the tradition of wine storage and storage, and the daughter of Shaoxing's daughter Hong Zhuangyuanhong is not alone.

“Brother Wang Yan guessed, how old has this wine been?” Zhou Zhiyi personally used a small hammer to carefully beat the dry yellow mud along the side, and asked proudly.

When Wang Yan just wanted to say that his daughter Hong was about 18 years old, she suddenly thought of something and said with a surprised expression: “Mr. Zhou, has this wine been seven or eighty years old?”

“Oh, brother, you really know the goods.” Zhou Zhiyi lamented, “This is the wine that our Zhou family buried under the old house, because it was buried very deep, and it was not taken away, it was lucky. Mengting niece, Wang Yan Brother, no matter who you marry in the future, I will send you two altars. “

Shen Mengting heard a pretty face slightly red on the side, secretly glanced at Wang Yan, and whispered, “Thank you Uncle Zhou.”

Wang Yan was also fainted. When Teacher Zhou said about getting married, what did you do?
